FOCH AND GERMANY'S DELEGATES ARE NOW CONFERENCE **QUESTION** ARMISTICE

Meeting Opened at 9 o'Clock This VICTORY Morning (French Time). If Delegates Have to Refer Terms to Berlin They Will Be Given 72 Hours in Which to Give an Answer.

Paris, November 8 .-- The German pro- More Than \$130,000,000 Subposal for an immediate provisional suspension of hostilities has been rejected by Marshal Foch.

TIME LIMIT ENDS MONDAY AT 11 O'CLOCK.

[By Associated Press.] Paris, Nov. 8 .- 3:20 p.m .- The seventy-two hours in which the German reply must be received will end at 11 3269,492,300 for all Canada. o'clock Monday morning.

[By Associated Press.]

Washington, D. C., Nov. 8.—The German armistice delegation entered conference with Marshal Foch at 9 o'clock this morning, French time, the state department announced officially today.

Announcement was made also that if it is found that the German delegates must refer the armistice terms to Berlin, they will be given 72 hours from the time that decision is reached in which to answer.

PROCEEDED TO MEETING PLACE.

Paris, Nov. 8, 11:45 a.m.—The German delegates who came within the French lines last night to receive from Marshal Foch the Allied terms for an armistice, proceeded this morning to the meeting place designated by the marshal. The white flag bearers reached the left wing of Gen. Debeney's army at 10 o'clock last, night. They arrived at the place indicated by the Allied supreme commander within the French lines about 2 o'clock this morning, and passed the remainder of the night there. Continued on Page Five

PEACE AND THE VICTORY LOAN

Today the world awaits, breathless, Germany's reply to our armistice terms Not since those intense days in the first week of August, 1914, has tension

run so high or the possible message of the wires so fateful. It is Germany's turn to speak. Germany can say "yes" or "no," or she can parley for better terms. Which one of these three courses she will decide upon we may know at any moment. Until Germany speaks one man's guess

to what she will say is about as good as another's. It is true that from a military standpoint her position is hopeless. If she goes on with the war the "knockout blow" is as certain as death. If it does not come this week it will come next summer.

But until she does speak we have to remember that so far as we know the military party still holds the reins of power in Germany. It is fighting to preserve not so much Germany, as its own future predominance in Germany. Until definite announcement of the acceptance of our armistice terms is made,

Until definite announcement of the acceptance of our armistice terms is made, there must remain some doubt as to whether the fighting is over, as we all hope, or whether there is to be a further period of hostilities.

NO RELAXATION DURING PEACE CONFERENCE.

Even if our armistice terms are accepted by Berlin today or tomorrow, it must be remembered that an armistice is not a peace treaty. It may take months, it may take even a year for the peace conference to be gathered together and to arrive at a treaty which will be signed by all parties. In that the peace is not a peace treaty. It may take there must be no relaxation of our defences. Our armies must remain together and to arrive at a treaty which will be signed by all parties. In that interval there must be no relaxation of our defences. Our armies must remain on the ground prepared for any contingency. Our war effort in every respect THANKS POPULACE AS continued with the sole and happy exception that there will be no

And even if it were possible to draw up a peace treaty and have it accepted immediately, our country would still require that the Victory Loan be fully

Our troops will have to be maintained until they are completely demobiltzed, a long and tedious, and expensive operation.

We shall still have to supply food and supplies to Europe, and we shall nave to supply Europe with the credits with which to purchase those supplies and food. Ships will have to be constructed to make up the enormous deficit still left by the ravages of the submarines.

And there is this further consideration. To the investors the prospect of an immediate peace opens up a new vista. The outbreak of peace will be a submarine and afternoon representatives.

And there is this further consideration. To the investors the prospect of an immediate peace opens up a new vista. The outbreak of peace will be no less disturbing on certain conditions than was the outbreak of war. In the first place it may be predicted with more or less certainty that never again in the lifetime of the present generation will the Government of Canada offer to pay the lavestor 5½ per cent on his money. It is only a few years ago that small cities in this province were able to sell their bonds on a 3½ per cent basis. Those were peace days, the days to which we are returning. Three and a half per cent money may not be an immediate probability, but the high interest rate of the last two or three years cannot be maintained when the demand for war

To the individual, too, the necessity of having a nest egg is more urgent with the imminence of peace than it has been for five years. This applies to all classes. No one can predict what the future holds. A nest egg invested in

all classes. No one can predict what the future holds. A nest egg invested in Victory Bonds is a nest egg indeed.

OUR LAST BIG OPPORTUNITY.

But over and above all these considerations is the fact that the war situation today makes it practically certain that this is the last big thing the people of Canada will have a chance to do for its gallant army overseas, the army which broke the Amiens front, the army which first broke through the Hindenburg line, the army which gloriously captured Cambrai, Denain, Valenciannes. With what countenance could we welcome the boys home if in this last the countenance could we welcome the boys home if in this last the countenance could we welcome the boys home if in this last the countenance could we welcome the boys home if in this last the countenance could we welcome the boys home if in this last the countenance could we welcome the boys home if in this last the countenance could we welcome the countenance could be considered in the countenance could be cons ciennes. With what countenance could we welcome the boys home if in this last great effort the people at home failed to put Canada on the map of peace in the Port Arthur.

same manner that the army put Canada on the map of war? A great oversubscription will be Canada's message to the world that the same spirit which dominates our men at the front dominates their kith and kin

By Associated Press.1 London, Nov. 7 .- The greater part of the German navy, with red flags hoisted, has left the harbor of Kiel in possession of mutinous sailors, according to a Copenhagen dispatch to the Exchange Telegraph Company. Copenhagen also reports that the revolutionary flag has been hoisted at Warnemunde, with which place railroad communication has been interrupted.

There are no guards on the German-Danish frontier, it is reported, and many prisoners crossed into Denmark last night. Dispatches say that no trains have arrived at Copenhagen from Hamburg today.

CLEMENCEAU IS GIVEN OVATION BY FRENCH SENATORS

Hailed as the Savior of France by His Colleagues.

Paris, Nov. 8.—Premier Clemenceau appeared for a moment last night in the lobby of the Senate after a sitting of that body, which had declared him, in traditional phrase, to have "deserved well of his country."

The premier's approach to the group of senators lingering after the adjournment was the signal for an evation to him. He was speedily surrounded by numbers of the senators who pressed forward to shake his hand.

"You are the savior of France," cried one.

"No, no," replied the premier, shrugging his shoulders, "It is the country which has done everything itself." "Thanks to you," the senators reoined.
"No, I assure," returned the premier,

CHIEF PRESS CENSOR German Majority Parties, according To Copenhagen Dispatch From Berlin, Are Demanding That Wilhelm Step Down and Out.

> London, Nov. 8 .- The German majority parties have held a final discussion on the question of Emperor William's abdication, and will, without doubt, unanimously demand that he abdicate, according to a Berlin dispatch to the Copenhagen Politiken, forwarded by the Exchange Telegraph correspondent. The abdication, it is added, will probably occur tomorrow.

Bremen, Schwerin, Tilsit and Sonderberg Are the Latest To Join Revolutionary Forces -- Dr. Karl Lichknecht Arranges for Soldiers' Conference at Bremen.

[By Associated Press.] London, Nov. 8 .- The city of Bremen, Schwerin and Tilat have joined in the German revolution, according to a Copenhagen dispatch to the Exchange Telegraph Company. Dr. Karl Liebknecht is said to have arranged for the formation of a soldlers' council at Bremen.

Bremen is, next to Hamburg, the principal maritime emporium of Germany. If is situated on the Weser River, 59 miles southwest of Hamburg. Its pre-war population was about 170,000. Schwerin is the capital of the Grand Duchy of Mecklenburg-Schwerin and is situated on the west side of Lake Schwerin, 35 miles southeast of Luebeck. Its population in 1900 was about 38,000. Tileit is a city of Fast Prussia. It lies on the left bank of the Niemen River, 60 miles northeast of Koenigsberg. Its population is about 35,000.

LACKING LEAST SCRAP OF OFFICIAL CONFIRMATION OF PEACE RUMORS THE ADVERTISER WITHHELD EXTRA

Thursday Evening's Issue of This Paper Gave Facts, and CONVENTION OF BAPTIST Facts Only-People in a Dilemma Because of Stories Published Broadcast by Another London Daily.

A clashing of the policies of two newspapers during a period of critical war possibilities set London by the ears for many hours yesterday.

A local newspaper first carne out with a dispatch in its regular noon edition, reading as follows:

[Canadian Press Dispatch.]

London, Nov. 7.—Semi-official reports declare that Germany has decided to accept Marshal Foch's peace terms.

The Advertiser is a subscriber for the complete night and day wire services of Canadian Press, Limited, which is the Canadian section of the world Associated Press, but no such dispatch was received by this newspaper. Every official piece of news which followed, bore out this statement, and there was absolutely nothing in the way of confirmation of the United Press statement. It was inconceivable that this service's staff had scored a "beat" on the Allied governments and the other news services.

The other local newspaper persisted in its efforts to bolster up the United Press dispatch. In all it issued five editions, all of them based on the original United Press dispatch.

The Advertiser did not issue any extra edition, and its Home Edition came out at the regular time, containing the official statements of the Washington statesmen and various dispatch from the contains the official statements of the Washington statesmen and various dispatch.

COMMISSIONERS DO NOT WANT TO LOOK AFTER BOULEVARDS

Refuse To Carry Lawn Mowers Around.

CRITICISM FOR COUNCIL

Hydro Commission To Advise RAPID IMPROVEMENT On Location of New Dam.

"Apparently the city council expects the commissioners to shoulder lawn mowers and go out and take care of all the boulevards in the city," said Comof the public utilities commission yesterday afternoon. The statement that Alderman G. B. Drake made regarding the condition of the boulevard at Wel-'under the hide" of the commissioners who are in control of the parks and boulevards in the city. CHOOSING DIRECTORS FOR LONDON'S BOARD OF TRADE STARTED

Primary Ballots Mailed To Each Member.

LATTER PART OF MONTH GOOD MEN ARE NEEDED

Leaders Should Have Real Qualifications for the Position.

Primary ballots for the nomiation of London Board of Trade have been mailed to the members. The members have it in their hands to nominate a representative leadership such as the city has not witnessed heretofore.

An entire board of fourteen members is to be elected seven for a two years. is to be elected, seven for a two-year term and seven for a one-year term. In the future annual elections as many directors as there are vacancies on the board will be elected. According to a clause in the recently-adopted bylaws, no officer or director shall be eligible for nomination or election to succeed.

no officer or director shall be engine for nomination or election to succed imself consecutively.

All Asked to Vote. A roster of the membership accompanied the primary ballot, and each member has asked to vote for fourteen member has asked to vote for fourteen representative members in which he has full confidence as leaders. It is desirable and essential to have a well-rounded board in whom everybody will have the fullest confidence and who will work diligently and unselfishly for the advancement of London. advancement of London.

The names of 28 members receiving the highest number of votes in the primary election will be placed on a final ballot and mailed to the membership for their final choice of fourteen.

The polls for the primary election will close at 6 o'clock p.m., Monday, November 11.

ber 11.

Qualifications.

The following qualifications are listed on the primary ballot:

An ideal director should be openminded and tolerant, forceful and willing to work, tactful, non-partisan in board action, leader in own sphere, lend prestige to board, not use organization for personal ends, have absolute faith in London and the new organization.

The entire board of directors should be representative—a leader from each sphere, capable of team work, thorough in everything, expeditious, observant of the ethics of board meetings. Their function is judicial rather than legislative.

utilities commission did not consider that they were in any way responsible for the condition of the boulevard.

Commissioner T. W. McFarland thought that the commission had no control of the boulevards other than the care of the trees.

Commissioner Vining pointed out that the act had been amended to include the boulevards with the parks. "That is true in this case, at any rate," assented Commissioner Vining.
Chairman P. Pocock thought it was preposterous for the council to expect the commission to care for the boulevards. "In any event, I will not vote to spend any of the commission's funds on Springbank as a park. If the citizens want a playground there, let them all help to keep it up and not take it out of the water consumers," said Commissioner Vining.

The general opinion of the commissioners expressed at the meeting was to the effect that the parks had been better maintained under the control of the commission than ever before. The subject of the city taking control was finally passed up with an "I should worry" attitude.

General-Manager E. V. Buchanan was authorized to ask the Hydro-Electric Power Commission of Ontario to investigate the conditions of the river at Springbank and report on the most advantageous position for the dam which it is proposed to erect to replace the one which was destroyed last spring.

The Ontario commission will also be asked to advise the best type of dam to construct, and report as to the cost and the horse-power which could be developed.

E. V. Buchanan was also authorized to build an extension of the river at the construct, and report as to the cost and the horse-power which could be developed.

PEACE RUMORS IN CITY HAVE CAUSED LOSSES OF MONEY

Stocks Sold and Cash Dropped in Action.

The premature circulation of peace reports in this city caused a loss of money to a number of Londoners. At least one case is known of a man who seized a local "extra" and immediately wired to his brokers to sell an amount of stock. The stock was sold before denial of the report was received, and the investor dropped a good round ugh to buy quite a few Victory "The United Press and the Free Press pressed quite a few hundred dollars of me, drat 'em," said the citizen.

NAME FOR REORGANIZED BOARD OF TRADE BEING VOTED ON BY MEMBERS

Considerable discussion has been coused concerning the choice of a ame for London's reorganized board trade. The decision is now up to There are those who are entirely satisfied for the old name, board of trade, to remain. This, of course, is the predominant name for Canadian commercial associations just as the name, chamber of commerce, prevails in the United States. Then, there are numbers of members who think the newly-expanded organization must have a new name which more fully stands for the numbers. stands for the purposes about which the organization has been bulit. BULLETS FROM VICTORY LOAN MACHINE GUN

Now is your chance to bring the boys home with real victory. Norman Tovell and "Cap" Kap-plansky—the \$100,000 beauties At least that's what they are called around headquarters. After the talk given to the Industrial salesmen by Norm and "Cap" Wednesday night, the boys went out and went \$100,000 better than their best previous ef-fort. Pay to get these boys talking to county salesmen at this rate.

Delaware's amateur farmers, headed by Controller Sid Little and Gordon Ingram, have subscribed \$10,000 to the loan. Must be an amateur farmer at this going.

The McClary Manufacturing Company's employees have subscribed over \$57,000 to the loan and only half the workers have been can-vassed. No wonder John J. Foot wears a satisfied and happy smile.

C. S. Hyman & Company have bought \$20,000 in bonds and 50 per cent to go. This is a real record. Ninety employees of the Murray Shoe Company invested in some \$20,000 worth of Victory Bonds. Dug right down to the sole of things, and then some, did these boys.

As old J. H. F. would say, "Let's go. Come on and buy some real Victory Bonds.

"We've got to pay the boys' wages "We've got to pay the boys' wages and other bills. That's why Victory Bond cash is so necessary," stated Chairman George Reid, last night. It's a nice thought. You are lending your money to heip pay your boy and keep him happy with good eats and warm clothing.

Organizer Norman Tovell has some opinion of The Advertiser Victory Loan scribe who insisted on interviewing him the other night even although he was splashing round in a Tecumseh House bath tub. The sight of so much water almost made the reporter sea sick,

but a remedy was handy. City Hall employees, to the number of 59, have bought Victory Bonds aggregating \$4,950. They're a saving bunch around that building.

E. R. Dennis, G. Hardy, J. R. Mc-Leod, C. G. Watson, C. R. Wright, F. E. Parnell, C. B. Chapman and L. F. Hewhill were the men who helped Gordon Philip and A. E. Ferte total Thursday's applications for bonds.

Wear your Victory Loan Buttons. A salesman may stop you on the street and go after you for another and still another if you don't.

Exactly \$111,600 was subscribed to the loan in the residential districts on Thursday.

CYRUS GAVE DEMONSTRATION OF HOW TO CLEAN OUT HOUSE WHEN RIVAL IS THERE AHEAD

It Was Annoying to Find W hite Man for Whom He Had Bought Beer Trying to Steal March on Him, But the Fines Are Stiff.

Cvrus Austin (colored) showed the natives living in the vicinity of 108 (Clarence, the speed in which returned soldiers can "clean" out a house. Cy arrived at the home of Mrs Evelina and on finding some "white trash" with his lady love, he started "over the person of Harvey Parker, retired hastily without any impediments to the Hindenburg back yard line, where he was joined very shortly by Mrs. Palmer. Some time later the police took a hand in the scrap, and Cyrus landed at the Carling streat station, the prisoner of Constable Waiter Pope.

Austin, who is a returned man sprang sharply to attention when his name was called to answer to the cagerly over the prisoner's box to chearken unto the tale told by Mrs.

Entire Navy in Rebels' Hands

Several thousand soldiers from Fehmarn Island have been ordered to Kiel. The workmen and soldiers' council, these advices state, has decided to make a stubborn resistance.

The military governor of Kiel, according to an Exchange Telegraph dispatch from Copenhagen, has accepted the following demands of the workers' and soldiers' council:

"The release of all military and political prisoners.

"Complete freedom of speaking and writing. writing.
"Released prisoners must not be punished.
"Officers who acknowledge and comply with the measures of the council shall be permitted to remain or to leave

the service."

Rebels Seize Authority.

After a conference between Secretary of State Haussman and Deputy Noske and the workmen and soldiers' council the following proclamation was issued:

"Comrades: For the first time political powers is in the hands of the soldiers. Great work lies before us. We have formed a council of workmen and soldiers and it will be responsible for the preservation of order."

A "hurry up" meeting of the London Ministerial Alliance was held this forence noon in the Y. M. C. A. to consider steps which the alliance might take in the way of planning for the introduction of the religious element into peace celebrations, when peace is declared. A committee composed of the president of the alliance, Rev. B. Snell, Revs. H. H. Bingham, W. R. McIntosh, W. H. R. Claris, Rev. Dr. Tucker and Adjutant Macdonald, was appointed to interview the mayor in regard to giving some religious aspect to the celebration in Victoria Park, such as the singing of hymns of thanksgiving and offering up of a brief prayer. It was suggested that hymns of thanksgiving and offering up of a brief prayer. It was suggested that it would be advisable to have hymns and the prayer printed on slips of paper for distribution that they may be followed intelligently by those beyond reach of hearing. The committee was further instructed through the civic authorities to approach the Catholic Church in regard to co-operation in the religious service.

He said that the siding is completed and has been for some time with the exception of the switch connecting directly with the main line. W. Spittal and P. NO SCHOOLS OPEN FOR WEEK ANYWAY

Board of Education Decides To Take No Risk.

One can imagine the kiddles cheering lustily for the board of education when they read that the schools are to remain closed for at least another week. This was decided at a meeting of the special committee this morning. It was thought that, in spite of the lifting of the ban by the board of health, it would be wiser to defer the opening of the schools for one week longer. Later it will be decided as to the date of the opening.

GREATEST CELFBRATION OF ALL TIME HERE WHEN ARMISTICE SIGNED

The Regent Tanors of Toronto have decided to open their next branch in this city, and will locate at 189 Dundas street, the former stand of the Edison Shop. Regent Tailors are known all over Canada for tailoring men's made-to-measure clothes at a moderate price. Their manager, who is at present in London arranging the details in connection with the opening, which will When official word is received in London that the Germans have accepted the Allies' terms and an armistice has been signed, London will stage the largest celebration that has ever been known in the Forest City.

A monster parade will be held, terminating in Victoria Park, where a short program has been agranged. Speeches will be made by Mayor C. R. Somerville, Brig.-Gen. Shannon and others. Bands will enliven the occasion with patriotic airs. A holiday will be proclaimed by the mayor on the day of the celebration.

The arrangements were completed for the demonstration at a meeting of the representative men of the city yesterday afternoon and evening. When the rumors were first hear that the armistice had been signed a meeting was immediately called with the view of having the celebration last night, but when it was learned that the rumors were officially denied as untrue. nection with the opening, which will be announced through the columns of The Advertiser at a later date, had this to say when interviewed by an Adver-tiser representative: "We have no com-petition because each and every de-

FOCH AND GERMANY'S DELEGATES ARE NOW IN CONFERENCE

GERMANY'S ENVOYS WILL BE GIVEN NO CHANCE TO EVADE THE ISSUE

Washington, D. C., Nov. 8 .- Information reaching Washington through diplomatic channels today indicates that if the German armistice envoys are not ready to accept immediately the terms offered by Marshal Foch the marshal will give them only until Sunday to sign.

No efforts at compromise or evasion by the Germans are to be tolerated; they must take what the Allies and the United States offer and law down their arms or there will be no interruption of the great offensive which is destroying the German military ma-

[By Associated Press.] Paris, Nov. 8 (noon) .- If the credentials of the German armistice delegates are found adequate they will be informed officially what the terms of the armistice are and that they will have a time limit of 72 hours in which to reply.

PRESIDENT WILSON WILL ANNOUNCE THE SIGNING OF THE ARMISTICE

Washington, Nov. 8.—The statement was authorized at the White House shortly after 10 o'clock this morning that whenever word came of the signing of an armistice in France President Wilson himself would announce it immediately.

When this assurance was given the Government had not been advised whether the German armistice delegation had reached General Foch's headquarters behind the French lines, where they were expected about noon today, Paris time.

It is stated that there should be no doubt that the armistice and the peace considerations are two distinct questions, and while Marshal Foch is duly qualified to negotiate the armistice, the peace negotiations are concerns of the Allied governments.

"Marshal Foch will do nothing more than communicate to the delegates the already prepared conditions of the armistice.

GERMANS CROSSED NEAR LA CAPELLE.

Paris, Friday, Nov. 8.—German delegates sent to the French front to receive from Gen. Foch allied terms for an armistice crossed the allied line near La Capelle last night. They were taken to a house where preparations had been made to receive them. They stayed their during the night and this morning (Friday) will be conducted to a place in the department of the Aisne, which is a neeting place fixed by Marshal Foch. This trip will take about four hours. Marshal Foch will have with him Admiral Sir Roslyn Wemyss, first sea lord of Great Britain, and Major-Gen. Maxime Weygand of the French army, Marshal

WASHINGTON DOES NOT EXPECT DECISION FOR SEVERAL HOURS

Washington, D. C., Nov. 8 .- Washinigton awoke this morning to find that its wild celebration yesterday afternoon and last night in the belief that the war had ended was premature. This morning state and war department officials who had kept an all-night vigil still were without information that German plenipotentiaries had signed the armistice terms. On the basis of a press dispatch from France that the envoys would meet Marshal Foch today, officials did not expect any definite news as to Germany's decision for several hours.

FOCH TO CONCLUDE ARMISTICE ONLY.

Parls, Nov. 8.—The powers conferred upon Marshal Foch are strictly confined to the conclusion of an armistice, according to the Echo De Parls. The amendments to the terms placed in his hands by the inter-allied council are closely limited, the newspaper says.

GERMANY APPEARS TO BE TRYING TO CLOUD THE ISSUE

London, Ont., Friday, Nov. 8. FOUR MEN OF GERMANY.

HEY CAME over No-Man's Land not as conquerors, but as suppliants for peace and more than peace. They came, these four men of Germany, to beg for mercy at the feet of Foch, to bite the dust their masters swore they would drench with blood in cleaving a pathway through lilied France to world domination.

Perhaps a few brief months before, these four men of Germany approached the mayors and burgomasters of sacked French and Belgian cities to demand the last ounce of human flesh for their may be milder Germans than the brutes who have raped and burned and drowned and enslaved, but of nations that have crashed. they, too, have been exultant in the vile, unclean deeds of Germany by land and sea and air. As THE TORONTO STAR pays a well-deserved members of the military party of Germany, they had visions of a world rendered supine, crushed and slavery-ridden by acts of frightfulness. They have gloried in the accomplishments of their country, but they glory no more.

They came not with the pomp of emperors, nor marched between the lines of a stiff-necked anticipation of spoils, human and material. They begged for leave to enter the lines of the British blown. On every side were their conquerors, the plain, quiet peace-loving men of many nations, banded in a soul pledge to carry the combat against evil to the veriest end. Torn fields and shattered cities loomed on every side. Eyes and eves and eyes bored into the minds of these four men of Germany. The barren fields, the ragged women and children, the legions of suffering, the quiet, stern marshal of France, awaiting the counsel for the great criminal to enter his plea of guilty. Guilty of so many crimes they cannot be enumerated! Crimes that range from massacre to erucifixion. No punishment can fit the deprayity of the criminal. Justice stands impotent to deal retribution that would fully pay the cost of give up our fight to appear independent. The thousand separate methods of violence and

A NEED OF CENSORSHIP

ENSORSHIP was certainly a necessary adjunet to government yesterday when the dissemination of unofficial reports concerning the signing of an armistice raised the hopes of housands of people only to dash them again, inured the prospects of the Victory Loan and disocated business in general. THE AMERICAN ELECTIONS.

YITH THE RESULT of the contests in South Dakota, New Mexico and Montana still in doubt, the American congressional elecions give the Republicans 236 seats in the House nd the Democrats 195, a Republican majority of 1. In the senate, with Michigan, New Mexico nd Idaho to be heard from, the standing of the parties is: Republicans 47, Democrats 46, a maority of one.

With the American people head and heels in he struggle, it is impossble to consider the result the polling apart from the war. The Republian leaders and press hail the turnover as a indication of the party's stand that unconditional arrender should have been Wilson's message to ermany. They further charge that the pacifist nd pro-German vote went solidly for the Demoats. While in Canada there has been a feeling hat the President was perhaps too ready to disuss rather than dictate, it seemed that his last ote called for a surrender as abject as could be amed. If Mr. Wilson displayed an inclination to egotiate that worried somewhat his own and the llied peoples, this was offset by his turning over the Allied command the deciding as to the terms an armistice. As the new House does not get to action until next spring the immediate peace egotiations will not be affected by the change. ven if this were not the case it does not seem ssible that a Republican Congress would hamper d confuse the Allied program by insisting on y radical changes in Washington's position. In stupendous task of reconstructing a wrecked orld which the Allied nations must face, hower, the new American Congress will find the llest scope for the best materal it contains.

An interesting sidelight of the elections is the to fresh prominence of Colonel Roosevelt. The lonel has never been exactly in eclipse. Such state of things is unthinkable, but by the colose of the Big Moose party the Rough Rider t much of his old-time hold on the public. Since war, however, he has been more or less eially leading the Republicans in their efforts to ree the present American Government to a more ressive attitude in the war. If the result of present elections indicates a change in the sidency two years hence we may again see colonel at the White House. At the present

noment he appears to be the biggest man in the Republican party and to millions he has always been the biggest American of today.

THE GREAT DOWNFALL.

ASTING back through history one fails to find a parallel to the collapse of Germany. Other empires have gone under to the point of obliteration, but no downfall of a first class power has been so sudden and humiliating as that of Germany. Four years ago Germany stood second as a naval power, first as a military force and right in the front rank commercially and industrially. Today her splendid fleets, war and merchant, are either hopelessly locked up, or the property of her enemies, her magnificent armies, once unequalled for efficiency and strength, are demoralized and disintegrating, and the powerful trade connections that she established in all parts of the world have been wiped out.

Four years ago "imperial" fitted the kaiser's kingdom perfectly. Germany's "shining sword" was the real thing. No policies of an international nature could be put into play without Berlin's consent. Prussian truculence and arrogance backed by a military strength, the most stupendous in the world's history, kept the world in fear. The Hohenzollerns had some reason to dream of world conquest. They were the new Caesars destined to build up an empire which would throw into the shadows those of Rome and Greece. Today this once mighty nation is begging for mercy at the hands of peoples she formerly despised, while her own subjects are heading rapidly for the reddest anarchy and confusion. From gleaming heights to gloomiest depths in four short mills of destruction and the last ounce of precious years, the passing of Germany from her former metals for the welding of the bonds of war. They splendid eminence to a second rate, broken, unhappy existence stands unequalled in the long list

tribute to the doctor. Most of us have been in the mood to believe our lives have been wholly in his keeping at some time or another. And most of us have got up from our sickbeds to go forth into our daily pursuits, soon to become less conscious of and grateful for the service of and pride-bloated German army, smacking lips in absolute helplessness of a sick person, and his the doctor. A verse written touching on the quick restoration to forgetfulness and ingratiand French troops, the men of bulldog tenacity slighted." Few men lie on a bed of pain and dragged down, bleeding to death from the nostrils to search for some key to a spiritual life. They visualize their own funerals without attempting wonder what will unlock the door into the beyond. Some have departed without finding the key, but the sickbed, like an open boat in a storm, is a real test of atheism and skepticism. Religion must bring comfort at such a time, just as the physician brings hope of restoration. But while preparing for the great contingency, we look into the doctor's eyes with an appeal to be kept on earth.

The physician standing at the sickbed during crisis must observe a great many subdued and saint-like characters. We are all such good little children when we are in desperate straits. We feel a sense of dependence and helplessness, and doctor must observe with what vainglory and indifference we again conduct ourselves when we These plenipotentiaries are "centre stage", are restored to health. THE PROBLEMS WHICH PEACE BRINGS.

[Boston Globe.]
While we are throwing our energies into the task of forcing the German military masters along the path of sur-render, on which they seem to have entered, it is well not to entertain dreams of too early a peace, or of too roseate an existence when it does come. It will probably require of us as much sacrifice, as much toil, and as much energy as the war has exacted and more creative labor.

Mere Cleverness is Always Expensive

TYLE features in shoes are only skin-deep. Unless they are backed by honest material and workmanship, the shoes will not give you good service. Shoes which are merely "clever" are always expensive, no matter what their price.

The multiplication of faddish and "clever" styles is wasteful, not only for the persons who wear them, but for everybody who deals in shoes. The demand for extra styles loads the dealer's shelves with expensive, slow-moving stock, and increases the manufacturer's overhead expense so that every pair of shoes he makes costs more. Besides, it helps to decrease the supply of leather, raising prices still higher.

If you will buy shoes for service rather than merely for effect, you will help to discourage this waste and you will get better value for your money. Look for the manufacturer's trade-mark on the shoes you buy. It is there because the manufacturer knows that the shoes will give good service, and is willing to sign his name to it.

And "the progress of the French revolution, arrested at the Congress of Vienna, has been extended," by the collapse of Austria and Turkey, according to the New York Tribune.

Instead of Germany consolidating an empire in Central Europe, interested observers now see the Allies encouraging the development of a group of small independent nations between the Alps and the Carpathians, between the Adriatic and the Danube, and in Western Europe. Yet the political task of building the new from the ruins of the old is never a simple one. The task ahead of us in Central Europe can, editors declare, be compared only to "unscrambling eg gs." The far-reaching importance of the surrender of Austria and Turkey is clearly outlined in the leading article in THE LITERARY DIGEST for November 9. It explains all the many ramifications of the subject, and is illustrated by helpful maps.

It was a critical moment in both our lives. I think Dicky recognized it as well as I, although he was livid with anger at my opposition. Four barrels of evaporated apples now ready to be handed over to the Red Cross Association for transportation overseas are the result of 36 barrels of apples donated by various farmers throughout the district round—about London, gathered in by gangs of boys under the leadership of C. B. Edwards, Ed. Wyatt, Alex. MacQueen and Mr. Kirkwood, prepared for evaporation by willing hands at the building secured for that purpose at the foot of King street, and finally evaporated at the Beck box factory.

A catastrophe in the shape of a wounded boiler in the Beck factory almost brought, this work to a conclusion, but the D. S. Perrin Company has kindly stepped into the breach and offered to evaporate the remainder of the apples. The objective now is four barrels of prepared apples per day, and in order to accomplish this many more workers are needed at the King street building. Already there is an excellent staff of workers under the leadership of Miss Priddis of the Abigail Becker Chapter, I.O.D.E., but the work of peeling apples, which is accomplished by a hand machine, is rather strenuous for the ladies, and it has been suggested that returned men might offer their services for this work, some going for that returned men might offer their services for this work, some going for two hours in the morning and others for two hours in the afternoon. "Mother," I interrupted, "this is awfully good of you to explain that I. didn't fintend to let the baby disturb Dicky, but you're really too used up to talk any more. Dicky, you may say anything you wish to me at some other time. But just now, please, please go away, and let me take care of your mother. She needs attention."

Jacob Deceives His Father. Genesis xxvii., 18-29.

QUESTIONS FOR TODAY.

13. Verses 25-27—Why did Isaac wants to give the blessing to Esau when he must have known that God intended it for Jacob, as God had told Rebekah before the children were born? (See Genesis, xxv., 23.)

14. How may we avoid being swayed by our own preferences, and be sure that warms of the children were born? (See Genesis, xxv., 23.) "You'd better—go—Richard," she said.
Turning on his heel Dicky went out of a foom, closing the door none too ntly behind him:

the foom, closing the door none too sently behind him:

"You — should — not — have—done—that—Margaret," she said feebly when I had put her in an easy chair, rubbed her hands and given her the drops which I always keep at hand for her.

"Listen, mother," I said firmly. "It is far better that Dicky think this of me than of you. At any rate, it's my affair, and I must ask you not to betray me."

"You're a good woman, Margaret," she returned, pressing my hand, and I'm sorry I interfered about the baby." one with his heighbor.—Ephesials, xxiv, 25.

The Western "U" Second Year Meds defeated the collegiate team by the score of 5 to 0, at Tecumseh Park on Thursday afternoon. Arscott played a good game for the collegiate squad, and this lad promises to show some speed at Sarnia on Saturday. The Western team got a touch down shortly after the beginning of the game when the Meds advanced towards the goal. A fake buck was made by the Western men and Cline scored a touchdown.

With another workout this afternoon the local collegiate rugby team will be ready for the Junior O. R. F. U. game at Sarnia on Saturday. Coach J. J. Syme of the local squad announced today that final arrangements have been completed for the trip to Sarnia, and that the boys will leave Saturday morning. The team which will go to Sarnia will not be as strong as the team which played St. Thomas Collegiate lads here some weeks ago.

WAR WORK DRIVE

More Than 1,000 Entries

Already Received - U. S. Govt. Horse Entered.

NEW YORK, Nov. 7 .- The National Horse Show, which opens at Madison Square Garden next Monday, will give its entire receipts to the united war

work campaign this year, instead of the Red Cross as was originally announced. This statement was authorized last night by the New York Chapter of the

Red Cross, which gracefully relinquished

the entire gross receipts for the coming show to the united war fund. Last year the amount turned over by the

Cross was \$63,000.

Cross was \$63,000.

The officials of the show communicated with the American Red Cross officials in Washington yesterday before deciding to make the change, and Robert A. Fairbairn, vice-president, and Alfred B. Maclay, chairman of the executive committee, expressed the belief last night that the Garden Show this year would be the means of raising \$100,000 for the fund. A committee of 50 women, headed by Mrs. Arthur iselin, has been organized to encourage the worthy project. The organizers will pay all expenses of the historic horse show, so that the entire receipts will go to the war work campaign.

There will be a decided military atmosphere at the show this year, as the war department is showing an unusual interest in the events. The Government has entered the stallion, Adams Express, in the class for sires suitable to improve the horse stock of the country available for army purposes. Captain A. Henry Higginson of the remount division of Camp Sevier will be one of the judges. Leave of absence has also been granted to numerous army officers from camp* about New York and from West Point, and these officers will ride in the jumping classes there will also

American cavalry officers will compete for the Beresford challenge cup offered by Colonel Lord Decies of the British army. Six West Point officers are among those who will compete in this class: Major D. O. Nelson, who won the event last year; Major John K. Brown. Captain M. M. Coopsening, Captain Winn Lisle, Captain John W. Rafferty, and Lieutenant O. C. Jadwin are the West Pointers entered. They will also compete in the Grafton broad jump and the open jumping contest, in which they will compete against the foreign.

they will compete against the foreign officers.

There will be more than sixty new exhibitors in the show this year, prominent among these being James W. Gerard, former ambassador to Germany. Judge Gerard is a breeder of saddle horses, and frequently is seen on the Central Park bridle path on his brown mare, Virginia Girl, which he has entered in the show.

The total number of entries has reached 1,100, and horses are coming from as far west as Oregon, while the south, New England and the middle west are sending their best saddle horses and hunters. In the hunting classes this year there will be an innovation, as many of the men who have taken part in these events are now in the army service, and they will ride in uniform instead of the familiar huntsman's uniforms of the past.

GERMAN PRISONER TRADES IRON CROSS FOR A CIGARETTE

Captured Huns Show Surprising Contempt for Kaiser's

Instead of the arrogant and almost insolent manner which characterized their predecessors, when the Germans were sweeping everything before them, the latest contingent seems humble and crestfallen. Almost every officer and one in ten of the men wore the ribbon of the iron cross.

Our Consumers' League

The Thing of First Importance

What would you say, reader of the Consumers' League page, if this queswhat would you say, reader of the Consumers League page, it this question were put up to you concerning the city, town, village or municipality in which you live? Have you thought very much about it, and have the war and the terrible epidemic of the past month shaped to any extent the answer

In the past few weeks London has not only waged a big campaign against disease and death, but has also had two other campaigns in progress, one to extend the board of trade, and one to raise the city's quota of the Victory

But what has an expanded board of trade to do with promoting the welfare but what has an expanded board of trade to do with promoting the welfare of the community? A very great deal, if organized for the purpose for which London's enlarged board of trade is being organized. It's very reason for expansion is not alone to make London become a bigger city, but a greater and a better city in every keyes of the word. In delay, this the board of trade a better city in every sense of the word. In doing this, the board of trade recognizes the value of the co-operation of the women of London to the extent of throwing open the membership to them and especially urging that each women's organization be represented by at least one member on the board of

At the present time a "thought survey" is being taken of the members, who number 805, including five women. Groups are called together of fifteen or twenty members by a chairman appointed. The organizing secretary explains the aims and avenues for service through which the members can work and are expected to work.

After this each one present in turn is expected to answer one or both of these questions printed on sheets of paper and given out on entering the room: 1. What do you expect the organization to do for the promotion of your own line of business or activity?

2. What, in your opinion as a citizen, is the thing of first importance to be lone for the community as a whole? The other day the writer attended one of these group meetings. There was

one other woman present in the group of 22, representing banking institutions, loan companies, manufactories, fifteen or sixteen kinds of business and professions. The other woman was the member appointed to represent the Young Women's Christian Association. Under the circumstances she might be expected to consider the welfare of the city as a whole first, and the organization she represented second. Her answer combined the two interests. The surprising thing was to find that the "hard-headed businessmen" present may have had good sound business heads, but they placed the public

welfare before their own business. There were only one or two who didn't answer the second question first, and give special attention to it. As far as can be learned, this attitude is characteristic of all the group meetings that have been held. Doesn't this indicate a good, long step in the directions of realization of brotherhood among

WANTED-PUBLIC HEALTH EFFICIENCY. In the revealing light of the epidemic which has swept over London in the past month, how would you answer that question: "What, in your opinion as

a citizen, is the thing of first importance to be done for the community as a The answer the writer would give to such a question is this: "In-

sure as far as possible the public health, through the enlargement, reorganization and adequate endowment of the department of public health, and co-ordinate in it under one strong executive head all activities engaged in promoting the public health." There are several reasons for this answer.

In the first place, both the war and the epidemic have brought the keen realization that the citizen is in truth the community's and the nation's greatest asset. Houses alone will never make a city, but the people who live in them. When the citizens are sick, or even a large number of them, the wheels of business and industry become clogged, and, where an epidemic serious enough, actually paralyzed. Murmurings of possible failures, owing to the deadness of business during the epidemic have been heard on all sides. The epidemic, therefore, has clearly demonstrated the great value of health in a community merely from a commercial standpoint.

Money, big guns, munitions of every description, ships and millions upon

Money, big guns, munitions of every description, ships and millions upon millions of tons of food alone could never have won the great war. If it hadn't been for the "first hundred thousand" and subsequent armies of PHYSICALLY masters instead of planning a bigger, better London.

Yet, in the province of Ontario in normal times, one of every ten of the children to see the light of day in this province passes out in its first year. Moreover, it is said that for every one child who dies, five grow up to be

Moreover, it is said that for every one child who dies, five grow up to be handicapped all through life by ills which might have been prevented or over-

Statistics compiled several months ago revealed the fact that London, which has always prided itself on its good water supply, its freedom from conditions its acceptability to the country, etc. in 1916 had a much more slum conditions, its accessibility to the country, etc., in 1916 had a much more sum conditions, its accessibility to the country, etc., in 1916 had a much more shocking death rate among children than the province as a whole. EIGHTEEN per cent of the children born died in their first year. To give the exact figures, 1,196 babies were born in London in the year 1916, and in the same year 219 died in the first year after they were born. That doesn't constitute a very strong arrangent for people with little children to locate here does it? year 213 died in the first year after they were born. That doesn't constitute a very strong argument for people with little children to locate here, does it? To be sure, Dr. H. W. Hill, former medical officer of health and director of the Institute of Public Health, was responsible for the statement that it wasn't the city itself, so far as location, water supply, etc., were concerned, that was to blame, but ignorance and lack of training on the part of mothers. Doesn't that point to the supreme importance of adequate educational facilities along child welfare and public health lines?

NEEDED-ONE COMMAND.

London has several distinct agencies working in the interest of public health, just like the Allied armies were each doing their own bit of battering against the common foe before Gen. Foch took supreme command. The variance health out most callength. Now one made an advance how are they ous armies held out most gallantly. Now one made an advance, now another. Now the war went well in one zone, while it broke down sadly in another. Then came the plan of one command under the most brilliant strategist procurable. The whole system of warfare was immediately co-ordinated and

curable. The whole system of warfare was immediately co-ordinated and increased immeasurably in efficiency, as demonstrated by subsequent history.

Why not thus co-ordinate under one strong executive head all public health under the present working independently?

Under the present detached methods overlapping is bound to occur, and there is always the possibility of a conflict of interests in working for one aim. For example, a valuable suggestion has been made to the board of health by the director of the women's emergency relief organization, which has by the director of the women's emergency relief organization, which has played such a prominent part in fighting the epidemic, a suggestion to the effect that school lunches should be provided for children coming to school improperly nourished, owing to the illness of the mother or for some other cause. Further, the mother in her home should receive proper nourishment cause. Further, the mother in her home should receive proper nourishment when sick, and there is no one to prepare food for her. It was suggested that certain chapters of the I.O.D.E. might assist. Under whose direction should

Promptly the answer came to the board of health: "Under the board o

Then what about the school nurses, who are under the jurisdiction of the board of education, and not answerable to the board of health at all? Might there not be something from them to say on the question? Last winter London had a child welfare campaign and exhibit which succeeded in arousing much interest in the subject of the conservation of child life. This was followed up by the organization of a Child Welfare Association. The outstanding activity up to the present has been the holding of weekly children's clinics under the auspices of the association at Victoria Hospital. Steps towards the establishment of one, two or more "well baby clinics" (clinics for children of pre-school age) were being given consideration by a special committee appointed for the purpose just when the epidemic broke out. The Child Welfare Association has a committee on pre-natal care of mothers. More than a third of the babies who are counted in the list of those who die in the first year lose their lives because of the lack of proper care of the mother before the baby is born, or the poor physique of parents. The association this summer was fortunate in securing a most capable child welfare nurse to take charge of

"Whatever would we have done had it not been for the public health nurse and her ally, the statistician of the Institute of Public Health, in this epidemic crisis?" is an exclamation heard on all sides. The volunteer workers have rendered magnificent service, but behind them was the trained nurse, and experienced young more of the best of judgment to give advice and direct IN THE NICK OF TIME. experienced young woman of the best of judgment to give advice and direc-

Through the strain of the Spanish influenza visitation, the tuberculosis nurses have heroically done their part with the quietness, thoroughness and efficiency which has characterized their ministrations the year round. Then, in and out to many homes have gone the Victorian Order nurses on their usual duties, the school nurses from the first have come splendidly to the rescure. And so each department of public health service has done its part as a After the epidemic has really waned there are going to be all manner of

aftermath problems to be met through public nursing service LEAST MACHINERY, BEST RESULTS.

Does the up-to-date manufacturer clutter up his plant with unnecessary machinery? Because he is up-to-date he cuts out all the non-essentials in machinery, organization and methods of conducting his business. His aim is TO GET THE BEST RESULTS WITH THE LEAST POSSIBLE MACHINERY. That is what the aim of a city as intelligent as London should be in promot-

ing to the greatest possible degree the health of its citizens, which also spells the city's prosperity and wealth. Why not an adequately endowed department of public health, with a strong executive head and various departments, such as the public health nurses, to cope with contagious diseases, the school nursing department, the bureau of child welfare, etc.? And why not back up such a department in every possible way in its edu-

cational efforts?

QUERIES REGARDING MILITARY SERVICE

Address Your Problems to the Milltary Editor of The Advertiser and They Will Be Answered From Off. cial Information

E. J. T.: Q.—Is it correct that owing to the influenza epidemic the men on harvest leave are not being 2. If so, must we wait until ordered to report or will we have to report as usual?
3. A soldier on leave of absence is in III-health, suffering with lung trouble. On returning to his unit could he be brought before a medical board and have a thorough examination as to his physical condition?

A.—1. Yes. Harvest leave has been extended until November 15, owing to the Spanish influenza epidemic.

2. If you have not already had your harvest leave extended, you should report for duty upon the expiration of same as originally ordered, but it is likely that by this time your officer commanding has notified you of the extension.

commanding has notified you of the extension.

3. The best course for him to pursue would be to parade sick on reporting for duty, and advise the medical officer of his illness and if his condition warrants such, the medical officer will refer the soldier to a medical board for a fearthing explanation.

L. O.: Q.—In 1917 my son was examined by the military authorities and was placed in Category E. About ten days ago he was ordered for re-examination by a medical board, and was placed in category A2. When will category A2 men be ordered to report for service?

2. Where should I appeal for a re-examination?

3. Should I make an appeal for exemption on the ground that his constitution is not strong and that I have one son in France?

A.—I. Men having their category raised to A2 on re-examination are usually allowed about two weeks' time before being ordered to report for military service.

before being ordered to report for military service.

2. You cannot appeal this examination, but if your son provides himself with a certificate from his family physician certifying to his condition, and gives same to his commanding officer, a searching medical examination will then be made for his aliment.

3. Hawing been found fit for service by a military medical board composed of bona fide doctors, you have no ground for exemption regarding your son's fitness for service. If he is your only remaining son he may secure exemption, and you would be justified in making an appeal for him on this ground.

1. C. P.—Q. 1. Could a registered 19-year-old obtain a permit to go to the United States to work, and if so, from whom would he obtain said permit?

2. Is the 19-year-old class to be called out this fail?

3. What units entity man for service.

called out this fall?

3. What units enlist men for service in Canada.

4. Could a man claim exemption provided that he was the sole support of a widowed mother?

A.—1. In order to proceed to the United States all males of military age must provide themselves with a passport for same, and you would also first have to obtain permission from the deputy registrar, Royal Bank Building, London, Ont., to leave the country. Passports are obtained from John Riggs, immigration officer, Carling Block, London, Ont.

immigration officer, Carling Block, London, Ont.

2. There is no official information available as to when this class will be called out for military service.

3. The Canadian Garrison Regiment enlists men for service in Canada, but they must not be in a higher category than C. The Canadian Engineers will also accept men for service as clerks or stenographers provided that they are unfit for overseas service. There are no units in Canada accepting category A recruits for home service.

4. He could claim such, but would not likely receive it. However, he could apply for leave of absence on these grounds on reporting for service and his case would be considered upon being referred to military headquarters by his commanding officer.

PROGRESS BULLETIN OF MIDDLESEX VICTORY LOAN

The honor of heading the list on the eighth day of the canvass in Middlesex County falls to Lucan Village, with 69.30% of objective reached. Lucan bids fair to be the first to win an Honor Flag. Strathroy holds second place, with 53.11%, while Glencoe is a close third with 51.14% of objective. Among the townships Biddulph has made the highest percentage of returns with 33.45% of objective. Metcalfe is next with 30.76%. Caradoc follows closely with 29.51%. The townships that make the best showing are those in which all the canvassers have been working conscientiously every day from the start.

And now there are three important departments of the Government headed by men who have no seat in the Commons, where legislation is initiated and estimates are passed—labor, civil restablishment (under Sir James Lougheed), and postoffice (under Hon. P. E. Blondin, defeated in two different seats last election). Parliamentary under-secretaries for each of these departments will have to be appointed to represent them in the House. Parliamentary under-secretaries cost the tourtry \$5,000 a year apiece. Hugh Clark Shifted.

Hugh Clark Shifted.

Talking of parliamentary under-secretaries, the chief "reconstruction" has apparently been confined to them. Col. Hugh Clark, who for the past two years has been parliamentary under-secretary of state for external affairs, has been moved to the same position in the militia department, and F. H. Keefer, M.P. for Fort William, has taken Col. Clark's former position. Just what strength the transfer will add is not clear, as a parliamentary secretary of militia has not been considered necessary for some time past, and cannot be any more necessary with peace approaching. Then, F. B. McCurdy has resigned his position of parliamentary secretary of civil re-establishment, a position which might appear to be useful, but which, it is stated, will not be filled. Mr. McCurdy, it is stated, is no lover of Union Government.

Berths All Occupied.

Undoubtedly there are all sorts of difficulties in effecting reconstruction. There is an amazing dearth of vacancies on the bench or in the Senate, and it is hard to get any one out of the cabinet unless there is a nice, soft bed for him to fall upon. Moreover, it has not been the custom of Sir Robert Borden, as it was the reputed custom of the late Sir John A. Macdonald, to secure the resignation of all his ministers made appointments, so that it is easier for Sir Robert to talk of getting rid of ministers than to get them to go out. Hence Hon. Dr. Reid stays, Hon. Martin Burrell stays. In fact, everybody stays but Mr. Crothers.

There is still another difficulty. It

Mr. Crothers.

There is still another difficulty. It may be hard to get men to go out of the Union Government, but it is still harder, apparently, to get anyone to setp in from the outside and take their places. To those who are in, the future is not very bright, but brighter than if they went out. To those who might be wanted in there appears to be no future in union.

Dunlop, eldest son of Mr and Mrs. Andrew Dunlop, from pneumonia. The deceased was popular and operated the Doidge garage. He was only 32 years of age, and leaves a wife, who is also ill, and three little sons, also three brothers, C. The funeral took place this afternoon at his late residence, and was conduct-ed by Rev. Or. C. A. McRae of the Presbyterian Church.

To Avoid and Refleve Influenza

BY DR. FRANKLIN DUANE.

Many people have been frightened by what they have read or heard of influenza. The more you fear the disease, the surer you are to get it. Go right about your business and forget it. As the disease is spread principally by contact through sneezing, coughing or spitting, many health authorities have advised that everyone wear a gauze, which is daily washed and saturated with a one to five hundred solution of zinc sulphate in water, and then dried before wearing over the nose and mouth. You should avoid crowds, common drinking cups and public towels. Keep your strength up by taking lots of exercise in the open air and plenty of nourishing food. Dec. Barley—

Headway.

If you have any of such symptoms as chiliness, nasal obstructions, flushed face, headache, feverishes, restlessness, weakness, or irritating cough, give up work at once and go to bed. This will save your strength to help overcome the disease. Put your feet in hot water for fifteen minutes. Thoroughly loosen the mouse. The much-heralded reconstruction of the cabinet has proven to be a false alarm. True, a feeble attempt has steen made to make it appear that strength has been added to the Government. Hon. T. W. Crothers, after nearly 70 years of a more or less active life, has decided to retire from the department of labor. For his successor the Government had to go to that hon orable but non-lective body, the Senate, where it has already gone for two other of its ministers. Gleeon Robertson enters the cabinet with portfolio and without having to run the risk of not being elected.

COUNTRY HOAXED BY FALSE REPORT THAT ARMISTICE HAD BEEN SIGNED

People Went Wild Over Report Found Later To Be Untrue.

LONDON DISPROVES RUMOR

Secretary Lansing Cabled and Received Word That Report Was Unfounded.

ASSOCIATED PRESS DISPATCH. NEW YORK, Nov. 7 .- False reports that Germany had accepted the terms in of the armistice and that fighting had ended threw the country into a delirium today and turned out to be the greatest hoax of recent years.

Official assurances that the report

official assurances that the report was false failed to check the almost riotous demonstrations which swept over many American cities, and millions of Americans will not know how they were fooled until they read the morning newspapers.

Said Fighting Had Stopped.

A dispatch cabled from France to the United Press, and picked up and circulated through the country by another news agency, destared the armistice signed at 11 o'clock this morning and fighting ended at 2 p.m.

Official dispatches from France to the state department at Washington testify that the Germar. commissioners were not to meet Marshal Foch until 5 o'clock

that the Germar. commissioners were not to meet Marshal Foch until 5 o'clock this afternoon, and dispatches received tonight from the American army on the Sedan front show that at 6:30 p.m. the

department in Washington issued this statement:

"The report that the armistice with Germany had been signed is not true. When it reached the department of state this morning an inquiry was at once dispatched to Paris. At 2:04 o'clock this afternoon a message, in reply to that of he department, was received from Paris. It stated that the armistice had not yet been signed, and that the German delegates would not meet Marshal Foch until 5 p.m., Paris time, or 12 noon, Washington time."

None of these unfounded rumors, of FORD HAS LOST OUT.

Shown To Be a Hoax.

None of these unfounded rumors, of course, was received or distributed by the Associated Press, which, on the contrary, was able by investigation carried out through official channels to establish that the story was a hoax.

The false report, however, was not easily overtaken by the truth, and as it spread through the country it gathered momentum until demonstrations approaching hysteria ruled in many cities.

Business was suspended, schools were closed, bells were rung, whisties shricked, prayers were offered in churches, parading citizens jammed the streets, and the scenes usually attendant upon New Year's eve and election night were intensified.

Worse and Worse.

After the report had been called to the state department's attention, and when a reply came through, saying the armistice had not been signed and the fighting had not ceased, more time had elapsed.

At 3:35 o'clock in Paris it was official-

armistice had not been signed and the fighting had not ceased, more time had elapsed.

At 3:35 o'clock in Paris it was officially announced that four German officers bearing a white flag would probably arrive at Marshal Foch's headquarters some time tonight. That announcement was one hour and thirty-five minutes after the hour reported as the end of the fighting, and Associated Press dispatches flied with the American army on the Sedan front at 6:30 o'clock tonight, showed that an hour and a half after the German commissions had been expected the troops still were fighting their way forward. This dispatch said clearly that the American army was consolidating its positions and preparing for a further advance.

London Disproves it.

When it was 6:30 o'clock tonight in London, the foreign office pronounced unfounded the rumors that the armistice had been signed, and at that hour no word had been received in the British capital that the German delegation had crossed the French lines. It should be borne in mind that it was then four hours and a half after the hour reported as set for the cessation of the hostilities and more than seven hours after the hour reported as the signing of the armistice. Government telegraph lines connect London and the British headquarters, not far from the place fixed for the meeting of the German London, therefore, is certain to receive prompt reports when a truce is arranged.

Tonight as the clocks in France were turning toward middleth than was

ranged.

Tonight as the clocks in France were turning toward midnight, there was still no word that the German delegates had appeared at Marshal Foch's head-quarters and much less affixed their terror to appropriate the statement of the stateme

signatures to an armistice

TORONTO, Nov. 7.—Prematurely celebrating the end of the war, this city cut loose early this afternoon.

A report that the armistice had been signed was bulletined at noon by an afternoon newspaper, and in a surprisingly short time the news spread throughout the city. The result was that thousands of persons, instead of returning to work in the afternoon, took

a half holiday and hurried downtown Whistles blew, bells rang and minute Whistles blew, beils rang and made by minute the volume of noise increased until by 1 o'clock the whole city was aroused, and then the din grew into such large proportions that could only come from thousands of horns and tin ans, each being made to contribute

pans, each being made to contribute to the utmost to the general noisy effect.

Business Suspended.

Business generally was suspended for the afternoon, the large department stores being among the first business places to close. Their employees went forth in big motor lorries to acclaim the supposed victory for the Allies, and shortly afterwards lorries filled with munition workers joined in the parade, and these were still later augmented by various kinds of motors, all packed with shouting, cheering groups of boys and girls, followed by constantly increasing numbers of persons on foot, each trying to outdo the other in splitting the air with noise.

Delirium Hangs On.

The deministration was kept up tinued in a desultory manner this evening, notwithstanding that no official word had come as to the signing of the armistice by Germany. Indeed, the crowds refused to pay any attention to afternoon "extras," which, in three-inch letters across the top of the front page, announced that the armistice had not been signed. They wanted to celebrate, and they would not be denied in this—whether the news warranted it or not.

Premier of Bavaria Sends Ultimatum to German Government.

PARIS, Nov. 7. - There is reason to believe, according to a Berne dispatch to the Temps, that the premier of Bavaria has sent an urgent note to the German Government to the effect that If an armistice is not concluded without delay he will be obliged officially to order the Bavarian troops to return |

This action, it is added, would be taken owing to the fact that Bavaria is menaced on her southern frontier by Allied forces, and that the internal situation in Bavaria is unsatisfactory.

SOCIALIST MINISTERS, TOO. DEPENDENTS OF SOLDIERS DRAW A HIGHER CHECK

Order - in - Council Increases Allowances by \$5.

OTTAWA, Nov. 7 .- An order-incouncil has been issued increasing the rates of separation allowance payable to the dependents of private soldiers, non-commissioned officers, first class warran officers and lieutenants, serving with the Canadian Expeditionary Forces, effective September 1, 1918, as

1. Dependents of private soldiers and non-commissioned officers from \$25 to 2. Dependents of first class warrant officers from \$30 to \$35 per month.

3. Dependents of lieutenants from \$30 to \$40 per month.

As the majority of the November checks and already been printed before the order-in-council was passed, it is not possible to include the adjustment of this month's issue, but the amount due on account of these increased rates for September, October and November will be included in the issue of December checks.

The distribution of December checks will be made from militia headquarters as well as by unit paymasters, by the 16th of December.

yet comparatively unknown to the gen-eral public of today, is the strange malady called "St. Anthony's Fire," made a source of revenue by collecting the ergots and offering them for sale to wholesale drug houses.

disease does not seem to be so serious as in former times.

In a contribution to the Scientific American Aibert A. Hanson gives an interesting account of this malady, and tells how he recently received a package containing a number of peculiar, black horn-shaped grains, accompanied by a request that the "seeds" be identified. The sender stated that the "seeds" contaminated a shipment of rye, and since they were new in the locality, he thought possibly a new weed might thus be introduced.

The so-called "seeds" were immediately recognized as being hardened fungal masses called ergots; hence they are in no way to be compared to seeds.

"The fungus which causes the formation of ergot grains is very widespread," says Mr. Hanson, "occurring in practically all parts of the country and attacking a large variety of grasses, particularly in stock-yraising communities in the central and western states."

Mr. Hanson says that he is not familiar with the effect which would be produced in liquors distilled from strongly ergotized grain, but that it is possible, however, if sufficient of such liquor is imbibed, a permanent cure for the liquor habit will result, for the indications are that such a practice might end fatally. It should be stated that targe single doses are necessary to prove of great harm.

"Surely shed the disease becomes chronic, at treatment is usually of no avail to the unfortunate victim; tannic acid may be unfortunate victim, tannic acid may be unfortunate victim; tannic acid may be unfortunate victim; tann

"The infection is primarily a plant diseases. In order to secure widespread distribution of its spores, the fungus resorts to the interesting expediency of secreting a sweet, sticky 'honey-dew,' which is devoured by files and other insects. This sweet secretion serves the two-fold purpose of attracting insects and affording a means by which the fungal spores are caused to adhere to over to destroy the pest. One farmer has been reported as losing a thousand ungal spores are caused to adhere to over to destroy the pest. STRATFORD TO HAVE BIG TIME WHEN NEWS COMES OF ARMISTICE Organizer So Far Disappoint-

Some Other Towns Celebrate on Rumor Which Is Later Denied.

"FAKERS" ARE RESPONSIBLE WINDSOR, Nov. 7—William Ship-ley, a 15-year-old boy, was acci-dentally killed here during the street celebration tonight, when he lost his balance and fell from a motor truck, striking on his head. Coroner Labelle has ordered an in-quest for Friday night.

stratford, Nov. 7—Believing that peace is not far distant Stratford citions at a public gathering this evening took preliminary steps towards organizing what will be the most momentous celebration in the city's history when the final word comes that Germany has accepted the Allied armistice terms. Little credence was placed in unofficial reports received here.

The situation was discussed at length and it was felt that the demonstration should be an elaborate one. A committee, composed of the following was appointed to complete details, which can be put into operation on a very short notice: Mayor Monteith, Ald. Scott, D. M. Wright, Dr. Silcox, W. Preston, J. Stevenson, R. Hurst, Rev. Mr. Martin, Rev. Mr. Cluff, R. Patterson.

It is honed that N. E. Davidson, K.

and the din made by the overjoyed people was terrific.

About 3:30 further word denied that peace had come. This news took some time to reach the crowd, and till about 5 p.m. the people continued to celebrate. A monster mass meeting was arranged in the evening about 8:15. The speakers were Mayor Webster, ex-Mayor R. D. Little, W. S. Middlebro, M.P., and Rev. Dr. Thurlow Fraser. All the speakers said that while the celebration was a little hasty, yet it was only a matter of days or hours perhaps before official word would come. The celebration is still being kept up, and excitement still in the air, and the people remaining congested here hoping for word to come.

ACTED ON UNOFFICIAL REPORT.
WINDSOR, Nov. 7.—In common with
the rest of the country, Windsor celebrated wildly today following the receipt of an unofficial dispatch over the
United Press wires to the effect that
the German commissioners had signed
Foch's armistice and that peace had
come. come.

In Detroit the occasion was observed even more strenuously, and for a time in the early evening traffic in the downtown streets was impossible. Several biplanes from Selfridge flying field hovered over the downtown section of the city, while from Dayton, Ohio, came a huge dirigible, carrying half a dozen soldiers. This great bag moved under perfect control, and excited much interest, being the first air machine of its kind seen here.

GUELPH, Nov. 7.—Guelph this afternoon and this evening broke loose and celebrated in royal fashion on the receipt of unofficial news later denied to the effect that Germany had signed the armistice terms of the Allies.

ST. THOMAS, Nov. 7.—In view of DENIAL ISSUED LATER.

SCHOOL; PRESENT ONES

BRANTFORD, Nov. 7.—At a meeting of the board of education here tonight a resolution was passed, to be sent on to the city council, asking that a bylaw be submitted to the ratepayers at the January elections to raise \$75,000 for the lerection of a new school on Rawdon street south. All the Brantford schools were reported to be in a condition of congestion, in spite of the erection last year of temporary structures.

GASOLINE DEALERS OF PETROLEA CLOSING UP

PETROLEA, Nov. 7. - All the sellers of gasoline at retail in Petrolea have quit, and have put signs up to that Users are buying in barrel lots from the refinery. Retailers say gasoline cannot be handled without loss at 10 per cent advance on the cost. Even at a higher percentage of profit it is a debated point as to whether it pays to handle it at all, where expert ma-chinists are interrupted at their work to serve the public with small lots.

EPIDEMIC HAS ALMOST DISAPPEARED FROM CITY

ST. THOMAS, Nov. 7.—According to information from Health Inspector Shaw's office the epidemic of influenza is now on the wane, and although he could not get in touch with a large number of the physicians today, he says it has almost passed out of existence.

The removal of the ban on public gatherings will not, however, be considered before Sunday, although there was some talk today of its being removed on Saturday. The authorities warn all those who are suffering from the disease to stay indoors and not mingle with the public in any way.

ELGIN HAS REACHED ONE-THIRD OF TOTAL

ed With Showing.

ST. THOMAS, Nev. 7.—A railwayman, who is handling the Victory Loan campalgn in the local shops and among the various road employees, stated tonight that the men who are responding most nobly to the cause are those who are employed in the shops.

Elgin County has up to date just exceeded the \$1,000,000 mark, and although over half of the time set for the campaign has passed, Elgin has only succeeded in reaching a third of its objective. A good number of bonds were sold today in local factories, almost every one of them winning the "100 per cent flag." Campaign Organizer Grills of Toronto states that he is disappointed with the showing made by St. Thomas, but he said that probably they would make a big rush at the last minute. Something sensational would, he said, be imperative if the county's objective is to be even reached.

SARNIA WILL LIFT BAN ON GATHERINGS, **EFFECTIVE SUNDAY**

Mr. Martin, Rev. Mr. Cluff, R. Patterson.

It is hoped that N. F. Davidson, K. C., of Toronto, and Lieut. Webster, returned on furlough from the front, will speak.

Three bands will be in the parade, and the entire county will be represented. Arrangements are being made to secure representative from all the industrial concerns, patriotic organizations, etc., to walk. Autos will carry large Victory Loan floats.

LITTLE HASTY, SAY SPEAKERS.

OWEN SOUND, Nov. 7.—Owen Sound is celebrating this afternoon and tonight. About 1 o'clock an unofficial rumor was received that Germany had capitulated. While not official the word was thought to be reliable, though it was later denied officially. All the possible noise-making contrivances that could be found were pressed into use and the din made by the overjoyed people was terrific.

About 3:30 further word denied that

FOR COUNCIL OF 1919

ST. THOMAS, Nov. 7.—Citizens, especially those who are allowed to vote in the municipal elections, are already beginning to make their choice of candidates in the coming municipal contest, and among them are several new names. Only two or three men have signified their intention of running this year, and among these is R. J. Miller, well-known local real estate man. Mr. Miller has stated that he will enter the contest, and he is promised a reasonable amount of support. He has expressed himself as keenly interested in the street railway proposition, although he has not yet defined his position.

Ex. Alderman L. G. Thompson is another well-known citizen, who will enter the coming fight for municipal honors.

enter the coming fight for municipal honors.

One of the foremost questions to be dealt with in the coming year and one that will be an important topic in the coming election is the local gas works. Some change is being demanded by the public, and they will insist that the present council give a report of their management during the past year. The next election, judging by public opinion, promises to be the most interesting in years.

POPULAR CLERIC HAS RECEIVED CALL TO GO TO ST. MARYS PASTORATE

ST. THOMAS, Nov. 7 .- A special the word of victory today. A great crowd of people at the park this afternoon joined with great fervor in singing "Praise God, From Whom All Blessings Flow." The celebration was arranged by Mayor Roberts, and included a religious service of thanksgiving at the park, at which the local clergy took part.

WALL STREET IS WAR HAS ENDED

Practically All Leading Stocks Except War Issues Bound.

AVALANCHE OF BUYING

Mutiny at Kiel Gives Initial Impetus of One to Three Points.

NEW YORK, Nov. 7 .- Wall street experienced one of the wildest and most bewildering sessions in its varied ex-perience today, the stock market re-sponding feverishly to unconfirmed re-ports of the signing of the armistice by Germany. The financial community ac-cepted these reports and gave itself over to a delirium of bullish enthusi-asm.

Fractically all the leading stocks, excepting those of the distinctive war group, made advances ranging from two to thirteen points, the rise being largely maintained at the close.

Peppers, doz., retail. largely maintained at the close.

Great Press of Business.

In recognition of the desire of the brokers to celebrate, the authorities of the exchange suspended operations half an hour ahead of the regular period, but the press of business as represented but the press of business as represented by buying orders was so great that

but the press of business as represented by buying orders was so great that final transactions were not recorded until some fifteen minutes later.

Stocks opened at gains of one to three points, cables from neutral points telling of revolts and mutinies in the German army and navy, inviting further extension of long accounts.

Munition Stocks Decline.

Cauliflowers, retail, each Hubbard squash, doz. 150 green peppers, doz. The followers of the control Rumors of the alleged ratification of the armistice gained currency at midday, and exerted little influence for a time, except to cause further heaviness in the munitions and allied stocks.

FINANCIAL AND COMMERCIAL IMPOSSIBLE TO WRITE SANELY

The evening grain letter to The Advertiser sums up the general financial situation well when it says: "It is not possible to write sanely or soberly of commercial matters today. Sufficient to say that probably one of the greatest reasons in bringing about an armistice is the famine condition prevailing in all of Central and Western Europe. For some time to come North America will be called upon to feed what remains of the so-called civilized world. There has

Chicago, Nov. 8.—Fresh weakness de-eloped in the corn market today as a veloped in the corn market today as a result of expectancy that an armistice with Germany would soon be signed. Pressure to seil was general, and buying support scanty. Pending definite announcement from the White House regarding an armistice, the volume of trading was only fair. Opening prices, which varied from unchanged figures to 3½c lower, with December and January both at \$1 20½@1 22, were followed by a moderate rally and then by a descent lower than before.

Oats showed a little more strength than corn, although affected to some extent by the bearish action of corn. Hedging sales were in evidence. After opening unchanged to ½c lower, the market scored a slight gains, which afterward disappeared.

WALL STREET.

New York, Nov. 8—Wall Street, 10:30 a.m.—Leading stocks opened at sharp declines today as a result of yesterday's false reports of the signing of a truce between Germany and the Allies. Reactions of 1 to 1½ points were registered at the outset by Mexican Petroleum and many of the leading rails, as well as secondary issues of that division. Coppers broke an average of 1 point, and motors fell back with prominent specialties. The few early gains were represented by Marine preferred, American Sugar and Sumatra Tobacco, the latter rising 4 points. The market strengthened in all quarters before the end of the first half hour.

Noon.—Most losses were cancelled on the rally, and a number of prominent stocks rose to levels well over yesterday's maximums. Trading was active, but orderly, the first hour's turnover of some 300,000 shares showing no trace of yesterday's excitement. Minor rails were in further demand, and olls, coppers, shippings, motors and tobaccos led the speculative issues. United States Steel rose a point from its low price, but encountered occasional pressure. War shares also developed moderate heaviness. Foreign bonds forfeited part of yesterday's gains, but Liberty Bonds were firm.

STEADY ON. CANADA

The Great Day Is at Hand

Behind Canada lies fifty months of blood and anguish-fifty months of the fires of trials and of sacrifice—of glorious, triumphant battling against the hosts of evil.

'And in the surging joy will come to us the sobering sense of duty yet to be performed.

Canada's part in the finish of the war must be as well done as was her part in fighting and winning it. Canada's great duty to her living and her dead must be met with the same manliness, seriousness and determination which have won for her the respect and admiration of the world in waging the war.

Canada's · Victory Loan, 1918, must be oversubscribed—that Canada may discharge, in peace, the great responsibilities which the war thrust upon. her willing shoulders.

Canadians, let us with devoutly thankful hearts. and in proud consciousness of duty well done, proceed with our great task-
