31ST YEAR

BARTERED OUR PROUD DEPENDENCE FOR WORRY PLUMS

Sir William VanHorne Writes a Pungent Letter to the Chairman of the Montreal Anti-Reciprocity League...

MONTREAL, March 7.—Sir William Van Horne has addressed the following letter to Mr. Charles Chaput, chairman of the Anti-Reciprocity League:

Sir—I regret that, having to leave for England on Thursday, I shall not be able to attend the meeting of the Anti-Reciprocity League next week, and to give my views in person on the question of reciprocity.

What I have to say on the subject has no reference to party politics. I speak only as an individual who for the past thirty years has been working heart and soul for the upbuilding of this country and one to whom the great development of the past two decades has been a source of immense pride and satisfaction.

To my amazement and distress and shame I now see the magnificent work of a generation traded away for a vague idea or a childish sentiment—the splendid commercial and industrial position we have reached and our proud independence bartered for a few worry plums, and I feel it my duty to join in the protest which is heard from every section of the country.

Today we are in an enviable position, with a commerce three times as great per capita as that of the United States, and without a cloud in our sky save the one which has just now been raised. Does not common sense tell us to stay where we are and to let well enough alone?

The termination of the old reciprocity arrangement by the United States in 1866 was a heavy blow to Canada and the fourteen years which followed were full of trials and tribulation, for Canada then had no west; she was thrown back on herself by the great lakes and she had not in herself a market for her products or a market for the support of any manufacturing concern of any consequence.

During these years annexationists were bred of hopelessness, and many good and honest people urged annexation as the only future open to the country. Then came, in 1879, our national policy and factory chimneys began to appear above our tree tops, and their number rapidly increased; and then came the Canadian Pacific Railway, opening up our great west, and from that time Canada advanced by leaps and bounds.

The United States, by the McKinley tariff, added brick upon brick to her wall against us, but Canada prospered more and more. She was beginning to find herself. Then came the Dingley tariff, which crowned the United States tariff wall with broken glass bottles and barbed wire, and then Canada quite found herself. Hear what Senator Beveridge, the chief mouthpiece of the administration at Washington in the reciprocity matter, says about this policy of his government:

"Not the Bourbons of France in the time of Louis XVI., not the Tories of England in the period of George III., ever insisted on a policy so blind, so foolish and so ruinous as that so-called statesmanship which, instead of fostering a purchasing market in Canada, is making Canada a manufacturing competitor."

American Tariff Helped Build Canada. And hear Senator Beveridge again: "There must be reciprocity with Canada. Our tariff with the rest of the world does not apply to our northern neighbor. That policy already has driven American manufacturers across the Canadian borders, built vast plants with American capital on Canadian soil, employing Canadian workmen to supply them."

That capital should be kept at home to employ American workmen to supply Canadian demand. We should admit Canadian wood pulp and Canadian paper free in return for Canada admitting our agricultural implements, our engines, pumps and other machinery free. We should freely admit Canadian lumber to American planing mills in return for Canada's freely admitting other American manufacturing products to Canadian markets.

We should have a special tariff arrangement with this intimate neighbor and natural customer. This would mean millions of dollars of profit every year to Indiana's factories. Reciprocity would mean vast increases in Canada's purchases from us."

As I said twenty years ago, in speaking of this same subject of reciprocity, it is not necessary that a small boy should be a schoolboy to know what all this means.

And if Indiana, which is a second-rate state, is to gain millions by reciprocity, what millions must the great manufacturing states gain? And who will pay all these millions? Canada. Who else?

The other day Mr. Fielding in a cable message to the Canadian high commissioner in London, said that for fifty years the people of Canada and both of its political parties had wished for reciprocity. That was true of the sixties and seventies, but it has not been true since. For the past

WILL CITY BUY STRATTON CLEAR LIGHT CO.'S PLANT? OTHERS GO TO TRIAL

Controllers in Secret Session Last Night Considered Valuation Made by Hydro-Electric Engineers—No Hint Given as to Price Suggested for Purchase. President of Trusts and Guarantee Co. Not a Party to Any Irregular Dealings in Farmers' Bank Currency—Warren and Morden Committed

The report of Consulting Engineer Ross of the hydro-electric commission, on the value of the Toronto Electric Light Co.'s plant to the city was discussed by the board of control and Corporation Counsel Drayton at a secret session, held last night in the mayor's office. The meeting started at 8 o'clock and all taking part in the conference were on hand from the commencement except Controller Ward, who arrived as Big Ben announced 9 o'clock. The various phases of the report were discussed until 10 o'clock, when the conference broke up.

Absolute secrecy was maintained by all concerned. They refused to give out the slightest hint as to the points under discussion, but did not deny that the meeting was for the purpose of discussing the electrical situation generally, but further than that declared that their lips were sealed.

One of the controllers stated that the affairs were at such a critical stage that the city's interests might be jeopardized by any announcement as to what was under discussion.

That the amount announced as a fair purchase price by one of the evening papers, \$125 per share, at least \$15 in excess of the figure that the city authorities are willing to consider, is conceded to be a fact, but just what they are willing to pay they are not ready to state. It is understood, however, that the price named by the expert is even lower than this.

Up to City, Says McNaught. W. K. McNaught, M.L.A., declined to give any idea of the nature of the report, which he admitted, was in the hands of the board of control.

"My lips are entirely sealed on the matter," said Mr. McNaught. "The report is confidential and the hydro-electric commission to the board of control. That body is at liberty to accept or reject its suggestions. There is no reason why the controllers should not give out the report after they have passed judgment on it, but as far as I am concerned, I cannot do so."

"Is it correct that \$125 is the price named by Mr. Ross as a fair value of the Toronto Electric Light Co.'s stock," he was asked.

"It is not," was the prompt reply. "Any statement to that effect is mere guesswork. I gave a denial to a statement of that sort last week. Further than this I feel that I am not at liberty to speak."

"I have heard nothing of it," said Sir Henry Pellatt last night when questioned by The World.

"Did you not know that the hydro-electric engineers, Messrs. Sothman and Ross, were making a report on the value of the shares of your company to the city?" he was asked.

"I knew that Mr. Ross was preparing a report, but did not know that Mr. Sothman was also engaged on it. I did not know that the report had been completed. This is the first I have heard of it."

"Do you think the shareholders will be inclined to consider such an offer as the city is likely to make as a result of the report?" he was then asked.

"I have no official knowledge of any report and am not prepared to say," answered Sir Henry.

"Do you think the shareholders would be inclined to consider an offer of \$125 per share?" asked the reporter.

"I should say most certainly not," replied Sir Henry. Then he laughed and hung up the receiver.

A LATE SPRING?

Is winter to linger in the lap of spring? Residents in the High Park district fear so, for on Monday a big flock of wild geese was observed high in the air heading for the south.

The looks ominous, say native students, disregarding the advent of a robin and the statement of a Wheeler avenue resident that bluebirds were singing in the trees on Saturday and Sunday last.

WINNIPEG, March 7.—The conference between Canadian Pacific officials and trainmen, which began Jan. 9, ended today, and the result is entirely satisfactory to the men, who were granted a slight increase in pay of ten per cent. It may be retroactive from Jan. 1, 1911. The increase is effective on all lines west of Fort Arthur.

Bryce Coming to Ottawa. OTTAWA, March 7.—Hon. James Bryce, British ambassador at Washington, is coming to Ottawa. He will arrive on Friday and will be the guest of Earl Grey at Government House. His coming this time is of special interest in view of the reciprocity debate. He will spend the week end here.

**PRESBYTERY TO TAKE UP MACKAY RESOLUTION**

Sunday School Periodical Declared Too Costly—No Money to Buy Lansdowne Park.

HAMILTON, March 7.—(Special).—At a meeting of the Hamilton Presbytery to-day, a baker's dozen of members held a private session at noon and signed the names to the resolution sent out by Rev. Dr. Mackay of Vancouver, favoring union on a working basis of the Methodist churches, but opposed to organized or corporate union. The resolution set out that in the United States a similar conference governed the work of the churches to prevent overlapping, but such faith was kept separate and apart from the union. The resolution will be brought up at next meeting of the presbytery, which will be held at St. Catharines next month, with a request for consideration, and that it be reported to the general assembly. Of forty presbyteries that have voted on the basis of organic union, thirty have favored it. The annual report of last year's conference showed a fairly good growth all thru.

**Too Costly.**

The Sunday school report referred to the small number of schools purchasing the official paper of the assembly. Several ministers replied that the periodical was far too costly, and it was decided to ask the synodical committee, which will meet soon at Woodstock, to ask the assembly to reduce prices. Rev. D. R. Drummond, Rev. S. H. Gray and Capt. James H. Hardy, Geo. H. Milne, E. Black and J. Richardson were elected commissioners to attend the general assembly. The presbytery agreed to the resignation of Rev. W. S. Wright, St. Anne's Church, Elora, at a salary of \$800 a year and free manse.

Because the parks board had no money to buy Lansdowne Park to add it to the city's chain of parks, it made no objection to Richard Press opening a survey there. The works committee to-night approved Press' plans of four-way. He will build 75 houses on the property. The Grand Trunk have been given permission to double track a portion of the old N. & N. W. right of way on the east end streets, under conditions that will safeguard the city. A subcommittee was appointed to select the style of wagon for the collection of garbage and to consider the advisability of compelling the citizens to use a standard can.

The board of control will be asked to put a price on the sandwiches as several requests from prospective purchasers have been received.

**VETERANS' PARADE AT MASSEY HALL.**

The veterans of Toronto, wearing medals and bearing banners, will parade outside Massey Hall to-morrow night for the anti-reciprocity meeting, and will march to their reserved seats in the front, just before 8 o'clock. They will give a picturesque touch to the demonstration in favor of a united Canada within the British Empire.

In view of the veterans occupying the front seats on the main floor, ladies and their escorts will have the whole of the first gallery at their disposal until ten minutes to eight.

A unique feature of the meeting will be a huge map of Canada and the United States, which will indicate the effect on the interprovincial and east and west trade of Canada, of the diversion of traffic to north and south channels. The map will be on the wall behind the platform, the centre of a huge display of Canadian flags.

**Nature's Cure For a Cough**

**Dr. Chase's Syrup of Linseed and Turpentine is the Most Largely Imitated Medicine in the Country.**

What to give the children for croup and colds is the problem mothers now have to solve. Most of them finally decide on Dr. Chase's Syrup of Linseed and Turpentine, and make it a rule to always have some in the house.

In this medicine are linseed, turpentine and other well-known ingredients of unmistakable value in the cure of colds. It is pleasant to take, so much so that children delight to use it.

So generally is this great medicine used that several imitations have been put on the market. All alike in name only. They are not made from the same formula, do they bear the name of Dr. Chase.

You know what you can expect from the use of Dr. Chase's Syrup of Linseed and Turpentine, but you cannot put much faith in an imitation which sells on the reputation of the article it imitates.

On every bottle of the genuine will be found the portrait and signature of A. W. Chase, M. D., the famous Receipt Book author. This is for your protection and for the protection of your children. Be sure to get the genuine, even if it costs a few cents more. 25 cents a bottle, family size 60 cents; all dealers, or Edmanson, Bates & Co., Toronto.

**CATTO'S MILLINERY OPENING**

Many Delightful Creations on View—Fine Mantle Display.

Appropriately after the triumphant great society event, the automobile show, comes the spring millinery opening, with its vista of spring, Easter, and, and soon also the arms of society's delights, he races. Never has the millinery display quite attained the zenith of variety and beauty exhibited this season. This is especially the case with the artistic millinery combination of color, material and design expressed in the array at the extensive and fashionable show rooms of John Catto & Son.

Becoming indeed, were declared to be the many hats tried on by ostentatious of this leading millinery establishment. True brilliant, emerald green, also topped sherry green, forms a leading shade.

The finest straw is employed this year in place of the coarse, Tagal brand is prominently used with exquisite effect in making the stylish hats. White and black will be a combination largely in evidence.

Among the most admired hats shown are: A large French sailor, pearl white Tagal brand; has a pretty chou of wings and deep fringe of straight black straw fibers around the crown; another shape is charming, of black fine straw, with a very deep "glare" of the face, lined with black velvet; above this towers a magnificent black ostrich feather, rising out of a panache of uncurled white ostrich plumes.

One of the small shapes (and there are many of these this season) was a French one of white Tagal brand, lined with black velvet, with a huge chou of rose pink ribbon in bow knot, the edges being faced with black ribbon; a "Victoria Poke," charming for motoring; was all pale coral pink, with touch of black, an embroidered black crown, from which depended the long black silk ties, with tiny bunches of pink rosettes at the side.

The helmet shape, a favorite for outing, white and black, and one of burnt straw, being arranged with black swath and pink roses with the brim faced in the emerald green.

The mantle department vies in interest and attractiveness with that of the millinery show-rooms. It includes John Catto & Son show among many other samples of rare elegance, a garment of the softest pastel shade of green, lined with shot peacock silk, kimono sleeves, and the trimming of handsome raised passementerie in black, with large square collar. There was one of grey-blue, with a touch of black, a soft-draped sash band at the high waist-line; the black silk ones are useful and handsome in three beautiful shapes of fall skirts, kimono sleeves and soft pleated hood flat on the shoulders. The tussore and pale almond cloth are lovely for races, motoring, etc. one black and entirely velvet in chiffon, giving a soft, rich look; and one green was charming with the black embroidery "shawl collar" and sensible sleeves.

"policy which is therein involved has met with the approbation, nay with the enthusiastic approbation, of a majority of the Canadian people." (Liberal cheers and opposition cries of No, No.)

In answer to the cries of protest Sir Wilfrid said he would not stop to discuss the merits of the respective opinions on the point. No word of his would change the views of the opposition, and in that they would persevere until the evening of the next polling day. He was well aware that the policy of the government had not been universally accepted, and that an organization had been created in Toronto and Montreal for the purpose of fighting the agreement.

These people were acting within their rights and also he would not underestimate the importance of the movement. He did not think there was any cause for alarm. Many of the objections to the agreement lacked force and appositeness; others were worthy of consideration, but from inferior strength but from the circumstance that they were inspired by a strange misconception as to what would be the result and consequence of the policy involved.

**Surprised at Objections.**

"The wonder to me," said Sir Wilfrid, "is that there should be any objections at all. Who can deny that we have now reached a stage in our relations with our neighbors which all parties in this house have been seeking for the last forty years? It is not as if, forty years ago or even fourteen years ago, when we took office, it had been possible to obtain such an abatement in the American tariffs as is embodied in this agreement, there would have been rejoicing in this country?"

He declared that the relations between Canada and the United States were a blot upon our common civilization, and contended that when Sir John Macdonald introduced the motion, in 1878 he did so as a measure to securing reciprocity. In 1881 we now had it, and yet men doubted and hesitated. The agreement was contended as unfair and hostile, and men told us, "Stop, proceed no further, let the injustice remain, let the hostility remain, because treason, injustice, and hostility the Canadian confederation depends for its existence."

to reciprocity in 1881. He had thought that when the Conservative government went out of office in 1896 they were in favor of reciprocity.

Foster's Trips to Washington.

Mr. Foster's trips to Washington in 1891 and 1892, while in 1894 Sir John Thompson, then premier, had stated that Canada was willing to negotiate with the United States in trade matters.

More than that, he said, Mr. Foster himself in 1894, when a charge was made by Mr. Charlton that the Conservative government was insincere in its efforts to obtain reciprocity, stated that the charge of Mr. Charlton was untrue to him and that he was perfectly sincere in his desire to have reciprocity with the United States.

Denying the charge that the Liberals had abandoned reciprocity in 1897, Sir Wilfrid explained that his remarks on the return of the joint high commission from Washington, that further advances towards reciprocity would have to come from the American capital, were influenced by the rebuke that Canada had received. It was consistent with Canadian dignity to take that position, which, however, he declared, did not involve any change of policy in that regard on the part of the Liberal government.

Sir Wilfrid made an attempt to answer the contention by Mr. Foster and Mr. Sifton that the government had received no mandate from the people to enter upon such negotiations. He said he was more than astonished to see Mr. Sifton taking that position. He believed that the conversion of the member for Brandon had not been so gradual as he had indicated in his speech, and that the Liberal convention in 1893, when the party platform was adopted, Mr. Sifton had agreed to the resolution regarding reciprocity. The premier recalled that policy had lain dormant, but he denied having changed his attitude since that time.

Why Consult the People?

He declined to accept the argument that because this matter had not been discussed before the people, the government was barred from entering into the agreement. What mandate, he asked, had Lord Elgin in 1854, when he went to Washington to enter into a trade arrangement? What mandate had the government of 1864 to put through parliament the resolution which proposed confederation? Not a word about it had been heard of by the people. When Canada assented in 1871 to the Washington treaty of that year, the question was unknown to them.

"In the face of these questions," he added, "it is childish for any man to challenge the right of this government to follow the course it is following."

The cause of the attitude of the opposition, the premier contended, was due to the reciprocity of the country at the present time. If Canada had still been in the position in which the Conservative government had found it in 1896

Third Day of the Semi-Annual Selling of Floor Oilcloths and Printed Linoleums

The floor covering event of a year! Never had such quantities and quantities to sell at prices so wondrously low. It required gigantic purchasing and quick cash payments to secure the goods, and only such a tremendous outlet as the Store possesses could warrant the transactions. This huge offering is made up mainly of discontinued patterns and slightly imperfects. We're endeavoring to dispose of the whole big quantity in one week. Carloads of it! But the prices surely give good reasons for our expectations. Ever hear of such floor covering values as these?

Get your stair oilcloth supplies for the coming year now. You'll never have a better chance:

Canvas-Back Stair Oilcloths, 18 inches wide at 10 yard; 22 inches wide 13 yard.

Painted Back Stair Oilcloth, 18 inches wide at 12 yard; 22 inches wide 15 yard.

And Here Are Three More Lots Values as big, but quantities smaller. They're the best qualities in their respective lines and warrant the additional expenditure.

At 27 Square Yard—Best quality printed floor oilcloths, 36, 45, 54, 72 and 90 inches wide. Thousands and thousands of yards in most attractive block, floral and tile designs, in bright and medium color combinations. The quality is the most durable of its kind. Per square yard .27

Floor Oilcloths at .22—Carloads of this grade alone. Heavy quality, widths 36, 45, 54, 72 and 90 inches; a rarely large choice of designs—florals, blocks, tiles, matting, parquet and oak plank effects—light and medium colorings. Matchless value at per square yard .22

Printed Linoleums at .31—Not the price alone, but the splendidly thick quality, also, emphasizes the exceptional value. Two yards in width; rolls average 50 to 60 square yards. The patterns are florals, blocks, tiles, matting and parquet effects; the colorings are smart and bright. Seldom, if ever, such a good floor covering for so little money. Per square yard .31

Thursday a Day of Stirring Values in Wall Papers

STRATTON CLEAR OTHERS GO TO TRIAL

sent in sealed packages, and that they were sent back that way," remarked the bench.

"We never sent any back. They would come and get them," replied the witness.

Matthew Wilson, K.C., took the witness.

"What else besides currency would there be in these funds?" he asked.

"Currency and cheques from American points."

"Is there any difference in the deposit slips of the Farmers' Bank and the slips of any other depositories?" was the next question.

"No difference."

"You handed back these parcels?"

"Yes, we counted them."

"Was there any such thing in all your business as trading cheques for Farmers' Bank bills?"

"No."

Travers Back Again.

"Now, I would like Mr. Travers here again," remarked the magistrate, as the witness was allowed to step down.

would cheque out \$10,000," said Travers.

"Did you pay any interest on the money so advanced to you?" he asked.

"I cannot tell you that; I think there was not."

"We made the deposit and drew a cheque against and were given cheques on the Bank of Montreal, so that we got the Dominion notes or as good as Dominion notes for use in the clearing house," he went on.

"They would pay out the notes over the counter, but not to other banks, where they would turn up in the clearing house."

Mr. Wilson asked Travers if it would not be to the advantage of any bank to keep an account with a trust company which did not issue bills of its own.

"Yes, the advantage of paying out our bills over the counter," he remarked.

Not Paid to Other Banks.

"We never had a formal pledge of notes," said Travers. "The Trust Company were not to pay them out to other banks."

"Did they undertake not to without letting you know?"

"Yes."

"There was no agreement; no written agreement," asked Mr. Wilson.

Magistrate Denison: Just an undertaking.

Mr. Wilson: Then if they paid them out they would not be violating any agreement?

"Well, it would be a breach of faith," "Who did you have this undertaking with?" asked the magistrate.

"Mr. Warren."

plege of the notes?" queried Mr. Wilson.

"Well, I'd say to Warren: 'Don't pay those out and I'll take them up myself,'" Travers replied.

"How about Mr. Moton? Did he know of this agreement?" asked the magistrate.

"Morton kicked about it after he came, but let it go on."

"But he let it go on?"

"Well, he didn't like it, but some deposits were made after that," replied Travers.

Practically All Notes Returned.

V. A. Burke, accountant in the Toronto office of the Farmers' Bank, was next called an asked about the currency taken to the Trust Company.

"We got it practically all back," he said.

"We shipped \$5000 a week to the Trust Company's Calgary office and withdrew the larger bills in the Toronto office."

"It was supposed to be sent down until we could take it up," he said again, speaking of the currency.

"Do you know if they were paid anything for this?"

"No."

He said that the Trust Company had made advances in this way, or else made a further loan upon less securities.

Asked to explain, he said: "They would either have to shut down on us and close the bank earlier or carry us along in this way."

"I'd take down the deposit and draw out the cheques at the same time," he said later. Asked to give an example, he replied: "July 7 we deposited \$25,000. Part of this was currency. I got the Trust Company's cheque for it. I'd take that down, deposit it, and get Dominion legals. The next day the same thing happened."

got by these advances?" asked Mr. Corley, crown prosecutor.

"What's the difference between that and any other loan on security?" asked the magistrate when the witness had described the transaction.

"I don't see that there was any difference," replied the witness.

"When you speak of sending down these sundry notes, it was the ordinary course of business, was it not?" asked counsel for the defence.

"Yes."

"Did you ever send your money in order to get a loan?" asked the defence lawyer.

"Not to my knowledge."

"Well, what did you get?" asked the magistrate.

"Practically," replied the witness.

"Well, of course so. Be careful of what you are saying," admonished the magistrate.

Exonerated Mr. Stratton.

"The question of the loaning is rather an intricate one, and it seems, I don't say intentionally, that it was covered up in a way. I had better get

SWEEP THRU A SEWER.

NEW YORK, March 7.—Toddling along at his mother's heels, four-year-old Eddie Burrell plunged out of eight into a man hole in East 86th-st., near the east river, and was swept for two hundred feet underground in a snow choked sewer. He was rescued an hour and a half later, huddled on a pile of snow where it had congested the drain. The little fellow was about frozen, but will recover.

A Working Agreement.

WHITBY, March 7.—An agreement was approved at this afternoon's meeting of the council, whereby the Markham and Pickering Telephone Co. is given a five-year contract to operate a telephone exchange in the town, paying \$60 a year for three years, and then give six free phones.

rid of Mr. Stratton's case at once," said the magistrate at the close. "I will dismiss the charge against him. It looks as if this money was placed there by way of a loan, and I think there is enough to let it go to the other court and see what the other judges say about it. The others will be committed for trial."

Mr. Tilley objected for Mr. Morton and asked that a particular amount be named, as most of the transactions were before his client came to the company.

"I'll take Mr. Morton's bail in \$200," said the magistrate. "He will be committed and the other man, Warren will also be committed for trial upon the arrangement already made. I think these are all the charges."

"Yes," said Mr. Corley. "Those are all the charges against anyone known to be in Canada so far."

Burial of Fenian Raid Veteran.

One by one the heroes who in defence of their native land flew to arms in 1866 to repulse Fenian invaders are passing away.

To-day at 2.30 the few survivors of that gallant band will gather to conduct to their last resting-place the remains of one of their number, Geo. Stevens of 12 Badgeron-avenue, who passed away on Monday, in his 8th year.

Again they will follow the flag, but its folds will not be flung forth to the breeze in defiance to the invader, but with bowed heads and cased flags the little procession will wend its way to Norway Cemetery, where the body will be interred.

Deaths of a Veteran.

Thomas Pender, well-known Army Pensioner, Dies Suddenly.

Thomas Pender, a well known army veteran, who after valiant services in the reign of Queen Victoria, has been a resident of Toronto for many years, died rather suddenly yesterday. The deceased had enjoyed a pension for 30 years. The funeral will be from McCabe's parlors, East Queen-st., to-morrow morning at 8.30, to St. Paul's Church and Mount Hope Cemetery.

Note and Comment

It is worthy of note that, while the race tracks are going regularly to the wall, those in Continental Europe, and in Japan, and Australia, are gaining ground and the confidence of the public.

In this connection a quotation is taken from a Hamilton paper to the effect that the Hamilton Jockey Club would try to get the mutual style of betting this season.

But it is just possible that Hamilton and every other track in the circuit and out of it may be forced to use the more modern and less tempting form of betting that the O. J. C. will adopt altogether the coming meeting.

The race tracks to close up in the United States on account of the idleness of gamblers, bookmakers since New Jersey started the raid against Guttenberg in 1885, number forty-two, including nine in New York State, and more will follow.

Toronto turfmen who have just returned from Jacksonville state that the present meeting of the Florida Legislature was a year ago and conducted things in a very different manner from the starting itself.

There is amusement in certain cutting circles over the fact that the Hamilton evening newspaper pink received the other day at Parkdale. The third player, who was the champion of Toronto curling, was all worked up over the Winnipeg style of play, and went west to the "Dewey" suburb, where he had a full of shots, and report has it that he missed them all, and Parkdale won by 19 to 5.

After Joe Jenette has boxed Jim Barry on March 19 he will sail for France, where he hopes to arrange a final contest with Sam Langford, Jenette's manager has called to a French boxing promoter in Paris offering to make the match and there seems to be little doubt that Langford will accept.

A traveling gentleman dropped in the other day and shed a ray of light on this Carl Morris, who is white man's hoping to some extent to Oklahoma.

He was in Sepulpa, the other day," he said, "and in common with a few other fellows he was in the next hall of the Cherry Sisters. I have been in bed for forty-eight hours."

Only One Change at Buffalo. BUFFALO, N.Y., March 7.—Only one change occurred in the standing of the ten leading teams in the individual and the two-man divisions of the National Bowling Association's tourney, as the result of today's competition.

It looks now as if the city championship will not be decided until after St. Michael's return from New York.

SPORING GOODS DEPT. BIG STORE CHAMPIONS

Defeated General Office by 3 to 2 in Fast Game of Burlesque Hockey and Girls' Exhibition.

The Eaton Athletic Association put on a hockey carnival at the Mutual-street rink last night, in which three games were played before a large crowd.

The first was a burlesque match between the Gas Jets, composed of the managers, and the Suffragettes, the hockey committee, and it surely was a scream from start to finish.

The Gas Jets were costumed to represent nearly every nation on earth, Joe Cook in goal, dressed as good old John Bull, was too busy making eyes at the girls to play hockey, and when the puck came he just laid down.

Renfrews Win From Wanderers After a Hard Struggle, 7-6

RENFREW, March 7.—The Wanderer and Renfrew teams rung down the curtain in the National Hockey Association, as far as Renfrew is concerned, in the most exciting game of the season at the local rink to-night.

On a sheet of ice and after a match that was tied no fewer than six times, Renfrew led at the close of the first period by 2 to 1, and by 4 to 3 when they came on for the last period, in the third each team notched three goals.

Nearly every score was made while the team tumbled up and down on the fence. Play was rough at times, and Wanderer protested incessantly against the decisions of Referee Tommy Ellis of Ottawa.

It looked for a time in the third period as if the Ellis and some of the Wanderer players would come to blows. Gardner drew the last penalty of the match for foul play, and referee, who allowed a great deal for both sides to escape him.

The Wanderer's work was good. Wanderers were only ahead with the scoring of the first goal, and were forced to play an uphill game through the rest of the first half, but towards the close it was lightning fast. Wanderers led by 2 to 1 at the end of the second half.

Gardner coming on at left wing and small going to right, Johnson was badly hit in a nasty fall. Taylor nearly did great work for the Renfrew team while Brown and Russell managed the visitors. Gardner after his advent in the second period played the most effective hockey.

Each team lost fifteen minutes in penalties. Honors on the night's play were given to Renfrew, who were the victors, 7 to 6. Referee—Jimmy Preston.

ST. MIQUES WIN FAST GAME IN NEW YORK

NEW YORK, March 7.—In the fastest game played here this season, St. Michael's College of Toronto for the second time defeated the New York Athletic Club hockey team here to-night by a score of 7 to 1.

The feature of the game was the work of St. Michael's forward line, who scored five goals. The line-up: St. Michael's—Goal, Thompson; point, Lester; cover, Johnson; rover, Henderson; center, Lafamme; left, Richardson; right, Mathews.

New York A.C.—Goal, Mills; point, White; cover, Broadfoot; rover, Mallen; center, Castlemans; left, Sims; right, Wright. Goals: St. Michael's—Lafamme (4) and Rankin (2); New York A.C.—Castlemans (1), Mallen, Sims.

SCHOOL BOYS' LACROSSE LEAGUE WILL BE FORMED

Local Clubs Reorganizing—Harry Griffiths Arrives from West, Looking for Players.

A few old lacrosse men gathered together last night for the purpose of seeing what could be done for all those youngsters who secured lacrosse sticks from Sol Solman last year.

The Capitals hold their annual meeting on Friday night in Olivet Church at Bissett-street, and Scotch-street. They hope to place five teams in the field.

The Maitlands hold their annual meeting on Friday night in Olivet Church at Bissett-street, and Scotch-street. They hope to place five teams in the field.

An effort will be made on Saturday to complete the organization of the proposed Ontario Lacrosse Association, according to the Central credit for a total of 225.

A despatch from Rochester, N.Y., says: The Rochester lacrosse team has elected officers as follows: President, Dr. G. G. Burns; vice-president, H. Conroy; secretary-treasurer, O. S. Moyer; manager, Dr. T. D. Buck; assistant manager, George Wright; referee, J. C. M. Brautigan; G. Buck; J. Wright and S. Gumpert.

The Vancouver and formerly the Tecumseh teams, arrived in town yesterday looking for players. Harry would like to pick up three or four of this city's best, and Charlie Querris and Ernie Menary have some of their little flocks, or at least some of them may be seen on the coast the coming summer.

The announcement is made, says The Ottawa Citizen, that the return of Green will manage the team this summer. The Ottawa Citizen says that the return of Green will manage the team this summer.

PAINTED SPARROWS

"No imitation is exactly like the original." —Lord Macaulay.

You may paint a sparrow to look like a canary, but the bird won't sing. You may see imitations of the "DAVIS NOBLEMEN" CIGAR BUT THE IMITATIONS LACK THE "NOBLEMEN" QUALITY.

The cream of the Havana crop — skilled Cuban workmanship—and fifty years' experience combine to produce "NOBLEMEN." This is why it is equal to high-grade "imported" brands.

"NOBLEMEN" CIGARS cost two for a quarter or half the price of "imported," because they escape heavy duties. That is why the smoker should buy them. He saves 50 per cent. without sacrificing one iota of quality.

Basketball at the Mission. A great work in physical culture is being done in a small way among the boys of the Fred Victor Mission. It is, perhaps, not generally known that one of the departments of the mission most used is the gymnasium, under the able direction of W. P. Bauld, and J. Robinson.

Don Valley League. A meeting of the above-named organization will be held one week from to-night (8th inst.), for the purpose of organizing for the coming season. Any team desiring information will be accommodated by addressing by mail President Robert Ferris.

Granite Club Curling. The final games for the Noel Marshall trophy at the Granite Club have reached the third round. Eight rinks are left, which will play to-morrow.

Vermont League Champions. The Vermont B.E.C. champions of the Vermont League of 1910, request all players and supporters, and any new players, to meet at the West End Y.M.C.A. Monday evening, March 13, at 8 o'clock.

Warning the Deacon. "Paul Morton," said a stickler for business honesty, I once heard him, in an address to agents, declared that a dishonest dealer would turn the straightest patron's morals slightly askew.

Startling Comparisons. United States produced one-third more coal per worker than does Europe, and in doing so kills or cripples three times as many men. To bring the fact home in another way, and to make it a little stronger, their coal industry alone manufactures ten thousand widows and twenty-five thousand orphans every ten years.

THE PREMIER'S APOLOGIA.

Sir Wilfrid Laurier's speech shed no new light on the question now engrossing the attention of the people of Canada. It merely re-stated in more rhetorical form the arguments that have been used from the outset by the supporters of a measure which reverses the hitherto settled policy of the nation.

CITY WATER TROUBLES.

In the dispute about the cause of the distance to the intake pipe, if there be any dispute, the reputations of the engineers of the city are pitted against the word of a discharged employee who was according to his own account, responsible for the proper carrying out of work which he declares was improperly executed.

are no wolves around, has deadened the susceptibilities of the public, and done serious injury to the city. We know of no more dangerous critical wolves than the vote-hunting aldermen of the city council, who seem unable to consider city business from any position more elevated than a ballot-box.

We are not blaming anyone for the production of the Pike declaration. Such a statement, even with obvious discrepancies when made in good faith, could not be allowed to pass unnoticed. But the engineers have a right to be heard, and a right not to be judged without a hearing.

RECIPROCITY AND U. S. TRUSTS.

With the usual disingenuousness of free trade organs, the Star extracts from a sentence in a World despatch from Ottawa, a meaning entirely at variance with its phrasing. It bore that American farmers "state that they came to Canada to avoid the operation of the trusts, which have been controlled on this side of the line by the customs authorities."

DESCRIPTION OF JOY-RIDERS.

All of the eight clues that the detectives have followed concerning the "Joy-riders" who ran over Edward Jacobs last Friday night, have fallen down; but Mrs. Brash, 448 Clinton-st., has proffered a description of the men, which may materialize into something. She declares that the one who was driving was stout, clean shaven, about 40 years old, and wore a coat with a fur collar. The other was slight, swarthy skinned and had a light mustache.

Baby Nearly Died with Itching Rash

Mrs. M. C. Mainland, of Jasper, Ont., tells in the following letter of her child's remarkable cure by the Cuticura Remedies: "When my boy was about three months old his head broke out with a rash which was very itchy and ran down his neck. We tried everything we could but he got worse all the time. It spread to his arms, legs, and then to his entire body. He got so bad that he could not sleep. The rash would not go away until the morning. I had to put mittens on his hands to prevent him scratching his face. He almost a skeleton and his little hands were thin like claws."

"It was had about eight months when we tried Cuticura Remedies. I had not heard of it until a friend told me of it. I took one box of Cuticura Ointment and pretty near one cake of Cuticura Soap to make on my child's body. He was soothed that he could sleep. You don't know how glad we were. He has been well ever since. He has had no more of the trouble." (Signed) Mrs. M. C. Mainland, Jasper, Ont.

credit of profit and loss in the year's trading. An expenditure of \$908,362.63 was made on capital account, and \$734,701.53 in the year 1909, 000 sterling of the five per cent. bonds of the company were disposed of in London. Development work has been vigorously prosecuted at Wabana and the great value and extent of the submarine deposits has been still further proved. Installation of the necessary machinery has been completed and during the year a considerable quantity of ore from these beds is expected to be mined. Altogether the prospects of the company appear highly favorable.

HAVE YOU NASAL CATARRH?

An Old Physician Says to Look for Dizziness, Frontal Headache, Stiffness and Nose Colds.

TELLS HOW TO CURE. Catarrh in almost every instance starts with inflammation of the head, which is added to with another cold, and because of some extra exposure or weakness of the system, it becomes chronic.

A full case of disgusting nasal and throat catarrh then develops. Unless a radical cure is effected then the disease passes rapidly to the throat, bronchial tubes and finally to the lungs.

No man or woman can ever get new lungs any more than new fingers or a new nose; but every one suffering from Catarrh can get a sure cure by using Catarrhine, and this is proved after you read further.

QUICK, LASTING CURE. After ten long years of suffering with Catarrh in the throat and nose I have at last found a cure. It is Catarrhine, which I recommend everyone to use for any trouble in the throat, nose, bronchial tubes and lungs.

John McCoubough, Moosebrook, N. S. Let Catarrhine cure you, get the large bottle which lasts two months and contains an indestructible hard rubber inhaler. Smaller sizes, 25c and 50c each. Beware of imitations. Catarrhine, which all reliable dealers sell, or by mail from The Catarrhine Company, Kingston, Ont.

an end to every possibility of mutual preferential trade with Great Britain.

The member from Brandon made that argument and I have heard it from the other side of the house.

I say more; that statement does not remain silent, having heard our policy before the English people.

"And what was our policy? It was set forth by the Canadian minister at the conference in 1894 and was in these words: The Canadian minister stated that if it could be assured that the imperial government would accept the preferential trade generally, and particularly grant to the food products of Canada in the United Kingdom exemption from duties, the Canadian minister would be prepared to go further into the subject and endeavor to give to the British manufacturer some increase of the range over his foreign competitors in the market of Canada.

This was our policy laid down at the imperial conference in 1894, and this policy is soon to take place.

We have been told that the action we have taken has made it impossible to implement the policy thus laid down.

How can that be argued seriously?"

No Change in Policy.

Sir Wilfrid then pointed out that Great Britain had not only been a large importer of our wheat, but was a large exporter of our manufactured products.

THE TORONTO WORLD

the last 12 years, and which almost came to a crisis a year ago, had been a blot upon the civilization of the two countries, amounting practically to a proclamation of non-intercourse.

Now, when Canada had reached the present stage, it was incredible that the should desire to enter into mutually profitable commercial intercourse.

There was at one time an annexation movement in this country and it received its first check when Lord Elgin brought back from Washington the reciprocity treaty of 1854.

Sir Wilfrid's peroration is as follows: "Once upon a time—this is also a matter of history—the conviction of every American citizen was that the Canadian confederation should become a part of the American union.

"If my poor voice could be heard thru the length and breadth of this country, and if without any presumption it could be heard also beyond the frontier, I would say to our American neighbors: Flattering as it may be, your people, who have not the territory of the republic should extend over the whole continent from the waters of the Gulf of Mexico to the waters of Arctic Ocean, you must remember that we Canadians were born under the same flag as were your ancestors, a flag under which perhaps they had suffered some oppression, but which to us has been and is more than ever the emblem of freedom.

Our National Unity.

"Remember that if you have founded a nation upon a despotic and arbitrary rule, you must remember that we Canadians were born under the same flag as were your ancestors, a flag under which perhaps they had suffered some oppression, but which to us has been and is more than ever the emblem of freedom.

At least to some sections of the country we may be qualified, but it is there all the same.

"Mark these words, 'Canada would be forced to closer trade relations.' Well, if Canada is forced to closer trade relations, what would be the result? Nations there have been, which in the face of a great emergency, have taken the course of a great national calamity, and even the women would throw their jewels and ornaments into the common fund for the protection of the country.

"But the Tories of 50 years ago were of sterner stuff. In 1854, the treaty which was negotiated by Lord Elgin with Sir Francis Hincks as his prime minister, resulted in immediate abundance of prosperity.

"The treaty was repealed, and a high protective tariff substituted for it. At that time did Canadians falter? Did they hesitate? Were they forced into closer relations with the United States? Did they seek a refuge in political union? No, in the face of that action they organized and organized a Canadian confederation.

"The treaty of 1854 was negotiated by Lord Elgin, when, as I have said, he had as his first minister Sir Francis Hincks. It was ratified in 1854 by the first Liberal-Conservative administration that we had. That administration was presided over by the staunch, stalwart Tory, Sir Allan MacNab, and one of its members was Sir Allan MacNab, or did John A. Macdonald, did they hesitate? Were they forced into closer relations with the United States? Did they seek a refuge in political union? No, in the face of that action they organized and organized a Canadian confederation.

"We are told that this agreement may, perhaps, lead to certain satisfactory results for some time, but that later it may be removed and if removed, may be followed by a high protective tariff, and under such circumstances the Canadian people would be forced to resist the dislocation of trade, but would be forced to seek refuge in the American confederation.

"Let me refer to the resolutions of the board of trade of Toronto. I take these, because they contain in condensed form all the arguments which we have heard in this house. The third resolution says: That any present benefit to any section of Canada or to any interest thereon, would be more than offset by the loss and injury to other sections, and that there is an admission that in this agreement there will be a benefit to go.

UNION BEFORE PRESBYTERY

Action Was Deferred Until April—Rev. Thos. Rogers Nominator.

At the monthly meeting of the Toronto Presbytery yesterday an overture to the general assembly in presenting the scheme of federation of the churches was submitted by Rev. Daniel Strachan. The matter was not discussed, but will come up at the April meeting.

In accordance with a complimentary invitation the presbytery transferred Rev. J. G. Shearer, D.D., from the Toronto to the Kootenay Presbytery.

The call from St. Andrew's, Markham, to Rev. J. A. Meyer was concurred in, and he will be inducted at Markham on Thursday afternoon, March 15.

The presbytery approved of a proposition to prepare a supplementary hymnal for the young, apart from the present church hymnal.

Rev. Thomas H. Rogers of East Toronto was elected moderator for the Toronto general assembly, which will meet in Ottawa during the first week in June.

Rev. R. P. McKay, D.D., has been recommended as moderator of the general assembly.

PACKARD TRUCKS.

The Packard Motor Cars Company's exhibit of motor trucks during the second week of the New York Automobile Show in Madison Square Garden, January 16 to 21, was comprehensive display of commercial vehicles of different types. It occupied nearly 5,000 square feet of floor space in the central arena of the garden.

The exhibit consisted of five "three-tonners" and three "Thirties." A letter patrol, a five squad and chemical wagon and a light delivery wagon. These are comparatively new fields for the Packard "Thirties" but in each one their introduction gives promise of great success.

One reason that the Packard "Thirties" are so popular is because of their high efficiency in particular well adapted to patrol, fire, ambulance and other municipal and public service, while surely no one has more than these same Packard "Thirties" makes a pretty effective delivery wagon.

WHAT MEMBERS MUST DO TO GET FULL INDEMNITY

Premier Whitney Explains Strings Attached to the \$1800—Also Administrators Rebuke.

Sir James Whitney gave a delicate hint to those members who consider their time too precious to be in their places at prayers, and the opening proceedings of the house. This was yesterday afternoon, in moving the second reading of the bill with respect to the members' seasonal indemnity.

The premier said he regretted the absence of so large a proportion of the members, including the leader of the opposition, but it was not so important in his case, as he could pick it up so readily.

Hon. A. Mackay, however, emerged from the opposition corridor and entered the house while the premier was making his introductory remarks.

The bill, said the prime minister, was one which the members should be free to amend, as it exclusively concerned the internal management of the legislature.

The bill was printed with the amount of per diem pay and deductions for absence in blank.

In the extremely improbable event of a session lasting less than 30 days, Sir James suggested a larger indemnity of \$20. Should the session continue 30 days or over, the indemnity is placed in accordance with the supplementary estimates at \$140.

Allows Six Days' Absence. The bill allows a certain number of days' absence without explanation by the absentees. Sir James said that, considering the short sessions, six days was, in his opinion, the maximum which should be fixed, especially as the bill allowed one day for traveling to the legislature and absence for sickness.

A deduction would be made for other absences. The premier suggested that the house fix the deduction not less than \$10 or more than \$15. A larger amount would be neither wise nor necessary.

Allan Studholme appeared anxious to debate the bill, but the premier said he thought it advisable to have it stand for a day or two, as it could be discussed more intelligently after it had a chance to percolate through the mental equipment of the members.

Gain for Toronto. When the Local Improvement Act was in committee, Hon. W. J. Hannaford announced that the clause requiring cities to submit a report to the board amounting to \$30,000 or over to the Ontario Railway and Municipal Board had been changed to read \$50,000.

R. R. Gurney, Manitowish, in support of his bill to amend the Game Act, made some pointed suggestions to Hon. Dr. Reaume. He has good reason for wanting to limit the number of partridges to 50 birds per man per season—reasons that the members from old Ontario were not in a position to comprehend.

They did not know of the wanton slaughter of birds in the newer sections of the province. He reported that as practicable to limit the number of partridge as it was to limit the catch of bass.

"I don't know why I have been left out of the game committee, because I come from a great game country, but I think there is much in the Game Act that needs amendment."

"I would recommend the minister consider the question of laying the province out in zones. One law cannot possibly govern the whole province, with its wide variation of climate and conditions."

On a promise of consideration of its suggestions the bill was withdrawn.

For Hospital. A. E. Donovan's (Brookville) bill to amend the Charity Aid Act so that municipalities may agree to pay a fixed amount towards the upkeep of hospitals, was given its second reading and was referred to the municipal committee. The bill proposed to tax every municipality 70 cents per patient sent by it to a general hospital.

There were 78 general hospitals in the province which the government assisted generously to the extent of \$14,000 a year; besides spending \$1,800,000 on them last year. It was estimated that it cost \$140 to keep a patient, so that his tax on the municipality of 70 cents was not extreme.

HANGED HIMSELF IN CELL. KINGSTON, March 7.—(Special).—Just after a guard passed his cell, Charles Goldsmith, aged thirty-five, pulled off his shirt and making it into a long strip, hanged himself. The guard, returning, found him hanging two feet from the floor from his cell door. Goldsmith was sentenced from near London for a murderous assault on a woman, being given twenty-one years and had served fourteen. He acted very strangely at times, and is believed to have been of unsound mind.

"Bronchitis"

This is an acute inflammation of the mucous membrane lining the air tubes in the lungs.

The disease begins with a tightness across the chest, difficulty of breathing, hoarseness, and there is a dry, harsh cough.

After a few days mucous begins to be raised. This is at first white, but later of a greenish or yellowish color and is occasionally streaked with blood.

Cure the first symptoms of Bronchitis, by the use of Dr. Wood's Norway Pine Syrup and thus prevent it becoming chronic and perhaps turning to Consumption.

Mrs. D. J. McCormack, Cleveland, N.S., writes: "My little boy, two years old, caught a bad cold which developed into Bronchitis. He was so choked up he could hardly breathe. Reading about your wonderful medicine, Dr. Wood's Norway Pine Syrup, I decided to try a bottle, and with such good result I got another which completely cured him, without having a doctor. I cannot say too much in its praise and would not be without it in the house as I consider it a sure cure for Colds and Bronchitis."

Dr. Wood's Norway Pine Syrup is put up in a yellow wrapper, three pine trees the trade mark. Price 25 cents. Manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

SAVED ONLY BY "FRUIT-A-TIVES"

Clambrasse, Ont. "Two years ago, the doctor made forty-four calls on me, and then said he had done all he could for me. I was suffering with intense Kidney Trouble and Inflammation had set in. Two other doctors were consulted and advised that nothing could be done to help me.

"On the recommendation of a neighbor, I took 'Fruit-a-tives' and they cured me. I took 'Fruit-a-tives' as my only medicine. I am in excellent health, and 'Fruit-a-tives' is the medicine that cured me after I had been at Death's Door for months."

"I am glad to be able to give you this testimonial. It may benefit some other woman suffering as I suffered, as I believe that I would not be alive today had I not used 'Fruit-a-tives.'"

Mrs. P. E. WEBBER. "Fruit-a-tives" by its marvelous action on the kidneys completely restores these vital organs to their normal strength and vigor—and cures every trace of Kidney Trouble. 'Fruit-a-tives' is the only medicine in the world made of fruit.

FOUR DEATHS IN FAMILY

Within a Little Over Nine Months—Samuel Monkhouse Terribly Bereaved.

With the death of James Monkhouse, 29 Olive-street, on Monday, occurred the fourth death in the family of Samuel Monkhouse.

Ever since May 20 last, when William Monkhouse, a son of 25 years of age, passed away, the grim spectre seems to have dogged the family. On July 17 his young sister, 6 years of age, was burned to death while playing with matches; in September another daughter, Mrs. Harry Wilson, passed away, after a brief nine months of wedded life. Shortly after her death another son, Norman, was stricken with pneumonia, and, since that time has been hovering between life and death.

Samuel Monkhouse, the father of the dead children, is employed at the Box Manufacturing Co. The funeral will take place on Friday to Prospect Cemetery.

R. MEET TO LAST FIVE DAYS

Change Made at Annual Meeting—E. B. Osler, Again President.

The annual meeting of the Ontario Rifle Association was held yesterday morning in Gen. Coxon's office, military headquarters, on Simcoe-street, and over 60 members attended. The officers were re-elected.

Arrangements were made to hold the shooting this month at the residence of E. B. Osler being again president, and Col. Bruce, chairman of the council.

Among those present were: Col. W. C. Macdonald, president; Gen. Coxton, Col. Bruce, Col. White, 12th York; Mayor Geary and ex-Mayor McLaren of Hamilton.

A REMARKABLE FLIGHT.

PARIS, March 7.—Eugene Renaux to-day flew in a biplane, with M. Senouque as a passenger, from St. Cloud, a Paris suburb, to the highest peak of the Puy de Dome Mountains, 20 miles distant. He made the flight with only one stop in 5 hours and 30 minutes.

The peak on which Renaux landed is 4860 feet high. The landing place was only a few yards square and exceedingly rough. The machine alighted, however, without injury. Even a broken wire would have barred Renaux from claiming the prize.

OBJECT TO PAYING FOR WIDENING.

Some 37 ratepayers in the streets running off St. Clair-street yesterday before the court of revision yesterday against the apportionment of cost of widening of that thoroughfare. They contended that the cost should be spread over a wider area on the adjoining streets.

The city pays 75 per cent of the cost and ratepayers the other 25 per cent. As a consequence the ratepayers cannot block the improvement, and the hearing of the objections is simply a peaceful method on the part of the city in putting through an improvement that they can force through anyway.

THE HANDS OF A PIANIST.

Those who have observed the picture of Arthur Friedheim, the Russian pianist, that has appeared in the newspapers and on window cards, must have been impressed with the size of the artist's hands. The well-known exponent of Liszt has surely the fingers of a great pianist. We understand that Friedheim finds it desirable to have his hands carefully manicured at least twice a week. Illustrating very fully the pianist's mania, a large hand is specially painted. It is now on exhibition in the window of Helntzman & Co., 193-195-197 Yonge-street.

DOINGS AT VARSITY.

Varsity "Lit" elections will be on tomorrow. The contest for president will be between John J. Gibson, general manager of the Title and Trust Company, who is an "Old Lit" candidate, and G. F. McFarland of the legal firm of Kerr, Davidson, Patterson & McFarland, of the "Colonist" faction. The University Athletic Association will also hold its election to-morrow night, and the Appointed Science elections will take place Friday night.

## PEARL LAKE GOLD MINES WILL COME TO FRONT

Company Has Excellent Location and Good Prospects—Under Good Management.

The Pearl Lake Gold Mines Co., Ltd., of Porcupine, is now the next to attract attention. It capitalized at \$2,500,000, half a million of which was put in the treasury; part of this is now offered to the public. The property has a surprising number of good veins on the surface, some of which have been stripped and free gold found. It adjoins the Hollinger and the Armstrong & Booth and lies directly in the line of the finds of free gold on other adjacent properties. The property is 15 men have been putting up new camps and have about completed the work and the president, Mr. Burr E. Cartwright, stated yesterday that he immediately at sinking three separate shafts. A core drill with a steam plant drive is also on the way to the property and will be put to work as soon as it can be got there.

Anyone who knows the success that Mr. Cartwright made of the Timmins Laming Silver Mine in Cobalt and the energy and perseverance he applied to its development can rest assured that the same methods and persistence will characterize the Pearl Lake property at Porcupine.

The object of the management is to mine as much ore as they possibly can at the earliest possible date, and have some of it stamped at the Hollinger custom mill, which is to be ready in three months. Enquiries in regard to Pearl Lake are coming in from all quarters and the chances are that it will soon be listed on the Toronto and New York markets.

## HOYLE AND MURPHY HAVE GOOD PROSPECTS

Townships North of Tisdale and Whitney of Great Promise—Free Gold in Hoyle.

PORCUPINE CITY, March 4.—(From Our Man Up North.) What are the prospects of gold being found in the townships to the north of Tisdale and Whitney? It is a question asked many times by those who are not in touch with the district.

Murphy lies north of Tisdale, and Hoyle north of Whitney, and in the latter township, where the belt from present evidence is over a mile in width, covering the Smith veteran and the Armstrong-McCollibon, the Miller Porcupine, and thence thru the Scottish-Ontario to the Mulholland, Hughes, and on a line more easterly to Three Nations Lake.

The line of fissuring is in evidence over into Cody, and should the work along the ridge be completed the coming summer it is more than evident that before snow of another fall comes the true direction of the belt, with its width and surface characteristics, will be known better than it is now.

So far a line of fissuring has been located thru Murphy and Hoyle. Fox.

## DEMAND FOR VIPOND

Big Values Coming From Property at One Hundred Foot Level.

For several days past there has been a still hunt for Porcupine Gold Mine shares, better known as the Flynn-Vipond property. Also the stock is not listed, several thousand shares were held in the curb of the Toronto Stock Exchange yesterday.

Mining engineers and others who are here yesterday direct from the camp, tell almost incredible stories about the values coming out of the east and west drifts on the hundred foot level.

Porcupine Financier.

C. B. Flynn of New York arrived yesterday and closed up some important Porcupine deals. Mr. Flynn left for London at the end of the month, where a consolidation of several properties will be consummated.

Hack Driver Arrested.

Dr. Herbert H. Cameron, 207 Sherbourne-street lodged a complaint against Hampton Haultain, hack driver, 15 Russ-street, concerning a missing horse and Detective Guthrie made the arrest last night.

## HEALTHY REACTIONS.

After extreme advances, the two representative Porcupine stocks, Hollinger and Preston East Dome, had a healthy set-back yesterday. A rise of nearly 100 per cent. in Preston in two days encouraged speculators to take profits. The buying power was evidently good and despite the volume of shares thrown on the market, the price held strong. Ten points above Monday's opening, the decline in Hollinger was partly attributed to profit taking, and partly to manipulation. On good authority it is stated that \$10 a share has been offered by a London financial house for control of the company, and that overtures to that end are going forward.

## SILVER MARKET

Improvement in Outbreak Owing to Purchases for China.

Samuel Montagu & Co., brokers, write under date Feb. 23: The outlook of the market is a little better this week. The improvement was caused by purchases for shipment and also for delivery on account of China, where exports from the southern districts had been stimulated to some extent by the relatively low rate of exchange.

It is a reminder that the interference of China with the trade interests of Europe is a serious matter, and cannot remain at a standstill. Nor must it be lost sight of, as a point favorable to silver, that imports of merchandise into the plague infested districts are to a certain extent diminished thru this cause.

Altho the decrease in the silver rupee held in the treasury currency reserves and the standard reserve combined do not hold out much hope of any purchases on account of the Indian Government this week, the reaction from the figures of 1909 is worth noting.

Feb., 1909, combined totals 42% crores. Feb., 1910, combined totals 28 crores. Feb., 1911, combined totals, 24% crores.

New York Curb.

Charles Head & Co. (R. R. Bonar) report the following prices on the New York market:

# Pearl Lake Gold Mines, Limited

(No Personal Liability)

PEARL LAKE GOLD MINES, Limited, offers to the discriminating investor one of the best opportunities in the Porcupine Camp. Its location is right—lying as it does between the Hollinger and the properties of Cons. Gold Fields of South Africa—and without doubt on the same gold quartz dyke. It is in the centre of the section where all the big mines that are now before the public eye are located. Competent and experienced mining engineers have reported favorably on the property and given their endorsement. Camps are practically finished for the accommodation of forty men. Development work is proceeding rapidly, and the time to secure holdings at the opening price of 50c per share is now.

The map shows the proximity of the Pearl Lake Gold Mines to the other well-known ones in this section of the Porcupine Fields. The Timmins-Hollinger adjoins to the southwest, and the vein on which most of the work has been done—having an average width of eight feet and carrying big values to over a depth of 200 feet—it keeps the same general direction, will cut into the Pearl Lake Gold Mines property.

The Consolidated Gold Fields, on what is without doubt the same vein, have recovered the same high values at a depth of 247 feet with a core drill. This property lies just north and east of the Pearl Lake Gold Mines. On the Foster, the Vipond and the Dome, all in the near vicinity, much work has been done with the results of proving that the properties are very valuable.

Intending investors are invited to investigate thoroughly the opportunity we are offering. The properties are clear of all indebtedness—are owned absolutely by the company, and there are no deferred payments.

The proceeds of the sale of the treasury stock will all be applied to further development, and the work is in the hands of conscientious and capable mining men.

Only a limited amount of the treasury stock will be sold at the price of 50c., par value \$1. and as development proceeds and the extent and depth of the ore bodies is ascertained it is bound to rapidly advance in value. As soon as the present allotment has been subscribed the stock will be listed and no more offered for sale. A prospectus and any information will be sent on request.

## RIGHT OF WAY READY WITHIN TWO WEEKS

T. and N. O. Route to Golden City Making Rapid Progress—Five Miles of Steel Laid.

PORCUPINE CITY, March 4.—(From Our Man Up North.)—The railway right of way, cut entirely from steel to the Frederichouse River, and opening all the way this side of the river west to Hills.

Grounds for freight yards are already being laid out at Golden City, on the Maj. Vane lot, where the station will be built, and extra tracks are to be laid here, for there is every reason to believe that, with rails laid to Golden City this summer, the line around Porcupine Lake will not be finished till later in the season.

The work of shoveling snow along the right of way has been costly in time as the grading and laying of rails. At the present rate trains will be run into Porcupine long before the summer is over.

Drunks Gently Cared For.

Copenhagen, as in Amsterdam, provision is made for the safe conveyance of inebriated revellers. When a policeman in the Danish capital finds an intoxicated man wandering at large he places him in a cab and takes him to the nearest police station, where he is examined by a doctor and then sent home in the cab. The following morning the bill for the doctor and the cab is sent to the policeman who served the man with his last drink.

Japan and the Philippines.

The cost of government in Japan is \$5.28 per capita of the population, as compared with \$2.28 in the Philippines. The population of Japan is 33.8 a square mile, against 71 in the Philippines; the total population of Japan is 4,318,000, as compared with 8,190,000; the public debt of Japan per capita is \$28.15, while in the Philippines it is only \$1.85; the Japanese annual interest charge per capita is \$1.12, as against \$2.28 in the Philippines; the Japanese population is 115,026, says Executive Secretary Carpenter of the Philippine Government.

## STATUTORY INFORMATION

In order to comply in every particular with the Ontario Companies Act, the following information is given:

The original incorporators are: George Herbert Sedgewick, Austin Gregory Ross and the London Law Offices-at-law, Hugh Leroy Slaght and James Lewis Duncan, Students-at-law, Toronto, Ontario, who each subscribed for one share. The bylaws of the company provide that the company shall be managed by a board of five directors, each of whom shall be the owner of at least one share of the capital stock of the company. No provision is made in the bylaws as to the remuneration of directors. The directors may proceed to allotment at any time, when the five shares subscribed for by the original incorporators of the company have been paid in full. The amount payable on application for allotment is the full purchase price of each share. The number and amount of shares issued or agreed to be issued as fully paid up, otherwise than in cash, is two million shares of the capital stock of the company of the par value of two million dollars, which have been issued as fully paid up in payment for mining claims Nos. 13707, 13708, 13709, 13710, all the Township of Tisdale, in the Porcupine Mining Division, transferred to the company. The said shares were so issued pursuant to a contract bearing date the 1st day of November, 1910, made between Alice J. Cartwright and the company. The said contract, or a copy thereof, may be inspected at any reasonable time during business hours at the head office of the company. No amount has been paid as commission, but the directors are authorized to pay a commission not greater than twenty-five per centum upon the amount received upon the sale of such shares of stock. The preliminary expenses are estimated to amount to not more than fifteen hundred dollars. No director of the company has any interest in the promotion of the company or the property purchased by the company, except such interest as he may have by holding stock in the company. No amount has been paid to any director by the company to qualify such person as a director, and no amount has been paid or is intended to be paid in cash or otherwise to any promoter. No auditors have been appointed. Dated and filed in the office of the Provincial Secretary of Ontario this 9th day of January, 1911.

## Unenviable Pre-Eminence.

"For a number of years Vienna has enjoyed the unenviable notoriety of having the greatest number of suicides among the European capitals, and the records for 1910 show that this is the largest number yet recorded for any year. "But in addition to these actual cases," a correspondent of the Chicago News writes, "there were no fewer than 891 attempted suicides reported, of which 499 were by men and 392 by women. Then there were doubtless a great many cases which escaped official cognizance. Thus the total number of suicides in Vienna for last year reached the appalling figure of 1488, or almost exactly four a day for the year."—New York Tribune.

## Disinfection of School Rooms.

In the Borough of Poplar, London, the experiment is being made of sprinkling the floors of school rooms with an electrolytic disinfecting fluid before they are swept at night. Sawdust impregnated with the fluid, is distributed over the floor, and more of the fluid, as required, may be sprinkled on the sawdust with ordinary watering pots. After the sweeping, the floors are carefully dried. Excellent results for the health of the pupils and teachers are anticipated.

## Hotels as Hospitals.

"Next to a hospital give me an up-to-date hotel in which to take care of a very sick patient," a trained nurse once said to the New York Sun. "I've nursed in most of the big hotels in New York, and it's really wonderful the supplies that can be brought to a moment's notice. Ice bags, hot water bottles, crutches and wheel chairs are always on tap; there's always someone available to help lift a patient, and

New York Stocks

NEW YORK, March 7.—An upward movement early in the day, which increased prices of some securities as much as a point, was the only change of consequence on the stock exchange to-day.

Industrial stocks, which are supposed to be affected most keenly by tariff decisions, were weakly more than yesterday.

The action of officials of the eastern trunk lines in deciding to cancel their increased freight tariffs was accepted as a favorable development in that it apparently brings to an end the long period of uncertainty which followed the movement for higher freight rates.

Liverpool Cotton Exchanges

Cotton—Spot quiet; prices five points lower. American middling, fair, 7.00; good middling, 7.20; low middling, 6.80; good ordinary, 7.00; and in some instances are quoted lower.

London Cotton Exchanges

Trade reports continue less encouraging. Mills show more disposition to curtail. Cotton goods prices lack animation.

London Wool Exchanges

Wool—Receipts were 25,000 bales, including 11,000 American. Futures opened easier and closed steady.

STORAGE BATTERY CARS MAY NOT MEET NEEDS

Engineers Rust and Aitken Have Many "ifs" to Offer—Would Hasten Slowly.

That the arrangements to be made with the street railway regarding running rights of civic cars will largely determine the advisability of the adoption of the storage battery system, is the opinion expressed by City Engineer Rust and Electrical Engineer Aitken in their report presented to the board of control yesterday.

The report states that the capacity of a given motor car equipment and its suitability depend absolutely on the character of the service and in the first instance it is impossible to make a hard and fast decision as to what is required without a complete knowledge of the operating conditions.

Needn't Buy Cars at All. In the first instance it is not necessary to purchase cars at all, but an overhead trolley system would be necessary to supply power to the operating company's cars.

Wheat Market Continues Weak

And Another Decline is Made

Chicago Traders Anxiously Awaiting Government Crop Report

Bradstreet's Shows Increase in World's Visible Supplies.

CHICAGO, March 7.—Beneficial rains or snow and balmy temperature throughout the winter wheat states fed the bulls to-day. Closing prices 1/2 to 1/4 lower than last night.

Although wheat values were higher early, following an unexpected advance at Liverpool, the market began to weaken further when the fact became apparent that there was no sign either domestic or foreign demand worth mention.

A number of small lots, however, manifested a disposition to unload, pending the issuance of the U. S. Government report on farm reserves.

Receipts at Primary Centres. Receipts of wheat in cars last at primary points, with comparisons, were as follows:

Table with columns: Name, To-day, Tr. Ago. Includes items like Chicago, Winnipeg, Duluth, etc.

European Grain Exchanges.

The Liverpool market closed to-day 1/2 to 1/4 higher than yesterday.

Winnipeg Inspection.

Winnipeg receipts of wheat to-day graded as follows: No. 1 northern, 21; No. 2, 25; No. 3, 10; No. 4, 10; No. 5, 10; No. 6, 10; No. 7, 10; No. 8, 10; No. 9, 10; No. 10, 10.

Per Hundredweight

The railways reported 63 carloads of live stock at the City Market, consisting of 283 cattle, 646 hogs, 710 sheep and lambs, and 44 calves.

There were several loads of good quality—more than usual—on sale to-day.

There was a fairly good trade, owing to light supply, but prices were not any higher, if at all, as on Monday.

Butchers. Choice picked butchers' cattle—and we only heard of four—sold at \$6.50; loads of good, \$5.50 to \$5.75; medium, \$5.20 to \$5.45; common, \$5 to \$5.25; cows, \$4.50 to \$5; bulls, \$4.50 to \$5; canners, \$2.75 to \$3.

Milkers and Springers. The market for milkers and springers was easier, the bulk selling at \$4.00 to \$5.

Veal Calves. Veal calves sold at from \$3.00 to \$3.50, and McDonald & Halligan sold four extra quality calves at \$3.75.

Sheep and Lambs. Lambs were easier at \$7 to \$8.50; sheep, \$6.00 to \$6.50; rams, \$6.50 to \$7.50.

Hogs. Selected, fed and weighed at the market, \$7.05, and \$6.75 to \$7.00; cars at country points, thick fat hogs, over 220 lbs., at \$6 per cwt. less than the above quotations.

Representative Sales. Corbett & Hall sold three carloads of cattle, as follows: Butcher's steers and heifers at \$2.25 to \$5.00; cows, \$4.25 to \$4.50; bulls, \$4.50 to \$5; and bought one load on order.

FELL THRU HATCHWAY

Chief Engineer of Steamer Ionic Met an Untimely End.

SARNIA, March 7.—(Special.)—William King, chief engineer of the steamer Ionic, of the Northern Navigation Co., who has been working fitting out his boat for the coming season, had to cross the steamer Sarnia and Ionic to reach here, when he fell thru the hatchway of the Ionic, all but about two feet square of which was covered up, 18 or 20 feet to the steel floor of the hold.

He was last seen on Monday morning, about 11 o'clock, and when he failed to turn up, searchers found his body about 3 p.m. to-day.

King, who was 50 years of age, leaves a wife and three children.

Death of Rev. George Brown.

As the result of an attack of paralysis sustained three weeks ago, a well-known Methodist minister is removed in the person of Rev. George Brown of 35 Bismarck-avenue.

The deceased was born in Staffordshire, England, near Birmingham, 75 years ago, and as a young man came to this country, entering the Methodist ministry. He was actively connected with the pulpits for 25 years, holding charges in various parts of the province. For the last 15 years he has resided in Toronto. He is survived by his widow, two sons and two daughters.

In the Police Court.

Frederick Crispin persisted in hanging about his wife's home after an order of protection had been granted, and was fined \$10 and costs in the police court yesterday.

David Stein had Henry Bitters, his employe, haled to the court yesterday charged with selling motor chains at a larger price than he turned in. He pleaded not guilty, but as Stein claimed he had been watched and found wanting, he was committed to be tried by jury.

Oil Burned Men's Hands.

A quantity of oil was set fire to in the Howard Furnace Company by a spark from the furnace. W. K. Hughes, who attempted to smother the fire with a coat, and Foreman Holmes, both had their hands burned, and first aid was rendered by the firemen's emergency kit, which is carried on truck 1. They afterwards went home. The loss by fire was about \$20.

Pleaded Not Guilty.

THREE RIVERS, Que., March 7.—Charged with the murder of Maurice Plouffe, to which, according to the detectives, he has already confessed, Hormid Tremblay this morning pleaded not guilty. He was sent back to jail until Saturday morning.

UNION STOCK YARDS.

Receipts of live stock at the Union Yards were 11 carloads, consisting of 121 cattle, 240 sheep and lambs, 1 calf and 1 pig.

Trade was steady at Monday's prices. Swift & Co. bought 20 exporters, 1200 lbs. each, at \$5.35.

H. P. Kennedy bought 35 cattle, 1000 lbs. each, at \$5.35.

Rice & Wilely bought 20 milkers and springers at \$4.00 to \$4.25.

Alexander Leavack bought 30 butchers, 100 to 120 lbs. each, at \$6.00 to \$6.20.

R. Brown bought for D. B. Martin Company 100 lambs at \$6.00; 100 calves at \$4.00 to \$4.25.

Wm. McDonald bought for D. B. Martin Company one load of cows at \$4 to \$4.75 per cwt.

## Mathematics

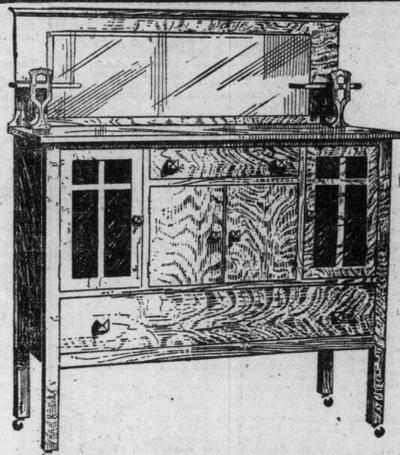

Another month and your furs and winter coat will be safely out of the way of the moth. From now till then what are you going to wear between the occasional storms or cold days? You notice that even now the spring hat and suit venture out for an afternoon's sunning. Have you yours? Most women have forgotten their arithmetic, but here is a problem in mathematics readily solved: "If ten women, each wearing a Simpson's spring suit, each tell ten other women where they got it, how many women will have bought Simpson's suits at the end of the next week?"

Solution—10 x 10 = 100 + original 10 = 1,100 (who knew by experience the best place to buy clothes for 1911 without having to be told) + 100 (strangers who dropped into the store) + 100 (mail orders due to satisfied strangers) total 1,300 easy.

This may sound like one big exaggeration, but how was the colossal business of the Robert Simpson Co. built up? Just that way.

## Book Department

Robert Chambers' new book, "The Adventures of a Modest Man." Usual price \$1.10. Simpson's price 4c. That is allowing you two days and nights to read it. By joining the Simpson Library you may possess this book, or your choice from thousands of others, for the vast sum of 2c per 24 hours.

## Furniture Worth Advertising

Furniture worth advertising, worth reading about, worth seeing, worth buying, worth owning, and worthy of your appreciation, is on sale on our fifth floor. The Electric Fixtures have just taken rooms on that floor, and we have had to rearrange some of our furniture. The result is that prices (those that follow are examples) have been reduced to just that point at which you get more than value for your money.
