Montreal Molders Say They Came From Toronto.

Montreal, Sept. 3.-There is trouble among the iron molders of this city, several "strike" patterns alleged to have come from the Canada Foundry Company at Toronto Junction having been found in a number of the local shops. A meeting was held and the situation was dis-cussed. It was claimed that if work on these particular patterns was allowed to continue, the molders who did work could be regarded as non-union men. It was agreed that so long as the strike at Toronto Junction is in progress the molders of this city should refuse to do any work that would be detrimental to the interests of the strikers. The Boundary Commission.

The United States brief in the Alaskan boundary case has been presented. The cabled summary shows that counsel for the republic are emphatic in asserting that Canada did not press her claims until the discovery of gold in the Klondike. They admit that before that time representations were made by this country, but they say these were unsupported by any data which would entitle them to serious and in the Klondike them to serious wants to maintain the status quo.

### "I Enjoy My Meals as I Used to." Mr. J. W. Pritchard, Wolf Lake, Ind.

"I am pleased to say that I have been cured of catarrh of the stomach by Peruna. I could hardly eat anything that agreed with me. Before I would get half through my meal, my stomach would fill with gas, causing me much distress and unpleasant feelings for an hour or two after each meal. But, thanks to your Peruna, I am now completely cured, and can eat anything I want to without any of the distressing symptoms. I can now enjoy my meals as I used to do, and it is all due to Dr. Hartman and his wonderful medicine,
