

The Evening Times and Star

ST. JOHN, N. B., MARCH 3, 1919

The St. John Evening Times is printed at 27 and 29 Canterbury street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

HOUSING IN ST. JOHN.

The Board of Trade and Rotary Club will unite this evening in a discussion of the housing question. There are two phases of the subject as far as this city is concerned. We need not only more and better houses but a proper housing code.

The action of the federal government in providing loans for housing is being followed by legislation in all the provinces. There must also be action, however, by the municipalities, and this evening's discussion should do much to make the general situation clear.

The Times prints today a copy of the housing bill now before the legislature of Nova Scotia. The New Brunswick bill, also a bill dealing with the question.

APPEAL TO THE LEGISLATURE.

The New Brunswick Power Company has as much reason to be delighted as the people of St. John have to be indignant at the report of the Currier commission. A careful study of the report shows that the city is asked to provide dividends on \$3,100,000, which will later be increased to \$3,600,000, and for no better service than when they were asked to pay dividends on something like \$2,500,000.

No bill based on this report must pass the legislature without a determined protest by the citizens. They know that the service rendered by the new company is no better, if as good, as that rendered by the old company, and nothing can convince them that they should be condemned to pay, for all time to come, for something they do not get.

The Poles and Ukrainians are determined to fight it out. Evidently the era of peace and good-will has not arrived within their borders.

THE TARIFF QUESTION.

The following is the Hansard report of what Hon. J. A. Calder said in the House last week on the question of the tariff:

"I am referring now to the tariff question between east and west. You know we might as well look at squarely in the face and recognize the situation as it exists; there is no use dodging it—that situation is there. What are the people of Canada going to do? Can it be settled in some way or another? Is there a possibility of a settlement? There is no doubt as to the feeling out west. There is no division among the people. All parties are practically united. What is to be done? You will have an opportunity later in the session to consider the question. In the meantime I simply wish to point out to the House, and to the people of this country, that that is one of the other questions on our horizon that in many ways looks dangerous; at any rate it divides the people of this country into two hostile camps, fighting against each other all the time. If Canada is to be what we hope it shall be, then an honest and earnest attempt must be made to solve that problem which stares us squarely in the face."

"My honorable friend from Brome, if I judge his speech aright, seems to think that there is just one thing to be dealt with at the present time, and that is the tariff. Well, there is just this possibility that our houses may burn down. We have problems confronting us right now, demanding immediate attention, all kinds of problems that must be considered and solved during the next few months, and I wonder if the people of this country are asking us to lock horns just at this moment on a question that has divided the people of Canada for something like forty or fifty years, I doubt it very much."

Presumably Mr. Calder expresses the views of the Union Liberal members. If so, a vigorous attempt will be made to adopt a moderate measure of tariff reform and postpone sharp controversy for a later session of the house, or until the urgent matters of unemployment, soldiers' settlement and others arising out of the war have been dealt with in a practical way.

The number of soldiers who were killed or died of wounds in the war was 7,354,000. This is a frightful toll, and there are to be added those who died of disease and the great host of civilians who were murdered or died of starvation or pestilence. Russia was the greatest sufferer and Germany came next in the loss to her armies. There came France, Austro-Hungary, Britain, Italy and Turkey in that order, the Turks losing 400,000 men. The losses of the small nations, Belgium, Roumania, Serbia and Montenegro were also heavy in proportion to their armed strength.

The chairman of the Portland, Me., Harbor Commission says that several times in the past twelve years the C. P. R. has inquired about the possibility of securing steamship berths there.

The St. John Typographical Union declines to agitate for five per cent beer. Therein it sets an excellent example to other unions.

AN EXPLANATION.

"I say, Russian, what is the meaning of this Bolshevik beast?" "It means absolute equality—nobody has anything to eat."

NEW WOOD FOR MAKING NEWSPRINT

Birch Can be Used—Will Help in Reproduction of Cut-Over Land. Quebec, March 2.—The most serious obstacle to the proper handling of the mixed forests of Eastern Canada has been the lack of utilization of the hard wood species, particularly birch. This is especially true of the mixed forest lands held as pulpwood limits, where, over vast areas, the coniferous species comprise from one-quarter to one-half of the stand, the balance being hardwoods.

YOUTH IS SHOT; FATHER ARRESTED

Sensation Develops in Ontario Case—Had Been Out After Rabbits. Kingston, March 3.—A sensational arrest was made on Saturday when Provincial Detective Boyd took into custody James A. Hartwick on a charge of murder in connection with the death of his son, Frederick Hartwick, who was found dead within 100 yards of his father's house in the village of Parham on Feb. 12. Father and son went out into a bush a short distance from Parham on the afternoon of Feb. 12 shooting rabbits. The father came home that night, but the son did not, and the next day a searching party found the dead body of the young man.

WAS WITH THE P. P. C. L. I.

An enjoyable gathering occurred at the home of Mr. and Mrs. H. J. Elworthy, 85 Duke street, recently in honor of Private J. Elworthy, who has just returned from France. Games, etc., helped to make the evening pass pleasantly and the welcome home of the returned soldier was a hearty one. Private Elworthy enlisted in Regina on Jan. 8, 1916, and after five months of training was sent with a draft to the Princess Pats, joining that unit on June 9. He saw twenty-nine months of service with them, leaving on Nov. 16, after the armistice had been signed to return home. Although a native of England, he felt no desire to remain in the old country and was glad to get back to Canada again.

GERMANY'S ARMY LIMITED TO 200,000; SUBMARINES BARRED

Paris, March 1—(By the Associated Press)—Marshal Foch presented today to the council of the great powers the military terms to be incorporated in the peace treaty. These will be considered on Monday with the naval terms first submitted to the council.

The military terms provide for the disarmament of Germany down to twenty divisions of ten thousand men each, including fifteen divisions of infantry and five of cavalry.

Severe restrictions are placed on the manufacture of all classes of war materials, and the military and commercial use of airplanes is limited to the minimum.

Beyond Marshal Foch's presentation of the terms today they were not discussed.

The naval terms now before the council provide not only for the complete suppression of Germany's submarine equipment but also for the termination of all submarine warfare by all nations throughout the world, thus ending the use of the submarine in naval warfare.

The provision for the dismantling of the fortifications of Heligoland and Kiel Canal has been made the subject of reservation by Admiral Beason, representing the United States, whereby this shall not be a precedent applicable to American canal and harbor defences such as Hellgate, Cape Cod Canal and others.

BATTLE DEATHS DURING WAR

Washington, March 1—Battle deaths during the war among all participants as far as available statistics show, were given today by General March as 7,354,000. This represents only men killed in action or died of wounds.

In the list prepared by the general staff Russia led with a total of 1,700,000, Germany was second with 1,400,000 and the United States last with 50,000.

Approximate figures for other nations were:
France, 1,385,000; Great Britain, 70,700; Italy, 460,000; Turkey, 400,000; Belgium, 102,200; Roumania, 100,000; Serbia and Montenegro, 100,000; Austria-Hungary, 800,000; Bulgaria, 100,000.

PROPOSAL FOR CHURCH LEAGUE

New York, March 2—Plans whereby the Roman Catholic, Greek, Russian and Protestant churches may organize a league similar to that of the proposed society of nations, "to co-operate in Christian work as brethren" will be laid before the pope by three Protestant bishops, it was announced here today.

Right Rev. R. H. Weller, Protestant Episcopal bishop of Fond Dulac (Wis.), Bishop Weller said that accompanied

PROPOSAL FOR CHURCH LEAGUE

by Bishop Charles Anderson of Chicago and another bishop yet to be named, he would journey soon to Rome in behalf of the church league.

A two storey wooden dwelling in the Marsh road, close to the Crosby Masses plant, and which was in process of repair, was totally destroyed by fire about 11:20 o'clock Saturday night. The house was owned by Samuel J. Holder. W. Norman Karle, who was doing the repair work on the house, lost a valuable lot of tools.

N. S. LABOR MEN ASK FOR 36-HOUR WEEK

Halifax, N. S., March 1—The labor convention, today, adopted a platform for free and compulsory education in the province, a 36-hour working week and a system of taxation whereby land held for speculative purposes be assessed at the value and selling price set by the owner.

RECENT WEDDINGS

Monday, March 3.
Rev. Dr. O. C. S. Wallace, formerly chancellor of McMaster University and now pastor of the Westmount Baptist church, Montreal, was married yesterday morning at the Germain street Baptist parsonage to Miss Helen Moore, daughter of Rev. John W. Moore of Freetown, England. Rev. S. S. Poole, pastor of the Germain street church, performed the ceremony.

RECENT DEATHS

Mrs. George Diggs, of 884 Duke street, died yesterday morning, aged sixty-five years. Mrs. Diggs had been in poor health for more than a year. She is survived by her husband, three daughters, a brother and six grand children. The daughters are Mrs. Matilda Louise Dutton and Mrs. Cassie Goodman, both of Boston, and Mrs. Clara Stewart, of St. John. Charles Hall, of this city, is the brother. The funeral will be held at 3:30 Tuesday afternoon at St. Philip's church, the pastor officiating.

COMMITTEE SENTENCES UNDER ESPIONAGE ACT.

Washington, March 3—Attorney-General Gregory has recommended to President Wilson commutation of the sentences of persons convicted under the espionage act, a review of whose cases by officials of the department of justice has revealed that the evidence of willful intent to violate the law was too circumstantial to warrant the carrying out of the full sentences fixed by the trial juries.

NOVA SCOTIA'S HOUSING POLICY

Money Will Be Loaned For 20 Years at 5 Per Cent

"Returned Soldiers, Working Men and Women and Those of Small Means" Entitled to Benefit—Maximum Cost of House and Land, \$3,000

(Halifax Chronicle)

The provincial government has issued an announcement regarding its policy in the matter of the housing proposition and it is being communicated to the mayors and civic and municipal governing bodies throughout Nova Scotia. It sets forth the fact of the Dominion government having agreed to make a loan to the Nova Scotia government for the housing proposition and that the province will in turn loan to municipalities upon the following terms:

The type of house to be constructed shall not exceed \$2,500 in cost for the construction of each house. The maximum cost of each house, together with the cost of the land and interest during construction, is not to exceed \$3,000.

The building scheme of each municipality including the laying out of the land and the siting of the buildings thereon, the plans of the houses, the form of construction, and the location of the land to be developed shall be approved by such person or body as may be designated for that purpose.

The loan will be for a period not exceeding twenty years at 5 per cent. Municipalities are not to make loans to individuals, firms or companies, except companies incorporated as before mentioned, and to persons who own their own land and desire to erect houses thereon for their own occupation.

If a municipality itself acquires land and constructs houses it will be loaned the full amount required therefor. The loan to be made to a housing company shall not exceed 85 per cent of the value of the land and buildings.

The loan will be made by the province to the municipalities on progress estimates as required. It is suggested that all houses be sold on the monthly repayment plan. The period of repayment must not exceed twenty years and the rate of interest 5 per cent.

The monthly repayment for twenty years to cover interest and repayment of principal will be about \$20 per month for a \$2,500 house. Interest will be charged on arrears.

The whole or any part of the principal may be repaid at any time during the twenty years.

Municipalities and housing companies must enter into agreements for sale of such houses, and give deeds for same when the payments are completed.

Such agreements for sale may be cancelled on default for three months, but a person can sell his interest in the property at any time before default.

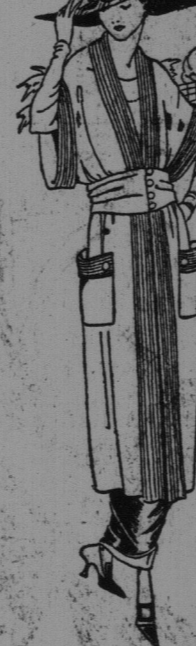

A person taking a house must covenant to repair, and to pay taxes and insurance.

Municipalities are to repay the province monthly at the same rate as the above monthly repayments. These repayments to begin one month after the houses are completed.

Housing companies are to repay municipality in the same way, and to all the land and houses for which the loan was secured.

ITALY AGREES TO COMPROMISE

Orlando Speaks of Conflicting Claims for East Coast of Adriatic

Rome, March 3—Premier Orlando, speaking in the Italian chamber of deputies on Saturday, said that Italy had agreed to a policy of compromise and conciliation relative to conflicting claims on the eastern coast of the Adriatic. He said that, despite the treaty upon which Italy entered the war, "Fiume may be said to be threatened with a loss of Italian nationality and independence. Italy asks no more and may be able to accept no less than the annexation of those Italian lands and peoples for the integrity of her defence of the frontiers which nature herself has given."

VITAL DECISION IN NEXT THREE WEEKS

Labor M.P., Railway Union Secretary, Discusses the Situation in England

London, March 2.—Addressing a mass meeting at Watford, Hon. J. H. Thomas, labor M. P. and general secretary of the National Union of Railways, said: "The next three weeks may determine whether our country, after emerging successfully from the world war, can avoid an industrial dispute whose consequences may be almost as dangerous as defeat by Germany. It is essential that all classes should understand the situation and, without class prejudice or bias, recognize the responsibility which they cannot escape."

Regarding the railway situation, Mr. Thomas said that three courses were open—the shareholders must have less, the public must pay more, or the state must subsidize the concern. The real difficulty of the moment was to find a permanent standard, owing to the variable and abnormal cost of living. There must in a democracy be justice for all classes. A fatal mistake would be made by either side assuming that, because the consequences are so terrible, the other side would give away.

PUPILS MUSICAL. A very pleasing musicale was given Saturday evening at the home of Mrs. Bliss McLeod, Brandon cottage, Duke street, by some of the piano pupils of Mrs. Rayworth. Solos and duets were well rendered by the performers and great progress was shown by all.

Lieut. Scovil Buried. The body of Lieut. Earl M. Scovil, which arrived on the S. S. Scotland from England and was taken to St. Stephen's was buried yesterday. He was the youngest son of Mr. and Mrs. John W. Scovil and enlisted with the 86th Battalion. He later joined the kiltie battalion and received a commission. When they were broken up he joined the flying corps. He was killed in a flying accident July 21, 1918.

Shock Left Her Weak and Nervous COULD NOT SLEEP

When the system receives a shock of any kind, the heart becomes weakened, the nerves unstrung, the appetites poor, faint and weak feelings come over you, you can't sleep at night, and you wonder if life is worth living. To all those who suffer from nervous shock we would recommend Milburn's Heart and Nerve Pills as the best remedy to tone up the entire system and strengthen the weakened organs.

GREGORY GOING TO PARIS WITH WILSON. Washington, March 2.—Thomas W. Gregory, retiring attorney-general of the United States, will accompany President Wilson to Paris as general advisor and assistant at the peace conference.

Only the Rich Can Afford Cheap Tubes

That's not a paradox. For the worth of a tube is not to be measured by its life alone. Of greater import is the assistance it renders the tire. Can you afford to risk a high-priced casing to save a few cents or a few dollars on the tube within it? You may buy for two or three dollars a tube that will actually cost you \$10 or \$15 by spoiling tires.

Canadian motorists must face this question if they wish to keep tire costs down. Goodyear could produce a low-priced tube—perhaps the lowest priced on the market. But Goodyear will not do it—because to us the world-wide reputation of Goodyear Tires overshadows a small difference in tube prices.

So Goodyear Tubes are built to a more expensive standard. Built up of many thin sheets of fine flawless rubber—with the valve patch vulcanized in. And so much better are these tubes that motorists buy more of them than of any other brand.

To provide even greater tube service, Goodyear has produced the Heavy Tourist Tube—extra thick and extra good—a tube of heaping value, even at an extra cost.

When you buy tubes, say "Goodyear"—distinctly. And if you buy the Heavy Tourist—see that you get the handy waterproof bag it comes in. Box, bag and tube are stamped "Heavy Tourist."

MENTAL TESTS FOR SOLDIERS

How Uncle Sam Classified His Recruits

1,500,000 Examined

Results Now Published for First Time Show Less Than Five Per Cent in Superior Class — Where the Others Fit

(Toronto Mail and Empire). One of the most interesting studies in men's mentality in the mass has been the mind-test system in the United States army. Fashioned by experts on the Binet plan, the tests sought to grade the draftees coming into the army into six classes. In all, about 1,500,000 men were tested, and for the first time details of the tests have been officially published. The six classes were: A, superior intelligence, men equipped with high leadership and executive qualities; B, superior intelligence, men of commissioned officer type; C, high average intelligence, excellent non-commissioned officers and occasionally good commissioned officers; D, average intelligence, good privates and some privates; E, low average intelligence, good privates and routine workers; F, low grade intelligence, but fit for regular service; G, very inferior intelligence, making them undesirable. Only 4 or 5 per cent of the draft quota measured up to A class; 8 to 10 per cent up to B; 18 to 25 per cent to C plus; 25 per cent to C; 25 per cent to D; 15 per cent to E; 15 per cent to F; 15 per cent to G.

The Diagram Tests. Mental rating for military purposes seems to have been made a professor's

Cures Constipation In a Sensible Way

They Work While You Sleep — Cost Only a Quarter — and Really Bring Lasting Results

It only takes one night to prove the wonder-working power of Dr. Hamilton's Pills. They are the smoothest, easiest acting laxative yet devised, the kind that a child or delicate woman can use with comfort. You can cure constiveness quickly, surely and safely with Dr. Hamilton's Pills. Headaches you can banish for all time. Loss of appetite is replaced by a keen desire to eat. The blood is enriched and reddened, in consequence you are given new strength and vital energy. Those who are half sick, sort of run down, lacking in spirits and energy, those who find a day's toil exhausts mind and body—these are the people who can be restored by Hamilton's Pills to vigorous health that will outlast old age. Get a few 25c. boxes of Hamilton's Pills today, sold everywhere.

job, for none but a professor would have created the singular set of tests. Each class of about 500 men was first confronted with a chart of twelve problems, in which the diagrams were circles, squares, triangles, letters or figures. 8. Make a cross in the space which is in the square and not in the triangle and also make a figure in the space which is in the triangle and not in the square. Ten seconds. 9. If a regiment is bigger than a company, then put a cross in the first circle; if not, draw a line under the word "No". Ten seconds. 10. Put in the second circle the right answer to the question: "How many months has a year?" In the fourth circle do nothing, but in the fifth circle put any number that is a wrong answer to the question that you just answered correctly. Ten seconds.

7. Cross out the letter just before D, and also draw a letter before the second letter before L. 9. Cross out each number that is more than 30 but less than 40. Fifteen seconds. 11. Draw a line through every odd number that is not in a circle and also through every odd number that is in a circle with a letter. Twenty-five seconds. 12. If 6 is more than 4, then cross out the number 5 unless 5 is more than 7; if which case draw a line under No. Ten seconds. The Arithmetic Questions. Test Two consisted of twenty examples, of which the following three are examples: 1. How many are 40 and 6 guns? 19. A certain division contains 2,000 artillery and 15,000 infantry and 1,000 cavalry. If each branch is expanded proportionally until there are in all 19,000 men, how many will be added to the artillery? 20. A commission house, which had already supplied 1,897 barrels of apples to a cantonment delivered the remainder of its stock to 28 mess halls. Of this remainder each mess hall received 47 barrels. What was the total number of barrels? Test Three was designed to be a test of common sense. There were sixteen questions with three printed answers to each. The soldier was to make a cross in the square before the one he thought was the correct answer. One and a half minutes to answer all. Here are two specimens: If plants are dying for lack of rain, you should: Water them, Ask a florist's advice. Put fertilizer around them. 16. Why do some men who could afford to own a house live in a rented house? Because They don't have to pay taxes. They don't have to buy a rented house. They can make more by investing the money the house would cost.

The Perception Test. The next test, No. 4, was based on pairs of words. The soldier was to indicate his answer "same" or "opposite" to designate his answer. There were eight pairs of words, and the following is a sample: Knave-villain.....Same-opposite Null-void.....Same-opposite Wax-wane.....Same-opposite Adversary-Colleague.....Same-opposite Aitrahatic-epitaph.....Same-opposite Test 5 consisted of twenty-four mixed sentences; some of them true; some false. The soldier was called upon to straighten out the sentences and then indicate whether he thought them, taken singly, true or false.

Three samples are: 1. Cows milk give.....True-false 20. External deceive appearance are.....True-false 23. Always sleeplessness clear conscience causes.....True-false More Than 200 Questions.....True-false Test 6 had to do with the completion of a number series. "Look," said the examiner, "at each row of numbers below, and on the two dotted lines write the two numbers that should come next." Examples from near the beginning and the end follow: 6 10 15 20 25 30 21 18 15 12 10 There were other tests, dealing with general information, there being 212 questions in all. No man answered the whole 212 correctly, but 136 counted as a man as in A class, 105 in B, and so on.

GREATER LINERS IN NEAR FUTURE Keen Competition Will Mean More Super Ships Larger Than Aquitania—Cunard Line Will Take the Place of the German Steamers London, Feb. 26.—That greater trans-Atlantic liners than the Aquitania, Leviathan or the Bismarck are certain to develop in the near future is the prophecy made by a well-known ship designer. Announcement by the Cunard line that Southampton is to be its chief home port for trans-Atlantic traffic has aroused much interest here, especially in shipping quarters, where it is viewed not only as an urgent measure to replace the German liners, but to meet American competition. To Make Voyage Quicker. Clipping hours from the New York to London timetable is considered to be one of the plans of trans-Atlantic steamship lines in the future. It is now considered that the return to peace-time conditions make this absolutely essential, as America has been drawn close to Europe in the future. For a long time it is expected that travelers will boycott German passenger ships, but the Germans will make magnificent inducements to regain their lost hold. Speed and comfort will therefore be every effort of the building of big vessels. Standardized vessels, it is contended, will be "used" principally for freight carrying. The demand of competition will be so severe that the companies will have to build super-liners to attract travel. Nothing yet has been done to establish airplane connection with trans-Atlantic lines to carry mails and passengers from such ports as Plymouth to London, but this is considered certain in the future. New Plans of Cunard Line. Sir Alfred Booth, chairman of the Cunard Company, interviewed today by

BRITISH NOBLEMEN WHO GAVE LIVES IN WAR Now that the fighting has ceased, many unexpected phases of the war are being brought to light. One of the most tragic of these is the effect on hereditary titles. According to "DeBret" the succession to two hundred and seventeen hereditary dignities has been precipitated or the normal descent changed owing in the former case to premature death in action of the actual holder, or in the latter to the death of the immediate heir, and in some cases of successive heirs. In addition to this 179 being hereditary titles have been killed. There are several instances where the peerage or baronetcy is left without heir in remainder, and is threatened with possible extinction. Several other titles are still in doubt, as present holders or their heirs have been reported "missing". What may well be described as the little roll of honor contains nearly three thousand names. It includes: One member of the Royal Family, twenty-three peers, 151 sons of peers, thirty-eight baronets, 157 sons of baronets, fourteen knights, 277 sons of knights, fourteen M. P.'s, 918 companions.

How Dominion Rubber System Belting Service Helps Belt Users

For more than fifty years we have specialized in the making of belting and the solving of problems in transmitting power and conveying materials economically. We maintain a staff of belting experts for the sole purpose of helping Canadian Manufacturers to "speed up" production by cutting belting costs and eliminating power wastage. These experts will, without charge, analyze your transmission and conveying equipment in its entirety and will recommend changes only where they are necessary to increase the efficiency of that equipment. You are under no obligation to us in availing yourself of this service—the only return that we request is that you purchase Dominion Rubber System Belting when you have been convinced that the changes recommended by our engineer will be beneficial. This special service is available through any of our branches. Phone, wire or write the one nearest to you and let us prove to you that the kind of service we have given to Canada's largest industries and the kind we want to give to you, means more than just selling better belts.

DOMINION RUBBER SYSTEM AND ASSOCIATED COMPANIES Services Branches Halifax, Fort Williams, St. John, Vancouver, Quebec, Brandon, Montreal, Regina, Ottawa, Saskatoon, Toronto, Edmonton, Hamilton, Calgary, London, Lehighville, Kitchener, Vancouver, North Bay, Victoria.

Carnation Milk As Milk and Cream Add to this advantage its other conveniences. You can buy it with your groceries—any quantity—ahead. You need never be "caught without" milk. Add to this its economy—it will "keep" in the can for several months, when the can is opened for several days. There is no waste with Carnation Milk. No worry, about milk delivery, no "running short" of milk, no waste—surely you will get your milk supply in this modern way! Your Grocer has Carnation. Your grocer is the Carnation Milkman. Ask him to send you three or four trial cans (16 oz. tall size). Directions on every can. Have you received your copy of "The Story of Carnation Milk"? A splendid booklet—contains more than 100 tested recipes. Sent FREE—address us at Aylmer, Ont.

CARNATION Milk comes to you doubly richer than ordinary Milk. It is thus more convenient than ordinary milk. You can use it as cream for tea, coffee, fruit and cereals. You can whip it—chill it first, of course. You can also use it in every way you use ordinary milk—for the children's drink, for cooking. Because it is evaporated—you should dilute it first—add an equal quantity of water. Carnation Milk is both cream and milk—the only milk supply your home needs. Made in Canada by Carnation Milk Products Co., Limited Aylmer, Ont. Seattle and Chicago, U.S.A. Condensed at Aylmer and Springfield, Ont. Canada Food Board License 14-96 and 14-97. "from Contented Cows"
