Tornado Takes Toll of Death in Middle States

Thousands of Dollars of Damage Done - Illinois Town Wrecked - Big Freighter Blown From Her Moorings at Buffalo - Couple Crushed to Death in Their Bed.

JANESVILLE, Wis., Nov. 11.—At least seven lives were lost and scores of persons injured, some fatally, in a tornado which swept Rock County at dusk to-night. Hundreds of thousands of dollars' damage was done.

To-night dozens of families sought shelter in small structures out of the path of the storm. Others found themselves without a roof and because the flooded roads made travel impossible, were forced to pass the night in the open fields.

Measures for the relief of Orfordville, Hanover, Milton Junction and Milton have been instituted by Janesville and Beloit, but much suffering necessarily must ensue.

A cold wave followed the storm, and sleet and snow added to the misery. At Orfordville Mrs. John Clowder, 80 years old, was killed, as was also a father and two daughters of a family whose name is Smith, and a Mrs. Dreda.

At Milton one person, as yet unidentified, is reported dead. Amy Korban, 8 years old, was killed when her home, just north of Janesville, was demolished.

Footville, Magnolia, Pewaukee, and other villages also are reported to have suffered severely.

Illinois Town Wrecked.

SPRINGFIELD, Ill., Nov. 11.—A tornado swooped down on Virginia, Ill., at 4.30 o'clock this afternoon, dealing destruction. A number of persons were seriously injured, while the town was wrecked.

Many had miraculous escapes, but none was killed. The most seriously injured were Early Whitaker, the little son of William Whitaker, Ed. French and Otto Middleton.

Not a building that lay in the storm's path escaped damage. A hundred dwellings were unroofed, while the business section is a mass of wreckage. To-night the town is in total darkness and rescuing parties are groping their way with lanterns thru the wreckage looking for the injured.

Many persons took refuge in the Methodist Church. The building was crushed and many in it were injured. The buildings reported demolished are: Opera house, city hall, City Hotel, Pollard building, Kramer building, Mann Hotel, Catholic Church and the Methodist Church.

Scores Injured.

SPRINGFIELD, Mo., Nov. 11.—A tornado swept over Springfield late today, wrecking a number of residences and injuring a score of persons. Earl Wescott was fatally hurt.

Crushed to Death in Bed.

OWOSSO, Mich., Nov. 12.—Two dead, several badly injured and damage to falling several hundred thousand dollars at least is the toll collected by the small-sized cyclone which swept Owosso last night. Communication was wrecked and it was not until early today that the news trickled from the wrecked city. The dead are: Mr. and Mrs. Jacob Seligman. Their home was wrecked and they were crushed to death while in bed.

According to partly verified reports at least 20 homes have been wrecked and five factories each sustained damage amounting to \$25,000.

BUFFALO, Nov. 12.—The first blast of winter struck here today, ushered in by a 65-mile an hour gale and a drop of 40 degrees in temperature. The storm trail was marked by shattered plate glass windows, a stranded lake freighter and a demoralized street car service. No fatalities occurred in the city, but at Kennedy, Alonzo Dewey and his wife, an old couple, blinded by the storm, drove in front of an Erie passenger train and were killed.

About 12 o'clock the wind tore down the transmission cables of the Niagara Falls Power Co. The lines on both sides of the river were prostrated, thus cutting off all source of power for street cars here, except emergency storage batteries, which were exhausted in 20 minutes. Between 12.30 and 3 o'clock traffic was at a standstill. The tie-up came when traveling was difficult, if not dangerous, and the majority of the passengers clung to the shelters of the cars until traffic was resumed.

The 550-foot freighter J. Q. Riddle of Cleveland was torn from her moorings back of the breakwater and swept toward the beach at the foot of Michigan-street. When the lines parted a watchman on board opened her water-gates and the boat settled on a sandy bottom 150 feet from the shore. She is broadside to the wind, but so low in the water that her position is not considered dangerous.

Fishermen Missing.

CHICAGO, Nov. 12.—Seven men are reported missing as a result of last night's storm on Lake Michigan. They left Chicago Saturday morning for a fishing trip in a gasoline launch and are believed to have lost their lives. The launch was last reported passing the life saving station at Evanston, Ill., at 10 a.m. Saturday.

GENTLEMEN FARMERS BUY NEAR PICKERING

Lord Somers, Sir Henry Pollatt and Other Wealthy Men Will Establish Extensive Estates.

Pickering is to become the postoffice address of quite a group of gentlemen farmers, according to the developments that have quietly taken place there in the last three months. The district around this town has been practically all taken up by wealthy people, who will establish large estates and make of them high-class farms.

Lord Somers, who has been in Toronto for about a month now, has purchased considerable acreage on the north side of the Kingston-road, in Pickering Township, halfway between Pickering and Dunbarton. Associated with him is a relative, Mr. Somers Cocks, and these two gentlemen will build an imposing mansion on their property in the spring. They will then be joined by their families, and will make Pickering, Canada, their permanent residence.

The extent to which Lord Somers, who is a wealthy landowner in England, has purchased property around Pickering is not known for certain, as the residents of the district are rather in the dark as to what has been and is transpiring around them, but his holdings already run into the hundreds of acres.

Sir Henry to Farm.

A near neighbor of Lord Somers will be Sir Henry Pollatt. Sir Henry has bought 500 acres on the Kingston-road, just east of Pickering Village, and will thereon establish his country residence. He will convert his purchase into a most up-to-date farm, and will use all the newest agricultural inventions known to till the soil for him.

R. J. Fleming has also just lately purchased a big estate nearby. Altogether he has got 400 acres. He, like Sir Henry, his near neighbor, who is an ideal farmer, altho Mr. Fleming's rural predilections will most likely run to Jersey cows.

Then another electric railway man, W. H. Moore, has 240 acres nearby, his property being on the lakefront adjoining Rosebank to the east. His property is possibly the most valuable of all the recent purchases, in that it is on the shore.

Old College Grounds.

Then E. L. Ruddy of Connor-Ruddy has a couple of hundred acres near Pickering. His farm includes the site of the old Pickering College, which was burned down some years ago.

Noel Marshall is another Toronto business man who will become a summer farmer. He will work 200 acres of his own land near Pickering.

And by the way, D. C. Hossack has also agricultural aspirations. He has got a place of 150 acres near Pickering. Several other Toronto men have purchased property in this district and will become gentlemen farmers.

The realty agents, who have put thru these deals, are said to be the Scarborough Securities Co. and as they are known to have extensive holdings around Pickering, considerable credence is given to the statement. Most of the purchases were made at farm values, around \$80 and \$100 an acre. These prices have naturally gone up considerably with the activity that has been general the last two months.

There is very little property for miles around Toronto that has not changed hands lately. Pickering, which is the same distance from Toronto as is Oakville, is enjoying the same land activity as did property in the vicinity of the latter town three years ago.

Undoubtedly the expectation that the Toronto and Eastern Electric road to Bowmanville would soon be started has led to much of the purchases to the east of the city and along the shore. The right of way for this line has not yet been bought, but the survey runs just north of the Kingston-road.

BEATEN AND ROBBED

But Where is the Good Samaritan?

MEDIUM TOLD WHERE BODY WOULD BE FOUND

Strange Story Told by Mother Results in Discovery of Her Daughter's Remains.

MONTREAL, Nov. 12.—The body of 18-year-old Marie Louise Marion, who disappeared from her home on Sanguelet-street three weeks ago, was found yesterday in 42 feet of water in a quarry in the north end of the city, on the banks of which the girl's clothes had been found.

The quarry was dragged at the time of the girl's disappearance without result, but recently her mother came to police headquarters, begging that another attempt be made as she was sure her girl was there, and did not believe that the clothes were placed there to cover an elopement.

When asked why she was so positive she told a strange story of going to a spiritualistic medium, who threw a young girl into a trance. The young girl was then asked questions, after some of the missing girl's clothes had been placed in her hands, and, talking in her trance, said that she saw the missing girl walking with two men along a road. She then said she saw her body lying in deep water, but the water was not the river, and she described the position of the body of the missing girl. The description tallied with the position in which the body was found and the mother states that until she lost her daughter she was in no way acquainted with the spiritualistic medium.

GRAIN DEALERS PESSIMISTIC

Only 70 Per Cent of Grain Threshed - Little Fall Plowing Done.

WINNIPEG, Nov. 12.—Further details of the Northwest Grain Dealers' Association report on the crop situation tend to make the outlook not only for this year, but also for next year, anything but bright. The report says that only 70 per cent of the grain has yet been threshed, and about 57,000,000 bushels (estimated) remain in the stack with no immediate prospect of seeing a separator. The setting-in of a thaw would almost ruin it, or at least reduce it several grades. The report is not hopeful of the grain threshed, saying that 80 per cent of it is four or under. Of the 50,000,000 bushels remaining in the stack, half will be needed for seed and feed.

The prospect is darkened by the announcement that very little fall plowing has been done, owing to the sudden setting-in of winter and that means delay in the spring.

Further comment on the congestion of traffic at Fort William is made. It is attributed to the incoming coal for the west, due to the snarlage caused by the western miners' strike.

OLIVER WILL NOT RETIRE.

WINNIPEG, Nov. 12.—Hon. Frank Oliver, who passed thru the city today on his way to Ottawa, had a short conference with leading Liberals. He issued a denial of the rumor to the effect that he was going to retire from parliament to join the Alberta cabinet. He said some paper had announced his retirement as soon as the Dominion elections were held, but there was no truth in it. He added that the reorganization of the Alberta cabinet hinted at was no more likely than his own retirement.

Repartition of Africa

BRUSSELS, Nov. 12.—Reports have been current for some time past that a grand repartition of Africa was under consideration by interested powers, to which some color has been lent by certain observations by the French premier in the course of a recent speech. These have taken more definite form, and it is reported on good authority that the proposed scheme provides for the withdrawal of Belgium from the Congo, which will be divided between Great Britain, France and Germany.

In compensation, according to the reports, Belgium is to receive the Grand Duchy of Luxembourg and territory along the left bank of the Scheldt, Holland to receive counterbalancing colonial concessions.

These reports will form the subject of an interpellation in parliament, which will reassemble on Tuesday.

TO PREPARE LISTS UNDER FEDERAL SUPERVISION

Next Election Will Not Be Farcical in West, Says Rogers - Hawkes Immigration Commissioner.

MONTREAL, Nov. 12.—Hon. Robert Rogers was in Montreal today on his way home from New York. He announced that there were to be several changes and reforms in the department of the interior. Among them is the appointment of Arthur Hawkes of Toronto as special commissioner for the department of immigration matters.

Mr. Hawkes is to enter upon his new duties at once and will make a tour of inspection, first thru the west and then thru Great Britain.

In speaking of the federal election in the west, the minister declared that the vote as returned did not represent public opinion; that the Conservatives were unrepresented at many polling places; that the deputy returning officers, scrutineers and poll clerks were creatures of the late administration; that there were no proper voters' lists; and that the above named officials voted sections as they saw fit, uncially.

He declared that proper lists would be prepared for the next election under federal supervision, so that the next election would not be a screaming farce.

Asked what he had to say as to the charge that the composition of the present cabinet foreshadowed favor to one railway at the expense of the others, the minister of the interior replied that no such narrow policy would ever find favor with the present administration.

All three transcontinental systems, he said, would receive legitimate assistance and an equal amount of fair play.

"I am only one minister, he added, "but one only has to know the prime minister and the men by his side to realize the truth of what I have just said."

SENATOR LOUGHEED HERE SCANS POLITICAL SKY

Government Will Retain Control of the Intercolonial, He Thinks - Laurier a Stop-Gap.

On his way to Ottawa to take his place in the Borden cabinet, Senator James A. Lougheed of Calgary stopped over for Sunday in Toronto, and is registered at the King Edward Hotel.

When seen last night, the former leader of the Conservative party in the senate was not averse to discussing the situation at Ottawa, but remarked that affairs had scarcely assumed a decisive form in the capital, and that a stillness of the government on many of the problems of state had not been determined.

Asked if Sir Richard Cartwright would still be the leader of the Liberal section of the senate, Mr. Lougheed said he could not say.

"What will depend on Sir Richard Cartwright and the Liberal party," he said.

Sir Wilfrid's Leadership.

"Do you think Sir Wilfrid Laurier's leadership of the opposition will only be temporary?" he was asked.

"I think Sir Wilfrid could not do less than accept the leadership for the present at least," he said. "It would be a means of bridging over the change until the party reach their equilibrium. After that, of course, I don't know what he will do."

The senator knew nothing of what the government's policy would be as regards the Intercolonial, but he was of the opinion that it would still remain a government railway.

'Twas the U. S. Vets.

Regarding the sympathy towards the reciprocity pact, shown in western Canada at the recent elections, he believed that it was because of the large number of United States emigrants in Alberta and British Columbia. The Americans, he said, had not yet become accustomed to Canadian laws and institutions, and the sentiment for their home land played a large part at the polls. They were, however, ideal settlers for the country, as most of them came over with plenty of capital and plenty of experience in agriculture.

"Will Toronto get her much-needed harbor improvements?" he was asked.

Senator Lougheed replied that he was under the impression that Toronto would receive every consideration from the new cabinet.

The senator and Mrs. Lougheed will leave today for Ottawa.

TARPAULIN AS LIFE NET

Heroin of Young Man Saved Three Lives in Montreal Fire.

MONTREAL, Nov. 12.—The heroin of a young man, Joseph Welland, and the ability of two Dominion Transport Company employes to change a tarpaulin into a life saving net were responsible for the saving of three lives when fire broke out yesterday in a boarding house at St. Hubert-st.

The fire started on the second floor when Mrs. Bailey and two children on the third story were too terrified to attempt to escape down the stairs. Welland dashed up thru the smoke and flames and brought the two children down, calling to the mother to follow. She was overcome by terror, however, and Mrs. Bailey then drenched his clothes with water and made another trip up the stairs. He reached the woman's room, but their escape was cut off by water. Going up thru the smoke, he called to two men to stretch their tarpaulin as a net and he and Mrs. Bailey jumped into it. The tarpaulin partially broke their fall. Mrs. Bailey, however, suffered spinal injuries, while Welland dislocated his hip.

THRONE WILLING TO ACCEPT A PENSION

If Safety is Assured, Would Retire to Jehol—Yuan Shi Kai, the Hope of the Government, Coming to Peking to Confer With Regent—Suspects Executed at Nankin.

PEKIN, Nov. 12.—Yuan Shi Kai and the government exchanged telegrams this morning. Yuan has agreed to come to Peking to discuss the situation, but he adheres to his resolve not to accept the premiership. It is expected that he will arrive here to-morrow and an audience with the regent has been arranged.

It is not believed generally that Yuan Shi Kai has yet advised the throne to abdicate, as some reports stated, but he may do so later. Yesterday Yuan sent a message to the government from his home in Changtau. He then proceeded to Chengchow, on the Pehan Railway, where he conferred with a deputation from the Honan assembly, endeavoring to dissuade the delegates in the proposed declaration of the throne's independence, which, he said, would damage the throne's position seriously.

The fact that the man on whom the government depends more than any other is coming to Peking has caused a general feeling of relief and of hope that he will evolve plans to end the present chaos. It is understood that the court will remain in the Forbidden City, realizing that their departure now would be fatal. It is also understood that the throne is willing to accept a pension and retire to Jehol if safety is assured.

Prince Ching, the acting premier, does not desire to remain in office, but he continues to support the regent, who has no other trusted adviser.

A Serious Situation.

The situation at Kaileng, Honan Province is serious. The governor's family left for the north last night on a special train. The governor remains at Kaileng, but does not sleep at the yamen.

Foreign refugees who have arrived here from Taiyuefu, Shanai Province, report that no foreigners have been harmed. The governor and his wife and thirty Manchus, however, have been beheaded. The rebels are maintaining order, and the now arrivals say that their administration is excellent. The whole province of Shanai is supporting the movement.

Mukden and Newchwang are controlled by defence societies, consisting of troops and civilians. The conditions prevailing in these places practically amount to independence.

Wuchang Bombaraded.

HANKOW, Nov. 10.—(Delayed in transmission.)—The imperialists have bombarded Wuchang without noticeable effect. They have practically abandoned Tenkilometer station, owing to the effective shooting of the revolutionaries. Otherwise conditions are pacific here, except for sniping.

Yuan Shi Kai, in writing to Gen. Li Yuen-Heng, the rebel leader, setting forth terms for a settlement, has expressed dissatisfaction with the government at Peking. He urged acceptance.

Continued on Page 7, Column 5.

KNOCKED DOWN, MAY DIE

Blind Man, Found on Jarvis-Street, Has Fractured Skull.

J. Martin, the blind man who was knocked down by a vehicle on Saturday morning, is still in St. Michael's Hospital and in such a low condition that he is expected to die at any hour. Early this morning the house physicians said that it was possible that he would not live more than four or five hours.

He was found lying in a semi-conscious condition at the corner of Duke and Jarvis-streets about 11 o'clock, and before the ambulance reached the scene he had been picked up by L. S. Nesbitt, manager of the Berna Motor and Taxicab Co., and taken to the hospital. On arrival at St. Michael's he lost consciousness altogether and has been gradually sinking ever since.

Where the man lived is unknown, the only means by which he could be identified was a package of receipts in his pocket for board. They were signed by W. Bartlett. No friend has yet made any enquiry.

ARABS RETREATED.

TRIPOLI, Nov. 12.—Thirteen hundred Arabs at 6 o'clock this morning made a demonstration before Mesri and Boumeliani, but they withdrew shortly in the face of a furious rifle and artillery fire from the Italian trenches and warships.

M'NAUGHT, FOY CHOICES IN NORTH

Attorney-General Announces Intentions, and Acclamations Are Expected at Party Convention To-night, Thomas Hook Having Retired - Labor Men in West.

"Yes, I'm going to submit my name to the convention in North Toronto tonight," said Hon. J. J. Foy to The World last night.

But Thomas Hook isn't. He said so himself. "I'm quite prepared to efface myself when a good man like Mr. Foy is brought forward. I'm for party first and Tom Hook second."

Mr. Foy has done a lot for this country, and I don't want to oppose his continuing that good work in any way.

And so it would appear that both Mr. McNaught and Mr. Foy will take the convention to-day by acclamation. Another Conservative nominee who will most likely go thru the convention unopposed, says the wiseacre, is E. W. J. Owens in the south riding.

George H. Goodenham will have a fight on his hands, as J. E. L. Starr says he will put up a strong argument for the nomination in class B in the south.

The Liberal forces in Toronto are not taking a very energetic part in the campaign. In fact apathy seems to be the rule. They may have one candidate in North Toronto, but further than that they will not likely go.

West Toronto Liberals are holding a meeting Friday night to find out where they stand. One of the officers of the association last night frankly admitted that as far as he knew there would be no Liberal candidate in the west.

The Labor party yesterday selected James Watt, the business agent of the tailor's union, as a contestant for one of the West Toronto seats. This makes six labor men in the field in Toronto. William Stevenson and James Richards will represent the Independent Laborites in the north; David Bullock and James Stevenson in the east; W. R. James in South Toronto, and James Watt in the west.

A mass meeting of electors in the Toronto ridings will be held in the assembly hall of the Labor Temple on Thursday, the 30th, to map out the labor campaign.

Why This Animus?

Here has Toronto been having a week devoted to town-planning with the best exponent of the idea brought here to lecture on the subject, and the board of trade and leading citizens asked to assist in the discussion. The keynote of the whole talk has been look ahead. Start your planning early.

For some peculiar reason The Telegram has decided again to oppose the proposition to annex North Toronto, says, put it off indefinitely, leave it until North Toronto has become all filled up on village lines, then take it in and then begin to plan. Oh wise judge!

Let Toronto grow ten miles east and west, but not more than three miles to the north! If you go north, you strike real estate speculators! What do you strike when you go east and west—to the Humber, for instance? Haven't there always been people who made money by the growth of a city in any direction? Who's made the money out of the down town increase in values? Owners surely.

The World trusts that the city council will not be bulldozed any longer by such petty arguments. The World also trusts that there will be many another annexation hereafter. Greater Toronto can only come from annexation.

When we stop annexing, Toronto's limit will be reached. Let Toronto grow ought to be the mind of everyone.

WARD SEVEN'S MAIL SERVICE.

Beginning Monday, Nov. 20, an hourly mail service to Ward Seven will be inaugurated, according to a report. The existing seven mails to Ward Seven per day are entirely inadequate to meet the demands of the rapidly increasing population in this section.

Beautiful Women on the Stage.

In the course of an article headed "Beautiful Women on the Stage," one of the best known of New York writers, E. B. Barrymore, as one whose beauty and charming stage presence are unsurpassed by any of the stage favorites. Miss Barrymore comes to the Princess Thursday night for a short engagement, the advance sale for which opens this morning at the theatre.

Varsity, Argonauts and Hamilton Alerts Are Champions

Note and Comment

Saturday's Rugby football settled the championships in the three unions, and according to the Canadian Union rule, Alerts play Argonauts at Rosedale next Saturday, the winner to tackle Varsity at the stadium a week later.

In big league baseball the team that wins the championship with the highest percentage is the world's title. So, along the same line, Alerts are elected for Canadian honors in Rugby football.

The new Hamilton team, champions of the Ontario Union, have gone thru the season with a clean record, while Varsity and Argonauts have each lost one.

In scoring goals, Alerts also lead by a long margin, according to the table of records. The Argos last week looked like finishing up in a triple tie, but their opponents down to 21 points, which will furnish food for thought among supporters of Varsity.

According to the view of the experts, Argonauts will beat the Alerts here next Saturday, leaving the oarsmen to fall before the students a week later. In the first quarter he seemed to have the edge, but it was the boy, the boy, the boy, who anyone says a breeze was lacking didn't look at the pennants on the geography board, or failed to analyze the score. Of the 42 points, it was given at the north end, while Varsity played at the south in the third quarter. Cornellier sent his players over the top of the field, and scored several times when he was aided by the wind.

The victory gave a splendid display of versatile play, including several variations of kicking the ball, the kicking of the ball, and a cross-kick, but on very few occasions gauged their yards without resorting to the boot.

Ottawa College put up just as good a game as was expected. Cornellier is a phenomenal punter for a field player, but it did not out-foot the Varsity backs. In the first quarter he seemed to have the edge, but it was the boy, the boy, the boy, who anyone says a breeze was lacking didn't look at the pennants on the geography board, or failed to analyze the score. Ottawa College put up just as good a game as was expected. Cornellier is a phenomenal punter for a field player, but it did not out-foot the Varsity backs. In the first quarter he seemed to have the edge, but it was the boy, the boy, the boy, who anyone says a breeze was lacking didn't look at the pennants on the geography board, or failed to analyze the score. Of the 42 points, it was given at the north end, while Varsity played at the south in the third quarter. Cornellier sent his players over the top of the field, and scored several times when he was aided by the wind.

The victory gave a splendid display of versatile play, including several variations of kicking the ball, the kicking of the ball, and a cross-kick, but on very few occasions gauged their yards without resorting to the boot.

Three Rugby Championships Decided After Close, Interesting Struggles

Varsity Pull Out a Sensational Win Over Ottawa College in the Final Quarter and Are Champions Again.

Varsity are once more inter-collegiate champions. In a widely exciting game before a record crowd for the stadium by a score of 29 to 13, they downed the garnet and grey in a game remarkable for brilliant football, in spite of the hampering influence of a gale which, on occasions, one could hold his feet. The most brilliant spot in the game was the kicking of Cornellier, Ottawa's boy centre-half.

How much the most to the team was seen when he was retired in the third quarter, and the Ottawa students then suffered a dose of the regular typhoid blues. Charles, who took up his work at centre, did splendidly, but his running did not compensate for the loss of the other man, whose kicking was a feature through the game. Hoffman did some splendid line plunging, and Nagle and Quilly were also effective, as was Killian, save for brief spasms of nervousness.

For Varsity, Ramsay at centre was the king pin. Maynard did not get away for the usual number of long runs, but was a consistent ground gainer all the way. Green booted beautifully, but high, giving his wings plenty of time to get down under in the field. Campbell was, as always, a star at quarter, and was sorely missed for the five minutes during which he decorated the bench. Sinclair, outside wing, and youmen service at the ends, and Rusty Bell's following and tackling were of the highest order. Varsity's playing showed brains at all times, and they refused to allow yards to an Ottawa back sent the ball back to their own line, when a try was put thru. While at the opening Varsity looked to have it all their own way, it was anybody's game by the time the quarter was over. Cornellier's kicking was of the highest order. Varsity's playing showed brains at all times, and they refused to allow yards to an Ottawa back sent the ball back to their own line, when a try was put thru. While at the opening Varsity looked to have it all their own way, it was anybody's game by the time the quarter was over. Cornellier's kicking was of the highest order.

The first quarter was started with Ottawa College having the wind advantage. Cornellier did splendidly, and while Ramsay and Greene punted for Varsity, when Varsity took the ball for interference Cornellier kicked over and Greene roused the first point, Ottawa College roused somewhat, and Varsity's kicking was of the highest order. Varsity's playing showed brains at all times, and they refused to allow yards to an Ottawa back sent the ball back to their own line, when a try was put thru. While at the opening Varsity looked to have it all their own way, it was anybody's game by the time the quarter was over. Cornellier's kicking was of the highest order.

Argonauts Win a Clean Cut Victory From Ottawa Rough Riders Before an Immense Crowd.

By defeating Ottawa Rough Riders on Saturday at Lansdowne Park, Ottawa, by a score of 10 to 0, the Argonauts won the Interprovincial Rugby Union championship for 1917 and will now go into the final games for the Canadian championship.

It was exactly ten years ago that Ottawa won the Canadian championship for the Ontario championship of 1907. The game on Saturday was a great struggle and was one of the largest Rugby crowds Ottawa has seen in a long time, it being estimated that four of the five thousand who witnessed the game were Argonauts.

Both teams were keyed up to the highest pitch, as both felt that a win meant everything to them. For Argonauts a win would decide the championship for Ottawa to win would tie up the league, which meant a play-off and another chance.

The clubs were at their full strength, the Argonauts were in rather a shaky condition, due to injured knees and ankles, but in each case the players who were injured returned fairly well. The game was a straight football battle all the way thru, and the Argonauts beat Ottawa by a score of 10 to 0.

The victory of Varsity, Argonauts and Alerts on Saturday have settled the Rugby situation, and these teams will play the semi-final game on Saturday next.

The first game was played at the stadium, and the second at the stadium. The third game was played at the stadium, and the fourth at the stadium.

The victory of Varsity, Argonauts and Alerts on Saturday have settled the Rugby situation, and these teams will play the semi-final game on Saturday next.

The victory of Varsity, Argonauts and Alerts on Saturday have settled the Rugby situation, and these teams will play the semi-final game on Saturday next.

The first game was played at the stadium, and the second at the stadium. The third game was played at the stadium, and the fourth at the stadium.

Alerts of Hamilton Win Close Game From T.A.A.C. and Are O.R.F.U. Champions of This Year.

After a hard struggle in a game which was not decided till the last few minutes of play, Alerts defeated T.A.A.C. at the Cricket Grounds, Hamilton, by the O.R.F.U. championship by 18 to 11.

Conditions were anything but favorable to good football. The field was slippery and in some places ankle-deep with mud. The sky was dark, but clearest conditions before the game started. The first quarter was played in semi-darkness, which, by the way, is evidently a good thing to have, for, like most of the football games, it was not until the third quarter that the game became a contest between the two teams.

The victory of Varsity, Argonauts and Alerts on Saturday have settled the Rugby situation, and these teams will play the semi-final game on Saturday next.

The first game was played at the stadium, and the second at the stadium. The third game was played at the stadium, and the fourth at the stadium.

EATON'S

Extra Good Value in Shotguns, \$5.50

A November morning in the woods, or on the margin of an ice-crusted stream or lake, can be thoroughly enjoyed if you have a good shotgun along. We have decided to clear out the balance of a good reliable double-barreled shotgun at \$5.50. Get in line Tuesday morning; a guaranteed 12 gauge, choke bored, 30 inch twist finished barrels with matted extension rib, top lever action, gas check in firing pins, low rebounding hammers; checked snap forearms; pistol grip stock; and steel butt plate. A shotgun worth twice the price. Tuesday, to clear \$5.50.

THE T. EATON CO. LIMITED

Ed. Wettlaufer Elected President of the O.H.A. Tecumseh Hockey Club Admitted to The National H.A.

Nominations for office in the O.H.A. closed on Saturday night and as a result H. E. Wettlaufer of Berlin is elected president of the biggest hockey association in the world by acclamation for the season of 1917-18.

The Tecumseh Hockey Club is now part of the National Hockey Association and the interim association no longer figures in the professional hockey. This was the most important piece of business transacted at the annual meeting of the N.H.A. yesterday.

A change was brought about with respect to the Tecumseh Hockey Club. The shareholders of the Tecumseh Hockey Club are situated in the most important piece of business transacted at the annual meeting of the N.H.A. yesterday.

COME ON, M... IT'S NEARLY... PRESS TIME... WE'VE GOT TO... DO SOMETHING FUNNY...

Myland for Western... MONTREAL, Nov. 12.—The Tecumseh Hockey Club is now part of the National Hockey Association...

The following are the results of the first round of the playoffs... W. A. Hewitt, Dally Brien, Toronto.

Drastic measures were taken with regard to players who have jumped their contracts. It was moved that such players be barred from playing in the N.H.A. for a year...

Another piece of legislation was the appointment of an executive committee to deal with appeals from the president or directors between clubs. This season's contracts are set on a sliding scale...

The Liberal provincial campaign will be opened by a mass meeting in Massey Hall to-morrow evening by the new leader, N. W. Rowell.

ANNEX NORTH TORONTO.

To-day is the greatest importance to North Toronto and to the city in presenting to the city council an opportunity to settle the miserable tangle that has arisen thru the action of Chairman Letch of the railway board Annexation may not entirely cure the situation, but at least it will prevent it becoming any worse.

THE AUTOCRAT OF THE RAILWAY BOARD.

Chairman Letch is a godsend to Mr. N. W. Rowell. There was not the vestige of an issue in sight between the parties until now that Premier Whitney's gold brick has created one that should stir up every municipality in the country. The municipal and railway board was constituted by Premier Whitney to alleviate friction between corporations and municipalities and to see that equity was maintained for the people against lawyers appearing with legal technicalities for the corporations.

FLAT RATES FOR POWER.

People who talk about a flat rate for electricity under the hydro-electric system and who declare that it comes under the same principle as the postage or letters, simply do not understand the question. Niagara Falls is not the only place where electricity can be produced, nor is water power the only means by which it can be generated. If it were possible to monopolize all the water powers in Ontario, and all the methods, steam, gas, etc., by which electricity can be generated, then the government having the monopoly might impose a uniform rate for power in every part of the country. The bare statement of the case is sufficient to prove the absurdity of the idea of a flat rate.

MUNICIPAL PETRIFFICATIONS.

There is no doubt at all that administrative government is breaking down in Toronto. All the muds we have before us at present are due to the dilapidating and procrastination of aldermen subservient to newspaper opinion or with one eye on an approaching election. There are always a number of progressive men in the council, but they are hampered or blocked at every step by the municipal petriifications—use Balfour's phrase—whose only aim in life is obstruction. Never do today what can be put off till tomorrow, is their motto.

FIAT ACTIONS.

Speaking of the plank in Mr. Rowell's platform demanding the right to bring suit against the government without the present preliminary of obtaining permission thru the issue of a fiat, The Hamilton Herald says: "There are times when it is not only expedient but necessary in the public interest to prevent such actions. For example, if the Whitney government had not refused to sanction actions against the hydro-electric commission, the hydro-electric power transmission system would not now be computed, and the project would have been hurried indefinitely. The private electrical interests which were organized to do battle against the people's power movement would, thru men of straw, have brought action after action against the commission, and carried each of them to the imperial privy council if necessary; would have obtained injunction after injunction to restrain the commission and its agents from proceeding with particular portions of the work. The project would have been exposed to a well-conceived system of harassment and obstruction, with some of the cleverest lawyers in the country directing the war in the presence of Emperor William and his powerful auxiliaries on the bench. There would have been no lack of the slings of war; the campaign of obstruction would have been carried on regardless of expense. The refusal of the attorney-general to grant fiat proceedings against the commission prevented all this, and in preventing it, saved the public from endless expense and ensured the completion of a great and beneficial public work."

GERMAN BATTLESHIP LAUNCHED.

KIEL, Germany, Nov. 11.—The new battleship which replaced the old Hagen, was launched to-day in the presence of Emperor William and Empress Augusta Victoria and christened "Kaiserin" by Princess Victoria Louise.

Queen's Students Parade.

KINGSTON, Nov. 12.—(Special.)—Queen's students held their annual parade Saturday night and made things lively on the city street. The parade was characterized as the best ever held in the history of the college. Several fine floats were in line and the parade was a real treat to the Kingstons turned out en masse to see the parade. Another fine float was in the line during the night and navigation is tied up for the second time in a week.

MANITOBA BAR ASSOCIATION.

WINNIPEG, Nov. 11.—The Manitoba Bar Association was formed in Winnipeg last night with J. A. M. Aikins, A.P., as president.

NEWTON W. ROWELL WILL CONTEST NORTH OXFORD

Leader of Opposition Chosen at Liberal Convention at Woodstock on Saturday.

WOODSTOCK, Nov. 11.—(Special.)—N. W. Rowell, K.C., will be the candidate for North Oxford in the coming provincial election. He was largely attended convention of Liberals of this riding, held here this afternoon, he was selected to represent them, and the leader of the opposition was immediately called to the platform, and promised that he would do so to the best of his ability. The nervous anxiety and the peculiar temper of the present hour, the attempt being made against the wishes of many of the rank and file to bring Mr. Rowell to the platform, who, it was quite apparent at the opening of the meeting, when the chairman, Dr. Hopson of Inneskip, asked that the representatives of all the conservative papers leave the hall. The invitation to leave was broad enough so as to include any in the audience who did not believe in the present government. To many Liberals present, this peculiar proceeding was not popular, and one Liberal characterized it as "cowardly in the extreme."

A KING'S HIGHWAY.

Two great national highways are under construction in the United States. One of these is from Montreal to Florida. Funds for the section from Montreal to New York have been secured. From New York to Baltimore only twelve miles remain to be built. Most of the rest of the way to Miami is under construction, or assured. The "Lincoln Memorial" highway is the other road, from Washington to Gettysburg or Richmond. A sum of \$2,000,000 has been provided to build it. All great nations have been great road makers. Modern men of peace should build greater roads than ancient men of war. Canada has much to do in this way. A Halifax to Vancouver road, with necessary branches, would be a monumental source of civilization and development for the Dominion.

WILL NEITHER CONFIRM NOR DENY MERGER RUMOR.

Likely, However, That R. & O. and Niagara Navigation Companies Will Be Merged in Future.

It does not seem as if the Richell & Ontario Navigation Company is going to absorb the Niagara Navigation Company for some time yet. Rumors to that effect have been current for some time, and the latest one cropped up on Saturday. However, no one is willing to say that the deal has yet been put through.

A COMFORTABLE ROAD.

Traveler in West Gives Unsolicited Praise to New Railway.

ASTRONOMY ASSURES US THAT, ASIDE FROM THE PLANETS WHICH BELONG TO OUR OWN SYSTEM, ALL THE OTHER STARS ARE INVISIBLE TO US.

The speaker declared that God's love will be most wonderfully displayed in the resurrection of the church in glory, honor and immortality. Then will come a further display of "Love divine, all love excellent," in the general raising of the dead to be blessed under the Messianic kingdom.

DR. CHASE'S KIDNEY-LIVER PILLS

You cannot make a greater mistake than to think that indigestion is confined to the stomach. It is a disease of the liver and bowels, and it is only by getting these organs healthy and active that you can ever hope to cure chronic indigestion.

BRITISH STEAMER ABLAZE.

CAPE TOWN, Nov. 11.—Fire was discovered to-day on the British steamer Melville, in port here from Montreal, resulting in slight damage to the cargo.

Pastor Russell's Sermon

LONDON, Nov. 12.—"The Greatest Thing in the Universe," was Pastor Russell's theme in the London Tabernacle this evening. He had as usual a crowded house of most attentive listeners. His text was, "That in the ages to come He might show the exceeding riches of His grace in His loving kindness towards us in Christ Jesus."

CHINESE REVOLUTION WILL NO EVANGELISTS

Clean, New Government Will Make Missionaries' Work Easier, Says Rev. Donald MacGillivray.

Rev. Dr. Donald MacGillivray of Shanghai, China, a Presbyterian missionary home on furlough, declared at the annual meeting of the Toronto Presbyterian laymen's missionary moment in St. John's Church, Broadview-avenue, on Saturday night, that the Chinese revolution would probably be an improvement on the present corrupt regime in that country, and that the missionaries would fare better in the future.

FOSTER WILL BE BORDEN'S DESK MATE IN COMMONS

Seating of Members in the New House - White and Monk Will Sit Together.

OTTAWA, Nov. 12.—(Special)—The seating plan for the house of commons which was finally arranged by the chief whips on Saturday, gives a clear idea of the transformation which will be noticed in the house of commons when it meets on Wednesday.

David Henderson and Hon. John Huggart have front seats, as also have Haughton Lennox and W. F. Maclean, F. Marshall and F. Lator are desk mates in the front row.

In the second row of the cabinet ministers Hon. C. J. Doherty is seated back of Mr. Egan, Hon. J. D. Rold as his desk mate. Hon. Martin Burrell and Hon. T. W. Crothers are desk mates, while Hon. J. D. Huggart and Col. Sam Hughes are placed together in the third row are Hon. A. E. Kemp and Hon. G. H. Perley, and Hon. Dr. Roche and Hon. E. N. ...

Sir Wilfrid Laurier, as was predicted, has no desk mate, evidently leaving room for either Hon. Geo. Graham or Hon. W. S. Fielding to enter later. On the ex-premier's left is Hon. W. Pugsley, who has as his desk mate Hon. R. Lemieux. Other front seat Liberals are Hon. Chas. Marcell, Hon. E. Emmerson, Hon. Chas. Murphy, Hon. F. E. Foster, Hon. Frank Oliver, Hon. Dr. Belandier, Jacques Bureau, E. M. MacDonald and W. A. Chertoff. Back of Sir Wilfrid Laurier is his chief of staff, F. E. Foster, and Hugh Guthrie, who is his desk mate. F. B. Carvell and Hon. A. MacLean are given prominent adjacent seats, and Clark of South Essex.

FALL FROM SCAFFOLD FATAL William Prosser, Cement Worker, Sustained Fractured Skull. William Prosser, Cowan-avenue, who fell 20 feet from a scaffold, fracturing his skull, at Reimhardt's Brewery, in Markham, died in the St. George's Hospital at the morgue to-night at 8.30.

Political Intelligence N. W. Rowell, K.C., will speak at Guelph in the Opera House next Friday evening. The following Monday he will start in on his speaking tour of the province. His ports of call have not yet been arranged.

Lincoln Liberals. ST. CATHARINES, Nov. 12.—(Special)—Lincoln Liberals will, on Saturday, decide a question, which has been before the county since the announcement of the provincial contest, namely, whether or not Dr. Jessop will have opposition for the seat in the legislature. The county executive held a caucus here yesterday, but beyond deciding to call a convention nothing was done. The members refused to say what was discussed, but it is understood that the majority favor leaving the matter go by default. It has been deemed wise, however, to let the people decide, so the convention will be held.

INDUSTRIAL HEIGHTS

PLAN showing subdivision of NE 1/4 Sec. 14, TR 53, R. 24, W. 4

H.R. Keith P.L.S. Alberta

The Plan of Industrial Heights. This Sub-division is just to the north and above the City Park Annex.

INVEST NOW IN INDUSTRIAL HEIGHTS

IN THE CITY OF EDMONTON

THE HEART OF OPPORTUNITY

WHEAT, COAL and TIMBER

Edmonton is surrounded by many natural resources; each one would make a city great. Edmonton is the portal of Peace River. Edmonton is fast becoming the industrial city of the west, and "Industrial Heights" is on the line of industry's march.

CITY LOTS \$200 to \$350

THE progress of Edmonton has been so consistently phenomenal that it has almost ceased to create wonder in the mind of any person familiar with Western Canada...

FOR years Edmonton was without direct railway connections. Only to-day are the railways coming in.

AND yet, without that direct railway communication—which is the prosperity basis of many places—Edmonton has grown to a city of 31,000 people, adding 20,000 in five years.

THE great Peace River Valley, the last great west, is now opening up. Several charters have been granted to construct railways from Edmonton into Peace River...

IT is not farming alone that has made Edmonton great. It is a city whose richness in natural resources will make it one of the most renowned in the world.

AND while the development of these natural resources is causing the city to throb with hot, surging enterprise and energy, the industrial side of Edmonton is just stretching itself into life.

INDUSTRIAL HEIGHTS—it is shown on the plan herewith—is within the city limits of Edmonton, and adjoins its industrial section, North Edmonton.

pay-roll of over \$1000 a day. The P. Burns Company are starting to build a million-dollar plant. Other big concerns are preparing to build—the industrial growth is all toward Industrial Heights.

INDUSTRIAL HEIGHTS is next in line for advancement. It has everything in its favor. Even now several manufacturers are negotiating for factory sites along the railroad in Industrial Heights.

THE street cars, now run within half a mile of Industrial Heights; the tracks will be extended to this sub-division in the very near future.

Negotiations are now on with the G.T.P. for a new station in Industrial Heights. At present all G.T.P. trains entering the city stop on the property.

The sub-division is within the new city limits of Edmonton, and the trend of improvement and industry is toward it. Vacant lots in Industrial Heights are selling now at \$500 to \$1000. Read the prices at which we offer our lots. They are marked away below their value, compared with other lots in Edmonton. We must sell them now.

NOTE—All trackage property on each side of the G.T.P. is reserved for manufacturers.

All lots facing on street leading to the proposed G.T.P. Station with held from present sale for higher prices.

Blocks 2, 3, 8, 9, 10, 15, 24 are being sold in Edmonton.

Blocks 5, 12, 16 are being sold in Saskatchewan.

Blocks 6, 7, 25, 31, east half of 30 and lots 11 to 22 inclusive in Blocks 37 and 38, are being sold in Winnipeg.

THE TERMS. One-third cash, balance 9 and 12 months, at 6 per cent.

Special Terms—Monthly payments—15 per cent, cash; balance in 12 monthly payments, with interest at 6 per cent.

BUY IN INDUSTRIAL HEIGHTS NOW—NOW IS THE TIME.

SPECIAL TO MANUFACTURERS

Eighty good trackage lots on each side G.T.P. trackage, excellent location for warehouses or manufacturing concerns—each delivered from the mill, about two miles east of property, to the property at \$200 per lot, 10c less than to the heart of the city.

H. P. KENNEDY, TORONTO—708 Wellington Avenue, phone Adelaide 560, or Peterboro.

Definite Signs and Improved Sentiment in Mining Market

Commercial Reports

Wheat Market Turns Weak Again

Week-End News Mainly Bearish

Chicago Exchange in Feverish Conditions Slumps Heavily Under Renewed Selling Pressure—Corn and Oats Lower.

CHICAGO, Nov. 11.—Wheat snapped back more than 2c to-day after a sudden upturn of a cent. Shorts in a stupor over sensational damage said to have been caused by the blizzard in northwest, forced the bulls until a deluge of profit taking sales on spreads between Minneapolis and Chicago sent prices down with a crash. The close was comparatively steady, but at a loss of 3/4c to 1c on the whole. Americans that are hoarding bushels of wheat on the Canadian prairies had been frozen and hurried by the blizzard were at first received with incredulity, but when apparently backed up by the action of northwestern markets, put short sellers here into such a flurry that everything else for the moment was forgotten. Later Minneapolis dispatches told of certain Chicago houses being heavy sellers up north. About the same time it developed that one of the principal holders of cash wheat had been unloading heavily thru the medium of December contracts. The swing of the pendulum. All the advance and much more in addition quickly melted away and for a time dealers who had favored the bull side showed evidence of being demoralized as had been the case earlier with opponents. Subsequently a feeling sprang up that the reaction had been excessive and as a result the last fifteen minutes of trading was relatively free from the erratic movements that had bewildered the traders during the rest of the session. Between the opening and the close, December fluctuated from 83 1/2c to 93 1/4c, closing at 82 3/4c, a fall cent under night. In contrast with wheat, the market for corn was a dull affair, governed almost wholly by the course of the more expensive cereal. As if by common consent, the big traders kept out of sight. December ranged from 62 1/2c to 63 1/4c, and closed steady, but 1/4c to 3/4c down at 57 1/2c. Oats Active. Active selling by both longs and shorts destroyed strength that had shown itself early in oats, because of small offerings from the country. The late drive at prices appeared to be a natural result of the weakness of oat grain. High and low levels touched by December 47 1/2c to 47 1/4c and 47 1/4c to 47 1/2c, a loss of 1/4c from last night. There was no demand for packing house products until prices made a substantial drop. In the contrary, the shorts advanced brought in many selling orders and broke the market. To-night the blackboards showed provisions lower by 10c and 20c all round.

Northwest Receipts. Receipts of wheat in cars at primary centres were as follows: Week ending Today. Chicago 29,000,000; Duluth 29,250,000; Minneapolis 27,500,000; Winnipeg 782,000,000. European Markets. The Liverpool market closed today 1/4d lower than yesterday on wheat and 1/2d to 3/4d lower on corn. Barley 1/4d lower, wheat 1 1/2d lower, and Budapest 1/2d lower.

THE PORCUPINE SITUATION

Porcupines Develop Strength In the Week-end Half-session

All-round Improved Tone Shown in Mining Markets—McKinley-Darragh Still Shows its Heels.

World Office, Saturday Evening, Nov. 11.

A sharp turn for the better occurred in the mining markets in the week-end session, an all-round improved tone characterizing the Porcupine issues to-day, with advances of greater or less extent shown thru-out the list.

Trading was only fairly active, tho for a short session it was quite up to the usual standard. It was apparent also that the restricted transactions were due largely to a falling-off of the liquidation, which marked the exchange earlier in the week, the markets being pretty well swept clear of offerings to-day except at enhanced prices.

There was undoubtedly a short covering movement under way in some of the issues which were under pressure from bearishly inclined traders of late, and buying for these interests probably had more than a little to do with indicating the upward trend. The public demand also showed some improvement, outside buying orders being more in evidence than for some days.

Hollinger Up Fifteen Points. A fifteen point advance in Hollinger was the leading indication of strength in the big issues. At no time did the shares get down to yesterday's levels, and while but little trading was evolved in the stock, the undertone was one of confidence and optimism. The range for the day was \$10.10 to \$10.15, and at the close bids of \$10.17 were put in without attracting any offerings.

Rea was up again to the three dollar mark, and closed bid for at \$3.97. Extension, Freeport, Dome, Pearl Lake and Vipond, among others, are such as to warrant higher price levels. The Dome mill is in course of erection and will be the first in operation in the camp. Ore from the Dome Extension will be stamped at this mill, and this property has been one of the first actual producers. Development is being pushed and the property is one of the most active in the district. Pearl Lake is reporting excellent results from its drilling, while the shaft is now down 50 feet, with continued good results. The Vipond mill will be in operation in January; underground conditions are being bettered every day. With the new mill in operation Vipond should show very heavy earnings.

McKinley-Darragh Still Going Up. In the cheaper issues, the feature of the day was Vipond, which regained its former figure of 49 cents a share, and closed bid for at that price. The Vipond will be one of the best properties in Porcupine to have a mill going, and already the market is setting out to discount the inception of operations.

Dome Extension did not score any advance, the shares doing nothing more than holding firm around yesterday's level, moving between 72 and 73 during the day. The buying was of a responsible nature, but some belated clearing was done by the market, and in check. Freeport, Swastika and Preston all showed firmness, but did not undergo any material change.

The feature of the Cobalts was McKinley-Darragh, which scored a further advance at \$1.90, a new high for the movement. The property has been showing up steadily since the late shipments from the mine being only exceeded in tonnage by those from the Rose and Cobalt. Increased dividends are being talked of for McKinley.

The market throughout was in a firmer mood, and a better showing than for some days. Favorable comment was general regarding the probable course of prices next week.

SWASTIKA

According to market action during the past few days, Swastika is one of the gold mines the investing public have limited knowledge of, and at this time we wish to point out the excellent speculative possibilities, as well as the practically safe investment features, contained in this security.

First and foremost, Swastika is a proven gold mine, with sufficient ore blocked out above the 200-foot level to warrant the installation of a big stamp mill, and, once in operation, to continue the production of gold bullion for many years. It should be borne in mind the Swastika Mine is developed to a greater extent than probably any mine in Porcupine, with the exception of Hollinger.

A dispatch was received from the management on Saturday that the new three-compartment shaft is now completed, and two cages running to the 200-foot level. Sinking, we are informed, is continuing rapidly to a depth of 300 feet, at the same time drifting and cross-cutting is being pushed at the various levels above in this shaft. In order to block out an ore reserve of such size as to give the management an intelligent idea what size stamp mill will be required.

We are officially advised the Swastika treasury is sufficiently strong to provide at least a 20-stamp mill, and that the directors will be in possession of the necessary funds to enable them to place the order for a mill of this capacity before January 1st, with a guarantee the stamps will begin to drop by March 1st.

At the 200-foot level the mine management report the vein is 10 feet wide, and average assays to run between \$15 and \$20 to the ton. With two cages running to this depth, having a raising capacity of 3,000 tons daily, it can be readily understood that the Swastika Mine is in a much better condition, physically, than most of the Porcupine issues selling at much higher prices than this particular stock.

Another important fact to investors is—the Swastika Mine is already equipped with a complete surface plant, including a large compressor, which has been in constant operation under steam power since Sept. 25. The development results since that time have been of such a rosy nature, the management are free to admit that, after four years of conscientious and conservative mining, they now believe they have a mine that will produce a greater quantity of gold bullion than any of the Porcupine properties, outside of Hollinger and Dome Mines.

During the past few days Swastika stock has been the medium of a severe "bear" raid, which we firmly believe is unwarranted when mine values are considered. The ore at Swastika is of a free milling character, and we are advised that above the 100-foot level in the main workings the estimated values already in sight would more than equal present market valuation of the entire property, consisting of 125 acres. With the main vein holding its values for an additional 100 feet, the demonstrated worth behind this stock is clearly outlined.

The time is not far distant, we believe, when market values will equal actual mine values, and when such a movement begins, the advance in Swastika stock will likely be as pronounced as in any of the proven gold mines of Northern Ontario.

Considering the splendid mine management, a directorate made up of upright and successful business men, a conservative capitalization, strong treasury resources, the immensity of high-grade ore already in sight, and the present low price of this stock, we unhesitatingly advise the immediate purchase of Swastika.

A sharp rise is predicted by reliably informed mining men, who have recently examined the lower levels in this mine. Place your orders while market prices drag to bottom, if you desire to enjoy a substantial profit, which is practically assured within a comparatively short time.

We will be pleased to execute your orders in this stock, either for cash or on a marginal basis of 33-1/3 per cent, and would suggest sending all orders by wire of our expense.

New York Market Runs Into Profit-Taking at Week-End

IN THE STOCK MARKET

Financial London on the Outlook—Current Comment on the Wall Street Situation.

The following summary of financial conditions is cabled by the Special Representative of The New York Evening Post.

LONDON, Nov. 11.—Wall-street's anticipation of summer's success in London's perplexity over American financial conditions. The rise of this week is distressed here, in the sense that you people feel that it must be due mainly to Wall-street manipulation rather than to public support.

The court's decision on the Toledo question plan is regarded as entirely sensible, and as apparently designed to counteract the disquieting effect of the suit against the steel trust. Nevertheless, it is considered that the initiation of prosecutions so closely intermingled with politics makes it impossible to tell what sort of development will come next.

Those taking deeper views of your conditions still believe, whether right or not, that the high level of wages and the increased demands of the laboring classes constitute the real prospect of a 5 per cent. Bank of England rate here is now remote. Moreover, the Morocco treaty has admittedly improved the political outlook.

High financial circles take not as alarming, but a cautious view of European politics. The financial difficulties in Egypt, for instance, will probably involve further tariff reform. The great social unrest here is partly the explanation for the constant small runs in minor securities banks.

It is generally believed that the British government's proposed leadership is approved by the city, save on the tariff reform question. That the greatest fear here is lest the power of extremists should prevail. The present orgy of speculation is regarded as a reaction to the financial difficulties.

Conservative administration proceeded to a series of reforms. It is similarly feared that the excessive radicalism of the Lloyd-George school will provoke reprisals of a dangerous character. In the financial circles it is felt that normal politics will be possible until a strong, effective, and impartial second chamber is provided for.

WALL-STREET TRADING.

NEW YORK, Nov. 11.—The rapid advance in stock prices, which has been maintained since last August, has been checked by a heavy closing. The market advanced in spite of the flood of profit-taking sales, exhibiting a degree of strength which surprised traders who looked for an extensive reaction. Reading rose 1 1/2 to 2 1/2, its highest price since August. However, and after a series of irregular movements sold off toward the close. A number of the active issues, including U. S. Steel, Union Pacific, Amalgamated Copper and Northern Pacific, lost a point or so on the day.

Underlying strength. It was the opinion of market observers that the list witnessed the selling in a way which demonstrated considerable underlying strength. After such an extended advance as has taken place within the last two weeks it was thought that a reaction was to be expected, and in accordance with this view professional operators were quick to take the profits which had accrued on the bull side. The market was steadied by some increased outside buying, as indicated by the breadth of the trading.

International Harvester was especially weak with a loss of 2 1/2 points. Lehigh Valley was again prominent in the trading and touched 130. The placing of railroad loans, which has been on a much more active scale of late, was continued to-day. Sales of bonds for the Atlantic Coast Line and the Texas Central were announced. Atlantic Coast Line was one of the heaviest of the railroad stocks. Omission of the dividend on the Vandalia seemed to be without influence on Pennsylvania, which owns the major portion of the stock.

SAVINGS DEPARTMENT. Interest allowed on deposits at all Branches of the Bank throughout the Dominion of Canada.

TORONTO STOCK MARKET. Table with columns for Nov. 10, Nov. 11, and Nov. 12. Lists various stocks like Am. Alabastros, Black Lake, B. C. Packers, etc.

After a two day's steady advance, in which prices were marked up in strenuous fashion, the New York stock market ran into a natural set-back on Saturday.

Profit-taking was in effect throughout the session, but there was a sustained buying demand, and values were not allowed to suffer to any great extent. The leading issues recorded declines running from a fraction to upwards of a point.

At intervals the list resumed its upward trend, showing plainly that the bulls had by no means withdrawn their hands, but the closing was at another decline. Such action was purely according to precedent after so sharp an advance as has been realized, and, by the same precedent, the profit-taking movement should carry prices somewhat lower.

Whether it will or not, however, remains to be seen.
