EXTRACT FROM THE MINUTES OF THE CORPORATION OF MCGILL UNIVERSITY, DECEMBER 13TH, 1916.

"The following report was submitted by Miss Hurlbatt from the Committee appointed by Corporation to consider the whole question of Student Societies, and on motion of Dean Moyse, seconded by Miss Hurlbatt, it was unanimously adopted.

"The Committee, consisting of the Dean, the Rev. Dr. Symonds, Professor Harkness, Professor McGown and Miss Hurlbatt, appointed by Corporation at its meeting May 9th, 1916, to report upon the status and conditions of recognition of students' societies, desires to report as follows:-

"Of the Societies at present announced in the Calendar, some appear to have received the official recognition of Corporation; with others this does not appear to have been the case. The committee does not desire to make any recommendation concerning these Societies.

"The Committee recommends that for the future no student society should be entitled to use the name of the University (and, in the case of women students, the name of the Royal Victoria College) which has not received the sanction of Corporation; and that the Societies recognized by Corporation and authorized to use the name of the University (or College) should be announced in the Calendar.

"The Committee does not think it desirable to recommend regulations concerning the conditions of recognition of Student Societies, but it thinks it desirable that Corporation should be guided by the following considerations, when passing upon applications for the recognition of new Societies:-

1. That University recognition should not be given to any Society controlled from outside of the University.
2. That it should be an object to avoid giving recognition to organizations within the student body, which would make for division, racial, religious, or political.

"The Committee also thinks that it might be well to insert in the Calendar at the beginning of the list of Societies named, a statement to the effect that the approval of Corporation is required for the formation of a Society entitled to use the name of the University (or College) and that application in writing, accompanied by a copy of the proposed constitution, should be addressed to the Registrar."

Eighteenth of April,
Nineteen hundred and thirty-three.

Corporation in December 1916 apparently agreed to recognize the Students' organizations then listed in the Calendar.

The accepted report of the Committee stated:

"Of the Societies at present announced in the Calendar, some appear to have received the official recognition of Corporation; with others this does not appear to have been the case. The Committee does not desire to make any recommendations concerning these Societies."

List "A" gives the Societies named in the 1916-17 Calendar.

List "B" gives the Societies which have been approved by Corporation since then. This list includes some of list "A".

List "C" gives Societies started since 1916 and at present in existence (?) which have never been approved.

I think the whole situation needs clarifying.

T.H. Matthews,
Registrar.

DOCKET ENDS:

At the last regular meeting of Corporation held on Wednesday the 11th October I read your letter of April 29th, 1933, in which you made the suggestion that Corporation grant representation on that body to the Faculty of Graduate Studies and Research, the Library School and the School of Household Science, by electing a Graduate Fellow from each of these bodies.

After consideration, Corporation expressed the opinion that no useful purpose would be served by electing these additional members. Corporation has for some time felt that that body is quite large enough as at present constituted, and that it embodies within its present membership a fair cross section of graduate opinion.

Sir Arthur W. Currie, G.C.M.G., K.C.B.,
Principal and Vice-Chancellor,
McGill University,
M o n t r e a l.

Dear Sir Arthur:-

I should like to express my appreciation of the action of the Governors in re-electing me a Governors' Fellow on the Corporation of the University. I particularly wish to thank you personally for this mark of your confidence.

I can assure you of my unfailing interest in the University, and my desire at all times to contribute in whatever lies in my power towards its government, development and prosperity in the educational system of Canada.

May I say to you that, with the greater knowledge I now have of the University's work, I cannot fail to appreciate its high place, under your leadership, as an educational institution, not only in this country but abroad.

I think there is more than this in the University's standing; it has become a factor in Canadian life, which extends far beyond that of an institution dispensing knowledge and marking its graduates as having a certain standing. It is difficult to define its place, but it finds expression in many ways.

With kind regards,

Sincerely yours,

Report of a Committee on Honorary Degrees.

The Committee recommends unanimously that there shall be one, and only one, Honorary Degree, namely that of Doctor of Laws, as set forth in Chapter XI of the Statutes of McGill University, (p. 87).

The Committee further recommends that Corporation abolish the Honorary Degree of Master of Arts, (Statutes, Chapter XI, section 2), on the principle that no Honorary Degree should ever be given when the same title of degree is awarded by examination, thesis, or published work.

The Honorary Degree of Doctor of Laws, should, as heretofore, be conferred on those, whether or not McGill graduates, who have conspicuous merit or have rendered pre-eminent service in any subject, profession, occupation, or walk of life.

Dear Sir Arthur,

A representative
of the Teachers' Association it was
my duty to make a report to the
Convention on Thursday last. In
this report I was unwise enough
to mention the discussion on
Students' gowns. The reporter
seized on this, and in the "Star"
of Thursday Evening I found myself
reported as saying that the only
debate of any particular interest
I had heard at the meetings of
Corporation was one on the

Length of students' fairs!

After being treated by
you, Sir Arthur, and by the
members of Corporation
with the greatest courtesy
for the past three years
I am very anxious that
you should not consider
me flippanant enough to
say what is attributed
to me. I am, therefore,
taking the liberty of
enclosing a copy of my
report in which you will

see that I mentioned the
splendid work we give
was doing for the teachers
of the province by the
summer schools and
extension courses. I also
referred to the work you
did with regard to the
grant of \$25,000 which
will mean a great deal
to the teaching profession
of this province. The
reporter said no word of
either of these important
facts which the public ought

To know.

Will you do me
the favour, Sir Arthur,
of looking over my reports?

REPORT OF THE REPRESENTATIVE
ON MCGILL UNIVERSITY CORPORATION.

Madam President :

Members of Convention:

Your representative has attended all the meetings of Corporation with one exception, but he has not thought it necessary to bring to the notice of the Convention the various matters that have engaged the attention of that august body.

Nothing of vital interest to the teachers of the province has been dealt with during the past year. The Corporation of McGill is not, like the Protestant Committee, directly concerned with the educational work and machinery of the Province so far as the elementary and secondary schools are concerned; nor is that honourable and dignified assembly is there likely to be any very heated debate.

There was one rather interesting discussion as to the length of students' gowns. I regret very much that I have forgotten the exact length that was finally agreed upon.

The matters that come before Corporation are generally reports from the various faculties, and as these reports have been previously discussed and approved in the faculty meetings, and as, moreover, the Principal is ex officio a member of each faculty, it is pretty safe to say they will be approved by Corporation. So your representative has a very Honourable office, but only by a great stretch of imagination could it be regarded as an onerous one.

Your representative found the attitude of the authorities at McGill extremely friendly towards the teachers of the Province. When we consider that McGill is not a State-supported institution, we must admit that it is deserving of great praise for the work it is doing by summer courses, and by extension courses to assist the teachers of the Province in broadening their outlook and in developing their educational equipment. The delegates from the status of teachers committees have always been received in a very friendly spirit; and it is quite certain that the McGill authorities are prepared and willing to give almost any course that may be desired provided there are persons ready to attend them.

When the educational authorities make it necessary for a teacher to take certain courses in order to retain her diploma, these classes will be much more largely attended. A passage from the "Vicar of Wakefield" comes to my mind in this connection. I think it is the Vicar's wife who says, "It is a very difficult matter to enter the families of the great, but when once you are in, as Moses says, you may go to sleep."

If the Government would make a grant to cover the fees of teachers who take these Extension courses or attend summer schools at McGill, or in other Universities, and if the retention of one's diploma depended, as it does in some parts of this Continent, on the teacher's taking some such courses, it would be doing two very good things at the same time: first, it would be spending public money more wisely than such money is usually spent, and secondly, it would be reducing very materially the tendency of teachers to go to sleep, as Goldsmith so picturesquely puts it.

Sir Arthur Currie deserves the thanks of the teaching profession of this Province for the work he did in connection with the grant of \$25,000. to Macdonald College. It was only after repeated conferences, some of them most discouraging, that this grant was finally secured. *By means of this grant the Course in Education at McGill will be materially strengthened and the finances of Macdonald College will be placed on a sounder basis.*

In conclusion, your representative begs to thank the Convention most heartily for the great and undeserved honour that has been done him, and to express his pleasure and gratification that the honour has now fallen upon one who is more worthy and infinitely more deserving.

Respectfully submitted,

(Signed)

W. J. MESSENGER.

I trust you will give this
