WHITE SOX HOPE TO EVEN UP THE SERIES TODAY

Fighting Spirit of The American League Leaders Aroused

AGAIN THE FAVORITES

Reds Equally Confident—Credit Yesterday's Defeat to Kerr's Marvelous Pitching and Their Unfamiliarity With the Grounds

Chicago, Oct. 4.—Reassured by a 3 to 2 victory over the Cincinnati Reds in the third game of the world's series, the Chicago White Sox today declared they were ready to back up Eddie Cicotte, their one-time battered ace, with the fighting spirit that brought them the pennant in the American League and won up the series at 2-2. The pitching that brought them the pennant in the American League and won up the series at 2-2. The pitching that brought them the pennant in the American League and won up the series at 2-2.

Following is the probable line-up for today: Cincinnati—Bath, 2b; Dumbert, 1b; ...

Yesterday's Receipts. Chicago, Oct. 4.—Following is the statement of the attendance and receipts in yesterday's ball game:

Total attendance, 29,126; gross receipts, \$90,699; players' shares, \$48,907; club's share, \$23,004; national commission's share, \$9,696.

Weather Uncertain. There were patches of dark, shifting clouds in the sky this morning, but no indication of immediate rain.

CARDINAL MERCIER IS IN BOSTON TODAY

Will Assist Tomorrow at High Mass at Which The Belgian Royal Family Will Be Present

(Special to Times.) Boston, Oct. 4.—Cardinal Mercier of Belgium arrived this forenoon and will assist today at the residence of Cardinal O'Donnell. Tomorrow and on Monday he will be constant on the move.

He will, with Cardinal O'Donnell, assist at the solemn high mass at the cathedral tomorrow morning. The king and queen of the Belgians will attend, making it one of the most distinguished gatherings ever assembled in the cathedral.

Others attending will be Crown Prince Leopold and the royal suite, state and national representatives. The public reception is scheduled for Monday in 'Annex Hall.

The civic welcome for the Belgian royal party will be at 8:30 on Sunday at the Copley-Plaza Hotel and that at Inverard at 4:15. Their stay here will be limited to twelve hours.

Heads and Pheridans WEATHER REPORT

Scattered Showers. Nighttime—Light to moderate winds, air mild cool; Sunday, moderate winds, mostly cloudy with scattered showers.

New England.—Cloudy, showery, rather probably tonight and Sunday; warmer tonight; light variable winds.

PROMPT RESPONSE TO CALL FOR INFORMATION OF CITIZENS' ARMY

Government Measure To Aid In Maintenance of Food Supply

As Hiram Sees It

Mr. Hiram Hornbeam was evidently in an indignant mood when the Times reporter met him. "Did you fall into the trap?" he queried the reporter. "I just took Hiram into the hotel to get a little rest, but he went on a street car. I'm going to bring a suit against him for libel."

London, Oct. 4.—Efforts of trade unionist mediators to find some means for bringing the government and leaders of the National Union of Railwaymen together have not been abated, in spite of the breach in negotiations.

There were many conjectures among the people whether King George, who will arrive in London this evening, will be likely to invoke his authority and re-assemble parliament, in view of the threatening aspect of the situation.

It is expected they will approach Premier Lloyd George on Monday, and then lay their propositions before the trades congress to be held on Tuesday.

There is no much to be said that the efforts of the intermediaries were being welcomed by both sides. "There is too much involved to admit of our losing our grip," said one of the mediators.

The government in its noon communique on the situation reported considerable improvement in the transport situation.

The statement reads: "Plans are actively in preparation to meet the situation caused by the refusal of the strike leaders to accept arbitration. The railway services are still growing. Freight trains are increasing in number. The food situation is unchanged. The stocks are well distributed and are more plentiful than on the first day of the strike. The response to the call for volunteers shows the public determination."

The Citizens' Army. Premier Lloyd George's appeal for the formation of "citizens' guards" throughout the country met with a prompt response on all sides today.

Representative committees were formed everywhere to recruit the guards, whose duties will be to assist the police in the protection of citizens engaged in the maintenance of the supply of food and otherwise to preserve order.

London, Oct. 4.—In an article contributed to the Daily News today, referring to an accusation that he is animated by personal ambitions, Henry Thomas, secretary of the railwaymen's union, declares that he is not a member of the British cabinet.

Mr. Thomas warns the country that if other trades unions join the strike, it may result in a class struggle which "not all my counsel or moderating influence may avail to save the country from a violent and bloody revolution."

Mr. Thomas, in a statement given to American newspaper representatives, declared that the railwaymen had not been given fair treatment by the British press.

Speaking as the chairman of the parliamentary committee of the trades union congress, representing over 5,000,000 organized workers and their families, more than half the workers of Great Britain—"I can tell you," continued Mr. Thomas, "that the same spirit is operating now as operated in the invasion of Russia and in the refusal of her liberties to Ireland. I mention this not because this is in any way a political strike or anything but a movement to resist a reduction in wages, but because the same cannibals that already has outraged the sense of justice of British democracy in these matters is behind this attempt to crush trades unionism and bring down wages."

ONE YEAR IN JAIL FOR ATTACKING GIRL WHO REFUSED TO MARRY HIM. Sherbrooke, Que., Oct. 4.—One year in the common jail at hard labor was the sentence given to Sinal Vachon of Northam, who was found guilty of wounding with intent to maim. The accused had attacked fifteen-year-old Clara Tremblay with a knife, when she turned down his repeated proposals of marriage. The first charge laid against Vachon was attempted murder but this was later changed, it being brought out in the preliminary hearing that he was under the influence of liquor when he attacked the young girl.

Call Hungarians To Rally To Monarchy

Soviet Rule Has Cost Hungary Thirteen Billion Crowns

Blockade of Fiume Partially Lifted—Foodstuffs and Mail May Enter—Mobilization of Jugo-Slav Army Denied

Budapest, Oct. 4.—The city has suddenly become placarded with large posters summoning the people, regardless of race or creed, to rally to the monarchy and demanding an immediate meeting of the national assembly for the purpose of bringing about a monarchy.

Blockade Lifted. Rome, Oct. 4.—Orders that the blockade of Fiume be lifted have been issued by the government, and Italian authorities in the vicinity of Fiume have received an order to allow mail and foodstuffs to pass into the city, according to the Epoca.

NEGOTIATIONS BROKEN OFF. Brussels, Oct. 3.—(By the Associated Press)—Economic negotiations between Luxembourg and Belgium have been broken off by Belgium as a result of the referendum in Luxembourg under which France became Luxembourg's financial ally.

Ingenuity of carabriers are expected to follow. Bread is being rationed in Fiume at present.

Paris, Oct. 4.—Dr. Milenko R. Veselinovic, premier of Jugo-Slavia, says reports of the mobilization of the Jugo-Slav army are without foundation, according to despatches from Belgrade to papers here.

Paris, Oct. 4.—George T. Chicherin, Russian Bolshevik foreign minister, in a message sent broadcast by wireless, and received here yesterday, says: "Our intention regarding peace remains the same as when the Balfour mission arrived. We are ready to make peace at any moment, provided military operations are stopped immediately and the blockade is lifted. We have not imposed, and we do not wish to impose, communism on anybody."

William C. Bullitt, a member of the American peace delegation, in testimony given recently before a senate committee at Washington, said he had been sent to Russia in February of this year to learn the terms upon which the Soviet government would agree to stop fighting and make peace.

Paris, Oct. 4.—Rioting broke out at the Universal Portland Cement plant tonight, and a union picket was shot by one of two armed negroes who, with nearly twenty-five other negroes, attempted to return to work. Several shots were fired by the two negroes who were arrested and placed in jail. Two other negroes were chased into the woods by nearly 500 strikers.

Chicago, Oct. 4.—Tyrus Cobb still is the premier batter among the regulars of the American League, according to complete but unofficial averages made public today. The Detroit outfielder, during the past season hung up a batting mark of .281 in 124 games and hit 119 home runs in 1918 record, and giving him the league leadership for the eleventh time in the last thirteen years, in figures, Edouard Murphy, pinch hitter for the Champion Chicago White Sox led with an average of .271, but participated in only thirty-one games. Following close on Cobb's heels was Harris, of Cleveland, with a mark of .275.

Cravath of Philadelphia, last in the league, was last in hitting and fielding. Eddie Cicotte, ace of the White Sox, pitched staff was the leading hurler. He clearly established his supremacy by clearing up 29 victories against seven defeats for an average of .86.

Cravath of Philadelphia, was the champion batsman of the National League, the averages giving him record of .346 in 88 games, and while Mitchell, of Brooklyn, made a mark of .316, he cannot be considered the leader, because he played in only 84 games. Cravath also made the most home runs, his four-hundred knocking talling twice.

Next to Cravath in the list of batters is Thorpe, the famous Indian, who started the season with the New York Giants, but later was traded to Boston. Thorpe's average in 82 games was .287, several points ahead of Eddie Rousch, star outfielder of the champion Cincinnati club, who hit for a mark of .280 in 183 games.

Other leading hitters include Hornsby, St. Louis, .216; Barber, Chicago, .214 and Grok, Cincinnati, .213. In team batting, New York was first and Cincinnati second with averages of .274 and Chicago second with .270.

In pitching Cincinnati hurlers were supreme, for, leaving out Winzer, of Pittsburgh, who is credited with one victory and no defeats, six out of the next eight leading hurlers wear the uniform of the pennant winners.

All German prisoners still detained in France will be repatriated directly after the ratification of the peace treaty.

"PETITION IS A FORGERY" SAYS COL. COOPER

Sensation Sprung at Re-Establishment Inquiry

A PROTEST FROM FLYNN

Document Purporting to be Signed by 1900 Returned Soldiers is Presented But Authenticity is Disputed; Col. Cooper's Reasons

Ottawa, Oct. 3.—Toward the close of today's sessions of the special committee on soldiers' civil re-establishment, when it seemed as though the committee would adjourn without a daily sensation being sprung all such predictions were dashed by the reading of a message from J. Harry Flynn, president of the United Veterans' League. Mr. Flynn left the committee room in high indignation on Wednesday, declaring that the committee had treated him unfairly and that he was going to hold a public meeting throughout the whole of Canada and have returned soldiers pass resolutions showing what he had thought of the committee.

This morning at 11 o'clock Col. C. Cooper, secretary of the committee, received from Toronto a typewritten statement and signed by over 1,500 names, said to be those of returned soldiers. The message follows: "Toronto, September, 1919. 'Sir,—Why not question the thousands of foreigners who stayed in Canada and made their futures secure? The attached signatures are those of returned soldiers who go on record protesting against your questioning of J. H. Flynn's nationality. It should be sufficient for you to know that he threw in his lot with Canada for the upholding of right, justice and all humanity."

"We will expect to hear from you in reference to this matter." Attached to the message with number and rank indicated in the margin. Colonel Cooper tonight called the committee's attention to the fact that the message was dated September, while Flynn was only heard by the committee on October 1st, and that there was not sufficient time for Flynn to return from Ottawa to Toronto and secure the signatures of over 1,500 returned soldiers to that particular petition and mail the letter at about 10 o'clock last evening, in order to be delivered in Ottawa this evening.

"Therefore," stated Colonel Cooper, "I wish to state that I am in no way interested in a forgery, and I wish to have this entered on the record."

Attached to the message was a list of names and rank indicated in the margin. Colonel Cooper tonight called the committee's attention to the fact that the message was dated September, while Flynn was only heard by the committee on October 1st, and that there was not sufficient time for Flynn to return from Ottawa to Toronto and secure the signatures of over 1,500 returned soldiers to that particular petition and mail the letter at about 10 o'clock last evening, in order to be delivered in Ottawa this evening.

Report of Mayor's Committee, on Which They Had Pinned Their Hopes, Proves Sad Disappointment to Boston Strikers

(Special to Times.) Boston, Oct. 4.—The police deserters have sustained another setback. They had high hopes that the peace committee of thirty-four, named by the mayor, had summed up in their favor and made held a week. Papers have been bombarded with requests for the "real truth" report. Now it has come out and, as one of the committee said, the report was held up because it was hoped some solution could be found, but no other conclusions could be reached except the following in brief: The policemen had no right to leave their posts; policemen ought not to be allowed to join labor unions and the committee fully supports the acts of the authorities in preserving law and order and in defeating the effort of the policemen to enforce their rights to join the American Federation of Labor."

The total of claims due to the strike riots is \$85,000, which the city will have to foot. Several of \$8,000 came in yesterday.

The married police strikers received their third benefit today from the union fund. The men who have obtained employment hand in part of their earnings. With the governor and police commissioner immovable is not known how the deserters can see that the outlook for them is more favorable for a settlement, as one of the union officers told them yesterday.

TO CONDUCT INQUIRY INTO CHARGES REFERRED AGAINST FREDERICK POLICE CHIEF. Fredericton, N. B., Oct. 4.—The Fredericton Police Commission met this morning and adjourned until Tuesday when they will begin an investigation of charges preferred against Chief of Police Finlay formerly of St. John, by Harry M. Blair. The charges are understood to have arisen out of an incident during exhibition when Mr. Blair entered the police station in connection with the arrest of a friend. The alleged assault is said to have taken place at the Fredericton Police Station.

The Appeals and Contingents Committee of Fredericton City Council at a meeting held last night decided to give returned soldiers exemption from poll and income tax for one year after discharge from the C. E. F. The G. W. Y. A. asked for exemption for three years.

RIOT WHEN PICKET IS SHOT BY NEGRO. Indiana Harbor, Ind., Oct. 3.—Rioting broke out at the Universal Portland Cement plant tonight, and a union picket was shot by one of two armed negroes who, with nearly twenty-five other negroes, attempted to return to work. Several shots were fired by the two negroes who were arrested and placed in jail. Two other negroes were chased into the woods by nearly 500 strikers.

MONTREAL CHILDREN BURNED TO DEATH. Montreal, Oct. 3.—Two children were burned to death this morning in their home at 2161 St. James street, when, during the absence of their mother, they were supposed to have tried to pour kerosene into the stove and the oil caught fire. The victims are Jeanne Lassier, twelve years of age, and Henri Lassier, ten years.

## WHEN YOU WAKE UP DRINK GLASS OF HOT WATER

Wash Poisons and toxins from system before putting food into stomach.

Wash yourself on the inside before breakfast like you do on the outside. This is really more important because the skin pores do not absorb impurities into the blood, causing illness, while the bowel pores do.

For every ounce of food taken into the stomach, nearly an ounce of waste material must be carried out of the body. If this waste is not eliminated day by day it quickly ferments and generates poisons, gases and toxins which are absorbed through the lymph ducts which should suck only nourishment.

A splendid health measure is to drink, before breakfast each day, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless way to wash these poisons from the stomach, liver, kidneys and bowels; thus cleansing, sweetening and freshening the alimentary canal before eating your food.

A quarter pound of limestone phosphate costs but very little at the drug store, but is sufficient to make anyone an enthusiast on inside bathing.

## RECENT WEDDINGS

**Burke-Sabtan.**  
An interesting wedding took place, last evening at the home of Mr. and Mrs. Robert C. Sabtan of Sheriff street when his daughter, Lila Matilda, was united in marriage to Arthur W. Burke of Lockport (N. S.). The wedding was attended by her sister, Blanche, and the groom was supported by Henry Millbury, recently returned from the front. The ceremony was performed by Rev. Neil MacLaughlin in the presence of the bride's friends and a goodly number of guests. After the marriage the guests partook of a repast.

Miss Alice Maud Platt of Caracquet was married on Oct. 1 at Caracquet to Leonard St. J. LaBeaure, late of Jersey, Channel Islands. The ceremony was performed by Rev. J. A. Cooper, D. D. The groom served overseas with the 8th Grenadier Guards.

In the Catholic church at Nelson on Wednesday morning Rev. Father Power united in marriage Miss Inez Carrigan to D. J. Buckley of Newcastle.

**Liberal Won.**  
Charlottetown, P. E. I., Oct. 3.—The opposition to the choice of Hon. C. W. Cross as commissioner of public works has proved fruitless. The Conservatives offered Thos. Wigmore against him and Mr. Cross not only defeated him but increased his majority in the last election from 88 to 854. The vote was: Cross, 778; Wigmore, 424.

## CANADIAN ATHLETES ARE UNDEVELOPED

Howard Valentine Criticizes the Lack of Organization Throughout Dominion

New York, Oct. 4.—Howard Valentine in the Evening Globe says:  
The prospect of Canada becoming a leader in track and field sports is as remote as ever. Attention is called to this condition of affairs by the results at the recent athletic games held in connection with the Canadian National Exposition at Toronto, in which the American athletes, as usual, held a perfect field day.

There seems to be no good reason why the Dominion athletes should not be as efficient and nearly as numerous as their American cousins if the sport could gain something like the impetus that it enjoys pretty generally throughout the United States. Surely, no country on the face of the earth has more material from which to develop athletic champions than has the Dominion. The war proved conclusively that the youth of Canada is right up to standard, both in the matter of physical set-up and in the spirit of initiative necessary for athletic success.

Canada's athletic problem then seems to be of organization. In short, Canada has no amateur athletic union, intercollegiate A. A. A. and public schools as we know them. When its all said and done, the thing that keeps the sport boiling in this country, summer and winter, is the great number of colleges and universities. These competitions are the direct result of the activities promoted and encouraged by the above named associations and others of a similar character which operate in all parts of the union.

There are, generally speaking, two athletic districts in Canada—one centring around Montreal and the other around Toronto. Formerly Montreal was the unchallenged athletic capital of the Dominion, but in recent years Toronto, through the efforts of its several athletic organizations, has rather pushed Montreal into the background. Much of the development in the Toronto district, too, has been due to the athletes there having the benefit of frequent indoor competitions at Buffalo, N. Y., where nearly a score of meets are held during the winter season.

That intensive organization is what Canadian track athletes need is proven well by the flourishing condition that hockey enjoys in the Dominion. Here is a game that is organized and pushed to the limit in every college, school, and club. There is not a hamlet in Canada where live seven men with four capable limbs that does not boast of its hockey team. The answer is perfectly simple. Hockey is played in schools, colleges and clubs just as regularly as the Canadians there are leagues of every conceivable sort, with the natural result that the game has become a real part of Canada's winter life.

Tennis, which has become one of the greatest of American games, languishes in Canada. We have a score of high class players to Canada's one and the idea of a Canadian coming to the States to win one of our tournaments is never thought of. What's the answer here? Why, organization—the United States National Lawn Tennis Association. There are leagues of every conceivable sort, with the natural result that the game has become a real part of Canada's winter life.

## RED ROSE TEA "is good tea"

ABOUT 170 years ago tea sold in England for \$14.60 a pound. It was a luxury which only the wealthy could afford.

Thanks largely to the great increase in the area of tea plants under cultivation in India during the past fifty years, there is enough tea grown to-day to supply tea to the world at a price even the poorest can afford.

A cup of "good" tea—Red Rose Tea—costs only a fraction of a cent. There is hardly anything sold in the grocery store that gives more value or more pleasure for the money.

Consisting chiefly of ASSAM tea—the richest and strongest of Indian teas—Red Rose is exceedingly fragrant, flavory and economical. It is a tea of real quality and real value.

Sold only in sealed packages.

Red Rose Coffee is as generously good as Red Rose Tea

THE VICTORY LOAN.

Every Canadian citizen is interested in the success of the coming Victory Loan. The money is needed to meet obligations in regard to demobilization, the re-establishment of soldiers in civil life and the proper care of soldiers' dependents. It is also needed to provide credits so that Canada may export her products to countries needing them.

IMPERIAL ISSUES.

In correspondence as secretary of state Lord Milner took the ground that the Dominion ministers, having participated with those of Britain in the negotiations and having signed the preliminaries of the peace treaty, the king would have the same constitutional justification in ratifying the treaty.

That which Sir Robert feared did not occur, but if a similar situation should arise in the future the Toronto Globe is undoubtedly right in saying that the people of Canada would undoubtedly be a unit for the position taken by Sir Robert Borden.

While Lord Milner did not fully agree with the Canadian view in this particular matter, we learn from an address he delivered to the summer meeting of Oxford students that he fully realizes the change that has come about in the relations between the Mother Country and the Dominions.

Stockholm, Oct. 4.—According to reports from Petrograd it is predicted that all Russia shortly will be without clothing owing to the production of the textile industry being reduced 80 per cent. The price of textile goods has gone up over 3,500 per cent. That industry is kept going exclusively for army purposes, civilians being obliged to purchase old clothes in the market places.

U. S. AT CHILDHOOD STAGE. St. Catharines, Ont., Oct. 4.—"The action of the United States in giving its name to General Foch to place where he wished was the most magnanimous act any nation could perform," said Dr. Pringle, Moderator of the Canadian Presbyterian General Assembly, in addressing a gathering here, "but from the present expression of feeling in the United States, that the American Troop won the war, I am inclined to the belief that the United States is just at the mumps and measles stage of national life."

Potato Disease Spreads. London, Oct. 4.—Reports to the Board of Agriculture state that the potato disease called "blackleg" is spreading in parts of England and Wales. The board recommends that any plant showing signs of disease should be lifted and burned.

SPIRITS.

Now some gifted men are telling of the life on other shores, where our vanished friends are dwelling, knowing sorrow never more. Messages from souls departed come across the silent void, and the dead seem cherry hearted, at their useful tasks employed. And the news seems fine and dandy, that in realms beyond the stars shades still have their suits and brandy, and are not denied cigars.

CANADA—EAST AND WEST

Dominion Happenings of Other Days

THE DEATH OF TECUMSEH.

Two great Indian chiefs played an important part in the early history of Canada. One was Joseph Brant—or Thayendanegega, to give him his Indian name—and the other was Tecumseh, who fell in battle against the United States forces at Moraviantown, Ont., on October 5, 1813. His career was not so long as that of Brant, but it was none the less glorious and in it he displayed the utmost loyalty to the British and a respect akin to love for Sir Isaac Brock, who flew at Queenstown Heights on October 13 of the same year.

LESS HOME WORK

Hon. Dr. Cody, minister of Education, for Ontario has sent out to the teachers of the continuation schools, high schools and collegiate institutes an edict that they are to ease up on the homework which they have been accustomed to giving students. This injunction is also accompanied by regulations changing the courses of these schools, the object being to relieve the pressure of studies in those departments. The changes are to become operative forthwith.

TORONTO'S PLAYGROUNDS

Even in the height of the famous sporting season Toronto's playgrounds are not able to provide for amateur teams. This is the statement of an official of the Toronto Parks Department. Occasionally there were times when the 27 playing fields of the city had permits out for use and teams could not be accommodated, but this did not happen

ALBERT OF BELGIUM.

There is a noble stranger at our gates. Yet scarce a stranger since he came. He came for a space, and since his name has come of late to be a household word throughout our land. Make haste to welcome him!

INTELLECTUAL DEVELOPMENT IS THE FOUNDATION OF GOVERNMENT'S PROGRESS

"Our particular form of government cannot stand, as a political structure, upon successful careers." It must rest upon the firm foundation of general intellectual enlightenment. To say Herman Gansky Bumpus, president of Tufts College, who is co-president with Harvard University and is trying to meet this need by developing a system of co-operative education in Cambridge since the foundation of Harvard College in 1633, the Divinity School itself dates from 1819. It is a denominational and has an enrollment of about 75 prospective clergymen. Secretary Henry W. Poole declares that the school hopes to be endowed with \$500,000 to permit further expansion during its second century of theological instruction.

HARVARD DIVINITY SCHOOL CLOSES FIRST CENTURY

Cambridge, Mass., Oct. 3.—The recent closing of a century of instruction in the university, the Divinity School having begun its 101st year in the teaching of theology. Although divinity students have been getting their training in Cambridge since the foundation of Harvard College in 1633, the Divinity School itself dates from 1819. It is a denominational and has an enrollment of about 75 prospective clergymen. Secretary Henry W. Poole declares that the school hopes to be endowed with \$500,000 to permit further expansion during its second century of theological instruction.

LONDON NOW BOASTS OF REGULAR QUARTER LATIN

London, Oct. 4.—Baron Edmond de Rothschild has placed a hostel for artists as well as for young people engaged in literary and scientific work generally in the new Quarter Latin. At this hostel young people will be relieved, at least of some of the pressing anxieties of the art of living and will be able to devote themselves to work and study.

**RECENT DEATHS**  
John C. Coffey.

The death of John C. Coffey, son of Mrs. and the late Richard Coffey, occurred very suddenly at his home, Reed's Bog, on Tuesday evening, September 30. Mr. Coffey was an active and enthusiastic worker in the Sunday school at Reed's Point and he was also prominent in the social life of the community in which he lived. His death will be mourned by a host of friends, whose sincere sympathy is extended to the bereaved family. Besides a grief-stricken mother he is survived by four sisters, Mrs. Edward Piers of Hampton; Mrs. Arthur Long, of Fanning; and Misses Jennie and Bessie at home and four brothers, Harry, of St. John; Roy, Walter and Maurice at home. The funeral, which was largely attended, was conducted by Rev. Henry Waterton and burial was made in the family lot at All Saint's church, Clifton.

Mrs. John Hammond.

Mrs. John Hammond of Peabody (Mass.), died suddenly on Thursday. Besides her husband she leaves to mourn three daughters, one son, four sisters and two brothers including William O'Keefe, of St. John.

Frank H. Morrell.

On September 12, Frank H. Morrell, Arcata, California, died suddenly, aged fifty-four years. He was born at Clifton Bay, Charlotte county, and went to California in 1889. Two years later he married Clara E. Brown. He survives himself as well as one daughter and three sons. He also leaves his mother, four brothers and four sisters in the east, and one brother, William, of Regu.

Mrs. James A. Moore.

Mrs. Moore of Sussex, widow of James A. Moore, of Waterford, who for several years was warden of Kings county, died on Tuesday at the Victoria Hospital, Moncton, after a brief illness. She leaves four children, Miss Ida, brother Hawley, of Sussex; Mrs. W. B. Bostard, Prairie (Alta.); and Norman Moore, of the N. B. Telephone Company, St. John.

Frederick A. Weatherhead.

Mrs. T. A. Alexander, yesterday, received a telegram giving news of the death of her brother, Frederick A. Weatherhead, formerly of St. John, leaving four brothers, Joe of Saskatchewan, H. R. A. T. and C. W. of this city, and two sisters, M. T. T. Alexander and Bertha Bell, also of this city. The body will be brought here for burial.

The Late Sir Edward Cook.

Sir Edward Tyas Cook, until recently head of the Press Bureau, who died in London this week, was born at Brighton, England, in 1857, had a long and active career in English journalism. Not long after his graduation from Oxford with first class classics he became a regular contributor to the Pall Mall Gazette, then under Morley's editorship. Later he succeeded to the position of the present Lord Miller as assistant to Mr. Stead, and on Mr. Stead's resignation he became editor in 1890, resigning two years later when the paper was bought by William Waldorf.

There then followed three years as editor of the Westminster Gazette, on the invitation of Sir George Grey. From 1896 to 1901 he held the editorship of the Daily News, Westminster College made him a Fellow of the Royal Society in 1912.

Sir Edward, in addition to his journalistic labors, was also a publisher of a long list of books, which he either edited or wrote himself. Among them are: "The History of the National and Tate Galleries, Rights and Wrongs of the Transvaal War of Ruskin, Ruskin's Works, Homes and Haunts of John Ruskin, Life of Florence Nightingale, Memoir of Edmund Garrett."

His London address was 46 Portman Mansions, W. He was a member of the National Liberal Club.

**BIG GENERAL STRIKE BACKS ARGENTINE**

Buenos Aires, Oct. 4.—Protests by the Teachers' Union over the dismissal of members, including women, who demand the resignation of the Provincial Director General of Schools, has culminated in a general sympathetic strike in the city and province of Mendoza.

In the city of Mendoza business houses are closed, newspapers have suspended, and the wine industry is virtually paralyzed. Police are operating tramway cars.

**LOCAL NEWS**

At a meeting of the Trades and Labor last evening John A. Doherty presented to Charles H. Stevens a valuable gold watch in recognition of his services in the cause of labor. It was from the Carnival Committee of the T & L C. The carnival was a distinct success and was conducted under the direction of Mr. Stevens.

When the transient men in the water and sewerage department received their pay yesterday they found that they had not received the increase given the permanent employees. They declared a strike, but after a promise by Commissioner Jones that the matter would be adjusted they returned to work.

As part of the celebration of their sixtieth anniversary the Sunday school of the Exmouth street Methodist church entertained the scholars of the school at two parties yesterday, one for the children in the afternoon and one for the older ones in the evening. E. E. Thomas, superintendent, presided over both entertainments.

The New Brunswick Automobile Association resumed its monthly meetings and held the first meeting of the season in the Board of Trade rooms last evening with T. P. Regan in the chair. Harry Ervin, the secretary reported that the association had had a record year, having taken in this year more than double the members of any other year.

At a meeting of the Royal Arms Chapter of the I. O. D. E. held last evening in the Orange Hall, with Mrs. T. H. Carter, the regent, in the chair, Mrs. R. W. Wigmore was elected vice-regent in place of Mrs. McGinley, resigned. Other matters were discussed at the meeting.

TORTURED BY RHEUMATISM

'FRUIT-A-TIVES' Brought Quick and Permanent Relief.

MR. P. H. McHUGH, 103 Church Street, Montreal, December 10th, 1917. "I was a great sufferer from Rheumatism for over 16 years. I consulted specialists, took medicines, used lotions, but nothing did me good. Then, I began to use 'Fruit-a-tives' and in 15 days the pain was easier and the Rheumatism was better. Gradually 'Fruit-a-tives' overcame my Rheumatism and now, for five years, I have had no return of the trouble. Also, I had severe Eczema and Colicitation, and 'Fruit-a-tives' relieved me of these complaints and gave me a good appetite and in every way restored me to health."

IN INTERESTS OF ITALY'S FOREIGN TRADE

In the interests of Italy's foreign trade an interministerial commission has just been appointed at the Ministry of Foreign Affairs. Its objects are: 1.—To examine the most efficient means for promoting and developing Italian trade abroad. 2.—To study problems of railway and maritime transport as affecting not only exports but also emigration. 3.—To draft instructions for commercial attaches and members of the diplomatic and consular services as regards foreign trade policy. 4.—To consider the advisability of establishing new consulates and of changes in relation to foreign trade policy in those already established. 5.—To consider the appointment of additional commercial attaches. 6.—To co-ordinate the work of the various ministries dealing with trade relations abroad.

Toronto, Oct. 3.—All rumors to the contrary, it is positively declared by a high official of the Nova Scotia Steel and Coal Company that there is at present absolutely nothing doing in the direction of a merger with Dominion Steel.

TO FOSTER INDUSTRY IN SOUTH AFRICA

In order to foster industrial undertakings in South Africa, there has just been organized the National Industrial Corporation, Ltd.

With the best business months of the year yet to come, 1919 should get up something better than a fifteen million which is three times the size of the bank clearings in 1909, about ten years ago.

Nineteen-eighteen was our best war year, when industrial corporations were operating under high pressure on their most valuable war-orders, and the surplus products of farm, forest, fishery and mine were commanding high and bigger markets abroad.

The West Indies and Mexico

Trade between Canada and the countries to the south of us is rapidly increasing. With branches in the United States and Mexico and a close working arrangement with our Correspondents, who have branches throughout the West Indies, this Bank is able to place at the disposal of its customers a very complete service.

THE CANADIAN BANK OF COMMERCE

When asked the secret of the tremendous volume of business done by the bank, the manager said that the bank's success was due to its policy of expansion of trade, improvement of industrial methods, and the establishment of new industries.

To Promote Industry in Australia

The Commonwealth government of Australia has created a Bureau of Commerce and Industry to promote organization of the country's resources, prepare a policy for the expansion of trade, improve industrial methods, and bring about the establishment of new industries.

### JUVENILE COURT.

A short session of the juvenile court was held this morning.

### THE SAXBY GALE

It is fifty years ago today since the fearfully destructive Saxby gale occurred.

### BURIED TODAY.

The funeral of Miss Margaret S. Hamilton, took place this afternoon at 2:30 from her residence, 6 Chipman Hill. The service was conducted in Trinity church by Rev. Canon R. A. Fernstrom and interment was made in Fernhill cemetery.

### IS 99 YEARS OLD.

Mrs. Lucy Clark of Centerville celebrated her ninety-ninth birthday on Friday of last week. She is still mentally alert and bright in conversation with her friends.

### EIGHTEEN DEATHS

At the board of health offices this week, eighteen deaths were recorded, two each from tuberculosis, malnutrition, cancer of liver, senility and cancer of stomach, and one each from marasmus, drowning, chronic diarrhoea, cerebral hemorrhage, bronchopneumonia, multiple sclerosis, pernicious anaemia and cardiac decompensation.

### RED CROSS AID PROMPT

The Canadian Red Cross is prompt to help the stricken people of Oronecto. Two cases of children's clothing, quilts, sheets, towels and other necessities were packed this morning and will go up on Monday. T. H. Estabrook, on enquiry by the local Red Cross, indicated the need and the work was attended to this morning. Mrs. Sturdee and Mrs. Allan attended to the packing and shipping.

### FOUR FOR DRUNKENNESS

Four men charged with drunkenness were arraigned before the police court this morning. Three of them pleaded guilty and were fined \$8 each or two months in jail, while the fourth pleaded not guilty. Policeman Garnett, who made the arrest, told of finding the men on Long wharf making considerable noise. He had some trouble in making the arrest. The accused created a disturbance in the court this morning but was quickly subdued and taken downstairs to jail. His conduct this morning was due to the fact that he had not gotten over his "spruc" of last night.

### LEAVES BANK SERVICE

J. Wellton Currie, son of the late John S. Currie, has resigned from the staff of the Royal Bank of Canada after having spent the last eight years on service for them in their Canadian and American branches. About three years ago Mr. Currie, then attached to the staff of the Royal Bank in this city, was transferred south to their branch in Santa Domingo city, capital of the Republic of Santo Domingo, where he has been serving in their offices in that republic. Mr. Currie will leave tonight for New York, where he expects to remain for several months.

### THE COUNTRY MARKET

Prices in the country market remained very much the same this morning as for some time past, but there seemed a good supply of meats and vegetables on hand. Poultry was firmer in price, chickens, ranging from 35 to 60 cents a pound, and fowl 50 cents. Moose meat was quite plentiful and sold from 20 to 40 cents a pound with venison at the same price. Wild duck were scarce at \$1.50 a pair. Eggs were still high, 70 cents a dozen, and butter sold at 60 cents a pound. Beef remained at from 20 to 40 cents; pork 35 to 40 cents; lamb 20 to 25, and veal, 30 to 35 cents. Vegetables were unchanged in price and were plentiful.

## DEVELOPMENT OF THE HARBOR

### Breakwater Extension Not a Charge Against Harbor Commission

A strong Canadian note ran through all the speeches of the Canadian Manufacturers who were in town this week. One prominent member from Upper Canada, in discussing foreign trade preferences and the relation of the subject to Canadian ports, stated that he had the privilege of inspecting this harbor yesterday afternoon, and was forcibly impressed with its potentialities. He advocated its development, and further emphasized the need of keeping it in the minds of Canadians.

There were similar expressions with respect to the possibilities of our ports and the need of their development at the recent meeting of the maritime board of trade.

The subject, which has been pressed continuously by the local board of trade, will likely come up again at its full meeting, which is called for next week. It has been suggested that as the expense of breakwater protection will be borne by the federal public works department and will form no charge against the traffic of the port under harbor commission, and as it is one of the first essentials of development that the government be urged to proceed with the immediate construction of the necessary breakwaters.

It is hoped that a full expression of the board and of interested citizens will be obtained on the point.

J. T. Hawke, editor of the Moncton Transcript, will also address the meeting on a subject of vital importance.

### PREPARING FOR NEW REGISTRATION PLAN

The names of all clergymen, physicians and undertakers in the city, and the issuers of marriage licenses are now being forwarded to Fredericton by the secretary of the local board of health, T. M. Burns, as a preliminary step towards the department of health taking charge of reports on vital statistics.

At present births and marriages are recorded in the rooms of the city government in Prince William street, but the new public health act calls for their being registered under appointees of that department. This is now being arranged for.

It is not known whether any new appointments will be added to the board of health offices here in view of the expected increase in work, but it is likely that four appointments will be made for the county, one for each parish.

### LOSES LIFE AT SEA

#### Captain Lockett, Born Here, Caught in Typhoon Off China

#### WAS AT DARDANELLES LANDING

Once Sailed in William Thomson & Co. Ships—In Command of British Steamer When His Craft Went Down

After a lifetime on the sea during which he took an active part in the European war, being present at the Dardanelles landing, Capt. Albert Lockett, a native of West St. John, lost his life in a typhoon off the China coast.

The following is from the San Francisco Chronicle:

"Captain Albert Lockett, commander in the service of the Pacific Mail Line for many years met death in a typhoon off the China coast while commanding the British steamship Haurito, according to cable advice received yesterday by Walter Campbell, chief of the city. The message came from Hongkong and said that a water-logged boat belonging to the Haurito had been picked up and carried to the coast of Hongkong, the owners had given up the vessel and the entire crew was lost. The steamer sailed from Saigon for Hongkong on July 24. Several days later there was a terrific typhoon and many craft foundered. Nothing was heard from Lockett's ship until August 17, when a passing vessel picked up the life-boat.

"Lockett first appeared here in 1900 when he brought the big freighter Algos from Liverpool. He commanded this vessel for a few years and then took out one of the passenger ships. The command of the Nile when the war broke out. This vessel was under British register and was promptly requisitioned by the British government and used to convey troops between England and Mediterranean ports.

"Two daughters survive Lockett. They are Miss Mabel Lockett and Mrs. Walter Campbell of this city. Lockett was sixty-two years old.

A West Side Man  
Lockett was a native of this city, being born in West St. John and he has a great many friends who will regret the loss of his untimely death. He started his career by going to sea when a young lad and sailed in and out of this port for many years. Later he shipped in some of the Wm. Thomson & Co. vessels.

One of his first commands was the bark Wildwood, which he took from Montreal to England.

All through the war Captain Lockett was actively engaged in transporting troops and material and his ship was in the first convoy which landed troops at the Dardanelles.

Mrs. Robert Fawcett, 164 St. James street, west, is a sister-in-law and yesterday received a telegram telling of the tragedy. George Clark, of Victoria street, west, is a brother-in-law. Captain Lockett leaves three brothers, Charles, William and Fred, all of whom reside in Boston.

With the Red's having two and the Sox one game, the League of Nations moves off the front pages of the U. S. papers to give way to the Big League.

With "That man O'Connor" coming to St. John next week, it has been grumbling about what they knew of profiteering will have a good chance to tell it.

The song of the conductors on the Valley road has now been changed. All week it's been "All dressed up and no place to go."

The Old Plank Walk.  
Milford is said to be really proud of her sidewalk of hemlock. It has inspired a budding poet of Pleasant Point to action and in our morning's mail we found his effusion which we suggest should be placed upon a monumental slab of hemlock at the head of the ferry. By the way, as an expression of Milford's appreciation, the author signs his initials "J. W. D." This is it:

"The city people may laugh and talk, But Milford now has a wooden sidewalk. But of course they can't afford any better. But that will help out for the snowy weather. The Milford people are pleased, can't you see? It runs from Milford right down to the ferry. It was made in the year 1919, you see. And it is better than nothing, if it is only wood. For what? Where the snow banks always stood."

Improved Service.  
The people of Indiantown are now getting a two and a half minute car service. Thanks are due to the water and sewerage department for, because of the road being dug up in Douglas street, the cars can't run out there from Main street.

FREDERICTON NIGHT SCHOOLS.  
There are already 123 persons, young and old, in Fredericton evening schools. The Fredericton Business College rooms are used in the evenings for sixty students in shorthand and typewriting, with three teachers. The other classes are in the high school, and include, besides ordinary studies, dress-making, millinery, and cooking.

ADD TWO MEMBERS TO THE GERMAN CABINET  
Berlin, Oct. 2.—The budget committee of the National Assembly has approved by a large majority, a bill providing for remuneration for two additional members of the cabinet to carry out the peace terms, including the rebuilding of France and Belgium, and the ministry without portfolio under the plan to admit democrats into the cabinet.

Possibility of Labor Premier Excites Interest in England

Mr. Balfour Home From Paris for First Time in Eight Months--Air Routes Growing Popular--A Weekly Budget of News and Comment from the Heart of the Empire

A Letter from London from Our Own Correspondent

London, September 15.—(Full Mr. Henderson's return for Widnes there was really only one man in the running for the future leadership and possible premiership of the Labor Party. And that man was Mr. Clynes, M. P., who towered above his parliamentary colleagues as a Westminister. And if the day is to come when there will be a Labor majority in the House of Commons, and a Labor ministry sitting in office on the government front bench, as many Labor politicians and even some others seem to half-expect—probably Mr. Clynes would still fill the role of first Labor prime minister in this country. His friends and admirers of whom he has a astonishingly more than before he has applied his picturesque test to public personality, believe he would fill it extremely well. But Mr. Henderson's return to the parliamentary arena certainly sets up a rivalry for first place. It will be interesting to see how these two labor leaders progress in the immediate future. Mr. Clynes is a man of decidedly advanced views, albeit no Bolshevik or direct socialist. He has the courage to keep on, and the intelligence to be in some matters a little cautious. Mr. Henderson is quite of another stamp, though equally a sound democrat in theory. He is more emotional and less self-dependent than Mr. Clynes. The latter I should say was the more practical statesman.

Mr. Balfour and the Sea
Mr. Balfour's return from Paris had afforded an opportunity for his numerous admirers to show their personal esteem for eight months he has remained abroad. Not once has he crossed the channel since he went to the Peace Conference as a British delegate. Probably the only one of the original leading members of the Allied delegates living outside France who has not paid a flying visit home. Some of his friends cynically attribute this desire to stick to his post to his dislike of a sea voyage. He always regarded himself as a bad sailor. Yet he faced the troubled Atlantic to visit America when duty called. Mr. Balfour, however, once regretted that he was separated from the United States by the ocean. He took the day when a calm passage across the channel was assured and a delightfully sunny weather accompanied his journey from Paris to the homeland.

The London crowd has not lost its perennial interests in the huge vistas of Armageddon. You might have thought that Londoners who had seen the gas and the gas, and heard the bombs burst, would have lost affection for a street fighting fit or a murderous break down. But not a bit of it. They are just as keen. There is not a trace of the "and that's that" in a small crowd found a fainting lady in a doorway. HOW THE TWO RACES MAY LIVE IN PEACE
Raleigh, N. C., Oct. 4.—Thirty-eight leading negro educators in North Carolina have announced a definite platform upon which the negroes in the state may stand in peace with the white race and in line with the aspirations of their own race. The platform condemns all advocacy of racial equality intermarriage between the races and opposes any appeal to force to cure injustices committed by either race. "Any individual or society in or out of the state that advocates the intermingling of the races on terms of equality and intermarriage of races is doing great harm to the negro, for wherever this doctrine finds lodgment it stirs race prejudice in the south and threatens the well being of both races," reads the statement. "Wherever injustice appears, there is entirely too much said by self-appointed leaders, outside and inside the state about an appeal in force. Those who intimate that such an appeal will in any way be beneficial are the most dangerous enemies to all."

REOPENS GERMAN EMBASSY.
Paris, Oct. 4.—Baron Kurt von Lerer, head of the German delegation, left Versailles this morning and went to the German embassy in Paris. The German embassy in Paris has been officially vacant since the departure of Ambassador von Schoen at the outbreak of the European war, although a small party of minor German functionaries went to Paris some time ago to put the building in condition for occupancy upon the resumption of official diplomatic relations between France and Germany.

REJECTS AWARD OF SHIPS.
Washington, Oct. 4.—It has been indicated in an authoritative quarter today that the United States takes the position, with respect to the former German merchant ships and tankers, that no interest shall be accorded, except the supreme council of the peace conference itself, has the right to dispose of these vessels. Frank L. Polk, head of the American peace delegation at Paris, has informed the conference that the United States does not accept the disposition, declared to have been made by the Brussels conference of the fourteen tankers owned by the Standard Oil Company or its German subsidiary and that the ownership of the ships can only be decided by the supreme council.

REV. DR. PRINGLE, SOLDIER PADRE

Moderator of Presbyterian Church in Canada Has Had Unusual and Picturesque Career—Is Well Known Here

A contributor to the Montreal Gazette writes of Rev. John Pringle, D. D., moderator of the Presbyterian church in Canada, who held the rank of lieutenant-colonel in the overseas chaplain force, and who is well known in this province, as follows: "The Right Reverend John Pringle is a picturesque figure. Standing upwards of six feet in height, with brown arms and shoulders to match, people meeting him on the street instinctively turn to get a second look at him, especially when he is dressed in khaki as a lieutenant-colonel of a Highland brigade, in which uniform he was arrayed while presiding over the general assembly at Hamilton last June. "He comes of a good military stock. The son of a Highland soldier, his early life was spent in barracks, a fact on which he loves to dwell. "He received his training for the ministry partly at Morrin College, Quebec, but mainly at Queen's University, Kingston, Ont., from which he graduated M. A., and which conferred on him in 1904 the honorary degree of doctor in divinity, in token of appreciation of the mission to induce famous people who played a leading part in the war either as fighting men or as statesmen, to write discriminating memoirs. These enterprises are after very big game. One lady is bent on getting Admiral Lord Beatty to "talk" in print. I fear her hope is doomed to disappointment. Overtures have also been made to Mr. Lloyd George who could make fairly respectable fortune by consenting to write just a few personal chapters of the war and how it was behind the scenes. Failing him the American publishers want to go to the famous Frenchman, Marshal Foch, who is being approached among others. There are also a considerable number of American medical students in London now attending our London Hospitals. During the war British surgery made an enormous advance, and Americans are keen on studying our professional methods.

work, should it take place, will in all probability help to bring the immigration work under the dominion government within the scope of the Y. W. C. A. A meeting of the representatives of the principal women's societies in the city was held yesterday morning in the King's Daughters' Guild with Mrs. David McElean as chairman and at that meeting Mrs. Robert H. Kneib, secretary of the Canadian Council of Immigration of Women for household service gave a clear statement of the government's attitude towards the establishment of hostels in the different provinces. It was felt that a hostel was essential in St. John if the British women immigrants were to be kept in New Brunswick. The meeting did not, however, arrive at any definite conclusion as to what organization or organizations would be active in the matter or what would be the most suitable building for a hostel.

In the matter of the acquiring of the Red Triangle building by the Y. W. C. A. the plan is favorably considered by both associations and the Evangelical Alliance has pledged its support to the Y. W. C. A. in the endeavor. Many of the city clergy have declared they will assist in the effort. It is proposed to have the upper floor of the Red Triangle building as a gymnasium, the second floor as an assembly hall to be used by women's organizations and the lower floor to be used as class rooms. The opening of the building in King street as a hostel by the Y. W. C. A. this spring was a most decided advance in the work for girls and women in the city and it has been proved a most successful effort. The building has at present only three beds available for transients. The girls' most evident appreciation of the hospitality of the Y. W. C. A. in permitting them the use of gymnasium and swimming pool this year is a clear indication that a gymnasium in their own will be sure of a large patronage among the girls. The need of a hall for women's meetings has been keenly felt for some time. There is little doubt that the citizens will give ready support to the Y. W. C. A. should it ask for their assistance in acquiring the use of the Red Triangle building. A two day conference of the Y. W. C.

A. commences on Monday and three dominion secretaries who will arrive in the city today to perfect arrangements will be the principal speakers. Two of them are well known in the city and their arrival has been eagerly looked for. They are Miss Fanny Jones, of Toronto, national secretary of city association work and Miss Winifred Thomas, national girls' work secretary. The third speaker is Miss Allison, also girls' work secretary. The conference will be mostly of a private nature intended for the guidance and instruction of the staff, workers and members and directors of the association but public meetings will be held each evening.

### TRIED TO BOTTLE UP THE BRITISH GRAND FLEET

London, Sept. 2.—(Correspondence of the Associated Press)—German U-boats tried to bottle up the British grand fleet in the Firth of Forth during the latter part of the war, says a London paper which describes this as the most ambitious tactical operation undertaken by enemy undersea craft. The scheme aimed at the blocking off of the entrance to the Forth by the use of a big minefield. Three months of hard work were devoted to the task by a considerable fleet of submarines, the mines being laid in the shape of a half-moon. But mine-sweepers had discovered the plan and as fast as the mines were planted they were cleared away. It is recalled that other similar attempts to trap the fleet were made in 1915 in the Moray Firth, when over 400 mines were laid, and in 1916 at the Orkneys. In round numbers, on these three occasions, the Germans laid 1,100 mines at a cost of \$1,000,000. The King Edward was the only fighting ship that fell victim in these operations. Enormous numbers of mines were laid by the Germans off Harwich. It was found that these fields were spread regularly at ten-day intervals so British sweepers occasionally left portions of these waters unswept so that when the next batch of submarines came along they ran afoul of their own mines. The task of clearing English waters of mines is almost completed.

be the spokesman for the pair of night prowlers. He told Bellis to hop inside the garage and close the door, which was carried out according to instructions. The revolver manipulator then asked Bellis where the money drawer was. Bellis told the men that he didn't believe there was any money around the place, but this didn't satisfy them. While the young man with the metal persuader held watch over the night watchman, the other visitor looked around the dimly lighted office and found the cash register.

### Garage He'd Up By Two Men

Waterbury, Oct. 2.—Two young men got into the garage of John C. Morgan and after placing a pistol against the head of the night watchman, they opened the cash register, in which it is supposed there was about \$75, then looked over the garage for an automobile to suit their fancy and finally drove away in one toward Cambridge. The young men did their hold-up-work in a very business like way, so far as could be learned from the night watchman. They didn't spend any more time than was necessary about the place, and before they entered they took precautions to stay the work of giving any alarm by cutting the telephone wires that ran out from the office of the garage. Bellis was sitting in the office of the garage, just after midnight, when he heard someone rattling at the small door that is in the large back door that gives autos admission to the garage. Believing that someone of the garage's patrons was outside, the night watchman went out and opened the door. Found Revolver at His Face. Just as he did he found a good-sized revolver looking him square in the face, and he made up his mind then and there that the visitors had first word in the matter, so he didn't attempt to stop their progress when they entered the place. The man with the revolver seemed to

To Learn Telephone Operating

REQUIREMENTS

Grade 8 Education

TELEPHONE OPERATING requires special knowledge and training in the School for Operators. Not only is the instruction given without charge, but the company pays you a salary while you are learning. In many lines of work a girl has to give her time for several weeks, or even months, learning a trade, and often in addition has to pay for the instruction. When the trade is learned and she is fitted for a position, she frequently has to wait more weeks or months before she can secure one.

Upon successful completion of the Telephone School Course, you are assured a position at once. Rapid promotion to responsible positions is possible for girls with ambition and intelligence, who are alive to requirements of a present day business woman at salaries in excess of most other lines of business.

MAY NOT OPPOSE LIBERAL LEADER

Charlottetown, Oct. 3.—As a result of the complete and convincing manner in which Hon. W. L. Mackenzie King dealt with the question of his work during the last night, the conviction is pretty general throughout the riding of Prince today that no opposition will be offered to him at the by-election on the twenty-seventh.

THE BUSINESS COLUMN

(Continued from page 7.) The Wannamaker lists have proved highly successful—not only in attracting new trade to the stores, but also in moving lines in certain departments, lines which are emphasized by appearing at the head of the various sub-divisions of these shopping lists which feature goods rather than prices or quality.

Dealer Photographs Auto Stunts as Aid. St. Louis has an enterprising and successful automobile branch manager. He took the advertising reins in his own hands rather than use cut-and-dried plate matter that happened to be available. Here is his unique and rather hair-raising scheme.

A photographer, a car and a driver were sent around St. Louis to every step grade and "impossible" road barrier that might be encountered. This automobile was made to do things that no manufacturer would ever ask of a car. But the things it did were directed test stunts that went to prove this particular automobile was worth the investment. The photographer stood on the side lines and snapped these feats of hazard.

For example, the driver deliberately drove his car up a long, tedious flight of stone steps in Forest Park. Every step he took was a feat. He kept the car on the steps, and when he stepped down, he stepped down with a grace that the reader saw them as they were, completing a remarkable series of twelve.

Can Buy Candy by Year. The Kaufman store of Pittsburgh, Pa., has an ingenious candy club where by one may leave an order for one month or one year for sweets. Each order is sent each week as designated. Thus the busy man can leave an order for a box of his favorite sweets that will be sure to reach his home regularly. This is billed to him at the end of the month and paid for as would be any other article charged to his account.

"Missing Customer's" Letter a Puller. One morning, customers of the first of the month, the good customers of a Fresno, Calif., clothing were tipped off to a special sale by the dealer. And the tip appeared to come, not direct from the clothing himself, but from one man in the town who could not come. And the sale was a success.

In the envelopes received by the patrons of the store was a six-page folder. On the cover was the printing: THE ONE MAN WHO CANNOT ATTEND. WALTER HAMILTON'S SUMMER SALE.

As the man opened up the folder he saw on the first inside page a picture of a man in convict's uniform peering through the bars of a cell. Then opposite this portrait and on the remaining two inside pages was a letter with the following to say:

Dear Wallie—Say, I'm sorry I can't come over to your annual summer sale. I hoped to come, but the warden insists that I stay here as his guest. It's as horrible as the 's—you know Bill Gerston, I reckon, and understand how hard it would be for me to turn down his entertainment.

And I sure wanted to get a pair of those silk shirts you have on the counter at \$6.75. I know that they are worth \$8. And as my straw hat is gone, I would like to get one of those you're closing out.

Underwear, too. I need a little of that. Wish I could come over to invest in a suit or two to finish the season. How about those suits you marked down from \$40 to \$22.50—do you suppose you've got anything in nice stripes that would fit me? I'd like to get another suit, and the way you got them marked it's better'n the place I usually get them.

Well, Wallie, when you start that annual summer sale next Monday morning this will tell you why I'm not there—and I suppose the early comers will get the cream of the picking. But you know how it is. Confidentially yours, ARTER-DARK BILL, CELL 455.

Low Visibility for Scrubbers. How to grab the women who scrub and sweep stores is a matter which has been solved by the Fair of Chicago. Their force of scrubwomen, cleaners and store-cleaning help are fitted with red khaki uniforms which do not show the dirt, but give the wearer a business-like appearance instead of the usual shabby, ill-kept appearance of people who do this sort of work.

The Anti-Advertiser. He swore he'd have nothing to do with the multi—Nay, nothing—whatever! And that was his ill! He loathed the vulgarity often displayed in drinks, toothpaste, underwear—wretched old "trade!" But when he fed he ate advertised food. Wore advertised clothing so's not to go nude! Drank advertised liquids from advertised cups. And played, at his leisure, with advertised toys.

Superintendent of Nursing School Says Internal Bathing Gives Best Results in Constipation.

Dr. R. M. Smythe, President and Superintendent, Dominion School of Nursing, Toronto, writes: "I have much pleasure in sending you a letter recommending the J. B. L. Cascade. I shall also be pleased to do so personally or by phone. From personal experience also from various patients who are using the J. B. L. Cascade I have no hesitation in recommending it to anyone with constipation or any trouble arising therefrom. The benefits in such cases are felt once, in my own case as well as others that have come directly under my notice. It has certainly been the means of bringing about many wonderful cures of constipation and various other troubles. It is much pleasure in recommending the Cascade."

If you are troubled with headaches, biliousness, bad breath, rheumatism, slow complexion, or any trouble arising from imperfect elimination, we would urge you to try Internal Bathing by means of the J. B. L. Cascade. This wonderful health-giving appliance is shown and explained at E. Clinton Brown, Druggist, Union and Waterloo streets, St. John, N. B., F. W. Mumford, Dispensing Chemist, 267 Main street, St. John, N. B.

Please or ask them for free booklet all about it—or write Tyrrell's Hygienic Institute, 168 College St., Toronto.

He wrote all his letters on advertised lines. Used dentifrice trade-marked with some body grinning day in an advertised tub. And advertised soap helped him out with his scrub. He slept every night in an advertised bed. And when at the last they declared he was dead, and through with his endless berating "coffin!" They laid him away in an advertised coffin!

PUNISH PEERING TOM. London, Oct. 4.—Pee peering at mid-night and peeping through the windows of the Farnborough quarters of the Women's Royal Air Force, Ernest Stonehouse, was fined £25 or a month in jail. His excuse was he was "only having a bit of fun."

Long-Standing Evil Effective Measures Taken

Since childhood Mr. A. Gail was under the shadow of the great evil, which always menaced his comfort and safety. Read what he says: "It was troubled with my kidneys since childhood and spent a large amount of money trying to get cured. I tried getting better, I kept getting worse until a friend of mine advised me to try Gail Pills. I did so, and after taking one box, I was able to get out of bed and walk around. Two more boxes relieved me completely, and since then I have had no return of the trouble."

Many people have kidney and bladder trouble without knowing it. They think nothing of the backache, the pain in the head, the swollen joints, the aches, the rheumatic, sciatic and neuralgic pains, the floating specks before the eyes, the swollen glands, the highly-colored urine—all signs of trouble—all signs which should receive immediate attention and treatment with Gail Pills, which are by far the most effective of all preparations, and which may help you to avoid a fatal operation. They quickly relieve pain and heal the congested tissues, bringing the organs back to normal. At druggists and dealers, 50c a box. Money back if no relief. Send for free samples.

5 WELLS--- ---5 WELLS 50% FOR DIVIDENDS \$10 May Earn You \$1,000 \$100 May Earn You \$10,000 Five Chances for Gusher Wells--Five Shots for a Fortune ROYAL OIL WELLS COMPANY

CAPITAL \$500,000 FULLY-PAID—NON-ASSESSABLE SHARES 10c. PAR VALUE A limited issue of \$100,000 of the Royal Oil Wells. Every share of this issue is first preferred stock. Preferred as to assets, preferred as to dividends, and in addition participates fully and equally in all profits and all properties as outlined in this announcement. Royal Oil Wells offer the small investor a golden opportunity to share in the wonder profits of the greatest wealth producing industry known to modern civilization—with the absolute assurance of minimum risk, maximum profit and a square deal from start to finish.

The general management of Royal Oil Wells Company, will be under the personal supervision of Glenn Craig Tobias, a thoroughly experienced operator, who is intimately acquainted with the great oil fields of Kansas, Oklahoma and Texas. Mr. Tobias has owned a large number of oil properties, including leases and oil wells, and at present has holdings in both Texas and Oklahoma. The directors of the Royal Oil Wells Company have thoroughly investigated the character and standing of our general manager, both through the mercantile agencies and the banks. Reports from all sources are such as to justify our confidence in his ability as well as his business integrity.

Charles W. Barton, New York Publisher, has personally visited the great Texas Oil Fields. Read his article re-published here from the New York Telegraph.

UNDREAMED-OF RICHES COME TO MEN, WOMEN AND CHILDREN IN WONDERFUL OIL FIELDS IN LONE STAR STATE. (By Charles W. Barton.) (Assistant Publisher of The Morning Telegraph.) When I boarded the train for Texas about a month ago I was somewhat skeptical about the reports of the fabulous wealth which was coming to oil investors in Texas. I was prepared to meet a lot of smooth, silver-tongued oil stock salesmen. To say the least, I expected that the oil men that I was to meet would show me the bright side of the oil business and put their best foot forward. Thus I was prepared to discount about 80 per cent. of what they told me and take what I saw with a grain of salt. After having spent this month in going over the oil fields, my greatest worry is that if I tell the actual truth—the bare, cold facts—I will be considered a candidate for the presidency of the Ananias Club, or speaking in the vernacular, the best liar east of the Mississippi. I am told that in the town of Ranger a year ago there was hardly a man in the town who had a bank account of \$5,000. Today there are probably twenty-five who have a bank account of \$5,000,000. Millions are so common that nobody thinks anything about them. Everybody seems to have plenty of money, even drillers making \$12 and \$15 per day. Men and women have gone to sleep at night only to wake in the morning to find themselves multi-millionaires, because they have struck oil. With modern machinery consuming an ever increasing amount of oil, and with England, France and Italy and all foreign nations calling upon us for more and more oil, the demand is sure to exceed the supply for a long time to come. Texas today is the Mecca of the world and opportunities there are greater than ever before. Frankly, I must confess, that I expected to find a lot of crooks in the oil business. All my early training had taught me to shun an oil investment as I would a snake. However, I must say that in my opinion the great majority of Western companies are absolutely on the level. I never met a finer class of people in my life than the men who are putting out these Western wells. There is no need for an oil company to be crooked. There is an inexhaustible supply of oil in Texas and there is so much money to be made by simply being fair and square that it is not worth while to be dishonest.

PERSONAL GUARANTEE — PRODUCING OIL WELLS AND DIVIDENDS. To my friends and clients: Royal Oil Wells Company was organized in the interest of the small investors who wish to invest in amounts smaller than are being accepted by the larger companies in which the writer is interested. I have been organizing companies for several years and I HAVE NEVER YET PROMOTED A FAILURE. Royal Oil Wells will be my best effort. I take full personal responsibility for Royal Oil Wells, and tender you my personal guarantee that we will produce oil and pay dividends. No effort will be spared to make the company a whirlwind success. Respectfully, GLENN CRAIG TOBIAS, President-General Manager.

Jump on a train and go down and see for yourself, as I did, the wonderful opportunities which are open in every line of business in Texas towns adjoining the oil fields. Talk with the farmer-boy of a month ago, who today is a multi-millionaire. Talk with the immigrant woman who invested \$100 and today \$100,000 and owns her own oil well and is drilling richer every minute.

A man goes out and buys a lease in territory in which geologists have told him he should strike oil. In some sections the oil lies in shallow fields, and in other sections he must dig much deeper. Barring accidents, such as drilling a crooked hole and having a cyclone destroy the derrick, delay in getting materials because of lack of transportation, within about thirty to sixty days he knows whether he strikes oil or has a dry hole. If the investor has more than an even chance to make a fortune—another well which is a producer, and strike oil, and if the company's holdings are in a producing territory where geologists state there is oil, the investor has more than an even chance to make a fortune.

FACTS AND FIGURES. WHAT THE DRILLING RECORDS SHOW. When an oil man decides to change operations into a field that is new to him, the first thing he does is to study the drilling records, the averages as supplied to the new field. When you put your money into the oil business you should know the drilling records, what the percentages of the business are—for and against you. Records for the entire United States for the month of March, a well is drilled in which the drilling records, including Kansas, Oklahoma and North Texas, show that there were 2,654 wells drilled—only 403 were dry. In April there were 2,900 drilled—only 467 were dry. In May, 1,503 wells were drilled—only 279 were dry. In June, 1,417 were drilled—only 292 dry. In North Central Texas alone, 401 wells were drilled in the month of June. Of these 70 were dry. In May there were 293 wells drilled in North Texas with only 57 dry holes. Do you call that a gamble? Yet one good oil well will pay for a dozen dry holes. What matter if you do get one dry hole to every four oil wells?

50% FOR DIVIDENDS

Royal Oil Wells is permanently pledged to the policy of substantial dividends—not 2 p. c. or 4 p. c. or 10 p. c., but a full half—50% p. c. of every dollar's worth of oil produced. Do you realize what this means to you? Oil companies frequently earn a full 50 p. c. on the capital invested in the short period of 30 days, many of them have earned 100 p. c. in 30 days. But the stockholder doesn't get it. Royal Oil Wells will be conducted on a different basis. When the money is earned it is yours. Royal Oil Wells proposes to give it to you and give it to you promptly. FORTUNES IN OIL. There is an inclination on the part of a certain class to question the fabulous fortune reports that are constantly coming to light. However, no one will question the above statements by Charles W. Barton, who is one of the most respected and able journalists in the newspaper business. As a matter of fact, this page could be filled with condensed accounts of the unbelievable fortunes made in oil. Such stories come to light every hour of the day, and yet not the half of them have been told. It is said of Tulsa, Oklahoma, that every member of the Chamber of Commerce is an oil millionaire, and that there are more than one hundred millionaires whose fortunes were made entirely through oil. The oil business alone is open to the small investor as a possible fortune on a few hundred invested. It has been for years, and is today the poor man's chance to accumulate large sums through moderate investments.

London, Oct. 3.—(By Canadian Associated Press)—British football results today were:

First League:  
Notts County, 2; Sheffield, 2.  
Adios Guy Paces Mile in 2:00.3-4. Adios Guy paced a mile in 2:00.3-4 when he won the second heat at Lexington Tuesday.

Sanardo, owned by Franklin H. Downs of Boston won the first heat in 2:00.9-10 but lost the second in a fraction of a second the third time and came back to win the slower time in 2:00.9-10 after an accident had caused four horses to be distanced. In the first heat Sanardo breezed through the stretch, winning as his driver pleased and could have beaten 2:00 had it been necessary.

In the last heat Adios Guy, which had beaten the favorite in the second mile in 2:00.3-4, attempted to pass Sanardo in the stretch, but bore into the Boston horse, which, however, maintained his pace and won a game and fast race in record time for the class.

## CHICAGO WHITE SOX SHUT OUT CINCINNATI'S

**Administer First Coat of White-wash in Series For World's Championship — Kerr Pitches Sensational Ball**

With Kerr pitching sensational ball the Chicago White Sox defeated Cincinnati yesterday by a score of three to 0. It was the first shut-out so far this series and it proved to be a great boost to the fading hopes of the Chicago supporters. The young left hander held the bats to three scattered hits and only issued one free ticket to first base. From the time he stepped on the plate at the beginning of the game until he retired the Reds in the first of the ninth inning he was never in danger and pitched a cool steady game throughout.

Fisher, who was Pat Moran's choice also pitched a good game, but was wild at times and this was more directly responsible for his defeat than the hitting of his opponents. In the second inning after Joe Jackson secured a hit to left field, Fisher came up and placed a bunt down the first base line. Fisher rushed in and fielded the ball and then turning made a hot throw to Rath at second. The ball continued on its way unimpeded until it was finally headed by Louis in the center. By that time Jackson was closing in on third and Fisher on second. This for the time being put Fisher in the lead and he allowed Chick Gandil to come across with a hit that scored both runners. He then settled down and assisted in retiring the next three batters. In the fourth inning Chicago again tallied and this ended the game.

Features of the game were a sensational catch by Neale in the first inning, a heavy play by Daubert in the third inning, and the throwing of first. Interest in Chicago seemed to be dead for there was room in the park for many thousands more fans. At 1 o'clock the stands were only three quarters filled and from that on only stragglers arrived to witness the contest. The victory of the home team may act as a stimulant and today and Sunday should see record crowds turning out.

Cicotte or James will in all probability be on the mound today. Cicotte is due for another chance and it is up to him to make good after his story showing in the first game. It may have been only a day off and he might come back and pitch a cracker-packer game. If Cicotte does not pitch him, it looks as if his second choice will be Bill James. Bill has had lots of experience and he could combine that experience with speed and courage he might stage one of the greatest come backs in history. Reports from Chicago would indicate that he has been showing great form while working out. The box score and summary of the game follows:

**IMPERIAL THEATRE**  
SIXTH ANNIVERSARY MONTH

**IN CELEBRATION OF ITS SIXTH BIRTH-DAY**—a celebration that will continue throughout the month—Imperial Theatre extends cordial greetings and offers a galaxy of photoplay and screen talent especially chosen for the next three weeks. The attractions in their order will be as follows:

- Oct. 6, 7, 8—ANITA STEWART in "MARY REGAN." The third of the remarkable series of successes Miss Stewart has scored under the First National Exhibitors Association banner. This is Le Roy Scott's novel picturized.
- Oct. 9, 10, 11—"SPORTING LIFE" DRURY LANE CLASSIC. Without doubt the most exciting picture of its kind ever brought to St. John. All-star cast of English players. Picture photographed in England for Paramount. Horse races, boxing bouts, love and intrigue.
- Oct. 12, 13—CLARA KIMBALL YOUNG in "CHEATING CHEATERS." Mrs. Marcia's eminent stage success of the past season. The cast includes besides, Jack Holt, Anna Q. Nilsson, Tully Marshall and Mayme Kelso. A select brand film.
- Oct. 17, 18—"TANGLED THREADS"—REMARKABLE CAST. Bessie Barriscale, Little Ben Alexander of "Heart of the World," Nigel Barrie, Thomas Holding, Rosemary Theby, are the chief players in this Robertson-Cole most souful of all domestic dramas of late.
- Oct. 20, 21—THE GREAT NAZIMOVA in "REVELATION." Powerful European story marvelously produced and acted with all the subtlety and consummate art of which Nazimova is capable. A return to the pre-war film classic of French production.
- Oct. 22, 23—"THE DIVORCE TRAIL" WITH GLADYS BROCKWELL. Outspoken preachment against the divorce evil by Fox pictures, disclosing numerous traps laid for unwary married folks. A photoplay that sums up what writers and preachers have been talking about for years.
- Oct. 24, 25—MABEL NORMAND in ANOTHER BIG LAUGH. "When Doctors Disagree," a delightfully funny Goldwyn picture, a pretty little tale of a kitchen girl whose curiosity about chewing tobacco got her into trouble and incidentally a hospital.
- Oct. 27, 28—BIG SCREEN HEROES in "CODE OF THE YUKON." Mitchell Lewis and Tom Santschi, gladiators of the north in a strenuous fiction by Anthony Paul Kelly. A Select production of the high-class magazine quality of story.
- Oct. 29, 30—FANNY WARD in "COMMON CLAY," by Pathe Co. This is one of the ten wonder-pictures of the whole year and will doubtless have to be given an extended run in our theatre. The story and stage production are too well-known to explain them again. "Common Clay" will be a serene sensation at this house.
- Oct. 31, Nov. 1—H. D. WARNER in "THE PAGAN GOD"—AN ORVILLE. Again this splendid English star comes in a role exactly suited to his style of acting and dignified bearing. It deals with Chinese revolutionaries and the British Embassy's efforts to quell them.

**McDONALD KNOCKS OUT GUNNER ARNOLD**  
Roddie Defeats Opponent in Ninth Round—Arnold Took Severe Punishment

(Halifax Recorder)  
The 900astic fans who went to the Mayflower rink last night had a great evening's sport. There were no preliminaries, simply a semi-final and a final, and everybody was pleased the ordinary rounds were omitted as they witnessed round after round of good hard fighting. Altogether there were 20 rounds, and there was not one of them that was not hotly contested.

Roddie McDonald won his bout with Gunner Arnold, knocking him out after 1 minute 55 seconds' fighting in the ninth round. He led his opponent after the second round and pounded him hard again and again. He landed on his jaw and about the head so often that there was but one conclusion that could be reached that Arnold can stand a terrible amount of punishment, or McDonald is not as hard a hitter as he formerly was.

Arnold is a bigger man than McDonald, longer reach, and while he is not such a sturdy stature, he is heavier than the Cape Bretoner. He is the essence of gunniness as despite the heavy blows he got from McDonald, and with his nose bleeding quite a lot, he was always bucking ready for a mix-up. In fact he did most of the leading. He had a good left with which he did never jabs, and he landed many effective blows upon the body, but while he guarded his body well, he left his jaw unprotected. Besides when he led with his right McDonald could see the blows coming, and then dodging, bawling almost every time. McDonald fought with better judgment than usual.

Arnold started after McDonald from the outset, which brought out some lively mix-ups in the first round, and the Cape Bretoner landed several hard blows about the head.

The second round was the most even of the bout, with Arnold effective in his work about the body. Roddie, however, punched him hard in the third, and his nose bleeding, and from that on the bout was always in McDonald's favor with his opponent taking lots of punishment and displaying wonderful gunniness. McDonald fairly took him off his feet in the fifth; on one occasion he put his hands over his face though McDonald was not delivering a blow at the time. The Cape Bretoner again rushed him to the ropes in the seventh, but Arnold fought back hard. Arnold split one of the new pair of gloves in this round.

and there was a delay of seven minutes, 25 seconds, until a new glove was procured and the bout was started again. There were eight exchanges until near the end of the eighth when Roddie landed a heavy blow on the chin, which finished the knockout with a right to the jaw. Arnold got up on one knee as nine was counted but fell back on the floor again.

**Are Forming Soccer League.**  
Plans are underway for the formation of a soccer league, and already four teams have signified their intention of joining. The East End League grounds have been secured for the games and if the plans materialize some good games should be witnessed there. A team from Fairville, one from the sugar refineries and two from the cotton mills have decided to enter, and it is possible that other organizations may want to be represented. A meeting will be held in the city and the chief is anxious to learn of her whereabouts.

The police chief has received a letter from the superintendent of police in Boston saying that George Williams, a married sister is said to be residing in the city and the chief is anxious to learn of her whereabouts.

The Charlotte street and Ludlow street Baptist churches and the Carlton Methodist church have united for a campaign to be conducted by Rev. Dr. Milton S. Rees of Rochester, N. Y., who conducted a similar campaign here in 1910.

FAIR VALE O. A. CLUB HOUSE OFF; FUND TO CHARITY

As the result of a peculiar situation which arose at a meeting of the Fair Vale Outing Association, last evening, two charitable organizations of the city will be \$800 richer today.

One group favored the purchase of the property in question which cost in the vicinity of \$2,500, paying the \$800 in the club funds and taking the remainder on mortgage.

A second group advised taking the ground that having no standing as an incorporated body, the association should not assume the obligation of a mortgage.

Among those taking this view were George S. Bishop, E. S. Carter and H. H. McLellan.

A lively discussion participated in by others and it became clearly evident that the meeting could not hope to come to an agreement.

It was then decided that the association funds would be divided between the Protestant and Catholic orphanages and the project abandoned.

for the present. The motion adopted calls for the payment of \$800 to the Protestant orphan and \$800 to the Sisters of Charity.

It is possible that rival organizations may develop out of the meeting and that the younger element may proceed eventually with the building of a club house.

Jones and Thornton and the county secretary, to report to the council.

A further amount of \$2,500 was loaned to the Lanarkshire Highway Board to complete the road from Milford Fairville on the same terms as the \$10,000 loan was made that is in payments of ten annual installments at 6 1/2 per cent.

Flays Rich Churchgoers London, Oct. 4.—"Our country must be saved from the low ideals which threaten it," said the Rev. F. B. Meyer.

"People coming to church in the latest fashions and dressed in their smartest clothes make it difficult for people who cannot afford such extravagance to sit with them."

The church was never intended to be a sort of parade ground for showing off the latest and most absurd fashions.

Washington, Oct. 3.—Boris Bakmeff, the Russian Ambassador, informed the State Department today that Gen. Rozanoff, the superior Russian commander in Siberia, had apologized to Maj. Gen. Graves, commanding the American and an enlisted man and the flogging of forces in Siberia for the incident at the latter.

The Ambassador also said Gen. Rozanoff had promised to call for the punishment of the troops which had been guilty of the mistreatment of the Americans.

MORE ROOM THAN SOLDIERS' NEED

At a meeting of the finance committee of the County Council, held yesterday afternoon in the county secretary's office, a delegation consisting of Judge Forbes, Lewis Simms and Mrs. Harold Mayes appeared before the members and asked for a \$800 grant to assist in placing a Victorian Order nurse in Lanarkshire.

The committee informed the representatives of the Victorian Order of Nurses that legislation would have to be obtained before a grant of this nature could be made.

There is no available fund at present which might be used, it was announced, and special assessment for this purpose can only be made by special legislation.

H. B. Schofield, chairman of the St. John County Hospital Board, appeared before the committee and requested that the county-treasurer extend a credit of \$10,000 to the county hospital to commence on January 1, 1920.

He gave as a reason for the extension of credit a lack of income from the Soldiers' Civil Re-establishment. When the addition was made by the government of Canada, it was expected that they would provide for forty patients; the proposition to pay on a fifty-fifty basis was that there would be a large number of soldier tuberculosis patients in this province.

Fortunately for the soldiers but unfortunately for the income of the hospital the soldiers have escaped lightly so far as tuberculosis is concerned, and so the county hospital is in much short.

The finance committee recommended the extension of the credit to the council which meets next Tuesday.

Bills received for payment from the county auditor were held over for further explanation and referred to a committee, consisting of Commissioners

MANUFACTURERS VISIT MONCTON

Moncton, N. B., Oct. 3.—Representatives of the Canadian Manufacturers' Association who visited Moncton today, were given an automobile drive prior to their meeting this morning in city hall, and at 1:30 p.m. were entertained at luncheon at the Hotel Brunswick.

Following this the visitors left for Truro. H. R. Thompson, secretary of the maritime division of the Canadian Manufacturers' Association, with headquarters in Amherst, reviewed the standing of the association in the maritime provinces, which was quite encouraging.

Several other speakers were heard including several of the local manufacturers. At the banquet Mayor Price presided. W. H. Shapley, of Toronto, and others, responded to the text to our guests.

H. W. Fleury, of Toronto, said farmers, like manufacturers, should advertise extensively. He believed there was an awakening of agriculture in New Brunswick.

Mr. Lodge spoke of shale development in Albert county. In 1920 a plant would be put up within sixteen miles of Moncton. Continuing, Mr. Lodge said: "I note by today's press that some of our senators are wakening up to the matter of free entry of shale machinery. I might remind the senate that this matter was taken up in 1908 and an order-in-council passed allowing machinery to come in free. Since that time there have been a great many improvements in the methods of retorting shale oil."

Louis J. Emery, of Pennsylvania, started drilling operations in 1908 and he and others bored several holes in Westmorland county and discovered some oil. Investigation of retorting plant in Scotland led the speaker to the belief that practically all machinery for such a plant can be manufactured in this country as cheaply as over there.

Mr. J. E. Masters, who was the last speaker, was strongly in favor of machine union.

EFFECTS OF EXCHANGE

Vienna, Oct. 3.—Depreciation of the Austrian crown on the world's exchanges causes some curious figures in buying. In the shop windows one sees cards on men's socks reading "75 kronen." Ready made suits of clothes or women's dresses are marked "2500 kronen," a felt hat "800 kronen" and so on, while on real jewelry the price cards run into the high thousands.

The result is a loss of the sense of values on the part of the people, while the rapid fluctuations of the exchange make it impossible to keep a correct idea of actual costs.

ARE STEEL STRIKE LEADERS PATRIOTS OR BOLSHEVISTS?

"We are going to socialize the basic industries of the United States. This is the beginning of the fight. We are going to have representatives on the board of directors of the Steel Corporation," declared John Fitzpatrick, Chairman of the Committee of Twenty four, representing the twenty-four separate American Federation of Labor unions participating in the steel strike.

T. J. Vind, general organizer of the American Federation of Labor in the Chicago district made even a more defiant cry when he declared that "The strike won't stop until steelworkers become the lawmakers at Washington."

While many editorial writers outside the labor press take these and other statements of the strike leaders as an indication that they aim at nothing less than industrial revolution, The New Majority, of Chicago, organ of the Labor party, counters with a charge of "high treason" against Judge Gary, of the United States Steel Corporation, because he denied the strikers "their constitutional rights of free speech, press, and assemblage," and it affirms, "he has set himself and his steel trust up in defiance of the Government and Constitution of the United States, as superior to them."

Concerning the union demand for increased wages the labor leaders admit, according to a correspondent of the New York Tribune, that the wages to employees in the steel industry have increased about one hundred per cent in the last four years, but "even this increase has not sufficed to improve their originally wretched conditions. They tell of human beings living like cattle in miserable shacks and hovels. The answer of the employers to this contention is that with the foreigners in the mills and furnaces the rate of pay has nothing to do with the standard of living, as the purpose of this class of laborers is not to live well, but to live as poorly as possible in order to save as much money as possible, usually with the intention of returning to Europe when a certain size stake has been attained." The employers support their contention by pointing to a scale of wages ranging from \$3.50 to \$6.00 a day for unskilled help, and from \$7.00 to \$80.00 a day for skilled help.
