The Committee on Credentials reported favourably on the credentials of Bro. P. W. P. Isaac Matthewson, of Albion Mines.

The G. W. P. read his report, which was to the following effect :—

Grand Worthy Brothers.-It is pleasing to m. to be able to report that our Order, as far as it has been fairly tested, continues to answer the expectations of its most sanguine friends. It is to be supposed that a crusade like ours will meet with some reverses, and that our advancement will some times be interrupted; but we are not without evidence that our association has within it the elements of stability far above any other Temperance organization that has yet existed. In these Provinces the cause maintains its interest, and advances with firm and steady step. Our growth has been rapid, and our successes highly encouraging; nor have we any reason for despondency; but on the contrary may confidently look for the accomplishment of a vastly greater amount of good. Our organization is well fitted for extended, combined and energetic action; and if we are but true to our pledged principles, and our efforts wisely directed, public opinion shall be heard yet more loudly in our favour, and our influence shall be brought to bear in such a way, as that all in our land, who may be connected with the manufacture of, or traffic in strong drink, or who are in any way the enemies of our cause, shall see and feel that they occupy a disreputable position, and one which they must abandon.

The severe pressure of the times, having been felt very seriously in various parts of the Province, has operated much against the prosperity of some of our Divisions; but we hope that a brighter day is dawning in this respect, and that by the blessing of a bounteous Providence, this hindrance to our advancement will ere long be greatly diminished. A2 We would very strongly urge upon Divisions thus circumstanced, the propriety of adopting in their Bye-Laws, the alterations with regrid to benefits, suggested at our last quarterly session, together with such other means as may be prudently acted upon, in the case of those, otherwise good members, who have been unable to pay up their dues. By the adoption of the measures which are now constititionally within our reach, (see Journal of 6th Sess. Nat. Div.) there is n > Division that may not keep its finances in a safe and healthy state.

In the opinion of our most judicious brethren, some of our Divisions by restricting their proceedings to mere routine business, and by ocapying their attention with questions of comparatively little consequence, have thereby lessened their usefulness; but experience, I trust, is now teaching them a wiser course. Subjects that are unnecessary and unprofitable should be avoided, and the great objects of our association be kept prominently in view; then our Divisionrooms will be, as they are intended to be, training schools for our young men, fitting them for aggressive warfare upon the realis of our opponents, and preparing them for general usefulness in life.

Prudent but carnest means should be employed to enlist the sympathy of the influential, more generally, in our favour, and to bring into union with us those, who from their position in society might become mighty for good. But we must not forget that our cause is "the cause of all mankind," and that we should aim to engage the "poperation of all classes, and especially the young men of our land, "whatever grade of society; taking care at the same time to keep from our fellowship the vicious and unprincipled, and any who would be likely to prove troublesome members; for nothing is more essential "point success, than the maintenance of peace and good order.

We might with great propriety avail ourselves more largely of the advantages to be derived from the circulation of suitable Temperance tracts; and as another matter very nearly alkied to this, but one perhaps more likely to prove extensively and continuously beneficial, we ought now to consider the feasibility of getting into operation an cilicient Temperance Paper. The advantages of such a periodical are obvious, and as the Gazette lately published at Yarmouth has ceased to exist, it is for us to inquire if a well-conducted organ for our body, is not absolutely necessary to our prosperity; and is it not possible at our present session, without any great risk, to adopt measures for the immediate establishment of such a Paper? I strongly hope that we shall see our way clear to enter upon this object with spirit, and with a prospect of success.

It is also desirable for us to enquire if a suitable person could not be obtained to visit all our Divisions as our agent, during the ensuing autumn. This, if it could be accomplished, would be a measure calculated to be of great advantage, tending very much to strengthen and extend our principles. We are not, with some others, to imagine, that our mission as an order is nearly fulfilled. A great work yet remains to be done—a work which it is the purpose of Heaven to have accomplished, and one in whice we are well fitted to labour. It remains for ourselves to say whether we shall largely share in the honours and reward of being greatly instrumental in its completion. If we fail in our duty and shrink from the toil and the battle, Providence will raise up others, who, by faithfulness to the trust reposed in them, will reap a golden harvest and enjoy the spoils of victory. Let us not prove either traitors or cowards, and then, by the blessing of God upon our judicious, combined, benevolent, courageous and persevering effort. th world, in due time, shall be reduced from the terrible evils of strong drink.

The G. D. opened in due form. The G. W. P. in the Chair.

The Committee appointed to confer with the members of Caledonia, Oriental, and Truro Subordinate Divisions, beg leave to report as follows :---

That they have carefully examined the Lecture in dispute, and find nothing either in its spirit or expression, at all calculated to excite religious animosity, and certainly nothing to irritate the feelings of the complainant, since whatever reference is made to Catholicism is rather complimentary than otherwise. At the same time your Committee would call special attention to the spirit and letter of the Constitution of the Sons of Temperance, whether in Subordinate, Grand, or National Division, that our cause is the cause of all mankind, and that nothing should be suffered to appear either in Lecture, Essay, or Address, that could by any possibility be construed as a reflection upon or interfere with religious opinion. In conclusion the Committee have much pleasure in announcing the brotherly spirit in which parties with whom they have conferred, are prepared to abide by their decision.

All which is submitted in L., P. and F.

-1:

Brother Munroe from Committee on G. W. P.'s report, reported as follows:—

The Committee to whom was referred the Report of the G. W. P. have considered the same, and recommend its suggestions to the earnest consideration of this Grand Division, and hoping that it may have a beneficial effect upon the friends of Temperance generally, by stimulating them to renewed exertions in the good cause, would further recommend its adoption by this Division, and that it be published and circulated as widely as possible.

The Committee would particularly press upon the attention of this Division, the necessity for some special action upon the subject of a paper, devoted to the cause of Temperance. Nothing appears to be so well calculated to disseminate our principles and make converts to our cause, as bringing constantly and regularly before the people, in a spirit of kindness and love, the moral, social, and physical advantages of total abstemiousness from intoxicating drinks—and contrasting those benefits with the misery, degradation, and crime, that inevitably follow their use—and in no way can this be more effectually accomplished than by means of the press. It has been used as a means of promoting the energies and giving additional zest to the worship of Bacchus-let it now be applied as an engine to destroy the demon-nor let the exertion cease until the last worshipper at the unholy shrine shall have offered his last sacrifice upon the polluted altar.

The Committeee with a view to carry this proposal into effect, suggest that a Committee be appointed to make arrangements for the publication of such a paper as that contemplated. That that Committee should, at the earliest possible day, issue a prospectus, and forward the same to every Subordinate Division of the Order, which might at the same time be requested to act as agents, and the interests of the different Divisions enlisted to support it; and also to individuals of influence, not of the Order, who feel an interest in the cause of Temperance.

The Committee would further recommend to Subordinate Divisions, to aid the publication of the paper with their funds, to such extent as prudence and their views of the importance of the object would dictate.

The Committee aware of the importance of having a travelling agent, to visit the different portions of the Province, for the purpose of stimulating the energies of the friends of Temperance and promoting the cause generally, at the same time feel with regret that the pecuniary depression of the times would be a hindrance to carrying that suggestion into effect, and while the suggestion should not be lost sight of, the Committee are of the opinion that the state of the finances of the Order will not warrant the immediate employment of such an aid to the good cause, but would strongly urge upon every member of the Temperance organization, to act as an agent in his own sphere in furtherance of the objects of Temperance.

All which is respectfully submitted.

E. F. MUNRO, Chairman. JAMES BAYNE, A. C. McDONALD, JAMES D. B. FRASER, SAML. CREELMAN.

## Pictou, 1st August, 1850.

The Committee on credentials reported favourably of Bro. P. W. P. Charles Creed of Stirling Division. Brother Creed was then initiated.

## On motion of Bro. Reading, it was

Resolved, That this G. D. by its next session, procure a sufficient number of the Bye-Laws of the Division, (at the discretion of the G. W. P.) for distribution among its members.

Bro. J. D. B. Fraser from the Committee on Appeals, reported as follows:---

The Committee on Appeals beg leave to report that among the papers submitted to their consideration a document purporting to contain a statement of facts with reference to the action of Pugwash Division, No. 30, in connection with the case of Brother Burbage, has occupied their attention, but that in consequence of its having neither the signature of Brother Burbage or of any other member of the Division attached to it, are of opinion that they ought not to take any action upon it. Your Committee thinking it indispensable that previous to the passing of any matter referred to them, they ought first to be furnished with the most satisfactory evidence of the genuineness of the documents upon which they are called to pass their judgment.

All which is respectfully submitted in L., P. and F.

Grand Division, Pictou, 1st August, 1850. Report adopted. J. D. B. FRASER, JAMES FOGO, J. A. CHIPMAN,

The Committee of Appeals to whom was referred the letter of Bro. A. Masters, of Cumberland Division, respecting the appropriation of the sum of £5 from the funds of said Division, to assist in opening a Section of Cadets of Temperance, and the ruling of the W. P. that such appropriation was unconstitutional, unless passed by an unanimous vote of the Division, have taken the same into their consideration, and respectfully beg leave to report that the ruling of the W. P on that occasion was correct, your Committee being of opinion that under the present Constitution of the Order, the funds of Subordinate Divisions can be expended only in defraying the expenses of the Division.

All which is respectfully submitted in L., P. and F.

J. D. B. FRASER, JAMES FOGO, W. FULL.

On the motion for the adoption, Bro. Greenwood moved the following amendment:—

After the words "bcg leave to report," the following words be substituted, "that while the Grand Division cannot feel themselves justified in directly interfering with the Subordinate Divisions in the appropriation of their funds, they must strongly urge upon their brethren the necessity of so protecting the funds by their Bye-Laws, as shall insure to every individual member an immediate liquidation of every just and constitutional claim."

Which amendment was lost. Names being called for,

Against the Amendment—Brothers W. Lippincott, S. Lippincott, Thos. R. Fraser, A. Archibald, Rodk. Fraser, Campbell, Fogo. Matthewson, McLellan, W. Full, James Murdoch, J. Gauld, Rev. James Bayne, A. C. McDonald, C. Creed, J. D. B. Fraser, and W. Romans—17.

G. W. A. and Brother Munroe gave notice of appeal to the National Division.

The Committee on Appeals to whom was referred the letter of James Ferguson, P. W. P. of Cumberland Division, No. 35, protesting against the election of representatives to this body, from said Division at a special meeting called for that purpose, beg leave to report, that no special meeting of a Subordinate Division can be called for such purpose, but that as Brother Blenkhorn alluded to in said letter has been shewn to your Committee to have been regularly elected at a meeting of said Division, held subsequently to the date of Bro. Ferguson's letter, there is no ground of action for this Division in the matter.

Your Committee are further of opinion that the decision of the P. W. P. Marsters, filling the chair at said meeting, to the effect that the W. P., who was installed at the first regular meeting in October last, the same night on which the representatives to the Grand Division were elected, was eligible and not being then elected, could not afterwards be so, except by dispensation from the G. W. P., was correct.

Your Committee further report, that all representatives to this body must be elected separately and by ball-ballot.

Bro. Creelman, from Committee on Bye-Laws, re-

The Committee on Bye-Laws beg leave to report, that in their opinion the Queen's Own Division, would have acted in conformity with the 1st Section under the head installation in the Blue Book, had they installed their I. S. But your Committee would recommend that in all cases, where the D. G. W. P. cannot attend to install officers, he should send such instruction as would relieve the Division from any doubt as to the course which should be adopted.

Report adopted.

В

Afternoon Session, August 1.

The G. D. opened in due form.

Present-G. W. P., G. Scribe, G. Conductor, G. Sentinel.

Absent—G. W. A., G. T., G. Chap., and P. G. W. P. Proceedings of morning session read and adopted.

The Division then took up Bro. Munro's report on the report of G. W. P., which after being discussed was adopted, and the following brethren appointed a ('ommittee:-G. W. P., G. S., and Bro. C. Robson.

The following report of the Grand Scribe for the last quarter, was then read and adopted :--

To the Grand Division of the Sons of Temperance of Nova Scotia, in sessi n at their quarterly meeting, held in Pictou, 31st July. 1850,

Their Grand Scribe begs leave most respectfully to report.

It is with mixed feelings of pleasure and pain, that your Grand Scribe lays before his brethren an abstract statement of the affairs of our Order—of pleasure when we view the vast amount of good done, in the extension of our ranks, the mental and physical relief afforded, (not to speak of the pecuniary) and the consequent influence on society at largc—of pain in beholding too many who have fallen back into degradation, the snares of the enemy of mankind, and the baneful habits of intemperance.

The number of Subordinate Divisions, now working under charter, is 87. We have received returns but from 62 Divisions, and it is to be regretted that so many of our brethren have neglected forwarding their returns, as we are not now enabled to complete the quarterly report, and as it is very desirable that it should now be laid before you.

In the 62 Divisions now reported from, there are 3683 contributing members—from this vast multitude of men, God in his great mercy towards us, has been pleased to remove by the hand of death but 5 during the last quarter—may we ever look to our Great Creator for aid and protection, and continue to give Him all the glory and the thanks.

In the discharge of the solemn duties that several Divisions owe to themselves and to each other, they have been compelled (with pain no doubt) to expel 98 members, and 63 have withdrawn—but to counterbalance this, we have 244 new members added, thereby giving us an increase in the 62 Divisions of 83 during the quarter --64 are however under suspension—and it must be here remarked that the greater proportion of the members expelled and suspended, are the result of non-payment of dues, which the clemency of the Divisions had allowed to continue as long without the exercise of discipline, as possibly consistent with justice.

The receipts for the quarter ending 30th June, was  $\pounds 5535.9d$ ., the benefits paid,  $\pounds 21318.9d$ ; the per centage,  $\pounds 289.4d$ ; and the whole amount of funds on hand in the 62 Divisions reported from,  $\pounds 22081789d$ .

The Grand Scribe would most respectfully congratulate the Grand Division on the present elevated position of the Order, not only as regards their financial affairs, but in the high estimation in which the Order continues to be held by every sober-minded, reasonable man, woman, and *child* throughout the land, wherever it is known, and in the daily increase of a most powerful influence—not the least visible in the strenuous efforts made by our opponents to counteract the effects of our labors, which has proved so seriously to effect the mercinary spirits engaged in the liquor traffic.

There have been 8 new Divisions opened during the last quarter, and we do most confidently trust, that our brethren, who have already effected so much, will not relax in the labors of love, of mercy, and benevolence, until the whole Province shall become one great field a grand theatre of Temperance—and every village, town, and city be represented, not only in this Grand Division, but in the halls of Legislation by the most powerful advocates of our Temperance cause.

All which is most respectfully submitted in the spirit of L. P. & F.

## E. G. W. GREENWOOD.

unable to report thereon. Your Committee would respectfully suggest, that it would give much satisfaction to Subordinate Divisions, and prevent animosities and much discussion, if those matters were more strictly attended to in future, and that officer be directed to append to the Journals for the present quarter of the Grand Division his account current.

All which is respectfully submitted in Love, Purity and Fidelity.

Grand Division Room, 1st Augt., 1850.

Report received and adopted.

Brother J. D. B. Fraser from Committee on Appeals reported as follows :---

The Committee to whom was referred the appeal of Bro. Blair, from a decision of Victoria Division, in a charge against a brother for a violation of Article 2, which charge was referred to a Committee, who reported the charge sustained, but on the recommendation of the Committee the Division excused the brother from paying the constitutional fine, and submitting the erasure of his name, from which decision Bro. Blair appeals. Your Committee respectfully report, that after the finding of the charge sustained by the Committee all farther proceedings have been irregular. That by Section 4, Article 10, it is imperative on the Committee in the event of their finding the charge sustained, to append to their report a second resolution, that the brother be either expelled or reinstated. If the finding of the Committee be sustained by the Division, the offending brother forfeits his membership, and his name must be erased from the Constitution, after which the Division may either expel or re-instate the brother as a majority may decide.

All which is respectfully submitted.
