

# Huron Signal

DEVOTED TO COUNTY NEWS AND GENERAL INTELLIGENCE

GODERICH, ONT., FRIDAY, OCT. 11, 1889.

D. McGILLICUDDY, PUBLISHER.  
\$1.50 A YEAR IN ADVANCE

### TO ADVERTISERS.

Notice of changes must be left at this office not later than Monday noon. The copy for changes must be left not later than Wednesday noon. Casual Advertisements accepted up to noon Thursday of each week.

### Local Notices.

All advance notices in the local columns of this Signal of meetings or entertainments at which an admission fee is charged, or from which a pecuniary benefit is derived, must be paid for at the rate of one cent per word each insertion, no charge less than twenty-five cents. Where advertisements of entertainments are inserted a brief local will be given free.

### BORN.

RYAN—In Goderich, on October 2nd, the wife of W. A. Ryan, of a son.

### MARRIED.

THEYRON—HAMPTON—On the 10th inst., at the home of Mrs. Follock, Goderich, by the Rev. Geo. Richardson, Mr. S. A. Theobald, of St. Thomas, Dakota, to Miss Elizabeth A. Hamilton, of Goderich, Ont.

### DIED.

MORTON—In Goderich, on the 7th inst., Alex. Morton, aged 40 years.

### NEW ADVERTISEMENTS.

For Sale—Wm. McCread, Scotch Specialist—By Sincere, Teacher Wanted—Robt. Quaid, The Cosmopolitan—Signal Office, Fall and Winter Goods—P. O'Dea, Teacher Wanted—Charles Hawkins, Fall and Winter Goods—H. Dunlop, For Sale—Cameron, Holt & Cameron, Another Stop to the Front—L. W. Cassidy, The Mammoth Harness Dept.—Wm. Ache-son.

### TOWN TOPICS.

"A child's amany yu, takin' notes, 'an' faith he'll prent it."

If you want to get good photos go to the studio of Geo. Stewart, and see his latest improvements.

A GOOD PRESENT.—The most useful gift you can make is to give a Wirt Pen. Apply to D. McGillicuddy, agent, Goderich.

The Wm. Christian Temperance Union meets in the Temperance Hall every Tuesday evening, commencing at 7:30, business meetings at 8.

"Jonah, come in out of the wet," is a good intimation from P. & A. Fridman on a dainty day when water-proofs are wanted, and if you want to not know what cold weather is, drop in and get fitted with their underclothing.

Now that the town has a brand new post-office and town hall, things must move briskly, and Salvo believes things will move in the picture line. If elegant work and good and cheap mouldings are going to do it, bring along your pictures to get framed, and if you haven't the pictures Salvo will furnish both pictures and frames.

The cold snap made everyone huddle at Saunders & Son's, and they took those of their customers whom they could not overtake to bear with them. The E. & C. Gurney Coy's stores have been selling fast, and they had to re-order. Every stove guaranteed, and prices very low. The cheapest house under the sun.

### BRIEFLETS.

The first snowfall of the season was on Saturday evening last.

Mr. Hugh Danlop returned on Friday last from a pleasant visit to Chicago.

Miss Miller, of Galt, has been the guest of Mr. H. I. Strang for the past few weeks.

Mr. McDonagh will be in Goderich for consultation on the first Saturday of every month.

John G. Bissett, of Chicago, is at present visiting his sick father, Wm. Bissett, of Wolfe street.

Miss E. Wyatt has gone to Montreal to take a position as bookkeeper in a dry goods house there.

Mr. Wm. Proudfoot has purchased the residence of Dr. McMicking, corner of Waterloo and Elgin streets.

Mr. Wm. Mitchell was sworn in as town clerk on Monday last. He possesses the ability to make an efficient public official.

Dr. M. Nicholson, the West-end dentist, makes the preservation of the natural teeth a specialty. Gas administered from 9 a. m. for the painless extraction of teeth.

His Lordship Bishop Baldwin preached the Harvest Home sermon in St. George's church on Thursday evening of last week. A liberal collection was contributed by the congregation.

Rev. L. Hutton delivered a lecture on "Love, Courtship and Marriage," in the Victoria-st. Methodist church on Monday evening. Dr. J. B. Whitley, who occupied the chair, performed the duties of the position admirably.

Persons wishing to improve their memories or strengthen their power of attention should send to Prof. Loistete, 237 Fifth Ave., N. Y., for his prospectus post free, as advertised in another column. 10-14

Dr. Sinclair, of Toronto, the well known specialist for diseases of brain and nerve, chronic diseases, diseases of heart and lungs, female diseases, &c., will be at the Albion Hotel, Goderich, on Thursday, Oct. 24th. Consultation free. See advt.

Dr. McMicking left town for Toronto on Saturday last, and will hereafter abide at the Provincial capital. His many friends in Goderich regret his departure, and will miss his genial presence. The best wishes of THE SIGNAL accompany the Doctor in his new sphere of usefulness.

Knox Church Mission Band will meet tomorrow (Saturday) afternoon at 3 o'clock. All members are requested to be present to practice for the coming entertainment, which will be held on the 25th inst.

AN IMPORTANT IMPROVEMENT.—The new Soft Stop and Practice Pedal attachment to a Newcomb Upright Piano serves the nerves of the listener or performer, when practicing, as well as the instrument from wear, and preserves the tone.

A social under the auspices of St. Stephen's church will be held at the residence of Mrs. B. Whitley, 5th con., Goderich to-morrow, on Tuesday, Oct. 15th. A good literary program. Rev. W. A. Young, rector of St. George's, will preside. Doors open at 7 p. m. Tea at 8. Admission 50c.

At a meeting of the directors of the Mechanics Institute, held on Saturday evening, Mr. W. R. Robertson was re-elected as teacher of the evening classes, which will be organized at a meeting to be held on Tuesday evening next in the rooms. All intending pupils are requested to be present.

SOMEWHAT OF A TRAVELLER.—Mr. Jaa Graham arrived home from a trip around the world. During his absence he visited South Africa, Tasmania, Australia, and the Sandwich Islands. He thinks of taking a run to South America shortly. Up to the present he is beyond question the most travelled man in the section.

OPEN MEETING.—Eureka Council, No. 103, R. T. of T., will hold an open meeting in the Temperance Hall on Tuesday evening, Oct. 22nd, on which occasion an interesting address will be given by Rev. B. L. Hutton, of Victoria-st. Methodist church. A choice program of music will also be presented on the occasion.

OF INTEREST TO THIRD CLASS CANDIDATES.—The Head Master of the High School has just received a card from the Education Department stating that "candidates who obtained an aggregate of 600 marks at the recent third class examinations, and are recommended by the Head Master as fit, may proceed with the work prescribed for a second class certificate."

A COMING MAN.—Mr. M. G. Cameron, of Toronto, was in town for a few days during the past week on legal business. We are pleased to see that on Monday evening last during his absence from Toronto he was elected vice president of the Young Liberal Club of that city. Mr. Cameron is a rising young man, and holds a front place in the political affection of the people of West Huron.

REV. J. JAMIESON, OF FORMOSA, BETTER.—Wm. Reid, of Toronto, writes to the Canada Presbyterian: "Within the last few days I have received letters from Rev. Dr. McKay and Rev. J. Jamieson, of Formosa, of date 22d of August. Mr. Jamieson had been unwell, but is now much better. The work was going on vigorously, and the students and preachers were receiving instructions and training in Oxford college."

Some weeks ago we sent out a number of accounts to subscribers in arrears. Several persons owing us were kind enough to respond at once, and we return our thanks to them. A number have not yet been heard from, and this week we send out duplicate accounts to many who have failed to respond. We will continue to send out accounts to all in arrears until our books are straight. Even if you don't get an account this week, look at your label, and if you are in arrears be good enough to pay at once. The item is only a small one to you, but the aggregate to us foots up several thousand dollars. Pay up!

Mr. John Alexander, well known as "The Lion," in East Huron and Perth, was in town Tuesday last, and dropped in to see THE SIGNAL. Some years ago he began using St. Leon mineral water for curative purposes, and so much benefit did he get from it that he at once took the road to sound his praises over the length and breadth of the land. THE SIGNAL was glad to see its old friend, whose vigorous physical appearance looks as if he leaped up from Brown Squard's elixir of life morning, noon and night. May his shadow never grow less.

WEST HURON FARMERS' INSTITUTE.—A directors' meeting was held at the Albion Hotel, on Wednesday afternoon. President J. Kermichael in the chair. Moved and seconded that this institute hold a meeting in Goderich, on the 6th of November, at the hour of 10 a. m., to continue through the day. A musical program will be arranged for the evening. Free to all. All invited.—Carried. Moved by Mr. J. Linklater and carried unanimously that this institute hold meetings in each township of the Riding through the year. On motion by Mr. J. Aikenhead, seconded by J. Washington, the institute adopted the idea of the "question drawer" at its meetings. A motion was carried that a professor from the Agricultural College be invited to speak at the ensuing meeting.—Professor Shaw to be invited. Moved and seconded that the Secretary get all laws respecting milling and testing.—Carried. Moved, seconded and carried that the Secretary notify all the millers in the Riding to be present at this meeting. Moved by Mr. Aikenhead and seconded that the milling question be taken up at 1:30 o'clock at the meeting. On motion the meeting adjourned.

John Sharman, formerly of THE SIGNAL staff, left on Thursday morning for Peterboro', where he has accepted a permanent position, which will be held on the 25th inst.

THEY APPRECIATED IT.—P. F. Austin, formerly of Kingsbridge P. O., and now of Everett, Cass Co., Dak., writes to a friend: "Get the address on our SIGNAL. The new proprietor is a thorough newspaper man, and although the SIGNAL has always been in the front rank of Provincial journalism, we feel confident an onward tendency is in store for it. We welcome Bro. Aleck once more to the field of Provincial journalism."

HE'S AT IT AGAIN.—The Chicago Live Stock Journal of Friday, Sept. 27th, has the following: "The old reliable 'Davy' Fisher, whose name has for twenty-five years been synonymous with the word 'patent' in the horse world, is well and favorably known from the Atlantic to the Pacific, and from the lakes to the Gulf, with his affable partner, Mr. Gillson, are on the ground with fourteen head of magnificent Dominion Draught and Canada Coach horses. In the exhibit are a number of other fine horses which cannot be appreciated unless seen. Mr. Fisher is the proprietor of the splendid stock farm in Colborne, near Goderich, Ont., and knows the country over as 'Lake View,' where he and Mr. Gillson have what is considered one of the finest studs of draft horses on the Western Hemisphere, which are always for sale and vary in price from \$1300 down to \$100. His horses have that type of their own peculiar to Ontario, abounding in firm characteristics, undying, in their habits, and that have always held their ancestral heredity in spite of all opposition, and it is these facts that makes them in such demand throughout the States. He has sold a great many to citizens of Indiana and the demand is still increasing."

PROGRESS OF INVENTIONS SINCE 1845.—In the year 1845 the present owners of the Scientific American newspaper commenced its publication, and soon after established a bureau for the procuring of patents for inventions at home and in foreign countries. During the year 1845 there were only 503 patents issued from the United States Patent Office, and the total issue for the establishment of the Patent Office, up to the end of that year, numbered only 4,347. Up to the first of July this year there have been granted 406,413. Showing that since the commencement of the publication of the Scientific American there have been issued from the U. S. Patent Office 402,166 patents, and about one third of the applications have been made that have been granted, showing the ingenuity of our people to be phenomenal, and much greater than ever the enormous number of patents issued indicates. Probably a good many of our readers have had business transacted through the offices of the Scientific American, in New York or Washington, and are familiar with Munn & Co.'s mode of doing business, but those who have not will be interested in knowing something about this, the oldest patent soliciting firm in this country, probably in the world. Persons visiting the offices of the Scientific American, 361 Broadway, N. Y., for the first time will be surprised, on entering the main office, to find such an extensive and elegantly equipped establishment, with its walnut counters, desks, and chairs to correspond, and its enormous staff, and such a large number of draughtsmen, specification writers, and clerks, all busy as bees, reminding one of a large banking or insurance office, with its hundreds of employees. In conversation with one of the firm, who had commenced the business of soliciting patents in connection with the publication of the Scientific American, more than forty years ago, I learned that the firm had made application for patents for upward of one hundred thousand inventions in the United States, and several thousands in different foreign countries, and had filed as many cases in the Patent Office in a single month as there were patents issued during the entire first year of their business career. This gentleman had seen the Patent Office grow from a small, shabby, and unimpressive building to the present imposing structure, and modestly hinted that many thought the Scientific American, with its large circulation, had performed no mean share in stimulating inventions and advancing the interests of the Patent Office. But it is not alone the patent soliciting that occupies the attention of the one hundred persons employed by Munn & Co., but a large number are engaged on the four publications issued weekly and monthly from their office, 361 Broadway, N. Y., viz: The Scientific American, the Scientific American Supplement, the Export Edition of the Scientific American, and the Architects and Builders Edition of the Scientific American. The first two publications are issued every week, and the latter two, the first of every month.

Mr. Wm. Mitchell was sworn in as town clerk on Monday last.

The revival services in North-st. Methodist church are still going on, and the interest continues unabated.

Mr. Alex. Saunders left on Thursday last for Kinardine, to put in a hot water service in the house of Mr. John Gentles.

Mr. Albert Humber left last week to continue his studies at Ann Arbor College, Mich. He is in his last year.

Saunders & Son have been awarded the Government contract for the plumbing in connection with the new post-office. They tendered successfully against a number of London firms.

Capt. Slote, from Lucan, and Lieut. Woodall, from Parkhill, are now in command of the Salvation Army at this point. Capt. Drewe and Lieut. Tracy having been transferred to Scaforth.

PLATE GLASS.—Messrs P. O'Dea and C. A. Nairn put in plate glass fronts to the Signal news-stands on Thursday. The large plate for the window recently broken in McLean's block arrived at the same time as the fronts for Messrs Nairn and O'Dea, but when the case was opened the glass was discovered to have been broken in the transit. Mr. McLean has been in hard luck, with his glass fronts thus far.

YOUNG MEN'S LIBERAL CLUB.—The Young Men's Liberal Club held a very successful meeting on Monday evening last for the purpose of reorganization for the winter months. President Proudfoot occupied the chair. On motion by A. Saunders, seconded by Geo. Nairn, it was unanimously decided to reorganize. The election of officers resulted as follows: President, Wm. Proudfoot; Ist vice, D. McGillicuddy; 2d vice, J. D. Malcomson; recording secretary, G. F. Blair; corresponding secretary, Alex. Murdoch; treasurer, R. P. Wilkinson. On motion it was decided to hold an open meeting on Tuesday, the 15th inst., at which meeting besides some other program there should be a debate on the question, "Resolved, that a federal union of Great Britain and her colonies is desirable." Leaders of opinion were J. D. Swanson; and of the negative, G. F. Blair. This meeting will be held at 8 o'clock in the evening at the Club Rooms. All are invited no matter what their political views may be. Reserved seats for ladies, of whom we hope to see a large number present.

SCHOOL BOARD.—The regular monthly meeting of the School Board was held on Monday evening. Present—Messrs S. Malcomson, chairman, Wm. Acheson, H. W. Ball, C. Crabb, A. S. Chrysal, M. Nicholson and Geo. Swanson. The chairman, on calling the meeting to order, addressed the board regarding the death of trustee Morton. Mr. Malcomson spoke with great feeling and said that the death of our lamented friend and co-trustee, A. Morton, had caused a feeling of sorrow not only among the members of the Board, but throughout the whole community. That as a citizen, friend and neighbor he was ever kind, and that his course had earned the respect of all, for he was "an honest man." In conclusion the chairman recommended that a committee be appointed to draft resolutions of condolence to the deceased's family, and that the Board should adjourn. Mr. Crabb also bore testimony to the worth of the deceased. Moved by Mr. Crabb, seconded by Mr. Ball, that the chairman and Messrs Crabb and Swanson be a committee to draft resolutions of condolence, and present the same next Board meeting; and that the Board adjourn for one week in memory of our late friend and member—carried. Moved by Mr. Ball, seconded by Mr. Swanson, that the chairman attend the funeral of our late member—carried. Moved by Mr. Ball, seconded by Mr. Swanson, that the Central and West schools close on Wednesday afternoon—carried. The Board then adjourned.

AN ARTIST'S STUDIO.—Thursday last, while noticing the improvements around the Square, where plate glass fronts are being placed in position, we noticed at the corner of Hamilton-st. and the Square that considerable embellishment had been made to the entrance of Stewart's photograph studio, and that the painter and decorator, Mr. Wm. McCread, had been at work. Ascending the handsomely painted staircase, we found that the whole of the entrance had been remodelled and decorated to correspond with the approaches, and that even the ante-room had not been overlooked. The photograph parlors, superintended by Mr. Stewart, are beyond question a credit to the town, and we are aware of no city establishments that surpass it for ornate design, fancy finish and general appearance. The walls have been handsomely papered and the wood work has been painted and varnished to correspond, giving a rich hue to the entire surroundings. In conversation with Mr. Stewart we learned that he has confidence that a boom is ahead of the town, and he has made his new department at that when the rush of business comes, as come it will, he will be prepared to meet it half-way at any rate. With a handsome set of parlors, the latest and best appliances in his art, and a thorough knowledge of the requirements of the business, he is satisfied that he will be able to control a large trade from an appreciative public. THE SIGNAL is proud of the enterprising spirit shown by our business men generally, and is satisfied if some of the best take a leap out of Mr. Stewart's block, Goderich is bound to move onward toward prosperity hitherto unknown.

### DEATH OF ALEX. MORTON.

On Monday last Alex. Morton, one of the most highly esteemed and universally respected residents of Goderich, passed away after a short illness. On Thursday, Sept. 26th, he in conjunction with Mayor Butler was engaged during the forenoon in locating the new electric light circuit on the hill leading to Scaforth, and the day being bitterly cold, he contracted a heavy cold, and was stricken down so severely with illness that he had to take to his bed. For a week no serious apprehensions were felt, but on Friday, the 4th inst., the malady reached a critical stage, on Saturday his medical advisers gave up hope, and on Monday, as before stated, he departed this life. In the death of Mr. Morton the town loses a valued resident, the business community has lost an enterprising and energetic fellow-worker, his wife and family mourn the loss of an affectionate husband and father, and the Presbyterian church regrets the departure of a faithful and constant worker from its ranks.

Alex. Morton was born at Grand Bay, in the Saguenay district, Province of Quebec, some forty years ago. He continued to reside in that section until he had almost reached maturity, when his father moved to Trenton, New Jersey, where they resided for a short time. Subsequently they removed to Ayr, Ont., where his father established a successful business, and where Alexander learned his trade as a carriage trimmer. After completing his apprenticeship he went to Hamilton, where he worked at his trade for a short time, and about the year 1872 came to Goderich, where he secured a position in the carriage works of the late Robt. Whitley. After a residence of a couple of years here, he went back to Ayr, and on his return brought with him his bride, to aid him in life's struggle on the shores of Lake Huron. His marriage relations were of a most happy nature, and to the day of his death he was as devoted a husband as when he brought his bride home with him fifteen years ago. Three children blessed the union, and in the domestic circle happiness and contentment was his portion. Some twelve years ago, when Mr. Whitley relinquished business, Mr. Morton, in company with Mr. O'Connell, purchased the plant and good will, and continued in partnership until about six years ago, when, on the retirement of the latter, Mr. Morton assumed the proprietorship of the Dominion Carriage Factory. In the years that have intervened he succeeded in working up a remunerative trade, and in securing the esteem and good will of not only the purchasing public, but of the employees under his control. Notwithstanding his retiring disposition, his natural abilities and sound judgment were so apparent that his fellow townsmen would not allow him to rest in his domestic retirement, and for some eight years he was elected to the honor of membership on the board of the town, a position which his intelligence and culture eminently fitted him for. Outside of his labors as a school trustee he took a deep interest in the dissemination of knowledge, and as secretary and director for several years of the mechanics institute he devoted much energy and earnest labor to the spread of education amongst the masses. He was also a member of the town council for some years, and last year was elected by acclamation, which showed that his course previously had been approved of by his constituents.

During the present year he was one of the trustees and public school children. The pulpit bearers were: W. R. Robertson, G. W. Thomson and R. Price, members of the A. O. U. W., and H. I. Strang, Alex. Saunders and Geo. Stiven, of Knox church board of managers.

The services at the house were conducted by Rev. J. A. Anderson, of Knox church, in a most impressive manner. Of the coffin were floral designs as follows: Cross and crown, from teachers of public school; wreath from school trustees; wreath from teachers of Knox church Sabbath school; wreath from Maple Leaf Lodge, No. 27, A. O. U. W.; floral pillow from Horace Fullard.

The remains left for Ayr by the 1:55 p. m. train, accompanied by Mrs. Morton, Mr. R. T. Morton, brother of deceased, and other members of the stricken family, and by Reeve Proudfoot on behalf of the Town Council, and Chairman Malcomson for the School Board.

After the departure of the train, the members of the A. O. U. W. reformer and marched to the lodge room, where a committee was appointed to draft a vote of condolence to the bereaved widow.

### VOTERS' LISTS COURTS.—Judge Toms will hold Revision Courts as follows:

Ontario Voters' List—Exeter, October 10; Stephen, at Crediton, Oct. 11; Osborne, at Elmville, Oct. 12; Wingham, Oct. 14; Grey, at Cranbrook, Oct. 15th; Morris, at Town Hall, Oct. 16; Brussels, Oct. 17; E. Wawanosh, at Belgrave, Oct. 18; Howick, at Gorrie, Oct. 22; Wroctester, Oct. 22, 4 p. m.; Turberry, at Bluevale, Oct. 23; Ashfield, at Dunganon, Oct. 28; W. Wawanosh, at Dunganon, Oct. 29th; Scaforth, Oct. 31; Tuckersmith, at Brucefield, Nov. 4; McKillop, Nov. 13. Dominion Voters' Lists, South Huron.—Scaforth, Oct. 31; Tuckersmith, at Brucefield, Nov. 4; Stanley, at Yarna, Nov. 5; Bay, at Hensall, Nov. 6; Bayfield, Nov. 7; Hulet, at Londeboro, Nov. 9; McKillop, at Fulton's Hotel, Nov. 13.

### KINTAIL.

From our own correspondent.

Miss Lizzie Donohue, of Tawas, Mich., is spending a few weeks with her cousin, Mrs. Foley, Kintail, and will return home by way of Toronto and Niagara.

### GARBRAID.

From our own correspondent.

Tuesday afternoon last nine valuable was belonging to Mr. Joseph Morris, of this locality, were worried by dogs, one of which died, and four of the others are not expected to live. It is high time that steps were taken to make away with all sheep killing dogs in the section. There are several brutes of this description known around here, and the sooner they are disposed of the better it will be for the farmers and the township generally.

### BAFFIELD.

On Friday evening last the town hall was packed to the door, the Royal Troupe of this place having arranged with Eureka Council, No. 103, R. T. of T., Goderich, to give us a concert. The occasion proved to be quite an event, as the program furnished was first class in every respect, a very pleasing feature being the selection of the orchestra of North-st. Methodist Sunday School, and also the renditions by Mr. Belcher and Mr. W. Hyslop. In fact the entire program was well sustained by all who took part, and we feel grateful to our Goderich friends for the courtesy shown us. The total receipts amounted to \$25.00.

### PORT ALBERT.

From our own correspondent.

Mr. and Mrs. George, of Chatham, were visiting at the residence of A. C. Hawkins.

Mr. Fred Graham, (G. T. brakeman), is visiting his father this week. His sister Annie was lately married to Mr. Thomas Nelson, in the Queen City.

The young men of the vicinity gave a farewell party in the "Royal," previous to their departure for the woods of Michigan.

On Monday evening next Mr. R. R. Sallows will hold forth in the Presbyterian church. Let there be a good meeting, as the entertainment will be interesting and instructive as well as profitable to the Sabbath School.

### LEEBOURN.

From our own correspondent.

Miss McPhail, of Goderich, visited friends here this week.

Our townsman, J. O. Stewart, was one of the judges in the horse department at Lucknow fair last week.

James Sallows has, we learn, arrived safely at North Bay, in company with his cousins, the Misses McFarlane, who were visiting relatives here this summer.

Miss Clutton, of Edgar, Simcoe Co., returned home this week after a pleasant visit of over a fortnight to her parents here.

M. Dixon, of Brucefield, and his sister Ellen, visited here last week for several days, being present at the wedding of their cousin, Miss Horton.

CORRECTION.—In one of the marriage notices in THE SIGNAL last week, the name should have been Gavin Clutton, instead of John, as the latter has been on the married list for the past seven years.

HELEN'S BONDS.—Wednesday afternoon of last week Ellen, daughter of Mr. John Horton, was married to Gavin H. Clutton, formerly of this burg and now of Stratford, and youngest son of our townsman, Wm. Clutton. The nuptial rite was performed by Rev. J. A. Anderson, at the residence of the bride's father, in the presence of a large number of relatives of the contracting parties, with friends of each. The groomsmen's duties were discharged by A. H. Clutton, and those of bridesmaid by Edith Horton. A pleasant time was enjoyed by all, breaking up with good wishes for the bridal pair, who have gone to the Classic City to reside. The departure of Mrs. G. H. Clutton from here will be deeply felt in our social circle, the Sunday school and the I. O. G. T. here losing one of their best workers.

GENTILITY.

"Oh, goodness gracious!" cried Mrs. Patty Parkman, dropping the open letter from her hand in dismay. "What will be done? and the best rocking chair's limb is broke, and the looking-glass on the toilet bureau is in fragments! Mourn me!"

Of her black silk dress, and, followed by her daughters, went out to welcome Mr. Eastford.

teeth fall out, all together! which we consider was quite a phenomenon.

Canes Fall. Mrs. John E. Thompson, of Shelburne, P.O., writes: My two children received great benefit from Fowler's Extract of Wild Strawberry for Diarrhoea and summer complaint.

COLBORNE.

From a correspondent. Pious to the departure of Mr. Thos. Morrish and family for Manitoba...

To Mr. Thos. Morrish and wife. DEAR FRIENDS: Having learned with much sorrow of your intention to remove from amongst us...

Signed on behalf of the two classes, Zion basement, MES J. H. MILLIAN, MISS LIZZIE FEAGAN.

One of those pleasing features which occasionally occur in this vicinity took place at the residence of Mr. Thomas Cousins on Sept. 18th...

A Peculiar People of Pennsylvania. Some fifteen miles from Lancaster by turnpike and twenty miles by rail lies the little village of Ephrata...

Here one meets the Dunker men in every by-road and lane—men with long beards and flowing hair parted in the middle.

The style of living of these good people, their manners and customs, are of the most primitive type.

They settled at first near Philadelphia, in a spot which has since been called Germantown, from the various German religious refugees who settled there in the early part of the last century.

lina. Their dress is of the simplest description, quaint and old-fashioned in its cut; they offer no resistance to injuries; they observe no conformity with the world...

The feast begins about the time of candle-lighting. The men are seated upon one side of the meeting-house, the women upon the other. The first ceremony is that of washing the feet, each sex performing this duty for its own.

The next ceremony is the supper itself. Each third bench is so arranged that the back can be turned upon a pivot at each end, so as to form the top of a long table.

Another peculiar ordinance among them is that of anointing the sick with oil, in accordance with the text in James, v. 14.

Such is a brief and condensed account of these people, and of their religious customs and ordinances. They are called Dunkers or Tunkers, from the German tunkers, which may be interpreted to dip, or probably "to sip."

Domestic skeletons are usually formed of the bones of contention. An Accomplished Musician.—Mrs. A. Do you play the organ, Mr. Smith?

Wife's Care.—"John, do tie a knot in your handkerchief before you go to bed so as not to forget to get up to-morrow at four o'clock."

Shipwrecked, but Safe.—Jack Tar: We ain't so very far from land, Jim! There's been a yacht along here lately. Jim—How do you know? Jack Tar—See all them champagne corks.

Mamma—And how did my darling like being at church? Maud (who has been at church for the first time and put a penny in the collection plate)—Very much, mamma, and it wasn't dear.

In a French translation of "Macbeth" the well-known apostrophe, "Hail Macbeth was rendered, 'Comment vous portez vous, M. Macbeth?'"

Domestic Bliss.—"You seem very happy, Dora."—"Ah, yes; I have every reason to be. We have a beautiful home, two lovely children, a snug sum in the bank, my husband's life insured for \$20,000, and his health is very far from robust."

He (sentimentally)—How shall I ever leave thee, love?—Well, if you go now you may go out of the door. But I bear father coming and if you don't go now you may go out of the window.

Tricks of Newspapers in Russia.

An unsuspecting foreigner is thus sometimes puzzled to discover how a Russian newspaper with fifteen hundred or only a thousand subscribers can keep special correspondents in the large cities of the world, and pay for whole columns of costly telegrams.

A STRING OF RUSSIAN PROVERBS. "Lying began with the world," says one of their proverbs, "and with the world it will die."

Prison Visitor—Was it burglary brought you here? Prisoner—No, marm, it was burglary; my pal didn't know his business.

Although moulting is a perfectly natural process, it is often attended with very serious results to fowls if they are not well looked after during the time they are going through it.

We find that cooked meat fed once a day is very necessary for birds in confinement, and will hasten the growth of the feathers besides encouraging the appetites of the fowls.

Should birds moult too slowly and appear ill, give two or three grains of calomel. If the shafts of the new feathers do not split open freely, give more meat and put linned meal in the soft feed.

In Brief and to the Point. Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order.

Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a nation of dyspeptics.

Remember—No happiness without health. But Green's August Flower brings health and happiness at the dyspeptic. Ask your druggist for a bottle. Seventy-five cents, evenly.

The Most Successful Remedy ever discovered. It is certain in its effects and does not blister.

Dr. R. J. Kendall, Co., Ennsburgh Falls, Vt. Gentlemen—I have used Kendall's Spavin Cure for Spavin and also in a case of lameness and Sciatic joints and found it a sure cure in every respect.

Dr. R. J. Kendall, Co., Ennsburgh Falls, Vt. Gentlemen—I have used Kendall's Spavin Cure for Spavin and also in a case of lameness and Sciatic joints and found it a sure cure in every respect.

Long-Standing

Blood Diseases are cured by the persevering use of Ayer's Sarsaparilla.

This medicine is an Alternative, and causes a radical change in the system. The process, in some cases, may not be quite so rapid as in others; but, with persistence, the result is certain.

Wonderful Results. Another marked effect of the use of this medicine was the strengthening of my sight. "I had a dry scaly humor for years, and suffered terribly; and, as my brother and sister were similarly afflicted, I presume the malady is hereditary."

Ayer's Sarsaparilla, PREPARED BY Dr. J. C. Ayer & Co., Lowell, Mass.

Don't Speculate. Run no risk in buying medicine, but try the great Kidney and Liver Regulator, made by Dr. Chase, author of Chase's receipts.

Robert Rielly has sold his farm in East Wawanosh to Robert Scott, for \$4500 Mr Rielly intends going to Manitoba.

A COOK BOOK FREE By mail to any lady sending us her post office address. Write Richardson & Co., Montreal.

SPECIAL FOR SALE, PRICES LOW, CASH OR ON TIME.

1 General Purpose Horse, 2 One Horse Wagons, New, 1 Fairbanks Hay or Cattle Scale.

1 50 H. P. Engine and Boiler, 2 Boiler Heaters. Shafting, Pulleys & Belting.

200 Plows, various Patterns, 50 Corn Scaffolds, \$2.50 each. PIPE AND FITTINGS.

The Huron Signal

EVERY FRIDAY MORNING.

AT ITS STEAM PRINTING OFFICE: NORTH-STREET, GODERICH.

It is a wide-awake local newspaper, devoted to county news and the dissemination of useful knowledge.

RATES OF SUBSCRIPTION: \$1.50 a year; 75c. for six months; 40c. for three months. If the subscription is not paid in advance, it will be charged at the rate of \$2.00 a year.

ADVERTISING RATES: Legal and other casual advertisements, 10c. per line for first insertion, and 5c. per line for each subsequent insertion. Measured by newspaper scale.

Local notices in non-paralel type 5c. per line. Local notices in ordinary reading type 1c. per word. Business cards of six lines and under \$5 per year.

Advertisements of Lost, Found, Strayed, Situations Vacant, Situation Wanted and Business Chances Wanted, not exceeding 10 lines non-paralel \$1 per month.

Advertisements of Real Estate for Sale, not exceeding 8 lines, \$1 for first month, 50c per subsequent month. Larger ads in proportion.

Advertisements of any kind, which are not of the nature of a notice, are charged at the rate of 10c. per line for the first insertion, and 5c. per line for each subsequent insertion.

Special rates for larger advertisements, or advertisements for extended periods, made known at the office of publication.

JOBSING DEPARTMENT. A fully equipped Jobbing Office is carried on in connection with the ordinary newspaper business, where first-class work is turned out at reasonable rates.

All communications must be addressed to D. McGILLICUDDY, Editor of THE SIGNAL, Telephone Cal. No. 33, Goderich, Ont.

HURON SIGNAL.

FRIDAY, OCT. 11, 1889.

The Reciprocity Movement.

The agitation among the New England manufacturers for the repeal of the duties on coal and iron ore is gaining strength every day. The Massachusetts weavers of woolen and worsted yarns have chimed in—at least already over one-third of them have done so—with a demand for the repeal of the duty on raw wool.

Some of the protectionists on the Canadian side of the line are as unreasonable and reckless as Mr Swank. They pretend to say that the New England market would not be of much benefit to the Maritime Provinces. Considerable light can be obtained on this branch of the question by a perusal of the statistics for Massachusetts as furnished by the State census taken in 1885.

The modern Magazine may be taken as embodying the best literature of the world, as the magazine editor pays the highest prices to novelists, scientists, statesmen, soldiers, and even kings and princes, for the best they can furnish in the literary line.

THE COSMOPOLITAN. The modern Magazine may be taken as embodying the best literature of the world, as the magazine editor pays the highest prices to novelists, scientists, statesmen, soldiers, and even kings and princes, for the best they can furnish in the literary line.

now and twice as much produced, it will be seen that in point of industrial development Massachusetts alone outstrips Canada at large. Facts of this kind show how ridiculous Canadian protectionists can make themselves in arguing against reciprocity with our best market.

The whole subject will come up for discussion in Congress, which meets in December, on the presentation of the petition of the New England manufacturers for cheap coal, iron and wool. The selfishness of the few cannot much longer prevail against the intelligent self-interest of the many.

THE EDITOR'S TABLE.

A Word or two About New Publications That Have Come to Hand.

HUNGER FOR GOOD AMERICAN SHORT STORIES can be satisfied by the feast of this species of literature to be found in the October Number of Harper's Magazine. Edward Bellamy contributes a sketch entitled "With the Eyes Shut," which, even if the writer's name were not given, would betray, in the originality of its conception, the author of "Looking Backward."

THE REPEAL OF THE DUTY ON PENNSYLVANIA, a protectionist organ in the Boston Herald to retort that in this case there is no necessity at all for excluding those Canadian products, and the duties upon them might as well be abolished.

THE REPEAL OF THE DUTY ON PENNSYLVANIA, a protectionist organ in the Boston Herald to retort that in this case there is no necessity at all for excluding those Canadian products, and the duties upon them might as well be abolished.

foot, that the salary for Town Clerk be \$250.00. Mayor ruled the motion out of order; Reeve Proudford appealed against ruling. Vote—yes, Proudford, Colborne, Humber, Holt, Dunlop—5; nay—Cantelon, J. W. Smith, Reid, Nafel, Pridham, Nicholson—6. Lost.

THE TOWN COUNCIL.

The Minutes of Last Month's Meeting.

The regular council meeting was held in the council chamber on Friday evening, Oct. 4th, 1889, at 8 o'clock. Present—Mayor Butler, Reeve Proudford, Councillors Reid, Nafel, Pridham, Humber, Holt, Dunlop, Nicholson, His Worship the Mayor in the chair.

Minutes of last meeting read, approved and signed. His Worship stated to the council that he had previously recommended the putting down of another well at the pumping station, and would again advise the acceptance of the offer of Mr McEwan, on behalf of Thomas McLean, to bore the hole and wait for 12 months for payment, allowing him 4 or 4 1/2 per cent interest.

Communication from Elridge & McArthur referred to public works. Communications from Ball and Reliance Electric Light companies were read. A circular from mayor of Ottawa was read and filed.

George Humble, wife and children, who are visiting in Grey township, purpose returning to Wichita, Kansas, this week.

The People's Column.

ADMINISTRATOR'S NOTICE TO CREDITORS.

In the matter of the estate of Geo. Rhynas, late of the Town of Goderich in the County of Huron deceased. Notice is hereby given, pursuant to the provisions of the Revised Statutes of Ontario, 1887, Chapter 110, Section 28, that all creditors and other persons having any claims against the estate of the said Geo. Rhynas, who died on or about Thursday, Sept. 12th, A.D. 1888, are required to send by post prepaid to F. F. Lawrence, Goderich, Administrator of the estate of the said deceased, on or before the 25th day of Oct. 1889, statements of their names, addresses and descriptions, and full particulars of their claims and demands upon the said estate, and of the securities (if any) held by them; and after the said 25th day of Oct. 1889, the said administrator will proceed to administer the estate and distribute the assets thereof, having regard only to the claims of which notice shall have been given as above required; and the said administrator will not be liable for the said assets or any part thereof to any person or persons of whose claim notice shall not have been received by him at the time of such distribution. F. F. LAWRENCE, Administrator. Dated at Goderich, this 25th day of Sept. 1889. All accounts due the estate must be settled at once. 23-3

Auctioneering.

JOHN KNOX, GENERAL AUCTIONEER and Land Valuator, Goderich, Ont. Having had considerable experience in the auctioneering trade, he is in a position to discharge with thorough satisfaction all commissions entrusted to him. Orders left at Martin's Hotel, or sent by mail to my address, Goderich P. O., carefully attended to. JOHN KNOX County Auctioneer. 1887

ALBION BLOCK, GODERICH.

## EPPS'S COCOA.

GRAEFUL-COMFORTING. BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.

Made simply with boiling water or milk. Sold only in packets by grocers, labelled thus: JAMES EPPS & Co., Homoeopathic Chemists, London, England. 2188.

CABLE ADDRESS, Pittbros., - London.

PITT BROS. & CO.

COR. HAMILTON-ST. & SQUARE.

Wholesale and Retail. N. B.—Try Cereline Flakes for Summer

**NOTICE.** It will be time to make out accounts. "The Signal" does good printing and furnishes good paper.

HOW IT TURNED OUT.

BY AMY RANDOLPH.

"I'll teach her," said Tom—"I'll show her that I am the sort of fellow to have maiden aunts interfering with my affairs!"

"But, Tom," said his sister Cecy soberly, "Aunt Aimee was in the right. It wasn't fair of you to be copying out the answers to the algebra sums from Louis Milton's book."

"Well," said Tom, grimly biting into his peach. Somehow the "capital joke" had fallen flat to earth. There was nothing of embarrassment in Ernest Salvia's mind; nothing of mortification in the smiles that dimpled Aunt Aimee's sweet face.

After the guests were gone Captain Astley called the children around him. "Young folks," said he, "I shall be engaged to a grim old governess for you, after all. Mr Salvia is going to take Aunt Aimee away from us. They are to be married next month, and if Cecy will be very good, she shall be a little maid of honor and carry the bride's bouquet for her."

Tom and Cecy exchanged glances once more, and at the instigation of the former Cecy followed Aunt Aimee to her room, to hazard the last question. "Aunt Aimee," said she, "has Mr. Salvia really proposed to you?"

"Yes, dear," answered the young lady. "Would—would you mind telling me how I should like so much to know," faltered Cecy.

"He wrote me a letter, Cecy," said the gentle bride-elect. "You'll understand all these things yourself, one day." But neither Cecy nor Tom could fathom this mystery.

"I think there's witchcraft in it," growled Tom. "I just do." But Mr Salvia never told them—nor did Miss Astley herself ever know—that he himself had chanced to be reading in the little summer house on the lawn, behind the ampelopsis vines, when the arch plot was concocted, and heard every word of it.

"The little imps!" said he to himself. "If they only knew what a deal of uncertainty and trouble they are saving me!"

In Many Forms. Dyspepsia assumes many phases, all disagreeable to the sufferer, yet it takes no form which from two to four bottles of Burdock Blood Bitters will not cure. B. B. cures dyspepsia, tones the weak stomach, aids digestion, sharpens the appetite and renovates the entire system.

Mr John Rutherford, Wingham, who has been book-keeper for the Union furniture factory Co ever since that firm commenced business in town, left on Tuesday with his wife for Scotland, where he intends residing in future.

Hay fever is a type of catarrh having peculiar symptoms. It is attended by an inflamed condition of the lining membrane of the nostrils, tear-ducts and throat, affecting the lungs. An acrid mucous secretion, the discharge accompanied with a burning sensation. There are severe spasms of sneezing, frequent attacks of headache, watery and inflamed eyes. Ely's Cream Balm is a remedy that can be depended upon. 50c a tin at druggists; by mail, registered, 60c. Ely Brothers, Druggists, Owego, New York.

Caring for Health a Duty. "Our earthly life is a treasure to be guarded. It is an outrageous thing to die when we ought to live. People ought to know it is as much of a duty to take care of their health as to attend church and perform other religious duties. It is as much a sin to break a physical law as a moral law. Both were made by the same All-wise Being, and both have their penalties. It is as much a sin to commit suicide by overtaxing one's self and violating nature's laws as to kill with a pistol.—Talmage.

WHY MONDAY?

Why Monday?

Too Much Labor is Thrown on the Week's First Working Day. Where so much depends upon order and accuracy in the management of the housekeeper it is not always easy to proportion the work of each day. Too much is thrown upon Monday and Tuesday—why not postpone washing till the latter day? On Monday the house can be put to rights, bread baked and desserts made for that day and the next. That night the table may be laid and covered with netting used for that purpose alone, the clothing put in soak and all the material made ready for breakfast. Where there is but one domestic or none at all, the week's labor is thus under much better control. The first meal should consist of few dishes, and the dinner may all be previously cooked save the vegetables. The domestic, who swept hall, steps and piazza, while the fire was kindling, has only to remove the breakfast things, wash the dishes and go to her laundry work. On Wednesday she is not over-fatigued by the previous day's work, and there is time enough to keep the house clean during the remainder of the week, finishing up odd jobs on Monday. Where two or more girls are kept the same custom might well prevail, by which means the cook will be able to do all cooking so that the food may be nicely cooked as usual.—Hester M. Pool, in the Home Maker.

Never allow the bowels to remain constipated lest serious evils ensue. National Pills are unsurpassed as a remedy for constipation. 1m

Business and Religion. So long as professed Christian men are wholly undistinguishable from men of the world, in the motives which prompt them to make money, our sermons and Sunday services will furnish but a feeble breaker against the worldliness and mammon worship of the times.

It is not enough that the Christian in business be honest. A man may be strictly honest and yet be serving self, and self only all the while. It is not enough that he be liberal. Men of the world can be, and often are, liberal to a most commendable degree. What then? Why, simply this: he must make his business promote the kingdom of Christ and pursue it for that purpose. If he is truly a servant of God, he holds his place in the business world with as distinct a divine call as ever put any man into the ministry, technically so called. He is where he is because God has need of him in the work he requires done in the world, just as much as he has need of the preacher or priest. If he pervert his trust to selfish or worldly ends, he is an apostate just as certainly as the preacher whose supreme motive in preaching is to better his worldly fortune.

Will it may be said that "a change amounting to a revolution must come over Christendom in this respect before Christianity can fairly begin to accomplish its mission in the world."

Tried! Tested! Proved! A year ago last summer I was troubled with dysentery. I procured Dr Fowler's Extract of Wild Strawberry and took according to directions, which completely cured me. Robert E. Green, Lyndhurst, Ont. This medicine cures all looseness of the bowels. 2

Got His Reward. The other morning an innocent-looking young man came out of the North and South Wales Bank with his hands full of money. While counting them over his attention was attracted by something passing in the street, and at the same time he dropped a £20 note directly in front of a highly respectable philanthropist who was passing. The philanthropist promptly put his foot on the note, and stood for a moment plunged in profound thought. Perhaps he was contemplating himself that the young man's treasure had fallen under such honest feet, and perhaps enjoying in prospect that party's gratitude at having his money restored to him. At all events, he was so much absorbed that when he aroused himself sufficiently to pick up the note the loser had disappeared.

"However," said the thoughtful philanthropist to himself, "he will advertise for it, and—in that case one is sure of the reward." The next day the "Lost" item appeared in the newspapers, with the very liberal recompense of £10 offered for the return of the balance of the note. The finder immediately enclosed £10 to the address given, which was a simple P. O. one, and then he found telling everyone how he had made £10 by doing an honest act. That is, he hid until he proceeded to deposit the £20 note, and the bank clerk threw it out as a counterfeit. After that he was observed to rather avoid the subject.—English Paper.

Not a Book Agent. Mr Goode, druggist, is not a book agent, but has the agency in Goderich for Johnston's Tonic Bitters, which he can heartily recommend for any complaint to which a tonic medicine is applicable. This valuable medicine has been with most astonishing good results in cases of general debility, weakness, irregularities peculiar to females, extreme paleness, impoverishment of the blood, stomach and liver troubles, loss of appetite, and for that general worn out feeling that nearly every one is troubled with at some part of the year. Don't forget the name Johnston's Tonic Bitters 50c. and \$1 per bottle at Goode's drug store, Albion block, Goderich, sole agent.

A Profitable Life. Few men have accomplished the same amount of work and good in this world as the celebrated Dr Chase. Over 500,000 of his works have been sold in Canada alone. We want every person troubled with Liver Complaint, Dyspepsia, Headache, Kidney or Urinary Troubles, to buy a bottle of Dr Chase's Liver Cure, it will cure you. Medicine and Recipe Book \$1. Sold by all druggists.

A Reward—Of one dozen "TEARER" so any one sending the best four lines rhyme on "TEARER," the remarkable little gem for the Teeth and Bath. Ask us a druggist or address.

Wintering Potatoes.

The potato crop of the country is a bout ripe, and the indications are that the yield will be large. Properly keeping them for the spring market is a point of importance. Not all who grow large quantities of potatoes have suitable cellars in which to store them. Thousands of bushels must be wintered in pits. The question of so caring for them that spring will find them good and in perfect condition is the proper point to consider. Rotting, sprouting, sweating are the sources of injury. To prevent these is the aim. If potatoes are sound and healthy when put in the pits, and are properly cared for, these conditions are not likely to arise. To protect them from heat and damp is no less important than to protect them from frost. Keeping them too warm in the fall and too cold in mid-winter are general causes of destruction to potatoes wintered in pits. They should be in a cool condition before being covered with dirt. Then cover well with straw and lightly with earth, leaving the extreme top of the pit without earth, that any heat remaining or generating in the pit may escape. Protect the pits from sun and rain by a roof of boards, under which there is a free circulation of air, until cold weather comes. Thus the tubers are kept dry and cool, and the earth is dry. Frost will not penetrate far into dry earth, but it will go deep into that which is wet. With the coming of winter sufficient covering to protect against frost and spring will generally keep the tubers in excellent condition.

THE BEST YET.—A few thousand improved note and receipt forms have just been printed and manufactured into books at THE SIGNAL, which are ahead of anything of the kind we have yet offered for sale, being bound in heavy pressboard covers, with cloth backs and wire stitched, and of a size that may be carried in any ordinary coat pocket. For store, shop and office use we have made a large quantity up into pads of 100 receipts each. The prices are very reasonable. Call and see them at THE SIGNAL.

Several years ago I read a paper by Prof Crazybone, in which he said you should sleep with your head toward the north, so the electric currents on their way to the North Pole would pass through the body the right way. The plan looked reasonable, and I adjusted my bed to meet the requirements. A few years after I ran across a scholarly article by Dr Alstead, in which he proved that the electric current should not pass from feet to head, but from head to feet, and, therefore, we should all sleep with our heads toward the South. I turned my head around, but now, Prof Dryadust showing that the electric currents are bad, no matter how they pass through, and the least danger is found in sleeping with the head toward the east or west, I have again wearily turned my bed. If any man will invent a bed hung on a pivot I will buy it. I am quietly working on a bedstead myself which can be wound up like a clock, and will revolve all night, and occasionally get up on its hind castors, and prance about the room and turn a few hand-springs.

More Remarkable Still. Found at last what the true public has been looking for these many years, and that is a medicine which although but lately introduced, has made for itself a reputation second to none, the medicine is Johnson's Tonic Bitters which in conjunction with Johnson's Tonic Liver Pills has performed some most wonderful cures upon impure and impoverished blood, becoming purified and enriched. Biliousness, indigestion, sick headache, liver complaint, languor, weakness, etc., soon disappear when treated by these excellent tonic medicines. For Sale by Good, druggist, Albion block, Goderich, sole agent. [d]

English Proverbs. Hear twice before you speak once. He dances well to whom fortune pipes. He doubles his gift who gives in time. He fights with his own shadow. He giveth twice that giveth in a trice. He has a bee in his bonnet. He has bought his noble for nine pence. He has a bite upon his bride. He is a wise man who speaks little. He is proper who hath proper conditions. He knows not a B from a bull's foot. He knows not a hawk from a hand-saw. He lacks most that longs most. Help the lame dog over the stile. He liveth long and liveth well. He'll find some hole to creep out at. He loses nothing for the taking. He loses his thanks who promises and depayseth. He loses nothing that keeps God for his friend.

Rheumatic Pains. Require no description, since, with rare exception, all at some time have experienced their twinges. Rheumatism is not easily dislodged, only the most powerfully penetrating remedies reach to its very foundations. The most successful treatment known, and it is now frequently resorted to by medical men, is the application of that now famous remedy for pain—Polson's Nervine. It is safe to say that nothing yet discovered has afforded equal satisfaction to the suffering. A trial can be made at a small cost, as sample bottles of Nervine can be had at the drug stores for 10 cents, large bottles 25 cents.

A Wonderful Organ. The largest organ, and one that plays a controlling part on the health of the body is the liver. If torpid or inactive the whole system becomes diseased. Dr. Chase's Liver Cure is made specially for Liver and Kidney diseases, and is guaranteed to cure. Recipe book and medicine \$1. Sold by all druggists.

Found at last what the true public has been looking for these many years, and that is a medicine which although but lately introduced, has made for itself a reputation second to none, the medicine is Johnson's Tonic Bitters which in conjunction with Johnson's Tonic Liver Pills has performed some most wonderful cures upon impure and impoverished blood, becoming purified and enriched. Biliousness, indigestion, sick headache, liver complaint, languor, weakness, etc., soon disappear when treated by these excellent tonic medicines. For Sale by Good, druggist, Albion block, Goderich, sole agent. [d]

English Proverbs. Hear twice before you speak once. He dances well to whom fortune pipes. He doubles his gift who gives in time. He fights with his own shadow. He giveth twice that giveth in a trice. He has a bee in his bonnet. He has bought his noble for nine pence. He has a bite upon his bride. He is a wise man who speaks little. He is proper who hath proper conditions. He knows not a B from a bull's foot. He knows not a hawk from a hand-saw. He lacks most that longs most. Help the lame dog over the stile. He liveth long and liveth well. He'll find some hole to creep out at. He loses nothing for the taking. He loses his thanks who promises and depayseth. He loses nothing that keeps God for his friend.

Rheumatic Pains. Require no description, since, with rare exception, all at some time have experienced their twinges. Rheumatism is not easily dislodged, only the most powerfully penetrating remedies reach to its very foundations. The most successful treatment known, and it is now frequently resorted to by medical men, is the application of that now famous remedy for pain—Polson's Nervine. It is safe to say that nothing yet discovered has afforded equal satisfaction to the suffering. A trial can be made at a small cost, as sample bottles of Nervine can be had at the drug stores for 10 cents, large bottles 25 cents.

A Wonderful Organ. The largest organ, and one that plays a controlling part on the health of the body is the liver. If torpid or inactive the whole system becomes diseased. Dr. Chase's Liver Cure is made specially for Liver and Kidney diseases, and is guaranteed to cure. Recipe book and medicine \$1. Sold by all druggists.

WATERING POTATOES.

The potato crop of the country is a bout ripe, and the indications are that the yield will be large. Properly keeping them for the spring market is a point of importance. Not all who grow large quantities of potatoes have suitable cellars in which to store them. Thousands of bushels must be wintered in pits. The question of so caring for them that spring will find them good and in perfect condition is the proper point to consider. Rotting, sprouting, sweating are the sources of injury. To prevent these is the aim. If potatoes are sound and healthy when put in the pits, and are properly cared for, these conditions are not likely to arise. To protect them from heat and damp is no less important than to protect them from frost. Keeping them too warm in the fall and too cold in mid-winter are general causes of destruction to potatoes wintered in pits. They should be in a cool condition before being covered with dirt. Then cover well with straw and lightly with earth, leaving the extreme top of the pit without earth, that any heat remaining or generating in the pit may escape. Protect the pits from sun and rain by a roof of boards, under which there is a free circulation of air, until cold weather comes. Thus the tubers are kept dry and cool, and the earth is dry. Frost will not penetrate far into dry earth, but it will go deep into that which is wet. With the coming of winter sufficient covering to protect against frost and spring will generally keep the tubers in excellent condition.

THE BEST YET.—A few thousand improved note and receipt forms have just been printed and manufactured into books at THE SIGNAL, which are ahead of anything of the kind we have yet offered for sale, being bound in heavy pressboard covers, with cloth backs and wire stitched, and of a size that may be carried in any ordinary coat pocket. For store, shop and office use we have made a large quantity up into pads of 100 receipts each. The prices are very reasonable. Call and see them at THE SIGNAL.

Several years ago I read a paper by Prof Crazybone, in which he said you should sleep with your head toward the north, so the electric currents on their way to the North Pole would pass through the body the right way. The plan looked reasonable, and I adjusted my bed to meet the requirements. A few years after I ran across a scholarly article by Dr Alstead, in which he proved that the electric current should not pass from feet to head, but from head to feet, and, therefore, we should all sleep with our heads toward the South. I turned my head around, but now, Prof Dryadust showing that the electric currents are bad, no matter how they pass through, and the least danger is found in sleeping with the head toward the east or west, I have again wearily turned my bed. If any man will invent a bed hung on a pivot I will buy it. I am quietly working on a bedstead myself which can be wound up like a clock, and will revolve all night, and occasionally get up on its hind castors, and prance about the room and turn a few hand-springs.

More Remarkable Still. Found at last what the true public has been looking for these many years, and that is a medicine which although but lately introduced, has made for itself a reputation second to none, the medicine is Johnson's Tonic Bitters which in conjunction with Johnson's Tonic Liver Pills has performed some most wonderful cures upon impure and impoverished blood, becoming purified and enriched.
