Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

						<input checked="" type="checkbox"/>					

The copy filmed here has been reproduced thanks to the generosity of:

Douglas Library  
Queen's University

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Douglas Library  
Queen's University

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

**THE SECRET OUT.**

**THE INNER HISTORY OF A FAMOUS MEDICINE.**

**Some Facts Concerning Dr. Williams' Pink Pills for Pale People—  
A Remedy Now Known the World Over—The Reason Why its  
Sale has been so Enormous.**

"Where do all these wonderful cures come from?" asked a representative of "The Toronto Globe" recently, having obtained permission to interview the manager of the Dr. Williams Medicine Company.

"They come variously. Some are discovered by newspaper men, others are brought to our attention by druggists, and others again are communicated to us by the patients themselves. But whichever way they come to us they are all dealt with in one way. As soon as we learn that some specially remarkable cure has been effected by the use of Dr. Williams' Pink Pills, we take steps to have the patient seen by a perfectly independent newspaper reporter, and we arrange with the best local newspaper to publish exactly what their reporter finds to be the case. We should not think it right to trade on a false statement, or even on one slightly exaggerated. Our reputation is made by the fact that the public know we are honest."

"I presume your advertisements bring you in a vast business?"

"We have a vast business. There is scarcely a habitable country on the face of the globe in which Pink Pills are not now used. Last year there was sold throughout the world the enormous total of more than two hundred million Pink Pills. But, after all, it is a mistake to believe that these vast sales are due alone to our advertising. If we had to depend only on the direct effect of our advertising we could never make a living. I suppose that the direct sales from advertising do not pay the expense of more than half of it. The trade we live on is made by what one customer tells another of the merits of Dr. Williams' Pink Pills."

"What are the diseases that Dr. Williams' Pink Pills cure?" asked the reporter. The manager reached for a small book and cut out of it the following statement, which he handed to the reporter. It will be observed that it is a cold scientific statement, with no sensationalism, no exaggeration, no adjectives:—

- |                              |                             |
|------------------------------|-----------------------------|
| Poor and Watery Blood,       | After-Effects of La Grippé, |
| Anæmia,                      | Eruptions and Pimples,      |

- Chronic or Acute Rheumatism,
- Sciatica,
- Chronic Liver Complaint,
- Neuralgia,
- Chronic Erysipelas,
- Kidney Troubles,
- Catarrh of the Stomach,
- Nervous Fits,
- St. Vitus' Dance,
- Consumption of Bowels and Lungs,

- Swelled Glands,
- Scrofula,
- Fever Sores,
- Rickets,
- Recovery from Acute Diseases, such as Fevers, etc.
- All Female Weakness,
- Tardy or Irregular Periods,
- Leucorrhœa,
- Suppression of the Menses,
- Loss of Vital Forces,
- Loss of Memory,
- Ringing in the Ears,
- Hysteria, &c.

"But how can one medicine cure all these things?" asked the reporter.

"Ah, that is where the secret of our success resides—though we make no secret of it, for that matter. Everything is fair and above board. We have a thing that is not like any other medicine. Dr. Williams' Pink Pills go to the very base of the disease, and cure the causes of it. The disease itself, no matter what it is, begins to disappear the moment the cause is touched. It has then nothing to live on. Pink Pills, to begin with, give strength, purity and richness to the blood, and thus root out the whole host of diseases which depend on poor or vitiated blood—diseases such as anæmia, scrofula, rheumatism, and so on. Then the remarkable property of the formula discovered by Dr. Williams comes into play. Other medicines that purify the system weaken it in doing so. Dr. Williams' Pink Pills strengthen, and only strengthen. They are thus specially adapted for women at a critical period, and they are at the same time such a splendid nerve and spinal tonic that they give nerve power to even the most nervous, and do away with symptoms that look like approaching old age. Thus are cured such things as locomotor ataxia and paralysis, diseases which the Royal College of Physicians and Surgeons think incurable, not to speak of neuralgia, headache, dizziness, indigestion, and premature old age in men and women alike."

"One question more. Are Dr. Williams' Pink Pills expensive?"

"Expensive to make? Yes, as compared with other pills that have nothing out of the way in them. But they are not expensive to buy, considering their prompt and unmistakable effect. A box costs 50 cents, and we send six boxes by mail post paid for \$2.50. This amounts to giving one box in free."

"Oh, then you sell the pills by post?"

"Certainly. But they can be got just as well at shops; only if bought at the shops you must be careful to see that the full name, 'Dr. Williams' Pink Pills for Pale People,' is printed on the wrapper. If it isn't there the shopkeeper is trying to swindle you with a worthless thing. Any tradesman who tries that is seeking to deceive you for his own profit. The same may be said of the pretence of some dealers that they have 'the same as' Dr. Williams' Pink Pills for Pale People. No one else can make

## PINK PILLS ARE AN UNFAILING BLOOD BUILDER AND NERVE TONIC.

pills the same as, or has pills the same as Dr. Williams' Pink Pills, and any one who pretends to be the kind of person you will do well to be cautious about having anything to do with, for he will swindle you in other things besides this. **PILLS SOLD LOOSE ARE NOT DR. WILLIAMS'.**

"Do many people write to ask you about your pills?"

"Oh, yes; and we are always pleased that they should do so, because we take a personal and direct interest in everyone who takes our medicine. Such letters always receive careful and prompt reply."

The reporter thought that the above conversation pretty fully covered the secret of the wonderful success of Dr. Williams' Pink Pills in Canada and elsewhere, and took his leave.

### NERVOUS PROSTRATION.

**The Victim Helpless and Unreliable—It Saps the Constitution and Makes One Involuntarily Ask, is Life Worth Living?**

From the Lindsay Post.

It is at least commendable to bow before the inevitable. But what appears to be inevitable may be delayed or altogether averted. What were considered necessarily fatal diseases twenty-five or even ten years ago in many instances are not now placed in that category—thanks to medical and scientific skill. Life is sweet. We must either control the nerves or they will master us. Hysteria may prove fatal. It renders the person afflicted helpless and unreliable, and casts a continual shadow upon a hitherto bright and cheerful life. It saps the constitution and makes one involuntarily ask, "Is life worth living?" Miss Fanny Watson, daughter of Mr. Henry Watson, living on lot 22, township of Somerville, Victoria county, is one of those whose life for years was made miserable from nervous disease. At the age of twelve Miss Watson met with an accident which so seriously affected her nervous system that during the subsequent five years she was subjected to very severe nervous prostration, resulting in convulsions with unconsciousness for three or four hours at a time. This condition continued until March last, when she had an increased and prolonged attack by which she was completely prostrated for the space of a fortnight. The disease so affected the optic nerve that Miss Watson was forced to wear glasses. Many remedies were tried, but with no avail, and both Miss Watson and her friends feared that a cure could not be obtained. Ultimately Dr. Williams' Pink Pills were strongly recommended by various friends, and the young lady decided to give them a trial. A half dozen boxes were bought, and by the time one box was used there was an improvement in her condition, and before the half dozen boxes were used Miss Watson was, to use her own words, a different person altogether. Her entire nervous system was reinforced to such an extent that she is now able to dispense with the use of the glasses which previously failing eyesight had made necessary. Miss Watson is now a staunch friend of Dr. Williams' Pink Pills, and says:—"I have pleasure in recommending them to all similarly afflicted." Rev. D. Millar, a friend of the family, vouches for the facts above set forth.

### A MINISTER'S STORY.

**For Five Months he was Helpless, and Endured Agonizing Pains—Could neither Rise Up nor Sit Down without Aid—He Tells How he Found a Cure.**

From the Tilsonburg Observer.

The Rev. C. H. Backhus is a resident of Bayham township, Elgin county, Ont., and there is probably no person in the county who is better known or more highly esteemed. He is a minister of the United Brethren Church. He also farms quite extensively, superintending the work and doing quite a share of it himself despite his advanced age. But he was not always able to exert himself as he can to-day, as a few years ago he underwent an illness that many feared would terminate his life. To a reporter who recently had a conversation with him the rev. gentleman gave the particulars of his illness and cure, with permission to make the statement public. The story as told by Rev. Mr. Backhus is substantially as follows:—About three years ago he was taken ill and the doctor who was called in pronounced his trouble an attack of la grippe. He did not appear to get any better, and a second doctor was called in, but with no more satisfactory results, so far as a renewal of health was concerned. Following the la grippe, pains of an excruciating nature located themselves in his body. He grew weaker and weaker, until at last he was perfectly helpless. He could not sit down nor rise from a sitting posture without assistance, and when with this assistance he gained his feet he could hobble but a few steps when he was obliged to be put in a chair again. For five months these agonizing pains were endured. But at last relief so long delayed came. A friend urged him to try Dr. Williams' Pink Pills. He yielded to the advice, and had not been taking them long when the longed for relief was noticed coming. He could move more easily, and the stiffness and pains began to leave his joints. He continued the use of the pills for some time longer and the cure was complete. Seeing Mr. Backhus now it would be difficult to think of him as the crippled and helpless man of those painful days. Mr. Backhus is now past his 80th year, but, as he said, "by the aid of Dr. Williams' Pink Pills I am as able as those ten years younger. You can readily judge this when I tell you I laid forty rods of rail fence this year. I am glad to add my testimony in favor of Dr. Williams' Pink Pills."

### Dizziness and Weakness Cured.

Mrs. Charlotte Jeroy, of Rockport, Ont., says:—"I had a severe attack of la grippe, which left me weak and miserable, with a frequent feeling of dizziness, a poor appetite, and failing health. I procured a few boxes of Dr. Williams' Pink Pills, and found them just the medicine I required. They completely restored my health, and I am now feeling even better than I did before my illness. I think this medicine a splendid thing to strengthen weak people."

## A GENERAL'S STORY.

### HE RELATES THE NARROW ESCAPE OF HIS DAUGHTER.

**Weakened and Run Down by the Oppressive Climate of India, She Returned to England—When Her Father Followed He Found Her In a Serious Condition.**

*From the Hampshire Independent.*

There is nothing more interesting than the talk of our brave defenders, who have served their Queen and country in far distant lands. To talk with an Indian officer,

LIEUTENANT-GENERAL SHAW.

hearing his reminiscences and adventures, is what those who have enjoyed it always appreciate. Consequently (writes a special correspondent of the Hampshire Independent) I was delighted to receive instructions to interview Lieutenant-General Shaw, who has won his spurs in India, and is now living, with his family, in honorable retirement, at St. Paul's Vicarage, Shanklin, Isle of Wight. I had grasped the bell-pull and given it one tug when the door opened, and the General stood before me. You knew he was a soldier at once. His manly, upright bearing, his smile, his pleasant voice—all told you that you stood in the presence of one of Nature's gentlemen; but, alas! he held a time-table, and I felt that the interview must needs be short. However, he ushered me in, and at once put me at my ease by his affable conversation.

"I am afraid," he said, "that you have come a long distance; but let me know the precise object of your visit."

I explained to the General that I was most anxious, with his consent, to obtain some personal explanation as to the narrow escape I had heard one of his daughters had recently experienced.

At that he brightened visibly. "You must know," he said, "I'm just a bit of an

enthusiast on this point; but the tale is very short. My daughter came home from India, and when I joined her in London I found her ill in bed. She had rheumatic and neuralgic pains; she was perfectly bloodless, listless, and in a generally weak and prostrate condition. A doctor was seen, but she remained absolutely colorless, was in great wretchedness and suffering from anaemia or bloodlessness. She had a kind of fever, nervous headache, and other pains. Well, I heard of Dr. Williams' Pink Pills for Pale People. My daughter took some, and the first box had a marvellous effect. She regained her color, lost her pains, and became altogether different. She had quite a glow upon her. She went on taking the pills, and I am glad to tell you that she recovered completely. I have recommended Dr. Williams' Pink Pills to all with whom I came in contact, and all who take them derive great benefit therefrom.

"I have a sister in Jersey, and she has taken them for a very long time, and has always recommended them to other people, and found them to do a great deal of good to all to whom she has recommended them; and I, myself, when I have heard of people being ill, have taken them or sent them some of these pills."

### Reduced from 150 to 114 Pounds—Cured.

Mrs. George E. Hunt, Bear River, N.S., says:—"I was taken down with an attack of la grippe, but only used home medicine, for I believed I could work it off. I found, however, that I could not, and then sent for a doctor. Under his treatment I improved a little, but was far from well. In the next spring I had another attack of la grippe, and this time I sent at once for the doctor. The medicine he gave me did not agree with me, and I stopped taking it. I was now reduced to a terrible condition. I had pains all through my body, and I lost in flesh from 150 to 114 pounds. Nothing that I ate tasted good. I could not walk any distance, and could do but little work about the house, and after the least exertion would frequently have to go to bed. I got despondent and lost all hope of getting well, and my friends also thought there was no hope for me. Finally my mother gave me a box of Dr. Williams' Pink Pills, and urged me to take them. By the time I had used the box I felt more like eating, and thought this a good sign. I then continued their use for upwards of two months, with the result that my health was fully restored. I regained my former weight, and am to-day as well as ever I was in my life. I believe Pink Pills saved me, and I cannot recommend them too highly. I believe every family should keep Pink Pills in the house at all times."

Mr. G. F. Williams, Bonney River Station, N.B., says:—"For five years I was a sufferer from rheumatism, sometimes so bad that I could scarcely go about. I tried a number of medicines without any effect. Finally, after reading the testimonial of a person who had suffered similarly and was cured by the use of Dr. Williams' Pink Pills, I decided to try them, with the gratifying result that they have completely cured me."

## DR. WILLIAMS' PINK PILLS BRING BRILLIANT EYES AND ROSY CHEEKS.

### THE PASTOR'S WIFE.

An interesting Interview with Mrs. (Rev.) F. B. Stratton—Threatened with Paralysis—Weak, Emaciated and Unable to Stand Fatigue.

From the Napanee Beaver.

The Rev. F. B. Stratton, of Selby, is one of the best known ministers in the Bay of Quinte conference, of which body he is the president. During the two years Mr. Stratton has been stationed at Selby, both he and Mrs. Stratton have won hosts of friends among all classes for their unassuming and sincere Christian work. Some time ago Mrs. Stratton was attacked with partial paralysis, and her restoration having been attributed to the use of Dr. Williams' Pink Pills, a reporter of the Beaver was sent to interview her. In reply to the reporter's question Mrs. Stratton said that she had been greatly benefited by Dr. Williams' Pink Pills, and was perfectly willing to give her experience, that those similarly afflicted might be benefited. Mrs. Stratton said that before moving to Selby she had been greatly troubled by a numbness coming over her sides and arms (partial paralysis), which, when she moved, felt as though hundreds of needles were sticking in the flesh. For over a year she had been troubled in this way, with occasionally a dizzy spell. She was becoming emaciated and easily fatigued, and was unable to get sleep from this cause. The trouble seemed to be worse at night time. Mr. Stratton had become greatly alarmed at her bad state of health, and it was feared that complete paralysis would ensue, as Mrs. Stratton's mother, the late Mrs. Weaver, of Ingersoll, had been similarly stricken, at about the same age. Knowing a young lady in Trenton, where Mr. Stratton had been previously stationed, who had been cured by Dr. Williams' Pink Pills, it was determined to give them a fair trial. When Mrs. Stratton began using the Pink Pills she was very thin and her system badly run down, but after taking the pills for a time, all symptoms of paralysis disappeared, and she found her health and strength renewed and her weight increased. Mrs. Stratton is about fifty years of age, and a more healthy, robust and younger looking lady is seldom seen at that age.

In reply to the reporter's inquiry as to what Pink Pills had done for his wife, Mr. Stratton said:—"Look at her, look at her, doesn't she show it," and the reporter could not but admit the truth of the statement.

### The After Effects of Fever Cured.

Miss Belle Gillies, Springfield, N.B., writes:—"In December, 1894, I was taken ill with fever, which after a time the doctor succeeded in breaking up. I did not improve, however, as rapidly as I should, but was pale, languid and troubled with nervousness. About the middle of August of the next year a friend advised me to try Dr. Williams' Pink Pills, which I did. After taking one box I began to feel somewhat better, and my appetite improved. I have taken only three boxes and am now in the best of health."

### IN AN EVANGELIST'S HOME.

The Emphatic Statement of a Young Lady who Resides in the Home of Rev. J. E. Hunter, the Well-Known Evangelist.

The Rev. J. E. Hunter, whose marvellous work in connection with Rev. Mr. Crossley in the evangelistic field, has given him a continental reputation, resides in the city of St. Thomas, Ont. The particulars of the following remarkable cure upon the person of a young lady living with the family are therefore of more than passing interest. To a reporter of the St. Thomas Journal she told the following story:—"I believe Dr. Williams' Pink Pills saved my life, and I am quite willing that every one should know it," said Miss Harris, when asked if she would make public her story. Continuing, she said: "When I was twelve or thirteen years of age I was taken sick. The doctors said my blood was all turned to water. For five years I suffered terribly, and was so weak that I could barely keep alive. If I tried to stand for a short time, or if I got the least bit warm, I would fall over in a faint. My eyes were white and glassy, and I was so thin and pallid that every one believed I was dying of consumption. During the five years I was ill I was attended by five physicians in St. Thomas, two in Detroit, one in London and one in Aylmer, and none of them could do anything for me. I was so far gone that they had no hope of my recovery. Towards the last my feet and limbs swelled so they had to be bandaged to keep them from bursting. They were bandaged for three months, and my whole body was swollen and bloated, and the doctors said that there was not a pint of blood in my body, and they held out no hopes whatever. I saw in the Journal about a man in Hamilton being cured by taking Pink Pills. I thought if they could cure him they would help me, and I decided to try them. Before I had finished three boxes I felt relieved; the swelling went down and the bandages were removed. I continued taking Pink Pills until I had taken seven boxes; then irregularly I took three more, one of which Mr. Hunter brought back from Brockville. I am perfectly cured. I have not been ill a single day since I finished the seventh box of pills. I came to Mrs. Hunter's a year ago, and she will tell you I have never been ill a day since coming here, and I always feel strong and able to do the work. I can and do strongly recommend Dr. Williams' Pink Pills," said Miss Harris in conclusion. Mrs. J. E. Hunter, wife of the evangelist, told the reporter that Miss Harris was a good, reliable and truthful girl, and that perfect reliance could be placed on her statements. "She looks like a different girl from what she was when she came here a year ago," said Mrs. Hunter.

Mrs. Burgess, who resides in what is known as Benson's Neighborhood, near Pictou, Ont., says:—"My little daughter Pearl, aged eight years was taken sick. The doctor who was called in said her trouble was general weakness of the system, but his treatment did not help her. Some of my neighbors advised me to try Dr. Williams' Pink Pills, and after the little one had taken a few boxes she was completely cured and is now enjoying the best of health."

## HARD STUDY IN SCHOOL.

Brings on Nervous Prostration and St. Vitus Dance—A Young Lady Prostrated for Five Years from this Cause.

Hard study at school brought on nervous prostration and St. Vitus Dance. This is a very frequent occurrence in these days of high pressure study, and one of the many

unfortunates who suffered thus, but has now happily found relief, is Miss Lizzie K. Marshall, of Central Clarence, N.S. Despite all that was done for her, the disease grew worse as month after month passed away, and both herself and friends feared she was doomed to an invalid's life. But a marvellous and permanent cure has been wrought through the agency of Dr. Williams' Pink Pills, and the public will be interested in reading the young lady's statement of her illness and cure.

Miss Marshall says:—"About six years ago I was taken ill. At the outset home remedies were tried, but as they did no good a doctor was called in. He pronounced my trouble nervous prostration and St. Vitus Dance, brought on by over study in school. I was under his care for about a year, but did not seem to improve, and he then suggested that a change of air and scene might be beneficial. I followed his advice, and for a time seemed to get somewhat better. However, soon after I returned home I was taken worse, and for ten weeks was confined to my bed in a state of complete prostration. Our family physician was unremitting in his attention, and under his care I was finally enabled to sit up, but beyond this there was no improvement in my condition. My nervous system seemed to be completely shattered, and I became so weak that I could not walk about the house without assistance, and for two years I had to be carried up stairs. It is needless to say that I was quite discouraged, as nothing seemed to afford me more than temporary relief. For five years I was in this weak, wretched and despairing condition, when finally I resolved to give Dr. Williams' Pink Pills, of which I had heard and read a great deal, a trial. After I had used two boxes I felt somewhat better, and determined to continue the treatment, and did so until I had used twelve boxes, all the time gaining health and strength rapidly. I have recovered all my old-time health and strength, have a splendid appetite, and can walk a long distance without feeling tired. I know that had I not taken Dr. Williams' Pink Pills I would not to-day be the strong, healthy girl that I am, and I cannot find words

strong enough to express my gratitude toward this grand medicine which has restored me to health. I am only too glad to have my testimony published so that others afflicted as I was may be cured, and I shall always speak of Dr. Williams' Pink Pills in the terms of praise they deserve."

## A Teacher Cured of Anæmia.

Miss Ada Smith, Pubnico Head, N.S., says:—"I take great pleasure in certifying to the value of Dr. Williams' Pink Pills in cases of anæmia. I scarcely know how my illness began, it came so gradually. My first symptom was a tired feeling, followed by a loss of appetite and palpitation of the heart. I continued to grow weaker, and finally could not go upstairs without resting on the way up, and the slightest exertion would cause a pain in the chest. The color left my face, and I became deathly white. This was in the summer of 1894, and as I continued getting weaker a doctor was called in. He told me my blood was all turned to water, and that had I delayed two months longer there would have been no hope for me. He prescribed for me, but failed to improve my condition. I was at this time teaching school at Reynardton, and at the Christmas holidays when I returned home I was advised by my friends to take Dr. Williams' Pink Pills, as they feared I was going into a decline. I began their use, and on returning to my school I carried a half dozen boxes with me. By the time I had used these I found my health fully restored. People marvelled at the change wrought in me, and on my personal recommendation two of my friends decided to give Pink Pills a trial and were greatly benefited by using them. I can truly say that I owe my life to your valuable medicine, and am so grateful for what it has done for me that I freely give your permission to use this statement in any form you please, in the hope that it may bring relief to some similar sufferer."

## Nervousness and Rheumatism Cured.

Miss A. E. Martin, Milford, N.B., says:—"I desire to add my testimony to that of the many who are speaking in favor of Dr. Williams' Pink Pills. I was delicate from childhood, and being a teacher by profession the strain made still further havoc with my system. Then followed, as a result of a severe cold, an attack of rheumatism. I was advised to try Pink Pills, and it was not many days after I began their use before I felt that they were doing me good. The pains began to leave my joints and muscles and I began to acquire a strength I had not had in years before. In a word, Pink Pills have made a new person of me, and I shall never cease to praise them."

Mrs. J. Curcie, Dominionville, Ont., writes:—"I cannot find words enough to thank you for what Dr. Williams' Pink Pills have done for me. I suffered many years with weakness and pains throughout my entire system; but thanks to Pink Pills, I am once more restored to health."

## DR. WILLIAMS' PINK PILLS FOR FEMALE TROUBLES.

Pure blood is the secret of health and beauty. The features may be regular, the form perfect, but no woman can be beautiful in the full sense of the word while suffering from any of the peculiar ailments of her sex. Disease destroys the complexion, is productive of wrinkles and premature old age. Regular monthly uterine action is necessary to every woman's health, and if this function of life is checked, disease, a pale and sallow complexion, and a feeling of exhaustion, are the result. The monthly secretions must continue from Puberty to the Turn of Life without unnatural obstruction. Any breach of this law of nature will result in the distressing symptoms which make the lives of seven-tenths of the women of this country miserable, almost unbearable. A few of these symptoms are severe headaches, loss of appetite, pale or sallow complexion, palpitation of the heart, swollen ankles or legs, nervousness, offensive breath, etc., etc. The sufferer may exhibit one or more of these symptoms, or may have all. They simply indicate the ravages disease has made upon the system, and the more of these symptoms the patient shows, the greater the necessity for prompt and persistent treatment, until they have been banished, and the bloom of health has been restored. To accomplish this end, Dr. Williams' Pink Pills are the only unailing remedy. They positively cure all suppressions and irregularities, which, if neglected, inevitably entail sickness and trouble. By taking these pills for a week or ten days before the expected return of each period, the prompt appearance of the "visitor" is insured. For suppressions, the pills must be taken steadily until the reappearance takes place—generally in a month's time, sometimes less. Follow the directions on the pamphlet about each box. Nursing women will find their milk improved in quality and quantity by taking these pills; and also obtain relief from the pain in the back, and generally dragged out feeling. All displacements from weakness of the Uterine Ligaments are speedily relieved and ultimately cured by the faithful use of these pills. Leucorrhœa, bearing down, weight in the pelvis, and all Female Weakness, find speedy relief and cure in the administration of the Pink Pills for Pale People.

NOTE.—Pregnant women are cautioned not to take these pills until after the fourth month. For full directions see pamphlet around each box.

Mrs. M. Robertson, Plainville, writes:—"When I began taking your Pink Pills I was so weak that I could scarcely go about the house, and at times it seemed as if my heart had ceased to beat. I had almost reached that stage when I thought medicine could do me no good, but at last I commenced taking Pink Pills. The result has been wonderful. I am now able to spin all day, using an old-fashioned wheel, and walking back and forth all day as I draw out the thread. I am grateful for what Pink Pills have done for me, and believe the Master has given you a grand work to do."

## The Change of Life.

The most critical period in the life of woman is that attending the cessation of menstruation, or as it is more generally termed, the change or turn of life. The symptoms attending this period are fainting spells or attacks of faintness, as giddiness, headache, general debility, exhaustion, a feeling of melancholy, hysteria, pain in the loins or limbs, hypochondria, etc. The change is a gradual one—for better or worse—for the former if the patient is wise enough to fortify the system against the ravages of the symptoms attending the change. For this purpose no remedy ever discovered equals Dr. Williams' Pink Pills. They purify the blood by acting directly upon the sexual system, lessen the severity of this critical period, and finally leave the patient in the enjoyment of robust health. All ladies approaching this critical period should take Dr. Williams' Pink Pills.

## Approaching Change of Life.

Mrs. Frank Murray, who resides near Ogdensburg, N.Y., says:—"I am 46 years of age and for many years resided near Prescott, Ont. We moved over here some time ago and have worked this farm since. My husband is working in Ogdensburg at his trade, that of a stone mason, while my children and myself carry on the farm.

"I have been a great sufferer from sick headache, which would generally come on about evening, and I would be completely prostrated, not even able to lift my hand or help myself in any way. These spells would last for about twenty-four hours, and would leave me in so weak a condition that for a few days I could scarcely drag about the house. I have also had considerable spinal trouble, the sharp darting tongues of pain being most severe, following along my spine and to the back of my head. Have doctored much, but without the desired result. The doctor told me it was due to the approaching change of life. I heard of Dr. Williams' Pink Pills for Pale People, and also later heard of the cures they had effected in a number of persons personally known to me, and it was their stories that decided me to try them. I got some of the pills, and after I had taken a few boxes I had no more headaches for several months. This summer my head began to have a heavy feeling, and at times I was quite drowsy, but no pains accompanied it. I now took more pills, and though I've taken only a few I feel well again. I don't think any person could stand it a great while to be troubled as I was and stand the amount of pain. I know that Pink Pills are a good medicine and fully what they are represented to be. I have recommended them to some of my friends with beneficial results. Oh, my, yes! They have done wonders for me. I do all my own housework on the farm. We have a dairy of twelve cows, and often when the boys are very busy getting in the crops I have milked all the cows alone."

**At the Change of Life.**

Mrs. A. Ross, of Paris, Ont., is a lady well known and much esteemed by a large circle of friends. Regarding a serious illness and subsequent cure she says:—"When we think of the many fellow sufferers we should not hesitate to let them know the means of cure when we have found one. My trouble began four years ago when I was ill and had to undergo an operation for ulceration of the womb. Afterwards, I suppose from the coming change of life, I became so weak that I could not move more than a few steps without suffering from palpitation of the heart, and sometimes fainting spells. I was as pale as death, and not able to do my housework. Two doctors attended me, and although they did all in their power for me I felt that I was sinking into my grave. What I underwent can scarcely be described. Finally the doctor told me that he had done all he could for me and could hold out no hope of a recovery to health. Then my friends urged me to try Dr. Williams' Pink Pills, and while in this desperate condition I began their use. By the time I had taken six boxes I was wonderfully improved. The fainting spells had gone and the pains had almost disappeared. I could eat a hearty meal and had increased in weight. By the time I had taken ten boxes I was able to do my own housework, and from that out I have enjoyed the best of health. I have recommended Pink Pills to many others and they say they never used any medicine that did them so much good. I am not anxious for publicity, but suffering as I did, I am anxious that others shall have the benefit of my experience to help them to a cure."

**Cured after Hospital Treatment Failed.**

Mrs. L. Lundahl, Lavant, Ont., says:—"I have much pleasure in adding my testimony to the great efficacy of Dr. Williams' Pink Pills. Some years ago I was severely injured in child-birth and had to go to the Kingston hospital to be operated on. I was in the hospital and under treatment for nearly two months, but flowing set in and all the skill of the doctors was unable to stop it. I went home, and after still suffering for three or four months, I determined to go to the hospital again, but fortunately for me an old lady on the cars, who noticed my emaciated and worn condition, asked 'what ails you, my child?' I told her my trouble and she replied, 'before going to the hospital again give Dr. Williams' Pink Pills a fair trial. I know they will help you.' I followed her advice, and after taking four boxes the flowing absolutely stopped. I took the pills for some time longer and my health was fully restored, and since then I have been both strong and active. I believe Dr. Williams' Pink Pills are a blessing to women."

Mrs. D. Later, Huntsville, Ont., says:—"I have used Dr. Williams' Pink Pills in my family, and cheerfully bear testimony to the fact that they accomplish all that is claimed for them."

**Weak and Nervous—Cured.**

Mrs. A. Ladd, wife of a well known farmer living near Caintown, Ont., says:—"For over two years I was troubled with weakness, nervousness and general debility. I was emaciated and easily fatigued, and quite unequal to the exertion necessary to do my household work. I was advised to try Dr. Williams' Pink Pills, and after the use of five boxes found my health fully restored. Pink Pills have also been of the greatest benefit to my daughter Gertrude, who, at the age of twelve, was attacked with pain in the back, dizziness and weakness. She looked pale and haggard and had a fickle appetite. I began giving her Pink Pills, and soon found that they were restoring her to health. Her appetite improved, her color returned and she began to gain flesh, and is now a strong and healthy child. I know that there are many young girls in a similar condition, and I urge mothers to follow my example and try Dr. Williams' Pink Pills, feeling sure they will bring health and happiness to the home."

**Female Weakness Cured.**

Mrs. J. Sykes, Warkworth, Ont., says:—"Womanhood is heir to a great many sorrows and complaints. I was a great sufferer from female weakness. My strength left me and I was almost helpless. I took a great deal of doctors' medicines, but received but little benefit. A lady friend advised me to try Dr. Williams' Pink Pills and I did so. The effect was almost magical. They went right to the seat of the trouble and in a very short time I had recovered my usual health and strength. I can recommend Dr. Williams' Pink Pills to women suffering as I did."

Mrs. J. H. McMillan, South Finch, Ont., says:—"For seven years I was afflicted with what is generally termed female weakness, and was at times for weeks unable to leave my bed. My friends all thought that I was going into a decline and had consumption. My complexion was sallow, my appetite was almost gone, and I was terribly emaciated; my head gave me great trouble, and at times the pain was so great that I feared it would affect my reason. I had tried many medicines without avail, and began to despair of recovery, when I was urged to try Dr. Williams' Pink Pills. The result has been marvellous. From a sickly, despairing woman, I have been transformed into one full of health and energy, and I feel more thankful than I can say for the wonders Pink Pills have done for me."

Mrs. Annie Bothman, Scotland, Ont., says:—"I have derived much benefit from the use of Dr. Williams' Pink Pills, and have much pleasure in saying so at all times. My system was badly run down, and I suffered from internal weakness. Hearing so much in favor of Pink Pills I determined to try them, and after the use of five boxes found my health and strength restored. I know my recovery was due to the use of Pink Pills, and should I require a medicine at any other time I shall use no other."

## PALE AND SALLOW GIRLS.

What can be more distressing than to see a girl drooping and fading in the spring-time of youth? Instead of bright eyes, glowing rosy cheeks, and elastic step, there are dull eyes, pale, sallow or greenish complexion, and a languidness of step that bespeaks disease and an early death if proper treatment is not promptly resorted to and persisted in until the impoverished blood is enriched and the functions of life become regular. Upon parents rests a great responsibility at the time their daughters are budding into womanhood. If your daughter is pale, complains of weakness, is "tired out" upon the slightest exertion; if she is troubled with headache, or backache, pain in the side; if her temper is fitful and her appetite poor, she is in a condition of extreme peril, a fit subject for the development of that most dreaded of all diseases—Consumption. If you notice any of the above symptoms, lose no time in procuring Dr. Williams' Pink Pills. They will assist the patient to develop properly and regularly; they will enrich the blood, and restore health's roses to the cheeks; bright eyes and a lightness of step will surely follow their use, and all danger of consumption and premature death will be averted. Wise and prudent mothers will insist upon their daughters taking Dr. Williams' Pink Pills upon the approach of the period of puberty, and thus avoid all chances of disease or early decay.

## Weak, Bloodless and Nerveless—Cured.

Mrs. Joseph Christie, Wolfville, N.S., writes:—"It is with great pleasure that I am enabled to give you this testimonial of the return to health of my daughter Hattie, through the use of Dr. Williams' Pink Pills. About a year ago she was taken ill, and perhaps the words 'female weakness' will best describe her condition. She became weak, thin and nerveless, her blood had turned to water, and she was as pale as it was possible to be. If she went out for a short walk she would return home in such an exhausted condition, as to frighten me. We tried a number of medicines without avail, and I was afraid we would lose her. Finally I decided to give her Dr. Williams' Pink Pills, and I now bless the day that I did so, for after the use of five boxes you would not recognize her as the sickly, worn-out girl of a short time before. She continued taking the pills for some time longer, and now her health is fully restored. She is strong and active and can walk for miles without being tired. I shall lose no opportunity of praising Pink Pills, and would urge all girls similarly ailing to give them a trial."

Miss Edith Lazier, a young lady living near Picton, Ont., says:—"In the fall of 1895 I was taken seriously ill, and suffered more or less for about nine months. My blood seemed to be turning to water, and my heart troubled me very much. I could do no work about the house without feeling completely tired out. I took considerable doctors' medicine but without any benefit. I then began the use of Dr. Williams' Pink Pills, and am thankful to say they have restored my health."

## Was Going into a Decline—Cured.

Miss Julia A. Birney, Sheba, N.B., writes:—"I wish to add my testimonial to the many who have used Dr. Williams' Pink Pills, as I consider that they have saved my life. My occupation is teaching, and for about two years my health had been failing, and in the summer of 1895 I was so completely run down that I feared I would have to give up work, for the least exertion overcame me, and my friends all feared I was going into a decline. The doctor who was treating me said he could bring me around in a short time; but at the end of three months I was no better. Dr. Williams' Pink Pills were recommended as a sort of forlorn hope, and I began taking them. It was not long before I began to improve, and after I had been taking the Pills a little more than a month I was completely cured. I can strongly recommend Pink Pills to any suffering from anemia or nervousness, feeling sure that what they did in my case they will do for others."

## Saved from Consumption.

Miss Marie Drolet, Quebec, says:—"From a strong and robust girl I gradually grew weak and languid. I lost all color, was troubled with a pain in my back, my appetite was poor and temper fitful. Without any apparent reason I would burst out crying and it seemed to me that I would die. An excellent doctor was called in, but I did not improve under his treatment. Finally the doctor told my mother that I was in consumption and that it was impossible to save me. One day a little later, one of my friends from the convent came to see me and told me of an aunt of hers who had been cured of a severe illness by the use of Dr. Williams' Pink Pills, and urged me to try them. My mother sent for some and I began the treatment, and continued it for three months without interruption. It was sometime before any improvement was noticeable, but when the improvement set in it was steady, and at the end of three months I was fully restored to health. To any who may be in a similar condition I can heartily recommend Dr. Williams' Pink Pills as a means of cure."

## Weak, Pale and Emaciated—Cured.

Miss Mary E. Wilson, Alton, Ont., says:—"About three years ago I was taken sick. A doctor was called in and he said my blood was turning to water. He gave me medicine, but I found no benefit from it. I then tried another doctor, but with no better results. For two years I suffered terribly. I got so weak I could scarcely stand alone, and was so thin and pale that my friends thought I was dying of consumption. Then my limbs began to swell and my body to bloat. At this stage the doctors held out no hope of recovery. It was while in this desperate condition that I was urged to try Dr. Williams' Pink Pills. I did so, and to the surprise of all I had not been taking them long when there was a perceptible improvement in my condition. I continued taking the pills and continued improving, and in the course of a few months felt better than I had ever done before. I believe that Pink Pills saved my life and I heartily recommend them to all suffering from poverty of the blood."

### Subject to Weak Spells—Cured.

Miss Catharine Flood, daughter of Patrick Flood, Esq., who lives a few miles from Mallorytown, Ont., says:—"A little more than a year ago I began to decline in health. I felt constantly tired, my appetite failed and my color was deathly. My father saw a doctor and described my case, and he said the trouble was anaemia, and sent me a bottle of medicine. I found that the medicine did not agree with me and discontinued it. I was constantly growing worse and was subject to weak spells and was fast becoming little more than a living skeleton. One Sunday after I had been to church, a friend who returned with me strongly urged me to try Dr. Williams' Pink Pills. I decided to give them a trial and my father purchased a supply. The first change I noticed was that the dizziness was leaving me, then my appetite improved and my color began to return, and soon I was enjoying as good health as I had ever done. It is now about a year since I discontinued the use of the pills and I have not felt one symptom of the old trouble. I believe that Pink Pills saved me from the grave, and I strongly urge other girls who may be in a condition similar to mine to try them."

### Anaemia and Irregularities Cured.

Miss S. A. Manchester, of Huntley, Ont., writes:—"Up to the age of 18 I was always healthy, but at that time my health began to give way. My illness came on gradually and I was growing weaker and weaker. My complexion, hitherto good, became pale and yellow, almost corpse like. My blood seemed to have turned to water; my heart would palpitate violently on the slightest exertion and I was easily tired. If I went to the pump for a pail of water I would tremble so badly that I could hardly reach the house with it. When going up stairs I had to rest when I reached the top, and if I walked a short distance I would almost choke from the effects of the heart palpitation. My hands and feet were most always cold. I was irregular in my periods, and altogether was a sorry spectacle. I took doctors' prescriptions, beef, iron and wine, and while these helped me some, I did not get strong, nor did my blood appear to improve. Then I decided to try Dr. Williams' Pink Pills. When I had taken nearly two boxes I felt somewhat better, and from that out I began to recover quite rapidly. I continued taking the Pink Pills for a couple of months, and when I stopped using them I was again enjoying good health. I gained flesh and strength, the heart trouble left me, a healthy color returned to my face; my changes became regular, and I was able to walk long distances and run up and down stairs without the least fatigue. In fact my friends scarcely realized that I was the weak and miserable girl of a few months before. Now if I feel myself out of sorts, as the expression goes, I resort to Pink Pills and am soon myself again. I know there are many girls who suffer as I did, and it is only in the hope that my experience will help them that I make this statement public."

### Weakness and Palpitation of Heart—Cured.

Miss Emma Miller, of Upper Southampton, N.B., says:—"I scarcely know when my illness began, as my mother was unable to work and most of the duties of a large household devolved upon me, so that I felt that I must keep up, but I kept getting worse and worse. My appetite failed, my complexion became sallow, and my eyes sunken. I was troubled with dizziness, shortness of breath and palpitation of the heart, until I would almost suffocate. I was also troubled with a terrible pain in the side. I could not go up stairs without resting, and was so afflicted with headache that my life became almost unbearable. At last I was forced to give up and keep my bed. My friends feared I was going into consumption, but recommended one remedy after another, which, however, did not help me. Finally I was induced to try Dr. Williams' Pink Pills, and in less than three weeks I was able to leave my bed, and after using the pills a few weeks longer I feel that I am as well as ever I was. My appetite has returned as well, and my strength and general health is in every way restored. I feel that in bringing this subject before the public I am only doing justice to suffering humanity, and hope that all afflicted as I was will give Dr. Williams' Pink Pills a fair trial."

### Felt Miserable and Depressed—Cured.

Miss Ellen Starling, Hill Farm, N. W. T., writes:—"In 1893 I found myself weak, miserable and depressed. My entire system appeared to be run down, and my appetite was very poor. A friend advised me to try Dr. Williams' Pink Pills, and I had only used a few boxes when I felt stronger, and had a much better appetite, and was in fact enjoying my old time health. I continued well until the early part of 1896, when I was attacked with rheumatic pains. For days I suffered agony, and then Dr. Williams' Pink Pills again came to my rescue. Now I take these pills occasionally and am enjoying the best of health. I think Pink Pills the greatest medicine of the age."

Mrs. Chipperfield, wife of Samuel Chipperfield, postmaster at Chikney, N.W.T., writes:—"In the spring of 1896 I felt far from well and my strength was failing me. For several years past I have been attacked with rheumatism every spring, and having read that Dr. Williams' Pink Pills would cure both rheumatism and failing health, I determined to try them. I purchased a few boxes and know that they greatly improved my health and strength, and I was also free from my usual attack of rheumatism. I can therefore recommend Pink Pills to those who suffer from rheumatism or failing health."

Miss L. Robinson, Glenorchie, Ont., says:—"I was troubled severely with neuralgia and sick headache, and at times I suffered terribly. I doctored for the trouble for years, but did not improve. I was advised to try Dr. Williams' Pink Pills, and after using six boxes I find myself almost as well as ever I was in my life. I think Pink Pills a splendid medicine for this trouble."

## A TROOPER'S STORY.

**Awoke One Night to Find Himself Speechless, and His Body Paralyzed—Could Touch a Red Hot Stove without any Sensation of Pain.**

From the Huntingdon, Que., News.

Mr. Donald McNaughton, of Hemmingford, Que., is not only known to all the residents of that town, but also has a reputation throughout the country as an expert marksman, having on one occasion been a member of the Canadian Rifle team at Bisley, England. Mr. McNaughton is a member of the 6th Hussars, and takes part in all the leading shooting matches in Canada, having last year stood third in the grand aggregate at the Quebec provincial matches. Mr. McNaughton has passed through a very trying experience, the particulars of which he recently related to a correspondent of the Huntingdon News. He said:—"About the end of December, 1893, I awoke one night having completely lost the power of speech, with a ringing sensation in my head, and a feeling of extreme cold in every part of my body except in the immediate vicinity of my head. A physician was at once called in, but despite all he could do the power of speech did not return for two days, and my body remained partially paralyzed. In this condition I continued under the doctor's care until about the last week in March, 1894, sometimes having two doctors in attendance. During that time my appetite was very capricious, sometimes very good and at others loathing the sight of food. What food I took did not digest, causing me much discomfort. When resting on my right side the blood in my body all appeared to circulate in my left side, causing great pain in my lungs, and when lying on my left side I appeared to have no blood in circulation on that side. My body was at times without sensation, and I have actually burned my hands on a red hot stove without feeling any sensation of pain. As I was not getting better under the treatment I was undergoing, I got low spirited and despondent, and saw nothing before me but a miserable life and perhaps early death. About the last week in March, 1894, my brother brought me a box of Pink Pills, given him by Mr. McFee, postmaster, and urged me to give them a trial. I began taking them, carefully following the directions, and before I had finished the box I felt they were helping me. I continued taking the pills, and continued to gain in health and strength, my weight increasing some 20 pounds. Complete vigor and sensation returned to my body, my stomach ceased to trouble me, and I felt better than at any previous period in my life. I have not had the slightest recurrence of my trouble, and I feel that I owe my present health and strength to Dr. Williams' Pink Pills, and with feelings of gratitude recommend them as a medicine worthy of all confidence."

Mr. Frank Askin, Glenorchy, Ont., says:—"I was troubled with an attack of acetic acid from which I suffered severely. I purchased six boxes of Pink Pills and by the time they were used I found the trouble had disappeared."

## A Supposed Incurable Case Cured.

Mr. Jos. Cauchon, a well-to-do farmer living in the parish of Chateau Richer, Que., says:—"I am a living example of the efficacy of Dr. Williams' Pink Pills, and I believe that had I not used this remedy I would not to-day be living. In the spring of 1894 I was first taken ill. The first trouble was a pain in the chest which gradually increased in intensity. Then followed an almost constant feeling of suffocation, loss of appetite and loss of sleep. My digestion became impaired and I was growing weaker and weaker. I had at different times three doctors, but they neither agreed as to my ailment nor did they help me. One said my trouble was dyspepsia, another that it was Bright's disease, and another that my heart was affected. Finally I became so weak that I was unable to go out, and a little later I had to take to my bed. One day a friend who came to see me advised me to try Dr. Williams' Pink Pills. I had lost confidence in all medicine, but it was a small hope and I grasped at it. I began using the pills, rigidly adhering to the directions. After I had used six boxes the feeling of suffocation ceased and I was able to leave my bed. I was still very weak, however, and continued using the pills for two months longer, and at that time I was completely cured. I lose no opportunity to recommend Pink Pills to those ailing, as I have proved them to be a remarkable medicine."

## Serious After Effects of La Grippe.

Mr. J. A. Wright, Trevelyan, Ont., writes:—"My illness was brought about by a severe attack of la grippe, from the effects of which I found it hard to recover. I was subject to dizziness, heart palpitation and blood rushing to my head. If I stooped, or attempted to lift much, a weakness as though I would faint would come over me. This feeling would sometimes be varied by a rush of blood to the head which would cause partial blindness. I was troubled with a pain in the region of my kidneys which would often keep me awake half of the night, and I would get up in the morning more tired than when I went to bed. I began using Dr. Williams' Pink Pills and found so much benefit from the use of a couple of boxes that I had no doubt I had found a medicine that would cure me, so I continued its use and after I had taken about five boxes I found my health fully restored, and I can again do as hard a day's work as ever."

## A Victim of Neuralgia Cured.

Mr. J. Ibbotson, 67 Amelia Street, Toronto, says:—"For several years I was a victim of neuralgia. The attacks were frequent and were becoming more so because I could find no remedies that seemed to help me or stay the progress of the trouble. Attacks often lasted as long as three weeks. Everything was tried from which a cure might be expected, but to no purpose. Finally a fellow workman who had used Pink Pills recommended them. When I began their use I was suffering severely, but after the use of a few boxes the trouble disappeared and there has been no return. I can therefore recommend Pink Pills to those suffering from neuralgia."

## A REGULAR CRIPPLE.

**Suffered Terribly with Rheumatism, and Had to Use Mechanical Appliances to Turn in Bed—Friends Thought He Could Not Recover.**

From the Economist, Shelburne, Ont.

Almost everybody in the township of Melancthon, Dufferin county, knows Mr. Wm. August, J.P., postmaster of Auguston. Mr. August, now in his 77th year, came to Canada from England forty years ago, and for thirty-eight years has been a resident of Melancthon. During some thirty years of that time he has been a postmaster, and for eleven or twelve years was a member of the township council, for some years holding the position of deputy-reeve. He has also been a justice of the peace since the formation of the county. It will thus be seen that Mr. August stands high in the estimation of his neighbors.

In the winter of 1894-95 Mr. August was laid up with an unusually severe attack of rheumatism, being confined to the house and to his bed for about three months. To a reporter of the Economist Mr. August said:—"I was in fact a regular cripple. Suspended from the ceiling over my bed was a rope which I would seize with my hands, and thus change my position in bed, or rise to a sitting posture. I suffered as only those racked with rheumatic pains could suffer, and, owing to my advanced age, my neighbors did not think it possible for me to recover. I had read much concerning Dr. Williams' Pink Pills, and at last determined to give them a trial. I commenced taking the pills about the 1st of February, 1895, taking at the outset one after each meal, and increasing to three at a time. Within a couple of weeks I could notice an improvement, and by the first of April I was able to be about as usual, free from the pains, and with but very little of the stiffness left. I continued the treatment a short time longer and found myself fully restored. It is now nearly a year since I discontinued taking the Pink Pills, and I have not had any return of the trouble in that time. I have no hesitation in saying that I owe my recovery to Dr. Williams' Pink Pills."

## A PEDLAR'S EXPERIENCE.

**Illness Brought Him Almost to the Verge of the Grave.**

From the St. Catharines Journal.

It is a curious pathological fact that spinal complaint has sometimes actually been mistaken for Bright's disease, and there is no doubt many have been maltreated for Bright's disease when spinal trouble was the real malady. Geo. T. Smith, pedlar, of St. Catharines, is one who thus suffered. His narrative is as follows:—"In the fall of 1894 I began to experience alarming symptoms of what I thought to be spinal trouble. I resorted to lotions, plasters and other remedies, but to no avail, as I continued to grow worse. At this point my friends advised the services of a physician, which I gladly submitted to. The professional man made a minute examination, and pronounced mine a case of Bright's disease, which quite naturally gave me a severe shock, as I deemed the death sentence had been passed upon me. The doctor said he could alleviate my sufferings, but remarked that it would only be a matter of time with me. However, I accepted his medicine, and took it according to directions with no beneficial results. In the meantime a friend procured a remedy said to be a cure for Bright's disease. This medicine I took, but with no effect whatever. Ten months had passed away and I had become so haggard, emaciated, stooped and miserable that my friends had difficulty in recognizing me. In fact they, like myself, harbored the most painful apprehensions. At this juncture an aunt came to visit me, and strongly advised me to try Dr. Williams' Pink Pills. Like a drowning man reaching for a straw I did so. To my great surprise I soon noticed an improvement, the pain in my back began to leave, my appetite improved, my color returned, and by the time I had used eight boxes not an ache or pain remained, and I am as able to travel about to-day as previous to the attack. I know that I owe my restoration to Dr. Williams' Pink Pills, and I urge those ill or suffering to give them a trial."

## Thought He Had Consumption—Cured.

Mr. John Robbins, of Wellandport, Ont., says:—"About three years ago I took a severe cold from the effects of which I did not seem able to recover, and although I was taking medicine and doctoring for upwards of two years I was steadily getting worse instead of better. The cough clung to me and I had a pain in my lungs. I was tired on the least exertion and at last believed that my trouble was consumption. I had often read of the cures made by the use of Dr. Williams' Pink Pills, and as the other medicines I had taken had failed me I decided to try them. I had not used them more than a week when my appetite began to improve and that was the first sign of returning health. From that out each week found me better and stronger and I am now enjoying the best of health. I cheerfully add my tribute to the many words of praise given this great medicine."

## A PROVIDENTIAL RESCUE.

**Languor, Severe Headaches and Pains in the Region of the Kidneys Made the Life of Mrs. McCauce Miserable.**

From the Gravenhurst Banner.

Poor health is an affliction that is dreaded by every one, and the first sign of approaching disease is usually met with an attempt on the part of the patient to check and kill it. Frequently, however, even the most skilled physicians fail, and the sufferer endures a weary round of agony such as those who are in the full enjoyment of health can have no conception of. But when at last a medicine is found that will cure, its worth cannot be estimated in dollars and cents. It is without price. Such is the opinion of Mr. and Mrs. Hugh McCauce, of Ashdown, Ont. Mr. McCauce tells the story of his wife's illness and cure as follows:—"For three or four years past my wife had been constantly falling in health. The first symptoms of her trouble were languor and loss of appetite, accompanied by bearing down pains and headaches, which affected her periodically. As time grew on she was attacked with pains in the region of her kidneys that became almost unbearable owing to their severity. Home remedies and different medicines were tried, but with no good results. Last winter she grew so weak and helpless that I was obliged to seek medical aid for her, and accordingly sent her out to Barrie, where she received the best medical attention, the result of which was only slightly beneficial. On her return, owing, no doubt, to the tediousness of the journey, she suffered from a relapse and her trouble came back in a form more aggravated than before. I noticed in a paper which I was reading one day a testimonial from one who had been cured of a similar trouble, and although knowing that other remedies had failed in my poor suffering wife's case, there was yet a ray of hope. I therefore procured a few boxes of Dr. Williams' Pink Pills and on my return home administered the first dose to my wife. It is perhaps needless to relate that before the first supply was exhausted she found great relief. My wife now commenced to enjoy a buoyancy of spirits and kept on taking the Pink Pills with increasing good results. By the time she had used six boxes her condition had so improved that her neighbors were almost unprepared to believe the evidence of their own eyes when seeing the change in her appearance. Before taking the pills it was a severe task even to dress herself, much less to do any housework, while now, although not having used any of the pills for more than a couple of months, she attends to all her household duties without the slightest inconvenience. Taking all things into consideration, I feel it a duty I owe to other sufferers to recommend these little pink messengers of health which stood between my well nigh distracted wife and the jaws of a lingering but certain death."

Mr. A. E. Halliday, Trafalgar, Ont., says:—"I have used Dr. Williams' Pink Pills and find them a good medicine, and can cheerfully recommend them."

## He was Wasting Away.

From the Millbrook Reporter.

Mr. Geo. Seney, who resides near Mount Pleasant, Durham County, Ont., is a man well known throughout the county. He is the owner of the Seney House in Mount Pleasant, and until about a year ago conducted it to the satisfaction of all his patrons. Mr. Seney is one of the multitude who owe health and strength to the healing virtues of Dr. Williams' Pink Pills, and in a conversation recently with a correspondent of the Reporter gave the following particulars of his illness and cure.—"I found my health gradually giving way," said Mr. Seney, "but it was not until I had become so emaciated as to be almost unfit for business that I felt alarmed, and then I called in two physicians for consultation. The doctors disagreed as to what my trouble was, but the one to whom I gave the preference informed me that my trouble was due to a secretion of morbid matter in the blood, and accordingly he lanced several little sacs that had formed on my neck. This gave me some relief, but my constitution was so run down that I was almost a physical wreck. My appetite was very poor, and I was wasting away rapidly. My nerves seemed to be all unstrung, and I was greatly depressed in spirits. Medicine seemed to be doing me little or no good, and I did not know where to look for relief. I had heard and read much of the curative properties of Dr. Williams' Pink Pills, and at last decided to try them. Before I had finished my second box there was a marked improvement in my condition, and after continuing the pills for some time longer I was restored to my accustomed vigor and good health. It is now over a year since I discontinued the use of the Pink Pills, and I have continued enjoying the blessing of good health. I am strong in my commendation of Dr. Williams' Pink Pills, and trust that the recital of my experience may be a beacon to some other poor sufferer who may read it."

## Indigestion Cured.

Miss Mary L. Wilson, of St. John, N.B., is a successful school teacher, a talented artist, and an earnest worker in connection with St. David's Presbyterian church. Miss Wilson tells how for several years she was the victim of indigestion, the effect of which was to render the performance of her duties irksome, and deprive her of many of the enjoyments of life. She became weak and unambitious, pale and sallow, and, as the saying goes, did not feel at all like herself. Some months ago she began taking Dr. Williams' Pink Pills, and soon their good effects were noticeable, and under the treatment her health and her complexion have been restored. Writing under the date of Aug. 22nd, 1896, Miss Wilson says:—"I have a number of cousins who have been wonderfully benefited by the use of Dr. Williams' Pink Pills, but I would not feel at liberty to give their names for publication. You are at liberty to use mine, however, if you desire to do so."

Mr. Wm. J. Kahnt, Rockport, Ont., says:—"I have used Dr. Williams' Pink Pills for rheumatism, and find them all that is claimed for them—a cure for that painful trouble."

## A VICTIM OF SCIATICA.

**The Sufferings of a Well Known Guelph Citizen—Could Not Move About Without the Aid of a Stick—Again as Strong and Healthy as Ever.**

From the Guelph Mercury.

There is perhaps no business or occupation that any man could follow that is more trying to the health—particularly in the winter—than that of moulding. A workman leaves the shop with his clothes wringing wet from perspiration, and a cold wind chills him to the marrow, making him a ready mark for lumbago, sciatica and kindred troubles. A moulder requires to be a man of more than ordinary strength, and to continue at his work must always be in good health, for the moulding shop is no place for an invalid. Sciatica is by no means an uncommon affliction for men of this craft, and once the dread disease has lanced a victim he seldom shakes himself free from it again. In fact some people declare that it is incurable, but that it is not we are able to testify by a personal interview with one once afflicted with the trouble, but who is now in perfect health, thanks to his timely use of the famous remedy. There are few workmen better known in Guelph than Chas. W. Waldren, perhaps better known as "Charley Waldren," for he has lived in Guelph almost continuously since he was three years of age, and he has now passed the 38th mile post. Mr. Waldren is a moulder, and has worked at that business for 22 years; and besides being noted as a steady workman, he is a man whose veracity is unquestioned. It is a well known fact here that Mr. Waldren had to quit work in January, 1896, on account of a severe attack of sciatica, and for eleven weeks was unable to do a tap. Knowing that he was again at work a Mercury reporter called at his residence one evening to learn the exact facts of the case. Mr. Waldren, when spoken to on the subject, replied quite freely and had no hesitation in crediting Dr. Williams' Pink Pills with his remarkable recovery. "I am not one of those people who are seeking newspaper notoriety," said Mr. Waldren, "neither have I been snatched from death's door, but from the day when I quit work, until March 30th, when I started again, I was confined to the house with sciatica. It located in my hip and would shoot down my leg to my foot and was very painful. I could not move about the house without the aid of a cane, and then only with great pain. I was totally useless as far as doing my work was concerned, was never free from pain, and it made me feel very much depressed, for beyond that I felt strong and anxious to be about. I am a member of three benefit societies, from which I drew pay, viz.: The Three Links, the Iron Moulders' Association, and the Raymond Benefit Society. People came to see me, and of course everybody recommended a sure cure. I didn't try half of them. It was not possible, but I tried a great many—particularly remedies that I had been in the habit of using for lumbago—but I found no relief. I tried Dr. Williams' Pink Pills. After using two boxes I noticed an im-

provement, and I kept on using them. When I had used six boxes I was back at work again. I kept on until I had finished the eighth box, and I never felt better in my life.

"Have you noticed any recurrence of trouble since?" queried the reporter. "I have not," he replied, "suffered a single twinge since." Mr. Waldren has worked in all the moulding shops in the city, and was never in his life laid off sick as long as he was from the attack of sciatica. He hardly knew what it was to be sick, and is of that tough wiry nature that he can stand much greater physical strain than most people would imagine. Almost any person in the city can verify his story. Mr. Waldren said, as the reporter got up to leave, "I only hope some poor fellow who has suffered as I did may notice my case and get relief as I did."

## The Effects of a Cough.

Mr. Charles Achilles, the well known contractor and builder, of Georgeville, Ont., says:—"In attending for many weeks at the bedside of my son, who was stricken with consumption, I found myself in a decline. A former enemy, rheumatism, renewed its attacks, and in addition I commenced to cough and raise terribly. I grew weaker and weaker; could not rest at night, and was just able to get from my bed to the chair. I used many kinds of medicine but to no effect. I called in doctors, but they did me no good. I had heard so much concerning Dr. Williams' Pink Pills that I then determined to try them. It seems strange even to myself, but the first box gave me courage. I was stronger and the world looked brighter. I continued the use of the pills and the cough left me; so did the rheumatism, and to-day I am a well and rugged man, who takes much pleasure in testifying to the merits of Dr. Williams' Pink Pills."

## After-Effects of La Grippe Cured.

Mr. Norman Curtis, a well-known farmer living near McIntosh Mills, Ont., says:—"Two years ago I was attacked with la grippe, which weakened my whole system and left a feeling of constant depression. I was troubled with fluttering of the heart, severe headaches, and the least exertion would leave me in an exhausted condition. I had good medical advice and treatment, but it failed to help me. I was advised to try Dr. Williams' Pink Pills, and by the time I had finished the first box there was a decided improvement in my condition. Three more boxes fully restored me to health, and I cheerfully recommend Pink Pills as a grand medicine for similar sufferers."

Mr. M. Potter, Warkworth, Ont., says:—"My life was made miserable for a long time by indigestion. I tried to get relief from several sources, but could not. I dreaded the arrival of each day, as it meant intense pain and suffering. I determined to try Dr. Williams' Pink Pills, and almost from the outset they helped me. I continued their use, and life had a new joy and pleasure for me. Since using the pills I have had no return of the trouble, and I believe I am now permanently cured."

Williams' Pink Pills are for that pain.

## WHEN OTHERS FAIL.

### Dr. Williams' Pink Pills Restore Health and Strength.

From the Beaver, Napanee, Ont.

Among the young ladies of Napanee there is none better known or more highly esteemed than Miss Mary L. Byrnes. Indeed her acquaintance and popularity

cover a more extended field, as she is a travelling saleslady for the Robinson Corset Co., and has many customers on her route, which extends from Oshawa to Ottawa. How this young lady happens to be the subject of this article is due to the fact that she has recently undergone a most remarkable change through the use of those wonderful little messengers of health, Dr. Williams' Pink Pills. When the reporter of the Beaver called to make enquiry into her cure, he was met at the door by the young lady herself, whose rosy cheeks and healthy appearance gave no indication that she had undergone a prolonged illness. The reporter mentioned his mission, and found Miss Byrnes quite willing to tell the particulars of what she termed "an

escape from death." In reply to the query, "What have Dr. Williams' Pink Pills done for you?" she replied, "Why, they have done wonders. I feel like a new woman now. For eight years I was weak and miserable, and at times I could not walk. I was greatly troubled with indigestion, and frequently could not keep anything on my stomach, not even a glass of milk. I had dizzy spells, severe headaches, and my complexion was of a yellowish hue. My kidneys also troubled me, and in fact I was all aches and pains. In going up a flight of stairs I had either to be assisted up, or would have to rest several times before I got to the top. At times my hands and feet would have no more warmth in them than lumps of ice. On one occasion while stopping at an hotel in Kingston, after waiting on a number of my customers, I fell down in a faint. The landlady found me in this condition and sent for a doctor, who, after bringing me back to consciousness, gave me medicine to take. He told me that my system was so badly run down that it was imperative that

I should have absolute rest. His medicine had no beneficial effect that I could see, and I tried a number of other doctors, with no better results. I became so low that I cared for neither work nor pleasure, and my friends thought I had gone into consumption. It was at this juncture that I determined to give Dr. Williams' Pink Pills a trial, and my appearance to-day will show you what a wonderful change they have wrought in me. I continued taking the Pink Pills for three months, and before discontinuing them every ache and pain had disappeared. I cannot speak too highly of this wonderful medicine, and I am eager to let the fact be known for the benefit of other sufferers."

### Erysipelas Cured.

Mr. Hugh Morrison, Ashgrove, Ont., says:—"My son Percy while attending school was seized with a sudden weakness in his limbs and was obliged to leave school. He was attended by a good doctor, but with no beneficial results. He became languid, his appetite failed and he was very weak. The color left his face and his blood seemed to have turned to water. Then his legs began to swell and the doctor pronounced his trouble erysipelas, and lanced his limbs a dozen or more times, but no permanent benefit followed. We were then advised to try Dr. Williams' Pink Pills, and he had not been taking them a great while when he began to improve steadily. The swelling in his arms and legs was reduced, he was enabled to return to school and he can now romp and play with any of the boys of his age. The credit for this we give Dr. Williams' Pink Pills, and hope this experience may be helpful to some one else."

### After Effects of Scarlet Fever—Cured.

Mr. J. Herbison, of Rockfield, Ont., says:—"About three years ago at the age of 18, I was attacked with scarlet fever. After the fever left me I was still very weak, my appetite was poor and my kidneys were affected. I had no ambition for work and although I tried several medicines I did not find relief. I was advised by a friend to try Dr. Williams' Pink Pills, and after the use of a couple of boxes found a decided change for the better. I then continued using the pills for about a month longer, and found my health and strength fully restored. I can heartily recommend Pink Pills to others weak or ailing."

### A Smothering Feeling—Cured.

Mrs. John Dickey, Rockport, Ont., says:—"I suffered for many months from pain in the region of my heart, and an occasional sensation of smothering, and as a result of the trouble I was weak and nervous. I tried a number of medicines, but got no satisfactory relief, and at last determined to try Dr. Williams' Pink Pills. I used in all five boxes, and at that stage found that the trouble had entirely disappeared. I can confidently recommend Pink Pills to those who suffer as I did."

## A LIFE OF MARTYRDOM

Endured by Those who Suffer from Constant Headache.

From the Tribune, Mattawa, Ont.

Among the residents in the vicinity of Mattawa there is none better known or more highly esteemed than Mr. and Mrs. R. Ranson, who have been residents of this section for the past fifteen years. Mrs. Ranson has been a great sufferer for years, her affliction taking the form of dizziness and violent headaches, and the attacks would come upon her so suddenly that she could scarcely reach her bed unaided, and would be forced to remain for three or four days, unable to take any nourishment and suffering more than tongue can express. She was but seventeen years of age when these attacks first came upon her, and the doctor who then attended her said that in his opinion her life would not extend over a few years at most. But more than a score of years have since passed, during the greater part of which, it is true, Mrs. Ranson was a great sufferer. But that is happily now past, and she is enjoying better health than ever she did. To a reporter of the Tribune Mrs. Ranson told her story, adding earnestly that she hoped her experience might prove of benefit to some other sufferer. She said: "The spells of dizziness and intense headaches would attack me every three or four weeks, and would last from two to four days at each attack, and with each attack my suffering appeared to grow more intense. I had good medical advice, and tried many remedies, but with no beneficial results. In the spring of 1895 my appetite began to fail, my hands and feet would swell, and my heart palpitate violently. I was utterly discouraged and felt that I would not live much longer. One day my daughter urged me to give Dr. Williams' Pink Pills a trial, but I had taken so much medicine with no benefit that I refused. However, she went to town and got four boxes, and to please her, more than for any hope of benefit, I agreed to take them. I did not find the first box do me any good, but by the time I had taken the second my appetite began to improve and I could sleep better. I then began to have faith in them, and as I continued their use found myself constantly getting better. When I had finished the fourth box both myself and friends were surprised to find that I had not had a headache for more than six weeks, the action of my heart had become regular, and I could sleep soundly all night. I was still weak, however, and decided to continue the use of the pills, which I did until three more boxes were used. Since then I have been stronger than at any time for years before and have not had an ache or pain. I can do my work, have a new interest in life and feel ten years younger. I feel that Dr. Williams' Pink Pills will do for others what they have done for me, and believing this I am glad to make my story public in the hope that it will be of value to some sufferer."

## Suffered for Years.

From the Kingston Whig.

One who has been released from years of suffering is always grateful to the person or the medicine that has been the medium of release. It is therefore safe to say that one of the most thankful men in the vicinity of Harrowsmith is Mr. Grant Day, who for years past has been a sufferer from rheumatism, but has now been released from its thrall. To a reporter Mr. Day told his experience substantially as follows: "I have been a sufferer from rheumatism for upwards of twenty-five years. It usually attacked me worst in spring and fall, and at times the pain I endured was intense, making it difficult for me to obtain rest at night. From my hips down to my feet every joint and every muscle appeared to be affected, and the pains appeared to chase one another until I was at times nearly wild, and mind you this was my condition for upwards of twenty-five years. During that period I tried many remedies, and while I obtained temporary relief from some, I could get nothing in the way of permanent benefit. But last year the pains did not come back, and they have not returned since, and this is the way it came about. One day while telling my neighbor, Mr. W. C. Switzer, how badly I was feeling, he said: 'Get half a dozen boxes of Dr. Williams' Pink Pills and use them according to directions, and you will find they will do just what they are advertised to do—cure you. I know this from experience in my own family.' Well, I got the pills and used them, and the rheumatism has been driven out of my system, and last winter and spring for the first time in more than twenty years I was entirely free from my old enemy. But there is one thing more Dr. Williams' Pink Pills did for me, and which astonishes me a little. Over forty years ago I had a severe earache, and used a liquid preparation in the hope of getting relief. It nearly ruined my hearing, and for all the years since I have been partially deaf. After I took the Pink Pills my hearing came back, and my ear is now all right. My wife and sister have also found much benefit from Pink Pills when run down by overwork, and it is safe to say that they will always be found in our house."

## Headache for Years—Cured.

Mr. Peter McAntee, of Auburn, P. E. I., says:—"I think my illness dates first to a severe cold which I neglected. Then my stomach began to trouble me, and dizziness set in, which always ended in a violent headache, and from these headaches I have suffered for years. At times they would cease for a few days, but it seemed when they returned that my condition was worse than before. I consulted several doctors, and spent a large sum of money in buying medicine, but nothing seemed to do me any good. Finally I was advised to try Dr. Williams' Pink Pills, and they have accomplished what other medicines failed to do. I now feel completely cured, and have not had an attack of my old trouble for more than six months. I would earnestly advise sufferers from headache to give these pills a trial."

## HEALTHY DIGESTION.

**The Life of a Dyspeptic one of Constant Misery—One who has Suffered from its Pangs Points the Way to Renewed Health.**

From the Cornwall Freeholder.

The life of the dyspeptic is proverbially a miserable one, eliciting universal commiseration. Not so much because of the actual painfulness of the ailment, but largely because it projects its pessimistic shadows upon all the concerns of life, and here they sit like a deadly incubus upon every enterprise. An impaired digestion gives rise to an irritability that exposes the person to much annoyance, besides being extremely trying upon others. Hence it is not surprising that many would-be benefactors have caught the patronage of sufferers from indigestion. Judging by results Dr. Williams' Pink Pills is a remedy unique in its success, therefore it is confidently recommended as a safe and adequate cure for acute dyspepsia. This claim is substantiated by experience as the following facts will show.

Mrs. D. McCrimmon, of Williamstown, Glengarry Co., suffered untold misery from a severe attack of dyspepsia, which manifested itself in those many unpleasant ways for which dyspepsia is notorious. Every attempt to take food was a menace to every feeling of comfort, until the stomach was relieved of its burden by vomiting. When not suffering from the presence of food in the stomach, there were other symptoms more or less disagreeable consequent to the functional disturbance of the stomach, such as impaired taste and appetite, unwonted languor, increasing apathy, and falling ambition. Such an aggregation of the symptoms produced a trying state of affairs, and relief was eagerly sought. One of the best physicians of the neighborhood was consulted. He prescribed. His medicine was taken and his directions followed, but unfortunately three months of the treatment brought no substantial relief. When Mrs. McCrimmon expressed her intention of trying Dr. Williams' Pink Pills, the doctor laughed and held the thought in derision. However, Mrs. McCrimmon decided she could not afford to leave untried such a well recommended remedy as Dr. Williams' Pink Pills. Hence she took a course of this medicine, which, after a fair trial, was eminently successful. From being only able to take stale bread and milk or soda biscuits, she became able to take a hearty meal of any variety, without the painful effects that once asserted themselves after every meal. It only remains to be said that Mrs. McCrimmon improved in flesh and general comfort from the first taking of the pills, and almost anything going she could eat with impunity. Dyspepsia became a thing less dreaded, and largely belonging to the past. It is little wonder therefore that she urges the use of Dr. Williams' Pink Pills upon others similarly afflicted.

## Constipation and Dyspepsia Cured.

Mrs. Chas. Raymond, wife of one of the best known pilots on the ocean steamers between Bic and Quebec, says:—"I have used Dr. Williams' Pink Pills, and have no hesitation in saying that for me they are now the universal panacea and I am never without them in the house. For many years I was afflicted with indigestion and obstinate constipation. The result naturally was anemia and extreme weakness. I could sleep but little and became so nervous that the least noise troubled me. Then I suffered with pains almost impossible to describe. It is needless to say that I had good medical treatment, but in vain. One day I read in "Electeur" the statement of a lady whose case was in many respects similar to mine, who had been cured by the use of Dr. Williams' Pink Pills, and I decided to try them. The result is a complete cure of all my troubles. I had used five boxes before I found much relief, and I used in all a dozen boxes. I no longer suffer as I once did, and life wears a brighter aspect, all due to the great merit of Dr. Williams' Pink Pills."

## Helpless from Rheumatism--Cured.

Mrs. W. H. Martin, Thornton, Ont., says:—"I had an attack of rheumatic fever which a year later developed into chronic rheumatism, and eventually left me in such a condition that I was unable to attend to my housework, and completely used up. I called in our family doctor, who gave me considerable medicine, but it failed to have the desired effect. Having read so often of the cures effected by the use of Dr. Williams' Pink Pills, I decided to try them, and I am happy to say that they have effected a thorough cure. I also know of a number of other instances in which Pink Pills have done splendid work. I follow to some extent the profession of nursing and have thus opportunities to see the good work which Pink Pills perform."

## Nervous Headache--Cured.

Mrs. C. Terry, 15 Mitchell Ave., Toronto, says:—"I have used Dr. Williams' Pink Pills with very marked benefit. About a year ago I became thin in flesh, suffering from nervous headache, dizziness and a feeling of general prostration, which at times confined me to my bed. After doctoring for some time, and finding myself still growing worse, I decided to try Dr. Williams' Pink Pills, and can truthfully say they have restored me to perfect health. I urgently advise others similarly afflicted to try this wonderful medicine."

## Neuralgia and Debility Cured.

Mrs. Thatcher Townsend, of Milford, N. B., says:—"I am desirous of stating publicly the fact that when I was almost prostrated with neuralgia and general debility, the only medicine that gave me renewed health and strength was Dr. Williams' Pink Pills. A few boxes of these have made a new woman of me, and I earnestly recommend them to all who are in a debilitated condition."

## A FATHER'S STORY.

His Daughter Began to Droop and Fade—Was Attacked with Hemorrhage and Life was Despaired of—She is Again Enjoying Robust Health.

From the Brantford Courier.

A recent addition to the Grand Trunk staff in this city is Mr. Thomas Clift, who is living at 75 Chatham street. Since his advent here he has been a warm advocate of that well known medicine, Dr. Williams' Pink Pills, and through his endorsement dozens of boxes have been sold to his friends and acquaintances.

A Courier representative, anxious, although not surprised, to know the reason for Mr. Clift's warm eulogy of the pills, called on that gentleman recently. Mr. Clift willingly consented to an interview, and in the following story told his reason for being so sincere an advocate of a world renowned medicine. "Some five years ago," said Mr. Clift, "my daughter Lily began to droop and fade, and became disinclined either for work or pleasure. A doctor in London was called in and he prescribed exercise and a general 'rousing up' as the best medicine to effect a cure. My daughter did her best to follow his instructions, but the forced exercise exhausted her completely, and she gradually grew worse. One night I and my wife were terribly alarmed by a cry from Lily, and hastening to her room found her gulping up large quantities of blood. I rushed for a doctor and he did his best to stop her hemorrhage, but admitted to me that her case was very critical. She drooped away to a veritable shadow, and for weeks when I went to bid her good-bye in the morning as I went to my work, I feared I might not see her alive again. This went on for a long time until one day a friend recommended my daughter to try the effect of Dr. Williams' Pink Pills. She consented to do so, and in a comparatively brief period a decided benefit was perceptible. She persisted with the use of the pills and gradually rose from a bed of suffering and sickness until she once again attained robust young womanhood. For the last three years she has been in excellent health. It was Pink Pills that virtually brought her from the mouth of the grave and preserved for me my only daughter. Now do you wonder why I sound their praises and recommend them at every opportunity?"

## Weak and Run Down—Cured.

F. E. Smith, Huntsville, Ont., writes:—"Some months ago I was troubled with a pain in my side and a feeling of general weakness. My appetite failed and I had no ambition for work or pleasure. One after the other I tried a number of remedies, but found no relief. I then decided to try Dr. Williams' Pink Pills, and almost from the first I found them helping me, and after using them for a few weeks I found myself enjoying perfect health."

## Dyspepsia and Liver Trouble Cured.

Mr. Mark J. Kennedy, of Wheatley, says:—"I can conscientiously recommend Dr. Williams' Pink Pills to those who may be suffering from dyspepsia or liver trouble. For years I suffered from this complication of troubles, and so bad was the dyspepsia that I could not touch a morsel of food of any kind. I often found it difficult to obtain sleep, and what little I did get at these times was often broken by horrid dreams. This of course was the result of the dyspepsia. But in addition to my discomfort, was added liver complaint. I was subject to dizziness, I had a pain in the back and bloating of the bowels, and was pale, haggard and despondent. It will be readily seen that I was in a bad condition. I kept doctoring and dosing myself without the slightest benefit, and finally gave up in disgust, feeling that I would have to live out my life in this miserable condition. A friend suggested Dr. Williams' Pink Pills, but so great was my disgust at medicine that I felt tempted to be profane. But my friend was persistent and in the end handed me a box of pills, and I took them more to please him than from any thought of benefit. I took a second box and to my astonishment I was deriving benefit from them. I continued taking them and I am cured. Do you wonder, therefore, that I now consider Dr. Williams' Pink Pills the greatest medical discovery of the 19th century, and will always recommend them. I urge those who are suffering, but may be as skeptical as I was, to try them and learn their virtue."

## Kidney and Liver Troubles—Cured.

Mrs. Emma Matson, wife of Capt. Joseph Matson, of 10 Allen street, Halifax, N.S., writes:—"For several months in the year 1895 I suffered severely from derangement of the kidneys and liver trouble, from which I found little or no relief from the medicines prescribed by my physician. I lost in flesh, grew sallow, had no appetite and was much troubled with insomnia, and though only about twenty years of age, life had grown burdensome, and it was thought by my intimate friends that my health was permanently undermined. When I had become almost indifferent as to the future I was persuaded to take a course of Dr. Williams' Pink Pills. I found relief very soon, gained flesh and was enabled to sleep soundly, and with a restored appetite recovered my former complexion. I feel myself indebted to Dr. Williams' Pink Pills for my present health, after I had expended much money for medicine prescribed by physicians from which I derived no benefit."

## Nervous Debility Cured.

Mrs. S. L. Cooper, of Fairville, N.B., says:—"I wish to add my word of praise to the thousands who endorse Dr. Williams' Pink Pills. I am a teacher of vocal and instrumental music, and am first soprano in the Methodist choir here. The strain of my profession so deranged my nervous system that I was forced to give up my position in the choir, as well as my large class of pupils. My friends urged me to try Dr. Williams' Pink Pills, and after using four boxes I found my health fully restored, and I was again able to renew my calling. I shall always recommend Pink Pills to my friends."

## IN THE SHADOW OF DEATH.

**Pale Faces and Bloodless Lips—Given to Headaches—Extreme Weakness, Heart Palpitation and other Distressing Symptoms.**

From the Leamington Post.

The attention of the Post has lately been frequently called to a remarkable cure in the case of a young girl living within a few miles of this town, whose life was despaired of, but who was completely cured in a short space of time by that most wonderful of all remedies, Dr. Williams' Pink Pills. Since reading in almost every issue of the Post of the cures effected by the use of this medicine, we felt it to be a duty we owed our readers to investigate this case, which has so urgently been brought to our notice, and we are sure the interview will be read with interest by thousands of young girls all over Canada, as well as by the parents of such interesting patients. The young lady in question is not anxious for notoriety, but is willing to make her case known in order that others who are similarly afflicted may have an opportunity of being equally benefited. The symptoms in her disease differed in no way from those affecting thousands of young girls about her age. She was

suffering from extreme weakness, caused by an impoverished condition of the blood, and her chances of life seemed to grow less every day. The best and brightest fade away as well as others, but when we see a young girl of sixteen years, who should be in the best of health, with cheeks aglow with the rosy flush of youth, and eyes bright and flashing, just the opposite, with sallow cheeks, bloodless lips, listless in every motion, despondent, despairing of life, with no expectation or hope of regaining health, and with only one wish left, that of complete rest, physical and mental, we think it one of the saddest of sights.

In the quiet little hamlet of Strangfield, in Essex county, just such a case was presented to the sorrowing eyes of loving friends a few months ago, in the person of Miss Ella Beacon, who frequently said she did not care how soon she died, as life had no charms for her. To our reporter she declared that life had been a burden; but after

suffering in this way for months, and after trying all sorts of remedies prescribed by physicians or furnished by friends from some cherished recipe handed down from her grandmother, but without being benefited in the least, she was at last persuaded by a neighbor to give Dr. Williams' Pink Pills a fair trial; but she had tried so many remedies without getting relief that she still refused for some weeks. However, after repeated urgings by her parents and friends, she began the use of the pills. Before one box was taken she experienced some relief, and after the use of a few more boxes she was restored to perfect health, and there are few young girls now who enjoy life more. She says she owes her life and happiness to Dr. Williams' Pink Pills, and is willing that all the world shall know it. Her case attracted much attention, and her perfect recovery has created much comment."

### Released from Rheumatism.

Mr. A. T. Gallant, of French Village, P.E.I., writes:—"About the beginning of October, 1894, while I was digging potatoes one wet chilly day, I contracted a very bad cold, and rheumatism shortly followed. For a time I paid but little attention to the pain in my body or the stiffness in my limbs. But in the course of a few weeks I was confined to the house. I now began to apply rheumatic remedies, which I continued for several weeks without any benefit resulting from their use. I then dropped them and gave myself into the hands of a doctor for treatment, and for nearly three months all that medical skill is capable of accomplishing afforded no relief. My body was blistered and burned so that I could get no relief. My legs were stiff and helpless and I was as sore as a boil, my strength was entirely gone and I had to be turned over by the use of sheets and blankets. I was daily growing weaker and my condition more serious. Hope of recovery had almost vanished, except that while there is life there is hope. After three months of such torture I was induced to give Dr. Williams' Pink Pills a trial. I gave up all other treatment and began the use of the pills. Not a great many days had passed until there was a marked improvement in my condition, and I continued the use of the pills until I was cured. I have as good use of my limbs as ever I had; my health is perfectly restored and it is all due to the wonderful power of Dr. Williams' Pink Pills, which released me from pain and have given me a new lease of life."

### General Weakness Cured.

Mr. John Edgley, Rockport, Ont., says:—"My daughter, Maria, was in poor health for many months. She had no appetite and complained of a general weakness. She had headache almost constantly, and notwithstanding the medicines she was taking, seemed to be getting worse instead of better. I decided that she should try Dr. Williams' Pink Pills, and to our joy we found that they helped her almost from the outset, and after using several boxes her health was once more restored. I feel that it is only right I should give Pink Pills the praise they deserve."

## LUMBERING ON THE OTTAWA.

River Drivers often Waist Deep in Icy Waters—Pain-Racked Bodies the Frequent Outcome.

From the Ottawa Free Press.

Only those who have engaged in the arduous occupation of lumbering know how dearly earned is their livelihood, for among the many vocations of men that of lumberman ranks among the most dangerous and difficult. There is the heavy shanty labor from earliest dawn to evening star, when the toiler for half the year is remote from home and friends, and whose daily round is to eat and work and sleep, only getting an occasional glimpse of the outside world through a long looked for letter from some loved one far away.

Then the days lengthen, the frozen lakes break up, and comes the driving of logs and hewn timber down the tortuous swift running stream, when necessity often calls the driver to wade body deep in the swift flowing, icy waters. None but the strong can engage in such heavy labor, only the most robust are able to stand the ten hours of daily toil, with but a fleeting mid-day hour's respite. Such, in brief, is the life of many thousands of laborers in the Ottawa valley, and among the many is Thos. Dobie, of 130 Head street, Chaudiere, who for twelve long years has wrought for the great lumber king, J. R. Booth, shantying in the snowy northern forests, and lifting three-inch deal during the summer months. It is not to be wondered at that in his long experience and great exposure he should contract a severe cold that in time took permanent lodging in the region of his loins and kidneys. Like many others he thought to work it off, but in vain. Soon the pains in the region of the kidneys became so intense that labor was a torture to him, and it was only the indomitable courage, born of a knowledge that others were dependent upon him, that urged him to pursue his weary round of daily toil. Every sudden movement of the body was as a thorny goad that made him wince beneath its sting. Added to this was an unusual and excessive sweating which necessitated frequent changes of clothing, and which

weakened him to such an extent that his appetite was almost entirely gone, and eventually but little food and much water was his daily fare. Many vain efforts were made by Mr. Dobie to free himself from the pains which had fastened themselves upon him, and one medicine after another was used, but without effect. Life became a burden and existence a thing almost undesirable. After many fruitless efforts he was induced to try Dr. Williams' Pink Pills. When three boxes were taken the change in his condition was marvellous, and his own words are, "when I had taken six boxes I was a new man and consider the cure worth hundreds of dollars." Mr. Dobie, although completely cured, continues taking Pink Pills occasionally and is very enthusiastic in his praises of what the pills have done for him. Many of his fellow workmen seeing the great change wrought in him by these famous pills, have been led to give them a trial for other ailments, and are unanimous in pronouncing them superior to all other medicines.

### A Severe Sufferer from Rheumatism Restored.

Mrs. Mary Fancy, Bridgewater, N.S., says:—"I was troubled for years with rheumatism. At first it did not seriously inconvenience me, but the trouble kept growing worse, until finally I do not think there was a joint in my body which did not pain me. The result was I lost strength, my appetite failed, I could get but little sleep, and was in a pitiable condition. I tried many medicines, but could not get a cure. One day a pamphlet containing testimonials for Dr. Williams' Pink Pills was left at my house, and in looking through it I saw a number of testimonials from people who had been cured of rheumatism by this medicine, and I determined to give it a trial. I used in all ten boxes, and before I had finished the last I was a cured woman, every vestige of the pain and stiffness having left me, and I have not since had any return of the trouble."

### Father and Daughter Cured.

Mr. Geo. Anderson, the well known farmer and trader, of Athelstan, Que., says:—"I had an attack of la grippe, which left behind it the usual train of troubles. I suffered from a pain in the back and an oppressed and languid feeling. I tried a number of remedies without any perceptible change. Then I decided to try Dr. Williams' Pink Pills, which brought about a marked change in a short time, and soon restored me to health and strength. My daughter, Minnie, also experienced much benefit from the use of these pills. She had taken care of her deceased mother through a long illness, and her health became so impaired that we feared she was going into a decline. She was troubled with all the symptoms of anemia, and particularly suffered from a severe pain in the side. But thanks to Dr. Williams' Pink Pills, she has been restored to her former health and is now as strong as ever she was. I consider Pink Pills a first-class family medicine which should be found in every household."

## A YOUNG LADY'S ESCAPE.

Friends Thought that the Span of Her Life Would be Short.

From the Montreal Herald.

This World is full of change. There are changes that affect the constitution of the individual, changes that will come; we cannot avert their coming, but we may parry the unsalutary character of their influence. Womanhood in its inception is susceptible of changes that demand the most judicious attention and prudential care to ensure perfect development and happy maturity. These changes are so vital and so subtle in their character that unless the utmost vigilance and discrimination is exercised in the choice and application of reputed remedies, the worst results may accrue. The constitution may be undermined and the germs of disease fostered. Vigorous life is at the basis of all enjoyment and success. To be weak is to be miserable. It is therefore fundamental to every interest of humanity that life's red, red stream be kept pure and healthy. Owing to neglect of these particulars many young women have allowed life to become a burden and a wearisome round of duties. Faint and weak very aptly describes their

condition after venturing to perform some ordinary household duty. What can be done to accomplish the rejuvenation of these unfortunate ones? There is a remedy widely known and loudly applauded, whose virtues are proclaimed on the house tops and whispered on the streets. Ten thousand mothers have recommended it and twice ten thousand daughters praise it. Read what one of them has to say. In the village of Lancaster there lives Mrs. A. J. Macpherson, widow of the late A. J. Macpherson. She is well and favorably known in the community. Some four or five years ago Mrs. Macpherson sent her oldest daughter to New York. While there she resided with her uncle and attended school, being then only about sixteen years of age. The social life of her temporary home made rather severe demands upon her time, and being ambitious she was anxious to make rapid progress in her studies. In each particular she enjoyed a covetable measure of success, but at no small cost. Many remarked her paleness and loss of color. She began to feel tired and weak after a little exercise, such as a short walk. Miss Macpherson's stay in New York lasted about two years. All this time she ate and slept fairly well. In the spring of 1893 she came home, and

her mother could not but remark how changed her daughter was—pale and languid instead of being bright and ruddy. Thinking that nourishing food and perfect quiet, with judicious exercise, would restore the lost vigor and ruddy glow, it was participated in to the fullest extent. For a month this was tried, but still Miss Macpherson was as pale as before, liable to turns of weakness and with an insatiable desire for sleep. At this juncture the family doctor was consulted. Iron pills were prescribed and a trip to the Thousand Islands taken, the stay lasting about six weeks, during which time everything was done to help her recovery. The friends with whom she stayed came to regard her recovery as extremely doubtful, and when she returned home her mother saw no improvement. One day while making purchases at a dealer in vegetables, he (the dealer) took the liberty of making some remarks about the health of Miss Macpherson, which was obviously not promising. He strongly urged the use of Dr. Williams' Pink Pills. Mrs. Macpherson was not over credulous of the qualities of the Pink Pills, but they were purchased and used to the best advantage. "Soon after beginning the use of the pills," says Mrs. Macpherson, "I thought I saw a reddish tinge upon her cheek, and in the course of a week or so my daughter felt better. The tired feeling began to vanish and the abnormal sleepiness began to yield to the influence of Dr. Williams' Pink Pills. Continuing the use of the pills the progress of her restoration was contiguous and complete, and her improved looks were the subject of favorable comment for some time." To-day her health is all that could be desired, and both the young lady and her mother are firm believers in the medicinal virtues of Pink Pills, and often recommend them.

### A Rheumatic Sufferer Cured.

Mr. Angus J. McDonald, of Prescott, Ont., says:—"I have been a victim of rheumatism for over seven years. The trouble first came upon me at my former home in Williamstown. I became so bad that I was obliged to carry a cane when walking, and to go at a slow pace. At one time I was confined to my bed for three months. I tried many medicines, some of which eased the pain, but none gave me permanent relief until I began the use of Dr. Williams' Pink Pills. I have used in all about a dozen boxes and under the treatment my progress has been continuous and satisfactory. I have discarded the use of the cane and my weight has increased from 120 to 145 pounds. In a word I am a new man, and I attribute my improved condition entirely to the use of Dr. Williams' Pink Pills."

### Weak and Discouraged—Cured.

Mrs. Hall, of Scotland, Ont., says:—"Some two years ago my health began to fail, I felt very weak, my appetite was poor, and I was quite unequal to the cares of my household. I tried a number of medicines without any benefit, and was much discouraged, when a friend advised me to try Dr. Williams' Pink Pills. I did so, and soon began to feel my strength returning. My appetite became good, and I have continued to improve in health, and am now abundantly able to do all the work of my family, and I take much pleasure in returning thanks for the benefit I have received from the use of Dr. Williams' Pink Pills."

pale and languid and perfect quiet, was participated in by my husband as well as myself. I was unable to get up for sleep. At last I decided to take a trip to which time every day I stayed at home. My mother and sister in law were in the kitchen in vegetables. The health of Missed the use of Dr. Williams' Pink Pills. The qualities of the pills. "Soon after I felt better. The progress of her recovery was the subject of conversation. It was desired, and the virtues of Pink Pills were mentioned.

I had been a victim of a cold at my former home when walking for three months. I have permanent improvement in all about a month and satisfaction increased from 120 to 150 improved condition.

My health began to improve under the care of my doctor and was much distressed. I did so, and I have all the work of my life. I have received

## PINK PILLS CURE BY ENRICHING THE BLOOD AND RESTORING SHATTERED NERVES. 21

### DOCTORS GAVE HER UP.

Remarkable Experience of Mrs. Salois, of St. Pie—La Grippe Followed by Inflammation of the Lungs, Left Her on the Verge of the Grave.

In the pretty little town of St. Pie, Bagot county, is one of the happiest homes in the whole province of Quebec, and the cause

tending me lost hope, but suggested calling in another doctor for consultation. I begged them to give me something to deaden the terrible pain I endured, but all things done for me seemed unavailing. After the consultation was ended my doctor said to me, 'You are a great sufferer, but it will not be for long. We have tried everything; we can now do no more.' I had therefore to prepare myself for death, and would have welcomed it as a relief to my suffering, were it not for the thought of leaving my husband and child. When my husband heard what the doctor said, he replied, 'Then we will at once go back to Canada,' and weak and suffering as I was we returned to our old home. Friends here urged that Dr. Williams' Pink Pills should be

of much of this happiness is the inestimable boon of health conferred through the use of Dr. Williams' Pink Pills. Mrs. Eva Salois is the person thus restored, and she tells her story as follows:—"Like a great many other Canadians, my husband and myself left Canada for the States, in the hope that we might better our condition, and we located in Lowell, Mass. About a year ago I gave birth to a bright little boy, but while yet on my sick bed I was attacked with la grippe, which developed into inflammation of the lungs. I had the very best of care, and the best of medical treatment, and although the inflammation left me I did not get better, but continually grew weaker and weaker. I could not sleep at night, and I became so nervous that the least noise would make me tremble and cry. I could not eat, and was reduced almost to a skeleton. My whole body seemed racked with pain to such an extent that it is impossible for me to describe it. I got so low that the doctor who was attending me in another doctor for consultation. I begged them to give me something to deaden the terrible pain I endured, but all things done for me seemed unavailing. After the consultation was ended my doctor said to me, 'You are a great sufferer, but it will not be for long. We have tried everything; we can now do no more.' I had therefore to prepare myself for death, and would have welcomed it as a relief to my suffering, were it not for the thought of leaving my husband and child. When my husband heard what the doctor said, he replied, 'Then we will at once go back to Canada,' and weak and suffering as I was we returned to our old home. Friends here urged that Dr. Williams' Pink Pills should be

tried, and my husband procured them. After taking them for some weeks I rallied, and from that on I constantly improved in health. I am now entirely free from pain. I can eat well and sleep well, and am almost as strong as ever I was in my life, and this renewed health and strength I owe to the marvellous powers of Dr. Williams' Pink Pills, and in gratitude I urge all sick people to try them."

### Stomach Trouble Cured.

Mrs. Laschinger, wife of Jacob Laschinger, the well known carriage builder of New Hamburg, Ont., says that about two years ago she was taken with an illness that she was unable to account for. The symptoms were a severe pain in the stomach, as if something were destroying her vitals. Eating seemed only to increase the agony, and Mrs. Laschinger frequently went without food rather than incur the possibility of increasing the torture she already endured. She had often heard of the efficacy of Dr. Williams' Pink Pills, and was finally led to try them. She had not taken many doses before there was a perceptible change in her condition, and by the time she had taken a few boxes the pains had entirely disappeared, and she has never experienced any such symptoms since. Pink Pills are now a favorite medicine in that household, and are recommended to others.

### Debility and Weakness Cured.

Mrs. A. Burnett, Halifax, N.S., says:—"About a year ago I was taken ill very suddenly, and sent for a doctor. He said I was suffering from extreme weakness and general debility, and treated me for quite a while. Instead of getting better, however, I was getting worse, and finally the doctor told me he thought I had better go to the hospital. At this time I was so weak that I had to be lifted in and out of bed, and I had an aversion to going to a hospital. I asked my husband to get me a box of Dr. Williams' Pink Pills, and as soon as he returned I began taking them. Before the box was finished I felt better, and by the time I had completed the second box I was able to sit up, and from that out I began to recover rapidly. I have proved Pink Pills a wonderful medicine, and heartily recommend them to weak women."

### Heart Trouble Cured.

Mrs. Mary Middleditch, who resides in the township of Ellice, near Stratford, says:—"I suffered from heart disease, a trouble now so common among all classes. I was greatly reduced in flesh, and constantly besieged with a terrible fluttering at the heart. At the advice of a friend I was induced to try Dr. Williams' Pink Pills, and after taking a few boxes the fluttering grew perceptibly less, and my strength increased. As credit for this change was due to the Pink Pills, I continued their use, and soon found my health fully restored." Mrs. Middleditch further says that her daughter-in-law, Mrs. Albert Middleditch, has been permanently cured of dyspepsia by the same medicine. Whereas a few years ago her life was one of misery, she is now enjoying the best of health, and is not only able to attend to her household duties, but conducts a class of forty young people at her home every Sunday.

## AN INCURABLE CURED.

AFTER TREATMENT IN CANADA'S BEST HOSPITAL HAD FAILED.

One of the Most Remarkable Cases on Record—Ten Years of Intense Suffering from Acute Rheumatism—The Whole Body Contracted and Out of Shape in Every Limb.

From the Newmarket Advertiser.

We suppose there is not a resident of Newmarket who does not know Mr. J. A. Moffatt, who does not know of his years of suffering, and who has not heard of his release from a life of helplessness and pain through the medium of Dr. Williams' Pink Pills. Indeed we doubt if in the annals of medicine there is a more remarkable restoration than has been accomplished in Mr. Moffatt's case, and he deems it his duty to mankind to make the facts known through the columns of the Advertiser.

Ten years ago Mr. Moffatt was working in the Newmarket Hat Factory. Through the influences of the damp room, and possibly some carelessness in regard to his health, he was attacked with a severe cold which eventually settled in his limbs. For some years he was an almost constant sufferer from rheumatic pains and spent much money in treatment for the trouble, but with no result beyond an occasional temporary release from pain. Finally, to make matters worse he was attacked with malaria and rheumatic fever. He was then forced to go to the Toronto general hospital, when it was found that he was afflicted with torticollis (wry neck). During the first six months in the hospital he was under the treatment of the staff electrician, but the powers of electricity entirely failed, and after a consultation of physicians it was deemed advisable to perform an operation. Six weeks later a second operation was performed. The operations proved successful only in so far as they afforded temporary relief. He remained in the hospital from November, 1890, till January, 1892, and with all the modern remedies and appliances known to the staff of that well equipped institution, no permanent relief could be obtained. He was then advised to

go home, partly in the hope that the change might prove beneficial, but instead he continually grew worse, and in March, 1892, was again forced to take to his bed, and those who know of his condition did not believe he had long to live. At this time every joint in his body was swollen and distorted, and he suffered the most excruciating agony. If a person walked across his bedroom it intensified the pain as though he was being pierced and torn with knives, and if touched he would scream aloud with agony. In this state of hopeless suffering he remained bedfast for eighteen months, all the while using all manner of medicines from which relief might be hoped for. Then he was put under the treatment of a celebrated Toronto specialist, but with no better result. After this last experiment failed, he determined to try Dr. Williams' Pink Pills, at the same time discontinuing all other treatment. At the end of three months there was a very noticeable improvement in his condition, so much so that his mother thought he could be lifted outside. He was still so weak, however, that he was only able to remain up a few minutes. Next day he was again lifted outside for a few minutes as before. When taken back to bed he felt a sudden tingling sensation going up from his toes and through his joints and spine. The next morning when he awoke the pain had left the body and lodged in the arms, and then for some weeks the pain flitted from place to place in the arms and then disappeared, and he has not had a particle of pain since. All this time he was taking Dr. Williams' Pink Pills and slowly but surely regaining his strength. Then an invalid's chair was procured, and he was wheeled out; eventually he was able to wheel himself about. The continued use of the Pink Pills constantly added to his strength, and then the chair was discarded for crutches, and then the crutches for a cane. At this time (Sept., 1896) Mr. Moffatt had so far recovered that he was a frequent contributor to the columns of the Advertiser, and procuring a horse and buggy he was engaged as local reporter for the paper. The once utterly helpless invalid is now able to go about, and to get in and out of his buggy without any assistance, and is at his post of duty wherever called upon.

Thus we find that after years of suffering and helplessness Dr. Williams' Pink Pills have proved successful after all other remedies and the best of medical treatment had utterly failed. With such marvellous cures as this to its credit, it is no wonder that Dr. Williams' Pink Pills is the most popular medicine with all classes throughout the land, and this case certainly justifies the claim put forth on its behalf that "cures when other medicines fail."

### Heart Trouble Cured.

Mr. John Landon, a well known farmer living near Chickney, N.W.T., says:—"During the early part of 1896 I was greatly troubled with irregular beating of the heart. Sometimes it almost ceased to beat altogether, and at other times it beat too rapidly. This was frequently accompanied by pains, and gave me some alarm. One day I read of a similar case cured by the use of Dr. Williams' Pink Pills, and I decided to try them. By the time I had used three boxes I found that the trouble had entirely disappeared, and I have not since had the slightest recurrence of it. I can recommend Dr. Williams' Pink Pills to all persons who suffer similarly."

## A VICTIM OF ASTHMA.

**Had not Slept in Bed for Twenty-five Years—Seemed Doomed to Torture and Continual Misery—Father, Grandfather and Great Grandfather Had Died from the Trouble.**

From the *Whitby Chronicle*.

Mr. Solomon Thompson lives on a beautiful farm on the west shore of Mud Lake in Carden township, North Victoria. He has resided there for forty years, being the first settler around the lake. He was reeve of Carden and Dalton townships thirty-five years ago, before the counties of Peterboro and Victoria were separated, and he used to attend the counties' council at Peterboro. Mr. Thompson has been a victim of asthma for forty years or more. However, we will let him tell his own story on that head.

On October 15th, 1896, we took a trip to Mud Lake to visit the haunts long familiar to us, and made it a duty and found it a pleasure to call upon Mr. Thompson and learn from seeing him and hearing his account of it, how he had been cured. For twenty-five years we had known him as a gasping, suffering asthmatic, the worst we ever knew who managed to live at all. We often wondered how he lived from day to day. On calling he met us with a cheerful aspect and without displaying a trace of his old trouble. Being at once ushered into his house, we naturally made it our first business to enquire if it were all true about the benefits he had received from using Dr. Williams' Pink Pills. "Beyond doubt," said he, "How long have you used them, and how many boxes have you used?" he was asked. "I started a year ago, and took eight boxes." We next asked him if he felt that the cure was permanent. "Well," said he, "I have not taken any of the pills for three or four months. Still I am not entirely satisfied yet. You see my father, grandfather and great grandfather died of asthma. My people all take it sooner or later, and it always ends their days. I have lost three brothers from the fatal thing. Knowing my family history, it is hard for me to gain faith, but I can tell you for nearly thirty years I never slept in bed until I took Pink Pills. As you must have known, I always slept sitting in the chair you now occupy. I had a sling from that hook in the ceiling and always sat with my head resting in it while I slept. I now retire to my bed when the other members of my family do." "How old are you, Mr. Thompson?" "Seventy-six," was the reply, "and I feel younger than I did thirty years ago. I was troubled a great deal with rheumatism and other miseries, probably nervous troubles arising from want of sleep, but nearly all the rheumatism is gone with the asthma."

During the conversation Mrs. Thompson, a hale old lady, the mother of thirteen children, came in, and after listening to her husband's recital of these matters, she took up the theme. "I never expected that anything could cure Solomon," said she. "We were always trying to find something which would give him relief, so that he would be able to sleep nights, but nothing ever seemed to make much difference. At

first he took one of the pills after each meal, but after a time he increased the dose to two. We noticed he was greatly improved after taking two boxes and began to have hopes. Later on when we saw beyond doubt that he was much better, I recommended the pills to a niece of mine, Miss Day, whose blood had apparently turned into water and who had run down in health and spirits so bad that she did not care to live. Why, she got as yellow as saffron, and looked as if she would not live a week. You would hardly believe it," said Mrs. Thompson, "but that girl was the healthiest and handsomest girl in the neighborhood before three months had passed, and all from taking Pink Pills." Mrs. Thompson was called from the room at this juncture to attend to some household duties, and Mr. Thompson resumed the subject of his marvellous cure. "You can have no idea," said he, "what it is to go through twenty-five years without a good night's sleep without pain. I can find no words to make plain to you the contrast between the comforts I now enjoy and the awful life I had for so long. I had a big family of mouths to feed and had to work when at times I felt more like lying down to die. I would come in at night completely tucked out, but even that was no guarantee of rest. There was no rest for me. I seemed doomed to torture and continual misery. When my folks urged me to try Dr. Williams' Pink Pills, I thought it would be useless, but I had to do something or die soon, and here I am as right as a fiddle." The old gentleman shook his head to add emphasis to his last sentence, and looked like a man who felt joyful over a renewed lease of life, with all his old miseries removed.

## Completely Run Down—Cured.

Mr. Frank Dunham, Wellandport, Ont., says:—"I feel it a duty I owe to you as well as to other sufferers, to make known the good I derived from the use of Dr. Williams' Pink Pills. Two years ago I was completely run down in health. I could not go up stairs without sitting down to rest. There was no color in my lips and I was quite ambitious. I was clerking in a store at the time, and I thought I would have to give up my position, as it was with difficulty I could wait upon customers. I took medicine from doctors, but got no permanent relief, and I became low spirited and thought there was no hope for me. One day a lady who came into the store to purchase some of Dr. Williams' Pink Pills, said to me, 'Frank, why don't you try Pink Pills?' Well I followed her advice, and the result is I am now as well as ever in my life, and believing as I do that Pink Pills saved me, I cannot say too much in their praise."

## Nervous System Disordered.

Mr. F. Armstrong, Castleton, Ont., says:—"During the winter of 1896 I was studying very hard, and the work and close confinement told heavily upon me. My appetite became impaired; I spent sleepless nights, and as a consequence my nervous system was in a disordered state. I saw that I must take something, and I began the use of Dr. Williams' Pink Pills. In a short time they had established a new order of things. My appetite returned; I enjoyed refreshing sleep, and my nerves were brought under control. Dr. Williams' Pink Pills are as good as they are recommended to be."

## EFFECTS OF LA GRIPPE.

### ENFEEBLED CONSTITUTIONS AND DEATH THE RESULT.

**Official Statistics Show that in Ontario Alone 2,023 Deaths Resulted from this Cause in 1892, 93-94—How to Avoid the Baneful After Effects of this Scourge.**

Very few people have any conception of the deadly effects of la grippe or influenza, which with each recurring winter sweeps over Canada, leaving in its trail death and broken constitutions. If an equal number of deaths were caused by say cholera, the whole continent would be in a panic, and it is only because the deadly effects of la grippe are not understood that its approach is viewed with less apprehension.

Dr. Bryce, the very efficient health officer for Ontario, in his annual report to the provincial government, shows that the deaths in Ontario alone from the effects of la grippe for the years 1892, 93-94, reached the aggregate of 2,023, a number sufficiently large to make us view the scourge with positive alarm, for in addition to this mortality, there are beyond doubt thousands who from the same cause are left with shattered health and ruined constitutions. La grippe is a disease of the nerve centres, with a specially marked effect upon the heart, and the obvious duty of those who have suffered from even a mild attack is to strengthen and fortify the nerve forces. For this purpose Dr. Williams' Pink Pills act more promptly and thoroughly than any other medicine yet discovered. Their function is to supply impoverished blood with its lacking constituents, and to build anew shattered nerves. That Dr. Williams' Pink Pills perform what is claimed for them in this respect is proved by the voluntary testimonials of those who have been restored to health. One strong case in point is that of Mrs. A. Gratton, of Hull, Que. To a newspaper reporter who interviewed her, Mrs. Gratton said:—"I was always a strong and healthy woman up to about four years ago. At that time I had a severe attack of la grippe, the after effects of which left me weak and nervous, with pains in my back and stomach, and almost constant severe headaches. I found myself so completely used up that I was unable to do any work about the house, no matter how light. My appetite had gone and I had no relish for any kind of food. For about a year I continued to be thus tortured, getting no freedom from pain either day or night. I had tried different kinds of medicine prescribed by a physician, but they did me no good. I began to believe that medicine would not cure me, and as I always had a terrible cough I feared I was sinking into consumption. One day a friend advised me to try Dr. Williams' Pink Pills. I had heard and read much about this medicine, but had not thought of it as a cure for myself, but I felt that it might be worth trying and procured a supply, and after the use of a couple of boxes I began to feel an improvement. I continued their use until I had taken twelve boxes, when I found myself free from pain, with a good appetite, and as well as ever I was in my life. Last December, as the result of a

severe cold, I was again taken ill, but this time I tried no experiments with other medicine, but went straight to Dr. Williams' Pink Pills, with the most beneficial results as you can see for yourself. I have such faith in Pink Pills that I never allow myself to be without a box, and take them occasionally as a tonic, and I will be glad if my experience will prove helpful to some other poor sufferer."

### Weak and Run Down—Cured.

Mrs. H. T. Smith, Kenlis, N.W.T., says:—"During the early part of 1895 I was very weak; so weak indeed that I could hardly crawl around to do my housework. My whole system was in a run-down condition, and I was constantly taking medicine prepared by a druggist, but found no benefit from it. One day my husband brought home a box of Dr. Williams' Pink Pills, and after I had used them a few days I felt they were helping me. I kept on taking them for several months, when I found my health recovered. Just as I was beginning to enjoy life again I had the misfortune to be thrown from a buggy, and was seriously hurt. I must have been injured internally, for I suffered considerable pain, which kept getting worse. Then I began taking Pink Pills again, and soon the pains left me, and once more I enjoyed good health. I now recommend Pink Pills to all my friends who are suffering from weakness in any form."

### Sciatic Rheumatism Cured.

Mr. John Mercer, Mallorytown, Ont., says:—"For more than five years I have been a great sufferer from sciatic rheumatism, and frequently for a period of a month or more I would be confined to the house. The result was that I was reduced in flesh and at times suffered from pains and fluttering of the heart. While the trouble was worst I had frequently to be helped out of bed in the mornings. I tried many medicines without any beneficial results, and finally seeing Dr. Williams' Pink Pills so highly praised, I decided to try them. After a few boxes were used I found they were helping me, and after the use of a dozen boxes I can honestly say I am a cured man. I feel that I owe my release from pain entirely to this great medicine, and I shall always recommend it to my friends."

### A Victim of Dyspepsia Cured.

Mr. James A. Purvis, Scotchtown, N. B., says:—"I have been a victim of dyspepsia for some years, and I suffered all the miseries consequent to that trouble. Last year I contemplated taking a trip south for the benefit of my health, but instead I found a medicine that cured me, and my friends are all congratulating me on my fresh and healthy appearance in contrast with a year ago. The wan look has left my face, my appetite is good, and I can eat almost any kind of food. My weight is greatly increased and I feel entirely a different man. What wrought this change? Dr. Williams' Pink Pills. They have cured me when other medicines failed, and I am only too pleased to be able to let other sufferers know how they can obtain renewed health and freedom from the pangs of indigestion."

## THE PECULIAR CASE OF MRS. HILL

The Doctor Told Her that Her Trouble was Consumption of the Bowels—There was No Hope of Recovery—But Health was Almost Miraculously Restored.

From the Morrisburg Herald.

Mrs. Hill, wife of Mr. Robt. Hill, of Winchester, not many months ago was looked upon as one whose days were numbered. To-day she is a handsome, healthy woman, showing no traces of her former desperate condition, and it is therefore little wonder that her case has created a profound sensation in the neighborhood. To a reporter who called upon her Mrs. Hill expressed a willingness to give the story of her illness and recovery for publication, and she told it with an earnestness that conveyed to the listener better than mere words could do her deep gratitude to the medicine which had brought about her restoration to health and strength. "I feel," she said, "almost like one raised from the dead, and my case seems to me little short of miraculous. About a year ago I was confined, and shortly after I was taken with canker in the mouth, and suffered terribly. Although I had good medical attendance, I did not seem to get better. In fact other complications set in, which seemed fast hurrying me to the grave. I grew weaker and weaker, until at last I was confined to bed, where I lay for three months. My bowels were in a terrible condition, and at last the doctor said he could do no more for me, as, with the other complications, I had consumption of the bowels. My limbs and face became terribly swollen, my heart became weak, and my blood seemed to have turned to water. I became simply an emaciated living skeleton. At last the doctor told me that I was beyond the aid of human skill, and that further attendance on his part would do no good. One day some time later my friends stood around my bedside, thinking every moment to see me breathe my last; but I rallied, and at the urgent solicitation of a friend it was decided at this apparently hopeless juncture to give Dr. Williams' Pink Pills a trial. In less than two weeks a slight improvement had taken place, and from that out I slowly but surely progressed toward recovery, until, as you can see for yourself, I am once more a healthy woman. It is impossible for me to express how grateful I feel towards Dr. Williams' Pink Pills, which, under God's blessing, have restored me to health and family and friends. I feel that the world should know my story, so that some other suffering sister may be able to find health in the medicine which I believe will never fail."

Mr. William Brezee, Hilton, Ont., says:—"It is with pleasure that I speak in favor of your Dr. Williams' Pink Pills. I have been tormented with rheumatism for fifteen years. I have only used four boxes of the pills, and am greatly relieved, and feel sure they will entirely cure me."

## Swollen and Dropsical—Cured.

Mrs. Alex. Ross, Broad Cove, N.S., says:—"Early in the summer of 1896 I was taken ill. Prior to that I had always enjoyed good health. I seemed weak and easily tired. Then my arms, hands and legs became swollen and pained me terribly. My troubles seemed like dropsy. I tried several doctors and took their medicines, but got no relief. In fact one of them told me I could not be cured. In this state I suffered for some time until I was advised by a friend who had herself experienced great benefit from the use of Dr. Williams' Pink Pills, to try them. I did so, and after taking a couple of boxes could notice no improvement and was discouraged. However, at the earnest solicitation of my friend, I continued their use and was on my sixth box when the longed for improvement came. From that out it was steady and rapid. My limbs assumed their normal size and shape, my appetite improved, and by the time I had taken eleven boxes I was a well woman. I make this statement to encourage those in doubt, as I was, about taking this medicine. I believe it the best on earth, and that under Providence it cured me."

## After Effects of La Grippe—Cured.

Mr. D. Hefron, a well known farmer living near Charleston Lake, says:—"I had a severe attack of la grippe and was unable to recover my former health. I lost all ambition and even the lightest of my farm work left me weak and tired out. I would have spells of dizziness accompanied by pains in my back that would sometimes last for days. Frequently I could not get to sleep until near morning, and when I arose I felt more tired than when I went to bed. I had tried several medicines, but got no good from them, and then I determined to try Dr. Williams' Pink Pills. After I had tried a couple of boxes there was a decided improvement. I could sleep better, my spirits rose and I began to look for my meals half an hour before the usual time. I continued the use of the Pink Pills some time longer and found my health fully restored. I am now an enthusiastic friend of Dr. Williams' Pink Pills, and will always look to them for relief if illness attacks me."

## Kidney Trouble Cured.

Mr. Thomas Kennedy, of Phillipsville, Ont., is one of the best known men in that section of the country, having lived there for nearly half a century. Mr. Kennedy says:—"For five years I have been a great sufferer with terrible pains in my stomach and across the small of my back. I also suffered from urinary troubles, which caused me much distress and inconvenience. The pains from which I suffered were so severe that night after night I lay on my bed without sleep, and my life was fairly a burden. Since I began the use of Dr. Williams' Pink Pills I have been getting better right along. They have greatly eased the pain in my stomach, and the urinary trouble is gone. I now sleep and rest well, and cannot say too much in praise of Dr. Williams' Pink Pills, which helped me so quickly and wonderfully. I can recommend them as the best remedy I know of for those suffering from kidney trouble."

## PARALYSIS CONQUERED.

AT LAST IT YIELDS TO THE ADVANCE OF MEDICAL SCIENCE

**The Strong Testimony of a Man who was a Half-dead, Bed-ridden Invalid—He Now Rejoices in Renewed Health and Strength—Doctors Admit that Paralysis is no longer Incurable.**

There is nothing in life sadder than to see a strong man stricken with paralysis. Alive, yet dead to the duties and activities that belong to life, the paralytic, until a comparatively recent period, was doomed to pass the remainder of his days in a hopeless and helpless condition. But since the discovery of that wonderful medicine given to the world under the name of Dr. Williams' Pink Pills, those stricken with this formerly incurable disease have now the means of regaining health, strength and activity. Hundreds in various parts of the country who were helpless, bed-ridden invalids have been restored to health by this incomparable medicine. Among those who have been thus fortunately restored to activity is Mr. Allan J. McDonald, a well-known resident of Nine Mile Creek, P.E.I. Mr. McDonald says:—"In the fall of 1893 I injured my back, and during the year succeeding suffered great pain. I had no less than four physicians attend me at different times, but without any benefit. Before the end of the year I was forced to give up all active work and was rapidly falling into a condition of utter helplessness. On two occasions the doctors encased me in plaster of paris, but it did no good. My limbs kept getting weaker and weaker, with a twitching motion, and I dragged my feet when I tried to walk. Finally I lost all power of locomotion and absolutely all power of feeling from the waist downwards, and I was as helpless as a piece of wood. In this half dead and half alive condition I laid in bed for eleven months, not able to help myself in the least. Physically I did not suffer much, but mentally the agony of those long, weary months cannot be described. I was at last told by the doctors that there was no hope for me, and that I was doomed to pass the remainder of my days a helpless, half lifeless piece of humanity. Providentially soon after this I read of a case similar to mine cured by the use of Dr. Williams' Pink Pills. It gave me new hope and my friends got me a supply of the pills. After the use of a few boxes I found that life was slowly returning to my limbs. I continued using the pills, gradually getting stronger and stronger, until now, after the use of thirty-two boxes, I am able to walk about smartly and can do light work, and I feel that I am gaining new strength every day. Words cannot express the thankfulness I feel at again being able to go about actively after passing through that terrible ordeal, and I sincerely hope that my experience may be the means of bringing back hope and health to some other sufferer."

## A Severe Case of Dyspepsia Cured.

Mr. Wilson Buck, of Ernestown, Ont., says:—"I am thankful to say that Dr. Williams' Pink Pills have cured me of a severe case of dyspepsia. For a long time after feeling the first symptoms of the trouble I indiscreetly refused to take anything for it. Finally I became so bad that I consulted a doctor, who helped me for a time, but finally the feeling of over-fullness after eating, accompanied by frequent vomiting, returned, and from this out I began to grow worse until finally I could not do any work about my farm. I was but a wreck of my former self, but I steadfastly refused to take medicine, for I had come to look upon my case as incurable. But after all, relief was nearer than I thought. I was urgently advised to try Pink Pills and finally yielded to the advice. I first tried one box, and thought they helped me, and then I gladly continued their use, gradually gaining in strength and feeling freer from the terrible stomach trouble that had made my life miserable, and I have no hesitation in ascribing my cure to Dr. Williams' Pink Pills."

## Husband and Wife Cured.

Mr. David Maybee, of Consecon, Ont., is one of the most respected residents of that village. He is also another of the vast throng who have sought and found health through the use of Dr. Williams' Pink Pills, and he tells his story as follows:—"About four years ago my arm became very lame, and I feared that I was going to lose the use of it. I consulted a doctor, who prescribed for me but without any benefit. The doctor did not seem to know whether it was a strain or rheumatism. As I was receiving no benefit from his medicine I decided to try Dr. Williams' Pink Pills, and after the use of a few boxes my arm was entirely well, and I have not been troubled with it since. Mrs. Maybee was also much run down in health and strength and for a time was unable to do her housework. She also began the use of Dr. Williams' Pink Pills, with the result that in less than two months she had completely regained health and strength."

## After Effects of La Grippe—Cured.

Mr. Chesley Burt, of Traceyville, N.B., says:—"While working in the C. P. R. machine shops at McAdam Junction a couple of years ago I had a severe attack of la grippe. The trouble appeared to have left the seeds of disease in me. I lost my appetite, became weak and dispirited, and so generally run down that I had to discontinue my work for some length of time. I consulted a doctor, and took his medicines with no beneficial results. Kidney trouble set in, and I became discouraged, and feared I would never get any better. A friend came to see me, and asked if I had tried Dr. Williams' Pink Pills. I said I had not, and he replied, 'They are just the thing you want.' It was thus that I was induced to give them a trial, and I am thankful to say I did, for after I had used a few boxes I was completely restored to health. I am now a well man, who never loses an opportunity to say a word in favor of Pink Pills."

## THEIR FAMILY MEDICINE.

SO SAY THOUSANDS CONCERNING DR. WILLIAMS' PINK PILLS.

Mrs. John Wood of Notre Dame, N.B., says they Restored Her to Health and Strength after Other Medicines had Failed.

From the Richibucto, N. B., Review.

In the village of Notre Dame, N.B., live Mr. and Mrs. John Wood, respected by all who know them. Mrs. Wood had gone through a trying illness from which she is now happily recovered, and this recovery created so much comment that your correspondent called upon the lady with a view to getting the facts for publication. The reporter was cordially welcomed and was told by Mrs. Wood that she had no objection to making a statement for publication if it were likely to benefit anyone else. She then gave the following particulars of her illness and cure. "For some time previous to February, 1856," said Mrs. Wood, "I had been feeling unwell and from that time out my health seemed to be going from bad to worse. I suppose the words general debility would best characterize my condition. I was weak, my blood seemed as thin as water. I felt continually drowsy, and yet could not get sound, refreshing sleep. My appetite was poor and I had no relish for food. I was reduced in flesh, and yet my limbs were bloated and swollen, and I was told that I had dropsy, but really I cannot say if this was the case. I tried several medicines, but they did me no good, and I almost felt like giving up in despair. One of my friends urged me to try Dr. Williams' Pink Pills and I began using them in the early spring. It did not take very long to see that I had at last found a medicine that would cure me if anything could, for after taking a couple of boxes I felt both better in health and spirits than I had done for some months. From this out I gained strength continually. My flesh became sound and healthy, the bloating left me, my weight increased, and I soon found myself restored from the position of an unfortunate invalid to a strong and healthy person. I can say nothing but words of praise for Dr. Williams' Pink Pills, and I strongly recommend them to all who may be suffering." Mr. Wood endorsed what his wife said, and added that Pink Pills would hereafter be their family medicine.

## Indigestion and Stomach Trouble.

Mrs. J. Thane, Warkworth, Ont., says:—"I was troubled with indigestion for years, and at times the awful gnawing sensation in the stomach seemed a living death. After having tried a number of medicines with no success I decided to give Dr. Williams' Pink Pills a trial, and to my great joy they have worked a complete restoration. Money cannot estimate their worth to me, and I heartily recommend them to similar sufferers."

## Was Going into a Decline—Cured.

Mr. Theodore Pare, the well known proprietor of the Hotel St. Lawrence, at St. Ann de Beupre, says:—"I have to thank you for the restoration to health of my daughter through the use of Dr. Williams' Pink Pills. Her health began to decline: sometimes she was feeling extremely miserable, and at others a little better. She became very pale, had no appetite, and was unable to do anything. I called in a doctor, but she did not seem to improve under his treatment, and finally he told me the symptoms were those of consumption. At that time a distinguished lawyer from Philadelphia was a boarder at my hotel, and seeing my child's condition told me that he had personal knowledge of a similar case cured by the use of Dr. Williams' Pink Pills, and urged their use. I decided to follow his advice, and purchased a half dozen boxes. When these were used there was a good improvement noticeable, and I procured another supply. She continued taking the pills, and her health and strength returned daily, and before the last supply was exhausted she was fully restored to her former health, and has since been well and strong."

## A Rheumatic Sufferer Cured.

Mr. Wm. Carroll, Sidney, Man., says:—"It is with great pleasure that I send you this testimonial, and if it will induce any poor mortal suffering with rheumatism to use Dr. Williams' Pink Pills and find relief as I did, I will rejoice. I am now over sixty years of age, and have been a sufferer from rheumatism for more than twenty years. When living in Ontario I was so bad that I tried several doctors, and spent a great deal of money, but got no permanent relief. After coming to Manitoba I got worse, and life became a burden. I could not rise from my bed or put my clothes on without help. I took almost every kind of medicine said to cure rheumatism, but without getting from them more than a little relief for a short time. I became so despondent that I thought there was no cure for me this side of the grave, and the pain was so great that life was a burden. I was urged to try Dr. Williams' Pink Pills, and by the time I had taken three boxes I knew they were helping me. After I had taken twelve boxes there was neither a pain nor an ache left. My former condition and present health are well known to all in this vicinity. I can and do strongly urge rheumatic sufferers to give this wonderful medicine a fair trial."

## A Sufferer from Sciatica Cured.

Mrs. John Barber, of Easton's Corners, Ont., says:—"For three years I suffered terribly from sciatica. The pain at times would not allow me to sleep or rest anywhere. I could come downstairs, but had to be helped back. A large swelling came on my right hip, and from there to my knee the pain was unbearable. It also affected my arms to such an extent that I could not lift my hand to my head. I could do no work whatever, and was growing despondent, when I decided to give Dr. Williams' Pink Pills a trial. The result is they have made me a new woman, and relieved me of every vestige of pain. My husband was also troubled with rheumatism, and this grand medicine has cured him."

## HEART FAILURE.

**Great Danger Involved in Weak Heart Action—The Trouble can be Cured.**

From the Magog, Que., News.

Mr. D. A. Bullock, boatbuilder of Georgeville, is well and favorably known to all the residents of that village. He has passed through a very trying illness from which his friends feared he could not recover, but he is once more happily enjoying good health. To a correspondent of the Magog News, Mr. Bullock recently gave the particulars of his illness and cure, saying that he would be very glad if his experience would prove helpful in enabling someone else to regain health. He says:—"There is no doubt in my mind that Dr. Williams' Pink Pills brought me from the horrors of death to the glad cheerful world. Some years ago, owing to over work and trouble, I was reduced to a weak state of health, wherein the heart failed to do its work properly, and not unnaturally the stomach became inactive. I had visits from three doctors, but without beneficial results. The medicine given by one of them caused a nervous shock that prostrated me for several weeks. The last one who treated me gave me a preparation of strychnine which upset my kidneys to such an extent that I was confined to the house and daily growing weaker. I had to keep stimulants constantly at my side to keep the heart at work, and even with this artificial aid its action was very faint. Then I began to try advertised medicines, but still without any good results. I lost strength, flesh and hope. I was advised to try Dr. Williams' Pink Pills, and that reminded me that I had a box of them at my place of business, which had been lying there for more than a year. Without very much confidence in them I decided to give the pills a trial. The result I must confess seemed to be almost magical. I had not taken the Pink Pills long when I was able to rest in my chair and take good refreshing sleep, something that had not taken place for months before. From that day with the use of the Pink Pills I continued to grow in strength, and am to-day a strong and healthy man. I believe that even Pink Pills should be assisted in their good work on the system, and that assistance is exercise, and this exercise I took from the time I began to regain my strength. I have now every faith in this medicine and believe that if those who are sick will use it health will be the reward."

### Would not be Without Pink Pills.

Mr. James McDougall, Sr., of Ompah, Ont., writes:—"Dr. Williams' Pink Pills is a medicine that I have kept in the house for years and I cannot recommend it too highly. I once had a slight attack from sun stroke, and it left me very weak, and with a frequent feeling of dizziness. I took Dr. Williams' Pink Pills and soon all the feeling of dizziness was gone and I grew strong again. If I do not feel well at any time I take a few doses of Pink Pills, which set me right. Some others in my family have also found them useful and we would not be without them in the house."

## Muscular Rheumatism—Cured.

Mrs. Margery Flynn, of St. John, N.B., says:—"About twenty years ago I was attacked by muscular rheumatism. My first attack was in the lower limbs and I was crippled for weeks, suffering intensely all the time. I used all sorts of liniments and rheumatic compounds, from which I got some relief, but it was only temporary. It would travel from my limbs to my back, and from my back to my arms, and then to my fingers, some of which were nearly disjoined. I suffered intensely, mentally as well as physically, for more than fifteen years. Besides using liniments and proprietary medicines, my family physician prescribed for me, but the result was always the same, no perceptible or merely temporary relief. About three years ago I began taking Dr. Williams' Pink Pills. In a month I felt that I had found a cure for my trouble. In six months it had left me altogether, and I have not since had any return of it."

## After Effects of Measles—Cured.

Alexander Later, Huntsville, Ont., writes:—"Two years ago I was attacked with measles. A few days after they had left me a second rash broke out, from which I suffered intense misery. I at first tried liniments, but they did me no good. Then I tried internal medicine, but with no better result. My appetite left me and I felt in a generally used up condition. Day by day I seemed to grow worse. I felt an inclination to sleep, but could not, and hope of gaining relief was fading. One day while reading a newspaper I came across an advertisement of Dr. Williams' Pink Pills, and determined to try them. Before I had completed the use of one box I was better, and by the time I had taken two more I was again entirely well, and I gratefully urge a trial of this wonderful medicine upon other sufferers."

## Heart Trouble Cured.

Mrs. John Sager, wife of a prominent farmer living near Egan Creek, Ont., says:—"I am glad to have an opportunity to make known to other sufferers the wonder-working powers of Dr. Williams' Pink Pills. I was very sick for over six months, and was unable to do work of any kind for that time. I was extremely weak, subject to dizziness, pain in the side, and faint and smothering spells. The doctor pronounced my trouble heart disease, and nothing seemed to relieve me until a friend advised me to try Dr. Williams' Pink Pills. I soon found benefit from them, and after the use of eleven boxes was as well and strong as ever I had been, and am now able to do my housework without any trouble. I can heartily recommend Pink Pills to those troubled as I was."

## TWO MONTHS TO LIVE.

**That was what a Doctor Told Mr. David Moore—The Remarkable Experience of One who was an Invalid for Years—Six Doctors Treated him without Benefit.**

From the Ottawa Journal.

Mr. David Moore is a well known and much esteemed farmer living in the county of Carleton, some six miles from the village of Richmond. Mr. Moore has been an invalid for some years, and physicians failed to agree as to his ailment. Not only this, but their treatment failed to restore him to health. Mr. Moore gives the following account of his illness and eventual restoration to health. He says:—"My first sickness came on me when I was sixty-nine years of age. Prior to that I had always been a strong, healthy man. I had a bad cough, and was growing weak and in bad health generally. I went to North Gower to consult a doctor, who, after examining me, said, 'Mr. Moore, I am very sorry to tell you that your case is very serious, so much so that I doubt if you can live two months.' He said my trouble was a combination of asthma and bronchitis, and he gave me some medicine and some leaves to smoke, which he said might relieve me. I took neither, because I felt sure I had neither trouble he said, and that he did not understand my case. Two days later I went to Ottawa and consulted one of the most prominent physicians there. He gave a thorough examination, and pronounced my ailment heart trouble, and said I was liable in my present condition to drop dead at any moment. I decided to remain in the city for some time, and undergo his treatment. He wrote a few lines on a piece of paper, giving my name and place of residence and trouble, to carry in my pocket in case I should die suddenly. I did not seem to be getting any better under the treatment, and finally left the city, determined to consult a doctor nearer home. I was again examined, and the idea that I had heart disease was scouted, the doctor saying there was many a man following the plow whose heart was in a worse shape than mine. I remained under the treatment of this doctor for a long time, but got no better. Then my case was made worse by an attack of la grippe, which left behind it a terrible pain in my neck and shoulders. This became so severe that I could not raise my head from my pillow without putting my hand to it and lifting it up. I doctored on until I was trying my sixth doctor, and instead of getting better was getting worse. The last doctor I had advised me to wait until the heat of summer was over, when he would blister me for the pains in my neck and shoulders, which he felt sure would relieve it. I was on my way to Richmond to undergo this blistering when I met Mr. Geo. Argue, of North Gower, who told me of the wonderful cure Dr. Williams' Pink Pills had wrought in him, and advised me strongly to try them. I went on to Richmond, but instead of going to the doctor's, I bought some Pink Pills and returned home and began using them. Before I had finished my second box

there was no room to doubt that they were helping me. I kept on taking the Pink Pills, and my malady, which the doctors had failed to successfully diagnose, was rapidly leaving me. The pain also left my neck and shoulders, and after a couple of months treatment I became strong and healthy. I am now in my 77th year and thank God that I am able to go about with a feeling of good health. I still continue taking the Pills occasionally, feeling sure that for a person of my age they are an excellent tonic. After the failure of so much medical treatment I feel sure that nothing else than Pink Pills could have restored me to my present condition."

## DR. WILLIAMS' PINK PILLS FOR MEN YOUNG AND OLD.

Every man who finds his mental faculties dull and failing, or his physical powers flagging, whether from overwork or worry, or as the result of early indiscretions or excesses, should promptly take Dr. Williams' Pink Pills. They will restore his lost energies, both physical and mental, build up the blood, restore the shattered nervous system, and ward off insanity—the too frequent outcome of excesses.

Mr. A.—P.—: Pain in back or loins. General weakness. Melancholy. Losses at night. Doctoring for over a year without benefit. The Pills cured him in two months.

W. J. B. writes:—"Have suffered for years from the results of early indiscretions and have tried many remedies, but got no relief until I took your Dr. Williams' Pink Pills; used six boxes, and am perfectly restored. Would recommend them to similar sufferers."

D. J. G. writes:—"My constitution was completely shattered from overwork aggravated by early excesses. Doctored for several years in vain. Finally took your Pink Pills, and after using them for three months all traces of my troubles have disappeared. Dr. Williams' Pink Pills are a blessing to humanity."

W. P. writes:—"I believe I was on the verge of insanity or the grave. My troubles were the result of foolish, suicidal habits which grew upon me. A friend who knew of my condition, and who knew that I had used other remedies in vain, advised me to try Dr. Williams' Pink Pills. I did so, and experienced relief from the first box, and after six months' faithful treatment, I am fully restored and a man again. I most earnestly advise those who are in a condition similar to what mine was to use Dr. Williams' Pink Pills."

## NASAL BALM

An Unfailing Cure for

### COLD IN THE HEAD AND CATARRH

Soothing, Cleansing, Healing.

As an almost instant relief for Cold in the Head, and a positive cure for catarrh, no other remedy can take the place of Nasal Balm. It is speedy in its effect, soothing, cleansing and healing, and at the first symptoms of cold in the head—always the forerunner of Nasal Catarrh—Nasal Balm should be at once applied, and all traces of this disagreeable malady will soon pass away. Where catarrh has become seated, there is great danger that it will develop into consumption, and treatment should be persisted in until all the symptoms have passed away. Among the evils which attend Catarrh are constant hawking and spitting, loss of senses of taste and smell, partial and sometimes entire deafness, dizziness, dull, heavy headaches, and offensive breath. A faithful use of Nasal Balm according to directions will soon effect a thorough cure. Owing to the sudden variations and the extremes of climate on this continent, fully seven-tenths of the population are affected with catarrh, and as a precautionary measure Nasal Balm should be kept in every household. That Nasal Balm is all we claim for it is conclusively proved by the following testimonials from well-known people:—

James Smart, Esq., Sheriff of the United Counties of Leeds and Grenville, says: "It would be impossible to speak too extravagantly of the wonderful curative properties of Nasal Balm. I suffered for upwards of a month from a severe cold in the head, which, despite the use of other remedies, was becoming worse and developing into catarrh. I procured a bottle of Nasal Balm, and was relieved from the first application, and thoroughly cured within twenty-four hours. I cheerfully add my testimony to the value of Nasal Balm."

Rev. W. B. Turner, Margaree, C. B., writes:—"It gives me great pleasure to testify to the value of Nasal Balm as a cure for catarrh. Some time ago I was suffering from this loathsome disease, but after using two small bottles of Nasal Balm I felt completely cured. I had before this tried three remedies, but they were of no help to me."

Miss Leotta Noyes, Barnston, Que., writes:—"I consider it a duty as well as a pleasure to give my testimony in favor of your Nasal Balm. I was a great sufferer from this disease for four or five years, and tried many remedies, but to no avail, until I was advised to use Nasal Balm by a friend who had proved its efficacy. I procured a bottle, and before it was half used was completely cured, and I have not had a touch of catarrh since that time. I can strongly recommend it to all suffering from catarrh."

Rev. Eli Woodcock, Belleville, Ont., says:—"I have been severely troubled with catarrh for fifteen years. On the recommendation of a friend I tried Nasal Balm. I have used part of a small bottle, which has given me great relief."

W. B. Jackson, Hawkesbury, says:—"I cannot speak too highly of Nasal Balm, as less than one-half bottle cured me of a severe case of catarrh. I had tried several other advertised remedies without receiving any relief. I am perfectly willing that you should use my name as a reference, as I consider the medicine worthy of all praise. It cures Catarrh, and is very pleasant and easy to use."

A. W. Mallory, Mallorytown, Ont., says:—"My daughter suffered for years from a most distressing and annoying catarrh. Her case was under the treatment of eminent physicians in the United States and Canada. Two months' use of Nasal Balm has had more beneficial effects than all former treatments combined."

Isaac Waterman, of the Imperial Oil Co., Pe.rolia, Ont., says:—"Nasal Balm gave me the most perfect satisfaction of any medicine I ever used for cold in the head. I found it easy to use, quick in giving relief, and effected a complete cure in a few hours."

Mr. G. T. Gorrell, mail clerk on C.P.R., says:—"Nasal Balm is a boon to all suffering from cold in the head. It gives relief rapidly and never fails to effect a cure."

Mrs. M. H. Philip, Port Hope, Ont., says:—"My son, a lad of sixteen years, has been troubled with catarrh for three years. He has taken fourteen bottles of two other catarrh remedies, besides doctor's medicine, without any good being done. We heard of your Nasal Balm, and thought we would try it, and after three days' use the result was astonishing. I think under God's blessing it is the best catarrh remedy in the world."

Mrs. Wadsworth, St. Thomas, Ont., says:—"I am happy to say that I have found your Nasal Balm all I could wish and all you recommend. I have seen a sufferer for several months with cold in the head, and thought I would try it. But after using your Nasal Balm I had instantaneous relief, and in a few days was quite cured. I also wish to say my little girl has found the greatest relief in Nasal Balm, as whenever she takes a cold she has great difficulty in breathing through her nostrils. But now she flies at once to Balm and gets rapid relief. It is such a pleasant remedy, and so easy to use, I shall always recommend it, and think every mother should keep it in the house for use of the little ones when they take cold in the head."

## NASAL BALM POSITIVELY CURES COLD IN THE HEAD AND CATARRH.

81

Mr. John Ramsden, Kettleby, Ont., writes:—"I have used your Nasal Balm, and can truly say it is the best remedy I have ever tried for catarrh, from which I have suffered for many years, and for which I have vainly tried to find relief from other cures. It has also been used by others in our household and always with beneficial results, and I have no hesitation in strongly urging all suffering from catarrh to give it a trial."

T. H. Munro, Parry Sound, says:—"Nasal Balm has no equal as a remedy for catarrh and cold in the head. It is both speedy and effective in its results."

Charlotte McDonald, Serpent River, N.S., says:—"After using Nasal Balm only three times I experienced great relief. It effectually removed the obstructions in the nasal passages, made breathing easier, and my headache is all gone. There is nothing like Nasal Balm for catarrh."

Mr. T. D. Lloyd, Toronto, says:—"I wish here to testify to the unequalled healing powers of your Nasal Balm. I have been troubled for three years by what the doctors call 'post nasal catarrh,' and have tried everything in the city that could be obtained in the shape of catarrh cures, and found no permanent relief from any of them, till a friend one day advised me to try your Nasal Balm, and I find that one bottle has done me more good than all the medicines put together that I have persecuted myself with before. I was very much troubled with spitting and hawking, especially in the morning, so much so that my throat was continually in a raw condition, but I am now beginning to know what it is to be able to speak freely. I shall not fail to recommend it to any of my friends suffering from the like disease."

Mr. E. G. Hart, of Gananogue, says:—"My child was suffering severely from cold in the head, indeed to such an extent that breathing was difficult. One application of Nasal Balm gave instant relief, and in a short time made a perfect cure."

Mrs. Kennedy, Clover Hill, says:—"I have much pleasure in saying that your Nasal Balm has done more good for my little girl than any remedy I have ever used. I believe Nasal Balm to be unequalled for catarrh."

Mrs. R. A. Harrison, Dunville Ont., says:—"I used your Nasal Balm in my own family, and find it by far the best remedy we can get. When baby gets cold we rub his forehead and nose well at night, and in the morning he is all right."

Mr. P. J. O'Hara, American House, Sherbrooke, Que., says:—"Having used your Nasal Balm, and having derived the greatest benefit from it, I consider it my duty to make known to the public its great worth. I have been a sufferer from catarrh for several years, and have tried a number of so-called catarrh cures, but without any benefit. I then gave Nasal Balm a trial, and one bottle has completely cured me. You are at liberty to publish this, as I think it will be the means of helping other sufferers."

A. Phelps, Arkell, Ont., says:—"I have had catarrh for two years, and was getting very bad with it when I was induced to try a bottle of Nasal Balm. The effect of its use has been truly wonderful. It stopped the droppings into the throat and allayed the pain across my forehead. I think it is the best remedy for cold in the head and catarrh ever offered to the public."

Horatio Collier, postmaster, Camerontown, says:—"I am well pleased with your Nasal Balm. I was suffering from cold in the head and catarrh, and through its use am now thoroughly cured. It is much more pleasant to use than the washes, douches and stuffs that I used previously. I will recommend it as a cure for cold in the head. You may refer parties to me and I shall feel a pleasure to reply to them."

Captain D. H. Lyon, manager and proprietor of the C.P.R. and R. W. & O. R. Car Ferry, Prescott, Ont., and Ogdensburg, N.Y., says:—"I used Nasal Balm for a prolonged case of cold in the head. Two applications effected a complete and thorough cure in less than twenty-four hours. I would not take \$100 for my bottle of Nasal Balm if I could not replace it."

Miss Mary H. Hawley, Nutt's Corner, Que., writes:—"When I sent for the Nasal Balm, some time ago, I was in a sad state with my head. I had continued droppings from the nostrils into the throat, which had troubled me for some years. The mucus seemed to coat my throat and tongue, and I was in a fearful state I assure you. I have used only part of a bottle, but the trouble has all gone, and my headaches and sore throat trouble me no more. You may be sure that I will recommend Nasal Balm to all who are troubled as I was."

Alex. Morrison, Tarbut, N.S., says:—"I can unhesitatingly recommend Nasal Balm as a positive cure for catarrh. In my own case I had been troubled with the disease for twelve years, and now not a trace remains. A friend of mine, Murdoch McEachran, also used it on my recommendation, and tells me that he has experienced more relief from one bottle of Nasal Balm than he has done from \$20 worth of other remedies. There is no doubt about the genuine merit of Nasal Balm."

William McLean, Bothwell, P.E.I., writes:—"I had been troubled with catarrh for some years, and I am glad to say that by the use of one bottle of your Nasal Balm I have been fully cured. I am glad to be able to recommend it to all who are so troubled."

The reputation enjoyed by Nasal Balm as a cure for Cold in the Head and Catarrh has resulted in many imitations being placed upon the market, and the public is cautioned against them. Ask your dealer for Nasal Balm, and refuse all substitutes alleged to be "just as good." If your dealer does not keep Nasal Balm in stock, it will be sent by mail, postpaid, on receipt of price, 50 cents per bottle, or large-size bottle \$1, by addressing

## HANSON'S MAGIC CORN SALVE.

### A Certain, Safe and Painless Remedy for the Removal of Corns.

There are hundreds of preparations for Corns, some that will relieve for a time, others that in ninety-nine cases out of a hundred are utterly worthless. Persons have been known to spend from \$1 to \$25 for corn specialties and not receive permanent relief. Temporary relief from a corn seems good, but what has been looked for is something that would TAKE THEM OUT, ROOT, SEED AND BRANCH, "never to come again." Hanson's Magic Corn Cure Salve will do it every time in from two to four days, without causing any pain, discomfort or injury to the tenderest foot. Having the largest patronage of any corn medicine in the world, with the least advertising, is the best proof of this.

#### READ WHAT THE PEOPLE SAY:

We publish in a condensed form a few of the thousands of unsolicited testimonials we are continually receiving concerning Hanson's Magic Corn Salve:—

Thomas Zairtz, boot and shoe dealer, Strathroy, Ont., says:—"I have tried Hanson's Magic Corn Salve, and in my own case it thoroughly removed the corn."

Amelia McDonald, Cookstown, Ont., says:—"Your Magic Corn Salve has helped me more than anything I have ever tried. I will sound its praises abroad."

E. Gelinas, Montreal, says:—"I can recommend Hanson's Magic Corn Salve as the best in the world."

Jonathan Varcoe, Laurel P.O., says:—"Hanson's Magic Corn Salve is all it is recommended to be. The first box cured the corns on the person I bought it for, and the second cured another, and it is wonderfully helping me, and my corns are of many years' standing. I would highly recommend it to anyone afflicted with corns as a sure cure."

J. Harris, Belleville, Ont., says:—"I have been troubled with corns since a boy, and I tried all sorts of remedies without avail, until I used Hanson's Magic Corn Salve, which completely removed them in a few days."

Rev. E. Alward, pastor of Baptist church, Pettescodiac, N.B., writes as follows:—"I pronounce the Magic Corn Salve the best remedy for corns I have ever used, and I have used many. I had three bad corns on my toes, one of fifteen years' standing, and they have all been removed by this grand Salve."

Clinton Moss, Niagara Falls, Ont., says:—"Hanson's Magic Corn Salve cured my corns of many years' standing. It also removed a mole from my face as large as a five cent piece, without leaving a scar or trace. It is a grand remedy."

P. S. Kilborne, Postmaster, Winterbourne, Ont., says:—"Hanson's Magic Corn Salve gives general satisfaction, and is the best remedy of the kind I know of."

D. B. Shaw, shoe dealer, Wolfish, N.S., states:—"Hanson's Magic Corn Salve does all that is claimed for it. Tried it myself with the best results."

M. McKay, Westville, N.B., says:—"Hanson's Magic Corn Salve has effected cures in every case tried."

Mr. Luke White, Postmaster, Margaree Forks, N.S., writes:—"I have used Hanson's Magic Corn Salve, and find it just as recommended—in fact the like of it has never been known in this country."

George Thomson, Clyde, says:—"I have used Hanson's Magic Corn Salve, and I find it a splendid corn-killer."

J. W. Graves, Postmaster, Kingston Village, King's Co., N.S., says:—"Your Corn Salve duly received, and I have been waiting to hear the result from different persons using it, and one and all pronounce it 'death on corns.' There is not a single exception, and I believe it to be superior to any and all corn preparations in the market."

F. X. Paquette, grocer, Montreal, states:—"I was troubled for a long time with bad corns, and after using your Hanson's Magic Corn Salve for three days it entirely removed them, and I am glad to be able to certify to its general excellence."

W. J. Mellish, Carville, Ont., says:—"Hanson's Magic Corn Salve is the best remedy I know of. It will remove the most troublesome warts as well as corns."

Mr. Andrew Gourlay, Sebringville, Ont., writes:—"I have fully tested your Magic Corn Salve, and know it to be all that you claim for it. I have also seen what it has accomplished for others who have used it on my recommendation, and I feel safe in saying that it will remove in short order the very worst class of corns."

Mr. Thomas Ney writes:—"I have suffered with corns for twenty years, and they became so bad that I was unable to wear boots, in fact was a cripple. I tried other alleged cures, but found no benefit. Your Magic Corn Salve was recommended to me, and after the use of two boxes my corns had completely disappeared. It is with the greatest satisfaction that I recommend it to my fellow-sufferers."

## IMITATIONS AND SUBSTITUTES.

The remarkable reputation achieved by DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE as a

### BLOOD BUILDER AND NERVE TONIC

has caused unscrupulous persons here and there to offer imitations similar in name and appearance, but possessing none of the sterling merits of the genuine DR. WILLIAMS' PINK PILLS. In other cases dealers endeavor to take advantage of the purchaser by offering something which they allege is "just as good." **Do not be deceived**; there is no other remedy on earth has as many marvellous cures to its credit as DR. WILLIAMS' PINK PILLS, and there is no other remedy that can successfully take its place. It should always be borne in mind that THESE PILLS ARE NEVER SOLD IN LOOSE FORM OR IN BULK BY THE DOZEN OR HUNDRED, but always in neat, round boxes, about two inches in length, the wrapper around which bears the trade mark: "Dr. Williams' Pink Pills for Pale People."

The engraving on the back of this cover is an exact representation of the appearance of each box. THE WRAPPER IS PRINTED IN RED INK, and in no other shape can the genuine Pink Pills be had. SEE THAT THIS WRAPPER IS ON EVERY BOX YOU BUY, and do not be persuaded to take anything else.

For exportation to hot and damp climates these pills are put up in sealed glass bottles.

If your dealer does not keep DR. WILLIAMS' PINK PILLS, they will be sent to you by mail, securely packed, and postage paid, on receipt of price, 50c. a box, or six boxes for \$2.50, by addressing
