

GERMANS LAUNCH COUNTER-ATTACKS

TWO ENEMY PLANES BOMB CALAIS, AND HUN SUBMARINE BOMBARDS ENGLISH COAST TOWN

Von Bethman-Hollweg To Go, and New Sub. Campaign To Be Loosed

GERMAN STRIKING POWER IS NOW LESS AT VERDUN THAN ANY PLACE IN FRANCE

Their Attacks There Not as Great as the Counter-Attacks by Which the Enemy is Trying to Stop the Allied Advance Near Peronne

By Special Wire to the Courier. New York, July 12.—For the first time since the crown prince initiated his siege strategy last February, the German striking power is less at Verdun than elsewhere on their front in France, according to the correspondent of The World at the right bank of the Meuse early yesterday morning was inferior in strength, according to the evidence laid before me in an authoritative quarter to which they sought to bar the sturdy, systematic progress of General Fayolle's polius up the slopes culminating in the summit of Hill 97, the highest elevation immediately south of Peronne.

SUB FREIGHTERS SOON WILL SAIL THE OCEAN BLUE

Regular Transatlantic Service is Hope of German Magnate.

By Special Wire to the Courier. Berlin, via London, July 12.—The opening of direct shipping connections between Germany and the United States by the submarine merchantman Deutschland has occasioned great jubilation and enthusiasm among Germans, but no one is more elated than Herr Alfred Lohmann, formerly president of the Bremen chamber of commerce and the originator of the underwater service. Herr Lohmann said the Deutschland was only the first of a series of submarine freighters, and that a regular trans-Atlantic service soon would be in operation. A second boat named the Bremen, he added, is about to start for America with a cargo, and others are rapidly approaching completion. It is understood that the number of boats will soon be adequate for the establishment of a weekly service. "Remember," said Herr Lohmann, "that the Deutschland was entirely unarmed. She carried no torpedo tubes, no cannon, and no weapons of offense or defense of any kind. "So anxious was I that the unarmed merchantman character of our boats should be established beyond doubt, that I insisted that the captain of the Deutschland should not even carry the customary revolver upon leaving Bremen. "In these circumstances, he concluded there is nothing to prevent the Deutschland, exclusively a merchantman, from remaining as long as she pleases in a neutral harbor and loading a cargo, fuel and supplies, free from the restrictions which prevent warships from entering a neutral port except under stress, or remaining more than 24 hours."

Bucharest is Taking Notice

Public feeling greatly stirred over Allied Drive. By Special Wire to the Courier. London, July 12.—(New York Times cable)—A dispatch from Bucharest to The Daily Telegraph says: "Public feeling has been deeply stirred by the general offensive of the allies. Owing to an appreciable lack of meat here, the government has prohibited eating of it on three days of the week."

ASSAULTS ON VERDUN FAIL

French Artillery Fire Too Much for Attackers of Dead Man Hill.

By Special Wire to the Courier. Paris, July 12.—2.5 a.m.—The Germans delivered two attacks last night on a French position in the neighborhood of Dead Man Hill on the Verdun front. The war office announcement of to-day says that both these assaults failed, breaking down under the French fire. East of the Meuse the French re-took part of the ground won yesterday by the Germans. In the operations east of the Meuse, the French took 80 prisoners, of whom one is an officer. There were no developments last night on the Somme front. The French conducted successful raids in the Champagne and in Lorraine.

Teller Skips Out With Money

Detective Looking for Whereabouts of T. L. Leforest.

By Special Wire to the Courier. Montreal, July 12.—The provinces of Quebec and Ontario are being scoured by detectives looking for T. L. Leforest, paying teller of a branch of the Bank of Montreal, who last Friday afternoon, it is alleged, left the bank with \$4,000 and disappeared with a young woman in an automobile. Leforest was discovered to be \$1,000 short in his accounts. He promised to explain it and left the office ostensibly to go to a barber shop, before doing so he is alleged to have put \$4,000 from the teller's drawer in his pocket.

VERDUN AGAIN AN OBJECTIVE

But Attacks There May Mean Transfer of Troops to the Somme.

SITUATION ON ALLIED FRONT

French Are Preparing for the Next Move, Likely on Peronne

By Special Wire to the Courier. Paris, July 11, 11.55 p.m.—Although the battle in Picardy, which has been raging for ten days is absorbing most of the attention of the German commanders they were able to-day to revive the struggle at Verdun, making some advance there and delivering several sharp local attacks in the Lorraine and Vosges sections, probably to conceal the transfer of troops to the Somme region.

Very Heavy Bombardment.

Having maintained their grip on the Thiaumont work, but failed to capture therefrom, the Germans are now trying to push toward their left flank. Their artillery was busy all day yesterday, all night and this morning they worked up the bombardment to a pitch equal to any that has come before. Then the bombardment ceased, making way for the infantry.

Gain of No Advantage.

Columns debauching from Yaux fort, however, succeeded in getting to the Fumin wood to the west and in the ruined Danloup battery, one of the subsidiary outer defenses at Verdun which lies three-quarters of a mile southwest of the village on the edge of the Lauffe plateau. An official announcement of the advantage which the Germans obtained was not great since the battery is surrounded by guns from Souville, Tavannes and Bourvaux. The day's operations on the Somme were confined to completing the clearing of the Germans out of these few isolated positions they still held in the bend of the Somme opposite Peronne. The French troops on the north of the Somme are continuing their preparations for the next move.

SUBMARINE APPEARED OFF ENGLISH PORT AND FIRED 30 ROUNDS; ONE WOMAN KILLED

Seaham Harbor, on the North Sea, an Undefended Port Attacked by Submarine, Which Opened Fire From a 3 in. Gun

By Special Wire to the Courier. LONDON, July 12, 12.45 p.m.—The English port of Seaham Harbor was attacked last night by a German submarine. About thirty rounds of shrapnel were fired. One woman was killed by the bombardment. One house was struck by a shell. The official announcement says: "At 10.30 o'clock last night a German submarine appeared off the small undefended port of Seaham Harbor (on the North Sea, six miles southeast of Sunderland, a coal shipping port). She approached within a few hundred yards of the town and then opened fire. Some thirty rounds of shrapnel were fired from a 3-inch gun. Twenty rounds fell in the direction of Daldendale; a dozen rounds fell in and about Seaham colliery. "A woman walking through the colliery yard was seriously injured and died this morning. One house was struck by a shell. No other damage was done."

BRITISH GAINS GIVE THEM LINES RUNNING EAST TO WEST

They and Their French Allies in a Position to Make Further Advance Shortly—Heavy Enemy Counter-Attacks Recover Some Lost Ground

London, July 12, 2.42 p.m.—The Germans, heavily reinforced, delivered strong attacks against the British on the Somme front last night. They gained ground in Mametz Wood and Trones Wood. An official announcement issued here this afternoon says that all the German attacks were beaten off except in Mametz and Trones Woods. "Since the commencement of the battle the enemy has received large reinforcements," the announcement says. "Yesterday and last night strong hostile attacks were made against several points of our new positions. "Except in Mametz wood and Trones wood in both of which localities the Germans regained some ground, all these attacks were beaten off. "Between the main battlefield and the sea we have been actively engaged in bombarding the enemy's positions and ridding his front line. Southeast of Loos a party of Royal Irish Fusiliers penetrated the enemy's trenches at a point where they were strongly held and remained there for twenty minutes during which time heavy fighting took place in the trenches. Many German soldiers were killed. Our casualties were slight. "Opposite the Hohenzollern redoubt two companies of Seaforth Highlanders forced their way into another portion of the enemy's trenches after a stiff fight. Many Germans were killed or wounded. A hospital dugout crowded with the enemy were successfully bombed and some prisoners were taken. "Several combats in the air took place on July 10, as a result of which we destroyed one German machine while one of our machines was brought down by the enemy's fire."

German Soldiers Soon Will Become Ragpickers

So Scarce is Material Becoming That Men Will Have to Prod All Rubbish Heaps in Search of Rags, Waste-paper, Empty Cans and Old Bottles.

By Special Wire to the Courier. London, July 12.—(New York Tribune cable)—Judging from a recent German army order which has just reached London, every German general will be leading an army of rag pickers. The time is not far distant when the German soldiers will use their bayonets to prod rubbish heaps in search of rags, waste paper, empty cans and old bottles. The order states that economy on the battlefield will henceforth be essential. German soldiers must exercise minute care as rag pickers, sand bags must accurately be counted and none must be lost under heavy penalties. All leather and metal articles must be carefully collected; the dead, both friends and enemies, stripped of boots and clothes. Dead bodies will no longer be allowed to be wrapped in canvas. The whole tenor of the order suggests that the German shortage of war material is becoming serious.

PLANES ATTACKED CALAIS PORT

Dropped Bombs Monday Night, Says Berlin, and Got Home Safely.

By Special Wire to the Courier. Berlin, July 12.—(By wireless to Sayville)—Two German aeroplanes made an attack on the channel port of Calais on Monday night, it was announced officially to-day. They dropped bombs on the port and on army encampments. "The Admiralty gave out the following: "Two German naval aeroplanes on the night of July 10-11 dropped bombs on Calais and the troop camps at Bray-Dunes (near the Belgian frontier). The aeroplanes returned undamaged."

George M. Cohan's Sister is Dead

At One Time Was Well Known and Popular Actress.

By Special Wire to the Courier. New York, July 12.—Mrs. Fred Niblo, formerly Miss Josephine Cohan, sister of George M. Cohan, the actor, died to-day in a local hotel, aged 40 years. Death was attributed to heart disease. Mrs. Niblo, as Josephine Cohan, starred in a number of Broadway successes. In the early years of her theatrical life she appeared with her father, mother and brother, long known to the stage as the "Four Cohans."

Hun Chancellor Plotted Against

Those in Favor of Unrestricted Warfare May Have Their Way.

By Special Wire to the Courier. New York, July 12.—A news agency dispatch from Berlin published here to-day says: "The overthrow of Chancellor Von Bethman-Hollweg, at a time when the war is approaching a crisis: "Unless America does something against England within the next three months there will be a bitter fight to tell whether he will be able to hold his own against such opposition. The future of German-American relations depends upon America. The fight to oust the chancellor has now grown to such proportions that it overshadows in interest the allied offensive. Scores of schoolboys have been taken on as laborers in the upper Luzerne county Pa., shops and fields, workmen are so scarce."

**GERMANY NOT TO GET
CANADIAN NICKEL**

**Measures Taken Early in the
War to Prevent Export to
Enemy Countries.**

Ottawa, July 12.—If the German super-submarine Deutschland, now at Baltimore, leaves the United States with a cargo of nickel that nickel will not be Canadian.

A statement issued yesterday afternoon by the Government makes this point clear.

The statement issued yesterday is as follows: "The attention of the Government has been directed to the statement that nickel, which, it is said, will be conveyed by a German submarine from Baltimore to a German port, is from Canadian mines. This allegation is based upon the statement that no nickel is refined in the United States except what is derived from Canada. That this statement is entirely inaccurate, is shown by the following report from Major Graham A. Bell, who, since the early month of the war, has had the duty of examining and supervising the destination and use of all nickel refined in the United States:

"There is a considerable quantity of nickel ore obtained through various copper mines in the United States and this ore is refined principally by the American Smelting and Refining Company. There is also nickel ore obtained from New Caledonia, which is refined by the United States Nickel Co., of New Brunswick, N.J. The quantity, of course, does not compare with the tonnage manufactured from Canadian ores, but there are some hundreds of tons of refined nickel produced yearly from these sources."

"Measures taken by the Government of Canada to control the destination and use of nickel refined from Canadian ores have the complete approval of the British Government. It should be added that the Canadian Government has always been prepared to take any further measures for this purpose which the British Government might suggest, but the last-named Government is satisfied that the precautions taken are sufficient to prevent the enemy from receiving supplies from this source. As a matter of fact, the factories in the United States which are manufacturing guns and munitions for the allied nations depend for their supply of nickel almost wholly, if not altogether, upon the Canadian production. The munitions plants in the British Isles and in other allied countries are also supplied from the Canadian output."

NEWS NOTES.

Capt. F. Houston has left to recruit men in Smith's Falls district for Queen's Field Ambulance Corps. Capt. T. Mellory is going to Perth on the same mission.

Rev. J. S. Ross, pastor of James Street Baptist church, Hamilton, has accepted the invitation of the Provincial Council of the Y. M. C. A. to take part of the work of chaplains at the seven military camps of Ontario and Quebec.

John Kuhar, a Hungarian, was arrested at Owen Sound for internment after writing to a friend in the U.S. asking if anything could be done to smuggle him across the border.

Citizens of North Bay subscribed \$685 for Mr. and Mrs. John Brennan who have lost two sons at the front. Of this \$850 was used to pay off a mortgage against their property.

Donald McCortie is dead in Clinton, in his seventy-fifth year, from apoplexy. He was born a short distance east of Toronto, and moved to Clinton about forty-five years ago.

Dr. F. S. Vrooman, for three years superintendent of the Eastern Hospital at Brockville, has been appointed superintendent of the new Military Hospital to be established at Cobourg.

An effort will be made by residents of Chippewa to obtain a Carnegie hero medal for Jack Snider, thirteen years old, who jumped into Chippewa Creek with all his clothing on to rescue Wm. Plummerfeldt.

Obituary

J. H. HARLEY.
Old-Time Resident of Burford Has Passed to His Reward.

A large number of relatives and friends assembled at the village of Burford on Monday afternoon, July 10, to pay their last respects to and assist in the obsequies of the late James Howard Harley. In the passing of Mr. Harley, Burford Township has lost one of the last of her pioneers and one who always took a deep and active interest in public affairs.

Born in Toronto (then York) in 1834, left an orphan at the age of four, he came to Burford to the care of relatives in 1838, and spent the early years of his life in the near vicinity of the village (then Clermont). At the age of 17 he went to Hamilton, when he entered the employ of the Great Western Railway Co., which was then engaged in the building of its road with Hamilton as headquarters.

He spent five years with them, after which he went to Ancaster in connection with his brother, the late Archibald Harley, M.P., of the Harley and Wilson, who had the contract for supplying the lumber for the present G. T. R. station at Hamilton.

He married Margaret, daughter of the late Robert Sharpe, of Ancaster, in 1860. They celebrated the fiftieth anniversary of their wedding on April 2, 1910. In 1862 he came back to Burford and settled on a farm in the northwestern part of the township. Here he resided the greater part of his life, leaving a few years ago to take up a larger farm near Falkland and across the line in the township of Blenheim. He retired to the village of Burford some eight years ago and took an interested part in village affairs until forced to retire through ill-health.

An ardent Liberal in politics, he was especially active in elections, and stumped and canvassed the township of Burford during many campaigns, first accompanying the late Hon. Chief Justice E. B. Wood, then the Hon. J. G. Macdonald, and afterwards he threw all his energy into the support of the late Hon. Wm. Patterson and late Hon. S. Hardy so long as they represented the old south Riding of Brant, having for his opponents such well known old-time Conservatives as the late J. J. Hawkins, Peter Dornan, H. McLaughlin, Wilson and Robert Henry, all of whom were his staunch friends. He was appointed a justice of the peace in 1873.

For three years he was tax collector for the south half of the township, afterwards entering the arena of municipal politics. He was a member of the township and county councils for a number of years. For nearly 20 years he was a director and later president of the Brant Mutual Fire Insurance Co., and did much to place it on the basis which its present efficient management so aptly maintains.

One of his later interests was the cheese industry with which he became connected over 40 years ago. Being an enthusiast he was one of those who assisted in the organization and helped to establish the Dairy and Cheese Factory in Oxford County, just across the Burford border, near the post office of Muir's on the Hamilton and London Road. He was for a number of years sales agent and treasurer for this factory.

The late Mr. Harley took a deep interest in education, and was for years a public school trustee. In religion he was a Methodist and in his earlier days had been a licensed local preacher in the M. E. church. He leaves to mourn his loss his wife and eight children, A. E. of this city, Archibald, at Gobles, John at St. Johns, Mich., Ernest at Falkland, New York, Mrs. E. A. of New York, Mrs. Chas. Buck, near Paris and Mrs. Wm. Lisk, Mountain Mills, Alberta.

Mrs. J. B. Holt.
Caroline White, widow of the late Mr. J. B. Holt, died yesterday at her residence, 151 Dalhousie street, after a long illness. She is survived by her daughter, Mrs. Spedding, and two sons, Ernest and Edgar, all of Brantford.

The funeral (private) takes place to-morrow afternoon at Mt. Hope. See Brantford boys at the Brant Theatre. Now showing.

FATHER ANTHONY, THE HERO OF THE JUTLAND BATTLE.
A Roman Catholic naval chaplain with his scars. He was badly burned in saving two sailors from a fire caused by German shells on a British warship in the Jutland battle.

**Music and
Drama**

At the Grand
A real musical show of the season will be John P. Slocum's production of the Princess Theatre hit, "Nobody Home," which is announced for Thursday evening, July 13th, at the Grand Opera House.

Mr. Slocum is one of the most lavish producers identified with the American stage and stops at no expense. His cast includes none but Broadway favorites, and as a result his success is always assured. Among those who will make "Nobody Home" memorable in this city will be Chas. McNaughton, Zoe Barnett, Harry MacDonough, Della Niven, Mabel Withee, Roydon Keith, Lew Christie, John Paulson, Seble Layman, Sylvia Chausac and Helen Jost.

There is a charm to be found in "Nobody Home," that is seldom associated with musical comedies just now—the charm of originality. It is so utterly different from the usual run of such plays, at first the public does not know how to take it. But that soon wears off and it does not take long for everybody to get into the spirit of the performance with its dances, the girls and the comedy. And what is more, everybody will have something to say about the story—for there is a story, even if it does get lost in the fun and music as the play progresses. A musical comedy that carried a story that could be traced to the end of the evening would get a Nobel Prize.

Everybody in this city will be whistling the music and everybody will be commenting on the songs, the dances, the girls and the comedy. And what is more, everybody will have something to say about the story—for there is a story, even if it does get lost in the fun and music as the play progresses. A musical comedy that carried a story that could be traced to the end of the evening would get a Nobel Prize.

Social and Personal

The Courier is always pleased to use items of personal interest. Phone 276.

Lt. H. J. Stratford of the 15th Battalion was a visitor in the city to-day.

Mrs. T. R. Bird and daughter, Edna, of Victoria, are visiting Mrs. Bird's mother, Mrs. Thompson, of Erie Avenue.

Miss Crocker is supplying at the Congregational organ, during the absence from the city of Mrs. S. Sanderson.

Miss M. Milne of this city is the guest of Mrs. Farley, 89 Strange St., Guelph.

The funeral (private) takes place to-morrow afternoon at Mt. Hope. See Brantford boys at the Brant Theatre. Now showing.

**30,000 IN LINE
AT CAMP BORDEN**

**Great Ceremonial Parade
Before Minister Furnish
and Gallant Spectacle.**

**OFFICERS MARK
APPROVAL**

**Intense Heat and Driving
Dust Cause One Death
and Some Prostrations.**

Camp Borden, July 12.—Peace and order again reigned in the camp last evening; and with the ceremonial parade, which was one of the chief causes of complaint, and the chief cause of the disaffected men who caused the trouble are accepting things with the knowledge that Brig. Gen. Logie, acting commandant, has promised to do all in his power to satisfy the men fully.

In marked contrast to the night before the camp lines last after sunset scenes of contentment, games of various sorts being in progress on the battalion areas with matches between various neighboring battalions. The duty of seeing that order is kept in the lines has been impressed on the battalion commanders, who have also been told to do all they can for the comfort of their men.

The interesting ceremonial parade, at which the Minister of Militia and a large number of visitors were present, was held with all brigades in line and only a limited number of absentees; and although the intense heat and choking dust of the parade caused a great deal of discomfort to the men, resulting in one death and eleven cases of heat prostration, the men with few exceptions took sufficient pride in their work to uncomplainingly endure the discomfort of disturbance early in the afternoon working itself out after sunset. It does not seem to have caused to-night at the station.

Second Death in Camp
The death yesterday was the second in camp, but the first to occur among the men taken ill in the camp.

The dead man was Pte. John Campbell, of the 24th Beavers Battalion, an "old-countryman," whose father, his father, lived in Scotland with a sister, Mrs. John Eddy, living at 45 Dundas Street, Toronto. He had been one of the battalion batmen, and only complained about 6 o'clock, the cause of death being given as heat prostration. In addition to the case that terminated fatally, there were 25 men cared for in the advanced dressing station, which Capt. McWilliams, A.M.C., had set up on the parade ground. Of these eleven only had to be taken to hospital and they will probably be able to return to their units to-morrow.

The visit of Sir Sam Hughes, Minister of Militia, with a large party of guests, including a number of honorary colonels and other prominent visitors from Toronto and Ottawa, was the important event of the day, it being the first official visit paid the camp since the troops had come in.

Sir Sam arrived at the camp at 6 o'clock in his private car accompanied by Brig-Gen. Bertram, Brig-Gen. Smith, with officers of his personal staff, and a party of newspapermen. He went at once to breakfast with Hon. Col. Love, chief contractor of the camp, and afterwards met the officers of the London units at a short informal conference when he pointed out to them the necessity there had been of bringing their units to Camp Borden, where they would have an adequate training area. He had nothing to say regarding the rioting of the night before, which he was inclined to dismiss as not serious.

The visit of Sir Sam Hughes, Minister of Militia, with a large party of guests, including a number of honorary colonels and other prominent visitors from Toronto and Ottawa, was the important event of the day, it being the first official visit paid the camp since the troops had come in.

Accompanied by some of the visiting newspaper men Sir Sam then made a hurried tour of the camp, at the rifle ranges firing the first shot upon any of the targets. His car, with a bullet-eye for the first shot and a number of liners.

The great ceremonial parade took place about 11 o'clock, and for this occasion a considerable number of visitors arrived from Toronto, Barrie and other points, all the available vehicles in camp being pressed into service to carry the visitors to the great area prepared for the ceremonial drill. Most of the battalions were at full parade strength, some units of one of the London brigades being the only exceptions. The great parade area, with high ground to the east, made an ideal place for such a spectacle as was offered, nearly 30,000 men marching past in column, of half brigades. The dust which enveloped the men as they marched and was blown directly into the faces of the spectators, marred the great parade rather seriously, however, and the turning sand made it decidedly uncomfortable for the men taking part in the parade alike. It took just short of one hour for the parade to pass and Major-General Hughes, who was accompanied by Brig-Gen. Logie and other senior officers of the district staff, made frequent favorable comments upon units as they passed, coming in for these and applause from the officers looking on.

Just before the parade, the Minister met the officers of all units, and addressed them, complimenting all ranks on the way they were picking up their work. He pointed out the need for obedience and discipline in camp, referring to the great record of the Canadian troops at the front. Sir Sam said he was confident the troops at Camp Borden would also do their duty.

The death occurred at Exeter of Mrs. Agur, wife of Rev. Colin Fletcher, D.D., in her 85th year.

FAMOUS POET VISITING JAPAN
Sir Rabindranath Tagore Will Visit United States.

Tokio, July 12.—Sir Rabindranath Tagore, the renowned Indian poet, who has arrived in Japan to study the psychology of the people, will probably leave for the United States by the end of July. He will deliver a series of lectures in the United States, expounding his ideas on literature and art. It is likely that he will spend the winter there, and in the spring, if the war is over, cross to England.

In Tokio the poet seeks to adhere as closely as possible to his normal life. He rises seldom later than 3 o'clock in the morning and passes four hours in meditation. He believes that if by reflection and repose one can still the surface of thought, the deeper sub-conscious ideas come to their own. At 7 o'clock he takes tea and after tea he works till 11, when he bathes and has a meal. He tries to sleep a little in the afternoon and he retires at 10. He is content normally with five hours sleep.

Two Toronto boys were arrested at Port Hope. Both had bad records. B. I. Reilly, principal of the Merivale School, Saskatchewan, enlisted with the Queen's Battery for overseas.

The death occurred at Exeter of Mrs. Agur, wife of Rev. Colin Fletcher, D.D., in her 85th year.

BIG SUBS WERE PLANNED BEFORE WAR BROKE OUT

Feats Equal to That of "Deutschland" Already Performed.

By Special Wire to the Courier.
London, July 12.—The Manchester Guardian referring to the German submarine Deutschland, says that plans for submarines of 3,000 to 4,000 tons existed in Germany and England before the war, but that such vessels were not built because of the time required to submerge them and the impossibility of submerging in shallow water. It points out that the Australian submarine A-32 went from Australia, to the Dardanelles and says that the captain and the crew of the Deutschland are members of the Imperial navy the submarine may be dealt with as a naval auxiliary. Otherwise she is a blockade runner which could be ordered to stop, and if she attempted to submerge it would be justifiable to sink her.

"It is unlikely," the Guardian continues, "that the morale of the appearance in American waters of the German submarine will be misused as the threats of Count Von Reventlow and the other Tirpitz writers last spring. They warned America she was not to far away for Germany's arm to reach her. Although the Deutschland may be armed. She is none the less a threat to the American navy."

Ernest Murphy, of Concord, N.H. before starting with guardsmen for Mexico, killed his pet horse, two dogs and a cat rather than leave them to the care of strangers.

THE LIGHTHOUSE ELF

His mother said it was because he didn't try to sleep and his father said it was because he slept too hard and dreamed. I don't know. I only know that he tumbled out of the window and went a-sailing on Moonlight Sea in a boat made of a giant coconut shell.

He steered by a star in his coconut boat and his name was Peter. On and on he sailed, until he came to a lighthouse with waves of moonlight splashing all around it—and here, somewhat frightened, Peter met the Lighthouse Elf.

"Any night a boat!" called the elf. "Whither away?"

Peter climbed to the very top of the fairy lighthouse and there he met a dream-elf with terrible eyes that stared one from each window and lighted up the sea.

"I—I'm afraid!" said Peter.

"Pooh!" said the Lighthouse Elf. "What are you afraid of? The sea is of moonlight and the rocks are shadows. I must throw a light upon the rocks, with my eyes or the fairy's coconut shell you're in might shipwreck. You're on your way to Dreamland!"

"Dreamland?" said Peter, and then all at once he remembered that he hadn't tied his boat of coconut shell.

"I—I didn't tie my boat!" he cried.

"Didn't tie your boat?" he cried.

"Then you are in a fix. You'll have to stay with me forever."

And do you know, Peter might have had to do that but for the wind that came a-blowing fresh and clear in at the window of the fairy lighthouse.

"Climb on my back, little Peter," the elf whispered. "Climb on my back. My wings are strong and I rove the world."

So Peter travelled back to his home and his bed on the back of the night wind.

MIXTURE OF SLAV AND GALLIC

Russian Offensive is Heavy, But Not Lacking in Speed.

COLUMNS ATTACK IN TEN LINES

First Blessed by Priests, Then March Past Picture of Moscow's St. Mary.

New York, July 12.—A cable from London to The World says: A Hungarian staff officer, writing in the Pester Napolo Budapest, describes the tactics of the Russians in their offensive, as he has personally experienced them.

"Whether it is Brusiloff or some one else," he says, "who directs the operations on the Russian front is very difficult to judge. The strategy of the Russians at the present is not purely Slav Strategy. It is a fortunate mixture of Slav, the eastern—slow, but heavy force and strength—and the high gallic spirit."

The preparation of the attacks is carried out in every case, according to the Austro-German system by employing a most formidable strength of artillery concentrated at a given point. The chief role is played by heavy middle calibre artillery, with an unlimited supply of ammunition, so that a twenty hours' period of drum fire may be repeated more than once.

"At the same time there is a concentration of troops in such masses that at least ten lines of attacking columns are ready to be launched."

These are blessed by their priests, march past the picture of St. Mary of Moscow, then the attack begins."

TWO GERMAN STEAMERS SEIZED IN THE BALTIC. London, July 11.—Russian torpedo boats have captured the German steamers Lisabon and Worms, according to a report received in Stockholm from Skelleftea (a small seaport in Sweden on the Gulf of Bothnia) and transmitted by Reuter's column to Stockholm. The steamers were taken to Finland. The Russians detained the captain, pilot and 54 of the crew of the Worms, all of whom are Swedes. The remaining 13 members of the crew of the Worms and all the crew of the Lisabon have arrived at Skelleftea.

The steamers Lisabon and Worms are owned in Hamburg. The Lisabon is of 2,781 gross tons and was built in Rostock in 1909. The Worms was built in Newcastle in 1907, and is of 4,228 tons.

The board took only a few minutes to reach a decision. "You have flagrantly and deliberately broken the law and the only thing for us to do is to close you up altogether," said Chairman Flavelle, adding that the local inspector would receive instructions to see that the bar was closed on Saturday evening and not re-opened.

HAIG'S REPORT OF THE FIGHT

Have Now Taken First Line of Defence on an Eight-Mile Front.

London, July 12.—General Sir Douglas Haig made the following announcement last night: "After ten days and nights of continuous fighting, our troops have completed their methodical capture of the whole of the enemy's first system of defence on a front of 14,000 yards (more than eight miles)."

"This system of defence consisted of numerous continuous lines of first trenches, support trenches and rear trenches, extending to various depths from 2,000 to 4,000 yards, and included five strongly fortified villages, numerous heavily wired and entrenched woods, and a large number of immensely strong redoubts.

"The capture of each of the trenches represented an operation of some importance. The whole of them are now in our hands.

German Success Short-Lived "The German success in the recapture of the Tones Wood, after six costly assaults, was of short duration. To-day we recaptured nearly the whole of the wood, all but the northernmost end being again in our hands.

"Apart from a number of guns hidden in houses, buried in debris, etc., we, in the course of these operations, have brought in twenty-six field guns, a naval gun, an anti-aircraft gun and a heavy howitzer. The number of German prisoners exceeds 7,500."

Two Bartenders Worked on Sunday Ford City Hotelkeeper Had Mortgage to Meet, So Broke the Law.

Toronto, July 12.—The Ontario License Board can stand frankness when it is offered to them in small doses. On one or two occasions lately, the board has been asked to permit for wrongdoing have got off lightly by frankly admitting that they had erred. But when Fred J. Kirsch, proprietor of the Lakewood Hotel at Ford City, admitted running his bar on Sunday as on week days, the commissioners rebelled, and after a brief consultation with the hotelkeeper, they decided to carry him until Saturday next and no farther.

Kirsch blamed the new reciprocity arrangement for his downfall. The influx of motorists from the United States had been so great on Sundays, and their demands for liquid refreshments so insistent, that he had given in. In that case, his fall should be a profitable one, Kirsch informed the board, and pulled in the money as fast as the American tourists could hand it over.

When Chairman Flavelle reminded Kirsch that he had, when warned previously, promised the board that he would not sell liquor on Sunday, the hotelkeeper admitted that he had, but that he had a big mortgage on his house and had to clear it off or go under. He declared that he was not the only man in Ford City who sold liquor on Sunday, and wanted to know why the board did not go after the others. The whole district, he said, was full of blind pigs.

The board took only a few minutes to reach a decision. "You have flagrantly and deliberately broken the law and the only thing for us to do is to close you up altogether," said Chairman Flavelle, adding that the local inspector would receive instructions to see that the bar was closed on Saturday evening and not re-opened.

Wednesday, July 12, 1916.

THE SITUATION.

There is something very self-satisfied and ominous, about the quiet persistence with which the British continue their advance in connection with the Somme operations. General Haig is an uncommunicative Scot...

The Russian forces continue to advance upon the German fortress of Kovell, and the enemy are rushing all available troops to the scene in an effort to stay the troops of the Czar, who continue to fight magnificently. It is now announced that the total of Teutonic prisoners has reached the immense figure of 271,620.

When the announcement was first made that a German submarine had succeeded in reaching the States, the opinion was expressed in these columns that it was a foolish and spectacular trip without any practical value, and there does not seem to be any reason to change that view.

That German submarine. Captain Koenig, in command of the Deutschland, boasts of how his crew played the gramophone beneath the waves of the British channel, and that on the way across they lived on the best of foods washed down by champagne.

It is shown that one German submarine craft has got across the Atlantic with small cargo, while at the same time British vessels are roaming the surface of the Atlantic and all other seas at will, with large cargoes, not only of freight but of soldiers and passengers.

The vivid picture afforded between this state of affairs and the arrival at Baltimore of a solitary water boat, furnishes a contrast which everybody but the obtuse Teutons will readily recognize.

The achievement hasn't any real value whatever, and when Koenig speaks of his craft proving the first of a commercial line to be in operation for the rest of the war, he is talking through his periscope—that's all. A gentleman named John Bull will put the kibosh on that scheme, never fear.

METRIC SYSTEM AND CURRENCY.

An English writer proposes two more allied changes the adoption of which would undoubtedly have a wide beneficial effect—the discarding of the English weights and measures system and the national adoption in its place of the French metric method and the replacing of the complicated English monetary system with a form of the decimal system.

A simple method whereby the English currency system could be made into a decimal system is suggested, by this, the ten shilling piece would be made the standard coin which might be called the "George." The value of the shilling would be re-

DRIVING IN AGAIN

FROM THE CLEVELAND LEADER.

As for Lloyd George, as Secretary of War he will redouble his efforts to give the Huns the other kind of ague.

BRITISH GAINS GIVE EAST TO WEST LINES

(Continued from page one.)

British a line running almost due east and west, so that the Germans to the north can be attacked on the flank when the guns are brought up for the second phase of the operations. To the south of the river the French are in a position somewhat similar to the British and likewise can attack the German flank south of Belloy and Estrees. For the moment, however, the two armies are engaged in preparing their new positions.

More Verdun Attacks

Meanwhile, the Germans, renewing the attacks on Verdun, have captured Damloup battery, which they held for a time at the beginning of June. This position is the point furthest from Verdun in the French line of defense, so that its loss is not taken seriously by the French command.

Russians Driving Forward.

In the east the Russians are engaged in heavy battles in the extreme northwestern corner of Bukovina, where they are inflicting further defeats on the army of General Pflanzer, now cut off from Gen. Von Bothmer's forces to the north, and also along the Stokhod river, where the Austrians and Germans are putting up formidable resistance. The Stokhod is a shallow river, but marshes on either side impede movements of troops and guns.

Across the river, fighting is in progress near Svidnik, while to the southeast another force is advancing on Kovel.

BURFORD

From Our Own Correspondent. Miss Purley of St. Thomas is visiting Mrs. J. E. Brethour.

The Misses Muir of Montreal are spending their holidays with their parents, Mr. and Mrs. R. C. Muir.

Mrs. Standing and children are spending a few weeks at Paisley.

Miss Gowans of Buffalo has been visiting her grandfather, Rev. Wm. Wye Smith.

Miss Sloane of Sarina is spending a few weeks with her daughter, Mrs. Bruton.

Mr. and Mrs. Fred Gill of Woodstock, were visitors at the home of Mr. and Mrs. John Smith last week.

Mr. and Mrs. H. C. Lindsay and family moved to Brantford last week.

Mr. Jas. Gorry of Hamilton is visiting old friends in the village.

Miss Marvel Swaitz and her friends Miss Frances Shireff of Brockville, are visiting Mrs. George Ausleybrook.

A memorial service was held at Trinity church last Sabbath evening for the late Hugh Adams, who was killed in action at the front in

France. His widow and child reside at Fairfield Plains.

Mr. James Harley, one of our oldest and most highly respected residents, passed away at his home on Friday evening. Mr. Harley will be much missed because of his bright genial disposition. He leaves a widow and large family of sons and daughters. The funeral, which was largely attended, took place on Monday afternoon to the Congregational cemetery.

Mrs. Nichols of Detroit is visiting her brother, Mr. McNeary.

A special committee of Berlin City Council that was arranging a public excursion to Camp Borden has been notified by the railways that they cannot run excursions there.

The Saskatchewan Department of Agriculture, in the fortnightly crop report, states that all crops are making good progress.

The immigration into Canada for the past fiscal year was 48,537, the smallest since 1900. Nearly 37,000 came from the U.S.

Lieut.-Col. R. A. Robinson, chief recruiting officer of Hamilton, issued an appeal to returned soldiers to act as recruiting sergeants.

MONEY VOTED FOR HEALTH FIGHT.

Washington, July 12.—Congress was to take up to-day Secretary of the Treasury McAdoo's request for an appropriation of \$135,000 to be used by the public health service in a campaign against infantile paralysis. About \$50,000 would be used in New York where the disease is epidemic, and the remainder in efforts to prevent spread to other states.

See Brantford boys at the Brant Theatre. Now showing.

National leaders of the prohibition party came out for Henry Ford as their candidate for the Presidential nomination.

The Summer "Life-Savers" are fruit, cereals and green vegetables.

Meat in Summer overtaxes the liver and kidneys, potatoes cause intestinal fermentation. Get away from the heavy Winter diet; give Nature a chance. One or two Shredded Wheat Biscuits, served with milk or cream or fresh fruit, make a deliciously nourishing, satisfying meal. Such a diet means good digestion, good health and plenty of strength for the day's work. All the goodness of the wheat in a digestible form. For breakfast with milk or cream; for luncheon with fresh fruits. Made in Canada

BRITISH VICTORY AT CONTALMAISON. Map shows the front of the British forces at Contalmaison, where the Prussian Guards were routed.

THE New Waterway Route TO TORONTO

Steamers leave Hamilton 7.30 a.m., 1.00 p.m., and 3.30 p.m. Leave Toronto 8.00 a.m., 2.00 p.m. and 5.00 p.m. STANDARD TIME, daily including Sunday. NOTE: Hamilton city time is one hour later than Standard Time.

Rochester, Thousand Islands, Montreal, Quebec and Saguenay

Tourist Steamers "Toronto" and "Kingston" leave Toronto 3.30 p.m. daily except Sunday. Special rates including meals and berth.

For fuller particulars see local agent or write to Passenger Department, Yonge St. Wharf, Toronto.

Mail Contract

SEALED TENDERS, addressed to the Postmaster-General, will be received at Ottawa until noon on Friday, the 22nd day of July, 1916, for the conveyance of His Majesty's Mails, on a proposed contract for four years, six times per week, over Hatchery Station No. 1 Rural Route, from the 1st October next.

Printed notices containing further information as to conditions of proposed contract may be seen and blank forms of tender may be obtained at the Post Offices of Hatchery Station, New Durham and Harvey, and at the Office of the Post Office Inspector, London.

Post Office Department, Canada. Mail Service Branch, Ottawa. 16th June, 1916. G. C. ANDERSON.

Brant Theatre SPECIAL Pictures of 215th Battalion NOW SHOWING SEE OUR OWN BOYS ON THE SCREEN

The Price of Homage. ONCE when the late King Edward VII. paid a visit to Sheffield, all the fires in factories and plants were allowed to die out. Not a wheel in Sheffield turned for twenty-four hours. The primary object of this was to fit the pall of smoke that hovers over that wonderful steel-producing city, and to ensure, as far as man was able, a bright day and a blue sky for an auspicious occasion. It was Sheffield's expression of respect. BUT the action was unique—it was unprecedented—it was unthought of that those hundreds of mighty furnaces, raging night and day, and those seething boilers, with quivering valves, should ever be allowed to cool. This extinguishing of fires cost Sheffield hundreds of thousands of dollars—the price of the effort to get back again to high-power efficiency. SOME business men in Canada pay an unwitting homage, not to a king, but to a superstition—the superstition that hot weather justifies letting the fires of business energy go out. They stop Advertising in the Summer months. By paying homage to tradition, custom, superstition, they have allowed Summer to become their "dull" season. You know how dull it can be when you don't advertise. Do you know how much momentum you now lose in the Summer that must be regained in the Fall? DON'T LET YOUR ADVERTISING FIRES DIE OUT THIS SUMMER.

LOCAL NEWS

PASTIMES WON. Five rinks of bowlers from St. George visited the Pastime rink last evening, when friendly games were engaged in. The home team stood some ten shots up at the close of the play.

COULDN'T KEEP HIM AWAY. Vice-Chairman Irwin S. Armstrong of the Board of Education, is conducting with the Orangemen at Tilburg. For fifty-two years he has belonged to the L.O.L., and during all that time has never missed a parade on the Glorious Twelfth. This surely is some record. "Dod" as he is known to his intimate friends, has served the order in many capacities and is a Past County Master of this District.

CAPT. GRAHAM BETTER. Capt. T. F. Graham, of this city, former medical officer of the 86th M.G. battalion, is preparing to join that unit overseas. He was in a critical condition for some time, through internal injuries, his back being bent through injuries received in a railway wreck a short time previous to its departure. He was in a critical condition for some time, through internal injuries, his back being bent backwards, causing paralysis of the bowels. He is now reported to be completely recovered and will rejoin the battalion in the near future.

LIEUT.-COL. LEONARD. Ottawa has announced the appointment of Lieut.-Col. R. W. Leonard of the Corps of Guides, St. Catharines, to the Headquarters Staff in London. He will succeed Lieut.-Col. W. A. McCrimmon, who retires from the office of assistant adjutant-general to resume the duties of organizer and inspector of cadets, which he held before the war. Col. Leonard is the head of a big silver mining company and a former chairman of the National Transcontinental Railway. He is a brother of Lieut.-Col. H. F. Leonard of this city, and well known here, having donated the Grace Church tower.

PASTIMES WON.

Five rinks of bowlers from St. George visited the Pastime rink last evening, when friendly games were engaged in. The home team stood some ten shots up at the close of the play.

COULDN'T KEEP HIM AWAY.

Vice-Chairman Lewis E. Armstrong of the Board of Education, is celebrating with the Orangemen at Tillsonburg. For fifty-two years he has belonged to the L.O.L., and during all that time has never missed a parade on the Glorious Twelfth. This surely is some record. "Dod" as he is known to his intimate friends, has served the order in many capacities and is a Past County Master of this District.

CAPT. GRAHAM BETTER.

Capt. T. F. Graham, of this city, former medical officer of the 86th M.G. battalion, is preparing to join that unit overseas. He was prevented from leaving here with the battalion through injuries received in a railway wreck a short time previous to his departure. He was in a critical condition for some time, through internal injuries, his back being bent backwards, causing paralysis of the bowels. He is now reported to be completely recovered and will rejoin the battalion in the near future.

LIEUT.-COL. LEONARD.

Ottawa has announced the appointment of Lieut.-Col. R. W. Leonard of the Corps of Guides, St. Catharines, to the Headquarters Staff in London. He will succeed Lieut.-Col. W. A. McGinnon, who retires from the office of assistant adjutant-general to resume the duties of organizer and inspector of cadets, which he held before the war. Col. Leonard is the head of a big silver mining company and a former chairman of the National Transcontinental Railway. He is a brother of Lt. Col. H. F. Leonard of this city, and well known here, having donated the Grace Church tower.

Died

BOLT—Died, in Brantford, on Tuesday, July 11th, 1916, Caroline White, widow of the late J. B. Bolt, aged 82 years. Funeral from her late residence, 151 Dalhousie street to Mt. Hope cemetery on Thursday, July 13th, at 3.30 p.m. Funeral private.

WATSON—In Brantford, on Monday, July 10th, 1916, Eleanor Coleman, beloved wife of Mr. John B. Watson, aged 78 years. The funeral will take place from her late residence, 279 Darling St., on Thursday, the 13th inst., at 2 o'clock (city time), to Harrington Cemetery. Friends and acquaintances kindly accept this intimation. Please omit flowers.

COMING EVENTS

I. O. O. F. JOINT INSTALLATION. Thursday evening July 13, D. D. G. M. Bro. Anderson and team from Ayr, will install the officers of Gore, Harmony and Mohawk Lodges. Refreshments and entertainment provided. Full attendance requested. G. McIntosh, Secretary.

PROBS

Toronto, July 12.—The Barometer is high over the western portion of the continent and along the south Atlantic coast, while a shallow trough of low pressure extends from the St. Lawrence valley southwestward across the great lakes. The weather has been fine in nearly all parts of the Dominion and in Ontario and Quebec has been decidedly warm.

Forecasts

Moderate southwest and west winds, fine and very warm to-day and on Thursday. Thunderstorms in a few localities.

With Coop and Lent's Circus which visits Brantford on June 25.

LOCAL MOVIES.

The movies of the Brant soldiers have arrived and are on at the Brant to-day and balance of the week.

HYDRO ACCOUNT

The city's account with the Hydro comprising the lighting of public buildings for that period, totals \$17.28.

CIVIC PAY SHEETS

The pay sheets of the various civic departments for the two weeks ending July 8th, are: cemeteries \$114.20; streets, \$1,162.28; sewers, \$325.01; street watering and oiling, \$126.96.

NOT A RAILWAY BRIDGE.

A news despatch received by the Courier a few days ago stated that by the collapse of a bridge under construction near Quebec one of the workmen was killed. The report was in error inasmuch as it stated the bridge was being built by the C.N.R. It was being built by a municipality—the C.N.R. having nothing to do with it.

PTK. MCGILL DEAD.

Word was received in the city that Pte. McGill, who left for the front, some time ago, had died of wounds and shock at a convalescent home in Scotland. Deceased was well known here and was employed on the staff of the Gould, Shapley and Muir Co. It is understood that his wife left for Ireland shortly after his departure and is still residing there.

"THE GLORIOUS TWELFTH"

Local Orangemen were very much in evidence on the city's streets at an early hour this morning in readiness for the excursion to Tillsonburg where the annual celebration of the 12th of July is being held this year. The lodgemen assembled on Dalhousie street in front of L. O. L. 742. Here the visitors from Paris, representing the lodge there, also assembled, all parading from there to the station shortly before nine o'clock. According to reports, there will be a big day at Tillsonburg, 1,000 Orangemen representing 12 city and country lodges, leaving London this morning to participate.

NEXT TREASURER NAMED BLISS

By Special Wire to the Courier. New York, July 12.—Cornelius N. Bliss will be the next treasurer of the Republican national committee. This was officially announced to-day at the headquarters of Charles E. Hughes.

FIGHTING IT OUT.

By Special Wire to the Courier. Chihuahua City, Mex., July 12.—Heavy fighting is in progress between de facto government troops under General Ernesto Garcia and a large force of Villa bandits at Cerro Blanco, a few miles below Parral, according to despatches received to-day by General Jacinto Trevino.

BADLY DAMAGED BY MINE

By Special Wire to the Courier. Paris, July 12.—The American Steamship Gold Shell for New York, with a cargo of oil, struck a mine on Monday night and was badly damaged. She was kept afloat until she entered the mouth of the Gironde, where she is being lightered.

VARIOUS SPEEDS ARE SHOWN OF DIFFERENT ARMIES ON THE MARCH

Vienna, July 12.—(Correspondence of The Associated Press)—“Prometheus,” well known military publication, presents some interesting figures about the marching speed and ability of the various armies now at war.

Table with columns: Troops, Strides per min., Strobe Length, Distance per Hr. Rows include German, Austrian, French, Italian, Bersaglieri, Russian.

The Bersaglieri are able to outdistance all other soldiers so notably because they travel very light, and carry less baggage than any other troops.

Light, But Not Heat New Discovery Made by a French Engineer, M. Dussaud. By Special Wire to the Courier.

Paris, July 12.—The substitution of paper rolls for celluloid films in moving picture machines, made possible by the new “cold” light discovered by the French engineer, Dussaud, which is described to the Academy of Science by Professor Branley.

M. Dussaud has been working on this problem for many years. The light obtained by his method is so intense that it is possible to throw images from newspaper illustrations, picture postcards and photographic prints on a screen even in a lighted room as clearly and sharply as if they were glass lantern slides.

Pittsburgh music lodges have employed C. Emile Urban as architect to prepare plans for three buildings on the Masonic Home grounds, Elizabeth.

RAILROAD STRIKE STILL SERIOUS

Premier of Spain Trying Hard to Settle the Trouble.

By Special Wire to the Courier.
Madrid, July 11.—Via Paris, July 12.—The railroad strike situation shows no improvement. Premier Romanones and the minister of public works conferred with leaders of the employees and railroad directors to-day without results and the strike begins at midnight, at which hour all trains on the northern railroad will be stopped.

Meanwhile all the principal railroad stations have been occupied by troops and railroad men liable to military service have been notified that they must continue at work; but only express and mail trains will run to-morrow. The railroad company has offered to promote all employees who remain at work.

The National Union of Spanish Workmen to-night discussed the advisability of calling a general strike of all trades. A special meeting of the union, in view of the gravity of the situation, has been summoned for to-morrow.

GAINSVILLE NEWS

From Our Own Correspondent.
Mrs. Long of Detroit and Mrs. Batson, city, were the guests of Mrs. D. Campbell Thursday last.

Miss Mable and Edith Poag of Hamilton were the guests of their aunt, Mrs. A. Poag on Friday.

Mr. and Mrs. Gordon Vansickle of Calgary and Mr. and Mrs. Vaunder of Jerseyville, were the Sunday guests of Mr. and Mrs. J. G. Cole.

Mr. and Mrs. Harry Foulger and Mr. and Mrs. J. Hastings were in Ottawa on Friday and called on friends on Sunday.

Miss Kathleen Campbell spent last week holidaying at Crystal Beach.

Mr. James Blunt and Master Kelvin of Hamilton were visiting Mrs. Blunt on Friday, and Master Kelvin remained to spend the holidays with his grandmother.

Mr. and Mrs. J. Hastings were in Paris on Friday and attended the funeral of their brother-in-law, Mr. Ink-sater.

Mr. Waters of Houghton, Michigan, is visiting Mr. H. Cole.

Mr. and Mrs. A. Taylor were in Toronto over Sunday.

Miss Marion McCann was the guest of her aunt, Mrs. C. Cowherd, Park Avenue, on Monday.

Mr. and Mrs. Shirn of Michigan, are the guests of Mrs. C. Folger.

Miss Evelyn Bradd is spending part of the holidays in Hamilton.

Mrs. Hanley and Mrs. Halsey were in Hamilton one day last week.

Mr. Alex. Poag was a busy man on Friday when, assisted by his many friends and neighbors, a large new barn was raised on the skid at the management of Mr. T. Respin and his men. It is well on the way to completion.

John McKinnon, lawyer and Columbia athlete, died of strain after rescuing two girls from sea at Long Beach, N.Y.

Despite the necessary expense of three aqueducts to cross a creek, Nescopeck, Pa., may yet get its drinking water from eight big springs on Nescopeck Mountain.

In attempting to arrest Eli S. Carr, of Richmond, Ind., for drunkenness George M. Little, 45, and Elmer Stevenson, 30, partolmen, were shot and killed by the man.

Mrs. George Oscar Starr, widow of the former manager of the Crystal Palace in London, scattered his ashes in mid-ocean from the deck of the American liner Philadelphia.

WEDDING

Wife Charged with Homicide
Christopher Beutinger, Coal Broker, Shot and Killed.
By Special Wire to the Courier.
New York, July 12.—Christopher Beutinger, a prominent coal broker, with offices at No. 1 Broadway, was shot to death early to-day in his summer home at Caldwell, N.J. Mrs. Margaret Claire Beutinger, his wife, has been arrested and locked up, charged with homicide. Friends and neighbors attribute the shooting to domestic troubles. After killing her husband, the authorities say, Mrs. Beutinger calmly walked from her home to the office of the chief of police and said: "I've finished him." Beutinger had five children. He was known to be wealthy.

Kingston Ex-Chief Dead
Kingston, July 12.—Ex-Fire Chief John Elmer died last evening after a long illness. He was about 60 years of age. Recently he has been acting as assistant fire chief. A wife and large family survive.

WEDDING RING OFTEN OFTEN OF LEAD
Fashion to Make It From Shrapnel That Wounded Groom.
By Special Wire to the Courier.
London, July 12.—The war has altered the etiquette of weddings in England. The war wedding ring is now always made of gold. A bride may be married with a lead ring made of a piece of shrapnel that injured her bridegroom.

Toronto Won From Baltimore

Toronto, July 12.—The Leafs reversed the tables on the Orioles yesterday at the expense of Tipple, the \$10,600 American Association beauty of last season, who, like Shocker, is the property of the New York Americans. Mr. Tipple failed to last two innings through his wildness, and with the locals securing an early lead the game was never in doubt, as Herbert twirled a nice steady game. The score was: Toronto 8, Baltimore 2.

SCARLET FEVER AMONG MARINES

Americans Stationed at Peking Visited by Dread Disease.
Peking, July 12.—(Correspondence of the Associated Press)—Scarlet fever broke out among the two hundred American marines stationed in Peking as a guard at the American legation. In an effort to prevent the spread of the disease, Colonel Neville, commandant of the guard, ordered the men to move out of the barracks and placed them under canvas, with only two men in each tent. The tents were pitched on the recreation ground adjoining the legation compound and outside the compound wall, where all Chinese could see them plainly.

Immediately the rumor was circulated that the American legation had brought extra troops from the Philippines to protect foreigners against possible rioting which might result from the unsettled political conditions and the financial stringency brought about by the moratorium. This rumor grew, and added to it was a report that the Japanese were also to bring in thousands of troops from Tsingtau and Japan for the protection of foreigners.

These reports became so insistent that the Chinese government issued a formal denial, explaining the reason for the tented colony outside the American legation compound.

Only five of the American marines have the scarlet fever. These are quarantined in a gun-shed on the city wall adjoining the legation.

AUSTRIA WILL RE-OPEN POLISH AGRICULTURAL

That is, if Austria is on the Territory When the Fall Comes.
By Special Wire to the Courier.
Pulawy, Russian Poland, July 12.—October is to see the re-opening, with the Polish language in vogue, of the Agricultural High School, which, so far as Poland is concerned, has been closed since 1863. The Austro-Hungarian occupation authorities in Russian Poland have decided to revive the institution, and have entrusted the reorganization and conduct of the school to Professor Dr. Stefan Surkeltki of the University of Krakau. The Pulawy High School, one of the biggest educational institutions in Russian Poland, was closed in 1875 by the Russian authorities because its pupils had taken part in the revolution. It remained closed until the year 1869, when it was re-opened as a purely Russian school. It was closed again at the outbreak of the war.

BERLIN COUNCIL HELPS TO SHELVE NEW NAME
Berlin, July 12.—The opponents of the proposal to change the name of the city are still working to prevent the ratifying of the by-law. In addition to circulating the petition, a few days ago in consultation with the German communities of the country, a deputation consisting of Messrs G. C. H. Lang and J. M. Schuly secured the co-operation of the County Council yesterday, the members of which by a vote of 12 to 5 passed a resolution asking the Lieutenant-Governor-in-Council not to sanction the by-law, but to defer action until next year to enable the council of 1917 to again open up negotiations for the amalgamation of Berlin and Waterloo under the name of the latter town or any other that may be agreed upon. The resolution was ordered to be forwarded to Premier Hearst.

G.T.R. FIREMAN KILLED.
Crushed Between Cab of Engine and a Car at Stratford.
Stratford, July 12.—Mr. J. J. Bonisky, G.T.R. fireman on the night yard engine, was fatally injured here early this morning. The switch engine had just placed two cars on a siding and was returning when the accident happened. In coming out of the siding, the fireman did not notice that another car was foul of the track and was leaning far out from his cab window, and before he could avoid the accident he was crushed between the car and the cab of his engine. He died in the general hospital three hours later. Mr. Bonisky has been working in the city about two months, coming here from Berlin, where his parents reside.

RUSSIAN ADVANCE RAPIDLY TOWARD ENEMY FORTRESS

Kovel Now Seriously Menaced by the Czar's Forces—Retiring Teutons Setting Forests Afire to Cover Retreat, Most Serious Blazes Raging Between Styr and Coryn Rivers
London, July 12.—The approximate total of prisoners taken by the Russians during General Brusiloff's operations up to July 10 amounts to 5,620 officers and 266,000 men, the war office announced to-day. Guns to the number of 312 and 866 machine guns have been captured.

The Russian armies are rapidly advancing on the German stronghold at Kovel; it was announced yesterday in Petrograd.

Fierce fighting continues on the west side of the Stokhod River, on both sides of the Rovno-Kovel Railway and the Czar's troops are pressing the Teutons back towards Vladimir-Volynski, west of Lutsk.

According to Russian reports, the retreating Germans are setting the forests afire to cover their retreat. The most serious of these screens of flame and smoke are raging between the Styr and Coryn rivers, and south of the Sarny-Kovel railroad.

Pierce Fight in Progress
Svidniki and Mosor, where a fierce battle is in progress, as mentioned in the official communication, are on the west bank of the Stokhod, on either side of the Rovno-Kovel Railway. Farther to the left of this widening circle of the battle line beyond Lutsk, the Russians are launching sledge-hammer blows in the vicinity of Kiselin and Zubino, before Vladimir-Volynski.

The unexpected Russian advance north of the Kovel-Sarny Railway carried the Russian line to the Stokhod river, which has been crossed at several points in spite of the best defence the Germans were able to offer.

At the present writing, according to the military critics, there now remain no more natural barriers between the Russian lines and Kovel in the shape of rivers and swamps. It is predicted that early news may be of assaults upon the recently constructed German fortifications before Kovel.

Austrians Attempt Stand
While the fighting for Kovel overshadowed other events along the eastern front, important engagements continue near Baranovich, west of Kolomea, in Bukovina, and around Kimpolung on the extreme south-eastern end of the line, near the Rumanian border.

The official Petrograd statement indicates the Austrians are attempting a stand northwest of Kimpolung in an effort to check the steady advance of the Russians in the Carpathians.

Recall German Officers
A despatch from Berne says: Nearly one hundred military trains conveying some 60,000 troops, passed through Temesvar, Hungary, in the past few days, transporting Land-sturm, used in the occupation of Serbia.

POPULATION OF LONDON IN 1975

Leading Architect Estimates It Will Be 20 Millions
London, June 12.—In 1975 London's population will have increased to twenty millions, Arthur Crow, a leading architect, told the Royal Society of Arts, while outlining plans for housing many people. To provide comfortable quarters for such a population would require 1,040 square miles, allowing thirty persons to the acre for the whole area. This would mean, Mr. Crow added, a city with a radius from its center of eighteen miles.

F. B. GUTELIUS ILL WITH APPENDICITIS.
Ottawa, July 2.—F. P. Gutelius, general manager of the Government railways, is in Montreal with appendicitis and an operation may be necessary. Mr. Gutelius was in Ottawa a few days ago in consultation with Hon. Frank Cochrane on railway matters, and went to Montreal to forward some arrangements then under discussion. He was taken ill at the Windsor Hotel yesterday.

CHATHAM'S MILK SUPPLY WILL BE INVESTIGATED.
Chatham, July 12.—An investigation into Chatham's milk and cream supply has been ordered following the allegation of a citizen, who states that in a quantity of cream which he purchased from a local dealer a preparation of chalk was contained. The probe will be made by Alderman Brisco, who on several occasions has advocated a vigorous investigation into the milk and cream business in the city.

SUBURB OF VIENNA WRECKED BY TORNADO
Amsterdam, July 12.—A tornado on Monday wrecked Josephstadt, a suburb of Vienna, says the Vienna Neustadt, according to a telegram received here. Thirty-one persons were killed and more than hundred were injured seriously.

The imported thoroughbred sire, donated to the Canadian Government by King George V. for the improvement of the breeding of horses in this country. He is located at Oakville, Ont.

GREAT ADVANCE BY BRITISH; CONQUER WHOLE FIRST LINE

They are Now Only Nine Miles From Bapaume—The Total Number of Prisoners Taken Now 7,500 While French Add 1,300 to Their Big List

London, July 11.—The British by the capture within the last eighteen hours of Contalmaison and the powerfully fortified Trones Wood, have completely conquered the entire German first system of defences on a front of eight miles north of the Somme. They have pushed forward for a distance averaging a mile and a half. At some points their advance has been fully two miles and a half. The British front last night is less than nine miles from Bapaume, and looking down on Peronne from the high plateau on the south bank of the Somme, both these important strategic points are gravely menaced.

Retake Trones Wood.
The day in Picardy was completely calm. It was marked principally by heavy fighting in the Trones Wood, as a result of which the Germans were driven from all but the northern fringe, and by furious Teuton counter-attacks against Contalmaison, which was carried by the British during the night.

The French troops of Gen. Poch spent the day in consolidating their gains and in bringing up the heavy guns by which they propose to batter their way into Peronne.

Foe's Attacks Repulsed.
This ruined town already is ringed by fire. The French batteries, directed by swarms of aeroplanes, which have practically driven the Germans from the air, are bathing the shattered city with steel, and pounding the German defences into dust.

The Germans are counter-attacking furiously at many points on this front, as well as against the lines held by the British. They are trying

desperately to retain their hold on the Mametz Wood, the larger part of which was retaken from them by the troops of General Haig, and are striking desperately at the British along the Bapaume-Peronne high-road.

Many Gains.
At the British Front, July 11—(6 p.m.)—At British Headquarters this afternoon there was shown a map with vari-colored spaces representing the ground taken each day since the offensive began and the effect of the one steady, systematic advance working forward against redoubtable fortifications.

The evening reports show the British line is established beyond Contalmaison and is connected up at the Contalmaison-to-day and all their old communicating trenches, grid-ironing the hillsides, which might give the British cover.

Prisoners taken at Contalmaison speak of being under artillery fire so thick and persistently maintained as to shut off food and water. They say that when the fire was lifted the survivors were so dazed to do anything but yield.

The field guns and howitzers taken in Mametz Wood were shut off from any hope of escape by the curtains of artillery fire, and the gunners, driven away, were killed by rifle fire.

The advance through Mametz was made with hide-and-seek fighting, taking cover behind trunks, chopping, digging for shelter, and using the meshes of a small number for a further advantage. At night it has been a contest of individual cunning, initiative and industry.

NO RED CROSS GOODS FOR HUNS

France Refuses Americans' Equipment Transit Into Germany.

Paris, July 12.—(Correspondence of the Associated Press)—The French authorities have refused to allow free passage into Germany of American Red Cross sanitary equipment and supplies notwithstanding the Society's claim that such passage is justified by article 29 of the Declaration of London and article 16 of the Geneva Convention of 1906.

The French authorities hold that article 29 of the Declaration confines itself to asserting that "material exclusively for the use of sick and wounded is not to be classed as contraband of war," but that these words do not prevent such material from being captured and confiscated for violation of blockade nor from being held up on the way. Moreover, they add, the Declaration of London was never ratified and therefore has no obligatory force.

As to article 16 of the Geneva Convention the French authorities now intimate that, considering German methods of conducting war, they see no reason for departing from their prohibition of May 1916 against sending any goods whatever into Germany, so cannot make any exception in favor of the American Red Cross Society more especially as the supplies "end by re-provisioning Germany with raw material that is often easy to recover after usage and of which the German government has pressing need for its military operations."

THE "DAY" IS COMING FOR THE BLACK RACE

So "Elijah the Second" Tells All the Natives in Nigeria.

London, June 12.—(Correspondence of The Associated Press)—Nigeria has trouble on its hands in the person of a negro who styles himself Elijah the Second. Ostensibly a convert to Christianity, he has cut drift from the missionaries and is running a spurious form of Christianity on his own account. According to an official who has reached England from the region where his converts are most numerous, they already number more than a million out of the 17,000,000 natives in Nigeria.

He claims to work miracles and does not even draw the line at raising people from the dead. He finds a particularly profitable source of revenue in selling water which he pretends to have endowed with magic healing powers.

But what is causing the authorities most concern is the new doctrine which the black Elijah is proclaiming. It is that the blacks are now the "chosen people;" that they are destined to oust the whites and inherit the choice places of the earth.

Newburgh, Ont., July 12.—The Red Lion Hotel, owned and occupied by H. B. Fuller, was totally destroyed by fire at 2:30 o'clock yesterday morning.

CLIMATE OF MEXICO NOT AGREEABLE

Should United States Fight Her Soldiers Will Suffer Much.

HEAT AT TIMES IS UNBEARABLE

Scenery is Weird and Beautiful and Country Fascinating.

Campaigning upon the Mexican border will be no pleasant picnic these hot summer days for the thousands of unacclimated men from the more northern United States. But notwithstanding the many discomforts that will be encountered by the raw and unseasoned military men they will find the frontier region full of strange and fascinating interest.

This is particularly true of that part of the border which extends from the mouth of the Rio Grande along the course of that stream for more than 600 miles. When the upper reaches of the Rio Grande begin to break into a rough, barren, monotonous country that runs westward all the way to the Pacific Ocean the wild beauty and striking strangeness that characterized the lower border begins to wane.

There is a marked difference in the summer climate of the various points along the border, due to the variety of altitude, the nearness of the ocean and other reasons.

Many people would suppose that Brownsville, situated within twenty-five miles of the mouth of the Rio Grande, would be a veritable inferno during the hot weather months. Just the contrary is true. The climate there in summer is delightful.

The ever-blowing trade wind sweeps inland from the Gulf of Mexico, tempering the heat of the sun and making existence a pleasure in year round. The effect of the Gulf breeze," as the invigorating air current is commonly called, is felt along the coast and other reasons.

There are very few annoying insect pests in Northern Mexico. Insect pests in the tropical regions of the country there are a number of insects which cause painful wounds and often breed sickness.

FARM LABORERS WANTED!
The Western Provinces of Canada have experienced an acute shortage of farm laborers for spring seeding and summer work this year.

Even when times were normal throughout Canada moreover, it was always necessary to bring from twenty-five to thirty thousand laborers from Eastern points for the harvest season.

As voluntary enlistments have been very heavy, and inasmuch as a successful crop is predicted by the experts, grave fear is being felt along the lines of the Canadian Northern Railway, on account of the difficulty experienced in obtaining labor, which means steady work and good wages for all who visit in the districts served by the C. N. R.

For particulars, apply to John S. Lowling and Co., city agent, or write to R. L. Fairburn, General Passenger Agent, 68 King St. S., Toronto, Ont.

It is impossible during the middle part of the day. The men and officers who are now down there in that region of torture seek the shelter of the low-roofed wooden shelters of the camps during these hours and kasp and sweeter until the mantle of night is thrown over the adjacent mountains brings relief.

The Big Bend has a river front of more than 200 miles that must be guarded. It seems to be the breeding place of bandits and outlaws of many kinds and degrees.

In appointing the troops of the National Guard to their stations upon the border only the most hardened and climatically immunized were sent into the Big Bend region.

Guard organizations of the far Northern States should be sent into the Big Bend country they would probably suffer greatly from the climatic change. If they should have to go into Mexico City they would probably encounter less disagreeable features of campaigning from a climatic standpoint.

Generally speaking, the climate of Mexico is ideally pleasant, both winter and summer. The worst portion of the country is the bleak, arid northern portion.

The altitude of the great Central Plateau gradually rises and the climate changes accordingly. Most of the larger cities of the country are situated at altitudes ranging from 3,000 to 7,000 feet. Saltillo, Durango, Zacatecas, Aguas Calientes, San Luis Potosi, Puebla, Pachuca, City of Mexico, Guadalupe, Oaxaca, Merida and many other cities and towns of the country have delightful summer climates, while the temperature in winter is mild and pleasant. The climate of Monterey and Torreon is hot, but not oppressively so.

The Gulf coast cities of Tampico, Vera Cruz, Coahuacoccos, Tuxpan and progress are refreshed by cooling breezes. The same is true of the Pacific Coast cities of Guaymas, Mazatlan, Manzanillo, Acapulco and Salina Cruz.

The climate of the border towns of Columbus, N.M.; Douglas, Naco and Nogales, Ariz., is not as unbearable in summer as one who has not gone through a living experience upon that part of the border might suppose. The nights are usually pleasant and the days are usually relieved by a breeze from the mountains. The region, however, is desolate and uninviting.

It is the mystery of the chaparral, covering the region of the lower Rio Grande border that appeals most to the average visitor to the border. Upon both sides of the border, prickly pear and innumerable other varieties of thorny shrubs and plants form an almost impenetrable wilderness.

It is within the confines of this forest that the bands of outlaws have their lairs.

Running through the chaparral are many narrow burro trails that cross and recross each other, and it is along these routes that the border military patrol patiently watch, and wait for some signal that will betray the presence of the armed wily Mexican.

It is stated by U. S. Army medical men that it would be well if the men who are sent to the border or in Mexico should provide themselves with an antidote for rattlesnake bites. These reptiles are thick in the chaparral region.

There are very few annoying insect pests in Northern Mexico. Insect pests in the tropical regions of the country there are a number of insects which cause painful wounds and often breed sickness.

ENEM ADVANCES NEARER VERDUN

Germans Get a Foothold in the Damloup Battery, Also in Fumin Wood.

London, July 12.—A day of furious fighting has brought the Germans closer to Verdun. On a front of three miles northeast of the fortress, extending from Fleury past Damloup, the Crown Prince, yesterday afternoon threw forward his infantry. Under a fire which cost them serious losses, the Germans broke through the French lines, gaining a foothold in the Damloup position and in the Fumin Wood, where their wedge makes its closest approach to the Verdun citadel.

The Crown Prince then renewed with increased violence his bombardment of this region, the climax coming yesterday afternoon. The attack was launched with stronger forces.

The Germans now have under fire the French second lines on the whole front of attack, apparently in preparation for another attack.

II.—The Discounters of Money

By O. HENRY

(Copyright by Doubleday, Page & Co.)

EB spectacle the money clips of the present day got about Bagdad in the Subway trying to relieve the wants of the people is enough to make the great Aladdin child turn Haroun in his grave. If so then the assertion should do so, the real caliph having been a wit and scholar and therefore a hater of pompousness of the poor in one of the great troubles of the rich. But one thing is agreed upon by all professional philanthropists is that you must never have over any cash to your subject. The poor are notoriously temperamental and when they get money they exhibit a strong tendency to spend it for straggled olives and enlarged crayon portraits instead of giving it to the installment man.

And still old Haroun had some advantages as an eleemosynarian. He took around with him on his rambles a chauffeur, a secretary of state and a night and day bank and a scale measure, his executioner, and a snicker-snee. With this baggage a caliphing tour could hardly fall to be successful. Have you noticed lately any newspaper article headed "What Shall We Do With Our Ex-presidents?" Well, now, suppose Mr. Carnegie should engage them, Jess Willard to go about assisting the distribution of free libraries? You suppose any town would have a hard time to refuse one? That callous combination would cause libraries to grow where there had been only one set of R. P. Roe's works before.

But, as I said, the money call are handicapped. They have the that earth has no sorrow that do cannot heal, and they rely upon it. Al Raschid administered justice rewarded the deserving and punished whomsoever he disliked on the spot. He was the originator of the story contest. Whenever he succeeded any chance pickup in the bazaar and story of his life. If the narrow lacked construction, style and he commanded his visitor to dole out a couple of thousand ten dollars notes of the First National Bank of the Bosphorus, or else gave him a job as Koward Pitkins with \$4,000 and a good follow at that. He was an agreeable, modestly arrogant man, who implicitly believed money could buy anything that was possible to encourage his. He heard the spring snap and his heart in a wire cage regarded piece of cheese whose other name Alice von der Bynslings still had that little square about which so has been said and in which so has been done. Today you hear of Mr. Goniat's chartered passenger that about ends the noise in the made by Gramscy square. But it was different. The Von der Hana live there yet, and they're

AMERICANS MOST IGNORANT SAWS CHILEAN SPOKER

S. A. Visitor in Toronto Tells How His Country Regards Germans.

Toronto, July 12.—"The most striking thing I have observed during my travels is the great ignorance of the American people. You can say that for me," was the reply of Carlos Campusano of Valparaiso, Chili, when seen at the King Edward Hotel. "Everywhere I go people say to me, 'What a fine country we have!' and at our buildings, see our land, see our railways, see how clever we are, but when I speak of Chili they look away and say something about Indians and revolutions."

"We have Indians, but we have had only one revolution in one hundred years. We fought the Peruvians and the Bolivians and we beat them, but," he shrugged his shoulders, "we are not all the time fighting each other, nor are we all Indians."

"I speak English, Spanish, Italian and German; I am a stock broker, but how many of your American stock brokers can speak the languages that I speak? I tell you, sir, the Americans are an ignorant people."

He recalled the visit of Admiral Von Spee to Valparaiso, after the German fleet had beaten the British at Coronel. "When they came into Valparaiso harbor with their story of sinking Admiral Craddock's fleet we laughed," he said. "Most Chileans are in favor of the allies, but we have some friends of Germany among us and even they would not believe that the German fleet could beat an English fleet."

"Our own navy is trained by the British, our army by the Germans. We thought that the British fleet could be beaten, and many of us think the German army cannot be beaten, but Admiral Von Spee came ashore and told us that he had sunk the whole of Craddock's fleet at Coronel."

"Someone asked him, 'Where are your British prisoners if that is so?' But Von Spee burst out laughing and said, 'he had sent the Nurnberg to pick up the British seamen, but that ship could not do so because it lacked boats. The British sailors were taken on her. That was very bad for Von Spee, and many of us were glad when Admiral Bell's fleet paid the debt a little later in Chili. Some of the officers have escaped from time to time but most of them are willing to stay with us in Chili."

WAR BROUGHT GOOD

"The war has brought good to my country in some ways. We can no longer send our silver, copper and saltpeter to Germany by way of Holland as we used to do. But there is a good market for them in America and the countries of the Allies. Many things we used to get from Germany before the war have learned to make in our own country. Our new industries have been started because of that. The people are happy and contented and can live much more cheaply in America. Yet I have met people in both places who think they should pity the 'poor Chileans.' These people are wrong, and they are ignorant, as I told you at the first."

THIS IS AN OLD STORY.

By Special Wire to the Courier.
Berlin, July 12.—By wireless to Sayville.—Two German naval aeroplanes bombed English coast fortifications at Harwich and Dover on the night of July 9-10, the German admiralty announced to-day.

The air raid on the British coast announced by Berlin to-day was reported in official British statements Sunday night as a success. No casualties were caused by the seaplane bombardments, the British accounts stated.

Children Cry FOR FLETCHER'S CASTORIA

No person or persons shall be allowed to sprinkle, or use in any manner whatsoever, the water supplied by the Board of Water Commissioners upon laws, General Orders, or any other of any description, except between the hours of 6 and 8.30 o'clock p.m., on Lawns up to and including 5,000 square feet on Lawns over that amount from 5 to 8.30 o'clock p.m., and any person wishing to use the water on their Lawns or Grounds in the morning in place of the evening may do so between the hours of 6 and 8 o'clock a.m., by giving notice to that effect in writing to the Secretary. City time to govern in all cases.

It must, however, be clearly understood that the water cannot be used on Lawns or Grounds both morning and evening.

FRED W. FRANK, Secretary.
Water Commissioners' Office, Brantford, July 8, 1916.
