BUT TWO CASUALTIES

German Officers Who Refuse to Surrender Eliminated by Grenade

British Headquarters in France British Headquarters in France, June 16, via London.—The war's latest development is a two-minute battle. It took the British just that long to capture three-quarters of a mile of trenches on Infantry Hill, east of Monchy is Preux, Thursday morning. The time for "going over the top" was set for 7.25 and at 7.27 rockets signalled the fact all along the line attacked that the objectives had been taken

taken.
The British stole out of their trenches without a single shot of artillery preparation having been fired, rushed across No Man's Land, surprised the German garrison at breakfast and took three officers and 175 prisoners without the slightest

effort.

It was only after they had accomplished all this that the British barrage was placed behind the German positions in order to cut off any positible relief or immediate counterattack from that direction. There were only two British casualties, and on account of the surrenders, comparatively few German. Two enemy on account of the surrenters, comparatively few German. Two enemy machine guns captured had not fired a single round during the attack. One party of German officers at breakfast in a dugout refused to take seriously the sudden appearance of the British "Tommies" at the entrance to their underground dining-room and their demand of surrender, and made for rifles and pistols. A hand grenade tossed among them closed the incident.

Our Activity at Front. London, June 17.—"The hostile arand Ypres," says the report from British headquarters in France to-

"There was great activity in the air yesterday. Seven German airplanes were brought down in air fighting, two of which fell within our lines: three other enemy machines were driven

other enemy machines were driven down out of control. Two of our airplanes are missing."

"Portuguese troops have repelled several German raids during June." says the official statement issued here this afternoon. "We captured a few prisoners last night as a result of a raid north of Gouzeaucourt. South of raid north of Gouzeaucourt. South of Ypres-Comines Canal, a hostile raiding party, caught in our artillery bar-rage, failed to reach our trenches." The official report from British neadquarters Saturday night, reads: "During the day fighting burg line, northwest of Bullecourt.

"Our troops have made progress and captured further prisoners on the bat-tlefront south of Ypres. "The artillery activity on both sides

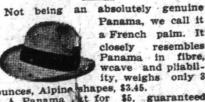

day, "Particularly successful work was getting soldiers by selective drafting, as already under way in the United States, by Britain after she had exhausted the volunteering system, is the system of France and all the other chosen rather to remain in Toronto to the system of the engaged. As a result of the fighting down, one falling in our lines, and ten other enemy machines were driven down out of control. Our losses were

ZEPPELIN DESTROYED IN RAID ON ENGLAND

Attacked by British Airman, Flaming Dirigible is Brought Down in West Anglia---- Another Zeppelin's Bombs Kill Two Persons and Injure Sixteen in Kentish Town.

London, June 17. — Two persons were killed and sixteen injured in an early morning air raid. One zeppelin, after dropping a number of bombs without effect on an east coast town in West Anglia, was attacked by a British airman, the big airship, a mass of flames, falling to earth.

Another zeppelin dropped six bombs on a coast town in Kent, killing two persons, injuring sixteen and damaging many houses.

Coast town of West Anglia at about 2.30 a.m. She was lived to define and sum, She was for the anti-aircraft defence and driven off. It is probable she was damaged by gunfire. Shortly after-wards, this raider, after dropping a number of bombs in open places, was engaged and brought down in flames by a pliot of the Royal Flying Corps.

The airship was destroyed. There were no casualties or damages in West Anglia."

Witnessed by Thousands.

bombs without effect on an east coast town in West Anglia, was attacked by a British airman, the big airship, a mass of flames, falling to earth.

Another zeppelln dropped six bombs on a coast town, in Kent, killing two persons, injuring sixteen and damaging many houses.

Given Hot Reception.

The following official report of the raid was given out here today:

"Last night's air raid was carried out by two enemy airships. One airship crossed the Kentish coast at about two a.m., and dropped six bombs on a coast town. According to the latest police reports two persons were killed, sixteen were injured, and a large number of houses were damaged.

"The second raider attacked the east (Concluded on Page 3, Column 2).

Athens, June 16, via London.—Former King Constantine, who abdicated the Greek throne last Tuesday, has now left Greek territory.

Both the government and the high commissioner representing the allies are taking every measure to avoid disorder. The authorities at Piraeus have posted notices in the streets summoning all those who possess arms to deliver them to the authorities by tomorrow.

More allied troops were landed at Piraeus today.

to Surrender Arms.

would pardon the Russia of the present day.

"The duma therefore considers," the resolution adds, "that the safety of Russia and the maintenance of the libertles which have been obtained lie in an immediate offensive in close cooperation with Russia's allies."

The announcement last week that the cabinet had decided to suggest a conference of the allies for examination of treaties was followed today by the publication of the note sent to the other governments in question. The note suggests a conference to revise the agreements existing among the allies as to war aims.

FAMILY IS FOUND IN DESPERATE NEED

One Child Dead and Another Ill. and No Food in the House.

FATHER OVERSEAS

Furniture Had Been Seized, and Water Cut Off by the City.

Called to the home of Mrs. Louisa Stoutley, 52 Willison square, yesterday afternoon, Acting Detectives Stewart and Dawn, of Claremont street police station, found Louisa Stoutley, two years old, lying dead on the floor, meagrely covered with some old clothing, Rennie Stoutley, aged 4, seriously ill, four bare walls, and not a scrap of food in the house save a small quantity

of oatmeal and marmalade. According to the story told by Mrs. Stoutley to the police, her young daughter became ill early in the morning after partaking of some of the marmalade. Serious symptoms developing later, a doctor was called, but on arrival, he found the child dead. He examined the other child, and ordered its removal to the Hospital for Sick Children. The ailing child was treated as an outdoor patient, then taken home. Mrs. Stoutley claims to be the wife of a soldier who is now overseas. As to whether the woman has been re-ceiving her patriotic allowance and assigned pay regularly, the police could not learn, but when they visited the house the woman told them that she had no money, that her furniture, which she had purchased on the instalment plan, had been seized for non-payment, and that the city had cut off the water in the house because of her inability to pay the rates. Be-cause of this sire was unable to give

the child water when it begged for it Taking compassion upon her, the police of Claremont street, headed by Sergt. McDermott, took up a collection on behalf of the woman and bought a quantity of groceries. They then secured a box and some bedclothes, so Washington, June 17. - The Bel- as to enable the family to have a little

Special to The Toronto World.

Kingston, June 17.—There were 486 recruits signed up in the third military district during the past two weeks,

* WAR SUMMARY *

THE DAY'S EVENTS REVIEWED

HILE making another air raid over England yesterday the Germans lost one of the two zeppelins engaged in the expedition. It was engaged and destroyed by a British pilot. The other zeppelin apparently made its escape. The airships dropped many bombs before their raid ended. One coastal town suffered heavy damage from the projectiles. Two persons were killed and 16 persons wounded by the raiders, according to an early report. The destruction of one of the raiders makes the expedition a fiasco. The chief value of these expeditions, in the eyes of the Germans, is that they dispense frightfulness in liberal doses, but in this raid the zeppelins encountered another kind of frightfulness, that proved the undoing of one of them.

The British official bulletins from France yesterday and Saturday had records of successful air fighting, including the destruction of 13 German machines, as their main characteristic. The British also made further progress on the battlefront south of Ypres. The renewed intensity of the aerial fighting marks further preparations for the offensive. Many persons are inclined to believe that Field Marshal Haig plans his next blow against the La Bassee-Armentieres salient, perhaps, in conjunction with a Canadian attack from the southwest in a movement to get behind Lens, so as to turn the town. East of Armentieres lies another great French coal bed, which the almes would find useful to capture, or at least to make untenable for the enemy. The Belgian sector has also become extremely lively, as if foreshadowing an advance up the coastal region to seize the line of the Scheldt.

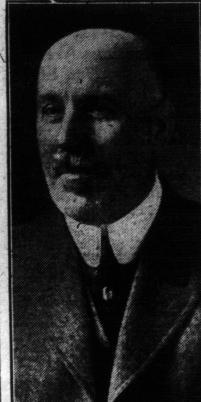

Stewart Lyon, who has just paid a visit to the battlefront south of Ypres, says that the Canadian infantry had no part in the advance. Canadian engineers, road-builders and railway construction men did a great deal of the work behind the front and they are continuing their task of running light railways and roads to the battlefront. Canadian doctors menced his newspaper career in 1882, and nurses handled three-quarters of the wounded from the battle of joinin the staff of the London Adver-Messines in their hospitals.

The Russian duma, at a secret session, ordered an immediate of-The Russian duma, at a secret session, ordered an immediate of in-chief of that paper in 1890, a posi-Tensive by the Russian armies. This is necessary, the order declares, in tion he retained for the next twelve order to assist the allies. The promptness in the execution of the command depends on the progress made in the reorganization of the Russian Willison has written extensively, some Sir William Robertson said the other day that about 24,000,000 of his publications being "The Railway men of all belligerents were under arms. Since the British and the French have about 6,000,000 soldiers, the Italians 3,000,000, the Germans 6,000, the Germans 6,000 000 and the German allies 2,000,000, the Russians must have, with the Laurier and the Liberal Party." Rumanians, about 7,000,000 men under arms. This estimate gives the Sir allies 16,000,000 men in the field. If Russia advances against Germany editor of and Austria with her seven millions she should make a tremendous impression on the eastern front, because it is twice as long as the western when he front, and it therefore permits of more surprise concentrations than the

Portuguese troops in the west have engaged the enemy in minor actions during the past month. As both the British and Belgian official communications note the work of these new troops it may be inferred that they are established between the British and the Belgian armies. They have probably taken over a section of the front in Belgium from the French. These French had performed the duty of liaison troops for thirty months.

Capt. Charles Bathurst, parliamentary secretary to the food control department of the British Government, in a speech on Saturday night asserted that the submarine activity had not diminished and that the total destruction of ships for June would probably exceed that for May. He said that the enemy was concentrating his efforts against the large ships. The reason for this declaration is the incitement of the people to food economy and food production. The explanation for so many diverse statements, some sanguine, others the reverse, is that it is necessary to keep the British people in a mood for self-denial at home and at the same time give the enemy no undue encouragement from his piracy to heatren his troops and to continue his resistance in the hope of winning

EATON'S DAILY STORE NEWS

Men's Wear Departments all on Main Floor and easily accessible to

Keeping Cool--A Problem for Men--Partly Solved by Appropriate

Straw Hats

TRAW HATS are light in weight, and afford a pleasing relief from the compressing effect of the soft or hard hat. Being light in color, they also provide the visual effect towards coolness. Whether you prefer Panama or sailor, wide brim or narrow brim, you are sure to find a hat to suit you in the EATON collections, and at almost any price you wish to pay.

Men's American-made Sailor Hats of split straws; have redium or high crowns and 21/4 and 23/8 brims; fine black silk hand and cushioned sweatband. Sizes 65% to 71/2. \$3.00, \$4.00 and \$5.00 each.

Men's Sailor Straws of American make, in sennit weave; have self-conforming, pliable straw next head, making a very comfortable hat. Notch edge. \$2.50 each.

Men's English Sennit Boater Straws; have 3½ crowns and 2½ and 2¾ brims (with smooth edge), fine black silk ribbon, cushioned sweatband and hat guard attached. Sizes 65% to 7½.

Men's English Boaters, are made from fancy straw, with 334 crown and 236 brims; black silk ribbon, cushioned sweatband and hatguard attached. Sizes 658 to 736. \$2.00 each.

Bangkok Hats in sailor style, of very fine weave; are very light and most comfortable. \$10.00 each.

With hollow crown, same quality, \$9.00 each.

Men's Panama Hats of pliable South American fibre; have crease crown, with choice of rope or wide flaring brims; also in boater, telescope and hollow crown styles. Sizes 65% to 71/2. \$5.00 each.

Men's Panama Hats of South American fibre, in the crease erown or telescope styles, with rope edge and with fancy Palm Beach band in the puggaree style. Sizes 6 1/2 to 7 1/2. \$4.25.

Men's Panama Hats of Japanese white fibre, in crease crown, sailor and telescope styles; some with fancy bands, others black silk band. Sizes 65% to 71/2. \$3.75,

Other good values in Japanese fibre at \$2.50. Puggaree Bands in fancy silk effects at 65c.

Ribbed Silk Bands, 50c. Palm Beach Bands, 50c.

Silk Elastic Bands, 25c. - Main Floor, James St

Two-piece Suits

Trim, Neatly Fitting Suits in Homespuns, Palm Beach Cloths, Tropical Worsteds, Summer Weight Tweeds and Flannel Effects.

S usual, in the Men's Clothing Department, "variety" is a prominent feature in the selection of two-piece suits—a variety that enables a man to choose just about what he likes as to weight, cloth, pattern, color and price. As an indication of the values, note the descriptions in brief of a few of the lines in the collection.

At \$12.50 Are Summer suits—coat and trousers—in the ordinary sack and pinch-back styles, some unlined, others half-lined; single-breasted, with soft, rolling lapels. Trousers have cuffs, belt loops and 5 pockets. These suits are in flannel effects, in shades of grey; cheviots in stripe patterns, in medium shades of grey; homespuns in light or Oxford grey, and Palm Beach cloths in cream, with white stripes; also in plain fawn shade. Sizes 35 to 46.

At \$13.50 In similar styles are Kool cloths, very light weight tweeds and worsted-finished materials, in plain shades of grey; also stripes in greys and bluish shades and cream Palm Beach, with a fawn thread stripe.

At \$15.00 Are two-piece Summer suits in flannel effects, in self shades of grey and cheviots in Oxford grey, with lighter grey thread stripe. Coats have notch or peaked shape lapels; some are half-lined with lustre, others unlined.

At \$16.50 Are two-piece suits in tropical worsteds (cravenetted), in blue or black, with fine narrow thread stripe. Single-breasted coats, with notch lapels, and unlined. Also in navy blue Cheviot serge, half-lined with lustre.

Two-piece suits in Summer weight tweeds; cool, comfortable and serviceable, in shades of greys; some with checks, others with thread stripes. Also suits in Saxony finished materials in self shades of grey. Single-breasted sack styles. - Main Floor, Queen St.

Outing Trousers and Dust Coats

Trousers in White Duck, Cream Flannel. Serge and Khaki. Dust Coats in Palm Beach and Other Light-weight Materials.

OR tennis, bowling, boating and camping, odd trousers of light-weight materials are most suitable and comfortable. White duck is the sailor's choice, and these are obtainable in sizes 30 to 44, at \$1.25.

White Duck Trousers, neatly made. Sizes 30 to 44. Price, \$1.25. Finer and heavier Duck Trousers, with two side, two hip and watch pockets, are \$1.50. White Drill Outing Trousers, well tailored and finished, are \$1.75. - Main Floor, Queen St.

T. EATON C'UMITED

Underwear

FRESH suit of underwear to don after the morning bath is a good start towards a comfortable day. The style and the materials you prefer you are sure to find in the EATON assortments—from the athletic style, shown on standing figure in sketch, to the usual long sleeve, long leg style-from cotton to silk-two-piece or combination in proper sizes, an important point towards comfort. Here are a few lines from the assortment which are representative of the values throughout:

Men's Athletic Underwear, particularly good for hot weather wear, made from a fine quality of white nainsook, with quarter or no sleeves and in coat style. Drawers are loose knee style. Sizes 34 to 46. A garment, 50c.

Men's Athletic Combination, also made from white nainsook, close fitting around neck or open front, specially made to be worn with sport shirt. Quarter and no sleeves, loose knee length. closed crotch. Sizes 34 to 46. A suit, \$1.00.

Men's Combination Underwear, "Richmond" brand, in tine elastic rib mercerized cotton in plain white. Short sleeves and three-quarter leg, suitable for short, stout men. Closed crotch, close fitting ankles and cuffs. Sizes 34 to 44. A suit, \$1.50.

Men's Two-piece Underwear—"Tru-Knit" brand, fine pren mesh, plain white. Shirts are made with short sleeves. ers knee length. Both finished with sateen facings. Sizes 34 to 46. A garment, 50c.

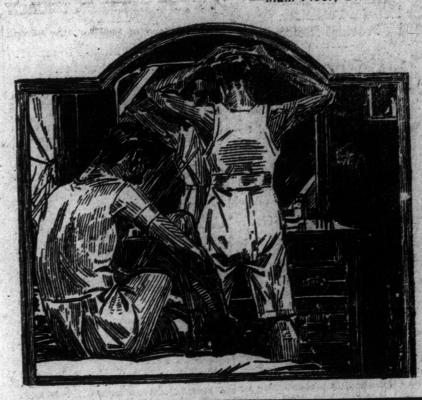

Men's Combinations_Fine elastic rib mercerized cotton, "Richmond" brand, made with long sleeves and ankle length leg, closed crotch. Colors, flesh and pale blue. Sizes 34 to 44. A suit, \$3.50.

Men's Combination Underwear-Light weight lisle thread, plain white, made with short sleeves, ankle or knee length, closed crotch. Sizes 34 to 44. A suit, \$1.50.

Men's Silk Combinations - "Delpark" brand, China silk. plain white, athletic style, knee length, no sleeves, closed crotch. Sizes 34 to 42. A suit, \$4.50.

Hose Supporters-In fine sifk cable elastic; have padded front, one and two fasteners. Colors black, white, tan, helio,

E. Horning, district passenger SOCIALIST MEETING FAILED

A socialistic anti-conscription meeting that was to have been held last evening in Memorial Park, Portland street, was broken up by a party of returned soldiers who were aided by a large crowd of civilians. There was not a sign of them was to be seen,

"ACME"

"The Sole of Pertection"

War has made leather a scarce commodity. For hundreds of years people have worn leather-soled shoes. Any other kind of sole had to fight for recognition.

Now that is all changed. Much inferior leather is on the market, and even that demands a higher price.

People no longer are getting the same results from leather-soled shoes, unless they pay extraordinarily high prices, and complaints are becoming world-wide.

We saw the inevitable change coming. For over years we have been turning out "Acme"-"The Sole of Perfection"-made in only one grade-the highest-hence the name "Acme."

Month by month the call for "Acme" has been getting greater; yet we waited until the present time to tell you the story. We knew there would be a prejudice in your mind about forsaking leather.

Now we feel that leather scarcity is so widespread, and the recognition of "Acme's" superiority is so emphatic, that you merely want sufficient facts to make you immediately give orders to "Acmetize" your shoes.

A great number of manufacturers in all the great

shoe centres of Canada have been using "ACME" Soles right along.

Dealers have been re-soling boots and shoes with "Acme" for months.

Now we have the verdict of these manufacturers and dealers, and we feel the present is the time to give you the good news.

. Unanimously these men say "Acme" Soles are not only all-round better soles, but they will outserve and outwear leather soles.

Unanimously they say there is complete freedom from dampness.

- Unanimously they say there is never a crack at the bending point of the sole.

Unanimously they say that in "Acme" the high cost of soleing is solved.

"Acme" Soles prevent slipping, because they never get that shiney surface that leather does. This will not only mean quietness and no scratching of the floor at home, but a lightness and "giveness" to the shoewhich means an end to feet troubles.

> A tremendous feature in connection with "Acme" Soles is the fact that they are so made by the Dunlop process that the stitches are just as positive—just as secure to the end of the wear—as those on the regular leather sole.

Everybody knows how annoying is that squeak which even gets into good boots in the re-soleing with leather. You can banish your fears by wearing "Acme"—no squeak

No "breaking-in" necessary with "Acme"-"The Sole of Perfection"-the pliability is the same from the beginning—a feature never obtainable with

The very merits of "Acme" Soles would have gained them recognition anyway, but the scarcity of good leather hurried along the introduction.

Get "Acme" Soles on the new boots or shoes you buy, or order them from your repair man for that re-soleing job next time it comes around.

Made in all sizes, and in colors, black, white, and tan, for men's, women's and children's boots and shoes.

SPECIAL NOTE TO DEALERS-Your manufacturer will fill your order for boots and shoes FITTED WITH "ACME" For repair purposes "Acme" can be supplied in sheets 3-16 m., 1/4 in., or 5-16 in. thick,

sure to the effeciency of the British and allied mercantile fleets.

"Lloyd George has said quite recently that one of the best ways of carrying on the war was by the production of ships and then more ships. Let me remind you that the losses to shipping, as the result of submarines and other enemy agencies, since the commencement of the war have been enormous, even altho they have not nearly approximated the boastful expectations and predictions of the Germans. They have, nevertheless, been serious totalling up to the end of April last about 5.611,190 tons. How stupendous this loss is, you will understand when I point out that the replacement value approximates, if it does not exceed, one thousand million dollars.

Cerefetive Theorem to Toronto for a visit at the end of this week.

PICKED UP UNCONSCIOUS

While attending the races at Hill-crest Park, Saturday afternoon, Chas. Verral, 123 Dundas street, dropped unconscious from heart trouble. His soult in the replacement value approximates, if it does not exceed, one thousand million dollars.

Comforting Thought. "But, notwithstanding these enormous losses, there is the comforting thought that the construction of new ships has during the period of the war been well maintained, more especially by Great Britain and the United States. Under Construction,

Under Construction.

There are at the present time under construction in Canadian shippards, merchant steamers totalling approximately 180,000 tons carrying capacity. The cost of producing this tonnage will be in the vicinity of \$25,000,000. In addition, there are building in various Canadian yards wooden vessels aggregating a total carrying capacity of about 30,000 tons."

SEE ALL THE NATIONS UNITED AS ONE BODY

Rev. A. E. Ribourg Preaches at St. Alban's on "Christianity and Internationalism."

Rev. A.E. Ribourg, D. D., preached Sunday morning at Saint Alban's Cathedral on "Christainity and International Followship," showing that the Christian international sources of the world could, if united in Durpose, help to create a Christian internationalism, which would in time force each nation to regard itself as a brotherhood in the family of nations, and so forever insure the peace of the world. Dr. Ribourg said in part:

"It is the sacred duty of Christianity to establish bonds of international fellowship and brotherhood among the various nations of the world. Socialism, because of its unfortunate tendency to allow anarchical methods to predominate in the satisfactory and produced by the sacred of the world. Socialism, because of its unfortunate tendency to allow anarchical methods to predominate in the satisfactory and produced by the read about Dr. Chase's Kidney-Liver Pills and began their use. He tells the particulars of his case in this interesting letter:

Rev. George Alton, Gananoque, Ont., writes: "I had been, suffering from bilious attacks for four years. I was very weak, had headaches, and my stomach was so bad that I could hardly eat anything without being troubled by it. I had tried many cures, herbs, pills and salts, and was under the doctor's care for some time, but instead of getting better I seemed to get weaker. I was unable to fulling my appointments on Sabbath and anarchical methods to predominate

divided the world into hostile camps, each divided the world into hostile camps, each hinking fixelf superior to the other, each boesting of its own achievements and depreciating the other's efforts. Churches have been used by these forms of government to deepen the abyss existing between used by these forms of government to deepen the abyss existing between nations in creating racial prejudice, in encouraging the spirit of caste and in placing hereditary and ecclesiastical privileges above the common law.

"In their blindness some men are blaming God for the war. The war is man's work, it is the result of man's defiance of God's laws, which are the 'sine qualbour's find the provides page of the common law.

"In their blindness some men are blaming God for the war. The war is man's that I am personally acquainted with Rev. George Alton of Gananoque, and believe his statement with reference to Dr. Chase's Kidney-Liver Pills to be the conscription bill.

Alexander Berkman and Emma Alexander Berkman and Emma Alexander Berkman and Emma believe him to all who suffer as I did."

Alexander Berkman and Emma Coldman, said to be the two leading anarchists in the United States, are held at New York for action by a federal commissioner, on \$25,000 bail seach United States food control bill revolute to the senate without committee recommendation.

Rev. George Alton of Gananoque, and believe his statement with reference to Dr. Chase's Kidney-Liver Pills to be the war. The war is man's control of the world's neace. Evidence is to Dr. Chase's Kidney-Liver Pills to be the conscription bill.

Britain, but had made its choice in Church during the course of his ser-favor of fighting thru its loyalty to mon at the evening service. The the motherland. The speaker pard a preacher had spoken for some time on tribute to the United States and its the need of real religion before he touched on the war and forecasted a new era following its conclusion.

"The present conflict in France conscription measure, and showed how and Flanders is but one instance of well. The speaker recommended that the premier be asked to amend his measure to include conscription of all resources, because, he said, labor men in triumph when His work was accomplished. He believed that each man who lays down his life for the country would be fully recompens for the great self-sacrifice at the judgment day. Rev. Mr. Scott then nade the declaration about those responsible for the war, adding that he

hoped the Germans would be made to do penance for a few decades at least.
"I don't want to buy anything German until I die, and I have already pitched my German toothpaste into the garbage can," was another of his He followed this up by declaring

that no German professors should be allowed to teach in college halls for 25 years after the war, and in view of German dulicity, he believed Great Britain should keep that country under espionage for the same period. "Out of the conflict will come a true democracy," he said, " but until Germany learns to hate the business of hate she never can be allowed to come up into the brotherhood of nations. Then there is Turkey. I hope that rotten Empire of Turkey, stained for centuries thru atrocities committed. especially among the Armenians, will be abolished. I hope to see her pitched out of Europe, bag and baggage, brood and breeches never to return." At the conclusion of the sermon Miss Amelia Crocker, Miss Margaret Erratt, Miss Lazelle Boake and Miss Lily Carr were appointed deaconesse by the president of the conference.

We've Chosen These Dresses at \$22.50 Because We Think You'll Like Them

You're choosing your summer wardrobe-the dainty, airy-fairy things that are going to give you endless comfort during the hot days to come.

You will want a dress or two of the "fussy" order-not too fussy, but just a bit more elaborate than the simple skirt and blouse costume.

We've made ample provision for your wants; in fact, we've such a widely diversified array of charming dresses in fine voile that we think you can't fail to find what you're looking for. We've chosen a few of our \$22.50 models for description. Each is a beauty.

in the much-liked coat-dress effect, the long, pleated facket-bodice charmingly embroidered in Chinese effect, the colors soft yellow and delft blue. The collar is a deep pointed affair, beautifully embroidered. Price, \$22.50 Another White Voile Dress

has full skirt edged with cluster of tucks, a delightful feature being a lovely tunic that is slashed nearly to the waistline to form six panels, each panel bordered with two rows of guipure insertion, and edged all round with guipure. The bodice is of embroidered voile with touches of guipure.

There's a White Voile Dress A third White Voile Dress is given a touch of brightness by ingeniously arranged bands of sunny yellow voile, one round skirt, another bordering the smart coat bodice. Further color is given the bodice by wonderful embroidery in yellow, delft blue and petunia. Crochet buttons are used freely, and the pointed collar is of yellow voile. Price \$22.50

An extremely pretty Delft Blue Voile Dress will inter-est you. It's made with full skirt, over which hang tab-lier panels, back and front. these panels charmingly embroidered in white darning work. The model is cut on straight lines with sash girdle, tipped at either end with two white tassels. The collar and cuffs are of fine white batiste. Price \$22.50

A Sale of Fine Silk Gloves White or Black, Price 75c a Pair

Nothing more comfortable for present wear than Silk Gloves. They're light enough not to be cumbersome, they fit the hand perfectly, and, as a rule, they wash quite satisfactorily. Here are some that we think particularly good value:

WOMEN'S SILK GLOVES, of fine quality and medium weight, white with plain stitched black points or all black; made with the guaranteed double finger tips that give such good wear. All sizes from 5½ to 7½. Special price, per pair, to-75c

A New English Silk "Jumper" The "St. Margaret" Model, \$15.00 A novelty of the knitted silk order-the "St. Margaret," a beauteous Silk "Jumper" that has just reached us from England. It is much like a middy in cut, but it has a few

distinguishing marks, all its own. For one thing this new ENGLISH JUMPER is full three-quarter length; then, instead of lacing at the neck, it is fastened by three

Here Are Smart Beach Cloth Suitings Such as We Sell Regularly at 65c, for 35c

Those who know what's what in values will fairly flock to our Wash Goods Section, today, to get skirt and suit lengths from these very fine Beach Cloths to be on sale at about half price, 35c a yard.

We got them at just about half the regular price, because they reached a certain skirt maker too late for making up, were refused, and the manufacturer asked us to take them off his hands.

They're the very same qualities and patterns that we've been selling all season at 65c a yard. In natural color, either plain or with large sports designs in colors. These BEACH CLOTHS 35c are 36 in. wide. /The regular price is 65c a yard. A rare value at our sale price per yard, today

Mull Envelope Chemises At a Third Off, Price \$1.50

These are samples bought at a third less than the regular price, and the mere fact that they're a wee bit mussed is more than made up for by the special sale price.

WHITE MULL ENVELOPE CHEMISES. some with deep yokes of fine Val. and Swiss insertion, others more simply finished with dainty embroidery. You may choose from V-shape and round necks. The special price for each, one-third less \$1.50

Checked Gingham Dresses For Little Girls, Price \$1.50

Sensible little dresses for the small girlie of 4 or 5 years—but not so sensible as to forego entirely the importance of prettiness in the little wearer's attire. They're like

DRESS OF CHECKED GINGHAM, small checks in navy and white, sky blue and white or tan and white, with collar and cuffs in plain color. Sizes 4 and 5 years. Price \$1.50

Sale of 1000 Pairs of Soldiers' Socks Regularly \$1.00 and \$1.25, at 65c a Pair

There's something infectious about the enthusiasm of our good allies across the border who have lately joined us in the common cause for the rights of humanity. They're going whole-heartedly into organizing for war work; and we who are older in the labor—and perhaps a wee bit weary of it—take fresh heart of courage when we hear of their activities; we know that the need of our help is not lessening, but rather increasing; and the end is not yet.

A Murray-Kay SALE OF SOLDIERS' SOCKS is always a popular event. You know the socks—our own knitting, made of fine "Purity Brand" wool, socks that give the best of satisfaction. We'll place 1,000 pairs of them on sale today, in natural, grey or white, all with reinforced toes and heels. The regular prices are \$1.00 and \$1.25 a pair. According to present quotations, the company wool alone is worth far more than our sale price for the finished socks. Per pair, today... 65c

Chiffon Taffetas and Duchesse Mousselines, \$1.50 Yard

Here are pretty silks for dresses or suits, all sorts of smart effects in Shepherd's checks, and Sports stripe Chiffon Taffetas, as well as in hairline stripe, Duchesse Mousseline, Black and white and navy and white combinations are well represented, while in the Sports stripes, grey, old rose and other colors are to be had. These silks are 36 in. wide and are regularly \$2.00 \$1.50 a yard. Sale price, per yard, today

Dainty Lingerie Blouses In White Voile, \$3.75 Each Here are medium priced Lingerie Blouses, and mighty nice ones at the price. We mention two

Embroidered Voile Blouse, very fine quality made with dainty hemstitched waistcoat and collar of plain voile, fastened with cut pearl

buttons. Price Plain Voile Blouse, lovely quality, made with lovely hemstitched jabot and long back collar, which is edged with ecru filet lace. Price, \$3.75

MONDAY MORNING. JUNE 18.

No Alternative New.

Stronger efforts than ever are being made to oppose the means by which it visions in France at full strength, and obviate the alternative of having them dwindle away until they pass out of poses of that nation itself. In the last two years and ten months millions of articles have been written with this public. Our political economy and design. It is a testimony to their ineffectiveness or to the denseness or selfishness of thousands of young men for a long time past and make a conwho came under the influences these nullions of articles represent, that the voluntary system, upon which Canada has prided itself, has failed at the critical moment.

Opponents of conscription say that the voluntary method has not been exhausted. It certainly has not exhausted the number of eligible young men who ought to be helping their fellow-Canadians and comrades in France and Belgium. If there be any new way of appealing to these young men we shall be glad to hear it. We have tried every method except vituperation, and we have even been repreached for having adopted that. We know no other method that has not been tried except one. That method is the bounty, and it would have made the raising of many battalions an easier and less costly matter than the results attained in most cases show. Some battalions spent up to \$1300 a men obtained, it is said. A bounty of \$100 even yet, we believe, would obtain large numbers, but they would probably be subjected to the taunt of being mercenaries. If they do not balk at being conscripts they would not mind being bounty men.

This, however, would entail further present difficulty. The ranks are being thinned daily at the front. It is necessary that they be replenished. Conscription is the only way to get the men. Those who prefer voluntarying, and they have neglected or failed to produce results. Hence the necessity for a conscription measure.

For the same lack of time there is little use in indulging in recrimina- speaks for a large body of Liberals. has tions of what might, should, or could done its best to try and bring such an have been done had a better Canadian arrangement about and to persuade spirit prevailed in the politics of the Mr. Rowell and the Liberal party gencountry. The World has nothing to erally, and especially Sir Wilfrid Laurreproach itself with in this respect. We have urged the claims of the war favor of conscription. from the beginning. We have supported every effort that meant more men for the front. We have been friendly await after the speech of Sir Wilfrid metres behind the front." every advocate of the energetic prosecution of the war. What is past

What is needed now are great hearts, can have neither part nor lot in the future of the country if it fails in the hour of trial.

The men who have fought at St. Julien, at Ypres, at Hill 60, at Courceette, at Vimy, Arleux and Fresnoy, ue too good to be associated with that they are of a less noble breed.

Coal and Much Else.

ton, and that, at present prices in ime "rake-off" of about \$3 a ton going out of the pockets of the publie into the pockets of the profiteers. real Star).—Next Monday, when the lit is to verify (or otherwise) state- oill comes up for second reading, the ments like these that the fuel control- centre of interest will return to the

If these things are facts, we do not need to go far to understand the other opponents admit. All the agiprotests of socialists and other side of the house, among the Liberals. agents of revolt against existing so—The net result of the opposition concie! conditions. The nation is not ferences of the week appears to be doing its national duty that permits that the party will not, as a united doing its national duty that permits such things to happen, whatever the party, oppose the conscription bill. It will be a "free-for-all," altho that title has not been officially used very much by members of the party.

Those Liberals who want conscription will vote for conscription. To get adopted this principle in , the family over the party difficulty, and preserve and allowed the baby to suffer be- a semblance of united policy on war cause it is helpless, or the child, be- questions, a resolution has been pre cause it is neighbors, or the child, be-pared and will be presented by Ifon cause it is ignorant, we should have George P. Graham at the first posthe humane societies in action. The sible opportunity. It is somewhat

are not neglected nor put upon. We admit the principle in regard to infants and children. We admit it in the case of oppressed nations like Belgium and Serbia. Why are we not logical and consistent, and admit the principle and apply it to the weaker and poorer members of amendment to the Military Service Act, he will propose.

the nation is not so entirely considerate of their interests as to be worth fighting for. The infant makes a tremendous outcry when the bottle is not forthcoming in due season. It is possible to fool the infant with a the entire Liberal party on a policy of opposition to the conscription bill nobody believes for a moment. It is senerally looked upon as Sir Wilfrid's wan" song as leader of a Canadawide party.

The most pessimistic prophecy of "comforter," and to injure its health at the same time, tho the poor little the lot. the one that gives the opposition every handicap imaginable over thing is not aware of this till afterwards. But the weaker members of

billty in connection with their duty and privilege of supplying fuel to the laws of supply and demand have afforded opportunity to ignore all this venient excuse when little children or to freeze to death are inefficient and

should be prepared to spend millions for keeping them alive. The coal situation is only one of several problems that threaten to become acute at any

more or less annoyed a number of Liberal M. P.'s at Ottawa: there are some critics who say that if he had gone to Ottawa and talked it over with his friends a way might have been found, might even yet be found, for a line of action based on co-operation on the part of the great bulk of the English-speaking Liberals in favor of conscription. The Toronto Star, which ier, to try and get a united nation in

today, is the development of fracture marks and distinct groups in the Libis past, and those who have failed, or eral party. And, in all likelihood, there who are failing or who may fall in will be equally distinct marks of fracthis duty will be judged by the coun- ture in the Conservative party, insofar try by the high standard of the na- as the French-Canadian support is concerned. A number of French-Canadian Conservatives will declare themselves noble minds, to carry the war to a and vote with Sir Wilfrid. These fracconclusion, and to bring home to the tures are very much to be regretted, eligible manhood of Canada that it but whether we regret them or not, we will have to face it and, at the same time, try and find a way of keeping the country from being disrupted, avoid a struggle between the two races and their respective sympathizers.

ascripts, say some. Well, then, let found before the bill goes thru, for those who are good enough to match obtaining national unity on the questhe heroes at the front stand to the tion; but The World confesses that it colors. If they fail we must conclude sees no promising signs in this direction at this moment. The country will have to sit down and await the unfolling of the scroll. But, come what will, A correspondent writes to assure us we believe that conscription will pass that the price of coal is readily as- thru both houses by a substantial macertainable by those in authority. He jority and time will yet find a way to states that nut coal is only \$3.65 per cure the breach that its passage may ton free on board at Black Rocks and bring about. The best opinion at this steve coal is \$3.75. The rate from moment is that Sir Wilfrid Laurier Black Rock to Toronto is 38 cents per has made up his mind to go ahead with his opposition to conscription and the city, allowing for all legitimate has determined also to take the consecharges and reasonable profits, there quences, no matter what effect it may have on the solidarity of his party.

Ottawa, June 16-(Special to Mon chamber and will stay there until con-scription in Canada becomes a reality.

Established 1855.

to undertake the duty of seeing that vocates "conscription of wealth" and the helpless or ignorant in the nation win the war. But it will serve,

weaker and poorer members of amendment to the military service society?

These things count for more than is generally appreciated. A good deal of the outcry against conscription is traceable to those who contend that the nation is not so entirely considerations. That it will be such as to unite the nation is not so entirely considerations. the entire Liberal party on a policy

the government, awards Sir Robert majority of 12 votes, on a division of 97 to 85. This outline concedes that sight on the war records. This is the real object of the struggle going on at present, so far as Canada is concerned, to bring our young men, eligible for army service, to a sense of national responsibility, of their duty to the nation, of the existence and purposes of that national responsibility in connection with the pass out of with sightest desire to do injustice to the coal dealers, but they must see that coal is a necessity of existence in a climate like ours, and that they have a vital responsibility and Queens. It is likely in connection with their duty to the nation, of the existence and purposes of that region itself. In the last will be supported by at least a score of Liberals.

Five members of French extrac-

tion, including Mr. Champagne, are expected to vote with the government. The others are Hon. P. E. Blondin, Hon. Albert Sevigny, J. H. Rainville of Chambly and Vercheres, and F. J. Robidoux of Kent. N.B. This is the same, the political economy and the laws of supply and demand which permit little children or old persons to freeze to death are inefficient and do not serve their purpose.

The war has altered the views of many people about these things, and it appears obvious that if we can spend billions for killing men, we should be prepared to spend millions. It is the Liberals who fought gallantly, if the Liberals who fought gallantly, if the Liberals who fought gallantly. in vain, to bring about coalition, will fight equally stubbornly to pass the measure on which the coalition scheme was based. These men have thrown political tactics to the winds on the present issue. There are perhaps ten of them in the house, and F. F. Pardee of West Lambers.

BRITISH PRISONERS REMOVED FROM FRONT

Germans Announce Withdrawing of These Thirty Kilometres, in Ungracious Statement.

Berkin, via London, June 17.-The ollowing official communication was issued today:

"As the British Government has complied with the German demand and declared the withdrawal of all German prisoners of war to thirty behind the front to be now completed, the German army organization has had all British prisoners of war withdrawn to at least thirty kilo-The evening official statement is-German headquarters merely says that nothing of importance has occurred.

brought in prisoners. barded Gorizia and other inhabited localities in the plain. There were no casualties and no damage.

on the front, our reconnoitring par-

ties inflicted losses on the enemy and

THE FIRST THOUSAND

Russell Sage amassed a large amount of wealth. It was a saying of his that after a man had saved a thousand deliars the hardest part of the financial battle was over, and that the accumulation of money afterwards was comparatively easy. The force of this will be apparent to anyone who gives any thought to the subject.

The object to be attained is surely worth the necessary effort. The easiest and only sure way to that "first thousand" is by regular systematic saving. Save the small sums. Saye a certain fixed portion of your wealty or monthly income. If deposited with us the THREE AND ONE-HALF PER CENT.

Begin now-ONE DOLLAR opens an account.

that threaten to become acute at any moment. Action now may save much trouble later on.

If the coal dealers are misrepresented in the statements made about their figures and prices they can easily prove their position. And we might suggest that the days of secret diphomacy have gone past. It would be well to get all the cards on the table and convince the public that they are getting a square deal.

POLITICAL OUTLOOK

AND CONSCRIPTION

Scheme was based. These men have thrown political tactics to the winds on the house, and F. B. Carwell a third. There are four western members in the roster: W. A. Buchanan of Leth-tide, Robert Cruise of Dauphin, George E. McCraney of Saskatoon, and Dr. D. B. Neely of Humboldt. Hon. George E. McCraney of Saskatoon, and Dr. D. B. Neely of Humboldt. There are still others from Ontario and Nova Scotia.

So the die is east at last. On Monday will come Sir Sam Hughes, and after Sir Sam will come all the rest of them. It is expected, Lowever, that a big part of the debate will be couched in the French language.

TEMORIAL SERVICE FOR THE FALLEN

North Parkdale Methodist Church Honors Members Who Died Fighting.

rifteen members of the congrega-n of the North Parkdale Methodist urch have laid down their lives in se of an impressive memorial assivice, their pictures were flashed on a screen. It was a pathetic incident and many of those present, friends and relatives of the dead heroes, were overcome, one woman having to be led out. The pastor, Rev. Dr. J. C. er, gave a brief description of the rk in connection with the church ich the dead soldiers had performed. At the close he sounded a word of warning to the present government, "One of the tragedies of the past has been the wounded old soldier," e said, "and I pray that it may never be again. The time is coming when we have to take care of the wounded soldiers, and the wives and orphans, and I cannot think that any government existing or likely to exist, will not do what ever they can to provide for these. They have not done so as yet, but they must do all they can for the dependents of these brave nen who went away, leaving all they held dear to lay down their lives. For those who have died, we can do nothing, but this country owes it to eir memory to take care of the de-mdents, and this is the message that the brave lads who have gone would

Wish me to impart to you."

The preacher pointed out that the Book of Revelations was a book of word pictures, and said that no one could write a word picture today that would represent the present crisis better. He maintained that the Lord Jesus Christ was the leading personality in the present war. "I have no hesitation in saying that as far as the Inestitation in saying that as far as the leader of our armies is concerned, that leader is Jesus Christ," he said. Out of the total of 150 of the constregation who went overseas, the following are the names of the gallant infitten who have died: Noble and Hugh Sproul (twin brothers, Kenneth MacDonald, Harcourt Switzer, Carl Brockenshire, Walter Caven, Peter Glockling, James Pettigrew, Robert Buckle, Gordon Morgan, Stanley Vandervort, James Bennett, W. T. Thompson, A. Worrle and W. H. Kemp.

SUNDAY DEFEATS WERE EMPHATIC

Newark Bears Fatten Batting Averages at Expense of Tipple and Thompson.

Special to The Teronto World

Nweark, N. J., June 17.—Newark this afternoon, before a crowd of about 7.500 fans, staged two batting bees at the expense of Nap Lajole's pennant contenders, the Maple Leafs. The Bruins hammered out two victories over the Toronto aggregation, beating Dan Tipple 7 to 0 and then lambasting Harry Thompson, 15 to 2. Sam Ross led the Teddy Boys to the first victory. George Penningston's spit ball was the winning factor in the second encounter. Batting averages were fattened at the expense of the Leafs' hurlers. A total of 33 hits were poled out for a total of 49 bases, there being eight doubles, a triple and two homers in the assortment. It was an e fourth successive defeat handed the Leafs by the Bears in three days.

ROFESSOR MULVENEY'S

World Famous Tape Worm Exterminator

Saving People's Lives in All Parts of the World, While the Professor Sits in His Office, Where You Are Invited to Call, at 167 Dundas Street, and Be Convinced of This Fact. The Indisputable Evidence to Be Seen, the Result of What His Remedy Has Done for Suffering Humanity, Removes All Doubt. It Would Be Wise to Save This for Future Reference.

MANY CHILDREN'S LIVES SAVED BY PROF. R. L. MULVENEY'S WORLD FAMOUS REMEDY.

Have Tape Worm

is bred from a parasite.
is a creature male and
a It is pear-shape, havand six suckers. It lays dividual, having a sucker The worm grows to be much the bowels, where it is loand, enough to fill a quart and when put in a bucket uld apparently fill it. It is task in the world to destroy without doing injury to the who may be so unfortunate as t, as the parasite clings to the ng itself from the body of and remains there to breed It is an internal demon and victim to suffer all the sympase imaginable. The cleverans are led to believe that it is suffering from some other nearly every person has difoms. Some have been treater of the bowels, consump of the bowels, consumption of the on of the bowels, appendicitis complaints, when one or more internal demons were eating

Mulveney has made the disto free the victim of this monut injury to the system, dethe parasite, as well as expelworm, with one dose of medi-ithout any previous starvation. without any previous starvation. his office, where he has in his ion the most wonderful collectiness death-dealing monsters in id, which have been expelled from discontinuous proposed by his famous remome bottles containing colonies of and anyone seeing them canagine how a person could positive with them in his bowels. It prising the number of people that them. Thousands have them and the baby so much good.

No doubt, you remember I was there just about a month ago.

I enclose a postal-note for the amount, a ware of the fact. The letters prising the number of people that them. Thousands have them and at aware of the fact. The letters estimonials the Professor has in ossession are enough to convince this alarming fact. Some of the rominent symptome are: Ravenspetite, dizzy spells, headache, a in the bowels, a feeling of somemoving in the bowels, also a feels though something was crawling throat. The only certainty of one in the system is when segar joints are seen, which come almost any time. They are flat from three-quarters of an inch to inch long, and have often been also for pin worms by those who of know the difference. There are other feelings of distress, which dake too long to enumerate, are to say, some people of strong titutions have very little distress.

R SICK CHILDREN

This valuable medicine expels Stomach or Pinworms. It is not only valuable as a Worm Medicine, but is an excellent lone. Physic and Appetizer, strengthess the Stomach, Liver and Kidneys, and has stopped some of the worst cases of Wetting the Bed. Many children that were wasted away to a shadow have been built up and made healthy and well from its use, and their mothers made happy. Good for Coughs and Colds; also checks Fever. It is a real Mother's lightly and gains its name from restoring sick children to health and quietness. This valuable medicine is working won-

This valuable medicine is working wonders in all cases of sickness among children. I have one case in mind just how of a little girl eleven years old, who had been treated for over four years without any marked improvement. In fact, for worse all the time. Her case seemed to puzzle the physicians in attendance, and they finally agreed that as operation on the stomach would be necessary to find out what was the matter. Her father being opposed to an operation, called and got a bottle of Mother's necessary to find out what was the matter. Her father being opposed to an operation, called and got a bottle of Mother's friend. He told me his little girl was a slenger a hopeless condition; that she measured 38 inches around the stomach, and her body was wasted away to skin and bones; her arms no larger than a promstick; she was a beautiful, patient child, with a lovely disposition; to make a long story short, Mother's Friend took was the enlarged condition of the stomach, built her up, so she was able to go to school, which was, of course, a surprise to everyone in the neighborhood, and her mother and father made happy.

Another case comes to my memory of a

Another case comes to my memory of a baby about two years old. The mother brought her to me in her arms. She was wasted away to a living skeleton, and was a pittable looking sight. This case was beyond all reasonable hope of recovery. I thought, well, your faith is great if you ever expect this child to set well. She purchased a bottle of Mother's Friend, and took it home, used it, and the little one was relieved of scores of worms of various kinds. It was about three months later when this lady brought the little one to my office. She was after another bottle of Mother's Friend for her own children and another for one of her neighbors she had recommended it to. I did not recognize either the lady or the child until she told me of the circumstances. She said: "Do you not remember me bringing a baby in my arms, all skin and bones? This is her. Isn't she a fine, healthy child now? No one would have believed it. Worms were the trouble. She got rid of scores of worms. Now you can see for yourself what a fine, healthy child she is. Just look at the rosy cheeks."

About 3 o'clock one night a lady called for a bottle of Mother's Friend. She was and the doctor had given min up with brain fever. She had asked a lady friend to call in and look at him. and she pronounced him to have worm lever, we camended her to her Mether's

Trusting to receive your best promptness, as I am entirely out of the medicine, I am, yours truly. You will please send it by mail? Yours truly.

Dear Sir: Enclosed find \$6.00 for six packages dry "B'Well." (Please send it dry.) Yours truly. Staples, April, 1916. Toronto, June 12th, 1917.

Dear Sir: Will you kindly send me two bottles of "B'Well." I certainly feel the benefit of taking it.

Yours truly.

Winnipegosis, Man., Aug. 14, 1916.

Dear Sir: You must excuse me for not writing sooner about your wonderful "tapeworm cure," which I received some time ago. I did not take it till about three weeks ago, and I have every reason to believe that I got rid of the head and all. I passed about infreen feet of it, and it came to a small thread, and I didn't just know what the head was like, but, anyway, it came to a small point, and I feel pretty sure the head must have teen there. You don't know how thankful I am to you for your cure, and will do all I can here to advertise your wonderful cure.

Yours truly.

Yours truly. Hanover, May 2, 1916. Dear Sir: Please find enclosed \$1.25 for "B'Well." As two of my neighbors have got it lately, and think it is so good, I thought I would try it. Please send it scon.

Woodstock, Ont., May 4, 1916.

Dear Sir: I am sending for another bottle of "Mother's Friend" for my little girl, as it is doing her a lot of good. It is bringing a quantity of slime and filth away from her, and she has not had a bad fit for a week now. Please, should I continue to give it to her every day, as usual?

I have enclosed one dollar, said fourteen Yours very respectfully.

Dear Sir: I thought I had better write and tell you what success I had with your "tapeworm cure." Your "tapeworm cure."

I took it at 9 o'clock in the morning and by 1 o'clock had Mr. Worm in a bottle, head and all. Had eaten my dinner in the meantime, and suffered no inconvenience whatever. I had been carrying that worm around for ten years to my certain knowledge. I have never felt better in my life than at present.

If you want another testimoniai in addition to those you have, just refer them to me. to me. Yours thankfully.

Dear Sir: Please send me a bottle of "B'Well." I have used one bottle of it for my stomach and nerves, and I feel much better.

Send as soon as possible by mail.

Yours truly.

Letters From Satisfied

Customers The Originals of Which May Be Seen At My Office, 167 Dundas St.,

Midhurst, Jan. 9, 1917. Dear Sir: Enclosed find \$1.25 for a package of your "B'Well." It is the stuff to make you feel well, alright.

Fairground, Ont., March 6th, 1917.
Dear Sir: Your medicine that you sent me has done our girl a lot of good. She has never had any fits since we gave her the medicine. It has been a great relief for her and for us. Everybody says she is looking so much better, and I am glad we have found some help for her. As it is doing her so much good we thought we would send for another package of the medicine.

Millville, N.B., April 20th, '16. Dear Sir: Mailed you yesterday, under separate cover, tapeworm exterminated by your wonderful remedy.

I took the remedy Sunday, the 18th, at ten o'clock, and at twelve-thirty I had the worm without having the least sign of sickness. I expect to be in Toronto sometime around the first of May, and will call at your office and see you.

Yours very truly, 47 Bettes St., Belleville. Dear Sir: This is to state that I can-not say enough about your wonderful remedy, as it relieved me of tapeworm in a few hours, without any after ef-

Make what you like of this, as I amonly too glad to say it, and shall tell anybody I find about your remedy, Yours gratefully.

Waterford, Nov. 16, 1916.

Dear Sir: You will find enclosed \$1.00 for two packages of your "worm destroyer." I have used your medicine, and it did me so much good at the time

Dear Sir: Enclosed you will find one dollar and twenty-five cents for more of your "B'Well" powders. It is doing so much for my sons, we wish to try it a little longer.

Hamilton, April 19th, 1916. Dear Sir: Enclosed please find \$1.25, for which send me another package of "B'Well" powders. They are just line, and do all you claim for them. Kindly send as soon as possible. Yours truly.

Hamilton, Aug. 2, 1915. Dear Sir: I am writing you for to send me one more bottle of "B'Well," as I have found good benefit from what I have used.

Chatham, Ont., April 11th.

Dear Sir: Enclosed please find one dollar for "Mother's Friend" worm medicine.

November 181 Stanley Avenue,

Chatham, Ont., April 11th.

Dear Sir: Enclosed please find one dollar for "Mother's Friend" worm medicine.

Hanover, Ont., Dec. 29, 1916. Dear Sir: Please find enclosed \$6.00 for six packages of dry "B'Well." Please send it dry, as we are going to move.

Holland Centre, May 25, 1916.

Dear Sir: Enclosed you will find the sum of \$1.00, for which send me another dollar's worth of "B'Well," or "Mother's Friend." I used the last with good re-

Dear Sir: Enclosed find \$1.00. Kindly send me a package of "Mother's
Priend." We are giving it to our little
stirl, and it has shown good results.

Wishing you a Bright and Prosperous
New Year, I am,

Yours truly.

Rheumaticide for Rheumatism and and any state of the state

It Makes People Feel Well

B'Well is a medicine that assists nature, made from roots, barks, herbs, leaves, etc. The concentrated extracts of these herbs tone up the stomach, regulate the liver, act on the kidneys, and it contains a harmless worm destroyer that is sure death to worms, and can be used with perfect safety.

B'Well is not a tapeworm exterminator, and is not recommended for that trouble. B'Well is restoring thousands of people to health. I am not going to enumerate the different diseases and complaints that people have been relieved of from the use of B'Well, as it would take up too much space. I can simply say that restlessness and disease cannot remain if you take. this medicine for a time, and it will surely make you feel fine.

It does not contain poison in any form, or narcotics that only relieve pain, but the different roots and herbs that regulate the system. It stimulates the stomach, liver and kidneys into healthy action, helps digestion and keeps the bowels regular, expels all gases from the system, and takes away the bad feeling around the heart and fearful feeling from the head, depressed spirits and melancholy simply vanish, and a cheerful spirit takes their place. B'Well is a blessing to those that feel life is a burden to them, that are downhearted and unhappy from disease. B'Well carries the poison out of the system through the natural channels of health, and, as the poison is carried out of the system, nature restores herself, and a cheerful spirit follows, as there is nothing like good health to make a person cheerful and happy. Peo-ple treated for Epileptic Fits have been restored by its use. Don't ask me if it cures this, that and the other disease. It is different from most medicines advertised as cure-alls, and I am not advertising this remedy as such, but Pickering, Oct. 2, 1916.

Dear Sir: Would you kindly send me one package of "B'Well." as I have used it, and it has done me the world of good, and am feeling a lot better since I have taken it?

Dear Sir: I am sending for some more of your "B'Well" medicine. It is the best that I have ever got yet. I have taken it?

Enclosed you will find the price of one package. Please send it as soon as you can.

Please send it as soon as you can.

Yours truly.

Allandale, R. R. No. 1,

Jan. 20th. 1916.

Boat Sir: Would you kindly send me one package of "B'Well." as I have simply advertising it as a medicine that has and will regulate the system, carry the poison out of the blood, and common-sense must surely tell you the result. Men and women who have been neryous wrecks, with hollow cheeks and sunken brow, have become plump, healthy and cheerful from its use, and I can only say what it has done for others it will supply

worm Remedy is saving thousands of

medicine.

B'Well is put up in powder form for convenience to send to foreign places by mail, which does away with all breakages. The package of powder makes twice as much medicine for the same amount of money. Full directions for making. Price, \$1.25; six packages, \$6.00.

Write for further information, free, and send self-addressed, stamped envelope, with your address written plainly, for reply. These remedies are sold only by Prof. R. L. Mulveney, 187 Dundas street, Toronto, Ont., and 73 Niagara street, Buffalo, N.Y.

NATIONAL COUNCIL FOR CONSCRIPTION

Also Favors Military Drill in Schools and Coalition Government.

A resolution from Montreal Local Council of Women, favoring conscription, was brought before the Kingston Council of Women in November, 1916, and was passed. As the question was of paramount importance, it was deemed wise to refer it back to all federated associations, for expression of opinion, the result again being a majority vote in favor of conscription. The resolution was then forwarded to the Dominion Government. A resolution from Victoria Local Council in favor of military drill was brought help or the same executive and discussed. A small committee was appointed to enquire into the subject of military drill in Switzerland, New Zealand and Australia, and to report at the next executive, to be held in Ottawa. This was done. At the recent council meeting in Winnipeg. resolution from Montreal Local Counand to report at the next executive, to be held in Ottawa. This was done. At the recent council meeting in Winnipeg, the original resolution, together with two amendments, advocating physical training, were brought forward. It was shown that the real question at issue was not so much one of training as of methodnamely, as to whether the physical training in public schools should be under qualified educationists, to be followed at a later age by military drill under supervision of department of military control. The council regretted the absence of any official representative of the LO.D.E., which, as a federated association, was entitled to send two voting delegates, and it twice deferred introducing this particular resolution in the hope that a representative might be present. However, the mover of the Ottawa amendment, which advocated physical training, rather than military drill, stated that she was herself a member of the I. Sears, Helen Boyd.

discussion, the following resolution was passed:

"1. That physical training, under qualified educationists, be given to both boys and girls in all schools.

"2. That during the period of the war military drill be given to all youths, whether students or wage-earners, between 18 and 20 years of age.

"3. That permanent changes in our educational systems, involving compulsory military training, be considered after peace is established, when it will be possible to approach such questions dispassionately, and with fuller knowledge of future needs."

In January. 1917. Winnipeg Local Council sent in a resolution asking for coallition government. After reference to federated associations, this, too, was passed and forwarded to the prime minister at Ottawa.

PLAYS, PICTURES AND MUSIC

"Mile a Minute Kendall," which is the offering presented by Edward H. Robins and the Robins Players at the Alexandira this week, is a comedy from the pen of Owen Davis, Jack Kendall recovers from a protracted debauch and decides to go to work in earnest. He organizes a joint stock company of \$2000 and sets his workshop in the barn of a country hotel. When his engine is completed it will not work and deepest glodur fills the atmosphere, but when a real automobile engine expert looks it over he sees at once where the trouble is and remedies it, and Jack makes his pile. "Mile a Minute Kendall," which is

"SHOT AT SUNRISE."

Willa Holt Wakefield, international-Willa Holt Wakefield, internationally known as a singer of southern songs, will be the big vaudeville headliner at Loew's Yonge street Theatre this week. "Shot at Sunrise," a farce comedy of theatrical life, will be an added feature. Keene and Williams will offer a comedy, "Almost Married," with songs and laughs. Chiyo and Chiyo are wonderful Japanese equi-

THE HIPPODROME

of returned soldiers, will be seen in an entirely new act at the Star Theatre this week. They have arranged a new musical and comedy act which ought to prove the feature attraction. The regular show of the "Stars of Burlesque," will also be stared, and a high class performance will be given by Flossie Everett, Lenore Butler, Bessie Crandall and a chorus of 25.

AT THE MADISON.

Today, tomorrow and Wednesday the feature at the Madison Theatre will be "Her Better Self," a photo drama of life-like realism and strong dramatic force, with Pauline Frederick in one of the best roles of her career. Roscoe ("Fatty") Arbuckle will also be seen in the two-reel comedy "A Reckless Romeo," which gives him opportunities for displaying a rich

FINE BILL AT STRAND.

A splendid double-header bill A splendid double-header bill of tremendous drawing capacity will be presented at the Strand Theatre to-day, tomorrow and Wednesday. One of the two big features will be "Bridges Burned," with Madame Petrova in the leading role. This photodrama was written by Petrova herself, and it is one with an entirely new love appeal. The other big feature will be Charlie Chaplin in "The Immigrant," his newest comedy, which gives him finer opportunities than ever for his finer opportunities than ever for his amusing and amazing antics.

Conducted by Society --- Mrs. Edmund Phillips

"THE SUBMARINE EYE."

The marvelous underwater pictures now being shown at the Grand Opera House under the title of "The Submarine Eye," are attracting a great deal of attention because of the timeliness of the invention organized in the unfolding of the story. It is shows an inverted periscope which enables a person above the surface of the oceah to see what is taking place on the door of the sea many fathons down. The story itself is intensely interesting and contains thrills new to the screen drama. "The Submarine Eye," will be continued all this week with a matine every day.

"ROBIN HOOD" NEXT WEEK.

Seats are now on sale at the Grand Opera House for the performance of "Robin Hood" the first of the big musical productions to be given this summer. The De Koven Opera Co, which will sing this tuneful opera, is the same organization which presented the masterplece last season. Iy Scott will sing the surface of the masterplece last season. Iy Scott will sing the part of Mald Marian and Ralph Brainard will be heard in the title role. Others in the cass are Cora Tracy, James Stevens. W. J. MoCarthy, Jeannette Sindley, Herbert Waterous, Tille Salinger. Phil Branson and David Andrada.

THE ROBINS PLAYERS.

STANDARDIZING OF **FARM TRACTORS**

Exhaustive Tests Always Made Before Machines Are Placed on Market.

GENERAL INSTRUCTIONS

Hints to the New Owner for Operating His Implement.

As a rule all tractors are thoroly tested before shipment from the fac-tory. This includes a test of the motor before it is installed in the frame of the tractor, and a test made by running the tractor on a special test-

IF THE WORLD THE THE WORLD THE STATE OF THE guides as to the quantity of milk as cow was capable of producing. In a recent experiment the mamery veins were tied up so that no blood could flow thru them, and yet the cow save the usual quantity of milk despite the apparent handicap. Prof. Dean told his hearers that no one knew how milk was produced, altho it was generally believed, that blood was the origin of it and that blood was made from the food which the cow ate.

After Prof. Dean's address the results of the judging contest were announced as follows: First prize, Harry Hill, Aurora; second prize, Robert Watson. Woodbridge; third prize, Stanley Watson, Woodbridge, President Clabon, of Richmond Hill Farmers' Club, then moved a vote of thanks to the speakers of the day, and Chairman Burnaby adjourned the meeting while some amusing sports were enjoyed. Tea and an enjoyable dance completed a most successful of the successful the complete of the day and completed a most successful of everything is in proper shape, at the fuel and that all ignition to tainers are full and that all ignition wires are full and that all igniton with the manufacturer and. If a splash oiling in the fill in

ing.

If everything is in proper shape, at the third or fourth revolution of the engine a sharp hiss will be heard from one of the priming cocks, and the en-gine should go ahead without further trouble. As soon as the engine begins firing, the priming cocks or relief valves should be closed so that the engine may run under full compression. When the engine has gained nor mal speed the current switch should be changed to "magneto," that the motor may run on the current develop-

ed by its own magneto. On many of the new tractors the motors are operated on high-tension magnetos and therefore do not require batteries in starting. As the engine gains speed the throttle should also be closed, not allowing the engine to race but merely to "turn over" until the tractor is ready to be started.

Then all open gears should be covered with pin grease and all grease cups should be filled and screwed down so that all bearings getting lubrication from this source will be well supplied. In starting a new engine it is well to remember that all bearings are new and rough, and therefore require more units capable of handling six to eight oil and attention than will be neces-

sary later.

Before the motor is started one should study and become thoroly acquainted with all the control levers and their operation. In an article of the started one man can attend to the started one man can milk that many cows in an hour, there might should be started one should be acquainted with all the control levers that one man can attend to three or and their operation. In an article of four units at the same time, milking and their operation. In an artist twenty to thirty cows an hour. so general a nature as this, and with twenty to thirty cows an hour. For that reason it is not economical many tractors on the market, all varying in modes of control, it is impossible to give specific advice as to operation, and the buyer will do well to study the catalog issued by the whether backward or forward. I have

independently of the tractor wheels. Then the lever controlling the spark advance should be placed in full retard

gine is furnished a gas and air mixture, the proportions of which are controlled by a throttle, the amount of
this mixture used by the engine in
turn being controlled by the governor.
The principle upon which the governor
The clutch should always be kept in The principle upon which the governor works is that, when the speed of the engine is increased to a certain point, the weights attached to the governor arms will fly out by centrifugal force and close the gate controlling the mix-ture intake, which will slow the en-gine by reducing the amount of gas and air mixture fed the cylinders. When the motor has been started and is operating efficiently the tractor is ready to be started. The type of the steering mechanism of the steering mechanism of these ma-

is ready to be started. The type of transmission with which the tractor is fitted will determine the number of levers with which starting, stopping and reversing are accomplished.

The type of the steering mechanism of these matrices, the steering mechanism of these matrices. The automobile operates at high speed, is light in weight, and levers with which starting, stopping acting steering apparatus; the tractor, and reversing are accomplished. If the tractor is of one speed it will which operates at low speed, is heavy, be very simple to operate. The difficulty of learning to operate it will a slow-acting steering gear. increase with the number of speeds When the tractor is of two and the accompanying complexity. There is always one lever used as a There is always one lever used as a master clutch and one in changing speeds on every tractor, and the operator should always be sure the master clutch is discovered before a changing tractor should always be sure the master clutch is discovered before a changing tractor in the discovered before a changing tractor should be used; for heavy haulclutch is disengaged before a change ing the medium speed; and for heavy

until it is attached, and a few need a little humoring and manipulation at the start.

Operation is at least three-quarters of the milking-machine question, and about the only chance now left for anxiety in making an installation of these machines is to be found in an old problem already established in most dalty barns. That is the labor problem, or rather, the problem of shifting and incompetent helpers. The milking machine is not especially complicated or delicate, but there must be considerable judgment in using it on different cows, just as different cows require some judgment in hand milking.

This is no problem at all when the work is done by the dairyman himself or by members of the family, or when helpers are capable and steady. It need not be a problem at all when the labor situation itself is handled intelligently.

On the other hand, the milking machine properly used helps to solve the general labor problem, for it cuts down the drudgery of milking, and makes it possible to do the work with fewer helpers.

Milking machines are figured in

tion or allowing the machinery to get into bad order. Too great air pressure, or leaving the teat cups on the cow coo long after she is milked dry, will have a tendency to make the teats

customed to controlling a light automobile will first have to become used

standing.

sore. But care will prevent all that.
Some manufacturers advise hand
stripping of the last richest mills, for the sake of the personal inspection that each cow gets each day. Others say there is no need of hand stripping that cows can be milked clean and dry with the machine. Sometimes the milking machine will show a decided increase in the milk with the machine. increase in the milk yield, as much as ten per cefft., especally if hand milking has been careless.

Machine milking is cleaner than

hand milking because the milk goes directly to a closed receptacle, never coming into contact with barn air or air-borne dirt. Machine equipment is now made in such a way that it is very easily cleansed. At first sight it usually looks as the washing might be quite a puttery job, but in actual prac-tice it is done very largely by allowing engaged very gradually. When the tractor gains momentum the master the air pressure which milks the cows to draw in water and cleansing solu-

tions after milking is over. Just now the milking machine seems to stand for a bigger question mark in the mind of the average dairyman than almost any other modern convenience available for the advancement of industry. This is because it is the newest of them all, and one that means so much to every farmer if it will the "off" position when the tractor is

really do the work. In some cases the machines have proved disappointing after installation, and have been discarded. These cases and have been discarded. These cases are not numerous, however, and it can be said, in all impartiality, that any of the improved machines now on the market, made by trustworthy manufacturers and backed by good instruction at the time they are installed and good service afterward, will give satisfaction and effect economies if operated with the same intelligence and care needed with other labor-saving devices in the dairy and on the farm.

PRICES COMING DOWN.

When the tractor is of two or three speeds the operator should always Special to The Torento World.
Woodstock, June 16.—Prices on the local market are surely but slowly declining. Even the meat on the Saturday market declined two cents a pound. As to butter and eggs, large quantities were offered, with the price drawbar work the lowest speed should drawbar work the lowest speed should of butter ranging from 40 to 44 cents.

Two other features of centrol are the be employed. The tractor should not be employed. The because a pound. Eggs ruled at 35 cents a

WOMAN IS PROVING ABILITY TO FARM

Since Father's Death Sha Manages Farm With Com spicuous Success.

BY ROB ROY.

One of the ideal homesteads in Ostario is situated one mile south of Streetsville. A cosy farm house, almost hidden among a nest of roses, beside a stream that only needs a Burns or a Wordsworth to immortalise it as one of the beauty spots of Cax-ada. The drive from the road to house, is thru cherry, plum and apple tree? The farm buildings are attractive looking and spoplied with all modern improvements. Thirty-seven years ago this spring the Credit Valley Railway was built from Toronto out past Streetsville. James Blair started shipping milk to Toronto and continued to do so until his death, twelve

His daughter was then left alone. She was advised to sell the 100-acre farm and stock, but her love for the oid homestead and country life would not allow her to do so, and she has since become one of the best

GROWING TOMATOES

Shoots for Better Results.

ON SINGLE STEMS

she has since become one of the best dairy farmers in the district.

When Miss Blair assumed charge of the farm the nerd consisted of dual purpose Shorthorns. Becoming convinced of the excellence of the Holstein, she has since gone entirely into that breed. About half are registered, Pinch Off All Side and Top If you have been growing tomatoes in years past in the ordinary way, letting the plants sprawl all over the ground, and have not been entirely satisfied with the country.

That breed. About hair are registered, and as the scales are used daily all are high producers. A pure bred sire is always used, these being selected from the best herds in the country. Thus the herd is being constantly satisfied with the coulties are not been entirely and the herd is being constantly beautiful and the scales are used daily all are high producers. A pure bred sire is always used, these being selected and as the scales are used daily all are high producers. A pure bred sire is always used, these being selected and as the scales are used daily all are high producers. A pure bred sire is always used, these being selected in the country.

satisfied with the quality of the crop, Ensuinge is highly valued and is the try growing them to single stems. I know of a home gardener who has produced \$100 worth of fine fruit in a small garden, much of which he has sold to his neighbors, by growing them in this way.

Ensilinge is highly valued and is the hasles of the winter ration. At first a stave silo. 12x28, was used, but was found to be too small, and was blown down several times. In 1915 a coment one was erected. 14x35. This Miss them in this way.

The method is not at all difficult real making it much more comfortable. roof making it much more comfortable in winter

to follow, altho it requires more care than the ordinary way. Select strong than the ordinary way. Select strong stocky plants of such red varieties as Earliana or Bonny Best, or of a pink variety like Globe. Be sure that the soil has been well fertilized with manure or commercial fertilizer. After the plants are started sprinkle a teaspoonful of nitrate of soda about each one if they are not making good growth: growth.

The rows are placed about three feet apart and the plants are set one and a half feet apart in the row. When the plants are set, a five-foot stake is driven, firmly into the ground close to each plant. In transplanting do not disturb the roots more than is absolutely necessary.

plies the engine with water for threshing, silo filling or grain grinding.

One of the hardest parts of the milk business was the storing and handling to ice. A wooden building would also rot out in a few years. Three years are Miss Elair public at milk house of hollow cement. disturb the roots more than is absolutely necessary.

As the plants grow, all side shoots, which always appear in the axis of the leaves, must be pinched off. This does not require much time, but must be attended to at intervals of a week. In the first the care of mills plant in the first the care of hollow cement and milk house of hollow cement the locks. This keeps the care perfectly, and an ingenious arrangement of running water cuts the quantity of ice in the care of hollow cement the leaves, must be pinched off. and about 1500 to 2000 cans a year.

Over a hundred hens, Black Minor-cas, are kept, and with eggs at present prices are a profitable. Twelve years ago a cherry, plum and pear orchard was planted. This started

RECENT CONTRACTS FOR PORK bearing in three years and is today a thing of beauty and a joy forever. It was learned last week that the Belgian Relief Commission had made contracts with American packers for 20,000,000 pounds of pork and lard, at a cost of almost \$5,000,000. It is said that under the plans of the administration this buy-No mean profit would accrue to the Chicago meat packers in the above deal. For many months past the American packing houses have purchased hogs all over the United States at a lower price than the Canadian farmers have received for their live hogs. It is not customary for the Chicago pork packers to forward their houses have purchased to be such a heavy yielder that it is still more profitable, althous of apple or or ago five acres of apple or and was planted. Two rows of Spies, one of Baldwin, then one of Wealthy. The Wealthy are pruned heavily pruned heavily and the such as tion now under contemplation this buy-ing will shortly be taken over by the Bartlett pears are of high quality, but not customary for the Chicago pork packers to forward their best cuts of pork and No. 1 lard on government them to early bearing and doing well.

Miss Blair considers fruit farming as not only profitable but very inter-esting." The business part of farming must not be neglected," said Miss Blair. "All the work on the farm done by men has to be paid for. I allow myself a fair salary allow a sum for wear and tear, and unless above that I make five per cent. on my investment I would not consider the farm paid." R. R. No. 1., Scarboro Junction, was planting corn last Tuesday with a Bateman-Wilkinson corn-planter. He

While proficient as a farmer, Miss Blair is highly cultured in other ways; She is one of the best read persons in tended the York County Holstein-triesian, Breeders' picnic at Bond Lake quaintance with Shakspere, Browning, Tennyson and other immortals has not injured her as a practical woman. Manor King Segis Johanna, owned by Wm. Loveless, Ellesmere, is a like-ly looking year-old Holstein bull. This is another sample of the methods be-

AMERICAN rebuilt Underwoods

CROP OUTLOOK IS SATISFACTORY

Seeding Delayed by Cold Weather, But Growth is About Normal.

At the close of May, according to the monthly letter of the Canadian Bank of Commerce, the crop outlook in the Dominion was, generally speaking, satisfactory. At the beginning of the month seeding had barely commenced, but the advent of extremely favorable weather resulted in abnormal activity thruout the prairie provinces. In other parts of the country, tho cool weather was the rule, seeding was completed under conditions that may be regarded as normal. In the latter part of May some severe frosts were recorded in the west, and were followed by cool Yeather. Occasional showers fell in the early part of June, and subsequently rain became general. In some districts frosts set back the crops a little and in others some damage was done by dry weather, but so far the cereal crops promise to be normal and are as forward as last year. Fruit prospects are promising.

Accurate figures of the crop acreage are not available, and the estimates made by various authorities show wide differences. Some indicate a decrease of about 12½ per cent, in the acreage if wheat and slight increases in the acreage of oats, barley and flax. It is uite evident, however, that strenuous efforts were made to put under crop much land as possible, and of this no better evidence can be adduced than the great demand for implements. While the prairies have furnished a large number of men for the defence of the empire, there has not been at any time serious complaint of a shortage of labor. Help at seeding time was no doubt secured from the smaller urban communities, the exodus from which, during the seeding season, was very noticeable. The present high prices for cereals are in themselves a very potent influence in stimulating agricultural activity, and it would not be surprising if, after all, this year's acreage proves to be as large as that of last year.

C. N. R. EARNINGS. Canadian Northern Railway earnings for week ending June 14, \$918.700; corresponding period last year, \$880,400; increase, \$26,400.

FARMERS The Highest Prices Ever Paid for

Mr. Farmer, you can get more money for your wool by sending it direct to us.

In all probability it will come to us anyway at some time, no matter to whom you sell it.

For over thirty years we have been one of the largest buyers of wool in Canada. We could not continue in business for this length of time if we had not treated our customers fairly and pay top prices.

Ship today or write us telling how much west you have, if washed or unwashed, and breed of sheep clipped from. We will then quote you a straight price and send you shipping tags with full instructions.

favorable.

The cash situation showed little or no change as regards wheat, but there was a slackening of demand for cash oats. Offers of both wheat and oats were fairly liberal. There was an active demand for July oats for export. The demand was sufficient to advance the price 2½ cents for a time. The price fell away towards the close, which was 1% over Friday. October oats were a quarter higher. Flax was quite strong, July closing five cents and October four cents higher. There was not trading in October wheat, which nominally close ane cent higher. Cash wheat was down four cents on Number 1 Northern, five cents on Number 2, six cents on Number 3, and 5½ cents on Number 4 wheat.

ACTIVITY MADE IN STEAMSHIPS

Montreal Operators Start Campaign of Distribution -Others May Follow.

Montreal manipulators kept up operators in Steamships Common at the week-end and advanced the price to 43. As already hinted the story of a dividend has been floated out to attract buyers and the activity will be kept up until a distribution of shares has been accomplished or past operations cease for want of a public following. Dealings in Steamships comprised most of transactions on Saturday morning, but the movement on these set the insiders in Smelters moving and this stock was advanced a trifle. Nova Scotla Steel was well bought and closed up at 102. There is talk of /this company establishing a plant in the United States and using some of its vast deposits of raw material to supply finished steel to the American market. After the record made by the New York market for several weeks the time may be thought opportune to try out another market promotion on the Canadian exchanges. A public following is not very promising but the action of the market is seductive and the experiment may bring results.

The Annam was a vessel of 6075 tons. She was built in 1899 in Col-enhagen and was owned in Marseilles.

BREAD COMES DOWN.

Special to The Toronto World. Woodstock, June 3.—On Friday one of the local bakers, who had previously teduced his price of bread to 10 cents. but, as he claims, restored it to the old price of 11 cents at the protest of

Parls, June 16.—It is officially announced that the transport Annam was torpediad in the Ionian Sea on June 11 while proceeding under escort. Bombs were at once thrown in the track of the submarine, which did not reappear. The Annam was taken in the way one of the convoving ships W. Dumprille, Hamilton, a brother.

Polarine is sold in two grades, Polarine and Polarine Heavy; also Polarine Greases and Transmission Lubricants.

Polarine and PREMIER GASOLINE are sold wherever you see the Premier "Red Ball" sign.
