### Sir James to Return Hospitality of Quebec

Will Dine Sir Lomer Gouin  
and His Colleagues at Big  
Function on December 15  
—Important Issues to Be  
Discussed.

Sir Jas. Whitney and his colleagues in the cabinet will entertain Sir Lomer Gouin, prime minister of Quebec, together with one of his ministers and a member of the Quebec Legislature, at luncheon in the parliament buildings, on Dec. 15, at 1 o'clock.

In this way the government desires to express its appreciation of the hospitality and courtesy extended to Sir James Whitney by the Quebec Government on the occasion of the celebration of the centenary of the founding of the City of Quebec and the nationalization of the battlefields of Quebec.

All the members of the legislature, representatives of the senate, the house of commons, the judiciary, the Canadian Club and the press will be invited to be present at the luncheon.

On the evening of the same day, Sir Lomer Gouin will be entertained at a informal dinner by the Canadian Club, and the distinguished visitor will return to Quebec the same evening.

While the reason officially assigned as furnishing the occasion of this fraternizing of the premiers is a purely social one, it is understood that grave questions of state affecting the relationships of the provinces will be discussed privately during the meeting.

It must not be forgotten in this connection that at the close of the last interprovincial conference, Sir James Whitney and Sir Lomer Gouin were appointed a committee to determine the time, place and subject for the next meeting of the conference. The question of provincial rights is in the air at present. The inference seems to be obvious.

Again, the Province of Quebec is generally credited with having ambitions in the line of a power policy. Hon. Adam Beck will be within handy calling distance on Dec. 15, and Ontario is the chief depot for information of this nature.

There are some minor questions at issue between the two provinces, and these, it is fair to assume, may furnish the subject of a conversation between the premiers.

It is understood that Sir James Whitney and Sir Lomer Gouin will be the principal speakers at the parliament buildings luncheon, and that Hon. Dr. Resaume will add a few words of welcome in French. The lieutenant-governor and the two colleagues of the Quebec premier may also speak briefly.

### MISS GUTHRIE NOW IN JAIL

Bondsman Reneges When Her Parents Leave Town.

BARRIE, Dec. 3.—(Special).—Becoming suspicious, when he learned to-day that Mr. and Mrs. Guthrie had left town mysteriously without his knowledge, Bondsman Jas. Goodwin who drew his name from the bond on Miss Clara Guthrie, aged 17, under indictment for perjury in connection with a fire inquest, the result being that she was placed in jail this evening to await trial at week-ends. She could not or would not say where her mother had gone.

The injured Miss Montgomery, an adopted daughter of the Guthries, upon whom Miss Guthrie was in attendance when she was taken to the hospital, and the Children's Aid Society have charge of the two Guthrie girls.

Foot Cut Off.  
William Kell, aged 36, of Craighurst, Muskoka, had his right foot cut off at Whistler Junction at 10:30 last night. He attempted to board the Montreal Express, which was slowly moving up the grade, when he slipped. Kell also sustained a scalp wound. He was taken to the Western Hospital.

SIR LOMER GOUIN  
Premier of Quebec who is to be  
dined in Toronto.

### ISSUE TREASURY BILLS TO COVER DEFICIENCY

And Trades Affected Are Willing to  
Pay Taxes Rather Than  
Disturb Country.

LONDON, Dec. 3.—(Special).—Altho Premier Asquith has made no formal arrangements to meet the situation created by the rejection by the house of lords of the budget, the commissioners of customs, acting under instructions from the treasury, have issued a notice that taxes will be collected pending the assembling of the new parliament.

The trades which are affected by this order all practically agreed to this course being pursued in order to avoid disturbance to business.

Any deficiency in the government's services pending the assembling of parliament will be met by an issue of treasury bills.

### ARMY TO BRING 5000

Extensive Immigration Plans for the  
Coming Year.

HALIFAX, N.S., Dec. 3.—(Special).—Battered by fierce seas all the way across the Atlantic, the mail steamer Victorian reached Halifax to-night from Liverpool. She brought over 600 passengers, among them Sir Montague Allen, Col. Howell of the Salvation Army, R. H. Court, manager of "Canada," and Sir James Taschereau.

Mr. Court said that Canada's naval program was a live topic in London. He favors the contribution of a Dreadnought.

Col. Howell says the Army will bring 5000 young men and women to Canada during the coming year. The mail special left for the west at 7 o'clock.

### JOHN BUNYAN.

That memorial window in Westminster Abbey will not have much Canadian money in it if the result of two days' appeal in The World for help for the memory of one of the greatest of Englishmen is final. A sum of \$7000 is needed, half of which has been raised. It is possible that Canadians do not know John Bunyan or that they have not read "The Pilgrim's Progress" or "The Holy War." We will forward the subscriptions received to the executive committee after Friday, 15th inst.

### P. O. DEPT. CAN'T FILL ITS WANTS

Minister of Works Makes Dis-  
tribution of New Build-  
ings Mere Pa-  
tronage.

OTTAWA, Dec. 3.—(Special).—That C. A. Magrath, the Conservative member for Lethbridge, is destined to become a prominent figure in Canadian public life becomes more and more evident. When he speaks in the house he invariably discusses policy and large issues.

To-day he demonstrated the principle that will appeal to most thinking people.

Why Magrath Kicked.  
The house was in supply on public buildings estimates and when "new postoffices" were under consideration, Mr. Magrath attacked the minister of public works for what he described as his lack of policy. He condemned his actions in placing public buildings in many cases, such as for a \$25,000 building for the Village of Manville, Que., with a population of 1300, were the requests of the member for the constituency of a board of trade. The request should have come from the department itself.

He described it as humility to be compelled to do what he considered a postoffice, which was in dire need of a postoffice, and the request for one had been sent by the postoffice department to the minister of public works, but had been disregarded.

Before his election "political snipes" had gone thru the constituency telling the people that if they elected Magrath they would get no postoffice. Yet, said Mr. Magrath, the minister claiming there was no politics in public works.

Pugsley Promises.  
Mr. Pugsley in reply said that Lethbridge had only recently taken on its very rapid growth. However, he would consider carefully the claims of Lethbridge.

Mr. Foster and other members of the opposition criticized an item of \$30,000 for a postoffice at St. Jacques de L'Acadie, Montclair County, Que.

Small and the population of the district only some two thousand. Mr. Foster moved that the vote be reduced by \$10,000, but the motion was rejected by a vote of 23 to 17.

### \$100,000 for Permanent Cure for Consumption

Yale Alumnus Makes Offer and Uni-  
versity, as Custodian, Names  
Board of Judges.

NEW HAVEN, Dec. 3.—An international competition to find a permanent cure for consumption has been started at Yale with a prize of \$100,000 at stake. The giver is a Yale graduate who withheld his name.

He has turned the sum over to the university which, in turn, made the medical school faculty the custodian.

The competition is thrown open to the world, with the only limitation that the cure must be permanent. To assure this, Yale has decreed that the prize is awarded. The following advisory board has been named by Yale to take charge of testing the cures submitted:

Dr. Simon Flexner of the Rockefeller Institute, Dr. E. L. Trudeau, Saranac Lake, N.Y.; Dr. Lawrence Fleck of the Phipps Institute, Philadelphia; Dr. William H. Welch, Johns Hopkins University; Dr. Herman Biggs, chief medical officer in the department of health, New York City.

### RAILWAY COON READY TO JUMP

President Mackenzie Willing to  
Confer With City Regarding  
the Service to New  
Districts.

The street railway coon has proven many times in the past that he is not an easy animal to dislodge from his perch, but it really looks now as though he is preparing to come down, all because of Controller Hocken's underground railway project.

Following on the announcement by Manager Fleming a few days ago that the company would consider making extensions into the city's new territory on certain conditions, comes the statement from no less a source than President William Mackenzie that the railway is ready to confer with the city regarding lines needed to serve these districts.

Mayor Oliver told the board of control at a private meeting yesterday that he had received a communication from the company to the effect that Mr. Mackenzie and Mr. Fleming would like to meet the board next week so that they could reason together. The controllers were quite willing to hear what the railway has to offer.

While Mr. Mackenzie does not admit that he was the first to suggest the conference, the proposal came from him, he declared, was willing to do what was fair and reasonable, and to discuss any suggested improvements.

Asked whether he would offer, as reported, to extend the car service up Avenue-road to St. Clair-avenue, and thence to Yonge-street so as to give a single fare to Mount Pleasant Cemetery, Mr. Mackenzie said he had made no such proposition, but that the railway would consider it if it came from the city. He added that the company had made such a proposal to the city in 1898, but that it had been rejected.

As Mr. Mackenzie will be away for several days, the conference will not be held until toward the end of next week.

### B. C.'S NEW GOVERNOR

Thomas Patterson, Retired Railway  
Contractor, is Appointed.

OTTAWA, Dec. 3.—(Special).—Thos. W. Patterson has been appointed lieutenant-governor of British Columbia, in succession to Hon. James Dunsmuir, whose resignation was accepted to-day.

Mr. Patterson is a wealthy retired railway contractor of Victoria, B.C. He is a native of Bruce County, Ont., and went west about twenty-five years ago in the insurance business. A company agent detailed to the case said to-day:

"We do not believe Snead is dead. We do not know that Mrs. Snead is dead. It seems incredible that any woman not hypnotized or drugged could be persuaded to endure such indignities of mental suffering and bodily privation as this poor girl now in the morgue underwent if she had any claim on the life of blood and family devotion."

We do not know that three separate sets of policies in duplicate on the life of young Mrs. Snead were issued in favor of her aunt, Miss Virginia Wardlaw, now under arrest at East Orange, on the plea, in each instance, that the previous set had been lost. Was

To issue capital stock to the amount of \$100,000 in shares of \$5 each.

### MILLERS' ASS'N. STOCK ISSUE

Amendment to Charter for That Pur-  
pose is Asked.

OTTAWA, Dec. 3.—(Special).—The Dominion Millers' Association gives notice that it will apply to parliament for amendments to its charter, which will enable it among other things: To authorize the association to carry on other business that may seem convenient in connection with its present business, and To issue capital stock to the amount of \$100,000 in shares of \$5 each.

### BEWARE OF THE GREEKS.

William Mackenzie and his fellows of the Street Railway Company are only amenable to one argument—the original, primal argument of force. They never fail to use it in dealing with the city, and they never fail to yield to its logic when it is used by the city. It is Rob Roy's old rule, that "they should make who have the power, and they should keep who can."

As soon as the city got out a good stout club, the street railway's friends on The Star and The Globe and The Mail, and even The Telegram, began to cry out that the club was no use, the city could not afford it, and could not swing it, and all the other silly objections that men have when they get in a tight place and want to escape.

Mr. Mackenzie has no illusions, and knows a good argument when he sees it. He does not want the city to build tubes. He proposes a conference with the city, so that tubes may not be built.

He wants to build more lines now in new territory, because that will tie the city tighter in the old agreement. He does not want the city to build new lines in the territory he has so often refused to accommodate, because that would make it easier for the city to take over the franchise in 1921. He wants to extend that franchise, which the tubes would make impossible.

He says the company is "willing to do what is fair and reasonable." The Globe has just proved to its own satisfaction that Mr. Mackenzie's word is not worth the paper it is written on. No conference with the city is needed to enable the company to keep the terms of its agreement. That would be fair and reasonable, and does not need discussion.

Mr. Mackenzie says the company is willing further "to discuss any suggested improvements." That is to say, that less than a month before election day he is willing to go rough-riding after any old herring that can be dragged across the country, rather than walk on the plain high road of the city agreement.

Controller Hocken is particularly interested in the tube proposals, and we hope he will remember one plank in his policy when he first announced himself as a candidate for municipal honors. It was "unalterable opposition to the holding of secret meetings with the heads of corporations."

All that the street railway wants is to befog the electors and delay the adoption of a tube policy.

### BRUTAL MURDER FOR INSURANCE

Revelations Make it Appear  
That Big Swindles Have  
Been Planned  
Also.

NEW YORK, Dec. 3.—The three great companies in which Mrs. Cecy Wardlaw Martin Snead, held life insurance for upwards of \$30,000, announced to-day that they will refuse to honor their policies until it has been proved that the body of the hitherto starved young woman found in the bathtub of an unfurnished house in East Orange, N.J., on Monday last, is that of Mrs. Snead. The policy for \$25,000 on the life of her husband, Fletcher Snead, who is missing, is also up for grabs. A company agent detailed to the case said to-day:

"We do not believe Snead is dead. We do not know that Mrs. Snead is dead. It seems incredible that any woman not hypnotized or drugged could be persuaded to endure such indignities of mental suffering and bodily privation as this poor girl now in the morgue underwent if she had any claim on the life of blood and family devotion."

We do not know that three separate sets of policies in duplicate on the life of young Mrs. Snead were issued in favor of her aunt, Miss Virginia Wardlaw, now under arrest at East Orange, on the plea, in each instance, that the previous set had been lost. Was

To issue capital stock to the amount of \$100,000 in shares of \$5 each.

The whole edition is full of what you want to read.

### SASKATCHEWAN LICENSE ACT

Big Deputation Asks Government for  
Certain Amendments.

REGINA, Sask., Dec. 3.—A monster delegation from the Social and Moral Reform Association of Saskatchewan waited on the members of the provincial government this afternoon and presented claims for certain amendments to the Liquor License Act, particularly as concerned the local option provisions.

The point was also raised in regard to the enforcement of the law. The delegation admitted that it was hard to secure proper enforcement, but they believed that the appointment of plain clothed officers to secure evidence would have the desired effect.

Purchased Woolen  
ST. CATHARINES, Dec. 3.—The St. Catharines Woolen Company, Limited, a company of local capitalists, has purchased the Dolan mill, which has been idle for some time, and will begin operations immediately. The city council will be asked for a fixed assessment.

### GALE IN BRITAIN BRINGS MANY WRECKS

Coal Steamer Founders and  
Passenger Boat is Thought  
to be Lost, With  
Heavy Loss of  
Life.

LONDON, Dec. 3.—In a terrific gale that raged to-day over the British Isles the steamer Thistlemore, coal-laden, went to her doom off Apollonia, in Barnstable Bay, and it is believed to-night that her entire crew of thirty men perished. Four bodies have been washed ashore.

The Thistlemore was in command of Capt. Yeo and was bound from Liverpool for an American port. She was of 4008 tons and was built in 1906 at Stockton, Eng.

Another vessel was in distress in the same vicinity, but proceeded on her way, and it is hoped that she may have saved some of the crew of the Thistlemore, whose chief engineer is safe at Barr.

It is feared another disaster occurred in the Irish Channel. The Isle of Man steamer Ellen Vannin, with a crew of 21 and 12 passengers, left Ramsey, Isle of Man, for Liverpool, at midnight on Thursday, but has not since been heard from. A mail bag and two life-belts washed ashore on the banks of the Mersey leaves little doubt that she foundered.

The owners of the Ellen-Vannin are convinced that their vessel has foundered. She was the oldest mail steamer afloat. Having been launched at Glasgow in 1860, she was a great favorite with passengers owing to her seaworthy qualities and was regarded as the mascot of the Isle of Man steamers on account of her invariable good luck. She had never lost a passenger. She was owned by the Isle of Man Steam Packet Co. and was a 300-ton boat.

One of the Vannin's passengers, Mark Longin, was proceeding to America to take possession of a fortune left him there.

Small vessels everywhere were at the mercy of the storm and Lloyd's reports eight of them ashore at various points. Their crews, however, all escaped.

The British steamer Congress, which arrived at Palmouth to-day, reports that during the storm her captain, the mate and one seaman were washed overboard by mountainous seas.

A Rotterdam (Holland) despatch says: The steamer Balfin has been beached following a collision with the Russian steamer Estonia, which had just left there for Libau. The Estonia did not return.

### HAVOC OFF NEWFOUNDLAND

BIRCHY COVE, Nfld., Dec. 3.—Two schooners of the Gloucester, Mass., fishing fleet, the Mabel D. Hines and the Henry M. Stanley, were wrecked in the violent northeast gale which has swept Newfoundland waters in the past few days.

York County and Suburbs

WARDEN IS HONORED BY FELLOW-MEMBERS

York County Council Hold Annual Banquet—Suburban Happenings in General.

Successful beyond any former year was the annual banquet and presentation held at the Municipal Hotel last night to Warden Henry, who for the past twelve months has presided with such marked ability over the deliberations of the York County Council.

Reeve R. P. Coulson of Stouffville, as chairman of the several committees was an admirable presiding officer, and following the toast to "The King" was that of "The Dominion Parliament," responded to by Dr. Forbes Godfrey, M.L.A.

Among the few of the ex-members of the county and township councils present were: J. T. Seigson of Vaughan Township; Ex-Warden Alex. Blair, Councillor Robert Ormerod and Clerk Tom Crawford of Scarborough; Governors Chambers, W. A. Clarke, J. D. Evans, W. H. Hall, Merk Gardhouse and Councillors Pearson and Bull of West-End; W. A. Clarke, J. D. Evans, and A. W. Widdifield of Newmarket.

Friday's session of the council was marked by the adoption of the "good roads" movement in that the provincial legislature will be asked to contribute 50 per cent. of the cost, instead of 33 per cent., as formerly. In the event of the northern part of the county being set aside to this plan, the county may be divided into north and south. Reeve Pugsley championed the cause.

High Constable Ramsden received the appointment of police magistrate for York County, and will be available for duty in all parts of the county. The salary attached to this office is fixed by statute. Reeve Keith submitted the resolution, which was unanimously adopted. The appointment is most popular and the choice an admirable one.

ATHABASCA OIL FIELDS ARE OF A HUGE EXTENT

Expert Who Has Been Over the Ground Gives Evidence Before Senate Committee. OTTAWA, Dec. 2.—(Special).—Interesting evidence as to the Athabasca oil fields was given before the senate committee on mineral resources to-day by Alfred Von Hammerstein.

He stated that for the past eight years he had been exploring a field, between 320 and 350 miles north of Edmonton, and his associates had spent about \$5,000 and a million dollars in hardships, and had drilled 14 wells, scattered over an area of 60 miles.

Some of these wells had revealed the presence of oil and gas in large quantities. The wells varied in depth from 250 to 1200 feet. He exhibited samples of oil collected in sand, which he burned in the presence of the committee by the use of a lamp.

He declared that in the district in which he was boring there were inexhaustible supplies of this material. The samples which he showed, he said, contained about 98 per cent. of pure oil. It lay in inexhaustible quantities. Near the surface it was found in a hardened state, while 60 feet lower down it was found in a semi-liquid condition.

Capitala Get the Cup. The Capital Lacrosse and Rugby Club, winners of the senior city Rugby championship, had an enjoyable theatre party at the Metropolitan Theatre, followed by a supper at Williams' Cafe, when the handsome cup donated by John Brotherton, vice-president of the league, was presented to the president, S. Fitzgerald, for the club. Speeches were made by Messrs. Fitzgerald, Brotherton, Wm. Gladish, secretary of the league; W. Honeysett, captain of the winning team; and others. The cup becomes the property of the team winning it twice in succession.

Another "O'K" Ale

Our latest—and, some say—our finest, brew. We perfected an uncommonly fine blend of hops and malt—and then brought all our years of experience to bear in brewing, ageing and bottling it.

O'Keefe's "Gold Label" Ale is just the kind of Ale that you would expect a brewery like this to brew. It's pure and old, and rich and creamy—a delight to the palate—and the most nourishing and healthful of malt beverages. Have your dealer send up a case.

BUSINESS MEN APPROVE.

In the overwhelming approval of the business men of the city it is to be found the best answer to the objections of opponents of the floor-street viaduct and the tube railway system.

LITTLE EVA'S WAY.

Here is Little Eva's way of putting it: "The underground railway scheme we do not believe in. We do not expect to see a tube system operating here for many years."

This effort to appease the people who see the obvious advantage of a tube system for Toronto, and to sandbag the scheme at the same time in the interests of the street railway constituency is a thoroughly characteristic of the Star.

TUBE ARGUMENT UNANSWERABLE.

So obvious are the tube arguments that not even the Street Railway Company agents have the temerity to oppose them. Brief and terse are in the hearts of the directors concerned at the junction of King and Church.

ONE BRITISH VIEW.

Saturday Review, Nov. 20: Sir Wilfrid Laurier, in his reply on the address on Monday, put Mr. Monk, the anti-imperial Canadian Conservative, in his place with much vigor.

GERMANY AND THE BRITISH ELECTION.

No country will await the verdict of the British electorate at the approaching general election with so intense, indeed feverish, anxiety as Germany.

Germany, like Britain, is now preponderantly a manufacturing and exporting nation, and cannot afford to hinder the influx of coal and raw products so that her retaliatory power in a tariff war is considerably crippled.

TORONTO TEACHERS AND THE SUPERANNUATION SCHEME.

Considerable opposition has been aroused to the proposal having for its object the establishment of a superannuation scheme in connection with the Toronto school teaching staff.

Before Teetzel, J. Saskatchewan v. Leadley—G. Kappeler, K.C., and C. Kappeler, for the appellants, A. B. Cunningham (Kingston), for plaintiffs, A. J. R. Snow K.C., for defendants, the Moores. Judgment: An appeal from several rulings of the master in ordinary upon the reference directed to take the mortgage accounts. Upon the hearing I disposed of many of the items of the appeal, but reserved a number of others, which I now dispose of. The question of compound interest. With great respect for the opinion of the master, I think the language of the covenant here distinguishes the case from the Imperial Trust Company case, and is sufficiently comprehensive to show that the parties intended compound interest should continue to be computed, not only during the term of the mortgage, but during the continuance of the security. Upon this item the appeal should be allowed. Question of appropriation of payment. I am unable to say that the master has erred. Appeal on this item dismissed. Item of \$400 surcharge. The appeal on this item will be allowed. 4. Item of \$279.22 surcharge. The appeal on this item allowed. 5. Items of \$300 and \$441.75 surcharges appeal as to these dismissed. 6. Claim for compensation during 1900 and 1901, appeal as to this dismissed. 7. Claim for annual allowance. Allowance by master quite ample, appeal dismissed. 8. It was agreed upon the argument that the ruling of the master as to the apportionment of costs should be struck out, as the questions involved were

Stuart Bruce Van Kleeck, President, Ferris Trevelyan, George Edgar McCann, Mr. Alan C. Mackintosh (previously called to the bar), was also sworn in as a solicitor of the supreme court of judicature.

Hogan v. City of Brantford—W. T. Henderson (Brantford), for the city, W. S. Brewster, K.C., W. E. Middleton, K.C., for plaintiff. Judgment: An application under C. R. 23 to strike out statement of claim on the ground that it discloses no reasonable cause of action. The pleading moved against sets forth that plaintiff is a taxpayer of the City of Brantford, and brings the action on behalf of himself and all other taxpayers and electors of Brantford to have by-law No. 101 of the corporation declared ultra vires, and quashed, because the moneys necessary to be expended in connection with same, are not lawfully levied, and are not lawfully expended. Having regard to the provisions of the by-law, and the power of the municipality in the premises, I am of the opinion that the pleading discloses no cause of action and should be struck out with costs. The plaintiff may, if he so desires, file an amended statement of claim within one week.

McKEOWN FOR OTTAWA? M.L.A. for Dufferin may follow Duncan Ross' Lead

ORANGEVILLE, Dec. 3.—It is said that C. R. McKeown, K.C., now representing Dufferin in the legislature, may retire to become Conservative candidate in the bye-election for the federal house, caused by the death of Dr. Barr. The seat is a "safe" one.

Spoken to night, Mr. McKeown said: "It is all a matter for the delegates to decide. If my name should be placed before the convention and if they express any decided wish that I should become the candidate, I would yield to their wishes; otherwise I will be quite satisfied to remain in the legislature and do the best I can for the constituency. It is all a matter for the convention, and I am not urging any of the delegates one way or the other."

Others who may go before the party convention on Dec. 10 are J. R. Gillespie, Orangeville; G. M. Vance, Shelburne; W. J. Dynes and John Best, Wilmar.

ELECTION CAMPAIGN ON POLLING BEGINS JAN. 13

Lansdowne, Winston Churchill and Lloyd-George Give Addresses—Chancellor Raps Lords.

LONDON, Dec. 3.—Polling for the elections will begin Jan. 13 and continue until Jan. 24.

The election campaign already is in full swing and many speeches were delivered to-night in all parts of the country.

Lord Lansdowne at Plymouth defined the issues as tariff reform versus the income tax, and the two houses of parliament were engaged in a long and heated discussion.

Winston Churchill, president of the board of trade, spoke at Preston and challenged the Unionists to show any benefit that could come to the cotton trade from their fiscal policy.

He reminded his auditors that "every leader of the Conservative party, from the great William Pitt to the stout Arthur J. Balfour—all leaders from the sublime to the ridiculous—were agreed that the house of commons had control of finance."

Chancellor Opens Campaign. David Lloyd-George, chancellor of the exchequer, whose budget was the initial cause of the crisis, was given the opportunity of firing the first shot in the struggle as the guest at luncheon at the National Liberal Club.

His function was one of the most elaborate ever held in this city.

He expressed confidence that although the budget had been hurried it was assured the certain hope of an early re-surrection. Attempts would be made, he said, to divert the minds of the people to irrelevant questions, but the great and dominant question was that of the house of lords, and this would absorb all others.

It was time for the lords to be handled firmly, and for one he would not remain a member of the Liberal cabinet for an hour unless he knew that the cabinet had power to carry its bills.

Lansdowne's Deair. Declaring that a majority of the lords were in their places simply to prevent the administration from passing measures, he added that the greatest of the peers in the upper house had been opposed to the rejection of the budget bill, and even Lord Lansdowne, he believed, would rather have passed the bill. But he had been forced into the position taken against his better judgment.

The chancellor concluded, "With all the lords' cunning, their greed has overcome their craft, and we have not then at all."

The Liberal Unionist council to-day, on Austin Chamberlain's motion, passed a resolution of unqualified adherence to the policy of tariff reform.

TOLSTOI ON MUSIC.

"Oh, how nice, how delightful," whispered the work Le Tolstoi, as he listened to the rapture as he listened to Chopin's G minor ballade; and further remarked that music ennobles our hearts and souls.

Later, in a conversation with Mrs. Linnea, a lady from Moscow, when she mentioned the fact that he had written against all practical objections, he replied: "Oh, I wrote against art only when it was false art; music is the form of art which never excites aversion or disgust."

He said that he had collected by their hard work, and they do not compose so much as writers do, who write on paper to earn as much money as possible."

Mrs. Linnea is especially interested in the native music of the country, and Tolstoi listened most attentively to the account of her work. At the concert he attended he used to collect the names of the masses in Moscow, leading and training the choruses during the winter.

In summer she goes to the country and listens to the songs of the peasants at the time of the harvest, and during the winter she goes to the country and listens to a treasure store of Russian songs, and by comparing them with the songs of his own country he gets a better idea of the characteristics of each nation's music. The probably greater music of the country, he said, is listened also with intense pleasure to the chamber music played for him by Goldwasser and Gor Shostakovich.

For the beautiful trio of Arensky, which was composed in memory of Tchaikovsky, and the members of the Hungarian movement, and for Beethoven's music, which he has most interestingly read, and of the great Russian's last visit to the theatre, he has a marked evidence of his appreciation for music.

Hal McGivern's Cottage Burglarized. BROCKVILLE, Dec. 3.—The police seem unable to cope with the extensive cottage robberies along the river front. To-day they were notified that the fine summer home of Hal McGivern, M.P., Ottawa, situated at Fernbank had received attention from the burglars. Not content with entering the premises, the burglars made a complete wreck of eight doors in the cottage.

BLACKMAIL YEARS HEAD

Instead of Signing Notes He Paid Cash—Queer Revelation in Cincinnati Case.

CINCINNATI, O., Dec. 3.—When the grand jury met to-day, Prosecuting Attorney Hunt took the case of Charles L. Warriner, defaulting treasurer of the Big Four Railroad.

Frank M. Cadden, cashier in the United States customs office, who says he revealed the secret of the shortage to the company in "a purely commercial transaction" ten years after he became cognizant of it, and a few weeks after Ida Brockway, his stenographer, and Mrs. Jeanette Stewart Ford quarreled, was before the jury.

The Big Four, according to a semi-official announcement, is trying to get out of the \$385,000 not accounted for by Warriner in his expenditures of the stolen \$645,000, is really hidden somewhere.

Warriner, according to developments to-day, was compelled to make a cash settlement of \$25,000 in lump to Cadden, which was held in the clutches of Brockway for several years.

Prosecutor Hunt has in his possession 250 demand notes for \$100 each, and they are alleged to have been presented by a woman in Cincinnati, Ohio, in the immediate signature on Sept. 25, 1905. These notes bear dates from Sept. 25, 1905, up to Aug. 21, 1922. The notes are said to be payable to a woman named Ida Brockway, who is alleged to be a partner of Warriner in many business ventures, and he has managed to amass a fortune of between four and five million dollars. Dr. Roman, the report continued, long has been Senator Sanchez's business adviser and he, also, is a close friend and adherent of the senator.

More than a score of telegrams were despatched from Senator Sanchez's rooms. Almost an equally large number were received. This telegraphic activity, the Central Americans insist, is aimed at members of congress, with a view of winning over enough of them to prevent the administration from passing an act to make the government more cooperative in the event it is presented to congress.

BRUTAL MURDER FOR INSURANCE

Looks Business-Like. The police to-day were busy with a bundle of papers and scattered members of the jury, who were looking at the drug store, and recently discovered they contained thousands of words of "Tara" insurance policies and what would be the radical remedy, respectively with letters of recommendation from some of the foremost physicians in the country, and attesting to the reality of the ailment, and intellectually of the sensibility of the woman who now sits obstinately in the chair.

Such names are signed to them as Alice S. Freeman, president of Wellesley College; Alexander T. Ormand, professor of medicine at the University; Charles Young, professor of astronomy at Princeton; Thomas R. Prince, professor of English literature at Columbia University, and others.

ZELAYA WILL IGNORE

Ultimatum From U.S. Instead, Has Despatched Special Agents to Washington to Try and Have It Set Aside.

WASHINGTON, Dec. 3.—President Zelaya has not only refused to take official cognizance of United States secretary of State Knox's note, which was practically an ultimatum, but he is declared to have despatched special agents to Washington to endeavor to have the state department's ultimatum set aside, first by appeal to that department, and secondly, by direct appeal to members of congress.

In addition to this, it was reported to-day that any attempt that Zelaya might make to escape from his country would receive the direct and vigorous attention of the American warships now lying off the coast of Nicaragua.

Secretary Knox's note intimated in the plainest language that the state department looked upon Zelaya as the man responsible for the torture and death of the two Americans, Groce and Cannon.

The plan to deflect the United States government's program with reference to Nicaragua came to light this evening. Senator Fernando Sanchez and Dr. V. M. Roman, the former accompanied by his family, arrived here and registered at a leading hotel. They gave their address as New York.

Members of the Central American diplomatic corps, however, were in a flutter when they discovered the arrival of Senator Sanchez, they declared, is a partner of Zelaya in many business ventures, and he has managed to amass a fortune of between four and five million dollars. Dr. Roman, the report continued, long has been Senator Sanchez's business adviser and he, also, is a close friend and adherent of the senator.

Zelaya's Troops in Bad Shape

BUFFALO, N.Y., Dec. 3.—Colonel Guadamuz, an officer of the Nicaraguan Government army, has deserted President Zelaya and with 100 men joined the rebel force of General Estrada at Rama.

Guadamuz states that Zelaya's troops in the vicinity of Rama number 1400, of whom 200 are sick. They are existing on pilot bread and sadie cheese, which is going out scantily.

GOING TO U. S. CITIES. Arrangements have now been completed for the appearance of the Mendelssohn orchestra at Buffalo and Cleveland, February next. One concert will be given at Buffalo, at which place the choir-boys will assist in the performance of the Mendelssohn Chorus of that city, and two professors of astronomy at Princeton; Thomas R. GALE IN BRITAIN BRINGS MANY WRECKS

Continued From Page 1. FOUNDERED AT SEA

PORTLAND, Oregon, Dec. 2.—Advices received by the United States weather bureau from Tatoonis Island, Wash., state that the British four-masted barque Matheron foundered Nov. 27, seventy miles off Umattila Reef. The first mate, steward and four sailors were drowned. Twenty-seven of the crew were saved.

CUT OFF THE CABLES. Direct telegraphic communication between Germany and England and France was entirely cut off through the day by a storm that swept the British Isles and France, and it was necessary to send all messages to those countries by way of the United States. The trouble lasted until midnight, when the direct cable again was opened. The storm itself scarcely was felt.

ONLY ONE WRECK. BOSTON, Dec. 3.—With the returning to-day of the weather conditions which have been unusually boisterous for nearly ten days, coastwise traffic was resumed and several vessels in precarious positions were able to extricate themselves. The schooner at anchor on Nantucket Shoals, whose position aroused some anxiety earlier in the week, were found to be all right.

Only one disaster occurred, however, the wreck of the schooner Mizpah and her crew of three, who were on the tip end of the cape last night.

"MAKE GOOD" IMPERIALISM. Editor The World: Sir—The idea expressed by Mr. Hunter's recent cartoon of Sir Wilfrid holding up "gratulations" for contributions to the projected Canadian Navy, is one which will be applauded by those who believe that gratifiers have profited largely by Sir Wilfrid's regime, a belief which has been strengthened by the fact that Mr. Hunter's proposal might be improved, so as to set out a truth in which pretty much everybody in both England and Canada might be engaged. The idea that a federal income tax should be levied immediately, by way of providing funds for any armed ships that may be undertaken by Canada.

AT THE THEATRES

GRACE VAN STUDTDORF. The famous prima donna in "The Golden Butterfly" at the Princess Theatre all next week.

"Billy." Two of the most unique characters in "Billy," the new football farce, which will be seen at the Royal Alexandra next Monday, Tuesday and Wednesday with Tuesday matinee, are the heart-sweet and the selfish. These parts are acted by Spottswode Aitken, and Prince Miller. These two in sweeping the deck of the steamship Florida at night find the action of the play takes place on the deck of an ocean liner and a set of false teeth which Billy had lost if Billy hadn't lost his teeth there could not have been any play, but since he did the result is one of the most amusing farces ever written, and the fact that Billy has all a summer at Lady's Theatre in New York, proves the production of "Billy" is a high producer. The play comes to Toronto under the management of the Shuberts, who promise the same picturesque production and the original cost seen in New York, including Edgar Atherton Ely.

"Kitty Grey" Coming to Princess. In both London and New York theatregoers declared "Kitty Grey" is "here to stay," and there seemed to be no doubt that Charles Frohman's production of this dainty English musical comedy, with G. P. Huntley and the original London Company, could have remained in New York for a year, but it is to be given a limited tour, and Toronto is one of the few cities to be visited. "Kitty Grey" will be the offering at the Princess Theatre for the week beginning Dec. 13.

"The Return of Eve." Under the direction of the Messrs. Shubert, Bertha Galland will present here the Herald Square Theatre success, "The Return of Eve," the Leo Wilson Dold modern fantasy which attracted such attention in New York for its delightful wholesome love story and the happy ending which won her share with this play in London.

BERTHA GALLAND. In the "Return of Eve," at the Royal Alexandra next week.

STEPHANIE LONGFELLOW. Grand-niece of the famous poet, who will be seen as Nance Olden in "In the Bishop's Carriage" at the Grand next week.

delight the ear, but its gorgeous production is said to be a feast for the eye. The Hungarian songs to the music is emphasized in the soft colors in the picturesque settings of the three acts. No expense has been spared on costumes, properties and scenery, and the production will be on a scale of gorgeous splendor. There will be an ensemble of seventeen people, and the chorus is considered the best ever seen in light opera. There is much comedy furnished by comic sextets of musicians. Dutch bands have played out of tune before and German musicians have talked pidgin English on many stages, but never before have six naturally funny comedians been furnished with drill lines by Harry B. Smith and musical records by Reginald de Koven.

MISS JANE MARBURY. Miss Jane Marbury, who comes to the Royal Alexandra Theatre next Monday, Tuesday and Wednesday with the "Billy" Co., and one of the most skilful and enthusiastic gossips in New York City.

"In the Bishop's Carriage." The play is a dramatization of Miriam Michelson novel of the same name. Indeed, judging from all accounts, there are certain sections of the country where "The Golden Butterfly's" popularity has not been even remotely approached by any similar work. New York, Boston, Chicago and Philadelphia have placed it in the front rank of American operatic works. The opera was written especially for Miss Van Studtdorf by Reginald de Koven and Henry B. Smith. These composers have given us a work that will live for some time to come. The music is of some operatic construction, and the book is clever, with a well composed story of love and romance. As a musical motif there is a love waltz, "Nance Olden," which runs through the score. Not only does the opera

Eight Kellinos at Shea's. The Eight Kellinos, the troupe of Ribley acrobats, who have been the sensation of two continents, will head the bill at Shea's Theatre next week. Six men and two women appear in this marvelous act, and all the great hippodromes of Europe have applauded their wonderful feats.

The special attraction on the bill for the week is Clayton White and Marie Stuart in George V. Hobart's best comedy, "Cherie." Mr. White and Miss Stuart can truthfully be called "Canada's" favorite comedians. "Cherie" is full of the bright lines and clever situations that are always so delightfully handled by both Mr. White and Miss Stuart, and as she goes wait their coming each season with pleasant anticipation, their welcome will be little short of an ovation. Miss Stuart, who is always splendidly dressed, promises a Paris creation on this visit that will rival anything she has before worn.

national acts, as well as a chorus which is not only good to look at, but can sing tunefully and execute alluring dances. Heading the feminine contingent is the famous and exceedingly clever burlesquer, Ruby Leon; she is assisted by the vivacious soubrette, Lillian Vedder, and the French Quaker maidens. Among the comedians are Billy Hart, well known in all the leading vaudeville houses in this country, and Frank Harcourt, another uncouth farceur, who is noted for his mirth-provoking ability. Some of the specialty acts are the Great Brocoffs Troupe, who do a sensational act which created a furore in every city in Europe; Paulson, Golliver and Lee, a trio of singers and dancers; and La Belle Marie, the world's greatest dancer.

Sousa Next Week. Sousa is to be with us on Tuesday afternoon and evening next at Massey Hall, with his band and soloists and make glad the hearts of those who delight in his unique form of musical entertainment. That a large part of music-loving elements will pour into the hall goes without saying, for the Sousa concerts have demonstrated their immense popularity over and over. The hold they have upon public attention is certainly genuine. It will not do to explain it as a mere fad, for it has not only held its own, but it has become a firm and constantly accruing patronage year after year.

G. P. HUNTLEY. In Charles Frohman's big musical comedy, "Kitty Grey," coming to Princess.

"Frolisome Lambs." There is something irresistible to the average theatregoer in a chorus of pretty young women, who can sing and dance and who can wear pretty costumes as to the matter born. In the "Frolisome Lambs," which will be the offering at the Star Theatre beginning Monday matinee, the manager has paid particular attention to the chorus. The "Frolisome Lambs" was staged by Mike J. Kelly, which is a guarantee that it is both amusing and entertaining. In this big company this season are such well known artists as the Misses Gertrude Ellis, Alma Burman, May Belmont, Messrs. Mike J. Kelly, Frank Chick and his chickens, Quigg and Nickerson, and the burlesquers are exceptionally funny and are entitled "The Mayor's Vacation." In fact there is not a dull moment in the whole show.

Majestic Next Week. At the Majestic Music Hall next week will be the attraction of the Crackers. The Crackers, who will share the headline honors on an all-star vaudeville bill, Miss Wakenfield will offer a varied selection of song readings at the piano and Mr. Clarke, who is a great favorite by Toronto, will be seen in his latest playlet, "What Will Happen Next?" a genuine laugh-producer, and sister "The College Boy Juggler" and the Lady Boomerang Throwing, Miss Josephine Davis, the rollicking singing comedienne; the Jackson family, the greatest in America's greatest bicyclists; Musical Cows, xylophone soloist; Heeley and the kinestosepe and a number of other good acts.

The Cracker Jacks. Bob Manchester's famous burlesque and extravaganza, "The Cracker Jacks," will be the attraction at the Gaiety Theatre next week and crowded houses are sure to be the rule, as the Crackers are a peer in this country. Each season under the title of the Cracker Jacks, Manchester introduces an entirely new show, made up of vaudeville on the best musical and dramatic offerings, the best and most popular vaudeville entertainers and novel and sen-

ENICE HOWARD. In "The Frolisome Lambs," at the Star next week.

Agnes Street Theatre. Zeno and Zola, European acrobats, will head the bill at the Agnes Street Theatre next week. Orna Crosby's Kinkey Girls' sextet, Grace and Gold, comedy singers and dancers; Bob Jewette, "the American Boy"; Ray O'Neill, the "Kid in Black"; the Manning Trio in a rural comedy sketch, and Phil Lewis, monologist, will provide the remainder of an all round good bill.

Toronto Festival Chorus. The first general rehearsal of the Toronto and West Toronto Festival Chorus and Orchestra on "The Messiah" will be held at Victoria Hall, East Queen Street, on Tuesday evening, Dec. 7. Members of both chorus and orchestra are asked to make a note of this and be present.

TRYING TO RELEASE CONVICTS. KINGSTON, Dec. 3.—(Special).—Efforts are to be made to secure the release of two Toronto convicts from the Penitentiary, Solomon Altman, serving two years for burglary, and Morris Levy, 3 years for substitution of money.

The player piano increases daily in popularity. By using the perforated music rolls anyone can play any kind of music on it, and in case a member of the family or visitor wishes to use the keyboard it can quickly be adjusted to this use. One of the only drawbacks to this class of pianos has been the bad effects of the action by changes in weather conditions. This defect has been overcome by Heintzman & Co., 115-117 King-street W., who have in the new instrument aluminum sections on which the weather has no effect. This naturally adds greatly to the life and tone of the piano.

Reading and U.S. Steel Score Further Increases—Twin City Attracts Attention at Toronto Exchange.

World Office, Friday Evening, Dec. 3.

A sharp upward movement in Twin City was a prominent feature at the Toronto Exchange this afternoon. The price opened steady at 110 1/2 and was not until New York took hold of the stock early in the afternoon that any advance occurred. Considerable trading both here and at New York lifted the price to 113, at which figure quotations closed.

At Toronto nothing new had been heard in regard to the suit in which the company is interested and which is now before the supreme court. The interests closely identified with the company explain the advance as a natural one, solely on the ground of an increase in the dividend now paid. A six per cent. dividend is contained in the prospectus for 1909, but this interest, must be now largely eliminated. Manipulation by the leading banking interests was noted in favor of higher prices. We do not believe in the market, however, and in the event of a further upward drive should count selling.

R. E. Lymann & Co. wired R. B. Holden:

Closing was strong at about high for the day. Apparently the shorts were the principal buyers of stocks, but this interest, must be now largely eliminated. Manipulation by the leading banking interests was noted in favor of higher prices. We do not believe in the market, however, and in the event of a further upward drive should count selling.

R. E. Lymann & Co. wired R. B. Holden:

The technical position is strong and further improvement is to be looked for. We are particularly bullish on C.P.R. Reading promises to become active and sell very much higher. Good people are buying the Transactions.

**Bond Sales in Canada.**

The municipal bond sales in Canada during November, as compiled by the Monetary Times, were \$2,644,736. Quebec contributed \$600,000 to that amount, and Ontario \$2,044,736. Of the western provinces, British Columbia issued \$468,488 and Saskatchewan, while Alberta, Manitoba and Newfoundland issued only \$111,111. The first eleven months of 1909, the total of the bond sales in Canada during that period was \$21,000,000. The November sales were about \$1,000,000 in excess of those for October.

Considering the small amount of outside buying, the Toronto market may be said to be holding well. The average of sentiment is against any near-by advance in prices, but holders are not disturbed over the future, and realizing is not therefore much of a hardship on the market. Any weakness to-day came in the London listed issues, and may be due to the disturbed state of the public mind in Britain. The Toronto market is not entirely free of manipulation, which appears to be working in both up and down movements. All things taken into account, the market should be satisfactory to investors.

**SHOT BOY IN AUDIENCE**

Indian Patent Medicine Doctor May Be Tried for Murder.

SUDBURY, Dec. 3.—Dr. Whitecloud, an Indian patent medicine doctor, more or less famous throughout Ontario, is lodged in Copper Cliff Jail.

On Wednesday night while performing in a public hall he claims to have been disturbed by small boys. One of the doctor's thrillers is trick rifle shooting, and falling to quiet the small boys, it is alleged, he shot one of them while doing his rifle act.

After lingering for a night and a day between life and death, the boy died in Copper Cliff hospital last night. An inquest is being held this afternoon. Arrested on Thursday for wounding, Whitecloud pleaded guilty and was remanded to jail for a week awaiting developments of the boy's wound.

He will now have to answer the more serious offence of killing the boy.

COBALT Mining Issues Inclined to Sag on Local Markets --- COBALT

Market Assumes Easier Tone Realizing Sales Continue

Cobalts on Down Grade With Liquidating Movement in Progress—La Rose Sells Off Below Par.

World Office, Friday Evening, Dec. 3. Transactions at the local mining exchanges bore the mark of liquidation on a rather unwilling market to-day and a generally easier attitude was displayed by the listed securities. Trading was of a very desultory nature, while the absorbing power showed, if anything, signs of diminishing.

La Rose maintained on the easy side, with sales between \$5.00 and \$4.91. The demand for these shares, which demonstrated some improvement in the last few days, now assumed an almost listless aspect and the dealings which were recorded to-day were principally profit-taking sales from those who had bought in at the recent low figures. Quotations at the close were weak at \$4.88 3/4.

Crown Reserve was comparatively unchanged from the previous session, the shares changing hands between \$4.79 and eight points better than that figure. Prices at the close were firm at the highest for the day.

Timiskaming was the weakest of the lower priced stocks. This issue opened weaker at 71 and declined four points during the session. The movement in the stock is only attributable to realizing on a poor market, while on the lower figures the shares demonstrated a good undertone.

Of the other Cobalts, Silver Leaf was inclined to ease; Little Nipissing sold fractionally lower, Otisse inclined to sell off, retreating to 23 3/4 and closing fractionally lower. The other stocks were not much changed, but at times inclined to sag.

The market was a disappointing one throughout the session. Securities sold off in the easiest possible way, and unless a better speculative demand arises, the easier tone is likely to continue.

Much Better Feeling. Playfair, Martens & Co. in their letter say: There has been a much better feeling in the mining market this week. La Rose, Kerr Lake, Otisse, Hargrave and Rochester being in good demand. La Rose advanced to over \$5 which is an indication that confidence in the property is returning. Kerr Lake is selling ex-dividend around \$10 and is regarded as the best investment stock on the list. It yields about 17 per cent. and has withstood all the attacks in the Cobalt market during the last twelve months.

Trading Has Been Light. Playfair, Martens & Co. in their letter say: Trading has been very light and prices are practically the same as last week, with gains in Nova Scotia, Steel and Twin City, the rest of the market being dull and spiritless.

Domion Iron and Steel and Domion Coal have been very quiet. Steel selling off about a point, and Coal reacting to 89 1/2, and then recovering on small transactions. The floating supply of Domion Iron and Steel seems to have been absorbed, activity having subsided without any great reaction in the price of the stock. The output of the Coal Company for November was 225,000 tons, as against 244,000 tons in November, 1908. Although this shows that the strike is about conquered, there will be a big falling off in the net earnings of the company this year by reason of the large increase in working expenses and decrease in the output, occasioned by the strike; but this should not affect the basis upon which the Coal Company will be taken into the merger. Consider the relative merits of the two companies and the big advance in Domion Iron and Steel, we think that Domion Coal should have a considerable advance before the merger goes thru.

Twin City has been strong during the week, advancing to 110 1/2 on reports of largely increased net earnings. The South American stock, Sao Paulo Tramways and Rio de Janeiro Tramways have attracted some attention during the week. The Rio Company has reduced its operating expenses from 68.28 per cent. of gross earnings in January, 1909, to 56.18 per cent. in Oct., 1909. This reduction in operating expenses will cause a proportionate increase in net earnings and will very soon allow the company to pay a higher dividend on the common stock, which at present is on a 4 per cent. basis.

Surprising Amount of Ore in Sight. Greville & Co. in their weekly letter say: As long ago as the 9th of September, we advised our clients as follows: "Investors should not be frightened by talk of the validity of the title of the property. We consider it an excellent buy at the present price. Quite recently a correspondent of ours was in the mine and assured us he had been in the ore houses and seen a large quantity of high grade ore ready for shipment as soon as the injunction was dissolved. In fact, he described

the quantity as perfectly surprising, and we are not at all astonished that the stock has begun to strengthen up and in comparison with others we think it is low considering the value of the property.

DIRECTORS: Geo. Weaver, Real Estate Agent (President Timiskaming Board of Trade and Vice-president of Timiskaming Telephone Company), R. Armstrong, A. S. Galoska, R. S. Robinson, Geo. W. Roach, G. W. Wesver, M. Abraham, All of New Liskeard, Ont.

This Company owns nine claims in Haultain and Chown Townships, having a total acreage of 360 acres, and located on the Government Road from Elk Lake to Gow Ganda. The Company has been doing considerable prospecting this Fall, and has discovered numerous new veins and leads on their properties. This work will go on during the winter, and no doubt new veins will be found running high in silver values.

Now is the time to buy stock in this Company, which is selling at 30c per share. For further particulars apply to E. P. SMITH 512 Merchants' Bank Bldg., Montreal, Que.

HOW OUR ASSETS HAVE INCREASED

The Prospectors' Exploration & Development Co. was started as a modest enterprise, with capitalization so low that it became in every sense a far square, shareholders' proposition. The capital stock is only \$150,000, in shares of one dollar par value. At 20 cents a share, the actual capitalized value is reduced to \$75,000. At the outset, the company had nothing but its charter and its stock. The sincerity of the management, the honesty of capitalization, and the company's plans were approved of sufficiently to effect the sale of enough stock to put the first prospecting party into the new field.

Our representative, A. R. Duff, had previously taken us into his confidence as to the character of the country he proposed to explore. In two places, and calcite and blom on some of our own veins are to-day the owners of fourteen mining claims located in the disbase formation, with the assessment work done, silver in your neighborhood in two places, and calcite and blom on some of our own veins.

Our enterprise has grown wonderfully. Besides our fourteen claims, we have also gained knowledge. We have valuable information, and we must send men out at once. In the meantime, we are in a position to organize subsidiary companies, and sell some of our holdings. As we remarked, this company started out in a modest way, but the enterprise is growing on us.

On such low capitalization, only \$75,000, the stock at 20 cents a share offers a splendid speculative opportunity.

Belmont Silver Mines of Kerr Lake, Limited

Recent reports from G. C. Bateman, B.Sc., Engineer of the Hudson Bay Mine, and H. Lawrence Brown, E.M., Manager of the Belmont, say that this is one of the BEST prospects in the Kerr Lake district.

They are now sinking on a calcite vein that has been traced for over 500 feet, and a STRIKE MAY BE MADE at any time that would place the Belmont in the same class as the rich adjoining KERR LAKE, DRUMMOND and CROWN RESERVE mines.

Write for Engineers' Report. I have a limited amount of stock for sale at 25c per share, non-assessable and no royalty charges.

J. LORNE CAMPBELL, 6246 12 MELINDA ST., TORONTO.

Don't Get the Impression

That the Cobalt Market is not a substantial proposition. A few over-boomed stocks have had a well-merited setback, but the camp is good for a producer for many generations and the ore output will be increased yearly.

A number of stocks are selling below their intrinsic worth, if measured only by the ore in sight. We adhere to our conviction that buyers of stocks which we can recommend will reap big profits at a future date.

NOTICE

To the Shareholders of Little Nipissing Silver Cobalt Mining Company, Limited. The directors of the Company have decided to request all parties holding stock of the Company to transfer the shares to their own name immediately after their purchase same. The reason that the directors request this to be done is that it is proposed to notify the shareholders from time to time of the progress and development of the Company's property. If it is desired to obtain this information, holders of stock must appear as registered owners on the books of the Company.

Your directors cannot too strongly advise all shareholders of the Company to retain their stock, as it is believed there will be important information to submit to the shareholders very shortly. The Company was never in its history in as strong a financial position or obtaining better ore than it is to-day. The Board of Directors would be obliged if holders of stock would at once register their shares.

# FARMING

**THE FARM WOMEN.**  
 In the average farmer's wife a human being? Is she endowed with a soul? Has the "Light that enlightens every man," entered her being?  
 Then why is it that the many farmers regard her as a totally unfit to have a dollar to spend of her own? How is it that they dole out an allowance with a little civility as they would to a beggar? or has a woman to submit to injustices of all kinds as a species of creature religion?  
 The women in their institute work are revolutionizing their environments, not by antagonistic methods, but by the tactful introduction of a higher life, and the brute in man is being driven out.

**THE GRANGE.**  
 The grange has done a wise thing in not reviving the old co-operative handling of small groceries, etc., which require a specific knowledge in the distribution. What the grange must aim to be is an organization of the farmers for educational purposes chiefly. With the national idea worked out, it will become a more powerful exponent of new organizations and co-operative enterprises. The central body will largely dominate the political situation when they cover the whole of Canada. The working out of co-operative ideas in buying and selling can safely be left to the local organizations. These can buy salt, seeds, feeds, fertilizers, lumber, etc., to advantage, and when the vision is broad enough, a fair exchange among the farmers of the various parts of Canada may be effected. Ontario farmers want wheat and coarse grains from the grain grower of the west, and they in turn want our apples. There is no reason why a reciprocity of this kind could not secure high values to the producer without adding to the burdens of the consumer.

**THE FARMERS' DAIRY CO.**  
 The Farmers' Dairy Co. have done a good business during November and have made good. About four thousand cans of milk were taken from the farmers during the month. They have received better prices than formerly, while the consumer gets the milk at a cost cheaper.  
 The success of the company is another form of successful co-operation. Farmers everywhere will find it to their advantage to unite for protection of their own interests.

**SALE CALENDAR.**  
 Mrs. Gordon, sale of farm stock and furniture at New Toronto, Dec. 8.  
 E. Abbott's sale of Holstein and farm stock at his farm, Camlachie, Dec. 9.  
 Estate late James White, farm, farm stock, feeding steers, etc., at the farm, near Whitevale, Dec. 7.  
 L. Summerfeldt & Sons, sale of Clydesdale and Holstein cattle at Unionville, Dec. 9.  
 David Rife & Sons, sale of 40 Holstein, milk cows and young stock at Hespeler, Dec. 23.

**A GOOD FARM BY AUCTION.**  
 The estate of the late James White will be sold next Tuesday at the farm near Whitevale. If you want a good farm or farm stock, go.

**A GOOD HOLSTEIN BULL.**  
 Count Calamity Mercedes, the herd bull to be sold at the dispersion sale of David Rife and Sons, Hespeler, is without a doubt the most prominent living sire in Canada.  
 He is sire of Joseph De Kol, C. Mercedes, the champion two-year-old heifer of Canada, record at two years, butter 7 days, 20 lbs., milk 7 days, 42 lbs. Milk one day 62 lbs. His first two tested daughters are the two highest testing two-year-old heifers sired by same bull in Canada.  
 Their records at two-years average, butter 7 days average is 18.09 lbs., butter 7 days milk 60 lbs.  
 Count Calamity Mercedes is one of the few proven sires that have the ability to transmit those high producing qualities to their offspring. While we hear of sires whose dams have large records, there are few who have the ability to transmit those high producing qualities to their daughters. Hengerwerdt, De Kol, Paul Beets, De Kol, Pieterje Hengerwerdt, Count De Kol, and all of the great proven sires of the breed have become famous, not thru their own official backing, but thru the records of their daughters, and Count Calamity Mercedes thru the records of his daughters has proven his ability to transmit those high producing qualities to his offspring.  
 He is fit to head any herd in Canada. Proven sires of his quality are hard to get and are very seldom offered in public sale. Twenty cows and heifers bred to him will also be sold. Be there when the die is cast.

**TEN STOREY HOTEL FOR C.P.R.?**  
 MONTREAL, Dec. 3.—It is rumored that the C.P.R. are contemplating the building of a large, modern downtown hotel on the old St. Lawrence Hall site, which was purchased by the company three years ago.

**FINED FOR SHOOTING.**  
 BROCKVILLE, Dec. 3.—Mrs. H. C. Barker, who shot her husband on Saturday last, following a domestic quarrel, got off lightly this morning. Her husband not being willing to prosecute, the chief of police lodged a minor charge of discharging a pistol in a public place, to which she pleaded guilty, and was fined \$20 and costs.

**State Takes a Hand.**  
 BOSTON, Dec. 3.—The state authorities intervened today in the labor dispute at Ludlow, Mass., where a strike of 1800 operatives in the bagging mills of the Ludlow Manufacturing Association has resulted in the eviction of twenty-four families from the company's houses.

## Guelph Winter Fair With Big Horse Show In New Building

The Royal City Will Entertain a Big Crowd of Visitors From All Over Canada—The Horse Show Promises to Be the Biggest of Its Kind.

All roads next week lead to Guelph, the royal city. It is Ontario's Live Stock Exhibition for excellence. No other fair or show, no single breed exhibit can compare with it from coast to coast.  
 Chicago is her only comparison, and this week that big arena full of agricultural walking wealth has again paid tribute to the importance of the four-footed creatures from America's farms. But Chicago is international in its scope. It is held beside the thoracic cavity of a continent's ebb and flow of commerce.  
 Guelph is the creation of a province, the monument of the progressiveness of Ontario's agricultural department. It has justified the wisdom of the founder, whose ashes lie under the soil of Maple Shade. Its upbuilding is sure. No greater feature of farm life and stock breeding will attract the public as the years go by. The new \$50,000 building is only a beginning.

White Guelph City has at times been niggardly in her dealings with the show; there were always a few enthusiastic members of the city council who were seized with the magnitude of the show. A people who can make their own municipal enterprises pay are the ones to push along such an undertaking.  
 Special Features.  
 A special feature in connection with the lectures to be held at the winter fair this year is the discussion of proper types to be sought for in the breeding of the various pure breeds of live stock. Animals will be used for illustration purposes and the discussions will be of a practical nature, of benefit to the farmer who is trying to improve his grade stock as well as to the breeder of pure-bred animals. The question of profitable feeding, as dealt with in the dairy cattle and poultry sections, will be of interest to all in these times when feed is so expensive. A general subject of special value will be "under-draining." Prof. W. H. Day will explain the conditions under which it is advisable to under-drain, the principles to be followed in laying out a plan and the materials and appliances which should be used.

**THE PROGRAM IS GOOD.**  
 On Tuesday evening, Dec. 7, there will be the session for poultry with addresses on "Profitable Production of Poultry on the Farm," by Prof. Graham, Guelph; "Poultry Feeds and Feeding," by Miss Mary Yates, Guelph; and "Fireless Ranges," by E. W. Clark, Cainsville. The session for dairy cattle will be on Wednesday evening, Dec. 8, at 8.00. "Licensing the Cost of Milk Production," will be discussed by Prof. Dean, Guelph, and the "Breed Type of Jerseys," by Prof. G. E. Day. Dr. R. S. Stevenson and R. Reid, respectively, Wednesday afternoon at 1.30. Prof. W. H. Day will take up the question of "under-draining," and at 3.30 there will be addresses on the "Breed Type of Shorthorns," by Robert Miller and "Hereford, Aberdeen-Angus and Galloways," by Prof. G. E. Day. On Wednesday evening at 7.30 there will be a public meeting in the city hall at which addresses will be delivered by prominent men, and a musical program will be rendered. Thursday morning will be taken up by addresses on the "Breed Type of Clydesdale, Shires, Hackneys, Thoroughbreds, Standard-Breds and Ponies." These will be discussed in the order named by Wm. Smith, John Gerritsen, Dr. George, Dr. J. H. Reed, Dr. Routledge and Robert Miller. On Thursday afternoon at 1.30 "Breed Type of Sheep" will be taken up. Shropshires and Cotswolds by Robert Miller, Southdowns by L. Col. McEwen, Dorsets by R. H. Harding, Leicester by A. W. Smith and Oxford, Lincoln, Hampshire, and Suffolk by Prof. Archer. On Thursday afternoon at 3.30 Prof. G. E. Day will discuss the "Breed Type of the Different Breeds of Swine." On Thursday evening at 7.30, Prof. Archer, the address will be "Best Types of English Corn for the Various Stock Raising Districts of Ontario," by Prof. Grisfith. "Observations on the Conception of the Work in Judging Seed Exhibits at the Winter Fair," by Prof. Buchanan; "The Seed Control Act and the Farmers," by T. G. Raynor. There will also be some short addresses giving practical lessons obtained by the judges from the work in judging the fields of standing grain in Ontario during the past summer.  
 Ladies Will Meet.  
 The Women's Institute Convention

**Don't Miss Going to Guelph for the Ontario Provincial Fair.**  
 Why? Because at this city there is the best display of live poultry, etc., in America; also the finest cattle, sheep and hogs are exhibited. Interesting lectures. It will do the club or city man good to visit the famous and handsome buildings and grounds of the Ontario Agricultural College, of which Prof. Creelman has charge. New buildings have been granted to the year's fair. The frequent and excellent service of the Grand Trunk Railway System makes it an easy trip. Trains leave Toronto 7 a.m., 8.30 a.m., 1 p.m. Trains leave Guelph for Toronto 5.55 and 8.15 p.m. Round trip rates from Toronto is only \$1.45. Good going Dec. 4 to 10. Return limit Dec. 15, 1909.  
 Secure tickets at City Ticket Office, northwest corner King and Yonge streets, Phone Main 4290.

**Granite Workers Stay Out.**  
 MONTPELIER, Vermont, Dec. 3.—Hopes for a speedy settlement of the strike of five thousand granite workers here, in Barre, and in Northfield, vanished to-day when the Northfield branch, the first to strike, refused to accept the Barre Granite Manufacturers' Association proposition, that the use of the bushing hammer, over which the strike started, be made optional between Dec. 11 and March 15.

**"Leper" Early Detained Again.**  
 WASHINGTON, Dec. 3.—John E. Early, the alleged leper who was arrested here yesterday under the authority of an act of congress to prevent the spread of contagious diseases in the district of Columbia, and put under quarantine, declared to-day he would fight against his detention.

**British Cattle Markets.**  
 LONDON, Dec. 3.—London cables for cattle are steady at 12 to 15 per lb. for live cattle weight; Liverpool, 12 to 13½c; refrigerator beef, slow, at 9½c to 10c per lb.  
 A Live Stock.  
 George Dunn, who has been receiving many consignments of feeders from Manitoba, expects 3 mags loads of good steers, 90 to 120 lbs each, lots to \$7.65; yearlings, \$6.75 to \$7.00; bulk of sales, \$8.10 to \$8.50.  
 Sheep—Receipts, 6000; market, steady; sheep, \$4 to \$5.25; lambs, \$7 to \$7.50; yearlings, \$6 to \$7.

**HOLSTEIN BULL.**  
 Count Calamity Mercedes (Imported), owned by David Rife & Sons, Hespeler, Ont. Dam's record: Butter, 7 days, 23.58 lbs.; sire's dam, 22.1 lbs., testing over 4 per cent.

 The Canadian Northern new survey seems to be unearthing graveyards.  
 Rife & Sons have the milk cows that pay their price in yearly returns.  
 Write for a catalog.  
 Red clover is hot, turning out big yields of seed this year.  
 Go to Summerfeldt's sale at Unionville the week after the fair.  
 E. W. Clark, Prof. Ziegler's report on the experiment with potatoes, corn, roots, hay, etc., on Tuesday next.  
 The Women's Institute are going to have valuable meetings at Guelph.  
 There is no more important farm topic in Ontario than farm drainage.  
 Prof. Wm. Day is a master in this work.  
 The Canadian National Council of Agriculture will make our governments take serious notice in the near future.

Vessels had been built since the ark with little regard to such matters, and could still be built, so the slipper is reasonable. Then came the Daphne accident and changed this stability became everything.

## THE CHRISTMAS COMPETITION

Interest in the Hunter Children's search for Santa Claus is so keen we will be obliged to pause for a little while to catch up. So many letters have come from clever boys and girls all over Canada who could see Santa Claus plain as day, that in justice to everybody we don't want any more letters until we get those we have now opened and sorted.

As soon as we get straight again we will set the Santa Claus hunt going once more.

Here are the prize winners of Santa Claus competition puzzle number two:

- Ward 1—Paul H. Lewis, 199 Hamilton St.
- Ward 2—Norman Lennon, 64 Arnold Ave.
- Ward 3—Bessie Templeton, 52 Albany Ave.
- Ward 4—Grace Knapp, 143 Robert St.
- Ward 5—Jennie Bay, 84 Murray St.

- Ward 6—Randolph Johnston, 255 W. Marion Street.
- Ward 7—W. Daniels, Pelham Avenue.
- Suburban Delivery—Clara Mackie, Richmond Hill, 18 Hamilton Street.
- Ontario—C. Malone, corner Gore and Hughson, Hamilton.

## FENIAN RAID VETERANS ASK LAND OR PENSION

Deputation Representing Associations Thruout Canada Prefer Request on Government.

OTTAWA, Dec. 3.—(Special).—Veterans of the Fenian raid, represented by a deputation of about 150, to-day requested the federal government for land grants in recognition of their services, rendered in 1866. Sir Wilfrid Laurier, Sir Frederick Jordan, Hon. Sidney Fisher, and Hon. P. Brodeur were present in the all-day committee room of the commons when the veterans, headed by Sir MacKenzie Bowell and supported by a Highland pipe, entered. Some of the veterans had drawn swords in their hands. The deputation was introduced by M. Martin, M.P. of Montreal. Abbott Johnston of L'Orignal promised on behalf of the veterans that if given grants of land they were prepared to work the land themselves or their sons would. They had fought for their country, and they were prepared to fight again.

Mr. Dick, St. Catharines, asked that if the government could not give them all they sought, they should at least have some recognition. They ought to be recognized before one dollar is spent on the navy.

Sealy, M.P., speaking for the veterans of Wentworth, thought that if the would unite upon the question of land grants, which they or their children would cultivate, this request would be granted.

Frederick Hamilton, Montreal, challenged the men of the west to deny that the west was saved to Canada by the veterans of the Fenian raid.

J. J. Uiley, Montreal, who spoke last, expressed the confident belief that the government would see that justice is done to the veterans.

Mr. Laurier Symonette, But Dubious, Sir Wilfrid Laurier said that in 1870 he had the honor of wearing the Queen's uniform. He expressed the belief that if the veterans had taken up the matter some years ago there would have been little difficulty about their request.

He sympathized deeply with the movement, but could have wished that the veterans had been uniform in their demands. If anything is done, however, it should be done soon. He thought there would be some difficulty in deciding just who would be entitled to reward.

## MONTREAL'S PLAY CENSOR ENDORSES A PRODUCTION

Magistrate Weir Advises Populace to Go and See "Refreshing Bit of Idealism."

MONTREAL, Dec. 3.—(Special).—After strongly objecting to one play at one of the local theatres, the public censor has taken the unusual course of endorsing and advising the public to go to see another play at another theatre. Forming as it does a most unusual occurrence in the history of Montreal theatricals, it has attracted wide-spread attention, and interest.

Recorder Weir, chief magistrate and official censor of the local stage, first put the ban on a recent New York success now being played here, and called upon the city officials to suppress the play, deeming it immoral and indecent. On the following day he witnessed a performance of Bertha Gal-

land in "The Return of Eve" at another play-house, and gave the following statement to The Herald, which published it to-day: "It is a most refreshing bit of idealism, with immense practical significance; the scheme of the play is beautifully conceived and artistically worked out. With so much about us that is meretricious, a play like this does serve all the support that lovers of the things that extend. I advise every young man and woman to see 'The Return of Eve' without fail. The uplift and stimulus of it are splendid as if he had stepped out of Shakespeare's world, and into a world of the poetic drama, courageously holding up the mirror to nature, is still alive."

## TWO PRESENTATIONS

Annual Meeting of the Cooke's Church Women's Association.

Two pleasing presentations were made at the annual meeting of Cooke's Church Women's Association last night. Mrs. McKibbin, retiring president, was in the chair. The presentations were a handsome fur lined coat to the honorary president, Mrs. Taylor, wife of the pastor, and a book of praise to Mrs. McKibbin. The reports showed that \$581 had been raised by the association towards furnishing the church. The following officers for the year were elected: President, Miss Mitchell; first vice-president, Mrs. Hooper; second vice-president, Mrs. Engle; secretary, Mrs. Taffe, and treasurer, Miss Taylor. The annual meeting was held at the residence of Mrs. McKibbin.

## Whiskey Saves Life

Mrs. Louise Karnell, employed as a cook at 79 Penhance street, was moved from that address in the police ambulance to the General Hospital at 729 last night. The woman had been drinking and swallowed a quantity of iodine in mistake for some whiskey. The result was not serious owing to the amount of whiskey already taken.
