DO IT THIS WEEK-END

Before the Real Cold Weather Sets In

Do it Because it Will Save Coal by Keeping the Heat in and the Draughts Out

Perhaps you have a door that doesn't fit tightly against the floor. If you have, you'll no doubt be interested in this automatic door weather strip which is illustrated.

As you see it is screwed on the bottom of the door, and has a small attachment or

arm, which when the door is closed, presses tight against the jamb and forces the weather strip tightly against the door and floor.

When the door is opened the arm releases the weather strip, thus affording an automatic protection against draughts.

It is simple in operation and effective; furthermore, it's a splendid value at 55c.

Sizes range from 2 ft. 6 in., 2 ft. 8 in., 2 ft. 10 in., up to 3 feet.

When ordering mention size of door and if opens on the right or left. The price is 55c.

Premier Drury is all in favor of efficiency in the civil service, to be stimulated by the simple but obvious means of promotion according to merit. This appeals to everyone but the inveterate slacker, and no one can argue in favor of the public business being carried on inefficiently in order "Burgling" the Mount Pleasant to favor an incompetent official. #### JUDGE'S SALARY TOO SMALL

Ida L. Webster

A deputation from the city counci waited upon the new attorney-general—or, rather, he who, by the grace of the voters, will be attorney-general—yesterday, and did their best to imress upon him the grave necessity for ppointing a new man to the position of commissioner of the juvenile court.
What the fruit will be like, which their efforts will bring forth, is, of course, the rankest sort of a guess at this stage of the game, but from their "voiced" opinions it appears that they are, or were, unanimous in desiring a nan with a large heart.

Unfortunately, large hearts are not quite so numerous as floating kidneys or flat feet, still there are some to be found. If the hunter after same is persevering enough.

The late commissioner was a man

n a thousand. The present commissioner, or "judge," as he prefers to be called, may be also a man in a thousand. Personally, we have not a speaking acquaintance with him, so that we cannot make a statement. His court, as you must know, has always been closed to both the public and the press.

Therefore leading the young and aged
to believe that the attaches of the late lamented Tory government did not follow the doctrine preached by our Lord, when He said: "Let your light

so shine before all men, etc."
In any case, for whatever reason you like, Judge Boyd has maintained a

strictly private court.

His enemies have been, and apparently are yet, many. His salary was long since stopped by the city council, but nothing loth he remained on the bench, or whatever the technical term for his seat happens to be and on his behalf Inspector Dunlop wrote the city, notifying them that if he did the city, notifying them that if he did not get his pay he would have to take action, or words to that effect.

On the head of all that, the city officials had the nerve to trail up to the parliament buildings, requesting not only his dismissal but also his successor. Truly, indeed, it is a tough life.

And now, with the present commis-sioner disposed of, the big thing seems to be to find the right man to take

#### CITY HAUL NOTES

For the first time in many moons, the board of control held a peaceful and business-like meeting yesterday norning. There was no unnecessary regument, no bad temper, no calling of nasty names, and no vote-catching pisodes to record. The result of all this was that some genuine business was transacted that tends towards the itizens' best interests. It is a pity hat a kind of Marconi photo could not ave been taken of the meeting. To ave such a print in the board of conol meeting room would act as a guidce to future controllers in the mat-

The mayor yesterday received two etters of complaint from the Chinese sul-general. The first letter, dated m Ottawa, makes complaint that at bout 11.20 p.m. of the 27th he was with a friend on York street, when he aw a city constable stop a Chinaman arrying a grip. The constable tried open the locked grip, and, on his allure, began to talk excitedly to the hinaman. The consul, believing he ould be of service as an interpreter, offered his good offices. He alleges he was abused by the police officer for is interference, even after he disclosed his official rank. He mentions the onstable's number in his letter. The second letter has reference to the riots of Nov. 17, and the consul, in enclosing some statements of claims for damage, says the city ought to reim-burse the Chinamen for their losses, but should arrest the ringleaders of the riots and prosecute them to trial and conviction. The mayor has referred both letters to the chief of police for report.

It was generally concluded at the dity hall yesterday that the board of control acted outside the law when on Thursday they voted certain moneys to be used for the construction of the Bloor street car line. On reference to the minutes of the council for 1914, it is revealed that the particular sum in stion was voted for the Mount Pleasant and Lansdowne avenue lines. The report on which the bylaw was voted upon says: "To authorize raising \$320,000 for construction and equipment of car line commencing near intersection of Broadway avenue and Mount Pleasant road, and extend-ing southerly and westerly to a con-nection with Yonge street."

Many aldermen yesterday expressed urprise at the board of control voting as they did on the Bloor street propo-It was against the advice of their officials, and yesterday they had to take it all back. As one alderman remarked yesterday: "Some of the members of the board of control say, in effect, 'Hang legality! Get the Bloor line at all costs." If the board of control had not seen the errors of eir ways it would have been easy for any citizen to have obtained a mandamus to prevent the Mount Pleasant money being expended on

Another complication raised by the lasty action of the board of control was that the council last Monday ordered the Bloor street financing to be taken out of some other fund, and that resolution naturally takes precedence of the later decision.

But all's well that ends well. The board of control yesterday threw the whole transportation question into the nelting pot and out of it have constructed an entirely new program, by have decided to enact a bylaw closing which both Mount Pleasant and Bloor such stores at 7 o'clock each night,

There is likely to be a spirited de-bate at Monday's meeting of the coun-cil on the early-closing bylaw for and asked for the matter to be reopen-ed. It will, however, come before council on Monday.

UNITARIANISM.

It is the religion of reason and the human heart. It is the religion of the Lord's Prayer, the Golden Rule, and the two Great Commands of Love to God and Love to Man. It stands for deeds, not dogmas; for hope and trust and worship, for freedom of thought and progress, not for bondage to the past; for earnest and united effort to build up the Kingdom of Heaven on earth. It teaches that the truest service of God is service of Humanity. First Unitarian Church, Jarvis St., near Dundas, Morning service, 11. Rev. James C. Hodgins, Minister.

## PARRY SOUND GRANITES

Parry Sound, Nov. 27.—At a well attended and enthusiastic meeting in the council chamber, the Granite Curling Club of Parry Sound elected their officers for the coming season, as follows:
Patrons, Col. James Arthurs, M.P.; R. Reece Hall, M.L.A., Lieut.-Col. J. B. Miller, David Beatty; honorary president, C. A. Phillips; president, Dr. M. T. Armstrong; vice-president, James Logan; secretary-treasurer, J. E. Armstrong; sexecutive committee: the president, vice-president, vice executive committee: the president, vice-president, secretary-treasurer and Messrs. W. J. Beatty, Alex. Logan, Col. J. H. Knifton and J. E. Hawkins; ice committee: Messrs. A. C. Logan, G. L. Allen and H. F. McQuire.

The club will continue its membership with the Ontario Curling Association and the Northern International Curling Association. Prospects are good for a large increase in membership and a season of good sport.

#### JUNIOR CHAMPIONSHIP.

Capitals, Junior City League champions, and Ossington Avenue Baptist, Junior Inter-Church champions, play a sudden-death game to decide the junior championship of the city this afternoon at 3 o'clock at Rosedale Field. As this is one of only two games this afternoon, and as the juniors always put up a good battle, a large crowd is expected to see the game.

#### NORTHERN HOCKEY LEAGUE.

Listowel, Nov. 28.—Secretary Beverley Bamford of the Northern Hockey League announces that the record for entry of senior and junior hockey teams is likely to be smashed this coming winter. Many new clubs, as well as all the old ones, have made inquiries about prospects. The annual meeting will be held at Palmerston on Tuesday, Dec. 9, and nominations and amendments to rules and regulations should reach Secretary Bamford here not later than Tuesday, Dec. 2.

Plymouth Eng., Nov. 28.—Lady Astor was elected to parliament from the Sutton division of Plymouth in the ballotting of Nov. 15. The result was announced after a count of the ballots here this afternoon. The vote stood: Lady Astor (Unionist), 14,495; W. T. Gay (Labor), 9292; Isaac Foot (Liberal), 4139.

Lady Astor will take her seat on Monday next.

New York, Nov. 28.—The United States military and naval academies began their march on this city today, prep ratory to the annual army-navy football game at the Polo Grounds tomorrow afternoon. Approximately 45,000 spectators will witness the game. Twice this number of tickets could have been sold. The few tickets that have reached the speculators are bringing fabulous prices. While there appears to be little wagering on the part of the public or followers of the academies or football in general, such bets as have been made favor the army team by slight odds.

#### **EDUCATION INTEREST**

Hon. R. H. Grant, minister of education, visited the normal school yesterday afternoon. In the course of In the course of an address he said that altho he had naturally been largely interested in the rural or common school, that did not in any way militate in his mind against any particular section of the community. It would be his earnest endeavor to be impartial and do his best for the general educational interests of the province.

#### FINE S.O.E. RECORD

That the S.O.E. had sent more than 7000 members out to battle for the cause of the empire, and that of this number 868 had paid the supreme sacrifice, while the society had paid over \$113,000 to the dependents of the returned men, was the message given by Sir Fred Stupart at a reception and particulars from Canadian Pacific banquet held in honor of the returned members of Lodge St. George at St. George's Hall last night. The banquet was largely attended. It was pointed out that 30 members of this lodge had returned, and that two Capt. Harry Taylor and Corp. P. J. Coombe, were killed on Flanders' Fields. Bert Lloyd had charge of the entertainment. Every returned member was presentwith a mahogany clock inscribed with his name and service to the cause, and Sir Frederick Stupart was presented with a bouquet of roses for his lady. Walter Bamlett presided.

The chairmen, governors and masters of St. Andrew's College invited the friends of the past and present to witness the annual prize giving, which took place in the chapel, which was decorated with white chrysanthemums, against which the crimson bindings of the prizes made an effective splash of color. Those presenting them were the president of the university, the Rev. Dr. Cody, the Rev. Dr. Gandier and Mrs. Warren Darling, who gave the rifle from the 48th Highlanders Chapter, I. O. D. E., having presented to her a bouquet of roses and orchids by Master Proctor, a grandson of the Hon. Sir Edward and Lady Kemp. After the proceedings the guests adjourned to the beautiful dining-hall, where they were entertained by Dr. and Mrs. Macdonald, tea being arranged on a table running the full length of the immense room, and adorned with lovely autumn foliage from the new property of the college at York mills, and chrysanthemums. Mrs. Macdonald looked extremely well in a handsome back velvet with bouquet of violets.

A striking feature of the productions
presented by Mr. Sothern and Miss
Marlowe this season is, that, abandoning the realistic scenery which has
nutherto formed their repertoire, these
players have introduced settings of the
modern school. In a practical way the
new settings eliminate the long waits

Reflect on National Character, Says Frank Barber to Electric Club.

"Prepare to meet thy God" was a egend which Frank Barber declared he found at the entrance to a local bridge, in speaking to the Electrical Club at luncheon yesterday, "De Pontibus." The bridge in question justified the legend. It was rotten and decayed after 30 years. Seven bridges in one district collapsed in Ontario in 1912, and he mentioned other similar instances where a wasteful and reckless method of bridge-building led

reckless method of bridge-building led to such extravagant loss.

The new London bridge, in the empire metropolis, looked new and was new and was 100 years old. The Pont Neuf, in Paris, was 900 years old. The Pont du Garde, at Nismes, was finished 19 years before Christ by the Romans. Why had Canada such poor, times, ephemeral bridges compared with the durable and beautiful bridges of Europe? get an interest in a factory resuming production and dividends. Perhaps he paid less than half its present value. Those dividends may be paying for comforts and luxuries now. Some people let their money lie idle in a bank. Some speculate on the vision of a fortune in the distant future.

You Are Watching for an opportunity to increase your income. There is a factory on the Central Ontario Railway resuming pro-duction. It is substantial and well equipped. Its process of manufacture is simple. When set in operation, the factory largely runs itsel. Nature and machinery do nearly all the work.

It is lying alongside the factory, where you can see it, and in quantity that will not run out in your time. The cost of getting it into the factory is trifling. We are talking about our molybdenite mile, on the Canadian National Railway, about one hundred miles from Toronto, and our enormous quarry of molybdenite is really and the molybdenite is carried away from the rock by froth from oil and air, it is then collected and sold.

### CAR LINE ACTION UP TO COUNCIL

Controllers Favor Immediate Construction of Bloor and Mount Pleasant.

The board of control yesterday held special meeting to consider the rethe council on Monday for adoption. In regard to the future of the two non-constructed civic lines-Bloor and Mount Pleasant—which the board managed to so tangle up that even the city officials hardly know where they stand, something definite was accomplished. The mayor last night told The World that both Bloor and Mount Pleasant lines would be constructed by the city at once if the council pass-FRENCH CLEANED AND IN A1 CONDITION; alterations on all our goods free.

Also 1000 Odd Pants From \$2.00 Up be issued calling for tenders for the construction. At the expiration of six weeks the contracts will be awarded and the construction of the railway commenced as soon as the weather allows. As all civic car lines are to remain in the hands of the council until 1921, the new transportation commission, which, it is expected, will be created early in the spring, will have no voice in the Mount Pleasant line construction. Provided there is not a nigger in the woodpile somewhere, this solution of a difficult prob-lem seems to be satisfactory to all Points in Dispute.

In reconstructing the transportation report, the board took the following five points as being in dispute: (1) Three or five commissioners; (2) question of salary; (3) what to do with civic car lines; (4) financial features; (5) powers of the commission.

The board decided points one and two, to the effect that the commission consist of three members, and that they be unpaid. In regard to the civic car lines, the board decided to retain them until 1921, and for new lines to be constructed up to that date the council would have to provide the money thru private bills in

the legislature.
It was decided to put the two following questions to the electors in

Motor Cars.

Our Large four-storey building is packed with standard makes of cars which we have put in excellent mechanical condition, and most of them repainted. Our prices are right, as we buy for cash when others want to sell our selling price is marked in plain figures on windshields, so you will not have to bargain to get good value. We specialize in better grade of cars—late models.

WE HAVE ON HAND, ready for immediate delivery—
FORDS, 1915 to 1920 models—sedans, coupes, tourings, roadsters and trucks.
CHEYROLETS, 1917 to 1919 models—baby grands, 490 tourings, sedans and roadsters.

Iowing questions to the electors in January:
Questions for Voters.

1. "Are you in fovor of the operation of the city's applying for legislation enabling it to borrow money without a further vote of the electors to acquire the property of the Toronto Railway. Company, which the city is entitled to take over under the agreement between the city and, the company, and for all the necessary purposes and to make arrangements for the operation of the Toronto Railway. The total to take over under the agreement between the city and, the company, and for all the necessary purposes and to make arrangements for the operation thereof?"

This second question is intended to provide the money to take up the award on taking over the T.S.R. and to enable the commission to carry on until 1921. After that date the city would issue debentures for the work and the commission, but such debentures will not be included in the city's debt in estimating the borrowing powers of the city.

mating the borrowing powers of the

City.

Question of Fares.

The question of fares was raised by Mr. Bradshaw, who said it would be dangerous to the city's credit if a declaration was not made that the railway would be run by the council or commission in such a way as to be self-supporting. This was agreed to and means the public have the assurance that five cent fares will be maintained for all time.

The report goes on to define the powers of the proposed commission and states their term of office shall be for three years. The report concludes with financial recommendations of a technical nature. city.

of five members on the commission. The scheme, he said, would probably run into sixty millon dollars, and it was questionable if the responsibility should be confined to three men.

Brisk bidding for the silver stocks was seen in the mining market again yesterday, with particularly pronounced activity and strength in Timiskaming, Peterson Lake and Trethewey. The circumstance that the price of oar silver declined five cents an ounce in New York, to \$1.29, had little dampening effect, the feeling being that the setback was merely temporary. The New York market was weak again, but mining stocks have often demonstrated in recent weeks that they are little affected by outside conditions, and yesterday was no exception. Trading in Timiskaming amounted to 19,000 shares, the price moving up three points, to 47. There has been solid accumulation of this stock for some time, and scarcity has resulted. Peterson Lake attained a high for the year, for several years, in fact, at 21%, closing there, to a net gain of half a point, while Trethewey, on heavy buying sold up two points, to 42, closing at 41%. Beaver touched 50, resting at 49%, however, and showing no net change. An odd lot of Nipissing sold as high as \$13.70, with larger lots later sold at \$13.40, the closing bid being at \$13.00. Crown Reserve, at 37, was up half a point\*

Steels Sell Off in Sympathy With the Break in New York.

The weakness in the New York market had some effect upon the course of prices on the Toronto Exchange yesterday, the majority of stocks finishing with lesses. Canada Bread was an exception to the rule, the stock retrieving a small portion of its loss of the past few days by selling up half a point to 28½. Bread, which had pretty consistently led the market during the callier days of the week in the matter of activity, was ousted from the premier position yesterday by Steel of Canada, however. The letter stock opened firm at 77½, but weakened to 76½, closing at the low for a net loss og ¾. Dominion Iron at 72½ was off ¾, these issues reflecting the depression in steels in New Yerk.

Canada Steamships opened unchanged

is sues relecting the depression in Steas in New York.

Canada Steamships opened unchanged at 73, but declined in the afternoon to 71%. Twin City was more active than usual and was on the weak side. On Thursday 41 was bid, but yesterday the opening was at 40, a quick decline to 37½, and a recovery to 38½ following. Reazilian sold off half a point to 52%.

There was a fair demand for the war loans at steady prices.

The day's transactions; Shares, 2457; Am. If New York, Nov. 28.—The stock market's extreme susceptibility to adverse conditions again was surkingly demonstated in the course of today's active desires, speculative issues of various descriptions recording extreme declines of 5 to almost 20 points.

Developments over the holiday, especially the deadlock in the coal strike situation, and the tense Mexican situation, encouraged an assetudy large short intercation extend its operations of the previous session. war loans. \$248,550.

## RALLY AFTER BREAK IN ATLANTIC SUGAR

Steel Stocks Are Irregular and Active in the Montreal Market.

Montreal, Nov. 28.—The heavy selling of Atantic Sugar in the morning and the buying in the afternoon was an ourstanding feature of the trading today.

The steel stocks were irregular and active, the cotton stocks easy and not active, and the papers were relectionary.

Over 7600 shares of Sugar sold on the morning market, the stock continuing its downward movement of the past few weeks. Later buying of something over 1000 shares sent the price back to 67%, eaving a net decline of 1 point.

Dominion was the more active of the two steels, some 2000 shares changing hands, while Steel of Canada was dealt in to the number of 1200. Iron showed some strength at 172 to 72%, with the close at the latter price, a net gain of some strength & 172 to 72%, with the close at the latter price, a set gain of % point. Steel of Canada lost 1 point at 76%. Both issues were shaded in the final b.d.

In the bond list the extremely active trading in the 1931 old war loan was a feature of the trading.

Total sales, listed 21,461, unlisted 2240; bonds, \$748,500; vouchers, 75.

## Mining Shares Continue to Advance

The volume of buying in the Gold and Silver Shares is increasing and the public favorites are making rapid progress to higher levels. A scarcity of offerings is noticeable and many issues are only obtainable by advancing the bid price considerably. Temiskaming, Beaver, Nipissing, Dome Extension, Keona, Peterson Lake and West Dome were in active domand and scored good advances. The builish sentiment seems to be getting stronger and all indications point to higher prices for both Gold and Silver Stocks. West Dome advanced to 11 cents per share and looks like a good speculative purchase around that figure. The West Dome property immediately adjoins the Big Dome and is said to have good ore bodies that should warrant much higher prices for the shares.
