### FEDERAL HOUSE PASSES NATIONAL RAILWAY BILL

By Majority of Fifty-Four, Commons Approves Principle of Public Ownership and Places All Government Lines Under One Corporation.

**Special to the Toronto World.**  
 Ottawa, May 6.—The Canadian National Railways is now an accomplished fact. The principle of public ownership was passed in the house of commons today by Sir Thomas White, and loyally supported by the Unionist members of parliament. The bill to place all the government railways under one corporation, the directors of which will be named by the government, was passed by a majority of 54. The acting premier more than intimated that it was only a matter of time till all railways passed under state control, and Mr. F. S. Scott, Unionist member for South Waterloo, advocated the immediate nationalization of the Canadian Pacific Railway Company.

The final vote came after a long debate, in the course of which several amendments were offered by the opposition and voted down. The first amendment was moved by Hon. W. S. Fielding, and provided that all the receipts of the railway company should pass into the consolidated revenue fund and that all expenditures should first be authorized by parliament. He contended that this was the principle of public ownership and that any departure from it would be fraught with danger to the country. He declared that the amendment was not a want of confidence motion, and called for support from the Unionist benches.

**Government Determined.**  
 Sir Thomas White, speaking for the government, stated that the amendment would not be accepted. He said that the government had determined to place the control of the government railways and the affairs of that corporation should be managed in the same way as were the affairs of the Canadian Pacific Railway Company. The directors would all be men of high standing and would administer the railway in the public interest. In reply to an interruption, Sir Thomas stated that the state ownership of railways, it might not be feasible at this time, to nationalize the Canadian Pacific Railway Company, and he had no desire to make any proposal as to the future of that system, but he believed that government ownership of railways would soon prevail in every country of the world. The law of private ownership had made this inevitable.

A. R. MacMaster, Liberal member for Brantford, supported the Fielding amendment, and Mr. C. J. Fox, Liberal member for South Renfrew, Mr. J. A. G. Rees, Liberal member for South Renfrew, and other members of the opposition. Mr. Scott, Liberal member for South Renfrew, opposed the amendment, and declared himself in favor of nationalizing the Canadian Pacific Railway Company. Dr. Clark, Liberal member for First Denison, also opposed the amendment, which was finally voted down: Yes, 59; No, 110.

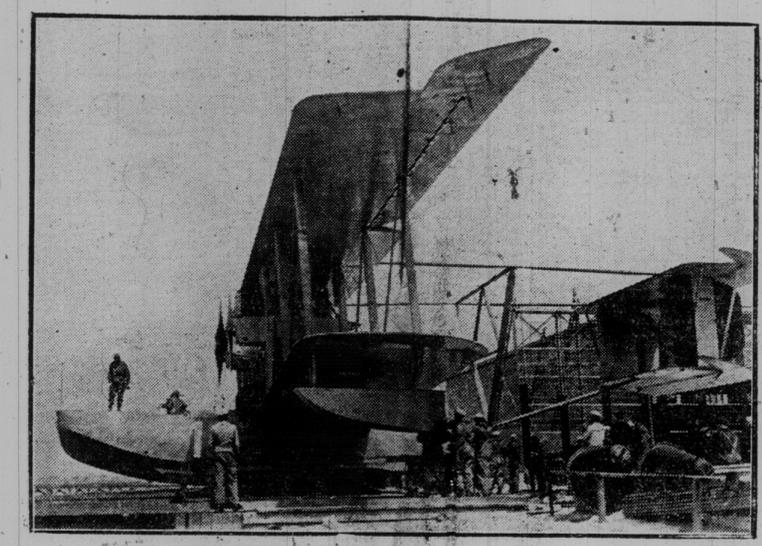

To Change Intercolonial Mr. Corp., Liberal member for West-

### SUSTAIN C. N. R. BILL BY MAJORITY OF 51

Following is the vote cast in the house of commons on the Fielding amendment to the Canadian National Railway bill:

- Ayes:** Ames (Sir Herbert), Anderson, Andrews, Argue, Armstrong (Lambton), Arthur, Balfour, Bannister, Bair, Baker, Bolton, Bowman, Boyce, Boys, Brien, Buchanan, Burnham, Burrell, Butts, Calder, Campbell, Casselman, Chapin, Charters, Charters, Clark (Bruce), Clark (Red Deer), Clarke (Wellington), Clements, Cochrane, Cockshutt, Cooper, Cowan, Crear, Crockett, Crothers, Crowe, Cruise, Davidson, Davis, Douglas (Strathcona), Douglas (Cape Breton South and Richmond), Edwards, E. J. H. Finlay, Foster (York), Fulton, Glass, Green, Greisdach, Guthrie, Halliday, Harold, Harri, Hay, Henderson, Hocken, Hughes (Sir Sam), Johnston, Keefe, Knox, Laker, Lang, Leogie, Long, Mackie (Beauregard), Maclean (Halifax), Maclean (York), McGibbon (Miramichi), McGee, McIsaac, McLeod (Royal), McLeod, Maharg, Manion, Martin, Meighen, Mewburn, Middlebro, Morphy, Mowat, Nicholson, Nisbet, Nicholson (Acoma), Nicks, Paul, Redman, Reid (Greenville), Reid (MacKenzie), Richardson, Rowell, Scott, Sexsmith, Simpson, Steele, Stevens, Stewart (Hamilton), Stewart (Lanark), Sutherland, Thompson (Weyburn), Thompson (Yukon), Thompson (Appelton), Tweed, White (Sir Thomas), Wigmore, Wilson (Wentworth), Wilson (Stukatoon), Wright.
- Noys:** 110.

moreover, then moved an amendment taking the interest in the control of the directors of the Canadian National Railways. He claimed that the maritime provinces would suffer unless the Intercolonial was kept under the direct control of the government. It would mean higher freight rates and less efficient service. The amendment was opposed by Mr. Scott, Liberal member for West-

**AMERICANS TO FLY ATLANTIC.**  
 United States aviators are making a vigorous attempt to be first to fly across the Atlantic. Their machines are now at Rockaway, N. Y., awaiting favorable weather for the first flight to Newfoundland from where they will jump off on the long trip to Europe. The above photo shows one of their naval seaplanes, which they are using instead of land planes, as used by the British aviators.

### CANADIAN DISTILLERS SWAMPED WITH ORDERS

It's an ill-wind that blows no one any good. The shortage of Scotch whiskey in England and even its homeland, Scotland, is going to be of great benefit to Canadian distillers, who have been somewhat slack of business owing to war and prohibition orders. The decision of the British government to permit the importation of Canadian whiskey, provided it had been paid for before the beginning of 1919, will have a beneficial effect—it will act as a spur to a very slack Canadian trade.

The World yesterday made some enquiries as to whether much Canadian whiskey had already departed for the United Kingdom. It seems a large quantity was due to the old country when the order preventing its import was imposed. This has all been shipped ready for shipment immediately an intimation came that the ban was removed. It is even said some exporters, having been given a hint of what was coming, "took a chance" and sent the spirit on its way across the ocean some weeks ago. At any rate the cables were busy yesterday transmitting orders from England to distillers in Canada asking for the immediate shipment of the balance of orders due to the wholesalers in England. A goods quantity of the spirit was on the rail yesterday making its first journey to the coast for transport to British ports.

Colonel A. E. Goodenough told the World last night that, while he did not know very much about the whiskey trade of the present moment, he has been working for the British government during the war, he was informed that his firm were fairly full of export orders, and a good quantity was either on its way or would be in a day or so to England. Enquiries were numerous, and the removal of the prohibition order in England would be a great help to Canadian distillers.

### MONTREAL HOTEL MEN MAY BUILD IN TORONTO

A rumor, which seemed to have a great deal of substance behind it, was in circulation in Toronto financial circles yesterday, that the Ritz-Carlton Hotel people of Montreal were purchasing a big block of buildings in a downtown section of the city with a view of putting up a hotel to be conducted on the high-class principle which is so characteristic of all Ritz-Carlton establishments. It is felt by those interested in the venture that Toronto has now reached a stage in its social development that it could support a Ritz-Carlton or Ritz-Carlton prices. Mr. Hosmer is chairman of the Montreal Ritz and Sir Montague Allan is one of the directors.

Baltic. With the Toronto Highlanders, Due in Port This Morning.

Halifax, N.S., May 6.—Clearing depot officials were advised today that the Baltic would dock Wednesday morning. The Baltic troops include the 15th Highland Battalion of Toronto.

Ottawa, May 6.—The militia department announced that the personnel which embarked for Canada on the steamship Mauretania, due at Halifax about the 3th, include the 10th Battalion (Sea) with three officers and 323 men and the 1st Battalion (Sea) with four officers and 240 men, both units being for Toronto.

### BRING PACKERS TO TIME BY GOVERNMENT CONTROL

Strikers Insist That Trades Unionism Must Be Recognized, and Failing This That the Industries Be Conducted Under Public Ownership.

Today may witness a battle to induce the government to take over the packing industries in Toronto. This was not given out in just these words, but Lou Braithwaite, business manager for the Meat Cutters' Union, stated last night that the executive committee of the union would meet on Monday to bring about either a recognition of trades unionism by the packers or the transfer of the packing industries from private ownership to that of government control. "This is a straight fight for the principles of trade unionism," said Mr. Braithwaite, "and if the packers accept this principle we shall be willing to consider a board of arbitration, open session. Failing this action on the part of the packers, we shall directly request the government to take over the packing industries in Toronto, as we believe this will be in the interests of the public at large. However, let it be thoroughly understood that immediately the packers recognize our association, which represents trade unionism, we shall at once take up the discussion of our agreement clause by clause. We have no desire to interfere with production, and we always desired a settlement of our grievances with the least possible trouble."

Another member of the union stated that the executive would also demand not only the recognition of the Meat Cutters' Union, as such, but also the recognition of the 44-hour week.

The officials of the union are emphatic in their statement that the strike is of a purely economic nature. It is realized at the same time that

Hon. Gideon D. Robertson, minister of labor, who is in Toronto in an endeavor to settle the meat cutters' strike.

If the government is induced to take over the packing industries of Toronto this will have been accomplished through the most constitutional means, and will have been brought about not by any political positions of the strikers, but through the obstinate refusal of the employers to recognize trades unionism.

**Strikes-Breakers Met.**  
 At an early hour this morning between 600 and 1000 employees of the Swift Canadian Company who are out on strike were congregated in the flats and roadways surrounding the plant at the corner of Weston road and West St. Clair avenue.

The strikers were gathered to prevent the entrance of any strike-breakers.

### TREATY TERMS ADOPTED BY FULL CONFERENCE, FOCH MAKES PROTEST

#### INTERNATIONAL COURT TO TRY EX-KAISER

Clause Not Acted On at Last Full Meeting of Conference Now Included in Treaty.

Paris, May 6.—The clause regarding responsibilities which was not acted on at the previous session of the plenary conference, it is understood, has been incorporated in the final draft of the treaty. This provides for the trial of the former German emperor for "a supreme offence against international morality and the sanctity of treaties," by a tribunal composed of representatives of Great Britain, the United States, France, Italy and Japan.

#### Declares That France Should Refuse to Sign, as Security Given Her is Inadequate—Italy, Portugal and China Also Make Reservations—Arrangements to Isolate Germany if She Refuses to Sign Prepared by Economic Council.

Paris, May 6.—The plenary peace conference completed its work today so far as Germany is concerned, and at a secret plenary session communicated the terms of the peace treaty to all the powers represented at the conference. This was the last act before delivery of the treaty to the Germans at Versailles tomorrow.

The session was held in the foreign office, with the same setting and distinguished personnel as at previous public sessions, except in the case of Italy, which today was represented by Dr. Silvio Crespì, the former food administrator, pending the arrival of Premier Orlando and Foreign Minister Sonnino tomorrow.

St. Clemenceau presided, with President Wilson at his right and Premier Lloyd George at his left, with the entire membership of the conference grouped around the table.

Enormous throngs surrounded the foreign office, watching the arrival of the delegates. Those who assembled within the building included Marshal Foch and the British Vice-Admiral, Sir Rosslyn Memyss, with their staffs.

While the session was a secret one, it is understood that Captain Andre Tardieu, representing France, explained the provisions of the document and was questioned from time to time. Explanations being given full and free.

**Foch Makes Protest.**  
 Marshal Foch, in a speech at the plenary session, declared that the security given France was inadequate from a military point of view, and said it was his personal conviction that the treaty should not be signed. The marshal emphasized the necessity of France holding the bridgeheads along the Rhine, and said that occupation limited to fifteen years was not sufficient.

The Chinese delegates presented a brief, formal and dignified protest concerning the disposition of Kiaochow. The Portuguese delegates expressed dissatisfaction regarding the treatment accorded Portugal. The protestations by the various delegates are not regarded as serious, as no definite reservations were made by the protestants.

Italy was represented at the session by Signor Crespì. The Italian spokesman said he desired to make reservations concerning any provisions in the treaty not acceptable to Italy.

**China Asks Reconsideration.**  
 Lou Chin-Hsiang, the Chinese foreign minister, asked for reconsideration of the decision regarding Shantung and Kiaochow. He said that in the opinion of the Chinese delegates the decision had been made without regard for justice, or for the protection of the territorial integrity of China. He said that if reconsideration was impossible, he desired to make reservation on behalf of China.

The final meeting of the council of three before the presentation of the peace treaty to the Germans was held this morning. It is understood that details of the treaty presentation ceremony were discussed as well as the arrangements for this afternoon's plenary session of the conference.

**To Isolate Germany**  
 The following official communication regarding today's meeting of the supreme economic council, was issued this evening:

"The supreme economic council held its sixteenth meeting May 5, at 10 a.m., under the chairmanship of Lord Robert Cecil, at the ministry of commerce."

"Proposed blockade measures to be adopted in the event of Germany refusing to sign the peace treaty."

"The council considered plans that had been formulated to bring about the complete economic isolation of Germany in the event that the German delegates should refuse to sign the preliminary peace treaty."

"The council decided to draw up and submit for the approval of the council of foreign ministers a plan of blockade measures to be introduced into effect should the associated governments desire to have recourse to economic coercion."

"Removal of financial restrictions on trade with Germany."

"The recommendation of the financial section, the council decided to make the following relaxations of financial restrictions of trade with Germany pending the signing of the peace treaty:

**Neutrals May Extend Credits**  
 "First: The amount of credit to be suspended (if this has not been done already) and announcement to be made that neutrals are entirely free to extend credits to any kind of German or to its nationals."

"Second: That German-owned cash balances and bills already in

### FIRST DAY'S EFFORTS CHEER WORKERS IN 'BIG FOUR DRIVE'

Within Two Hours of Commencing Canvass, They Collected \$148,500.

**EVERYBODY HELPS**  
 In Spite of Difficulties, the Objective is Expected to Be Attained.

The Big Four campaign, with an objective of \$1,000,000, started with a swing yesterday amid the intense enthusiasm of the army of volunteer workers and within two hours of the opening of the drive a total of \$148,500 had been collected. This announcement, when made at the luncheon in the King Edward Hotel, was greeted with prolonged cheering and professed increased vigor and optimism among those who are determined to make the drive a complete success.

The general tone of the meeting was to impress those present with the fundamental idea of the campaign and to represent and increase the spirit of unity among the elements of the community. More than once the speakers emphasized the point that every man must get the maximum every day in order to reach the objective. Sir James Woods, chairman, pointed out that a number of contributors were giving at the rate of 25 to 50 per cent. increase of their subscriptions to the patriotic fund.

A. E. Ames was the first speaker. He declared that it was difficult to realize that a great change had come over the people of Canada and that today there were a hundred men available for any strong and worthy purpose to every one of a few years ago and they were willing to give ten hours of work for every one they gave fifteen years ago. The old chap.

### THE SITUATION IN EUROPE

The Associated Press issues the following:

All is in readiness for the presentation Wednesday afternoon of the peace treaty to Germany.

The small powers have been apprised of the contents of the momentous document and all there remains to be done is to call the Germans before the Versailles peace congress and hand to them the verdict which the allied and associated powers have brought against their country, for being the instigator in the world war.

The terms admittedly will be onerous for Germany, but it is asserted that there is but one road for her to follow if she is to obtain what her spokesmen have so frequently declared she so ardently desires—the return of peace and the chance to rehabilitate herself economically. Acquiescence when in a demand for the trial of their former imperial master, William II, by the League of Nations, which has been incorporated in the treaty, charged with "a supreme offence against international morality and the sanctity of treaties," to be required. Reports have it that the steps for the complete economic isolation of the country are being considered: if Germany should decline to affix her signature to the treaty.

There is still dissent among the allied and associated powers over some provisions of the treaty. Chief among the objectors is Italy, with France and the Latin-American countries in dispute. Italy's chief objection to the peace conference held at Versailles, Tuesday afternoon

when the treaty was read to the smaller powers, but are expected to be present Wednesday. Their credentials have already been handed to the Germans. The Italians were represented at the session Tuesday by Signor Crespì, who made reservations concerning any provisions of the treaty which are not acceptable to Italy.

The Chinese delegates have reiterated their protest concerning the disposition of Kiaochow, and Portugal has placed herself in the role of a dissident to the awards of the council, but by expressing dissatisfaction against the treatment accorded the republic.

Marshal Foch, generalissimo of all the allied armies in the great war, also expressed opposition to the treaty as it stands and declared it to be his personal opinion that it should not be signed, as the military security given France is inadequate.

Nevertheless the treaty as formulated is to be placed in the hands of the Germans, according to the latest reports from Paris.

Allied troops have defeated the Bolsheviks and captured the town of Melskaya, on the Murmansk coast in northern Russia. On the Archangel front the first allied river flotilla has reached the fighting front as a result of the ice having passed out of the river under the spring thaw.

The independence of Finland and the de facto government in that country have been recognized by Great Britain, according to an announcement made in the house of commons in London.

### BRITAIN WILL CLAIM REDRESS FOR INJURIES TO WAR PRISONERS

London, May 6.—Claims for compensation for injuries to British prisoners of war in Germany will be included in Great Britain's demand for reparation from Germany, it was stated in the house of commons today.

### ALL MANUFACTURERS TO BE TREATED ALIKE

#### Trade Commission Explain Allotment of Orders Under Canadian Credits.

The following are the most important of the conditions which have been adopted by the Canadian trade commission in Ottawa for the guidance of "trade group" organizations in making allotments of orders secured under the Canadian credits established abroad:

Every manufacturer under certain conditions must have an opportunity of sharing in the business on the same terms. There shall be no discrimination in favor of or against a manufacturer because he is a member or a non-member of any organization.

Every manufacturer desiring to share in the business must at the present time be actually engaged in manufacturing or equipped to manufacture a similar class of goods as that for which an order is solicited.

If, in the opinion of the executive of an export organization, promulgated thru the president or vice-president, any manufacturer desiring to share in the business under allotment is not in a position to manufacture and produce a satisfactory article, the executive will be justified in refusing to recommend such manufacturer to share in the order.

If for any reason a manufacturer to whom an order has been allotted is unable or unwilling to complete the same, he shall not be permitted to arrange for its manufacture elsewhere.

All allotments should, if possible, be unanimously agreed to, but if that cannot be done, the executive, thru its president or vice-president, may make a ruling, and if such ruling is not acceptable to any parties concerned, there shall be the right of appeal to the commission.

### BETTER BE HOTTENTOT THAN IGNORE JESUS

Evangelist Rader continues to draw large crowds at the four services he holds daily in Massey Hall. Last evening, to about 2000 people, he spoke from the text: "If a man love not the Lord Jesus Christ, let him be anathema." "The things of God and heaven are the most important in the world," Rader said. "Just as a ladder in case of fire is the all-important thing, so the Lord Jesus Christ and our relationship to Him is the supreme matter. God is going to settle every problem, decide every man's destiny, and make a new heaven and earth around the Lord Jesus Christ. In Him all things hold together."

The evangelist continued: "Did you ever hear a love story to beat the love story of Jesus? Despite our rejection, He yet loves. Do you like kind people, generous, forgiving, loving, heroic, just? You find all their qualities combined in Christ. If you turn Him down, with all your light, you had better be a Hottentot, with ring in nose, spear in hand, war paint and tom-toms, in the heart of Africa, than face Jesus Christ in the day of judgment. For two thousand years God has pleaded with men, and God gave all heaven had in the gift of Jesus to make us sons and daughters of the King." The singing of the choir of four hundred voices, and the solo work of Arthur McKee, were inspiring.

### HOSPITAL ORDERLY FOUND DEAD IN BACK LANE

George MacGregor, an orderly at the Isolation Hospital, was found dead at noon yesterday in a lane in the rear of Denison avenue. Police-man O'Driscoll of Clarendon street station was notified, when the body was found, and he had it removed to the morgue. The police say there was no evidence of violence having been committed. Coroner Dr. McCallum will open an inquest at the morgue. MacGregor so far as the police know, has no relatives in this country.

### Charged With Kidnapping His Only Daughter

Thomas Dean was arrested at 15 West street last night by Detective Elliott on a warrant issued by the chief of police or Galt. Dean will be taken back to Galt on a charge of kidnapping his own daughter. It appears that Dean left his daughter in care of his sister-in-law and came here from Galt. Later he returned, and brought his daughter to Toronto. Edward Brown, Good street, was arrested yesterday by Detective Croome, charged with theft from Brigg's, Limited, 164 Richmond street.

### CHINAMEN HAD QUARREL

Sing Loo was found lying unconscious on the fourth floor of a building at 14 Elizabeth street, yesterday afternoon. He was taken to the general hospital and after having his hurts attended to, was allowed to go home. It is said by the police that Loo was struck by two other Chinamen during a quarrel.

# Make Giving The Measure of Your Thanks Giving!

A million-and-a-half can only be secured providing the "fifties," the "hundreds," the "five hundreds," the "thousands," yes—and the fives and tens of thousands come pouring into the "Big Four" coffers.

When it gets down to the fine point, your Gift is the measure of your appreciation of Toronto's many efficient philanthropies, and of your thanksgiving to those:

- who went,
- Nor asked the whither of their going;
- who died,
- A debt to pay of mankind's owing;
- who live,
- Though scorched by death's bright flame—and living,
- who watch
- The measure of their fellows' giving.

ers, 400 of whom were reported to be on their way from Peterboro and who it was rumored included a number of aliens.

Fifteen of the expected strike-breakers put in an appearance in a motor truck, but the vehicle was quickly surrounded by over 100 of the strikers and the occupants were told to go on their way, which order they obeyed without discussion.

Practically all the men surrounding the plant are armed with clubs and sticks of various sizes and weights, and although no violence has been hitherto attempted it would not take much to start trouble.

Leaders of the Strike. The executive which is expected to be in session with Hon. Gideon Robertson comprises: Albert Graham, president of the union; H. Denness, vice-president; J. P. Quinn, secretary; J. Menzies, financial secretary; H. Hardacre, treasurer, and G. Gray, G. Rudick, Lou Braithwaite, J. Johns (a returned soldier), William Bryan and W. D. Hay.

Officials pointed out that S. J. McLean, secretary-treasurer of the Harris Abattoir Co., had expressed himself officially as being pleased with the 48 hour a week system than with the 60 hour system, which had proved more costly to the production output. The World called him up by telephone, and he had nothing to say in the matter.

During the evening The World brought the determination of the men to fight for the principle of trades unionism to the attention of F. G. Meegan, secretary of the William Davies Co., and publicity man for the five packing concerns. Replying, Mr. Meegan stated that none of the companies had any objections to employees belonging to any union, but they did object to treating with men representing only sections of the whole staff. In reply to the statement that the union represented almost all the employees of the packing industry in Toronto Mr. Meegan stated that 300 men were working at the Davies plant alone, and that the number of employees now working at the five plants totaled easily nine hundred, few of them new hands.

The strikers have more than 400 pickets on duty at various points throughout the city, and reports sent in from several of these are said to indicate the general trend of events. A constable in the vicinity of the Matthews-Blackwell Co. was reported to have escorted three strikebreakers into the plant; a trainload of strikebreakers arrived at the Swift-Canadian and Harris Abattoir at four o'clock; inspectors at the union yards were reported to have ordered a large number of cots removed from the poultry house of the Swift-Canadian plant to healthier quarters, and a number of clerks at the Harris Abattoir were found by the pickets doing drivers' work without a license, and were turned back to their quarters with all the wagons intact. These are a few among many strike incidents reported.

A unique feature of the strike is the organization of a large number of Chinese at the offices of the union, 153 Church street. This is understood to be the first time Chinese have been organized by any local of the American Federation of Labor east of Winnipeg.

Mass meetings were held at Occident Hall and at Ravina Rink, West Toronto, more than 2000 attending at the latter hall. The attitude of the men is as determined as at any time since the beginning of the strike. It was hoped that permission would be obtained to hold a mass meeting at Queen's Park, but this was not granted. However, it is understood that a large number of employees will be meeting at all three halls taken by the organization for the duration of the strike.

Over Eight Thousand Out. Altogether there are about 8500 employees out on strike, the lathers to the number of 60 having recently swelled the ranks. The machinists have increased their numbers to 2000. It is stated on authority that none of the men from the Dominion Shipbuilding Company's yards are out. These all belong to local 128 of which Herbert Wright is the business manager. In this connection The World desires to correct an error noted relative to the portrait of Mr. Wright in yesterday's issue. Mr. Wright's union is one of the three unions which have refused to engage in any strike and which effected amicable agreements with the master shipbuilders. It is not, therefore in any sense of the term considering a strike to enforce terms upon any shipbuilding company.

Another body of union men which desires to place itself upon record as opposed to strike talk in connection with itself is the Union of Stage Employees. "We have never had need of recourse to boards of arbitration," said Charles O'Donnell, an official. "We have always gained our terms through amicable discussion."

The machinists are fighting for the principle of the eight-hour day and will bring this fight to the conference table if it is held with Hon. Gideon Robertson. Altogether there are about 4800 members of the machinists and metal trades out on strike and the expectations are that the strike will become Dominion-wide within the next 40 hours. The provincial council has had executive powers in this connection for some days and is only awaiting the full return of the strike vote before deciding the issue. If Senator Robertson is successful in effecting a compromise the provincial strike may yet be averted.

Negotiations are proceeding with the boot and shoe workers' union and the union officials are hopeful of a settlement. At the same time they are determined to have their agreement signed. The shops affected are the Blackford, the Minister-Myles, the Regal, the Bando, the Heliance and the Phillips Bros., all of which with one exception have maintained a nine-hour standard. The Phillips Bros. shop is understood to have adopted the eight-hour system.

Strike Breakers Stalled. Various reports were current late last night as to the number of men employed at the moment at the packing houses in Toronto. One was to the effect that 200 strikebreakers while en route to Toronto from Montreal had been stalled at Peterboro, the two engineers of the train deciding to leave the men to their fate at that spot. Another was to the effect that all the stockyard men had gone out with every one else and that the office staffs of various other houses had their hands full cleaning up dead dogs and halved cattle. These re-

CAR FOUNDRY MEN THREATEN A STRIKE

Montreal Report Says Four Thousand May Declare a Walk-Out.

Montreal, May 6.—A strike of some 4000 men employed by the Canadian Car and Foundry Company at Turcot and Ville St. Pierre is imminent, according to I. Foster, president of the Trades and Labor Council, and representative of the local machinists union. The issues at stake are forty-four hour week, and the establishment of a standard wage with the elimination, so far as possible, of piecework. The workers involved are grouped together under the heading of the Federated Metal Trades, and embrace representatives of the following bodies:

International Association of Machinists, Brotherhood of Railway Carmen, International Brotherhood of Electricians, Brotherhood of Blacksmiths, United Association of Steamfitters and Plumbers, International Association of Molders and Amalgamated Sheet Metal Workers.

Guelph Bakers' Demands. Guelph, May 6.—The Guelph Bakers' Union, which was organized last March, and is composed of all the journeymen bakers in the city, have made a demand to the employing bakers for an increase in wages, and also in addition of the working hours. The men are asking for the following scale of wages: Foremen, \$30; second bakers, \$26, and third bakers or helpers, \$20. A demand is also made for a 50-hour week. The men met the master bakers and submitted their demands, and according to the officials of the union, one employer has already agreed to the new scale. The men claim they will walk out if their demands are not met.

Carpenters' Award. After being on strike for one day and a half the trouble between the Society of Carpenters and Joiners and the carpenters' section of the Guelph Builders' Exchange, was harmoniously settled early this afternoon, and the men will return to their work tomorrow morning at eight o'clock. The terms of settlement are as follows: The carpenters will receive a flat rate of 55 cents per hour for an eight hour day and 48 hour week, overtime will be paid at the rate of time and a half except on Sundays and holidays, when it will be double time; no work on Labor Day. The carpenters' section of the Builders' Exchange agree to recognize the union. One apprentice is allowed for every four journeymen, apprentices to commence work under the age of eighteen years. Both parties signed a contract for one year, and notice as to any change in the agreement will require a three months' notice.

Regina Men Back. Regina, Sask., May 6.—All the men of the striking building trades are back at work today. The bricklayers secured their original demand of \$1 per hour and an eight hour day.

Halifax Strikers Firm. Halifax, N.S., May 6.—No new developments appeared in the situation today, both sides standing pat, and making no overtures either for a settlement or for placing the matter before a board of conciliation to be appointed by the government. The employers met yesterday afternoon and there was expressed a full determination to adhere to their decision to make no concessions.

Winnipeg Situation Ugly. Winnipeg, May 6.—At a meeting of the Trades and Labor Council tonight all unions affiliated with that body were instructed to take a strike vote immediately, the result to be submitted to council at its meeting next Tuesday. The vote is to be taken as a "sympathetic strike" which will be in effect from the time the unions now out, the principal of which are the building trades and metal trades. About 75 or 80 unions are affiliated with the trades and labor council, representing between 25,000 and 35,000 men.

William D. Robbins may be the new deputy minister of labor for Ontario. He is about 48 years of age, and is one of the most genial men in the labor movement today. An Englishman by birth, he came to Canada many years ago, and is well known in the Queen City. He has held a seat in the council chamber of the city fathers for several years, and is today one of the four controllers of the city's interests. He is also secretary of the Toronto Street Railwaymen's Union.

The Independent Labor Party of Toronto is putting up a big campaign for membership, and has organized a committee for this purpose. The committee comprises: John Vick, James Watt and Jack Mudrover. Every union will be circled in this campaign, and a large membership is anticipated in time for the election in October, if it arrives in that month.

WANTS CHARACTER CLEARED. Judgment was reserved yesterday by the first appellate division at Osgoode Hall in the appeal of Arthur King to have a conviction by Judge Coatsworth quashed.

King was convicted of fraud by Judge Coatsworth but sentence was suspended. The case arose over the sale of a suit of clothes about two years ago. King sold a suit for \$30, but the goods were not as per sample and action for fraud was instituted by the crown. His appeal was for the purpose of vindicating his character.

Price-Fixing a Remedy. Representatives of the Edmonton Trades and Labor Council were heard at the morning sitting of the commission with witnesses from the employers side. Evidence presented was all to the effect that unrest actually existed in this city, the not yet in the acute form it had taken in some other places. A. Farnillo, J. W. Findlay, Rev. F. E. Mercer and H. Hawkins appeared for the labor interests, and G. M. Hall presented the case from the other side. Mayor Clarke's evidence at the opening of the afternoon session. The time consumed in making arrangements for necessary reconstruction in western Canada seemed to hinge on many causes, unrest and dissatisfaction, and he considered one of the worst was the exorbitant cost of living. The government would have to resort to price fixing as a means of remedying the situation. Beef produced in Edmonton was being sold cheaper in Europe, and the people were naturally dissatisfied.

INDUSTRIAL UNREST FELT AT EDMONTON

Mathers' Commission Hear Opinions on Western Labor Conditions.

Edmonton, May 6.—That the industrial unrest prevailing thru the rest of the country is felt in and around Edmonton, was made clear to the royal commission on industrial relations, meeting today here, under the chairmanship of Chief Justice Mathers. The reasons for this situation were variously expressed, and included the continued antagonism between the employing and employee classes, the high cost of living, unemployment, the lack of adequate government supervision and control and non-recognition of unions. Nationalization of industry, health and insurance figured largely in the suggested remedies.

Mayor Clarke submitted a list of twenty-nine reasons that he considered responsible for the unrest, among which was the appointment of government boards, like the commission on industrial relations itself, giving its time to the large centres and none to the rural districts. The cost of living was also a large factor in the mayor's opinion.

To the People Of Toronto:

This is an announcement of unusual interest to you. Read it, and read it well.

On Monday last an announcement appeared in the papers to the effect that the Sterling Trusts Corporation had authorized the sale at absolute auction of all the remaining unsold residence sites in Lawrence Park Estates.

The agreement I, as Auctioneer, have with the owners of Lawrence Park Estates provides that the selling company will not bid, buy or protect any of the lots in any way, shape or manner, and that every lot will positively be sold to the highest bidder, without reserve, no matter what price it brings.

What Does It All Mean?

IT MEANS THAT YOU HAVE AN OPPORTUNITY TO BUY ABSOLUTELY AT YOUR OWN PRICE AND ON EXCEPTIONALLY EASY TERMS A SITE FOR A HOME OR INVESTMENT IN THE VERY BEST RESIDENTIAL SUB-DIVISION IN TORONTO, VIZ.—LAWRENCE PARK ESTATES

You will probably be able to buy lots valued at \$1,000 apiece for \$300 or \$400 each, and lots valued at \$2,000 apiece for \$600 or \$700 each, maybe less—that is for the public to decide.

If you are one of the many who, to-day is being forced to pay exorbitant rent on account of the acute housing situation in Toronto, seize this opportunity to buy a lot for a small fraction of its value—borrow the money to build, there is plenty of it—live in your own home, and pay for it with the money you are now spending for rent.

Go Look—Judge for Yourself

It is not the intention of the auctioneer to point out the numerous advantages this property enjoys, such as unique location, accessibility and its desirability as a residential section. The fact that close upon one million dollars has been spent in beautifying the property and putting in improvements with the result that a large number of beautiful homes have been built in Lawrence Park Estates is sufficient. Go look at it, judge for yourself, and decide what the lots are worth to you.

The object of the auctioneer is to convince you that this valuable property is going to be sold at any old price the public will pay for it, and that it is your opportunity to own your own home in the best residential section of Toronto and make money.

To Those Who Do Not Want a Home

Consider this opportunity from an investment standpoint. Think of it. If you buy a lot in Lawrence Park for 20c or 25c on the dollar, now that the sub-division is built up and firmly established, is it not reasonable to suppose that you can sell your lot at 50c on the dollar as soon as the building activity starts?

Well then, that is making money.

Remember Lawrence Park Estates is located on Yonge Street. Remember also that very soon the new car lines will bring this property into greater value. Yonge Street is Toronto's main artery, and Toronto must grow northward, so what better investment could you want than a piece of high-grade real estate bought at your own price and on exceptionally easy terms, now, on the eve of the greatest building expansion in the history of Toronto and with improved transit facilities in sight?

If you have a few dollars in the bank, go look at the property to-day. Select several sites and prepare yourself to buy at this sale. There is absolutely no safer investment. More fortunes have been made out of real estate than any other form of investment. You know it, so seize this opportunity.

ports have not been confirmed, but it is stated that one member of the office staff at the Harris Abattoir recurred to a skin hog. Six hundred cake bakers and drivers at a largely attended meeting at Occident Hall last night decided to support the meat cutters to the extent of preventing any bakestuffs from getting into the packing houses. A large number of stationary engineers at a meeting held at the Labor Temple also decided to support the strikers, and there was much talk of a strike. There is a rumor that many are talking of a general strike, but there is no official confirmation of this report. The press has the word of F. G. Meegan for the packing houses that there are 900 men working in the five plants. Four hundred Chinese were said to be due at either the Swift-Canadian or the Harris Abattoir at midnight. This news also lacks confirmation.

STOCKYARD MEN JOIN FORCES WITH STRIKERS

It was reported last night that all the stockmen at the Swift Canadian yards had joined the forces of the strikers and that the situation at that plant was serious. Mr. Meegan, secretary of one of the plants and publicity agent for the Packers' Association, stated that several hundred men were working at the yards. Strike pickets report that no one is working at all. They have formed both day and night shifts.

Metal Trades Strikers Will Appeal to Toronto Members

The executive of the metal trades strikers has sent an appeal to the Dominion M.P.'s of Toronto to fight on behalf of the eight-hour working day in all trades. In their appeal the men point out that more than 8000 men are on strike and that 35,000 men in the railway services are demanding increased wages and shorter hours.

Announce New Wage Scale For Brantford Railway Men

Brantford, Ont., May 6.—The award of the board of conciliation asked for by the employees of the Brantford municipal railways has been received. It gives the men 37c, 39c and 41c per hour for one, two and three-year men respectively, a nine-hour day, time and a half for overtime and a free suit each year for all men who have been in the service for at least two years. The total increase in operating costs from this cause will amount to about \$12,000 for the year.

Berlin, May 6.—The peace committee of the national assembly held its fourth meeting last night and received advices by telephone from Spa that the outcome would present their peace terms to the Germans Wednesday afternoon. The committee thereupon determined to continue its sitting so as to be ready to confer with the peace delegation regarding the terms at any time. It is believed here that it will be impossible to complete a translation of the peace treaty before Saturday or Monday.

**Conciliation in Prospect.**

Senator Robertson is to be in the city today with the object of settling the strike situation. It is a time for conciliation, and there must be a give and take spirit in a period of reconstruction if we are ever to arrive anywhere. It is admitted that there is much misunderstanding on the part of a portion of the men of the economic situation, and of the various factors that combine to create it. But it is equally true that many employers are not seized of all the facts that affect the condition of their business. They ought to be willing to be informed on all sides of the questions at issue, and not merely on what comes under their immediate observation. Modern commerce is a complex matter and requires expert knowledge both on the side of employer and employed. As the employer usually considers himself the more intelligent party, he should take the lead in obtaining real information, indisputable facts, and take some pains to share his knowledge in a credible manner with his employees.

The labor men at the present case set the example of conciliation. They asked for a conference. The masters refused this. When the employer assumes the position that there is nothing to discuss and nothing to handle, he is perhaps following the training of his past experience. But the experience of the old world will not do for the new. A change has come over the earth, and the experience of the past may be wholly misleading if thoughtlessly applied to the new state of affairs.

This is why frank and direct discussion is so necessary and why it has led to so good results in England. It cannot be, surely, that our employers are less intelligent or more obstinate than those of Britain? There is an admixture of foreign workers among Canadian labor which makes the situation more difficult to handle than the British one. But this is all the more reason why the intelligent Canadian workman should be consulted and understood, and his influence gained in making the alien element understand the advantages of co-operative methods on a frank basis.

The union is the natural unit for negotiation, hence it is idle for employers to set their faces against union conditions. The day of the union is here and the clock cannot be set back. This is one thing about which employers must make up their minds. The more easily and gracefully this is done the more friction will be avoided. It may not be very long till the trades union will be on a legal and permanent basis as the joint stock corporation. The principle of collective bargaining is everywhere admitted, and the men thru their representatives will be found to be as reasonable as most corporations and often a little more so.

**OTHER PEOPLE'S OPINIONS**

The World will gladly print under this head letters written by our readers, read with current topics. Space is limited; they must not be longer than 200 words and written on one side of the paper only.

houses for sale to those desiring to purchase, always on first mortgage security. Such houses must be sold at actual cost, and cannot be sold, rented or leased without the permission of the commission. This secures the property for the benefit of those really needing such quarters.

The operation of the act should do much to relieve the pressure from scarcity of houses.

**A Sign of Bolshevism Failing.**

It is said that Bolshevism is on the wane in Europe and that the military forces have checked and curbed the turbulent tide of anarchism that sought to overflow all national boundaries. There are still some people in Canada who declare that all tidings from Russia about the Bolsheviks is false. Pictures are painted of the Bolsheviks as of a new species of wingless angel, but there is too much unanimity about the reports to permit this view to gain credence.

One report which is not denied comes from Lenin himself and more clearly indicates the overthrow of Bolshevism and the abandonment of its principles than anything else. It is Lenin's statement that he is prepared to make all sorts of concessions to American capital for railways, timber, tracts, mines and other activities. This is a straight admission that Bolshevism has failed. Had it not the Bolsheviks would have proceeded without capital, using their own credit and confidence in each other to develop these resources which they would now trade away to Americans.

Is there any peculiar virtue about an American capitalist over a Russian capitalist or a French one that makes him acceptable to an out-and-out Bolshevik, or is it that the American has been regarded as easier game for Bolshevik exploitation?

members of the Church of the Advent. I say, get together in a Godly, Christ-like and loving spirit; settle your differences in an amicable way for the love you bear the great branch of the Anglican Catholic Church to which you belong and to the glory of that great body of Anglican churchmen everywhere, for strife, enmity, ill-feeling and harsh treatment in any one particular branch of the church reflects with discredit, not only upon your own community in general, but upon all the members of that great and glorious body of the church that we love to call the Anglican Church of Canada.

Editor Toronto World: Church union is a great and far reaching cry in the land today, but alas, in numberless instances, should it not rather be "Unity in the Churches" that should be exercising the minds and thoughts of churchmen in our midst?

Being a returned soldier from overseas after an absence of three years, returned home with a mind distressed with conflicting thoughts as to the reality of the attitude of the church to the people, is it any wonder that one so bewildered and distressed at the actions of some of the ecclesiastical leaders of the church after reading the report in your issue of the 1st of May in this week's issue of The Toronto Sunday World?

In plain facts here we have before us the removal of the rector of the Church of the Advent, Pritchard avenue, the Rev. Herbert Naylor, a man who by his steadfastness, integrity and hard work in ministering to the spiritual and moral needs of the people, had gathered an ever-flowing congregation to his church.

God fearing men and women, endowed with wisdom and common sense, eager and anxious for the ministrations of spiritual food necessary to their soul salvation. The well loved springs of life in their hearts at the earnestness and sincerity of their spiritual leader and adviser. All goes well. The church flourishes. The congregation, congratulating themselves that here, at last, is a spiritual home in their midst in which they can gather Sabbath by Sabbath, to worship the God they love with simple child-like faith, suddenly a great evil appears in their midst and by the authority of the powers that be, their rector is forced to resign his charge and tear himself away from his fold and faithful congregation, against their most earnest entreaties and wishes, with no satisfactory explanation forthcoming. What dreadful crime has the shepherd committed? Surely his flock, the faithful members of his church and congregation have a right to demand and know from those in authority the reason of this extraordinary action.

All honor to Mr. Norris and the noble body of that faithful congregation who thus publicly demanding, in such a demonstrative manner as your reporter informs us, a reply to their query: "Why Mr. Naylor was forced to leave or why were we not entitled to a separate parish?" the Church of the Advent was not going to drop the question until we, as a church, received an answer in writing from the members of the Church of England in Canada. To date we have not received an answer of any kind from those in authority on the foregoing statements. In their determined and firm expressed attitude to "fight to the finish" the congregation showed themselves as true, staunch and stalwart members of their church, of whom all churchmen will be justly proud. The fight, if such it may be termed, having thus been forced into the limelight of the public press, not only the members of the Church of the Advent will require a satisfactory reply, but in the interests of the great body of the Anglican Church, churchmen, not only from the diocese of Toronto, but from far and wide, will demand an explanation of the circumstances connected with the removal of the Rev. Herbert Naylor and the matter of a turbulent disturbance of that particular congregation requires the urgent early consideration of the bishop of the diocese, and churchmen everywhere will look for his statement thru the press. The sky being darkened, the penetration of an illuminating light is now necessary to put our minds at ease. The Church of the Advent, I understand, is an offshoot of the Church of St. John, West Toronto, of which the Rev. MacNamara is rector, and over which he has the supervision, and it was thru him that the Rev. Herbert Naylor was originally given the charge and oversight of the church's work, at the Church of the Advent, and to whom in a sense Mr. Naylor was responsible. We trust that subsequent events will reveal any form of petty jealousy, or ill feeling in the minds of others as led up to Mr. Naylor's removal, as that would be a catastrophe indeed. No! Banish the thought of autocracy, petty jealousy or envy at one so energetic in the work of the church. The real solution of the cause of the disturbance will be eagerly awaited.

The church in a universal sense is already tottering at its very basis and the need is evident today every church retaining the services of all its stalwart members in the strenuous times that lie ahead, and no church that values its very life and integrity can afford to lose any of its members, let alone its foremost workers, thru strife, enmity or discord.

**THE DAY AT OTTAWA**

By TOM KING

Ottawa, May 6.—Stewart Scott, Unionist member for South Waterloo, told the house of commons this afternoon that the country could not long continue having one-half of its railways owned by the government and the other half by a private corporation. He was of the opinion that the national system would sooner or later force the Canadian Pacific to the wall. There are others, of course, who believe that the completion of the C.P.R. will be too much for the Canadian National Railways. By that time, as it may be, the "irrepressible conflict" has already begun.

It broke out this morning in the railway committee. A bill granting a number of charters to the Canadian Pacific for the construction of new lines in the west was under consideration. The lines are projected to run from the Prince Albert, Sask., via Melfort and the Saskatchewan Rivers, on a comparatively narrow strip of land upon which a branch line of the Canadian National Railways is to be located. The government system had no objection to the Canadian Pacific building a line to connect with the Hudson Bay Railway, but insisted that it should be located in the district were before the committee, and that only one line was to be built, and that the other would be traffic enough for both roads.

Hon. J. D. Reid, minister of railways and canals, suggested that the charter be granted to the Canadian Pacific, but the Dominion board of railway commissioners, in short, he advised the committee with the Hudson Bay Railway, M.P. for South York, contended that responsibility was upon and should be discussed by parliament. The policy of the government, he said, should be to avoid useless duplication of railways. The dispute in question was the neck of the bottle thru which both roads had to pass in order to get to the far north, then one system should build the road and give running rights to the other.

W. A. Boyd, Unionist member for South Simcoe; W. F. Cockburn, Unionist member for Brantford, and R. L. Richardson, Liberal member for Springfield, vigorously supported the position taken by Mr. Maclean. They pointed out that the penetration of the routes map by the M.P. for South York, contended that the policy of the government, he said, should be to avoid useless duplication of railways. The dispute in question was the neck of the bottle thru which both roads had to pass in order to get to the far north, then one system should build the road and give running rights to the other.

Mr. Scott's speech in the house this afternoon may have been prompted by the debate this morning in the railway committee. It was delivered upon the third reading of the government's bill to incorporate the Canadian National Railways, and the entire railway situation came more or less under review.

In this debate, the Liberals ranged themselves behind Hon. W. S. Fielding, who proposed an amendment placing all the receipts and expenditures of the Canadian National Railways under the direct control of parliament. This was voted down by 51 majority, altho Mr. Fielding presented his case with his usual ability.

The Liberals, however, did not stick to the text that he furnished them, but wandered more or less, complaining of the closure of the bill to get away from their recent commitments in favor of private ownership, and offering other amendments. In the debate, upon the whole, was not of a high order, and will be found sufficiently reported in another place.

**HEARD OF ARMISTICE THRU ENEMY CYCLIST**

Germany in East Africa Had No European News for Many Months Running.

Paris, May 6.—Gen. von Lettow Vorbeck, commander of the German colonial troops in East Africa, in an interview stated that his army at the outbreak of war consisted of 200 whites and 2,000 Askaris, but the numbers increased to 3,000 Europeans and 18,000 natives. At the armistice the force was reduced to 450 whites and 1,200 Askaris by losses. The force covered nearly 10,000 miles in the course of the fighting and for many months running, no European news reached them.

The news of the armistice was obtained from a motor cyclist who started from the frontier, carrying orders to the British, but took the wrong road and was made a prisoner of the German. He was rescued by deserters and returned to his own country. The patches contained the order to suspend hostilities.

**RED FLAG EDITOR SHOT SUMMARILY**

Anarchist Leader at Munich Also Killed While Attempting to Escape.

Munich, May 6.—All the newspapers here appeared as usual except for the communist Red Flag and other radical organs. Cash and other valuables deposited in banks has been found intact for the most part.

Sontheimer, the anarchist leader, was shot while trying to escape. No trace has been found of the communist leaders Nissen and Levien.

Levine, the editor of The Red Flag, was shot summarily. Some 250 bodies have been taken from the Medical Institute to the various cemeteries.

It is confirmed that among the identified dead are Countess Hella von Westarp, daughter of Count Adolf Westarp, who was born in Munich in 1855, and one of the princesses of the house of Thurn and Taxis, believed to be Gustave, who was born at Dresden in 1858.

The communists before they left their strongholds, destroyed all the criminal records at police headquarters, including the rogues' gallery and the archives of the imperial gypsy bureau, containing the only records of the empire of these dangerous nomads. They also looted the home of the police president.

The imperial labor bureau is drafting a bill for submission to the assembly, assuring employes extensive rights concerning their work.

**Neil Laughs at Barbara's Fears.**

CHAPTER LXXVIII.  
 After dinner Neil announced that he had intended to go down town, really should meet some men at the club, but he was so tired they could go along without him. I was delighted. He was at home so little, we had so few of the long quiet evenings together which to me meant so much.

We talked of his aunt's approaching visit, then our boy, his sunning ways, and what we hoped to do for him. It was a never failing source of pleasure for Neil to talk of the education of his son. Then after a while I introduced the subject I knew would be distasteful to him.

"Neil, we must talk things out. I shall be sick if you put me off any longer. I haven't had a decent night's sleep for a week. Won't you explain things to me—your business, so I can refute the stories about you?"

"See here, Bab, you wouldn't understand if I tried to explain. And really there is nothing to tell you. Everything is going along all right."

"I know it is as far as money goes, Neil, dear. But won't you stop associating with these cheap common men whom you go to Blanche Orton's with, and whom her servants talk of as being so common and cheap in their actions?" I had no intention of telling him anything I had heard thru Mr. Frederick, I had mentioned he had called, that was all.

"What a lot of cents women are! I thought Lorraine Norton was above gossiping. If some of your other friends had brought you that yarn I had no idea of making such a position when you commenced to talk. 'Not on your life!' he quickly replied, then flushed. I knew he was thinking of those women Mr. Frederick had spoken of, and that he gave pretty envied certificates for the money people entrust to you—and nothing else? Is it true that you are living upon the money of widows and orphans who have trusted you? Be honest with me, Neil. I can bear anything, will help you all I can; but tell me what all this talk about your crooked business methods means?" had gone on desperately, not daring to look my husband in the face while I questioned his honesty. For that was what I was doing: questioning the honesty of my boy's father.

"Now, see here, Barbara! I may have done some things that old fogies like Powers call 'crooked.' But they aren't up in modern business methods. I don't make anyone give me money. I give them stock with the understanding that there is a risk, it may turn out well, probably will. But they all understand, or ought to, that they are taking a chance. I wish you would not butt

into my affairs. You have enough to do to run the house and take care of the boy."

"I read about that promoter—his name was Carter—the other day. They have arrested him because he sold oil wells, stood in them when he didn't even own the land. It has frightened me terribly, Neil. I would try other things first."

"The cases are not similar at all. My deals are all right." Yet even as he answered, he flushed painfully.

"We have been extravagant, Neil. I know we haven't run any bills you don't intend to pay; but there are a lot of them, some of them for big amounts. Can't we economize a little?"

"And give people the right to think I am hard up! I guess not. Now see here, Bab, you attend to your own affairs, and give me the same privilege. I shall forget that I have a sweet, pretty wife soon, and think only that I have a meddlesome person named Bab who won't mind her own business. He blushed me, laughing, then changed the subject. Again I had accomplished absolutely nothing.

Tomorrow—Mr. Frederick Appears Promptly, as He Promised.

Irving Robertson Explains Position of Hospital for Sick Children.

Irving E. Robertson, in a letter to The World, explains that the Hospital for Sick Children will receive no financial assistance following the "Big Four Drive." He says:

"In referring to the Big Four Drive, you state that all our charity debt for the year, hospitals, Y.M.C.A., etc. are in this one appeal for the year. This is an inexactitude from which I fear the Hospital for Sick Children may suffer. For sundry reasons this institution is debarred from participating in the campaign of the Federation for Community Service, not the least of which is the fear of jeopardizing the personal interest which hundreds of Torontonians have come to take in this work. The Hospital for Sick Children is as dependent as ever upon voluntary contributions to carry on its particular form of service. Its appeal on behalf of the youngsters, however as heretofore, will be made independently at the more appropriate season of Christmastide.

JOHN CATTO & SON TORONTO

ANTI-J. S. CAMPAIGN BY JAPANESE PRESS

Call Wilson "Man With Voice of Angel, But Deeds of a Devil."

Tokyo, May 6.—The anti-American campaign in the Japanese press continues with renewed force. Up to the present no serious overt acts have been committed against Americans or American property. Evidence exists, however, that the newspaper agitation which has virtually spread to all the leading journals of the empire, is inciting popular feeling against America and thus paving the way to possible open demonstrations.

Score of United States Influence. The belief is expressed here that the basis for the agitation is fear of the growing influence of the United States in international affairs, as evidenced by her position at the peace conference, and that it will act as a curb on what are regarded as Japan's legitimate aspirations in China and Siberia.

Attack on Wilson. "Hypocrite," "Despot," "Transformed Kaiser," "Man with the voice of an angel, but with deeds of the devil," are some of the epithets applied by the newspapers to President Wilson. Today's newspapers print articles accusing Americans and British in China with the recent Chinese-Japanese agitation in Peking, based on the Japanese victory at the peace conference on the question of Shantung. The aim is declared to be the routing out of Japan's superior rights in China and substituting their own influence.

WAR TORONTO IS ABLE TO PROCEED ON TRIP

Montreal, May 6.—The War Toronto of the Imperial munitions board, which ran around in the channel one mile below Cape St. Michel on the morning of Thursday last, was after various attempts, returning to the harbor and within an hour was able to leave under her own steam for Quebec. The War Toronto, which was in port last week on her maiden trip across the Atlantic, having run her trial trip on Lake Erie a fortnight ago, she was built by the Toronto Shipbuilding Company. The fact that she was able to proceed under her own steam indicated that the vessel had sustained no serious damage.

400 PERSONS KILLED BY MOSCOW RED GUARDS

London, May 6.—Four hundred persons were killed in Moscow last week when the Red Guard were called upon to disperse rioters, says an Exchange Telegraph despatch quoting advices from East Germany. The casualties resulted when crowds assembled demanding food and shouting, "Down with Lenin and Trotsky."

THE WEATHER

Meteorological Office, Toronto, May 6.—(3 p.m.)—The high pressure which was over the Great Lakes last night has passed the Atlantic, and a low area which was in the far southwestern states is now centered near Lake Michigan. Rain has fallen today in Manitoba, and is now falling near Lake Superior. Elsewhere in Canada the weather has been fine.

Lower Lakes and Georgian Bay—Easterly to southwest winds; warmer and showery; a thunderstorm not improbable. Upper St. Lawrence and Ottawa Valley—Easterly winds; milder and showery. Lower St. Lawrence, Gulf and North Shore—Easterly and southerly winds; mild, becoming showery. Maritime—Easterly and southerly winds; fair and mild, followed by rain at night.

FEDERAL PASSING OF RAILWAY BILL

Hon. Dr. Reid, who stated that it would be impracticable to break off the national railway system at Montreal, and also by Hon. Frank B. Carroll. Mr. Carroll stated that the bill was not one of public ownership versus private ownership. The country had the roads, and it was his duty to administer them in the best way possible. The Intercolonial under direct government management had been a mere political machine. He was satisfied that the people of the maritime provinces would get better service when the Intercolonial was absorbed into the national system. The C.P.R. amendment was voted down, and then Mr. Lapointe, Kamouraska, moved an amendment providing that two directors of the company should be chosen by a vote of the railway employees. This was opposed by Hon. Arthur Meighen, who said the plan was impracticable, and a clear departure from all principles of responsible government.

Drop War Measures Bill

Hon. Arthur Meighen announced at the opening of the house this afternoon that the bill to extend to the end of the present session orders-in-council passed under the war measures act, would not be proceeded with from the prime minister's side. The announcement to drop the bill was received with opposition cheers. Second reading was given to a bill to amend the fisheries act of 1914, in such a way as to increase the license fees for British Columbia salmon canneries from \$50 to \$500. The bill was referred to the standing committee on marine and fisheries.

Third Reading for C. N. R.

Hon. Martin Burrell then moved the third reading of the bill to incorporate the Canadian National Railways Company. Hon. V. S. Fielding said that he had hoped the government would see it to amend the bill in such a way as to bring it in line with Canadian parliamentary principles. One of the principles of the Canadian parliament was that all matters connected with the expenditures of public moneys should be voted in parliament. He proposed he said, to make a motion which he trusted would not be treated as one of non-confidence in the government. Every member should be free to vote upon it purely on its merits. He was not an enthusiast about public ownership as applied to all railways, but in this case he wanted to see public ownership get a fair chance. Under the bill now before the house it would not get a fair chance, because it started out with two handicaps.

Two Handicaps

The first handicap, said Mr. Fielding, was that the bill had been forced thru by closure. The second handicap was that the bill disregarded all safeguards recommended by parliamentarians, notably control of the public finances. By so doing they were giving the principle of public ownership a black eye. That power which would give the house of commons absolute authority over the public purpose was to be disregarded. While every other branch of the public service had to pay its revenue into the public treasury, parliament was going to give to some gentleman in Toronto, estimable not doubt, power over immense sums of money which they could use without any parliamentary appropriation. Other departments, went on Mr. Fielding, "paid their moneys into the treasury. Yet gentlemen in Toronto were given exclusive right to deal with these public moneys. They would probably be handling \$150,000,000. Why, then remove all checks."

Proposes Amendment

Mr. Fielding, seconded by Mr. McMaster, then moved he be referred back to committee of the whole, striking out clause 16 of the bill, and substituting the following: "Receipts and expenditures of the companies shall be subject to audit and audit of the consolidated fund and audit act." Sir Thomas White declared that the government could not accept the amendment. The argument used by Mr. Fielding unintentionally no doubt, was somewhat unfair. Mr. Fielding had said that the government was asking parliament to hand over to a few gentlemen in Toronto—he emphasized Toronto.

Mr. Fielding: "Are they not in Toronto?"

AMERICAN FLIGHT WILL PROVE NOTHING

Views of British Airmen in Newfoundland Regarding Experiment With Seaplanes. St. John's, Nfld., May 6.—The British aviators, Harry Hawker and Captain Raynham, made no move today toward starting their transatlantic flight. After the arrival of reports of unfavorable weather in mid-ocean, with cross winds here, they sent several motor launches out in search for an auxiliary airfield to allow them to take advantage of north and south breezes for a "hop over the hump." Local interest has turned to the progress of the United States navy's flight, and St. John's papers are carrying columns from Trepassay Bay as against paragraphs regarding the project of the Britishers here.

Points to the Hydro.

The leaders of the Liberal party, said Sir Thomas, had declared themselves as being opposed to public ownership. The greatest example of public ownership which he knew of in Canada was the Hydro-Electric Commission. He believed that this was administered in the same way as the government now proposed to administer the railways, with its intimations and its interference with the private ownership of the railways had been a failure with the exception of the Hydro-Electric Commission. He went on to state that in Canada private ownership of railways had been a failure with the exception of the Hydro-Electric Commission. He believed that this was administered in the same way as the government now proposed to administer the railways, with its intimations and its interference with the private ownership of the railways had been a failure with the exception of the Hydro-Electric Commission.

U. S. PLANES HELD UP

No Attempt Will Be Made To Fly To Halifax Today. New York, May 6.—No attempt will be made tomorrow by the U. S. Navy's transatlantic aviators to "hop off" on the first leg of their journey because of adverse weather conditions. Commanding officer, Captain Charles Morgan, Raynham's navigator, signing himself "Captain C. W. P. Morgan, R.A.F.C.," G.S., announced responsibility for an article in the St. John's Star today, which stated that the American navy's flight would "prove nothing practically or theoretically."

PARIS JOYFUL WHEN RACING IS RESUMED

Paris, May 6.—An immense crowd sweltered in the first hot weather of the season at the Maisons Lafitte racing tracks yesterday and witnessed the first public horse racing in Paris since July, 1914. This afforded the Frenchmen to show how eager they are to forget the war in participating in sports. The attendance was so large that employees in the mutual betting ring, were unable to adequately handle the throng. The principal event was won by an outsider.

SOCCER NOTES

Already a keen rivalry has sprung up between the two senior teams of the Baraca Club, and a series of games is being arranged for the purpose of deciding the club championship. The first of which will be played on Tuesday night, kick-off at 7 o'clock sharp. These games will afford new players an opportunity to trial. Players of both teams are requested to be on the field in good time. After the game the executive will meet at the club when a plan for insuring the players against accidents will be discussed. The club has obtained special terms for accident policies, and it is hoped that after this month's meeting will have the plan in working order, when they will be able to offer to members a substantial and attractive accident policy. This matter has been under consideration for some time, but was brought to a head on Saturday when two of the players were seriously injured in the game against Ulster. In the first half of this game Stevens, who had scored two goals, came in contact with Dobson's elbow, sustaining a broken nose, while in the second half Stevens, who had scored much more serious injury to his leg. The doctor has not yet been able to determine the exact extent of the injury on account of the swelling, but considers that he will be confined to his bed for some time, and most probably unable to play for the balance of the season. Bob, who but recently returned from the front, intended to offer his services to his old club, but the absence from the team will be a considerable handicap. Bob had much regretted by his many friends.

East End Yacht Club Ready for Season

The meeting of the Woodbine Yacht Club, held last Monday evening, was in every way a success. Twenty-five new members were admitted into this thriving club, which is now situated on the Woodbine beach. At this meeting it was decided to build a permanent wharf into Ashbridge's Bay. The club has its own Hawaiian orchestra and holds socials every Friday evening. Friday's social being favored with the attendance of Mr. Jack Wyse, the local ventriloquist, who caused much laughter and was thoroughly enjoyed.

U.C.C. CRICKETERS IN STONEWALL DEFENCE

St. Cyprian's and U. C. C. game played on the college ground on Saturday was left unfinished owing to rain. At the end of eighty minutes play the college had obtained 55 runs for a loss of 5 wickets; the stubborn defence of Short (8) and Riddell (6) had been brining the patience of no less than 5 of the visitors' bowlers, the latter especially proving to be a veritable stonewall (not out 7) also played well, while Zych contributed 4 and "extras" 7 to the total. Machan 2 for 5; Barva 2 for 11, and E. Davis 1 for 21, were the only wicket takers, sixteen runs being added to the score after rain began to fall.

CHINA HELPLESS IN JAPAN'S HANDS

Aggression of the Latter Nature Cannot Be Resisted, Says Missionary. The views of Rev. Robert A. Jaffray, the well-known Chinese missionary, as given to The World regarding the relations of China and Japan before the peace conference are very timely and prophetic, according to the latest cable. Rev. Mr. Jaffray has had a conversation regarding the rights of China as sacrificed in the transaction. The delegate, whose name is Wellington Koo, says the "big three"—viz., Britain, France and the United States, have submitted to Japan's imperialism, and that the Japanese imperialistic aims are now revealed. Nothing appears possible now but complete Japanese suzerainty over China. Mr. Koo points out that Germany held only a 99-year lease of Tientsin, but by the "settlement" of the Kiaochow affair Japan takes possession in perpetuity. Rev. Mr. Jaffray told The World that China will find it impossible to resist Japanese aggression and his words

### BRITISH GOVERNMENT AFTER CANADIAN TIMBER

Numerous large contracts for Canadian timber have been placed in the maritime provinces, at Ottawa and in British Columbia, by the British Government, according to W. L. Myers, government timber purchaser, who is at the King Edward Hotel, in company with Sir James Ball, the British timber controller. Since the beginning of the year \$30,000,000 has been spent in Canada for lumber by the British government. A special office to transact the business is to be opened at Montreal.

### POSTMEN WILL HAVE NEW SUMMER UNIFORMS

The news that postmen are to be equipped with a new uniform caused a flutter of excitement at the general postoffice yesterday and found much satisfaction among the men who carry the mail. During the war the government provided the mail carriers with alpaca coats, blue serge trousers and straw hats, but this year, commencing May 15, a real summer suit in nifty design is to be the attire and will surpass all previous attempts to keep the men cool.

### ITALIAN LABEL SUIT STILL DRAGS ALONG

The case of criminal libel brought against Henry Corti, owner of The Tribuna Canadiana, by Giovanni Danavaro was resumed before Chief Justice Sir William Mulock in the assizes yesterday. Corti is charged with calling the plaintiff a swindler and also stating that Danavaro in his position of consular agent at Welland accepted money for securing military exemptions for a number of Italian recruits.

### A HOLIDAY YOU WILL APPRECIATE.

The Muskoka Lakes have won a commanding place among the summer playgrounds of this continent. They draw their devotees each season from every centre of importance in Canada and the United States. The Muskoka group is composed of three large lakes and some smaller ones. The principal lakes, often called "The Three Graces," are Rosseau, Joseph and Muskoka. When you consider that Muskoka resorts are within three and a half hours' ride by the Grand Trunk from Toronto, and proportionately accessible from many other large centres, no more delightful trip can be planned. A pleasant journey by train; a delightful sail of from one to four hours through beautiful lake and island scenery; a sojourn at a well conducted hotel or boarding-house, indulging in such recreations as golf, bathing, sailing and fishing. For full particulars and booklet regarding this territory, apply to Grand Trunk agent, or C. E. Horning, D. P. A., Toronto, Ont.

### CLIMBED TOP OF SKYSCRAPER

Onlookers from the street stood with bated breath when C. E. Sanders, the intrepid aerial painter, made a hazardous climb to the top of a seven-story foot flag pole on the top of the Royal Bank building yesterday.

### How to Keep Age-Lines and Wrinkles Away

Don't forget that the woman who smiles will have a skin more free from wrinkles than the woman who frowns. When wrinkles begin to appear it is a good plan to bathe the face once a day for awhile in a harmless solution made by dissolving an ounce of powdered saxolite in a half pint of witch hazel.

### BETTER FACILITIES FOR GETTING LIQUOR

Police Chief's Reason of Big Increase in Drunkenness in City.

That drunkenness is on the increase in Toronto, is shown in a report placed before the police commissioners yesterday afternoon by Chief Grasett. The chief stated that figures for the month of April showed an increase of forty-eight per cent. over the corresponding month of last year. He attributed the increase of drunkenness as due to the better facilities for getting liquor. It is an expensive thing to get drunk nowadays, remarked the chief with a smile, but the underground ways of obtaining liquor made it more easy for persons to secure.

During the month of April, 1919, there were 351 cases of drunkenness recorded in police court, more than 114 cases above the total for the same month in 1918, when there were 237 cases recorded.

Owing to the reduced strength of the police force, the commissioners decided that all sporting associations requiring extra police officers to handle the crowds at the main entrance order will in future have to pay for every constable required for duty. This ruling refers to race tracks, baseball parks, football games, and all big sporting events. The board will arrange so that the policemen will be allowed to do duty at such places on their off day and receive an extra day's pay. The chief did not say what fee would be charged, but admitted that it would likely be in proportion to the rates current.

### Joseph Howe Was One Of Canada's Greatest Sons

Judge Denton was the speaker and Dr. James L. Hughes presided at a well attended meeting of the York Pioneers held in the auditorium of the Normal School yesterday afternoon.

### WILLS AND BEQUESTS

Dr. Arthur V. Leonard, who was serving aboard the ill-fated hospital ship, Lindover, died on the night of March 29, 1919, left an estate valued at \$8,959, which will be divided equally between his daughter, son and a daughter-in-law.

### LEAVES DALE CHURCH

After twelve years of ministry, the resignation of Rev. (Capt.) J. D. Morrow from the pastorate of Dale Presbyterian church, was submitted to the presbytery yesterday. Mr. Morrow, who has for months been in a state of ill health, has resigned on the advice of his physician. Following his return from overseas, whether he was as chaplain of the 130th (Sportsmen's) Battalion, he was stricken with pernicious anaemia.

### NO FIRE RANGERS HAVE BEEN REQUIRED SO FAR

On account of the continued heavy rains which have resulted in a late spring, the department of lands, forests and mines of Ontario have not deemed it necessary to send fire rangers into northern Ontario until May 15. It has been the custom for these rangers to begin their duties on the first day of May and a few years ago they were sent as early as April 15. The result is a saving to the department of about \$40,000.

### Fine Lennox and Addington Five Hundred for Road Neglect

Kingston, Ont., May 6.—At a sitting of the sessions of the peace at Napanee, presided over by Judge Madden, the application of the county of Lennox and Addington that a stated case be reserved in the Hamburg road case, was refused and a fine of \$400 for maintaining a nuisance was imposed and an additional fine of \$100 for contempt of court in not taking any steps to abate it as directed at the last sitting.

### HOUSING BILL BEFORE CITY COUNCIL TODAY

The city council holds a special meeting at noon today to consider the draft housing act which has been before the board of control and adopted. It is considered likely that a communication will be before the council from Premier Sir William Hearst bearing on the ratification or otherwise of the draft act.

## Children's Diseases Are Not Necessary

They Add Nothing to the Well-being of the Child and Invariably Leave the System in Worse Condition Than Before They Came

In fact, they often sow the seed which, in adult life, develops into disorders of the heart and blood vessels and degenerative diseases of the kidneys.

So if children escape any child's disease they are the gainers in general health by just that much. It may be that years are added to their lives or chronic invalidism avoided. Then there is the enormous risk which every child runs who has measles, whooping cough, scarlet fever, or other diseases.

Perhaps this does not agree with your idea of letting your children have these ailments when young, with the belief that they must have them some time. This old idea has cost many thousands of lives. It is time to forget it, and to put forth an effort to save the children from these ailments.

All these children's diseases are known as germ diseases, and germs are harmless to a body strong enough to fight them.

Rich blood is the greatest of germicides. Therefore, seek to keep your children's blood rich and pure by giving them whole

some, nourishing food, and by allowing them to exercise freely in the open air.

If they grow pale and weak and languid—if they fail to derive proper nourishment from the food they eat—if their nervous systems get run down from the tax of school work—use Dr. Chase's Nerve Food as the best means which medical science affords to enrich the blood and build up the exhausted system.

Children whose blood becomes thin and watery are helpless before an attack of measles, scarlet fever, whooping cough, or other contagious disease. They seem to "catch" everything that is going. They are always "catching" cold. Their resisting force is nil.

But their young bodies soon respond to the nourishing, invigorating influence of Dr. Chase's Nerve Food. As their blood is enriched they become healthy, robust and rollicking—they enjoy their food—their play—their work at school, and grow into strong, healthy men and women.

Dr. Chase's Nerve Food, 50 cents a box, 8 for \$2.75, all dealers, or Edmondson, Bates & Co. Ltd., Toronto. On every box is the portrait and signature of A. W. Chase, M.D., the famous Receipt Book author.

# U. S. IRISH DELEGATES ARRIVE AT BELFAST

### Despite Proscription of Meeting There Was No Interference With Demonstration.

Dublin, May 6.—Michael J. Ryan of Philadelphia and former Governor Edward F. Dunne of Illinois, representatives of the Irish societies in the United States, arrived here tonight from Belfast. They were met at the station by enormous crowds, which formed a procession and escorted them thru the principal streets.

Notwithstanding the military proscription of meetings and processions, there were no interferences with the demonstration. Upon their arrival at their hotel, Ryan and Dunne addressed the assembly from a window, dwelling upon the objects of the war and claiming the right of self-determination for the Irish. They declared the Irish were as much entitled to those rights as the Jugo-Slavs. Several Sinn Fein leaders also made addresses. The demonstration ended near midnight.

### WHO INVITED THEM?

#### Some Say Wilson and Others That Lloyd George Was Frivolous to Visit.

London, May 6.—The visit of representatives of American-Irish societies to Ireland is creating great interest in Sinn Fein circles there and equal indignation in Unionist quarters in Ireland and England. Among the reports from Paris were granted to Ireland at the request of President Wilson. There were also reports that Premier Lloyd George promised to receive the delegates of the American-Irish societies and advised them to visit Belfast.

There is considerable mystery about the whole affair and it is unknown whether Premier Lloyd George has been in communication with the visitors at all. There is one report that he promised to receive them, but has cancelled his engagement for the interview. A question was addressed to the government in the house of commons on Wednesday with a view to establishing whether the United States government and also to establish their exact status. It was also asked if the premier had intended to receive by the home secretary, who promised to make inquiries and said that this would occur a week.

While, according to some despatches from Ireland, the Sinn Feiners are greatly encouraged and believe the creation of an Irish republic is within sight, the Unionist press here is calling for an explanation from Premier Lloyd George and criticizing President Wilson's alleged interference in British domestic affairs.

"If it is true that Mr. Wilson is behind this intrigue against the union of the United Kingdom—and after the president's behavior toward Italy anything is credible—the American ambassador," says The Post, "ought to be told that the United Kingdom does not tolerate interference in its domestic affairs. They are our business and the business of nobody else."

The Graphic says: "If any of the states of America were again to demand the right to secede from the union, it is certain the American people would be bitterly indignant if such a demand received any kind of official encouragement from Great Britain. We apply the same standard of judgment to American interference in our affairs."

### G.W.V.A. Men in Kingston Endorse the Y.M.C.A. Campaign

Kingston, Ont., May 6.—At the regular meeting of the G.W.V.A. last night, the following resolution was adopted:

"That the association heartily endorse the present Y.M.C.A. campaign and is in favor of comrades volunteering to co-operate with the campaign committee in canvassing the city."

Many members of the association volunteered their services in canvassing the city.

### UNCLAIMED BAGGAGE.

No one seems able to explain why there is so much unclaimed baggage. There will be trunks, suit cases, valises, baby cabs, parcels, etc., sold by auction, without reserve, May 8th, 11 a.m., Henderson Auction Rooms, 123 King-street east.

### Edict Against Anarchists Causes Editor's Departure

Buenos Aires, May 6.—An edict against anarchists was posted in Buenos Aires today, by the police. Immediately after the edict was posted, the publisher of the radical newspaper *Bandera Roja* took the next boat for Montevideo.

### CHARGED WITH BAYONET ON ATHLONE CROWD

London, May 6.—British troops broke up a forbidden meeting at Athlone, Ireland, last night by charging upon the crowd with the bayonet. A number of persons were wounded and armored cars were taken possession of in the place. Laurence Ginnell, M.P. for Westmeath, attempted to address the meeting.

### REFUSE REQUEST OF "WETS."

Quebec, May 6.—The town council of St. Romuald, near Quebec City, last night refused to repeal the local prohibition and grant licenses for the sale of beer and wine. This had been asked for by a petition numerously signed.

### READY TO PRESENT THE PEACE TREATY

#### Wilson Will Be on Clemenceau's Right, and British Delegation on His Left.

Versailles, May 6.—When the German delegation enter the dining-room of the Hotel Trianon on Wednesday afternoon to receive the text of the treaty of peace they will find representatives of the powers arrayed against Germany awaiting them at one of the great tables which have been placed in the room. Premier Clemenceau and Lloyd George and President Wilson will stand at the head of the table.

The Germans will not join the allied delegates at this time, but will be conducted to a smaller table standing by itself at the open end of the great horseshoe formed by the green-covered tables arranged for the meeting. There they will listen to M. Clemenceau's opening address and receive the judgment of the allied and associated nations formulated in a volume of conditions drawn up during the four months of deliberation by the inter-allied conference.

On M. Clemenceau's left will be Premier Lloyd George and the British representatives, while on his right President Wilson and the other American delegates will be grouped. Flanking the Americans will come the French delegation, with Marshal Foch in the centre. Next to these will be the representatives of Italy, Belgium, Brazil, Greece, Portugal and Serbia. On the left side and seated below the delegates of Great Britain will be those of the British dominions, Japan, Poland, Rumania and Czechoslovakia.

Two tables have been placed for the general secretaries of the inter-allied conference directly behind Premier Lloyd George and President Wilson. Secretaries of individual delegations will have seats at the sides of the room behind their respective delegations.

Only six of the principal German delegates, three secretaries, official interpreters and an official photographer will be admitted into the large German delegation, according to present arrangements. The subordinates will have tables immediately behind the delegation chiefs. The German party will have only a few feet to walk to its place after entering the room, as the tables have been assigned a place immediately behind the Germans.

### DEFENDS ACTION IN ASSUMING CONTROL

#### Admiral Kolchak Says Strong Hand Was Needed in Government of Russia.

Vladivostok, May 6.—At Omsk on April 26 Admiral Kolchak defended his action in taking over the government of Russia in an interview with the ground staff. A strong military hand was needed in this disorganized country. He once more declared his intention of establishing the proper democratic system of government as soon as this was warranted by the capture of Moscow and the consequent collapse of Bolshevism.

Admiral Kolchak expressed deep gratitude to the British for their assistance, but he hinted that Russia had recently begun to be disappointed over the attitude of Japan and America. He stated that American representatives in Siberia had at times supported the soviet government. He said Russia needed material help from the two great allies who had won the great war but not the assistance of soldiers.

"I am working my hardest for the good of Russia," he said, "and I hope to succeed, but if I fail I will go under willingly for the sake of my work. This in itself would be proof that Russia had not yet reached the stage of lawful self-government."

### PELTS BY AIRPLANE FROM CANADIAN WOODS

Watertown, N.Y., May 6.—Alr Pilot E. E. Barlow, flying a Curtis J-N 4 tractor biplane, who landed on the Jefferson county golf club links here last night, en route to New York from the Canadian north woods, took the air this morning at 10 o'clock. The flight is being made to demonstrate the commercial utility of the airplane. Barlow is carrying 400 pounds of pellets from trappers in the Canadian Northwest to the New York market. He is a former member of the Royal Flying Corps.

### Railway War Board Cancels New Bond Rule for Shippers

Montreal, May 6.—The Canadian railway war board today announced that the requirement of a bond covering all credit accounts for shippers and consignees of freight had been done away with. The new credit rules called for the settlement of accounts as follows: Charges accumulated from the first to the seventh of the month must be paid by the 14th; from the 14th to the 14th must be paid by the 21st; from the 14th to the 21st must be paid by the 28th and so on.

### HON. C. W. FISHER DIES IN EDMONTON

#### He Was Speaker of the Alberta Legislature—His Death Came Suddenly.

Edmonton, Alta., May 6.—The death took place shortly before midnight at the Royal Alexandra Hospital of the Hon. Charles W. Fisher, speaker of the legislature of Alberta since the formation of the province in 1905. The late Mr. Fisher filled his position as speaker until March 23, during the last session of the legislature, when he became ill with ear trouble. His condition was considered grave at the time the legislature adjourned, but he rallied and less than one week ago was regarded as on the way to rapid recovery. The sudden relapse was unexpected and was a severe shock to the family and friends.

He was a native of Hyde Park, Middlesex county, Ontario, and was 52 years of age. In 1907 he married Miss Helen Marjorie Powell of Ottawa, Ont., who, with seven children, survives him.

### GREEK PATRIOT KILLED BY MOSLEM

#### Salonica, Monday, May 5.—Dr. Gulpis, who for thirty years had worked for the deliverance of northern Epirus from the Turks and for its union with Greece, was assassinated several days ago in the streets of Moslem. The funeral, which was attended by 10,000 persons, according to despatches to the Athens News Agency, resolved itself into a manifestation in favor of Greece. Women and children carried Greek flags and buildings were decorated in the Greek colors.

The assassin, who said to have been assisted by two others, the despatches declare, is an agent of Italian propaganda in northern Epirus. It is asserted that the Italians have been inciting the mob attacks against Greek Christians. The French authorities continue their investigation of the assassination.

### EXEMPTION BRIBE CASE CROPS UP IN BRANTFORD

Brantford, Ont., May 6.—Ald. J. Harvey Clement, a member of one of the exemption tribunals which heard appeals for exemption from the workings of the M. S. A., is charged with accepting a bribe of \$500 down, paid in March last year, and \$20 a month from that time to March of this year. The charge is laid by George Tomliff, who alleges that he paid this money to escape being called up. Ald. Clement promised that his case would be kept back. When he failed to secure a government release for his money—he stated the Ald. Clement has told him the money went to the government—he became suspicious and consulted J. W. Bowby, K.C., and the charge was laid.

### BRANTFORD ALIEN FACES MANSLAUGHTER CHARGE

Coroner Fissette States That Man Killed in Card Game Died From a Knife Wound.

Brantford, Ont., May 6.—Coroner Dr. Fissette stated this morning that Apel Majarian died from the effects of a knife thrust through a lung. This offsets the statement of Nuran Kallijan, who is under arrest charged with causing Apel's death, that the wound came from Apel's body being driven against a wall when the accused threw him during a fight. The inquest will be held on Wednesday evening. A manslaughter charge will be laid against Kallijan.

### APPOINT HUME CRONYN.

Ottawa, Ont., May 6.—Mr. Hume Cronyn, member of London, was elected chairman of the special committee on scientific research at the initial meeting of the committee this morning. Arrangements for hearing of evidence were considered by the committee.

### BARON VON STENGEL DEAD.

Berlin, May 6.—Baron H. G. L. von Stengel, secretary of the German imperial treasury from 1903 to 1908, is dead.

### MUNICH CELEBRATES SOVIET OVERTHROW

#### Captured Spartacides Hooted and Government Troops Heartily Cheered by Crowds.

Munich, May 6.—All Munich celebrated the victory over the soviet government on Sunday. The streets were crowded with people who cheered the passing troops or gave them refreshments. Captured Spartacides were hooted as they were escorted to the streets, bands played national airs outside the palace and crowds sang patriotic anthems.

### WAR BREAD'S RETURN IS NOT EXPECTED

#### Montreal Bakers Do Not Agree With the Toronto Prophecy.

Montreal, May 6.—Montreal bakers do not agree with the Toronto opinion that Canada may have to return to war bread. The statement was made some days ago by Toronto bakers that, owing to the world shortage of food, it might be necessary for the people of this country to return to war bread, such as was common during the last year of the war.

"The millers have been notified to get into the habit of returning to war bread," said A. V. Muffler, manager of the Canada Bread Company. "What remains to be done is to get the millers to understand that if the amount of flour laid in by the millers, why, I suppose, we will have to go using standard flour now," he said, "and it seems to me that the possibility of going back to war bread is very distant, if at all probable."

### WHEAT FROM CANADA FOR UNITED STATES

#### Head of Grain Corporation Says a Moderate Amount Will Be Brought in.

Minneapolis, Minn., May 5.—President Julius H. Barnes of the United States Grain Corporation, announced today that reports that the corporation had purchased 25,000,000 bushels of wheat from Canada were untrue, but he reiterated the declaration which he made earlier today, that arrangements had been made for the purchase of a "moderate amount" of wheat from Canada for the purpose of supplementing the domestic supply.

### ALLIED GUNBOATS HASTENING TO FRONT

#### Airplanes Report That Bolshevik Flotilla on Dvina Has Been Enlarged.

Archangel, Sunday, May 4.—The Bolshevik continue the bombardment of the allied positions on the upper Dvina, apparently in the hope of driving the allies out before the allied gunboats can reach the scene. In the meantime the gunboats are fighting their way up stream thru a river filled with ice and it will be several days before they can reach the vicinity of Bereznik.

### NEW SERVICE TO NEW YORK

Visitors to New York city will be glad to know that the Grand Trunk Railway are inaugurating on May 14th, a through sleeping car service from Toronto to New York, leaving Toronto 5:45 p.m. daily and arriving in Gotham at the Pennsylvania Terminal. This will be a great convenience to visitors to New York as the Pennsylvania Station is centrally situated and is in easy reach of the latest hotels and the shopping and theatre districts. Ask Grand Trunk Agents for further particulars.
