

LIBERALS MET CUSTOMS HOUSE

How Lemuel Bent, a Sub-Collector, Bit Hand That Fed Him

LIBERALS DEFEND AN OFFENSIVE PARTISAN

Yesterday in House of Commons Largely Devoted to Matters of Minor Importance—Naval Debate Today.

Special to The Standard.
Ottawa, Dec. 11.—Tomorrow the great naval debate begins. By way of preparing for it the House devoted this day to very trivial party politics. The most exciting discussion had to do with a sub-collector of customs, who, according to the opposition, should not have been dismissed, however offensive his conduct, because he was a cripple. Lemuel Bent and the abrupt termination of his official career occupied an hour or more of the valuable time of the House of Commons.

Two government measures were introduced. Hon. Mr. Cochrane reintroduced the highways bill, which the senate doesn't like, and Hon. Mr. Hazen brought in a measure to amend the customs and fisheries protection act. This last is to remedy a slip in the existing law. By the treaty of 1818 Americans enjoy the fishing rights on certain portions of the Atlantic coast line, and the statute has been so drafted as to admit, not America alone, but all foreigners, to that privilege. Mr. Hazen's bill remedies this oversight.

Two government members had bills which they introduced. Mr. Burnham is anxious to assimilate the practice in the matter of candidates' deposits in Dominion elections to that of the provinces in which the constituencies are situated.

Mr. Meighen brought in a bill to alleviate conditions as to cattle killed by railways which work hardships on western farmers.

Laurier Asks Questions.
Sir Wilfrid Laurier questioned Hon. Mr. Borden as to the nature of the agreement with the admiralty to build auxiliary vessels in Canada, to give Canadian officers opportunities of serving on Canadian battleships, etc.

Having his questions on a dispatch reporting an utterance by Premier Asquith, the leader of the opposition, which he knew of, and arrangements of a general character, of which Mr. Asquith spoke were written or "vague, indefinite and not in the form of a statement in his speech."

Hon. Mr. Borden declined to go further than to say that he "had the authority" for the statement in his speech.

W. A. Charlton raised the question as to the decision of the post office to prevent the use of letters of special stamps for charitable purposes.

Hon. Mr. Pelletier explained that these stamps caused trouble to the overworked staff of city post offices, busy streets were in danger of taking the charitable stamp for the real one and allowing letters insufficiently stamped to go free. Apart from this difficulty there is an international one that several countries in the postal union refuse to accept letters bearing the private and irregular stamps of Great Britain has refused to allow stamps of this sort to be used even for use in the United Kingdom. The Canadian post office wished to follow the British example, and this year as a concession would agree to the use of these stamps for internal communication and when used to gum the flap of envelopes.

The Case of Lemuel Bent.

In ordering papers, A. K. Maclean asked for the papers connected with the dismissal of Lemuel Bent. Thereupon Mr. Rhodes took the floor. The facts as he laid them before the House were that Bent, who had lost an arm and a leg is not physically fitted to be a customs officer, being unable to handle packages, make out papers and discharge other duties of his post with sufficient rapidity and readiness. He is not a poor man, he has a good business, his family is grown up, and a local estimate of his means is \$17,000. This man was an extremely violent, bitter and offensive partisan between as well as during the elections; he allowed the custom house to be used as a meeting place where Liberal views were expressed. He was assaulting to Conservatives.

On this point Mr. Rhodes read a number of strong affidavits by men for whose respectability he vouched. Finally he had offered Mr. Bent an investigation. Mr. Bent had made no move to avail himself of the offer. The Liberal criticism amounted to this, that if the man was a cripple he was not to be removed on any account whatever, however objectionable his conduct. If that principle were adopted the party would well be appointing great numbers of violent par-

ILL HEALTH IS NOT CAUSE OF RETIREMENT

Mr. Churchill Takes Full Responsibility for Misstatement—Difference Arose Over Rate of Pay for Sailors.

London, Dec. 11.—Reports have been rife of differences between the Civil Lords and the Sea Lords of the British Admiralty, and these led today to a close catechism in the House of Commons by Lord Charles Beresford of Winston Spencer Churchill, First Lord of the Admiralty. Mr. Churchill confessed that Vice-Admiral Sir Francis Bridgeman, whose retirement from the position of First Sea Lord, and the succession of Prince Louis of Battenberg, were announced on December 6, was called upon by Mr. Churchill himself to resign. Mr. Churchill also admitted that he gave ill health as an explanation of Vice-Admiral Bridgeman's withdrawal with out having authority to do so. "I take the full responsibility for the statement," he added, and went on to say that no differences of the view of policy had led to any disagreement. Differences are said to have arisen on the subject of increasing the pay of the officers and men of the navy. The Sea Lords demanded more generous treatment for them.

While Vice Admiral Bridgeman's health is not too robust, the fact that he was riding to horse in York on yesterday tends to confirm the general impression that the state of his health does not explain satisfactorily his withdrawal from the admiralty.

MONEY TRUST TRIAL PROBES DEEP INTO COPPER OPERATIONS

Big Pool of 1909 and Other Transactions Gone Over—Many Unwilling Brokers Held for Examination.

Washington, Dec. 11.—An irate group of New York bankers and brokers surrounded Samuel H. Hefner, counsel for the banking and currency committee of the house when the committee adjourned its "money trust" hearing late today, and demanded that they be either excused or placed on the stand at once. The New York men have been in Washington since Monday and they were told tonight by Mr. Undermyer that they would have to await their turns for examination.

The specific incidents furnished the basis of the day's examination, after general statistics showing the details of operations in fourteen leading stock exchange securities during the past seven years had been placed in the record. The withholding of vast amounts of copper metal from the market during 1907 was discussed in connection with stock market transactions in amalgamated copper stock by Tobias Wolfson, assistant manager of the United Metals Selling Company. The Hefner Pool of 1909 was discussed by Perley Morse, public accountant, who went over the books of the company engaged in the pool.

Persons who were crippled, as in this manner it could get a perpetual machine whose members could not be ejected from their posts.

The Panama Canal.

Many orders for papers were passed mainly about dismissals of partisans. One, however, had to do with the Panama Canal. If Sinclair moved for it, and, in speaking of his motion, threw out the suggestion that Canada could bring the United States to reason by imposing differential duties on American ships using Canadian canals. He spoke with vigor of the American attempt to make other countries pay for building the canal, and dwelt on the injury which would be inflicted upon Canada.

Hon. Mr. Borden said that he had consulted the imperial authorities on the subject when he had been in England last summer. Hon. Mr. Foster had taken steps to obtain the views of the Canadian interests affected and these had been laid before the British government. The Prime Minister noted that Sir Edward Grey had addressed a note to Washington, but as no reply had been made he refrained from further comment. He would bring down such documents as were no longer confidential.

TWO KILLED IN A STRIKE SCAB FIGHT

Deadly Rifle and Shot Gun Fire Poured Into Unsuspecting Men.

DETECTIVE WOUNDED TWENTY-THREE TIMES.

Three Hundred Foreigners Thought Responsible for Dastardly Outrage—Many Wounded.

Hackensack, N. J., Dec. 11.—Several hundred striking Erie Railroad employees ambushed under the palisades overlooking the lower Hudson River, opened fire with a shot gun and a rifle on a boatload of strikebreakers landing at the coal docks in Edgewater today. In the pitched battle which followed two railroad detectives were killed and a dozen other men were wounded.

The men killed were: Andrew J. Gray, aged 28, of Binghamton, N. Y., captain of detectives, and Clarence Hallock, aged 45, one of Gray's men. The wounded include John D. Hyer, lieutenant; William King, of Littleton, N. Y.; William A. Woods, and Frank A. Brown, of Port Jervis, and William Hicks, of New York. All these men, like Capt. Gray and Hallock, were doing private detective work for the Erie Railroad.

Hicks is in a hospital wounded 23 times in the legs, body and chest, and King in the right ear.

TWO MEMBERS OF ALLEN CLAN GIVEN LONG SENTENCES

Sydney Allen and Wesley Edwards Will Spend Greater Part of Their Lives in the Penitentiary.

Wytheville, Virginia, Dec. 11.—Thirty-five years in the penitentiary is the penalty Sydney Allen will pay for his part in the shooting up of Carroll County Court House at Hillsville last March, when five persons, including the presiding judge, the sheriff and the commonwealth attorney were killed by members of the Allen clan, and a number of others wounded. Allen's nephew, Wesley Edwards, will spend twenty-seven years in the penitentiary.

Governor Mann today granted a reprieve until January 17 for the execution of Floyd Allen and his son Claude who were sentenced to die this week.

A WARNING TO ALL TAX COLLECTORS.

Valencia, Spain, Dec. 11.—Tax collectors are faring badly in this region. Last night the inhabitants of a village near Valencia, drenched with petroleum and set fire to a house in which several tax collectors were sleeping. The civil guard with great difficulty saved the men.

BELLONA TO LEAVE QUEBEC

Quebec, Dec. 11.—The temporary repairs have been resumed on the steamer Bellona, to enable her to come out of the graving dock next Friday. She will then be placed in the Louise wet dock for the winter.

G. T. P.'S TRANSCONA SHOPS OPEN JAN. 1.

Winnipeg, Dec. 11.—"We expect to have the Transcona shops open and commence operations by Jan. 1."

This statement was made this morning by Morley Donaldson, vice-president and general manager of the Grand Trunk Pacific Railway, when asked if it was true that a provisional agreement had been reached between his company and the government in connection with the dispute over the Transcona shops, and the operation of the Winnipeg-Superior Junction section of the National Transcontinental.

DID UNIONS KNOW ABOUT BOMB PLOTS

Prosecution in "Dynamite Conspiracy" Trial Delying Hard to Get Facts.

DAMAGING EVIDENCE GIVEN BY WITNESS.

Frank Painter of Omaha Notified McNamara of Poor Police Protection at Scene of Job.

Indianapolis, Dec. 11.—Inquiry as to whether John J. McNamara's guilt after his arrest and before he pleaded guilty of causing explosions was known to President Frank M. Ryan and other officials of the Iron Workers Union was pursued by the government in its cross-examination of defendants at the dynamite conspiracy trial today.

Michael J. Cunnane, Philadelphia, testified that he took part in a public demonstration managed by labor unions in Philadelphia, as a protest against McNamara's arrest and that he assisted in raising the \$200,000 defence fund for the McNamara brothers. He also stated he wrote letters to J. J. McNamara after the latter was confined to jail in Los Angeles. He said he was unable to recall the contents of this correspondence, but he would send to Philadelphia and produce the letters in court.

DAMAGING EVIDENCE.

Frank K. Painter, Omaha, testified that sixty days before an explosion in Omaha on July 23, 1910, he spoke to McNamara "about the fact that there were no police protection at the scene of the job" and that soon after the explosion he sent McNamara a newspaper giving an account of it.

After another explosion in Omaha on March 24, 1911, six months after the Los Angeles Times building was blown up, he testified he sent another newspaper account to McNamara.

John H. Barry, St. Louis, testified that as a member of the executive board of the Iron Workers International Union, he audited the accounts of McNamara, the secretary, but he did not know that any of the funds was used for dynamiting.

Wm. H. Quigley, Detroit, of the International Association of Joiners and Carpenters, who was held to the January session of the federal grand jury on the government's charges that he committed "a malicious and malicious act" as a witness for the defence was later released on \$2,000 bonds. Quigley is not a defendant at the trial.

HE WANTS A WIFE QUICKLY

August Seymour Who Once Pulled Teeth in Tunis Gets \$150,000 if He Marries By January 1.

Washington, Dec. 11.—August Seymour, one-time dentist to the King of Tunis and his harem, wants a wife while and capture an American for a wife, she would give him \$150,000.

An aunt, formerly of Oakland, California, told him five years ago that if he would earn something worth while and capture an American for a wife, she would give him \$150,000.

Seymour is a relative of the Castellane family made famous by the marital difficulties of Count Boni.

JOHNSON'S SCORCHED BY SOUTHERNER

Georgian Representative Used Blistering Words in U. S. House.

IRE ROUSED BY NEGRO'S WEDDING.

Demands Change in U. S. Marriage Laws But His Fiery Eloquence Fails to Carry Bill to Vote.

Washington, Dec. 11.—A denunciation of the legal procedure under which a brown-skinned, black-skinned, thick-lipped, brutal hearted African can walk into an office of the law and demand an edict guaranteeing him and his wedlock to a white woman, was one of many sensational features of a speech in the house today by Representative Roddenberry of Georgia.

He declared that "no brutality, infamy or degradation in all the days of southern slavery possessed such villainous characteristics and atrocious qualities as permission of that marriage by the laws of this country."

Mr. Roddenberry added: "We say this is a great country, with its morals, traditions, virtues and examples deserving to be emulated and envied by the other countries of the earth. But we see an African with much brutal force, with no moral character, with no stamina, in defiance of the laws of Illinois—yes—in accordance with the laws of Illinois, in defiance of the municipal regulations, in defiance of the laws of a probating magistrate or other legal officer in that city, and calling on him to issue, to me, Jack Johnson, a marriage license to wed a young American woman of our own blood, of our own color."

Chicago, Ill., Dec. 11.—Jack Johnson's attorneys, W. B. Anderson and E. H. Wright, appeared in the United States district court today to ask that their names be stricken from the records as counsel for the fighter.

The lawyers, who are both colored, said that Johnson's recent marriage to Lucile Cameron, a white girl, was disapproved by them to an extent that they did not care to be longer associated with him. Wright and Anderson represented Johnson in the white slave cases yet to be heard.

Johnson appeared in the municipal court today to answer to a charge of assault and battery brought by a newspaper photographer whom Johnson is alleged to have struck with a cane. The case was adjourned until tomorrow.

SPAIN WILL IMPROVE RATE OF EXCHANGE

\$40,000,000 to be Devoted to Work and More if Needed—Gold Standard to be Inaugurated.

Madrid, Dec. 11.—The Minister of Finance today introduced a bill in the Chamber of Deputies to improve the rate of exchange. It provides for the creation of a central fund of \$40,000,000, half of the amount to be contributed by the Bank of Spain, and half by the Treasury, and the whole to be devoted to buying and selling bills of exchange and gold bonds on foreign shores.

This fund may be raised to \$80,000,000 by means of a loan issued by the state. The bill also provides for the demonetization of the surplus of silver, and the government is authorized to establish a gold standard as soon as it is deemed advisable.

"GUNBOAT" HAD IT ALL HIS OWN WAY.

New York, Dec. 11.—The fight between Gunboat Smith and California heavy-weight ace Harry Wuest of Cincinnati, was stopped by the referee in the first round tonight to save the Ohio man from a knockout. Smith had been cautioned at the start for hitting in a breakaway and when the bout was suddenly stopped there was a mix-up at the ring-side, when many spectators had thought Smith had disqualified. Referee Joh had disallowed the fight to save Wuest.

A \$250,000 FIRE.

St. Paul, Minn., Dec. 11.—Fire which broke out tonight on the top floor of the McArthur Department Store, a three story structure facing on Seventh and Sixth streets, caused a loss of \$250,000.

TRYING TO LASH GRITS INTO LINE

Leading Stocks Sold Down Almost to Low Record of 1911—Union Pacific Very Largely Dealt In.

AN EXCITING MARKET DAY

New York, Dec. 11.—Wall Street went through one of its most exciting days of the year today. Leading stocks sold at quotations approaching the low record of 1911 and the twenty-five active railroad and industrial issues which make up the usual averages only exempt by a narrow margin reaching their level for that period.

Excitement converged chiefly about Union Pacific, which had shown marked weakness ever since the supreme court's decision ordering its divorce from Southern Pacific. Sale of Union Pacific today aggregated 235,000 shares or about 29 per cent of the total business. The stock sold off to within 1-8 of a point of its low price recorded early in the year. Sales of United States Steel were even more extensive, approaching 300,000 shares but the support accorded that stock at critical periods of the session resulted in only a nominal loss for the day. Reading was the third most active issue with a substantial net loss. Combined sales of these three stocks comprised about sixty per cent of the total output of 1,250,000 shares.

The most active of any since that which followed the presidential election. When Union Pacific was precipitately declining countless rumors and reports were current on the "what" and "throughout the financial day" none of which, however, shed any light on the situation.

TRAINMEN WANT CHANGE TO VOTE

Government Bill Which is Hoped Will Aid in Saving Their Franchise Will Be Introduced.

Ottawa, Dec. 11.—A bill providing measures whereby railway employes in Canada will be given a better opportunity of voting in federal elections is to come before parliament this session as a result of efforts now being made by the conductors, engineers, firemen and other organizations.

The plan suggested is that the present law be amended to allow the opening at each terminal point of a series of booths, representing the electoral districts in which the train employes live. The railway men want such polls opened a day in advance, so that by the time the polls close generally on election day, practically every trainman will have a chance to cast his ballot.

NEGRO PUGILIST IS ARRESTED FOR DASTARDLY CRIME

Assisted Negriss to Murder Pretty Young Actress—Was Once Middleweight Champion of England.

London, Dec. 11.—The negro pugilist Frank Craig known as the Coffee Cooler, was arrested here today in connection with the killing of Jessie McIntyre, a pretty young actress, by Mrs. Annie Gross, an American neгрess on Dec. 1. At the request a witness pointed Craig out in the court as the man who accompanied the Gross woman when she bought a revolver license.

Frank Craig came to London many years ago from New York, where he was known as "The Harlem Coffee Cooler." As a fighter he met such men as Slavin, George Gardner and Jack O'Brien. He held the middleweight championship for a time.

FRENCH BANTAM IN DRAW BATTLE.

Paris, Dec. 12.—Charles Ledoux, of Paris, bantamweight champion of Europe, and Kid Williams, of Baltimore, fought a six round draw at the National Athletic Club tonight. The fight was one of the fastest and hardest ever seen in this city. Both men took a lot of punishment and while no decision was given, the popular verdict gave Williams a shade the better of it. The men weighed in at 116 pounds at 6 o'clock.

ROYAL GEORGE SAILS TODAY

Quebec, Dec. 11.—The steamer Royal George is to leave for Halifax at six o'clock tomorrow morning. C. G. S. Montgomey, which is going to the North Shore, will accompany the Royal George to Halifax in place of the Montcalm.

MUST PRESENT UNITED FRONT ON NAVAL BILL TO SAVE THEIR FACES

Another Caucus Held Yesterday

LAURIER TODAY WILL COMMIT LIBERALISM FOR OR AGAINST AID OFFERED BRITAIN—HON. MR. HAZEN WILL FOLLOW.

Ottawa, Dec. 11.—Another opposition caucus was held this morning and the attitude to be adopted by the party when the naval debate resumes tomorrow afternoon was discussed. There was an anxious note running through the discussion. The leaders impressed upon the rank and file the necessity of presenting some sort of a united front and of giving Sir Wilfrid Laurier all possible support when he faces the government to commit the Canadian liberalism for or against the aid offered to the mother country.

SPECIAL TO THE STANDARD.

Ottawa, Dec. 11.—Another opposition caucus was held this morning and the attitude to be adopted by the party when the naval debate resumes tomorrow afternoon was discussed. There was an anxious note running through the discussion. The leaders impressed upon the rank and file the necessity of presenting some sort of a united front and of giving Sir Wilfrid Laurier all possible support when he faces the government to commit the Canadian liberalism for or against the aid offered to the mother country.

To this end the resolution which was under consideration at last night's midnight meeting was put before the caucus, still in general terms. The caucus accepted the proposal of the leaders who were entrusted to put in the final touches.

The amendment is said to be a declaration of adherence to the policy of a Canadian navy as a basis of whatever aid Canada gives toward the naval expansion of the empire, with, perhaps, the expression of opinion that if the ships are to be given they should at least be of a maintained standard. The amendment must necessarily be very general in terms in order that the various Liberal factions may all get aboard.

Sir Wilfrid Laurier will speak tomorrow afternoon and will be followed by Hon. Mr. J. D. Hazen. As Premier Borden's companion in the negotiations which took place in London last summer, Hon. Mr. Hazen is thoroughly familiar with every detail of the government's policy.

The debate begins on the motion for a second reading of the navy bill. It is unlikely that the Prime Minister will do more than formally mention it in the final touches.

Charles Dalton Silver Black Fox Company, Limited
Authorized Capital \$625,000.00
Offers for Public Subscription \$400,000 of Capital Stock
PRICE \$100.00 PER SHARE
The provincial directors of this company are Hon. Charles Dalton, former owner of the ranch, Mr. W. B. Prowse of the firm of Prowse Bros., and Hon. A. W. Warburton, Ex-Premier of Prince Edward Island.
For the finest quality of Silver Black Fox Fur the world has been looking and still must look to the Dalton Ranch. Proof of this claim is furnished by the fact that the Dalton Ranch holds the world's record for the price of Silver Black Fox Pelts, and the London market reports show that whenever the pelts from this ranch were offered for sale they always commanded the highest prices.
As An Investment Based on the Value of Pelts
While the object of this company is to raise and sell Foxes for breeding purposes, if the time ever comes when the value of dividends will be based on the market value of pelts, the following figures will show where the Dalton product will stand. In the year 1910 Mr. Dalton placed on the London Fur Market twenty-four silver black pelts which brought an average of \$1,400 a pelt.
This was the last time that Mr. Dalton placed pelts on the market with the exception of the present year when he tested the market with one pelt which brought £410 or \$1,995.30, showing conclusively that the pelts from this ranch command the highest price that the market affords.
Take then the lowest estimate of production, viz.: 50 pelts at the conservative estimate of \$1,400 each, this will net the company \$70,000 or 11 per cent. of the capital invested, and if the production reaches the normal estimate of 75 pelts the dividend would be increased by 50 per cent., representing a profit of 17 per cent. to be paid to the shareholders.
Ranch Expenses
The expenses of running the ranch are estimated at 2 per cent. of the estimated financial returns so it will be readily seen by intending investors, that there is a saving here of 23 per cent. as compared with the ordinary Fox Ranch propositions, where the ranch owner gets every fourth pup or 25 per cent. of market value, and in some cases a saving of over 31 per cent. where the ranch owner demands every third-pup or 33 per cent. of the market value.
Payments
10 per cent. of the subscribed amount must accompany all applications for stock (which in case of stock not being allotted will be returned) the balance to be paid on allotment, December 1, 1912.

AROUND THE CITY

A Presentation.
Last evening the employees of the Grand Trunk Railway Co. presented Arthur E. Ellis, who is leaving the employ of the company, with a gold locket suitably engraved. Thomas Irvin made the presentation.

Tea and Sale.
The ladies of the Victoria True Blue Lodge conducted a tea and sale in their rooms on Colburn street last evening. The proceeds will go to the Protestant Orphan Home. During the evening an interesting musical programme was carried out.

Hand Bag, Purse and Money Found.
A lady's hand bag containing a small purse and a small sum of money was found on Union street yesterday by Mrs. Murphy and handed to Officer Rankine. The owner can receive the same on application to the chief of police at the central station.

John Warwick is Better.
John Warwick who recently underwent an operation at the general public hospital which occasioned a stay of several weeks in that institution, returned to his home yesterday. Mr. Warwick speaks highly of the care and attention shown him both by the officials of the hospital and by his friends during his illness.

Police Want New Blotter.
The big police blotter at central station will have to be renewed the last of the week by a new one, as nearly every page has been filled. The present book was commenced on October 22nd, 1910, and the 316 pages have been filled since that time with a host of various prisoners and different charges.

Fined For Assault.
In the police court yesterday afternoon George Marshall was found guilty for assaulting Albert Black on Main street a few days ago, and was fined \$20. Marshall is said to have a previous police record, having been sent to Dolchester penitentiary for two years on the charge of stealing a watch.

Big Lumber Land Deal.
George McKean, of St. John, John L. Peck, of Hillsboro, and J. Nelson Smith, of Coverdale, have bought out the Prescott interests in 26,000 acres of land in Albert county, consisting of 16,000 acres of fresh land and 10,000 acres of old land. The new owners will carry on lumber operations on an extensive scale this winter.

Took One Chance Too Many.
Mounted Officer Pitt reports that there is a dead cat lying on Chubb street and as it is not a very attractive sight it should be immediately removed by the street department. A couple of men and a team of horses will no doubt be sent to Chubb street in a hurry this morning to remove the corpse which took its ninth chance and failed.

Hale and Hearty at Ninety.
Mr. Justice White yesterday entertained at dinner at his home in Sussex, a small number of his immediate relatives, in celebration of the ninetieth birthday of his father, James E. White. Mr. White was very warmly congratulated by those present and his more hearty since besides having reached so advanced an age his general health is good and his intellectual faculties remain practically unimpaired. The Standard wishes Mr. White many happy returns of the day.

Working on Adelaide Road.
The city has started work on the extension of the water and sewer system out Adelaide Road. The work is being done by the employees of the department and will be carried on through the winter. The idea of the commissioner is to keep the employees of the department employed. A certain number of men have to be kept on duty in order to cope with any emergency that may arise, and these men will do the work on Adelaide Road.

Wants to Sell a Mink.
The fame of St. John as a booster of all things provincial is evidently spreading, as the winter port season being in full swing with steamers arriving and departing almost every day. Yesterday His Worship received a letter from a man at Fredericton Junction saying that he was going to bring and hoped to get a mink. He desired the mayor to put him in communication with the fur farm at Renfrew, as he would like to sell a live mink, if he got one. His Worship supplied him with the information wanted.

A Fire Department Investigation.
Some days ago the chief of the fire department asked four of the call men of the department in the North End to tender their resignations, the reason for his action being, it is understood, that the men were working at employment which made it impossible for them to respond to an alarm at certain times. The men asked for an investigation and this was held at city hall last evening by Commissioner McLellan. After the meeting Commissioner McLellan stated that there was nothing in the enquiry.

Stole Liquor from Sand Point.
Yesterday at noon Sgt. Finley and Patrolman Lee went to Sand Point and placed under arrest Alphonse Savard, aged 23 years, and hailing from Quebec. Savard is charged by the C. P. R. with stealing three bottles of Canadian Club whisky which arrived at the Point as freight. The prisoner was taken before Magistrate Ritchie in the police court yesterday afternoon and pleaded guilty. He was remanded to jail for sentence. Savard is certainly in wrong, as he is said to have been brought here by the C. P. R. as a watchman. Instead of keeping a sharp lookout for thieves and other evil doers, he fell and became a crook himself.

A splendid article for a Christmas gift would be one of the new Patent Undershirts which are being sold at P. A. Dykeman & Co.'s. This shirt is the product of a fertile brain which saw the need of it in connection with the tight fitting skirt of the present day. It fits like a glove round the waist and hip, no fullness whatever and yet the patent is so simple you would wonder why it had not been thought of before. These shirts which Messrs. Dykeman are selling are no higher in price because of the patent fastener. They come in the finest qualities of moires and satens and are priced from one dollar to three dollars.

"NOTHING CAN STOP THE EASTERN CANADA NOW"

V. G. R. Vickers, General Manager of Dominion Express Company, Most Optimistic Concerning Future of Maritime Provinces—Will Increase Express Staff Here to Accommodate Growing Business.

"Business is certainly booming in the Maritime Provinces," said V. G. R. Vickers, general manager of the Dominion Express Company, who arrived in the city last evening after a tour of the eastern provinces. "Every body is optimistic and looking forward to continued progress in all lines. The holiday trade is breaking all records, our business at present is at least twenty-five per cent. better than it was at this time last year. The country is prosperous, and business is increasing rapidly every year. All over the country things seem to be booming, and there is bound to be a big increase in business of all lines next year. Developments have reached a stage where progress may be expected at an increasing rate; nothing can hold this country back now." Mr. Vickers has completed arrangements for the extension of the Dominion Express service on the lines of the Maritime Provinces, and it is expected the service will be inaugurated in the latter part of January.

ST. JOHN'S SHOP WINDOWS A CREDIT TO ANY CITY

Local Merchants Able to Hold Their Own with Best in Matter of Artistic and Effective Window Dressing—Window Displays Especially Good Just Now.

With the approach of Christmas the shops of the city have put on a more gala appearance than usual, and along King, Charlotte and other streets in the shopping districts there are many windows calculated to delight the eye and lure the nimble nickels from the purses of pockets of the citizens. St. John's merchants have long had a reputation for the way they keep their windows trimmed, and at present the window displays are much more elaborate and artistic than in any previous Christmas season. Along King street the character of the displays would indicate that in the merchants' views the people of the city had enjoyed an unusually prosperous year, and have lots of money to spend, and in fact most of the merchants who are catering to the Christmas trade not only report that business is better by twenty-five per cent. than last year, but that the people are buying better classes of articles for presents this year than ever before.

THE CHRISTMAS RUSH MAKES SAND POINT SCENE OF ACTIVITY

Large Grain Shipments Feature of Busy Week—Empress of Britain will Have Record Passenger List.

Sand Point now presents a busy appearance, the winter port season being in full swing with steamers arriving and departing almost every day. The grain shipment so far has been large, with numbers of apples and many other commodities are being handled in large quantities. Yesterday morning the C. P. R. steamer, *Montezuma*, Captain Griffith left for the Old Country with a large general cargo besides 205,493 bushels of wheat. This, although not a record shipment is considered by the elevator officials to be a large amount considering that the season is just under way. Two winterport steamers will leave this afternoon both carrying large grain shipments amounting in all to 170,351 bushels. Besides this, large general cargoes are also being taken. The *Donaldson* liner *Saturna*, Captain Taylor, leaves this afternoon at three o'clock for Glasgow direct. Besides 114,354 bushels of grain she will carry 500 passengers consisting of 160 cabin and 340 steerage. The *Lake Erie*, Captain Carey, also leaves this afternoon. The *Lake Erie* is under charter to the Allan line and her grain shipment consists of 56,000 bushels besides which she carries a large cargo of apples and lumber to London and Havre. The Christmas trip of the C. P. R. royal mail liner *Empress of Britain* promises to go on record as being one of the largest in the history of the now famous Christmas boats. It is expected that over 2,000 passengers will return to their native lands for the holiday by this steamer. Although the giant liner does not sail until Friday afternoon already special trains are arriving from the west. Yesterday the Montreal train came in in three sections while the same conditions will prevail today and up till the time the steamer sails.

Officers Elected.
There was a good attendance at the regular meeting of the Royal Arcanum No. 133 in their rooms, Charlotte street, last evening when the following officers were elected for the ensuing year: Representative to grand council, A. C. Currie; Alternate, A. G. Barbour; Regent, T. Andrew Ramsey; Vice-regent, L. L. Patchell; Orator, T. Albert Linton; Past regent, A. C. Currie; Secretary, D. McNally; Collector, W. S. Clawson; Treasurer, Wm. A. Watmore; Chaplain, H. E. Conroy; Guide, R. E. Strange; Warden, W. F. Rowse; Sentry, H. H. James; Trustees, A. D. Barbour, H. W. Woods and James H. Frink.

SLEUTH HERE AFTER CROOK

Pinkerton Man on Trail of New York Bookkeeper who Stole \$11,000 and Fled this Way.

A Pinkerton detective from New York was in the city yesterday on the trail of a bookkeeper of a big New York piano company who left the American metropolis a few days ago, taking \$11,000 with him. The detective, by watching a brother of the refugee, learned that he had fled to Montreal and then came to St. John. The Pinkerton man made enquiries at the local hotels and learned that a man answering to the description of the missing bookkeeper was in the city on Friday. The man had registered at a hotel on King street, and George Fox, after comparing samples of the missing man's writing with the signature the detective carried, was likely that the man he was searching for. The detective did not disclose the name of the firm he was working for, but he cut out the signature of George Fox from the hotel register and took it away with him.

MONSIGNOR STAGNI HOLDS RECEPTION

Apostolic Delegate Met Many Men of Local Parishes Last Night—Will Go to Halifax Today.

His Excellency Monsignor Stagni, apostolic delegate, who leaves St. John this morning, held a reception for the men of the Roman Catholic parishes in the Bishop's palace last evening from 8 to 9 o'clock. On entering, the visitor was presented by Rev. Dr. Meahan. Although the number presented was large, Monsignor Stagni took time for a personal word with all, and the warmth of his reception and his pleasing manner impressed all who were fortunate enough to meet him. During the evening the City Cornet band visited the palace, and after being presented individually assembled on the lawn in front of the building and serenaded the distinguished visitor.

ARCHBISHOP CASEY ENJOYING PLEASANT HOLIDAY IN BOSTON

His Grace Welcomed by Hundreds of Former Friends—Is Presented with Copy of Raphael's Madonna.

In last Sunday's issue of the Boston Post, there appeared the following concerning His Grace Archbishop Casey: "Coming here from his old diocese of St. John, N. B., Archbishop Timothy Casey who has been elevated to the Archdiocese of Vancouver, B. C., has been a visitor in Boston, and is now on his way to take up his new duties in the western province. While here he was the guest of the Right Rev. Mr. Denis O'Connell, D. D. He also visited relatives in the South Boston district. Archbishop Casey is one of the latest appointees of Pope Pius to the position of archbishop, and is one of the best known prelates in Canada. As an art collector he takes first rank in the Dominion. It is said his collection is worth in the vicinity of \$1,000,000. While in Boston Archbishop Casey visited the Art Museum and some of the private galleries. At the studio of Mr. P. E. Duffee at 500 Boylston street, His Grace was presented with a beautiful copy of the recently discovered Raphael's painting of 'Mary and the Infant Christ.' In this particular picture of Raphael's Archbishop Casey has manifested considerable interest and owing to this fact Mr. Duffee has had a beautiful imported copy of it turned over to him to place in his collection. Archbishop Casey is well known in Boston by hundreds of people who at some time in their lives have been in his old diocese of St. John, which extended over a wide area in New Brunswick. He has been in that diocese 28 years, 12 as bishop. On Nov. 30 last, he was tendered a great reception in the cathedral of the Immaculate Conception, St. John. Thousands turned out to do him honor. Last week he started on his journey, coming to Boston to visit relatives and incidentally to stay over night with his old friend, Mr. O'Connell.

Sudden Death of Negro.
Thomas Johnston, a colored man, who has been the proprietor of a Sheffield street house for many years, died rather suddenly last evening. The man had been sick a few days, but his friends did not anticipate that he was seriously ill and last evening he suddenly passed away. Sergt. Scott of the police force, notified Coroner Berryman of the death and that official will view the remains to determine if an inquest is necessary.
