LES CHEMINS DE FER.

L'exploitation des chemins de fer du Canada a pris des proportions très-vastes. Le premier chemin de fer fut commencé en 1835. C'était une ligne de 15 milles de parcours, de Lapraire, sur le St. Laurent, à St. Jean. La route fut inaugurée avec des chevaux en 1836 et les premières manœuvres à locomotives en 1837. Le premier chemin de fer dans la province d'Ontario, entre Queenstown et Chippewa, fut inauguré avec des chevaux en 1839. Depuis cette époque jusqu'à la fin de 1872, il a été construit dans la Puissance 3,454 milles de chemins de fer, et en 1873, 1,576 milles de nouveaux chemins furent inaugurés, formant ensemble un total de 5,030 milles qui sont en opération, sous 32 compagnies. Voici la liste des différentes lignes avec la longueur de leur parcours.

LE SERVICE DES POSTES

Le Canada possède le grand avantage d'un excellent système de communications postales à très-bas prix. C'est en 1851 que fut fait le premier grand pas vers les tarifs et bon marché, par l'introduction d'un droit de port uniforme de 5 cents; en 1868 on essaya une nouvelle réduction de prix de transport et l'on porta le taux général et uniforme à trois cents. Les résultats furent très satisfaisants et fort encourageants. Dans l'ouvrage du Dr. Hadgins "School history of Canada," (publié par J. Lovell, en 1866,) il est constaté qu'on 1766, alors que le célèbre Benjamin Franklin était Député maître-général des postes dans l'Amérique Britannique du Nord, il n'y avait dans tout le Canada que trois bureaux de poste et 180 milles de route postale, de Montréal à Québec. En 1791, il y avait 10 bureaux de poste et 600 milles de routes postales; en 1830 il y avait 150 bureaux et 2,500 milles de routes; en 1840 le nombre des bureaux était monté à 405 et les routes à 5,737 milles. Depuis l'anée 1840 l'accroissement progressif du département

a été tel, que d'après le rapport du maître-général des postes, de 1872, nous voyons qu'il y avait en cette année 4,155 bureaux de poste, et 33,415 milles de routes postales, y compris le Manitoba et la Colombie Anglaise. Le nombre estimatif des lettres expédiées par la poste en 1872 était de 30,600,000 le revenu postal était de \$1,193,062 ; et les dépenses de \$1,369,163.

Tarif des Postes du Canada du 1er Octobre 1875.

TAXES DES LETTRES.—Toutes lettres expédiées par la Poste à une distance quelconque dans l'intérieur de la Puissance du Canada seront assujetties à une taxe uniforme pourvu que la dite taxe soit payée à l'avance par un timbre-poste, sans quoi les lettres ne seront pas transmises.

Sur toute lettre n'excédant pas le poids d'une demi-once.....	3 cts.
Plus d'une $\frac{1}{2}$ oz. mais n'excédant pas 1 oz..	6 cts.
“ 1 oz. “ “ $1\frac{1}{2}$ oz.	9 cts.
“ $1\frac{1}{2}$ oz. “ “ 2 oz.	12 cts.
“ 2 oz. “ “ $2\frac{1}{2}$ oz.	15 cts.

N. B.—Les lettres pesant plus d'une demi-once mais affranchies d'un timbre de trois cents, seront expédiées et remises au destinataire contre paiement du double de ce qui manque pour l'affranchissement suffisant.

Exemple :—Une lettre pesant une once et demi et n'étant affranchie que de 3 cents, coûtera 12 cents au destinataire parceque devant être affranchie de 9 cents, elle l'est insuffisamment de 6 dont le double est 12.

LETTRES LOCALES.—La taxe sur les lettres à distribuer au bureau de leur origine (*local*) sera d'un centin par demi-once, et devra être payée à l'avance au moyen de timbres-poste.

Ce village est situé dans la paroisse de Notre-Dame de Bonsecours, dans la Seigneurie de la Petite Nation, - Il est admirablement établi sur les bords de Rivière Ottawa, et possède une Eglise Catholique desservie par la Rév. Les maisons sont de bonne construction et sont approvisionnée d'eau pure venant de la montagne qui se trouve en arrière du village, cette enterprise est due à l'énergie de notre compatriote M. PAPINEAUVILLE.

Ce magnifique village ne date que de 1850, est aujourd'hui un des plus beaux établissements canadien-français des bords de l'Ottawa. Il y a à peu près 27 ans qu'un de nos illustres compatriotes l'hon Denis Papineau, alors commissaire des terres de la couronne eut l'idée de fonder un village qui portat son nom. Le succès couronna ses efforts, et aujourd'hui la forêt a fait place à un magnifique village, digne monument de l'entreprise et de l'énergie de son fondateur. Une fois l'élan donné dans la voie du progrès, Papineauville a marché vite. Deux Eglises l'une Catholique Romaine deservie par la Rév. Messire Lombard; l'autre Anglicane, atteste l'entente cordiale qui existe au sein de la population. Il y a en outre un moulin à scie qui marche à la vapeur, un moulin à cardes, un moulin à fouler six magnifiques magasins, et quatre hôtels. La Compagnie de Telegraphie de Montréal et celle

de la Puissance y possèdent chacune un bureau. Comme dans toutes le parties du Canada centre, la chasse et la pêche y abondent, et en font le rendez-vous des amateurs à l'automne et au printemps. A quelque distance de Papineauville, en pleine forêt, de hardis pionniers viennent de fonder un établissement, qui sous le nom de Nouvelle Belgique leur rappelle la patrie absente. Le village ou fort de ce nouvel établissement porte le nom de Namur.

Papineauville est situé dans la paroisse de Ste. Angélique, seigneurie de la Petite Nation, comté et district d'Ottawa. On s'y rend par les bateaux à vapeur de la compagnie de navigation de la Rivière Ottawa, en été ; et par le chemin de fer de Colonisation du Nord en toute saison. Distance d'Ottawa 40 milles et de Montréal 90 milles ; malle tous les jours. Population 700.

STE. SCHOLASTIQUE.

VILLAGE important devant son nom à l'esprit de famille. Ste. Scholastique était sœur de St. Benoit, nous apprend l'histoire des Saints ; et comme la paroisse, portant aujourd'hui ce nom, était desservie avant 1825 par St. Benoit, les autorités d'alors décidèrent de mettre ces deux titulaires voisins l'un de l'autre.

Ste. Scholastique est à quelques milles seulement des Laurentides, au beau milieu d'une vallée riche, fertile, ornée en plusieurs endroits de bocages d'une grande beauté, de bois francs et d'érablières d'une grande valeur et rivalisant tous en propreté ; vallée arrosée par la Belle-Rivière roulant ses eaux sans souci dans une direction Nord-Sud, et condamnée par l'industrie à mouvoir les meules, cardes, scies, etc., des établissements de MM. Moise Laframboise, Antoine Boisseau, Nelson Poitras, fils Bornée, au nord, par St. Colombar ; à l'est, par Ste. Monique ; au sud, par St. Augustin et St Benoit ; à l'ouest, par St. Hermas. Avec une population de 4163 âmes, y compris celle de St. Canut qui n'en est séparée que de nom, Ste. Scholastique est traversée par le chemin de fer de Q. M. O. & O. à 14 arpents de l'église Sise et située dans le comté des Deux-Montagnes et relevant de la Seigneurie des Messieurs du Séminaire de Montréal.

Une population active, vigoureuse et intelligente, en rupture avec les traditions de la routine y salue le progrès avec bonheur et emploie aujourd'hui avec empressement tous les instruments et machines capables d'économiser le temps, les sueurs et l'argent. L'agriculture fait des progrès, l'industrie domestique ne reste pas en arrière. L'élevage des animaux est soigné; mais l'industrie des arbres fruitiers avec ses beaux profits n'a pas encore reçu toute l'attention qu'elle mérite. Ste. Scholastique fournit de la chaux aux environs et possède de la pierre à bâtir. Partout des deux côtés de la Belle-Rivière, on rencontre de la terre à brique de bonne qualité; des bâtisses de 25 ans en attestent l'excellence.

A deux milles du village, environ, au sud, on rencontre le petit village de la Belle-Rivière, comptant une cinquantaine de maisons avec une église protestante, ayant pour ministre le Révd. William Groulx; trois magasins et les établissements de M. C. A. Boisseau et N. Poitras. On y voit aussi une école dissidente tenue par Delle. McGregor—Malle quotidienne. Il ne faut pas oublier de mentionner que ce petit village est érigé en municipalité scolaire séparée et possède une excellente école sous l'habile direction de Delle Dupuis.

Le grand village compte cent cinquante maisons, dont plusieurs de spécialités commerciales telles que chaussure, attelages, fleur, meubles, modes, et ferblanteries, et six maga-

Ste. Scholastique tient registre depuis 1825. Le premier baptême est celui de Toussaint Courville, né le 1er juillet et baptisé le six de novembre. Le 1er de novembre a vu la première sépulture par le décès d'une enfant de quatre ans, Marie Lasablière. Et le vingt du même mois, Nicolas Saintonge et Geneviève Riopel y recevaient les premiers la bénédiction nuptiale.

Première grand-messe célébrée, le 6 de novembre 1825, par M. Pierre Jacques de Lamothe, premier curé de Ste. Scholastique, dans une grande bâtisse en pierre qui servit de chapelle jusqu'en 1838. M. de Lamothe est arrivé en ce pays lors de la grande révolution de 1793, aumônier du régiment de Waterville retiré en 1831 ; décédé le 22 octobre 1847, à l'âge de 84 ans et onze jours ; enterré dans le cimetière, à Ste. Scholastique. M. de Lamothe ne chantait pas, mais contait la messe disaient les paroissiens d'alors ; original, spirituel, ce monsieur a laissé de bons souvenirs.

La fabrique n'était pas riche ; une corne fit le service d'une cloche pendant deux ans ; et le bedeau qui portait la corne se sentit heureux le jour où il mit en branle la première cloche qui habita jusqu'en 1838 une chèvre bâtie en face de la chapelle en pierre. Il y avait alors 6 ou 7 maisons ; la population pouvait être d'environ 50 personnes.

Le révd. M. Rémi Gaulin en fut le 2e curé pour un an seulement, de 1831 à 1832; mort 2e évêque de Kingston.

Messire Joseph Vallée lui succéda comme 3e curé, de 1832 à 1837; il se retira malade; décédé le 3 mai 1850, à St. Thomas de Montmagny, à l'âge de 50 ans; les personnes qui le connurent en parlent avec respect. Un Sulpicien de Montréal, Messire François Bonin, fut le successeur de M. Vallée. La prudence, la douceur et le désintéressement furent ses qualités dominantes; l'éducation de la jeunesse, sa passion domestique; se retira en 1848 pour se livrer à l'éducation de la jeunesse sur invitation de Mgr. Bourget, décédé en 1870, à l'âge de 77 ans; enterré dans le cimetière à côté de M. de Lamothe; a laissé une mémoire vénérée. De 1858 à 1861, M. Vincent Plinguet a desservi cette belle paroisse, comme curé. Affable, sympathique, et orateur, ce monsieur y a conquis l'estime de tout le monde; maintenant curé à l'Isle du Pads. Messire Joseph Brissette succéda à M. Plinguet, et fut à son tour remplacé, en 1870, par le Rév. Stanislas Tassé, le curé actuel.

La dîme de 1837 à 1850 donnait en moyenne deux mille minots de grain, par année; et le défrichement des terres n'était pas encore terminé.

L'église actuelle a été construite par M. Jos. Pelletier, entrepreneur maçon; commencée le 7 août 1837 et terminée à la fin de 1838; bénite

le 18 de décembre. Alors la cloche quitta la chèvre pour aller le 30 octobre de la même année habiter le clocher de la nouvelle église. Peinturée et réparée par l'entrepreneur Jos. Piché, sous M. Plinguet; modifiée et réparée de nouveau, en 1873, à l'intérieur et à l'extérieur, par M. Héroux, sous la direction du curé actuel, moyennant une somme considérable assurant à l'entrepreneur un profit fort enviable. L'intérieur est bien; mais l'extérieur ne servira jamais de modèle. En revanche trois superbes cloches d'Angleterre données par le curé, possèdent un carillon puissant, riche et harmonieux et réjouissent les échos d'alentour. La bénédiction de ces trois cloches en septembre 1873 par Mgr. Fabre, donna lieu à une fête splendide. La recette abondante que produisit cette fête indemnisa le généreux donateur.

Dette de la fabrique : \$5000.00.

En 1838, l'ancienne chapelle devint presbitère, et les habitants s'y réservèrent pour leur commodité une grande salle dans l'extrémité-est et en jouirent jusqu'au moment où M. Plinguet réussit à convertir leur presbitère en couvent au grand mécontentement de plusieurs. Ce changement fut la cause que quelques familles embrassèrent le protestantisme. Cette bâtisse mesure 80 p. x 86 pieds, avec mansardes.

Le presbitère actuel est une grosse maison en bois occupée autrefois par feu Hortense Prévost et achetée par la fabrique, sous M. Bonin qui se proposait alors de la convertir en pensionnat pour

les filles. M. Plinguet pensa et agit autrement. Au nord de la rue St. Vincent qui le sépare du terrain de la fabrique, un grand terrain y est attaché.

En 1844 le village ne comptait que 55 maisons de bien chétive apparence. Il est incorporé depuis 1855 ; la première séance du conseil date du 23 juillet de la même année.

Finances dans un état excellent. Une école de garçon fut établi en 1838 par M. Bonin, 4e curé. Aidé de quelques bons pères de famille, zélés pour l'éducation, il en établit quelques autres dans les côtes plus populeuses. Depuis le bill de écoles du Dr. Meilleur, Ste. Scholastique compta 12 écoles élémentaires. En 1845, M. Bonin bâtit en face de l'Eglise cette maison à deux aîles qu'on voit aujourd'hui occupée par un magasin et une boulangerie. De 1849 à 1869 cette maison habitée par son fondateur servit de collège ; et de là sont sortis des prêtres, des médecins, des notaires, des avocats, des négociants, et des agriculteurs intelligents. Cet éducateur dévoué eut à lutter contre la malice et la mauvaise foi pour maintenir l'enseignement des belles-lettres dans sa maison. Les tracasseries de tout genre qu'il eut à subir n'étouffèrent point son dévouement : il alla jusqu'à fonder à St. André d'Argenteuil une maison d'éducation classique, sur invitation pressante de son supérieur ecclésiastique. Il en fut odieusement dépouillé par un abus de confiance inqualifiable.

Outre le couvent qui est sous la direction des Sœurs Marianites de Ste. Croix, le village possède une école modèle sous la direction d'un ancien instituteur, M. Albert Dalaire, qui a toujours donné entière satisfaction. En 1874, les commissaires d'école ont fait bâtir une maison en pierre, à deux étages avec mansardes, mesurant 50 x 36 p., et du coût de \$5,400; construite par MM. Chs. Foucault et Benjamin Pressault: salaire de l'instituteur obligé de fournir un sous-maître: \$500.

L'enseignement par les Dames de Ste. Croix coûte à la corporation scolaire la somme de \$300.

En 1857 fut passé le fameux acte de judicature, acte qui changea la face du pays en décentralisant le système judiciaire et en couvrant la province de petites capitales. Ste. Scholastique après avoir fait taire bien des rivalités devint le chef-lieu du district de Terrebonne, sans en posséder, pratiquement, tous les avantages; car les principaux officiers qu'on devrait y rencontrer n'y résident pas, la plupart. Le coronaire réside à St. Augustin; le percepteur du revenu, à St. Eustache; le magistrat du district, à St. Jérôme; et le juge de la Cour Supérieure, à Montréal. Il en résulte de grands inconvénients, des pertes d'argent et de temps considérables, et des délais funestes.

Le palais de justice et la prison réunis sous un seul toit, bâtis en 1859 et 1860, ont été détruits par un incendie, en juillet 1864, Trois

détenus pour infanticides, du nom de Beauvais, y trouvèrent la mort. Cette catastrophe amena la destitution du géôlier Quinn.

Ste. Scholastique a vu naître et mourir deux feuilles politiques : — “ Le Nord,” fondé en 1864 par MM. Marsil et Camyré, M. Marsil, avocat, en étant le rédacteur ; et “ l’Echo des Deux Montagnes,” fondé par MM. Masson et de Montigny, J. R. Damis, rédacteur, en septembre 1866. Un institut littéraire, fondé en 1856, s’est éteint quelques années après, avec sa jolie bibliothèque dont quelques volumes erraient encore par ci par là. L’année 1873 vit surgir un cercle littéraire ; l’année suivante le vit disparaître.

INDUSTRIE ET COMMERCE.

Ste. Scholastique n’a jamais fait de réclame ; mais ses habitants ont fait de nobles efforts pour y développer l’industrie. Outre les moulins mentionnés au commencement de cette notice, 1852 vit MM. D. Duprat et H. Delesderniers contruire un beau moulin à vapeur pour moudre, scier, carder, teindre, presser, etc., etc. Un engin de 30 forces, absorbant six cordes de bois par jour, ruina fondateurs, cautions et successeurs ; cet établissement produisit autant d’activité dans le village qu’il causa de ravages dans les finances des malheureux qui l’exploitèrent. En même temps M. Delesderniers avait établi une briqueterie qui donna de bons résultats. A la même époque, à peu près, M. Poi-

Rebâtie aussitôt, cette manufacture subsista pendant quelque temps ; fut subséquemment abandonnée, convertie en moulin à scie, puis à moudre. L'année dernière M. Nelson Poitras, fils, tenta vainement de ressusciter la filature, il se contenta d'une société avec M. Fortier, société qui lui permit d'avoir des engins pour moudre, scier, carder, teindre et presser, etc.

En 1855 une petite société s'organisa pour percer des puis artésiens ; elle réussit à merveille. Depuis cette date une trentaine de puits artésiens fournissent sans interruption une excellente eau à boire, toujours pure et transparente.

A part deux ou trois petites tanneries pour le cuir rouge, il y a la grande tannerie de cuir noir, fondé par M. F. H. Clément, et appartenant aujourd'hui à MM. Pierre Valois et L. C. Leduc depuis plusieurs années. Cette manufacture a toujours prospéré ; cependant dans la nuit du 14 au 15 d'août, 1873, elle passa au feu ; dommages : \$2000 ; rebâtie en 1875, à deux étages, le premier en pierre ; mesurant 112 x 30 p. et 75 x 40 p. en forme de T ; chauffée à la vapeur par une chaudière de 40 forces avec un puit artésien. Les 72 carrés qu'on y compte servent aux 2500 peaux crues qui doivent y passer avant d'être converties en un beau cuir noir fort recherché. Quatorze employées, le moins, sont attachés à l'établissement tous les jours de l'année.

Entr'autres boutiques de forge, il y en a deux grosses où l'on fabrique des charrues en fer très recherchées. M. C. A. Trudel et Joseph Limoges reçoivent des commandes de toutes parts. Les charrues de M. Trudel ont remporté plusieurs prix aux exhibitions provinciales.

Trois manufactures de voitures et trois boutiques de sellier font des affaires considérables.

En 1865 M. Bonin fonda une société de construction qui vécut quatre ans pour s'éteindre entre les mains d'un des actionnaires. En 1875, M. l'avocat Prévost et quelques citoyens de la localité fondent une autre société de construction ; M. F. Mathieu, avocat, en est le secrétaire. Bonnes affaires.

Il y a aujourd'hui cinq hôtels répondant amplement aux besoins du district, en temps de cour, surtout.

Le chemin de fer passant au milieu de Ste. Scholastique y garanti de l'activité au commerce de bois et à celui des produits agricoles en leur assurant un débouché facile en toute saison, aussi, convaincus de l'importance d'une voie ferrée, les habitants du village n'ont-ils pas hésité à souscrire des parts pour un montant de \$10,000.

En 1837, les habitants de Ste. Scholastique ayant participé au mouvement insurrectionnel, s'attendaient, lors du sac de St. Benoit, à passer à la grillade. A la demande du premier notaire de la place, M. Augustus McKay,

M. Bonin rédigea un mémoire invoquant des motifs capables d'inspirer des sentiments d'honneur et d'humanité au vieux brûlot Colborn. Une députation, le notaire en tête, alla à la rencontre d'un bataillon s'avancant sur le village, sous les ordres du lieutenant Maitland en les apercevant les troupes crurent avoir affaire à un groupe de rebelles; on braqua un canon sur eux; un drapeau blanc hissé au bout d'une perche évita l'effusion du sang. Mal reçue d'abord, la députation obtint audience. Cette rencontre eut lieu vis-à-vis la demeure d'un nommé Vermette connu sous le nom de Petit Courville, endroit qui se trouve aujourd'hui à 3 ou 4 arpents, au sud, de la gare du chemin de fer, un samedi précédent le 2^e dimanche de l'avent. La troupe dîna, soupa et coucha à Ste. Scholastique, et en repartit un peu avant la grand'messe. Sept personnes seulement assistèrent au service divin ce dimanche là. Le passage des troupes anglaises à Ste. Scholastique, lui valut la destruction de quarante maisons. Dans le village, malgré le mémoire, il y eut trois maisons d'incendiées: celle de Pierre Lauzon, tonnellerie; de Félix Lafleur, forgeron, et celle du notaire Vallée. La maison de Vermette, tué par un boulet à St. Eustache, a subi le même sort.

Le cimetière des enfants morts sans baptême, situé à l'angle nord du grand cimetière, en face de l'emplacement de M. Perrin, contient les dépouilles de neuf victimes de 1837.—Passant,

inclines toi respectueusement, en approchant ce lieu qu'habitent les mânes de ces généreux défenseurs de nos droits!

On refusa à ces braves les honneurs de la sépulture; mais la postérité a su noblement réhabiliter leur mémoire.

Le jour du sac de St. Benoit, le fameux Gérold et le notaire Papineau de St. Martin, entrèrent à onze heures du soir, chez M. Bonin; pâles, effrayés, ils demandèrent un verre d'eau; ils fuyaient. Le curé de St. Benoit, M. Chartier les suivait. Le Dr. Dumouchel se réfugia chez Madame de Lamothe où il passa l'hiver.

Samples, however, of seeds, drugs, and such like, which cannot be sent in open covers, may be enclosed in bags of linen or other material, simply tied at the neck, or, provided that bags be transparent, they may be entirely closed, if they are for delivery within the United Kingdom. PHARMACIENS ET CHIMIQUES,

BUCKINGHAM.

A beautiful village on the banks of the Rivière aux Lièvres, near its outlet into the Ottawa River, on Lot No. 10, 4th Concession, Township of Buckingham, and forms part of the County of Ottawa, and in the District of Ottawa. It has a large lumbering and milling business. Ten large stores, four hotels, three saw-mills giving employment to over 100 men. It has three churches and three good schools. In the immediate vicinity of the village are extensive deposits of plumbago of a very rich quality, and works for its manufacture have recently been erected, but are not yet in full operation. There are also very rich mines of phosphates in the Township; so large and rich are these mines that Dr. Lyon Playfair, whilst on a trip through this country, has expressed his surprise at their richness, and has called the attention of British capitalists thereto; and the recent discovery of kaolin, or fertilizing clay, in Prussia, give our phosphate deposits an additional value, as a combination of phosphate and kaolin forms one of the best fertilizers known. Large tracts of land

have been taken up in this and neighboring townships, and a number of companies are formed for the purpose of working those mines during the coming winter. The facilities of transportation by the Ottawa navigation and the railway now in course of construction will lead to their being extensively worked, affording an immense source of wealth to this section of the country. The farmers will also derive a great benefit from the discovery of those mines, as it will bring to their doors a much-needed means of improving their lands at a moderate cost. Phosphates is extensively used by English farmers, and its use here cannot but increase the average of our wheat production, thereby giving a stimulus to all other branches of industry in this locality. Buckingham village is distant from the landing of Ottawa river steamer about 4 miles; from Ottawa, 21 miles; and from Montreal, 100 miles. The Montreal Telegraph Co. and Dominion Telegraph Co. have offices here. Buckingham is reached by way of the Ottawa River Navigation Co.'s steamers in summer, and, when completed, in all seasons by the Q. M. O. & O. R. Mail daily.

EAST TEMPLETON.

A village situated on lots 12 and 13 in the first concession township of Templeton, county and district of Ottawa. It has a fair lumbering business, and contains four stores, two hotels, several saw and shingle mills, and one church. There are also in this township extensive phosphate mines, just discovered, and about being explored for exportation and agricultural purposes, and will be of great benefit to the inhabitants of this village. If capitalists will but put themselves to the task, vast mines of wealth are awaiting the strong arm of the laborer, and prosperity will be the reward to well directed efforts in realizing what Providence has given us in those mines of rich fertilizers, to improve our lands and increase our produce of grain and other products of the soil, to the benefit of all interested, thereby opening up for this locality a trade hereto unknown, and by means of Ottawa River Navigation and the Q. M. & O. O. Railway a trade in this commodity may be fostered, and East Templeton become a thriving village where the frugal and industrious may find employment and happiness. East Templeton may be reached by Ottawa River Navigation steamers in summer, by Q. M. & O. O. Railway during all seasons of the year. It is 16 miles from Aylmer, the county town; 24 miles from Ottawa, and 117 miles from Montreal. Mail daily. Population, 200.

GRENVILLE.

Is situated at the head of the Grenville and Carillon Canal, on the Ottawa River, township of Grenville, county of Argenteuil and district of Terrebonne. It is connected by rail with Carillon, and by the Q. M. & O. O. Railway with Montreal, and all other important points, so that by its railway connections Grenville is destined to become a place of importance, as its mica mines and French burrstone quarries will now become useful to its inhabitants and to the country in general. Its mica mines and burrstone quarries are of a very rich quality, and will find a ready market now that they may be brought easily to the centres of trade by means of the Q. M. & O. O. Railway; and if capitalists will but give their attention to the value of these mines, Grenville is destined to take its place among the localities of note in the Province of Quebec. It contains ten stores, doing a good local trade, and three first-class hotels, one of which is just built. It is a beautiful three-storey brick building, kept by Mr. D. McVicar, and called the "Commercial

Hotel," having accommodation for about fifty guests. It is distant from Carillon 13 miles ; from Lachute, the county town, 16 miles ; from Vaudreuil, 37 miles ; from Ottawa, 63 miles ; and from Montreal, 61 miles. Grenville is accessible during the summer season by the steamers of the Ottawa Navigation Co., that land passengers and freight here ; and at all seasons by the Q. M. & O. O. Railway, which has just been completed to Hull. Mail daily. Population about 650.

PHARMACIENS ET CHIMISTES.

HULL.

The City of Hull is situated in the township of the same name, county and district of Ottawa. It is the most important town west of Montreal, and is chiefly noted for the immense amount of lumber manufactured for the European and American markets. It possesses very extensive water power, which is largely utilized by mills and factories. Among its many enterprising firms the following may be noted as the most prominent:—E. B. Eddy's large premises, in which are produced sashes, doors, blinds, mouldings, zinc washboards, and matches; N. McCormick & Son's flour mills; C. B. Wright's cement, and lime factory; Gilmour & Co.'s steam saw mills; Currier & Batson's steam saw mills; Crandall & Co.'s saw mills. There is also an axe factory and a carding and woolen mill. The quantity of lumber annually sawn here is immense. This city is connected with the capital of the Dominion by a handsome Suspension Bridge across the Ottawa River, immediately below the Chaudière Falls, from which is obtained a grand view of this rival of Niagara. To enable the great quantity of lumber that yearly descends the Ottawa to pass from above to below the raging waters of the Chaudière Falls, a slide has been erected on this side of the river. From Hull, the Little Chaudière, where the waters find their

way mysteriously underground and cannot be traced, may, without much difficulty, be approached, and a good view had of the great *Chute*. In the immediate vicinity of Hull are good iron mines, which are in successful operation. There are some very fine stores and private residences in Hull. At Le Breton Flats, immediately opposite Hull, the Canada Central Railway has its terminus. Hull is one of the chief stations of the Northern Colonization Railway, which is just about completed, and, being put into operation, connects Hull and Montreal with iron *bands*, that cannot be broken, and therefore of immense benefit to the commercial and travelling public of both places, being within a few hours travelling of each other. Hull may also be reached by Grand Trunk and Ottawa and Prescott Railways, and the cars of the Ottawa City Railway run to the Suspension Bridge. Hull is classed with the City of Ottawa under the exceptional postage rates, and has ample mail and telegraphic accommodation. Hull is distant from Le Breton Flats $\frac{3}{4}$ mile; from Ottawa post office, 1 mile; from Aylmer, the county town, 8 miles; and from Montreal by water 130 miles, and by rail 167 miles. Mail daily. Population about 11,000.

THOMAS HICKSON, Editor and Publisher.

The *Argenteuil Advertiser*, being published at the county seat of Argenteuil, the Commercial centre of the District of Terrebonne and the Lower Ottawa Valley, and having a firmly established and extensive circulation amongst the intelligent and leading people of the District, is a first-class advertising medium. Business principles are strictly observed in dealing with patrons. It is devoted and gives prominence to Local News of the neighbourhood, while not ignoring General News, Agricultural and Domestic matters. It is a wholesome family Journal—slandrous insinuations to the contrary, notwithstanding. This is guaranteed by the fact that for five years it has been sustained by a highly moral and intelligent community, and is extensively patronised and read by the clergy and leading members of all the religious denominations. In Politics the *Advertiser* is proud to be classed "Reform," and its articles are fearless and fair, which is admitted publicly by members of the opposite party. Adopting the motto "*Quod Verum Tutum:*" its aim is not the promotion of party interests for mere party sake, but it seeks to advocate purity in public life, and honesty and British fair-play to all, irrespective of race, creed, or party bias.

The *Argenteuil Advertiser* Printing Office is supplied with first-class founts of type, a Power Press and every facility for the production of all kinds of PRINTING IN THE FINEST STYLES OF THE ART.

LACHUTE.

Lachute is the county-town of Argenteuil. It contains the Registry office, and is the place where the Sessions of the Circuit Court are held. The Montreal, Ottawa and Western Railway passes through the village of Lachute, which is 42 miles west of Montreal, and about 70 east of Hull (opposite Ottawa). Within the past three or four years Lachute has had a rapid growth, having more than doubled the number of its buildings in that period. There is no distinguishing staple industry or manufacturing enterprise, and the trade of the village is principally with the farmers of the surrounding locality. The name of the place has been very appropriately bestowed, as the village is built near a considerable water-fall, or "chute," of the North River, nine miles from the junction of that stream with the Ottawa. Lachute is mainly composed of one street, nearly two miles in length, following the course of the North River, which here washes the base of the Laurentian range of hills. It is sheltered from the bleak north winds by a mountainous elevation on the left bank of the river, the village being built on the right bank. The situation is very healthy and strikingly beautiful.

TREET.

EARLY HISTORY.

In the year 1796 a pioneer, named Hezekiah Clarke, from Jericho, in the State of Vermont, arrived at the place where Lachute now stands, bringing with him his wife and five children—three sons and two daughters. These were the first settlers amidst the primeval wilds and fastnesses of the virgin forest. Mr. Clarke had to transport his family and settler's outfit from St. Andrews on an Indian sled, as there was no roads or track of any kind. The first night after their arrival the family sheltered beneath some branches of trees hastily gathered together. The next day, however, the axe of the pioneer resounded through the forest with so much vigor that the family rejoiced in the possession of a rude hut by nightfall. For two years the Clarke family remained the only inhabitants of the place; but in 1798 half-a-dozen families from Mr. Clarke's former home, Jericho, joined him and founded themselves homes at Lachute. They all labored diligently, determined to succeed, and in a short time were able to subsist on the products of the soil they had cleared. About this time Mr. Lane acquired from the Seigneur the lands known as "Lane's Purchase." In the year 1801, the first day school was opened, with an attendance of upwards of thirty scholars: the school-house was built near the Falls. In the same year a Sunday School was established by the Rev. Thadeus Osgoode of

Boston, who appears to have been the first minister that visited the place, although the settlers had been in the habit of meeting together on the Sabbath for devotional exercise and praise. The first grave was dug in 1801 for the interment of the wife of Mr. John Hutchins. In 1803 the settlement had increased to thirty families. The settlers had to endure great hardships and privations through having no roads, bridges, mills or stores, during those early years. For conveying their grain to the nearest mills, which were at St. Andrews, they had to construct canoes, passing over such parts of the river as were navigable, and portaging past the numerous obstructions caused by the rapids. The same process, of course, had to be repeated in returning home with their meal. The nearest market at which the settlers could sell produce and purchase necessaries was St. Eustache, to which there was no direct road; they had to go round by Grand Brulé to get to Belle Rivière, and thence to St. Eustache. In the year 1804, a mill constructed of wood was built on the left bank of the North River, nearly opposite the present mills. In the year 1807, the settlement had so much advanced that roads were made and wheeled vehicles used for going to market. In 1809 a new grist and saw mill was erected on the right bank of the river. At this time salmon were abundant in the North River. In 1810 the first Scotch settler arrived in Lachute, the late Colonel Thomas Barron, a

gentleman who, for many years previous to his death, was the leading man in official, municipal and judicial matters. When the best of the potash timber became exhausted, the American settlers gradually withdrew, and their places were taken up by immigrants, mostly from Scotland the ancestors of many of the present inhabitants. In 1812 the militia roll numbered 150 able-bodied men. The first store was opened in Lachute in 1813 by a Mr. Robertson. In 1825 the first bridge, "White's," was built across the North River. The settlement seems to have continually advanced in the accessories of civilization. Thus in 1830 it possessed a resident medical man, one Dr. McDowall. About this time the late John Mickle, Esq., established the business for so many years carried on by him, and now in the hands of two of his sons; in 1834 a church was built for the Presbyterian congregation; and in 1836 "Barron's Bridge."

In 1843 Lachute was divided from St. Andrews and erected into a separate parish by the name of St. Jerusalem d'Argenteuil. What calendar of saints this name was borrowed from we cannot say. The village has, however, always retained the old name of Lachute. In 1851 a handsome brick church was erected by the congregation in connection with the Canada Presbyterian Church, and in 1856 the Methodists built also a substantial church. Lachute became the county town of Argenteuil when Terrebonne was erected into a judicial district, and

of which a small school of intelligence pushed on the erection are now again the building a county town and the River large and the railway (Montreal) mooted, the warmly conducted of the line bonus of \$ which was paid in stages of the Ottawa river cheapest route 1874, work November, village, and with Montreal some of the some time past line, and it will make the best to the direct its present called the Argenteuilists, and extended the county.

of which district it still forms a part. From small school buildings and primary schools, the intelligence and enterprise of the people soon pushed on education, which culminated in the erection and establishing of a college, and they are now again contemplating an enlargement of the building, and an increase of its teachers. As a county town, Lachute has the Circuit Court and the Registry office, and is the centre of a large and thriving business. When the present railway (Montreal, Ottawa and Occidental) was mooted, the question of locating the route was warmly contested, and to assist in the carrying of the line through Lachute, Lachute granted a bonus of \$25,000. This decided the contest, which was political, as Lachute had all the advantages of shortness of route and distance from the Ottawa river in its favor, as well as being the cheapest route to construct. On the 9th May, 1874, work on the road was commenced, and in November, 1876, the track was laid through the village, and it has since enjoyed daily connection with Montreal. A newspaper was started by some of the enterprising gentlemen of Lachute some time previous to the final location of the line, and its assistance contributed largely to make the benefit of the Lachute route apparent to the directors of the road, and to finally settle its present location. This paper is and was called the *Argenteuil Advertiser*; it still exists, and exerts a large share of influence in the county. Its politics are liberal. Its editor

and proprietor is a Mr. Thos. Hickson, an Englishman, who combines the power of editing and working the journal himself. The Conservative interest of Lachute are ably represented by the *Watchman*. Since the railway and the building of the station in the heart of the village, property has largely increased in value from the number of persons flocking there and the erection of new buildings.

The village has three carriage factories, two tanneries, some sixteen stores, two hotels, two foundries, two temperance halls, Court house and Registry office, an Episcopalian service, a Roman Catholic Church and Presbytery, two Presbyterian Churches and a Methodist Chapel. The winding and picturesque North River runs through the village. This, together with the healthy mountain breezes, has already made it a place of pleasant summer resort. It possesses grist and saw mills, carding and fulling establishments, and its enormous water-power still awaits further development from the enterprise of the capitalists and mechanics.

From its proximity to Montreal and Ottawa by rail, from its salubrity, from its beauty of locality, from its religious and educational advantages, from its stirring, intelligent and enterprising population, it is bound shortly to be erected into a town. Water has been introduced from a lake through pipes into the village, and a fire brigade will shortly be organized. Several Life and Fire Insurance offices are represented by

Several enterprising proprietors have divided their lands off into convenient sized lots, which will be thrown into the market next spring.

Ces Coffres-Forts, dont la popularité grandit de jour en jour, réunissent toutes les qualités nécessaires aux Caisses de Sureté. Le ciment renfermé entre deux fers, est ainsi placé de manière à laisser un espace d'un demi pouce entre le boîte en fer et la pièce en bois formant l'intérieur du coffre. De cette façon l'air circule facilement dans cet espace entre le fer et le bois, et permet au Coffre, même en cas d'incendie, de résister à l'action du feu et exclut toute humidité à l'intérieur. Les pentures de mes Coffres-forts sont en fer battu avec base en acier et très solides. Ces améliorations rendent mes Coffres supérieurs à ceux de toutes autres fabriques.

Portes et Volets en fer pour Banques, Institutions Publiques, et Charniers de Cimetières avec Serrures brevetées, Soliveaux et Ponts en fer de toutes dimensions.

Un grand nombre de Coffres-Forts de seconde main, de diverses Fabriques, seront vendus bien bon marché.

ST. ANDREWS.

An important village on the North River, (or Rivière du Nord,) 3 miles from its junction with the Ottawa, seigniory and district of Terrebonne, county of Argenteuil. It is a very healthy locality, and is much visited during the summer by invalids in search of health. There is very extensive water-power here, which is utilized to some extent by mills, factories, tanneries, &c., but there is room yet for a greater number, and St. Andrews being but $2\frac{1}{2}$ miles distant from Carillon, a station of the Carillon and Grenville Railway, which connects with the Q. M. O. & O. R., is of some importance to capitalists, and to put in use the power which has hitherto lain idle for the want of facilities to reach the large centres of trade, but now that St. Andrews is in communication by rail with Montreal and other centres, this gift of Providence will no doubt be speedily utilized, and its inhabitants derive the benefit of increased manufactories in its immediate vicinity. It is supposed that when the Canada Central Railway is constructed it will pass through this village. The Montreal Telegraph Co. and Dominion Telegraph Co. have offices here. St. Andrews is distant from Carillon $2\frac{1}{2}$ miles; from Vaudreuil, a station of the Grand Trunk Railway, 27 miles; from Ottawa, 75 miles; and from Montreal, 45 miles. Mail daily. Population about 1000.

STONEFIELD

Is situated on the Ottawa River, in the township of Chatham, county of Argenteuil, district of Montreal. There are beautiful locks just built on the Carillon and Grenville Canal, which pass in front of this village. It is within half a mile of the Grenville and Carillon Railway, and two miles from the station of the Northern Colonization Railway, and is by this route in daily communication with Montreal, and will be shortly in communication with the capital of the Dominion, when this road is completed to Hull. Its railway connections, therefore, render the place of some importance to the surrounding country, which is very good for agricultural purposes. The Messrs. T. & W. Owens are the chief merchants of this locality, and do a large business in grain, lumber, firewood, and general forwarding; they are also the agents for the Montreal Telegraph Co. Stonefield is distant from Carillon, a landing of the Ottawa River Navigation Co.'s steamers, 8 miles; from Ottawa, 68 miles, and from Montreal 58 miles. Mail daily. Population about 300.

OUR DOMINION HOMES.

Our Dominion homes we love them
Better far than tongue can tell,
Though oft may we have a longing
In other favored lands to dwell.

Proud we are of Mount and River,
Also the Windsor Grand;
But of charitable institutions
There are so few throughout our land.

Hold, stop, I was near forgetting
That which is a credit to our shore;
Is there need for me to tell you
That it is Harper's Dollar Store?

His importations ure even greater
Than ever they were before,
For he has imported largely
From every foreign shore.

The latest styles of jewellery rare,
Fancy goods of every kind.
He studies the fashion and pocket too,
To suit the purse as well as mind. }
