Defences of Germans Strong at Tsingtau

KIAOCHOU, Shantung, China, Aug. 27.—German reservists from distant parts of China are still entering Tsingtau. Many of them, khaki-clad, are along the railway in Wei-hsien, Province of Shantung, and Tsingtau. The first German outposts are at a village twelve miles from Tsingtau. It is there that the bridge has been broken.

ATHENS, Friday, Aug. 28.—The Italian Government has ordered the general staff to be ready for action in a few days; Bulgarians have invaded Serbia.

French and British Repulsed an Attack in North-eastern France—Retired on Second Line of Defence From Belgium—Russians Make Important Strategic Gains—Should German Flanking Movement Prove Successful Northeastern France Would Be at Germany's Mercy and Communication Between France and England Might Be Cut Off.

LONDON, Aug. 28.—An attack of Germans in superior numbers in the northeastern part of France today was finally repulsed by the French and British troops. Word has come that, altho the Germans are pressing forward reinforcements as rapidly as possible, the second line of defence, on which the allies retired from Belgium, is being stoutly maintained.

LONDON, Aug. 28.—At last the fleet has been heard from, and this is the glorious message she sends:—“Two German cruisers sunk and another fading into the mist wrapped in flames and in a sinking condition. Two German destroyers sunk and the others damaged, but to what number is not known. Every vessel of the squadron affort, returning in good order.

Lord Kitchener Says Reinforcements for Allied Forces Are Now on the Way—Marquis of Crewe Gives Assurance That India's Frontier Will Be Guarded.

LONDON, Aug. 28.—An attack of Germans in superior numbers in the northeastern part of France today was finally repulsed by the French and British troops.

Word has come that, altho the Germans are pressing forward reinforcements as rapidly as possible, the second line of defence, on which the allies retired from Belgium, is being stoutly maintained.

The German embassy reports successes for the kaiser at Longwy and Nancy, France, and advises say that the force under command of Crown Prince Wilhelm has seized the French towns of Longuyon, Villerupt, Jappecourt, Ardun-le-Roman and Briey. Berlin asserts without reserve that the battle of Manbeuge, between the Germans and the English, was an overwhelming victory for the Germans. The Teutons seem to be picking out the British especially for revenge, and it is believed that Berlin would rejoice more over annihilating a British force than over the downfall of Paris itself.

Word has come that the French forces massed for defence between the first-class fortress of Verdun and Sedan number no less than 1,000,000 men equipped with notably powerful artillery.

RUSSIANS CROSS THE VISTULA. Advances from St. Petersburg say that an advance of 2,000,000 Russians across the River Vistula in Germany and across the Dniester in Austria has resulted in important strategic gains, and that this offsets the retreat in France of the French and British before the German troops.

HASTENING FORWARD REINFORCEMENTS.

PARIS, Aug. 28.—France is hastening forward reinforcements to the troops menaced at Arras by a strong German force moving on the French flank, in order that the defenders may be able to maintain their position. Should the German flanking movement prove successful, it is conceded practically all of the northeastern portion of France would be at the mercy of Germany, and, in addition, communication between France and England might be cut off.

A full force of 1,200,000 German invaders today hurled itself at the second line of the allies' defence.

VIGOROUS RUSSIAN OFFENSIVE. The war office tonight issued this announcement: “In Galicia the Russians are taking a vigorous offensive. After successful engagements near (name of place evidently cut out by censor) they are marching on, and are now only twenty miles from that town. The Germans continue an active retreat toward Koenigsberg.”

CHECKING RUSSIA'S ADVANCE.

BERLIN, Aug. 28.—The war office announces that strenuous measures are now under way to check Russia's advance in eastern Prussia. Reserves are being pushed to the front. The German army will give battle in full force when the Russians come into contact with the first line of German forts. Wireless telegraph messages from Naum, Germany, by way of Sayville, Long Island, say that the German troops have defeated the French and British everywhere along the line of battle in nine days of fighting.

FILLING SOLDIERS' PLACES.

LONDON, Aug. 28.—No time is being lost in filling the places of the British soldiers killed and wounded in the fighting in France against the Germans. Addressing the house of lords this evening, Field Marshal Earl Kitchener, secretary of war, announced that the places are being filled immediately.

AUSTRIANS ON DEFENSIVE.

Vienna despatches state positively that the Austrian forces operating in the south, that is, against Serbia and Montenegro, the latter country having thrown her lot in with the former, have been ordered to remain on the defensive. The reason for this order is the fact that a large number of troops have been transferred to Galicia to oppose the Russians, who, it is admitted, are making alarming progress.

AUSTRIA DECLARES WAR.

Austria has declared war on Belgium, and gives as her reason for so doing, that Belgium is aiding Great Britain and France in the war on Germany, Austria's ally.

Canadian Press Despatch.

LONDON, August 28, 2.55 p.m.—Lord Kitchener, secretary of state for war, announced in the house of lords today that in addition to reinforcements which would be received from this country, the government had decided that the British army in France should be increased. The troops to increase the forces were now on the way, he said. He noted that all the gaps in the army in France were being filled up.

That the employment of native Indian troops was meant by Lord Kitchener was later confirmed by the Marquis of Crewe, secretary of state for India. The Marquis of Crewe said: “It has been deeply impressed on the government that the wonderful wave of enthusiasm and loyalty at the present time passing over India is largely due to the desire of the Indian people that Indian soldiers should stand side by side with their comrades in the British army.”

Indian Troops Eager. “India is aware of the employment of African troops to assist the French army, and it would have been a disappointment to Indians if they had been debarred from taking part in the war in Europe.

“Our army will thus be reinforced by soldiers—high souled men—of frater-class training, and I am certain that they will give the best possible account of themselves. I venture to think that this keen desire of our Indian fellow subjects to co-operate with us is not less gratifying than the same desire shown in the self-governing dominions, some of whose soldiers in due course, will no doubt also be found fighting side by side with British troops and Indian troops in the war.”

“We all know that India does not possess an inexhaustible reservoir of troops and the defence of India must in itself be a primary consideration, not only to India itself but to us, but I am able to state that so far as external aggression is concerned—of which I hope and believe there is no prospect and I should like to say there is scarcely a possibility—in spite of these heavy drafts on the Indian army, the Indian frontiers will be fully and adequately secured. As regards the risk of internal troubles I believe that the enthusiasm which pervades all classes and races in India will render anything of the sort altogether impossible.

“That enthusiasm has found vent in many different ways—in some cases by gifts of great liberality for the service of the troops in the field, I was told only yesterday by the Viceroy of India that some of the principal Indian princes had sent a gift of 50 lak rupees (about \$2,500,000) for the use of the troops in the field, and there has been on varying scales a number of offers of the kind.

“I feel confident, therefore, that the action we take will meet with a most enthusiastic reception in India, and I believe it will be approved by your lordships, the house of commons and by public opinion here generally.”

Australian Dreadnought Will Aid Bombardment Of German Stronghold

Three German merchant ships, the steamers Eriola, Hanametel and Paklat have been captured by the British fleet and taken to Weihaiwei. A number of refugees women and children from Tsingtau on board the Paklat were transferred to another vessel and taken to Tientsin.

CRUISERS MADE CAPTURE.

HONGKONG, Aug. 27.—(Delayed.)—The German steamer Senegambia, with a cargo of cattle and coal, was made a prize yesterday jointly by the British cruiser Hampshire and the French cruiser Duplex.

The German steamer Ferdinand Laeiz, which sailed from Yokohama July 26 for New York, arrived here tonight a British prize. It is reported that the German steamers York and Prinz Waldemar also have been captured and are being brought here.

The naval prize court is sitting today on its first case, that of the capture of the collier Elspeth.

Aeroplanes Valuable For Scouting Work

PARIS, Aug. 28, 8.20 p.m.—The value of aeroplanes in scouting work is a subject of discussion among technical observers.

“Our military aviators are rendering invaluable service,” says the Temps, quoting an authority on aviation, whose name is omitted for military reasons. “The paper continues: “Our aerial forces are infinitely superior to those of Germany. Besides, some hundreds of military aviators and all our best civilian aviators are in the service. Brindejonc, Des Moutins, Roland Garros, Eugene Gilbert and Jules Vedrines all are at the front. Vedrines has just completed a raid with an apparatus of extraordinary power. Something more will be heard of this later.”

“The experience of our air people shows that an aeroplane is safe from bullets when a thousand yards high, and at two thousand yards an aviator can observe accurately with the naked eye. As our flyers can guide a machine with one hand and use glasses with the other, the masses of the enemy cannot escape observation. One danger to the French aviators is from our own soldiers, who have not learned to distinguish our aeroplanes from those of the enemy. I would suggest that we do not fire upon air craft at all unless absolutely sure that we know their identity.”

LADY BORDEN TO PRESENT COLORS

OTTAWA, August 28.—Lady Borden, wife of the prime minister, has expressed her desire to present colors to the Nova Scotia companies going to the front with the Canadian expeditionary force. Colonel Hughes has accepted the offer.

Mrs. J. D. Haven, wife of the minister of labor, is giving a thought to the lonely odd soldiers who are going to the front from St. Thomas, Ont. She is making warm coverings for the men's feet. She anticipates that they will be found very acceptable during the cold winter nights. Mrs. Crethers is making these herself and has already finished over half of them.

H. G. WELLS' SIXTH ARTICLE ON "LOOKING AHEAD" WILL BE IN THE SUNDAY WORLD TONIGHT

there from Namur report that the town fell at midday on Sunday before new supplies of ammunition had arrived at the forts. The Germans had bombarded interruptedly from Friday until Sunday. On Saturday a shell exploded in the Marchelette fort. The largest gun and one 6-inch gun were put out of action. While trying to escape from the fort, 200 Belgian defenders, it is reported, were virtually wiped out by German shrapnel and machine guns.

**BLOCKADE OF KIAOCHAU.** The Japanese blockade of the German leased territory of Kiaochau, in China, has been declared as starting from 9 a.m. yesterday, says the British Government's information bureau. Reports received tonight state that Brussels is quiet under German occupation. The invaders, however, fear an attack from Antwerp, and have mounted quick-firing guns on the outskirts of Brussels. The north side, facing Antwerp, is very well protected. The German flag is now flying over the ministry of foreign affairs in Brussels, having been removed from the town hall.

**FIGHTING IS LESS INTENSE.** Direct Copyrighted Cable to The Toronto World. PARIS, Aug. 28.—La Liberté says that the fighting which began yesterday north of Hirson has lessened in intensity. Travelers in that locality report that the German forces have been driven back in the direction of Chimay, and that the detonation of the guns is now heard only at long intervals. A convoy of German prisoners passed thru Limoges today. A non-commissioned officer with a group of forty German prisoners said that these were all that remained of the entire division. Hirson is located in Aisne, France, on the River Oise.

**MALINES NOT RECAPTURED.** AMSTERDAM, Aug. 28.—Private advices received here from Ghent state that the German troops, contrary to the reports generally circulated this morning, have not recaptured Malines, Belgium, midway between Brussels and Antwerp.

**AUSTRIAN DESTROYER SUNK.** BRINDISI, Italy, Aug. 28.—It is reported here that an Austrian destroyer was sunk by a British destroyer off Corfu, in a fight which lasted but 10 minutes.

**RELIEF FOR PRUSSIAN.** ROME, Aug. 28.—Advices say that the kaiser, having taken the Russian invasion on the east seriously, has sent a message to the council of ministers, ordering the council to undertake the immediate organization of all possible relief for the population of the Province of Prussia. The advices speak of the kaiser's "beloved Province of Prussia."

**JAPANESE CRUISER DAMAGED.** TSINGTAU, China, Aug. 28.—Two small Japanese cruisers were reported to have been badly damaged by shells from the fort today. The active blockade of Tsingtau, the port of Kiaochau, Shantung, China, by the Japanese fleet, is now in operation. Free passage has been granted to the Austrian cruiser Kaiserin Elizabeth.

**COMMUNICATION CUT.** WASHINGTON, Aug. 28.—By reason of the German advance, communication between the French and British on the Belgian frontier has been cut. This information was received by wireless today by the German embassy. The British and French are completely surrounded on the Sambre and Meuse Rivers. The German cavalry is also said to be pushing to Ostend, and the Belgian coast town is to be occupied at once.

Destruction of Louvain Act of Wanton Cruelty

Germans, Professing Belief That Belgian Citizens Had Fired Upon Them, Set Fire to Splendid City After Inhabitants Had Been Expelled.

Canadian Press Despatch. LONDON, Aug. 28, 7 p.m.—The war information bureau announces the following: "The Belgian minister of foreign affairs reports that on Tuesday a German army corps after receiving a check withdrawal in disorder to the City of Louvain. The Germans on guard at the entrance of this incursion, fired upon their countrymen whom they mistook for Belgians.

"In spite of all the denials from the authorities, the Germans, in order to cover their mistake, pretended that it was the inhabitants who had fired on them, while, in fact, all had been disarmed more than a week before. Without enquiry and without listening to any protest, the German commander announced that the town would be destroyed immediately. The inhabitants were ordered to leave their dwellings and some were made prisoners. The women and children were placed on trains, the destination of which are not known.

"Soldiers with bombs and hand grenades then set fire to all parts of the city. The splendid church of St. Peter, the university buildings, the library and scientific establishments were delivered to the flames.

**BURNING OF LOUVAIN CALLS FOR PROTEST.** Canadian Press Despatch. WASHINGTON, Aug. 28.—Formal protest against the burning of Louvain by German troops as a violation of international law and the laws of humanity was submitted to the state department late today by the Belgian minister.

Patriotic Fund Closed With One Million Dollars Promised

The work which the organizers of the Toronto and York County patriotic fund prepared for themselves has been completed, and as a result the magnificent sum of one million dollars will be set aside for the relief of wives and children whose breadwinners are at the front. In the treasury already is the sum of \$382,558, and \$100,000 more is promised for rapid delivery. Incidental coming from various sources will set the million mark. The campaign closed in a blaze of enthusiastic zeal.

The whole effort has been blessed from the beginning with the most auspicious benedictions, ranging from that of King George on the throne, and other respected dignitaries, to every clergyman in Toronto and York County pulpits. It was a wonderful demonstration which Sir William Munro, who received when he announced from the platform of Massey Hall last evening in the middle of the last program, the sum already received, and so splendid were the contributions that it was impossible to announce the donors. Three gave \$50,000, seven gave \$25,000, not less, and the estimation of Sir William, was the \$100,000 gift of American citizens in Toronto. When it was mentioned that the Canadian Northern Association, which had banded with this and in view.

"The incident is an eloquent endorsement of the cause of freedom, and it comes from a more appropriate country," said Sir William, and in reply Mr. Warfield stated that as his people had come to Canada from choice they found her worth defending.

Small contributions were dribbled from day to day and the collection of the larger sums which have been promised will be proceeded with before the organization is disbanded.

First C.N.R. Thru Train Due Here Next Saturday

Next Saturday the Canadian Northern will run its first transcontinental train from Toronto to the prairie provinces. The connecting link between Sudbury and Port Arthur has been completed, which will give a thru service direct from Quebec to Edmonton on the extreme west of the prairie.

This year's grain haul of the Canadian Northern will be carried via the new all-rail route, passing thru Toronto to the seaboard. Up to the present the grain brought from the west was carried by freighters from Port Arthur or transhipped via the Canadian Pacific to the Atlantic coast. This winter the Canadian Northern will be able to haul grain over its own lines thru the winter months, and will increase the crop haulage facilities enormously.

By the end of the year the Canadian Northern direct route from the west, via North Bay to Ottawa and Quebec, will be finished. There still remains 40 miles of unconstructed roadway east of North Bay, but it is unlikely that the road will be ready to carry transcontinentals until some time in the spring.

In anticipation of a busy winter the company is rushing ahead repair work between Toronto and Port Arthur. A train of men will be sent next week to Parry Sound to fill in with gravel a long section of trestle work.

RUSSIA DECLINES WAR MEDIATION

Special to The Toronto World. WASHINGTON, Aug. 28.—Czar Nicholas, of Russia, is reported to have declined the proffer of the United States to mediate in the present European war. The reply couched in diplomatic and inconclusive language today, and Secretary Bryan surmised its reception with the deepest mystery. A reply from the Russian foreign office which was in effect an acknowledgement was received some time ago, but delivery of the message to the Czar was delayed because of the Russian secretary's absence in the field and the secrecy and rapidity of his movements.

British Force Held Off Nearly 200,000 Germans Losses Reported Severe

Casualties Heavy. "I regret to say that our casualties were heavy, but the exact numbers are not yet known. The behavior of our troops was in all respects admirable. Gen. Joffre, the French commander-in-chief, in a message published this morning, conveys his congratulations and sincere thanks for the protection so effectively given by our army to the French flank."

LIST OF CASUALTIES. LONDON, Aug. 28.—(12.25 p.m.)—The official bureau says that Earl Kitchener has received a telegram from Sir John French, stating that the latter feels strongly the necessity of giving full details of the casualties as soon as possible. He hopes to telegraph some of them immediately. It has been impossible in the circumstances to send them up to the present. The German force which attacked the British army is estimated at nearly two hundred thousand men.

Meetings to Be Held Thru United Kingdom

Premier Asquith Will Urge Upon Britons Seriousness of Situation and Necessity of Every Man Doing His Duty.

Canadian Press Despatch. LONDON, Aug. 28, 8.30 p.m.—Premier Asquith has decided to address meetings in the principal cities of the United Kingdom to make plain the cause of war, and to set forth that it is the duty of every man to do his part to make the issue a successful one for the British arms. The premier has directed letters to the lord mayors of the various cities with regard to these meetings, in which he says: "The time has come for a combined effort to stimulate and organize public opinion and public enthusiasm in the greatest conflict in which our people have ever been engaged. No one who can contribute anything to the accomplishment of this supremely urgent task is justified in standing aside."

"I propose as a first step that meetings should be held without delay not only in our great centres of population and industry, but in every district, urban and rural, throughout the United Kingdom, at which the justice of our cause should be made plain and the duty of every man to do his part, set forth. I venture to suggest to your lordships that the four principal cities over which you respectively preside, should lead the way. I myself am ready, as far as the exigencies of public duty permit it, to render such help as I can, and I should be glad, with that object, to address my fellow subjects in your cities. I have reason to know that I can count upon the co-operation of the leaders of every section of organized political opinion."

heaviest guns at any port they seize, and once more there will be an army encamped on the heights of Boulogne. "Let us, however, be grateful for one mercy. The international financial doctinaires and lunatics who wished to fit us out with a channel tunnel are silenced for good and all."

Canadian Press Despatch. LONDON, Aug. 28.—The Times' military correspondent, in discussing the situation on the French frontier, says: "The news that the allies have retreated to the line from Lecluseau to Cambrai shows that active defence of the line from Lille to Mauberg has been abandoned, and that these two fortresses have been left temporarily to look after themselves. "The necessity for holding the interval between the Scheldt and Cambrai and the Sambre near Lecluseau is probably due to the need for holding Metzler. Once this point goes and the Meuse between Metzler and Verdun is penetrated by the invaders, the whole system of frontier defence of eastern France breaks down, and if the field armies are inferior to the falaises of Champagne. "If this line is skillfully defended it should be most difficult to penetrate Lafere, Laon and Rheims, which are provided with permanent fortifications. But we are not at that point yet. Result Will Be Decisive. "The line from Lecluseau to Cambrai must expect an enveloping attack on the north, but this attempt will probably fail. "We have every right to expect success to-day, but if we do not win a decisive victory we must abandon our bases on the coast north of the mouth of the Somme and shift further south, either to Havre or Cherbourg. "If we are unable to resume the offensive and beat back the German attack from the north, one consequence will be that the Germans will establish aircraft stations along the Straits of Dover and thereby be able to keep us under constant observation. "We must meet this by anti-aircraft guns. Sportsmen should make practice parties for airship shooting. "The Germans will also mount their

BRITISH WARSHIPS TO CONVOY TROOPS

NEW YORK, Aug. 28.—The British consulate admitted to-day that at least five additional British warships have been added to the British-French patrol now engaged in searching for German warships in the Atlantic and in keeping the steamship lanes open to British shipping. A number of British battleships have been reported off the coast, and it is assumed they are here to convoy the Canadian expeditionary army force to France.

# Horrible Outrages Done To Women at Louvain

### Germans Sacked and Destroyed Beautiful Belgian City Following Defeat at Malines—Clergymen, Women and Children Shot and Every Infamy Known to Barbarians Was Perpetrated.

Special to The Toronto World. TERNEUZE, Holland, Aug. 28.—Louvain was sacked by the Germans on Wednesday night, following their defeat at Malines. The soldiers, enraged at their losses, suddenly started shooting women and children. Two clergymen were killed, one being an American. Women were raped and every infamy and outrage known to barbarians was perpetrated. This was done at the end of a week of German occupation and without cause.

**Official Statement.** The Belgian legation at London is as follows: "Last Tuesday night the German corps which had been operating between Antwerp and Louvain was completely routed by a Belgian expedition. It was forced to retire towards Louvain in the utmost disorder. "When it came near the City of Louvain the German garrison posted there mistook their comrades in arms for Belgians and fired on them, killing some and wounding others. The Germans, on realizing their mistake, accused the townspeople of having fired on them. This was an impossibility, as the Belgians, even including the Louvain police, had all been disarmed by order of the burgomaster when the town was surrendered to the Germans, as it was hoped to save the town from war damage.

"Despite the protestations of the Louvain authorities, the Germans directed the townspeople to march out of the city to a point officially designated. Then, as a reprisal for their own acts, the German commander at Louvain ordered that the city be given to the torch. Buildings were fired with bombs, and German artillery was used on the city hall and the public buildings. The city is now reported in ruins.

**Commander Refused.** "The German commander refused to listen to any protest or even to consider the denials which were attempted to be made by the Louvain officials. He simply announced that the town was immediately to be destroyed. He also directed that several of the more prominent citizens be taken out and shot as an example to all Belgians, which was done.

"The inhabitants were ordered to leave their homes at once. The men were taken prisoner and were hastily loaded into trains which had been requisitioned. They were hurried away to some unknown destination. "The soldiers were then furnished with hand grenades and bombs and directed to all sections of the city and

then set it on fire. Among the first buildings to go were the splendid church of St. Peter, one of the most noted in all Belgium. Next to fall before the bombs were the great university buildings and the scientific establishments.

"Within a very brief period this city, the intellectual metropolis of the Lower Countries for upwards of fifteen centuries, had been given to the flames and was nothing more than a heap of ashes."

## GERMANS ATTACK BELGIAN CONGO

### British and French Troops Will Aid in Resisting Invaders.

Canadian Press Despatch. PARIS, Aug. 28.—A despatch to the Havas agency from Libreville, in the French Congo says that the Belgian Congo has been attacked by German troops.

The Belgian administration in accordance with Great Britain has taken defensive measures and has informed the French government of its action.

**In Heart of Africa.** The Belgian Congo lies in the centre of Africa. It is separated from Kamerun, the German colony of Western Equatorial Africa, by the French Congo.

The area of Belgian Congo is estimated at over 900,000 square miles. It is administered by a governor general, and the native population is given as 15,000,000. The entire European population in 1913 numbered 5,465, of these 3,307 were Belgians.

The colony possesses a force of native troops, amounting to 18,000 men, 10 officers and 233 non-commissioned officers and Europeans for the most part Belgians. Among the chief settlements are Danana, Dama and Leopoldville.

French Congo or French Equatorial Africa is west of the Belgian Congo. It has an area of 5,069 square miles and a native population estimated at 9,000,000. The principal cities are Libreville and Brazzaville, with a total French population of about 700,000. French Congo is administered by a governor general. The military force consists of two regiments and two battalions of native infantry, and one squadron of regular cavalry.

Kamerun adjoins British Nigeria on the north west. It has an area of 191,000 square miles and a native population of 1,918,000. In 1913 there were 1,871 white residents, of whom 1,643 were Germans. The protectorate is under an imperial governor, and the seat of the government is at Ruess. The military force is given as 200 Germans and 1,650 native troops.

## ALLAN FAWCETT JAILED BY SUSPICIOUS GERMANS

### Brother-in-Law of Miss Percy Haswell Writes of Harrowing Experiences.

Allan Fawcett, brother-in-law of Miss Percy Haswell, who was for two years with the company here in Toronto, arrived on this side yesterday by the Cunard Line Andania, and in a letter dated at Montreal August 27, to Miss Haswell, describes some of his experiences when traveling on the continent in the interests of Maude Adams. "The trip was delightful," he writes. "The most exciting, and at the same time most unpleasant experience, was when, as he writes, he "was accused and locked up as a German spy."

Explanation and application to the American Consul at once cleared the situation.

## PALMER TO FRONT FOR NEWSPAPERS

### American War Correspondent Chosen to Go From the United States.

## NO DISCRIMINATION

### All Papers Will Get the Same Authentic War News.

Special to The Toronto World. NEW YORK, Aug. 28.—Frederick Palmer, the famous American war correspondent, has been nominated by the leading news associations of the United States to accompany the British forces operating in the European conflict. If Mr. Palmer accepts the assignment, as he probably will, he will be the only American correspondent permitted to accompany the British army.

He will represent jointly the Central News of America, the Associated Press, the United Press, the New York Sun News Service, and the International News Association.

The details regarding the handling of the cable despatches sent by Mr. Palmer have not yet been arranged, but Secretary of State Bryan, thru whom the negotiations with the British War office have been conducted, has made it plain that no discrimination in favor of any one of the press associations will be permitted.

The proposed plan of handling war news is new, but it is believed that it will prove most satisfactory. It will be decided by the press associations. Formerly each of these associations were compelled to send individual representatives and bear the expense which was divided.

The cable despatches received from Mr. Palmer, it is needless to say, may be relied on as being absolutely authentic, which will in itself be a source of comfort to the newspapers, who in the end pay the bills but to their readers also.

OTTAWA, Aug. 28.—The Syrians of Ottawa, have contributed \$105 to the Red Cross Society with a regret that they cannot do more. They expressed strong sympathy with the allies in the European war.

## AN INVITATION TO SICKNESS

### Impure Blood Means a Break-down in Your Health.

Impure blood is an invitation to sickness. The blood is at work day and night to maintain the health, and any lack of strength or purity in the blood is a weakness in the defence against disease. Anemia is the doctors' name for lack of blood. There may be an actual loss in the quantity of the blood, or one or more of its constituents may be lacking. Its truest symptom is pallor. Anemia is particularly common in young girls. It is not, however, confined to them alone, for it is this same lack of blood that prevents full recovery after influenza, fevers, malaria and operations. It is also present in old age and in persons who have been under unusual mental or physical strain. If you are suffering from this trouble take Dr. Williams' Pink Pills for Pale People. They make pure, new blood with every dose and this new blood means health and strength. Thousands have proved the truth of these statements, among them Mrs. Minnie Bartheaux, Annapolis, N.S., who says: "Following the birth of my third child I was a complete wreck. I felt and looked as if I did not have a drop of blood in my body. My heart would palpitate so violently that I could not walk upstairs without being completely exhausted. Night after night I would have to sit up in bed to get my breath. I had no appetite and suffered from severe headaches. I was taking doctor's medicine all the time and naturally felt very much discouraged. While in this deplorable condition my husband brought me home a couple of boxes of Dr. Williams' Pink Pills and before they were gone I could feel some improvement. I gladly continued their use until I had taken, I think, ten boxes, when I was completely cured, and I never was so well in my life as I have been since."

Dr. Williams' Pink Pills are sold by all dealers in medicine or will be sent by mail at 50 cents a box or six boxes for \$2.50 by writing The Dr. Williams' Medicine Co., Brockville, Ont.

## To Cure Catarrhal Deafness and Head Noises

Persons suffering from catarrhal deafness and head noises will be glad to know that this distressing affliction can be successfully treated at home by an internal medicine that in many instances has effected a complete cure after all else has failed. Sufferers who could scarcely hear a watch tick have had their hearing restored to such an extent that the tick of a watch was plainly audible seven or eight inches away from either ear.

Therefore, if you know someone who is troubled with head noises or catarrhal deafness, cut out this formula and hand to them, and you will have been the means of saving some poor sufferer perhaps from a complete loss of hearing. The prescription can be prepared at home, and is made as follows:

Secure from your druggist 1 oz. Parmit (Double Strength), about 75c worth. Take this home and add to it 1/2 pint of hot water and 4 oz. of moist or granulated sugar; stir until dissolved. Take one tablespoonful four times a day. The first dose promptly ends the most distressing headache, dizziness, cloudy thinking, etc., while the hearing rapidly returns as the system is invigorated by the tonic action of the treatment. Loss of small and mucus dropping in the back of the throat are other symptoms that show the presence of catarrhal poison, and which are quickly overcome by this efficacious treatment. Nearly ninety per cent. of all ear troubles are directly caused by catarrh; therefore, there are but few people whose hearing cannot be restored by this simple home treatment. Every person who is troubled with head noises, catarrhal deafness or catarrh in any form should give this prescription a trial. There is nothing better.

Important—In ordering Parmit, always specify that you want Double Strength. Your druggist has it, or he can get it for you. If not, send 75c to the International Laboratories, 74 St. Nicholas Street, Montreal, P.Q., who make a specialty of it.

### PREPARATIONS COMPLETED AT EXHIBITION GROUNDS

Monday Selected for Official Opening—Stage Productions Finished—Each Department Has Special Feature—Items of Interest for Everybody.

Exhibits have taken shape rapidly at the big Exhibition grounds during the past few days. The hustle and hurry of former weeks was only the foundation work. As the opening day approaches the many details of the exhibition on paper have been moulded into definite form, and two days prior to the official opening date finds things in a more advanced state of readiness than was ever the case in former years.

In deep contrast to the idle yet beautiful park grounds of the summer time, is the activity of these days. The large acreage resembles more than anything a busy, thriving city. Indeed, there is the population of a good sized town at work there now. When things are in full swing it requires some 15,000 people to display the goods, and care for the crowds in various ways.

It would be difficult to estimate the amount of money that is expended not only by the Exhibition authorities, provinces, states or governments, but by individuals, manufacturers and others endeavoring to give the public a thorough knowledge of the wealth, beauty, industry and possibilities of a world's output.

Many Attractions. From every corner of the globe, from every clime, from the region of the equator to those of the Arctic, the industrial, agricultural and educational features will be shown. Is it any wonder then, that thousands upon thousands of visitors make their way to Toronto year after year to learn of the achievements of other countries as well as their own. It is the latter, so, in preparation for this immense throng, scores of business men with their staffs, have been busy planning exhibits just a little better than ever been seen before.

Because of the fact that every available show space in the entire grounds has been allotted, it is expected that the 1914, designated "peace year" because of the expiration of 100 years of peace between the United States and Canada, will be just a little better than the other year in the history of the Exhibition.

"We have always judged our probable success by the number of entries sent in," said the prominent official yesterday. "This year, I am glad to say that the entries in all classes are far ahead of any previous year. This augurs well for the success of the great undertaking."

Departments Ready. A trip to the grounds yesterday revealed the fact that in all departments rivalry existed. Each one is making an effort to not only present something superior to former years, but is also trying to surpass his neighbor. This spirit is sure to bring about a greater display and these efforts will be crowned with even greater success on that account.

There are new and better buildings. The same may be said of the roadways. There are finer exhibits of manufactures and more of them. The latest scientific achievements in the use of electricity, gasoline, mechanics and so forth will be shown. Also, in the farming industry there will be new exhibits on exhibition. The part which science has played in this profession will be displayed and should prove a drawing card for all interested in agriculture.

The collection of valuable pictures which is being arranged in the art building is perhaps the finest that has ever adorned those walls. It is a collection unique in its variety. There are many valuable paintings. There are a number from England. Others have come from the United States. These added to the work of our Canadian artists, form an interesting exhibit as could be wished for.

Special Arrangements. Special arrangements have been made in the dairy building. Here, too, there is something out of the ordinary. The motto this year is "Eat more cheese." The benefits of a nutritious product of milk are set forth in a convincing manner. The visitor will also gain some idea of what the Ontario Government is doing by way of assisting the farmers to produce a better milk food.

Interest does not cease at this point. Mention has previously been made of the model barn. This is attracting unusual attention. Farmers throughout the entire province are looking forward to the day on which they will inspect this object lesson.

The interest which was manifested in youth, when it was a treat to watch the shoemaker at work, will be none the less keen among both young and old in the manufacturers' building. Here it will be possible to see every stage thru which the leather passes in the process of being made into a shoe. This is only one of the several interesting items which will engage the attention in this building.

In each department all along the line there is little remaining to be done. In fact, progress has advanced so rapidly that with the exception of one or two minor details yet to be attended to, the big event could have its official opening today. When the children take possession of the grounds on Monday the finished product will have been awaiting them.

Monday for Children. If they are pleased with the first sights to greet their eyes, they will be doubly enthusiastic with the first glimpse of the midway. Many a parent will be dragged along from some more serious occupation by the youngsters eager to see the clowns and funny acting people. This year's path of mirth is much larger than last year's, and great pains have been taken by the management to ensure the best attractions possible. Space is at a premium and applications for room are far in excess of previous years.

### CHATHAM TO CARE FOR SOLDIERS' DEPENDANTS

Special to The Toronto World. CHATHAM, Ont., Aug. 28.—At a meeting of citizens this afternoon it was decided to form an association for the raising of a patriotic fund to provide for the families of the men from Chatham who have gone to the front. A committee meeting of the city council was held tonight and a grant of \$1000 was made with the promise of more if needed.

The men behind the movement are Lieut.-Col. H. D. Smith, S. B. Arnold, W. E. McKeough, A. J. Dunn, W. Anderson, Jas. Simon, W. Pringle, John Figgot, Thos. Sculford, W. T. Shannon and S. Stephenson.

WAR AND CHEAP FOOTWEAR. Although this war, in which Canada is immediately concerned, has been generally supposed to mean an increase in the already high cost of living it has not yet had that effect. No doubt there have been advances in some kinds of foodstuffs, but even at that the enhanced prices have been due rather to speculation than actual necessity. It is in some staples in general that the tendency even yet is rather downward than upward.

The war has no doubt dislocated business, but it has, in this way, provided temporary and exceptional opportunities for those who are prepared to take advantage of them. For example the two Brockton Shoe Stores, at 119 and 264 Yonge street, are now offering "Brockton" standard boots and shoes at highly attractive discounts off regular prices. Even in normal times profits depend on a big turnover and broken lots must be cleared at a sacrifice and even regular stocks quoted to clear.

### PEDLAR PEOPLE AT THE EXHIBITION.

Visitors to the Exhibition will be impressed by the complete and interesting exhibit of The Pedlar People. This exhibit is shown in their own metal buildings, and comprises everything in sheet metal for buildings, roofing, siding, shingles, ceilings, culverts, etc.

The exhibit is to be found north of main entrance to grand stand, where visitors will be made welcome.

### PINKERTON POLICE END LONG CHASE

Owen Sound Man Arrested in Winfield, Louisiana, on Forgery Charge.

### FOR FIFTEEN MONTHS

Herbert S. Jennings Zig-Zagged Across Continent Evading Police.

After a chase of 15 months thru a score of American cities, deceived by countless aliases and fooled by the warnings of friends of the pursued man, the Pinkerton police, called to the assistance of the Ontario provincial force, rounded up Herbert S. Jennings a few days ago in Winfield, Louisiana, and handed him over to an officer who went south for the purpose. He will be brought at once to the border and if extradition proceedings are waived, will face trial in Ontario within the next two weeks on a charge of making false returns to employers, and forging endorsements on cheques for his own benefit. The story as related in the offices of the provincial force yesterday gives evidence of clever escapes made time after time by Jennings, and a successful evasion of pursuit on several occasions thru a skilful juggling of appellations. Twice he slipped thru the fingers of provincial officers and then the American detectives were put on the trail.

Jennings who had served the Great Lakes Lumber Company of Owen Sound as a buyer for some time, left his employment without notice in June, 1913. It was subsequently learned that cheques were coming in daily to the company, representing moneys supposed to have been paid by him in the purchase of lumber. The total sum is large and proceedings were at once taken to launch a formal charge against him, alleging false returns and the forging of endorsement on several pay cheques.

Wife Kept in Touch. Thru relatives it was learned that Jennings was in Detroit but he was not there when the officers arrived. From Grand Rapids he also made a clean escape and thence zigzagged across the continent. His wife, it is understood, travelled along with him in his company. She kept in touch with him thru the mail.

Mrs. Jennings was finally located in New Orleans but a month was taken before her identification could be proven. It then developed that Jennings was employed as a lumber yard foreman at Winfield, a small town fifteen miles distant. On a provisional warrant from the British Consul General he was arrested, and altho at first denying his identity, he finally confessed. He denies the charge of forgery, however, and may fight extradition.

SATURDAY MORNING, AUG. 29.

A Crisis in Ontario's Affairs

We do not know how Sir James Whitney is at this moment, but imagine that he is again seriously indisposed because of renewed devotion to the responsibilities of office.

What can be done in this direction? We believe that the people of Ontario, the public men, irrespective of party, would, in the crisis in which the province, the Dominion and the Empire find themselves, turn to Sir William Meredith and ask him to resign the chief justiceship and come to the assistance of the work of the premiership.

Terms of Peace

"Peace may not be far off," was the statement credited to a prominent American by The New York Journal the other day. It is just as well to consider the point of view of all friends of the German Government—we take it that we are all friends of the German people—and try to understand what the war is about, and what the aims are of who instituted it.

No one who can read has any excuse for not knowing that the Kaiser selected for the pretext of Austria's quarrel with Serbia to bring on the conflict. The Wall Street Journal sets that fact squarely before its readers. The German "white paper" in this connection, says Germany, "that warlike moves against Serbia would bring Russia into the question, and might draw us into a war in accordance with our duties as an ally."

The New York American quotes its authority to the following effect, and there are so many wrong-headed points of view about it that we think it advisable to consider them: "After a series of important victories over the French, Germany will, I believe, be willing to consider very reasonable peace terms. And so may the other countries. Germany would be influenced to listen to reason thru the existence of the British fleet, the Russian invasion and the paralysis of her trade. Germany does not want an inch of French soil. She needs colonies. Britain has accomplished her object, namely, the demoralization of German overseas commerce. And Britain is not anxious to see the Russian Slaves overrun Germany. Russia's menaces are enough already. France may feel chastened after a number of crushing defeats."

There are half-a-dozen points here which indicate a wholly erroneous view of the situation. Germany may be willing to accept peace after a series of important victories, it is true, but no one else will be willing. Germany set out on this path of war, and she must follow whither fate may lead her. No one in Europe wanted war but Germany. Even the old Austrian Emperor wrung his hands to think what his blindness had precipitated. Russia had no desire for war. France went into it with reluctance. England waited till the last moment, and only drew the sword when "infamous" proposals were made to her by Germany. So that, when the war ends, it will be at the wish of those who have been warred upon, and on terms which will secure the peace and liberty of Europe for generations to come.

The Kaiser's "unshakable belief in a living God" whose sole prophet he evidently believes himself to be, is no guarantee to Europe that he would not tear up treaties in the future with the same disregard of truth and honor that he has had in the last few weeks.

So Europe must take some other means of securing a stable peace than reliance on the faith of a military monster.

And in the same spirit it may be permitted to France to doubt that Germany does not want an inch of French soil. The proclamation of Belgium as a German province does not encourage this view. Nor is France likely to submit to the loss of her colonies merely for the sake of peace.

It is quite untrue that Britain has accomplished her object in demoralizing German overseas commerce. She did not set out to do so. On the contrary, Germany was as free in the English colonies as far as the mother country was concerned, as Germany herself. And Germany was quite at liberty to come into the colonies on the "most favored nation" basis if she desired. England had quite other aims and ideals, not only for herself, but for the human race.

And therein lies the error that Britain does not wish to see the Slavs overrun Germany. Britain does not wish to see the land of any race overrun by the people of any other race. All of us under the British flag stand for freedom, and if Russia adopts the same standards and ideals of liberty as we possess, not because they are British, but because they are human and divine, we shall be glad to see Russia expanding. More than this, we have such confidence in the vitality and strength of the ideals of freedom that we are convinced that when we swerve from these ideals we weaken ourselves, and if we permanently abandon them to any degree, the nation which adopts them is true to them, be it Russia or any other. We will be careful of the races of men, keeping these eternal principles in mind, and British success in government has been based solely on justice and fairness to men of every blood and color.

It appears that Russia has imbibed to some extent this faith in liberty. Whether from observing the result of Britain's policy in India, in South Africa, in Ireland, or not, or whether it has been stated, at the direct instigation of British statesmanship, Russia has undertaken to give liberty to the Jews in her domain, to give autonomy to Poland and unite the Polish people in one body and to restore self-government to Finland. If nothing else came out of the war it would be worth our while to fight for these things alone. We have no wish to see any country overrun another, whether it be Germany in Belgium, or Austria in Germany, or Austria in Serbia. If all German and Austrian powers would act as Britain has acted in South Africa there would be less discontent among the nations.

To propagate that idea justifies the war in itself. It is a war of freedom. France may feel chastened. Germany was chastened in 1870. It is Germany that needs chastening today. We quite admit that the sins of Europe may have required the whips and stings of a "scourge of God" like the Kaiser. But if it needs to be that evil must come, let us not forget also the good unto him by whom it cometh.

The soldiers of Germany are fond of writing up on the walls they pass salutations to the "Emperor of Europe." Let us think of Europe under the domination of the man whose rule permits such atrocities as the treatment given Louvain, as narrated yesterday. A Europe at the foot of the Kaiser's throne would have to be reckoned with in America. Would the president and the Kaiser divide the world between them? Would the president desire to divide the world with such a conqueror? If not, there can be no question of peace until the German power is broken, and broken in the name of the liberty and freedom of humanity.

GERMANS IN BRUSSELS PREPARING FOR ATTACK

LONDON, Aug. 28.—The Exchange Telegraph Company publishes a despatch saying that the Germans have placed a number of quick-firing guns in the outskirts of Brussels, principally on the north side, from which direction the Belgian troops in Antwerp would arrive in the event of an attack. Brussels is calm, the correspondent continues. The German flag has been removed from the town hall to the Ministry of Foreign Affairs.

PRINCESS PATRICIA'S BIDDEN FAREWELL

BATTERIES ALSO LEAVE

Corps Reviewed by Sir Robert Borden and Col. Hughes.

By a Staff Reporter. OTTAWA, Aug. 28.—The people of the capital this afternoon gave a splendid farewell to the Princess Patricia's Light Infantry Regiment, and also the two local batteries of field artillery. Immense crowds lined the routes of march, flags were displayed everywhere, and the men were cheered heartily.

Immediately after the departure of the Princess Patricia Regiment, the 2nd and 23rd Batteries of Artillery began to drive out of Lansdowne park on route for the Broad street station. They swung down Metcalfe street to the Parliament buildings, the point of which they were reviewed by Sir Robert Borden, who was accompanied by Lady Borden and Col. Sam Hughes.

PLAN GIANT ELEVATORS TO HANDLE GRAIN CROP

Grand Trunk Hopes to Divert Millions of Bushels to New Pacific Route.

The Grand Trunk and Grand Trunk Pacific Railways are busily preparing to move their share of the big harvest from Western Canada to the shipping points. Arrangements have been made for a plentiful supply of cars and in the territory served by the company's lines it is expected that there will be very little delay in the grain movement this year.

The Grand Trunk Railway System has been steadily increasing its elevator capacity at the various important tidewater and lake terminals, including Montreal, Portland, Tiffin, Depot Harbor, Sarnia and Port William. The company now has in its elevator system a capacity for over twenty million bushels of grain. The prediction has been made that within the next ten years as much Canadian grain from Saskatchewan and Alberta will find its way to Europe and the Pacific coast and the Panama Canal as will get out by the Atlantic. Giant elevators are already planned for Prince Rupert, that port on the Pacific terminus of a transcontinental railway by reason of its practically level roadbed, would appear to be the natural shipping point for much of the Canadian west.

The Train De Luxe of Canada. The Grand Trunk's International Limited, the premier train of the continent, is endorsed by everybody who has ever had the experience of riding on it. WORLD'S GREATEST KIDNEY REMEDY

"Fruit-a-tives" Have Proved Their Value in Thousands of Cases

WONDERFUL RECORD OF A WONDERFUL CURE

Only Remedy That Acts on All Three of the Organs Responsible for the Formation of Uric Acid in the Blood.

Many people do not realize that the Skin is one of the three great eliminators of waste matter from the body. As a matter of fact, the Skin ridges matter of more Urea (or waste matter) than the Kidneys. When there is Kidney Trouble, Pain in the Back and Acid Urine, it may not be the fault of the kidneys at all, but be due to faulty Skin Action, or Constipation of the bowels.

"Fruit-a-tives" cures weak, sore, aching Kidneys, not only because it strengthens these organs but also because "Fruit-a-tives" opens the bowels, sweetens the stomach and stimulates the action of the skin.

RUSSIAN SHELLS CAUSED EXPLOSION ON CRUISER

Some of Officers and Crew Taken Prisoners—Captain Escaped.

Canadian Press Despatch. ST. PETERSBURG (via London), Aug. 28.—(10.55 a.m.)—The Russian official account of the destruction of the German cruiser Magdeburg differs little from the German Admiralty report. It says: "Thursday morning when the fog lifted our two cruisers were sent to look for the Magdeburg, and opened fire when they found her. The German cruiser replied, but her fire soon ceased. The Russian shells destroyed her funnels and caused an explosion which shattered the bows as far as the captain's bridge. Some of the officers and crew were taken prisoners."

WHERE IS VALCARTIER?

A few weeks ago unheeded of in Canada outside of the narrow radius of its country limits, the name Valcartier has resounded throughout all Canada as the spot selected by the militia department for a mobilization camp in point of view of the Dominion's expeditionary force to the scene of the greatest and most terrible war in the world's history.

Valcartier, 16.5 miles north of Quebec City, on the Canadian Northern Railway, and the Canadian Northern is the only line with express, freight and passenger service in point of view of the Dominion's expeditionary force to the scene of the greatest and most terrible war in the world's history.

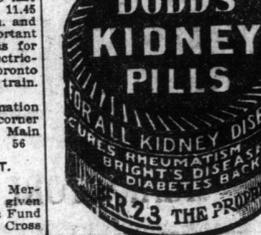

Another special train will carry the delegates from the Massachusetts Command thru Toronto and to Niagara Falls, where they will spend the day before proceeding to the camp Monday afternoon.

PATRIOTIC MEETING

Toronto Women's League Will Explain Their Work in Y. W. C. A. Hall.

All patriotic women in Toronto are cordially invited to attend the mass meeting to be held by the Toronto Women's Patriotic League on Tuesday evening next, Sept. 1, in the Y. W. C. A. Hall, McGill street, at 8 p.m. The needs of the work will be fully explained and questions answered.

Organization on the part of the Toronto Women's League is about completed and the real work for which it was brought into existence is now in progress. The headquarters of the women's activities at 559 Sherbourne street are beginning to assume the appearance of a very active centre, and all yesterday afternoon committees of five and six machines have been formed free for three months by the Singer Sewing Machine Company.

No. 559 will be the headquarters of both the national committee of patriotic service and of the Toronto Women's Patriotic League. The former is the central committee inaugurated by the I. O. E. for the purposes of the hospital fund and the latter is the central committee reorganized for Red Cross work.

Women who are already working for the soldiers are requested to send in at once lists of names, so that overlapping may be avoided. Phone North 1727.

**AGINCOURT SCHOOL FORMALLY OPENED**

Addresses Delivered by Dr. Waugh, Geo. S. Henry, M.L.A. and Others.

Agincourt was crowded with visitors yesterday on the occasion of the opening of a new public school, over six hundred being present at the formal ceremony, which was followed by a most enjoyable entertainment. Among those who delivered addresses were: Dr. Waugh, chief inspector of public and separate schools in Ontario; Mr. Campbell, inspector of schools in South York; Geo. H. Henry, M.L.A.; J. G. Cornell, Reeve of Scarborough Township; Rev. James Anthony, Agincourt; Rev. H. Cameron, West Hill; A. W. Urry, principal of Davistown School; T. Kennedy, Oakwood School; Chas. Ye, Manual Training School, Toronto; W. J. Thomson, T. C. Irving, and Trustees Dr. Coutts and W. H. Patterson, Trustees W. G. Rennie being unable to be present on account of sickness.

Tea was served and a splendid program of music was rendered by the following: Mrs. Wilson, Markham; W. Kennedy, Toronto; Page Bros., Quartet; Miss M. Morgan, James Empingham and John Egmont.

The new school, which is a four-room

**It's Easy to Peel Off Your Tan or Freckles**

This is what you should do to shed a soiled complexion: Spread evenly over the face, covering every inch of skin, a thin layer of ordinary mercurized wax. Let this stay on overnight; wash it off next morning. Repeat daily until your complexion is as clear, soft and beautiful as a young girl's. This result is inevitable, no matter how soiled or discolored the complexion. The wax literally peels off the filmy surface skin, exposing the lovely young skin beneath. The process is entirely harmless, so little of the old skin coming off at a time. Mercurized wax is obtainable at any drug store; one ounce usually suffices. It's a veritable wonder-worker for rough, tanned, red-dened, blotchy, pimply or freckled skin. Pure powdered saxolite is excellent for a wrinkled skin. An ounce of it dissolved in a half-pint which hased makes a refreshing wash-lotion. This renders the skin quite firm and smooth; indeed, the very first application erases the finer lines; the deeper ones soon follow.

## Two Great Stocks--\$60,000.00 Worth of High-Grade Footwear Thrown Into a War-Time Clearing Sale

### No Reserve--Every Pair Must Be Cleared in the Shortest Order

The Lease of 119 Yonge St. Expires Very Soon--and the Lease of 264 Yonge St. is for Sale--(Apply to Manager)

War times are hard times, and for that very reason a sale like this, coming at just such a time, will afford a magnificent opportunity to men who know values and discriminate in the choice of footwear to choose "Brockton" Standard Boots and Shoes at these attractive discounts off the regular price (\$4.00--no more, no less). The genuineness of the sale will inspire confidence in our customers and friends, and we're not making a rash guess when we predict success from the hour sale opens.

### "Brockton" Broken Lots

Big turnover in stocks makes such lines unavoidable, and that's why we "stack" them all into one big clearing lot at an extra discount--they're the newest in lasts--made in all leathers--all styles--the narrow--the medium--and the broad toes--the medium and heavier soles--the high and the low heels--perfect stock which carry our guarantee for satisfaction as truly as if they were going to be sold at full \$4.00 value, but they're clearing at.....

# 2.95

### "Brockton" Regular Stocks

These are the brand new goods that are here for the new season's boot trade--Brockton standard \$4.00 quality--they're in all leathers--tan--gunmetal--patent--velours calf--and box calf--a complete range of sizes--the last word from shoemaking in good style and smartness--laced--blucher cut, and buttoned styles--with all the little turns in style that stand for smartness and dressiness--footwear that bears the warrant for good service on every pair--to clear at.....

# 3.45

The Sale is a Genuine Clearing--and while there's a Pair of "Brocktons" in the Fixtures the Sale Will Continue

### THE CENTRAL Y.M.C.A. SWIMMERS TO CROSS BAY.

This afternoon at three o'clock the Central Y. swimmers will get together for a swim across the bay. The officials of the Toronto Swimming Club have generously given the "Y." fish the use of their dressing rooms, so that the route of the swim will be the same as that taken by the swimmers two weeks ago, starting at the York street wharf, and finishing at the Toronto Swimming Club's place at Hanlan's Point. The fellows are in good shape just at this time, and an interesting afternoon's sport is being

### MORRISON SIXTH IN WESTERN CHESS TOURNEY.

The annual championship tournament of the Western Chess Association, just concluded at Memphis, Tenn., resulted in a tie for first honors between Jefferson, Hahlbohm, Schrader and Wolbrecht. The leaders won 14 games and lost 4

### each out of the 18 games played.

J. S. Morrison, the Canadian champion, came sixth, with a score of 12½ won and 6½ lost. He was much indisposed during the tourney, with a consequential effect on his play. The tie between the four leaders will be played off in a two-round tourney. The following is a list of the prizes: First, \$150 and silver cup; second, \$100; third, \$75; fourth, \$50; fifth, \$30; sixth, \$20; seventh, \$10. The umpires appointed for today's city championship game are Messrs. W. H. Garrett and W. Paris.

### PLAY LACROSSE TODAY TORONTOS v. TECUMSEHS

Cornwall Defaults Final N.L.U. Game to Rosedale Team.

Cornwall has defaulted the N. L. U. game scheduled for today at Rosedale.

Tecumsehs and the Torontos play their D.L.A. game today at Scarborough Beach, and the championship does not depend upon the battle, the position of the Tecumsehs in the race does, and they are very anxious to get out of the cellar position and finish next to their blue shirt rivals. The line-up:  
Tecumsehs--Goal, Kinsman; point, Whitehead; cover, Graydon; defence, McKennie, Felker; centre, Rowntree; home, Spillan, Carmichael; outside, Durkin; inside, Querie.  
Torontos--Goal, Gibbons; point, Stagg; cover, Cameron; defence, Somerville, Longfield; centre, Dandeno; home, Spring, Donihue; outside, Turnbull; inside, Warwick.  
Game called at 3.30.

A double-header is billed for the Eaton grounds, top of Bathurst street, today. The first game brings together Eaton and St. Davids juniors, and at 4 o'clock Eaton Seniors and Davenport Albions meet in a Senior T. and D. fixture.

HAMILTON SENDS FIELD ARTILLERY

Last of Units for First Canadian Contingent Off for Valcartier.

MAYOR ALLAN BLAMED

Refusal to Call Council Meeting for Patriotic Fund Condemned.

By a Staff Reporter.

HAMILTON, Aug. 28.—The last of the local units of the first Canadian contingent left town for Valcartier, Quebec, this afternoon.

The board of education met at the headquarters of the 33rd Howitzers and presented Lieut. Hugh Dunlop, a member of the board, with a handsome gold wrist-watch.

Censures Mayor's Inaction. Demanding that the city council go over the head of Mayor Allan, if he persists in refusing to call a meeting of the council to deal with the problem of soldiers' dependents and calling on the board of control to meet night and day until all possible aid is given to both the unemployed and the war sufferers.

Positions to Stay Open. The police commissioners today decided to hold the positions of the seven officers who have volunteered for the war. The question of pay was not discussed.

To Give Day's Pay. Tax collector Kerr suggested today that every city hall employee subscribe one day's pay to the volunteer fund. It is expected that \$1,000 will be collected in this manner.

To Hold Mass Meeting. The Canadian Club committee in charge of the patriotic benevolent fund will hold a mass-meeting in Association hall on Tuesday evening, Sept. 8.

Concert for Poor. A benefit concert will be given in Summers Mountain theatre on Saturday, Sept. 5, under the auspices of the Women's Institute, to form a relief fund for the poor.

To Aid Men at Front. A meeting of Caxton Chapter, I.O.O.F., will be held Saturday afternoon at 4.30 p.m. at the home of Mrs. (Claron) Sutherland, 119 Hunter street west, for the purpose of planning the chapter's share in the equipment for the soldiers going to the front.

FAIR VISITORS CAN CONSULT ME AT MY OFFICE WITHOUT CHARGE. ELECTRICITY IS THE ONE RELIABLE REMEDY. IT CURES RHEUMATISM, KIDNEY, BLADDER, NERVOUS, STOMACH, BOWEL AND ALL ORGANIC AND MUSCULAR TROUBLES without the aid of medicines. TRY IT. My advice is FREE TO ALL.

DR. M. McLAUGHLIN, 287 Yonge St., Toronto, Ont. Do you know that Electricity is the greatest curative remedy of the age when it is applied right? Don't you want to learn about it, you people who need strength and a restoration to health? No doubt there are neighbors of yours who have learned it and you know nothing about it.

PRICE OF WHEAT DROPS ABRUPTLY. Trading Was Narrow and Selling Orders Had Marked Effect. CHICAGO, Aug. 28.—The hysteria of recent sessions was absent from the wheat market today and that cereal led others to a lower level. Wheat dropped 3/4c to 2 1/4c, corn 1/4c to 1 1/4c and oats 1/4c to 1 1/4c.

WINNIPEG GRAIN MARKET. WINNIPEG, Aug. 28.—The wheat market was more settled today, fluctuations being comparatively narrow and trading quieter. Quite a lot of hedging was going on and cash premiums were fading away, the demand being less keen.
