LOSS OF THE OCEAN STEAMSHIP CIMBRIA WITH THREE HUN-DRED LIVES.

Collision with the Sultan-How the Terrible Catastrophe Occurred - A Dense Fog the Cause-Only Fifty-Six Lives Sayed.

NEW YORK, Jan. 20.-The steamshin Cimbria, Hamburg for New York, sunk in a collision in the German ocean on Friday morning. Thirty-nine persons have been landed at Cuxhaven. Seven other boats are still out. The Cimbria collided with the steamer Sultan during a fog off Borkum island, North sea. Six steamers are searching for the missing boats. The agents of

the Hamburg-American Packet company have received the following from Hamburg : "The steamer Cimbria had 23 cabin passengers, 362 steerage and 92 crew. So far 39 persons have been landed at Cuxhaven and 17 at the Weser lighthouse.

LONDON, Jan 21-The Cimbria left Hamburg on Thursday. She ran aground before leaving Elbe, but got off with the flood tide, with the assistance of the steamer Hansa without damage and put to sea at 3.30 p m. On Friday morning she came into collision, during a thick fog off Borkum, with the steamer Sultan. The Cimbria sank in a short time. When a boat with 39 passengers arrived the company sent out the steamer Hansa and four of the largest available steamers at Cuxhaven to search for the Cimbria's other boats. The steamer Bavaria also left during the night with a similar object. The steamer Sultan sustained heavy damage. She

has arrived in Elbe. The following members of the crew were saved : Second Officer Spruth, Third Officer Heyden, Fourth Officer Voss, Second Engineer Ing beard, bits and chine-like the two windows of his soul ! yet deep-set and overarched with Jove-like brows, and he has a glorious head that is inncent of verdure. ### The fee Palace Aglow.

The members of the carnival committees says the Montreal Witness, adjourned to the ice palace Friday night and a red light was burned in order that some idea of the effect when finished could be formed. The effect on the western facade was grand. The moonlight had already transformed the walls into masses of crystal light and when, as f by magic, the dark windows were fringed with the most beautiful tint of rose that sparkled as if each individual ice crystal had been a living fire, the effect was simply grand. This was all produced by one single red light ; the effect that will be produced when the whole palace is illuminated can be imagined. The paragraph referring to immigration provoked a lively discussion, during which Mr Moor said he saw no reason why agricul-tural laborers should receive assisted passa-ces. There were plenty in Canada, but the trouble was that the farmers would not pay sfair wage for their labor. Let them but pay good wages and they would soon find plenty of help. When people had no money to pay their passage, how were they to add to the wealth of Canada when they came ? Several other speakers followed in a like strain-nearly all being opposed to the sys-tem of assisted passages. It was shown, too, that for every immigrant at Quebee during the last year another one emigrated at the opposite end of the country.
