THE LONG PROMISED RINK.

A Suitable Site Has Been Procured and Stock is Being Offered

A NEEDED RESORT

A Healthy Amusement Which Citizens Should Liberally Patronize

Mr. Wilfred L. Devereaux, of Campbellton, is in town today, and will call upon the boys and business men soliciting subscribers for share in a company about to be incorporated for the purpose of erecting and conducting a skating and curling rink here. A suitable site has been procured and plans and specifications prepared. Shares in the new company will sell for \$10 each, so that all may have a financial interest in the venture. It is to be hoped that the young men of the town will subscribe their names as shareholders. With a proper skating and curling rink here the Curling League for the North Shore circuit will be completed. The plans present a rink the finest in the Province, and one that will be a credit to the town. Watch next week's issue for further information.

Two boys burned \$15,000

PORT ARTHUR, Friday.—Two boys named White and Hansen, aged about twelve years, have confessed starting a fire yesterday which did damage to the extent of nearly \$15,000. The burned building was known as the old Toronto House and was used as a boarding house, pool room and a photograph gallery.

AL GREAT EXHIBITION FEATURE

The big boilers in the Machinery H. Machinery Hall in the St. John Exhibition to be Part of the Big Show. All of the Exhibition building in St. John were tested the other day and found in first class condition. Now that they are sure of plenty of power the applications to show machinery in motion are becoming a feature of the big show.

There is nothing more interesting in an exhibition than a well stocked Machinery Hall, such as St. John will have.

Some splendid amusement features have already been booked, the rail-ways and steamboats are making rates that will induce most every one to visit St. John Exhibition week, and there the people are making all sorts of plans to make their stay pleasant. These include just now a decorated city a competition in decorations having developed within the last week. Remember the date, September 12th to 19th.

STRUCK BY LIGHTNING.

And Unconscious For Hours But Preached Next Day As Usual

During a heavy electric storm on Saturday night the 22nd inst. in Plainfield, Ill., where the Rev. W. R. Robinson is located, the Manse was struck twice by lightning. The second time, Mr. Robinson was rendered unconscious and remained so from 11.30 p. m. until 5 o'clock next morning. Notwithstanding the shock, Mr. Robinson held service and preached at 11 o'clock as if nothing had happened. Mrs. Robinson and little son are at present the guests of her father; Thos. Hoben, Gibson, N. B.

For Pure Syrup

OTTAWA, Friday.—The campaign of the Inland Revenue Department for pure maple sugar and syrup seems to be a success. As May the collection of samples of maple sugar and syrup was made in all the provinces of Canada and there were only fourteen cases of adulteration found out of a total of a hundred and forty two samples examined. The year before there were five hundred samples collected and of these there were seventy seven adulterated. Prosecutions which were instituted against these who sold impure goods apparently had a correcting effect.

RENOUS RIVER.

Aug. 28.—Not seeing any notes from this place for the past few weeks I thought I would write a few to let the readers know that the people of this place are enjoying the sports of the season.

A very enjoyable evening was spent at the home of Daniel McEvoy on Tuesday last. Dancing was the chief amusement, excellent music was furnished by Frank Dunn and James McEvoy.

Misses Bridget and Leeny Dunn were callers at Mrs. Michael Buggy's on Sunday last.

Miss Clara Hetherington spent Sunday at her home here.

Congratulations to Mr. and Mrs. Charles Hays on the arrival of a young daughter.

Gordon Murdoch and Benj. Young of Renous Bridge passed through here on Sunday.

The many friends of Miss H. Buggy will be pleased to learn that she is recovering.

Mr. Jas. Donovan was the guest of Mr. Michael O'Brien on Tuesday last.

Miss Hyland of the clerical staff, of Renous Bridge Lumber Co. visited friends in Grandfield on Sunday.

John McNeil has accepted a position as blacksmith with Thomas Jardine.

We wish him success.

Miss Maggie Whalen was the guest of Mr. and Mrs. Jas. McEvoy on Wednesday last.

Jas. Dalton has taken the contract of shingling and repairing Mr. O'Brien's barn.

A. O. H. IN BIENNIAL SESSION.

Five New Divisions Organized In Maritime Provinces In Last Two Years.

OFFICERS ELECTED.

Order Declares For Total Abstinence And Endorses John Redmond's Leadership.

The A. O. H. Convention opened in St. John on Tuesday, Aug. 25th ult., about 500 delegates and friends in attendance.

President McManus stated that five divisions had been organized in different parts of the provinces and that the membership had increased considerably. This latter feature had not been all that had been anticipated. The report suggested that the territory be divided into four districts, each of which would be assigned to a provincial officer. The duty of this officer would be to visit each division in his district. In regard to insurance the report suggested that the subject be referred to a committee to decide whether or not it would be prudent to take up the matter with the provincial officers of Ontario, where they have a plan of insurance as follows: A policy for \$300 is issued for which the members pay \$4.00 yearly. They are anxious to increase the policies to \$1,000 and feel that it could be done if they could secure the co-operation of all the members in the Dominion.

There is at present a cash credit to the order of \$401.93, while the membership is about 1,500, a large increase over last year.

At Wednesday morning's session it was decided to take no action re insurance.

The Committee on resolutions reported substantially as follows: Section 1.—This section recommended the practice of total abstinence in the order.

Section 2.—That a vote of thanks be tendered to His Lordship, Bishop Casey for his kindly words of welcome. That a vote of thanks be tendered His worship Mayor Bullock for his address and welcome. A vote of thanks was also tendered to the Ladies' Auxiliary.

Section 3.—was composed of resolutions of condolence to Fredericton Division No. 1, on the death of Mr. James D. Hanlon and Hon. Daniel Hennessy.

Section 4.—This section endorsed Mr. William Redmond and the Irish party.

The progress of the order in the province was also dealt with in a congratulatory.

ST. JOHN, Thursday.—Last night the A. O. H. convention concluded business. The first business brought up was the scholarship. At the previous convention it was decided to raise a fund of \$2,000 for the purpose of establishing a scholarship in one of the colleges of the Maritime Provinces for the advancement of young Irish Catholics to the priesthood. Through some misunderstanding a few divisions did not assess their members for the amount. Last evening the provincial officers were instructed to see to the raising of the balance of the amount and the scholarship will be awarded at the next convention, when it will also be decided which college will receive the honor.

The election of officers resulted as follows: P. J. McManus, Halifax, president, re-elected; Hugh F. Hamilton, Moncton, vice-president re-elected; John R. McCloskey, St. John, provincial secretary, re-elected; Patrick Hennessy, Chatham, provincial treasurer; Rev. E. P. Wallace Campbellton, provincial chaplain.

The meeting then decided to accept the invitation of Brother E. B. Hughes representing the Sydney, N. S. divisions, to hold the next convention in 1909 at that place.

The newly elected officers were then installed by ex-Provincial President John C. Ferguson, assisted by ex-Provincial President Michael McDade and County President Wm. L. Williams.

As an officer remarked the convention just closed was the grandest ever held in the history of the order in the provinces of New Brunswick and Nova Scotia.

Following are the delegates from the North Shore:—

Restigouche—P. M. Shannan, county president; Patrick O'Leary, J. B. Walsh, Division No. 1; Frank Troy, Division No. 2.

Northumberland—T. H. Whalen, county president; M. W. McCarthy, recording secretary; Thos. J. Dunn, Wm. J. McCarthy, Jack Quinn, B.

Homestead Regulations.

Any even numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the 160 acres more or less.

Extent of one-quarter section of Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub Agency for the district in which the land is situated. Entry by proxy may, however, be made at an Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the homestead duties under one of the following plans:

(1). At least six months' residence upon and cultivation of the land in each year for three years.
 (2). A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.

(3). If the father (or mother if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of the homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father (or mother if the father is deceased).

(4). The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line, exclusive of the width of road allowances crossed in the measurement.
 (5). A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the Agent for the district of such intention.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

CAMPBELLTON NEWS AND NOTES.

Campbellton, Aug. 28th.

Mr. D. C. Gallan and A. D. MacKendrick left town Saturday morning and drove through Kempt Road to the Assamagmaghan River, at a point 20 miles from the mouth and then ran the river in a canoe. There was good fishing, but report the trip a hard one.

Mrs. F. L. Fletcher and family wish to thank the many kind friends for sympathy extended to them during their recent bereavement in the death of Mrs. Fletcher's brother, Mr. Joseph LeBlanc.

Another large crowd attended the hospital bazaar last evening. The Citizens' band was in attendance and played a choice program. A hot supper will be served tonight and all are invited.

Mrs. I. Chisholm of Dalhousie, is visiting friends in town.

A quantity of batteries for sale at the Graphic office.

The Italian strike leaders will be up for trial at Dalhousie today.

William Savidant, of the C. P. R. offices, Montreal, is spending a short vacation at his home.

Mr. T. Wran left yesterday morning for Montreal and Toronto to buy stock for his new drug store which will open next month.

F. A. Wheaton of Amherst, representing his company, was in town yesterday and elaves in the morning for a short trip along the Gaspe coast. Mrs. Wm. Munroe, who has been visiting friends here, returned to her home at Taymouth, York Co. She was accompanied by Master Gordon Anslow.

The excursion to Carleton will take place today. The Lady Sybil will leave her wharf at 9 o'clock, calling at Dalhousie. Amusements will be furnished at the beach and lunches and refreshments will be offered for sale. The Bank of Nova Scotia has rented the office of Messrs. Boudreau and Piche, brokers, and will conduct business there until their own building is remodelled. Messrs. Boudreau & Piche will carry on their brokerage business at the Albion Hotel.

The Opera House was well filled last evening to see the pie eating contest and much laughter was evoked by the antics of the ten youngsters in their endeavor to get their piece of pie out of sight first. Albert Payne evidently had the largest mouth and the greatest swallowing capacity as he won handsly, getting a prize of fifty cents. Manager Dincock furnishing the pies and they were the kind mother makes too. The films were exceptionally good and a most enjoyable programme was given.

There will be six changes in the teaching staff when the schools reopen on Wednesday next. Miss Edna B. Bell of Moncton, Grammar school teacher, will have charge of Grade IX; and Miss Jennie P. Alward, of the Manual Training department. The department to be assigned the others have not yet been decided upon. The names of the teachers are Miss Emma B. Smith, Miss Violet M. Knapp, Sackville; Miss Elizabeth Cook of New Mills; Miss Maggie E. McNair of Jacques River.

Sunday afternoon Chief Crawford, assisted by Officers Brown and Fleming raided a house in the upper part of the town and arrested four young men who were enjoying a quiet Sunday game of poker. The guilty parties appeared before Judge Matheson yesterday morning and were each fined \$20. The Chief has heard of a number of such places where young men congregate on Sundays and during the evenings and more raids will likely follow as the Chief is determined to put an end to such practices if possible.

The teaching staff engaged for the Campbellton Grammar School has been assigned to the following grades: James B. Carr, B. A., 10 and 11; Edna B. Bell, 9; Emma B. Smith, 8; Maggie E. McNair, 7; Violet M. Knapp, B. A., 6; Georgina Dickson, 5; Elizabeth Cook, 4; Kate McNair, 3; Grace Henderson, 2; Sarah G. Duffy, 1; T. T. Williamson, musical instructor.

Civil War Commencing.

NORTH BAY, Friday—Strike situation here has reached an acute stage and acts of violence are of daily occurrence. Yesterday some strike breakers came into town and got the worse of liquor with the result that there were several bloody encounters and a pitched battle ensued in which the strike breakers fared disastrously. American tourists returning from French River were stoned, being taken for strikers and many received bad bruises. Reports given out by the company that rolling stock is in good condition are denied and it is said trainmen are holding meetings over entire system to protest against the state of equipment at present.

Labor M. P. Interfares.

MONTREAL, Friday—Canadian Pacific strikers have interested Mr. Ver-ville, the labor member of Parliament in complaining to the Dominion Railway Committee that the Canadian Railway Act is being violated because the Canadian Pacific is sending out trains improperly inspected. They give one specific case where an engine was sent out of the Cretinmont shops without proper air brakes.

Belfast Tramways

In order to increase the earnings of the Belfast tramways, owned by the city, it was decided to change the fares and to make other alterations. Despite the strong opposition of the manager, cent fares were instituted, with the result that in a fortnight the receipts dropped 1,350 pounds. Now the corporation has agreed to let the manager have his own way and to abolish cent fares.

BUSINESS CHANGE

Octave I. Gallant of Ste. Alexia, has purchased the general business of L. J. Gallant of that place and will in future conduct the business. L. J. Gallant removes to Nouvelle where he has purchased a building and will install a new stock of groceries.

enjoying a drive from Dalhousie recently and when nearing a railway crossing they saw in the distance a freight train approaching. Concluding it would be safest to wait and give the train the right of way and pulled up. One of the young ladies ladleviewed with alarm the approaching train and decided to take no risks, so climbed down to the road. The train went thundering by, the steed looked around and winked at the driver and proceeded on its journey after allowing the young lady to mount to her seat.

Amatite ROOFING

THIS advertisement will bring to your attention the best and cheapest ready roofing on the market. Here is how we prove it.

In the first place Amatite is made in one standard thickness, whereas other ready roofings range from a thin flimsy half-ply to a three-ply thickness.

The three-ply thickness (which by the way is only one sheet of felt) is the only kind that can be compared with Amatite.

But right here is the point. Amatite is better made, has better waterproofing material, and weighs more per square foot than the three-ply grade of other makes, and costs much less.

These facts make Amatite the most desirable roofing made.

But in addition to its superiority in material and manufacture, Amatite has one distinction which makes it stand out above all others. It has a real mineral surface.

It is hardly necessary to state the advantages of such a mineral surface, the freedom from painting or coating, the perfect protection against all kinds of weather, the great durability.

This mineral surface is embedded in a layer of Pitch, the greatest known waterproofing material. Beneath this in turn are two layers of the best grade of wool felt—cemented together by more Pitch, making the whole a roofing that is absolutely waterproof.

No other ready roofing can compare with this mineral surfaced, waterproof, weather-proof, durable roof. That's why we say—Don't buy your roofing until you have seen Amatite.

Before Shrinking

Stanfield's Underwear

A Talk by the Maker to the Wearer

(Chapter 2)

In its natural state, wool consists of long, curly, silky fibres, dotted with tiny prongs or branches. These

prongs, when wet, interlock with the long strands and pull together, to protect the sheep from rain and dampness.

When wool is woven, the same thing would happen, were it not for the Stanfield process, which makes the prongs on each strand of wool lie down until the knitting is finished.

Stanfield's Unshrinkable Underwear is made absolutely unshrinkable by this special process, invented and perfected by the Stanfields. It is the only method of treating wool, which renders it unshrinkable and uninjured.

One way of getting rid of the prongs, is to burn them off by plunging the wool into a tank containing lime. As the prongs are a part of the wool, naturally the lime will "eat" the wool as well as the prongs. This is why some imported, and some Canadian-made "Unshrinkable" Underwear won't wear. It has been treated with lime in the effort to make it unshrinkable.

The illustrations above, show wool under the microscope both before and after going through the Stanfield process. They show that all the prongs that make it shrink are made harmless, BEFORE the Underwear is woven. And as there is no "shrink" in the wool, there can be no "shrink" in the Underwear.

Every garment, bearing the Stanfield label, is sold with our standard guarantee of "Money Back If It Shrinks."

All sizes from 22 to 70 chest measure. The label tells the weight—RED label for light—BLUE label for medium—BLACK label for heavy weight.

STANFIELDS LIMITED TRURO, N.S.

BATHURST.

BATHURST, Friday—What proved to be a very bad fire was discovered at about half past one o'clock this morning.

Mr. Henry White was first awakened by someone crying fire. On looking out he beheld the building owned and occupied by S. Miller as office and freezer in a blaze.

He immediately aroused Mr. Miller's family and sent in an alarm. By the time the department got out and working, the flames had spread to the residence. Every effort was made to route the dreaded enemy but, with out avail and although not razed to the ground it will be a total loss.

The loss is estimated at about three thousand dollars, but actual loss figures have not been ascertained.

The dwelling was insured with Mr. B. M. Lannigan in the Norwich Union for \$1200.

For a while things looked very threatening for the surrounding buildings but tireless efforts of bucket brigades was rewarded with confining the flames to the two buildings. Incendiary origin is the supposition.

Sometime previous to the fire S. Williamson's store was entered by means of the glass in the front door. The burglar was evidently looking for money, as about a dollar and a half in coppers was taken from the till and three watches were left in the desk.

During the fire Frank Dolron was arrested on suspicion of the robbery. On the way to jail he cut his pocket and spilled a quantity of coppers on the ground. Search revealed a lady's watch and chain and several minor articles among which was a glass cutter.

Information was laid before Magistrate Melanson and the examination will come up this afternoon.

About a year ago or less this same man was arrested under suspicion in connection with the Kent robbery but was allowed to go on account of lack of evidence.

Mrs. Buchanan, Henry White, W. R. Johnson and L. A. Palmer wish through the columns of the Graphic to thank those persons who assisted in the protection of their property at the fire this morning.

Mr. and Mrs. Orvell Carter are receiving congratulations on the arrival of a son and heir at their home on Wednesday.

Newspapers Barred

MONTREAL, Friday—An order was filed at the headquarters of the C. P. R. strikers today refusing admission to all newspaper men. Officials claim that information that had been private had leaked out and this was the only way to prevent and recurrence.

C. P. R. officials reported today that twenty maulers including six strikers had offered for work this morning but they were not taken on because the company was not in need of any more maulers. There are still demands for boiler makers.

SUCCESSFUL ORANGE MEETING.

New Lodge Organized With Twenty Five Charter Members.

NEW HALL

Big Celebration Planned For Northumberland County.

Northumberland County Lodge, Loyal Orange Association met in quarterly session at Morhouse on Wednesday afternoon, August 26th. Representatives of the majority of the lodges in the county were present, also two visiting brethren from Lodge No. 71, York County.

The following officers were present: County Master, James W. Johnston Loggieville. Chaplain, Henry Wyse, Newcastle. Rec. Sec'y, James H. Dale, Blackville. Treas. R. M. Grindley Blackville.

Pin. Sec. Alvin Bakkirk, Loggieville. The following were appointed pro tem: D. C. M. J. W. S. Bakkirk, Loggieville.

Inside Tyler, John Edge, Loggieville. Outside Tyler, Joseph Turner, Morehouse.

D. of C. Herbert Morehouse, Morehouse. J. H. Dale, H. Wyse and Alvin Bakkirk were appointed a credentials committee.

Several committees appointed at the last quarterly meeting brought in reports, which provoked lengthy discussions on topics of interest to the County Lodge.

James W. Johnston, Jas. H. Dale and R. M. Grindley were appointed a committee to deal with certain matters arising over propaganda work in the county.

Henry Wyse of Empire Lodge No. 125, Newcastle, gave notice that at next quarterly meeting he will move that a grand rally of Orangemen from all lodges in Northumberland County, with their friends, to be held at some central point in the jurisdiction capable of entertaining such a large gathering, be arranged for at an early date, the expenses of such a rally to be paid out of the Lodge funds.

The selection of place and date of holding next quarterly meeting was left to the executive.

At the conclusion of the business of County Lodge, an adjournment was made until 6.30 when a new primary lodge was installed by the County Master, assisted by R. M. Grindley, J. H. Dale, H. Wyse, J. W. S. Bakkirk, Alvin Bakkirk, John Edge, Joseph Turner and Herbert Morehouse.

The new lodge was named Star of Northumberland, No. 134, and started with 25 members.

Its officers are as follows: Herbert Morehouse, W. M. Robert Turner, D. M. Percy Dunphy, Chap. J. H. Duncan, Rec. Sec. Vernon Dunphy, Pin. Sec. David Morehouse, Treas. Vernon Peterson, D. of C. R. Arbeau, Lecturer.

Thos. Arbeau, Alex. Arbeau, Henry Arbeau, Charles Dunphy and Gordon Morehouse, committeemen.

Meetings will be held in the new Morehouse Hall, which has just been fitted up by the Morehouse brothers, especially for the use of the new lodge.

The visiting brethren are loud in the praise of the hospitality of the Upper Blackville and Morehouse people, and of the excellent arrangements made for their comfort and entertainment during their stay.

\$100,000 Goes Up in Smoke.

SAULT ST. MARIE, Friday—By a disastrous fire at the saw mill of the Lake Superior Corporation yesterday afternoon a loss of about \$100,000 was entailed. Fire started in the lumber piles of the mill, apparently from the huge stack at the mill or from a passing engine.

Luckily there was little wind, for had a strong west wind been blowing the saw mill and veneer mills undoubtedly would have been destroyed. It was thought for some time that both would go but owing to the united efforts of the firemen of the two Soos and the brigade of the Lake Superior Corporation the buildings were saved. Lumber destroyed belonged to the Miller & McCall Algoma Commercial Co. and Saginaw Lumber Co. and it is figured out that in all \$500,000 worth have been destroyed, estimated worth \$30 per thousand. Loss is said to be fully covered by insurance. The fire is still burning and may continue for several days.

Bank clerks, we observe, are still being imported from Scotland, the Scottish nation having an original bent toward the breeding of money.

C. P. R. in Bad Shape.

TORONTO, Friday—C. P. R. Motive power is certainly in a deplorable condition. Nearly all passenger trains are late and freight traffic is demoralized. Several of the strike breaking machinists who were brought in from outside points found the strikers today expressing themselves as dissatisfied with the way they were being treated. Numbers of peace negotiations are being circulated but any official confirmation is lacking.

DEGRADING PUBLIC LIFE.

(Morning Graphic).

Nothing but a few feeble protests have as yet appeared in the Conservative Press in regard to the disgraceful revelations in the Colchester election trial. Even these seem more of the nature of reluctant admissions than of condemnations or demands for reform. In every unwilling reference there is a clearly revealed reluctance to condemn the corrupt practices through which the party made political gain. There is also an ill-concealed eagerness to condemn the men who have made the disclosures instead of the men who instigated the crime.

The man of affairs is evidently and obviously a scoundrel, and eagerness to shield the real criminals behind him is prompting the most ridiculous pretences. The Mail and Empire expects its readers to accept the following: "Nobody asked Mr. Bayne to pass whiskey, or rum, or money among the electors as an inducement to vote for Mr. Stanfield, and if he has committed that offence he must take the consequences. The wrong that is alleged is, in our opinion, as much an offence as it is an offence to the morals of the community. For twenty years the Conservative leaders have been fighting election crime."

Were it not for the enormity of the political crime this is intended to cover up it would be highly amusing. Such a ridiculous pretence shows the lengths to which the Conservative Press is driven to in endeavoring to shield the real criminals. This man, an American, with no interest in our public life, comes into Colchester, gives one man \$15 and six bottles of whiskey, another \$20 and a case of bottles of whiskey, another \$25, and another a grip full of stacks of whiskey. He made a wearying and disgusting list of similar distributions, including a two-gallon jug of whiskey, a basket of bottles of whiskey, and many small donations in cash. While carrying on this nefarious work he was in the closest relationship with the leading Conservative campaign managers. In the face of these facts The Mail and Empire seriously asserts that nobody asked Mr. Bayne to pass whiskey, or rum, or money among the electors as an inducement to vote for Mr. Stanfield.

Can it be possible that The Mail and Empire thinks the people of Canada such fools as to believe that this man went into the constituency and incurred the risk of the penitentiary on his own initiative? There is a feeble attempt to foster this delusion by neglecting to publish the news of the trial. The strikingly sensational revelation of the Truro court has been omitted from the news columns, and by that journalistic device it is hoped to delude the public. This awkward defence of the crime and the criminals is a far more notable influence than the slightly apologetic and abstract condemnation of the crime. It is this attitude that makes the eradication of such crime impossible. The real criminals feel safe while thus defended.

What becomes of their hired operator and accomplice they do not care. Such men are always to be hired while their employers are safely protected. But, fortunately for Canada, the public conscience is too sound to allow the ultimate triumph of such rascality or such conscienceless attempts at apology or concealment. Toronto Globe.

C P R STRIKERS

DISAGREE.

MONTREAL, Thursday—A split in the ranks of the striking C. P. R. mechanics has threatened to put an end to the trouble so far as the company is concerned here. Last night it is stated a private meeting of strikers was held, fifty men being present, at which a committee was appointed to interview the old management to see what terms could be made about returning to work.

The strikers arrested yesterday all pleaded not guilty today. Two boys were let go, as the police took them merely as a precaution. Two Russians accused of throwing stones were remanded to jail, the men who were injured being still in bed, while the others accused were allowed out on bail.

Four more boiler makers quit work today, saying they were afraid to stay.

KINGS COUNTY CANDIDATES.

Dr. McAllister For Liberals; Fowles Likely For Conservatives.

SUSSEX, Friday—Dr. D. H. McAllister who was one of the Liberal candidates at the last local election was today nominated for the federal house for Kings—Albert to oppose Geo. Fowles, M. P. The Conservative convention to nominate a candidate for parliament will be held at Hillsboro on Friday, September 11th. The last convention was held at Hampton and this time Albert County will have the privilege of looking after the delegates. George W. Fowles, M. P. will be the choice of the party when the delegates assemble.

FOUND BROTHER HEADLESS

POTTSVILLE, Thursday—George Taylor of Auburn had a heart-rending experience this morning when he found the headless trunk of a man huddled between the tracks of the Philadelphia and Reading Railway, which upon examination of the head nearby, proved to be that of his young brother, LeRoy Taylor.

LeRoy Taylor lived with his parents on a farm a short distance from Auburn. His brother George this morning started out to visit his parents and walked up on the railway it being the shortest cut to the farm. Upon reaching a cut above Auburn he stumbled against the body. Thinking that it was some wanderer asleep he stooped to lift him to a safer resting place and was horrified to find the body headless and with one arm missing.

The sight was sickening but Taylor grimly looked about for the severed head and finally discovered it a few yards distant along the bank.

Turning it over with his foot, the poor fellow almost fainted when he recognized in the bloodstained distorted face the features of his brother LeRoy.

The dead man was a baseball player and athlete, and played ball with his team at Pine Grove yesterday. Returning home late he spent the evening with friends at Auburn. He started for the farm shortly after midnight and was run down by a train.

ROBBERS MURDER.

PHOENIX, B. C., Thursday—The village of Midway, 12 miles from here was the scene of a sensational hold up last night, when Charles Thomet of Midway Hotel, was shot and killed by highwaymen. Two masked men entered the hotel at nine o'clock and at the point of a gun four men, including Thomet, were told to throw up their hands. Thomet being behind the bar, put his hand on the revolver and opened fire on the intruders, wounding one, and the strangers retaliated. Thomet received a bullet in the shoulder and abdomen after which he staggered through a side door into a room. The desperadoes got into the room through another entrance, shooting three more bullets into the body of the dying man. They then made their escape. Blood hounds are being brought from Spokane to trail the criminals. One of the desperadoes is thought to be seriously wounded.

MINISTER OF RAILWAYS APPOINTS COMMISSION

OTTAWA, Thursday—A commission has been named by Hon. George Graham, Minister of Railways, to investigate the condition of equipment and business prospects of the branch lines of the Intercolonial Railway in the provinces of Nova Scotia, New Brunswick and Quebec. The commission consists of E. Timm, General Traffic Manager, Intercolonial; W. A. Story, General Freight Agent, Intercolonial; and T. A. Bowden, Engineer Railway Department, Ottawa. The investigation is a preliminary to the acquisition by lease or purchase of the branches which can be operated with profit to Intercolonial and benefit to districts run through. Last session Hon. H. R. Emmerson called the attention of the House of Commons to the unsustainability of the government to obtain control of many smaller railways, connecting with the Intercolonial. He pointed out that it had been the policy of both the G. T. and C. P. E. to obtain control of all privately owned local lines which touched their main lines and they now had control of nearly all such roads in Canada. To this he attributed much of the prosperity which these two lines enjoyed as most of the business of the Grand Trunk and C. P. R. originated on these branches. Business on the lines increased after they had been acquired by larger companies and a condition of local lines improved through rates given and administration more economical than when they had been run independently. The improvement in service on local roads stimulated new enterprises along them and the roads benefited.

MUST THEY LEAVE TOWN?

Of the fifty people thrown out of employment by the destruction of the Anderson furniture factory, some have already left town and, unless the industry is re-established soon, all or most of the others will also be compelled to emigrate. Their leaving will mean less business for the grocers, tailors, boot and shoe and dry goods merchants, furniture and hardware dealers, fuel merchants, doctors and druggists. It will be unfortunate should none of our citizens see their way clear to help re-people the industry.

STAY AT HOME.

The C. P. R. harvest excursion for September 5th has been cancelled. This is well, as there are too many laborers now in the West for the positions vacant. It would have been still better had none gone from the East on the first excursion. Many who did so are now stranded far from their homes, with no work, no money, and no means of returning, as their cheap return is conditional upon their having previously worked for thirty days with some farmer. The farmers of the West have too much land. Smaller holdings and many proprietors instead of large holdings requiring many laborers for a few weeks with nothing for the remainder of the year, are what the West needs.

HOW SOME ELECTIONS ARE WON.

(St. John Globe.)

Last November an election took place in Colchester County with Mr. John Stanfield as the Conservative candidate, and Mr. Hill as Liberal. The only fair the conservatives had of the result of the contest was that the liberals, who were in power, would swap the honest electors of Colchester by the use of money. Of course opposition supposition was that the liberals were the only politicians who would stoop to bribe the good, honest and upright, free and independent electors of Colchester County. A conservative politician would spurn such a course. The conservatives of that fair country proclaimed from the house tops how clean they were, and to show to Canada at large what good and true men they were, and that sincerity was the uppermost thought in their minds, Mr. Stanfield's committee decided to draw up a Purify Manifesto. This manifesto was given to Canada with a flourish that found a re-echo through the conservative press from Sydney to British Columbia while by wireless it jumped over the Kicking Horse Pass to the Yukon. Mr. Hill, the liberal candidate, who was looked upon as the "finer and purer" man, sent a proposal to Mr. Stanfield and his friends on nomination day to the effect that each appoint one hundred men, who would pledge

themselves in writing to see that the contest was conducted on fair lines. Mr. Stanfield assented, as it seemed, and left the matter in the hands of the conservative committee. The trial which opened at Truro last week showed that Mr. Stanfield made no mistake in "leaving the purity end of the campaign to the committee." For men of a prohibition county they knew a thing or two about "underground railways," "walking rum shops," "speak easies" and other ways, whereby they "loaded up" the unwary voter with that "cursed stuff" which, the temperance orator maintains, makes men stupid, so that they commit crimes without knowing what they are doing. Thus many an unfortunate Colchester man, whom the good people of the county tried to save by adopting prohibition, was led by a purify party to barter away his suffrage. The election went on, and on the platform with the conservative speakers the purify committee had large boxes labelled "choice tomatoes" under which disguise the speakers said the grite were bringing liquor into a prohibition county. On the night before the election Hon. Geo. E. Foster was the principal speaker at the big political meeting in favor of Mr. Stanfield. The conservative party managers, with no doubt an acute sense of humor, knowing that Mr. Foster in one period of his life had "a momentary weakness" with regard to the liquor question, placed on the stage a big box labelled "Choice Tomatoes."

How the conservatives must have inwardly chuckled, when they hoodwinked a good man like the Rev. W. A. Cunningham in making him believe that the liberals were flooding the county with rum. Polling day came, and when the votes were counted Mr. John Stanfield was elected. The Halifax Herald, in announcing the result, said: "The clean straight, manly liberals of Colchester have spoken loud and clear. They set the seal of their stern condemnation on the immorality, debauchery and the corruption of men masquerading as liberals."

It also published a picture of "John Stanfield, the liberal-conservative standard bearer, who with the aid of the C. S. M. liberals of Colchester, has broken the links of the solid eighteen."

Mr. Borden telegraphed: "It was a victory for good government." All over the country the conservatives told in big headlines that Mr. Stanfield had won a pure election, without the aid of any of the intrigues that the grite resort to, and how he had to fight both the federal and local liberal governments. It was more than a moral victory. When Mr. Stanfield took his seat in parliament, he was received by the opposition with as much enthusiasm as if he was the hero who relieved Ladysmith, for he redeemed Colchester without price, and added much in the work of purifying elections. Like the good boy in the Sunday School book, he was favored by the fates, for righteousness will prevail even if the hosts of darkness are against it. For a period all went well, and Mr. Stanfield's victory was looked upon by many as the outcome of an honest appeal to the electors of Colchester County, and a good deal of capital was made out of it. Unfortunately, there were vague rumors about the goings of some of the men who were leaders in the conservative campaign work, but these rumors were frowned down by the party press. It is a difficult thing to make figs grow on thorn bushes, and it is surely a true saying that one's sins will find them out. This happened surely to a few of the prominent inner circle of the conservative party in the Colchester County elections. Truth is said to be naked, and when this matter came before the court at Truro last week the white robe of purity dropped from the shoulders of a few men. A Mr. Bayne, according to the evidence given, was anything else but a saint. He was a good handler of the flask that cheers, while a Mr. Ritchie was an adviser that did not advise voters according to their conscience and to keep the narrow path. In point of fact after leaving Mr. Bayne many of the electors, if they walked to the polls, would require a couple of boulevards side by side so as to give them lee way in a prohibition county. Mr. Alexander McDonald deposed "that two or three nights before the election he got money from Mr. Bayne—\$15; we were talking about the election. He was praising Mr. Stanfield. He had meals at Corbett's. He did not know who paid for them." There's nothing like taking time by the forelock, so Bayne tried the fixing process

before the election. For a fifty-cent drive Mrs. Bayne paid \$5. The Halifax Recorder sums the whole doing of purify up as follows:—

John C. Jamieson, mail carrier, five dollars; Joseph Jamieson, brother of above, five dollars and advice to see Mr. Ritchie to talk matters over.

Mr. Geo. Corbett, hotel keeper at Five Islands, got two barrels of liquor from Halifax, addressed to Mr. Bayne and took them to his hotel in Five Islands; advised to see Mr. Ritchie and talk it over.

Noble Morrison saw a crowd of "faithfuls" with Mr. Bayne at Corbett's Hotel; had some whiskey, advised to see Mr. Ritchie and talk it over.

Howard Ackles, had drinks pre-election night; advised to see Mr. Ritchie and talk it over.

George McClellan, five flasks from Mr. Bayne.

Walter Atkinson, found two gallon jug in barn; advised to talk it over with Mr. Ritchie.

Allan Durney, five bottles from Bayne; advised to talk it over with Mr. Ritchie.

Edward Barkhouse, got liquor from Bayne election day; advised to talk it over with Mr. Ritchie.

Wilbert Corbett, carefully attended jugs in Atkinson's barn.

Owen Lewis, found basket of whiskey at his front door; Mr. Ritchie anxious to see him.

Howard Wells, got drinks from the "jug in the barn; talked it over with Mr. Ritchie.

Thomas Morrison, got six flasks and two bottles from Bayne.

Let it be noted that most of these witnesses held seances with Mr. Ritchie being subpoenaed and before appearing in court.

So far as revealed the purify victory was won by the spending of several thousands of dollars, and over 5,000 gallons of liquor, not too bad for a prohibition county. It is no wonder that there were a good many boxes marked "Choice Tomatoes." But this is not all. Several witnesses have taken holidays, outside of the courts, and when they return no doubt they too will add another chapter on running an election on the "Purify Platform," with all rights reserved. The sad side to all of this business is that it tends to the degradation of politics. We do not assume for one moment that Mr. Stanfield was any party to the wrong-doing. Unfortunately irresponsible men are allowed too much latitude in election contests.

TORONTO, Thursday.—A band of robbers, is discovered to have been hiding in a cave on the Humber River. Much stolen property has been recovered and a launch has been found sunk in the river.

Emigration returns show that during July over half the English, nearly two thirds of the Scotch and over three fourths of the Irish emigrating went to the Dominion.

The figures for the half year are 63,385 against 125,236 in 1907.

The reasons for the break in the solid Liberal phalanx from Nova Scotia in November last are now being brought to light by the election court. And they reflect credit neither upon the electors nor upon the Conservative party.

Mr. Longboat seems to be learning how rapidly a has-been sinks to the same oblivion that envelopes the never was. Hardly a day passes now but what he fails to get a letter from anybody offering him two thousand dollars with a string on it.

NEW YORK, Wednesday.—Last summer Ferdinand Pinney Earle startled the country by announcing that he had urged his wife to go to her home in France and sue him for divorce. He also stated that his wife had agreed to take this course in order to enable him to marry his "affinity" Julie Kutner. Residents of Monroe were indignant and twice attacked the artist as he was driving through the village. Later Mrs. Earle and her children sailed for France. There Mrs. Earle secured a divorce.

MARITIME BAPTIST
CONVENTION.

Declare Unanimously For The
Union of All Baptists In
Canada.

66,737 MEMBERS.

Condemn The Principle of Govern-
ment Ownership of Alcoholic
Beverages.

The annual convention of the United
Baptists of the Maritime Provinces
opened in St. John on Saturday the
22nd ult.

Saturday afternoon officers were
elected as follows:—
Dr. C. C. Jones, chancellor of the
U. N. B., president.

Rev. J. H. MacDonald, Fredericton,
secretary.
Donaldson Hunt, St. John, treasurer.
Prof. H. C. Creed, Fredericton,
Editor of Year Book.

Rev. I. W. Porter for N. S.; Rev.
W. E. McIntyre for N. B.; and A. W.
Sterus for P. E. I., treasurer of de-
nominational funds.

Foreign mission bond reported 8
churches on mission field, with 554
members, and 55 baptisms during the
year. There are 25 day schools, with
1000 pupils, and 77 Sunday Schools
with 1500 pupils.

The report on Temperance urged
the establishment of a Baptist depart-
ment of Temperance and Moral Re-
form, and voting only for candidates
who are Temperance men; it expressed
the opinion that the recent amend-
ment to the Scott Act was of little or
no value, and it condemned govern-
ment ownership of liquor sold for
beverage purposes, but said nothing
as to who should manufacture and
sell the liquor necessary for mechan-
ical and scientific purposes. The re-
port was adopted.

Rev. G. A. Lawson presented report
of the annuity and Ministerial Relief
and Aid funds. This showed less than
\$1500.00 received from the churches
during the year in support of these
funds.

ST JOHN, Monday.—The session of
the Maritime Baptist convention today
was an important one to the members
of the church. The approval of the
gathering was given to a scheme of
organizing the church throughout the
Dominion of Canada into one body for
the prosecution of certain branches of
work. As other sections of the church
have already voted in favor of this
measure its success is practically as-
sured. The report of the committee
which had been negotiating with the
Christian church for the union of the
two bodies was referred back as the
members wished the matter of join-
ing more fully set forth. The re-
port showed that considerable pro-
gress had been made in the matter.

The treasurer of Acadia College sub-
mitted his annual report. The most
interesting feature of this was the
announcement that the second forward
movement had been successful. More
than the required \$100,000 had been
raised by the church and in conse-
quence the full sum of \$100,000 prom-
ised by John D. Rockefeller has been
paid over. The announcement was
the signal for the display of consid-
erable enthusiasm on the part of the
delegates.

This evening the subject of discus-
sion was "Christian Education," and
addresses were given by the president,
W. B. Hutchinson, Principal H. T. De-
Wolfe, and Rev. C. W. Ross. The re-
port of the Sunday school board was
presented.

The enrollment of students at Acad-
ia College was 187 men and 44 women;
at Acadia Seminary 290 students, 115
of whom were in residence. At Hor-
ton Academy there were 102 enrolled,
but the attendance was not as good
as usual.

The Baptist denomination is in
very flourishing condition in the Mar-
itime Provinces. There are 65,737
members of 572 churches, a consid-
erable increase on last year.

Next year's convention will meet
on first Thursday in September.

Saul and Jonathan Slain in Battle.
1 Sam. 31.

Golden Text.—Prepare to meet thy
God. Amos 4:12.

What is the preparation necessary
in order to meet God with confidence
and in peace?

Verse 1—Were the Israelites de-
feated because the Philistines had the
better army, or was it because God
was against Israel at this time?

Why was God against Israel at this
time?

May we ever expect to win, in any
thing, if God is against us, and if not,
how do you account for the apparent
success of some bad men?

Verse 2—Why did God permit the
lovely Chatham to be slain?

Is it often in these days, that the in-
nocent have to suffer with the guilty?

Give some examples.

How do you justify God in permit-
ting the innocent to suffer with the
guilty?

Verse 3—If Saul had been true to
God would this defeat have happened?

Does God often use the ungodly as
instruments with which to chastise
his children?

Verse 4—Was the death of Saul de-
termined by God to take place at this
battle? See 1 Sam. xxviii: 19.

Does the Lord know how, when and
where, each one of us will die?

Granting the freedom of the will
and that acts are contingent and not
necessary, how can God know what a
free agent will do?

Is Saul to be blamed for wanting
his servant to slay him, or for finally
killing himself?

Verse 5—Under the most provoking
circumstances what can be said for or
against suicide?

Verse 6—In the long run is it pos-
sible that, in any instance, sin can re-
sult in final happiness, and if an act
which the world and the church label
sinful, really results in all round hap-
piness, was that act properly labelled?

This question must be answered in
writing by members of the club.

Verse 7—What reason is there to be-
lieve that the wrong doing of one per-
son, so often results in the ruin of a
family, or a community, or of a nation?

Verse 8—In what respects is
modern warfare conducted in a more
humane way than ancient warfare?

Is there any sense, or humanity, in
modern warfare in killing and maim-
ing all you can in battle, and then
picking up all that are not actually
dead, and with tenderness and at-

St. Neepaw

Badly Damaged

PORT ARTHUR, Friday.—The light-house supply steamer Neepaw, which was on the rocks near here about a week ago and was abandoned to the Underwriters was floated today but is very badly damaged. The Neepaw is practically a new vessel.

The large steamer Domira, Capt. Allen, which loaded here for the Shivan Lumber Company, is hard and fast aground at the first gas buoy about two miles below town.

The steamer left here at an early hour Thursday morning in charge of Pilot Elzevier. She was proceeding at a fair rate of speed and was following the south side of the channel to clear the dredge which is stationed at that point, when she grounded and struck the south side of her course and before she could answer her helm she was hard and fast aground on the north side of the river, plowing several lengths of herself through the soft bottom.

Several attempts have been made with the assistance of the tug Goliath and William Aitken to pull her back to deep water, but without avail. She went on at about high water and it is probable her deck will have to be discharged before she can be floated.

YOUNG BRIDE SUICIDED

HERRINGSDORF, Prussia, Sunday.—The bride of a week of Professor Rudolph Spitzer, of Sternberg, Huchenberg Schwerin, today threw herself from the top of the Bismarck tower here falling 1,200 feet to the bottom of the cliffs upon which the tower is built. The couple came here on their honeymoon. The woman left a note addressed to her husband asking his forgiveness and requesting that he marry another woman with whom he would be more happy. Prior to their marriage the pair had been engaged for ten years.

It's a pity when sick ones "drug the stomach or stimulate the Heart and Kidneys. That is all wrong. A weak Stomach, means weak stomach nerves, always. And this is also true of the Heart and Kidneys. The weak nerves are instead crying out for help. This explains why Dr. Shoop's Restorative is promptly helping Stomach, Heart and Kidney ailments. The Restorative reaches out for the actual cause of these ailments—the "failing" inside nerves. Anyway test the Restorative 48 hours. It won't cure so soon as that, but you will surely know that help is coming. Sold by all dealers.

R. L. BORDEN'S
POLITICAL TOUR.

OTTAWA, Monday.—Plans have been practically completed for the tour which Mr. Borden, the Conservative leader, will make this fall of the province of Nova Scotia, New Brunswick, Quebec and Ontario.

His first meeting will be on the 3rd of September at Amherst and other dates are arranged for as follows: Ausquodoboit, September 4th; Shubenacadie, September 5th; Yarmouth, Sept. 7th; Queens Shubenacadie, Sept. 8th; Lunenburg, Sept. 9th.

From September 10th till September 14th he will be around Halifax and will hold a large meeting in Halifax on the "last" "meeting" day. Proceeding westward he will be in St. John on Sept. 15th; Fredericton, Sept. 16th, (probably) Sept. 17th; Quebec, Sept. 18th; Sherbrooke, Sept. 19th; (afternoon probably); Farnham, Sept. 19th; (evening); Montreal, Sept. 21st; Pembroke, Sept. 22nd; London, Sept. 23, Toronto.

interviewed on the subject of Canadian girls, said they were magnificient. From this outburst we would judge that his Montcalmness sometimes deserts him.

Our Conservative friends won the bye-election in Colchester, Nova Scotia, boasting all the time how much they loved Mr. Borden's purity of election talk. And now there are horrid people actually swearing in the witness box they got \$15 and some rum, \$30 a case of flasks and a long bottle, "a gripful of booze" \$45 and liquor, and such like. As the Montreal Herald remarks that's the way to fight for purity of elections.

Heart Strength

Heart strength, or Heart Weakness, means Nerve strength, or Nerve Weakness—nothing more. For, if the heart is weak, it is a hundred to one, it is actually diseased. It is almost always a hidden tiny little nerve that really is all at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the Heart must continue to fail, and the stomach and kidneys also have these same controlling nerves.

This clearly explains why a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative—this powerful heart-strengthening—also directed to these weak and ailing nerve centers. It builds up the heart, it offers real, genuine heart help. If you would have strong hearts, strong digestion, strong nerves—re-establish them as needed, with

"ALL DEALERS"

This woman says she was saved from an operation by Lydia E. Pinkham's Vegetable Compound. Mrs. Frank Emsley, Lindsay, Ontario, writes to Mrs. Pinkham: "When I wrote to you some time ago, I was a very sick woman suffering from female troubles. I had inflammation of the female organs and could not stand or walk any distance. At last I was confined to my bed and the doctor said I would have to go through an operation, but this I refused to do. A friend advised Lydia E. Pinkham's Vegetable Compound. After using three bottles of it, I feel like a new woman."

I most heartily recommend Lydia E. Pinkham's Vegetable Compound to all women who suffer with female troubles.

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness or nervous prostration. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

WIRELESS TELEPHONE

The reported success of the wireless telephone in communication between the Eiffel Tower in Paris and a point on the Breton coast three hundred miles away seems to mark another era in the progress of invention for the increase in human intercourse. In one way or another the facilitating of human intercourse has been the chief end of all the greatest inventions and improvements of the last century, which is a very suggestive, if not prophetic fact. This one seems almost too horribly intimate and a fulfillment of the saying, not pleasing to imperfect beings that, what is spoken in the ear in closets shall be proclaimed on the house tops. The wireless telegraph and the wireless telephone have seemed almost irresistibly to suggest an explanation of or at least an analogy for telepathy. The theory has been set forth in capable quarters that just as the impalpable electric medium carries the voice for miles abroad the operations of each man's brain to repeat themselves in any brain that is sufficiently attuned by some subtle sympathy. Not only so, but more or less each one's thought and feeling influence all other thinking and feeling, thus amounting to the intensification, and often wild exaggeration, of sentiment when many are thinking or feeling in mutual accord. Thus when a mob seizes on a mob, each one does wilder things than any of the mob would do separately and when faith takes possession of a community of believers they soar on higher heights of divine sympathy than any one of the number could attain to were the atmosphere about him negative or influencing in terms of religion, heeds the body and is greatly strengthened by mutual of public worship when real. The faith that heals the soul is of the same sort, as that which under various an opposite direction; hence the value of indefinite distance, to be gathered up intact by a sympathetic tympanum far away, so some unknown mediocrity. This theory, that thought and sentiment pass from mind to mind and can occasionally do so in almost undiminished force is no new one. In one way or another it has always been held. The scientific statement of it is interesting as affording an hypothesis as to the operation of some acknowledged but unexplained phenomena. The suggestion of the theory is if one's every thought is emanating through the whole race as a consequence through all time and exercising an omnipresent and eternal influence, what manner of persons ought we to be?

The air-ship age seems definitely in sight. If we are to believe the press dispatches that Captain Baldwin is to establish a line of passenger vessels to ply in mid-air between Philadelphia and New York. We may yet live to see our Legislative Councilors and M. P. P.'s come flying to their sessional duties through the air instead of by rail.

It seems the Colchester supporters of Mr. Borden's purity of elections platform won the election with the aid of an American citizen and non-voter and type of political debaucher, who did the trick with money and liquor. The description is from the Halifax Herald, leading Conservative newspaper.

It comes over us that a lot of tea harvesters who have gone West would rather fight than work.

CHARGED WITH BURGLARY

Preliminary Examination of Samuel Williamson at Bathurst Friday

BATHURST, Friday night.—The preliminary examination of Frank Dolton accused of breaking into Sam'l Williamson's store last night took place this afternoon before Magistrate J. J. Melanson, J. J. Harrington conducting the prosecution.

Samuel Williamson was the first witness called. His evidence showed that the store door had been securely locked at nine thirty, and that at two fifteen this morning he had found the glass in the front door broken and the side door open. Upon investigation he found that a quantity of coppers left in the till had been taken. Mr. Williamson positively identified a key tag with his daughter's name there on, which was found on accused, and which was in till with coppers.

Douglas Williamson, son of Samuel Williamson substantiated the previous witnesses evidence in every way. Joseph Berth, constable told of the arrest of the accused and stated that on the way to the jail the prisoner had dropped several coppers.

James McGinley, constable, gave evidence. Both constables identified articles produced as those taken from Dolton when searched at the jail.

Victor Landry and Arthur Leveigne testified of meeting the prisoner between twelve and one o'clock.

The prisoner was remanded for trial. The regular sitting of the County Court Judge Landry presiding, will meet here on Tuesday next.

THE TABLES TURNED

After the election was over and John Standfield was announced as the free and untrammelled choice of the electors of Colchester last November, the chief Conservative organ, the Halifax Herald, had something to say on the result. The Herald proclaimed in blood red letters on the first page: "The clean, straight, manly Liberals of Colchester have spoken loud and clear. They set the seal of their stern condemnation on the immorality, the debauchery and the corruption of the men masquerading as Liberals." It also publishes a picture of John Standfield, the Conservative standard bearer who, with the aid of the clean, straight, manly Liberals of Colchester has broken the links of the solid eighteen.

Last week's revelations in the Bayne trial at Truro show upon which side the immorality, the debauchery and corruption were practised.—Ottawa Free Press.

OTTAWA, Monday.—Sir Wilfrid is back in Ottawa greatly benefitted by his holiday. DUBLIN, Thursday.—A strange story of a mirage, which reminds one of 'The Spectre Island' or 'The Phantom City', comes from Ballyconnelly, a town on the wild Canadian coast some miles beyond Cape Breton.

Recently a small town well studded with houses, was observed on the sea about six or seven miles westward. The beautiful spectre showed lovely and dim, being first seen by some young persons.

Soon hundreds gathered to witness the enchanting spectacle, which they state was composed of different sizes and varying styles of architecture. Here and there was a dismantled dwelling, as if even this strange land of sunshine had been visited by the crowbar brigade.

The phantom city was visible from 3 p. m. to 8 p. m. when it gradually vanished from view.

A TEST OF SHEEP DOGS

Notable Work at the Petworth Agricultural Shows.

(London Daily Mail).

Three short, sharp whistles from the Westmorland shepherd on the hill top and the long-haired sheep dog as his heels raced away down the slope to round up three stupid, staring sheep and drive them through many obstacles to a pen a quarter of a mile in six minutes.

It was at the agricultural show at Petworth, on the Sussex uplands, that this sheep dog trial took place. Six shepherds from the dales of Westmorland had come to show their fellows on the South Downs how to drive sheep. They brought with them twelve dogs dogs that can do everything but speak, and can do the work of two men in shepherding.

The twelve courses were run first through a confined gap with a line of hurdles, then along a narrow flag marked track. This was the way the sheep had to be driven. Three sheep to each dog, the shepherd being roped to a stake in the centre and controlling his dog by whistles of differing length and quick gestures of the arms.

The result was marvellous. The dogs understood the language of whistles as well as a human being comprehends words. They dashed backwards behind the sheep, steered them through the gap, and then round the sheep of the course until the finishing pen was reached.

One greybeard of a shepherd interrupted his whistles thus.

Three whistles. Drive on.

One long, one short. Run outside the sheep.

A long whistle. Lie down and stop.

Two short whistles. Drive straight.

"One man," said this old shepherd, "with two good dogs can manage two thousand sheep. They are better shepherds than men. I have known one of our sheep dogs rescue a sheep from a bog where no man would venture.

We train our dogs from puppies, and in sixteen months they are usually good at work. They are specially bred and show an instinct for shepherding from the first. They are the best dogs in the world."

The fastest, time for the quarter mile course was 412 min., and the next fastest 514 min. No sound of any kind was made by the dogs when running their trials.

PENNY POSTAGE

The going into force of a two-cent letter postage rate between the United States and Great Britain on October 1 next is likely to fix the limit on reductions on ocean postage for a long time. In a short generation there have been three reductions in the charge for carrying letters from Great Britain to the greater part of this continent. For many years the rate was 12 1-2 cents, and the reduction to 5 cents was counted a notable step. Then, in the case of Canada, there was a reduction to two cents. Now the United States comes under the same order, which, extending to Great Britain and her colonies as well as to Canada and the United States, probably now applies to half the international ocean mail business of the world. These are the days in which knowledge is increased.

One of the first announcements of policy made by Hon. J. D. Hazen after his accession to the Premiership of New Brunswick a few months since was that he intended to enter upon a vigorous policy of repatriating the New Brunswickers who have gone to the United States. Acting upon the principle that charity begins at home he has inaugurated the new policy by appointing one uncle, a resident of Boston, to a lucrative office under the Crown and by offering a similar good thing to another uncle. There's nothing like beginning a good policy in the right way!

CURE SICK HEAD

It has been found that the cause of sick head is the accumulation of poisons in the system, such as bile, indigestion, etc. While these poisons are in the system, they will not leave the body until they are eliminated by the action of the liver. The liver is the organ that filters the blood and removes the poisons. If the liver is weak, the poisons will accumulate and cause sick head. The cure is to strengthen the liver and eliminate the poisons. This can be done by taking the 'Cure Sick Head' pills. These pills are made of natural ingredients and are safe for all ages. They will strengthen the liver and eliminate the poisons, thus curing the sick head.

REFUSE FREIGHT REDUCTION.

NEW YORK, Thursday—The Trunk Lines Association has formally refused the petition of the trans-Atlantic steamship companies that a reduction be made on grain rates to New York, Boston, Philadelphia and Baltimore to meet competition through the port of Montreal.

In defence of its action the association declares that, although for the months of May, June and July 1908 as compared with the same months in 1907, the wheat, exported from New York declined from 5,843,344 bushels to 3,248,035, and from Boston from 562,186 bushels to 434,207. In Philadelphia on the other hand, it increased from 1,590,086 to 2,557,225 bushels, and in Baltimore from 412,000 bushels to 2,488,799, so that the total export of the four cities shows an increase.

Trunk lines say the reduction of rates east of Buffalo necessary to equalize the rates of competitive all-water routes leading to Montreal would result in rates wholly unremunerative. Railroads are without evidence or assurance that reduction to the extent proposed will result in increased movement through Lake Erie gateways.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surface of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. THE CONGO QUESTION

Belgian Press Welcomes End of the Country's Ills

BRUSSELS, Wednesday—The Belgian press welcomes the end of the Congo question with expressions of relief and assurance that Belgium will demonstrate to the world how power, humanity and wisdom to govern the African continent. The Independent, Belgium, says that the Senate's concurrence for the annexation is certain, and that therefore the grand work accomplished by King Léopold in Africa will not be lost to Belgium.

The *Dernière Heure* declares: "We must obliterate the reign of twenty bloody years, wipe out hatred, distrust and prove to the world that the Congo's woes and ills are over for ever."

Other newspapers point out that the Congo debt difficulties will certainly be adjusted by parliament and declare that financial fears are unnecessary. The annexation of the Independent State has been received by the public generally either with indifference or the opinion that the Congo would prove a burden upon the country.

IN THE TABERNACLE PULPIT

Rev. P. J. Stackhouse of Campbellton spoke to his old congregation at the Tabernacle church, on the 23rd on the subject, "The Life That Is Worth While." After briefly sketching the moral and spiritual conditions of the age in which Jesus lived, he claimed that Jesus Christ came into the world to show men the life that is worth while. He showed negatively that a life devoted to the acquisition of material things, a life devoted to pleasure or to the ecclesiastical duties and the externals of religion is not a life that is worth while. Positively, according to Jesus, the life that is worth while is a life of communion with God expressed in loving service. Jesus not only taught the life that is worth while, but he illustrated it in his own person.

In closing, Mr. Stackhouse showed that Jesus not only taught and illustrated that life, but he also inspired others to live the same life. If Jesus were simply a Jewish martyr we would be interested in what he had to say, but we believe that in Jesus, God has come into the life of humanity, that He was God manifest in the flesh.—Sun.

Caravans filled with ardent Suffragettes are having a rather mixed reception throughout England. At Blackpool an attempt to address a crowd on the beach resulted in the entire routing of the female orators, who had sand thrown into their faces, only escaping more serious treatment by an ignominious but necessary flight. The driver of the caravan was badly handled also.

BRITISH M. P. AT MONTREAL.

Declares Socialism and Trades Unionism Combined is the Panacea for the World's Ills.

Montreal, Aug. 28—Monument National was packed to the doors last night by an audience who gathered to hear Kier Hardie, the British labor leader and Socialist M. P. In the course of an hour's talk, he discussed trade unions, strikes, Socialism, governments, powers of land owners, combines and trusts.

According to Mr. Hardie the panacea for all forms of social and economic evils is to be found in combination of trade unionism and Socialism. The present time is one of unrest, world-wide in its scope. We have political and social changes not only in western Europe and America but in east Europe and Asia. Japan, China and India are awakening Russia, Persia and Turkey have been granted parliaments.

In Great Britain the most remarkable movement of the past hundred years is that for women's emancipation which is now going on.

At present time there were forty-six representatives of Labor in the House of Commons and in three years they had obtained the present organization and substitute others of their own creating. The labor movement in Great Britain is rapidly becoming Socialistic in its tendency.

Mr. Hardie defined Socialism as a movement by which the land and industrial affairs of the country were to be acquired by the public and used for the common good and not private ends. Socialism is the only remedy for the present poverty and hunger of the world. Socialism stands for peace. It is the only goal worth striving for.

Mr. Hardie leaves to-morrow for a tour of the principal cities of Ontario. OTTAWA, Aug. 28.—Kier Hardie, M. P., labor representative in the British house, delivered an address to-night in St. George's Hall.

He explained the programme of the Labor Party in the British parliament and the aims of the Socialist party to take land and capital and administer it for the general benefit of all classes. He predicted a larger representation of the labor members in the British House after the next election and declared that the movement for female suffrage would succeed in Great Britain.

He called upon all labor unions in Canada to see that the striking machinery of the Canadian Pacific railroad did not fail for lack of financial support and advised all sympathizers with the men to aid them by boycotting the company until the men were restored to the regular work. Asked as to his opinion of the Lémieux Act Mr. Hardie said that he thought it well that an investigation into the difference between men and employers should precede any other step provided unfair advantage against the workingmen was not taken through delay in the investigation.

Alphonse Verreille, M. P., for Montreal, stated that Mr. Hardie would be present at the trades and labor convention in Halifax this fall, and predicted that the result of the convention would be a more organized labor of Canada and Britain upon more intimate relations.

THE WRONG BEE

"I hear that you resigned the postmastership?" said the stranger in Frog Hollow.

"I did," grunted the old man with the bound-up thumb.

"What was the trouble?"

"Trouble enough. You know the law allows queen bees to be sent through the mail, so the other day a package came through my office labeled Queen Bee."

"And did it contain a queen bee?"

"No, by heck, it contained a full-grown bumblebee, and when I opened a corner of the box to investigate the bumblebee landed on my thumb and hung on like a red hot coal. Yes sirree, I resigned."

According to Chinese law a wife who is too talkative may be divorced.

GUN SILENCER TESTED

SPRINGFIELD, Mass., Thursday—The first official test of Hiram Maxim's gun-silencer was made by the officers stationed at the United States armory here. The test, it is said, proved the claims of the inventor. The device was attached to the regular army rifle, which is manufactured here. The test was made on the regular range, relay of signals being stationed at intervals. It was found that while the discharge of the unquiet rifle is audible 7,700 yards with the silencer this distance was cut down to 1,500 yards. Further tests were made to determine whether the silencer interfered with the velocity of the bullet, and it was found that the interference was slight, reducing the velocity not more than five or six per cent. The tests were made with a rifle fitted with a barrel somewhat shorter than the regulation. Other tests will be made in a day or two with a rifle with the regular length of barrel. Mr. Maxim came from his home in Hartford, Conn., to oversee the trials.

It is said that New York city has an average of 1,500,000 visitors a week.

THE BOGEY OF OVERTIME.

(Grand Haven, Mich., Printers, Album)
"You'll work yourself out of a job." I was once a young clerk in the United States Pension Office at Washington, with a record to make, says a correspondent of the *Spare Moments*. Carl Schurz was Secretary of the Interior, and had set in motion a little civil service of his own, appropriating of the splendid system which later came in through all the government positions. Traveling half way across the country to attend the examinations he had directed to be held, to secure twenty-five men for the Pension Office. I sat down in the Census Bureau with about three hundred more men and women, to face the clock. I was at my post in the office, these odds against me, and I determined that if it lay in my power I would hold it, but get to the top.

Every morning at a little after eight o'clock I was at my post in the office, although this was an earlier hour than business was supposed to open. Some of the 'on the tick' clerks laughed at me knowing that I was a new man.

But I kept at it. The overtime bogey did not worry me in the least. And it worked well. From a clerkship paying \$600 a year, I was regularly promoted until four years after I took my position in the office I was receiving \$1400, with \$3 a day for personal expenses and all railway and livery bills paid by the government, as I had been appointed to a position as special examiner for the Bureau of Pensions.

But how fared it with the "in at the minute" men? There came a wholesale discharge one day and several of my colleagues of men, as the wind carries out of sight a cloud of flies in the summer time.

The man that works a little longer than the regular hours is on the road to better things. Don't be afraid to stay a few minutes after time. You need not do this for the express purpose of winning your promotion.

That is not the best motive. Do it because you really love your work, and want to do the fair thing as between man and man.

Thousands of men tonight, when the whistle blows, will swarm out of the offices and shops of the country. They have been making preparations to get out for ten or fifteen minutes before the hour for closing. They do not think that while they have been clearing up their desks and washing up their hands their time was really that of their employer and ought to have been used as such. What they think of is getting out on the tick.

If it took barrels of whiskey to convert Colechester from a Liberal into a Tory seat at a bye-election, what will it cost to win the half dozen seats which are the most Tories claim in Mr. Fielding's province. In a general election? A reply from that apostle of electoral purity the Halifax Herald, would be appreciated.

CONDUCTOR DEAD
Conductor Joseph LeBlanc, who has been ill for some time, died at Port Daniel on the 23rd. The remains were brought to Esquimaux by train and were buried in the St. Anne de Resigouche burying ground. The deceased was well and favorably known along the coast and his family have the sympathy of all. He was in his twenty-ninth year. A wife and three children survive. Mrs. LeBlanc was formerly Miss Godeau of Oak Bay.

The deceased was a member of the I. O. F. and Brotherhood of Railway Trainmen. A wife, one son, his mother, three brothers, A. LeBlanc and two in Montreal, three sisters, Mrs. F. L. Fletcher of Nashua, N. H., and Mrs. J. Dorian of Esquimaux, and one in Montreal, survive.

COL. GIBSON GOV. OF ONTARIO

OTTAWA, Thursday—It is understood that Hon. Colonel J. M. Gibson of Hamilton, ex-Attorney General of Ontario, will in a few days be gazetted as Lieutenant Governor of Ontario, to succeed Sir Mortimer Clark, whose five years' term of office expired last April. Colonel Gibson is now completing arrangements to withdraw from his business connections as head of the Cataract Power Company and other enterprises.

New Plans For Quebec bridge

OTTAWA, Thursday—The board of engineers appointed by the Government to prepare new plans for the Quebec bridge will meet on Monday next for the first time. Mr. Fitzmaurice, the British representative on the board, will reach Montreal from England on Friday or Saturday. Mr. Modjeski has been summoned from Chicago and Mr. Vantelet from Montreal. The first important question to be settled is whether the existing piers can be used to support the new structure. An effort will be then made to prepare a design for a bridge which will be safe and economical and which can be accommodated by the existing sub-structure. It is desired to use it if possible, as it has been thoroughly tested, and represents an expenditure of nearly two million dollars. The present opinion of the Department of Railways is that the present piers can be used.

EARLE BEATS HIS WIFE

MIDDLETOWN, N. Y., Wednesday—Ferdinand P. Earle the artist of affinity fame, was arrested at his home near Monroe today, charged with assault on his wife on or about August 16. The complaint was Mrs. Inez Barry, an aunt of Mrs. Earle. After he had been arraigned before Justice Carpenter at Monroe, the prisoner refused bail, preferring to be locked up. Earle pleaded guilty to the charge and was held for the Grand Jury.

AUSTRALIANS WELCOME FLEET.

SYDNEY, Thursday—The athletic programme in connection with the visit of the United States battleship fleet was increased by the addition of contests between the United States and British sailors and native Australians. In the tug-of-war the team from the British warship defeated the American sailors. In the 300 yard foot race Brown of the British cruiser *Pioneer* was first; Therry of the United States battleship *New Jersey*, second and Swanson of the same vessel third. The Americans were victorious in one of the baseball games, the fleet team defeating New South Wales 4 to 3.

Last evening the city was illuminated as usual. The Lord Mayor of Sydney gave a reception to about 2,000 persons, including Australians and the officers of the fleet.

A doctor spending a rare and somewhat dull night at his own residence received the following message from three fellow practitioners: "Please step over to the club and join us at a rubber of whist." "Jane, dear," he said to his wife, "I am called away again. It appears to be a difficult case—there are three other doctors on the spot already."

Suffragettes in England have scored a real triumph. They are being pelted with stones. This shows that the crowd has at last agreed to forgive their sex.

HOW TO CURE A HEADACHE

To attempt to cure a headache by taking a "headache powder," is like trying to stop a leak in the roof by putting a pan under the dripping water. Chronic headaches are caused by poisoned blood. The blood is poisoned by tissue waste, undigested food and other impurities remaining too long in the system. These poisons are not promptly eliminated because of sick liver, bowels, skin or kidneys.

If the bowels do not move regularly—if there is pain in the back showing kidney trouble—if the skin is sallow or disfigured with pimples—it shows clearly what is causing the headache.

"Fruit-a-lives" cure headaches because they cure the cause of headaches. "Fruit-a-lives" act directly on the three great eliminating organs—bowels, kidneys and skin. "Fruit-a-lives" keep the system free of poisons. "Fruit-a-lives" come in two sizes—25c and 50c. If your dealer does not have them write to Fruit-a-lives Limited, Ottawa.

LOCAL NEWS.

Fish Bros mill, Nelson, which has been closed for several weeks, has resumed operations.

Newcastle firemen will take part in the firemen's sports at Chatham during exhibition week.

Lynch's mill, Nelson, was down Thursday afternoon and Friday on account of the gang pin being broken.

The contract for building the new Church of England rectory on Pleasant street, has been awarded to Henry Ingram, the well-known Newcastle contractor.

Mr. Thomas Foley, the well known hotel man, of Miramichi, was in Moncton on the 28th, and purchased from Mr. R. F. Kinnear the handsome trotting stallion Buzz Fox.

The Sussex Exhibition will take place on September 21 to 25. The largest prize list ever offered will be given at this exhibition. The cattle rings, the horse show and many other attractions will be provided.

The N. B. S. Convention is expected to meet at Upper Blackville, Morehouse Baptist Church, Wednesday, Sept. 9th. Rev. J. B. Ganong, B. D., Rev. F. T. Snell and others will take part in the same.

Rev. Mother St. Brenda is now teacher in St. Mary's Convent here. She has replaced Rev. Mother St. Mary Edith, who has been transferred to Charlottetown, P. E. I., after being the first-class teacher in the Convent for about 3 years.

Fred Jordan, editor of the Chatham Commercial for several years and a graduate of St. John newspaper work, intends retiring from the editorial chair to enter the job printing business in Chatham. Harry Brown, late foreman, will accompany him.

Byron Mead, of Moncton, brakeman on Ferguson's special, had his foot badly jammed while attending to some shunting in Newcastle yard Thursday night. The injured man was taken to Campbellton and placed in the hospital for treatment.

The "New Brunswick" for September is full of excellent reading matter in prose and verse. This New Brunswick publication is a credit to our province and deserves liberal patronage. Only \$1 a year published by W. E. Sillen, St. Martins, N. B.

CHARLOTTE CONSERVATIVE CONVENTION SEPT. 3.

A meeting of the Liberal-Conservative in St. Stephen last week decided to hold the county convention there on Sept. 3rd, when a candidate will be nominated for the House of Commons.

Simon Beachy, one of the late foremen of the Anderson furniture factory, had sold his household effects and, accompanied by Mrs. Beachy, left town on the 28th. Mr. and Mrs. Beachy will visit in Toronto, London and other Ontario towns and then will go to Port Lavaca, Texas, where they will probably settle.

Send in your orders for job-printing to the Union Advocate office. Letter heads, bill heads, statements, visiting cards, wedding invitations, church reports, etc., etc. Prompt attention and low prices. We have the latest type that money can buy and all the equipment usually found in a first class job office. Our workmen are not excelled anywhere.

The residence of John Doran, Jr., of Millerton, burned down yesterday morning. The fire broke out early and is supposed to have caught from the cooking stove. The furniture was saved. The house is understood to have been insured. The flames also caught in George Vanderbeck's warehouse, the end of which was burned, but with little damage.

MR. McKANE SELLS HIS PAPERS.

In a telegram to the St. John Globe and Halifax Herald, dated Aug. 28th, John F. McKane makes it plain that he has sold the St. John Telegraph and Evening Times. It is understood that these papers have passed into the hands of a syndicate favorable to the Liberal party, thus leaving the conservatives without an organ in St. John.

CHATHAM GIRL TRIFLED SUICIDE.

Eva Thompson, a young girl living in the West end of Chatham made two attempts to commit suicide while on the steamer Alexandra on Saturday. She endeavored to jump overboard, but the police officer Dickinson succeeded in reaching her in time on each occasion and held her back. The girl is said to be melancholy.

The new gasoline and sailing yacht, built for James Miller of Chatham, by H. H. Lamont, assisted by Geo. Henderson, Daniel McDonald, Walter Cochran and Walter Green, was successfully launched from the shipyard here yesterday morning at 9.30. The boat of which the construction was started on June 24th, is a hand some racer. She is 33 feet long, over 8 ft. and 20 feet on the water line, 5 feet beam, and draws four feet of water. She reflects great credit on her builders.

Minard's Liniment relieves Neuralgia.

The public schools opened Wednesday morning with a fair attendance. Twenty-two permits had been issued so far. Miss Clara Lawlor, daughter of William Lawlor, has taken a position on the teaching staff to replace Miss Susie Harriman. All the old teachers have been re-engaged.

CHANGE IN BOOT AND SHOE BUSINESS.

Mr. H. MacMillan is negotiating for the purchase of the boot and shoe business of D. R. McRae & Co. here. Mr. MacMillan has had a long and successful experience in this business, and we bespeak for him a liberal patronage.

While on the north shore, Mr. McMillan, factory inspector met James Beveridge, formerly of St. John, who is building a pulp mill on the Miramichi. He informed him that it would be ready for inspection on Nov. 1, and would be fitted with machinery and other appliances of a more modern type than any mill in the province.

Minard's Liniment cures Dandruff.

ST. VITUS DANCE.

A Severe Case Cured By Dr. Williams' Pink Pills.

St. Vitus dance is a disease of the nerves brought on by a morbid condition of the blood. It is a common disease with children and attacks females often than males. The only cure lies in plenty of pure blood, because good blood is the life food of the nerves. Dr. Williams' Pink Pills cure even the most severe forms of this trouble because they enrich the blood supply, thus carrying the necessary food to the nerves. In proof of this we have the statement of Mrs. Alex. Cameron, Summerside, P. E. I., who says: "Some years ago my daughter Lena, then a child of ten years, became afflicted with St. Vitus dance. At that time she was attending school and the first indication I had that something was wrong, was that she appeared easily discouraged in her studies. She was naturally a spirited child, not given to tears, but she would cry over what I thought should be easy work for her. The disease progressed so rapidly that in the course of a few weeks she became unable to hold anything in her hands, and we were obliged to take her out of school. She became so afflicted that she could not hold a cup to her lips without suddenly losing hold of it. I knew from the first by the symptoms that her ailment was St. Vitus dance, and despaired seeing her cured, as it was looked upon as a hopeless ailment. She became so bad that she could not hold herself still for the space of ten seconds. Her hands or feet were continually moving and last of all she would contort her features so that she was losing her natural expression. At this stage I chanced on a paper containing a testimonial in favor of Dr. Williams' Pink Pills, describing the cure of a little girl afflicted as mine was. I hastened to get a couple of boxes of the Pills, and by the time she had used them I noticed a decided change for the better, and purchased a further supply. By the time she had taken seven boxes she was entirely cured. Although she seemed thoroughly cured I was afraid the disease might return again, but it never did, and she has since enjoyed the best of health. I cannot thank Dr. Williams' Pink Pills enough for what they did for my child, and I hope my experience may be of benefit to someone afflicted as my daughter was."

Dr. Williams' Pink Pills are sold by all medicine dealers or may be obtained by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

NEW HOSE PURCHASED.

The disastrous fire on Saturday Aug. 22nd not only destroyed one of our manufacturing plants but also destroyed some four hundred feet of fire hose. The fire in the opinion of men who have witnessed large fires, was the worst conflagration to fight that they had ever seen and that the fire ladders deserve great credit for the splendid way in which they accomplished their work. Newcastle is to be complimented in the splendid body of men that compose the Fire department.

On account of the loss of fire hose at this fire it was felt necessary for the Town to take immediate steps to supply the loss of this hose. Mr. J. H. Smith representing Canadian Fairbanks Co., Montreal, put himself in immediate communication with this Co's office in St. John who furnished him prices in Keystone wax and gum treated fire hose which had already met with such favorable comment from the Newcastle fire dept. Mr. A. L. Bogart representing the Canadian Rubber Co. who manufactures this hose being early on the ground with samples, these gentlemen immediately commenced an energetic campaign with the result that at a committee meeting of the council on Thursday afternoon it was decided to place the whole order for the five hundred feet with the Canadian Fairbanks Co. Ltd. for "Keystone" hose. By this purchase the Newcastle fire department have placed themselves right in line with the largest and most up-to-date fire department of the Dominion.

Mr. W. L. Ogilvie, representing the Gutta Percha Co. Toronto, was also in Town urging the claims of the "Maltese Cross" brand.

A GREAT PRODUCTION OF "THE TOYMAKERS".

That famous author, Charles Pligden, who wrote "Quincy Adams Sawyer" has now written both the book and play of "The Toymakers" and Charles P. Atkinson and James Thayer are putting out a clever company, "The Jollities" and giving a fine scenic production of a real English Inn and the interior of the toyshop where the strange owner brings his wonderful doll to life, and brings about such laughable complications. It will be on at the Opera House on Oct. 3rd, 1908, for one night only.

Mrs. Wm. J. Flett, of Winthrop, Mass., formerly of Nelson, accompanied by Mrs. Flett, has been visiting Mrs. John A. Flett, Nelson, and will leave for home on Saturday.

Dr. D. A. Taylor, whose card appears elsewhere in this issue, has opened an office in Col. R. L. Maltby's residence, nearly opposite the Express Office. Dr. Taylor has just come from New York where he has taken a post graduate medical course.

Charles Sargeant is negotiating with Alderman Doyle for the purchase of the latter's livery business. Mr. Doyle to retain the trucking, express and mail carrying end of it. The transfer has not taken place, but is expected to be accomplished by the end of the week.

The Methodist services next Sunday will be conducted as follows: Newcastle, morning and evening by Geo. E. Knight, Secretary Chatham Y. M. C. A.; Protectionville, in the afternoon by H. H. Stuart.

All men may be born free and equal but no man is as independent as a hired girl.

During the next decade Canada will be surely and rapidly recovering the population it has lost by emigration argues Toronto Saturday night.

While the Chinese do not care for alcoholic drinks, but are addicted to opium, the Koreans like strong drinks and do not care for opium.

Some of the Parisian suburbs where much laundry work is done have become veritable hotbeds of consumption many of the laundrymen being infected.

Another Englishman has nearly succeeded in swimming the English Channel. The best way to cross it seems to be in boat, the way William the Conqueror did.

Dusseldorf recently had an exhibition of dolls. They were of all sizes and dressed in the costumes of all times and countries some being valued at 500 marks each.

A constable from Cannington with a fourteen-year-old prisoner at the end of a chain was arrested in Toronto for being drunk. In other words, Cannington's constable canned.

QUEBEC, Thursday—Another Chinese man has disappeared from the steamer Crown of Arragon. It is not known whether he was drowned or made his escape. The ship is liable to a \$500 head tax if he escaped.

During 1908 Great Britain exported to Canada 61,783 horses, the largest export ever known, though the total value, \$1,240,000, was exceeded in 1905. Canada comes first of all countries as a purchaser of stallions, and second only to Belgium as a purchaser of mares.
