WARNS CANADA AGAINST TRADE UNDER ORDERS

Ernest Lapointe, Quebec Liberal Leader, Declares Gov'ts Make Poor Traders.

PLEADS FOR UNITY OF RACE AND CREEDS

Predicts Canada Will Make Rapid Return to Normal Trade Conditions.

Quebec, Que., June 8.—A denunciation of the principle of government interference in private business activity and the natural operations of trade, was made this morning by Ernest Lapointe, leader of the Quebec Liberal members in the House of Commons before the Canadian Manufacturers' Association at a luncheon tendered him at the Chateau Frontenac by delegates attending the annual convention of the body now in session here. Mr. Lapointe argued that economic normality after war conditions could be brought about by the government keeping to its proper duty of keeping the field clear for the operation of the ordinary law of supply and demand.

Poor Traders. Governments, said Mr. Lapointe, made poor traders, were indifferent industrialists, and were poor railway operators. Mr. Lapointe said that Canada, with its health, youth and vigor, would recover quicker than any other country. Mr. Lapointe gave these three points as basis for all conditions to aim at achieving: freedom of individual action, confidence as between employer and employee, and a policy of national unity. On the first he said that everything accomplished in the world had been achieved by private initiative.

Let Business Alone. The government had better leave the business man alone. Civilization did not warrant the idea that people had to be vast aggregation of wards. Mr. Lapointe urged the manufacturers to reach out into foreign markets and give instances of where United States firms were selling Canadian-made goods and making a profit out of them. After claiming that full confidence should exist between the classes in society, Mr. Lapointe apologized for the use of the word "classes" and said it should be abolished from the Canadian vocabulary. There should, he stated, be no antagonism between capital and labor.

WOMEN SHOT IN DUBLIN FIGHTS

Four Civilian Ladies Victims of Wild Shooting Upon Police Lorry.

Dublin, June 8.—Three separate attacks with revolvers and bombs were made on a police lorry here today. One civilian was killed and seven civilians of whom four were women were wounded. In addition five constables received wounds.

Guard Station Raided. Dublin, June 8.—A report issued from Dublin today said the coast guard station at Ballydonagan, County Cork, had been raided by armed masked men who set it on fire and destroyed it.

At Knocktime, Tipperary, Patrick and James Ryan were taken from their beds and shot. Patrick was killed and James wounded. The house in which they lived was burned to the ground.

In a roundup Tuesday in the vicinity of Millstreet, County Cork, three men attempted to evade arrest. They refused to halt when ordered to do so and were shot and instantly killed.

MAY OUST DE VALERA FROM ULSTER HOUSE

Ground for Voiding His Election Will Be That He is An Alien in Ireland.

London, June 8.—Practical action has been instituted says the Evening News today, with the view to making void the election of Eamon de Valera, the Irish Republican leader, as a member of the new Ulster parliament, on the ground that he is an alien. A leading firm of Belfast lawyers, according to the correspondent, has been engaged to investigate de Valera's antecedents and already steps are afoot for the collection of evidence in the United States and elsewhere, especially from de Valera's speeches on the subject.

TROOPERS GET DESERTER WHO HID FOUR YEARS

Staged Fake Breakdown of Their Auto and Called for Help.

CAUGHT THEIR MAN OFF GUARD

Had Loaded Rifle Near But Did Not Get Chance to Use It.

Middletown, N. Y., June 8.—John Tillison, who was arrested in Sullivan county by State troopers on the charge of desertion from Camp Gordon in December, 1917, had lived and hidden himself four years in the mountains. Although it had been known for a long time that Tillison had been making his rendezvous in the mountains, attempts to arrest him were unsuccessful. On one occasion the officers were so close to him that when they entered his shack by one door he escaped by another, the bunk where he had been lying being still warm.

Started Auto Engine. Troopers Blunt and Drum arrested the man. In civilian clothes and with two Neversink men familiar with the little frequented country they followed the road to the domicile of Henry C. Smith, brother-in-law of Tillison. Just before they reached the Smith home, the police say, they stalled the engine of their car. After several minutes of unsuccessful effort to start the motor Tillison's brother-in-law, a boy of 18, came out to assist them. They asked the youth if there was some one about the place who could repair an automobile.

The boy said his brother-in-law could, but mentioned no name. Young Smith was sent to the house to ask the brother-in-law to help the motor. The fugitive was wary of strangers and sent back word that he was busy. This assured the troopers that they had found their man. Found Their Man. Blunt and Drum then went to the house. Drum remained outside and Blunt and the two guides entered. Blunt informed Smith of his mission, but Smith at first denied the presence of Tillison, although later he admitted the man might be about. Blunt tried a door and found it locked, but Smith opened it and Blunt saw two men, one of whom ran. Blunt overtook the latter, who was identified as Tillison. The fugitive was taken to Monticello and lodged in the jail. Later the troopers turned him over to Capt. Hibbs, Adjutant at West Point.

The troopers who searched the room in which Tillison was discovered, say they found a 37-55 Springfield rifle containing eight shells.

CRUSH PLOT FOR REVOLT OF MEXICANS

Leader Was Captured and Then Shot as He Attempted to Escape.

GENERAL-IN-CHIEF EXECUTED PROMPTLY

Grandson of Mexico's Liberator Was Scheduled to be Provisional President.

Mexico City, June 8.—Investigation of a revolutionary plot in the State of Oaxaca, which terminated with the deaths of General Fernan Vizaino and General Gonzalez C. Ehringo, the alleged leaders, indicates that it had ramifications in all parts of the republic. The date for the uprising had been set for last Monday. The plans, it was said today by the war office, had been laid for simultaneous outbreaks that day in Guadalupe, Torreon, Chihuahua and several other smaller cities, but the arrest of most of the leaders in the city of Oaxaca last Saturday made attempts to carry out the programme impossible.

Killed While Escaping. Ehringo was captured in Oaxaca and was shot while attempting to escape from prison. Vizaino was captured in Mexico City and executed within six hours when documents were said to have been found implicating him as the general in chief of the Oaxaca revolt.

An interesting phase of the programme of the rebels is said to have been the selection of Joseph Schanz Jaurezo, a grandson of Mexico's liberator, as provisional president of a new republic. Numerous arrests of alleged plotters have been made.

Nova Scotia Masons Gather At Digby

Church Parade to Holy Trinity Follows Welcome by Civic Authorities.

Digby, N. S., June 8.—The next annual communication of the Grand Lodge of Nova Scotia will be held in Lunenburg, I was decided by the delegates to the Grand Lodge convention here today. Reception of eminently satisfactory reports from various committees and the presentation of an official welcome to Mayor H. T. Wane, this morning, occupied the conference for the day.

Rev. William Driffield, past grand chaplain, assisted by Worshipful Brother Lawrence, grand chaplain of New Brunswick, conducted the church services.

J. D. T. MacKenzie, grand master of New Brunswick, accompanied by his official staff and received and welcomed during the afternoon on the introduction of past grand master Charles R. Smith and John Ya.

Americans Impose Duty On Lumber

Washington, June 8.—The Ways and Means Committee of the House this afternoon decided to include in the permanent tariff bill a duty on lumber similar to that imposed by Canada upon lumber sent to the Dominion from the United States. This is 25 per cent. The proposal was bitterly opposed by several of the committee members and it was adopted only after a lengthy fight.

Pullman Strike Ballot Recalled

Chicago, June 8.—The strike ballot circulated among the shop forces of the Pullman Company in more than eighty cities, which was to have been voted and returned Friday, was today recalled, following a conference of Pullman employees representatives with the railway employees department of the American Federation of Labor.

Longshoremen Insist Upon General Scale

Halifax, N. S., June 8.—Longshoremen in the United States will probably insist on renewal of their universal agreement with employers on its expiration on Sept. 30 next, it was learned here tonight. President Joseph Ryan, of the Atlantic division of the Longshoremen's Association, at present holding his annual convention in this city, indicated that a conference between employers and longshoremen in connection with the working agreement would be held in New York about the first of September.

GENERAL STRIKE ENDED

Christiania, Norway, June 8.—The general strike here has been declared ended and work will be resumed Friday, except by the stokers, engineers and dock workers. They will remain on strike pending mediation negotiations.

DEMAND LENINE HAVE UNIONIST CABINET FORMED

On These Terms British and German Capital Ready for Soviet Trade.

ONLY MONARCHISTS TO BE LEFT OUT

Lenine May Come to Berlin and London to Complete Agreement.

Berlin, June 8.—Early collaboration between a group of German and British capitalists for the purpose of exploitation of Russian Soviet is believed here to be certain. It is understood that an agreement has been reached in the past few days between the National Trust Co. of the United Mine Workers, District 26, confederated representatives of the National Trust Co., acting for the bondholders of the Inverness and Railway Co. here in an effort to arrive at some permanent agreement with regard to working conditions and wages in the operation of the Inverness mines. A three months' agreement with the United Mine Workers, which permitted the re-opening of the mines under special labor conditions in March, has now expired.

F-3 Flying Boat Over City Today

Airship to Leave Halifax at Dawn on Flight to Ottawa.

Halifax, N. S., June 8.—Weather permitting, an F-3 flying boat, one of the giant bombers used by the Royal Air Force in the late war, will leave the Eastern Passage Air Station here for a flight to Ottawa at dawn tomorrow morning.

Col. R. Leckie and Capt. G. O. Johnson will pilot the machine. Colonel R. Leckie said tonight he did not know what stops would be made, this depending on petrol and the weather.

The F-3 flying boat will engage in survey work, assisting in a survey of the St. Lawrence for the International Joint Waterways Commission, which has under consideration a proposition for widening the river.

Many French Troops Released From Ranks

Paris, June 8.—The minister of war has ordered the demobilization of the class of 1919, now with the colors, all soldiers who previously have served in foreign operations, those who have had a father or two brothers killed in the war, and all those having a brother in the army.

CONGREGATIONAL CHURCH VOTES FOR UNION TOO

Almost Unanimous Vote Recorded by Union at Its Annual Meeting in Montreal.

Montreal, June 8.—Organic union with the Methodist and Presbyterian churches was approved practically unanimously by the Congregational Union of Canada, in session here this afternoon. The resolution embodying this decision to forward to the Presbyterian General Assembly meeting at Toronto.

JOBLESS PAY FOR ENGLISH REDUCED NOW

Dole to Men is Cut from Twenty to Fifteen Shillings Weekly.

SMALL ALLOWANCE FOR WOMAN ALSO

Government Compelled to Reduce Pay Because of Financial Crisis.

London, June 8.—The government is rapidly shedding its financial responsibilities in pursuance of the policy of retrenchment. Most surprising is the repeal of the agriculture bill which was passed only last December and came into force on January 1. It granted minimum prices to the farmer for his produce and was estimated to entail a subsidy amounting to over £20,000,000 to £30,000,000 yearly. These guaranteed prices will terminate with the next harvest.

Cut Jobless Pay.

In the House of Commons tonight the government introduced a bill reducing unemployment doles from twenty to fifteen shillings weekly for men and from sixteen to twelve shillings for women, and at the same time increasing the contributions from both employers and employees. T. J. McNamara, minister of labor, introducing the bill explained that owing to the enormous increase in unemployment through the coal strike this insurance had become insolvent, the government paying £2,000,000 weekly and receiving only \$50,000.

Inverness Miners And Owners Meet

Conference to Agree on Wage Scale Will be Continued Today.

Halifax, N. S., June 8.—Delegates from the Towns of Inverness and the National Trust Co. of the United Mine Workers, District 26, confederated representatives of the National Trust Co., acting for the bondholders of the Inverness and Railway Co. here in an effort to arrive at some permanent agreement with regard to working conditions and wages in the operation of the Inverness mines. A three months' agreement with the United Mine Workers, which permitted the re-opening of the mines under special labor conditions in March, has now expired.

Company is Willing

Mr. Lawrence Kilham, representing the National Trust Co., said tonight that the company was willing to consider any reasonable arrangement that would assist in keeping the mines running.

Poles Defeated By the Germans

London, June 8.—Fighting at Kaniw, Upper Silesia, Monday night resulted in the repulse of the Polish insurgents with very severe losses after they had made five counterattacks on the correspondent of the Daily Mail. The Germans took 1,700 prisoners. There were wild scenes when these prisoners were taken into the town.

Trails Minister To Talk Roads

Hamilton, Ont., June 8.—Gordon C. Wilson, M.P., for Wentworth, referring to the refusal of Hon. F. C. Biggs, minister of public works for Ontario, to meet him on a public platform and debate matters in connection with highway construction, said tonight that he would follow the minister around, if his challenge was not accepted, and hold a meeting at every place in which the minister held a meeting.

"Carmania" At Halifax

Halifax, N. S., June 8.—Twenty minutes behind her anticipated time of arrival, the Cunard liner Carmania, Captain J. R. Melanson, dropped anchor at Quarantine here tonight. The steamer is expected to dock at seven o'clock tomorrow morning and land 328 passengers before proceeding to New York. Among the passengers who will land are Mr. and Mrs. Robert Reford, Mr. Reford, head of Robert Reford, Ltd., and a director of the Cunard Line, is returning from a business trip to England.

HASTINGS BOY DROWNED

Belleville, Ont., June 8.—A two-year-old son of Mr. and Mrs. Edward Winters, of Otter Creek, Hangerford Township, met death by drowning. The child whilst playing around, wandered to a creek near the house and fell in. When found by the mother life was extinct.

FORGET THE WAR AND WORK, SAYS GERMANY

Memories of Battle Fields Can Do Nothing for Germany Now Says Wirth.

Berlin, June 8.—"It is not memories of battle fields or new wars that point out our future path or destination; only intense work and production will help us win back liberty for the Fatherland," Chancellor Wirth thus addressed a plenary session of the members of the House today in an appeal to that body to support the new government's programme for carrying out the terms of the London ultimatum. The Chancellor briefly outlined the new tax measures which the cabinet is drafting, and which will be presented for the approval of parliament next week. He assured his hearers that he was opposed to indulge in experiments.

ANTI-UNIONISTS FAIL TO RE-OPEN CHURCH PROBLEM

Moderator Rules That Case Was Settled When Vote Was Taken on Tuesday.

ANTI'S WANTED NEW REFERENDUM TAKEN

Report Adopted to Proceed Towards Union as Expeditiously as Possible.

Toronto, Ont., June 8.—The reply of the special committee which was appointed to examine the charges in Dr. Scott's protest was read to the Assembly by Principal MacKay of Winnipeg, co-ordinator of the committee, this evening. The findings exonerated the assembly, entirely of improper action in bringing union to its present stage.

Toronto, Ont., June 8.—The last ditchers of the Anti-Unionists made another attempt in the Presbyterian General Assembly today to have the Church Union issue referred again to the people for a decision, and failing in this, they entered a formal dissent from the action of the assembly, holding that the assembly had no constitutional authority to disband the Presbyterian church or transfer its property. The dissent was referred to a special committee for a reply. As a result of the vote of 414 to 107 for union yesterday, the Moderator announced on the opening of this morning's session that the next step would be the formal adoption of the motion to "proceed towards union as expeditiously as possible," and to accept or reject the balance of the union committee's report.

The New Amendment

Dr. Banks Nelson immediately moved a new amendment to the motion as follows:—"That whereas it is six years since the mind of the members of our church was taken on the question of organic union, that this General Assembly take, at the earliest possible date, a referendum on the question of union." Dr. Gordon, the moderator, said the amendment brought up in a little different form a proposal that had been rejected by yesterday's vote, and he ruled it out.

The second, the Hon. R. M. MacGregor, of Nova Scotia, tried to argue that it was a new issue, but made no headway.

Rev. Dr. Scott

Dr. E. Scott reminded the moderator that he had promised, early in the debate, to accept any amendment, and the moderator replied that he would accept any amendment that would not introduce an issue already settled. "I must decline any motion calling for a new mandate for the people; we settled that point yesterday," said Dr. Gordon. Dr. Clark then moved the adoption of the balance of the union committee's report clauses by clause, which was done with three minor amendments.

Report Next Year

Clause three of the report read:—"That a representative committee be appointed with instructions to confer with the negotiating churches; and to carry out the policy of this assembly," to which was added by amendment "and to report to the next general assembly."

Railroads Did Not Call June 16 Meeting

Montreal, June 8.—C. P. Middle, general secretary of the General Railway Association, stated today that his organization had nothing to do with the conference of employees, scheduled to be held at Ottawa on June 16. Mr. Middle added that a conference had been arranged for between the Railway Association and the general committee representing the shops crafts of practically all the railroads in Canada, to take place during the next two weeks.

HARDING SEES WORLD LESSON FROM AMERICA

Nations Should Study Fortless Frontier Between Canada and United States.

DEDICATES WORLD TO KEEPING PACE

Urges All to Help Restore Stability Where Nothing is Secure from Radicals.

Washington, June 8.—President Harding, delivering a commencement address today at American University here, found the subject of world peace occupying so prominent a place on the programme that he was prompted to depart from his prepared manuscript and declare for the preservation of peace by sovereign states, without the interference of a world "super power." The President's remarks followed an address by Hon. N. W. Rowell, of Canada, who suggested that the best contribution North America could make to civilization was "for men on this side of the water" to attend together, behind the movement for peaceful settlement on international disputes. Another speaker who touched on the question of peace was J. J. Jusserand, the French ambassador and the general discussion developed such a trend that Bishop John W. Hamilton, presiding, referred to the gathering as "a peace conference."

President's Message

"I do not think I could let this occasion pass," said the President, "without giving assent to many of the appropriate and feeling things just uttered by Mr. Rowell. I liked his expression that American and Canadian ideals are in common. When he spoke about the North American contribution to present day civilization and to the world, it occurred to me that the example of two great peoples living side by side in peace, in conference and in mutual understanding is about the finest contribution that the two nations could give to the world. "I have said on many occasions that if all the nations of the earth were as honest and unselfish as our republic that never would be another war. I will revise it today and say that if all the nations of the earth were as unselfish and devoted to their ideals as the United States and Canada there never will be another war."

Fortless Frontiers.

"But if I may say without a discordant note—for there is none in my heart—call attention to the fact that the United States of America and the Dominion of Canada have dwelt side by side and settled their controversies satisfactorily without resort to a superpower but by the exercise of the sovereignty of free peoples dealing with one another. If we can commit civilized humanity to solving right-woonness and overruling justice and inspire them with our example, we will have made a long stride toward the peace of the world."

With that Mr. Harding plunged into his prepared address, in which he exhorted the graduates of this June all over the United States to dedicate themselves to the task of restoring stability in a world where "almost nothing" remains secure from the attacks of iconoclasts. He said, he never before had such need of sober, unselfish leadership.

GERMAN GENERAL STOPS ADVANCE

Upper Silesian Officer Assures Allies He Will Not Order Any More Advances.

Paris, June 8.—General Von Hoerber, head of the German defense forces in Upper Silesia, has formally assured the Allied officials in that region that his troops, which advanced several kilometers on the Annaberg sector after the insurgent attacks of Friday and Saturday last will advance no further, says a despatch from Berlin today. General Von Hoerber's assurance came as a result of the Allied ultimatum of Sunday last, which threatened that unless he withdrew his forces, the French troops in the industrial section of Upper Silesia would be withdrawn.

WARNS CANADA AGAINST TRADE BY GOVERNMENT

Ernest Lapointe, Quebec Liberal Leader, Declares Gov'ts Make Poor Traders. PLEADS FOR UNITY OF RACE AND CREEDS Predicts Canada Will Make Rapid Return to Normal Trade Conditions.

(Continued From Page 1) He pleaded for unity between province and province and race and race in Canada. No society, he urged, could be successful if its members did not co-operate. Canada was a hard country to govern and only because it has been the will of Providence that it was to be developed by a people of different races and creeds. There was need for a display of good will, tolerance and charity. He was himself a lover of the province of Quebec, from whose hard settlers he had sprung, but his love for this country, knew no provincial boundary. They must have a spirit of patriotism endearing the provinces to each other, and unless this was in evidence there could be no genuine Canadian nation.

Leave Racial Lines Alone. Of course, while political parties existed there would be struggles, but they might be less unfair and unjust. But no more pernicious fallacy existed than the dream of building up a country monotonously uniform, with the same customs, habits and enjoyments or lack of enjoyments. It was true, as Gladstone had once remarked about the Welsh, that to destroy racial characteristics in a nation was as wasteful of philosophy and one of the worst political blunders. Quebec was a great asset in the dominion. Like the St. Lawrence river, its surface might occasionally be ruffled, but it always kept on in the same channel towards truth and justice.

Insurance Question. Discussing the insurance committee's report, W. H. Shapley, Toronto, said that with premiums amounting to \$44,776,032 in 1920, and fire losses of \$24,720,580, it seemed insurance was a pretty profitable business. He was strongly of the opinion that insurance was costing too much and more heavy on smaller manufacturers. They should combine to reduce the enormous fire losses, which were greater in Canada than in any other country, and were nothing less than a crime. Mr. Parsons said allowance should be made for the cost of doing business of insurance companies. The cost amounted to 32 per cent. of the premium and not more than six per cent. profit was made. Whether the companies' method of doing business was extravagant was another matter.

Too Many Agents. W. S. Fisher, St. John, said there were too many insurance agents. When the legislative committee report was debated, J. R. Shaw, Woodstock, Ont., said such amateurish and non-sensical legislation was being passed by several governments that business was afflicted and they would be better without it. He contended that workmen should contribute to compensation funds because when they did so they would see that they were properly administered.

J. P. M. Stewart, Toronto, resumed criticism but he pointed out that the country on the Canadian government merchant marine while the transportation committee's report was under review. He pointed out that 150 vessels belonging to the United States emergency fleet were laid up, all the ships of the C. G. M. M. were in operation. Even if they were losing a little money they were doing a great service for the whole country. J. G. Thompson, Vancouver, and J. Lewis, of St. John, endorsed Mr. Stewart's remarks. J. H. Sheppard, Montreal, recommended a resolution be passed urging the government to make provision for farmers to get cattle now excluded from the U. S. by that country's emergency tariff, to the seaboard for export. The chairman, Mr. McKinnon, of Toronto, proposed the resolution committee would attend to this.

MORE IRISH OBJECT London, June 8—More Irish farming evidence was given today before the cattle embargo commission all of which opposed the removal of the embargo.

The district accepted the invitation to meet next year in the Portland Church.

Cases Heard In The Police Court

Resisting and Assault Case Drew Large Audience—Evidence in Liquor Case. Sub-Liquor Inspectors Journey Henderson and Thompson were called as witnesses in the case of Harry Wetmore, charged with selling liquor, when it was resumed in the police court yesterday.

Inspectors Testify

The inspectors stated that in consequence of complaints they searched the Wetmore house at 46 Mill street some six weeks ago. They met Wetmore on the street and he accompanied them home. The house was locked, and it was not until fifteen minutes had passed that they were admitted. They filled with water and broken glass a conviction had been secured against the accused in the past.

Assault Charge

The case of Fred Hayes, charged with resisting arrest and assaulting End ball grounds Lindsay at the East to the police court in the morning. E. J. Hennoberry was retained in the case. Police Officer Lindsay took the stand and stated he saw Hayes climb over the fence, and in accordance with the request of the committee in charge, who had secured his attendance in order to prevent such practices, ordered him to get out and come through the gate. He said Hayes refused and that when the witness put his hands on the defendant for the purpose of putting him out, the defendant wheeled around, tripped him and threw him to the ground and afterwards struck him on the face. Policeman Goughlin then came to his assistance and between them they arrested the defendant and took him to the police station in the police patrol.

Improving

TOY BALLOON, BOY, MATCH, BOMB SCARE

Youngster Four Years Old Touches Match to Toy Gas Bag. LOUD EXPLOSION IS THE RESULT Fire Follows and Much Excitement Reigns—Child is Badly Burned. New York, June 8—Charles Labelia, 4, by a simple experiment in chemistry, and with no greater aim in view than giving himself a new and amusing sensation, started a bomb scare in his block last night which brought everybody rushing to the street.

The house in which Charles lives and where he performed the experiment is at 321 East Forty-sixth street, in the heart of an Italian district. His neighbors are excited, and Charles himself is not able to enjoy the thrill of being for the time the centre of attraction.

All that Charles did was to touch a lighted match to a toy gas balloon. It was not that he desired to destroy the balloon. It was a pretty green thing, and bobbed about comically every time Charles puffed in. But having found a match, and having the balloon string tied about his waist, he lit the match, and the gas balloon and the match, and put the two together, and dived into the realm of chemistry.

The explosion, according to the neighbors, boomed out of the open windows in a momentary stinkiness like high explosive. Children in the streets ran for their homes, and were nearly knocked down by the parents running out. The crowd that gathered sent calls for the police, firemen and ambulances, and wondered why the house where Charles lived did not fall.

Charles' mother, was busy, with Sabatino Paglano, a top floor tenant, who had rushed down, beating out the flames that had caught Charles' clothing and set the apartment afire. Their efforts were successful, and when the firemen arrived nothing was left to be done. But the excitement lasted long after Charles had been taken to Bellevue Hospital, where doctors said that his injuries were grave, and he might have a hard battle for life.

Council of Women's Milk Fund Committee

Members With Superintendent Discussed Work to be Undertaken This Summer. Mrs. Richard J. Hooper was the convener of the Local Council of Women's Milk Fund Committee which assembled at the Victorian Nurses' Home on Carlton street yesterday afternoon to discuss with the new local superintendent of the order, Miss Coates, the work to be undertaken this Summer.

For This Year

There has been a remarkable change in the attitude of bride toward their trousseau costumes. The bride of a generation ago could not have her clothes mature enough. Youthful trills and furrowless brows were cast aside in her forward gaze toward the dignity of matrimony. Maybe she went back to some of the frills and furrowless in her new wedding ring, so she had all the trains she could in her trousseau; and the costumes had to live up to the trains in dignity.

What a difference today! The modern bride cannot have her clothes young enough, even her wedding gown—though of course it boasts the traditional train—is no longer in the skirt than a flapper's frock. Her hats are youthful and her little summer dresses are quite suitable for sweet 16. The present generation of girlhood has learned one thing: To value youth. Any modern girl knows exactly the worth of her youthfulness. And when she enters the estate of matrimony, she emphasizes this quality more than ever. Well, she knows this canny modern maid, that she has 20 years of youth ahead of her—if she starts right and keeps up her standard—where her mother retired to middle age at 35 or even at 30 and her grandmother consented during the days of old ladyhood to 40.

Starting Today I Am Selling 150 Semi-ready Suits at Half 1/2 Price

That's the top-liner in a Sale without reserve—an absolute bargain sale that covers everything in high class men's wear in my shop.

I've no secrets—no reservations—no hold-outs—for what I don't sell at half the label price I offer at discounts of 25 per cent. or better.

I'm going to lose a lot of money as cheerfully as any fellow can.

But I'm going to convince my people that I must have an all wool quality suit for \$25—if only to save our folks from these fly-by-night concerns that sell a lot of cotton suits—and then disappear to avoid a face-to-face view of their cheating.

I'm here for keeps—and my suits will give satisfaction and smiles.

I will sell 100 Suit Lengths, 3 1/2 yards, double width, for half price.

There'll be big bargains in Shirts, in Hosiery, Raincoats, Cravats—in all the high-grade wear I carry—and I avoid the cheap and tawdry.

Trousseau For This Year

With the sleeveless frock and the third finger of the left hand has to be rippled open—just as it used to years ago—so that the bridegroom can put on the ring. Afterward the glove finger is re-sewed.

The He'd Change His Mind. The illustrious traveler looked contemptuously at the mountaineer. "Nothing very steep about here," he said scornfully. "Make out his bill," said the landlord, turning to the clerk.

Wedding Gowns. A wedding costume recently shown is stately enough for anybody's requirements—all except its length. But short frocks are so much the rule now that a really long wedding gown would look quaint rather than correct; and, of course, the flowing train and the veil add sufficient dignity and staidness for the occasion. Another very beautiful wedding costume is like most of the June bridal costumes, it shows a deal of flimsy lace. The heavy satin train has been quite done away with and instead there is a train of net lace edged with a narrow strip of the lace veil. The foundation of the gown is of bridal satin in the favorite ivory white tint and there is a haughty bodice of satin draped over an underbodice of crystal embroidered net like lace in the tunic. Sleeves have been eliminated from the wedding gowns, but as in the matter of the short skirt, so many frocks now have very short sleeves that the effect is perfectly in accord with late fashion decisions. Long white gloves are indispensable.

MALE TEACHERS AT FREDERICTON MUCH SURPRISED

Reported They Never Expected Trustees to Accept Their Offered Resignations.

MUST APPLY AGAIN TO GET APPOINTMENTS

Law Will Compel Them to Fulfill All the Duties of the School Year.

Special to The Standard Fredericton, N. B., June 8—Acceptance of the resignations of the male teachers at the Fredericton High School by the Board of School Trustees has created somewhat of a local sensation. At least one of the four teachers affected has told his friends that acceptance of their resignations was the last thing in the world the teachers expected, but a member of the board said today that unanimous confirmation of the action taken was not unexpected when the full board met.

Ready for Show Down. It was also pointed out today that acceptance of the resignations had cleared the decks for a complete "show down" between the board and the teachers. The schedule of the New Brunswick Teachers' Association for 1921 does not make it obligatory upon members to demand the maximum salaries for positions which they are holding, but says that the maximum salaries named are those which "experienced teachers who are filling their positions satisfactorily should be receiving from the trustees."

The action of the local teachers in tendering their resignations was therefore, voluntary, and it was said by one of the trustees today that the way they could get their positions back again, so far as he was concerned, would be to apply to the Brunswick Teachers' Association schedule names \$2,500 as the gross initial salary, including government grants for the position of principal of the Fredericton High School with \$2,000 as the amounts for the other teachers' initial salaries, including government grants, which will be the amounts payable in the event new appointments being made.

What About Exams? Asked regarding the matter of examination of papers and grading of them in connection with the resignation of the male teachers at the High School, D. Hanson, secretary of the Board of School Trustees, said this afternoon that the performance of certain duties as comprising their work for the school year was specified by law and those duties would have to be carried out as specified, in his opinion.

NO PROTEST IN THE YORK-SUNBURY CONTEST

Special to The Standard.
 Fredericton, June 8.—No move for protest in the York-Sunbury by-election appears to have been made after all here today. A conference of some of those who have been promoting a protest was held, it is said, this afternoon, but no definite action appears to have been taken on the report to end the matter.

Claims Esperanto Can Be Salvaged

Halifax Expert Says it is Quite Feasible to Raise Lost Gloucester Schooner.

Halifax, N. S., June 8.—A local paper this morning carries a front page interview with a Halifax salvage expert, whose name is not given, in which it is stated that the raising of the Gloucester fishing schooner Esperanto, which foundered on the morning of May 30, south of Sable Island, is quite feasible. The Esperanto lies in six fathoms of water, and the interview goes on to say that her good ones. Further, in view of the fact that she has suffered additional damage since foundering. The hole torn by the wreck could be patched by divers and 24 hours after the vessel was raised, she could be towed to Halifax.

In addition to sentimental considerations, the article states that the salvage operations would probably be a commercial success, pointing out that despite general low tonnage prices, fishing vessels can only be replaced by new vessels of their own particular type.
 The suggestion contained in the interview is that the salvage operations should be attempted from Halifax with the idea of making possible the Esperanto's entry by Gloucester in next fall's races. The raising of the Esperanto would be a real sporting event," the article concludes.

CHARGED WITH ASSAULT

Woodstock, N. B., June 8.—George E. Lett, of River Bank this county, was arrested by Sheriff Foster Monday charged with attempted assault. He was brought before Stipendiary Magistrate Noble at Bristol and remanded until June 13. The complaint was made by Samuel Rideout, on word of his daughter, aged ten years. Lett has a wife and three children and is forty-two years of age.

OROMOCTO CHURCH DEDICATED

Fredericton, N. B., June 8.—The new St. John's Anglican Church at Oromocto, which replaced the edifice which was one of several churches destroyed in the conflagration which swept that village in the fall of 1915, was consecrated with impressive ceremonies this morning by Rt. Rev. Dr. Richardson, Bishop of Fredericton, who was assisted in the services by many visiting clergymen.

PROTESTS SIMS' SPEECH

Washington, June 8.—Senator McCormick, Republican, Illinois, complained formally today to President Harding and Secretary Daugherty about the address delivered in London yesterday by Rear Admiral Sims, in which he discussed the Irish question. The senator asked the secretary to take disciplinary measures against the admiral. He did not see the President formally, but asked Secretary Christian to call the address to the attention of the executive.

Good Red Blood A Real Nerve Tonic

Weak, Watery Blood the Source of All Nervousness.

"If people would attend to their blood, instead of worrying themselves ill," said an eminent nerve specialist, "we doctors would not see our consulting rooms crowded with nervous wrecks. More people suffer from worry than anything else."
 The sort of thing the specialist spoke of is the nervous, run-down condition caused by overwork and the many anxieties of today. Sufferers find themselves tired, low-spirited and unable to keep their minds on anything. Any sudden noise starts like a blow. They are full of groundless fears, do not sleep well at night. Headaches and other nerve pains are part of the misery, and it all comes from starved nerves.

Doctors of the nerves with poisonous sedatives is a terrible mistake. The only real nerve tonic is a good supply of rich, red blood. Therefore to relieve nervousness and run-down health Dr. Williams' Pink Pills should be taken. These pills enrich the blood, which tones the nerves, improves the appetite, gives new strength and spirits, and makes hitherto despondent people bright and cheerful. If you are at all "out of sorts" you should begin taking Dr. Williams' Pink Pills.

You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

The most fun jinx ever got out of the weapon

Aroostook Junction

Aroostook Junction, N. B., June 8.—Master Douglas Monteith, who has been operated on for appendicitis, has recovered, and has been brought home.

Mrs. J. T. Smith, who has also been through an operation for appendicitis, is improving and hopes to be home in about two weeks.

Miss Mary Newelling has returned from a visit to Woodstock.

Gordon McNally, C. P. R., has brought his wife and household goods to Aroostook this week.

Mrs. Mary Lemieux has been to Edmundston on a visit to her parents.

Miss Faye Coy, of Fredericton, is visiting her sister, Mrs. Neil Turner.

B. K. McNally, C. P. R., is recovering from his operation.

Mrs. W. H. London and Mrs. G. A. Chase are paying a visit to Fredericton.

L. C. True and wife are also visiting Fredericton.

C. S. Gains, wife and family went to Lawrence Station yesterday to celebrate the fiftieth anniversary of the wedding of Mr. Gains' parents.

Ray Smith, car inspector, C. P. R., had an arrival, a little son, May 27th.

F. S. Porter of Germain Street Church, St. John, preached at the afternoon service of the Baptist Church at Aroostook on behalf of the British and Foreign Bible Society, and his visit was much appreciated by a large congregation. The Rev. Mr. Porter preached at the Baptist Church, Episcopal Church, in the morning, motored to Aroostook and motored back to Grand Falls to preach at the Presbyterian Church in the evening. After the service, a branch of the Bible Society was formed, and Conductor C. Tabor, C. P. R., was appointed president, and Willard Miller, trainman, C. P. R., secretary-treasurer.

Mrs. Ethel Grant left today for Plaster Rock for a month's vacation. Mrs. Grant will be missed in church circles, as she is organist for the Episcopal Church, also alto singer for the choir.

The Amateur Dramatic Society of Aroostook are giving the play, "The Valley Farm," at Plaster Rock on Friday, June 10th, and some members of the Aroostook choir will accompany them.

Strikers Try To Derail Train

Second Attempt to Make Trouble on the Nova Scotia Steel Co's Line.

Sydney Mines, June 8.—Resentment over the N. S. Steel and Coal Company Trainmen's strike, which immediately preceded the general shutdown six months ago, is said to be responsible for the attempted wrecking shortly after midnight last night of a Scotia passenger train carrying 300 miners from the collieries to their homes in North Sydney. The plan was frustrated by Police Officers Toomey and Watchman Daws, who surprised two men engaged in affixing two sticks of dynamite and detonating apparatus to the track. The men escaped, but the officers believe they recognized them and that they can be apprehended. A previous attempt to wreck the midnight train was made on Monday, when spikes were removed from the two lengths of rail near Sydney Mines. The train, however, passed over the rails without displacing them. This morning a passing switch engine, driven by a strikebreaker, was bombarded with stones near the Scotia piers at North Sydney.

Fredericton By-Law Declared Ultra-Vires

City Has No Power to Impose Tax on Non-Residents Selling Direct to Consumers.

Fredericton, N. B., June 8.—The city by-law under which a special license fee is imposed upon non-residents selling direct to consumers in Fredericton was found to be ultra vires in a decision given by Police Magistrate Limerick this morning in the case in which an information had been laid by Chief of Police Finley against A. Milne Fraser, of Halifax, who made a test case of the action.

Judge Limerick in his decision said that the Legislature had granted the City Council authority to impose a license fee upon persons who were not ratepayers, but the City Council had placed a tax upon non-residents selling direct to consumers, which was not in accordance with the act.

MILK STRIKE MEETING

Halifax, N. S., June 8.—Mayor John S. Parker announced this morning that he had arranged a conference between the milk producers and dealers for tomorrow afternoon. This follows a statement this morning from the dealers that they were ready to meet the producers at any time.

Four New Companies Are Incorporated

Bathurst to Have Fine New Hotel—New Rink for Sunny Brae.

Fredericton, N. B., June 8.—The Royal Gazette today has notices of letters patent incorporating four new companies as follows:—

Archibald Alcorn and Fred A. Hewes, of Blackville, as A. Alcorn, Ltd., with an authorized capitalization of \$2,000,000, and the head office to be at Blackville, to take over as a going concern the business of Archibald Alcorn at Blackville as lumber and pulp wood dealers and operators.

George O. Spencer and A. A. Allen, of Moncton, Mrs. Cecil W. McManus, Wm. H. Forbes and Robert C. Donald, of Sunny Brae, as Sunny Brae Rink, Ltd., with an authorized capitalization of \$45,000 and the head office at Moncton, to carry on the business of a skating, hockey and curling rink and to conduct agricultural and other exhibitions at Sunny Brae, a suburb of Moncton.

Dr. John M. Ogle and Norman Steeves, of Moncton, Fred Colpitts of Little River, and Leonard T. Lesman, of Cherrville, as Ogle-Colpitts-Lesman-Steeves Fox and Fur Company, Ltd., with a capitalization of \$50,000 and the head office at Salisbury, to engage in a general ranching business for the breeding and rearing of foxes and other fur bearing animals.

August McLean, Wm. J. Kent, Jas. J. Whelan, John R. Legere, Geo. Gilbert, James B. H. Storer, Simon Hoidengeraber and J. Bennett Hachee, all of Bathurst, as Chaleur Hotel, Ltd., with an authorized capital stock of \$150,000 and the head office at Bathurst, to build and carry on a hotel at that place.

NO DIVORCE REPORTS

Paris, June 8.—The French law now forbids the publication of news concerning the trial of divorce suits, and therefore no misses from the French newspapers, the sensational stories readers in other countries enjoy.

This, however, does not mean that there are no divorce suits in France. La Vie Parisienne declares that there are forty thousand pending in the department of the Seine, which, including Paris, has a population of some four million.

Old Yacht Sinks

North Sydney, June 8.—The steamer Carmen foundered in 30 fathoms of water while making Sand Point, St. George's Bay, Newfoundland, Monday. The captain and crew made shore safely. The Carmen was a steam yacht of 90 tons, owned by Frank Forward of Sand Point. She was newly appointed and used in summer time to convey American sportsmen down along the Labrador and was to have been fitted out this summer again for this purpose. She was 51 years of age and insured.

LIGHTNING CAUSED FIRE

Fredericton, N. B., June 8.—The first forest fire ever reported to have been caused by lightning in New Brunswick occurred yesterday at Alward, on the C. N. R. It did little damage, however, according to the official report reaching the department of lands and mines today, before being extinguished.

NO GENERAL INDUSTRIAL UNREST HERE

S. R. Parsons Tells C. M. A. Things Are Not So Very Bad.

INTERNATIONALS TO BLAME FOR STRIKES

Still Working for More Uniform Legislation on Commercial Law in Canada.

Quebec, June 8.—Denial that general industrial unrest existed in Canada as claimed in some quarters was made this morning at a session of the annual convention of the Canadian Manufacturers' Association, by S. R. Parsons, Toronto.

The convention was considering the reports of its industrial relations committee which made a reservation to the growth of the "open shop" movement in the United States.

Mr. Parsons asked where was the great gulf they sometimes heard about between employer and employee. Only here and there could be discovered evidence of trouble in industrial plants. Yet they heard that from one end of the country to the other there was disquiet. There must be some reason for this circulation of incorrect information.

Mr. Parsons suggested that "the great army of men engaged in running labor movements would lose their jobs if they were not engaged in disseminating propaganda of this sort."

Great Mass Unorganized.

Mr. Parsons, continuing, said that unorganized labor had no voice in running the country, yet the great mass of labor was unorganized. Why had the open shop movement obtained such a headway in the United States? It was clear from the utterance of labor leaders. When Mr. Compens, president of the American Federation of Labor, was in Toronto, he referred to the U. S. steel corporation as the "autocracy of industry."

Mr. Parsons said he himself had no brief for the steel corporation, but he could remind them that it had fifty thousand of its employees amongst its shareholders and had spent \$70,000,000 in welfare work. He would like to know about the autocracy of labor and its tyranny. He would like to know about the causes of the printers' strike in Toronto and other places. He had heard that printers who had gone on strike had stated that they had nothing to do with the hours of work or salaries.

International To Blame.

They had gone on strike on orders from Washington. Mr. Parsons reminded his audience that only Greece had carried out the conventions passed at the labor convention in Washington in 1919.

Mr. Parsons said he believed that the Roman Catholic union had done much to stabilize labor conditions in Quebec and in other provinces.

In Conclusion Mr. Parsons said that the attitude of the Canadian Manufacturers' Association toward the labor question was that it recognized all men had the right to organize.

It also recognized that all men had also the right not to organize. As employers they had to do right things by all the men in their plants, no matter what organization or church he belonged to or if he belonged to none at all.

After Uniform Legislation.

The legislation committee reported that it had continued its efforts towards obtaining uniformity of legislation on commercial law throughout Canada, and added that the plethora of legislation annually produced was making the paths of the law more and more bewildering.

The remedy was in codification and the passing of fewer acts.

The report of the transportation committee which was also considered during the morning claimed that high operating costs, high rates and declining rates of materials cannot continue without serious results to both the railway companies and shipping public.

Takes Exception To St. John Man's Claims

Woodstock Claims to Have the Checker Champion of New Brunswick.

Armistock Junction, N. B., June 8.—The St. John Standard published last week news of a checker match between two St. John players, and announced that the winner would play J. H. Letimer, the acknowledged champion of New Brunswick. Mr. Letimer is a little premature in claiming this title, and it is understood that an amount of anything from \$100 to \$1,000 has been offered on Frank McClymont, of Woodstock, to play Mr. Letimer for that title, and Mr. Langley, C. P. R. champion, is of opinion that Frank (Zeze) McClymont is undoubtedly the one who has best claim to the title of champion.

A Curio.

In one hall of the great Museum was a steel case with heavy bars protecting the glass front. Inside the case rested an ordinary business statement.

"And what is this?" we asked the Guide. "That is the rarest document in the Museum," replied the Guide. "That is a Doctor's Bill that was paid on the day after it was presented!"

Dogs are mentioned 49 times in the Bible and usually with contempt. The first reference to the dog occurs in the story of the bondage of the Israelites in Egypt.

German Junkers Urging Pogroms

Would Also Wipe Out the "Vulgar English and Treacherous French."

Berlin, June 8.—A violent anti-semitic campaign, being run by ultra-nationalist hot heads and anti-semitists, bulked largely in the jubilee anniversary celebration throughout the country, many speakers indulging in open incitement to Jewish pogroms. Not a few meetings were conspicuous for threats against the Government, menaces of another Kapp coup, homage to the ex-kaiser and praise for the war criminals. Such sentiments were loudly applauded by large gatherings all over the country. Another "day" inavariably was joyfully hailed as certain to come.

Berates English.

Admiral von Trotha, ardent Kapp supporter and notorious for the part he played in the plot to sink the German fleet in Scapa Flow, declared at a Berlin meeting that he "looks forward to the day when a new Kaiserly fleet will wipe out the vulgar English and the treacherous French."

Forwarder demands the arrest and trial for high treason of Petty Officer Nissen, who, at the same meeting, advocated the overthrow of the Government by means of another Kapp coup, and added:

"In no circumstances should a single English witness be allowed to leave Leipzig alive."

The stupid treacherous should be executed, the stupid dupes who listen to and believe them, but the Government runs serious risks in allowing dangerous fools to go about urging equally scattered-brained persons to cause serious trouble.

Trouble Brewing In Vladivostok

Blame Japanese for Anti-Bolshevik Gov't Which Has Been Set Up.

Tokyo, June 8.—Military operations against the anti-Bolshevik elements which have established the new government in Vladivostok are threatened in a note to the Japanese government from the Far Eastern republic, says a Harbin despatch to the Nichi Shimbun of this city.

The note declares that hostilities will begin if Japan does not agree to permit the Far Eastern republic to suppress political disturbances in Vladivostok and if Japan does not recognize the authority of the militia elements in the maritime provinces and restore arms which were confiscated.

The government of the Far Eastern republic is said to have made a general accusation that the Japanese army had arranged the coup d'etat in Vladivostok and to have supported the anti-Bolshevik element in the movement.

The note is declared to have asked whether Tokyo sanctioned the action of the army in this matter, and also whether Japan has any sincere intention of opening friendly relations with the Far Eastern republic.

Hun U-Boat Sunk In Lake Michigan

Used in Last Victory Loan Campaign—U. S. Wilmette Does the Trick.

Chicago, June 8.—The German submarine U-91, was sunk yesterday in Lake Michigan, some 20 miles off Chicago, by the four-inch guns of the U. S. S. Wilmette.

The U-boat, with a known record of seven Allied ships sunk, was destroyed in accordance with provisions of the treaty of Versailles.

The smit has been lying here for more than a year, stripped of all its movable machinery, and its copper and brass parts. It toured the Great Lakes during the Victory Loan campaign, coming through the Canadian canals from Montreal, after having been on exhibition at Halifax and Quebec.

KILLED BY THE FUMES MEANT FOR THE CAT

Trying to End Sufferings of Sick Animal He Inhaled Vapor.

FOUND UNCONSCIOUS ON GROUND BY WIFE

Died Three Hours Later Without Regaining Consciousness—Cat Escaped.

Philadelphia, June 8.—Overcome by fumes of chloroform while he was attempting to end the life of a cat yesterday, Frank Souders, 60 years old, of Central avenue, Paoli, became unconscious and died within three hours. Just before he succumbed to the fumes, the cat escaped from his grasp and scampered away.

The cat, which had been a family pet for twelve years, recently developed distemper, and upon the advice of a veterinary Souders decided to end its misery by chloroform. He waited until his wife and two daughters left the house and then took the animal to a back shed.

Inhales Fumes.

Soaking a large rag with chloroform, Souders placed the rag over the mouth of the animal, which scratched and struggled. Determined to get through with the disagreeable task Souders bent over the cat and thus inhaled the deadly fumes.

When Mrs. Souders returned a short time later she found her husband lying unconscious on the ground. She summoned neighbors who carried him into the house, where he died without regaining consciousness. Mr. Souders was an engineer on the Schuylkill division of the Pennsylvania Railroad. Two daughters also survive him.

Fire in Dublin Destroyed the Tax Records. At least the Irish have something to be thankful for.

Roundly Condemns Capital Punishment

Rev. Wilfred Gaetz Has Nothing Good to Say for Death Penalty.

Hamilton, June 8.—Capital punishment for convicted murderers was roundly condemned in Centenary Methodist Church last night by Rev. Wilfred Gaetz, of Woodstock, who, as spiritual adviser to the late Norman Garfield, witnessed the execution of the latter last Thursday morning.

"We say that method is necessary because it restrains crime. I say that if a method so ghastly as that restrains crime, why let us go back to the thumbscrew and other forms of barbaric torture. We justify the gallows because it was only by a barbaric king. This is man's way; but I hold that it is not God's way to serve justice. I never knew justice to be served by a rigid application without untempered Christian mercy. We cannot have justice tempered with Christian mercy so long as we erect scaffolds and make men walk to them to meet their doom," concluded Mr. Gaetz.

Hundreds See Pistol Battle In The Street

New York Jeweler Bandit Foiled in Attempt to Hold up New York Jeweler Bandit Fights Hard.

New York, June 8.—Hundreds of men and women saw a pistol battle which started last night on 6th Ave., just south of Forty-second street, and ended with the capture of the bandit in the sub-basement of the Knickerbocker warehouse in Forty-second street, just east of Broadway.

The running fight followed an attempt by a masked man and a masked woman to hold up Morris Sapo, a jeweler, in his shop on the second floor at 729 Sixth Ave.

The woman disappeared into the crowd, which scattered in all directions when the shooting began. One bullet, apparently fired at the bandit by a policeman, lodged in the thigh of Ira Holmes, who was seated at his desk about five feet behind the plate glass window of the Consolidated Ticket Office at 116 West Forty-first street, where he is employed.

MUST ANSWER CENSUS MEN.

Brantford, Ont., June 8.—R. C. Frank Smith, of this city \$7.13 for having refused to answer the questions asked by a census enumerator yesterday. His case was dealt with at the police court here.

WILL OBEY NEXT TIME.

Brookville, Ont., June 8.—Robert S. Woods, a farmer of Elmshelm, Ont., disobeyed the signal of a flagman at a level crossing and drove in the path of an approaching train.

He escaped injury, but was fined for his action. Complaint was laid by the railway police. The conviction was the first of the kind ever made here.

Bicycles for Everyone ANY BOY OR GIRL in the Maritime Provinces can secure a sixty-five dollar "Pathfinder" bicycle, complete with mud-guards, air pump, parcel carrier and stand, with coaster brake, reinforced frame, spring saddle, and in fact everything that goes to make a bicycle complete, and at the same time earn fifteen dollars pocket money, payable in cash.

ANY BOY OR GIRL in the Maritime Provinces can secure a sixty-five dollar "Pathfinder" bicycle, complete with mud-guards, air pump, parcel carrier and stand, with coaster brake, reinforced frame, spring saddle, and in fact everything that goes to make a bicycle complete, and at the same time earn fifteen dollars pocket money, payable in cash.

If there is a boy or girl who does not want a bicycle, any of them may earn a watch or any other prize they desire by the most generous proposition that has ever been made to the young people of the Maritime Provinces.

Pictorial Review is desirous of securing one million additional readers and in order to do so offers the Pathfinder bicycle mentioned above to any boy or girl who will, before October 15th, sell three hundred copies of this popular woman's magazine. Pictorial Review retails at twenty-five cents per copy. Anyone who wishes to enter this competition pays only twenty cents per copy for the magazine and thus makes five cents on every copy sold. To win the bicycle it is necessary that you shall send your money and your order for whatever number of copies of the July issue you may require, to H. V. Mackinnon & Son, P. O. Box 1109, St. John. These magazines will be delivered to you free of charge by Dominion Express. Sell them as quickly as you can and order more. A strict account is kept of all you buy and as soon as you have sold three hundred copies the bicycle will be shipped to you; all charges prepaid. In case you do not desire a bicycle write for particulars about the number you have to sell to secure one or other of the various watches which will be given as prizes. Already boys and girls in different places have sold more than one hundred copies of the June issue of Pictorial Review, and at the rate they are going will have earned their bicycles by the middle of July. Any one can do it!

The generosity of this magnificent offer will be realized when it is remembered that three hundred copies of the magazine costs the competitor only sixty dollars and that the bicycle is worth more than the entire sum paid for these magazines. No such offer was ever made to the boys and girls of these provinces. Do not lose time. You can secure scores of customers this month who will take the magazine from you every month, and in a very short time you will have finished your three hundred sales and be in possession of an up to the minute bicycle. Let us hear from you at once.

Betting on Cockroach Race is the Latest Form of Gambling.

ALL KINDS OF SPORTS FLOUR

Bathing a la Natural Favor by Russian Refugees from the Black Sea.

Constantinople, June 8.—Betting on cockroach races is one of the latest sports here. It was introduced by a Russian who has just opened a place where a man who wants some excitement for his money can gamble.

The hall is darkened at the moment the race is to begin. Then a electric light at the end of a tube is turned on and the cockroaches, each in a separate track, are let from their cages to race for the mile.

Much Amateur Sport.

More real, old-fashioned, non-professional sport may be had here in any other city of Europe. There is due in part to the Allied troops' occupation, to the American officers' sailors on station here, and the number of American and British sportsmen who have come out for business since the armistice.

Germany Hands Over More Money

Payment of Sum Said to be \$14,300,000 Made Yesterday on Account.

New York, June 8.—The German government made another payment yesterday of several millions towards the Allied reparations account. The exact figures were revealed by officials of the federal reserve bank, to whom the money turned over to the credit of the Bank of England and the Bank of France. It was reported in Wall street that the sum was approximately \$14,300,000.

An official of the bank who refused to state the amount said, however, that this was an over estimate. With yesterday's operation the total payments to date amount to \$50,000,000. It was said that an additional \$30,000,000 remains to be paid on this side by Germany in accordance with the schedule announced in Berlin.

Invoke Image To End Drought

Traditional Practice to be Followed by Mexicans in the Present Emergency.

Mexico City, June 8.—The image of the Virgin de los Remedios was removed last night from the small village of Los Remedios, near this city, to the cathedral here, where it will be exposed for several days while devotions are held to end the drought, which has reached serious proportions.

Thousands of persons followed the image to the cathedral, where a solemn ceremony was held, presided over by the Archbishop of Mexico. This is the first time that the image has been removed in many years.

Mexico City is threatened with the closing down of the lighting system as a result of the drought. The impending game at Nezaca are reported to contain water sufficient for only a few more weeks. The city has been on a water ration for some time. There is much illness.

In years past when drought or epidemic has threatened Mexico City the statue of the Virgin de los Remedios has been taken at the head of an impressive procession to Mexico City, there to be received by the archbishop and the clergy and members of the city council.

The statue usually stands in the small but celebrated Church of Our Lady of Remedios, in the village of Villa Juarez, a short distance from Mexico City. It is of wood and believed to have been carved with a dull pen knife many years ago by an Indian craftsman.

In the arms of the Virgin is the infant Jesus.

DISSENTION IS RIFE AMONG THE FRENCH UNIONS

Communists and Moderates in Conflict for Possession of the Funds.

DISRUPTION IS GREATLY FEARED

As Extremists Gain Control Membership in Unions Show Big Falling off.

Paris, June 8.—The split in the railwaymen's union following the victory of the Communists in the convention last Thursday, when a motion for syndical direction of the organization was adopted, has resulted in an animated conflict over possession of the union's funds and headquarters. Although the Communists outvoted the moderates in the convention, the latter still hold the regular organization. The Communists have succeeded in gaining possession of the union's building, but Secretary Bidgearay has succeeded in putting the union's treasury out of reach of the extremists.

Disruption Feared.

Disruption not only of the railwaymen's union, but of the General Federation of Labor, is predicted in labor circles here as a result of the extremists' success. The federation still has become effective in the Socialist party and the railwaymen's union exists in a latent state in the organization, one of the strongest elements of which, the union labor organization of the Seine, is in the hands of extremists.

Membership Decreasing.

One result of the growth of Communist influence is the decreased membership of the labor unions. The railwaymen, who numbered 300,000 votes at the convention, preceding last year's strike, registered only 100,000 at the convention which ended Thursday in the Communist victory. Leon Jouhaux's resignation as secretary of the General Federation of Labor, which frequently has been announced, now is said to be imminent. Such action is regarded in labor circles as likely to mark the final capitulation of the moderates and a wide split in all the labor organizations of France.

His New Suit Stolen, Bather Turns Sprinter

New York, June 8.—Joseph Ryan, 27, found in the limpid water of the Bronx River an irresistible attraction yesterday afternoon, so he hung his brand new suit on the nearest hook and plunged in. When Joseph emerged a few minutes later the suit was missing.

He put on his underwear and his shoes while a friend went in search of a policeman. Policeman Keller, man of Simpson street station suggested that Joseph don a barrel. Joseph objected, and besides there was no barrel. Then the resourceful Keller, man marked a large figure "2" on the back and front of the upper part of Joseph's lingerie, rolled down his socks and told him to take the middle of the road.

Joseph had marathoned half the way to his home at 887 Hunts Point avenue, and was getting away with it, when he met his friend returning with another coat and trousers. The next time Joseph takes a dip in the river he is going to chain his wardrobe to a tree.

One-Sided.

Mike had saved up a little money, and when Pat came over a few years later the two brothers went into the coal business. One day Mike bought a roll-top desk, and when it arrived he said to Pat: "The one desk will do for the two of us. And here are two keys, one for you, Pat, and one for me."

Pat accepted the key, but seemed to be studying the desk.

REWARD NOT YET PAID.

Toronto, June 8.—There has been nothing decided so far, but the matter is being carefully considered," stated Attorney-General Ramsey today, when asked if the reward for Garfield's apprehension had been paid.

There are five applicants, and it is more than likely that the \$1,000 will be divided among them. As far as can be ascertained, the applicants are Mrs. Applebe, of Stouffville, the three men who made the arrest, and one other woman. All the affidavits have been filed and are being gone over by the Deputy Attorney-General.

He flew at Jock Scott, grabbed him by the nose and shook it as he would shake a rat. The infuriated horse turned his attention to the dog long enough for Murphy to crawl painfully to safety. He was not seriously injured.

OUR RAILWAYS

The speed of Premier Meighen delivered before the Canadian Manufacturers' Association at Quebec on Tuesday contains precious little comfort for the people of the Maritime Provinces, who are so particularly interested in the matter of freight rates. He tells us in effect that we have got to stand in with the other parts of the Dominion and bear our share of their burdens. On general principles and other things being equal, such a proposition is not unreasonable; but the contention of the Maritime Provinces is, as has been stated over and over again before, that the primary essential on which these provinces agreed to enter Confederation was that they should be placed in a position to trade with the other parts of the new Dominion, something which the existing freight rates absolutely preclude.

Why should the Maritime Provinces be called upon to pay for all the damnfoolishness in railway building of the last fifteen years, out of which they reap not a cent's worth of benefit? The railway deficit upon the Canadian National Railways for the past year was upwards of \$70,000,000. The operating expenses of the inter-colonial and all its feeders amounted to \$30,570,750 and the receipts to \$29,754,979, leaving a deficit of only \$815,778. That is the situation as regards the only railways of the Maritime Province are interested in. Why should these provinces have to shoulder any share of the cost of unprofitable railways in Western Canada, that have been built by irresponsible speculators and later unloaded on the Dominion? The Laurier Government refused to build the National Transcontinental Railway down the Valley of the St. John River where it would have had some earning capacity but built it through the wilderness. The result is that the operating expenses of that railway during the past year were \$3,000,000 more than the receipts; whereas the expenses of the St. John and Quebec Railway, after paying the Provincial Government \$98,590, being 40 per cent of the gross earnings, were only \$246,678 in excess of the receipts. Yet in these provinces have to share the burden of the \$7,000,000 loss incurred in running railways to oblige people who have no interest in us or we in them.

The railway policies of successive Governments of Canada for the past fifteen years can only be described as rotten. They have either built or taken over thousands of miles of road in Upper and Western Canada at an expenditure of millions upon millions of dollars, and when they have been asked to take over some small branch roads in the Maritime Provinces at a cost of a few hundred thousands, they have either refused altogether or only acceded after an immense amount of persuasion and when it seemed to be for their political advantage. The present Government will not take over the Valley Railway, a well built and in all respects a well found road, that runs through counties which have consistently returned Government supporters for years past, yet it took over a one-horse railroap apology for a railway in Gloucester county that has for years past returned, and will for years yet to come return a representative to oppose any Conservative Government. Mr. Meighen's contention that all parts of the country must share each others burdens might apply in a more restricted area than Canada, but why we down in these provinces should help to shoulder the peculiar burdens of people living 3000 miles away, and in whom we have no more interest than they have in us—which, by the way, is less than none—is by no means clear.

The Government has recently taken over the Grand Trunk Railway, and figures just given out show that the passenger receipts alone of that road for the month of May just past are over \$300,000 less than for May last year. Better to tear up the road altogether and sell it for scrap, than go on losing money at this rate. But of course as it is an outlet for Western Canada's traffic, nothing must be said. The Hudson's Bay Railway is another outlet, costing millions upon millions and when completed can be used for about ten weeks each year, but Western Canada wants it, so enough said. It's great to be the spoiled child of the family, The Maritime Provinces are only the poor relation.

What is the use of Mr. Meighen talking about a united Canada which can compete with all other countries for a share of the business of the world, when we in the Maritime Provinces are, for one reason or other, cut off from everybody? We are practically confined to trading within our own borders, because we cannot send our goods outside of them, nor bring other goods inside, on account of

WHAT OTHERS SAY

A Natural Query.
 Anti-conscription is the chief plank in the political platform of the Quebec Liberals. But why didn't they insist upon inserting it in the platform of the national Liberal party?—*Hamilton Herald, Ind.*

The Enraged Slackers.
 Lucien Cannon's violent attack on Sir Joseph Flavelle was quite natural and to be expected. Sir Joseph's patriotic service to this country in war time was conspicuous for its efficiency. Naturally he earned the enmity of every slacker.—*Hamilton Spectator.*

Awful Calamity Threatened.
 The innocent bystander always gets hit with a brick when a riot is taking place. The increase in the innocent victim of a labor dispute between the master printers and their employees, and it is possible that we may not be able to publish the paper for a few weeks.—*Farmers' Sun, Toronto.*

Rule of Sanity.
 There is talk of trouble in railway circles if wages are reduced, but we can be reassured by the fact that only three strikes have occurred on the part of railway workers in Canada since 1867. Which indicates that sanity and consideration have ruled the railway situation in this country on the side of both employer and employee.—*Calgary Herald.*

Maintenance of Roads.
 Travellers in France remember the neat piles of crushed rock on French roads and the old men working with hammers beside them. To each man is allotted a definite length of road. If a hole appears he repairs it. If the topping needs replacing he says that it is done. A few francs spent for prevention save millions for reconstruction. So General Pershing, who knows what can be done has informed the Senate Committee on Post Roads that money appropriated for road construction in which does not carry a provision for maintenance is wasted. On our roads 20-4 sections are built—often on insufficient foundations—and allowed to deteriorate with not only increased cost, but the constant closing of sections for repairs. As the use of automobiles for country roads is increasing, the need for roads in good condition grows greater. The problem is nationwide. An increased traffic department provisions for the adequate repair of highways. In one matter we must conquer the national temperament. General Pershing might well have quoted Laurence Sterne's famous line: "They order," said I, "this matter better in France."

A BIT OF VERSE

SONG OF THE FLAG.
 Could we but hear what our flag sings this Empire Day,
 The patriotic air it flings on the breeze away,
 Our ears but coarsely tempered are and little hear,
 But higher, lower notes by far are sounding near.
 The minor chords for heroes gone sigh on the breeze,
 And singing birds here hush their song amongst the trees,
 Again the wind refreshed advances strong and full,
 The flag like a war horse prances
 Then all nature joins the chorus like clash of sword,
 And form as the flag floats o'er us one mighty choir—
 Leonard Fox, Rothesay.

 "No. I do be waiting to see what a parson do say when he hammers his thumbs!"
 A Long Beat.
 Mr. Edison's questionnaire reminds us of the story of the Irishman who, while undergoing the civil service examination for policeman, was asked if he knew the distance between Boston and San Francisco.
 "Well, I don't know the distance exactly," he replied, "but if that's all in to be my best I don't want the job."—*Boston Transcript.*

Benny's Note Book

BY LEE PAPE

Ma sent me out for 6 cream puffs for dinner yesterday, and on the way back with them I happened to fall down twice, once on account of tripping over a stuck up brick and once on account of jest tripping, and when I got up the 2nd time I looked in the bag just out of curiosity and the cream puffs were all bent out of shape on account of being fell on, no thinking, O boy, holy smokes.

And I kept on going home, looking in the bag every once in a while to see if they were really bent as much as I thavt they were, wch they was, me thinking, G. I better think up something funny to make ma laff before she sees cream puffs.
 Wch I tried to think of some jock to tell her ony I could ony think of old ones not good snuff, thinking, G. I know wat, I'll wawk in on my hands carrying the bag in my mouth, and ma will think its so funny she'll laff like everything and then the site of the bent cream puffs wont affect her match. Gosh, its a good thing I bin practicing wawking on my hands a lot lately.

And wen I got home was in the parlor and I put the bag in my mouth and got up on my hands out in the hall and started to wawk in the parlor like somebody giving a imitation of a dog carrying something wawking on his fruit reel, ony jest wen I got inside the parlor I lost my ballents on account of not having it very good anywavs, and I fell over backwards and tumbled a summer-sault site on the bag of cream puffs, wch I could feel them under me losing all the shape they had left, me thinking, Gosh, if this makes her laff I'll be surprized if it even makes her smile.

Wch it dident, and she gave me 2 spare knacks and we didnt have ony cream puffs for suppr on account of their looks, and ma threw them all away without even leaving the rescue ony of them by eating them.

Ruse That Succeeded.

Two boys were fishing on a certain estate, when suddenly a gamekeeper darted out suddenly from behind a hedge. The boys started to run. They took different directions, but the gamekeeper followed the one who shouted and seemed most frightened. After a long pursuit the boy was captured. "You've been fishing without a permit," said the keeper. To his amazement the boy produced a permit. "The gamekeeper looked at it, and found it in order. "Why on earth did you run away?" he said, angrily. "To let the other boy get clear; he hasn't got a permit," was the reply.

It Worked.

The jurymen ran breathlessly into the court. "Ob, your Honor!" he exclaimed, "I you can excuse me, please, please do! I don't know which will be first—my wife or my daughter." "Dear me, that's sad," said the innocent judge. "Certainly you are excused." The next day the jurymen was met by one of his fellow-jurors, who in a sympathetic voice asked: "How's your wife?" "She's all right. Why do you ask?" "And your daughter?" "She's all right, too. Why do you ask?" "Why, yesterday you told the judge that you did not know which would die first." "Nor do I. That is a problem that time alone can solve."

Quebec, June 8.—Among the passengers on the Empress of the which sailed from here yesterday were Right Hon. Arthur Meighen, Premier of Canada, Mrs. Meighen and Mrs. Joseph Meighen, the latter's mother, who were given a enthusiastic send-off.
 There were fully a thousand supporters and friends of the Premier on the pier to bid them bon voyage and success on their official trip to the Imperial Conference in London. The band of the 9th Station Voltigeurs was also on the pier with the commandant of the ment, Lieut. Col. Chauveau, and named Mr. Meighen prior to steamer sailing. As the big steamed away from her moorings three cheers were heartily given in honor of the Premier, who stood the upper deck with Mrs. Meighen and waved his acknowledgments of compliment.

JUNE WEDDINGS

Trainer-Sharkey.
At the Cathedral of the Immaculate Conception at 7 o'clock yesterday morning, Rev. A. P. Allen, with nuptial mass, united in marriage Miss Helen Marion, daughter of Mr. and Mrs. Peter C. Sharkey, 32 Paddock street, to Ambrose Trainer, son of Mr. and Mrs. Patrick A. Trainer, of Harrison street. The bride was given away by her father. The groom was supported by his brother, Edward. After a dainty wedding breakfast, served at the home of the bride's parents, Mr. and Mrs. Trainer left on an automobile trip through the province. On their return they will reside in the city. Among the out of town guests were Dr. and Mrs. R. G. Thompson, and little daughter, Jacqueline, of Woodstock; Miss Evelyn Sharkey, of Edmonson, and Joseph Butler of Memramook.

Beville-Myles.
The marriage of Miss Nellie Albin Myles, daughter of Mr. and Mrs. James Myles, and William Lord Beville, son of Mr. and Mrs. Joseph Beville, took place yesterday morning at eight o'clock in the Epworth street Methodist church. Rev. G. P. Dawson officiating. The church was prettily decorated with ferns and lilacs, and many friends witnessed the ceremony. Miss Mabel Sandall presided at the organ, and the choir sang "The Voice That Breathed O'er Eden." The bride who was unattended, was given in marriage by her father. The ushers were John W. Myles and Ray E. Kirk. After the ceremony, Mr. and Mrs. Beville left on the Governor Dingley on a honeymoon trip to the Eastern States. On their return they will reside at 7 Charles street.

Harrington-Driscoll.
A wedding of much interest took place in the Cathedral of the Immaculate Conception at nine o'clock yesterday morning when Miss Edna Teresa Driscoll, daughter of Mr. and Mrs. Frederick E. Driscoll, of 114 Elliott row, was united in marriage to Dr. Joseph Gerard Harrington, son of Joseph Harrington of this city. Nuptial mass was celebrated and the ceremony performed by Rev. H. Ramage, a cousin of the bride, was bridesmaid. The bride was given away by her father and the groom was supported by his cousin, Richmond Grammon. During the ceremony the organ was played by Miss Julia Lawlor and appropriate hymns were sung by the choir, of which the bride was a member. After the ceremony the members of the two families and relatives returned to the home of the bride's parents where a dainty wedding breakfast was served. Doctor and Mrs. Harrington left by motor for Boston and will visit New York and other American cities. Upon the conclusion of their honeymoon they will reside in Dorchester, Mass., where Dr. Harrington is engaged in the practice of dentistry.

Cochrane-Darrah.
An interesting wedding took place at 145 yesterday afternoon in St. James church, when Rev. H. A. Cody united in marriage Miss Jessie De-

ANTI-UNIONISTS FAIL TO RE-OPEN CHURCH PROBLEM

Moderator Rules That Case Was Settled When Vote Was Taken on Tuesday.

ANTI'S WANTED NEW REFERENDUM TAKEN

Report Adopted to Proceed Towards Union as Expeditiously as Possible.

(Continued from page 1)
The last recommendation of the committee urged the assembly to "express gratitude to God for the growing spirit of Christian unity, and for the spirit of peace and harmony with which the Presbyterian community had been blessed."

Rev. Dr. E. Scott of Montreal, who has ever been a very good leader of the "antis," then read his formal dissent. Those opposed to the action of the assembly in deciding for union, he said, could not accept any responsibility for ignoring the wishes of the members of the various assemblies who had voted against union in the past, and the wishes of the 50,733 church members who had voted against union in 1911 and the 73,785 who had voted in 1915 against union.

Mr. Justice Hodgins referred to the vote yesterday in favor of church union and expressed the hope that the Anglican church would not be overlooked in the great question of union. Replying to the deputation, Dr. Gordon said he believed the Assembly desired them to say that they received with feelings of respect the greetings from a great and ancient church with an honor roll of martyrs and statesmen. He believed and held them every essential doctrine of the Christian faith," said Dr. Gordon.

Addressing Dr. Cody, the Moderator said he had been delighted when Dr. Cody had decided to remain in Canada, when he had received a call recently to another field. After another handshake the deputation departed.

A shower bouquet of sweet peas, Miss Annette Holly, the bridesmaid, and Miss Marjorie Taylor, Lindsay, (out-gowned in pink and blue orchid satin, acted as bridesmaids and each carried a large bouquet of sweet peas. Miss Jean Stetson and Master Louis Holly, as flower girl and ring bearer, were very complete and charming appearance to the bridal party. During the service the wedding feast was served by the tall choir of the church and while the newly married couple were signing the register, Miss Havelor sang "O Perfect Love."

The groom was supported by Cyrus F. Luchas and Dr. Charles Lane, of South Orange, N. J. John and George Holly, brothers of the bride, ushered the guests to the places in the church. The guests included many of those prominent in St. John society and others from outside points. Mr. and Mrs. J. L. Leavitt, Yarmouth; Mr. and Mrs. B. Carleton Allen, Fredericton, being among the out-of-town persons present for the ceremony.

After the wedding the bride and groom proceeded to Holyholme, the home of the bride's parents, where a reception for the guests was held. The scheme of decoration used in church and at the house was of green and white, white lilacs being used at the church, while at the house white lilacs, white carnations and smilax gave a cheerful summery appearance to the scene of the wedding. Mr. and Mrs. McLean left for a trip through Upper Canada on J. M. Woodman's private car, which was attached to the Montreal train last evening.

Premier's Wife And Mother Go With Him
Party Given a Great Send-off When Ship Leaves Quebec Port.

Quebec, June 8.—Among the saloon passengers on the Empress of Britain which sailed from here yesterday, were Right Hon. Arthur Meighen, Premier of Canada, Mrs. Meighen, and Mrs. Joseph Meighen, the Premier's mother, who were given an enthusiastic send-off.

Japan Is Willing To Meet United States
No Utter Motives Toward Latter Country—Is Prepared to Talk Things Over.

Tokyo, June 8.—Allying to the Japanese idea that an international arrangement for the reduction of armaments will have a better chance of success if preceded by a Japanese-United States conference to fix general diplomatic policies, the Jiji Shimpou today says that the U. S. increasing fortifications in the Pacific and her seemingly ambitious programme in the Asiatic mainland, make the arrangement difficult.

Fraterni Greetings.
The fraternal spirit between the churches was again emphasized this afternoon when the Assembly received an Anglican deputation headed by Rev. Dr. Cody, who brought greetings from the synod of the diocese of Toronto. Mr. Justice Hodgins was also a member of the deputation. The visitors were received on the platform by the Moderator Rev. Dr. Gordon, while the Assembly remained standing.

Mr. Justice Hodgins referred to the vote yesterday in favor of church union and expressed the hope that the Anglican church would not be overlooked in the great question of union. Replying to the deputation, Dr. Gordon said he believed the Assembly desired them to say that they received with feelings of respect the greetings from a great and ancient church with an honor roll of martyrs and statesmen. He believed and held them every essential doctrine of the Christian faith," said Dr. Gordon.

"If I Could Only Sleep"

SLEEP is the greatest of nerve restoratives. But unfortunately when the nerves are greatly excited or exhausted you cannot sleep, and nervous energy is wasted at a terrible rate by day and by night.

Dr. Chase's Nerve Food does not produce sleep in a narcotic way, but it does overcome sleeplessness by restoring the vigor and vitality of the nervous system.

For this reason it is Nature's greatest aid in restoring health and vigor to a worn-out, nervous system, no matter whether this condition is the result of overwork, worry or disease.

This well-known nerve restorative has made more friends through its ability to overcome sleeplessness than perhaps for any one reason. There is no keener misery than inability to sleep and the added worry of knowing that you are fast becoming a bankrupt so far as physical and nervous energy is concerned.

Should you be so unfortunate as to suffer from sleeplessness, and other symptoms of nervous exhaustion you will appreciate to the full the gentle and potent power of Dr. Chase's Nerve Food as a means of building up the nervous system to health and vigor.

AMUSEMENTS

Three Sessions of The Presbyterian

Delegates Welcomed by Mrs. J. H. Thomson—Interesting Papers Were Read.

At the opening of the morning session Mrs. John H. Thomson welcomed the delegates on behalf of the St. John ladies and expressed the hope that much good would be accomplished at the session.

The president then announced the appointment of the following committees: Nominating committee, Mrs. A. R. Melrose (convenor), Mrs. W. S. Morrison, Mrs. J. H. Thomson, Mrs. J. S. Merrithew and Mrs. Logan; courtesy committee, Mrs. R. J. Miller and Miss K. E. Ford; credentialed committee, Mrs. F. S. Dowling and Mrs. W. W. Malcolm.

After roll-call the reports of some of the county vice-presidents were heard. The report for York county, prepared by Mrs. M. E. Bell, was read and told of various parts of the country. The report for Charlotte county was presented by Mrs. McMoran; Kings and Queens by Mrs. W. S. Morrison; St. John by Mrs. James McTavish; Carleton, Mrs. J. S. Merrithew. All told of visits during the year and of the state of the auxiliaries.

The president, Mrs. Ross, in her address rehearsed the events of the year and made reference to some of the problems of the day. A letter was read from Mrs. Cruikshank, of the educational committee of the society, dealing with matters in connection with some sections of literature for the use of the society during the coming year.

Miss Baird, of Chipman, and Mrs. R. J. Miller read papers dealing with increased attendance and interest in the meetings of the society.

The afternoon session opened with devotional exercises led by Mrs. Logan. The subject was taken from Nehemiah and lessons were drawn of value for today.

The president, Mrs. R. D. Ross, took the chair. The corresponding secretary read minutes of the morning session.

Mrs. Ada J. Carvater, recording secretary, read her annual report, giving figures as follows: 1921 1920 Number of Auxiliaries 51 49 Reported 43 44 Unreported 8 5 Total membership 1233 1290 Average attendance 523 516 Additional members 115 239 Deaths 39 40 New Life members 36 40 Copies of "The Mission" 694 800 Bibles sent to Missions 8

Increase in contributions are generally reported. Moncton and one other auxiliary have raised all money voluntarily. The two new Auxiliaries are Tweedside, York county, with 15 members, and Hammond River, Kings county, with 14 members. Increase in number of homes sent and the sum of \$700 contributed to the Chinese famine fund are bright spots in the report.

Report of Deaconess. Miss Cora Sinclair, Deaconess, in an interesting detailed report told of her work accomplished under trying circumstances. She thanked all members of the Presbyterian for great kindness received during her illness. Unable to visit personally she had written letters to persons in need of help and had had appreciative answers. Spontaneous babies had been received from a number of auxiliaries. Thirty new babies, four pairs of new blankets had been among the good things contributed, while Oak Mountain sent ten pounds of fine butter, which was promptly received by some persons who only have this luxury when it is taken to them by friends. Fifty children have been clothed from the clothes sent in, and 9 infants provided with new outfits made by St. Andrew's church. Christmas cheer to the extent of \$96 was dispensed to 15 homes. In 26 cases financial aid had been given and that only when absolutely necessary.

Miss Sinclair told of several cases where it had been a joy to give help and care, and told of the good use to which the generous gifts of the Presbyterian had been put. She rejoiced at the prospect of a Maritime Rescue Home for girls, knowing the great need for such an institution. The object of her work is to strive to make lives better for the Master's service. After an appreciative vote of thanks moved by Mrs. John Thomson, the report of the Deaconess' committee was read by Mrs. R. A. Jamieson. An increase in the salary of the Deaconess was recommended. On motion this recommendation was agreed to.

Interesting Paper. A paper "What a Women's Missionary Society Auxiliary Meeting Ought to Mean to Every Member," written by Mrs. Plewilling, was read by Miss Baird. A programme was analyzed and points for improvement shown. Discussion, it was urged, should take place publicly, and not in undertones. Every item, prayer, hymn and study should be heartily entered into by every individual member.

Drive and Supper. The visiting delegates were taken on an automobile drive by the St. John members. Mrs. Struan Robertson and Mrs. John H. Thomson were in charge of arrangements. Supper was served in St. Andrew's

REFLECTIONS OF A BACHELOR GIRL.

By HELEN ROWLAND (Copyright, 1920, by The Wheeler Syndicate, Inc.)

Nowadays, if a man pats a girl on the shoulder and calls her "Old Dear," he considers it "intensive love-making."

"Music," according to the fapper: Anything you can dance to, dirt, or eat to.

The thrift of the man who won't buy an umbrella, so long as he can borrow other people's, fades into insignificance beside that of the man who won't marry a wife, so long as he can flirt with another man's.

Every man has a secret conviction that brains have a curdling and acidulating effect on a girl's disposition; and the average man would rather face a machine-gun than a woman who can aim epigrams with accuracy and point.

To a man, the most fascinating game of life is to light the flame in a woman's heart, and see the love-light gradually sparkle up into her eyes—then the game is over!

A woman who won't believe a live husband's sworn statement that he was at the office all evening, will naively and unquestioningly believe his spirit, when it comes back and tells her (through the medium) that he has been in Heaven.

Funny how a man wants to turn down all the lights, when he is courting a girl, and then insists on using a searchlight and a microscope to discover all her faults and flaws, after he has married her—when it's too late.

No matter how devoted a woman may be to her husband, she will go to a picture show and let her heart be faithless to him for a whole hour, while she sits in an emotional trance at the feet of a curly-headed screen actor.

A proposal of marriage is music in the ears—the "Angel's Chorus," in a woman's; the "Swan-Song" of freedom, in a man's!

Graduate Nurses Names Announced

Board of Examiners of New Brunswick Met at Residence of Dr. W. W. White Yesterday

The board of examiners of the New Brunswick Association of Graduate Nurses met yesterday afternoon at the residence of the chairman, Dr. W. W. White, where the names of twenty-one nurses who successfully wrote the examinations set by the board for their registration as graduate nurses of New Brunswick on May 11 and 12, were announced as follows:

General Public Hospital, St. John—Misses Ruth Kehoe, C. Gertrude Whitely, Mary McEachern, Moncton General Hospital—Miss Margaret M. Moore, Marguerite M. Brown, Victoria Public Hospital, Fredericton—Miss Eliza Sweeney, Lowell General Hospital, Lowell, Mass.—Miss Mary Rayworth.

He Ate Plenty But It Did Him No Good

Had a Good Appetite But Was Very Thin and Couldn't Gain a Pound in Weight.

"I was not a sick man when I began taking Tanlac," said William McNulty, of 724 17th street, Oakland Calif., "but for some reason or other, I had for fifteen years or more been considerably under my normal weight, and felt so much concern over the fact that I made repeated efforts to find something that would build me up to my old self again."

"Finally, nearly a year ago, after hearing so much about Tanlac for run-down systems, I concluded to see what this medicine would do in my case. So I started taking it and kept it up about three months ago before I began taking on weight. Tanlac kept me with a fine appetite and feeling fine all the time, however, and when I found myself getting heavier I was very much delighted."

"I now weigh one hundred and forty-two pounds, have gained fifteen pounds by a new fashioning which is size and build. I could not feel better if I wanted to, for I am as healthy a person as could be found. I'll recommend Tanlac to anybody who wants something to build them up, and if they stick to it as I did I don't believe they will be disappointed."

FAD FOR BUTTONS.

Paris, June 8.—Three-quarters of a million dollars was declared to be the approximate value of a thousand button with tassels attached on gowns at the Longchamps races. The new fashioning is declared to be the result of the decline of the dollar and the cheapening of gold only platinum is to be used for buttons and embroideries on summer styles. Many women wore dresses made entirely of var-colored beads having a fringe of real platinum. The same effect was seen in many hats which are called "hats-and-seals" because of the difficulty of seeing between the tassels.

"Kismet" Proves A Marvelous Picture

Otis Skinner at the Imperial in the Loveliest Spectacle of the Year.

Otis Skinner now makes his initial appearance (in pictures) in the role so marvelously suited to him—that of Hajj, the Beggar, in "Kismet." It is a gorgeous picture scenically and the story is fortunately strong enough to carry the load that is piled upon it. A richly colored, massive and impressive background is provided by a California Bagdad that has been so carefully built and so beautifully photographed that it extends the very odors of the Orient. The screen adaptation closely follows the stage version of all the American actors who have embraced the cinema, Mr. Skinner is the one best fitted by temperament and training to meet its demands. He screens wonderfully, even in close-ups, many of which are pictorial masterpieces.

Robertson-Cole have made a superb thriller of "Kismet." The story lends itself admirably to the screen where it is told with much more magnitude than the regular stage of the theatre affords. It is a noteworthy addition to the super-drama. The production is very elaborate, the photography unusually good and Otis Skinner's work before the camera came up to the standard he established for himself in his big stage success. St. John always appreciates the best in anything, and in "Kismet" it is truly enjoying the most elaborately spectacular film of the year.

FROM HERE AND THERE.

Because a co-educational school was such an innovation in China, women were admitted the first year only as spectators, being permitted to sit in the class room and hear men students recite. They were not allowed to receive any instruction nor to take any part in recitations. An American husband would never think of going to a drug store in order to find a cure for his wife's ailments until he had first tried the florist, the confectioner and the jeweller. The ex-Kaiser wears his uniform only at dinner. Merely when attacking his food.

Carpenter Is Not Worried Over Weight

Finds No Trouble in Bringing Heavy Men to the Floor With Punches.

Manhasset, N. Y., June 8.—George Carpenter is well aware of the fact that he will enter the ring on July 2 several pounds lighter than Dempsey, the champion, but he does not worry about it. He has demonstrated to his own satisfaction, in sparring with Joe Jeanette and Paul Johnson, that he can drop a heavy man with ease. Jeanette, who tips the scales at 240 pounds, went down Monday afternoon under the challenger's overhand right, and Johnson, at two hundred pounds, toppled easily when Georges' right connected. It is believed by his trainers that Carpenter has developed his knockout punch to a point of perfection. And now, when the barn doors are locked, Georges is perfecting his defence. Georges is in the air when delivering the short right overhand blow and he is working for a speedy recovery, knowing it to be dangerous business to be caught off balance.

Intense Feeling Over Track Meet

Rothsary and St. John High Bar All Other Schools from Competing Next Saturday.

The New Brunswick Inter-Scholastic Track Meet will not be held this year. A number of schools in the province who were planning on competing with St. John High School and Rothsary Collegiate in the meet to be held on the Rothsary Collegiate School's track at Rothsary next Saturday, have been eliminated by a committee composed of two members from the Rothsary Collegiate School and two from St. John High. These two schools have decided to hold a little meet all their own and all other teams have been declared ineligible. The reason advanced by the committee to those schools who had already entered members was that they did not consider such teams would have a chance of winning the cup. A peculiar feature of the committee's sudden decision is that it was taken after invitations had been extended to several schools to enter teams and that the change came only after Rothsary Collegiate School, one of the schools invited to enter, and which had complied with all the regulations, brought to light a very promising track team, one of whom at least would have stood a good chance of lowering the records in several events. This school has five men whose performances would warrant the assumption that they would have all won a place in the finals for the different events in which they entered. Monteth, is of course, the star of the team, but in addition there is McMaekin, Flewelling and two others. The Consolidated boys can put in three men who can do the hundred in 11 seconds flat, which equals the fastest time made in this event last year. In the 200 they have two entrants who would go over the course in 36 flat. The best time last year was 35-4-5. In the jumps Monteth would give the boys of either school a hard run for honors. In view of this fact, it would seem that both Rothsary Collegiate and St. John High School might have arranged to allow other schools of the province who are willing to enter teams to become competitors. There is no remedy for it, however, the old Inter-Scholastic cup put up for competition between all the schools in the province has already been won and the present cup is one put up by Rothsary Collegiate School itself. The rules and regulations governing this cup were last year placed in the hands of a committee composed of members of the Rothsary Collegiate School and the St. John High School. This latter school was not considered by the rest of the committee this year but was also barred from entering the meet. The cup therefore will henceforth cease to be anything but an inter-school trophy between the two schools.

"Babe" Ruth From Jail To Ball Game

Paid \$100 for Speeding, Spent Six Hours in Cell and Again Broke Speed Limit.

New York, June 8.—Babe Ruth, the home run champion, was released from city prison at four o'clock today after serving a sentence of one day's imprisonment for violating the automobile speed laws, and immediately started for the Polo grounds to play with the Yankees against Cleveland. New York, June 8.—It takes more than a jail sentence to keep Babe Ruth from playing ball at the Polo Grounds. Babe served six hours—a technical day—in the traffic court today, made a wild dash out to the field and played three innings of a winning game against Cleveland. After paying his \$100 fine for hitting the high spots on Riverside drive about a week ago, he began serving one day "in confinement" because this was his second offence. If a meter of a newspaperman's taxi cab which followed him to the park could be depended upon, Babe violated the self-same speed law before he had been out ten minutes. He covered the nine miles to the Polo Grounds in about 15 minutes. At four o'clock, the time for his release approached, the same torpedo roader that twice left to his arrest, awaited him outside the court. He sped away from a cheering crowd of fans and newspaper reporters with a pole-dancer on the running board to clear the way and Magistrate McGeehan seated beside him to see that he would not be "pinched" again. He had part of his uniform under his clothing, and changed in time to swing a bat in the sixth inning. The crowds in the stands didn't recognize him at first. There was a pause, then the crowds rose to their feet and welcomed him uproariously. He walked to first, stole second, and was not arrested, and made third on the second out. Baker, who then came to bat, grounded out retiring the side. Babe got one more chance in the eighth, but was put out after a weak blow to second. He didn't have any other chance to shine, but the fans didn't care when the Yankees rallied at the end of the ninth and put over two winning runs. Chester Williams is the proudest colored boy in the city, due to Babe's arrest, for he has the distinction of being the only man who served a sentence in the same pen with the hitting champion. Babe was sent to the St. John High School during the day, held a gloomy face, "a mile long" and refused even to join in a dice game in a corner. "I'll never get caught speeding again in this town," Chester said. Babe remarked sadly, "but when I got out of here I'm sure going to hustle out to the game. Keeping a man here this way all day just makes a speeder of him."

What Gallivan Says About The Fighters

Terms Dempsey "Big Bum Who Dodged the Draft"—Opposed to Bout.

Washington, June 8.—A resolution designed to prohibit the Dempsey-Carpenter fight at Jersey City, July 2, unless Congress meanwhile shall have "fairly treated" United States soldiers who served in the great war, was introduced in the house today by Representative Gallivan, democrat, Mass. In a statement, Representative Gallivan characterized Dempsey as a "big bum who dodged the draft" and declared that France had been at war for months before Carpenter joined the colors. "The men who will pay \$50 for a ringside seat to watch these 'fighters' overwhelmed members of the last congress with their letters of protest against paying a mere pittance of a soldier's bonus to real champions," Mr. Gallivan said. It would not have cost these men individually \$50 to have helped meet the cost of a soldier's bonus. "I am opposed to this international bout on United States soil where millions of United States money is to be wasted until the service men and women have been fairly treated by the United States government."

Acker's Stable At Fredericton

Halifax Owner Visited Track Yesterday and Was Greatly Pleased.

Fredericton, N. B., June 8.—Len R. Acker, the Halifax theatre magnate, arrived here this morning on his first visit since his stable of harness horses were moved from Truro, N. S., to the Fredericton Park Association's track to complete their preparation for the coming racing season. Mr. Acker went direct to the local race track from the train and expressed himself as well pleased with the provisions which had been made there for his horses, which are in charge of "Red" Hanafin, the well known Boston driver. COMMERCIALS VS. ST. PETER'S The Commercialists will battle with the St. Peter's on the latter's grounds this evening, when a real game is expected, as it is stated the Commercialists intend to spring a surprise on the Saints. The Imperials of Fredericton will be the first visiting ball team to St. John this season and will arrive Saturday to play a game with the Commercialists on the East End grounds. The Capital "imps" are said to be a strong aggregation of players and no doubt with the locals having their strongest line-up, one real fast ball game will be played.

St. Stephen, N. B., June 8.—Three early closing stakes in connection with the St. Stephen Exhibition, Sept. 13, 14, 15, 16, have been filled with one of the largest lists of entries ever received for early closing events. There are the 237 trot, 221 pace and 215 mixed. The 237 trot and the 215 mixed did not fill, and these will be turned into class races. GLENESGLEN, SCOTLAND, JUNE 8.—Only three United States professional golfers today survived the qualifying rounds of the thousand guineas tournament and are eligible for match play in the continuation of the event tomorrow. They are Walter Hagen, former open champion; Jack Hutchison and Emmet French. None of the others were able to attain the golfing prowess necessary to bring him among the sixteen men whose aggregate low scores of the two day play over the king's course and the queen's course made them eligible to compete for the prizes.

Babe Ruth Goes To Jail For Day

Also Fined \$100 for Speeding His Big Automobile in New York City.

New York, June 8.—Babe Ruth, the home-run king of the New York Americans, today was sentenced to one day in the city prison and fined \$100 in the magistrate's court for automobile speeding. It was Ruth's second appearance in court here within the last few weeks on charges of speeding. At his first trial, when he escaped with a nominal fine, he promised to be good and observe the law. Ready To Pay Fine. Six days ago, he was caught speeding on Riverside Drive, and arrested. Today he came to court prepared to pay a heavy fine. Officially his time in jail ends at 4 o'clock this afternoon. He will be unable to play in the first half of the game between the Yankees and Cleveland here today. In sentencing Ruth, the magistrate said: "Just because you are prominent is no excuse for speeding. To let you off would be a bad example for chauffeurs. I do not wish to force you to take a suggestion—you can accept it or do as you wish—but when driving on the streets of this city, Mr. Ruth, remember the law."

THE GOLFERS' DEFIANCE

I have no quarrel with reform; I know that it would ill behoove me, To gnash my teeth and rage and storm. At others' efforts to improve me, When Mr. Volstead's law forbade A further alcoholic diet. I saved what little stuff I had, And only drank it on the quiet. I'll not indulge in language blue, Or waste any time in futile creak. When in another year or two I'm ordered to forego my smoking, I'd not make trouble if I could, Because, as the reformers view it, They pass these measures for my good. And, anyway, they're going to do it. But if they take my golf away, A pleasure I enjoy but one day, (Because I have no time to play Around the course except on Sunday), Although I'm not a man to let A casual vexation try me, I'm going to try my darndest yet To lay those smug old birds a sty-mia. I don't need booze; I don't need smokes; And though I rather hate to lose 'em, I'll give 'em up, if better folks Than I declare I mustn't use 'em. I've been an easy man to drive— Resembling much dumb driven cattle— But just as long as I'm alive I'll not quit golf without a battle.

CALL MONEY IS BACK TO LOWEST IN MANY WEEKS

Opened at Seven Per Cent. But Soon Lost One-Half Where It Stuck.

TIME RATES ARE AT FORMER FIGURE

Banking Circles Interested in Proposal of Short Term Treasury Loan.

New York, June 8.—(Special.) Money rates and recurrent weakness in foreign exchange were the main factors in the stock market. Call money opened at seven per cent, but before midday eased to six and a half per cent, the lowest quotation in many weeks. Time rates were unchanged, but brokers reported more liberal offerings, which extended to bank acceptances and mercantile paper.

Explanation was lacking for the further collapse of international remittances, which amounted to six cents in the pound sterling and ten to twelve cents in French, Belgian, Italian, Swiss, Spanish and Dutch bills. Renewed sales of sterling in London and Paris by German investors, speculative pressure at this centre, and the supreme council's delay in meeting were among reasons assigned for the reaction.

Niagara Fruit Crop Not Average

Strawberries Are Maturing But Cool Nights Preventing Early Ripening.

St. Catharines, Ont., June 8.—A fruit survey from Pitsand east to the Niagara River shows that the strawberries are maturing earlier than usual, the cold nights appear to be retarding the ripening of the fruit. Growers in different parts of the Niagara district report from a fair to a heavy crop. The crops are about two weeks ahead of normal years. Present indications are that there will be a very good crop of raspberries. Each section shows that our cherries should ripen earlier than usual. All varieties of plums are light. In no case does this fruit show more than half a crop. Apples will be only about a quarter of the normal crop. Some sections report the grape crop to be heavy, in fact far above normal, while others report indications of an average yield. Early potatoes are in blossom and bid fair to be heavy crop.

Spanish River And Breweries Higher

All Paper Stocks Slightly Higher on the Montreal Lists Again.

Montreal, June 8.—Better sentiment prevailed on the local stock market today with the leaders in yesterday's decline showing strength. Both Spanish issues were up, the common point and the preferred 1.53 points and National Breweries gained two points at 63.34. Each of these closed strong at the day's best price. The balance of the papers responded in some degree to the rally. Abitibi moved up a point to 35 and Bronprou a similar amount to 34.34. Laurentide and Riordon were unchanged and Price Bros. was a fraction to 34.12. The utilities were less prominent than industrial with Power the only issue to show net gain, this being a point to 85. Toronto Rails was steady at 75 and Brantford closed a fraction at 29.12. In the stocks, Dominion was again strong, making a fractional advance to 31.34, but Steel of Canada continued weak, losing a point to 24. British Empire Steel second preferred was down six points to 28.12. Sugar advanced 2 1/2 points to 30.75 and Shawinigan lost 2 1/2 points at 195.78. The bond list was slightly more active and showed a general strong trend. Total sales: listed, 5,089; bonds, 4,282,169; rights, 113.

Central Vermont Ry. Needs Much Cash

Engineer Expert Claims it Will Cost Huge Sum to Put Road in Good Shape.

Montreal, June 8.—Cross-examined by Grand Trunk counsel on his strong adverse criticism of Grand Trunk and Central Vermont bridges, Lieut. Colonel C. N. Monsarrat, inspecting engineer for the government, stated that if his evidence erred in any way, it was on the side of leniency. The whole morning session of the arbitration committee sitting to inquire into the value of the Grand Trunk system prior to its acquisition by the Dominion Government, was today taken up by Lieut. Colonel Monsarrat's evidence and cross-examination upon it.

He continued his tour of the Central Vermont Railway, taking the bridges numerically, according to their mileage locations. He said his inspection had started in May, 1920, and had been completed the following September. He estimated that \$841,000 should have been spent that year on immediate repairs, and for the current year thought that \$1,000,000 more should be spent. After this outlay the normal repair expenditure for bridges on the Central Vermont Railway would be about \$600,000 yearly.

Increased Paper Costs Says Dodge

Labor Now \$22 Per Ton Against \$8.26 in 1914, With Efficiency Lower.

New York, June 8.—The International Paper Co. has announced another reduction in the price of newspaper paper in carload lots, covering the third quarter of the year. The company sells its output under contract, for one year, but prices are adjusted quarterly. The new rate is 6.54 cents a pound as compared with 6 1/2 cents in the previous quarter, the reduction being equal to 10¢ to about 98¢ a ton. It compared with a peak price of \$130 quoted during the last quarter of 1920 and the first quarter in the current year. The new schedule, however, is still 5¢ a ton above the level for the first quarter of last year. Canadian paper mills, according to advices received in New York today, have also reduced their prices to 98¢ a ton.

PROSPECT OF A SETTLEMENT IN MINERS' STRIKE

Vote to be Taken on the Acceptance of Mine Owners' Offer.

HAVE LOST FIFTY MILLION POUNDS WAG

Notice of Reduction to Men Employed in the Engineering Trades Posted.

London, June 8.—The best news which has come to the public since the miners' strike has been received to recognize that the convention of district delegates of the miners which assembled here on Friday, order a ballot of miners' union on the question of accepting the amended proposals of coal owners.

Both Sides Criticized

Critics are not wanting that result has been reached on a material issue after ten weeks of strike, and both sides are equally criticized—the owners for adopting what looked like a calumnious attitude, and the miners for insisting on a favored largely of the grating political principle of a pure industrial issue.

Fifty Million Pounds Lost

Assuming that the reference miners is favorable to accepting the owners' proposals work can be resumed before Monday, the miners will have lost over million pounds in wages, and will be unable to start work owing to the conditions of mines.

Yesterday employers in the engineering trades posted notices of reductions in wages, affecting a half million. Negotiations between the employers and unions have proceeded for two months, the employers allege that they have taken an impossible position and hence have decided to fix on their own account.

"Seapool" Hits Ber

Halifax, N. S., June 8.—The St. Seapool struck an iceberg in north, 48.50 west and is making for St. John's, Nfld., with her foot broken and her foremast lost.

Proceeding to St. John's, Nfld. this morning by the steamer was not in the state of assistance. The steamer, which was received at Cape Race, followed: "S. Seapool" collided with iceberg 48.20 north, 48.50 west, being broken. Making water in both. Proceeding to St. John's, Nfld. Does not require immediate assistance."

The Seapool, a steamer of tons gross, arrived in Montreal, Quebec on May 24, and was chartered from the former port. The pool is owned by the Pool Ship Company Ltd., and is managed by the Sir R. Popper Co. Ltd. She was chartered at West Hartlepool and built in 1913.

SLASHED CHUM'S FACE

New York, June 8.—Miss Maud Keete, 28, of 542 East Seventy-third street, ran into the street yesterday bleeding from cuts on the forehead.

"She did it," Miss Keete told her "my roommaid, who was given me a message and cut me." A policeman sent the girl to Hospital, and went to her where he arrested Miss Keete. She had been told to stab her 28, maniacist and hair detective Thos. E. Bright as from what he could gather Maud Keete's good looks. Miss Keete was held in \$2,500 bail on a writ of assault for examination Monday at court.

Carried Grain Cargo

London, June 8.—The steam pool, which struck an iceberg Newfoundland coast has a 35 men and carried a cargo of 150 tons of grain which was lost.

SUMMER WOODS

Come ye into the summer woods. My roommaid no annoy, "I'll be a message and cut me." All freshly was the chestnut. And the earth is full of joy.

I cannot tell you half the joy. Of beauty you may see, The bursts of golden sunshine. And many a shady tree. And far within that summer. Among the leaves so green. There flows a little gurgling. The brightest o'er was seen. There come the little gurgling. Without a fear of ill; Down to the murmuring wall. And freely drink their fill. And many a wood mouse. Beneath the old wood shank. And all day long has work. Nor is sought afraid. There is enough for everyone. And they lovingly agree; We might learn a lesson, all. Beneath the greenwood tree.

HAVE LOST FIFTY MILLION POUNDS WAGES

Notice of Reduction to Men Employed in the Engineering Trades Posted.

London, June 8.—The best news which has come to the public for many weeks is that the miners' executive have received to recommend the convention of district delegates of the miners which assembled here on Friday, under a ballot of the miners' union on the question of accepting the amended proposals of the coal owners.

It is understood that the owners have offered something like 20 per cent on the wages of 1914, plus additions made since, and have also guaranteed a proper wage for the lower ratings among the mine work.

A two-thirds vote of the delegates will be necessary to carry this recommendation, but the leaders are said to be sanguine that it will be forthcoming.

Both Sides Criticized. Critics are not wanting that this result has been reached on a simple material issue after ten weeks of bitter strife, and both sides are equally blamed—the owners for adopting what looked like a cautious attitude of leaving things work out themselves and the miners for insisting on what savored largely of the granting of a big political principle of a purely industrial issue.

Fifty Million Pounds Lost. Assuming that the reference of the miners is favorable to acceptance of the owners' proposals work can hardly be resumed before Monday week, the miners will have lost over fifty million pounds in wages, and many will be unable to start work for weeks, owing to the conditions of the mines.

Yesterday employers in the engineering trades posted notices of reductions in wages, affecting a million and a half men. Negotiations between the employers and unions have been proceeding for two months, but the employers adhering to the Canadian plan, and is managed by the Sir R. Roper Co. Ltd. She is registered at West Hartlepool and was built in 1913.

SLASHED CHUM'S FACE. New York, June 8.—Miss Marie Fekete, 28, of 542 East Seventy-ninth street, ran into the street yesterday bleeding from cuts on the throat and face.

"She did it," Miss Fekete exclaimed. "My roommate, she was giving me a massage and cut me."

A policeman sent the girl to Flower Hospital, and went to the room, where he arrested Miss Marie Fekete, 26, manicurist and hair dresser. Detective Thos. E. Enright said that from what he could gather Miss Fekete had been jealous of Miss Fekete's good looks. Miss Fekete was held in \$2,500 bail on suspicion of assault for examination Monday in Yorkville court.

Carried Grain Cargo. London, June 8.—The steamer Seapool, which struck an iceberg off the Newfoundland coast has a crew of 35 men and carried a cargo of grain. It was learned here today.

EIGHT MURDERS TAKE PLACE IN PARIS ONE DAY. Two of Them Were of Extraordinary Brutality and Significance.

YOUTHS DID THE KILLING IN BOTH. Resented Interference of Men When They Were Tormenting Children at Play.

PARIS, June 8.—No less than eight murders and attempted murders in the Paris district are recorded in this morning's newspapers, and among them are two of extraordinary brutality and significance.

One occurred in the old fortifications yesterday afternoon. A man named Tisserand had gone with his family and friends to spend the afternoon in this popular playground.

While the children were playing about, some youths began to throw stones from the fortifications above, and one of the children was hurt. Some of the party went in chase of the ruffians, but where they were. Suddenly one of the youths who had been throwing the stones dropped down beside him and without any warning, apparently reason, flung a knife to the hit in the sleeping man's heart.

He died at once and before any alarm could be raised the murderer crept along the fortifications.

Youths Did Killing. The second case of particular brutality occurred at Meaux, some miles from Paris. On his way home from the movies a showman named Lavanche got into a dispute with a band of youths who were molesting people in the streets. An hour later, when he was asleep he was awakened by tapping at the door and windows. Without suspicion he opened the door and at once a band of seven kids, all armed with knives, pushed into the room. Before the man could defend himself he was stabbed in a dozen places, and when the police arrived they found him dead with twenty-seven knife wounds in his body. The whole band of young murderers has been arrested.

AROUND THE CITY

ASSESSMENT EARLY. It is reported that the city assessment will be filed with the city chamberlain in about one week, which will be almost a month earlier than the date on which it was filed last year.

DOG LICENSES ISSUED. Up to last evening 867 dog licenses had been issued this year, as compared with 693 for the same period last year. The total number issued in 1920 was 1,134.

CHILD DIES. Friends of Mr. and Mrs. Wallace C. Clark will sympathize with them in the death of their son, Wallace Alexander, one of twins, which occurred at their home, 37 Garden street, yesterday. He was about sixteen months old.

HOME ON VISIT. Joseph Butler, of this city, and a member of this year's graduating class of St. Joseph's University, Moncton, N. B., was in town yesterday on a visit to his home. He returned last evening to his Alma Mater.

WESTFIELD OPENING. The Westfield Tennis Club are opening the season with a tournament on Saturday afternoon. From the good playing shown so far this year it is expected that there will be much keen competition on the week-end.

POLICE ON HOLIDAYS. Policemen Storey, Chisholm and Howard are the first members of the police force to take the summer holidays, and started their two weeks' vacation this week. Mr. and Mrs. Storey left yesterday morning on the steamer Governor Dingley for Boston where they will spend about ten days.

LISTS FOR PLEBISCITE. Asked yesterday morning about progress in preparations for the taking of the harbor commission plebiscite, the common clerk replied that a start would be made on the voters' lists immediately after this year's assessment book is filed. He pointed out that the lists available at present are based on the assessment book of two years ago.

FIRST YEAR AT HARVARD. Harry Reilly, valedictorian of last year's graduating class of St. Joseph's University, Moncton, N. B., is expected to arrive in the city soon on route to his home in Moncton, where he will spend his vacation with his parents. Mr. Reilly has completed his first year in the study of law at Harvard University, Cambridge, Mass.

FIRE DESTROYS TRACTOR. A small caterpillar tractor, which was coming toward the city, along the Marsh Road, caught fire near Coldbrook and the One Mile House about noon yesterday. The driver escaped uninjured, and tried to extinguish the fire, but found it impossible and abandoned his charge while it was still a mass of flames. The tractor was on the pavement when it took fire and the heat of the flames melted the asphalt for some distance around.

Annual Reports of Portland Methodist

Financial Report Shows Progress in All Branches—Good Amount for Missions

At the regular prayer meeting last evening in Portland Methodist church reports for the year were read. Rev. Harry B. Clarke was chairman and Wm. Lock offered prayer. The total raised for General Missions, \$300.23; raised for the Methodist National Campaign, \$4,665; raised by the Ladies' Aid for the year, \$14,000.

Progress Reported From Conference

Mayor Schofield Endeavoring to Bring Power Co. and Employees to Agreement.

"Progress made," was the report given out last night by all factions to the conference yesterday between Manager Thomson of the N. B. Power Co. and representatives of the Amalgamated Association of Street Railway and Electric Workers, called by Mayor Schofield. The conference lasted from 10.30 a. m. to 1 p. m. and from 2 p. m. to 4 p. m. Nothing was given out from the conference relative to the question discussed. The main item in capacity as mediator, is doing all he can to bring the employees and company to a working basis agreeable to both factions.

Fight for the Union. It is said yesterday's conference developed the fact that the employees of the company were not adverse to the reduction in the wage scale, they recognizing it as a logical result of the present day business situation, and that their chief contention was the recognition of their union. It is also said the union representatives put forth a mild protest to the introduction into service of the "one man car."

Unions All Right. Manager Thomson is on record as saying that he had no objection to unions as such, but did not propose to allow a union to dictate as to how the company should conduct its business. He is not opposed to doing business with the union, but he emphatically states the conditions, which the union may demand, must be agreeable to the company he represents, or otherwise, there will be a hitch.

The arbitration board requested by the union will postpone the plans for reorganization of the working force of the company scheduled for June 15. The law compels the company to continue its present schedule and working conditions until such a time as the board has made its findings. It is not believed the board can be organized and finish its work for another month at least.

Harbor Commission Freely Discussed

City Should Have Certain Bonded Assurances Before Move is Made.

The harbor commission proposition is receiving more or less discussion now by citizens interested in the development of the port. The discussions have become more frequent, and show a greater earnestness since the Maritime delegation returned from Ottawa where an effort was made to secure more favorable rate concessions on the I. C. R. that Maritime industries might have a chance to live. Mr. F. L. Potts, ex-M. L. A., who takes a keen interest in all that pertains to the city's welfare, pertinently asks a few questions relative to Harbor Commission. In view of the defaulted promise of Confederation he would like to know how St. John would fare at the hands of the government if it had a harbor commission?

Oppose Plebiscite. In commenting on the question he believes a plebiscite should not be taken on this question, but that it should be an issue at the next election for city commissioner. Several of the commissioners come before the people next April, and those who are anxious to represent the city should get busy, familiarize themselves as to what is best for the city, and secure harbor commission, keeping in mind all that has been said and done about Confederation.

Three Questions. "There are three matters in connection with harbor commission I should like to have cleared up: "1st. If Harbor Commission carries are we to have assurance that the rates and charges at this port will not be higher than at any other port on the Atlantic seaboard? "2nd. If there are any deficits on interest, collection of harbor fees, interest on bonds, commissioner's salaries, etc., are we to be assured these deficits will not become a charge upon the tax payers of the city of St. John? "3rd. If the city gives the harbor to the government will it be properly equipped for the carrying on of the trade of the port?"

REPAIRS TO WHARVES. The harbor department will not carry on any extensive repairs on the waterfront until after the harbor commission plebiscite, August 1st, next. Commissioner Bullock stated yesterday morning. He said that a new platform had been constructed between sheds 2 and 3, the work having been commenced with new capsterns on the piling. New fenders are being attached to the face of No. 1 berth and the whole face of Wharves wharf is being strengthened by the driving of new piling. A new railing has been constructed on the east side of Union street from berth 4 to 5.

Automobile Plunges Into St. John River

Leaves Road at East End of Bridge, Going Over Bank—Occupants Uninjured.

Fred Porter, manager of Nova Scotia Construction Co., and Captain Harris, of the tug Musquash, had a narrow escape last night from serious injuries, if not by drowning. They were coming from West St. John in an automobile driven by Mr. Porter. Arriving on the east side of the bridge about 12.30, they turned to go down Chesley street. The automobile skidded and went over the embankment, rolling over and over, finally bringing up in the river. When the machine skidded and left the road, Mr. Porter and Capt. Harris jumped. They rolled down the bank before they brought up, fortunately neither of the men received a scratch from the unhappy experience.

Sergeant Sullivan and Officer Killen of the North End police force were notified of the accident and were quickly on the scene. They, in company with Samuel Shanks, caretaker of the bridge, proceeded to the assistance of the men, boat and car. Mr. Porter and Mr. Shanks rowed the men down river to the tug Musquash, now undergoing repairs at the West Side. The automobile, the motor, was moved to a wharf nearby and will be taken out this morning.

Bad Conditions In Up River Districts

Frost on Sunday Hard on Crops—Country Infested With Army Worm.

Reports from upriver districts say that conditions are not as favorable as could be hoped for. On Sunday the frost was very hard on crops around Cod's and Cole's Island. The crops had an early start this year and were getting along nicely until the recent frost and drought began.

Rain Badly Needed. The farmers say that rain is needed immediately, or there will be a very small crop of hay this summer. Parts of the upriver country are infested with what the inhabitants call the army worm. This pest is playing havoc in the orchards, especially with the apple trees. At the sunrise these pests spread up along the limbs of the trees to the uttermost branches, stripping the leaves and at night they crawl down the tree and form in a ring around the trunk staying there all night. Many orchards look as if they had been burnt over. This pest does not continue to live in the apple trees, but is in the forests doing much damage to the people and stay birds. Spraying does not seem to have much effect and the farmers are faced with a difficult problem.

During Working Hours. The census men, like all others, are satisfied that the population of the city during the working hours is considerably larger than it was, and that a very noticeable increase has taken place since the last census, but as to the population to be found within the city limits, they are not so sure. They believe that between 5 p. m. and 7 a. m. they are situated in the districts allotted to them, while the enumerators have to canvass all Stanley ward, which is within the city limits, and although large in area is sparsely populated, and owing to its lack of streets, sewerage connections and other improvements has been avoided to a large extent by those establishing new homes.

St. Joseph's College Closing Next Week. About 400 Students Will Take Vacation—Joseph Cahill of Moncton Valedictorian.

Next Thursday, June 15, will mark the annual commencement exercises of the University of St. Joseph's College, Moncton, N. B., and the following day the whole student body, numbering some 400 young men, will leave for their homes to spend their vacation. This includes the members of the class of '21 who leave their Alma Mater for the last time, their college days being brought to a close this year.

Graduating Class. This year's graduating class is one of the largest ever to be turned out of this institution of intellectual learning and numbers some fifteen graduates. Among these are six St. John boys who will go forth from St. Joseph's with heartfelt good wishes from their classmates, their teachers and the student body in general to take their places in their chosen spheres of life. They are: Joseph Butler, William Osborne, Arthur Kinross, Melville Nichol, Joseph Floyd and William Crowley.

Chosen Valedictorian. Joseph Cahill, the chosen valedictorian of the class of '21, hails from Moncton, N. B., and has been a most industrious student of St. Joseph's for the past six years. Francis Gilson, of Moncton, N. B., who for the past three years has been the associate professor of bookkeeping and typewriting, is also a member of the class of '21.

STUDENTS RETURN FROM COLLEGE. Westmorland Gordon, Jersey City, N. J.; Nell Nolan, Roxbury, Mass.; Desmond Johnson, Roxbury, Mass.; Paul F. Hughes, Lawrence, Mass.; Jack Campbell and Bernard Collins, Brockton, Mass., passed through the city on Tuesday evening on route to their homes in the States to spend the summer vacation with their parents. They are students at St. Dunstan's University, Charlotteville, Va.

WILL TAKE ACTION. Legal action in connection with the alleged trespass of the foreshore rights of the municipality at the Municipal House by the Government for Courtenay Bay development, will be taken by the municipality. The August sitting of the Chancery Court it has been decided by a municipal sub-committee, comprising Warden Bullock, the Mayor and County Secretary Kelley. The County Secretary, it was announced, will probably have as counsel H. A. Powell, K. C. The Government has offered \$100 for the two parcels of land expropriated. In addition a reduced trestle has been conceded across the foreshore.

FREDERICHTON TEAM COMING. Imperialists of Fredericton play Commercials, West End grounds, Saturday afternoon.

A. J. Kinross, who underwent an operation at the Infirmary on May 24, is reported to be progressing as well as can be expected.

Census Enumerators Having Hard Time

Citizens Who Spend Summer in Country Urged to Have Names Handed in.

All citizens who spend the summer in the country will be asked to do so that their names, and the names of all members of their families are secured by the city census enumerators so that the population of the city may show the substantial increase all feel it should.

To Be Considered. The Chief Census Commissioner, W. S. Clawson, is not as optimistic as the man on the street as to what increase may be expected in the 1921 estimates of the city's population. He points out that the census men may only consider in their returns the figures, those who have their permanent residences within the limits of the city proper. When this is considered, it will readily be seen that St. John will be deprived of a large number of people, possibly ten thousand or more, who would ordinarily be considered as citizens. That is all those who live in East St. John, Fairville, or any other section beyond the city limits, and this also includes those who have their homes in the city, but who have homes in Rousesay, Hampton or other suburban points.

Don't Get Confused. It is earnestly desired, however, that the public shall not become confused at this point. Those who have their permanent residences in the suburbs will not be classed as citizens, but all those who have temporary homes in those sections, but whose permanent homes are in the city, will be so classed.

A peculiar feature of this rule is that because the city limits mark the boundary of the districts allotted to the sections as East St. John, Fairville and Fairville, may not be around Cod's and Cole's Island. The enumerators have to canvass all Stanley ward, which is within the city limits, and although large in area is sparsely populated, and owing to its lack of streets, sewerage connections and other improvements has been avoided to a large extent by those establishing new homes.
