French Agree To Conference Of Reparations Experts
GERMANS TO CLOSE MONDAY

AMERICAN ASSISTANCE IS SOUGHT

Poincare Informs U. S. of Willingness to Hear Experts.
BRITISH HOLD BACK
Curzon-Hughes Correspondence is Subject of Much Comment.

(By Canadian Press.)
Paris, Oct. 26.—The French Government is willing that an international conference of experts, to be named by the reparation commission, be called to consider the question of reparations in conformity with the treaty of Versailles.

The French Government, it was said in official circles this morning, would be most happy if the Government of the U. S. would name an expert to participate in such a conference. It was semi-officially announced that Premier Poincare, in the name of the French Government, already had informed Secretary of State Hughes that he would accept an international commission of experts to determine Germany's capacity to pay, but that they must be named by the reparation commission. The British Government, it was added, has not yet accepted this condition.

British Opinion.
London, Oct. 26.—Official British opinion concerning the response of Secretary of State Hughes to Lord Curzon's reparation conference invitation is cautious and reserved. Broadly, however, there is a feeling in the Government departments that clear-out declaration of the U. S. brings an international conference on reparations appreciably nearer.

Curzon-Hughes Correspondence.
London, Oct. 26.—The Curzon-Hughes correspondence is the subject of general editorial comment in the London morning papers. The majority of the papers do not regard Secretary Hughes' statement as going much, if any, further than Washington's already declared attitude.

The Daily Telegraph heartily wishes that the U. S. was ready to join now unreservedly in regulating the affairs of Europe, but infers that nothing is intended beyond the cautious position indicated by President Coolidge a month ago.

She drifted on the rocks and Dr. Rutherford was forced to carry a young lady passenger ashore through about four feet of water. Later the boat was towed off the rocks and taken to the landing, little the worse for her stay ashore.

DR. STEINMETZ
DEAD; FAMED
IN ELECTRICITY

Physical Breakdown of Noted
Man After Trip
to Pacific.

Schenectady, N. Y., Oct. 26.—Dr. Charles Proteus Steinmetz, electrical wizard, died at his home here today. The cause was a physical breakdown due to a trip to the Pacific coast, from which he recently returned. According to the explanation given by his physician, breakfast was being served to him when suddenly his heart seemed to give way and he died immediately.

Dr. Steinmetz was regarded not only as one of the foremost authorities on electrical engineering but one of the greatest mathematicians in the world. Strangely enough, one of his greatest difficulties as a child was in learning the multiplication table.

Born in the city of Breslau, Germany, on April 9, 1865 and educated at his famous university, young Steinmetz early became interested in socialism. Two weeks after landing in America, he obtained employment in the manufacturing establishment of Rudolph Eickemeyer at Yonkers, N. Y., as a draftsman. His writings on electrical subjects began to attract attention.

In 1892 Steinmetz went to the Lynn, Mass., works of the General Electric Company. In January, 1893, he was transferred to the Schenectady works, and has since that time made Schenectady his home.

Dr. Steinmetz served for many terms as the president of national and international societies connected with the electrical industry. Harvard honored him with the degree of Master of Arts and Union College made him a Doctor of Philosophy. Since 1918, he had served Union College as professor of electrical engineering and was toward the end of his career an electrophysicist. He wrote several books.

The Red Cross Hospital Committee met this morning at the depot, Prince William street, with the president, Mrs. E. R. Taylor, in the chair. Other members present were Mrs. E. T. Sturder, Mrs. W. P. Bennett, Mrs. J. H. Doody, Mrs. G. W. J. Scott, Mrs. G. E. Barbour, Mrs. L. P. D. Tilley, Mrs. W. H. Shaw and Miss E. H. Jarvis.

Appreciative mention was made of the following donations: To the Lancaster Hospital, books by Mrs. Thomas Gilbert, Jellies, pickles and jams, from a number of Hampton ladies; to East St. John Hospital, black currant jelly, from Mrs. Hooper.

Mrs. Shaw reported one death at the East St. John hospital and the sending of flowers. Mrs. Doody reported drives for fifty of the soldiers during October. Plans were made for the Thanksgiving treat for the soldiers in hospital.

THORNTON FOR
COMMITTEE IN
MARITIMES

Halifax, N. S., Oct. 26.—That there was little possibility of the port of Halifax being used to its fullest capacity unless the people of Canada signified their approval of it by sending cables in this direction, was emphatically impressed upon the Halifax Board of Trade this morning by Sir Henry Thornton, general manager of the C. N. R.

Speaking before the Commercial Club he urged the organization of a Maritime committee representative of all sections, industries, manufacturers, commercial agencies, and, he added, religions, as a first step in the future development of the provinces.

The company have completed the installation of a large turnout on the Westmain road between Cooper's corner and Kane's corner. This will mean that the cars operating on the East St. John line will be able to pass at this junction, and will thus save considerable time making the round trip. THE BALDWIN SPEECH

The speech of the British Prime Minister to the Conservative party delegates holds up France before the world as the obstacle to a European settlement. It is a calmly worded deliverance, but the significance is not to be mistaken, and the final official response from France, so far committed to its present policy, will be of the first importance. This morning's Paris despatches indicate that the French may compromise by agreeing to a new commission of experts. There is in the Baldwin address, read in the light of the Smuts speech a day or two earlier, an intimation that if France is obstinate, action may be taken without her, or over her head.

The Prime Minister's speech has two chief features: of interest, one domestic, the other foreign. The predicted departure of Great Britain in the matter of fiscal policy is foreshadowed. Protection is to be the party policy later, and it will be gradually developed in the course of preparations for a general election, but for the present the Prime Minister sets it aside, and the question of preferences will also wait. There is, however, a definite declaration that the Conservatives will go in for protection of home industries, and what may happen after a general election, or who will then have the power to frame the country's fiscal policy, is on the knees of the gods. During the life of the present parliament there will be no change.

Such thunder as there is in the speech lies in the warning to France of the grave consequences which may follow a continued refusal to assent to and participate in the matter of a conference for the settlement of reparations. France stands accused of shutting the door against the American offer to join in such a conference, the acceptance of which Great Britain believes to be necessary if Europe is to escape falling into conditions far worse than those now existing. Premier Smuts, it is now evident, did not speak without knowing the government's mind, and what he said about France, with almost brutal frankness the Prime Minister says more politely in substance. Smuts's frequent repetition in the European settlement will now be accepted as inspired by a complete knowledge of the government's attitude. The Prime Minister reiterates Britain's determination that Germany shall not escape payment to the extent of her ability, and he says, significantly, "Nor could we contemplate the breaking off of any part of Germany into separate states, for that would at once break the treaty of Versailles. He thinks it "incumbent" that France will refuse to accept the opportunity for a final settlement which is afforded by the American offer. France at first declined that offer rather brusquely. If she accepts now, as Paris indicates she may, Britain will score and the situation will be eased—provided the degree of American participation proves adequate. On that score France is skeptical and Britain divided.

SOLDIERS ON THE LAND.

Judging by a statement regarding Canada's soldier settlers on the land—of whom there were nearly 30,000 at the end of August—made by Major E. J. Ashton, commissioner of the Soldier Settlement Board, the hard luck which has overtaken the veterans on farms in Manitoba would seem to be a special instance due to a bad crop year. It will be seen, however, that His Excellency the Governor General was in Winnipeg recently he attended a conference of G. W. V. A. officials at which relief for the Manitoba soldier-farmers was strongly urged. It was represented that a thousand would be compelled to leave their holdings during the coming winter unless help is given, and it is anticipated that a revaluation of their land will be supported by Lord Byng. Conditions are as bad there as the Winnipeg meeting indicated the chief cause probably lies in the general French shortage affecting practically the whole province of Manitoba, which hitherto has been less affected by such misfortune than any of the prairie territory. The Manitoba case steers calls for special treatment of some sort and there will be general approval for such steps as an analysis of conditions shows to be necessary.

As to the general results following the taking up of land by soldiers under the government scheme, Major Ashton makes an encouraging report. Of the 22,588 soldiers placed on farms up to September last there were 6,800 who needed no financial help. The remaining 23,200 have received in advances \$90,000,000 which they have used in payments for land, in the purchase of stock, and for buildings and other permanent improvements. At the end of 1922 these settlers had on their farms 37,391 horses, 158,938 cows, and other cattle, 45,000 hogs, 11,200 sheep, and

807,000 poultry. The value of their crops in 1922 was \$15,966,000. They do not all succeed, a condition not confined to veterans on the land. The percentage of failures last year was 16.2 and in a great many cases the lack of success was caused by illness due to their war services. At the end of 1922 sixty per cent. of the amount due on the loans had been prepaid.

Of Canadian agricultural conditions in general Major Ashton, speaking from an extensive knowledge of the country, repeats a familiar statement, which is that while Canada needs a great deal of immigration of the right kind, it is vitally important to retain on the land the farmers, and the sons of the farmers, who are already there. There will always be an exodus to the cities. It cannot be expected that all the sons will stick to the farm. But a considerable proportion will fortunately, while farming on the average yields a profit and offers such living conditions as appeal to those fitted to make a success of it. Living conditions have improved a great deal in the country of late years, and while the farmers wait impatiently the return of a better demand for their products the increasing number of motor cars among them is not a sign of despair.

Proclaiming a Rhineland republic is quite different from establishing and maintaining it, as the secessionists are discovering. In all the disturbances, the outcome of which is yet hidden, Germany finds new excuses for evading its obligations. William Beazley of Dartmouth was badly injured yesterday while at work on the dredge Ferguson of Yarmouth harbor. He was struck in the right eye by a lever and had his skull fractured. Hopes are held out for his recovery.

Lines to an Atom.

(On gathering, from the proceedings of the British Association that it is not quite such an energetic creature as was once supposed.)

O Atom (I write as a lover
Of restful and peaceable folk),
I own I'm relieved to discover
You're rather an indolent bloke.
No longer in fierce effervescence,
I gather your energies stay
Maintained in a state of quiescence;
And I think they are better that way.
I view them, I own, with less terror
Than if they were harnessed, or
hurled
(By some lifetime enthusiast's error)
To bust up the whole of our world.
Oh, vastly more noble I term it
To have strength like your own
within call—
And then just to sit down like a hermit
And calmly do nothing at all.
By all means continue to coddle
Your energies safely below,
And I think you may serve as a model
For one or two people I know;
Henceforth I shall say to the busier,
The "live wire" and similar gays,
"Oh, go to the atom, thou hustler—
Consider his ways and be wise."
—Luco in the Manchester Guardian.

was well satisfied with the progress being made. He said that the trip to the Loch Lomond road was for the purpose of finding out what work would be necessary there next year, and expressed the opinion that the East St. John road was the best in the Maritime Provinces. He said the Dominion Colonization Department was making a farm survey of the province at the present time with a view to obtaining information for use of intending settlers.

TO PUT ON DEGREE WORK.

Loyalist Temple No. 18 Pythian Sisters has been honored by being asked to exemplify degree work of the Order at the meeting of the Grand Temple which will be held in St. John next August. Announcement of this was made at the meeting of the temple held last evening in the Temple Building, Main street, with Mrs. Emma Flewelling, M.E.C., presiding. The meeting was well attended and several applications for membership were passed upon. A request was received that members should take part in the Poppy Day tagging and this was agreed to. Mrs. A. G. Brown being appointed canvasser for the taggers from the Loy-

alist Temple. Gratifying reports of the altruistic work of the Temple were received. This work included the sending of flowers to the sick and visiting at the Home of Incurables and at the Children's Aid Home. Plans were made for holding initiation ceremonies at the next meeting. Three of the largest sailing vessels in the world are at the present time in port at Campbellton. They are the Caledonia, 2,647 tons; Marlborough Hill, 2,415 tons; and the Fenris, 2,720 tons.

Farsight—Cataract

Few people, thank goodness, will have cataract. But those of us who have far-sight—that is the opposite of being near-sighted—and who neglect Glasses—are gambling for cataract. Correction of far-sight means all-round sight, clear perception near as well as far. And it is safety first, for far-sight or old-sight neglected may start the changes inducing cataract. Safeguard and pleasure in one—Glasses.

The New Models of Winter Overcoats

Are Engaging the Attention of St. John's Best-Dressed Men

The correct lines are now a trifle "boxier," having somewhat more of the characteristic English drape from the shoulder, but yet are not too loose or wide-skirted for the men who prefer the conservatively smart in dress. They are the type coats you will see worn by a great many of the most carefully groomed men. Their custom-like character is the result of needlework well done—tailored by 20th Century and other good makers.

WORK BEGUN ON THE NEW CHURCH

The contract for the new Catholic church in East St. John has been awarded to John Flood & Sons, Ltd., and the work of excavation was commenced yesterday. The intention is to complete the basement and roof it over before the winter sets in so that the basement may be used for services until the building season is open again in the summer. The building is to be of stone and of fire-proof construction throughout. The stone will be brought to the site this winter and the cutting of the stone will be done during the cold weather so as to be in readiness early in the new season. The site of the new church is on the corner of Park avenue and the Red Head road and the ground plan will be about 127 feet by 60 feet. Rev. Francis Walker is the parish priest of the newly opened parish.

Pointed Brim

A Tricorn and yet not a Tricorn. The brim turns back flat in right front pointing over far and sharp. Behind, it narrows and hugs the crown. A Goulding creation in Lacquer Brown-Lions Velvet, the soft crown divides in Gold sewn Silver strips. And where the right front brim flattens back, comes a reappearance of this bright braiding in quadrate rows. Dove Gray Duvelyn is stamped on the droop brim of another shape to resemble stamped leather. From front centre swings an everted rim of silver. Duvelyn in broad half circle. Squashed hand and Silver applique of Oak leaves and bloom.

CONCERT FOR BUILDING FUND.

An "Autumn" entertainment was given last evening under the auspices of the "We Are Seven Club" of the Victoria street church. It was held in the auditorium of the old church building. The programme consisted of concert numbers by leading talent and drills and playettes by the children of the school. The large audience was greatly delighted with the entire evening. A satisfactory sum was realised for the church building fund. Solos were given by Mr. Cooper, Miss Mills and E. Clyde Parsons and Miss Crawford gave readings. The children carried out their parts admirably and in their fancy exercises had a pumpkin drill, a harvesters drill and the three black crows drill. A short playette was nicely presented by the boys and girls and the spectacular event of the evening was the five-act harvest time playette in which the children were specially good. James E. Flewelling was the chairman. During the evening candy was sold and the proceeds, added to swell the grand total. Heartily thanks were extended to all who took

CAR IN DITCH

An automobile in which Major E. J. Mooney and members of his family were traveling to Moncton yesterday morning skidded into a ditch en route, the sloppy condition of the roads being responsible. Fortunately no one was injured although the machine itself was damaged considerably. Major Mooney was able to reach Moncton by other means in time to attend the annual meeting of the M.P.B.A.A.U. of Canada.

INJURED STUDENT BETTER.

Harry Burns, son of T. M. Burns, who has been a patient in the St. John Infirmary for the last 18 weeks has sufficiently recovered to be able to return to his home. His many friends will be glad to learn of the improvement in his condition and will hope for him a speedy and complete recovery. He was injured in an automobile accident which occurred in Waterloo street in July when both of his legs were badly crushed just above the ankle joints. He is a student of St. Joseph's University and the accident prevented his return to take up his studies. It is not known how soon he will be able to leave to resume his course at the university.

TELL TALE SYMPTOMS OF WOMAN'S ILLS

Every woman who suffers from backache, headaches, dragging-down pains, nervousness, irregularities, displacements, irritability, or despondency should recognize in such symptoms some derangement of her system which should have attention before some serious ailment develops. These conditions are often evidenced by a sallow complexion, dark circles under the eyes, lassitude and sleeplessness. For nearly fifty years Lydia E. Pinkham's Vegetable Compound has been pre-eminently successful in overcoming such conditions, and it is now recognized everywhere as the standard remedy for woman's ills.

THE "BLUENOSE"

Staunch Defender in the forthcoming International Sailing Event is finished with CANADA PAINT PRODUCTS

When the "Bluenose" sails out to defend its title against the American Challenger everything possible will have been done to make this Canadian Craft staunch and seaworthy to the last degree.

For the "Bluenose" is out to win! And to assure her winning, the men who man her are sparing no pains and neglecting no detail to make her more trim and more fit to race for Canada this year than ever she was before.

And full well have they done it where the painting of her sturdy hull, her deck floors and her stately masts and spars are concerned. They've used the most dependable and durable Marine Paints available—Canada Paint Company's Marine Products—the paints that will protect the gallant little craft against weather, exposure and the destructive action of undersea life.

And so the "Bluenose"—Canada's pride—swift, strong and graceful, will sail down the line, finished from stem to stern with Canada Paint Company's Marine Paints. Canada's Boat—"Canada Painted"—good luck to her and her stout-hearted crew!

UNKNOWN AUTHORS SUBJECT AT CLUB

Anonymous Writers was the subject of the very interesting programme at the meeting of the Eclectic Club held last night at the residence of Murray MacLaren, C. M. G., M. P., M. D., and Mrs. MacLaren, in Coburg street. There was an unusually large attendance of members and many visitors were present also. Mrs. Richard Hooper had charge of the programme and in her introductory paper she referred to the multitudinous number of anonymous writers and of the fact that anonymously written which had been compiled by several authors and in which it was stated that there were 27,000 British writers whose records the authors had looked up.

Mrs. Corlanti Robinson read the chapter from "The Gentleman With a Duster" about Lloyd George, which was an example of the work of a modern anonymous writer. Rev. Canon H. A. Armstrong's paper was a study of

WARNING AGAINST SPEEDING IS ISSUED

Special Officers Will Watch On Dry Dock Day—Parade Plans.

While invitations were publicly announced by the parade committee through the columns of the press for all organizations to participate in the big parade next Monday afternoon in connection with the opening of the new dry dock, the fact that the line-up was published yesterday in the press does not prevent any others than those whose names were published from joining in the procession provided they send in their application by Saturday evening to Commissioner John Thornton, chairman of the committee.

was working well for a most creditable turnout. As to the safety part, he said that undoubtedly there would be many automobiles traveling to and from the city on Monday afternoon, and for the purpose of making quick trips, drivers were very liable to take a chance and "step on the gas." He wished to give warning that special officers would be stationed all along the route from the city to the dry dock, and the least violation of the traffic law would be the cause of the offender being brought before the police magistrate. The maximum fine would be requested for every offender, he said.

Historic Sites In City To Be Marked

The local historic sites and monuments committee met yesterday afternoon at the office of Mayor Fisher to meet J. B. Harkin, National Parks Commissioner. Mr. Harkin explained the procedure in connection with the marking of historic sites, and said the Government would look after this. It would not be necessary for the city to deed to the Government land on which the "marker" was placed. It was decided to have the marker for Fort LaTour placed at Portland Point, and that for Fort Frederic at some point on the West Side.

Listen!

Have you heard about Peps? Peps is a scientific preparation put up in pastille form, which provides an entirely new and effective treatment for coughs, colds, chest and throat troubles. Peps contains certain medicinal ingredients, which, when placed upon the tongue, immediately turn into vapor, and are breathed down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the bronchial tubes, the delicate walls of the air passages, and finally enter and carry relief and healing to the lungs. In a word, while no liquid or solid, Peps fumes get there direct and at once commencing healing.

LEAGUE'S JAPANESE QUAKE FUND STOLEN

Box With Delegates' Contributions Taken From Geneva Palace. Geneva, Oct. 26.—A small wooden box, containing between 10,000 and 15,000 Swiss francs destined for sufferers from the Japanese earthquake, was stolen from the palace of the League of Nations some days ago. The league secretary asked the police to run down the thief. The box had been placed on a table in the large hall of the secretariat of the league. It had on it a sign, "Help the Japanese Sufferers." It remained there during the session of the league assembly and the delegates contributed freely.

Hold Fair Under BYNG'S PATRONAGE

Final reports from the various sub-committees of the War Veterans' General Fair Committee at its meeting last evening showed plans rounding into shape and details well in hand for the grand opening of the "Big Show" on Saturday evening. The committee met at full strength with Lt.-Col. W. H. Harrison in the chair. An interesting feature of the committee reports came from the publicity committee which announced that a letter had been received from Lord Byng granting the Association the honor of conducting the fair under his patronage. The band committee reported that the Carleton Cornet Band had volunteered its services for the opening night, Saturday, and would play from the head of King St. starting at 7:30 p.m. The City Cornet Band has volunteered its services for Monday and Tuesday nights, Oct. 29 and 30. Fuller's Band have also offered to play on one evening during the fair.

DISREGARD OF SIGNALS CALLED WRECK CAUSE

Head Of Tauton Division Issues Statement On Medfield Jet Crash. Tauton, Mass., Oct. 26.—"Disregard of signals" was the cause of a freight wreck at Medfield Junction which caused the death of two employees of the New Haven road, according to a statement made by H. E. Astley, superintendent of the Tauton division, at the conclusion of a hearing. Killed were W. L. Taylor of Wicford, R. L. the engineer, and H. C. Russell, head brakeman of the freight train. The testimony of various men who were on the train, as well as that of the station master at Medfield Junction, was to the effect that the caution and home signals were set against the freight train and that the engineer had received the warning, "yellow board" at the time he passed the caution or distant signal. It was a distant signal, 1,100 feet from the station, and the testimony showed the train was proceeding at a speed of about 20 miles an hour and that the engineer had sufficient time to bring it to a halt before he reached the home signal.

A. W. COVEY AGAIN HEADS M. P. B. A. A. U.

Legge is Re-elected Secretary by Narrow Margin of One Vote

Moncton, N. B., Oct. 25—For the fourth year, A. W. Covey, of St. John, was re-elected leader of the Maritime branch of the A. A. U. of C. A. C. Millie, of Halifax, was returned first vice-president; "Sammy" Doyle, of Charlottetown, as the junior vice-president, and P. J. Legge, of St. John, as secretary. Opposition was encountered in two offices. F. W. Dickie, of Halifax, was nominated against A. C. Millie. Mr. Millie won out. W. Ernest Stirling, of the Y. M. C. I., St. John, contested the position of secretary-treasurer with Mr. Legge. One measure ballot gave the office to Mr. Legge. The most important measure passed during the session was the ratification of the five months' residential clause. Budget Committee. The appointment of a budget committee to ascertain the best methods of curtailing expenses and increasing the revenue of the M. P. B. A. A. U. of C. was introduced by Mr. Quinn, of St. John. This new committee was entrusted with onerous Olympic matters—dealing with the financing of a Mar-

time team for Olympic trials and the securing of a coach for the candidates. The composition of the committee will be announced at a later date. Credentials were presented from twenty clubs, including Crescents, Wanderers, Halifax, Amherst, A. A. A., Springhill, A. A. A., Pictou, A. A. A., Kentville, A. A. A., Moncton, A. A. A., Moncton, Y. A. U. of C. in the past year. Mr. Covey deplored the lack of funds, that prevented the association from furthering its organization work. Mr. Covey in his reports stressed strongly the need of Maritime organizations in baseball, football, hockey and basketball to place Maritime teams in a position to challenge the teams of Upper Canada for titular honors. A resolution favoring such organizations was passed. Mr. Covey was congratulated upon attaining the position as first vice-president of the Canadian Amateur Athletic Union. Secretary's Report. In the report of the secretary, Mr. P. J. Legge it was stated 1,101 athletes had registered in New Brunswick; 1,200 in Nova Scotia, and 85 in Prince Edward Island. HALIFAX FANS BACK CHAMPION

Arrive in City to See the Healey and McIntyre Bout Tonight.

What is billed as the final set-to between "Neddy" Healey, Maritime welterweight champion, and "Johnny" McIntyre, his chief opponent at present, will take place this evening at the Arena as scheduled by the promoters and a good night's entertainment for the fans should be served up. Both the head-liners realize there was considerable dissatisfaction over their last bout here and they are expected to be on their tip-toes this evening to settle once and for all the question of supremacy. A lot of Halifax fans arrived with Healey and McIntyre to cheer their champion. Considerable interest also has been aroused in the appearance of "Al" Shanks, of West St. John, against "Al" Hogan, former amateur champion, in the main preliminary. Shanks was shaken up by a blow in sparring practice the other day but latest reports were that he would go on with Hogan. Shanks is rated as a comer. He will be given a good test by Hogan. The bout will go six rounds, the main one being double that. In the first preliminary it will be Shields vs. Brown. The bouts start at 8:30 p.m.

NO RADICAL CHANGES IN BROWNS, SAYS SISLER. St. Louis, Oct. 26.—George Sisler, new manager of the St. Louis Americans, asserted there were no radical changes contemplated in the personnel of the team, but he added he intended to start "intensive educational training wherever a man can be improved." He stated he hoped to play next season, but that he would not do so unless his vision was improved sufficiently to permit him to "do it well." The youngest major league manager said trades would be made very cautiously. He said no opportunities would be passed up to bolster up the pitching staff, and expressed the hope that Shocker would be with the team next year. Shocker has asked Judge Landis to declare him a free agent, as a result of his suspension last season for alleged violation of a club rule. Sisler said the Browns were weak in reserves and efforts would be made to strengthen the reserve force. "I certainly hope to play next season," he continued. "I could not play today, but my eyes have improved wonderfully, and, if the improvement continues, I ought to be ready to play in the spring." Jimmy Austin, former manager, has been signed as coach, Sisler announced.

MODEL SPRINGHILL RINK AFTER THE ST. JOHN ARENA

Springhill will have a new rink this winter, according to Munroe brothers, who are now engaged in completing the new Opera House, says the Amherst News. Construction work will be commenced at once, and it is hoped it will be available to the skaters by the first of January. The rink will be under management of Munroe Bros. It is understood that the building will be modelled after the arena in St. John—one of the best rinks in the Maritime Provinces.

the members much appreciated. The remainder of the evening was spent in some keenly contested games of badminton. The supper arrangements were looked after by the entertainment committee which had the tables very attractively decorated in correct Halloween style.

MRS. ANGLIN WAS ST. JOHN NATIVE

Widow of Former Speaker of House of Commons - Dead in Ottawa.

Mrs. Timothy Warren Anglin, widow of Hon. Timothy Warren Anglin, who was a member of the House of Commons from 1867 until 1882, died in Ottawa last evening, aged 81 years. Mrs. Anglin was born in St. John, and lived in Toronto for a number of years before going to Ottawa. She leaves four sons, Mr. Justice Anglin, the Supreme Court of Canada, and W. Anglin, K. C., Toronto; T. W. and B. H. Anglin of New York; also two daughters, Margaret Anglin, a brook actress, and Mrs. T. Hutchins, who resides in China. The funeral will take place Saturday, the body being sent to the family plot in Toronto.

Older citizens of St. John remember Mrs. Anglin as Miss McTavish, a very charming St. John girl, daughter of Alexander McTavish of the old dry goods firm of Doherty & McTavish. Their store was called the Commercial Palace, and was a building with brown stone front, standing in King street, where Humphrey's coffee store now stands. Among the clerks in this store in the sixties of the last century were William Mannary, Peter Mcweeney, John McWilliams and Francis McCafferty of the old St. John Dramatic Club. Alex. McTavish himself was a prominent citizen. He was the first president of the Victoria Rink Company. He was also a gifted singer and led a choir in St. Malachi's Hall. His home was in Queen Square, and Mrs. Anglin was born in a house that stood on the site of the present Sayre residence, built by the late Lieut. Gov. John Boyd.

She attended a private school and then received a convent education. Like her father, she was a gifted singer, and is described by old friends as a girl of very lovely disposition. She became the second wife of Timothy Warren Anglin, and they lived for many years in St. John, in a house on Waterloo street, just over the crest of the hill, which Mr. Anglin converted into a very charming residence.

Mrs. Anglin always kept up her intimacy with old St. John friends, and visited the city four or five years ago. She had two sisters, one of whom married Hugh Cullinan of St. Stephen, and now lives in Montreal; and the other married a merchant in Halifax named Dwyer. She had one brother, William, who married Miss McDonald, daughter of a merchant in Fredericton.

Mrs. Anglin's daughter, Ellen, married a son of the American Admiral Hutchins. Her husband is attached to the American Embassy in China, and they live in the city of Peking.

Mrs. Anglin was the mother of a very gifted family, of whom many citizens of St. John have cherished recollections.

ARTHUR DAWSON DEAD IN SEATTLE

Many will regret to learn that J. Arthur Dawson, formerly very well known in St. John and popular with a large number of friends, is dead. He passed away on October 19, in Seattle, Washington, where he had been in the employ of the C. P. R. in the freight department for the last 17 years. Mr. Dawson was a merchant tailor in King street here previous to going to the West. He was a member of the Knights of Pythias in St. John and also of the Log Cabin Fishing Club and the Balboog Club.
