RESTIGOUCHE PATRIOTIC FUND ASSESSMENT.

Amount Fixed at \$17,036.88, and Will be Assessed by the Municipality.

Restigouche will amount to \$17,036.88. At a meeting of the Government held at Fredericton last night the warrants for the amounts to be raised by the different municipalities for the Patriotic Fund was fixed and Restigouche's share is \$17,036.88. How this amount is to be raised will be left to the Municipal Council which meets Jan. 16th at Dalhousie. We understand that the Municipality will look after the entire amount needed for the county, and that the incorporated towns of Campbellton and Dalhousie will not be called upon to assess for this purpose.

NEW YEAR RESOLUTIONS
We trust that one of your New Year resolutions was that you will buy everything you need during 1917 from the local dealers. If they cannot supply you then buy goods from some city dealer, but give your own town the first chance. This applies to our merchants requiring printing as well as to all others. Many of our dealers forget that the local printing offices can do just as good work as most city offices, and very often save them some money. We can supply your printing of whatever class and will be glad to submit samples.

BUILDING ACTIVE DURING PAST YEAR.
Permits Issued to Value of Nearly \$80,000—1915 Only \$18,000.00

The year just closed has been an exceptionally good one in the building line in Campbellton. Thirty-two building permits in all were issued during the twelve months. Most of these were for residences, there being twenty-eight. These thirty-two permits represent an expenditure of nearly \$80,000, but as many of the values of residences were placed at ridiculously low figures, it is safe to say the total of buildings erected here during 1916 was well over the hundred thousand dollar mark.

The total number of permits issued in 1915 was thirteen, representing an expenditure of about \$18,000. Thus last year shows an increase of over four hundred per cent.

Many of the residences erected during the past year were to rent at from \$10 to \$20 per month, a class of houses much needed here, where prospective residents were forced to live elsewhere through the lack of housing facilities.

Those in a position to judge state that 1917 will be quite active in the building line.

KILLED BY TRAIN AT MATAFEDIA.
C.G.R. Operator Thibault Struck by Train and Expires in Thirty Minutes.

On Monday evening, about 5:30 P. M. G. R. operator Phisault Thibault at Matafedia was struck by second No. 738 while crossing the railway track almost opposite the depot. The train was in charge of Conductor Pinault with Wm. Fraser of this town at the throttle. The injured man was carried into the depot, where he died some thirty minutes after the accident. Coroner DeWolf of Paspebiac was notified, and an inquest held, the jury exonerating the railway from all blame. The remains of the unfortunate man were brought here on Tuesday night's morning by I. N. R. to Keldwick, where his father resides, for interment. Much sympathy was expressed for the deceased's family.

If you were told of a certain remedy for the treatment of coughs, colds and influenza, you would be inclined to smile. In an advertisement on small page, wouldn't you feel like giving it a trial?

Pepp is the answer!

Pepp is a little tablet, containing certain medicinal ingredients, which when placed upon the tongue, immediately turn into vapor, and are at once inhaled down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the bronchial tubes, the delicate walls of the air passages, and finally enter the system, relieving and healing the lungs. In a word, while no liquid or solid can get to the lungs and air passages, these Pepp tablets get there direct, and at once commence their work of healing.

FREE TRIAL Get out this article, write across it the name and date of this paper, and mail it (with the stamp) to Pepp Co., Toronto. A free trial packet will then be sent you. All druggists and stores sell Pepp, 50c. box.

CLARKE-McLEAN

BAKER & DEGRUCHY WIN IMPORTANT CASE

American Firm Claimed Fish was not According to Contract Quality.

Perse, Dec. 28.—Judgment was rendered on the 22nd, instant in the case of Baker & DeGruchy of Cape Cove against the Gorton, Few Fisheries of Gloucester, Mass.

The facts are as follows:—The firm of Baker & DeGruchy had entered into a contract with the firm of Gorton, Few Fisheries, represented by Mr. Sellev, by which Baker & DeGruchy sold a certain quantity of fish to the said Company. Several consignments of fish were shipped, and the Gorton, Few Fisheries Company took exception to a certain quantity of fish, claiming that the fish was not up to the standard, was not as per contract, a large quantity of it being of inferior quality, substandard, etc.

As a result, when the time came to settle, they retained the sum of \$2,000.00 off the contract price. The firm of Baker & DeGruchy entered action against the Gorton, Few Fisheries Company and retained the services of the Hon. John Hall Kelly, of New Carlisle. The Gorton, Few Fisheries Company was represented by Mr. W. A. E. Flynn of this town.

Hon. Mr. Kelly set up two reasons of defence against the claim of the Gorton, Few Fisheries Company. He pleaded first that according to the contract the fish was to be delivered on board of cars at Cape Cove and that as the Gorton, Few Fisheries Company accepted delivery of the said fish at that place the contract ended there, and the Gorton, Few Fisheries Company could not later on set up any claim for inferior quality. He pleaded as second means that the fish was according to contract as the only condition as to the quality of the fish at the time the contract was made was that it should be fish fit for the Brazilian market, and that the fish delivered was fit for the said market.

The Gorton, Few Fisheries Company pleaded that although the fish were on board cars at Cape Cove, that it was only examined by the Company when it arrived in Gloucester and was found to be inferior quality, not fit for the market for which it was intended, claiming that the fish contracted to be for the American market.

The Superior Court maintained the pretensions of the firm of Baker & DeGruchy, and rendered judgment in its favor for the full amount claimed. This case occupied the attention of the Court for many days here, a large number of witnesses being called and a special commission was appointed to take evidence in the United States.

NEW BRUNSWICK'S BIG GAME SEASON

Greatest in All History, So Far as Known by Chief Game Warden, A. E. O'Leary.

Frederickton, N. B., Dec. 30.—That New Brunswick's 1916 big game season was undoubtedly the greatest in the history of this province despite war and other conditions that would naturally tend to injure the hunting season, was the statement made by Chief Game Warden, A. E. O'Leary. Even without returns from Victoria and Restigouche counties, figures show that more moose were killed in New Brunswick last season than in 1915. The total number of moose, deer and caribou killed in the province was greater than in any of the three preceding years while the number of deer alone was greater than in any year in the history of the province.

Northumberland county led all others in the number of moose killed, 235, while Carleton county led in the number of deer brought down with 537.

In 1914 there were 4,205 moose, deer, caribou and bears killed. In 1915 there were 3,613; in 1914, 4,028, and in 1913, 4,673.

PARLIAMENT WILL MEET JANUARY 15TH.

Opened Earlier Than Expected Owing to Impending War Conference

Ottawa, Ont., Dec. 28.—The parliament of Canada will assemble three weeks from to-day, Thursday, January 13th. An extra of the Canada Gazette summoning the Senate and Commons for this date is being published. The session is opening earlier than was anticipated because of the impending war conference in London which Sir Robert Borden intends to attend. It will meet in the latter part of February.

FOUL PLAY SUSPECTED IN RIMOUSKI FIRE

Fourteen Year Old Girl Perished When Parents Home was Burned

Quebec, Que., Dec. 28.—Some time ago Lydia Ross, 14, perished at Rimouski, Quebec, in a fire that destroyed the home of her parents. Her father was found by the coroner's jury to have caused the blaze at night, by building too strong a fire in the kitchen stove, but an open verdict had been returned. To-day the inquest was re-opened at Rimouski, by order of the attorney general and it is said that foul play is suspected in connection with the fire.

PLAN TO MAKE DAYLIGHT SAVING GENERAL IN 1917.

Report Likely to Begin Some time in April Instead of in May

London, Dec. 28.—The Times to-day prints a forecast of the report of the committee which has investigated the results of last year's daylight saving. It says the evidence taken shows that opinion overwhelmingly favors making the plan general in 1917. There is almost a consensus among the interests which had the most difficulties because of the setting of the clocks ahead that they vanished in practice and that those that remained were far out-weighed by the advantages obtained. The Times says it is virtually certain that daylight saving plan will be renewed in 1917, but that it is likely to begin some time in April instead of May 21st.

TO USE MORE CANADIAN LUMBER FOR WAR PURPOSES

London, Dec. 28.—(Montreal Gazette Cable)—Canadian lumber merchants will be glad to learn the decision of the war office to make larger use of Canadian woods in future manufacture of articles required for war purposes. This agreement is the outcome of representations made by Sir George Perley, who put the lumbermen's case case strongly before the authorities, more especially as regards red and white pine. Specimen price and samples of pine have been submitted to the war office with the result that an inspector of equipment and supplies has furnished, for the merchants guidance, lists of sixty-eight articles in which the use of Canadian woods will be provided for in the specifications governing their manufacture.

LOOKED SUSPICIOUS.

As Widow Watts bent industriously over her washtub, she was treated to polite conversation by a male friend, who presently turned the conversation on matrimony, winding up with a proposal of marriage. "Are ye sure ye love me?" sighed the burton widow, pausing in her wringing. And the man vowed he did. For a few minutes there was a silence as the widow continued her labor. Then suddenly she raised her head and asked him, suspiciously. "You ain't lost yer job, 'ave yer?"

"Now, if I were only an ostrich," began the man at the breakfast table, as he picked up one of his wife's biscuits, "then—"

"Yes," interrupted the patient better-half, "then I might get a few feathers for that old hat I've worn for three winters."

BIG MUNITIONS CONTRACTS

COMING TO CANADA
New York is Surprised at Huge Size of Shell Order. Will Mean Speeding Up.

New York, Dec. 29. — British munition orders, amounting to hundreds of millions of dollars are being placed with Canadian manufacturers, according to the N. Y. Times, this morning, according to information obtained in banking quarters yesterday. It is said that within the last few days an order for shells larger than the biggest contract placed in this country last year had been lodged with the Montreal Locomotive Co. Ltd. An estimate on this order was between \$175,000,000 and \$200,000,000.

Steel manufacturers have known for several months that few more orders for completed shells would come to the United States, but it was not a matter of general knowledge that Canada was slated to take up a vast part of the work. News that Canada had developed facilities to handle a shell business which may amount to \$1,000,000,000 next year was surprising to many persons of the financial district, who recall that last year parts of a number of Canadian orders were subcontracted in this country.

Prominent bankers expressed the opinion that Canada can get all the funds she requires to finance her contracts in the New York market.

SHIGAWAKE

Our small town has kept snows all at home this while, but at this merry season we must wake. We had the pleasure to welcome home for the holidays Miss A. E. Allan with her friends Misses Millie Skene, Muriel Travers, Emma Vautier and Eliza Vautier.

We also enjoyed very much having our boys in khaki with us on short holidays. Pte. Wilfred Poitier, Pte. William Wylie and Joe Walker from the 244th Kitchener's Own Battalion, Montreal spent their vacation with their parents. They are very proud of their Battalion and anxious to go overseas.

We also welcome Pte. Will Smith and bride. Pte. Smith is with the 8th Royal Rifles, Quebec.

Pte. Earl McKenzie, Ptes. George and Clarence Smith were here for the Christmas season.

Christmas was enjoyed by all, the roads were good and driving was indulged in by many.

Pte. Earl McKenzie entertained a number of his friends at the home of his parents, Mr. and Mrs. James McKenzie recently. A very pleasant evening was spent by all, dancing being the amusement of the evening, and refreshments were served.

Mr. and Mrs. Jos. Hayes also entertained a number of young people for their son Almond.

It is expected Mr. Jacobson and Miss LeBrocq will open the school on the 2nd. They both spent their holidays at New Carlisle.

WHY THE CHIMES RANG

By Raymond & M. Alden

THERE was once in a far away country, where few people have ever traveled, a wonderful church. It stood on a high hill in the midst of a great city, and every Sunday, and on sacred days like Christmas, thousands of people climbed the hill to the church.

When you came to the building itself you found stone columns and dark passageways and a grand entrance leading to the main room of the church. This room was so long that one standing at the doorway could scarcely see the other end, where the choir and the minister sat near the altar.

At the farthest corner was the organ, which was so loud that when it began to play the people far off could hear it.

The strangest thing about the whole building was the wonderful chime of bells. There stood at one corner of the church a gray stone tower with a great bell hanging in it.

Now, all the wise people knew that at the top of the tower was a chime of Christmas bells. They had hung there ever since the church was finished and were the most beautiful bells in the world.

Some thought it was because a great musician had cast them and arranged them in their place, and others said it was because of the great height of the tower, reaching up to where the air was clear and pure, however this may be, no one who had heard the chimes denied that they were the sweetest in the world. Some

city, in a little village where nothing could be seen of the great church, save glimpses of the tower when the weather was fine, lived a boy named Pedro, and his little brother. They knew very little about the Christmas chimes, they had heard of the service in the church on Christmas eve and had a secret plan that they had often talked over when by themselves for going to the beautiful celebration.

"Nobody can guess, Little Brother," Pedro would say, "all the fine things there are to see and hear in the church, and I have even heard it said that the Christ child himself sometimes comes down to bless the meeting. What if we could see him?"

The day before Christmas it was bitterly cold and a few lonesome snow flakes were flying in the air and there was a hard white crust on the ground.

Sure enough, Pedro and Little Brother were able to slip quietly away early in the afternoon on their way to the celebration; and although the walking was hard in the frosty air, before nightfall they had trudged so far, hand in hand, that they saw the lights of the big city just ahead of them. Indeed they were about to enter one of the great gates in the wall that surrounded it, when they saw something dark on the snow near the path, and stepped aside to look at it.

It was a poor woman who had fallen just outside of the city, too sick and tired and cold to get in where she might have found shelter. The snow made a soft pillow for her and she turned her face toward him, so that he could rub some snow on it, but he soon sighed and said:

"It's no use, Little Brother, you will have to go on alone." "Alone?" cried Little Brother, "and you will not see the Christmas festival?" "No," said Pedro, and he could not help a little choking sound of disappointment in his throat. "See this poor woman, she will freeze to death if nobody cares for her. You can bring someone to help her when you come back, and I can keep her alive. You can easily find your way to the church, and you must see and hear everything twice, Little Brother, once for you and once for me. I am sure the Christ child must know how I would love to come and worship him, and, oh, if you get a chance, Little Brother, slip up to the altar without getting in anyone's way, and take this little silver piece of mine and lay it down for my offering when no one is looking. Don't forget the place where you left me, and hurry, now, so you won't be late."

He winked hard to keep back the tears as he heard the crunching footsteps of his brother sounding farther and farther away in the darkness.

It was also hard to lose the music and the splendor of the celebration that he had planned so long, to lose the chance of offering his silver piece that he had saved for the offering to the Christ child, and to spend the time inside in the lonesome snow outside the dreary walls. But it never occurred to him to forget the poor woman in the freezing cold.

The great church was truly a wonderful place that night. Every one said that it had never looked so bright and beautiful before. When the organ played and the thousands of people sang the hymns, the walls shook with the sound, and little Pedro, outside the walls of the city, felt the earth tremble all around him. At last came the procession to hear the offering to the altar, when great and rich men and women marched up to lay down their gifts to the Christ child. Some brought wonderful jewels, some baskets of gold so heavy that they could scarcely carry them down the aisle. A great writer laid down a book that he had been making for years, and last of all walked the king of the country, hoping to win for himself the chimes of the Christmas bells.

There was a great murmur through the church as the people saw the king take from his head the royal crown, all set with diamonds and other precious stones, and laid it gleaming on the altar as his offering to the Holy child. "Surely," said every one, "we shall hear the bells now, for nothing like this has ever been offered before."

And they all stood still to listen, but only the cold, cold wind was heard in the stone tower, and the people shook their heads some of them saying as they had done before, that they really never believed the story of the chimes, anyway.

For Lovers & Babies

DON'T LET YOUR SOLDIER LACK ZAM-BUK

Scores of men at the front have written home to friends and relations asking for Zam-Buk. They need it to apply to chapped hands, cold cracks, frost bites, chilblains, chafed sores, stiff joints, and other similar ailments incidental to trench life. These ailments, although not serious enough to unfit a man for duty, cause him endless pain and unnecessary suffering. Nothing stops pain like Zam-Buk; nothing draws out the soreness and heals so quickly.

For hands, sores and blisters after trench-digging, Zam-Buk is splendid, and applications of Zam-Buk to the feet before long marches will prevent the feet from becoming sore and blistered. The letters below illustrate the soldier's need and appreciation of Zam-Buk.

Private J. R. Smith of the "Princess Patricia's" writes: "Tell my friends, if they want to help me, to send Zam-Buk."

Sapper C. T. Webster, 2nd Field Coy. Canadian Engineers, writes: "You can have no idea how much we appreciate Zam-Buk out here. It's splendid for sores, cuts, bruises, sprains, etc."

Sheriff Smith McMillan, of the 2nd Argyll and Sutherland Highlanders, writes from France: "I have used Zam-Buk for 14 years in the British Army in South Africa, India and France, and have never found it equal. There is no fear of blood-poisoning from cuts or scratches if Zam-Buk is applied. The trouble is that Zam-Buk is too scarce out here—our friends should send us more of it."

This applies to you, so be sure to include a few boxes of Zam-Buk in your next parcel to the front! All druggists 50c. box, 3 for \$1.25, or direct from Zam-Buk Co., Toronto.

Laid His Crown on the Altar.

described them like angels sounding far up in the sky.

But the fact was that no one had heard them ring for years and years. There was an old man living not far from the church who said that his mother had spoken of hearing them when she was a little girl, and he was the only one who could say as much as that. They were Christmas chimes, you remember, and were meant to be played by men or on common occasions.

On Christmas eve all of the people in the city brought their offerings to the church to offer to the Christ child, and when the greatest and best offering was laid on the altar, there would come sounding through the music of the choir the voices of the Christmas chimes far up in the tower. Some said the wind-rang them and others that they were so high angels would set them swinging. But for many long years, as was said before, they had never been heard. The minister said that people had been growing less careful of their gifts for the Christ child, or gave them rather to make a display for their own honor than for love of him, so that no offering was brought good enough to deserve the music of the chimes. Still, every Christmas eve, the rich people of the city crowded to the altar, each one trying to give some better gift than anyone else, and the church was filled with those who thought that perhaps the wonderful bells would ring again.

But, although the music was sweet and the offerings were plenty, only the roar of the wind could be heard far up in the old stone tower.

MILITARY HONOURS.

It was indeed with pleasure that the citizens of Campbellton learned of the honour conferred upon a fellow citizen Lt. Col. A. E. G. McKenzie, commander of the 25th Battalion, (The Fighting 5th) who has been awarded the D. S. O. by the King.

That the honour was merited none who know Col. McKenzie can doubt. Always a man of military attainments, it was recognized from the start that if any of our boys made good he would be one.

WHAT THE NEW YEAR SHOULD MEAN TO YOU

It does not seem a very long time ago that we were talking about the coming of a new year, with its necessity for the balancing of all accounts, that we might learn just how we stood with regard to profits and losses of the twelve months that were about to be closed in the archives of life as ancient history. And now that that "new" year, too, has gone we are face to face with another New Year's day—face to face with the same old problems.

To many of us the year that has passed has been particularly pleasant. To some of us, in fact, it may have brought so many frustrated hopes, so many disappointments, that we are more than usually glad to bid it good-bye and may hail with joy the advent of a new and, as we fondly hope, a better opportunity. Yet, as a matter of fact, if we stop for a moment to look back over the twelve months that are now gone, there are but few of us who will not find that the old year has been a pretty good year after all.

GOOD RESOLUTIONS

I will try to be a lifter, not a leaver; an encourager, never a discourager; lighten and share other people's sorrows; start songs and rejoicings; not complainings; make the world a little sweeter place to live in; keep in mind the will of God; make sunshine in life's shady places; see the bright side of everything; be clean in mind and body, working patiently, industriously and honestly for a living; earning a spotless character, so that I can look up, not down, and meet death's coming with a fearless smile; endeavor not to run away from my weaknesses, but bravely fight them out; be glad of life; have hope and faith in everybody; try to live without hate, jealousy, temper and envy; avoid speaking critically and bitterly, repeating only the good I hear; love because I must, give because I cannot keep; doing for the joy of it; cheerful in disappointments, charitable towards the erring and fallen; protect helpless animals; do as I would be done by; smile more and frown less and do every day something beautiful, some kindness that will cheer and strengthen another.—E.K.

STANDARD POLICIES NEEDED

Recently a farmer had a barn destroyed by fire. The barn cost \$800 to build and contained besides other articles about fifteen tons of hay. The building was insured for \$400, but the insurance company refuses to pay. They sent their inspector to view the ashes and he reported that the extent of the damage was two hundred dollars. The insurance company took the money in payment of the insurance premium, yet this man had absolutely no protection. His property burns and he cannot collect a dollar.

In talking with a reputable lawyer in reference to this case he stated that many of the Fire Insurance policies had clauses inserted therein which in cases like the above allowed a loophole through which to evade payment, and unless the policy was a last-pipe and it was better not to go to law in such cases.

If such is the case, and we believe it is, is it not time that the government take the matter in hand and give us a remedy? Surely the common people are entitled to a little protection. In the past it has mainly been the insurance company which has been looked after in the way of special legislation.

We venture to say that very few persons who place fire insurance on their property ever read over the many clauses in fine type which decorate the back, but unfortunately form a part of said policy. These clauses are in such terms that even the lawyer said it would take him considerable time to study it thoroughly.

It should be a fairly easy matter for the government to form a policy embodying sufficient protection for the insurance company and also protect the insured.

With millions of Germans over-running Roumania and throttling Russia, and only a remnant of her army in France, the combined British and French forces ought to break through the German lines. If not why not? If they really are not able to do so the reason for their inability is not of a flattering nature to the British and French. The Germans dig a line of trenches across France, from Switzerland to the sea, place a garrison in charge, and then leave for Russia, Roumania or any other place where there's fighting to be done. We have too many khaki-clad men at home and in England and too few in a position to attack the German lines.—Chatham World.

The award of large munition contracts to Canadian manufacturers will involve a great speeding up of work throughout the Dominion and place on the worker, as well as on the contractor, a much heavier burden of responsibility. In awarding contracts in Canada instead of the United States, the Entente Powers escape financial obligations of a too exacting nature and spend their money with those who, besides sharing their sufferings, will invest their savings in war securities. Big war orders will prove of immense present financial benefit to Canada and should aid materially in developing industries which in times of peace will be important factors in gaining for Canada a share of the foreign markets the war will make available for Canadian enterprise and Canadian capital.

Francisco Villa, whom the United States troops were instructed to bring back "dead or alive," appears to be still somewhat alive. At the recent attack on Chihuahua city he is said to have led his forces on horseback with his crutch strapped over his shoulder. Evidently he is hard to kill.

A Canadian exchange says: "The development of the paper-making industry in Canada will be one of the marvels of the new decade. The proprietors of newspapers in the United States will be forced to protect themselves against the extortionate prices charged for news print by building mills in Canada on a co-operative."

WATCH NIGHT SERVICES.

Lt. Col. C. J. Macneil, Acting Chief of Staff for the Maritime Provinces, officially inspected the 12th Battalion last Wednesday, and the men of the Wireless Thursday afternoon and Friday. Quarters and equipment, administration and training were all under review. The men made a very good showing. The Battalion is ready for overseas.

REV. DR. SQUIRES WELL AGAIN.

SOLDIER'S ADDRESSES.

Will all those having relatives at the front kindly send their correct addresses to Mrs. Gallagher to be left at Gallagher's store or with Mrs. H. Miller at phone 13, as soon as possible as the Soldiers Comfort Association are revising their soldier address books for the New Year and would like as complete a list as possible.

ACKNOWLEDGE RECEIPT.

OF SOCKS. The following letter was received by Mrs. H. E. Mann in answer to an inquiry put into the socks as to whether soldiers received them or not. These socks were sent through the Soldier's Comfort Association and it speaks for itself.

France, Nov. 29th, 1916.

Mrs. H. E. Mann, Care Dr. Mann, Campbellton, N. B. Dear Mrs. Mann: Some short time ago my platoon received an issue of socks while in the trenches. Enclosed in one of my own pairs was a short note written by you. I must thank you very much and the Association with which you are connected for the excellent work which you are doing for the boys in France. I can certainly assure Mrs. Mann that the socks reach their destination and they are always very acceptable, either while we are in the trenches or in billets. At this time of the year a man's feet become wet very quickly and once that happens he feels continually miserable. A clean change of socks is one of the most welcome things that are obtained in the line. Again thanking you and wishing the Association every success, I am,

Yours truly,

L. Cpl. Donald, Glidden, No. 193414, B. E. F. France, 43rd Battalion, Canadians.

A small admission will be charged.

RECOVERED WATCH.

Daniel Currie recently had a valuable gold watch taken from his residence. This was a watch presented to Mr. Currie by relatives during a trip to the Isle of Arran, and consequently was much prized. A little boy, who did the chores about the house was suspected of taking it and when interviewed by Chief of Police Mann he admitted taking it, but became frightened and threw it in the snow. The spot was indicated and after a lengthy search the watch was found. On account of the age of the boy no steps were taken against him.

An Unhappy Inference—A student assistant, engaged in reading the shelves at the public library, was accosted by the primly dressed, middle-aged woman who said that she had finished reading the last of Laura Jean Libby's writings, and that she should like something just as good.

The young assistant, unable for the moment to think of Laura Jean Libby's equal, hastily scanned the shelf on which she was working and, choosing a book offered it to the applicant, saying, "Perhaps you would like this, 'A Kentucky Cardinal.'"

"No," was the reply, "I don't care for theological works."

"But," explained the kindly assistant, with needless enthusiasm this cardinal was a bird!"

"That would not recommend him to me," said the woman, as she moved away in search of a librarian who should be a better judge of character as well as of Laura Jean Libby's peers. —Harper's.

Run Down-Overworked? The Delicious Cod Liver and Iron Tonic Without Oil

Vinol Builds You Up & Makes You Strong

Better and Stronger in Every Way Vinol left me in a weakened, run-down condition. I took three bottles of Vinol and am better and stronger in every way than I have been for years. I gladly recommend Vinol to sufferers from Grippe who need strength. It is the best tonic for run-down condition that I know. (When given on request.) Vinol builds you up because it combines all the strengthening cod liver elements and tonic iron as well as strength-giving, run-down people, feeble children and delicate children. Easy to take. Children love it. Your money will be returned if you are not satisfied that Vinol helped you.

It is difficult to say who was best for all did well, but perhaps special mention might be made of the children who all by their performance of their several parts reflected much credit on those who trained them.

Little Eugene Gauthier with his clever acting gives promise of considerable talent in that line, and Raoul Cyr in his role of clown, was much appreciated.

The little girls in "Devinez" are also to be complimented on the manner in which they performed their part.

The leaders of the entertainment are to be congratulated on the successful result of their efforts.

Rosary Hill Home, Hawthorne, N. Y. "I have used Vinol for many run-down, weak or emaciated patients with benefit. One young woman was so weak and ill she could hardly creep to my door for aid. She Speaks English "Parlez vous anglais, m'selle?" "Oui, m'sien, un peu—Kess me quess—Do you love me—'old me tight—Dam"—London Opinion.

A Difference.—Hewitt—"Don't you think I stand a good chance of making a fortune out of that mine?" Jewett—"Out of it, yes. In it, no."

Flora—"It's young Benj."

Frances—"Why, I didn't know he had any bad habits."

Flora—"Well, his friends are saying that he has become quite miserly."—Puck.

Keeping up with Father.—It was a Pike County woman who indited a note ment of her young hopeful. The note ran thus:

"Dear Miss—: You rite me about whippin' army. I hereby give you permission to beat him up any time it is necessary to learn his lesson. He is just like his father—you have to learn him with a club. Pound nolegg into him. I want him to get it and don't pay no attention what his father says—~~W~~ handle him."

Gross Flattery.—"Does your wife ever pay you any compliments?" asked Frederick Jimson of his friend Benderley.

"Never," replied Benderley.

"Well, mine does; she flatters me."

"Often?"

"Oh, yes, frequently—particularly in winter," replied Frederick.

"Why does she flatter you so much in winter?"

"Whenever the coal-fire needs replenishing she points to the fireplace and says, 'Frederick, the grate.'"

"Tit-Bits.

In a certain town where two brothers are engaged in a flourishing retail coal business a series of revival meetings were held, and the elder brother of the firm was converted.

For weeks after his conversion the brother who had lately "got religion" endeavored to persuade the other to join the church. One day, when the elder brother was making another effort, he said: "Why can't you, Richard, join the church as I did?"

"It's all right for you to be a member of the church," replied Richard, "but if I join who's going to weigh the coal?"

LEATHER MARKET NOW ON THE TROGOGAN.

News of Break in Market Promises to Affect Price of Boots and Shoes Favorably.

St. John, N. N., Dec. 31.—Further declines in the leather market give the local dealers good reason to suspect that the market is temporarily broken. During the past two weeks hides have fallen four cents a pound, and half-skins selling last week for from 22 to 25 cents are now available for 30 cents. Hides have declined from 23 cents to 19 cents per pound.

AN INDUSTRY WITH BRIGHT PROSPECTS

We have always claimed that Canada is destined to be the pulp and paper manufacturing centre of the North American continent and eventually of the world. We have the last available pulp-wood supply on the continent, have abundant water power, have as competent paper makers and as good a supply of labor as is to be found anywhere, while our shipping facilities, our nearness to the United States markets, and our connection as part of the British Empire, with all that may mean in the way of preferential tariff undoubtedly spells prosperity for the pulp and paper industry.—Pulp and Paper Magazine for December.

Catarrrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrrhal deafness, and that is by a constitutional remedy. Catarrrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarrrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75 cents. J. J. CHENEY & CO., Toledo, O.

WHY A MERCHANT MUST ADVERTISE

There is no alternative, the modern merchant must advertise. It is just as necessary for him to buy some form of advertising as it is for him to buy merchandise—for one buys merchandise to sell and the quickest, the modern way to sell is to advertise. The profits depend upon volume and volume nowadays depends largely upon advertising.

The merchant who does not believe in the use of printer's ink has never advertised or has never advertised right. The failure to produce results is not chargeable against advertising, but rather against the manner in which it is done.

84 per cent. of the failure in recent years were among non-advertising merchants.

A merchant cannot hope to fight his way against any sort of competition unless he uses the sort of weapon his antagonist employs—or a better one. The modern method to bring down sales is advertising. It marks the advancement from the bow and arrow to the Winchester 44 stage.

The advertiser talks to the masses while the non-advertiser talks to the individual. While the non-advertiser is making friends with his neighbor, the advertiser has reached the pocket-book of the entire community.

SENDING MAIL TO SOLDIERS OVERSEAS

Official Information as to Addressing and Mailing Parcels and Letters.

Correspondents of soldiers with the Canadian Expeditionary Forces overseas are reminded that every letter, newspaper or parcel mailed to any such soldier must show: His regimental number; rank; name; squadron; battery; or company; battalion, regiment or other unit, staff appointment or department. The address must also include "Canadian Contingent, British Expeditionary Force, Army Post Office, London, England." It is important to remember also that the unnecessary mention of higher formations, such as brigades, divisions, is strictly forbidden and causes delay.

Each letter mailed in Canada must bear the additional one cent stamp for postage of two cents for each ounce or fraction thereof. The name and address of the sender should be shown on letters in order that the letters may be returned if undeliverable. The war tax must be paid on postal cards as well as on letters. The newspaper rate is one cent for each ounce or fraction thereof unless the addresses is known to be in the United Kingdom, in which case Canadian newspapers may be sent at the regular Canadian rate.

About Parcels.

All parcels for the troops overseas must be addressed in care of the Army Post Office, London, but the postal rates depend entirely upon the location of the soldiers for whom the parcels are intended.

The rate on parcels for soldiers known to be in the United Kingdom is 12 cent per pound or each fraction of a pound with a weight limit of 11 pounds.

Parcels for the Expeditionary Forces in France and Flanders are subject to these rates: For parcels up to 3 pounds 24 cents; for parcels weighing over 3 pounds, and not more than 7 pounds, 32 cents. The weight limit is 7 pounds.

Parcels for soldiers with the Mediterranean and Saloniki forces are subject to the following rates: 1 pound, 32 cents; 2 pounds, 40 cents; 3 pounds, 48 cents; 4 pounds, 56 cents; 5 pounds, 64 cents; 6 pounds, 72 cents; 7 pounds, 80 cents. The weight limit is 7 pounds.

Pack Them Well

It is absolutely necessary that all parcels for the soldiers be very carefully and securely packed. Thin cardboard boxes or thin wooden boxes should not be used nor is a single sheet of ordinary brown paper sufficient protection. Several folds of stout packing paper, strong wooden boxes or strong double cardboard boxes should be used. Boxes of corrugated cardboard are recommended. It is well to put an outer covering of strong linen, canvas, or calico about the parcel.

The address should be written in ink on the outer cover of each parcel preferably in two places. The contents of each parcel should also be stated on the cover and it is absolutely necessary that the name and address of the sender be clearly written in ink on the outer cover. If the name and address of the sender are not so written the parcel will be refused. Special care should be taken in packing and addressing parcels for men with the Mediterranean or Saloniki forces and no perishable articles may be put into such parcels.

INTERESTING LETTER FROM A DALHOUSIE BOY

The following letter which was received by Imelda Methot from her cousin, Pte. J. Frank Brown, who enlisted in the 62nd Detachment, St. John, N. B. shows that he is now in the 140th Battalion, England.

South Camp, Seaford, Sussex Co., England, December 11th, 1916.

Dear Cousin:

No doubt you will be somewhat surprised to hear of me being in England. Well, I got here at last. I enlisted in the 140th Battalion two days before it left Valcartier. We left there in the afternoon of Friday, September 22nd, sailed from Halifax on the Allan Liner Corsican, on September 27th and landed in Liverpool, England, about 5 o'clock a. m. on October 6th, after having been nine days on the water. We had a pleasant trip over. I was a little sick the first three days, but soon got over it. Five transports came over with us, and the cruiser "Rexborough" came all the way from Halifax. When we came along the Northern coast of Ireland, a squadron of torpedo boat destroyers came out to meet us and kept circling around us all the time. It was very pretty, we did not see any of the Fritz submarines, I guess they knew what would be good for their health if they came near us. I spent one month at Caesars Camp, then I was sent over to France with a draft, turned down, and sent back to Seaford. I was greatly disappointed, as I thought by going to France, I would have a chance to go in the trenches. It is pretty hard to go that far and be rejected. This is the seventh time I have enlisted, and still I am not accepted for active service. I did all in my power to do my bit, as I thought I had as much right to serve my country as any of the boys. I am now waiting for my transportation to Canada.

There is only one boy beside myself in the 140th Battalion, Sergt. Reg. Dean I had a letter from Armand LeCoeur of the 132nd Battalion. They are 60 miles from here. If I am in England for Xmas I expect to spend it with them. I suppose you heard of the 3 zeppelins being brought down off this coast. We saw them from here, first we saw the rays of about ten search lights, then we saw the zeppelins fall in flames. It was a pretty sight.

How is everything in the old home town. There must be lots of snow by this time. Give my regards to all my relatives and friends. Tell them to write as my time is short for writing. I shall close hoping to hear from you soon again.

I remain your cousin,
Pte. J. Frank Brown,
C. C. 140th Battalion,
R. C. R. & P. P. C. L. I Depot.

Shows Promise.—Friend—"What is your baby going to be when he grows up?"

Financier—"A blackmailer, I'm afraid."

Friend—"Impossible! What makes you think so?"

Financier—"We have to give him something every little while to keep him quiet."—Tit-Bits.

A young lady, who was a teacher, entered a car a short time ago and, as soon as she was seated, she spoke to a man sitting opposite. He did not seem to know her yet he politely bowed. She leaned over and said, in tones audible through the car: "Oh, pardon me; I took you for the father of two of my children."

She left the car at the next corner.

GIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD

Delicious "Fruit Laxative" can't harm tender little stomach, liver and bowels.

Look at the tongue, mother! If coated, your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad; has sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grown-ups.
