VISIT TO SCENE OF HYDRO WORK Premier Impressed With Progress Made

Planning for Local Distribution—Reduction of Rate in Portage La Prairie—Proposal Regarding Musquash Bridge.

Local Distribution. A meeting has been arranged for Wednesday afternoon between Mr. Foss and the members of the city council to decide upon an engineer to go into the matter of distribution in the city.

What the Premier Saw. The premier said today that the contractors had made remarkable progress in their grading work.

WINTER CARNIVAL IN FULL SWING They're Having a Merry Time in Banff, Alberta.

Dealing became more regular in the first hour, the uncertain money situation causing further restraint.

Jail and Not Fine For Liquor Law Violation

Plan Seizure of All Stocks Held in Homes or Safety Vaults

Other Stringent Regulations Which it is Sought to Make Effective in States—Last Hour Rush in Canada.

Washington, Feb. 1.—Prohibition leaders in congress are hoping to tighten up the Volstead law.

Other changes being discussed among the prohibition leaders relate to the search and seizure clause, so as to reach the home brew and to make more sweeping the present law under which a person buying liquor may be punished equally with the person selling it.

Confiscation of every drop of liquor held by citizens, regardless of when or how it was acquired, is also being urged.

Statements that the Dominion cabinet will soon be re-organized, are accompanied by reports that General Sir Edward Morrison, commander of the Canadian artillery in the great war, will be named minister of militia.

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Horneum, "what is this I hear about getting out a great lot of lumber this winter?"

"You needn't worry about me," said Hiram. "Next time you come out to the Settlement you'll be surprised."

"Up to last night," said Hiram, "I had nine hundred and forty-five people in the Settlement."

"Hiram," said the reporter, "you are a credit to the farming party. We'll have your statue in Haymarket Square."

Majority Report Against The D. B. Hanna Order

Chairman and Men's Representative Favor Withdrawal of C. N. R. President's "No Politics" Ban.

Ottawa, Feb. 1.—(Canadian Press).—A majority report of the board of conciliation which investigated the dispute between the employees and management of the Canadian National Railway, now in the hands of the minister of labor, recommends the withdrawal of the "Hanna order," which was the main cause of dispute.

This report is signed by John M. Godfrey, chairman, and D. Campbell, representative of the men. F. H. McGuigan, representative of the employers, submits a minority report, which is not yet available.

"It appeared early in the proceedings," states the majority report, "that in reality there was little difference between the position taken by the management and the employees."

SAYS GERMANS CAN NOT MEET ALLIES' TERMS

Views of British Treasury Representative

Germany Themselves Say Reparation Demands Will Produce Chaos All Over Central Europe—Sir Phillip Gibbs Agrees.

London, Feb. 1.—It will be impossible for Germany to pay the amount fixed for her reparation debt to the Allies, says Prof. John Maynard Keynes, principal representative of the British treasury at the Versailles peace conference.

He argues that Germany, to have surplus exports worth £200,000,000 must have total exports worth at least £700,000,000.

That is to say, he continued, "trade on the part of Germany would be required to pay the minimum annuity of £100,000,000 plus the export percentage. If the Paris proposals are more than what they mean a complete reorganization of the channels of international trade, if anything remotely like that should be decided, it is an outrage that the Allies should be asked to accept."

Madness, Say Germans.

Reparation terms as fantastic and impossible of execution and it is the general opinion that the government cannot agree to them.

LETTER TRAVELS 19 YEARS BEFORE IT IS DELIVERED

Dedham, Mass., Feb. 1.—A letter that had been 19 years on the way, part of the time traveling through the war capitals of Europe, was delivered to Mrs. Fred L. Pratt of this town last week. It looked like a futuristic conception of the international postal system gone mad, with more than a score of foreign postmarks cutting carlines with domestic marks.

London, Petrograd, Berlin and other far places were registered checks by jowl with the little station of City Mills from which the letter was sent on Feb. 2, 1902. Some of the dates indicated that the letter at times was within a day or two of overtaking Mrs. Pratt at others it was years behind, and oddly it found her within a few miles of its starting place.

AT THE UNIQUE
Anita Stewart and an all star cast of players were featured in an unusual film "The Sins of the Mothers" at the Unique yesterday. Miss Stewart is star of this production. She plays the role of Tricie Raymond whose mother is revealed as the secret owner of a gambling resort. Tricie inherits her parents' gambling instinct and the latter shocked at discovery of this fact sends the girl to a convent to cure her. Tricie is taken from the convent after seven years apparently purged of the gambling habit. In a short time, however, the instinct returns and the girl is plunged into a maelstrom of dramatic events growing out of ventures into games of chance. "The Nuisance," a Jimmy Aubrey comedy produced roars and roars of laughter. It is replete with novel situations and there are laughs in every scene.

WAR SECRET OUT

The German Intelligence Department were mistified as to how the Allies were able to transport hundreds of thousands of HORSES and MULES from America to the war zone with practically no loss, even during the stormy winter months. It was noticed that a lump of ENGLISH ROCK SALT was placed in the feeding trough at the head of each animal and the information is now forthcoming that the wonderful tonic properties of this salt mined in its natural state kept the horses in the best of health not withstanding the hardships which they were subjected to.

Don't Neglect Your Eyes

Whatever You Do!

Neglect causes bad eyes, bad teeth, cleft hair. Some people show all these signs of neglect, others only a few, but you have poor eyes than any of the others—a statement proved by the large number of people who wear glasses.

Why do so many people neglect their eyes when sight is the most precious of all the senses and when strong eyes and clear, perfect vision mean so much to happiness and success?

The Bon-Opto system of caring for the eyes is used by a million people. Ask your druggist about it or ask your doctor; then get a Home Treatment Outfit and follow directions. If the results do not surprise you and satisfy you your druggist will refund the purchase price. Bon-Opto is sold under a guarantee of satisfaction.

NOTE: Bon-Opto is not a secret remedy. The formula is printed on every package. Bon-Opto is harmless to the most sensitive eyes and may be used freely. Ask any of the million who use it.

SAYS MOTHER KILLED BY 15- YEAR-OLD GIRL

Neighbor Tells Coroner Love Affair With Ranch Man the Cause.

Steamboat Springs, Colo., Feb. 1.—The story that the fifteen-year-old daughter of Frank Mudra killed her mother because the latter objected to her accepting the attentions of a ranch hand, buried the body in a refuse pile on an isolated ranch, fifteen miles from Oak Creek, and kept her act secret for three weeks was conveyed to the coroner's office here by a neighbor of the family.

Mudra, a miner, had been working in Oak Creek this winter, leaving his wife and children on the ranch. It is said the girl walked into Oak Creek from the ranch, after hours of toiling through the almost impassable mountain roads, saying her mother was sick. Her father accompanied her to the farm. Inquiry developed that Mrs. Mudra had not been seen for several weeks, and one of the smaller children finally told Mudra, the neighbor said, that the body was buried back of a stable.

The body was found with a bullet wound in the back. The girl, according to the story, then confessed that she shot her mother because of the latter's interference in her affair with the ranch hand.

COLLEGE WANTS \$150,000 THAT WILSON REFUSED

Institution Bearing the Same Name as President Urges Him to Give it Proceeds of Manuscript.

Washington, Feb. 1.—The student body of Wilson College at Chambersburg, Pa., has petitioned President Wilson to accept a recent offer of \$150,000 from a publisher for a manuscript and give the money to the endowment fund of the college. The petition was in the form of a letter signed by 600 students of the college, which read:

"In the present recently you were reported as having rejected a publisher's offer of \$150,000 for a manuscript. The reason given for your refusal was that you would not capitalize your high office for personal gain.

"We, the students of Wilson College, Chambersburg, Pa., appreciating the scruples which guided you to do so, respectfully petition you to reconsider and to modify your decision in the name of a worthy educational cause. We ask you to accept the offer and to donate the sum to the Wilson College endowment fund.

"Wilson College, founded at Chambersburg, Pa., by Sarah Wilson, a devout Christian of the Presbyterian faith, is the third oldest college for women in the United States. At the present time the faculty, undergraduates and friends of Wilson College are trying to raise a necessary endowment fund of \$500,000 to assure the future of this institution. A substantial part of this proposed fund has been subscribed, but it still falls far short of the necessary amount.

"We believe that you, as a great educator and president, will see in this an opportunity to advance the cause of education for women, to augment the Christian activities of the Presbyterian church and to engrave on the gratitude of coming generations of students the name of Wilson."

AUSTRALIA TO EDUCATE
CHILDREN OF SOLDIER DEAD

Melbourne, Jan. 31.—(Associated Press.)—The Australian government has undertaken to educate the children of Australian soldiers killed or totally incapacitated in the world war. At least 12,000 children are expected to benefit.

The plan covers the whole range of the educational curriculum, in industrial, agricultural and professional courses, together, where necessary, with periods of apprenticeship and a subsidy by way of maintenance while undergoing such training. A fund of approximately \$2,000,000 is on hand, which includes a grant from the federal government of \$4,000,000 and a transfer of the Reparation Trust Fund of approximately \$600,000. Large contributions are assured from other sources.

BOYS GET COLD SHOULDER IF THEY USE TOBACCO

But They Retaliate and Put Ban on Short Skirts, Pinafores, and Cordless Girls

Mattoon, Ill., Feb. 1.—Dan Cupid is finding his bows and arrows are thus far quite useless against the hearts of the girls of the West Side Christian church of this city who have formed a club not to keep company with boys who smoke cigarettes or use tobacco in any form.

The club is continuing to grow, according to its sponsor, Edward McKee, superintendent of the Sunday school of that church, and though a marked decrease in the number of "matches" is noted, according to McKee, quite a few local boys have given up the bad habit.

Dan Cupid's second and hardest blow—the blow sent him reeling dizzily—came when a number of boy students at the Mattoon high schools rebuffed by forming an opposing organization to try to make out of the girls of today "the kind of girls our mothers were."

It was at a meeting of the Christian Endeavor society a week ago that Mr. McKee urged the girls to sign pledges not to keep company with boys who "used the weed." Twenty-five pledges were signed immediately and during the past week the club grew in leaps and bounds. The Christian Endeavor Society girls now hope to induce every girl in town to join their ranks.

"Do you want to stand around while some boy is smoking a cigarette or walk up the street with him and dangle the silly thing in his teeth or do you want to smell the nasty smoke?" they argued. The answer they say, is "No" and a new signer of the pledge is obtained.

It was then the boys decided something must be done. They missed seeing their sweethearts and a number of the male students at the high school formed a club, the members signing pledges as follows:

"I do solemnly affirm that I will not court a girl who persists in:
"Wearing knee-length skirts.
"Wearing low cut waists below the point where mother wore them when she was a girl.
"Wearing silk stockings.
"Using paint or rouge.
"Attending dances minus her corset.
"Pulling out her eyebrows or wearing her hair in such a style so as to hide her ears."

Mr. McKee looks upon the boys' organization as "merely a bluff club to frighten the girls out of their stand against tobacco."

"It would be a good thing, though," he added, "if something like that could be done. We need more girls today like our mothers."

In the meantime, both sides are holding firm, according to members, and "much good is being done," according to Mr. McKee.

This is not a temporary movement on the part of the girls' said Mr. McKee. "They are in earnest."
"So are we," retorted the boys.

BUYS HOUSE AS SURPRISE TO PARENTS, BUT THEY REFUSE TO MOVE

Malden, Mass., Feb. 1.—A surprise planned by Hall Brackett for his parents, Mr. and Mrs. Walter Brackett of 829 A Salem street, did not work out as pleasantly as he anticipated. Hall Brackett learned to his sorrow recently.

Hall, unknown to his folks, purchased a house in Reading to surprise his parents and made plans to move the furniture from the present Brackett home to that town.

The elder Mr. Brackett received the surprise of his life when he returned home last night and saw most of his furniture piled in a truck outside his house. He ordered the truckman, Robert Kenton, to return the furniture, but Kenton said he had orders to take it away from the home. Sgt. Lenahan of the police department was finally appealed to and the story of the purchase of a Reading home by the son came to light. But the parents objected to going to Reading, so the furniture was returned to the Salem street home.

Hall Brackett today paid the moving bill, remarking that he is through giving surprises.

MORNING NEWS OVER THE WIRES

A despatch from San Francisco says that one of the worst storms in the memory of the oldest inhabitants has been experienced there in the last few days. At one point the wind reached a velocity of 100 miles an hour.

R. G. Adams of Providence, R. I., was yesterday found guilty of murder in the first degree in the case of Miss Rose V. McKenna on the night of Sept. 2.

A. B. Calder, formerly assistant general passenger agent of the C. P. R. at Montreal, has been promoted to the position of the president of the C. P. R.

The wife and three children of James H. Glover of London, Ont., are dead from suffocation as the result of a small fire in the home early yesterday morning. The fire started from an overheated stove in the back of the house.

The William Fenton homestead on the outskirts of Chatham was destroyed by fire early yesterday morning. As the house was beyond the limits of the water and fire service, the fire department was helpless. The barn and outbuildings were saved. The loss is partially covered by insurance.

THE CASE OF RICHARD CRANE

To the Editor of The Times:
Sir,—I shall be pleased if you will have printed in your valuable paper the following facts re Richard Crane and the Seaman's Institute trouble with this man. I am sorry in the first place that Mr. Brindle should have stated that this man came from the Salvation Army's People's Palace. This is not correct. Richard Crane left the People's Palace, having signed on the S. S. Waimate. I shook hands with him and wished him Godspeed. His action after that I know nothing about.

The other part of Mr. Brindle's letter I do not question. I only know that in the part where Mr. Brindle refers to Mr. Crane and the Salvation Army it is quite incorrect and misleading.

I have never refused Crane a bed, as he himself well knows.

Thanking you, I am,
Sincerely yours,

HEADACHES Make Life Miserable

Headaches are one of the most aggravating troubles one can have, and it is hard to struggle along with a head that aches and pains all the time.

Headaches seem to be habitual with many people; some are seldom, if ever, free from them, suffering continually from the dull throbbing, the intense pains, sometimes in one part, sometimes in another, and then again over the whole head.

There is only one way to get relief from these persistent headaches, and that is by going direct to the seat of the trouble, for unless the cause is removed, the headaches will still continue to exist.

The fact that Burdock Blood Bitters breaks the stomach, liver and bowels toned up is proof enough to show that it will eliminate the cause of the headaches.

Mrs. Harold Lansain, Owen Sound, Ont., writes:—"My system was run down and my blood out of order. I suffered a great deal from severe pains in my head, which made me feel very miserable. After having tried other remedies I purchased a bottle of Burdock Blood Bitters, and was very glad to notice a decided improvement in my health, so I took another, and am glad to say that it has done me an enormous amount of good. I have recommended it to my friends, who were in a similar condition, and they all say it is a wonderful remedy."

B. B. B. is put up only by The T. M. L. Co., Limited, Toronto, Ont.

Tiny Dose and
Baby is Happy

"THE medicine a mother takes for her
own constipation is seldom the right
medicine for her baby. Thousands of
mothers for thirty years past have been
giving babies Dr. Caldwell's Laxative
Syrup Pepsin, which is a combination
of simple barbs with pepsin. The full
formula is on the package. This remedy
is mild and gentle and does not grip.
It contains no narcotics. Half a tea-

DON'T NEGLECT A
COLD IN THE HEAD

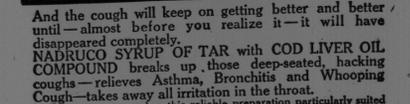

It May Lead to Many Serious Diseases.
Never neglect a cold in the head. It
is a trouble so common that we are apt
to treat it as of little consequence. But
it is only a step from cold to grippe and
the possibility of acute trouble in the
throat—pleurisy—pneumonia—is always
there if it is neglected.
The early stages of a cold yields quickly
to proper treatment. Grip-Fix, a com-
bination of the drugs which give remark-
able results in such cases, gives remarkable
results. It relieves a cold in a night and
even grippe yields to it in forty-eight
hours. It also keeps the system open
to throw off the systemic poisons created
by the cold, reduces the feverish condi-
tions and relays the pain in the head
and muscles.
Grip-Fix is sold by all druggists at
35c. a box. Accept no substitute. (Adv.)

TO DARKEN HAIR
APPLY SAGE TEA

A few applications of Sage Tea and
Sulphur bring back its vigor, color,
gloss and youthfulness.

Common garden sage brewed into a
heavy tea with sulphur added, will turn
gray, streaked and faded hair beau-
tifully dark and luxuriant. Just a few
applications will prove a revelation if
your hair is fading, streaked or gray.
Mixing the Sage Tea and Sulphur recipe
at home, though, is troublesome. An
easier way is to get a bottle of Wyeth's
Sage and Sulphur Compound at any
drug store all ready for use. This is the
old-time recipe improved by the addi-
tion of other ingredients.
While wispy, gray faded hair is not
stafal, we all desire to retain our youthful
appearance and attractiveness. By dark-
ening your hair with Wyeth's Sage and
Sulphur Compound, no one can tell, be-
cause it does it so naturally, so evenly.
You just dampen a sponge or soft brush
with it and draw this through your hair,
taking one small strand at a time; by
morning at gray hair have appeared.
and after another application or two,
your hair becomes beautifully dark,
glossy, soft and luxuriant.
This preparation is a delightful toilet
requisite and it is not intended for the
cure, mitigation or prevention of disease.

Unhealthy soil kills the best of wheat. Unhealthy

keep the gums well. Watch for tender and bleeding
gums. This is a symptom of Pyorrhoea, which afflicts

Pyorrhoea menaces the body as well as the teeth.
Not only do the gums recede and cause the teeth to
decay, loosen and fall out, but the infecting Pyorrhoea
germs lower the body's vitality and cause many serious
ills.
To avoid Pyorrhoea, visit your dentist frequently for
tooth and gum inspection. And use Forhan's For the
Gums.
Forhan's For the Gums will prevent Pyorrhoea—or
check its progress, if used in time and used consist-
ently. Ordinary dentifrices cannot do this. Forhan's
will keep the gums firm and healthy, the teeth white
and clean. Start using it today. If gum-shrinkage
has set in, use Forhan's according to directions, and

CALL FOR LOCAL CONFERENCE ON VOCATIONAL WORK

Rotary Club Takes Prompt Action—Ladies' Night—A Fine Imposed—Birthday Honors.

The Rotary Club last evening passed without a dissenting voice the following resolution: Resolved that the Rotary Club request a conference with representatives of the Board of Trade, Commercial Club, Trades and Labor Council, Women's Council, vocational schools committee, and city council to discuss the present situation in relation to vocational training in St. John and that immediate action be urged, as at present the prospect is that the vocational schools committee will be compelled to close all its classes notwithstanding the fact that the provincial government pays one half of the cost of tuition, heating and lighting.

IT'S MADE RIGHT! Cod-liver oil is as delicate as butter; it must be made right to assure palatability.

Scott's Emulsion is decidedly palatable and easy to take. It contains purest medicinal cod-liver oil that is made right from the start.

The course pursued by the city council, in voting that it seemed to be a choice between voting nothing at all and the \$25,000 asked for by the vocational board. E. C. Weyman strongly supported the resolution, observing that St. John was far behind other cities of its size and it was not now late a backward step. The resolution then passed. Last night was ladies' night for the Rotary Club, and the ladies were out in force. All comedians had been warned against appearing in evening dress, and one Rotarian who appeared in a frock was promptly fined. There was much merry singing, with solos by Thomas Guy and DeWitt Cairns, and a

jazz orchestra, consisting of Rotarian, Sewing and Putnam, added much to the effect. Percy R. Smith was the chief. Dr. Spangler delivered an inspiring brief address on Rotary. W. R. Burditt urged all Rotarians to attend the coming banquet of trade banquet. R. D. Paterson reported for the district conference committee, had the club approved of the necessary financial arrangements to make it a success. H. Mont Jones, Henry G. Marr and H. C. Page, who had just had a birthday, were ordered to stand while Rotarian Guy and a full chorus sang with much feeling: "Daring, I Am Growing Old." Ladies' night was a pronounced success.

HE IS NOT OPPOSED TO VOCATIONAL TRAINING

To the Editor of The Evening Times: Sir,—Vocational training appears to be the subject uppermost in the minds of a portion of our citizens today. This is no doubt a very worthy subject for all citizens to consider, both from a standpoint of securing such benefits as accrue from true vocational training as well as from the standpoint of taxation. The committee representing wholesale and retail merchants and the Commercial Club appeared before the mayor and commissioners, relative to the budget for 1921, each speaker was invited to express his opinion regarding the vocational school's application for an increased appropriation. I admitted we knew very little about the subject, there were none expressed opposition to the training, but some myself included, did state that if the information we had in regard to the matter in which the St. John school was operated was correct, as it appears to be the true intentions of a vocational school were not being carried out. I understand that I am personally acquainted with having opposed a grant for this school. In answer to this, permit me to say that, having conducted my suggestions regarding possible departmental reductions, etc., I referred to the fact that while I had been invited to express an opinion on the vocational school's application, I would like to make a few enquiries because of statements I had heard on the street. The mayor stated that he intended to ask me for an opinion, as he thought all present should express their views. My statement was to the effect that I had never given the subject sufficient study to express an intelligent opinion, but at noon of that day I had read a description of the intentions and method pursued in operating what is considered to be one of the best vocational training systems on the continent. It was a comparison between this description and what I believed to be the course followed by the local school which created a doubt in my mind as to the true purposes for which vocational training is intended being locally attained. The description which I read is of the Holyoke, Mass., school, and as a means of comparing the aims of this with those of the local school, I submit the following: "The aims of the vocational school is to serve two general classes of students: First, boys who wish to prepare themselves for any of the industries for which the school offers instruction; secondly, men and women already employed during the day, who wish to increase their efficiency and earning power in their daily occupations. The aims of the vocational school may be stated in a particular way as follows: 1. To develop a new and effective type of apprenticeship training for the skilled trades. 2. To prevent the flooding of the skilled trades with half-skilled labor. 3. To raise the low standard of workmanship now prevailing in certain skilled trades to a higher level. 4. To discover groups of tradesmen now engaged in productive employment and make them more efficient by means of special trade extension courses. 5. To provide opportunities for women engaged in wage-earning occupations or in home-making to increase their efficiency and consequent earning capacity, and to develop greater interest and ability in the practice of home management. 6. To give girls between the ages of fourteen and sixteen years, who do not intend to enter a school, opportunity to train for an industrial occupation. 7. To provide for the general education of opportunity to extend their general education or to develop skill and intelligence in the trade in which they are now engaged. 8. To put into operation an effective form of vocational guidance for boys and girls, who do not know how to choose an industrial vocation, and who have no means of knowing for which calling they are best adapted."

From an analysis of the above, it would appear to me, at least, that the courses offered in the Holyoke school are intended for those seeking improvement in skill and intelligence along the line of trade in which they are now employed. May I ask the question if the St. John courses are offered to the same class of pupils? While it is not to be expected that the St. John school, as yet in its infancy, has reached that standard of efficiency which has been attained by the Holyoke school, it is to be expected that the true intention regarding the form of education and the class of pupils to be educated will be followed. When a person realizes that the industrial supremacy of the country depends largely upon maintaining of skilled trades at a high level, and with changing industrial conditions and the present tremendous pressure for production, and that little opportunity exists in the modern manufacturing establishment for the old, but thorough, style of training apprentices, this realization alone justifies the maintenance of a well-equipped and truly operated vocational school. Another question is prompted: If we do not adhere strictly to the proper application of vocational training, may we not realize in the near future that some of our expenditures in regard to education are wasted? Is it the intention to provide an educational opportunity such as will afford boys and girls the privilege of graduating from high school, and then a three or four year term of vocational education? Answering this question, I submit that this was never intended. The sooner we get down to a basis upon which we establish and conform to the proper requirements and efficient operation of such a school, the sooner will the people who must bear the expense become educated to the necessity for such an expenditure. Thanking you for permitting me to trespass upon your valuable space, believe me to be, Yours very truly, H. R. McLELLAN, Sec. Commercial Club.

LARGE METEOR FELL

Shock Was Felt For 100 Miles When It Struck Earth.

Johnstown, Pa., Jan. 27.—The falling of a large meteor north of Somerset, Pa., caused hundreds of residents throughout the Somerset-Westmoreland district to believe that an explosion had occurred. When the meteor struck the shock was felt for many miles, points as far away as Connellsville reporting that earth tremors had occurred. The exact spot where the meteor landed had not been located at a late hour tonight. Residents of the mountains in the vicinity of Somerset reported that the meteor, in its descent, caused a white streak through the air resembling steam, and that the object looked like a ball of fire.

"JAZZ" DONE IN LONDON

London, Jan. 15.—(Associated Press, by Mail)—The "jazz" is dead in London, says P. J. S. Richardson, one of the fore-

most English authorities on dancing. He declares that no "new" dances will be popularized this year, but the fox-trot and tango, which have held international interest for two or three seasons, will be standardized. "Previously those taught the same dances by different teachers found themselves hopelessly at sea when they tried to dance together," he says. "Through standardization, on which the majority of dancing instructors in London have now agreed a common framework in the steps will be insured without eliminating all chance of introducing individual variations. Freakish and eccentric 'light gymnastic' such as exaggerated forms of 'jazz' are rapidly passing out."

SPILED WHISKEY ON ICE

Ontario Farmer Discovered Wet Stock in Barn

Corwall, Feb. 1.—Special Revenue Inspector S. W. Day, who is in charge of the collection of all revenue along the south side of the river, states that a farmer named Southwick, who owns a farm near Champlain, hired a couple of men to work for him. Hearing that his helpers were engaged as go-between for rum runners, Mr. Southwick confronted the men with the charge, but it was denied. The owner decided to investigate for himself and began a hunt about the barn. Raising part of the floor in one barn he uncovered sixty cases of Canadian whiskey. He did not notify the officers, but took the matter into his own hands, harnessed a team to a sleigh and drove the liquor to the river. He then took an axe and smashed every bottle, letting the contents run over the ice.

BIG DECLINE IN LIVE STOCK IN UNITED STATES

Washington, Feb. 1.—Value of live stock on farms and ranches in the United States has decreased more than two and a quarter billion dollars during the last year and the amount of live stock about ten million. Cattle and sheep decreased a number more than four per cent, and swine more than seven per cent. There was a decrease in the value of more than half a billion in milk cows and about the same for other cattle, while swine showed a decrease of almost half a billion dollars, and sheep almost a quarter of a billion dollars.

MORE ACTIVITY IN CLOTHING TRADE

(Toronto Globe) An increase in production is being noticed by employers of the clothing trade industry. In an instance the increase is marked, and is reported more than 20 per cent since November. This important improvement of labor conditions in the industry was the point employers made in discussing general conditions. "I can't give the exact figures, but our production is now quite satisfactory," said General Manager Rogers of the Canada Cloak Co. "This is due to the fact that we put up against the strike of the clothing workers' union, and we are now doing very well on production."

Mr. Rogers said the company was forced to make a stand because of restrictions which clothing workers' union were placing upon output. He declared union regulations had become so severe that a worker was permitted to press only so many garments per day. This was costly and increased the price of garments.

A representative of another section of the trade, which has an arbitration board, with an independent chairman to deal with labor disputes, reported that production was increasing.

"We are doing it by conference with employees," said he. "We call them together and explain the situation, telling them there must be an improvement. We are getting results, and while the process may be slow, we believe these results will be permanent."

PRICES OF DRY GOODS REBOUNDING, SAYS HAHN Campaign to Get Public to End "Buyers' Strike" Proposed to New Jersey Retailers.

Atlantic City, Feb. 1.—Following a recent sharp decline, forced by the "don't buy" policy, prices in the retail dry goods market were rebounding, but the time was not far distant when a medium would be reached, Low Hahn, secretary of the National Retail Dry Goods Association, told delegates to the annual convention of the New Jersey Retail Clothiers' Association.

"Because of the uncertainty of conditions retailers are continuing to hold back," said Mr. Hahn. "The retail shelves are becoming practically empty. Manufacturers say that if retailers in the dry goods business are the same orders as in normal times, only 25 per cent of them could be filled. In contrast we see the demand being greater than the supply. However, confidence will soon be established and the retailers can expect normal business relations in the near future."

A. M. Loeb, a clothing manufacturer of New York city, proposed a campaign to induce the public to buy.

TEACH FRENCH IN ALL HIGH SCHOOLS OF ONTARIO

Sir John Willison Also Advocates Exchange of Teachers With Quebec.

Montreal, Feb. 1.—In a short talk to the high school boys' Canadian Club, yesterday, Sir John Willison advocated compulsory teaching of French in all the high schools of Ontario and the exchange of high school teachers, to the number of two, by five or thirty, between Quebec and Ontario, with the object of breaking down the language barrier between the two provinces.

"It is clear that in Great Britain, as in the United States, experiments in public contentment have been made by a great body of opinion favorable to government interference in business or in transportation," said Sir John, speaking at a Canadian Club luncheon. The subject of his address was "The Railway Situation in Canada."

WOMEN URGE THAT THEY BE NOT GIVEN THE VOTE

Ottawa, Feb. 1.—The Federation of French-Canadian Women, Hull branch, has gone on record as opposing votes for women in municipal, provincial or federal elections. A resolution contends that "the franchise given to the women by the federal government is contrary to the best interests of the family, society and the country as the law was in effect at the time of the franchise."

The resolution was concluded with the opinion that nothing has been originated that would destroy and prove fatal to the family and society as woman suffrage.

Montreal, Feb. 1.—The possession of provincial suffrage for the women of Quebec has become a forlorn hope as far as this section is concerned, according to information received indirectly by the suffrage committee of the Montreal Women's Club. In the opinion of Henry Miles, M. L. A., last year's sponsor of the measure proposing to admit women to the practice of the law in the province, neither the measure championed by him in last session nor the suffrage bill will have a hearing this session.

TALKS MASS ACTION BY THE UNEMPLOYED

Montreal, Feb. 1.—Determination that the city should be made to provide the unemployed with a decent living this winter was expressed at a large meeting, attended mostly by ex-servicemen, in the late afternoon under the auspices of the One Big Union.

Taking as his slogan: "No surrender, no compromise," P. J. Rea, a young ex-soldier, declared that the time for delegations and talk was ended, and that the only way in which the unemployed could gain a square deal was by relying upon themselves and using mass action.

DECIDE VENO CANNOT PLAY WITH CHATHAM

Fredericton, N. B., Feb. 1.—The official ruling of the Amateur A. Union of Canada in the case of Stanley Veno and the Chatham team of the N. B. H. L. was received here this morning. It follows: Stanley Veno, Secretary N. B. H. L. Dear Sir,—With reference to the standing of one Stanley Veno of Chatham, who played in last Wednesday night's game with Chatham against Fredericton, would say that, under our ruling, this man is the property of the Moncton team of the Eastern League, and was therefore not eligible to compete with the Chatham team.

Kindly take note of this. Yours very truly, P. M. P. B. A. A. U. of Canada.

YANKEES PICK SITE FOR NEW BALL PARK

Decide to Purchase Hebrew Orphan Asylum Plot, 186th Street and Broadway—A Great Stadium is Planned.

(N. Y. Times.)
The New York Yankees, who have been living with their step-brothers, the Giants, for so long a time that the hospitality of the latter appeared slightly frayed in spots a year or so ago, are to erect a home of their own in the near future.

That is to say, they will begin work upon it in the near future—next June, to be exact. This is going to be something far more stately than a simple wooden coliseum, and it will take a long time to build it. Two complete baseball seasons will have become history, and the Yankees will have had many chances to win a pennant, before they can expect to move their lares and penates, consisting mostly of bats and gloves, from the Polo Grounds to their new abode.

The two colonels, Ruppert and Huston, who are planning to treat the family of players to this expensive and up-to-date mansion, have selected for its site the grounds at present occupied by the Hebrew Orphan Asylum, extending between Broadway and Amsterdam avenue and being bounded on the north and south by 186th and 187th streets.

The Yankees' owners have had the option on this property for some time over a year, but the transaction was delayed pending the finding of new quarters for the asylum now located there. The institution has now closed a deal for a plot on Gun Hill road in the Bronx, although there still remain, it is understood, two or three small parcels to be secured. Title to these is said to be assured and obstacles are thereby cleared from the Yankees' pathway in their plans for migration.

Before the owners of the New York American League Club are out of the woods—if the negotiation is delayed, it may run a bit under this sun, but not enough so that what the Yankee's owners manage to save out of the \$2,500,000 on the entire proposition will fill a good-sized coal cellar. The plan of the structure is not dissimilar to that of the Brush Stadium at the Polo Grounds, comprising upper and lower stands with a long horseshoe sweep around two sides of the diamond.

The information regarding the plans was disclosed in a final report made by the E. W. Dodge Company, construction experts of this city, to the Osburn Engineering Company of Cleveland, which is to erect the structure.

The report states that if work is begun on the great arena in the coming June, according to the present design, there is no reason, barring only aerial visitations from on high, such as siroccos and tornadoes, or from below, such as earthquakes and strikes, why the Yankees should not be able to march triumphantly into gleaming new grounds in April, 1923.

The seating of the stadium will be larger than that of the Brush Stadium, for the grounds are of somewhat greater extent than the Polo Grounds. Steel and concrete are the materials to be used in the structure, which will surpass in seating capacity any stand ever erected for a baseball park. In fact, it is said, only the Yale Bowl will surpass the new stadium in this respect among all stands built for purposes of sporting spectacles.

NEWFOUNDLAND COD.
St. John's, Nfld., Feb. 1.—Further progress in the marketing of large quantities of Newfoundland codfish, which have been on the exporters' hands for some time because of difficulties of sale in the usual markets of southern Europe, was reported by Premier Squires, yesterday. He announced that the Italian food control board had agreed to buy 22,500 tons. He said Italy was expected to increase its purchases substantially during the next three months. The prices were not announced, but it is expected they will be somewhat below the figures stipulated by the former regulations.

Indian Prince's Debut as Wrestler a Failure—Some Ring Bouts Last Night—News of Baseball.

Saranac Lake, N. Y., Feb. 1.—Seventy of the best skaters of Canada and the United States were gathered here today for the opening of the annual amateur international speed skating championships, which will continue through Thursday.

Among the entrants are Russ Wheelwright, who won the championship in Montreal last week; Charles Jewstraw, of Lake Placid, N. Y., runner-up in the Canadian title event; Charles Gorman, of St. John, N. B., and Mike Goodman, of Winnipeg.

London, Feb. 1.—All records have been broken by the application for seats for next summer's world lawn tennis championships at Wimbledon. More than 10,000 applications have been received. There is accommodation for only 5,000. Each ticket costs sixty-three shillings.

New York, Feb. 1.—Gobar, an Indian prizefighter from Calcutta, made an unsuccessful wrestling debut last night, losing to Tom Drank of Holland, after only fifteen minutes and thirty seconds. Drank won with a head scissors and arm lock.

Ring Notes.
New Haven, Conn., Feb. 1.—Willie Murphy of Staten Island was given the referee's decision over Charlie Pilkington of Meriden at the end of a 15-round bout here last night. Murphy's weight was 125, Pilkington's 120.

St. Louis, Feb. 1.—A scheduled 8-round bout here last night between "Babe" Asher, bantamweight champion of the American expeditionary force, and Ashton Donza of New Orleans, was stopped in the eighth round by the referee to save Donza further punishment.

Worcester, Mass., Feb. 1.—George Robinson of Cambridge, Mass., was given the decision over Jack McCarron, Pa., in a ten round bout here last night. Robinson weighed 169 and McCarron 160.

Aurora, Ills., Feb. 1.—Pal Moore was given the newspaper decision over Jimmy Kelly of Chicago last night in a fast 10-round bout. The men are bantamweights.

Los Angeles, Feb. 1.—Jack Dempsey, world's heavyweight champion, is in Los Angeles today. He says he is planning on appearing in a motion picture.

Baseball.
New York, Feb. 1.—The signed contract of Pitcher Clarence Mitchell was received at the Brooklyn National League Club headquarters today. It was the first 1921 contract received by the Dodgers.

New York, Feb. 1.—Geo. Kelly, first baseman of the New York Nationals, who refused to accept terms of a contract sent him, has been tendered a "more liberal offer," the club secretary said today. Kelly is in California. Jess Winter, a right handed pitcher released to the Milwaukee Club of the American Association, has been recalled and ordered to report to San Antonio, Texas, for spring training.

ACQUITTAL OF BRINES ORDERED BY COURT

Philadelphia, Feb. 1.—Judge Ferguson in criminal court granted a motion of the defence to take from the jury the case of William J. Brines, charged with first degree murder in connection with the death of Elmer C. Drewes, on the ground that insufficient testimony has been produced to connect the defendant with the murder.

After the order had been restored, Judge Ferguson instructed the jury to acquit the defendant, which it did without leaving the box.

Drewes, who was twenty-three years old, was found dead on the outskirts of the city Oct. 17, with a bullet wound in the forehead. A few days later Brines' automobile was found abandoned and several days after he surrendered to the police when a warrant was issued charging him with Drewes' death. The commonwealth had not witnesses of Drewes' death, and all the evidence was circumstantial.

COSTLY FIRE AT MOUNT ALLISON

Lingley Hall, Mount Allison, Sackville, erected in 1860 at a cost of \$10,000, was destroyed by fire last night. It is not known how the fire originated, but it had gained considerable headway when discovered and despite strenuous efforts on the part of the students the building was burned to the ground. The loss is estimated at about \$35,000. A German Pöker aeroplane that had been presented to the university as a war trophy was consumed.

The building was used as a gymnasium by the students of the ladies' college and the university and was remodelled after being moved from another site about eight years ago. Some extensive equipment was installed and its consumption by fire is a distinct loss.

"A PAIR OF SIXES" MAKES BIG HIT

Large House Enjoyed Delightful Comedy Staged by K. of C.—Again Tonight and Wednesday.

"A Pair of Sixes," a comedy drama from the pen of Edward Keple, was presented in an able manner in St. Vincent's Auditorium last evening by the Knights of Columbus, under the direction of Mrs. A. C. D. Wilson. The seating capacity of the auditorium was taxed and all present seemed to thoroughly enjoy the production. The play was teeming with humorous situations and the laughs were brought out in a manner which reflects credit on the participants.

At first the loser takes his misfortune in a manner which delights his partner, but later when the former's fiancée takes a hand in the game the tables are turned and the senior partner is driven to such a point of frenzy by complications arising in his home that he is only too anxious to terminate the contract.

During the entire action of the play the audience were regaled with good, wholesome comedy and their hearty laughter and applause was testimony of their appreciation.

John U. Hegerly and Frederick A. Hazel were the partners, and the choice was a good one. The former is conceded to be one of the best amateur actors in the city, and his versatility is his "strong point." He played a lone Queen of Hearts and lost to his partner's pair of sixes and was forced to become a valet. It was while in this capacity that he was given an opportunity to demonstrate his ability, which he did in a most commendable manner.

Mr. Hazel also gave a clever interpretation and his acting throughout was excellent. His pair of sixes gave him a temporary advantage over his associate in business, but he failed to take into consideration the advent of the fair sex, which was responsible for his undoing.

Joseph Kennedy, in the role of Thomas J. Vanderholt, lawyer for the firm, attempted to officiate as peacemaker, but Mr. Hazel gave a clever interpretation of his position and was evidently as pleased as the partners when his valet scheme was abandoned.

Miss Isabelle A. Gormley made a hit in the role of Mrs. Nettleton. Her lines called for a variety of acting and the manner in which she essayed them won for her new laurels. She had the audience convulsed with laughter when she grew suspicious of her spouse and became hysterical.

Miss Florence G. Walsh, fiancée of the senior partner, gave a clever portrayal. It was through her ingenuity that the compact between the two partners was squashed and peace eventually restored.

Miss Emma Conlogue, as Cordelia, a maid, acted her part well. Her lines were not lengthy, but the manner in which she essayed them won for her well merited praise.

Miss Bernice F. Bowden, D. J. Hegerly, J. G. Hennessey, Robert B. McDade, William N. Carney and Edward McCann acted minor roles in a satisfactory manner and were all instrumental in the success achieved.

Credit is due Mrs. Wilson for the able manner in which the comedy was presented. It will be repeated tonight and again on Wednesday. The proceeds are for St. Vincent's school building fund.

"The Devil's Passkey!"

A Picture of Paris, the Wicked and Paris, the Wonderful.

A grown-up photodrama for grown-up people. A picture whose author knows—and who knows you know. Sensational, because it is true—human, because it is real—gripping, because it gives you some people you know well in the one tremendous crisis of their lives.

Paris—you'll think you're there! The real capital of the world—Paris, the wicked and Paris, the wonderful! The races at Longchamps, the Theatre Francaise, the gay boulevards, the glittering shops, the whirl of society—and, in the midst of it—all an American playwright and his all-too-pretty wife, admired and famous and then, suddenly, the centre of a scandal that sets all Paris by the ears.

Suspense? You said it! For once you'll see a picture that your eyes can't leave until it's over. And when the last big moment comes you'll tremble for fear the husband will refuse to see what you see. Suspense? When you see the "THE DEVIL'S PASSKEY," you'll know at last what this word can mean.

Owing to tremendous cost of this production the price of admission will be slightly increased.

'Bout Time You Woke Up

It's always easy to make decisions AFTER an event. Remember how, during the war, you wished you'd only had foresight enough to get in a stock of good suitings at the pre-war prices? When Turner ceases selling winter overcoats at COST then you'll wish you'd looked ahead far enough to slip into a new coat for next winter.

Still time--if you're sincere!

A FREDERICTON ISSUE OF BONDS

Legislation for \$40,000 for Water and Sewerage Extension.

(Special to The Times.)
Fredericton, N. B., Feb. 1.--The city council last night decided to seek legislation for the issue of \$40,000 for the extension of water and sewerage during the coming year. The full amount mentioned probably will not be required, but a considerable proportion of it will be used.

Ald. Neill said that provision for extension must be made, as there had been a demand for it last year, but the financial situation made it impossible. Woodstock road from Smythe street west, Regent street from the C. P. R. tracks south and the first intersecting street and Grey street all needed both sewerage and water. Estimates of cost were: Woodstock road, \$30,344.94; Regent street, \$2,706; Grey street, \$8,353.

Customs returns for January here show a falling off both in duty and value of imports. Statistics are: Duty, January, 1921, \$7,022.01; January, 1920, \$10,015. Value of imports, January, 1921, \$10,500; January, 1920, \$66,206.

BRINGS HOME GREAT WORD OF LOCAL SKATERS

Alfred Henderson Tells of Work of Charles Gorman and Frank Garnett in Montreal.

Alfred Henderson returned home yesterday from Montreal, where he had been attending the Canadian skating championships. He brought with him four medals won by Charles Gorman, who competed in the championships as a representative of the Commercial Club of this city. Three of the medals are of silver and have the form of a skater on the face, also a note of the event for which it was awarded; the fourth is made of bronze and is of the same design.

Mr. Henderson said that St. John had every reason to be proud of the showing made by Gorman, who was conceded to be the best skater in the meet by the head trainer at Lake Placid, who was in Montreal with a string of skaters.

Referring to the races he saw the half mile was one of the feature events, Jewestrava, Moore and Gorman lighting it out for honors. Down the side Gorman outwaded his opponents, but being unaccustomed to the sharp turns, had to coast around them and this gave his rivals an advantage. About thirty yards from the finish Gorman was in third place and although the pace was a terrific one he had sufficient strength and skill to break into a sprint which carried him ahead of Moore and close to Jewestrava, in which position they finished. As he went over the line Gorman tripped and slid some twenty yards. The finish had been so exciting that the crowd cheered for some time.

The semi-finals also provided some great racing. Gorman in his heat in the 222 made the best time of any of those competing, covering the distance in 20-4-5 seconds. On more than one occasion Gorman was forced to drop behind in order to break clear of the other skaters, but was always able to make this loss up going down the sides. He showed wonderful endurance in the longer events and skated the mile with his hands behind his back until near the finish when he made a wonderful sprint that nearly carried him to victory. In the two mile some spectators contended that Gorman had been tripped, but he entered no protest and as the judges had not noticed it there was nothing said about the matter.

One of the most remarkable features of Gorman's great showing was that he went without a person to look after him while Wheeler was said to have had seven men and other skaters two and three, all waiting and ready to apply the rule books at every event. Mr. Henderson and another former St. John man helped Gorman to the best of their ability. Frank Garnett, another St. John boy, seemed to be in hard luck. He skated a beautiful race in the 220 yards, in which he finished second, but also had difficulty regarding the corners and lost chances to place. Murray Bell took part in the events, but did not succeed in winning any of the heats.

All three are to take part in the national championships in the United States.
