

grew close to a bend in the river. Here I opened my kenebecker, jrew out the box and proceeded to open it with the aid of a hammer and small iron wedge which I borrowed from a servant man at Boies' house. With a good deal of difficulty I succeeded in forcing the cover open, when out dropped at my feet a roll of parchment and a small miniature on ivory. On examining the latter I at once recognized the sweet face of the young girl whom I had seen in my dream, but her look was only of youthful joy: no trace of sorrow on her youthful face, no tear drop in her eye. Placing the miniature to one side, I took up the roll of parchment which was carefully bound round by a piece of copper wire which I cut with my knife. On unrolling this I discovered what appeared to me to be a neatly drawn plan. Underneath this was some writing, written in a peculiar hand, which I could not read. Two words I could read, however, which were written under a long line which ended in the representation of an arrow head. The words were: "NORD ASTRONOMIQUE."

[To be continued.]

## The North Star.

CHATHAM, N. B., NOVEMBER 27, 1880.

J. E. COLLINS, Editor.

### THE SPIRIT OF LATEST DISPATCHES.

Sara Bernhardt weighs 110 lbs!  
Peru and Chili are yet at logger heads.

Bismarck has ceased for the nonce persecuting Catholics, and has turned on the Jews.

It is stated now positively that the British Government will not take coercive measure against Ireland; nor will the meeting of Parliament be hastened.

The steamer *Ouelo Joseph* collided with another ship in the Gulf of Spezzia and sank with 200 persons—all drowned.

Startling rumors from Ireland appear every day in the English papers. The latest are attempts have been made to shoot Captain Mitchell; and a Protestant clergyman. These rumors may well be doubted.

### PROFESSOR SHELDON'S IMPRESSIONS.

Professor Sheldon has written several letters to the leading English newspapers giving his impressions of Canada as a country for agricultural and pastoral purposes. Not a small portion of his letters is devoted to New Brunswick, with which Province he has been particularly pleased; and he does not forget to tell the English people the great courtesy he was shown by the members of our Local Government. He speaks at some length of the "magnificent grass lands of Nova Scotia and New Brunswick," and gives a lengthy and very correct account of the noble acres of intervals which lie within the arms of the valley of the St. John river. He shows how the kindly rains of spring fill the rivers to brimming, and that while the possessor of the lands sleeps, the busy streams are engaged bringing down manure which is deposited on the flats by the main river.

The uplands of the entire province pleased the professor well, and he thinks them capable of producing in large store, cereal root, and green crops; and affording excellent pasturage for cattle. He thinks New Brunswick admirably well adapted for raising sheep, and without at all considering ourselves wiser than our neighbors, over a year ago, we devoted several columns in support of the same idea in the *Fredericton Star*. We certainly think if many are to become wealthy in this province by raising cattle for the British markets, the larger number will be found raising flocks of sheep. A few will raise large oxen, indeed a good many may; but hundreds in time will raise sheep, because while from the meat and the fleeces flow encouraging profits, the labor of keeping them will be and is little in comparison with the cost and trouble of keeping other cattle.

The professor did not like our scrubby cattle, and his companion a corpulent Englishman on the best of terms with his own stomach, underwent the most excruciating agony eating our tough dry beef. They have not hesitated to say our stocks here are coarse and scrawny; and that in the English markets they would be a drug; but at the same time they consider them a good foundation on which to build up superior breeds.

They would not recommend the English farmer to take his axe into the greenwood to make a home, but they would recommend the purchase of several vacant farms they have seen. They evidently take pleasure in demonstrating to the English that the inhabitants of New Brunswick are not Indians; that they are hospitable white people, with whom the English farmer would get along pretty well.

We fancy their letters will have the effect of and-by of bringing out some English stock raisers here who will buy some of our spare farms, and show our people the wealth they could have made had they long ago begun to raise flocks of sheep or oxen and given some attention to systematic breeding rather than trudging along in the honest but extremely backward way in which their forefathers trod.

The *St. John News* and the *Freeman*, two newspapers which have never yet proposed anything, sneered at the effects of the delegates visit here. Well, if it did no good, it did no harm at any rate, and those who brought them here at least deserve some credit for their efforts at beneficial results.

### THE LEPERS AT TRACADIE.

MR. TACHE, Deputy Minister of Agriculture, has taken a very deep interest in the unfortunate lepers at Tracadie. With a view to seeing what could best be done for their immediate comfort, and of ascertaining all that was possible to be known with respect to their disease, he has visited Tracadie three times. We have just been informed that he has now in press a book on our lepers and their leprosy, which he has written at the instance chiefly of parties in England. The Dominion Government as our readers are aware has taken charge of the lazaretto; and so long as the unfortunate are such objects of interest to a deputy of the proper department, we may be sure that they will be cared for well.

It would be wasting time now to publish over again any of the speculations of the newspapers respecting the origin of this terrible disease in this Province. Some have maintained that long ago a certain ship bound from the East to Europe, by stress of weather was driven in upon our Northern Shore; that the shipwrecked people built houses and lived along the coast, and that there were one or more lepers among them. That in time through intermarriage the disease spread, and manifested itself in the most unexpected quarters. Others again say that it first was seen in a family named Tingley if we mistake not; though the latter story if true, would seem to us to be so only in as far as it should be based on the former.

Leprosy as our readers know, is a disease characterized by the formation of scaly patches on the skin, of different sizes, but having always nearly a circular form. The disease is thus classified: *Lepra vulgaris* or common leprosy, *Lepra alphas* or white leprosy, and *Lepra nigricans* or black leprosy. Leprosy first manifests itself in small distinct reddish elevations of the cuticle which enlarge till they sometimes become as large as a penny. They are covered with scales which accumulate and form a thick prominent crust and are as quickly reproduced as they fall off. The disease usually makes its appearance first about the knee or elbow and extends by degrees sometimes over the whole body. It creeps slowly along, often taking years to manifest itself. It seldom disturbs the general health of the patient. In the black leprosy the patches are dark and livid, in the white leprosy the patches are depressed in the centre. We believe the lepers at Tracadie are affected with the white leprosy. The disease is often hereditary, sometimes skipping two or three generations, and manifesting itself in the third or fourth. It sometimes comes without apparent cause, though in such cases it is doubtless induced by exposure to cold or damp. It is a stubborn disease, and often tolls the best exertions at curing. Stimulating liquors are avoided because they tend to inflame and aggravate. Those who read ancient books have learnt that in olden times the disease was far more malignant than now, so much so indeed that it may well be doubted if the modern form is a type at all of the old. Some learned persons think that the leprosy of the East, and that spoken of in the Bible, was the same as what is now known as *Elephantiasis*.

### TWO PICTURES.

"Look on this picture, and on this."  
—Hamlet.

In Ireland now, there is a struggle between the dependent people and the powerful ones; the latter trying to keep the yoke on the former, but the tenant as persistently trying to shake it off. In this country the people act differently. The more means a man accumulates here, and the more he gets the people under his thumb, the louder they hurrah for him; and no matter how illiterate he may be, he is the man they will send to the Commons to represent them. Perhaps some of the people about Chatham see a familiar likeness?

The latest amusement in St. John is demolishing headstones and monuments.

### NORTHUMBERLAND ON THE COLD SIDE.

"The ungrateful in their trifling and few comforts."—CONFRATERS.

In years not far past, Northumberland in the eye of Ottawa was the second county in the Province, and any reasonable prayer she made was invariably granted. We have all heard of the strife that raged within the council doors when one Hon. Minister from New Brunswick wanted the Intercolonial down the valley of the St. John to the sea, and when another put his foot down and declared it should go round the coast and down by the doors of his constituents. We know that this Minister carried his point; and we also know the Minister was Hon. Peter Mitchell.

The other day as dark was coming on, the writer passed by the Newcastle round house—and he saw it as it has been for two years, gloomy and still. Two or three men now and again poke around the forges, but the many scores have gone, and the money they earned at Newcastle, is now drawn at Moncton. Yet over this unfortunate state of affairs we had no tears to shed, because Northumberland desired to lose her round house work and ten times more. For she had been pampered by the Government for five long years, a Government which refused her benefactor nothing that she asked; but when the wheel went round and for a fleeting time saw this same representative on that side where the sun didn't shine, she acted the ingrate—and like Esau basely sold her birthright for a mess of pottage. We can hold out no hopes of a revival of work in the Newcastle roundhouse to our readers, while the county remains in its present unfortunate and unrepresented state. There are many other things which of right belong also to this county, such for example as the extension of a Dominion steam service to Chatham, but the county does not deserve anything more than she has and she will not be at all likely to get any more for the present. She is now reaping the legitimate fruits of her action, and can expect and deserves nothing but the husk and the vinegar, as those who sow the wind must reap the whirlwind. It is only fair that the member who is the choice of the county's perversity, should be accompanied by all the drawbacks of which we speak and which the people earned in ejecting him to the position he so wretchedly grasps.

### THE VACANT SEAT.

THERE is now a vacancy for York in the Upper House. If Mr. Blair get too refractory next winter, the Government will be able to offer him the place. The *Farmer* suggests that Mr. Randolph should get the seat; but it would want Mr. Inches to get it, only that gentleman wants to get a Senatorship. The Government have time enough to fill up this seat, and can find men enough to take it—we doubt believe Dr. Archer himself would refuse it: so the *Farmer* needn't be in such a hurry.

### DIED.

HON. JOHN A. BECKWITH, M.L.C. died at Fredericton, on Tuesday last, at the ripe old age of eighty. Mr. Beckwith was one of the most prominent public men of his day, was for many years a representative of York County at the Local Legislature, and also held the office of Provincial Secretary. He was also a prominent militia man, actively engaged in several prominent industries; and was quite a useful member of society.

### IN LOOKING AT CERTAIN MATTERS TRAMPLING IN THIS TOWN OF A PUBLIC NATURE WITHIN THE LAST FEW DAYS, AND LOOKING AT THE SLIPPERY PERSONS BEHIND THE SCENES WHO CHUCKLE OVER THE RESULTS, WE ARE REMINDED OF THE LINES IN HAMLET:—

"But 'tis the sport to have the signior host with his own petard!"

Three men have been fined at Stellarton for working in a dangerous part of the coal pit with naked lights. It is heedlessness like this which almost invariably causes the shocking mining accidents which every now and again reaches the public ear.

### THE MONTEUR ACADIES IN THURSDAY'S ISSUE PUBLISHES HON. P. A. LANDRY'S ADDRESS AT THE OPENING OF THE NORMAL SCHOOL IN FULL.

A MR. JOHN O'BRIEN of St. John has a carrier pigeon which will fly against any other man's pigeon for \$20.

### REV. NEWMAN HALL AND HIS DIVORCED WIFE, SAYS AN EXCHANGE, HAVE COMMITTED MATRIMONY AGAIN.

The Amherst people are agitating for a railway from Amherst to Cape Tormentine.

Sir A. T. Galt is interesting himself in Irish emigration to Canada.

The Opposition papers are itching to find out the terms of the C. P. R. R. contract.

### WEALTH SKIMMED FROM WATER.

BRADFORD, Pa., Nov. 10.—Until the recent rains, there was more oil running in many of the creeks in this region than there was water, the tankage for petroleum being insufficient to store the over-production. Last August, Hugh Potts was out of work. He leased a plot of ground near Tarpot. The Tuna Creek runs through it. Potts put a boom across the Creek. He had a large tin boat pump made. By the time he had built a 250 barrel tank on the bank of the creek his boom had collected a pool of waste oil that stood six inches deep on the water, and covered a space enough to hold many hundred barrels. Potts went to work pumping the oil out of the dam by hand. He filled his tank in three days. Then he put up four other tanks. When these were done a fresher came. The boom was carried away, and with it ten thousand barrels of oil that had collected. Since then Potts has filled his five tanks, besides selling several hundred barrels at one dollar a barrel. The cold weather has thickened the oil in the creek, so that it cannot be pumped. Potts is having a boiler put up on his lease, and intends to inject steam by numerous jets in the lake of oil. This he thinks will reduce the oil to pumping consistency. He says if he had commenced business sooner he would have had 25,000 barrels of oil on hand now. He sells the oil to Buffalo, Franklin and Chicago parties. It is mixed with Franklin oil and used as a lubricator. Potts has made \$2,000 since he put his dam in in August. He says collecting the oil that others waste is better than owning any of the wells. There are now standing in his dam 6,000 barrels of petroleum, which is increased by hundreds of barrels daily.

### HELP YOURSELVES BY MAKING MONEY.

When a golden chance is offered, thereby always keeping poverty from your door. Those who always take advantage of the good chances for making money that are offered, generally become wealthy, while those who do not improve such chances remain in poverty. We want many men, women, boys and girls to work for us right in their own localities. The business will pay more than ten times ordinary wages. We furnish an expensive outfit and all that you need, free. You can devote your whole time to the work, or only your spare moments. Full information and all that is needed are sent free. Address: Biron & Co., Portland, Maine. oct30 adwly

### COUGHS.—"Brown's Bronchial Troches"

has been used with advantage to alleviate Coughs, Sore Throat, Hoarseness and Spasmodic Asthma. For thirty years these Troches have been in use, with annually increasing favor. They are not new and untried, but having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age.

"Brown's Bronchial Troches" act directly on the organs of the voice. They have an extraordinary effect in all disorders of the Throat and Larynx, restoring healthy tone when relaxed, either from cold or over-exertion of the voice, and produce a clear and distinct enunciation. Speakers and Singers find the Troches useful.

A Cough, Cold, Catarrh or Sore Throat requires immediate attention, as neglect oftentimes results in some incurable Lung Disease. "Brown's Bronchial Troches" will almost invariably give relief. Imitations are offered for sale, many of which are injurious. The genuine "Brown's Bronchial Troches" are sold only in boxes.

### A DOWN TOWN MERCHANT.

Having passed several sleepless nights, disturbed by the agonies and cries of a suffering child, and becoming convinced that Mrs. Winslow's Soothing Syrup was just the article needed to supply for the child. On reaching home an acquaintance his wife with what he had done, she refused to have it administered to the child, as she was strongly in favor of Homoeopathy. That night the child passed in suffering, and the parents without sleep. Returning home the following evening, the father found baby still worse, and while contemplating another sleepless night, the mother stepped from the room to attend to some domestic duties, and left the father with the child. During her absence he administered a portion of the Soothing Syrup to the baby, and said nothing. That night all hands slept well, and the little fellow woke in the morning bright and happy. The mother was delighted with the sudden and wonderful change, and although at first offended at the deception practiced upon her, she was contented to use the Syrup, and suffering crying babies and restless nights have disappeared. A single trial of the Syrup never yet failed to relieve the baby, and remove the projected ailment. Sold by all Druggists. 25 cents a bottle.

The best known remedy for all affections of the Throat, Lungs and Chest, is GRAY'S SYRUP OF RED SPRUCE GUM. It is constantly used by thousands of persons suffering from the above diseases, and is nearly everywhere known. In cases of troublesome, tickling coughs, when the patient passes sleepless nights, one or two doses of the Syrup has such a quieting soothing effect that rest ensues and the cough speedily disappears. Try it and be convinced. Sold by all chemists. Price 25 and 50 cents a bottle.

### The Tavern.

A survey was held on the Favorite on Thursday last by Griffin, Carmichael and Brown vessel was ordered to be taken place of safety, which will be "Snowball" and Muirheads mill. The sailors with a few others b at work since Thursday cutting and she will probably be out of by to-night, after which the sail be paid off.

### Notes from the Fishing Grounds.

Special Fishery Warden

**TOWN MERCHANT.**  
In several sleepless nights, he agonized and cried of a sudden becoming convinced that something was wrong. He procured a supply for the night and was about to retire when he was awakened by the sound of a door opening. He went to the door and found the father found baby still while contemplating another. The mother stepped from the room and went to the door with the child. During her ministrations a portion of the baby was seen, and she said nothing at all about the matter, and she was in the morning bright and cheerful. She was delighted with the wonderful change, and she had no idea of the deception she had been subjected to. She had no idea of the deception she had been subjected to. She had no idea of the deception she had been subjected to.

115 Water Street, Chatham.

### LOCAL MATTERS.

**Hutchison's, Loggie's and Snowball's** mills have ceased humming. Don't Forget The Quaidle Party—Monday night—Masonic Hall—adv't.

**Strange Terms.**  
In our correspondent's letter on the first page today, he uses the words "Stags" and "Kenebecker." Can any of our readers used to the lumber camp, explain what is meant?

**School Trustees.**  
On Saturday night last the store and office of Senator Muirhead were entered by means of the office window. The thieves did not however succeed in getting any money. No valuables except some clothing were taken. This town should certainly have policemen.

**Mr. John Young of Messrs. J. & R. Young of Tracadie transported across the ice from Chatham on Thursday, 100 lbs. of flour and several tons of other goods for his lumber business. His teams came up and brought them down the same day.**

**L. C. R. Oatley Esq.**  
The Government are having a large estate pen built at Newcastle station. It will be up in two or three days; and the object is to remove the difficulty now existing in having to put cattle going up or down the Road in the freight house for several hours.

**A Dane named Peter Powis** has been here for several weeks with a view of setting up a large and well equipped restaurant here next summer for Scandinavian sailors. He thinks there is a fine opening; and has gone now to the States to return in the spring.

**Provincial Appointments.**  
In the County of Gloucester—James G. C. Blackall, Esq., to be Commissioner of the Civil Court for the Parish of Carleton Place.

**Notes from the Fishing Grounds.**  
Special Fishery Warden Fitzpatrick, of Napan, in going his rounds lately in the vicinity of Black Brook and Middle Island found about twilight that a fisherman had put his small pickets uprightly with the intention of doing illegal work; but during the night poor Tomey was met at a late hour returning home with his bag-net a sadder but a wiser man. The Warden took his pickets under the ice, and now Tomey is searching the woods for more.—COM.

**Star Briefs.**  
—There is excellent sleighing.  
—Dr. Fallon has just killed a hog weighing 505 lbs.  
—Mr. Henry Carroll, of Eganville was in town on Thursday and disposed of a quantity of fat geese.  
—Mr. A. Morrison has 7 teams and about 40 men on the Tabusintac—and a goodly lumber elsewhere.  
—Three teams belonging to D. McLaughlan have been in town for provisions for the woods this week.

**Bay du Vin Notes.**  
There was celebrated on the 25th inst. at the Church of St. Ann's, here, by the Rev. Mr. Barbour, the marriage of Mr. Richard Malby of Newcastle to Miss Maggie Williston of this place. The bride looked charming and the groom looked manly. The bridesmaid, Miss Maggie Staples, of Chatham, and the groomsmen, T. B. Williston, Esq., of this place, were not a whit behind the others in appearance. After the ceremony at the church the happy couple and party retired to the mansion of Mrs. Alexander Williston and partook of those occasions, after which they left for their new home in Newcastle accompanied by the groomsmen and bridesmaid. The former has not been heard of since, down here.

**Scholarship.**  
John J. Gaylor, brother of the Rev. William Gaylor, of Woodstock, last week received of the Matriculation Scholarship of the Buffalo College of Physicians and Surgeons, making 1,000 points out of a possible 1,000. The next highest competitor was 870.—Telegraph.

**Canadian News.**  
Rev. Mr. Almon of Windsor is dead. Hon. Joseph Hibbard, M. L. C., Charlottetown, is dead. The Kent Northern is ready for rails. It will be formally opened next August. The jury at Stellarton has returned a verdict, but the mining companies are exonerated. Henry Foster, ferryman at Hartland, Carleton Co., was drowned while crossing the river on Monday.

**Queer Happenings.**  
A Bucks County, Pennsylvania man has just ended a lawsuit of forty-two years standing, and recovered six cents damages. There is a young mother in Portland, Oregon, whose age is but 12, weight 85 pounds, yet her infant son weighed nine pounds at his birth. A large bird at Keokuk, Iowa, dated swiftly downward in its flight, and striking a lightning rod, the iron ran through its body, and it remained impaled, fluttering and struggling until death came.

**Newcastle Local News.**  
Good crossing on the ice. Whooper up Mr. Clearwater. 'Hist!—There he goes again!! The policeman is now working at his trade—clock making. Mr. Mappen lies very ill at the Waverly and his friends entertain little hope of his recovery. Messrs. Robinson and Jardine have been elected County Councillors for the Parish of Derby.

**Star Briefs.**  
—There is excellent sleighing.  
—Dr. Fallon has just killed a hog weighing 505 lbs.  
—Mr. Henry Carroll, of Eganville was in town on Thursday and disposed of a quantity of fat geese.

—Three teams belonging to D. McLaughlan have been in town for provisions for the woods this week.

**Cable Briefs.**  
The eyes of the world are turned upon Ireland now. This is one of the greatest struggles in the history of that unhappy land but, it is a constitutional struggle. Those who think it can end like O'Connell's agitation, are mistaken. O'Connell means were lawless as Parnell's, but the end was not the same. Ireland now looks not for a repeal of the Union, or what tends thereto, but for a release from Landlord tyranny. It is not a question therefore, between the Crown and the people at all; and the Crown can only interfere as she would if a quarrel took place between two parties on the street.

**Fashion Flakes.**  
Watered silk is the next thing for linings, it is said. Artificial roses can now hardly be distinguished from natural ones. The diamond cut glass so dear to our grandmothers is again in fall favor. In this era of plush, swan's down, as was to have been expected, has come to the fore. Foyal embroidery is the favorite trimming for underwear on handsome bridal outfits. Scotch thistles and dull pink may be recommended as a pretty border for a table cover.

**The Boy Astronomer.**  
The first transit of Venus ever seen by a human eye was predicted by a boy, and was observed by him just as he reached the age of manhood. His name was Jeremiah Horrocks. He lived in a obscure village near Liverpool, England. He was a lover of books of science, and before he reached the age of sixteen had mastered the astronomical knowledge of the day. He studied the problems of Kepler, and he made the discovery that the tables of Kepler, indicated the nearness of the transit of Venus across the sun's center. This was in the year 1635. Often, in midsummer nights, Horrocks was in the fields watching the planet Venus. The desire sprang up within him to see the transit of this beautiful planet across the sun's disk; for it was a sight that no eye had seen, and one that would tend to solve some of the greatest problems in astronomy. So the boy examined the astronomical tables of Kepler, and endeavored to find when the next transit would occur. He found an error in the tables, and he being the first of all astronomers to make precise calculations, discovered the exact date of the next transit. He told his secret to one intimate friend, a boy, who, like himself loved science. The young astronomer then awaited the event which he had predicted. The memorable year came at last—1639. The predicted day of the transit came too, at the end of the year. It was Sunday. It found Horrocks, now just past twenty years of age, intently watching a sheet of paper, on which lay the sun's reflected image. Over this reflection of the sun's disk on the paper, he expected to see the planet pass like a moving spot or shadow. Suddenly the church bells rang. He was a very religious youth, and was accustomed to heed the church bell as a call from heaven. The paper still was spotless; no shadow broke the outer edge of the sun's luminous circle. Still the bells rang. Should he go? A cloud might hide the sun before his return, and the expected disclosure be lost for a century. But Horrocks said—"I must not neglect the worship of the Creator to see the wonderful things the Creator has made." So he left his room and went to the house of God. When he returned from service the sun was still shining, and there, like a shadow on the bright circle of the paper, was the planet Venus! It crept slowly along the bright circle, like the finger of the Invisible. Then the boy astronomer knew that the problems of astronomy were correct, and the thought filled his heart with religious joy.

**Tinware, Tinware.**  
The Subscriber also offers a varied and complete stock of Tinware, including Pails, Pans, Kettles, Saucepans, Stew Pans, Coddles, Larders, Milk Strainers, Milk Pans, Flour Sifters, Colanders, Tea and Coffee Pots, Patty Pans, Water Sprinklers, &c., &c. THOMAS LUCY

Fredericton, Sept. 1, 1880.—E

It always gives us pleasure to draw atten-  
tion to articles which are deserving of public  
patronage. Probably no article ever offered  
to the public has met with the same success  
as Gray's Syrup of Red Sparck Gum. Thou-  
sands of families in the Dominion keep it in  
their homes as the Standard Cough Remedy.  
The sale of this article has assumed enor-  
mous proportions. Our advice to the public  
at large is to try its virtues if they should  
at any time unfortunately contract either  
Cough or Cold. It is sold by all chemists,  
'Troches' are sold only in boxes.

**J. E. COLLINS,**

PROPRIETOR  
Chatham, Aug 30, 1880.

**HALL'S**  
VEGETABLE SILLI-  
**HAIR**  
RENEWER

Every year increases the populari-  
ty of this valuable Hair Preparation;  
which is due to merit alone. We  
can assure our old patrons that it is  
kept fully up to its high standard;  
and it is the only reliable and perfect-  
ed preparation for restoring GRAY  
or FADED HAIR to its youthful color,  
making it soft, lustrous, and silken.  
The scalp, by its use, becomes white  
and clean. It removes all eruptions  
and dandruff, and, by its tonic prop-  
erties, prevents the hair from falling  
out, as it stimulates and nourishes  
the hair-glands. By its use, the hair  
grows thicker and stronger. In  
Baldness, it restores the capillary  
glands to their normal vigor, and  
will create a new growth, except in  
extreme old age. It is the most econ-  
omical HAIR DRESSING ever used,  
as it requires fewer applications,  
and gives the hair a splendid, glossy  
appearance. A. J. Hayes, M.D.,  
State Assayer of Massachusetts, says,  
"The constituents are pure, and care-  
fully selected for excellent quali-  
ty and I consider it the BEST PREPA-  
RATION for its intended purposes."  
Sold by all Druggists, and Dealers in Medicines  
Price One Dollar.

**Buckingham's Dye.**

FOR THE WHISKERS.  
As our Renewer in many cases  
requires too long a time, and too  
much care, to restore gray or faded  
Whiskers, we have prepared this  
dye, in one preparation; which will  
quickly and effectually accomplish  
this result. It is easily applied,  
and produces a color which will  
neither rub nor wash off. Sold by  
all Druggists. Price Fifty Cents.  
Manufactured by R. P. HALL & CO.,  
NASHUA, N.H.

**Ayer's**  
**Hair Vigor,**

For restoring Gray Hair to  
its natural Vitality and Color.

A dandruff  
whisker, and  
gray hair, and  
is a good pre-  
paration for  
restoring the  
hair to its  
natural color,  
and for  
restoring the  
hair to its  
natural  
vitality and  
color.

**HAIR DRESSING,**

nothing else can be found so desir-  
able. Containing neither oil nor  
dye, it does not soil white cambric,  
and yet lasts long on the hair, giving  
it a rich, glossy lustre and a grateful  
perfume.

**Ayer's**  
**Sarsaparilla**

For Scrofula, and all  
scrofulous diseases, Erys-  
ipelas, Rose, or St. Antho-  
ny's Fire, Eruptions and  
Eruptive diseases of the  
skin, Ulcerations of the  
Liver, Stomach, Kidneys,  
Lungs, Pimples, Pustules,  
Boils, Blisters, Tumors,  
Tetter, Salt Rheum, Scald  
Head, Ringworm, Ulcers,  
Sores, Rheumatism, Neuralgia, Pain in  
the Bones, Side and Head, Female  
Weakness, Sterility, Leucorrhoea, arising  
from internal ulceration, and Uterine  
disease, Syphilis and Mercurial dis-  
eases, Dropsy, Dyspepsia, Emaciation,  
General Debility, and for Purifying the  
Blood.

This Sarsaparilla is a combination of  
vegetable alteratives—Selling's Man-  
drake, Yellow Dock—with the lodides  
of Potassium and Iron, and is the most  
efficacious medicine yet known for  
the diseases it is intended to cure.  
Its ingredients are so skillfully com-  
bined, that the full alternative effect of  
each is assured, and while it is so mild  
as to be harmless even to children, it is  
still so effectual as to purge out from the  
system those impurities and corrup-  
tions which develop into loathsome disease.  
The reputation it enjoys is derived  
from its cures, and the confidence which  
prominent physicians all over the coun-  
try repose in it, prove their experience  
of its usefulness.

Certificates attesting its virtues have  
accumulated, and are constantly being  
received, and as many of these cases are  
publicly known, they furnish convincing  
evidence of the superiority of this Sar-  
saparilla over every other alternative  
medicine. So generally is its superi-  
ority to any other medicine known, that  
we need no more than to assure the  
public that the best qualities it has ever  
possessed are strictly maintained.

PREPARED BY  
**Dr. J. C. AYER & CO., Lowell, Mass.,**  
Practical and Analytical Chemists.  
SOLD BY ALL DRUGGISTS EVERYWHERE.
