PROS. WANT EARLY HEARING BY O.F.A.

Rumored That D.F.A. Will Take Hand in Affair—Committee Takes Firm Stand.

The following professional football players have applied to the O.F.A. for reinstatement and their applications will be taken up at the semi-annual meeting, which will be held the first Saturday after Good Friday: Queen City, J. McCracken, W. Worrell, Mike Curran, Thomas Dalzell, David McMuroy, Thomas Ogle, W. Dady, Thomas Phair, James Tweedie; Toronto, W. Moffatt; Ottawa, J. C. Robertson, Douglas Lang, A. G. Hutchings, Ernest Palmer, T. V. Vettege. None of these men played on the recent trip of the local pros. to St. Louis.

The recent newspaper controversy stirred up regarding the decision of the emergency committee of the O.F.A., which decided not to take up the application of the professional teams in Hamilton and Toronto for affiliation until the annual meeting, has brought the following reply from them which is a copy of their letter to the emergency committee of the O.F.A. prepared to stand by any decision of their regarding the league, and no member of the committee can be blamed in any way for what has happened. The secretary has been only acting in obedience to instructions of the committee. We do not wish any further conversation with the D.F.A.

The contention has all been around the fact that the D.F.A. are not taking up such an important matter with only a scattering of the representatives present and why should they be treated differently and given special hearings? Did the pros think for one moment when they were sending them out on an opening for a split in the ranks of the association. Viewed from a logical and unbiased standpoint, it looks like one of the wisest moves that they have made in some time. Any other body that wishes to make application for affiliation must do so at annual or semi-annual meeting, and why should they be treated differently and given special hearings? Did the pros think for one moment when they were sending them out on an opening for a split in the ranks of the association. Viewed from a logical and unbiased standpoint, it looks like one of the wisest moves that they have made in some time.

The question has been asked "Will the professionals put up the fees necessary for the consideration of their application?" They have not done so as yet in putting their application before the Ontario body. Before the D.F.A. begins to meddle in other people's affairs they had better get down to brass tacks. Lastly, what right have these men to ask for affiliation with a body which they so openly despise? It is less than a month ago, Secretary Robertson of the D.F.A. sent them a letter warning them that the teams that they were going to play in St. Louis and other places on their trip were outlaw teams not connected with the United States Association. Did they listen to the secretary's warning? Certainly not. They just ignored it and went and played these teams. If they will ignore the officials of this body before they are affiliated, what will they do afterwards.

The annual meeting of the T. & D. will be held on Monday, Feb. 2, and it should prove to be one of the liveliest meetings of the season before the Ontario body. All teams signing up new players that have just come over from the old country, for next season, are warned to have these players, if they have been professionals in the old country, must secure their reinstatement before they are eligible to play in the D.F.A. This new rule is the result of the affiliation with the International Football Federation.

STANLEY GUN CLUB. The usual weekly shoot of the Stanley Gun Club was held last Saturday afternoon on the club grounds. A. E. Millington was high, breaking 169 out of 200. The following are some of the scores:

Table with 3 columns: Name, Shot, Broke. Includes Millington (200/169), Duns (180/107), I. Wakefield (150/119), Jennings (150/88), Ely (100/60), Lundy (100/60), Hogarth (65/48), Hallford (75/58), Dewey (65/38), Ten Eyck (65/34), Alberts (50/38), Douglas (50/25), Schnay (50/25), Renshy (25/17), Phillips (25/9).

MEATONIA CLUB NOTES. Men's Club.—Mr. A. C. Pratt, M.L.A. of Norfolk, was the prominent speaker at the Men's Club last night, the subject being "Back to the Land." Mr. Pratt is a very eloquent speaker, and with such a well-chosen subject, he fairly entranced the large audience with his oratorical powers. These meetings are very popular, as shown by the large attendance. The next meeting will be held on Feb. 9.

INDOOR BASEBALL.—The best games of the season took place last night between Hammond's Athletes and Howe's Red Sox, which was won by the former by a score of 17-4. The supporters of Howe's team turned out with a burlesque band, which made a big hit, and fairly deafened the spectators with their noise. The second game, between Jimmie Collins' Birds and Willie Day's Kids, also drew a large attendance, most of whom were members of the fairer sex. The game fairly bristled with sensational play, and was finally won in the last innings by Day's Kids.

FOOTBALL CLUB.—The adjourned meeting of the football club will be held on Wednesday night next, Jan. 28.

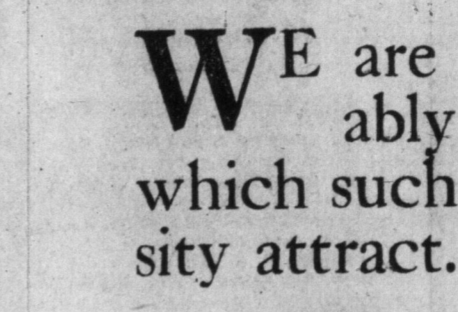

LOT ROE THIRD AT SARANAC. SARANAC LAKE, N.Y., Jan. 27.—The one senior event skated in the international outdoor races here today was the three-quarter-mile, which Robert McLean of Chicago won, with E. SLEEPING PLACE FOR UNEMPLOYED

Hamilton Citizens Want Old Public Library Building Fitted Up.

FIRE AT BURLINGTON

Prompt Action of James S. Allen Prevented Big Fire.

(Special to The Toronto World) HAMILTON, Jan. 27.—A large deputation of citizens waited on the board of control this morning and requested that the basement of the old public library be fitted up as a sleeping place for the unemployed. It was pointed out that the charity committee was giving relief to married men, but the single men were allowed to shift for themselves.

Only the prompt action of James S. Allen, clerk of the municipality of Burlington, saved that town from complete destruction early today. About 1 a. m. Mr. Allen was awakened by a smell of smoke in his bedroom, and, investigating, discovered the lumber yard of A. Coates & Sons, Brant st., a mass of flame.

HYDRO LINEMEN'S STRIKE PETERS OUT AT BRANTFORD

BRANTFORD, Jan. 27.—(Can. Press).—There is no longer any danger of a strike of the hydro linemen. At a conference with the local department their request for straight time was granted, this being the custom on all line work. It was announced that at a conference between the commission and the members of the electrical firms of the city, at which it was pointed out that there would be a great deal of new work to be done by electricians on account of the hydro coming here, the latter agreed to reduce their wiring rates.

AWAIT GOVERNMENT'S DECISION.

SARNIA, Jan. 27.—(Can. Press).—The proprietors of Stag Island expect to hear from the government within the next few days regarding the proposed purchase of the island by the Dominion. The option expires the last of this month. The government intends, if it carries out its plan, to convert the island into a national park to commemorate the hundred years of peace.

DIED AT SEVENTY-SEVEN.

WALLACEBURG, Ont. Jan. 27.—(Can. Press).—Robert Weir, one of the oldest residents of Duthill, a suburb of this place, died suddenly yesterday, aged 77.

How Thin People Can Put On Flesh

A NEW DISCOVERY
Thin men and women—take big hearty, filling dinner you ate last night. What comes of it? You are thinner than you were. That's because you haven't gained in weight one ounce. That food doesn't nourish you. It's just a mass of unburned coal through an open grate. The material was there, but your food doesn't work and the plain truth is you hardly get enough nourishment from your meals to pay for the cost of cooking. This is true of thin folks the world over. Your nutritive organs, your functions of assimilation, are sadly out of gear and need reconstruction. Cut out the foolish foods and funny sawdust diets. Omit the flesh cream puddings. Cut out everything but the meals you are eating now and eat with every one of these single Sargol tablets. In two weeks note the difference. Five to eight good solid pounds of healthy "meat" should be the net result. Sargol charges your weak, stagnant blood with millions of fresh new red blood corpuscles—gives the blood the carrying power to deliver every ounce of fat-making material in your food to every part of your body. Sargol, put mixed with your food and prepares it for the blood. It easily assimilates. Thin people gain all the way from 10 to 25 pounds a month while taking Sargol, and the new flesh stays put. Sargol tablets are a scientific combination of six of the best flesh-producing elements known to chemistry. They come 40 tablets to a package, are pleasant, harmless and inexpensive, and all druggists sell them subject to absolute guarantee of weight increase or your money back.

POLE DEAD AT PEMBROKE RESULT OF DRUNKEN ROW

Victim Was Innocent Onlooker of the Fracas—John Worenki Charged With Shooting.

OTTAWA, Jan. 27.—(Can. Press).—George Brown, a Pole, until recently employed in Ottawa, died at Pembroke last night while being removed from a train to the local hospital as the result of a bullet wound in the abdomen. It appears that on Sunday night a party, attended by a number of Polish friends, was taking place at Worenki's house, some of the men being under the influence of liquor. The host and a man named Tomico got into a dispute and the latter was ordered to get out, which he refused to do, whereupon Worenki pulled a gun and threatened to shoot him. Several men seized Worenki in an attempt to disarm him, and in the scuffle he discharged the contents of the gun into the abdomen of the unfortunate Brown, who was standing aside and taking no part in the row.

GARBAGE SYSTEM NEEDED IN SARNIA

Incinerator Plant Strongly Recommended by Town's Sanitary Inspector.

(Special to The Toronto World) SARNIA, Jan. 27.—Edward Robair, 12 years old, does not want to take music lessons. Last week he disappeared and was finally located by the police wandering around the streets of Detroit. The boy had taken an inter-urban car from Port Huron to the Michigan metropolis. He was brought home and yesterday morning the police were dumbfounded when informed that he had again disappeared. Last night by dint of much telephoning he was again located, this time in Wallaceburg.

The Sarnia Poultry Show opened today in the town hall. A fine list of entries has been received, including birds from all parts of the province and from Michigan as well. The show will continue for three days and a number of prize winners from the recent Port Huron show will be on exhibition.

A new boiler house, under construction for the Imperial Oil Co., is being rushed to completion. A chimney 135 feet high is being erected, and the boiler house is being built along the river bank, and the work will cost thousands of dollars.

Sanitary Inspector Croshie, in his report to the board of health, called attention to the town's lack of a garbage disposal system. Three or four small farmers, who occasionally come around to collect the refuse to feed their pigs, constitute about the only method of disposal in the municipality. The installation of an incinerator plant is strongly advised.

The local postoffice is getting ready for the advent of the new parcel post system. A new wicket is being placed in the building and the floor space is being enlarged. More clerks will be needed inside and delivery wagons to cart the parcels around town.

GRANT FOR TOWN PLANNING.

WATERLOO, Ont. Jan. 27.—(Special).—The town council at a special meeting this evening decided to grant \$400 for the purpose of town planning. The work will be done by the New York expert C. W. Leavitt, who is drawing plans for Berlin under the auspices of the Berlin Civic Association.

EAST MISSOURI WANTS RADIAL.

EMBRIO, Ont. Jan. 27.—(Can. Press).—The township council of East Nissouri would like to see the proposed hydro radial from London to their town pass thru the township, and has passed a resolution authorizing the reeve of the municipality to take the matter up with the Hydro-Electric Power Commission of Ontario, and the several municipalities concerned, with a view to having a definite project placed before the East Nissourians.

Kingston Woman Has Almost Unique Experience of Having Baby Stolen.

(Special to The Toronto World) CHATHAM, Jan. 27.—At the city council meeting a resolution was passed petitioning the provincial government to amend the statute giving married women the same privilege of the ballot in municipal elections as is now accorded spinners and widows.

A short time ago Chief of Police Groves started a movement to compel King Lee, a Chinese restaurant keeper, to discard enclosed stalls in his place of business. King Lee instituted a case against the chief for injuring his business thru such action. The city council decided to grant King Lee a restaurant license without the stipulation that the stalls shall be removed.

Anglin, for industries. The new chairman of the industrial committee of the city council, reports that he is already in touch with three shoe manufacturing concerns, and he hopes to secure one of them for the city.

A. H. Armstrong has been appointed garbage collector at a salary of \$4000 a year. Mr. Armstrong took the contract last year for \$2800, but he found that he was unable to handle it for that amount.

This morning Judge Bell gave judgment for the plaintiff in the case of Watson v. C. P. R. Some time ago Watson shipped a car containing potatoes and household effects from the country. The car was damaged and the potatoes, but on arriving here the rate was increased, and he was compelled to pay \$174.75, the difference in the two rates. He brought an action against the company, and this morning, by the judge's ruling, he will have his \$174.75 restored to him together with costs.

RUSSIAN KILLED BY FALLING MACHINERY

Andry Ashuk Was Crushed at Galt in Loading Car With Heavy Piece of Machinery.

(Special to The Toronto World) GALT, Jan. 27.—Andry Ashuk, a Russian employe of Sheldon's Limited, was crushed to death today when a heavy piece of machinery that was being loaded on to a car fell on him. Doctors were hurriedly called, but the man lived only a few minutes.

QUARRY COMPANY'S GOOD YEAR.

ST. MARY'S, Jan. 27.—(Special).—The crusher at the Thames quarry has been closed down for the season, but a number of the men will be engaged in the new cement brick factory, which has been erected at a cost of \$8000. The brick works will employ about a dozen men and will be in operation in the course of a few days. The quarry company has had an excellent year's business, the total output showing an increase of thirty-five per cent over last year.

HAD FIVE BEAVER SKINS FACTOR HEAVILY MULCTED

John J. Baker Assessed Five Hundred Dollars at Fort William—Appeal Taken.

FORT WILLIAM, Ont. Jan. 27.—After admitting in the provincial court this morning that he had in his possession five beaver skins, John J. Baker, factor for the Hudson Bay Company at Neponic, was fined \$100 for each skin, or sentenced to serve fourteen days in the provincial jail on each account. An appeal taken against the decision was based on a clause in the company's old charter, which, counsel said, gave the company the right to purchase beaver skins from Indians at all seasons.

WARDENS ELECTED

WARDEN OF WELLINGTON. GUELPH, Jan. 27.—(Special).—R. F. Dale, reeve of Harrison, was elected warden of the County of Wellington at the opening session of the county council today by a substantial majority. His opponents were Reeve Carter of Guelph Township and Reeve Stickney of Peel Township.

BELLELEVILLE, Jan. 27.—(Special).—At the inaugural meeting of Hastings county council today W. H. Hubbell, reeve of Marmora village, was unanimously elected warden.

Members of the city council, board of trade and a number of citizens were this afternoon guests of the Trant Electric and Water Company in a trip to Lindsay. The object of the visit was to view the electric lighting of the streets in that town.

NEWS FROM THE CITY HALL

HOW MATTERS NOW STAND IN THE SOLUTION OF TORONTO'S TRANSPORTATION PROBLEM

Nineteen of the twenty-five members of the city council are demanding that the agreement of purchase for the clean-up of the franchise be completed and sent to the people. Mayor Hocken is in continuous conference with the city legal department upon the agreement of purchase and will stay in conference until the agreement is completed and submitted to the city council. That is how matters now stand in the solution of Toronto's transportation problem.

With the agreement of purchase so nearly completed it is to be expected that the opposition will live up to its campaign of misrepresentation, intimidation and malicious innuendo. But the opposition will be pinned down to facts the moment the agreement of purchase reaches the city council. Here are the facts:

1. The experts have thoroughly investigated the proposition and declare it safe and sound.
2. The receipts of the Toronto Railway Company have doubled in the past five years and will undoubtedly go on increasing.
3. The annual gross receipts of the Toronto Railway Company have now passed the six million mark. Operating costs three millions and a quarter. That leaves a surplus of two millions and three-quarters. From that take one million and a half for sinking fund and interest for the \$22,000,000 purchase price, and there remains one million and a quarter for extensions and betterments.

J. W. WOODS APPOINTED TO CITIZEN COMMITTEE

Manufacturers' Association Will Not Choose Their Representative Until After Meeting.

The board of trade has appointed J. W. Woods, an anti-purchase man, to the committee of citizens suggested by Mayor Hocken, to report upon the best of the preferred solutions of Toronto's transportation problem. The Manufacturers' Association will not appoint a representative until a meeting of the executive is held.

LAD FROM THE SOO LED HIS CLASSMEN

Could Judge Stock and Test Seed Truer Than His Fellows.

FREE COURSE AT O.A.C.

Lucky Boys Competed at Close of Two Weeks' College Session.

There is one young man in Ontario who finds it wise to stick to the farm for his livelihood. His name is Wm. Dickson of Sault Ste. Marie, and from a class of twenty-five sons of the soil he has gathered the honors of a two weeks' course at Guelph at the expense of the Ontario department of agriculture. In stock judging and seed testing he received 486 out of 650 points and a special prize of a gold watch, and goes back to the farm.

The contest is the outcome of a recent experiment by the department, in which all the counties brought forward young men to compete on the crops of one acre in any product they desired. The far west took first place in this test, with York County a close second.

Twenty-five representatives proved eligible for the course, and after two weeks' study a herd of cattle was paraded before them. Professors Zavitz and Howitz were the judges, and remarked upon the ability of their charges to pick up the vital points of farm knowledge.

AUTO THIEVES ADMITTED GUILT

NEW YORK, Jan. 27.—(Can. Press.)—Two chauffeurs, John Chandler and Chester Curtis, members of a band of automobile thieves, charged with stealing cars worth \$100,000 during the last two years, pleaded guilty today. They were indicted for stealing a \$5000 automobile here last May. They promised to help the district attorney to bring other members of the gang to justice, and will go before the grand jury now in session. Sentence was deferred.

NEARLY EVERY EMPLOYEE WAS SICK TWO WEEKS

Street Cleaning Was a Soft Job for Fakers All Last Year.

In his report to the board of control Commissioner Wilson of the street cleaning department states that nearly \$10,000 was expended last year in wages to men while absent on the plea of sickness, and 31 per cent of the employees averaged an absence of 15 days. There are 356 employees who qualify for sick leave under pay. They have been put upon half pay this year during sick leave. Last year they were under full pay.

MINNESOTA'S NEW PRISON

Minnesota's new prison at Duluth will cost \$2,000,000. It is a "daylight prison."

There are 391,350 government positions under civil-service regulation in the United States.

Description of the New Royal Bank Building

Owned and Operated by Guardian Realty Co. of Canada, Ltd.

THIS building, to be known as the Royal Bank Building, will be the tallest building in the British Empire, and will be completed on or before October 1st, 1914. Its location is a general business focussing point; within a block's distance is located the Head Office or branch of nearly every large financial or commercial concern in the city, Province, or Dominion. Architecturally, the Royal Bank Building is to be of graceful proportions, and will possess enough ornamentation to make the facades of more than ordinary interest. The construction of stone, cement, steel, concrete, and terra cotta makes the building absolutely fireproof. The equipment will equal anything proposed or accomplished on this continent. All offices will have direct daylight, ventilation, quietness, proximity to elevators and to the street. Every comfort, utility, and convenience that extreme care and thoughtfulness for the interests of tenants can devise, will be provided.

Construction

Twenty stories of light grey stone and terra cotta, and a graceful outline which will be visible for miles around. It will be of steel cage construction, with granite, Indiana, lime stone and terra cotta facades, the inner walls being of hollow tile and concrete. Nothing known in the science of construction is more fireproof, soundproof, or more substantial. The ground floor will be a few feet below the level of the street, and will be divided into well lighted spaces for shops, brokerage, or other offices, each having a separate entrance from the street. The banking floor and elevator hall will be sumptuously finished in marble; the other floors will be finished in mahogany, and all offices above the sixth floor will have direct daylight from all sides. Safety from storm, fire, or accident in the Royal Bank Building is as perfectly assured as in any structure of its kind in the world.

Equipment

The equipment of the building will include six high speed Otis-Fensom elevators of the latest type, absolutely silent, swift, and safe. The equipment will also include electric lighting throughout, vacuum system of steam heating, mail chutes, connections for telephone, ticker, telegraph, and messenger service; unusually ample toilet accommodations, and in every part of the building the latest sanitary plumbing fixtures. All offices will have outside lighting, and will be practically equi-distant from the elevators. The advantage of this will be apparent in comparison with any building where the walk to and from the elevator to the office becomes an annoying necessity.

Arrangement

The shape of the ground lot, the location of the elevator shaft, the entrance from the street, and the arrangement of the offices have been matters most carefully thought out. Daylight for all has been a constant ambition of the architects. This is a very favorable feature. Every point that could possibly be a factor for efficiency has been considered by the engineers and architects and embodied in the final plans.

Location

The north-east corner of King and Yonge streets is the centre about which is gathered the headquarters or offices of representative financial and mercantile concerns of the city and Dominion. The big interests from Vancouver to Halifax have central offices or representatives within one block of the site of the new Royal Bank Building. At the very door are street car lines radiating to every part of the city, and cars pass every few seconds. The location of the Royal Bank Building is, therefore, exceptionally suitable for the offices of brokers, financial institutions, industrial corporations, insurance companies, lawyers, real estate dealers, and general offices of large manufacturers and agents.

Elevator Service

There will be six elevators providing a constant succession of high-speed cars which will make it practically immaterial on which floor the tenant has his office, the difference of time between the office and the street on any floor being too slight to be of any consideration. The elevators are of the same type as are used in the Equitable and Woolworth buildings in New York, which have been pronounced the swiftest and safest in the world.

Leases are now being made.

YOU CAN REGAIN YOUR STRENGTH IF YOU TAKE NATURE'S MEDICINE

Do you want to feel as vigorous as you were before you wasted your strength? Do you want to get up in the morning refreshed by sleep, and not more tired than when you go to bed? To have no weakness in the back, or "come-and-go" pains? No indigestion or constipation? To slip away to once more have bright eyes, healthy color in your cheeks, and be confident that what other men can do is not impossible to you? In short, do you want to be a man among men? I can make you all this, because I have such it to others. Nature's remedy cures to stay cured. You should know about it.

If you suffer from weakness of any kind, rheumatism, lame back, sciatica, lumbago, debility, loss of strength, or stomach, kidney, liver or bowel troubles, you must not fail to communicate with me. I never mind waiting until you use the last dose of that bottle from the drug store. Begin now. Call and talk your case over with me or send for my book. It costs you nothing. For over 24 years I have taught the greatest truth, that "ELECTRICITY IS LIFE," and have proved the soundness of my doctrine by making cures when others have failed little things. Others have applied to do the work I am doing with my ELECTRIC BELT. They offer you electricity in some form, or an "electric belt," that possesses no curative power whatever. They are like "boys on bladders," founding on a sea of uncertainty—while today the DR. McLAUGHLIN ELECTRIC BELT stands the world over as the most perfect method applying Galvanic Electricity to the body that has ever been devised.

Uses My Belt Just To Keep Him Well.
Box 208, Rockwood, Ont., Jan. 7, 1913.
Dear Sir:—I want to say that the Belt I got from you in October, 1912, is in every way satisfactory. The weak power Belt I got from you some years ago was a good investment, but this stronger one is better. I was not sick. I had a kind of rheumatism and was feeling too old for my age, and this stronger Belt has done just what I expected it to do. I would not advise anyone of advanced age to get a cheap Belt, but get one of your stronger ones, and let it get you all well. I got mine to keep me well, and the way it does it, it warms off colds and the Grippe and such things that undecimate the health. Trusting this may be satisfactory, I remain,
Yours truly,
SAMUEL HARRIS.

Entirely Satisfied.
Lestow, Ont., January 26, 1913.
Dear Sir:—I find it a great pleasure to write to you about the Belt I purchased from you. I can highly recommend it to anyone wishing to get one. It has done all it was represented to do, and I feel great benefits from it. Hoping this testimonial will be sent out to the benefits of others, believe me,
Your friend,

SUPPLY OF WHEAT
SHOWS SHRINKAGE

Stronger Tone at Chicago In-
spired by Publication of
World's Figures.

CHICAGO, Jan. 27.—Rallying power
showed itself today in wheat, after news
had received of a falling off in the
world's available supply. The market
closed nervous at a shade decline to 3/4
advance, compared with last night. Corn
finished unchanged to 3/4 higher; oats
were not altered, but provisions closed at
a net decline of 5c to 10c.

During the greater part of the session
wheat seemed unable to shake off sym-
pathy with a break which prices at Li-
verpool had suffered from cheap and he-
avy offerings from Russia. Extremely mild
weather in the United States winter crop
belt tended also to give an advantage to
the bears.

There were advices that general rains
were interfering with shipments from
Argentina, but no material reaction in
prices took place until word came that
the decrease in the wheat available sup-
ply was more than three times as much
as a year ago.

Export sales of flour at Kansas City
helped the late uptick. Rumors were
current, too, that the amount of wheat
in the elevators northwest had been
over-estimated five to ten million bush-
els.

Corn Movement Small
Boston dispatches telling of corn taken
there for shipment to Europe nullified
the influence of early cables that the
Argentine corn crop had virtually
ceased and would be available two
weeks ahead of the average time. At-
tention was drawn to the fact that the
amount of corn on passage to Europe
was only 12,000,000 bushels, compared
with 26,000,000 bushels a year ago.

Support for oats came about thru the
action of other grains. Considerable in-
terest was taken in the reported sale
in the elevators northwest had been
over-estimated five to ten million bush-
els.

Provisions gave signs of hedging by
packers. The government live stock fig-
ures were very near to what was gen-
erally expected.

CATTLE TRADE
CONTINUES DULL

Sheep, Lambs and Calves
Steady—Hogs
Firm.

Receipts of live stock at the Union
Yards were 39 carloads, 659 cattle, 617
hogs, 146 sheep, and 20 calves.
Trade in cattle was again slow, worse
than on Monday. Cattle for which \$8 and
\$8.25 was offered on Monday, were still
unsold, and the sellers informed The
World that \$7.75 to \$8 were the best offer-
ings they could get for the same cattle
yesterday.

One trouble seems to be that both
butchers and packers are well supplied
from last week's purchases, but the great-
est trouble of all is that the drovers have
paid too high prices in the country, and
are unwilling to accept the prices offer-
ed by the buyers, consequently it was
another dreary market all day.
The top price quoted for loads of butchers'
cattle was \$8.25. \$8.70 was paid for
half a dozen choice steers to go to
Montreal. Sheep, lambs and calves sold
at steady to firm prices and hogs were
a little higher.

Butchers
Choice loads of butchers' cattle sold
at \$8.25; good butchers, \$7.75 to \$8; me-
dium, \$7 to \$7.50; common, \$6 to \$6.75;
choice cows, \$8.50 to \$9.75; good, \$8 to
\$8.25; medium, \$5.50 to \$5.75; common,
\$4.50 to \$5; canners, \$3 to \$3.75; cows
at steady to firm prices, \$4.50 to \$5.50;
common bulks, \$5 to \$5.75.

Stockers and Feeders
There was a light delivery of stockers
and feeders. Prices remained steady.
Choice steers, \$7 to \$7.25; good steers,
\$6.50 to \$6.75; medium, \$5.50 to \$5.75.

Milkers and Springers
A moderate supply of milkers and
springers sold at \$5 to \$5.50 each, the
bulk going at \$5 to \$5.50.

Veal Calves
Receipts of calves were light, not being
enough to supply the demand. Choice
calves sold at \$11.50 to \$12; good, \$10
to \$10.50; medium, \$7.50 to \$8.50; common
and rough, \$6.50 to \$8.50.

Deliveries were light, and prices for
good quality were firm, but there is a
large percentage of heavy lambs which
are slow sale. Sheep, ewes, sold at \$6.50
to \$7; rams, \$5.50 to \$6.25; lambs, \$9 to
\$9.50.

Receipts of hogs were light and prices
were a little firmer. Selected fat and
watered sold at \$9.10 to \$9.25.

Representative Sales.
I. P. Kennedy sold 19 butchers, 1060
lbs., at \$8; 2 butchers, 1000 lbs., at \$7.50;
2 butchers, 800 lbs., at \$7; 1100
lbs., at \$4.50; 15 butchers, 750 lbs., at
\$7.4 butchers, 600 lbs., at \$7; 25 butchers,
750 lbs., at \$7; 14 butchers, 600 lbs., at
\$6.25.

Corbett, Hall & Coughlin sold 10 car-
loads of live stock: Butchers, \$7.75 to
\$8.15; cows, \$4.25 to \$4.75; bulks, \$8 to
\$9.25; milks and springers, \$5 to \$5.50;
\$8.5; lambs at \$9.15; sheep, \$5.50 to
\$6.50; hogs, \$9.10 to \$9.25 fed and water-
ed.

Rice & Whaley sold 10 carloads of
live stock: Four loads good steers, \$7.80
to \$8.25; 5 loads of good butchers, \$7.50
to \$7.75; 1 load of cows, \$6.25; com-
mon cows, \$4 to \$5; 2 decks of lambs at
\$9 to \$9.50; sheep at \$6 to \$7; rams, \$5
to \$5.50; \$5.50 to \$11; hogs at \$9 fed
and watered.

C. Zeagman & Sons sold 10 steers, 880
lbs., at \$7.50.

PAMPHLET ON TORONTO'S LAWS
WIDELY CIRCULATED IN U. S.

In Order that Conventions May Know
Just What Kind of a City This Is.

The men behind the distribution of
the pamphlet calling attention to Tor-
onto's "blue laws," stated yesterday
that the pamphlets were being circu-
lated in order to keep visitors from go-
ing back to their homes and ridiculing
Toronto, as they have been doing in
the past. Their previous ignorance of
conditions here.

These pamphlets are being liberally
distributed among the delegates at the
various conventions all over Canada
and the United States.

SCHOONER RUN DOWN, SINKS.

BOSTON, Jan. 27.—(Can. Press.)—
The Boston fishing schooner Olive F.
Hutchins sank in the harbor early to-
day two minutes after she had been run
down by the steamer George A.
Hibbard, owned by the City of Boston.
Capt. Merton P. Hutchins and five of
the crew jumped to the steamer's
deck.

The other 11 men aboard, who were
in the cabin when the crash came,
hurdled launched the dories, from
which they were later rescued by the
Hibbard.

HERALD-TELEGRAPH
TO APPEAR TODAY

Montreal Papers Affected An-
nounce Amalgamation
All Round Salary Cut.

MONTREAL, Jan. 27.—(Special.)—
Both The Herald and Telegraph to-
night issue announcements that to-
morrow they will amalgamate and ap-
pear as one newspaper, under the
name of The Montreal Herald and
Daily Telegraph. Likewise, the two
papers, in an ante-mortem statement,
say their respective circulations dur-
ing the past six months have increased
by thousands. They anticipate that
"at one stroke" they will add many
thousands more to the expanding list,
and occupy a position among news-
papers never before approached.

The editorial staffs each terminate
their engagement this week under the
old management. Tomorrow afternoon
it will be known which heads are to
fall. It is understood most of The
Herald men have been signed on by
the new management, but in The
Telegraph there is a strained air of un-
certainty. It is said an all-round cut
in salaries is going on.

YOUTH PARTICIPATES IN
SIXTEEN BOMB OUTRAGES

Curious Sidelight on Work of New
York Blackhanders Revealed
in Court Trial.

NEW YORK, Jan. 27.—(Can. Press.)—
Alfred Lehman, an underaged youth
scarcely out of his teens, sat in the wit-
ness chair today and confessed to
having partaken in 16 bomb outrages,
revealed knowledge of 80, cleared up
the mystery of two murders and fur-
nished information concerning a num-
ber of lesser crimes, including arson
and burglary.

Lehman was called as a witness in
the trial of Angelo Sylvester, accused
of one of the bomb outrages. He
said the bomb outrages usually
brought the men doing the work \$50.
"The gang I worked for," he said,
"were blackhanders. The boss would
write letters demanding money under
threats of death to well-to-do Italians.
When they did not 'come across' I was
sent with a bomb. They usually put
up after the explosion of the bomb.
If they didn't, we went after em again."

WORKMAN MEETS DEATH IN
FALL FROM WATER TOWER

Floyd Keller Sustains Fractured
Skull by Tumbling Off Scaf-
fold to Icy Ground.

(Special to The Toronto World.)—
ST. CATHARINES, Jan. 27.—While
engaged on the water tower at the
Hilkington Glass Works at South
Toronto this afternoon, Floyd Keller,
a structural iron worker, met death.

Keller fell from the scaffold on
which he was working and struck his
head on some ice at the bottom. His
head was frightfully gashed, his jaw
broken and his skull fractured. While
being taken to the St. Catharines hos-
pital he died.

Keller, who was about 26 years of
age, came from Connecticut.

TWO MORE INDUSTRIES
IN VIEW FOR STRATFORD

Possibility Also of Grand Trunk
Placing New Shops in City—
Enlarge P. O. Building.

(Special to The Toronto World.)—
STRAFORD, Jan. 27.—An industrial
bylaw, which has to do with the acquir-
ing of two new industries for Stratford,
and which will come before the city
council at its next meeting, was one of
the chief measures considered at a
special meeting of the industrial committee
and the council of the board of trade to-
day.

To confer with the Grand Trunk offi-
cials concerning the possibility of a Nile
street subway, and the placing of new
shops in this city, a committee was em-
powered to act with the city council for
the rearrangement of the streets about
the plant of the Stratford Manufac-
turing Company and the closing of part of
College street.

The customs department of the post-
office is hampered for room. The build-
ing will have to be enlarged to improve
this condition, and to this end the finance
committee will be asked to appropriate
\$10,000.

MAKING HISTORY

The defeats of a great man may easily be more prized than his victories by those who are doing the work of the present day. They carry encouragement for a new start after each unsuccessful effort, until finally the goal is reached—the toiler "arrives."
