No 43 SAINT ANDREWS, N. B., WEDNESDAY, OCTOBER 23, 1850. [Vol. 17]

HEALTH where 'tis SOUGHT!

Holloway's Pills.

CURE OF A DISORDERED LIVER AND STOMACH, WHEN IN A MOST HOPELESS STATE.

Extract of a Letter from Mr. Matthew Harvey, of
Chapel Hill, Ayrshire, Scotland, dated the
15th of January, 1850.

Sir—Your valuable Pills have been the means
with God's blessing of restoring me to a state of
perfect health, and at a time when I thought I was
on the brink of the grave. I had consulted several
feminist doctors, who after doing what they could for
me, stated that they considered my case as hope-
less. I ought to say that I had been suffering from
a Liver and Stomach complaint of long standing
which during the last two years got so much worse
that every one considered my condition as hope-
less. I was at last induced to try a Box of your Pills,
which soon gave relief and by persevering in their
use for some weeks, together with rubbing night
and morning your Ointment over my chest and
stomach, and right side, I have by their means
been completely cured, and to the astonish-
ment of myself and every body who knows me.
(Signed) MATTHEW HARVEY.

CURE OF A CASE OF WEAKNESS AND DEBILITY, OF FOUR YEARS' STANDING.
Extract of a Letter from Mr. Smith, of No 5, Little
Thomas Street, Golden Square, Lambeth,
dated Dec. 12th, 1849.

To Professor Holloway.
Sir—I beg to inform you that for nearly five
years I hardly knew what it was to have a day's
health suffering from extreme weakness and debility
with constant nervous headaches, giddiness,
and sickness of the stomach together with a great
depression of spirits. I used to think that nothing
could benefit me as I had been to many medical
men some of whom after doing all that was in their
power informed me that they considered that I had
some spiritual complaint beyond the reach of cure,
together with a very disordered state of the stom-
ach and liver, making my case so complicated that
nothing could be done for me. One day being un-
usually ill and in a dejected state, I saw your Pills
advertised, and resolved to give them a trial, more
perhaps from curiosity than with a hope of being
cured, however I had been told by several of my
friends, and as I went on persevering in their use
for six months, when I am happy to say they
effected a perfect cure.
(Signed) WILLIAM SMITH.
(frequently called EDWARD.)

CURE OF ASTHMA, OF TWENTY YEARS' STANDING.

Extract of a Letter from Mr. J. K. Heydon, 78 King
Street, Sydney, dated 10th of November 1849.

To Professor Holloway.
Sir—I have the pleasure to inform you that
many extraordinary cures of Asthma have been
effected here by means of your Pills. One is that
of a Lady residing near the "Roxburgh," who
after having for twenty years been unable to
make the slightest exertion, suffering very
terribly from shortness of breath, coughing,
and spitting, she is now, to use her own
expression, able to run up to the top of the
mountain. Another case is that of Mr. James Far-
low, Hutchinson's Buildings, Clarence Street,
who was so dreadfully bad that he was confined
entirely to his bed-room for six months, prior
to his commencing with your Pills, and attended
regularly by his physician, who pronounced
him to be in a dying state, yet he, likewise, by
your knowledge, has been restored to perfect health
by the use of your Pills, and rubbing your Ointment
night and morning into his chest.

(Signed) J. K. HEYDON.

ASTONISHING CURE OF THE EARL OF ALDBOROUGH

By this Miraculous Medicine I after every other
means had failed!!!

A Copy of a Letter from the Earl of Aldborough
dated Villa Maestra, Leghorn, 21st Feb. 1850.

To Professor Holloway.
Sir—Various circumstances prevented the pos-
sibility of my thanking you before this time for
your politeness in sending me your Pills as you
did. I now take this opportunity of sending you
an order for the amount, and at the same time, to
add that your Pills have effected a cure of a
disorder in my Liver and Stomach, which all
the most eminent of the Faculty at home, and
all over the Continent had not been able to
effect; nay! not even the waters of Carlsbad and
Maribad. I wish to have another Box and a
Pot of Ointment in case any of my family should
ever require either.
I remain, with much respect,
Your most obliged and obedient servant.

(Signed) ALDBOROUGH.

TIME should not be lost in taking this Remedy

for any of the following diseases—

Ague Consumption Fits Rheumatism

Tumors Arthritis Debility Gout

Piles The Douleurtrax &c. &c.

These Medicines in England are sold at 1s. 1-2

2s 9d, 4s 6d 11s 2s, and 3s, each Box and Pot.

There is a considerable saving by taking the large

box.

Sold by all Vendors of Medicines through-

out New Brunswick, and by A. H. Thomp-

son, St. Stephen's Buildings & Dyer, Eastport,

and THOS. TURNER,

Of St. Andrews.

LETTER FROM CALIFORNIA.

We take the following extracts from our

correspondent's letter, dated—

Bidwell's Bar, Feather River,
California, August 12th 1850.

Ma Editor.—No doubt you have come to
the conclusion, ere this, that it was not my
intention to give you a description of the
Mines, as promised when I penned you a few
hundred lines for publication on my arrival at
San Francisco. Since my arrival in the
mines, my time has been limited, which, I
hope, will suffice for my apparent negligence.
On my arrival last September, I remained
four or five days about Town, for the purpose
of ascertaining where were the best diggings,
the means of getting to them, &c. And altho'
all varied as to the location, they all agreed
that access to them was difficult and danger-
ous, and the labour to obtain the ore painful
and severe. Notwithstanding, I was bound
to see the "Elephant," and accordingly I
in company with three of my fellow passen-
gers packed up our duds, and on the morning
of the 23d. Sept. started up the far-famed
"Sacramento," with the wash bowl on my
knee, for the mines on the north fork of the
American River. In ascending the river, I
found the climate quite different, and much
warmer than on the coast;—the days were
hot; but the nights were pleasant. I had a
view of various flourishing Towns on the
way. We passed the town of Sutterville,
four miles below Sacramento City. The mu-
sicians struck up Yankee Doodle which they
answered on shore by firing a Salute. On
the evening of the 26th we arrived at Sacra-
mento City, at that time comprising a few
Cloth Houses, and tents, promiscuously ar-
ranged. Here we remained but a short time;
being hurried to obtain a share of the glitter-
ing dust; and on the following morning we
packed our effects on a wagon, and started
for Horse-Shoe Bar, a distance of forty miles.
About sun down, having made about twenty-
five miles, we camped, and prepared supper.
After disposing of our frugal meal, wrapp-
ing in our blankets, we stretched our weary
bones on the ground, where we lay comfortably
till morning awoke us from our slumbers; when,
having breakfasted, we resumed the road in
good spirits, and towards evening came in
sight of the Golden Bar. We pitched our
tent among a host of others, and made prepa-
ration to try our luck, among the golden sand.
So the next day with our pans and mining
tools we went to work; but being then novices
at the business, we made not more than a
few cents, which we found, would not pay,
as it cost us each about two dollars daily to
live. So the next day I went to work for an
ad. miner at \$8.50 per day, and continued
working for two weeks at the end of which
time, he being unwell and bound for home, I
went in company with another purchased his claim
for \$200; and in the short space of three
weeks I cleared upwards of \$500. The rainy
weather setting in, in November, and delug-
ing out claim, we then made tracks for
Auburn, dry diggings, twelve miles up stream
and two miles from the river. On our ar-
rival here, we found but a poor show for dig-
ging, as all the places of any account were
taken up. Therefore we took to the river
diggings, where we cleared about seven dol-
lars per day for three weeks, when, learning
that would not pay in California, we again
quit Auburn, perfectly disheartened with the
mines and country. Getting desperate, how-
ever, we purchased a claim for \$150, which
yielded on an average about an ounce per
day. At times the rain would pour down in-
cessantly for weeks, which was a serious
obstacle in the way of making a "pile."
Those who took up their claims here early
in the fall have all pretty much made their
piles and started home, but I did not happen
to be one of those lucky ones. The gold in
these ravines is principally in lumps, several
having been found weighing from \$500 to
\$4000. In fact I have remarked that none
but drinking loafers and these extraordinary
lumps. They seem to stumble on them as it
were. Towards the last of February the wa-
ter in the ravines began to lessen, when it be-
hooved us to look after our summer diggings
on the river; and accordingly, we were about
making preparations to visit the middle fork,
when a doctor of physic, from New Orleans,
(an acquaintance of my partner) offered us a
handsome sum to take charge of a store he
intended keeping in Juba City, on Feather
River, sixty miles above Sacramento City.
Having accepted his offer we started for the
bay, to recruit for a time. After taken a
thorough view of the place, I stepped on board
the fine steamer Senator, and proceeded down
the river for San Francisco, a distance of one
hundred and fifty miles, the passage money
being only \$30, exclusive of meals, which are
two dollars each. Although we reached the
City, the pernicious habit of gambling is
here carried on to a great extent, and black-
legs of all colours and nations are on the
alert to seize the returned miners, who con-
gregate in the sinks of vice scattered about
the hard earned gold. I remained here a
week, viewing the fashions, when I stepped
on board the steamer El Dorado for Sacra-
mento City, where I arrived on the evening
of the following day. My employer having

chartered a schooner at San Francisco, to

transport some frame building, &c., to Juba

City, I remained here a few days for her ar-
rival, when I jumped on board for the latter

place. About the first of February, I was
suddenly afflicted with a swelling on the fore

finger of my left hand. A short time passed,
when I saw it was going to prove a serious

affair. I applied to doctors in San Francisco,
and they informed me I should have to get
the finger amputated. But I was determined
to hold on to it, if for nothing but for musical

purposes when I return. For three months
I was unable to work; and during that time
I paid out about \$1000 for doctors' services,
&c. My finger, I am sorry to say, is now

perfectly useless. I had been but a short
time at Juba City, when the would-be doctor

informed me that he had given up the notion
of keeping a store, not deeming it a profitable

business at that time. I thanked him for the
information, and as soon as my finger would

allow, removed to the mines, on the south
fork of this river. On reaching this section

I saw there was rather a hard chance: little
or no bank digging, as the mountains rise

abruptly from the water edge, almost the en-
tire length of the branch. Here I was in a
fix! What was I to do? for I had expected

to make money hand-over-fist during my sojourn
in this so-called golden land. Well, on
mature deliberation I came to the conclusion
to go on a tour otherwise "prospecting."

So, in a pleasant morning in April, I packed
my blanket and a little prog to sustain upon,
during my journey, on my shoulder, and arm-

ed with a good brace of pistols, I wound my
way for Foster's Bar, on the north fork of the
Juba. Here I found the chance no better, if

not worse. A majority of miners on the river
were lying on their oars, doing nothing,
owing to the height of the water. As luck

would have it, on my return to my old resi-
dence, I chanced to lose the trail; and, after
a fruitless scramble for several hours, the

conviction was forced upon me, that I was
alone in the lonely mountains, save only the
unwieldy tenants of the forest, ferocious wild

beasts, and Indians equally dangerous. For
three days and nights I lived on hard bread
and water, and very little of that. One morn-

ing, having partaken of my frugal meal, I
came across three wild Indians, armed with
their bows and arrows. One of the yellow

devils pointed an arrow towards me, when I
took my pistol and let fly. I assure you they
soon "vamosed the ranch," and troubled me

no more. Later they have killed several
Americans, while travelling through the
mountains. The miners are determined to

exterminate them, if they do not keep civil.
A good Colt's revolver sometime comes into
request; for any number of them will run

when they hear a few volleys. When I left
glorious Boston, I with many others thought
that the bed of the streams was golden sand,

and that the Bars were of the same metal,
unimagined by them. But we were com-
pletely sucked. From three to ten feet of
earth and rocks have to be thrown off the sur-

face, before the needful can be found, and the
patient miner has to dig at times in several
places before he can obtain any. In no part

of the world are the rights of property more
religiously respected than in the mines. If a
man has occasion to leave his claim for a few

days, by leaving his tools no one will think
of entering. But if there are no evidences of
possession left, any one may step in. The

culinary utensils of the miner comprise a
camp kettle, frying pan, and tin cup. The
kind of bread in general use among min-
ers "flapjacks"—a compound of flour, grease,

and water. Every man has to do his own
cooking and mending; therefore, I have im-
proved considerably in these branches since I

came to the country. On some parts of this
stream the mountains are so steep, that the
only plan to get down is by holding on to
rocks and branches; if these happen to give way,

away we go down hill, till a tree or rock will
be kind enough to fetch us up.

About three weeks ago, I with six others
visited one of these places, on the south fork
of the river, for the purpose of digging a race to turn the
river! We had a time of it going down.—

Having placed our effects on a drag, we made
a start, and got down a short distance, when
away went the drag with a rush! Here was
a rescue for a painter—bundles rolling, boxes

tumbling, and occasionally opening, and
scattering their contents all over the country.
I think some places in this country never

were designed by the Supreme Being for man
to tread upon. He may have intended it as
a part of the Infernal Regions; for those
who follow mining here ought to be exempt

from that place in after life for this Country
is Hell of itself. Many very many who
come to this country, in hopes of making a

fortune, will be greatly disappointed; for this
El Dorado is not what it is cracked up to be.
It is computed that from fifty to one

hundred thousand persons are now on the
plains bound here. I can tell they are dying
on the road by hundreds. A man must have
a strong constitution to endure mining a few

months. I have noticed on the trees traces
where these poor home-sick fellows have
written on their way to the Bay, to wit:—

California, Oh, California! would that we
had never sought thee! Land of fair promise,

but disappointed hopes! how drear! how

desolate!

I remember hearing a home-sick Colonial

gentleman get off the following out here;—
said he, "Put me in a sugar field, and I am

thar;—put me in a cotton plantation, and I
am thar;—and put me in a stream on the

Mississippi, and I am thar;—but put me in
the Gold Mines of California, and I am not thar!"

Since I came here I have stood it well so far;
for on my arrival I weighed 138 lbs.—I now
weigh 115 lbs. My friends will therefore

think that hardships agree with me. I can
assure them that it is my wish to get out of
the country as soon as possible, and if living

I expect to visit old St. Andrews early in the
spring, when I hope to have a good time of
it. My friends may think of coming out here

—but in truth I would recommend them to
stop at home for the chances to make money,
in my opinion, are too slim to guarantee the

undertaking. About twenty-five of my fel-
low passengers have had their bones laid in
the sterile soil of California! Poor fellows!

Many of them were hale, hearty young men,
in the prime of life, buoyant with hope and
spirits. They came out here, as we all did,
expecting to return wealthy. But it has pro-

ved to be their last journey; for they have all
gone to the bourne whence no traveller re-
turns.

I must now bring my too lengthy corres-
pondence to a close, hoping my numerous
friends will excuse the homely style in which

it is written. I have written it hurriedly, in
the mines, and in accordance with the man-
ner of speaking throughout this country.—

Sometimes, while taking a glance at Boston
and New York papers, I have cast my eyes
on pieces relating to New Brunswick; they

are read with pleasure; for,
Who that in a distant land has chanced to
read,

Never thrilled with pleasure at the name of
home."

I now intend remaining here a month or
so, as my claim pays me about \$8 per day.
When I am certain of doing better, I shall

leave; for I have found prospecting to be not
a very profitable business just now. My old
friend and partner, David Barry, from East-

port, has gone down to San Francisco. My
present partner is a gentleman from the same
place, named Simon Higgins. But it is now

time to go to digging; therefore, I must stop
short. Wishing you, Mr. Editor, and my
numerous friends throughout New-Brunswick

and elsewhere, many days of happiness,
and may New Brunswick be a prosperous
and thriving country, is the sincere wish of
one of her Sons, now in California, named

JOSEPH LOCKART.

EARTHLY GOOD PRECARIOUS.

The dew drop spangled on the thorn,

Can transient glories boast;

It glitters in the early dawn,

But ah, how soon 'tis lost.

The sweetly scented blushing rose,

So exquisitely fine;

In each new charm her tints disclose,

Be speaks a hand divine.

Yet fair as is this lovely flower,

It blooms but to decay;

To day it lives to grace the bower,

To-morrow fades away.

I see the rainbow's splendid arch,

Arrival of the Steamship

America.

The Royal Mail steamer America arrived at Halifax on Tuesday afternoon, the 15th inst., bringing Liverpool papers to the 5th inst. She had 101 passengers, 5 for Halifax.

The America spoke the Asia at 7 p. m., on the 5th off Holyhead, and on the 8th, at 10 a. m., lost 18, saw the American steamer Pacific.

A new invention by a Mr. Gordon, of Liverpool, by which he proposes to substitute iron for the wooden framing of vessels, is attracting attention in that city. Mr. G. has secured an American patent for his invention.

The most important feature of the news is the great movement in favour of the short route by the way of Galway, to connect with the United States by means of a Railway through these provinces to the Eastern extremity of Nova Scotia. The friends of Galway are fully alive to the importance of this Railway. The Directors of the Great Southern & Western Railway, are about laying a line of Telegraph between Dublin and Galway. The Government also appears to be very anxious in the matter, and have had surveys made on the capability of Galway, all of which will prove, most favourable to the success of the European and North American railway. The keel of a suitable steamer to run from that station has already been laid. The papers both in England and Ireland are full of the subject.

The "City of Glasgow" Steamer has been purchased for the Liverpool and Philadelphia line, and with another (the City of Philadelphia) now on the stocks, will form the nucleus of that enterprise.

It is stated that the Cunard new line of Screw Steamers will run between Glasgow and New York.

It is reported that the Government is about to construct a powerful Steam fleet to be employed on the coast of Africa, by which means it is proposed to keep up a regular monthly mail communication with the African coast, and also effectually to crush the slave traffic.

Parliament will meet on the 14th November, to be further prorogued.

It is said that the Bishop of Exeter has refused to accept testimonials signed by the Archbishop of Canterbury.

The cholera has appeared in a malignant form on board H. M. ship Bellerophon, 78, which is daily expected at Plymouth.

Mr. Blackie, of Glasgow, has, after nearly half a century's labour and thought, constructed a reaping machine, said to be so simple that any farm implement maker could reproduce it. The cost is about £30, and the expense of reaping by it about 1s per acre.

In Ireland the Tenant League are organizing in every town and parish. Out of Ireland, the general opinion is that the cumbersome machinery of the League will finally prove its destruction. The movement is, however, regarded by the Government with some apprehension.

Dispatches have been received from Sir John Ross, stating that on the 13th August, three Esquimaux were found upon the ice, who stated that in the winter of 1846 two ships were broken by the ice in the direction of Cape Dudley, and afterwards burnt by a fierce fire of natives;—that the ships in question were not whalers, and that the crews were made up of some of the white men; the part of the crews were drowned, the remainder were some time in huts apart from the natives that being in an exhausted state, they were afterwards killed by the natives with darts or arrows, the men having guns but no balls.

The paper from which this is copied, says there is good reason to believe the whole story is a gross misrepresentation, but their reasons are not stated.

Letters from St. Petersburg mention that a royal ordinance has been published, exempting coal and all kinds of clay intended for the manufacture of porcelain and earthenware from the payment of import duty.

A vessel belonging to Denmark, which has arrived in the London docks from Flensburg, has brought 45,843 salted sealskins. Previous to the alteration in the navigation laws these goods would not have been admissible.

A snuff box of a novel construction, and designed to supersede the necessity of using the finger in taking snuff, has been registered at Birmingham. The box is inverted, and upon being turned up, two small cups are found charged with the snuffing mixture, and ready to be applied to the nose.

The Church and State Gazette tells an anecdote of the Hon. Rev. Mr. Spencer, now "Father Ignatius."—Habituated in the garb of the Platonist Order, bareheaded and barefooted, he applied to a cabman in the Strand to carry him to Buckingham Palace, to see his sister Lady Littleton. The cabman, looking knowingly at the rev. gentleman, replied "No, no! poor fellow! What asylum have you made your escape from? and declined accepting his fare, though offered in advance.

FRANCE.—Thirty persons, accused of belonging to a Society having for its object the restoration of the House of Bourbon, have been declared guilty, and sentenced to six months imprisonment.

The French Government have authorised a Lottery of 7,000,000 francs to raise funds to send out 6,000 distressed individuals to California!!

It is said the President's message at the reopening of the Assembly will take strong ground in favour of a revision of the Constitution. Trade in Paris and throughout the Country continues very brisk.

IRELAND.

The vast estates of the Earl of Mountcashel, in the county of Antrim, are now in the market, and will be set up for sale in four divisions, on the 8th of November.

The encumbered estates Commissioners are about to place another large property in the market, consisting of the fine estates of Viscount Gort, situated in the most desirable part of the county of Galway.

The Dublin Evening Freeman, of Thursday, states that Henry G. Hughes, Esq., has been appointed Solicitor General, in the room of Mr. Hatchell. He is a Catholic, and holds a high position at the Chancery Bar.

Twenty-four petitions for the sales of estates have been lodged in the Encumbered Commission Court during the last week, including one from the trustees of the late Earl of Blessington, making a total of 1229.

The constituency of Cashel have requested Sir Timothy O'Brien to retire from Parliament as their representative, as they are convinced of his utter inefficiency and consequent ineligibility to represent them.

The Kilkenny Moderator, of Saturday, announces the particulars of the desperate affray between the police and a party of marauders, in which the former appear to have been the greatest sufferers. Of the constabulary engaged, two have been severely, and one, it is feared, fatally wounded in the encounter.

The Catholics and the Queen's College.—An important correspondence has taken place between Mr. J. R. Corballis, of Rossmount, and Archbishop Murray. Mr. Corballis's letter to the Archbishop is as follows:—

May I respectfully ask your Grace, as well for my own information as for that of some other Roman Catholics of your Diocese, who have sons either in Trinity College, or in course of preparation for it, or for the newly established Queen's College, how are we to understand the late Synodical Address on the subject of these Colleges? Are we thereby actually prohibited from sending our children to these Colleges? and if so, how far is such prohibition binding on us, in foro conscientie? To many of us it appears altogether inexplicable, that after petitioning, in the days of persecution, for admission into Trinity College—after being permitted with the tacit sanction of your Grace, and your eminent predecessors and colleagues in the Church of Ireland, for upward of half a century, to receive our education there; and seeing that one of the members of that very Synod, most distinguished for rank, is actually a graduate of the University, it does appear strange that in the year 1850, education in Trinity College, or even in any of the Colleges recently established on such a liberal footing as regards us, should be unequivocally condemned; and that, without one reason being assigned for this sudden change, or any provision being made for affording a suitable education to our children. I need not say that this subject is one of intense interest to the Roman Catholic gentry of your Grace's diocese, as well as to the Roman Catholic middle classes generally.

I therefore, my dear lord, take the liberty of entreating such answer from your Grace as I may make known to the numerous persons who have spoken to me upon it; and which, if it do not calm our apprehensions, at least may quit our future course of action on this all important point.

The following is the reply of the Archbishop:—

I have received your interesting letter, and I need not I hope assure you, that I participate fully in the deep anxiety which you so justly feel: but I must pray you not to press me to enter into details on this painful subject, to which you allude. I may, however, mention, that a petition, signed by thirteen Bishops, has, probably, ere this, reached Rome, supplicating our most Holy Father Pius IX., to reiterate his sanction to certain proposals or points yet undecided relative to the subject of academical education. To the decision to be given thereon, whatever it may be (though I still venture to hope that it may be favourable to the petitioners), those prelates will be found amongst the first to reverently submit; but in the meantime, I am now aware that there amongst them one who would wish to extend the provisions of the pontifical decrees already issued on that subject, beyond the strict letter of what the Holy See has prescribed.

Mr. Corballis is or was of the Government commissioners for national education. Although the prelatial reply to the layman's queries is, in all conscience, sufficiently guarded, still it leaves room for a faint hope that the Cullens and McHales may yet be balked in their laudable attempt to deprive the youth of Ireland of the benefits of an enlightened education.

INDIA.

The Overland India Mail arrived at Liverpool on the 4th, at noon. The general news by it is not important. Cotton in the export market handsome profit to the dealers. Large purchases have notwithstanding been made for the English market and there was a desire to secure tonnage at the present rate, say £2 15s. to £3. A report is afloat at Vienna, to the effect that Lord Palmerston is urging the King of Prussia to insist upon the Austrians laying down their arms, and that he has offered the distance of an English Fleet.

Several Battalions of Hungarians in the Austrian Army had revolted; the revolt had been suppressed, but not without bloodshed.

SPAIN.

The Cuban expedition is to sail 15th inst. The steamers Caledonia and Hibernia, formerly belonging to the Cunard Company, are to be immediately placed upon the route between Cadix and Havana. The Cambria will also be placed upon that route so soon as circumstances will admit of her being detached from the Royal Mail line.

The news from the other parts of the Continent is void of interest.

During the sham fight at Cologne on the 19th inst. the 18th regiment, consisting chiefly of Poles, fired with ball and killed three men of the 34th regiment, mostly Prussians, who were opposed to them. The officers had some difficulty in stopping the firing.

Italy.—The High Court of Appeal at Turin has condemned, by a majority of 13 to 1, the Archbishop, for abuse of his high power as a functionary.—The See is considered to be vacant, all his spiritual dominions seized, and the Archbishop himself is condemned to banishment. The Archbishop of Cagliari, in Sardinia, has been treated like his colleague at Turin, and both have been shipped off to Civita Vecchia. The power of the Pope will not, it seems, shield these obnoxious personages, the precise nature of whose crime is not stated. All parties concur in stating that they have rendered themselves exceedingly obnoxious.

A singular discovery has been made in Madagascar. Fossil eggs of an enormous size have been found in the bed of a torrent. The shells are an eighth of an inch thick, and the circumference of the egg itself is 2½ in. lengthwise, and 2½ in. round the middle.

The Post Office will not be transferred to the Colonial authorities till January. No communication on the subject has yet been received from the Home Government;—but though the necessary documents should arrive by the mail now due, the new arrangements required to be made will occupy the officers, we understand, full three months.—[Morning Pilot.]

Letter from Newfoundland.—The Steamer Merlin, at Halifax, brings papers to the 9th inst. The Protestant Episcopal Cathedral at St. John's has been opened with great ceremony. It is described as a plain but substantial Edifice. The interior fittings are of oak, and although immense sums of money have been expended on the building, it will yet require a large amount to complete it.

The great bell for the Roman Cathedral at St. John's, ordered by the late Bishop Fleming, and cast by Mr. Morphy of Dublin, at which city it was exhibited in the industrial exhibition—arrived at its destination 2d inst. It was landed with great rejoicing and accompanied with a band of music, and several thousands of persons, was safely deposited under the shadow of the great tower of the Church.

Custom House Department.—We learn that a despatch was received by the Controller of Customs and Navigation Laws at this port, by the last English Mail, furnishing him with the reduced establishment, consequent on the repeal of the Navigation Laws, to be retained at this port and its out-ports. There are only three officers retained at St. John's, Mr. Grant, the present Controller, and Messrs. Wm. Eilman and Wm. Smith. Mr. Forster and Mr. Deblin have consequently become redundant. At Miramichi, Mr. Swayne, the present Controller at that port, is the only officer retained, and Mr. Henry Wright has, therefore, become redundant.

Mr. Douglas Stewart, Deputy-Treasurer at Dalhousie, has been appointed Controller, and Mr. John Miller, the Deputy-Treasurer at Harbour, has been appointed Controller there in the room of Mr. Napier, who has been acting in that office for the last two years. Mr. Wilson, the Deputy-Treasurer at Richibucto, has been appointed Controller there, in the room of Mr. Hocken, who becomes redundant. Mr. Carter, the Deputy-Treasurer at Dorchester, has been appointed Controller there, in the room of Mr. McNeill, who becomes redundant.

Mr. Forster, who leaves the establishment at St. John's, where he has been stationed for the last few years, will carry with him the good wishes of the trading community, as, owing to his amiable manners and obliging disposition, he has been very much liked in his office, and has shown that even a Custom House officer may perform his duty strictly, without causing annoyance to those with whom he comes officially in contact.—[Courier.]

It is stated in a paragraph in Wilmer and Smith's European Times of the 5th inst., that the Board of Ordnance have issued orders to their officers serving in the colonies, not to draw on the Commissariat Department for the amount that may be incurred in the repairs or alteration of military buildings, but that the expense in future is to be defrayed out of the funds of the Colonial Treasury.

The fact that a portion of the Barracks in Fredericton has been rebuilt the present season, and that another party under contract to be completed next year, does not look as if this statement is based upon very good authority.—[lb.]

Mineral Wealth of New Brunswick.—A short time since we alluded to the agricultural and mineral wealth of the county of Albert and every account which reaches us from that quarter adds to our estimate of its resources and capabilities.

We now learn that an immense deposit of the purest white gypsum which exists in the Parish of Hillsborough, is about to be extensively worked. A specimen of this gypsum has been exhibited to us, which is pure, and nearly as white as Italian alabaster. The quarry has become the property of Mr. Fowler, of the Lubec plaster mills, who has within the last few days, contracted for the construction of a railroad about four miles in

length, to Gray's Island on the Petcodine (near the residence of W. H. Steves, Esq.) where there is a safe and convenient place for shipping.

If we are correctly informed, no gypsum in any degree equal to the Hillsborough gypsum has yet been found in North America, except at the Magdalen Islands. From the great superiority of the article, we have no doubt it will supersede all others for stucco, and other purposes connected with the arts; and as it can be had in almost unlimited quantity, its working will add so much to the wealth of the County of Albert and of the province generally.—[lb.]

New Manufactures.—We learn that in addition to a paper mill now about being constructed by Messrs. Phillips, at the Water Works, an American is now looking for a site for a Powder Mill. He is about to erect this in anticipation of the demand for powder which will be occasioned by the railway and the mining operations now about being commenced.

A new Pail Factory has also been got up by Mr. Thomas Miller, above the Falls. Is there not enterprise or energy enough among our young Blues to induce some of them to help towards getting their country ahead in the way of manufactures.—[lb.]

Incendiarism.—We regret to state that an incendiary attempt was made on Wednesday night, to destroy the premises in King-street, owned by Mr. Fisher, and occupied by Mr. David Collins and others. Two fires were kindled in a shed in the rear of the premises one which soon created a light blaze; but fortunately the diabolical attempt was frustrated, by one of the inmates in Mr. Reed's boarding house seeing the flames. The alarm was immediately given, and the fire extinguished. It will be recalled that Mr. Fisher lost a new vessel on the stocks a short time ago supposed to have been kindled by an incendiary and it seems that the same fiendish spirit is still at work with his other property. We blush for human nature that so reckless and degraded a being could be found in our midst. This is a warning to all house-keepers to look well to the fastenings of their premises. New Brunswick.

THE STANDARD.

ST. ANDREWS, WEDNESDAY, OCT. 23 1850.

SAINT STEPHENS BANK.

WM. TODD, Esq., President.

Discount Day—SATURDAY.

Hours of business, from 10 to 1.

Bill and Notes for Discount must be lodged with the Cashier, on or before Friday, otherwise they must remain in his hands until the following discount day.

THE RAILWAY.—The works on the line of the St. Andrews and Quebec Railroad are proceeding with vigour. The Contractors are making preparations for the laying of the Rails, which may now be looked for in the course of the early part of next month.

The bridge at Kitty's Cove, now in course of erection, will be finished by the 30th inst., and reflects much credit on the Superintendent, Mr. John Treadwell, as it is built in a substantial manner, and to appearance will last for ages. We understand that the site for the Depot, Store houses, wharves, &c., has been selected, and working plans executed. In fact, every thing connected with our Railroad looks cheering; and we may add that there is every prospect of our part of the line to Woodstock being completed by the fall of 1851, and that the portion from Quebec to the Grand Falls will be finished by December, 1852!

European and North American Railway.

The prospects of the European and North American Railway are reported in the Saint John papers to be most cheering. It is said that the project is regarded favourably in England, and that "when the European and North American Railway have procured their charters, and are prepared to appeal to capitalists in England and Ireland, they will find the way well prepared, and capitalists anxious to invest their capital." &c. A grand Railway Convention is also to be held in St. John on the 21st May, 1850, and the "first word" will be raised on that day. Invitations will be forwarded to the Mayors of all the cities on this side the Atlantic, interested in the undertaking, and to the Municipal authorities of Dublin, Cork, and Galway, and the Directors of the Irish and English Railway Companies who are interested.

Archbishop Signay died at Quebec on the 3rd inst.

CANADIAN FLOUR.—We regret to learn that the shipments of "Canada Flour," arrived here, have proved of an inferior quality in fact. Our bakers have used every effort, but in vain, to make good bread of it.—The reasons assigned for this are, that the wheat has not been properly kiln dried, or that brother Jonathan has been sending us his own sour flour, instead of "Western Canada" sweet flour, as insinuated in the Canadian papers. We really wish our merchants would import their Canadian flour direct from Lake Ontario, and then our people would have the satisfaction of getting the genuine article, which is said to be of a superior description, and well adapted for family use.

CUSTOM HOUSE ALTERATIONS. We have been informed by Wm. Whiteside, Esq., Comptroller of Customs at this Port, that a despatch has been received, by the last Mail, in which the Commissioners of Customs signify their wish "that the duties heretofore performed by the Imperial Officers at the Out-Bays, (St. Stephen, Magaguadavic, and Campbell), should in future be executed by the Colonial Revenue Officers stationed at these places."

To effect this arrangement, the Commissioners have transmitted, through Mr. Whiteside, deputations to the following gentlemen, Controllers of Customs and Navigation Laws at these places, viz:—St. Stephen, Robert Watson, Esq.; Magaguadavic, A. J. Wetmore, Esq.; Campbell, Thomas Moses, Esq.

The Chester Infirmary and Hallows Pills and Ointment.—A short time since William Bullock, a bricklayer, was in the Chester Infirmary for nine weeks for an ulcerated leg, of very long standing, where he derived not the least relief. He was also for seven weeks under the care of Mr. Alexander Webber, surgeon, at Wellington, Somersetshire, without receiving any benefit; when, after all other means had failed, he cured himself by these wonderful medicines, which he purchased of Mr. J. H. Clarke, chemist, of Birkenhead, who can attest to the facts of the case. However desperate wounds, sores, or ulcers may be, these Pills and Ointment will cure them.

MARRIAGES.

On the 21st inst. by the Rev. J. Alley, D. D., Rector, Doctor WILLIAM BRADLEY, (late of Kilkenny, Ireland) to CAROLINE ANGELA, second daughter of W. C. McStay, Esq. M. D., and J. P. of this Town.

At St. John on the 9th inst. by the Rev. Wm. Donald, A. M., Mr. Thomas Sims, Jun., to Miss Eunice Craft, both of this City.

On Thursday last, by the Rev. I. D. W. Gray, D. D., Rector, Charles Lawrence Street, Esq., second son of the late Thomas Street, Esq., Solicitor, London, to Ellen Gordon, eldest daughter of Isaac Woodward, Esq., of St. John.

DEATHS.

On Tuesday evening, the 22d inst., after a short illness, which he bore with resignation to the Divine Will, Mr. James Kyle, in the 64th year of his age. Mr. Kyle came to this Town in 1831, where he has ever since resided, and filled the post of Barrack Serjeant with credit to himself. He was universally respected for his agreeable disposition, honesty of purpose, and upright conduct, and was truly a loyal and good man. His loss will be deeply deplored by his sorrowing family, relatives and friends. (The funeral will take place to-morrow, Thursday, at 8 o'clock—when friends and acquaintances are respectfully invited to attend.)

At Chamecock, on the 16th inst., Captain Samuel James McMaster, eldest son of the late Daniel McMaster, Esq., of St. Andrews, aged 58 years, leaving behind him a large and respectable circle of relations and friends to lament their loss.

At St. David, Mr. William Douglas, in the 77th year of his age. The deceased was a native of Gallowayshire, in Scotland, but settled in this County about 30 years ago. He leaves behind him an affectionate wife, and large family to mourn their loss.

SHIPPING JOURNAL.

PORT OF ST. ANDREWS.

ARRIVED.

Oct. 17th.—Schr. Fame, Watson, St. John merchandise.

Packet Matilda, McMaster, Eastport—provisions.

18th.—Packet Prince Albert, Snell, Grand Manan.

19th.—Schr. Friends, Calhoun, Joggins, N. S.—Master, coal.

21st.—Schr. Lady Clare, Munro, Annapolis, country produce.

Mary Elizabeth, Wilson, Digby, do. The Brig Eight Sons, owned by Messrs. J. & C. Young, from the West Indies, and an American barque, name unknown, arrived on the ballast ground on the 17th inst., and afterwards proceeded to the Ledge.

Arrived at Gloucester, September 27th—Messenger, from Saint Andrews; at Liverpool, October 1st, Home, Muir, Quebec; Belle Kate, from Magaguadavic.

NOTICE.

A DIVIDEND on the Capital Stock of the CHARLOTTE COUNTY BANK, of 3 per cent., was this day declared, payable to the Stockholders on or after the 4th proximo.

J. RODGER, C. C. Bank, 13th Oct., 1850. Cashier.

ARCHBISHOP SIGNAY DIED AT QUEBEC ON THE 3RD INST.

THE RAILWAY.—THE WORKS ON THE LINE OF THE ST. ANDREWS AND QUEBEC RAILROAD ARE PROCEEDING WITH VIGOUR.

THE BRIDGE AT KITTY'S COVE, NOW IN COURSE OF ERECTION, WILL BE FINISHED BY THE 30TH INST., AND REFLECTS MUCH CREDIT ON THE SUPERINTENDENT, MR. JOHN TREADWELL, AS IT IS BUILT IN A SUBSTANTIAL MANNER, AND TO APPEARANCE WILL LAST FOR AGES.

WE UNDERSTAND THAT THE SITE FOR THE DEPOT, STORE HOUSES, WHARVES, &C., HAS BEEN SELECTED, AND WORKING PLANS EXECUTED.

IN FACT, EVERY THING CONNECTED WITH OUR RAILROAD LOOKS CHEERING; AND WE MAY ADD THAT THERE IS EVERY PROSPECT OF OUR PART OF THE LINE TO WOODSTOCK BEING COMPLETED BY THE FALL OF 1851, AND THAT THE PORTION FROM QUEBEC TO THE GRAND FALLS WILL BE FINISHED BY DECEMBER, 1852!

EUROPEAN AND NORTH AMERICAN RAILWAY.

THE PROSPECTS OF THE EUROPEAN AND NORTH AMERICAN RAILWAY ARE REPORTED IN THE SAINT JOHN PAPERS TO BE MOST CHEERING.

IT IS SAID THAT THE PROJECT IS REGARDED FAVOURABLY IN ENGLAND, AND THAT "WHEN THE EUROPEAN AND NORTH AMERICAN RAILWAY HAVE PROCURED THEIR CHARTERS, AND ARE PREPARED TO APPEAL TO CAPITALISTS IN ENGLAND AND IRELAND, THEY WILL FIND THE WAY WELL PREPARED, AND CAPITALISTS ANXIOUS TO INVEST THEIR CAPITAL." &C.

A GRAND RAILWAY CONVENTION IS ALSO TO BE HELD IN ST. JOHN ON THE 21ST MAY, 1850, AND THE "FIRST WORD" WILL BE RAISED ON THAT DAY.

INVITATIONS WILL BE FORWARDED TO THE MAYORS OF ALL THE CITIES ON THIS SIDE THE ATLANTIC, INTERESTED IN THE UNDERTAKING, AND TO THE MUNICIPAL AUTHORITIES OF DUBLIN, CORK, AND GALWAY, AND THE DIRECTORS OF THE IRISH AND ENGLISH RAILWAY COMPANIES WHO ARE INTERESTED.

ARCHBISHOP SIGNAY DIED AT QUEBEC ON THE 3RD INST.

CANADIAN FLOUR.—WE REGRET TO LEARN THAT THE SHIPMENTS OF "CANADA FLOUR," ARRIVED HERE, HAVE PROVED OF AN INFERIOR QUALITY IN FACT.

OUR BAKERS HAVE USED EVERY EFFORT, BUT IN VAIN, TO MAKE GOOD BREAD OF IT.—THE REASONS ASSIGNED FOR THIS ARE, THAT THE WHEAT HAS NOT BEEN PROPERLY KILN DRIED, OR THAT BROTHER JONATHAN HAS BEEN SENDING US HIS OWN SOUR FLOUR, INSTEAD OF "WESTERN CANADA" SWEET FLOUR, AS INSINUATED IN THE CANADIAN PAPERS.

WE REALLY WISH OUR MERCHANTS WOULD IMPORT THEIR CANADIAN FLOUR DIRECT FROM LAKE ONTARIO, AND THEN OUR PEOPLE WOULD HAVE THE SATISFACTION OF GETTING THE GENUINE ARTICLE, WHICH IS SAID TO BE OF A SUPERIOR DESCRIPTION, AND WELL ADAPTED FOR FAMILY USE.

CUSTOM HOUSE ALTERATIONS. WE HAVE BEEN INFORMED BY WM. WHITESIDE, ESQ., COMPTROLLER OF CUSTOMS AT THIS PORT, THAT A DESPATCH HAS BEEN RECEIVED, BY THE LAST MAIL, IN WHICH THE COMMISSIONERS OF CUSTOMS SIGNIFY THEIR WISH "THAT THE DUTIES HERETOFORE PERFORMED BY THE IMPERIAL OFFICERS AT THE OUT-BAYS, (ST. STEPHEN, MAGAGUADAVIC, AND CAMPBELL), SHOULD IN FUTURE BE EXECUTED BY THE COLONIAL REVENUE OFFICERS STATIONED AT THESE PLACES."

TO EFFECT THIS ARRANGEMENT, THE COMMISSIONERS HAVE TRANSMITTED, THROUGH MR. WHITESIDE, DEPUTATIONS TO THE FOLLOWING GENTLEMEN, CONTROLLERS OF CUSTOMS AND NAVIGATION LAWS AT THESE PLACES, VIZ:—ST. STEPHEN, ROBERT WATSON, ESQ.; MAGAGUADAVIC, A. J. WETMORE, ESQ.; CAMPBELL, THOMAS MOSES, ESQ.

THE CHESTER INFIRMARY AND HALLOWS PILLS AND OINTMENT.—A SHORT TIME SINCE WILLIAM BULLOCK, A BRICKLAYER, WAS IN THE CHESTER INFIRMARY FOR NINE WEEKS FOR AN ULCERATED LEG, OF VERY LONG STANDING, WHERE HE DERIVED NOT THE LEAST RELIEF.

HE WAS ALSO FOR SEVEN WEEKS UNDER THE CARE OF MR. ALEXANDER WEBBER, SURGEON, AT WELLINGTON, SOMERSETSHIRE, WITHOUT RECEIVING ANY BENEFIT; WHEN, AFTER ALL OTHER MEANS HAD FAILED, HE CURED HIMSELF BY THESE WONDERFUL MEDICINES, WHICH HE PURCHASED OF MR. J. H. CLARKE, CHEMIST, OF BIRKENHEAD, WHO CAN ATTEST TO THE FACTS OF THE CASE.

HOWEVER DESPERATE WOUNDS, SORES, OR ULCERS MAY BE, THESE PILLS AND OINTMENT WILL CURE THEM.

MARRIAGES.

ON THE 21ST INST. BY THE REV. J. ALLEY, D. D., RECTOR, DOCTOR WILLIAM BRADLEY, (LATE OF KILKENNY, IRELAND) TO CAROLINE ANGELA, SECOND DAUGHTER OF W. C. MCSTAY, ESQ. M. D., AND J. P. OF THIS TOWN.

AT ST. JOHN ON THE 9TH INST. BY THE REV. WM. DONALD, A. M., MR. THOMAS SIMS, JUN., TO MISS EUNICE CRAFT, BOTH OF THIS CITY.

ON THURSDAY LAST, BY THE REV. I. D. W. GRAY, D. D., RECTOR, CHARLES LAWRENCE STREET, ESQ., SECOND SON OF THE LATE THOMAS STREET, ESQ., SOLICITOR, LONDON, TO ELLEN GORDON, ELDEST DAUGHTER OF ISAAC WOODWARD, ESQ., OF ST. JOHN.

DEATHS.

ON TUESDAY EVENING, THE 22D INST., AFTER A SHORT ILLNESS, WHICH HE BORE WITH RESIGNATION TO THE DIVINE WILL, MR. JAMES KYLE, IN THE 64TH YEAR OF HIS AGE. MR. KYLE CAME TO THIS TOWN IN 1831, WHERE HE HAS EVER SINCE RESIDED, AND FILLED THE POST OF BARRACK SERJEANT WITH CREDIT TO HIMSELF. HE WAS UNIVERSALLY RESPECTED FOR HIS AGREEABLE DISPOSITION, HONESTY OF PURPOSE, AND UPRIGHT CONDUCT, AND WAS TRULY A LOYAL AND GOOD MAN. HIS LOSS WILL BE DEEPLY DEPLORED BY HIS SORROWING FAMILY, RELATIVES AND FRIENDS. (THE FUNERAL WILL TAKE PLACE TO-MORROW, THURSDAY, AT 8 O'CLOCK—WHEN FRIENDS AND ACQUAINTANCES ARE RESPECTFULLY INVITED TO ATTEND.)

AT CHAMECOCK, ON THE 16TH INST., CAPTAIN SAMUEL JAMES MCMASTER, ELDEST SON OF THE LATE DANIEL MCMASTER, ESQ., OF ST. ANDREWS, AGED 58 YEARS, LEAVING BEHIND HIM A LARGE AND RESPECTABLE CIRCLE OF RELATIONS AND FRIENDS TO LAMENT THEIR LOSS.

AT ST. DAVID, MR. WILLIAM DOUGLAS, IN THE 77TH YEAR OF HIS AGE. THE DECEASED WAS A NATIVE OF GALLOWAYSHIRE, IN SCOTLAND, BUT SETTLED IN THIS COUNTY ABOUT 30 YEARS AGO. HE LEAVES BEHIND HIM AN AFFECTIONATE WIFE, AND LARGE FAMILY TO MOURN THEIR LOSS.

Trustee's Sale.

To be sold by Public Auction, on
WEDNESDAY the 31st INSTANT
at 11 o'clock A. M. in front of the Court House,
in St. Andrews.

ALL the right, title, interest, claim and demand
of HAMILTON MITCHELL, an Abscond-
ing Debtor, of, in, and to all those several Lots or
parcels of LAND described as follows, viz:—

First.—A Lot of Land, purchased by the
said Hamilton Mitchell from H. H. Hatch,
Esq., Provisional Assignee of one Jerem-
iah D. Dohoe, Bankrupt, situated in the
Parish of St. George, on the Highway from
St. Andrews to Maguadavie, con-
taining 104 Acres, more or less, commencing
at a Spruce Tree on the line which di-
vides Orange and Stewart Secley's Farm.—
Also, his right and title to the property
described as follows, viz:—To that Tract
excepted or left out of 21 Rods by 120,
containing 18 acres, more or less.

Second.—All that piece, parcel, or lot
of Land, lying and being in the Parish of
St. Patrick, purchased by the said Hamil-
ton Mitchell from one William Carson,
commencing on the Eastern Shore of St.
Andrews Bay, containing 390 acres, more
or less, being on the South line of land
granted to one John Black, running South
standing in Timber Creek Shore.

Third.—All that lot or piece of Land in
the Parish of St. Patrick, containing 30
Acres, more or less, being part of a tract
granted to one John Black, bounded on
the South by a part of said grant, and on the
North by Lands owned by Samuel Dean
the said piece of Land being the same pur-
chased by the said Hamilton Mitchell from
Thomas Jones, Esquire, Sheriff of Char-
lotte.

The said Lands will be sold to pay the
Debts of the said Hamilton Mitchell, an
absconding Debtor, pursuant to the Act of
Assembly in which case made and provided.
J. H. OVIATT,
WM. WATSON,
J. H. WHITLOCK } Trustees.
St. Stephen, October 15, 1850.

FOR SALE.

ONE Half of those MILLS at the Upper
Falls of the Maguadavie, known as the
Allan Shaw Mills, with the LAND and
other Property attached thereto.

If said property is not sold prior to the
1st day of November next, it will then be
offered by Auction, at noon, in front of the
Court House. Terms liberal.

Square, cheap for CASH.
W. MacLEAN.
St. Andrews, 8th October, 1850.

Valuable Mill Property, BY AUCTION.

TO be sold by Public Auction, at Mr. Johnston's
Hotel in St. Stephen, on Monday the 28th
day of OCTOBER, instant, at 11 o'clock in the
forenoon:
The WYMAN SAW MILL, so called, situate
on the Digdigash River, about two miles from
the Fredericton road, above the Bridge on said
river.

The Mill Privilege contains 150 acres of fine
lands, with good and substantial Dams, a superior
Clapboard and shingle Machine, and from its
proximity to the Calais market, and advantages
in procuring Pine logs, render it a desirable situ-
ation for a Clapboard and Shingle Manufactory.
Also—at the same time, the Dwelling House
and One Acre of Land, which the subscriber now
resides on at Oak Bay, near the residence of
Mr. John Cuttwell. The house is well finished,
and in a pleasant situation for any family.

Terms.—25 per cent cash,
25 per cent in 3 months,
25 per cent in 6 months,
25 per cent in 12 months. By Bond
and Warranty of Attorney.
WM. WYMAN.
Oak Bay, October 1, 1850.

TO LET.

THAT Three Storey House, in Queen Street,
next to Mr. Stevenson's Hotel. A reason-
able sum for repairs to the building will be allowed
out of the rent.
F. A. BABCOCK, for

of age, to learn the Printing business.
STANDARD OFFICE, April 22d, 1850.

CURES FOR THE UNCURED

Holloway's Ointment.

AN EXTRAORDINARY CURE
OF SCROFULA OR KING'S EVIL.
Extract of a Letter from Mr. J. H. Alliday, 209,
High Street, Cheltenham dated the
22nd of January, 1850.

To Professor Holloway.
SIR,—My eldest son, when about three
years of age, was affected with a Glandular
swelling in the neck, which after a short time
broke out into an Ulcer. An eminent medical
man pronounced it as a very bad case of Scro-
fula, and prescribed for a considerable time
without effect. The disease then for four
years went on gradually increasing in vio-
lence, when besides the ulcer in the neck, and
other formed below the left knee, and a third
under the eye, besides seven others on the
left arm with a tumour between the eye,
which was expected to break. During the
whole of the time my suffering boy had received
the constant advice of the most celebrated
medical Gentlemen at Cheltenham, besides
being for several months at the General Hos-
pital, where one of the surgeons said "that he
could amputate the left arm, but that the
boy was so emaciated, that if that limb were
taken off it would be then even impossible to
subdue the disease. In this desperate state I
determined to give your Pills and Ointment
a trial, and after two months perseverance in
their use, the tumour gradually began to
disappear, and the discharge from all the ul-
cers perceptibly decreased, and at the expira-
tion of eight months they were perfectly healed
and the boy thoroughly restored to the bless-
ings of health, to the astonishment of a large
circle of acquaintances, who could testify to
the truth of this miraculous cure. Three
years have now elapsed without any recur-
rence of the malady, and this boy is now as
healthy as heart can wish. Under these cir-
cumstances I consider that I should be truly
grateful were I not to make you acquainted
with this wonderful cure effected by your
medicines after every other means had failed.
(Signed) J. H. ALLIDAY.
CURE OF ACUTE RHEUMATISM OF FOUR
YEARS STANDING.
Extract of a Letter from Mr. John Pitt, Dudley,
12th Oct., 1850.

To Professor Holloway.
SIR,—It is with the greatest pleasure that
I write to thank you for the benefit I have
received from your Pills and Ointment, which
have completely cured me of the Rheumatism,
under which I suffered for the last four years
at times so bad as hardly to be able to
walk. I had not received any relief from
any medicine without receiving any bene-
fit. I at last thought I would give your med-
icines a trial, and purchased from Mr. Hollin,
Chemist, of this Town, two Boxes of Pills,
and two of Ointment, and in three weeks,
through the aid of the blessing of God, I was
restored to health and am now as well able to
walk as ever I was in my life. I am well con-
vinced in this parish, having been sixty-five years
in it, with an exception of ten years I served
in the 24th Regiment of Foot.
(Signed) JOHN PITT.

CURE OF A BAD LEG OF SIXTY

YEARS STANDING.
Mr. Barker, of No. 5, Graham's Place, Drypool
near Hull, had ulcers on his leg from the age of
eighteen until upwards of eighty, and although
for many years he had sought the first advice,
in the country, nothing was found to cure them.—
He very often suffered most excruciating pain for
long periods together, which incapacitated him
from attending to his business. He had given up
all aspect of getting a cure, when at last he was
persuaded to try Holloway's Pills and Ointment,
which he did, and however confidently he may ap-
pear, the leg was thoroughly healed by their
means, and by continuing to use the Pills alone
after his leg was well, he has become in health
so hale and hearty as now to be more active than
most men of fifty.

CURE OF A DESPERATE CASE OF RING- WORK OF SIX YEARS STANDING.

One of the most eminent Surgeons in Lima (the
Capital of Peru) had a child covered with Ring-
worm for more than 6 years, in vain he exhausted
all his art in his endeavours to effect a cure. Not
succeeding he consulted among his brethren, the
most celebrated medical practitioners of the City,
but nothing was found to do the child service.—
When he was persuaded by Mr. Joseph P. Hagne
the English Chemist and Druggist, residing at No.
74, Calle del Palacio, to try Holloway's Pills and
Ointment, which was done, and after using six
large Pots of the Ointment, with a proportion of
the Pills, the child was radically cured, to the
surprise of the whole medical profession. The
name of the parent, from motives of delicacy, is
withheld.

The Pills should be used conjointly with the
Ointment in most of the following cases:—
Bad Legs, Bad Breasts, Burns, Bunions,
Bite of Insects, and Scurvy, Flatulency,
Coco-Bay, Gout, Glandular Swellings, Lumbago,
Piles, Rheumatism, Scalds, Sore nipples,
Chloricaria, Catarrhs, Chapped hands,
Corns (soft), Concreta, Contracted & Stiff joints,
Elephantiasis, Sore throats, Skin diseases,
Scabs, Sore heads, Tumours, Ulcers, wounds,
Yaws,
Sold by the Proprietor, 244, Strand, (near Ten-
ple Bar, London, and by all respectable Vendors
of Patent Medicines throughout the Civilized
World, in Pots and Boxes, at 1s. 1 1/2d. 4s. 6d.
12s. 20s. and 30s. each. There is a very consid-
erable saving in taking the larger sizes.
N.B.—Directions for the guidance of Patients are
affixed to each Pot or Box.
THOS. TURNER, Agent.

NOTICE.

THE Public is hereby cautioned against pur-
chasing or in any way receiving five prom-
issory Notes of Fifty Pounds each, or any of them,
given by the subscribers to William Fortier, of St.
Stephen, Merchant, and all dated the 14th day
of May last, and payable to the said Fortier or order,
in one, two, three, four, and five years respectively,
with interest, (or payable yearly with interest re-
spectively,) as no consideration was given or re-
ceived for the same, and payment thereof will
therefore be refused by the subscribers.
THOMAS D. HAYMAN,
WILLIAM THOMPSON.
St. Stephen, Sep. 12, 1850. rmpd

St. Andrews, July 27, 1850.

CALAIS HOUSE, CALAIS, STATE OF MAINE.

THE subscriber, in tendering thanks to
his former patrons and friends, the
inhabitants of New-Brunswick, and espe-
cially of St. Andrews, for the patronage they
have heretofore afforded him, respectfully
advises them and the Public generally, that
his Establishment, the CALAIS HOUSE, is
again open for the reception of company,
renovated and fitted up, he believes, to suit
the taste of the most fastidious, where it
will give him pleasure to serve his former
customers, and the travelling public gen-
erally, and promises to use his best exertions
for their comfort.
HENRY BATES.
Calais, June 24, 1850.

GREAT AGRICULTURAL WORK!

THE FARMER'S GUIDE TO
Scientific and Practical Agriculture,
By HENRY STEPHENS, F.R.S.E.,
Author of the "Book of the Farm," Editor
of the "Quarterly Journal of Agriculture,"
&c., &c.
Assisted by
JOHN P. NORTON, A. M.,
Professor of Scientific Agriculture in Yale
College, New Haven, Author of Agricultural
Prize Essays, &c., &c.

This highly valuable work will comprise two
large royal octavo volumes, containing over
1400 pages, 18 or 20 splendid steel engra-
vings, and more than 600 engravings on
wood, in the highest style of the art, illustra-
ting almost every implement of husbandry
now in use by the best farmers, the best meth-
ods of ploughing, planting, haying, harvest-
ing, &c., &c., the various domestic animals
in their highest perfection; in short, the pic-
torial feature of the book is unique, and will
render it of incalculable value to the student
of agriculture.

This great work is the joint production of
two of the most talented agricultural scholars
of the day; the one eminent as an author and
editor in Great Britain, and the other as a
Professor in Yale College. Both are emi-
nently practical as well as scientific men,
and all they say may be relied on as the result
of profound research, tested and sustained by
practical experiment. The contributions of
Professor Norton are chiefly designed to adapt
the British portion of the book to this country,
and thus to make it an Anglo American work,
giving to its readers all the really useful agri-
cultural knowledge at present attainable in
either country.

The work is divided into four departments,
distinguished by the four seasons of the year,
commencing with Winter, and Prof. Nor-
ton's notes will be published as an appendix
to each part. The first chapter treats of the
following subjects, under the head of
INITIATION.

On the best of the existing Methods for ac-
quiring a thorough knowledge of Practical
Husbandry.

On the Difficulties to be encountered in
learning Practical Husbandry, and on the
Means of overcoming them.

On the Different kinds of Farming.

On the Persons required to Conduct and
Execute the Labor of the Farm.

On the Branches of Science most applica-
ble to Agriculture.

On the Institutions of Education best
suited to Agricultural Science.

On the evils attending the neglect of
Landowners and others to learn practical
Agriculture.

On observing the details and recording the
facts of Farming by the Agricultural Student,
Terms of the Work.—The American edi-
tion, the first number of which is already is-
sued, will be published in semi-monthlies of
61 pages with an English steel engraving in
each number, of which there will be about
22 in all. PRICE, 25 CENTS PER NUMBER.
CLUBBING.

Three Copies will be sent to one address
for \$15: 5 copies for 75. Cash in all cases
to be remitted direct to the Publishers, and
not through Agents.
LEONARD SCOTT & CO., Publishers,
79 Fulton Street. Entrance 54 Gold Street,
New York.
