BATHURST MAN DISAPPEARED SUDDENLY

Herbert W. Read Last Seen In Montreal On Oct. is Missing.

NO CLUE TO WHEREABOUTS

Montreal, Nov. 21.—The friends and family of Herbert W. Read, of Bathurst, N. B., are in a very great state of anxiety regarding his disappearance.

Mr. Read came to Montreal on business on October 28th last. He concluded his business within less than a week and on Wednesday morning, the 3rd of this month, left Mr. H. E. Bates, with whom he had been staying while in Montreal, with the intention of boarding the Maritime express to return to Bathurst. That morning he had gone down with Mr. Bates to the latter's office with the Quebec bridge commission, and about 11.30 left him to board the train. Mr. Bates had offered to accompany him to the station, but Mr. Read told him not to trouble himself, for he had his things checked and his ticket bought, and would board the train immediately. From that time until now absolutely nothing has been heard of the missing man. He has completely disappeared. He was a B. A. of Mount Allison and graduated with great distinction at McGill as a B. Sc. in 1908.

WOMEN WHO SUFFER

Dr. Williams' Pink Pills Give Regularity and Good Health

Every woman at some time needs a tonic. At special times unusual demands are made upon her strength. Where these are added to the worry and hard work which falls to her lot, weakness will result unless the blood is fortified to meet the strain.

Weak women find in Dr. Williams' Pink Pills the tonic exactly suited to their needs. Most of the ills with which they suffer are due to bloodlessness—a condition which the Pills readily cure. These Pills save the girl who enters into womanhood in a bloodless condition from years of misery, and afford prompt and permanent relief to the woman who is bloodless, and therefore weak. Mrs. E. Fisher, Conates Mills, N. B., says: "Sometime ago my system was in a very anemic condition as the result of an internal hemorrhage caused by an accident. Though I had the services of a skilled doctor for a time, I did not recover my strength, and gradually I grew so weak that I could not do any house-work. As I seemed to grow steadily weaker I became much discouraged, for previous to my accident I had always been a healthy woman. About this time I received a pamphlet telling me of the strengthening powers of Dr. Williams' Pink Pills. I procured a box at once and began using them, when they were gone I got three boxes more, and by the time I had used these I found myself somewhat stronger and my appetite much better. Before I began the Pills I could scarcely walk up stairs, and could do no work at all. Now after taking three boxes I was able to walk out in the open air. I kept on with the Pills, and after using six boxes was delighted to find that I could again attend to my household affairs. I took two more boxes of the Pills, and I felt that I was as well as ever I had been, and equal to any kind of exertion. I have since recommended Dr. Williams' Pink Pills to friends with beneficial results."

Dr. Williams' Pink Pills are sold by all medicine dealers or will be sent by mail at 50 cents a box or six boxes for \$2.50 by The Dr. Williams' Medicine Co., Brockville, Ont.

Syrians' \$25,000 Fraud Has Been Unearthed

Operating With Grand Falls as Headquarters They Fleeced 30 or 40 Wholesale Houses in Canada.

Fredericton, Nov. 22.—Private detectives and other officers of the law all over Eastern Canada have been engaged for some weeks past on a gigantic fraud case in which a combination of Syrians working with Grand Falls, N. B., as their headquarters, have obtained goods to the value of upwards of \$25,000.

Already one arrest has been made in the case, several thousand dollars worth of goods having been seized and detectives are scouring Boston, New York and other American cities in an endeavor to locate those who were concerned with William J. Ayoup, the man now under arrest, in the perpetration of the alleged fraud.

Those alleged to be interested with William J. Ayoup in the perpetration of the fraud are Kalib Aboud, M. Moses, M. J. Ayoup, and E. S. Cowley, all residents of Woodstock and Houlton, Me., and several of whom were witnesses in the David murder trial here several years ago. They are now sought by detectives.

The firms defrauded include Wm. Croft & Sons, Toronto; Roy and Darbeau, Quebec; Mitchell Woolen Mills,

Mitchell, Ontario; White's Ltd., Ottawa; J. Eveleigh & Co., Montreal; J. J. Murphy, Halifax; Kaplan, Shane & Co., St. John, and many others making a total of between 30 and 40 creditors in all.

Some months ago Ayoup and his associates ordered goods to the value of \$25,000 or more from the firms, buying the goods mostly on 30 days credit, and when the time was up the drafts were not paid. Some of the firms then became suspicious and warrants for seizure under the Absconding Debtors Act were issued. It then developed that most of the goods which had been shipped to Grand Falls, had been re-shipped away by Ayoup and his associates to various places, and in many cases to fictitious addresses, some of the goods not even being opened before re-shipment.

The idea was apparently to have agents of the conspirators get the goods at the various places to which they were re-shipped and later to sell them and escape the trouble of paying for them.

AYOUP ARRESTED
Later on the arrest of Ayoup followed at Canterbury, York County, and he is now out on \$1,000 bail.

GOODS SEIZED AT CANTERBURY
However, some of the goods were shipped into York Co. from Grand Falls by the scheming Syrians and Deputy Sheriff George H. Winter was engaged to handle the York County end of the case and recently succeeded in cleaning up his work in a manner which has won much commendation. At Canterbury he found that five cases of goods had been shipped to E. Miron at that place. The goods had been taken from the station by a man employed by M. Moses, who is now being sought by detectives, and had been stored at the homes of Thomas English, a party named McLeary and another named Jamieson. Acting under a warrant that had been issued Deputy Sheriff Winter seized the goods and with Constables S. Grant and E. Hugley made an inventory and shipped them to Sheriff Howe and they are now stored at the county jail.

TOM LONGBOAT AND SHERRING WILL RACE

Hamilton, Nov. 20.—At last arrangements have been made for Tom Longboat and Billy Sherring, the famous Marathoners, to hook up in a five mile race. It is to be run at Chatham on the 20th of this month and is probably intended as a feeler out as to how the public will take to the professional racing game this season. Ever since Sherring, the hero of Athens, the first Canadian to win an Olympic Marathon turned professional, efforts have been made to match him with Longboat. The five mile race is undoubtedly a preliminary to a real race, the full Marathon distance, later in the season, the intention being to pull off five, ten fifteen, twenty and twenty-six mile races in different Canadian cities. Montreal will get one of the big races.

ANIMALS' LOVE OF MUSIC

Singing to Squirrels and mice—Music Lessons for Bluejays

(Nashville Visitor)

Many of the forest folk are fond of music and seem to take as much pleasure in it as we do ourselves. A young bluejay at one time spent two months as a guest in my home. We all know what harsh voices the jays have. Did any one ever hear a jay sing a sweet, tuneful little song, I wonder? While the small jay lived with me it was my custom to practice singing for half an hour every morning. No sooner had I seated myself at the organ and struck a few chords than "J-J" hopped over the door sill and settled himself on the rung of a nearby chair. He listened with rapt attention, and after a few days he tried a bit of song himself. At first I had to stop and laugh, his performance was so amusing; but after a few weeks practice he could sing very sweetly—not exactly the tunes he heard but little ones that he made up as he went along. If any noises pleased him he began to sing. A heavy thunder shower or the whir of a sewing machine always moved him to express his delight in song.

More than 200 years ago a young violinist, Isidore Berthoume, was obliged to practice on his violin many hours daily. One day he saw a spider creeping at him from its crack in the wall. Soon it ventured forth and every day it grew a little bolder from being drawn irresistibly by the sweet sounds from Isidore's fiddle.

At last one day the boy had the great pleasure of seeing the spider take its place on his bow arm. Presently his stepmother, coming into the room and seeing the spider, killed it with a blow of her slipper. The death of his pet was such a blow to the boy that he fell fainting to the floor and was ill for three months afterwards.

When the great herds of cattle on the plains become restless the cow-

boys sing them to sleep, and often prevent a stampede in that way. They say that the steers are especially fond of 'My Bonnie' 'Lorena' and 'The Cowboy's Lament.'

Squirrels and mice are ardent music lovers. Dr. Chomet tells us that one day while strolling in the woods he sang an air from an Italian opera and chancing to look around he saw a number of squirrels all listening with delight to his song. The next time you take a woodland stroll try singing a few songs, or if you play a flute or fiddle play a few tunes and see what effect it has upon your little forest friends.

The combined value of the wheat, corn and oats crop of 1909 in Kansas is estimated at nearly seventy million dollars.

The American Federation of Labor is declaring war on the Steel Trust. But the Trust will laugh as long as the Federation votes protection on steel.

American suffragettes are cold toward Mrs. Pankhurst. We must look for a contrast between a nation distinguished for quiet reserve and a sister nation noted for swift and even violent progress.

HER UNHINGED JAW LOCKS UP A JOKE

Mrs. Caroline Dressier Dislocates it While Telling Good one to Friends

"What's the trouble," said Dr. Touart of Harlem Hospital, as he jumped from an ambulance in front of a tenement house at No. 1835 Second avenue.

"Woman with a dislocated jaw on the second floor," said Policeman Hansen of the East 104th street station, and the two hurried to the apartment of Mrs. Caroline Dressier, who possesses a sense of humor.

Dr. Touart found Mrs. Dressier surrounded by sympathetic friends, who were striving to put back in place a jaw that obviously needed adjusting. Mrs. Dressier was in great pain. "Here come away from there," said the physician.

Mrs. Dressier's anxious friends fell back abashed. "She was telling a joke and laughed," explained one.

"And then her jaw stuck," added another.

"And she can't tell the joke till her jaw's fixed," added a third, and then silence fell upon the room, while those who had spoken waited expectantly. It was clear that that joke would never get out of that room alive.

Dr. Touart worked steadily at the jaw for a few minutes then there was a clink and Mrs. Dressier was able to work it up and down and sideways with little effort.

"That seems to be all right," she said at length. A relieved murmur went through the room; then there was silence, as everybody leaned forward.

"The joke," said a voice from the rear. "Let her tell the joke."

"Oh, it was such a funny joke," cried Mrs. Dressier. "You know, Ha, ha, you know—"

"Haw-haw-haw, ho ho ho," interrupted Mrs. Dressier's friends. Then Mrs. Dressier suddenly ended the concert by giving a shriek of pain and rolling from her chair.

"Here," cried the physician, "shut up. She's dislocated her jaw again."

He set it again and this time ensured safety by sundry yards of bandage which will keep the joke bottled up till Mrs. Dressier gets out of Harlem hospital.

Inquiries by a reporter among Mrs. Dressier's friends as to the nature of the joke merely elicited an exasperated snort. Harlem is sensitive on the subject of that lost joke.

It is stated by Montreal papers that the brokers who negotiated the recent cement merger cleared \$200,000.

BABY'S OWN TABLETS

A SMILE IN EVERY DOSE

Smiling, happy, healthy little ones are found in every home where Baby's Own Tablets are used. An occasional dose regulates the stomach and bowels and keeps little ones well, or will speedily restore health if sickness comes unexpectedly. Ask any mother who has used this medicine for her children and she will tell you there is nothing else so safe and sure. Mrs. N. F. Quinn, St. Venecias, Que., says: "I have used Baby's Own Tablets for most of the ailments of childhood, and have not known them to fail. From my own experience I can recommend them to all mothers." Sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

More bread and Better bread
—And the Reason for it

A STRONG FLOUR can only be made from strong wheat. Manitoba hard wheat is acknowledged the strongest in the world—and that is the kind used for Purity Flour.

Of course this special process is more expensive to operate but it means a lot to Purity flour users—that's why we use it.

It means that Purity Flour is made entirely of the highest-grade flour parts of the strongest wheat in the world.

It means a high-class, strong flour and therefore yields "more bread and better bread."

Purity may cost a little more than some flours, but results prove it the cheapest and most economical after all.

But that's not all. Every grain of this wheat contains both high-grade and low-grade properties. In separating the high-grade parts from the low-grade the Western Canada Flour Mills put the hard wheat through a process so exacting that not a single low-grade part has the remotest chance of getting in with the high-grade.

TWENTY ENTOMBED MEN WERE FOUND ALIVE AFTER WEEK'S IMPRISONMENT

Twenty of the Men Buried in the St. Paul Mine For Over a Week Rescued, and Hope is Now Entertained That Others May Also Have Escaped.

Cherry, Ills., Nov. 22.—The exploring parties in the St. Paul mine today found indications which led them to believe that many living men are still in the last workings. Nearly two hundred are still unaccounted for. Twenty of the entombed miners were taken out alive on Saturday.

If men still live imprisoned in the depths of the mine they are probably too weak to aid in their own escape. It was nine days ago to-day that the fire occurred, and for that time any possible survivors have been without food and with very little, if any, water. Their one hope is the rescue party which is working frantically to remove the timbers, dead animals and earth falls which block the way to the east workings. But it is slow work. Rain fell at night. Four of the score or more bodies seen lying in the black damp were hoisted. It is stated it is impossible to reach the others, although they are in plain view.

ZAM-BUK CURED HER BABY

Mothers will find the following statement of more than passing interest, showing, as it does, how Zam-Buk ends the skin-diseases of children, even when ordinary remedies have completely failed. Mrs. C. W. Bowerbank of 126 Denison Avenue, Toronto, says: "Not long ago my baby's face broke out in an eruption. The spots would crack and be very irritating and sore. At other times they itched fearfully, and caused the child to scratch and rub, thus making the sores very inflamed and painful. I tried all sorts of ointments and salves, but they somehow did not seem able to remove the trouble. Zam-Buk proved very different and a few applications gave the child relief. The sores are now healed completely."

"Since that time my little daughter has had occasion to use Zam-Buk for skin trouble. She broke out in blotches on her hands and arms, and in her case also Zam-Buk effected a cure."

"We now keep Zam-Buk handy as a household balm, and do not intend to be without it."

"Not only for skin diseases, but for cuts, burns and bruises, it is a fine remedy. The other day I burned my hand badly. An application of Zam-Buk seemed to take the fire out of it at once, and it soon healed. In the course of my experience I have tried pretty nearly all the salves and ointments obtainable, but there is nothing to come near Zam-Buk."

Zam-Buk is Nature's own healing balm, being composed of pure herbal essences. It is a sure cure for pimples and eruptions, eczema, ring-worm, ulcers, cuts, burns, bruises, poisoned sores, chronic wounds, bad leg piles, festering sores, and all skin injuries and diseases. Druggists and Stores everywhere sell at 50c a box, or post free for price from Zam-Buk Co., Toronto; 3 boxes \$1.25. You are warned against cheap and harmful imitations sometimes represented to be "just as good."

The American Federation will have to modify its view on the modern d.s.s.pot, the infanction. Kansas city milk men have been enjoined against raising the price of milk.

TERRIBLE EXPERIENCE OF SCHOONER'S CREW

Boston, Mass., Nov. 18.—The schooner yacht Coronet, bearing some forty Shilohites bound for the Shiloh colony in Palestine, was driven into port here to-day, by a furious gale encountered at the start of the trip for the Mediterranean. The Coronet slipped out of Portland, Maine, harbor Monday night, bound, it was believed, for Rev. Frank W. Stanford's colony in Palestine. The settlement of the Holy Ghost and U.S. Society there it reported to have been depleted and it is understood the forty or more men, women and children from the Durham Hill, Maine, colony, were to be added to the settlement.

LIGHTING N. W. BRIDGE

At the Council meeting last evening a committee was appointed to interview the Chief Commissioner of Public Works with the view of having the North West Bridge lighted. They hoped to get a certain guarantee from the Chief Commissioner and the Town and County would pay the balance. They did not however, build any high hopes on the amount which the County would contribute. Last winter, when the matter was brought up before the County Council that august body refused to entertain for a single moment the wasting (?) of County money on such an unimportant matter. So the bridge has remained in darkness; a danger to travelling public and a disgrace to the County. On dark nights when the draw is open there is nothing to warn the traveller of danger, and it may be even death, unless the very darkness itself urges him to be cautious. Teams meetings on the bridge after night can scarcely expect to pass in safety; pedestrians are in danger of being run over by teams, and, they, in their turn, are liable to be dashed to death through the open draw. Dangers, such as these, should be guarded against, before some shocking accident occurs. It is too late when an auto, rushing along the bridge plunges through the open draw, the usual "I was afraid of that" can do little towards restoring the victims to their bereaved families. Gross carelessness prevails, and it is well the Council are directing their attention to have the bridge lighted.

At the Council meeting last evening, while discussing the increased dangers of the North West Bridge in consequence of the Draw, Aid. Ritchie said "If an automobile came flying over the bridge at a speed of thirty or forty miles an hour, as I'm told they often do, and the draw was open, where would they go?" We presume it would depend on how they had spent their past lives.

It remains for the Supreme Court to say whether an insurance policy is payable when the owner was hanged. Still, hanging appears to be a natural enough death for some people.

Last year Mrs. Carrie Nation visited England, and now Mrs. Pankhurst is coming across the pond to return the call.

Although there has been a law in force since January 1 in Oregon prohibiting women from wearing hats more than ten inches in length, there have been no arrests as yet for the offence.

WIFE GUIDED AS NO BAND FOUND HER WITH RIVAL

Bad Ending of Misguided Love Romance.

Montreal, Nov. 18.—The sad, broken column of a misguided love romance and sequel to an elopement were in evidence at Wood-station today when Robert Blyth, builder of West Chazy, N. Y., brought from Elk Lake for interment in the little town near Lake Champlain the remains of his wife, Wilhelmina, who eloped two months ago with Samuel Montagu to the new silver field near Cobalt.

The circumstances are pathetic, as related by the injured and bereaved husband while waiting with his wife's dead body for the Delaware & Hudson train this forenoon. Some four or five years ago Montagu and Blyth were rival suitors for Wilhelmina Cherry, and she chose the latter and lived with him in an atmosphere tolerably free from conjugal troubles until this summer, when Montagu returned to West Chazy after four years' absence in Cobalt, and in the silver country around it. He resumed an intimacy with Mrs. Blyth and met her frequently unknown to the husband, who found about two months ago that she had disappeared, leaving no intimation as to her purpose or whereabouts and taking with her only the dress she wore, so far as could be seen.

Mr. Blyth who had during the weeks that Montagu was in town noticed an unaccountable change in his wife towards him, a sort of peculiarity in her affections at once suspected that she had been fascinated by the old lover's stories of wealth in the new silver country and had been induced to elope with him.

The bereaved husband determined to follow the pair and if possible get

NEWSPAPER ADVERTISING
THE ACME OF PUBLICITY

Mr. James Bussaver, President of the Allied Bank Company, New York City, in a country which probably pays out as much money annually for advertising of all kinds as does any firm on the Continent says: "Advertising in newspapers is the Acme of Publicity. The newspaper reaches every home. It is the welcome guest early in the morning and is sought and perused thoroughly by each member of the family who is old enough to read. The frequency with which columns of a newspaper are scanned naturally impresses on the mind—almost indelibly—the matter contained therein which appears often as does the average advertisement. The character and general reputation of the publication is of vital importance. The character of the newspaper, the estimation in which it is held, and the class among whom it circulates should be the points of inquiry, and should have the proper effect in reaching the decision as to which papers are to be used. Without newspaper advertising the world would be decades behind where it is now, from an industrial standpoint. An inventor one day discovered that a kitchen faucet would operate a wash machine. Advertising in daily papers made that fact known to the civilized world in an incredibly short space of time. The vacuum cleaner would not today be saving one per cent. of the labor and time it is saving in the home. Keeping of the world had not its progress been heralded in the columns of the newspaper. The same is true of an endless list of articles—of stoves, steam cookers, acetylene gas machines, breakfast cereals, bottles that keep things hot or cold. It would have taken twenty years to do for the safety razor what one year of publicity did. Advertising has secured handsome rewards for the inventors, but the general public has profited to a far greater extent. In view of such facts how can any business man remain a non-user of space in the Newcastle Union Advocate?"

Mr. John W. Dalton, of this city, who for some years past has been second officer in command of the Government steamer Lansdowne, received word yesterday from Ottawa of his promotion to captain of the Government steamer Stanley to succeed Captain Brown, who has retired. Captain Dalton left for Sydney last night, to take charge of the steamer. He is a brother of Mr. C. E. Dalton, Government inspector of boilers, and also to the late Mr. George F. Dalton, who was drowned off the bay shore in October.—St. John Star.

MISSIONARY MEETING
A very successful Missionary meeting was held on Thursday night in St. Mark's Church, Douglastown. Rev. Mr. McArthur of Newcastle, delivered an eloquent and instructive address, on the foreign mission work of the Presbyterian Church, closing with a strong appeal for increased contributions. A solo by Rev. F. C. Simpson and special singing by the choir was much appreciated.—Rev. S. J. MacArthur will address a Missionary meeting in Douglastown Presbyterian Church to-morrow night. There will be no Presbyterian prayer meeting here to-morrow night.

SUPREME COURT
The Supreme Court opened here this morning, Judge Barry presiding, to try the case of The Royal Bank of Canada v. Tucker. The action was brought by the Bank on a note made by The Anderson Furniture Co. and discounted by Tucker at the Royal Bank. The note was subsequently renewed and it is on one of these renewals the Action is brought.

GONE TO MONCTON HOSPITAL
Charles Wayne, aged twenty-six and unmarried, son of Edward Wayne, the well-known guide of Weynton, on the Northwest Miramichi, came to Newcastle Friday and went to Moncton hospital on Saturday. Two weeks ago he cut his foot in the woods, and the treatment up to date has failed to cure the wound, which got worse every day. Amputation may be necessary.

A DEAR BEATING
A most brutal case of cruelty to animals was discovered in Newcastle Thursday evening. A man from Chatham was coming up for a load of goods, but the poor old horse was such a rack of bones that, when near the end of his unloaded trip, he became exhausted and could go no further. His master, who informed the passers by that the animal had cost him \$14.00 the other day but would be sold for \$5.00 to anyone who would want him, broke his whip on the poor animal and then beat him with a club, leaving ridges on the unoffending horse's hide and nearly cracking his ribs. He was at last persuaded to ditch the wagon in front of Mr. Forrester's, the latter coming out and getting some hay for the horse. By-and-by, however, one of the citizens who drove past had the man arrested and lodged in the lock-up. The prisoner, being brought before police Magistrate Maltby, owned up to the offence, and, to escape a night in the cells, handed out \$25.00 and costs to settle the case. The horse was meanwhile kindly cared for in Sargeant's stable.

FORTEN CENTS.
We will send the UNION ADVOCATE to any address in Canada till January 1910, for ten cents.

ADDRESS READ
At the opening of the Court this morning, R. A. Lawton, K. C., on behalf of the Bar of New Brunswick presented His Honor Judge Barry with an address of congratulation on his election to the Bench. The address will appear in our next issue.

HESITANT ASSISTANT STEWARD
The body from the wrecked steamer Hestia which was found in the beach near St. John's N. S. Friday morning was identified as that of W. Hart, assistant steward of the steamer. The body was fully clothed and a watch was found on it. Burial took place at Yarmouth on Saturday.

FALSE ALARM
At half past four o'clock yesterday afternoon an alarm of fire was sounded. The firemen rushed to the scene. Smoke was seen coming from the dwelling of Eliza Treadwell. It proved, however, to be only the steam arising from a pot of water which had boiled over while the mistress of the house was away. The damage was nil.

BIG SALE OF LUMBER
The York and Sunbury Milling Co. of Gibson have sold their stock of about three million superficial feet of spruce boards to the Windsor Lumber Company of New York. Mr. A. B. Ruddock has a contract with the purchasers, who take control of the lumber when it is placed on scows, to do the towing to St. John, and his fleet of tugs are now engaged in the work.

AWARDED \$1,100 DAMAGES
Mrs. Michael Kelly, St. John, widow of the late Michael Kelly, who was killed by falling into the hold of the Donaldson boat Orithia on September 8th, last, was paid \$1,100 on Thursday as compensation by the Robert Redford Co., agents for the Donaldson line. It will be remembered that the jury empowered to inquire into Mr. Kelly's death brought in a verdict that death was caused by the mistake of a watchman operating a winch, and recommended that in future a man be placed alongside the winchman to give orders. Mrs. Kelly entered a suit against the Robert Redford Company for damages under the Workmen's Compensation Act. Mr. J. A. Barry acted for Mrs. Kelly and Messrs. MacRae and Sinclair for the steamship people.

DEATH OF MR. C. W. TREADWELL
Despatches from Ottawa announce the death on Thursday of Mr. Clarence W. Treadwell, ex-secretary of the Finance Department. Mr. Treadwell was born in King county in 1851, and was educated in the St. John Grammar School, finishing at the University of New Brunswick, from which institution he was graduated B. A. in 1872. He was connected for some time with the News, published by Willis & Mott, studied law, and practiced for a time in partnership with Mr. R. P. McGiven. In 1882 he was appointed to a position in the Finance Department, and lived in Ottawa since that time. Through ill-health he was obliged to retire a year or two ago. Mr. Treadwell married an Ottawa lady—Miss Robertson—by whom he is survived, with two sons, Norman and Gerald. Mr. Treadwell was an efficient official, and through merit rose to a prominent place in the Finance Department. Many friends in New Brunswick will regret to hear of his death.

Many a man considers himself a hero for getting up and lighting the kitchen fire on a chilly morning, but he need expect no carnal praise for it.

MEETING OF THE TOWN COUNCIL

A special meeting of the Town Council was held at the Town Hall last evening at eight o'clock. Mayor Miller in the chair. All the Aldermen were present. Minutes of previous meeting were read and approved. Communication from the Canadian Municipalities was read in reference to the recent cement merger, and the consequent raise in the cost of cement, and asking the support of the Council in their efforts to obtain more stringent legislation with regard to regulation of same. On motion of Ald. Morrison and Ritchie communication was received and a resolution, sympathizing with the efforts of the Canadian Municipalities, passed.

Plans for placing of bollards for bridge over Douglastown road by the New Brunswick Dock and Terminal Company Limited, were submitted and on motion of Ald. Belyea and Morrison a resolution was adopted authorizing the Company to cross the road in accordance therewith.

On recommendation of the Finance Committee the following bills were ordered paid:

Barnes & Co.	\$600
Revisors	2000
Gen Ryan	100
J. B. Lawlor	1000
Cameron Smallwood	1100

The following bills were submitted but no recommendation was made:

R. L. Maltby	1350
T. J. Durick	10150
A. E. Shaw	12157

Ald. Morrison and Doyle criticized the action of the Board of Health, in not procuring fumigating material wholesale and save paying exorbitant prices for same.

Ald. McMurdo doubted if the council had the right to pay these bills when the parties for whom they were contracted were well able to pay them themselves.

On motion of Ald. Belyea and T. Russell the Finance Committee were instructed to get legal advice as to the liability of the town in respect to those bills, and submit report at next meeting of the Council.

On recommendation of Public Works Committee bills of W. A. Hickson 271.63 J. A. Phinley 98.58 were ordered paid.

On recommendation of Light and Water Committee the following bills were ordered paid:

T. McAvity	22.52
Colonial Lumbering Co.	47.80
Miller's Foundry	12.85
Can. Electrical Co.	100.35

On motion of Police Committee the following bills were ordered paid:

Clem Ryan	.50
P. Russell	22.50
Percy McLean	20.00
John Edmunds	1.00

A bill of Robert Murray for 25.00 as Counsel in certain Scott Act cases was not recommended, the chairman stating that he had not been consulted in the matter and he knew nothing about it. After considerable discussion the Aldermen were of the opinion that the Town was liable, and the bill was referred back to the Police Committee. Committee on Petitions recommended that the sum of \$29.50 be accepted in full of Philip Galley's taxes—the full amount was 23.71. The recommendation was accepted.

A special committee appointed to meet the Newcastle Rink Club re water and light reported that they recommended a flat rate of \$10.00 for water and \$100.00 for light be given them. The report was received and adopted and on motion of Ald. Morrison and Doyle the Water and Lights Committee was instructed to enter into an agreement with the Rink Club to furnish water and light at the sums named. The question of lighting the North West Bridge was then taken up. Much discussion took place over who should light the bridge. It was finally decided on Motion of Ald. Morrison and Belyea that a committee of three be appointed to interview the Chief Commission of Public Works and find out how much he would guarantee from the government towards the light of same. His Worship then appointed Ald. Ritchie, Sargeant and Doyle as such committee. After which the meeting adjourned.

Fifteen Years of Agony
"Fruit-a-tives" Promptly Cured Him After Doctors Had Failed To Give Relief.

CHARLES BARRETT, Esq.

Harbor au Bourche, Antigonish Co., N.S., March 24, 1909. "I wish to express my sincere appreciation of the great benefit I received from taking 'Fruit-a-tives.' I suffered from Biliousness and Dyspepsia for fifteen years and I consulted physicians and took many kinds of ordinary medicine, but got no relief. I was in miserable health all the time and nothing did me any good. I read the testimonial of Archibald McKechnie, of Ottawa, and I decided to try 'Fruit-a-tives.' I have taken a number of boxes of 'Fruit-a-tives,' but before I had taken one box I felt better and now am entirely well. I am thankful to be well after fifteen years suffering, and I am willing to have this statement published for the sake of other sufferers, and to them I strongly recommend 'Fruit-a-tives.'

NEW TRIUMPH IN PHOTOGRAPHY

Robert W. Woods, professor of experimental physics at John Hopkins University, has made another remarkable discovery. He has photographed light waves of color invisible to the human eye.

They are landscape photographs, in which the infra-red and ultra-violet rays never before photographed and never seen, produce startling and beautiful effects, some like snow scenes.

The discovery is of value to astronomy as well as photography, for Dr. Wood has already taken pictures of the moon by his new method.

Professor Wood is the discoverer of a method of color photography of the first eye lens, of a memory reflecting telescope that promises to solve many difficulties in the astronomical line; of a screen which, placed before an ordinary incandescent light, makes the light appear like that of ordinary day, and of a method of intensifying the colors of oil and water color paintings and giving them the same relative strength they have in nature.
