seen down on Patten's head, killing him instantly. Deceased leaves three sons and one daughter.

DEATH IN VIRGINIA.—The death occurred at Charlottesville, Virginia, on Saturday, of Alfred Holden, brother of Dr. Holden, of St. John's. Deceased was the youngest son of Mr. John Holden. He was engaged with Messrs. R. A. & J. Stewart on the Miramichi, but about twelve years ago went to Virginia and took up farming. About a year ago he contracted a grippe and never recovered. His father and mother were in his care in Virginia. He was unmarried.

A BOY TAKEN TO THE QUEBEC TRAIL, on Wednesday last week, had in tow four stacks of Pacific pine three feet square and seventy feet long. They were cut out of the forest and largest trees in the world, and are worth \$1,300 each. This tow left Quebec more a month ago, the stacks having been brought across the continent. The tug had a crew of twelve French Canadians, is bound to Philadelphia and put into Portland for coal.

KILLED BY LIGHT.—William Glenerson, son of the late Robert Glenerson of Main river, Kent, was accidentally killed at Lynn, Mass., on Saturday 14th inst. He was in charge of a delivery wagon and while going over a railway crossing he was struck by a train, death occurring in a few minutes. The cause of the accident was the negligence of the driver of the train. The remains were brought home for interment, which took place at Kingston cemetery last Wednesday afternoon, Rev. Wm. Hamilton, Presbyterian, conducting the services.

TRAY BURNER JAMES.—That two-headed calf which was dropped last spring at Pocomoke, as stated by the ADVANCE at the time, and was since exhibited at Chatham and in St. John, continues to both astonish and attract considerable attention. The calf lived only a few hours after its birth. Mr. Costigan has been offered nearly \$200 for his curiosity, but is waiting for a higher price.

PARSONS DRY SHIPPERS.—The delay at Pocomoke is closed, and although five or six million feet are held over, the total British ports exceeds that of last year by nearly a million feet. W. M. Mackay loaded 18 vessels of 25,000 tons with 21,000,000 feet of lumber, and Geo. McKean 15 vessels of 20,238 tons with 12,322,836 feet. The total was thus 43,315,246 feet.

Two barges went to Manchester, four to Toronto, and four to Montreal, on Monday evening last, presented with their cargoes of lumber, and were accompanied by a tug. The barges were loaded with lumber, and were accompanied by a tug. The barges were loaded with lumber, and were accompanied by a tug.

AN ATTRACTION TO BUYERS OF FAMILY PROVISIONS, dry goods and general household supplies is offered by Mr. Roger Fitzgibbon at his well known store on St. John Street, Chatham, in the form of silver knives and forks, silver spoons, silver cups and saucers, and other articles. He issues tickets which are presented by customers every time they make purchases, and no matter how small the amount, it is punched off and the purchase aggregated either \$15 or \$30, as the case may be, of the articles specified via a card stand, or a dozen of silver knives or forks for a \$20 ticket or a 10 lb. box of tea, or 1 doz. silver spoons or a 10 lb. box of rice.

CHINA WEDDING.—About fifty of Mr. and Mrs. William Johnston's friends gave them a genuine surprise last Friday evening when they visited their residence in a body with the object of celebrating the 20th anniversary of their wedding. It was a well equipped party, provided with lots of refreshment as well as materials for a supper, music for dancing and a bonfire of good will and good spirits. It is needless to say that as soon as their hosts realized the intentions of the visitors they showed their appreciation of them by doing their part in promoting the festivities which followed. All present spent a most enjoyable time, and are looking forward with gay anticipations to the silver wedding of the same popular couple.

"PARKING."—The November issue of this excellent monthly discourse "The Breeding, Feeding and Handling of Beef Cattle," tells how to obtain a "Good Dairy Herd," and how to manage it. It is a most valuable work, and is well worth the price. It is published by the author, Mr. J. H. Lusk, at 100 West 14th Street, New York.

THE GOVERNMENT.—Senator Snowball, Senator McNeil, Hon. Peter Mitchell, and Hon. A. W. Gillies, are mentioned for the vacancy caused by the death of Gov. Thomas D. Gibson. The Government is expected to announce the appointment of a successor to Mr. Gibson.

MR. LAURENCE, SHERIFF, on notice, will hold a court at the Court House, Chatham, on Monday, Nov. 25th, at 10 o'clock, A.M. The court will be held at the Court House, Chatham, on Monday, Nov. 25th, at 10 o'clock, A.M.

off about five hundred dollars' worth of goods, including gloves, mitts, shirts, underwear and other goods. Younger's stock of these goods was pretty well cleaned out, and the robbers must have had a team to carry off the plunder.

The teachers of all the Town Schools are notified that the new Board of Trustees of the termination of their engagements and such of them as are to be continued will do so under new agreements, beginning with 1897. The Board has also decided to invite Philip Cox, Esq., M. A., to Chatham with a view of re-organizing the County Grammar School and placing educational matters in the town on an improved basis. Mr. Cox, it is understood, has signified his readiness to accept the Board's invitation.

Across the facilities, stimulate the circulation, purify the blood, with Ayer's Sarsaparilla. It is understood that a telegram has been sent from the Department of Marine and Fisheries to Mr. W. R. Deason, fishery officer for the district, recommending that a fine of \$200 be levied on him for having issued licenses until further instructions are received from the department. It is said the officer of the department is due to complain which have been made to the Department of Marine and Fisheries in the past being issued in violation of the regulations of the department, and also that he has shown favoritism in issuing licenses, giving some the best berths and to others, who were politically or personally not friendly, only berths on sand bars or areas where profitable catch fishing was not possible. Mr. Deason's side of the story has not yet been heard; and, therefore, comment would be unfair. The complaint made to the department, however, caused the sending of the telegram.

PRESENTATION AT MILLERTON. Miss Eliza M. Crocker of Millerton, who is attending the winter in Boston, was, on Monday evening last, presented with the following address, which is self-explanatory: DEAR MISS CROCKER, Nov. 23, 1896. To Miss Eliza M. Crocker.

THE MEMBERS OF THE CONGREGATION and choir of St. Peter's Church, Derby, have with deep regret your intention to leave our midst, and take your abode elsewhere. From your childhood we have known you to be a noble and amiable character, and particularly for your faithful service as a Sunday school teacher, and your untiring efforts to give to your young ones the best of our abiding friendship. We, therefore, with a broken heart, accept this farewell, and bid you adieu with our united wishes for your prosperity and happiness.

THAT a dear Saviour will sustain you with every sorrow in your hours of joy and sorrow and guide your footsteps in the paths of righteousness and peace. Signed on behalf of the congregation and choir of St. Peter's Church, Derby, E. L. McGRATH.

MISS CROCKER made a graceful and appreciative acknowledgment of the address.

FALRY, HUMPHREY & CO. With regard to the suspension of Messrs. Falry, Humphrey & Co., there have, of course, been rumors for some months past that things were not working out very well between the partners, and that, in any event, a dissolution was pending and changes would be made in the business and we believe that, as far back as August last, a deed of dissolution of partnership was drawn up, but for reasons which doubtless became apparent later on, was never executed. In consequence of the want of harmony between the two partners, however, the business, it was at length decided to call a meeting of the firm's creditors and place the facts before them. The first meeting was held on Friday, the 25th ult., at the office of the firm in Bank Street, and, after an examination of the firm's liabilities are chiefly limited to two London houses—Messrs. Messrs. Falry & Co., who are fully secured, and Messrs. A. Ruffs & Son, who are partly secured. There appear to be some contingent liabilities to banks abroad, which may or may not rest against the estate.—(London) Times, 25th Nov. 1896.

MYSTERY Mrs. Anderson. The Truro Herald says that Mrs. Anderson, the Dorchester woman who created so much talk up about her disappearance from home, is now in Truro, working as a domestic in a well known and respectable house. She was recognized at the house by a gentleman belonging to Dorchester.

IN CONNECTION with the woman's disappearance the St. John Record says for board of a city boarding house for board, saying she was going to stop but a short time. She was given a room, and seemed apparently contented. Since then she has disappeared, and the house has only been known to go out once, and that was through the post office. She has had but one caller and that a man who came frequently to see her and who it is supposed carried off her devoted interest as for her welfare. A few days ago, the woman gave birth to a child. She is a brunette and about thirty years of age.

THE WOMAN REFERRED to came to Chatham after she had disappeared in London, leaving a note on a wharf to the effect that she had destroyed herself. She visited a Chatham physician several times while here, manifesting a very strong partiality for prescriptions for gonorrhea, and leaving the place, no doubt, because they were not forthcoming with satisfactory readiness.

Worse than the Armonia Case. A Dalhousie despatch of Monday says:—"All efforts to get the American sailing vessel, now lying in the harbor, to sea have thus far proved futile, and she lies in imminent danger of destruction by the floating log. The logs are laden with lumber for Rio de Janeiro, South America, and were to have sailed a fortnight ago, but the crew refused to draw anchor, giving as their reason the unseaworthiness of the vessel, which lately had undergone repairs at Campbellton. The true reason, however, is known to be the unhealthy condition at Rio at this season of the year. A few of the crew managed to escape, while the balance were held to the ship. An amicable settlement with the men was impossible and a number of townsmen were engaged to load the vessel and draw her. The vessel would then be on the voyage, and refusal was mutiny. Through the intervention and threats of the sailors the townsmen at last refused to draw anchor. Owing to the fact that the vessel was not seaworthy, she was not allowed to leave, and was abandoned near Halifax, with the crew rescued. The vessel lies at anchor off Bonaville Rocks, and in great danger from the winds and drift floating logs. The vessel was brought to Chatham before Magistrate Smith in inebriated and was charged with disobedience and was

renewed to one month's imprisonment. The vessel will be taken to Sydney, N. S., as soon as safety, and an effort will be made to sail from there shortly.

Singular Cheating of Law Officers. A woman named Quirk was recently convicted of robbing the South Sea in Kincorrig, and at about the same time the robbers must have had a team to carry off the plunder.

THE SECOND FLOOR. The front portion of the second floor is devoted to carpets, window hangings and curtains, household drapery, wall paper and house decorating goods. In the extension will be the millinery room and ladies' millinery, and also a room for a complete gentleman's clothing department, with private fitting room.

THE THIRD FLOOR. The third floor will be devoted to light goods and several men headed by Mr. Fraser put into millinery—where they found and boarded the raft. Bragdon and Moore were practically unscathed and had to be lifted into the boat. Taylor heard the faint cries of the men. He was puzzled for a time to know what they meant, but eventually surmised the condition of the men, and ran to the whistle of his engine. This brought Donald Fraser and a number of men from the Aberdeen mill, and also a number of city drapers to the spot. A boat was got ready and several men headed by Mr. Fraser put into millinery—where they found and boarded the raft. Bragdon and Moore were practically unscathed and had to be lifted into the boat. Taylor heard the faint cries of the men. He was puzzled for a time to know what they meant, but eventually surmised the condition of the men, and ran to the whistle of his engine. This brought Donald Fraser and a number of men from the Aberdeen mill, and also a number of city drapers to the spot. This brought Donald Fraser and a number of men from the Aberdeen mill, and also a number of city drapers to the spot. A boat was got ready and several men headed by Mr. Fraser put into millinery—where they found and boarded the raft. Bragdon and Moore were practically unscathed and had to be lifted into the boat. Taylor heard the faint cries of the men. He was puzzled for a time to know what they meant, but eventually surmised the condition of the men, and ran to the whistle of his engine. This brought Donald Fraser and a number of men from the Aberdeen mill, and also a number of city drapers to the spot. DR. BUCKLE'S ADVENTURE.

"Buckle, sir—Dr. Buckle," he said, leaning over the back of the seat before me and grasping my hand.

I said to the man outside. For instance, over the mountains to the west, over the mountains to the west, over the mountains to the west.

self that they refused to contribute longer to the church. But, as Solomon says in Proverbs 5 and—
