THE CUMBERLAND VICTORY.

There will be few conservative victories to bear the same significance as the victory in Cumberland on Saturday. Mr. Dickey's victory upon every platform from which he spoke. He up-held the National Policy which his opponents openly and without reason or fairness blamed for every commercial depression, stagnation or reverse experienced by Canada during the past decade. He presented his views on the trade questions as a man who had the interests of the country at heart, as a citizen loyal to the people and to their best interests, and as a politician whose knowledge of the issues and the importance of recording a correct verdict upon it was second to none. He spoke with the greatest freedom upon the Tarte-McGregor scandal. As one who had inscribed his signature to the report which cleared Sir Tarte of the charge of peculation, he defended that report to the letter. He stated the exact nature of the charges made by Mr. Tarte and what the committee had found to be in them. He stated the attitude of the government regarding the guilty of peculations of great, and small extent and asked for a verdict accorded to facts. That verdict has been accorded in the form of an increased majority for Mr. Dickey. Cumberland has combined agricultural and industrial interests which few counties possess. Her farms and marsh lands are the finest of the kind in the world. Her lumbering industry is one of the largest in the Dominion. Her coal fields employ hundreds of men continually, and her manufactures are representatives of Canadian industry in all lines. Without a solitary exception every poller both in the county, agricultural and industrial, has given Mr. Dickey a majority and endorsed the National Policy and the government's action on the scandals. The verdict of Saturday is that the people of Cumberland do not want Unrestricted Reciprocity with the United States, and believe that Mr. Abbott and his government have done everything that is possible to give their people a clean and economical government.

THURSDAY'S ELECTIONS.

The result of the balloting in the bye-elections in Ontario last Thursday is entirely satisfactory to the conservatives and leaves the government in the same position as before the protests were entered. In Kingston the Liberals made the hardest fight of the campaign. They had hopes of carrying the seat, for the constituency was for years a strong Liberal one, having returned Liberals in 1878 and 1882, and until last March had succeeded in keeping the majorities near 1000. The majority on Thursday, however, was a great falling off compared to that of Sir John Macdonald's 483, in March. It is most remembered that the old chief's individual qualities and the national regard and respect, which King-Conservatives of every stamp have never accounted in part for the exceptional vote he polled. These forces Mr. Dickey's successor could not command, while Mr. Gunn is an admirably strong man in the district. Mr. Dickey's vote was 1837. Mr. Gunn's 1736. Majority for Dickey 101.

The result in Halton county is a most direct endorsement of the conservative policy as affecting the farmers. The county is a thoroughly agricultural one and the largely agricultural vote of the county made the most brilliant party trials of what Unrestricted Reciprocity would do for the barley farmers. The barley cry bears a force that none others could have there. Halton is one of the most extensive barley districts in the province, shipping thousands of bushels to the Toronto market, for shipment between the lakes to American centres, and when the McKinley tariff became operative it was predicted that the farmers of Halton would soon become bankrupt. This was far from the case however. In March the Americans the idea that they were dependent upon them for existence, they quietly commenced to grow the variety wanted by English brewers and now a large trade is going on with Great Britain. The Liberals made a serious miss in their prediction by claiming that the Patrons of Industry would support Mr. McGregor, the farmer candidate. The result shows that a conservative majority was followed by the voters of Halton. In March the vote stood, Henderson, N. C. 2441. Waddie, Lib. 2337. Majority for Henderson 104. Thursday's vote gave Henderson a majority of 444 over McGregor.

The result in Lincoln shows a Liberal gain in majority in the return of M. Gibson who defeated Mr. Meelon by 280. Last March Mr. Gibson's majority was 48. The gains were determined to hold Lincoln at all hazards and here are rumors of transactions of doubtful purity.

SOULANGES.

Soulanges, Quebec, which gave Mr. Monseau, Liberal, a majority of 39 in March, returned Mr. Bain, Conservative yesterday with 115 majority yesterday.

WELL DONE CUMBERLAND!

Mr. Dickey Retained by an Increased Majority.

As was expected, Cumberland endorsed its verdict of March last, on Saturday and again re-elected Mr. Dickey with an increased majority over Captain Howard. The contest was quiet at the outset but toward the close of the campaign both parties showed up with vigor and the meetings were well attended, and considerable activity shown. The vote polled was a large one; but there has been a full turn out of conservatives, Mr. Dickey's majority would have gone far higher than it did, for there was a strong feeling in the county among his friends that he was sure of election at any rate and many did not turn out for that reason.

The vote polled for March last was as follows:

Table with 2 columns: Name, Votes. Includes Dickey, Howard, and various candidates.

Total 2935 2906

Total for Casey prohibitional, 303.

Majority for Mr. Dickey over Capt. Howard 810, over Mr. Casey 2632.

Saturday's returns were slow to get in, up to yesterday morning there were several returns missing, but were given in time for Declaration proceedings.

DICKIEY, HOWARD.

CHILLI APOLOGIZES.

Chilli has apologized to the United States and the relations between the Republic will be as cordial as ever. The apology will be remembered that it arose over an attack made by a party of Chilli policemen and roughs last July, in which a man named Turnbull of Prince Edward Island and another sailor on board U.S.S. Baltimore were killed. It also appeared that the Toronto Globe has the following account of the affair and used his position in an unusual manner to protect the interests of his son who had heavy contracts with Chilli. Relations for the past few weeks have been strained and the United States has been in a state of indignation. Mr. Chilli also could not be light or apologize. Chilli took a stand on the ground that it was not his fault since it was shown that the sailors had done their share towards provoking the quarrel. However on Saturday she came to terms with a promise to punish the offenders and make indemnity to the families of the dead sailors.

SOUR GRAPES.

The Toronto Globe has the following complaint to pay the people of Cumberland. It is intended as a twin paragraph to Sir Richard Cartright's "shreds and patches" speech: "Mr. Dickey, conservative, is re-elected in Cumberland, Nova Scotia, by a very large majority. As he is one of the most intelligent and respectable Tories, and as the constituency is one which would cheerfully elect a plaster of Paris man for Sir Charles Tupper on the Tory ticket, the prospects of winning it over to Liberalism were never bright."

The Liberals of Richmond, Quebec posed two questions on Saturday last which are worth preserving. According to the Globe—Mr. Deason moved that the Liberal party of Richmond, repudiate Mercier and his corrupt practices and endeavour to oppose the election of all who have been found guilty of such corruption. Mr. Thos. McMichael moved that the party condemn the action of Lt. Governor Angers for dismissing Mercier because he had the confidence of the people in the last Legislature. In plain language the Richmond Liberals are sorry Mercier has been hoodling and also sorry that Governor Angers dismissed him.

In Lunenburg, Hon. Mr. Oulmet, Minister of Public Works was returned by acclamation. In March last his majority was 534. The Liberals put up Mr. Cyrus St. Amour as a candidate, but Saturday he withdrew his deposit and refused to run. Evidently Mr. Oulmet is his chief work is satisfactory to Laval.

NEWFOUNDLAND HAS NO NATIONAL POLICY.

Policy to retard her national progress yet her census showing from the past decade is a decidedly bid one. It is the total Newfoundland and Labrador is 202,000 an increase of 4,100 or 2 1/2 per cent. Emigration is the cause of the decline. The London Gazette has published the following letter from Her Majesty thanking her subjects for their sympathy extended to her in her late bereavement: "I must again express my deep sense of the loyalty and affectionate sympathy evinced by my subjects in every part of the Empire on an occasion more sad and tragic than any but one that has befallen me and mine at well as the nation. This overwhelming misfortune, my dearly loved grandson having been suddenly cut off in the flower of his age, arose over an attack made by a party of Chilli policemen and roughs last July, in which a man named Turnbull of Prince Edward Island and another sailor on board U.S.S. Baltimore were killed. It also appeared that the Toronto Globe has the following account of the affair and used his position in an unusual manner to protect the interests of his son who had heavy contracts with Chilli. Point de Bute.

—There was a very pleasant gathering at Mr. C. F. McCreedy's on Thursday evening last, a kind of surprise party, to present to Mr. S. F. Wells an "all hair" the gift of a number of his nieces and nephews. The presentation was to have been at the old homestead where Mr. Wells resides, but circumstances in which "Griggs" was the prime factor prevented it. Mr. Wells, familiarly called "Uncle Sam" was born in the year 1806, and is still vigorous both in mind and body. He possesses the unusual faculty of remembering recent events almost as well as those that took place when he was a young man. He comes of Yorkshire Methodist stock and his mind is a repository of local Methodist history. The chair was presented by the Rev. Douglas Chapman of Marsville, who, after speaking in appreciative terms of his uncle, noted briefly the great changes that had taken place during his long life. Rev. F. H. W. Pickles and Mr. Jos. L. Black also made a few remarks expressive of their good will and great respect for the guest of the evening, after which Mr. Wells, who was very much taken by surprise, thanked his friends and gave some interesting reminiscences of his early life. Among the nieces and nephews present were Mrs. Dixon Chapman, Mrs. A. McQueen, Mrs. Joseph L. Black, Mrs. Douglas Chapman, Mrs. C. F. McCreedy, Capt. Gordon Pickard, Freeman and Mr. Tompson Wells.

—Rev. Mr. Pickles is still suffering from influenza, and is very much prostrated. —James Bentley Eay, who has been visiting friends in Salisbury and was ill there, has returned home and is looking quite himself again.

A DETROIT MIRACLE.

A Great Triumph for Canadian Medical Science.

Particulars of the most remarkable Cures on Record Described by the Detroit News, a Careful Reader.

DETROIT, Mich., Jan. 20th, 1892.—A case has just come to light here, the particulars of which are published in the evening news, which will be read with considerable interest by all Canadians, as it records the remarkable achievement of a Canadian medical discovery, which has already in its own country, won great and enduring fame. At this added triumph there is no doubt the fellow countryman of the proprietors will rejoice, as it sheds lustre on Canadian science. The story is told by the news as follows:—

The following paragraph, which appeared in the News a short time ago, furnished the basis of this information:— "A case that was wonderfully remarkable that demanded further explanation. It is of sufficient importance to the News readers to report it in full. It is so important that it attracted considerable attention at the time. The following is the paragraph in question:—

Maritime Matters.

—John Amburg caught a silver and black fox in the woods at Apple River, last week. —The ice on the Dartmouth lakes is now only from 3 to 4 inches thick, and ice cutters are almost in despair of a crop this year. —John Pratt, farmer, living one mile above Campbellton, dropped dead one afternoon recently, aged 55. He was in his usual good health at dinner time, and in the lumber woods a day or two ago, Mr. Arch Cairns of New Ireland, a Co., was cutting a limb from a tree with his axe when the latter abandoned and struck him in the face, splitting his nose. —Word has been received at Digby that Edward Haynes, of Victoria Beach, first mate of the schooner "St. John," was blown overboard from New York, via Shelburne, on the 10th inst. He was blown overboard and was drowned December 16th, four days out from the latter port. —The three bye elections on Thursday last resulted as follows: Kingston, Metcalfe, con. defeated Gunn, Lib. by 101. Lincoln, Ont. Gibson, lib. defeated Meelon, con. by 280, and in Halton, Henderson, Con. defeated McGregor, Lib. by 444. —The following new post offices have been established: Fernside, Elgin, Albion, Ontario, W. Bishop, postmaster; Long Beach, St. Martin, Joseph Wright, postmaster. The name of the Middle St. Francis office in Victoria county is changed to Clair. —Hon. Alexander Mackenzie was the old veteran is now physically infirm and his temperamental violence so often heard in the debates of two decades ago is now beyond his recall. A feeling of unmistakable sadness creeps over him at the sight of the new generation moving his wayward along the streets of Toronto. —Thos. Bell, for many years manager of Bradstreet's commercial agency at Montreal, died at his throat from cancer with razor, dying a few minutes later. —Rev. Charles Haddon Spurgeon the great pulpit orator died on Sunday in London, England, aged 68. Spurgeon was born at Essex, England in 1834 and preached his first sermon when 16 years of age. He attracted great attention from the first and has preached in some of London's greatest churches. He is the moral of the militia stationed there, in words decidedly free. A few days afterwards he retracted his statements and apologized to the garrison. He left the company's employ on account of irregular habits and had been in low spirits for some months past, and some about his throat from cancer with razor, dying a few minutes later. —The Rev. Personal and Political

—James G. Blaine, was 62 years old on Sunday. —The recent cabinet changes are gazzetted in the late Canada Gazette. —Lord Chief Justice Coleridge, of England, who was recovering from an attack of influenza has had a relapse. —Hon. George Brown, M. L. C. of Quebec, died at New York on Sunday. —Mrs. Foster, wife of the present Minister of Finance, is seriously ill at her home in Ottawa. For several days last week she was not expected to recover. —Chili has sent a cable to President Harrison which is practically an apology for the recent outrages perpetrated there upon sailors of the U. S. warship Baltimore. —The three bye elections on Thursday last resulted as follows: Kingston, Metcalfe, con. defeated Gunn, Lib. by 101. Lincoln, Ont. Gibson, lib. defeated Meelon, con. by 280, and in Halton, Henderson, Con. defeated McGregor, Lib. by 444. —The following new post offices have been established: Fernside, Elgin, Albion, Ontario, W. Bishop, postmaster; Long Beach, St. Martin, Joseph Wright, postmaster. The name of the Middle St. Francis office in Victoria county is changed to Clair. —Hon. Alexander Mackenzie was the old veteran is now physically infirm and his temperamental violence so often heard in the debates of two decades ago is now beyond his recall. A feeling of unmistakable sadness creeps over him at the sight of the new generation moving his wayward along the streets of Toronto. —Thos. Bell, for many years manager of Bradstreet's commercial agency at Montreal, died at his throat from cancer with razor, dying a few minutes later. —Rev. Charles Haddon Spurgeon the great pulpit orator died on Sunday in London, England, aged 68. Spurgeon was born at Essex, England in 1834 and preached his first sermon when 16 years of age. A LARGE NUMBER

of Accounts have been paid during the past week—owing to the advice they received in the last "Post"; however a few have taken no notice of the warning, and for the benefit of those few we will not put any costs on them for a few days longer. Now it is much easier to pay five dollars than it is seven, or eight dollars than it is ten, and magistrates and constables bills soon run up; so please govern yourselves accordingly and don't blame me.

C. PICKARD.

Around Town.

MEAT SHOP—Geo. W. Milton has reopened the meat shop formerly occupied by Henry Hicks, in the Allison Block.

TANTRAM RINK—The managers of the Tantara rink have secured the services of the 8th Princess Louise Band, and purpose holding a band concert in the rink to-morrow evening.

The ice is in perfect condition, and a number from outside are expected, so a good time may be anticipated by all who avail themselves of this opportunity.

M. P. P.—This week appears a change in the adv. of Malto Peptonized Porter, the popular medicine for convalescents and dyspeptics. Its sale is increasing rapidly and is very highly spoken of by those who have tried its virtues.

MISSION BAND.—The members of the Mission Band purpose giving a public Missionary concert in Bethel next Sunday evening. Silver collection. Proceeds for Grand Lique Missions. All are welcome.

SMELT FISHING—Smelt fishing has been the past-time for many at Middle Sackville the past few weeks. They come up through Harris' about 100 yds. from the creek to Morice's mill. They are very numerous although small, one person catching a bushel with a fishing net in a few seconds.

CHRISTIAN ENDAVOR—Sunday was Christian Endavor Day all over the world wherever such societies exist. On Sunday evening it was recognized in the Methodist church by the school society. Interesting papers were read by Mrs. Archibald, preceptress at the Ladies College, and Mr. Colpitts. A collection was taken in aid of a hospital at a new mission in China.

WITH MASONIC HONORS.—The body of the late E. L. Ford arrived in Sackville on Thursday morning last and was interred with masonic honors from his late residence. The funeral was one of the largest ever seen in Sackville, which testifies to the very general esteem in which the deceased was held by his friends. When the masonic body heard the procession was to pass by the house the last sleigh was at Boultonhouse's corner. The pall bearers were, H. A. Powell, M. P. P., T. A. Kinnear, C. Pickard, Capt. Moore, Edwin Phinney and Albion Gray. A special memorial sermon was preached by Rev. Mr. Lester in the Baptist church, on Sunday.

PERSONAL.—Mr. Hardcastle, of Butte City, Montana, spent Sunday in Sackville, the guest of Mr. and Mrs. W. C. Milner.

—The many friends of Mr. Nat. Curry, of Rhodes, Curry & Co., Amherst will be pleased to learn that he is now out of danger and is on the road to recovery.

—Mrs. W. W. Bates of Newton, Mass., is visiting her sister Mrs. George Hill, Foundry St.

—Mrs. C. W. Harrison, has been invited to sing at concerts in Truro on the 9th and Windsor on the 11th.

IMPORTANT.—It will be seen by posters copiously scattered over Sackville and vicinity that a Grand Supper and meeting of the farmers is to be held in the Brunswick House on Thursday evening next to discuss matters of importance to them. Among the subjects are: a readjustment of the local freight rates on the I. C. R. to enable the local beef producers to send their beef to local points at a rate which will enable them to compete with the Ontario producer.

Another question is the flooding and diking of the marsh. These questions are vitally important to every farmer and a large representation from all parts should be made.

FIRE AT FAIRVIEW.—On Monday evening while Capt. and Mrs. George Doherty of Fairview were visiting a neighbor fire broke out in their house and before anything could be done the building and contents were totally destroyed. Before leaving every fire in the house had been put out with the exception of that in a stove in the kitchen from which the fire is supposed to have started. Albert Crossman was the first person to notice the flames and when he arrived and broke in a window found everything ablaze. There was an insurance of \$200 on the house and \$100 on the contents. A sewing machine placed in the house by an agent a few days ago was also destroyed. Capt. Doherty is master of the schooner H. R. Emmerson now laid up at St. John.

LITERARY NOTES.—The first number of the Dominion Illustrated Monthly, Montreal comes to hand this week and contains a fund of matter of interest to Canadians. Besides a large variety of interesting articles of a romantic type, there is the first part of an historical sketch of the "Raid from Beaujeu," by Prof. Roberts. To those in this vicinity who are in continual sight of the remains of Beauséjour, Fort Cumberland, these articles will prove of great interest. The regular subscription price of the Dominion Illustrated monthly is \$1.00 per annum. The Monthly and the Post for \$2.25.

MR. ALLISON NOTES.—Principal Harrison preached at Bristol on Sunday last. On Saturday evening during his absence some of the students attempted a raid on the larder but were frightened away before they accomplished their purpose.

—The Eucharistarian Mock Parliament is enjoying a brisk and breezy discussion of Canadian politics.

Miss Fullerton has returned to her duties at the Ladies' College after a protracted vacation.

—It is very generally regretted that Miss Vroom intends leaving the Ladies' College in the near future. Her position on the musical staff will be taken by Miss Julia H. Johnson, a graduate of the New England Conservatory of Music, and pupil of Otto Bendix. Miss Johnson has been teaching at Florenceville, N. B.

—A new Bell cabinet, upright piano has been put in Prof. Mack's office.

—Prof. Andrews delivered the initial lecture in the Moncton University Extension course at that place on Friday last. "The study of science" was his subject.

Local Matters.

Sheriff McQueen has returned from his trip to Boston and New York.

A fire, started probably through the carelessness of one of the prisoners, in Amherst jail did a little damage on Friday last.

Edward Price, of Upper Coverdale, A. Co., was fooling with a self-cocking revolver on Wednesday, when it went off, sending a bullet into his knee.

It is reported that a public meeting will be called at an early day to discuss the propriety of purchasing a fast steamer to ply between Pugwash and Charlottetown P. E. I., to replace the "May Flower." Three houses in Charlottetown have offered to take stock to the amount of \$25,000.—News.

At Pellet River, on Wednesday, Gorham Smith, step-son of Alexander Stiles, met with a sad accident. He was sawing stove wood with a horse power saw, and while cutting, the saw fell, one of his hands coming in contact with the saw so badly mangled that it was found necessary to amputate it.

An explosion of dynamite occurred on the 29th ult., on the site of the Amherst water works, situated about three miles from town. While a quantity of dynamite was being tamped in an outbuilding, it exploded with a loud report and blew the building to pieces. It also blew out the windows and door of a newly erected engine house. No one was in the building at the time, and the only workmen had left a few moments before, and so no one was injured.

Says the Times: A cablegram received at Charlottetown last week reported that the price of oats had still further declined in the English market, with large quantities in store. Latest quotations are, black oats 17 shillings to 17s 3d per quarter of 304 lbs. It is probable that considerable island oats is included in the held stock. The prospect for good prices in the spring is not at the present time very bright.

Mr. C. R. Hicks, of the I. C. R., who lives on High street, received a telegram from Boston yesterday morning to the effect that his brother Amrose, a former resident of Butternut Ridge, had been killed while at his work in a foundry at Boston. It appears that the unfortunate man was scalded to death as the result of a boiler explosion in the foundry. The body will be interred at Butternut Ridge.—Times

The death of Rev. A. L. Wylie is announced. Mr. Wylie came to America in 1840 and was settled in the pastoral charge of Londonderry N. S., Presbyterian church. There he remained for 42 years, until his death, which occurred at Grove church, Halifax. Some six years ago failing health compelled him to resign the active duties of the ministry. Since leaving Grove church he has labored at intervals in other fields, the longest period being at Dorchester, N. B. He was married three times, his surviving widow being a sister of Premier Blair.

The Amherst Press says: The crazy who a few weeks ago was brought from Port Greville to Amherst and lodged in the county jail for the purpose of having him removed to a pair of cloth slippers. This afternoon sent back to Port Greville. The action was occasioned by the authorities at Halifax having refused to take the man in. While at the station the man presented a pitiable sight, being lightly clad and wearing only a pair of cloth slippers. The wretched, cold and helpless man like that to the cold weather to day was loudly condemned by the many persons who saw him.

Mr. James Hillson one of the oldest men in Richibucto died on Saturday at the age of 82 years. He had been for years a resident of Shediac, and when the I. C. R. works were at that place he was engaged in them. The funeral took place Sunday afternoon to Shediac Cape where the body was interred. Deceased was an uncle of Mr. Len Hillson of the I. C. R. Moncton. Three daughters survive him. A son was killed at Shediac when the road was under construction. Mr. Hillson was much respected and his death will be heard of with much regret.

John R. Stiles, who has been ill with inflammation of the lungs, died Sunday morning. Mr. Stiles was about 55 years of age and highly respected in the community. He was for 13 years keeper of the light and fog alarm at Grandstone Island and one of the most capable officials on the coast. Some few years ago Mr. Stiles was presented by the dominion government with a valuable watch in recognition of his bravery and skill in rescuing part of the crew of the brig, Annie Bogart, which was wrecked on the island ledges on a stormy night in mid-winter. Mr. Stiles leaves a wife, one son and two daughters, who have the sincere sympathy of the whole community.—Transcripts.

Telephone lines have lately been built to Wood Point and Midgie.

The new Robt. Armstrong engine recently placed is giving much satisfaction.

THE HISTORY OF MUSIC.

A small but well entertained audience attended the opening lecture of the musical course in Beethoven Hall on Friday evening last.

The attendance from the sister institutions was up to the average, but the representation from the village was smaller than usual. Prof. A. A. Mack took as his subject "Musical Notation," and led the audience by charts, vocal illustrations and accompanying explanations through the various evolutionary stages of Music and the characters used in its language from a date, half a century before the Christian era, to the present year of grace. If a well developed system of written language indicated a high degree of culture, it followed that a like condition of development in musical notation indicated a high degree of culture also. The lecturer, however, did not go into the details of the first form of musical notation, or system of fixing articulated sounds by means of characters or figures, we find in the "Pictorial" of the Chinese, and later in the "Septaks," of the Hindoo. The system was like that of the Greeks and our own diastemic one. Notation which has brought it still nearer the form of today. In 986, Guido, another monk introduced 4 lines, a yellow one for "c," red one for "f," and a black one for "g." The letters "a," "b," and "c" were needed black lines were added above or below. Pope John XIX called Guido to Rome in 1028 and ordered that all churches or churches should adopt his method of notation. As time wore on, the staff was changed, the "numeral" gave way to characters, more like our own style, and the gradual widening of the musical sphere to the introduction of various combinations. The notation has now reached a perfect state and unless the notes themselves are changed, the system will probably stand for all time. The vocal selections to illustrate the style of music in the different ages were given by Misses Mack, Twiss, Crompton and Troy. The next lecture in the course, will be on Feb. 13th by Prof. Andrews on the subject of the "Theory of Musical Sounds," to be illustrated by apparatus, etc.

Melrose and Vicinity.

The storm of Sunday night blocked the roads completely so that the greater part of them had to be shovelled in the morning. In consequence our sporting fraternity are very much disappointed. The splendid sleighing for the past fortnight was well improved the result being that some of the crates material in the way of horse flesh was made to strike a clip that might astonish Bowser among the former being John's Intercolonial, owned and driven by our worthy teacher, Wm. J. Riley.

At a public auction on the estate of the late Denis Downey on Saturday last the personal property realized the sum of nine hundred dollars. English hay sold at \$12 per ton; straw at \$5 per ton; oats at \$10. per bus. and other produce in like proportion. Yet our liberal friends will tell you they cannot sell the products of the farm and assign that as the main reason why they seek the "market" of sixty million.

Bound to Have It.

I MUST and I will have it exclaimed the little man and he dashed the paper to the floor, jumped from his chair and brought his clinched hand down on the table vigorously; then snatching his brow and adjusting his glasses, he seated himself, seized his pen and in a nervous, excited hand wrote: "D. M. Ferry & Co., Secedmen, Windsor, Ont., Gentlemen: Referring to your advertisement in the National Intelligencer, I notice that you say that your Seed Catalogue for 1892 is free to all applicants. As I buy considerable quantities of vegetable and flower seeds each spring, I would esteem it a favor if you would mail me your Catalogue. My neighbors say it is the best. Very truly yours, RICHARD DOB.

Tidbits.

Snow storms and breaking roads are scenes of the day at present. No doubt the lumbermen and men in general will welcome the snow and cold weather. Those who have made ready for lumbering and got started in the woods were obliged to leave, but they have now resumed their work. The winter, although up to a week or so has been very spring like.

—We have some few cases of la-grippe around us but as yet in a light form.

—Of late politics and political meetings have been the topics of the day, polling day is over however so that settles it. On the 26th we were favored with an interesting address from Mr. J. A. McQueen, M. P. P.

—The Baptist doings on Monday, 26th ult., drew large crowds both afternoon and evening. Over thirty we understand connected themselves with the Tidnish Baptist Church. We are thankful for the good work which has been done here and trust it will not fall, but may it continue to grow and be multiplied and may the different churches flourish in their high calling until they bear the invitation come up higher.

—We regret that our esteemed pastor of the Methodist church, Rev. L. E. Johnson, has been so long absent from Sackville. He has been so long absent from Sackville that he has been unable to learn of his convalescence. We are favored every Sabbath in the Union Church with a sermon, and have often three or four different denominations.

—The Sons of Temperance still meet Saturday evenings in the second story of Mr. Arthur Ayer's store. We hear of it very favorably.

To grow old gracefully, one must live temperately, calmly, methodically; be interested in all that is going on in the world; be cheerful, happy and contented and above all, keep the blood pure and vigorous by the use of Ayer's Sarsaparilla. Be sure you get Ayer's.

A BELATED THANKSGIVING.

(From the Boston Transcript.)

CONCLUDED.

In the late afternoon when the gray shadows and white whirling gusts of snow were thickening around the old farmhouse, Selina stole up to her own room and sat there, glad to find in her own comparatively cheerful thoughts a refuge from the dismalness below.

Suddenly through the gloom she saw a man's figure plough his way towards the house. Not with the same stride which brought Joe Wormley in their midst, but uncertain, as though neither sure of his way nor his welcome.

"A tramp!" Mrs. Buckley said to herself. "He'll get a good feed after our Thanksgiving dinner, but he's made a mistake this time."

In this mood of defiance even towards the tramp, she answered his knock, holding the door very slightly ajar, while he justified her suspicions by asking hoarsely for a night's lodging and something to eat.

"We've got nothing for you; we ain't giving thanks to-day," she shut the door in his face and resumed her seat at the window.

She blindly followed a perverse impulse in this, as in everything else which she had done for the last three miserable months, but almost for the first time conscience upbraided her.

"Your own son may be like him some time," the voice within her whispered, and she was wondering that such a thought was possible in connection with her Reuben, she looked after the stranger half wishing to recall him.

"He had only gone a few yards from the house when she looked out first, but now standing still he seemed to be awaiting Uncle Sim, who was just leaving the barn and coming to ward the house.

"He thinks to get round him," she thought, "but Sim 'dunno' bring him in without asking me first."

But just then the two men met, and apparently as a result of what the tramp said, Uncle Sim seized him by both hands and wildly shook him with a movement as if he would have thrown him.

"Dear me! think of that other mother! the mother of the one who ate with us last Thanksgiving and betrayed us afterwards. I can forgive him now that he's dead, but think of her going through life with the thought that her son was a coward as well as a thief."

"Fat Doctor Bills Make Lean Wills," said Dr. Sage's Catarrh Remedy costs less than one doctor's visit.

"The male inhabitants of Chelabinsk are leaving their homes by hundreds to avoid seeing their families die of starvation."

"The Northwest Assembly has decided that hereafter its proceedings shall hereafter be only published in the English language."

ALL SORTS.

"I'm in a hurry," he said, rushing into the hardware store, "just get me to catch a train. Give me a corn-popper, quick."

"All right, sir," replied the clerk. "Do you want a large corn-popper?"

"No, just a medium-sized one—ordinary corn-popper!"

"How will this corn-popper do?" "Is that a corn-popper?"

"That's what you're getting things mixed up. You mean a corn-popper—no, a corn-coppler! No, a—"

"I mean a corn-popper!" "Oh, yes, a corn-popper!"

"Yes, be quick! Gimme a corn-coppler, and be quick!" "All right! Here's your corn-coppler."

Consumption Cured. An old physician retired from practice, having a phlegm in his lungs by an East India Mission on the form of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma, and all throat and lung affections, also a positive and radical cure of Nervous Debility and all Nervous Complaints after having lost a wonderful curative power in thousands of cases, has felt it his duty to ask that he be allowed to publish his experience. Acted in this matter and a desire to relieve human suffering will send free of charge, to all who desire it, this receipt, in German French or English, with directions for preparing and using. Sent by mail enclosing two stamps, naming this paper A. News, 200 West 42nd Street, New York, N. Y.

The American had just told the Englishman a joke. The latter did not laugh. "I suppose," said the American, "that you are a little slow."

As a cure for cold in the head and catarrh of the nose, Dr. J. C. Ayer's Hair Vigor is endorsed by prominent medical authorities. Dr. D. Derbyshire, president of the Ontario Canadian Association, says:—"Nasal Catarrh beats the world for catarrh and cold in the head. In my own case it effected relief from me in my own case."

Tickle The Earth With a Hoe. SOW FERTILE SEEDS and nature will do the rest. Seeds largely determine the success—always. A book full of information about gardens—how to plant, how to raise, etc., sent free to all who ask for it. D. M. FERRY WINDSOR, ONT.

NASAL BALM. It is a certain and speedy cure for Colds in the Head and Catarrh of the Nose. SOOTHING, CLEANSING, HEALING. Instant Relief, Permanent Cure. Failure Impossible. Many sore-throats, colds, and other ailments, which are usually cured by the use of this balm, are cured by its use. It is a certain and speedy cure for Colds in the Head and Catarrh of the Nose.

CATARRH. —SLEEPS NIGHTS, made miserable by that terrible cough, Shiloh's cure is the remedy for you. For sale by A. Dixon, Sackville, and Fairweather, Dorchester.

When a woman is first married she desires to be called "Madam." Some years later she feels tremendously annoyed by being called "Mrs."

—THE REV. Geo. H. Thayer, of Bourne, Ind., says:—"Both myself and wife owe our lives to Shiloh's Consumption Cure." For sale by A. Dixon, Sackville, Fairweather, Dorchester.

A remedy that is endorsed by Physicians must have some merit, for no Physician of any standing will place his seal of approval on a preparation unless he knows it to be good. Now Estey's Emulsion of Cod Liver Oil is not only endorsed by Physicians but largely used by them in their practice.

—I'm going to leave, mum!" "What for? I am sure I have done all the work myself, in order to keep a girl."

—ATTACKED BY AN ENEMY.—Dear Sirs,—About a year ago I had a very bad attack of dyspepsia. For nearly four months I never ate a meal without suffering pain after. I had got so weak I could hardly walk, when one day I saw an advertisement for Dr. B. B. B. and thought I would try a bottle. For bottles cured me completely, and I am now strong and healthy.

—I'm glad America was discovered so long ago," remarked Tommy, "because our relatives in England would not have known how to send our presents, if Columbus hadn't come along."
