Christmas Thoughts For the Men

More than ever will the Holiday Gifts for men be chosen in apparel—useful, wearable, lasting gifts that are accept-able, appropriate and appreciated.

This is the one time of the year when you can, without embarrassment, present a pair of gloves or any other Necessary of Life—Comfort.

Let us review a few—just to show that the Tooke Stores abound with sensible, practical and well-chosen things in the way of gifts for men:

Collar Boxes

These are the right kind—lined to keep the Collar clean—and we have them from 75c to \$3.50.

Mufflers and Reefers

Each year we have shown hand-somer and richer designs and textures in Silk Mufflers. This item of apparel is one of real dressiness and comfort combined. We go this year in our present showing from 75c to \$10.

No man ever had too many Gloves, Collars, Handkerchiefs or Neckties. Neckties.
We have Gloves galore—a different shade for every suit and overcoat He owns. You cannot go wrong on a selection of Gloves, for we cheerfully exchange.
Seventy-nine kinds to choose from—silk-lined, wool-lined, furlined and unlined kid.
From 85c to 85

Gloves for Drivers and Motorists, "Every man loves Gloves."

Lounge and Bath Robes

Nothing will give a man such snuggy, cosy comfort as the right sort of Bath or Lounging Robe. The handsomest and neatest designs and textures are here now; some rare and exclusive silk gowns as high as \$50 and \$75. They are the sort that make a man feel at home and glad he's here. From \$5 to \$75.

"Every man likes to stay at Home."

Underwear and Hosiery

If he is your Husband, Brother or Father, you can select the "essentials," and in Underwear and Hosiery you will find an endless variety of Gift possibilities. You can always depend on good qualities and the best value here—the sort that fit and wear. Combination suits and two-piece suits, in fine Scotch wool, \$1.50 the garment: \$3.50 the suit. Some silk and-wool mixtures, guaranteed Hosiery at 50c. Every man admires Tooke's-The

Handkerchiefs

Here we have a special showing in Gift Boxes. All sorts, all prices. Silk, Linen, or the mixed fabrics; plain and hemstitched. Bordered, patterned, or initial. All sorts of good kerchiefs put up in special gift boxes with "the Tooke" name to show it's good. "Every man wants an extra dozen."

Umbrellas and Sticks

Formerly considered articles of shelter and comfort, now they are real fashion accessories. Over 100 handsome and exclusive effects, no two alike; selected in England especially for our Holiday trade.

Coat Sweaters

When January comes these new Coats will be in great demand. Our winters are changing-come later and stay later. Coat Sweaters at our stores, the gift kind, from \$4.50 up to \$10.

"Every man who curls wants one."

Smoking Jackets If the man who is in your mind now is not the possessor of a good, up-to-date Smoking Jacket or House Coat, you could not please him better than by a selection from our choice effects ranging in value from \$5 to \$15. "Every man adores a Love Cift."

Fancy Waistcoats

For the dressy man or for the man who desires to appear dressy, no single article of haberdashery is so gratifying as a fancy Vest. And none so stylish nowadays.

Some new effects in silk reversible Vests—"two styles and patterns in one." \$5 and \$10 kinds-and between. "Every man likes to dress well."

Cravats and Ties

There is not a single thing here any man wouldn't be delighted to have—the patterns, colors, styles well chosen. All the newest neckwear shapes and shades in new texture treatments. Prices from 50c to \$4. Limited selection of art effects at \$6.

"Every man likes alluring colors." Shirts and Pyjamas

-the Culmination of Musical Attainment - should be your selection for the Great Gift Day. See how these Superior Instruments are available to every lover of music!

Some chord in unison wit what we hear Is touched within us, and

THE Joy of giving may be yours this Christmas in the fullest measure if you choose for your gift a Columbia Grasonola.

All next year---for many years, in fact---hearts will be gladdened and burdens lightened in the home where your gift finds delighted appreciation.

"Superiority" is the Columbia claim--- and your gift should be superior. "Talking Machines" are a triumph in their way, but they have their limitations. When you hear a Columbia Grafonola, all preconceived ideas of musical reproduction by mechanical means are forgotten. A sensation of pleasure---of extreme appreciation, takes the place of doubt. The full, round tones of the Prima Donna, the thundering volume of

the Military Band, the plaintive, sweet melody of stringed instruments, the irresistible, mirth provoking comic "Star"---yours to have, yours to command at will--- and why not?

Only Columbia "Superiority" has made this possible, and the pleasure is denied to no one.

COLUMBIAS may be Obtained to Suit All Tastes and Pockets, from \$17.50 to \$650.00

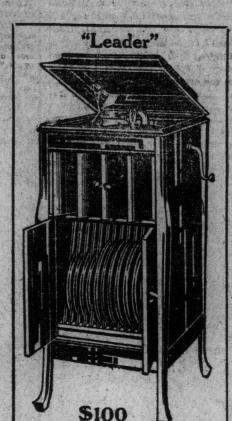

No self denial is necessary at this season of gladness, when such an opportunity exists for you and those whose happiness depends upon your bounty.

The "ECLIPSE" embodies all the latest Columbia features-the continuous and uninterrupted tone chamber, the perfected Columbia reproducer, the Columbia tapered tone arm, the Columbia tone-control shutters, the faultless and noiseless Columbia motor (double-spring drive)-and it has the musical tone quality that those Columbia features unite to produce. The "Eclipse" is about 16 inches square, built of beautiful quartered oak or mahogany-plays three disc records with one winding.

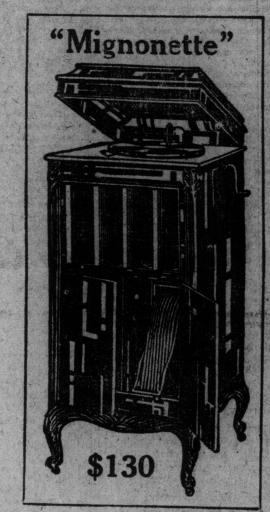

"Eclipse"

The "JEWEL," with cabinet work of the best craftsmanship, the wood used being handsomely finished quartered oak, embodies all the latest important Columbia features—the perfected Columbia reproducer, tapered tone arm, continuous tone chamber, etc. A powerful, double-spring, noiseless motor, plays three selections with one winding, and may be wound while playing. Its speed is regulated on a graduated dial. This is the first time a high-grade cabinet instrument has been offered at less than \$65.00. It is capable of the tone quality of \$250.00 models.

ance, equipment, tone volume, and musical quality. Wholly selfcontained, stands on its own base, providing ample space for the mechanism and tone chamber, also an extensive repertoire of Columbia Records, protected from damage. The shapely cabinet, straight-lined, dignified and pleasing, stands 43 inches high from

The "MIGNONETTE" model is the culmination of years of progressive effort. Tonally, acoustically, mechanically, and artistically, the "Mignonette" will easily demonstrate itself to you as inimitable. The ele-gance of its design and the flawlessness of its finish are in keeping with its musical quality. All the metal parts exposed by the opening of the lid are plated. The motor is one of the most powerful ever constructed, running without sound or vibration.

in their power to build up and develop the Southern States. President Finley, of the Southern Railroad, and resident Emerson, of the Atlantic Coast line, are eulogized no doubt deservedly, as patriotic and farseeing citizens who labored to develop their section of the country by making more efficient the great transportation systems over which they presided. Both men, it is hinted, shortened their lives made it impossible for them to proper ly carry out their great designs. Mental distress and anxiety are said to have shortened the lives of many railway executives, including E. H. Harriman and the late President Cassatt, of

departments of the company. He perceives clearly that the great property committed to his charge must be made efficient and plans better road beds. nals. But when he begins to adminihe is compelled by his Wall street directors to load up the company with useless lines purchased from them at extravagant prices. He finds that he up the road, but to assist the men who put him there in destroying it. Thus President Mellen of the New Haven was compelled to load up his company with trolley lines and all manner of junk purchased from the manner as an integral part today have no Christmas dividend. the once great New Haven property is reduced to scrap, and Mr. Mellen's career has come to a lamentable con-

"Holland" charges that the railway presidents have been dying of breakdown and worry because of the attacks made upon railway companies by congress, the legislatures, the courts, and the railway commissions. But why have they been attacked? Are the people moved by malice against the railway officials?

We all know what is wrong with the railway companies of the United States; they are capitalized for nineteen billion dollars, nine billion water. The roads cannot be properly operated and extended, or even properly maintained because in some way dividends must be earned and interest paid. Their condition is so generally known that they can borrow no more money. The roads cannot be kept in a proper state of efficiency and a terrible toll of death and injury is the result. Not five minutes passes in any one day or night of the year but someone is killed or injured on an Ameri-

can railway. It is Wall street, not Washington, which kills with worry the rallway Apresident. It is stock manipulation, stock watering and high finance which have ruined the great railways of the United States. And now the companies are saying that they must be given a free hand in charging whatever rate they please, or the public must take them over, exchanging government bonds for their nineteen billions of stock and bond issues, representing only ten billions actually invested.

But the United States Government will not nationalize the railways or any such basis. A physical valuation is now in progress, and when that is completed the people will probably make their own terms. Meanwhile, the telegraph and telephone companies would like to be taken over, the latter saying they would welcome the test of a physical valuation. Private ownership and operation of railways has failed so dismally and disgracefully in the United States that the sentiment for government operation of all great public utilities has become almost overwhelming. Indeed, no one now disputes the principle. If nationalization is delayed, it is because the people will not be humbugged into paying just double what the railways and other utilities are worth.

Prince Rupert, B.C., on an automobile journey covering central British Columbia. In writing of his impressions of the country, he says?

"Prince Rupert, for instance, is a city literally made to order, just as a tailor would make a suit of cluthes, and came into existence about the same time as the tango and the turkey trot. Five hundred and fifty miles north of Vancouver, near the mouth of the Skeena River, set on a range of hills overlooking one of the finest deep water harbors on the continent. Experts who have studied the plan on which Prince Rupert is being built, assert that in time it will be one of the most beautiful cities in America. It is not only the terminus of the Grand Trunk Pacific Railway, which will run It is not only the terminus of the Grand Trunk Pacific Railway, which will run from ocean to ocean but is 500 miles nearer the Orient than any other port on the continent. But what is most important of all is that it has at its back perhaps the richest hinterland in all the world, a veritable commercial empire waiting to be explored, exploited and developed. The construction from Prince Rupert to Prince George, the lonely prairies and silent forests resound to the shouts of workmen and the clank and clang of tools. Were I a young man with courage, energy and ambition, a little cash and a speaking acquaintance with hard work, I would walk briskly to the hearest railway ticket office and say to the sperior pants much babing the should be you please, I wait get there before it is too late to be

A BEAUTIFUL MEMORIAL.

A very beautiful memorial window has just been placed in the chancel portion of St. Alban's Cathedral. This window, which contains the life-size figure of St. Simon and St. Matthias, is one of the two-light windows of which there are six, and when completed will represent the 12 apostles. Below the figures in this window are the armoral bearings of the donors, which are very righly portrayed. The coloring of the entire window is very harmonious and has a most beautiful and striking effect when seen from the inside of the church. It is considered by many to be a perfect work of art in the line of stained glass, and is highly creditable to the artists, The N. T. Lyon Glass Co., Limited, who have designed and executed the window.

Ex-Minister of Finance Says People Are Determined Not to Lower Living Standard.

LONDON, Tuesday, Dec. 23.—(C.A.P.) LONDON, Tuesday, Dec. 23.—(C.A.P.)
—Arthur Myers, ex-minister of finance in New Zealand, speaking here yesterday, reviewed the economic and financial condition of the country in order to justify past and future calls on the London money market, and also described what was being done and aimed at by the Dominion in relation to the problem of imperial defence in the Pacific. Mr. Myers stated the total debt of New Zealand was £90,000,000 debt of New Zealand was £90,000,000 of which £55,000,000 was directly reproductive. New Zealand had been in the market frequently in the last few years and no doubt would be for some

years to come.

They were determined standard of living should not be lowered by Asiatics. The time had come when New Zealand should have her own navy and in time of war that navy would be placed under the control of the British admir-alty. The dominions whose shores were washed by the Pacific should unite to police the Pacific Ocean and so relieve the mother country of the duty of safeguarding trade routes in those waters.

WHAT TORONTO'S EIGHT GOLF CLUBS WILL DO IN OFF SEASON

Local Wielders of the Cleek HAVE A LITTLE BET and Iron Have Fine Prospects for Next Season-Changes and Improvements.

The golf season is drawing rapidly to close and unless something unforeseen longs this mild spell the players will have all packed their clubs away by the being an extremely mild winter the over. Thus it was not the association's being an extremely mild winter the Lambton Club held their monthly handicap in January, but it is hardly likely that they will be so fortunate this season. It has been a long round of succeeding goif games from the fifteenth of March until now, and the local men are congretulating themselves upon the courses and the weather. After all the old country has not much more of a playing season than Toronto, when you come to take into consideration all the rain and mists that prevent the enjoyment of the game there.

Toronto, with her eight courses and their palatial clubhouses, may indeed be proud of her showing in the golf world.

ing season than Toronto, when you come to take into consideration all the rain and mists that prevent the enjoyment of the game there.

Toronto, with her eight courses and their palatial clubhouses, may indeed be proud of her showing in the golf world. Nearly five thousand people are actively interested in these clubs, and they can point to any one of the courses for favorable criticism with the best. The new Toronto links and the Rosedale course are just as good as any in America and even the English critics who visited here this year spoke well of them and stated that they were just as good as any of the inland courses in England or Scotland.

The Toronto-Links.

The Toronto-Links.

The Toronto-Links.

The Toronto-Links history. The links have been in great shape all year, and the greens held out so well during the dry spell that they will be nearly able to support themselves next year. The course has now attained a sort of permanency and outside of a few minor repairs there will not be any changes next spring. The bunkers will be strengthened in some places, while the hazards will be cleared out and made modernly playable.

The Rosedale is still holding her own, and in entering upon her fifth season a in her first, while the clubhouse and course have seemed to blend themselves into the scenery so that they have become nearly a part of it. The tenth and twelfth holes will be lengthened by clearing the woods away behind the teeing grounds, and the sportiness of the holes. A new shop for the professional, Frank Freeman, will be added, and it will be a great deal larger and better equipped than the present one, which has grown inadequate.

The Lambton course has become one of the permanent ones, and no changes are made in its style or holes nowadays except slight repairs, etc. The club officials have spent a lot of money during the past season in having the Humber River cribbed along its banks, which will prevent it from overflowing in the spring and doing untold damage. The annual at home of the members will be

New Holes at Scarboro. Scarboro Golf Club is just its first season and under shandicaps that have been present that came thru in years course the dry summer played havoc with the upper levels, but in the valley there is very little to be desired thru the green. The new rine holes to the west of the present nine will be opened in the spring, and they will be opened in the spring, and they will be opened in the spring, and they will be very tricky and difficult, so that on the whole the course should be in the front ranks from the beginning. The club house, which is the largest in the country, or even the States, will be ready very soon for occupation, and it is a great credit to the members are looking forward to taking much pride in its equipment.

The Lakeview Club is rapidly making progress in getting its course in condition to stand the summer suns, and its enthusiastic members are bringing its name into the golfing world. It is becoming very popular, and its membership is growing fast.

The North Toronto Golf Club and the Toronto Hunt Club-are not as active as they used to be, but are having good sport. The former expect to soon get their proposed Summitt course under way.

Credit Course Remodelied.

sport. The former expect to soon get their proposed Summitt course under way.

Credit Course Remodelled.

Last but not least is the Mississauga Club, and their achievements have been marked with great success. Breaking into the game with lots of opposition they came ahead fast and today have made a name for themselves that will not soon go down. An entirely new course has been laid out by George Cumming, the propular local professional, and it promises well, as he had very good ground to work on. It is practically finished now and except for the greens, which are all ready for seeding, is ready for play. It will be in good shape for the spring oppening. The entire course has been piped and a modern watering system will be used thruout. The new clubhouse is another feature, and it has been built of stone that was quarried right on the links. This has just been opened up and the members are greatly pleased with it. The many friends of Willie Freeman, assistant to George Cumming, will be glad to know that he is improving rapidly and will return to the city next May. He had an offer from a Winnipeg Club, but owing to his filness was unable to come to terms with them.

The following are the players from which the Canadien team to play the Torontos in the opening N.H.A. game will be chosen: Newsy Lalonde, Donald Smith, Hector Dallaire, Dubeau, Marchand, Berlinquette, Vezina, Frechette, Gette and Guevremont. Laviolette is still a holdout.

Osgoode Hall had another good work-out yesterday, and Manager Young has a likely looking squad. The Hall boys are just beginning to find their ice legs and will be in grand shape by the end of the week.

Jimmy Murphy divided his Ontario pro. outfit into two teams yesterday morning and gave them an hour of real hard work. Marchillon surprised the railbirds with his nice stick-handling and hard back-checking. He looks like a good man. Rankin and Cross both shaped up well in the nets, and Murphy will carry them both. The McNamara Brothers and Freddie Lake are sure of jobs, and Marchillon may be carried as a spare defence man.

The forwards will be picked from Smith, Scott, Oke, Hunt and Vair. The Toronto pros. are right in the pink for the opening game of the N.H.A. with the Canadiens here on Saturday night. Jack Marshall gave them a good hard drilling yesterday morning with instructions to hand out good stiff checks thruout. Andy Kyle signed a contract and will be carried for the defence. The blue shirts showed a nice passing game yesterday, and with the condition should be hot favorites for Saturday's game.

Halifax Herald: Fred Doherty is expected in a day or two with a squad of players from upper Canada to form the nucleus of the Crescent team. It may be something like this: Cross, Kyle, Doherty, Harold MacNamara, Dallaire, Harold MacNamara is said to be as fast as fire and bears the reputation of being a pretty classy man in the centre position. The ability of the others is well known and they look like a pretty nifty organization.

As a result of negotiations between Manager Harry Brown of the Detroit Arena Hockey Club and Secretary W. R. Vining of the London Hockey Club an arrangement was reached whereby London play in Detroit on Tuesday and Friday nights of this week, Dec. 23 and 26. This arrangement is a forerunner to a big international series of games between London and Detroit, which will be staged early in March for a large trophy, which will go to the winner of several home and home games. SINGLE RINK PLAY FOR THE OPENING

Both Managers Have Their Slight Alteration in Canada Life Trophy Competition-Officers Elected.

Granite—H. T. Wilson, J. Meirose Macdonald.

Toronto—Dr. Clark, G. S. Pearcy.
Queen City—C. E. Pearson, R. B. Rice.
Lakewiew—Dr. Wylle, Hugh Spence.
Parkdale—A. T. Howe, R. E. Dallyn.
High Park—D. Henderson, R. K. Grant.
West Toronto and Aterdeen were represented by their secretaries.

The proposal to alter the manner of playing the competition so as to shorten the time was the chief matter of discussion, and it was finally agreed to make a bonspiel of it, playing twice a day, at three and eight o'clock. The number of ends is reduced from sixteen to fourteen.

The preliminary round was set for 2 o'clock on Thursday, Jan. 8, with the first round at eight the same day, and continuing each afternoon and evening until completed.

Entries will close at the Granite Club at 3 p.m. on Monday, Jan. 5, and the draw for Thursday will be published in Wednesday morning's papers. Prizes will be provided as usual by the committee, and in case of postponement because of lack of ice play will be called on by the chairman and secretary, who will arrange, however, that there will be no conflict with the Lindsay bonspiel, to be held Jan. 12 and 13.

HOCKEY GOSSIP

Very likely the Bank League will open its season on Saturday afternoon at the Arena, with Union meeting Royal in the first game, at 1.30, and Dominion clashing with Commerce in the second, at three o'clock. These games were given out last night unofficially, but in all probability they will be adopted at the meeting of the executive. On New Year's afternoon there will be another double-header, with Bank of Toronto stacking up against Imperial, and Dominion tackling Standard. The season in this league looks to be the very best it has ever seen, and it should be nearly as fast as O. H. A. hockey.

Crane of last year's Stratford is in town and will play for the B Commerce. He will be a great

Imperials will be there, stronger than ever, this year. They have Schlegel of the Argos, who played in Edmonton last year, and Captain Kidd is returning to town, so that he will be available also.

Manager Lesueur is determined to have his men in the best of shape for the opening game with Quebec on Saturday. Lesueur figures that the Ottawas can down the champions, and that if they do pro. hockey will be well on the road back to the popular favor it lost last winter. The Ottawas are badly off for forwards, having only the three regulars. Parragh, Ronan and Broadbent. Manager Lesueur has just about completed arrangements with Lowe, the star centre-ice man of the Stratford O.H.A. team, to go there at the end of the week. He may also retain Alex. Currie and one of the local amateurs, which would round out his team. Wilson, the Pembroke man, is showing up fairly well, but the Ottawa defence will probably consist of Lesueur, Merrill and Hamby Shore. Shore's work so far in practice has been very good, and he looks to have regained his form of 1911, after a couple of indifferent seasons in the game.

town, so that he will be available also.

An Ottawa despatch says: Mr. Frank Ahearn refuses absolutely to hand in his charges against the local amateur hockey players to the Interprovincial Hockey League, claiming that he does not intend to give the league a chance to whitewash the players, who, he claims, have demanded a consideration for playing the game. He is quite willing to make direct charges to officials of the A.A.U. of C., but will not make them to the Interprovincial. It is the general opinion in the city that the charges should be put in, or that the Stewarton man should withdraw his statements, it is also intimated by amateur supporters that the whole affair is simply an attempt to force several of the good amateurs to jump to the ranks of the pros.

"Until the hockey fans of the coast signify their disapproval of the offside rule it will remain a part of the P.C.H. A. constitution." states Frank Patrick, president of the coast league, with regard to the adoption of the offside rule by the coast league. With regard to the adoption of the offside rule by the coast league.

Lecky, the good London amateur that Jimmy Murphy had a lot of trouble in landing, will not be of much use to the Ontarios after all. Lecky broke his kneerap first time out Saturday, and will be out of the game for the rest of the whiter.

The Crescents of the Beaches League have the following men signed up: Gord Lynn, Fred Stewart, Gord. Laing, Eimer Stewart, Gord. Little, Cecil Grant and Norman Brown. PLEASANT DINNER AT SEA.

A small but select group of journalists have been invited to come aboard for the new liner's maiden trip, and a merry party sat down to dine in the saloon just as they were leaving port. After crossing the bay a nasty, choppy sea made itself unpleasantly felt. The captain, seated at the head of the table, beamed upon the assembled company as the soup was circulated. "Well," he observed jovially, "I hope that all you 25 gentlemen will have a very pleasant trip, and that this little gathering of ere—twenty-four will be much benefited by the voyage. ST. CATHARINES, Dec. 22. An apparently new rot on formatoes has been discovered in the Niagara district by A. W. McCubbin of the Dominion library of plant pathology, who is here conducting a series of experiments and investigations. He is now following up the discovery of the new tomato infection.

Prof. McCubbin is treating the peach tree canker and is experimenting with rot in apples, with special attention to the dry black spots which mysteriously form on the surface of the fruit.

He stated that he had found browning of the peach trees, an evidence of winter injury, which seems remarkable, considering the mild weather that has thus far been experienced. During the year just closing less than six thousand trees were taken out of the district infected with "little peach" and "yellows." Last year 25,000 were destroyed on this account, and in the previous year the number reached 40,000.

Prof. McCubbin, after minute searching declares that the more important ber reached 40,000.

Holiday Luxuries

HE holiday season is the most delightful time in the year to entertain for then the stores are so full of appropriate and beautiful emblems and delicious edibles that one cannot go wrong in one's choice of a menu or table decorations.

Cherry red and bright green are the accepted colors for those days, so a pot of blooming poinsettia, or one of the new Japanese midget bolly trees, will be the proper thing for a centrepiece. It is a gift, too, that mother will enjoy, for it may be used on New Year's and will stay fresh and bright, a pleasant reminder of happy days, for many weeks afterward. In delicatessen stores you will find the most tempting imported fruits displayed. There is a firm in Nice, France, which sends over boxes of preserved fruits that fairly coax the dollar from our purses with their beauty.

The little boxes contain only four pears, figs, or peaches, but they are of extraordinary size, and in the boxes are also leaves, blanched with acids, that look as the they had just been plucked from the tree. These wonderfully preserved fruits may be arranged so exquisitely that they are not an

extravagance once a year.

The fruit should be lifted from its nest of leaves and dipped quickly into boiling water, and out again immediately. Dry very gently with a soft cloth and then tint their plumped skins with a little cake coloring or dissolved carmine. Use these with our own fruits that are in season or cover them with a fine fruit jelly or gelatin, using a fancy mold.

The leaves, of course, are put in the mold, too, and one necessary thing to bear in mind is that when the gelatin is placed on the serving platter it will be inverted. So arrange the fruit and leaves in the bed of jelly with

All fruits and nuts may be crystalized, and when finished make deliclous bon-bons, but the process requires considerable knowledge of syrups

Preserved fruits are used; they should be drained and then slightly dried in a moderate oven. A simple syrup of powdered sugar and water is boiled until it threads and curls from a spoon. This is called "the crack stage" by confectioners. The fruits, or nuts, are laid in a shallow, oiled candy pan and the syrup poured over them until they are covered. As the syrup begins to harden they must be lifted out most carefully and placed on a buttered marble slab or platter to finish cooling.

Crossley and Hunter, the well known evangelists, answer:

"In making our annual contribution we want to express our gratitude that, while some years ago, because of lack of information uncomplimentary remarks were occasionally heard re the institution and its promoters. Now, not only the churches, fraternal societics, Governments, educational societies, corporations and companies, but people generally all over the Dominion commend the life-saving work of the institution, while increasing thousands cheerfully contribute their money to the Christ-like work.

"The numbers of people will soon be multiplied who will not only send their annual contributions, but will also leave bequests in their wills, as we have done to the Muskoka Free Hospital for Consumptives.

If one could be found who is still out of sympathy with the work, we would like him to accompany us in our annual summer visit to the institution for a song and saying service, and we feel sure if he could see and hear what has called forth our adminitude of the institution, he would certainly be "Fraternally,"

GRAIN MOVEMENT OF HUGE VOLUME

Shipments From Twin Cities Far Ahead of Last

Year's. FORT WILLIAM, Dec. 22.—(Spe cial.)-From figures obtained from the

board of grain commissioners, approximately 191,000,000 bushels of grain has been shipped from elevators at Fort William and Port Arthur during the season of navigation. From Sept. 1 until Dec. 12, 127,000,000 bush els of grain have been shipped to the east. This is 52,000,000 bushels more than for the same period last year. Of 32 steamers wintering at the head of the lakes this year, 18 are of American lines, and the remaining 14 belong to Canadian lines. The approximate capacity of the entire fleet is 6,000,000, and already 4,250,000 bushels have been loaded into boats by the end of December. Elevators in the Twin Cities at present contain 14,000,000 bushels of grain, which leaves the storage capacity of 28,000,000 yet to be filled. Grain is coming down to the water front in easy shipments, which dissipates any chance of grain con-

The United States tariff, which had almost destroyed the Welsh tinplate trade, promises in its revised form, it is said by the makers, to prove the salvation of the industry, as they now find they are able to compete successfully with trans-Atlantic competitors.

Canadian Pacific the Weak Feature-More Cheerful Tone on Market.

LONDON, Dec. 22.—Money was in good demand and discount rates were steady today. The stock market was irregular and uncertain, owing to fears of unfavorable financial developments in Mexico. Consols advanced a quarter of a point on government purchases, and gave a cheerful tone to other British securities, but they eased off in the afternoon. Rubber and Kaffir shares were steady, but the Paris specialties and Mexican issues relapsed on continental selling. Canadian Pacific was a weak feature.

shares of that company. The collapse in New Haven has also left a bad impression upon the market; altho the disposition is now to look more favorably upon the future of that security. The company has a new and efficient management, its policy has radically changed, and there is a welcome disposition on the part of the public to give this immensely valuable property a fair chance to work out its own redemption."

made up his mind.

The postmaster-general had a long conference with the president today and it is understood that government ownership was one of the subjects under discussion. It is not believed that the administration will take any definite position on the subject now. After his conference with the president Mr. Burleson manifested an indisposition to discuss the subject. "It will take some time," he said. "to work the problem out to get facts and figures on it." The postmaster-general indicated that he was in no hurry to press his recommendations and that he would make a complete survey of the situation before further expressing himself.

RECEIPTS OF CORN ON A HUGE SCALE

Prices at Chicago Lower for All Grains-Visible

CHICAGO, Dec. 22,-Huge receipts of corn here today pulled down prices for all grain. Net declines were as follows: oats, %c to %c. In provisions, the out-

Estimates of the amount of corn arriving in Chicago ran as high as 1500 car. loads. The consequence was a break of more than a cent a bushel in the December option. Other months were affected to a lesser extent. Immense quantities of low-grade corn went on sale at unprecedented discounts, compared with quotations for futures. The offerings, however, were all taken by elevator concerns, that expect to find a profit in drying. Omaha reports of 2,000,000 bushels of corn on tracks there waiting to be unloaded, acted as an additional burden on prices. So also did advices from New York that a whole train of Argentine corn had been sold there to go to Wilkes-Barre, Pa. Nevertheless, shorts falled to smash the market as completely as they had hoped, and they were covering at a fair upturn during the last part of the session.

the session.

Visible Supply Large.

Snow in the winter crop belt, combined with the break in corn, put the wheat bulls at a disadvantage. An unexpected increase of the U. S. visible supply counted, too, in favor of the bears, but there was some offset in the shape of an estimate that the Argentine exportable amount would not exceed 60,000,000 bushels, the smallest total yet named. Improved milling demand helped make the feeling at the close firm.

Oats suffered from the setback in corn, but received support from resting orbut received support from resting ders. Shipping call was light,
Provisions rose with hogs.

Good Demand-Sheep and Lambs Plentiful.

MONTREAL, Dec. 22.—At the Montreal Stock Yards, west end market, offerings this morning were 1500 cattle, 1150 sheep and lambs, 1200 hogs and 400 calves.

There was no important change in the condition of the market for cattle today, prices being well maintained at the advance noted a week ago. A feature of the receipts was the number of northwest range cattle on the market, the quality of which was generally good, and they met with a good demand.

The supply of sheep and lambs was somewhat larger than it has been lately, but in spite of this fact the tone of the market was very firm. Choice milk fed calves were rather scarce, while the en-

FRESH ERUPTIONS HAVE

OCCURRED IN AMBRIM

PARIS. Dec. 22—(Can. Press.)—
Fresh eruptions have caused further destruction of hife among the natives of the Island of Ambrim in the New Hebrides group, according to a report received today from the French Ministry of Marine from the captain of the French gunboat Kersainton, on his arrival at Noumea, New Caledonia. Dip Point, on the western coast of the island, has been buried beneath a heavy fall of cinders and many of the inhabitants are missing. Two local steamers rescued 1300 natives. No Europeans or Americans have been injured or killed.

EXPLOSION ON ROYAL TRAIN.

ROSTOCK, Mecklenburg-Schwerin, Dec. 22—(Can. Press.)—An explosion occurred on the Russian court special train at the railroad station here, just before the arrival of Dowager Empress Marie of Russia, who left Copenhagen today for St. Petersburg, Seven members of the train crew were injured.

According to the official account the explosion was caused by a defect in the lighting apparatus.
