CARDINALS ON EVE OF CONCLAVE

Choose Pope Unhindered by Outside Influence.

"Right of Veto" by Secular Governments a Thing of the Past—Selection Often from Among Least Prominent Cardinals.

Rome, Feb. 1.—The Sacred College will convene tomorrow in solemn conclave for the election of a new Pope, unhindered in the slightest degree by outside influence.

The Italian, French and Spanish governments, which formerly claimed the right of veto, have informed the Holy See, semi-officially, that they have no objection in the matter, the Italian government in addition issuing an official denial of the report that it favored Cardinal Maletti, Archbishop of Palermo.

The Italian government has no candidate, the statement said.

The French extraordinary ambassador to the Vatican, Charles C. A. Jonart, said to the correspondent yesterday that his government was expressly remaining neutral.

When asked concerning the right of veto, remarked:—"Oh, that is a thing of the past."

The Marquis de Villavieja, Spanish ambassador to the Vatican, spoke to the Italian correspondent in the same strain.

Thus, Austria being to all intents and purposes unopposed, the four countries which have heretofore been most prominent in the conclave will have no influence in the forthcoming meeting.

Baron Beyens, Belgian ambassador to the Holy See, told the correspondent that a strong feeling favoring Cardinal Lauri, secretary of the Congregation of the Propaganda was apparently becoming manifested as the conclave approached.

He pointed out, however, that those whose names were most insistently mentioned had rarely been chosen and that the Pope was certain to be an Italian, who would be selected from among the cardinals whose names had been virtually unmentioned.

The right of veto was never supported by any document or written concession, but Austria exercised, or attempted to exercise, the power at all conclaves in the nineteenth century except that which elected Leo XIII in 1878, and it did so again in 1903, when it objected to Cardinal Rampolla, Cardinal Sarto, who took the name of Pius X, was elected, and in the following year suppressed by papal bull all right of veto or exclusion by secular governments. The bull also forbade any member of the conclave from exercising such right on behalf of a government.

Cardinal Logue's Tributes.

London, Feb. 1.—Benedict XV. did all he could to bring an end to the war, remaining strictly neutral himself, declared Cardinal Logue, Primate of Ireland, to the Rome correspondent of the London Times. The cardinal explained the necessity of economy by pointing out that the late Pope "gave away every penny he could find."

Calling attention to the Pontiff's neutral efforts to terminate the war, he added:—"When we heard he could no longer do it, he devoted all his energies and money to relieve the suffering it had caused. Surely never was there a more generous Pope."

The correspondent mentioned to the cardinal that two parties had risen in the Sacred College and Cardinal Logue replied:—"I know nothing at all of parties. I shall let myself be guided entirely by the Holy Spirit, and no one could have a better guide than that."

Rome, Feb. 1.—The Lateran Apostolic, judicial section of the Holy See, according to the Tribune, is advancing a claim for the payment of the annual sum of 400,000 lire, representing various foundations instituted by Ferdinand VI of Spain, in 1783. The Lateran asserts that although the sum has been regularly paid since 1870, it has never been paid and the Holy See, therefore, demands back payments amounting to 20,000,000 lire.

SIR WILFRED'S OLD CLOCK GOES AFTER 11 YEARS

Ottawa, Feb. 1.—A clock on parliament Hill, which has been stopped for more than eleven years, was wound up and started yesterday. It was the old-fashioned time piece in the suite of the late Sir Wilfrid Laurier, now occupied by Premier Mackenzie King.

When the government changed in 1911, the system of electric clocks in all the departments operated from a common circuit was installed and the old clock at the end of eight days stopped. It has stood still the while. The new premier has had it started up again.

AWAY TONIGHT.

The survivors of the crew of the steamer Mod will leave here for New York this evening. It was not possible to get them ready to leave last night. During their stay in the city they were quartered at the Hamilton Hotel, Mill street.

THIRTY-EIGHT "IDENTIFY" MAN SURE BUT ALL PROVE WRONG

Chicago, Feb. 1.—After thirty-eight persons had positively identified him as John Harvey, suspect in an automobile swindling case, B. Ellsworth yesterday began to doubt the country jail to await trial following his identification. Soon after, his fingerprints were recorded. Then it was found that these fingerprints did not correspond to those of Harvey which were on file. Ellsworth was discharged.

The judge said that the mistake was the "most startling proof of human fallibility," he had known.

Precautions Against Influenza Taken in New Order for Lady Guests.

London, Feb. 1.—(Canadian Press cable)—With the return of King George to London from Sandringham, arrangements for the wedding of Princess Mary and Viscount Lascelles on February 28 will be finally settled. Sir Douglas Lawson, state chamberlain, saw His Majesty yesterday and publication of the order of ceremonial is expected soon. Princess Mary's bridal train is now being worn on a loom which is enclosed in a tent-like arrangement. In this way it is shielded from the gaze of workers in the same building, who are not engaged at it.

CALL OFF THE PACKERS' STRIKE

The message also advised the union men to secure their old jobs.

He said that the executive committee had decided to make the recommendation and that there would be no further concerted strike action.

Adjudgment Granted at Request of C. P. R.—News of Fredericton.

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hornbaker, "You are skating last night. We owe a great debt to the Improvement League for providing outdoor rinks with good ice every night. It was really difficult to see so many hundreds of people enjoying themselves."

"Did you see any speed skaters trying to kill the others?" queried Hiram.

"No," said the reporter, "the speed skaters were very nice about it. They only speeded when they had a clear field."

"You don't skate?" said Hiram.

"No, sir," said the reporter, "I did not realize that the people running the rink and giving prizes could not do it on tobacco tags."

"Fine," said Hiram. "An' did you hear Mr. Hornbaker say that several French skaters 'em round so you wouldn't be to pay for checkin' em?"

"Certainly not," said the reporter. "I realized that it costs money to hire men and keep the ice in condition and build check rooms and burn coal."

"Is one more question," said Hiram. "Was the police lookin' round once in a while to protect the public?"

"Well," said Hiram, "I'm glad to hear all you say. That's fine—yes, fine—yes, fine—yes, fine. What risk did you say that was?"

Putnam, all Nova Scotia members elect, are here to protest against the Intercolonial being part of the Canadian National System. They want the Intercolonial run from Moncton by a separate board of management.

The delegation is simply trying to implement promises made during the recent election campaign. The militant attitude of this delegation has greatly alarmed the advocates of one big national railway system and the government is faced with a delicate situation. The Nova Scotia members will see the premier this afternoon.

The Cligg family came here from Toronto eight months ago. Mrs. Cligg had been in Seattle for the last three weeks, returning to the hospital and Edward Cligg, husband and father, is being sought by the police here, following a brutal shooting here last night.

Some trouble developed between husband and wife over the disposal of money realized from the sale of the Toronto home, owned by Mrs. Cligg, and which Cligg induced her to sell.

In September she made formal complaint to the authorities that her husband had abused her, and the magistrates bound him over for 12 months to keep the peace.

Cligg went away with the boy, but his wife succeeded in getting the custody of the child in October. Soon after this Cligg went to Seattle and returned to Vancouver within a few days ago.

SHOOTS UP CAFE WHEN MEAL IS REFUSED HIM

New York Waiter Killed and Patrons Wounded by an Angry Plumber

New York, Feb. 1.—A cafe waiter is dead and two patrons were in a hospital yesterday because a young plumber started shooting his pistol to protest against the closing of the cafe just as Ottawa, and everything was running smoothly today although the quarters are somewhat cramped. New forms have been received from Moncton and Montreal.

That was the story told the police when they charged Thomas Gilmarin and his companion, John Ryan, with felonious assault. Gilmarin denied that he fired the gun, but waiters said he shot six times.

"I'll show you who's running this dump," Gilmarin was quoted as saying when Charles Dewolf, the waiter, told him he could not be served at a second avenue cafe because it was past closing time. The shooting began. There were six shots and many patrons dived under tables. Police found Dewolf pierced by two bullets. Two diners were less severely wounded. Dewolf died in hospital.

WAVE OF CRIME IN SOUTHERN IRELAND

Shootings, Kidnappings, Burglaries, Mail Robberies.

Appeal to the People—British Authority is Withdrawn and New Free State Government Has Not Assembled Itself.

Special Cable to the N. Y. Times and Montreal Gazette.

London, Jan. 28.—The Freeman's Journal and other Irish newspapers which cannot be accused of English sympathies are growing alarmed at the disorder which is prevalent in some parts of the Irish Free State. They are making earnest appeals to their countrymen to remember that now the good name of Ireland is at stake and not the hated Sasnach against whom the offences are now being committed.

The position is, indeed, a very difficult one. Ireland is in a state of transition. The British authority is in theory withdrawn, but the Irish provisional government has not yet had time to establish itself in the more distant districts. Moreover, it is compelled to overlook the very courts and officials whom not so many months ago it was enjoining as the instruments of British power. It has, it is true, formally taken them over and proclaimed that they are now part and parcel of the Irish Free State, but it is not surprising that one of its violent supporters are not prepared to accept so suddenly an occupation they were lately encouraged to resist.

From the reports of serious crimes which are being committed in the south of Ireland, it is not surprising that many which are connected with the seizure of automobiles and bicycles have especially sinister meaning. It may be that these steady preparations on the part of the extreme Republicans for a renewal of warfare. The time may come when the Republicans under the leadership of Eamon de Valera and Children may be using force and intimidations against the moderate followers of Griffith and Collins. Some of the Republicans, it is said, are already gathering an "army" transport against an outbreak of hostilities.

Eight Crimes in a Week

Whatever the reason the official reports show deplorable lawlessness in the South of Ireland. Below a line drawn from Clontarf to Wicklow, there have been eight crimes of importance were recorded by Dublin Castle as having occurred in the Free State.

Moreover when the lawless affected noted the seriousness of the situation in the south and southwest, in Cork, Limerick, Tipperary and Thurles, the hands of the law seem light, and certain centres like Fermoy and Thurles are again and again in the returns.

Some of the outrages speak of parsonages still unharmed. At Thurles the house of a Justice of the Peace has been damaged. In the environs of the city of Waterford the orchard of a Justice of the Peace has been cut down. At Fermoy a party of police has been three and one of them wounded. At Fermoy, County Kerry, the members of the Irish Republican Army looked on while a woman was ill-treated for several days in a Sinn Fein Court. At Fermoy, County Mayo, a constable was killed in his house, knocked down and killed by five or six men.

Kidnappings still occur. A saloon-keeper at Rathfriland, County Limerick, was kidnapped. At Fermoy a constable was kidnapped to prevent him attending the Court of Sessions, and a similar fate befell Crown Solicitor Walters at Kilkenny. Three members of the Irish Republican Army are alleged to have taken away a civilian at Fermoy, County Mayo, and a shop-keeper at Roscrea, County Tipperary, reported that he has received a threatening letter from the Irish Republican Army.

In the disturbed areas the mails are not safe. Reports of burglaries at post offices have been received from Ennis, Enniskerry and Swinford, while at several small cars have been stopped on the roads and their registered bags looted.

There have been other burglaries and robberies. A railroad clerk at Rathmore, County Kerry, had \$80 taken from him, and a private home and stealing \$200, a woman occupant to banisters and her.

Then, hinting at future trouble, comes news that in a week no fewer than 10 automobiles and bicycles have been stolen in the disturbed areas. Sometimes have been taken from private premises; sometimes a soldier riding alone been seized and overpowered; but suspicion is freely expressed that this is for a means for rapid locomotion and that the extremists are looking to the needs of the future.

Truce on January 22 a police officer had a smart fight at night, and

ST. JOHN, N. B., FEBRUARY 1, 1922. The St. John Evening Times is printed at 27 and 29 Canterbury Street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

AN OPTIMIST In an article contributed to the Toronto Globe of Monday last, Mr. W. F. MacLean, M. P., declares that "the past week has seen more progress toward better and cheaper transportation than the whole ten years previous, both in Canada and the United States." He explains that it did not all happen in a week, but that there was then a culmination of results of efforts spreading over a term of years.

THE WATERWAY The chief interest of the maritime provinces in the proposed St. Lawrence deep waterway that would carry ocean vessels past Montreal and into the lakes is in the cost of the project, which would reach \$100,000,000, with possibly other hundreds of millions to develop water power. These provinces paid their share for the building of the canals and the extension of railways to develop the west, and fondly dreamed they would get a corresponding benefit.

MONTECALM TRANSCRIPT: "Advice from Brantford says that the Massey-Harris Co. has taken on 600 men, the Cockshutt Plow Co. 500, and the Verity Plow Co. 50. That's strange; for two months ago the Conservatives were saying that such industries would close if the Liberals

"BUCKLE TO." When you need a rouger—Buckle to! Be a worker—not a grouser—Best for you! Life is not a bed of roses That the lazy fool supposes: To the grindstone press your nose—Buckle to! 'Tis a simple kind of tonic—"Buckle to!" Neither quinine nor iron—It is true: But it helps a lot to "go it!" Millionaires are proud to show it. For they've tried it, and they know it pulled 'em through!

IN LIGHTER VEIN. Too Much For Him. "Oh, what a lovely ring!" she twittered ecstatically. "But, Reginald, now that you have declared your love for me, I don't want to overwhelm you with something wonderful." "All along I have kept my various talents from you just to be sure that you loved me for myself alone. And now you are going to surprise me with some of them. I can play the piano beautifully!" And she immediately rendered Bunn-hood's "Bounce of the Babes" in a scintillating manner.

LOCAL NEWS At a meeting of representatives of the Anglican, Methodist, Baptist and Presbyterian churches of St. John, held last evening, plans for a grand opening in connection with the Inter-Church Athletic Club were discussed. POTATOES FROM ALASKA In Good Condition After 5,000 Mile Trip to New Jersey. Cape May, N. J., Feb. 1.—Ex-Sheriff John W. Rice, of Cape May Point, three miles west of this city, has received a basket of potatoes from his son, Captain Chester Rice, who is stationed in Alaska, within 300 miles of the Arctic Circle. A note attached to the basket stated the potatoes were dug from the captain's garden in October. Despite the fact that they had come over 5,000 miles they were in good condition.

FIND ACIDS IN CORN COBS. Racine, Wis., Feb. 1.—The common corn cob, which heretofore has been a waste product on the farm, may come to be considered a valuable article of commerce as a result of experiments conducted by Professors E. B. Fred and W. H. Peterson of the University of Wisconsin and reported to the Wisconsin Agriculturalist. Corn cobs, it was discovered, are rich in acetic and lactic acids, both of which are used extensively in the industries.

ADVICE TO LABOR. (Montreal Gazette.) Austin Hupson is a sincerely well known as an authority on economic dimensions an industrial process in Great Britain that anything he has to say on this subject at any time is well given it as his opinion that the way way to a higher standard of living for the worker is by more efficient production.

LOCAL NEWS The Editor—What's wrong with our report? I wrote it myself and said that you, being considered the fittest member, were elected president of your club. Mrs. Pondrose—The paper says "the latest member."

LOCAL NEWS If good-will, closer understanding and peace can be greatly concerned with employed could supervise there would at last be a penetration of light into the darker places of labor unrest. While men like Clynes pursue general principles of peaceful methods, other alleged labor leaders launch out into the old, senseless diatribes against capital and capitalism. Wild attacks on capital will never help on trade revival, without the aid of capital, is manifestly impossible. Capital in many trades has been examining next to nothing for long enough, and this being so, what useful purpose is served by labor declaiming against the greed of capital? Mr. G. H. Roberts is a well-known labor authority, and he avers that there is no truth whatever in the commonly repeated statement that employers are striving to reduce labor to the "old standards." Employers are first and foremost desirous to secure trade, many of them being fully aware that they cannot do so while costs of production stand at their present height. Labor must recognize the voice of sane leadership in its own ranks, which affirms that it must work harder and produce more. It is an essential economic theory that capital must make a profit, one way being through the co-operation of labor, exhibiting reasonable-ness and common sense.

GUARANTEES FROM RUSSIA NECESSARY Financial Circles in England Sceptical of Prospects for Trade. London, Feb. 1.—This market does not seem to be greatly concerned with the political side of the question of Russia's participation at the Genoa conference, but the recent trend of political developments in England may have strengthened the prime minister's desire to secure Russia's admission to the conference. In business circles there is undoubtedly a strong wish to do something about Russia, but recognition of the Soviet government is regarded as altogether a different matter. People here have a generally open mind upon the general question, but they are closely following developments of opinion in American financial circles, and are inclined to adopt a similar attitude.

PROW ON WOMEN SMOKERS.

Bishop Lloyd and Mrs. John Henry Hammond condemn the habit. Cigarette smoking by women was condemned by Bishop A. S. Lloyd, Bishop Suffragan of New York, and Mrs. John Henry Hammond at a luncheon meeting of the Castle School Alumnae in the Waldorf-Astoria, New York, recently. "If American women are to be leaders of the women of the world they must keep themselves without taint, and that includes the smoking of cigarettes," said Mrs. Hammond, and Bishop Lloyd said that he agreed with her. He compared European women with American women to the advantage of the latter, and said that one of the reasons for his preference is that cigarette smoking is not as prevalent among women in this country. Mrs. Corinne Roosevelt Robinson told stories of her brother, the late Colonel Roosevelt, and said that he believed that the biggest thing in life for women was to work with men and not apart from them.

YOU WOULD FLY Out of Your Skin

Especially if you wish you could. Your disease, which is sometimes called skin rheumatism, is not only a skin disease, but it also burns, oozes, dries and scales over and over again. You must thoroughly purify your blood or the eruption will continue to annoy, perhaps agonize you. Take Hood's Sarsaparilla. SPRAY WOMEN WITH ACID.

Paris Police Seek Band Who Destroy Clothes in Subway and shops. Paris, Feb. 1.—The Paris police have received 800 complaints from women claim their gowns and furs have been badly burned by acid sprayed by atomizers on subway seats and in fashionable shops. Some also claim they have suffered bodily injuries, and one woman is said to have gone to a hospital as a result of acid burns. These acid sprayers, it is claimed, have been successfully evading the police for at least two months. The operations have been difficult of detection because the acid's destructive effects are usually discovered only upon returning home, or after it had entered through the clothing and caused burning sensations. The sudden increase of these activities recently convinced the police that an organized gang of destructionists was working.

Bishop Lloyd and Mrs. John Henry Hammond condemn the habit. Cigarette smoking by women was condemned by Bishop A. S. PROPOSED NEW Y. W. C. A. BUILDING "St. John has done splendidly in its Y. W. C. A. work and there is every reason to believe that a campaign for a modern and fully equipped "Y" building in St. John will meet with the entire success it merits. No Y. W. C. A. building campaign has ever been known to fail." These were the encouraging words spoken yesterday by Miss Mabel Jameson who was Y. W. C. A. secretary in Montreal when the new Y. W. C. A. building was put up there in 1916. Miss Jameson and Miss F. Halliday, who was formerly Y. W. C. A. Girls' Work secretary at Montreal, arrived in the city yesterday on board the steamer Corcoran, having returned after an enjoyable continental trip. They are planning to establish a summer camp for girls in the Laurentians this year. Miss

BIRTHDAY PARTY. The "Golden Rule" class of the Pleasant Point Sunday school met on Monday evening, Jan. 30, at the home of their teacher, Mrs. Ernest Arbo, in honor of the birthday of one of their members, Edward Howard. During the evening a jackknife was presented to Edward by the teacher on behalf of the class. Refreshments were served and all enjoyed a very pleasant evening.

Jameson remained in St. John and will attend a meeting of the Y. W. C. A. board of directors at the residence of Mrs. John A. McAvity this afternoon to give her aid in furthering the project for the new Y. W. C. A. building in St. John. Miss Jameson told of the work done in Montreal in connection with the new building there and said that the present accommodations for Y. W. C. A. work in this city were entirely inadequate. She was greatly surprised to find the amount of progress which had been made here since she was here eight years ago. The system of three buildings in place here, she thought, was not economical.

With this very constipating diet—yet no constipation

Under the supervision of a leading scientist a remarkable feeding experiment was made. For one whole month men and women were given eggs, milk, cheese—all constipating foods—and yet they did not suffer from constipation because they added Fleischmann's Yeast to their diet.

Thousands of men and women all over the country have found that eating Fleischmann's Yeast daily gives them normal and regular elimination. Fresh yeast is rich in the elements which increase the action of the intestines and keep the body clean of poisons.

Add 2 to 3 cakes of Fleischmann's Yeast to your own daily diet. You'll soon find that laxatives are unnecessary. Be sure it's Fleischmann's Yeast—the familiar tin-tin! package with the yellow label. Place a standing order with your grocer.

MANY CHANGES EVEN IN ST. JOHN IN LAST CENTURY

An intensely interesting account of St. John, socially and otherwise, 100 years ago, was given last evening in the Natural History Society rooms by W. C. Milner, dominion architect, before a largely attended, combined meeting of the St. John Art Club and the N. H. S. Rev. Dr. D. Hutchison was in the chair, and, assisting Mr. Milner in his lecture, were Miss Ford and Miss E. Sturges, both of whom were costumed in gowns made over one hundred years ago and kindly loaned for the occasion by Miss Jack. One of them was prepared for a ball in Paris, Nevil McKenna wore the costume of Colonel Lorpwhich Jarvis, who was lieutenant-colonel of the Queen's N. B. Rangers at that period. More than a hundred articles, which had been in use nearly one hundred years ago, were on exhibition.

Mr. Frink moved, and it was carried, that the communication from the Public Service Employees' Union be taken from the table. It was then moved and carried that the report of the commission of public works regarding the rates of pay of employees be received and adopted, the new rates to be in force and effect commencing next pay day. Motions also were passed on the same object in regard to the water and sewerage and ferry departments.

Mr. Jones moved that sewerage and fire hydrant maintenance be a charge on the general assessment. He said that his department had too much to carry this year. No action was taken in regard to this.

A letter was received from the headquarters of the Boy Scouts offering the services of the scouts at any time they were needed. It was ordered that the communication be received and acknowledged with thanks.

An application was received from Armstrong and Patterson for permission to erect about 300 sheet iron signs for the Purity Ice Cream Company. In the absence of Mr. Thornton, the matter was referred to Mr. Frink and the city engineer.

PROTEST RE STREET BRIDGE

A letter was received from Charles McDonald saying that taxpayers objected to the erection of an overhead bridge in Douglas avenue at the approach to the falls until the case between the province and the C. P. R. had been decided. He asked that an hour be set when a delegation could be heard.

A bill for \$150, annual membership fee in the Union of Canadian Municipalities, was ordered paid.

The Sunshine circle of the Carmarthen street Methodist church held a "tea" at the home of Mrs. E. E. Styles, Carmarthen street, last night, and the evening was very pleasantly spent with music and games. Everybody had a good time.

At this time there were sixteen Anglican clergymen in the town, the Presbyterians had one, the Roman Catholics had three priests, and the Methodists had three. The speaker then went into detail about the churches.

He said that then the business of the city was concentrated at the North and South wharf, Market square and Water street. In the absence of steam or electric cars, locomotion was by foot or on horseback; women on pillion being a common sight. Many chapters could be written about the old coaching days and the old inns where relays of horses were kept and where a warm foot stove being used. These were six inches square and in them live coals were placed. There was no water supply and no sewerage at the time. The water was carried around to the houses and sold by the pailful. It was not until 1832 that a water company was formed and also a board of health. The streets were not lighted, except for lanterns which were hung out from the houses poles. A constable, who was elected by each ward, carried a black staff six feet long. The night watchman was called bell-man. He looked out for fires and thieves and called out the time of the night and the weather.

Mr. Milner also described a great boat race which took place in 1819, from Reed's Point around Partridge Island and return. He also told of military activity in those days. In 1818, the 104th N. B. Regiment made its famous winter march for Quebec to protect the frontiers from attack. The newspapers of that day were remarkable for their scarcity of local news, half being filled up with advertising and the other half with foreign news, clipped from other papers. After speaking in interesting detail about the government of the city and province, Mr. Milner concluded his lecture with a description of early Loyalist life.

UTILITY—first, last and all the time—is the guiding principle behind the manufacture of Ford cars. Every dollar you pay for a Ford must return 100 cents value in the service it performs.

There are no fancy trimmings—no cut glass vases, no cigar lighters, no clocks that are never wound—to swell the price. It is equipped with everything you need for service and dollar for dollar is still the biggest motor car value you can buy.

LONGEVITY THRIVED IN 18TH CENTURY

"Intimations of Death" in English Papers Show Persons 180 Years Old.

Tales of the prodigious feats of centenarian and near-centenarian ancestors have been handed down in many families for generations, until now they are accepted only as the fanciful dreams of the aged, exaggerated by retelling. A study of old magazines and newspapers, however, shows that during the eighteenth and early nineteenth centuries, remarkable mental and physical powers were attributed to very aged people.

Many such stories are found in the "Intimations of Death" found in old English newspapers. The custom in those days was to give in these notices a brief outline of the activities of the deceased as well as his position in life. These notices gave quaint pictures of life of the times. As they travel through the years they have great historical value.

Early volumes of Blackwood's Magazine tell of many instances of men and women attaining the age of 129 and even 180 years. A writer found in old Scotman who selects a few interesting examples from Blackwood's tells of the death of Mr. Derrane of Galway in his 20th year. "To the last he could read without glasses, and until the last three or four years could walk some miles a day."

An entry on May 27, 1820, shows that Anna McKee, the widow of a Kintail Drummond Castle, which is thirty miles distant, and returned the next day. "There is also a record of Samuel Jessop, who died in 1817 at the age of 65 years, "possessed of a good fortune, notwithstanding a most inordinate craving for physic." In twenty-one years this remarkable man took 228,994 pills, gradually increasing the dose until 1816,

The notice concludes, "Notwithstanding this and the addition of 40,000 bottles of mixtures and jalaps and electuaries, extending altogether to fifty-five closely written columns of an apothecary's bill, in 1820, it is recorded, Edward Smith died at the age of 75 years and "until a few years before his death it was his constant practice to ride upon a bull, and instead of smoking tobacco he had his hay salted and smoked it instead of that plant."

GOOD CHANCE

FOR US TO DO BUSINESS THERE

Prominent Mexico City Man in Ottawa Interviewing the Hon. Mr. Robb — Better Transportation Needed.

(Special to The Times.)

Ottawa, Feb. 1.—That Canadian trade with Mexico is susceptible of great development, and that Canadian manufacturers should go after it and get a part of what is now a practical monopoly of the United States, is the argument of Louis De Ibarra, barrister and business man of Mexico City, who is now in Ottawa interviewing the minister of trade and commerce, Hon. James A. Robb.

Mr. De Ibarra emphasized that the governments need transportation representatives on the spot, while Canadian houses should send their own men to Ottawa to conclude agreements without delay. If they speak Spanish, so much the better. Improved transportation is also a necessity.

The Mexican visitor draws a hopeful picture of the southern republic, saying that it now has stable government and is in the midst of a programme of general rehabilitation. This includes the development of resources, railway and highway building and harbor improvements. Mexico wants cars, steel equipment, agricultural implements, fowls, hives, power, breeding cattle and meats. Mexico exports vegetables, fruits, oil, coffee, tropical woods and great quantities of minerals from which binder twine is made.

Mr. De Ibarra says that the country is on a steady upward trend, and that it carries a reputation of Canadian exporters to the bank of Montreal. Better shipping facilities on both the Atlantic and Pacific coasts are sought.

(Canadian Press) Montreal, Feb. 1.—It was reported at a meeting of the executive of the Montreal Export Club here yesterday that Gen. Obregon, president of the Mexican Republic, was prepared to invite a party of Canadian exporters to Mexico as the guests of the Mexican government early in the spring in order to stimulate trade between Canada and Mexico.

In this connection it was said that a standing bill has been introduced to carry a reputation of Canadian exporters to the bank of Montreal. Better shipping facilities on both the Atlantic and Pacific coasts are sought.

NEWS NOTES ABOUT PROMINENT BAPTISTS

(Maritime Baptist) Dr. Henry Alfred Porter is preaching a special series of sermons on Sunday evenings on the Cross. We quote the subjects: "The Message of the Cross," "The Office of the Cross," "The Attraction of the Cross," "The Power of the Cross," "The Glory of the Cross," "The Supremacy of the Cross," "The Call of the Cross."

Rev. G. D. Hudson, pastor of the Victoria street church, St. John, received a pleasant surprise at the adjourned business meeting of the church held on January 24, when an increase of \$200 a year in salary and free telephone service were nearly voted him. The church dues for 1921 are \$1,000.00. Knowing something of the service Pastor Hudson is rendering his people, we say to him, "They served you just right."

W. W. Hamilton has resigned the pastorate of the Chester, N. S. church. The good people of Graville Centre and vicinity recently remembered their good pastor, Rev. A. Gibson. They presented him with a beautiful clock and money. This incident, together with a similar one recently reported on the part of our much esteemed fellow townsman, Rev. J. W. Manning, D.D., celebrated his eightieth birthday on Wednesday, January 18th. Dr. Manning is one of the best known ministers of the Baptist denomination of the maritime provinces and very interested in all its undertakings. As a citizen he is no less interested in the affairs of Wolfville, where The Acadian hopes he may be a resident yet for many years. Dr. Manning received hearty congratulations from his many friends and admirers, with whom The Acadian gladly joins.—The Acadian

The Maritime Baptist joins heartily in these congratulations to Dr. Manning who has so long and so faithfully and with such high purpose served his family, his church, his denomination, and the various communities in which he has lived. He has thus rendered a service which, in its scope and influence, has reached very far afield. May the remaining years of Dr. Manning and his good wife be so bright as only the blessing of heaven can make these.

PREMIER WOULD GO TO COUNTRY

Lloyd George Said to Favor General Elections Soon.

Some of the Gossip of London on the Political Situation—The Irish Settlement—Death of Two Noted Lawyers of Metropolis.

(From our own correspondent.) London, Jan. 31.—Politically the home newspapers are quite interesting just now. First we had the thrilling tidings of a general election coming next month with a convincing detail of government and party plans and arrangements, all quite obviously well inspired and official. The pleasing excitement occasioned by this announcement had about three days in which to grow prodigious; and then came Sir George Younger's almost feverish protest against any dissolution of parliament until the present coalition ministry has given practical expression to its pious intentions on the subject of the reform of the House of Lords.

One does not need to be very closely in touch with affairs, and with the endless gossip of the politicians and chamberlains, to read between the lines of these conflicting articles. We shall not go far wrong in regarding the position as follows: Lloyd George earnestly desires a general election right away. He has succeeded in convincing practically all his cabinet colleagues that such a course is at once patriotically just and politically opportune. He fears his Celtic optimism with a savour of cynicism. He has no great faith in the public gratitude, otherwise than in the sense of a very lively anticipation of favours to come. Before the cabinet's real solid achievements in Ireland and America have been quite forgotten, he wishes to appeal to the country, to which he will hold out the glad promise of sweeping national economies, the thoroughgoing spirit of the Geddes report, plus his schemes for re-establishing British trade prosperity by closing the creaking hinges of European finance.

Trouble With The Tories

But unfortunately for the prime minister, and it may be eventually for the coalition, for Lloyd George's political instinct is almost infallible. The organization which controls the Unionist party is not a member of the cabinet. Lloyd George has a persuasive way with him on the public platform; he has not nearly been so successful in the House of Commons; but his genius shines forth brightest in a tête-à-tête with no reporters present. Sir George Younger is protesting loudly, therefore, that the Unionist party must have its pound of flesh, before he consents again to go over the top with his Unionist cohorts in association with the somewhat attenuated Liberal platform. Sir George desires to be quite easy in his mind about the future of the House of Lords. So far as I can learn the majority of the Unionist party are against Sir George and rather with the Chamberlain and some of the stalwarts of the Carlton Club take the other view very strongly.

The situation is rather plangent. It would be difficult for Lloyd George to do without Sir George Younger, and it might be disastrous for Sir George Younger to have to do without the prime minister. I fancy the dispute will not be sufficiently serious to be permitted by either side to reach an uncomfortable extremity. It is quite obvious that the present moment for a renewal of the coalition's mandate in the country, and it is tolerably clear that the reform of the House of Lords, one of the most delicate questions, the coalition could possibly handle, might be far more effectively undertaken in a new parliament, fresh from the constituencies, by a coalition cemented on a firmer basis than by the present somewhat unwieldy and distinctly unready ministerial following in the House of Commons.

The die-hards alone welcome the present emergency, because they know that the House of Lords reform is about the one subject eminently calculated to split in twain the veil of the coalition temple. All this means a certain amount of manoeuvring; and when it comes to manoeuvring, with the greatest respect to Sir George Younger, all my money is on the little gentleman from Crich.

Important opinion in London is that the Dail in favor of ratifying the peace of the Dail contained, owing to the circumstances of its past election, an altogether disproportionate representation of extreme opinion. It is manifest that Ireland as a whole, far less irreconcilable than the Dail frebrand, welcomes the settlement wholeheartedly, though there may be some serious troubles ahead of the moderate leaders in Dublin, they have the solid majority of the country behind them. What the policy of the extreme party may now be it is futile for us to speculate. They certainly stand no chance of wrecking the settlement now that the Dail has accepted it. It is believed that the Griffith-Collins party is largely personal and that the president's attitude arises in the main from wounded susceptibilities. Already we find one great advantage from giving Ireland complete self-government. Once the treaty is ratified the quarrels over it no longer concern us, but are purely a domestic affair for the Irish themselves to adjust. On the whole, the situation is regarded in London as quite hopefully satisfactory.

The Dramatis Personae. Everybody very much admires the quiet statesmanship displayed by Mr. Chamberlain and the cheerfulness of Mr. Collins; and there is promise from the character of the supporters of the treaty, that the first ministry of the Irish Free State will be composed of the right kind of person. This is important, because the treaty is regarded in Ireland as the useful and the good, after so long a period of splendid moonlighting, will need both heat and candour. And candidly, Eamon de Valera does not inspire one with much confidence in this respect. He is a public orator of the first order, but behind those large horn glasses, which are so much a part of his caricature, are wonderful eyes that burn with a pure fanaticism, which is further emphasized by the narrow monastic countenance, the rather weakly austere chin, and what George Meredith would call, in the case of the late Joseph Chamberlain, "the long adventurous nose."

Mr. de Valera is the son of a Spanish artist, who married an American girl in New York, and is himself wedged to an Irish school teacher. Their six children have all been dutifully taught to speak Irish. Mr. de Valera has had all sorts of adventures, including being sentenced to penal servitude for life after the 1916 rebellion, but he is far more a scholar and a recluse than a politician. He is the mould of the complex, his destiny reduced to practical politics. It has now been discovered that during the hue and cry after him, following his melodramatic escape from jail he found sanctuary in Liverpool. One of his candid advisers told me the other day that the president would probably settle down quietly to write his reminiscences in twenty-seven volumes.

It is futile to disguise the fact that the English sentiment has recently suffered a violent reaction in its attitude towards France. We are a nation of islanders; and our policies are based upon the sea that gird us. Our real quarrel with Germany was not her land imperialism, or her commercial imperialism, but her naval menace. To have gloriously overthrown the Hun at great cost, and then to find another, perhaps more deadly, sea menace just across the channel is a frightful revelation to the average Briton. And the result is today a fever of indignation against France which is shared by the very man who fought alongside the French soldiers in the war, a fever that this feeling is shared also by the group of French intellectuals who make London their home. But the explanation of what we regard as French perversity is always the same. France desires above all things to have a guarantee against the possibility of a sequel to La Revanche. She would soon abandon her submarine plans, but a treaty of alliance. But meanwhile young France and the Lycées has given up the chance of political unity for the chouring of Chauvinism. And ever since the divorce of Church and State in France the French temperament has been subject to periodical fits of hysteria. One remembers Fashoda. One remembers Morocco. The seizure seems to develop about every three years. The friends of M. Briand, who remember him as the peacemaker, are inclined to accuse him today of surrender to the Chauvinists. He is suspected of entertaining visions of a French imperialism which does not differ materially from those of Bernhardi—against the realization of which both Frenchman and Briton believed in 1914 that they were engaged in a mutual and holy crusade.

It is pleasant to be assured, however, by those who know France well that the simple peasant population, particularly of the Northern areas, are aloof from such manifestations, and retain on the contrary grateful hearts and memories of the dark days when they learned to know Les Anglais.

Two Great Lawyers.

A sad coincidence robs us of two of our most distinguished veterans of the law at once. Lord Lindley and Lord Halsbury, a great judge and a great law chancellor, were both well on in the nineties, and both were "made" in the same year, seventy-one years ago. The more famous figure, though perhaps not the more distinguished lawyer, was Lord Halsbury, whose reign on the woolsack, which earned him the envious nickname of "The Limpet" among bittered radicals, was longer than that of any keeper of the king's conscience and the great seal, except the great Lord Eldon. Lord Halsbury was a personality of extraordinary vitality, drawing his lineage from an old Norman family of Devon, and of remarkable convictions, which were intensely conservative, or doubted his infallibility. He

golfed a little, a concession to ultramodernism, but found his real relaxation in Greek, and like most men of long life, he was a great walker in his younger days.

When he was first made law chancellor there were critics of the appointment. It is well remembered that the Times leader attacking the present holder of the distinguished office on his first appointment in 1905, had written: "The law is a hard and unattractive life down these criticisms sublimely."

Rich Lawyers. There is no other profession, I imagine, in which there is no great disparity of income as the bar. The tendency is toward the extreme. The average lawyer's income is a hundred to two hundred a year. But this average is reached by dividing up the lucrative practices among those who make only an odd guinea or so in this country offers its most successful practitioners only a few shillings a year. RUSSIA LACKING IN LEADERSHIP

Lenine Desires Return of Intellectual Section of Refugees.

Trade Still Not Free—Communist Leaders Show Daily Signs of Making Further Concessions to Hostile Majority.

Moscow, Jan. 1. (By mail)—Russia's lack of constructive leadership for its industrial and commercial reconstruction becomes more apparent every day and the necessity for inducing refugees to return is clearer to the Bolsheviks, perhaps than to non-Bolsheviks. The engineers, scientists, bankers, teachers and merchants are greatly needed.

Appetite Good, Gained 20 lbs. Could Not Feel Better

From a nervous wreck this man was restored to health, strength and happiness. He tells his own story in this letter.

Mr. Ralph A. Roberts, Loverna, Sask., writes: "The 1917 I had lost all appetite, failed 25 pounds in weight, became very nervous and shaky and in fact given up all hope of recovery. For some time I had suffered from constipation, which kept getting worse, until I was fat becoming a total wreck. Doctors and their drugs were sending me to my grave at the age of 39."

WHEAT VIA VANCOUVER. Shipments Will Increase Next Season. In Statement.

Calgary, Feb. 1.—Local grain men estimate that the total booting of wheat via Vancouver, this season will amount to approximately seven million bushels.

In the course of an interview with one of the representatives in Calgary of a Vancouver exporting house, the Canadian Press was informed that the premium that was now being paid for wheat going via the coast as compared with that for wheat shipped to ship goods at will on Russian railways. Permits are required for each shipment. It is difficult to get these permits. The rail rates is extensive. There is no insurance.

It is largely through the goods carried by hand that markets in the great cities are supplied. Railway men carry four and sugar from the Ukraine. Strike out an existence. It brings a better price in Moscow and Petrograd. Meat is also carried to the cities by railway and regular dealers who employ carriers.

The Communist party is rapidly becoming a party in the sense that the United States and England have parties. Its important leaders show daily signs of making further concessions to the hostile majority which will have nothing to do with Communist principles, or the immediate use of force to effect a concession plan of letting factories to old owners.

The building up of the far eastern republic at Chita, under Bolshevik domination, but with general elections and right of private property, is looking difficult to these. The unwillingness in Russia, even an unwillingness to revise Communist party utterly.

KEEP URIC ACID OUT OF JOINTS. Tells Rheumatic Sufferers to Eat Less Meat and Take Salts.

Rheumatism is easier to avoid than to cure, states a well-known authority. We are advised to dress warmly; keep the feet dry; avoid exposure; eat less meat; but drink plenty of good water. Rheumatism is a direct result of uric acid which is absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine; the pores of the skin are also a means of ridding the body of this impurity. In damp and chilly cold weather the skin pores are closed thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate the uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities. "Jad Salts" is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia, and used with excellent results by thousands of folks who are subject to rheumatism. Next, physics on a box for grown-ups and children. 10c. a box. Tastes like candy.

ATHOLSTAN'S OFFER NOT BEST PLAN. (Canadian Press Despatch.) London, Jan. 31.—Prominent medical authorities, including Sir Wilfrid Parker Herringham, consulting physician to St. Bartholomew's hospital, and the Earl of Athlone, chairman of the Midland Railway, write to the press pointing out that the offer of £20,000 by Lord Atholstan, of Montreal, and that of £100,000 by Sir William Veno of Manchester, to the university graduate of any city who will discover a cure for cancer within the next five years are generous, but are not calculated to achieve the desired results. They declare that the soundest way to attack cancer is a discovery cure would be to assist institutions already carrying out laborious and expensive investigations which are continually hampered for lack of funds.

**Wm. Logan Takes First for

Tebbo Second in 12-Year-
Old Class.**

St. John's junior representatives made a great showing yesterday at the International championship meet being held at Saranac Lake. William Logan won the 220 yards in the fourteen year old class, and Thomas Tebbo took second honors in the 440 yard dash for boys twelve year old.

In the senior events Charles Gorman and Frank Garnett failed to qualify in the 220 yards. In the three-quarter mile both qualified in their trial heats but Garnett failed in the semi-finals. The final will be skated today.

The 220 yards dash ended in a dispute. First Jewraw claimed he was fouled and the heat was ordered skated over again. In the final Jewraw and the skaters maintained he beat the gun. The judges' decision was that the race would stand as the men finished.

Three-quarter Mile.
The delays in the day's programme made it impossible to hold the three-quarter mile final, and this will be run off this afternoon. Among the men who qualified for this event were: Roy McWhirter, Chicago; Joe Moore, New York; William Steinmetz, Chicago; Charles Jewraw, Lake Placid; Charles Gorman, St. John (N. B.); Russell Wheeler, Montreal; Richard Dunsmuir, St. Paul; Edward Glaser, Toronto, and Gus Fets, Chicago.

The Summaries.
Senior 220 yards dash—Won by Charles Jewraw, Lake Placid; Russell Wheeler, Montreal; second, Gus Fets, Chicago, third, Time, 20 seconds.
Junior 16-year-olds, 440 yards dash—Won by Oliver Reed, Saranac Lake; Edward Reed, Chicago, second; Harold Fortune, Lake Placid, third. Time, 41 seconds.
Junior 14-year-olds, 220 yards dash—Won by William Logan, St. John (N. B.); Fred Detters, Saranac Lake, second; Harold Duquette, Saranac Lake, third. Time, 23 seconds.
Junior twelve-year-olds, 440 yards dash—Won by Jack Shea, Lake Placid; Thomas Tebo, St. John (N. B.), second; Champagne, Plattsburgh, third. Time, 36 seconds.
After an extended session the judges and referee announced late last night that the 220 yards dash would stand as the men finished, although an appeal from its decision might be taken.

DEMONTS HAD ACTIVE YEAR

Annual Meeting of Chapter Today—Mrs. S. A. M. Skinner New President.

The annual meeting of De Monts Chapter of the Imperial Order of the Daughters of the Empire was held this morning in the provincial government rooms, with the regent, Mrs. W. E. Foster, in the chair. The report on the hall held recently in the hall was most satisfactory, with \$417 cleared. The treasurer's report showed a balance of \$460.01 in the bank. The reports of secretary, "Echo" secretary, educational secretary and convener of entertainment committee, were also read. The money was handed in for a wedding present to Princess Mary, until the close of the school year. It was also decided to adopt one milk baby. A standing vote of thanks was passed to Miss Helen Smith, the retiring treasurer.

The election of officers resulted as follows: Regent, Mrs. S. A. M. Skinner; first vice, Mrs. L. F. D. Tilley; second vice, Mrs. Lugsden; treasurer, Mrs. S. E. Jones; secretary, Mrs. R. C. Crute; thank; assistant secretary, Mrs. H. B. Robinson; Echo secretary, Mrs. F. C. Jones; educational secretary, Mrs. M. C. Teed; standard bearer, Mrs. F. R. Fairweather; convener, Mrs. W. E. Foster; Mrs. W. P. Pugh; Miss Ruth Skinner, Mrs. C. A. Robinson, Mrs. A. C. Skelton.

The secretary's report was as follows: Madame Regent Officers and Members: As members of DeMonts Chapter of the Imperial Order of the Daughters of the Empire, we have once more reached the end of our official year. In reviewing the work of the year we see that our activities have been varied and numerous. In April our membership was increased to fifty, with two in the waiting list. To the deep regret of the members we lost one of our most valued members by death.

The meetings during the year have been well attended, with a larger average than last year. We have given various sums to our share of the war memorial, and now have but \$100 owing to it. Saturday before Easter we held a most successful sale of some cooking and aprons. On Empire Day four members went to Lunenburg and presented three pictures to the school there. We also gave the school a year's subscription to a children's magazine. On the afternoon of Empire Day we assisted with the entertainment for children in the Imperial, taking charge of the presentation of one of the historical tableaux. Four prizes were presented for the highest marks in history, two to St. Peter's school and two to Gledhill.

In October a very successful rummage sale was held in St. Andrew's Hall. We are contributing to the salary of the kindergarten teacher at East St. John Hospital; to the salary of the Victorian Order nurse in the Anti-Tubercular Society; and to Goddellows Fund. We had many appeals from various sources, and in response to these we voted money to the Great Mission; to the Orphan's Home, West St. John, for sleeping garments; to the G. W. V. A. for Poppy Day; to the Public Hospital for the purchase of the expenses of transportation of a family returning to England; and to assist a returned soldier in bringing out his wife and child from England.

In January we had the provincial quarterly meeting in the city, and at that meeting had the pleasure of hearing Miss Laing, educational secretary of the National Board, who spoke on the war memorial and on educational work. We are again indebted to Hon. Mr. Foster for the use of the room for our meetings.

Our annual ball and bridge was held on January 29 in the Knights of Pythias hall, and socially and financially was a great success, being very largely attended. In April our Echoes secretary wrote to the head office, asking why New Brunswick was the only province without a representative on the advisory board. As yet we have had no reply to this question.

Respectfully submitted,
EDITH O. SKINNER,
Secretary.

VERY LARGE GAIN IN THE CUSTOMS RECEIPTS HERE

The Customs returns here for January 1922 show a gain of \$41,874.88 over January, 1921. This extremely large increase is due largely to the increased importations of sugar last month. In January of last year, the refinery was not working. The rush to import liquor before the non-importation order went into effect also helped to swell the total. The figures follow:
January, 1922: customs duty, \$388,140.60; sundry cash, \$1,073.32; excise tax, \$34,377.10; excise duty, \$2,745.02; St. John pilotage fund, \$6,488.62; steamship inspection dues, \$110.00; marine dues, \$2,512.46; total revenue, \$638,617.12.
For January, 1921: customs duty, \$190,022.09; sales tax, \$7,044.46; excise tax, \$10,886.41; sundries, \$81.32; St. John pilotage fund, \$6,959.50; steamship inspection, \$211.60; marine dues, \$2,222.76; total, \$217,241.54.

PROPOSED LEGISLATION.

The bills committee of the municipal council will meet within the next few days to consider drafts of bills to present at the coming session of the legislature. One bill is to authorize an issue of bonds for permanent sidewalks and other work done in the Millford section of Lancaster. An order concerning this issue was passed at the last meeting of the council. Another bill to be considered is that providing for a fixed valuation on the plant of Ready Reverses, Ltd., and a continuation of the tax exemption arrangements with T. S. Simms & Co. The committee will also consider the views expressed at the council meeting regarding the elimination of discount where valuations are fixed and a partial elimination of the fees paid for collection in cases of this kind.

Easy Chairs for a Song!

Among the spags picked up by our buyer at the factory were a number of odd pairs of chairs and rockers at practically one-half the regular price. These are of the stuff-over variety, splendidly upholstered in high-class tapestry, with deep luxurious spring seats. The construction has not been cheapened in any way; in fact they were made to sell at double the price we are asking. Our price while they last, \$30.00 for Chair or Rocker. The number is limited, and if you want Chair or Rocker to match you should come early. Other chairs similar in style at proportionately low prices.
