GOVERNMENT'S MAJORITY OFFERS AS A L.C.R. QUIRK

Hon. Mr. Haggart Wanted to Look into the Expenditure From 1896 to Date.

Ottawa, April 22.—The Red Deer Valley Railway and Coal Company's bill, which was defeated last week in the Railway Committee by a majority of one, after the votes of Messrs. Morrison and German, had been challenged and disallowed, will go back to that committee for re-consideration. This was decided upon a division in the House at to-day's sitting after an afternoon's debate on a motion by Mr. Cowan to that effect. He claimed that he was absent when the bill was before the committee.

Opposition From West. The opposition to the motion was led by the Northwest members, who did not want the old charter revived, carrying, as it did, a land grant of 352,000 acres. Mr. Walker declared that he had pledged himself on the platform that so long as there was a Liberal government in power there would never be another land grant to a railway in the Northwest.

Should Give Notice. Mr. Haggart arose and proposed a motion to the effect that the Public Accounts Committee be empowered to enquire into Intercolonial Railway expenditure from 1896 to date.

Mr. Fielding introduced a bill to amend the Civil Service Retirement Act of 1898. It provides that in case of the death of a civil servant his allowance under the act may be paid to his heirs by order of the Treasury Board to avoid the expense of taking out letters of administration.

The bill was read a first time. Mr. Charlton, in a speech of the day being called, gave notice of his resolution in favor of a general amnesty for all British's enemies in South Africa.

Public Accounts Needed. On motion to go into supply, Mr. Haggart got in his motion in reference to the Public Accounts Committee. He said it was impossible to get into certain matters of expenditure without going back to the accounts of previous years. This committee refused to permit being done. In another session, when a man in the government employ was asked to enter into a contract with the government, was asked how much he had paid for the contract, and a minister of the Crown arose and instructed the witness he was not obliged to answer.

A Perfect Farce. Mr. Haggart contrasted this policy with the policy of Sir John Thompson in declining to go into the public accounts into all matters affecting public expenditure. The committee on this occasion, however, refused to go into the accounts of previous years to be looked into. The proceedings of the committee, therefore, were a perfect farce, and there was no other means open to him to maintain the authority and dignity of that committee than to make this motion to open up enquiry into the I.C.R. accounts since 1896.

Calls It Unreasonable. Mr. Blair, declared Mr. Haggart had taken the most unreasonable method of attaining his alleged desire, in making inquiry into the public accounts. He said that the government was bound to vote down. Mr. Haggart had been for weeks before the committee, and had found out nothing, and his chief grievance was that he had not found out anything. Mr. Haggart's was an insane proposition. In the end Mr. Blair admitted that he would have to withdraw his motion from the Drummond County Railway to carry the new and heavier locomotives, and that was all the information Mr. Haggart seemed to be after.

Unreasonable Proposal. Mr. Monk declared that if this motion was lost the House would have spent a most useful afternoon, giving away mountains of money in perfect building a few miles of railway and refusing to look into the operation of that splendid concern, the Intercolonial Railway, defended by the Minister of Railways with such vehemence that he could scarcely control his language, characterizing the proposition of Mr. Haggart as that of an insane man. Was it any wonder the people wanted to probe into that valuable concern known as the Intercolonial Railway, which had become a veritable sink hole for the people's money? But Mr. Blair, instead of counting enquiry, declared that Mr. Haggart should have put his notice on the papers, knowing that it would never be reached this session. Mr. Blair now confessed that he had sent over to the United States and spent huge sums of Canadian money in buying locomotives for a railway that wasn't strong enough to carry them, and that seemed to be an explanation of his attitude.

Specious Promise. Mr. Wade said that Mr. Blair had promised to allow an investigation into any branch of the I.C.R. expenditure he might indicate.

Mr. Haggart did not mention the Finance Minister and that we must get the authority to do so? [Opposition cheers.]

Mr. Wade: Yes, and the Minister said they would help to get it. [Liberal cheers.]

Defeated at Length. Dr. Sproule spoke on the constitutional aspect of the question, and was followed by Mr. Fraser, chairman of the Public Accounts Committee. The debate was continued by Mr. Barker, who dealt upon the Rochester deal as shown up in the committee. Messrs. Northrup, Flint, Lemieux and Hyman followed, and the House divided upon the motion of Mr. Haggart, which was defeated on a straight party vote of 91 to 45.

The House went into Committee of Supply on the public estimates. Considerable progress was made with the public works and customs estimates, and the House rose at 12:30 a.m.

Representative of a Montreal Paper Writes of Saturday and Sunday Closing in Toronto.

SEVEN O'CLOCK LAW ONLY A FARCE

Claims Many Become Intoxicated Because the Hotel Bars Are Kept Tight.

Montreal, April 22.—La Presse the other day sent a commissioner to Toronto to see how the Lord's Day was observed in the Queen City, and today his observations are published in that paper. He says that the saloons are supposed to be closed on Saturday evening at 7 o'clock, but they are only closed to those who do not know the ropes. This closing the Montreal newspaper man declares to be nothing more than a farce. "The closing," La Presse adds, "does more harm than good. I made a special enquiry," he proceeds, "between 7 and 7, and I saw more men drunk in the most fashionable saloons of Toronto than could be seen between the same hours in any other city of Canada or the United States. It is a well-known fact that this early closing causes men to become more intoxicated than they would have been if they had had the saloons re-opened. 'I saw, in fact, business men, who would have never thought of getting drunk, completely drunk, because the saloons were about to be closed up. The consequence of this is that from 7 p.m. to late at night the streets of Toronto are filled with drunken men. It is not their fault, but because they are made so by the force of circumstances.'"

He goes on to say that Sunday in Toronto is as silent as a tomb, and declares that although one cannot buy a glass of soda, a stick of candy or a cigar, the better thinking people there are against such laws, and warn Montreal against falling into kindred errors.

WARNING TO MARINERS.
Deep Water Channel in Welland Canal is Very Narrow.

Port Colborne, April 22.—The following notice to mariners has been issued by Mr. W. W. Wood, superintendent of the Welland Canal: "Vessels using the Welland Canal between Port Colborne lock and Hamberstone must be particularly careful this spring, as the deep water channel is very narrow. The eastern half of the canal is entirely blocked and only a narrow channel on the west side is at present available. Use the west channel of the canal. The west channel is now being deepened and crossed over by a new lock just below the railway bridge. The channel is now 100 feet wide and over thirteen feet six inches deep. In your own risk if allowed to go at their own risk. I. J. Weller, superintendent."

The ambulance was called and she was taken to the Victoria Hospital, where she died just before reaching there. Deceased was about 50 years of age, and is survived by a family.

DROWNED IN GULL RIVER.
J. Armour of Oshawa Accidentally Swept by His Death.

London, April 22.—J. Armour, brother of Mr. Samuel Armour of the Central School staff, was accidentally drowned in the Gull River, north of Norland, early this morning. He had been visiting his son-in-law, who operates a saw-mill in that locality, and it is supposed that while he had to move some logs he slipped into the river and was carried away by the swift current. The body was found shortly afterwards. He will be buried at Oshawa.

CORN DUTIES ADOPTED CLOSURE WAS APPLIED

Sir Michael Hicks-Beach Says Coarse Meal for Feeding Will Pay Only Three Pence per Hundredweight—Expects Price of Bread to Fall.

London, April 22.—In the course of a debate on the grain tax in the House of Commons this evening, the Chancellor of the Exchequer, Sir Michael Hicks-Beach, announced that "offal," or coarse meal for stock feeding, would pay only three pence per hundredweight, instead of five pence. He added that in the case of flour and fine meals, the farmers had been greatly disturbed by the fear that a heavy tax on "offal" would offset any protective advantage which they would gain by the grain duty. The Chancellor also expressed his belief that the advance in the price of bread, which had been a halfpenny to one penny a loaf higher than the United Kingdom since the budget announcement, would recede so soon as the trade had adjusted itself to the new conditions. The whole evening was occupied in a heated debate of the duties, as provided for in the budget. At midnight Mr. Balfour, the government leader, applied the closure, and the corn duties resolution was adopted by 283 votes to 197.

DR. ADAMS SHOOTS HIS BOLT TOPIC FOR THE CONFERENCE

Writes a Letter Announcing That He is a Candidate in North Toronto.

His Appearance Causes Embarrassment to the Liberal Organization.

Three candidates are now in the field in North Toronto. Dr. E. Herbert Adams, president of the Ross Liberal Club, last night authorized the World to state definitely that he had entered the contest against Dr. Beattie Nesbitt and G. F. Martin. Dr. Adams' friends claim that a majority of the electors on the 15th in North Toronto have signed the requisition to him to run. They think this gives him "a sure thing." His position as the chief officer of the Ross Club places the government in a peculiar position, for their course in refusing to allow a Liberal nominating convention to be called in North Toronto. It is an open secret that the late Premier Harold Proby Dr. Adams the nomination "next time" when his friends consented to withdraw his name in favor of Rev. Dr. Dewar.

A committee of the electors of North Toronto, representing over 1500 petitioners, waited on Dr. Adams last night and presented him with a requisition asking him to stand in North Toronto. In reply Dr. Adams gave the following letter: "After duly considering the peculiar character of the voters in North Toronto, who have asked me to become a candidate in the Liberal interest and have pledged their support and their influence to insure my election, I feel that I would be neglecting a public duty were I to refrain from accepting their request. You are at liberty to state that I am a candidate for election in the riding of North Toronto. Faithfully yours, Dr. E. Herbert Adams."

His Decree at Thomas.

HIS BERNIER RESOLUTION.
Ottawa, April 22.—Mr. John Charlton will on Thursday next introduce in the Commons a resolution commending to the favorable consideration of parliament Capt. Bernier's expedition to the North Pole.

NEUTRALITY NOT VIOLATED

President Roosevelt Sees No Need for Intervention in Chalmette Remount Camp.

FACTS BROUGHT OUT BY CROWDER

Thirty-Three Million Dollars Have Been Spent by British in Two and a Half Years.

Washington, April 22.—The report of Colonel Crowder, who investigated the shipment of horses and mules to South Africa from the fort of Chalmette, La., was laid before the Cabinet to-day by the President. While the report is incomplete, it developed that the conclusion was reached by the President from what he had seen of it, that there is not sufficient evidence to show past or present violation of neutrality, and consequently there is no warrant for intervention. Col. Crowder made some additions to his report during the afternoon, and to-night he went over the matter very thoroughly with the local authorities and other officials.

According to Colonel Crowder's exhaustive report he found the conditions at Port Chalmette to be as follows:

1. The depot has been continuously used as a base of supplies for the British army in South Africa for two and one-half years.
2. This depot has been under the immediate personal supervision and management of regularly commissioned officers of the British army.
3. These officers have not worn uniforms and have not used arms or any other means of defence than such as were furnished by the local authorities, but they have signed checks, receipts, vouchers, etc., as officers of the British army, signing with their rank or title.
4. During two and a half years these officers have paid out the sum of \$18,000,000 for horses and mules and about \$15,000,000 for forage and other supplies, all of which has been shipped to the army in South Africa, most of it upon British transport owned or chartered.
5. Since this depot was established, in 1899, about 175 ships have been cleared from New Orleans for South Africa, carrying a total of about 65,000 mules and about 95,000 horses, and hundreds of thousands of tons of hay and other provender.

FIRE AT STANLEY BARRACKS.

Large Frame Building Burned Early This Morning.

One of the large frame buildings at Stanley Barracks, used as a storehouse by the Royal Canadian Dragoons, was gutted by fire early this morning. The fire was discovered a little after 1 o'clock by the sentry, who immediately put an alarm, and who also aroused the sleeping soldiers. The regulars, under Quartermaster-Sergeant Galloway, made good use of three private lines of hose, and before the fire had advanced to the building, no time in getting the horses out to a place of safety. The burned building was completely destroyed, and the loss is estimated at upwards of \$2000, covered by insurance. The cause of the fire is unknown.

JOHN CHARLTON PLEADS

His Resolution in House of Commons Calls on Britain to Offer Universal Amnesty.

Ottawa, April 22.—Although politicians in Britain are patriotically abstaining from any expression of opinion in regard to terms of settlement with the enemies of the King in South Africa, thus acting in the true interests of peace and avoiding an appearance of encouragement to the belligerents to hold out against the terms offered by the Imperial government, Mr. John Charlton does not hesitate to take the opposite course. He has given notice that he will move a resolution in the House to-morrow tendering what in his opinion should be Canada's advice to His Majesty's government as to how the Boers and the Cape rebels alike should be dealt with.

Mr. Charlton's resolution is as follows:

"This House is of opinion that British supremacy should be maintained in South Africa, to which end Canada has cheerfully contributed men and money."

"Having in view the effect of a policy of magnanimity and mercy towards the Boers and the Cape rebels, and that in the interest of peace and of future tranquility, harmony and homogeneity it is expedient to offer universal amnesty as a condition of peace and submission to British control to all persons in arms against British authority in Cape Colony, Natal, the Orange River Colony, the Transvaal and all other portions of the British dominions in South Africa; and upon this opinion, respectfully presented, with the prayerful hope that it may aid in securing a favorable and honorable settlement of South Africa, this House invokes the serious judgment of His Majesty's Ministers the King."

The resolution, which will probably be seconded by Mr. Bourassa, will be presented with the prayerful hope that it will not actually insulting in its tone to His Majesty's ministers entrusted with the duty of settling the terms of peace in South Africa.

The object is to assist in this way the establishment of the factory in Quebec for the manufacture of the Sir Charles Ross rifle.

Quality is a cardinal point in its favor. We have chosen worthy papers and worthy papers alone. A LIFE STRUGGLE

MARY AROUND US ARE CARRYING VERY HEAVY BURDENS.

Hampered and hindered in the Race, They Toil on With Their Burden of Illness and Pain When They Might Be Free.

We little know the amount of sickness and suffering in the world about us. The sickliest people are often those who complain least, but the story of years of pain may be seen written plainly on their faces.

The tyrant Dyspepsia has perhaps more slaves than any other task-master. This ruthless monster numbers his victims by the thousands. Young and old, rich and poor are alike entrained. Many have for years paid the silent tribute of many a distressed and painful waking hour at the feet of this modern Sisyphus.

In the office, on the farm, behind the counter and in the factory; in the street and in the cabin of the poor, men, women and children are to be found who daily suffer unknown to their friends the agonies of the tyrant, Heartburn, Sour Stomach, Bloating, Headache or Other Stomach Trouble.

Patently, hopefully, they toil on, trying to do their duty, though constantly harassed and distracted by distress and pain, until a broken body, a tired brain and a temper worried and irritated, are the result.

There is no reason why any one should suffer from Dyspepsia. It is not a disease, but a condition of the stomach. It is not a disease, but a condition of the stomach. It is not a disease, but a condition of the stomach.

THE REAL ISSUE

The Globe writes: "The World's claim that the Conservatives are in a majority in Ontario as shown by the last Federal election, and says that even if they are there will be a readjustment of the constituencies before an election that will change all that. We still assert the contrary, and, speaking of political aims, of opinion and commission, what more glaring political sin is there than the refusal of the Liberal party to give Toronto what she is entitled to, namely, one-tenth of the representation of this province in the legislature? If that were carried out, there would be nine Conservatives behind Mr. Whitney, instead of four, and this one thing alone would be sufficient to put Mr. Ross out of office. But on top of this there is the more than partisan administration of the law; the coercion of votes exercised under the license law and over office-holders and their relatives; the work of the notorious machine; and the frauds that are possible in every polling division. The Opposition are not alert or are betrayed.

The Conservatives in Ontario have the worst possible end of the stick, and yet the public feeling against the government is so strong that Mr. Whitney ought to win because of this very fact, let alone because of the merits of his policy.

PENNY SAVINGS FOR POOR

The object of the Penny Savings Bank, application for which has been made at Ottawa, is a praiseworthy one. Its aim is to cultivate prudent habits among those of little means. Several of the large chartered banks accept deposits down to one dollar, but there is quite a class in the community who are deterred by this low limit does not attract. Philanthropists, recognizing this some time ago, opened and have since conducted with considerable success a penny savings bank in this city. It is now proposed to carry on such an institution along regular lines under a government charter.

No better method than this can be imagined for helping the poor. There is great moral effect in a bank account no matter how small, and the individual who has begun to make even penny deposits has thereby taken a great stride toward the redemption of his manhood and self-respect. When he has once secured a nest egg he has therein an incentive to add to his little accumulation. He is braced up to continue the struggle, and his sense of incipient independence generates in him a self-confidence which proves a good weapon in the fight of life.

Every man, woman or child should save a little out of every dollar he or she earns. He or she who does so save, even if it be only one cent out of the dollar, is winning a double battle. He is making some provision against the rainy day, and he is lessening the lesson of thrift and moral independence.

THE AMERICAN INVASION

Canada, as we all know, is experiencing an American invasion. It has been said that 100,000 of the farming class from the Western States will this year settle in Manitoba and the Canadian Northwest. And, besides, we find American capitalists and workmen coming in to develop the country's natural resources in the far west, the middle west and the far east.

This year's influx will be only the beginning of many years of American immigration into Canada, and the question naturally arises as to what will be the effect on Canada's national political life.

We venture to predict that the newcomers, enamored of the excellence of British law and of the strictness and fairness with which it is administered, will speedily become loyal citizens of Canada and its empire. They will learn that, under Canadian or English law, they enjoy more real liberty than in the boasted "Land of the Free."

The presence in our midst of thousands of Americans, who will have become naturalized British subjects, should also be a factor in the maintenance of good feeling between Great Britain and Canada and the United States.

AN OPEN LETTER

W. J. Hill, Esq., ex-M.L.A., Eglington, Ont.

Dear Sir:—I see a report in the Globe of Monday, April 21, of a speech made by you on Saturday last, in which you stated that you had written to me asking for joint meetings in the coming campaign. On my reply:

Hair Splits

Don't singe the hair because it splits at the ends. When the hair splits it simply shows it is weak. Feed your hair with Ayer's Hair Vigor, the genuine hair-food. It cures dandruff, stops falling of the hair, and always restores color to gray hair.

"I have used Ayer's Hair Vigor for 30 years. It is elegant for a hair dressing and for keeping the hair from splitting at the ends."

OFF FOR THE GOLDEN WEST

Supreme Court Officials and Delegates for Los Angeles Given a Send-Off.

PARADE TO THE UNION DEPOT

Brilliant Uniformed Escort, and Many Friends Join in the Demonstration.

To the inspiring sound of martial airs the visiting and local delegates to the Supreme Court session of the Independent Order of Foresters at Los Angeles, Cal., marched to the Union Station last evening, where they were given a hearty send-off by brother Foresters and friends.

They were escorted from the Temple Building to the station by the enthusiastic Royal Foresters in their splendid regalia, headed by the Royal Foresters' Band. Lieutenant Brooker was in command of the escort, whose magnificent appearance was greatly admired by the crowds all along the route.

At the station a lively scene was occasioned by the delegates and those wishing them a safe and pleasant journey to the City of the Angels. There was no specifying before the train pulled out, as the delegates and their associates were individually wished goodspeed and a safe return to their happy homes. After he was completely cured I told him what I had done, when he acknowledged that he had been his saying, as he had not the resolution to break off of his own accord. I heartily advise all women afflicted as I was to give your remedy a trial.

SHE PATIENTLY BORE DISGRACE

A Sad Letter From a Lady Whose Husband Was Dissipated.

How She Cured Him With a Secret Remedy.

"I had for years patiently borne the disgrace, suffering misery and privations due to my husband's drinking habits. Hearing of your marvelous remedy for the cure of drunkenness, which I could give my husband secretly, I decided to try it. I procured a package and mixed it in his food and coffee, and as the remedy was odorless and tasteless, he did not know what it was that so quickly relieved his craving for liquor. He soon began to pick up flesh, his appetite for solid food returned, he stuck to his work regularly, and we now have a happy home. After he was completely cured I told him what I had done, when he acknowledged that he had been his saying, as he had not the resolution to break off of his own accord. I heartily advise all women afflicted as I was to give your remedy a trial."

ACTIVITY AT THE BEACHES

Balmy and Kew Beaches are again assuming their accustomed activity. There are already quite a number of families down for the summer. On going around the beaches one notices many changes from last year. A few new houses have new lawns and flower beds, while others have been changed and added to. More houses have been built this spring than ever before. There are at least thirty new houses east of Woodbine-avenue, six west of the beach, and one on the lake front. The church pavilion at Balmy Beach is now on Spruce-avenue. The new houses in a boarding establishment on Beach-avenue, just north of Queen-street, this house is being built for Mr. Moore, and is to have thirty-six rooms. Among the families already down are F. V. Phillips and family, W. East and family, John Cairns and family, Mr. Hunter and family, Mr. Murton and family, Mr. Purse and family, and others.

FLOUR TRADE WITH CANADA HAS NOT BEEN KILLED

Ottawa, April 22.—Trade Commissioner Larke, in a report to the Department of Trade and Commerce, says that the revenue derived from the tariff for the first six months of its existence has been unexpectedly buoyant, and this has induced the Government to make a reduction in the tariff for certain goods. The flour trade with Canada, he says, is not yet dead. There is a reduction in the tariff on certain goods. Cotton goods and printing paper are placed on the free list.

GIVEN A GOLD-HEADED CANE

Port Carling, April 22.—At Ruddy's Hotel, on Monday, Alex. Ross, foreman of the Public Works department, was given a gold-headed cane. The occasion marked the completion of a lock enlargement.

No person should go from home without a bottle of Dr. J. D. Kellogg's Dysentery Cordial in their possession, as change of water, cooking, climate, etc., frequently brings on summer complaint, and there is nothing like being ready with a sure remedy at hand, which oftentimes saves great suffering, and frequently valuable lives. This cordial has gained for itself a widespread reputation for affording prompt relief from all summer complaints.

Caught Six Rebels.

Hong Kong, April 22.—Chinese officials yesterday raided a house at Canton and captured six men who were known to have been sent to Canton for the purpose of spreading the rebel propaganda and for the purchase of arms and supplies. The prisoners carried orders from Kwok, the rebel leader, commanding the assassination of the Manchu officials of Canton. Five hundred armed bands left Canton yesterday for Wu Chow.

About three hundred and fifty applicants have gone before the doctor for examination, and of these over 90 per cent were rejected for physical defects.

Nearly all the accepted ones passed the subsequent tests in riding and shooting.

Among those who appeared for examination yesterday were two lads who had previously been declared unfit. They assumed, and it is said that the doctor readily detected them. One had been rejected for stammering and another for a defective toe.

THE PIANOLA—A TECHNICAL ASSISTANT.

There are still many people who have an entirely wrong conception of the Pianola. They have an idea that it is some kind of a mechanical or electrical device which you wind up or play with a crank, and are therefore naturally prejudiced against it.

The Pianola is not mechanical. It does not play itself.

In playing the Pianola, many suppose they have nothing to do with the expression, but in reality one has nothing to do except to attend to the expression.

Think what it would mean to have an instrument with which you could play an entire wrong conception of the matter how difficult, and with just the expression you most enjoy. No one would ever handle this wonderful instrument. Prices are much lower and profits correspondingly smaller.

Most Klondike merchants lost a portion of their profits by accepting gold dust, for which they generally get less than the miners demand per ounce.

Superfluous Hair Permanently Removed.

A WONDERFUL DISCOVERY BY

While traveling in Mexico, I discovered a drug which removes hair from face, arms, neck, or any part of the body, instantly and permanently. I have been offered hundreds of dollars for my secret, but I would rather handle this wonderful treatment myself, so will send to anyone afflicted information, without any expense but a postage stamp. Don't judge my treatment by unsuccessful attempts of others, I have treated thousands, who are now thankful for life to me. I suffered six years with this affliction, but my life's work is to help others from this humiliating trouble. My treatment is easy and accomplished at home, and I will send you \$100 if it fails to remove hair. Don't suffer longer, write to me at once.

Will Cure THIS APPEALS TO WEAK MEN.

HOW MANY MEN ARE SUFFERING MISERIES FOR THE WANT OF A SIMPLE REMEDY? They do not live; they simply exist. In the faces of thousands can be read the story of a wasted life and blighted hopes; joy and pleasures are unknown to them because their vitality is being sapped. Varicose veins, draining, have exhausted Nature's Electrical forces and left them wracked upon the shores of life. Many have sought in drugs and patent remedies to relieve their mental and physical suffering. They are soothed for a day, or maybe a week, falsely braced up, until the effects of the drug wearing off like the momentary bracing of whiskey, they sink still lower in vitality, and with hope exhausted, lose confidence in themselves and their fellow-men and decide to abandon all efforts to recover their power, feeling that there is no help for them. Man do not sacrifice yourself in this way. Do not endure this living death while Nature holds out to you relief in the form of Electricity—that vital element of which, by a life of dissipation, you have deprived yourself—learning down faster than nature could rebuild. In this great restorative—Electricity—there is life and happiness for you. It restores power to the weak and indolent; it builds up the weakened system, and by its vitalizing, stimulating cure it makes the blood jump through sluggish veins, increasing the circulation to every part, assisting Nature to carry off the impure matter which clogs up the wheels of life. If you are weak and sick don't depend on drugs any longer, but try

Dr. McLaughlin's Electric Belt.

How is it with you? Have you rheumatism and back pains, a dull ache and weakness over the kidneys, dull headaches, with a tired, stupid feeling? Are you losing your vitality power? Do you feel yourself aged before your time? Are you nervous, sleepless, short of memory and lacking in spirit and self-confidence? If so, you can cure you and after I have cured your case you can pay me, and should I fail you will have the satisfaction of knowing that the best and strongest electric appliance has failed. My confidence in my method enables me to allow any man or woman, who will offer me reasonable security, to use the Belt at my risk, and

PAY WHEN CURED.

PAYING BUSINESS FOR CANADIANS

This Country Will Soon Control the Pulp and Paper Trade.

EVERY FACILITY IS HERE.

Some Facts About the Atlantic Pulp and Paper Company's Advantages.

If there is one business more than another which Canada may reasonably hope to obtain a world's monopoly of, that business is the making of pulp and paper. The pulpwood forests of every other country except Scandinavia have already been depleted, and those of Scandinavia are not nearly so large as Canada's, while it is common knowledge that the pulp procured from the Norwegian forests is much inferior to that made in Canada.

A number of business men have recognized Canada's position of advantage in this regard, and have organized the Atlantic Pulp and Paper Company, Limited, with an authorized capital of \$3,000,000. At the present time \$850,000 of 7 per cent. cumulative preference stock is offered to the public for sale at par, payment to be made in the usual installments.

The Board of Directors contains such well-known names as the Canadian Press, the Ottawa Lumberman, R. I. Bliss, vice-president of P. W. Ellis and Co., Toronto; Chas. H. Watkinson, president of the Watrous Engine Works, Brantford; R. H. Thompson, paper merchant, Toronto; W. Wardrop, lumberman, Montreal; Wm. M. McIntyre, paper manufacturer, late mechanical superintendent of the Laurentide Pulp Co., and W. R. Parker, business Toronto. Those interested in the company are already congratulating themselves because of the fact that since the prospectus of the company was issued, a few weeks ago, two offers for the purchase of the company's entire authorized capital have been made. The offers are responsibly backed, and were not solicited. Either offer, if accepted, would pay preferred stock dividend, fixed charges, and leave a balance sufficient to pay a dividend of 10 per cent. on the common stock.

The advantages possessed by the company are: An unlimited wood supply, near New Richmond, on the Bale des Chaleurs, where the mills are located; the fact that the company owns 100,000 acres, and the wood is mainly spruce, the king of pulpwoods. Enough merchantable timber is available to last for 65 years, and spruce will reproduce itself in from 20 to 30 years. The water power on the Little Cascapedia River is adequate and cheaply obtainable. 3. Clear and pure water may be obtained continuously for the paper-making processes. 4. The cost of living in the vicinity is low and wages will not be high. 5. The shipping facilities are unsurpassed. 6. And the manager, Mr. McIntyre, has had over 20 years' experience as a practical pulp man.

It is predicted that pulp and paper can be made more economically in Canada than anywhere else in America, Sutherland and Cameron, brokers, Ottawa, or the National Trust Company will furnish forms of application for stock.

SOLDIERS FROM OTTAWA.

One Hundred and Twenty-Six Given a Cheering Send-Off.

Ottawa, April 22.—One hundred and twenty-six Ottawa young men marched to the Central Station this morning on their way to Halifax and South Africa. There was no martial music, but all along the streets from the Drill Hall to the railway station were crowds of people, while at the station a cheering and singing were going on with much enthusiasm as when the first contingent left here. The boys were happy when the train pulled out of the station. Recruiting is still going on, and about a dozen more soldiers will be sent forward in a few days.

The work of putting the Island in shape for the summer goes merrily on, scores of workmen being busily engaged in renovating the buildings and remodeling the stands. The ferry company is expending a large sum of money on improvements to buildings. The entrance at the dock is being fitted up and made more comfortable. The company is making accommodations for small parties, and is being gathered from many points. The exhibit will include four monkeys, two bears, two kangaroos and two raccoons.

HAMILTON WANTS THE PREFERENCE

Board of Trade Passes a Strong Resolution.

The Hamilton Board of Trade has expressed itself on the question of a preference for Canadian products. A copy of a resolution, passed by the board, was received by Secretary Jarvis last night. The resolution, in part, reads: "That in the opinion of this board any article of merchandise produced in this country should be no less liable to grant preference to articles produced within the empire, and that if Great Britain could see her way clear to adopt such policy, there would result in knitting together still closer the various parts of the empire, and thus materially strengthening the position by diverting to the colonies a large portion of the emigration from the United Kingdom, now going elsewhere, with the result that the long wheat and other food products required could be entirely supplied within the empire."

Mr. Jarvis has arranged a meeting of the Wholesale Booksellers' and Stationers' Section of the board, and the Master Printers' and Bookbinders' Association for to-morrow afternoon at 3 o'clock. The joint meeting will consider the advisability of forming a copyright association for taking up the board's resolution. It has been long been under discussion by booksellers and publishers. The meeting will also discuss transportation matters.

President Ames will dine the members of the Membership Committee at the board of the National Club at 1 p.m. next Tuesday.

REGISTRATION OF BIRTHS

One Hundred and Thirty Negligent Citizens Warned by City Clerk Littlejohn.

MORE WATERING CARTS TO-DAY

Only One Smallpox Case at Present in Toronto—Notes From the City Hall.

Out of 2300 births which have occurred in this city in four months, there are 130 not registered. The doctors, as required by law, send a return of the birth, but the parents are in some cases negligent. To comply with the statute it is necessary that the birth of a child shall be formally registered, and City Clerk Littlejohn says he intends to see that the law is carried out. With a view to this he has sent a circular letter to each doctor, pointing out the possible penalty of \$10 and costs, and enclosing a card which is supposed to be filled up and returned to him with full details. Ten days are allowed before proceedings will be instituted.

More Watering Carts.

The complaints of dust on the streets are decidedly numerous and Chief Commissioner Jones has decided to put on the whole of the watering cart staff to-day. This will mean that there will be watering carts on the main streets, and in addition to the main streets, he will pay some attention to the macadamized roads which lead to them and which supply them with dust.

Quarantine to Be Raised.

The quarantine at St. West Gerrard street will be raised on Wednesday night. Dr. Sheard thinks the patient taken from that place will be all right in about three weeks. The young woman taken from the Duchess-street house was released from the Swiss Cottage Hospital yesterday, and now there is only one case of smallpox in the city.

Board of Control.

The Board of Control will meet at 2 o'clock this afternoon for general business, and, with a hope that they may get some estimates from the City Treasurer. Mr. Fullerton's written opinion as to what action should be taken by the board in reference to the School Board estimates has not been received by the Controller, and they will likely have to wait for it until the Corporation Council returns from Ottawa.

Cold Storage Plant.

A representative of the English cold storage firm held a conference with Ald. Richardson and Ald. Lamb at the office of the former yesterday morning in reference to St. Lawrence Market. City Hall Notes.

The assessment of Ward One will be made known shortly. As there has been a steadily increasing value of property in the East End, the assessment will be higher, but not much. Ald. Curry is opposed to the proposition to give a 33-foot strip of land on the easterly boundary of High Park for the proposed extension of the street, southward from Toronto Junction. He thinks the York County Loan Company should provide the land, and therefore for the benefit they will derive from it.

Owing to the delay in the extension of Duncan-street, the Telfer Manufacturing Company are anxious regarding water and sewer facilities in connection with their new factory, for which foundations have been laid on the Old Upper Canada College grounds.

Arrangements for the coming year. The City Treasurer not later than May 1, in order to save the statutory charge of 6 per cent.

Married at Brockville.

Brockville, April 22.—William Bright, the well-known Argonaut sculler of Toronto, and Miss N. L. Mowat of Brockville, were married at noon to-day in the First Presbyterian Church. There was a large and fashionable gathering to witness the ceremony, among whom were Hon. Clifford Sifton and Mrs. Sifton.

Vote Taken To-day.

Copenhagen, April 22.—It is expected that the vote on the Danish West Indies sale treaty will be taken to-morrow.

No Location Fixed Yet.

Mr. Angstrom, managing director of the Bertram Engine Works Co., is in Ottawa, but it has not been reported that there was nothing in the report from Windsor that the company is considering the proposition to locate its new shipyards at Windsor any more than this. The company has received communications from 20 or 15 localities enquiring concerning the shipyards, and has replied to all in the same way, that the matter is being considered. The company has not decided on a location. The new industry will be for the building of large hulls for steamers. The engines will be made in Toronto.

Details of Three Days' Earthquake in Guatemala.

Guatemala City, Guatemala, Monday, April 21.—The details which are being received of the result of the earthquake shocks, which were general throughout Guatemala Friday, Saturday and Sunday, show that Solola, Nahuá, Amatitlán, Santa Lucia and San Juan were badly damaged, and that Quetzaltenango was partly obliterated. Five hundred persons were killed, mostly women, and many people were maimed.

Known Here Saturday.

The World asked R. F. Stupart of the Observatory concerning the report of the great damage by seismic disturbances in Guatemala and Mexico. A record of which has been found on the seismograph at the Observatory. The greatest shock was recorded here on Friday night at 31 minutes past 9 o'clock, and lasted two hours and a half. The heaviest rumbling of the ribbon indicated that the shock occurred in Southern America. It was certain that it was not of the Japanese or Alaskan breed of earthquake. The ribbon has not been removed since Saturday, hence there is no record of any disturbance since the big one Friday night. The newspapers did not notice the disturbance till Monday, but the sensitive little instrument caught the disturbance in "hook-out" to know what was going on in this half of the round globe.

THE USE OF

Paine's Celery Compound

IN SPRINGTIME

Means Establishment of Disease and the Establishment of Strength, Vigor and Permanent Health.

Well meaning and really worthy people often err when sickness and disease come to them. Too often they resort to follow the advice of second-rate physicians, who in nine cases out of every ten fail to properly diagnose the case, and so they are unable to cure. Too frequently our sick people put their trust and confidence in common advertised pills, nervines, sarsaparillas and other liquid concoctions. Terrible disappointments and results come to the users of such medicines; sickness and disease are aggravated—their dangers vastly increased.

Happy are the people who, when disease has laid its hand upon them, use Dr. Paine's Celery Compound, a medicine that stands without an equal for feeding exhausted nerves, purifying the blood and building up the weak and run-down system.

Dr. Drummond's Lecture. Dr. W. H. Drummond, who arrives in town this evening for his lecture and readings at Massey Music Hall tomorrow evening, was born in Ireland, his father being an officer in the Royal Irish Constabulary, but after receiving his education as a boy in Ireland he came to this country at an early age and completed his studies at the Montreal High School and Bishop's College, Lennoxville. He is by profession a physician, and has since 1885 been in active practice in Montreal and he is also professor of medical jurisprudence in Bishop's College.

Plunket Greene's Concert. No singer with recent years has ever interpreted before the Toronto public Schubert's Erl Konig more distinctly and with such a wonderful manner as Plunket Greene. He brings out every hidden depth in the music and pathos of this song. His concert on Monday evening will be attended by the first appearance of Miss Ethel Martin, the new Canadian prima donna, who has lately returned from London and Paris. Another young Canadian is Miss Fyffe, a very talented pianist, whose home is in Montreal, and who has been engaged in Berlin, and Leipzig, and lately in New York.

Watkin Mills Coming. The Montreal Herald of the 10th inst., in referring to Mr. Watkin Mills' recital last Friday, says: "Mr. Watkin Mills, or Mr. Owen Smily, or the combination, are an immense audience to the Windsor Hall last evening." Mr. Smily's many friends will be pleased to hear of his success on his tour, which extends to the Pacific coast and California, and that he will be with Mr. Watkin Mills, Edward Purlovitz, the noted pianist, at Massey Hall on Thursday evening, 1st May.

Song Recital at McConkey's. From a musical viewpoint the song room last evening by Mrs. Julie Wyman and Arthur Wright was a recital of a high order and decidedly entertaining to the large audience in attendance. Only recital of the night and satisfaction were heard at the conclusion. The singing of Mrs. Wyman evoked the admiration of all, and Mr. Wright established himself as a singer of no ordinary promise. His rendition of "Maud" by Arthur Somerville was particularly good. Mrs. H. M. Wright presided at the piano.

CITY NEWS.

Police Commission. In the absence of Magistrate Denison from the city, Deputy Magistrate Kingsford assumed the duties of a board held yesterday afternoon. The application of Samuel McCartney for a liquor and tobacco license was granted, but it was refused to apply for legislation to have the power to refuse any application clearly defined. The Salvation Army will have one of their number sworn as special constable to do duty at the Temple on trial for a period of six months. The Army officials claim to be annoyed by rowdies, who disturb the peace. It was decided in view of the establishment of sale and express tables on residential streets, that a list of thoroughfare where stables must not be erected. The license of Benjamin Duschman, secondhand dealer, who was convicted a few days ago, was cancelled. An application by a citizen, who claimed a bicycle left in substitution for his own wheel, which had been stolen, was refused on the ground that it would create a bad precedent.

Boys' Brigade Concert. The parents and friends of the members of the Boys' Brigade turned out in large numbers last night at the annual demonstration in Massey Hall. The program included recitations by the boys, physical exercises, No. 10 Company; company drill, No. 15 Company; fencing and naval maneuvers, No. 4 Company; bayonet exercises, No. 7 Company; ambulance drill, No. 12 Company; physical drill with arms, sergeant's class; firing exercise, No. 10 Company; gymnastics, No. 10 Company; drill competition, boys from each company; songs by Master Jack Chalmers and Master Frank Jardine, and organ recitals by A. E. Semple. The exercises were conducted by Sgt.-Major Gordon, Sgt.-Instructor A. Young, and Sgt.-Instructor V. J. White, R.C.R.I., Stanley Barracks.

Non-Jury Assize. The Township of York is the defendant in an action brought yesterday afternoon in the Non-Jury Assizes by Arthur and Lottie Dutton, who seek to recover \$2500 damages. The couple were thrown out of their vehicle while trying to cross a defective culvert on the second concession of York Township.

To See His Brother. In regard to the statement published in the morning papers, of yesterday about Mr. George McConnell having left his business affairs muddled and gone to New Mexico, his father, Mr. J. McConnell, informed The World yesterday that the announcement was altogether untrue and unjustified; that while the young man had made some losses in business arrangements, there was no need to wind up his estate; that he had gone to New Mexico at the invitation of his brother, in connection with a business proposition which he had made to him in Toronto at an early date. When he left he had no knowledge of any order being made for his examination, as a matter of fact none having been issued when he left the city.

At the Union Station. R. H. Bell, who has been appointed travelling freight and passenger agent of the Canadian Northern Railway, has been succeeded by E. T. Bland as freight agent in the Grand Trunk Station, and by J. H. Bell as passenger agent of the C. P. R., left on an extended trip to the West last night. He will visit the principal Western cities on both sides of the line, including Seattle, Tacoma, Victoria and Vancouver. In order to make faster time with the express between Montreal and Vancouver, the management of the C. P. R. will abolish a number of stops that are now made on the journey. The fast service will be inaugurated on June 15.

The company is moving 90 houses, but the most difficult of all. The houses are of solid structure, with stone sills, and are being dismantled by hand. The undertaking will be watched with interest by the citizens. The Management Committee of the Public School Board met last night and decided to accept the resignation of J. J. White, caretaker of Annet's Public School. They recommended the board to make a choice between Chas. Proctor and P. Mullaly. After applicants were also nominated. A haystack belonging to J. STEVENS' FORMER STATEMENT (The Ozone Co., Toronto) The Ozone Co., Toronto, under Divine Providence, by the use of your Ozone, cured of a bad leg that has baffled the skill of the best medical men in three hospitals and one infirmary, besides local skill both in England and here after twenty years of suffering, and more suffering, the last two of which have been the worst in my experience. I was cured by your Ozone, and I feel it my duty and privilege to return thanks to the Great Author of all things, and to you, sirs, whom he has used as my benefactor, after twenty years of suffering, and more suffering, and now almost to youthful vigor, which I owe to your remedy, Ozone. You have my best wishes for success with your grand remedy. (Signed) James Stevens, 1218 Bloor-street West, Toronto.

MR. JOHN H. DUNLOP'S LETTER. To The Ozone Co., Limited, Dec. 7, 1900. Gents.—I can cheerfully endorse all that is said in the testimonial furnished by James Stevens, who has been in my employ since May, 1898. He is a young man, and would not exaggerate any statement he might make. I can also say that the sore on his leg (by the way, the worst I ever looked at) is completely healed. He has told me on several occasions that he never expected to have been healed, so many attempts having been made and remedies used without avail, and that he expected to have to amputate and use crutches until his death. I consider it a wonderful cure, all the more so from the fact of his advanced age and length of time it has been standing. Very truly yours, John H. Dunlop, 644 Lansdowne-ave.

Loss of Art Lectures. Before an appreciative audience in the School of Art last evening G. A. Reid gave a highly interesting address on the history of art. He illustrated his remarks with about 200 slides, dealing with the interesting features of art from the early ages to the present time. The lecture concluded the winter series under the auspices of the Ontario Society of Artists and the Art School, which was highly successful throughout.

FIRE CLAIMS SIX VICTIMS

Whole Family and Hired Man in Hull, Quebec, Lives Lost Yesterday Morning.

THREE OTHERS MADE THEIR ESCAPE

Awake Half Stiffed With Smoke—Survivors Dropped From the Windows.

Ottawa, April 22.—Six lives were lost in a holocaust which occurred at Hull this morning. The victims are Thomas Hill, aged 35; Mrs. Hill, aged 32; Pearl Hill, aged 10; Robbie Hill, aged 7; Maggie Hill, aged 3; John Watson, aged 50, fireman; the Hills, with their three children, and Watson, who lived with them, occupied a frame dwelling at the corner of Bridge and Wellington-streets.

About 4 o'clock this morning the house was set on fire by lightning. Before the inmates could escape or help reach them they were overcome by the smoke and perished in the flames. When the fire burned itself out the blackened remains of the six victims were discovered in the ruins of the dwelling.

Three Others Escape. From later inquiries it appears that in addition to the Hill family Harry Boyce, proprietor of a pool room, his wife and the billiard marker, a youth named Renaud, slept in the house. The pool room was on the ground floor and the two families slept on the floor above. Boyce and his wife and Renaud just had time to jump from a window. It is supposed that the Hills and their three children were either struck by lightning or were overcome by the smoke whilst asleep. The bodies of Hill and his wife and the youngest child were found in bed. In an adjoining room were the two other children. Watson was hoisted for his body was discovered lying over a horse in the doorway of the

stable. Right underneath them were live electric light wires. The Survivors Dazed. The survivors were scarcely able to give an account of it. They awoke half stiffed with smoke, and heard the crackling of flames around them and just had time to throw themselves out of the window. When the fire brigade arrived they informed them that several persons were in the house, but were simply impossible to do anything to save them. It was a painful scene when the blackened and charred bodies were brought out one by one from the ruins of the building.

SPASMODIC Inhalations give temporary relief, but it is useless to slide and cure asthma by treatment with breathing mediated air or smoke. Asthma, being a that will clean out and tone up the system. CLARK'S SOLA COMPOUND is the only remedy that meets these requirements, and that it does so perfectly. It has been many times cured after other means had failed. Physicians recommend it. Three bottles, \$5, prepaid, from The Griffiths & Macpherson Co., Limited, Toronto.
