C. LONDON LUMBER CO., Lendon, Ont.

TO MILL MEN.

TO MILL MEN. Do you wish to be less dependent upon the Canadian and United States markets? If so, this may be accomplished by cutting some of your stock to the specifications required by the British market. Any of the brokers and im-porters advertising in THE LUMBERMAN will be pleased to furnish to mill men specifications and price lists, and will advance 75 per cent. of the value of the stock shipped.

Roy & Frere, saw mill, St. Jude, Que, have dissolved partnership.

A saw and shingle mill at Kilworthy, Ont. owned by Jas. Hart, of Orillia, was destroyed by fire last week.

CURRENT TRADE CONDITIONS. ONTARIO.

The past week has brought about no material change in the lumber situation in Ontario. Generally speaking, trade is about normal for this season of the year, with prices firm and a decidedly hopeful feeling in respect to the early spring demand. No confirmation has been received of the report that certain Ottawa valley manufacturers have disposed of their 1901 production of British deals, but there is reason to believe that contracts will be closed in the near future. The weather conditions in the Georgian Bay district have been unfavorable for logging oper-ations, being mild and rainy. As we go to press it is learned that there has been a fall of snow which will greatly faciliate work in the woods. Additional reports are to hand telling of the limited quantity of logs to be taken out this winter, the of logs to be taken out this winter, the scarcity of men and high wages being the principal reasons. Besides, there was hung up in the northern pine districts of the province probably 200,000,000 feet of pine logs, which will likely be available for next season's sawing. The expected advance in the price of

lath has not yet taken place, but judging from the firm position of holders of this stock, higher prices seem to be assured.

QUEBEC AND NEW BRUNSWICK.

That the past season has not been al-together satisfactory to the lumbermen of the eastern provinces is shown by a comparison of the shipments of lumber from the port of Montreal to the United King-dom. The figures show a decrease, as compared with the previous year, of nearly 60,000,000 feet. Taking the exports of four of the leading shippers, we find a decrease of nearly 50,000,000 feet. This decrease of nearly 50,000,000 feet. This de-crease, of course, may be accounted for in part by the fire in the Ottawa lumber district last spring. Statistics of the east-ern ports are not to hand, but we believe they also will show a falling off in ship-ments. At the present time business in lumber circles is quiet, and manufacturers lumber circles is quiet, and manufacturers are looking into the future with some eagerness. There has been a slight improvement in the United States trade, with a tendency towards higher prices. It is expected that an advance of ten cents will be made in the price of cedar shingles, which are now selling, on Boston rate of freight, at \$2.75 to \$2.90 for extras, \$2.40 to \$2.50 for clears, and \$2.10 to \$2.25 for second clears. Lath are bring-52.25 for second clears. Lath are bring-ing \$2.75 to \$2 80 for 1 16 inch, and \$2.50 to \$2.60 for 1 1/2 inch.

GREAT BRITAIN.

The position of the British timber market at the present time contrasts very strongly with the course of the market twelve months ago, when importers were eager to place orders at current quota-tions. Now no contracts for spring shipments are being placed, and it is said that some of the agents have not been supplied with their shipper's stock shee s. There seems to be a feeling on behalf of the shippers that it is advisable to wait until after the new year, when some of the surp'us stocks will be worked off. The

results of recent sales have not added strength to the market. The Timber Trades Journal, usually a reliable authori-ity, remarks that "there is no escaping from the fact that there is a general sink-ing of prices from the high level they lately occupied, and nobody can forsee when the bottom will be reached." Shippers are being advised to lower their prices on deals about one pound per standard, and on battens ten to fifteen shillings, but we are inclined to the opinion, so far as Canadian lumber is concerned, that when the knowledge of the decreased producresults of recent sales have not added the knowledge of the decreased production becomes more generally known, the market will pick up again.

NO. 46

UNITED STATES.

UNITED STATES. The late tendency to cut prices of pine lumber is no longer reported. The mark-et has strengthened, and dealers and con-sumers alike appear convinced that the stock of pine lumber will be inadequate for the demands of the winter and spring. Sales have not been numerous, but there has been an active enquiry for spring detor the demands of the winter and spring. Sales have not been numerous, but there has been an active euquiry for spring de-livery. At Buffalo it is feared that a serious shortage in box lumber and cer-tain other grades will be experienced. Eastern spruce is firm, and higher prices are being asked. Hemlock is also selling in the Eastern States at good value. The most noticeable improvement, perhaps, has been in the hardwoods. The demand is decidedly stronger, while the position of the consuming industries is such as to forecast a heavy movement of stock in the spring. The piano manufacturers are pur-chasing considerable quantities of elm. In the Chicago market low grade inch pine is very dull, as is also cull stock, but No. 1 and No. 2 boards are exceedingly scarce and bring full prices. On the Pacific coast conditions have not changed. There is a disposition to curtail the pro-duction of red coder shurcles during the

There is a disposition to curtail the production of red cedar shingles during the winter.

STOCKS AND RICES.

Over 30,000,000 feet of lumber have been shipped this season from the port of Parrsboro, N.S.

The Niebergall Lumber Company, of Staples, Ont., are said to have 3,000,000 feet of lumber ready for shipment.

The Saginaw Lumber & Salt Company, of Saginaw, Mich., has purchased 7,000, 000 feet of Ontario logs to be manufac-tured in the spring at Parry Sound. The London Electric Company, of Lon-

don, Ont., recently imported two carloads of red cedar electric light poles from Idaho, supplied by Firkins & Company,

Idaho, suppress of a sailed from Chem-of Minneapolis. The ship St. David sailed from Chem-ainus, B.C., last week for Australia, with a f B-wish Columbia timber. The a cargo of British Columbia timber. The schooner Defender and the ship Great Admiral are loading at the same port.

Admiral are loading at the same port. O. W. Sanders, of Duluth, Minnesola, has taken a contract from the Rat Portage Lumber Co., of Rat Portage, Ont., for getting out about 30,000,000 feet of logs on Sturgeon river. He will cut about 5,-000,000 feet this winter. The Keewatin Lumber Co., of Keewatin, Ont., will get out about 4,000 coo feet during the winter. out about 4.000,000 feet during the winter.

The Department of Indian Affairs at Ottawa invites tenders up to Wednesday, 12th inst., for supply of the following: 33,000 cedar railw ties; 10,000 cedar posts, 8 inches a.d over and under 8 inches in diameter; 500 cedar sawlogs; 200 cords of spruce and popular pulp-200 cords of spruce and popular pulpwood.

wood. The following shipments of lumber were made from the port of Montreal for trans-Atlantic destinations during the week ending December 1st : Per str. "Green-lands"-62 pieces lumber by G A. Grier. Per "Etolia"-174 standards deals by Watson & Todd; 6½ standards deals, etc., by Montreal Lumber Co.: 41 standards Watson & Todd; 6½ standards deals, etc., by Montreal Lumber Co.; 41 standards lumber by Dobell, Becket & Co.; 102 standards by McArthur Bros. Per "Lake Champlain"—30 standards lumber by McArthur Bros.; 200 standards lumber by R. Cox & Co.; 186 standards lumber by Watson & Todd; 87 standards lum-ber by Dobell, Beckett & Co.; 1062 pieces oak lumber by C. P. Railway. Per "Ben-fore Head"—22 standards deals by Dobell, Beckett & Co.; 111 standards boards by Watson & Todd; 15 standards boards by R. Cox & Co.; 4 standards oak boards by McArthur Bros.

OTTAWA VALLEY TRANSACTIONS.

OTTAWA VALLEY TRANSACTIONS. Two transactions of much interest to the lumber trade have recently taken place at Ottawa. The interest of A. A. Buell in the Hull Lumber Company has been purchased by Geo. H. Perley, the amount involved be-ing given as \$150,000. It is said that as a result of this change the Hull Company will not rebuild their saw mills destroyed in the etter fire, but will float their logs down the Ottawa river to the mills of the Geo. H. 7-riley Company at the mouth of the Rouge river. The second deal comprised the transfer of Demour's saw mills in the township of Wake-field to Poupore & Malone, contractors for the Mon'real harbor improvements. The timber for the improvements will be manufac-tured at the above mills. During the winter it is proposed to cut 300,000 feet of square

hemlock timber 12 inches and up in diameter and averaging 30 feet in length, as well as 1,000,000 hemlock railway ties. In addition to this purchase the contractors have acquired an extensive area of timber limits on the Gati-neau river from Gilmour & Hughson, of Hull. The limit contains large quantities of spuce and hemlock timber.
