The April Discount Sale

has just Four Days to go—

The ancient Greeks made a statue of Opportunity, it was represented as a fleeting figure. One peculiarity marked this figure. The head was perfectly bald save a slight wisp of hair at the forehead—a forelock. The moral is plain—Opportunity must be grasped by the forelock.

Not ours to moralize, nor to tell you what to do about anything. But it is our right to say with all the emphasis that we can, that this April Discount Sale with its unrivalled opportunities to save, comes to an end this coming Saturday night. There is yet time to grasp its opportunities by the forelock.

- The measure of Economy:**—The only yardstick by which economy can be measured is Quality. And for quality you must depend largely upon the word of the store where you buy. In this store, your ultimate satisfaction is the only condition that is acceptable.
- Fashion:** Our representatives in the fashion centres sense the coming mode. As soon as fashion's decree is proclaimed in New York or Montreal, Newcastle and vicinity's shoppers may share the pleasure of seeing new things here while they are really new.
- This Discount Sale is not a clearance sale,** but is an advance sale on seasonable, new crisp merchandise, most of which has been received within the month.
- The object of this reduction is to stimulate business and increase our turnover during the month of April.**
- Prices:** This DISCOUNT is not based on prices that have been but on today's present lowered market value.

Ald. Ritchie introduced the question of extending the electric light to Nelson and after discussion it was moved and seconded that the Mayor and Electric Light Com. take up the question of the Nelson extension and

SHOCKING FATALITY ON THE MIRAMICHI

Young Man Caught Among Logs When Landing Gave Way, Had Back Broken.

A shocking fatality occurred on the Sinclair drive, in the North West Miramichi, Saturday afternoon, through which Philip Saunders Hutchison, of Strathadam, lost his life. The unfortunate young man was skidding logs off the landing when it gave way and he was precipitated down the steep bank with the pile of logs.

He was picked up in an unconscious condition and hurried to the Miramichi Hospital, Newcastle, where it was found he had sustained a broken back, and he passed away early Sunday morning without regaining consciousness.

The young man was only twenty-seven years of age. A sad part of the happening is that he had only been at work three days, when the accident occurred. He is a son of Mr. and Mrs. Albert Hutchison and is survived by them and the following brothers and sisters: John, Rundle and Frank, and Mrs. James Keyes, of Newcastle, Mrs. Perley Walsh, of Whitney, and the Misses Margaret, Dora, Della, Mercia and Lella all at home.

The funeral was held Tuesday morning at 9 o'clock to Red Bank.

arrange for a meeting in Nelson to discuss the matter with the prospective customers there.

On motion of Ald. Doyle, seconded by Ald. Dalton it was decided to observe, Thursday, May 10th as Clean Up Day.

The purchase of an electric siren for a fire alarm was discussed and it was decided to consult the Fire Underwriters before making a definite decision.

The installation of sewerage on George Street was considered and the matter left in the hands of the Light and Water Committee.

BATTLE IN RACE FOR MAYORALTY

J. Y. Mersereau is mayor for the second term. The election passed off quietly J. L. Stewart veteran of many a contest was defeated for mayor by J. Y. Mersereau by five votes. Only a small vote was polled of the ten candidates for aldermanic honors Ald. R. D. Walsh and L. Donovan were left. J. Kerr Loggie led the poll. The new council will show five new faces, J. K. Loggie, F. M. Tweedie, Charles Reinsborrow, Dr. J. G. Sproul and W. Whalen, and the three left of the old board are Alderman Thomas Lawlor A. Maher and D. Cripps. The candidates and votes were as follows:

For Mayor, J. Y. Mersereau, 220; J. L. Stewart 215.

For aldermen, J. Kerr Loggie, 326; Thomas Lawlor, 286; F. M. Tweedie 282; Dr. J. G. Sproule, 279; A. Maher 260; William Whalen, 254; Charles Reinsborrow, 253; D. Cripps, 249; R. D. Walsh 229; T. Donovan 231.

THE RESTIGOUCHE CLEAR OF ICE

Dalhousie, April 19—On Wednesday, from early morning till late at night a terrific snowstorm from the east swept over the town. Sleds were used on Thursday. By Friday wheels were in use again.

The ice in the Bay Chaleur was taken out to sea by the high tides of Tuesday and Wednesday. Since then the ice in the Restigouche river has moved slowly down towards the bay. The river now is clear of ice, with the exception of the banks.

Ald. Sargeant reported that owing to its bad condition the flag pole had been removed from the square, and suggested that it be not replaced at present, but the pole on the Town Hall be used in the meantime.

The Public Works Committee discussed the question of raising the Town Hall but the matter was left in the hands of the committee. Adjourned.

BILL SHAREN IS EXPECTED TO GO INTO 2 MIN. LIST

New York, April 18—Thomas W. Murphy who drove two trotters into the 2 minute list last season, is believed to have five in his training stable at Poughkeepsie that will trot in even time or faster this year, says the New York Sunday Herald. W. H. Strang, of Brooklyn, a keen judge of harness, horses, is quoted by the Herald as among those who share in this belief. When asked to name the prospective 2.00 flyers Mr. Strang said yesterday:

"Barring mishaps Peter Manning will beat his record of 1.57%. So will Arion Guy, whose mark is 1.59%. I said a year ago that Bill Sharon was as fast as any horse in the world and I expect to see him beat 2.00 in Murphy's hands this year. Czar Wor thy is another that will do the trick unless I miss my guess. Nobody knows how fast he could have trotted last fall, but I am one of those who believe he could have beaten the record for three-year-olds all to smash and the record is 2.02%. That's four. Number five is Princess Etawah. She was good for a mile below 2.02 at Lexington last October and she ought to knock off two seconds by the time she gets back there in 1922."

Hall's Catarrh Medicine

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Tonic and acts through the blood upon the mucous surfaces of the body, thus reducing the inflammation and assisting Nature in restoring normal conditions. All druggists. USE NEWSPAPERS FOR ADVERTISING

Montreal, April 11—Speaking before the Association of Canadian Advertisers here today, R. W. Ashcroft assistant to President Rider of the Ames-Holden McCready, Limited, put up a strong plea for newspaper advertising as vital sales aid. He claimed that it was as necessary to the successful distribution of a trade-marked piece of merchandise as food, raiment and shelter are to the well-being of an individual.

BEAVERBROOK AS JOURNALIST

Lord Beaverbrook and Sir William Berry were the chief guests at the annual dinner of the London District Council of the National Federation of Retail News Agents, Booksellers, and Stationers. Lord Beaverbrook, responding to the toast of "Our Guest," said that the prosperous man in the newspaper work was the bill poster. The proprietor's lot was an unhappy one. He said he began in the newspaper business as a newspaper boy with a parcel. The first cent he ever made in his life, he made out of selling newspapers in Newcastle, New Brunswick. Eventually he became a newspaper publisher and published a little paper called The Leader. He was the editor, publisher and the printer. He could go back to the "case" at any time if it were not for those new-fangled machines. He also ran the press, but he did not pull its lever to start it. He turned it with a handle. He had never "dis-tributed" type "because it was a tedious talk."

MOTORISTS CANNOT USE HIGHWAYS YET

B. M. Hill, Chief Highway Engineer has stated that the Department of Public Works was not yet in a position to announce permission to motorists to use the highways of the province outside the towns and villages. He stated that it probably would be May 1st before the permission would be given.

The date will depend upon the reports received from the various sections of the province relative to the condition of the roads and the speed with which the frost is leaving the ground.

COURT OF APPEAL IN SESSION

FREDERICTON, Apr. 19—Argument completed this morning in the case of the Amherst Boot and Shoe Company, Ltd. vs. Robert Carter. Court considers.

James A. Rundle vs The Miramichi Lumber Company was commenced this morning and will be continued this afternoon. This is an appeal from a decision given by Judge Chandler before whom the case was first tried, without a jury, finding that J. T. Rundle, formerly general manager for the company, had no authority to enter into a certain contract purported to be dated June 27, 1912, on behalf of the company, giving his brother, J. A. Rundle, the right to cut princess pine on a large area of timber lands held by the company, on lease from the Crown, and that there had been collusion in fraud. At a meeting of the company, held on June 6, 1912, the verbal resignation of J. T. Rundle as general manager was accepted to take effect June 30, 1912, his salary to be paid up to Dec. 31, 1912.

The contract which was made was to extend over the life of the lease or renewal thereof, nothing being paid for the rights, and J. A. Rundle not being compelled to cut any specific amount yearly. An attempt was made by the company to limit the period of the contract, but without success, following which the contract was repudiated. James Friel, K. C., for plaintiff, supports the appeal to set aside the verdict for the defendant, and to enter a verdict for the plaintiff; P. J. Hughes for defendant company.

CHICAGO IS SWEEP BY WIND STORM

Chicago, April 19—Several persons were killed and scores injured by a sixty mile wind that swept Chicago today and uprooted trees, unroofed many buildings and destroyed hundreds of windows and signs. Snow flurries and freezing temperatures followed in the wake of the gales which lashed Lake Michigan into fury. In the downtown district all buildings acted as giant wind scoops, shooting the gale into the streets with such force that pedestrians were swept from their feet.

A mounted policeman was blown from his horse. At one downtown corner seven wagons were overturned in less than two hours. Many automobile tops were ripped from machines.

Tonight the fire department was busy in many outlying sections clearing the streets of trees snapped off or uprooted fallen signs and electric wires.

Scores of persons attending a meeting in the Emmanuel Baptist church on Michigan Boulevard narrowly escaped injury when the top of the spire fell through the roof of the auditorium.

Several persons were injured when the roof of the north side Turner hall was loosened sending bricks into the streets. During the height of the gale the coast guards began a hard tussle to rescue the Uncle Sam, a fishing craft with four men on board which became disabled near the mouth of the Chicago river. The boat was badly pounded by the waves before the men were taken off. The snow flurries and cold were due according to the weather bureau, to a storm in Wisconsin which travelled from Manitoba yesterday and is now moving east across the lakes.

Victims of the storm were struck by flying debris. Little Evelyn Jacobson was struck by a piece of cornice and instantly killed. A man's arm was burned off when it came into contact with a high tension electrical wire blown down by the storm.

Spring And Summer Forest Fires

There are usually two periods of fire hazard in the Canadian forests, in early spring just after the snow disappears, and in late summer, when the vegetation has begun to get dry. Exceptional seasons vary these periods but the two classes of "spring fires" and "summer fires" remain. Many people understand why the dry, hot period of late summer is likely to be favourable to the starting of forest fires but they think that after the heavy snowfall of winter, the woods ought to be safe till early summer at least. A little reflection, however, will show why the early spring period is particularly dangerous. In early spring there is often a short period of hot, bright days. The leaves have not yet come out and the sun shines down through the leafless branches directly on the forest floor. The snow disappears as if by magic and the dead twigs and last year's leaves become dry as tinder. If a glowing match or cigarette stub is dropped among this material the forest floor is ablaze over a space of many yards in a moment. A few days at this period are always most critical. After the first spring rain the ground vegetation becomes green and damp, and the leaves come out and shade the forest floor. The worst danger is then over, until the hot days of late summer cause the vegetation to dry out, when a danger period ensues which lasts till the first autumn rains. The moral of it all is that Canadians ought always to be careful with fires in the forest and doubly careful during these danger periods.

ONTARIO MOTHER HELPS DAUGHTER

Mother—watch your daughter's health. From the time she reaches the age of twelve until womanhood is established she needs your care and advice. Many women have suffered years of ill-health through lack of such care during this time. Lydia E. Pinkham's Vegetable Compound is a splendid medicine for girls and women. For nearly fifty years it has been helping mothers and daughters. Let it help you and your daughter.

Hamilton, Ontario.—"When my daughter was thirteen and until she was fifteen she suffered every month so that she could hardly move around the house and when she would have the pains in school she would have to be carried home. Besides the pains and the irregularity she also had headache, dizzy and faint spells, and soreness in her back. I saw your advertisement in the 'Hamilton Spectator' and got Lydia E. Pinkham's Vegetable Compound for her. She does not have the least bit of trouble now, and we both recommend your medicine. She works in a candy-shop now and seems well and strong. I give you permission to publish this letter as a testimonial."—Mrs. I. P. CLAUSE, 76 Walnut St., South, Hamilton, Ontario.

Tree-Line Advancing Westward

What has happened in the United States middle west is also happening on the Canadian prairies, namely, the tree-line, which fifty years ago was located a comparatively short distance west of the Mississippi and Red rivers, has advanced several hundred miles into what was formerly the bald prairie. The line has not moved forward bodily but "islands and groves of trees are today to be found like outposts in districts, where there were formerly no trees. This is believed to be due to the fact that the progress of settlement has stopped, more or less completely, prairie fires and given the trees a chance. Progress westward has been slow because the prevailing winds are from the west, and tree seeds are carried largely by wind. In the last fifteen years, however, the rate of advance has been more rapid largely because of the more determined fight against prairie fires. Trees are now spreading southward from the well established forest along the Saskatchewan. In addition to this natural process of forest growth individuals and communities have planted groves all over the West. The Dominion forest nursery station at Indian Head has sent out over sixty million trees to forty thousand farmers in the last twenty years, and this with civic and school planting is helping to change the appearance of the prairies.

SERIOUS FLOODS

Washington, April 20—Four million sand bags were shipped by special train from Schenectady, (N. Y.), today to points along the Mississippi river where the water, reaching an unprecedented high stage, has caused serious damage to property.

How's Business?

Advertising, backed up by the right spirit, the right goods and the right service, can rescue a sinking business and will make a prosperous business more masterful in its own community.

When John Wanamaker, the Prince of Merchants, began business, he resolved to force matters. He was not content to WAIT to be found out—he DETERMINED TO BE found out. In short, he advertised. He threw on his business, small as it was, the light of publicity, and the public of Philadelphia entered the shop on which the light shone.

In this community the public is entering those shops on which the light of advertising is falling.

FIFTY MILLION FEET OF LOGS ON THE MIRAMICHI

Practically All The Lumber on Both Branches Said To Be Old Logs.

Fifty million feet is the total quantity of logs to come out of the Miramichi this year, according to the best estimates available, says the Frederick Gleaner.

Of the quantity named thirty-five millions are coming out of the south west Miramichi and the remaining fifteen millions from the northwest branch, but practically all of the lumber on both branches are old logs which had been cut a year ago last winter and have since been on the banks or in the streams.

In fact, according to The Gleaner's informant not more than five of the thirty-five million feet coming out of the southwest Miramichi this year are new logs, while the proportion on the northwest Miramichi is about the same. This situation is indicative of the stagnant state of the lumber industry on the Miramichi for the past winter but late reports indicate that some of the mills there are preparing to commence operations.

On the Nashwaak the water has been holding up better than on most of the other rivers. Yesterday those in charge of the Nashwaak drive sent out S. O. S. calls for more men on account of the difficulties in bringing the drive along. There are approximately 22 million feet of logs coming out of the Nashwaak this spring, most of which is old lumber that was hung up since last year.

It was said this morning that the average wages being paid on the Nashwaak drive are \$2.20 per day or about fifty per cent reduction from last year.

De Valera Not Supported By The Dissidents

That Section of Irish Republican Army Not Pledged to His Arrangements.

London, April 20—Replying to a series of questions, the executive of the dissident section of the Irish Republican Army is quoted by the Dublin correspondent of the Daily Mail as saying that neither indirectly nor directly has the Executive assented to any peace arrangements Eamon De Valera may propose, or to accept the Dublin conference declaring, "The army is not responsible to any political leaders."

Whether the Executive would accept the findings of the conference would be a matter for consideration when the findings were published. To the question as to whether the Executive would allow elections to be held the reply was that the Executive's decision would be communicated to the Irish people and press at the proper time. No useful purpose could be served by discussing whether election matters would be allowed to proceed without interference, because it was necessary to know all the circumstances and act as the occasion demanded. In response to questions as to whether goods, commandeered for the subsistence of the Irish Republican Army would be paid for, the statement was made:

"Our men cannot be allowed to go hungry because they uphold the principles of the Republic for which they fought and which others are seeking to subvert. The Irish people will set the matter when the opportunity offers."

Neuralgia And Sciatica

Caused by Starved Nerves Due to Weak, Watery Blood.

People think of neuralgia as a pain in the head or face, but neuralgia may effect any nerve of the body. Different names are given to it when it affects certain nerves. Thus neuralgia of the sciatic nerve is called sciatica, but the character of the pain and the nature of the disease is the same. The cause is the same, and the remedy to be effective, must be the same. The pain of neuralgia, whether it takes the form of sciatica, or whether it affects the face and head, is caused by starved nerves. The blood, which normally carries nourishment to the nerves, for some reason no longer does so and the excruciating pain you feel is the cry of the nerves for food. The reason why the blood fails to properly nourish the nerves is unusually because the blood itself is weak and thin.

When you build up the thin blood with Dr. Williams' Pink Pills, you are attacking neuralgia, sciatica and kindred diseases at the root. The value of these pills in cases of this kind is shown by the experience of Miss Beulah M. Fairweather, Cumberland Bay, N. S., who says: "A few years ago, following an attack of measles, I was left in a badly run down condition. I was weak and very nervous, and had no appetite. A doctor was called in and gave me medicine, but it did not help me. My blood was thin and my hands and my feet were always cold. Then to add to my misery I was attacked with neuralgia, from which I suffered greatly. I was reduced to a mere skeleton, and did not care whether I lived or not. I was in this deplorable condition when I began taking Dr. Williams' Pink Pills. It was some time before I could notice any benefit from the pills, but before a half a dozen boxes were used there was no doubt that they were helping me. Then I got six more boxes, and before they were done, I was once more enjoying health and am now strong and healthy. I shall always feel grateful for what the pills have done for me and urge all weak people to give them a trial.

You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

OPERA HOUSE FRIDAY AND SATURDAY

Rupert Hughes has done it again. His "Scratch My Back" and "Hold Your Horses" had a successor that surpasses even these delightful comedies. It is "The Old Nest," a film version of the Saturday Evening Post "The Old Nest," a film version of the author's story that appeared in the Saturday Evening Post at the Opera House Friday and Saturday.

"The Old Nest" is a series of dramatic episodes that reveal the life of an American family. The theme is mother love, and the audience is privileged to look into the home and into the hearts of a typical family. All the little joys and sorrows that every one of us remembers are flashed on the screen, and bring tears and laughter in quick succession.

In the story, the mother lives to see her family of six children gradually drift away from the old home. But in the end, they remember the old nest and come home to roost. There is no plot, any more than there is a plot in life itself. Things happen, no one knows why and no one questions. A reproduction of life is "The Old Nest."

The picture, which was directed by Reginald Barker, was made at the Goldwyn studios. It was perfectly acted by a cast with Mary Alden in the role of the old mother. Some of the other players are Dwight Collins, Johnnie Walker, Lucille LaVarre, and three children who were in the Booth Tarkington "Edna" comedies. Voluntary contributions for the benefit of the opera house will be gladly received.

THE NATIONAL HOSPITAL DAY

Endorsed by Hon. William Pugsley Lt. Governor of N.B.

To the Editor of the Union Advocate Having accepted the chairmanship for National Hospital Day 12th I will co-operate with the National Hospital Day Committee Chicago, in the second annual observance of National Hospital Day in the Province of New Brunswick.

The National Hospital Day movement is for the purpose of acquainting the people of the country with hospitals and hospital service and it has been highly endorsed by Hon. William Pugsley, Lieutenant Governor of N. B. and many other leaders in public life.

We hope that all the hospitals of New Brunswick will co-operate with the thousands of other institutions throughout North America in a uniform programme on May 12th.

In most cases the hospitals will hold "Open House" and arrange exhibitions to give the people some idea of how really important is the service rendered by the hospitals. It is expected that 4,000 hospitals will arrange a program for National Hospital Day and that one million people will visit their local hospitals then.

Hospitals are necessities in the community and as all other necessities must be well known to the public and the public must support them morally and financially.

Following is the answer of the Lt. Governor to my letter asking for his kind endorsement:

"I have much pleasure in extending to the National Hospital Day movement my most hearty endorsement, which the establishment of hospitals confers upon the public and the desirability of giving to them all possible encouragement and support.

I am yours very sincerely (Signed) WILLIAM PUGSLEY Lieutenant Governor

On May 12th the hospitals through out the Province will have special programs of interest to the people and the nursing staffs are going to be "At Home" for the visitors. Please remember the date, and go and pay a social visit to those who spend their lives with the sick.

Those interested in the movement can have from me any information they wish

L. G. PINAULT M. D. Campbellton, April 18th 1922 Provincial Chairman National Hospital Day

Detective On An Investigation

Sergeant Detective Powers has gone to Halifax in connection with the John Paris trial. Certain records of the Imperial Oil Co's branch in Truro, which have a bearing on the case, were not produced at the last trial of the accused, because the company had transferred their office from Truro to Halifax.

The Sergeant will probably investigate the company's records at Halifax to see if the date of the sale of the one hundred and fifty gallons of gasoline to the Nichols Garage was of the same date as that on which Paris claimed to have sold the garage five gallons of gasoline.

Nichols' sales slip was submitted in evidence at the first trial to substantiate this claim for the defense but the company's books were not produced by either the prosecution or defense to corroborate or rebut this part of the evidence.

The third trial of John Paris has been set for Tuesday April 25th. Judge Barry will preside.

TEACHERS AND TRUSTEES

To the Editor of The Advocate

Sir,—Your readers will doubtless remember that at the trustees' convention which met a few months ago, a statement was made that some teachers had deceived their trustees by representing to them that the minimum salary required by the Act was exclusive of the government grant to teachers, whereas it is inclusive of the same. It was further suggested that the Teacher's Association should take some action in this regard.

Believing that this matter, involving as it does the bona fides of the teachers, should be investigated, the secretary of the association on consultation with the president, sent out to the members of the executive a circular as to whether any well authenticated cases of this kind had occurred in their districts, and to report the same.

At the recent meeting of the executive all the members reported that no instances of this kind charged had been discovered. As the members of the executive come from all the counties of the Province, it would appear that the number of cases where such deception has been practiced has not been great.

In order that it might not be an ex parte investigation, it was suggested that the president write a committee, calling to the leading associations of the Province, and request them to have knowledge of any case of the kind mentioned above, and report the same to the association.

Monte Carlo's Games Shower Fortunes On Lucky Convent Girl

Out of the sanctity of a Scottish convent, Mary Grant, through whose veins flowed the blood of her gambler-father is thrown into the glamor of Monte Carlo's famous society. This is the central thought of Katherine MacDonald's latest production, "Passions Playground," adapted from the world-famous story, "The Guests of Hercules," by C. N. and A. M. Williamson. This picture will be shown on the screen of the Empress Theatre, Thursday.

Role of a Lifetime
Never in Miss MacDonald's career has she been afforded a role with the romantic and dramatic possibilities that come to her as the convent girl warned beforehand to beware of the alluring resort and reminded of the memory of a chum who had three years before fled from the convent to become lost in the maze of gambler passions.

It is in the strange meeting with the mysterious runaway girl that the Messrs. Williamson have provided a climax for their great plot. Pledged to secrecy, Mary Grant takes upon herself the disgrace that accompanied the strange fate of the "missing" girl.

According to Mrs. Richards manager of the Empress, "Passions Playground" will be received with the greatest favor of any production to be shown at this theatre in months. She declares that in none of Miss MacDonald's successes has she equalled her remarkable work in this production, and in no previous effort has her beauty stood forth in such manner.

OBITUARY

COUN. D. WATLING

The death of Coun. D. Watling occurred at his home, Black River, Saturday morning, after a short illness of cancer of the stomach. He had been able to sit up almost to the last. The late Mr. Watling was one of the best known farmers in this section, always taking a deep interest in public matters and particularly in those pertaining to his locality. He served several terms at the Council Board. He is survived by his widow, three sons—Alex. D. at home, Jubal C. in the West, and James T. D. at Black River Bridge; and four daughters—Mrs. F. A. Fowle and Mrs. John E. McLean of Little Branch; Mrs. F. W. McDougall of Calgary, Alta; and Mrs. Peter McDougall, Wrentham, Alta. The deceased was 59 years of age. The funeral took place on Monday at 3 o'clock to St. Stephen's cemetery.

Weather permitting, Tuesday, April 25th, Clean Up Day at the school. An attempt will be made to make over the front lawn as well as the usual clean-up of the grounds and the building itself.

The debate which was to have been held last Friday by the pupils of the advanced High-school was postponed until the coming Friday. The resolution to be debated is, "Resolved that the French Revolution did more harm than good." All visitors are to be welcome.

The ash-walk on the front lawn is being extended and remodelled with the aid of several of Grade 9 pupils.

The following facts have been revealed by recent examinations:—The Statute of Laborers said that no man, could leave his Lord without the consent of the sheriff. A permanent set of teeth consists of 8 canines, 2 molars, and 8 cuspidors. Typhoid fever is prevented by vaccination. 40 gallons make one hedgehog. A blizzard is the inside of a hen. Now History Repeats Itself

Modern scientific research has revealed that many present-day healing methods were actually in existence thousands of years ago. For instance, zam-buk the world-famed skin healer of to-day, had its counterpart in the secret healing balms of Imperial Rome. These were used by the fighting gladiators for dressing wounds and sores.

Like the precious balms of long ago, zam-buk is composed exclusively of rare herbal juices and extracts, but scientifically blended and concentrated into convenient form for modern use. Applied to any cut, wound or sore, zam-buk swiftly takes out pain, irritation and inflammation. Powerfully antiseptic and germicidal, it cleanses the inner tissues of poison and disease germs. Its stimulative and healing agents grow new skin as by magic.

Lastly, and most important, zam-buk is absolutely free from the animal fats and mineral drugs found in most ointments to-day! 100% pure herbal medicine, zam-buk is always safe and wholesome to use even though kept for months.

For cuts, burns, scalds, sprains, sores and wounds; or the big troubles like eczema, salt rheum, ulcers, ringworm, poisoned sores or piles, nothing can take the place of zam-buk at a fifty cent. box of this pure balm to-day.

GERMANS PROTEST ALLIED ACTION

Genoa, April 18—With Germany debarred from further deliberations with respect to the agreement which the powers hope to conclude with Russia, the Genoa Conference is tonight in a state of crisis. The Allied Powers sitting with the states of the Little Entente, have imposed a severe penalty on Germany because of what is termed her violation of the conditions to which she pledged herself in entering the conference.

This violation took the form of "secretly concluding" a treaty with Russia on the very matters which all the powers have agreed to discuss in common at Genoa.

Despite the Allies' vigorous action indications are tonight that the Germans would not bolt the conference, although they had not disclosed what attitude they would adopt. Apparently they will decide without consulting Berlin.

Dr. Rathenau, the German Foreign Secretary, has protested the Allies' action, declaring that the Germans did nothing secret or dishonorable. He asserted that the Allies themselves were preparing a treaty with Russia in secret, after which Germany would be informed of it and would be expected to sign.

Allied Note to Germans
Following is the text of the Allied note to the German delegation:

The undersigned powers learned with astonishment that, in the first stage of the Genoa Conference, Germany, without reference to the other powers assembled, has secretly concluded a treaty with the Soviet Government.

"The questions covered by the treaty are the subject of negotiations

between the representatives of Russia and those of all the other powers invited to the conference, including session that the German delegation would co-operate with the other powers for a resolution of these questions in a spirit of genuine loyalty and fellowship.

"This treaty is not subject to any examination or sanction by the conference. He understood that it is final and that it is not proposed to be submitted to the judgment of the conference. It is, in fact, a violation of some of the principles on which this conference is based. In these circumstances the undersigned do not consider it fair or equitable that Germany, having effected her own arrangement with Russia should enter into a discussion of the conditions of an arrangement between this country and Russia; they, assume that the German delegates have by their action renounced further participation in the discussion of the conditions of agreement between Russia and the various countries represented at the conference.

"The undersigned powers, therefore, express to the German delegation in the frankest terms, their opinion that the conclusion of such an agreement, while the conference was in session, is a violation of the conditions to which Germany pledged itself on entering the Conference. "By inviting Germany to Genoa, and offering her representation on every Commission on equal terms with themselves, the inviting Powers proved their readiness to waive memories of the war, and granted Germany an opportunity for honest co-operation with former enemies in the tasks of the Conference. To that offer of good will and fellowship Germany replied with an act which destroys the spirit of mutual confidence indispensable to international co-operation, the establishment of which is the chief aim of the Conference.

"At all conferences unofficial conversations between parties are permissible, often desirable. They are helpful so long as they are designed to facilitate the common task, and so long as the results are brought to the Conference table for common discussion and decision. But that is not what the German delegates have done."

HUNG BY TEETH FOR THE MOVIES

Fall River April 19—The perilous feat of a man travelling through the air on a wire from which he dangled by his teeth, was staged in Swansea this afternoon. Nothing like it had been seen before in the quiet village across the river from this city. Gus Oliver, a daredevil with an iron jaw, was the performer.

Moving picture photographers, a Boston Globe representative and 10 residents of Swansea were witnesses. It was a spectacle staged only for moving picture purposes.

Before going farther it might be said Oliver has been imperilling his life eight years, mostly in the middle west. He belongs in Boston.

He made one journey by wire, holding on with his teeth, over Lake Winipisaukee and expects to do a similar feat this year above Niagara Falls. Credit is given him as the only man in the world who can glide in this fashion for more than 300 feet. He has been known to hang by his teeth for 28 minutes. His age is more than 40. Years ago he was an acrobat.

Hillsboro Has \$40,000 Fire

Hillsboro experienced early last Thursday morning the worst fire in its existence, when seven buildings were wiped out with a property loss of \$40,000.00.

The burned buildings include: G. E. Steeves' store and warehouse J. C. Steeves' store and warehouse Reuben Bros.' store and warehouse Mrs. Keith's residence.

The fire started in the rear of G. E. Steeves' store and when discovered, about 12.45, had gained considerable headway and fanned by a heavy westerly gale of wind, had spread to several other buildings before the fire fighters could get it under control. The origin of the fire is unknown.

At one time, the whole town of Hillsboro was threatened but the conflagration was stopped after about two hours, at Lauder's Carriage Factory which was only slightly damaged.

The reflection of the fire could be distinctly seen from the city.

Quebec Bids For C. N. R. Division

Box Cars Burned By Forest Fire

Sussex, April 17—A forest fire which started late this afternoon in the vicinity of the Five Points and spread rapidly to Portage Junction, east of Penobscot, where it destroyed several box cars and is now burning in a large lumber pile which is stored along the railway track. No train, the Maritime Express, from St. John for Moncton, which passed the junction about nine o'clock this evening, stopped and saved about a dozen box cars.

Makes Plea For United States To Join League

Lady Astor Praises League of Nations and Begs U.S. to Do Its Part.

New York, April 20—Lady Astor, in praising the League of Nations before a gathering of nearly a thousand men and women tonight, received long applause when she appealed for the United States to either enter the League or some association of nations banded together for peace.

She led up to this appeal, which brought the crest of the almost continuous wave of applause given her by the gathering under the auspices of the English-speaking union, by saying she did not believe war ever could be ended with war.

All Europe wants is to get back to what you call normalcy, whatever that means," she said. "I wish America had entered the Genoa Conference, for its purpose is to straighten things out. You cannot live near Europe without wanting to help her out of her sad devastation. It's all very well to say it's Europe's own fault, but it is our fault if we don't help her."

KNEES SWELLED TO THREE TIMES NORMAL SIZE

Halifax Woman Was Laid Up In Bed for Weeks at a Time Before She Got Tanlac—Now Does All Her Own Work.

"I don't believe anybody ever suffered from rheumatism any more than I did and it's just wonderful the relief Tanlac is bringing me," said Mrs. Margaret Gummells, 118 Agricola St., Halifax:

"Nobody knows how I suffered during the past fourteen years. My knees used to swell up at times until actually they were three times their normal size. The sinews and tendons of my legs felt like they were tied in knots and my arms and shoulders were so sore that often I could not hold a broom, much less to do my work. When the spells were especially severe I would be laid up for five or six weeks at a time.

"The swelling has all gone out of my legs now and the rheumatism is leaving me day by day. In fact, I'm so much better that I can get all about the house and do my work, something I haven't been able to do for years. I feel better in every way and owe a debt to Tanlac I can never repay."

Tanlac is sold by all leading druggists everywhere.

SILVER STRIKE IN THE YUKON

Dawson, R. T., April 19—An important new silver strike has been made at Keno Hill, arrivals from that promising field report. The new find is on Erickson Gulch, on the Croesus claim, and the vein averages three to six feet in width, with the ore yields assaying five hundred ounces to the ton on an average. As much as six thousand ounces have been taken from a ton of ore, the highest of any found on the hill.

The claim is near the foot of the hill, while the original claims are on top.

The Yukon Gold Company has shipped 3,300 tons of ore to Mayo Landing so far this winter and driven several hundred feet of new tunnel.

Nervous Breakdown

The extreme depression and discouragement which comes over one at times is the most alarming symptom of nervous exhaustion.

This letter is a message of hope to all who find themselves in this unfortunate condition.

Mrs. Geo. T. Tingley, Albert, N.B., writes—

"For years I was in a very nervous, run-down condition, was much depressed in spirits and suffered a great deal at times. The least noise would irritate me and at times I felt as though I certainly would go crazy. I consulted different doctors to no effect.

"A friend advised the use of Dr. Chase's Nerve Food and I can truly testify today to the great benefits received. There was a marked change before I had finished the second box and when I had used a dozen boxes my nerves were thoroughly restored and I was entirely relieved of those terrible feelings I used to have. I shall ever be ready to testify to the benefits of this wonderful medicine, feeling sure that it will give to others the quick and permanent relief it has given me."

PEOPLE INSIST UPON HIDING BEHIND EDITORS

The average citizen, some time in life, asks a favor of the newspaper editor in a small town. It is either to have something left out of the paper, or something inserted in the paper.

"We always respect such requests although such things are public property. Things happen, in all communities the size of Newcastle that would make sensational reading matter if published, and the editor could make a new crop of enemies every week if he would aim to chronicle some things, that, while the subject of general conversation, never appear in print. When criticized for not printing certain things, we have this answer: Write it yourself, stating the facts, and sign your name for publication, so that we can share the blame with you for having it appear in print.

Or, as is sometimes the case, we have offered to print certain things if the party wanting them printed would sign up an indemnifying bond to fully reimburse us if a damage suit is instituted. Besides, a number of people in every community have things said about them that would not look well in print, and such things are generally believed to be true as a rule are least forgiving when a fellow gets caught and is given a fine in court.

But no, they always want us to take all the consequences.

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. BASKET BALL

A fast game of Basket Ball between a picked team of the Newcastle league and one of Chatham's fast teams will be played in the Temperance Hall, Wednesday evening. The locals are in A1 shape for the game and are confident of success. This will probably be the last game of the season and much interest is being taken. Be present and see the game.

ARBOR DAY

Let every owner of property, every lessee, resolve to have an active share in the celebration of the day. The cost is small. Especially where trees are needed, they should be planted—either in front yards or along the street curb. There is room for thousands of saplings in Newcastle. Why not fill some of the vacant spaces without further delay. Every year will pay dividends in health comfort and beauty.

ST GEORGE'S DAY

Sunday was St. George's Day, the day set apart in commemoration of England's patron saint. Besides being the day of which Englishmen are proud it is also Shakespeare's day, the name of our king and the anniversary of the day in 1915 when the "old contemptibles" of the Canadian army, face to face with the flower of the Prussian army brought undying fame to the land of the maple and consecrated the ground surrounding the historic city of Ypres with their blood.

The order was granted.

FIRE ALARM

At 2.30 o'clock Saturday morning an alarm of fire was sent in for a fire in the Adams School Building on King's Highway, which is occupied as a Wet Wash Laundry by Mr. Thos. Hay. The fire originated about the boiler and must have been smouldering a long time before breaking out. It was noticed by people returning to their homes from the G. W. V. A. dance and the alarm sent in. The firemen responded quickly and after breaking in the door extinguished the blaze in a very few minutes. The damage done was slight.

SALVATION ARMY NOTES

As previously intimated in our past issues the Self Denial Effort is claiming the attention of the Officers and Comrades of the Local Corps. Mrs. Capt. Goodwin is now convalescent after her illness and is unable to take an active part in the great effort. The Capt. and Lieut. MacMillan were in Doaktown and Boletown last week and met with good results. The Captain addressed a large congregation in the Presbyterian Church Doaktown, on Monday. The pastor, Rev. Scott Morton ably assisted and Mr. Cummings acted as chairman. The Captain spoke on the social and Rescue Work of the Salvation Army and received a hearty welcome. He also spoke at Upper Blackville on Tuesday the Rev. Mr. Griffiths assisting and at the Underhill Baptist Church on Thursday. On Sunday afternoon the Captain spoke at the Napan Central Hall, and at Chatham on Sunday evening. The Town of Newcastle has not yet been canvassed for this Annual Appeal for this noble cause and we bespeak for Captain Goodwin a Liberal Response, especially when we think of the good work the Captain and his wife have done locally during the past winter.

CORRESPONDENCE

April 19, 1922
The Union Advocate,
Newcastle, New Brunswick.
Gentlemen:
Some time ago I asked your assistance in tracing the heirs of Thomas McDonald, born in New Brunswick, about 1831. You readily granted assistance, but it was not until quite recently that I obtained any information which appeared to be definite. I am now reliably informed that Thomas McDonald was the son of Samuel and Emma McDonald, and that he was born somewhere in the Miramichi Valley, about 1830. There were four other children, and it is believed some of them died of diphtheria while they were yet young. Prior to 1860 the family moved to Machias or Calais, Maine.
We are very anxious to find some one who remembers the family, and if you will publish this letter it may come to the notice of someone who can give us further assistance.
Yours truly,
JOHN J. DWYER,
Attorney at Law
49 Pearl Street, Hartford, Conn.
