The Madiana, With Excursionists Aboard, Is on Reef-Trying to Save Passengers.

STEAMER WRECKED

Hamilton, Bermuda, Feb. 10.-The Quebec Steamship Company's steamer Madiana, Capt. Fraser, which sailed from New York on Saturday last for a special cruise along the Caribbean Islands, with a party of excursionists, has gone ashore on the reefs off this sland, nd is likely to prove a total loss. The Madiana is lying with a heavy list and broadside to the wind on the reef one and a half miles northeast of North Rock. The seas are breaking over her. The tug Gladisfen only succeeded in getting within a mile of Madiana. Efforts are being made to transfer the lat-ter's passengers to the Gladisfen by means of a lifeboat. A heavy sea is run-

A Total Wreck.

New York, Feb. 10.-A. E. Outerbec Steamship Company, have received cable advices from Hamilton confirming the Associated Press report of the wreck of the Madiana. According to their advices, the ship is a total loss, but no mention is made of any loss of life. The steamer Madiana was built in Glasgow in 1876, and is of 1.983 tons net burden. She is 314 feet 8 inches long, has 39 feet 4 inch beam and is 29 feet deep. The steamer is owned by the Quebee Steamship Company, and hails from London. She has on board one hundred passengers. The list of passengers does not include any Canadians.

Steamer Abandoned. Queenstown, Feb. 10 .- The British barque Crown of Germany, Capt. David-son, from San Francisco, for this port, arrived to day and landed thirty of the crew of the Belgian steamer Maskelyne, Capt. Tanner, from New Orleans, De-cember 1st, and Newport News January 7th, for Antwerp, which was abandoned in a sinking condition on January 31st.

#### SUPPOSED TO BE **ESCAPED CONVICT**

IMPORTANT ARREST BY RAILWAY DETECTIVES

Prisoner Accused of Robbing C. P. R. Cars-Engineer Killed by a Passenger Train.

Winnipeg, Feb. 11.—"Throw up your hands there; you are under arrest," was the calm remark made by Inspector Mc-Donald, of the C. P. R. secret service department, to a man in Dunn's barber shop on Portage avenue last night. The man was instantly cowed. He held some tobacco in his hand which he was endeavoring to dispose of to the proprietor, but he dropped this and threw up his hands. Inspector Hussey, who was with Inspector McDonald, at once handcuffed the man, and he was taken to the police station. The prisoner is believed to be George Jewett, an escaped American convict, and one of the most desperate characters on the continent, who has been heard to say that he would never be taken alive. During the past few weeks bundreds of dollars worth of goods have special work was necessary to catch the thief, which was evidently accomplished, as the prisoner had in his possession two cases of McDonald's chewing and two boxes of smoking tobacco and a pail of lard, which had been stolen from C. F.

Toronto, Feb. 11.-The crown lands department estimates that the cut of timber of Onario for last year amounted to over seven million feet.

Engineer Killed.

St. Thomas, Ont., Feb. 11 .- Thomas McCarthy, a Michigan Central railway ngineer, while oiling his engine at Cayuga was struck by a passenger en-gine and instantly killed yesterday. He belonged to St. Thomas.

SUFFERINGS OF INDIANS.

One Man Died From Injuries Received While Out Hunting-Stormy Interview.

Vancouver, Feb. 2.-The steamer Cassiar this morning brought an Indian with a broken leg and the body of another from Port Rupert. They were victims of a terrible experience. The two men had been hunting and a tree fell on them, pinning the legs of both to the The men were buried two feet under the credibly short space of time, snow when found.

A stormy meeting occurred between the business men and the city council this morning regarding the Deadman's Additional Machinists Employed at Island question. The deputation opposed the mill and the present conditions.

Work on Warships and hot words occurred between the members of it and the Mayor. Finally, after the deputation pressed for a big deputation to be sent to Victoria to protest, the council agreed to prepare a memorial for presentation to Premier Prior here to-morrow.

The views of the silver-lead delegation were heard at length by Senator Temthis morning on the lines of making the duty on lead the same as the rican duty, to protect the industry. No action was taken. Another session

is being held this afternoon.

Cardiff Steamer Sunk After Collision-The Stranded Madiana.

London, Feb. 10.-The steamer Watchful, of Liverpool, to-day sank the steamer Arthur, of Cardiff, in a collision off Barry. Most of the crew of the Arthur were asleep at the time, but eight were thought they were killed in their bunks

Caring for Passengers.

New York, Feb. 11.-No definite plan has been considered by the Quebec Steamship Company for the excursion-ists who were on board the wrecked steamer Madiana. The passengers are all at Hamilton, where the company's agents have been notified to see that they receive every attention. Any who care to continue the original cruise, except so far as it includes all ports-Porto Rico and Cuba, can do so.

CLAIMS ON SALVADOR.

Government Must Pay \$600,000 to Oakland Capitalists Next Month.

San Francisco, Feb. 11.-The Salvador Commercial Co., composed of a number of capitalists of Oakland, Cala., has a claim for \$600,000 against the government of Salvador, and the money will fall due next month, about the time the Pacific squadron under Admiral Glass will arrive in the vicinity of the Central American republic. The company was organized in 1896, Docks were constructed and a thriving business was being transacted when the property was confiscated by the government. The matter was directed to the attention of Secr tary of State Hay, who appointed a commission to investigate. The commission awarded the Americans \$600,000.

CAUGHT IN SNOWSLIDE.

Freight Train Swept Into a Gulch-Sev eral Men Injured

Missoula, Mont., Feb. 11 -A snow slide has occurred at the "S" bridge on the Northern Pacific railway between Mullan and Dorsey, destroying seven bends of the trestle work and sweeping a freight train into the gulch many feet-below. Every member of the freight Dr. Pierce's Pleasant Pellets clear the crew, was injured, two probably fatally. muddy complexion.

FAVORS CLAIMANTS. FAVORS CLAIMANTS.

French Doctor Says Charles Fair Died

GOING TO ASSIST Before His Wife—The Fight For Estate.

ant point has, according to the American's Paris correspondent, been scored for Mrs. Hannah Nelson, of New York, and the other claimants to the estate of Mr. and Mrs. Charles L. Fair, by the iling of an affidavit before the United States consul here by Dr. Perrique, the physician who examined the bodies of he Fairs after the fatal automobile as eident, that Charles Fair died before his wife This affidavit is at variance with the doctor's former statement that both the Fairs were killed instantly and simultaneously, but the doctor now claims that his affidavit is backed up by medical evidence beyond dispute, and it is de-clared that his first statement was made upon the impulse of the moment and without regard to the greatness of the interests at stake. In all there are eleven witnesses where evidence will be of ma terial use to the contestants for the Fair millions, and the lawyers here say that the proof is incontestable. Several of these witnesses will be sent to New York, and the depositions of the others

will be sent, properly attested to the

Washington, Feb. 11.-In an executive session which lasted only an hour and a half to-day, the senate, in addition to confirming a large number of nominations, ratified the Alaskan bound-

Senate.

There was no delay in securing action on the Alaskan treaty, and very little opposition to it was manifested. Senator Teller said that he considered the Alas kan boundary so well determined as to make it not a serious matter for dispute; therefore, while he would not delay, he would not vote for it. Names not called for, but there were ser eral voices heard in the negative when an informal expression was called for. The ayes were so much more numerous however, that the decision of the chai to the effect that ratification had pre vailed was not challenged.

WOOD INSTEAD OF STEEL

Millions of Feet Wanted For Tunnel by Niagara Falls Power Co. at Buffalo.

San Francisco, Feb. 11.-The Niagara Falls Power Co. has made a bid for 3,000,000 feet of red wood timber to be delivered at Buffalo, N. Y., next July. The offer has been accepted, and the deal probably will be closed within a few days. The red wood is to be used instead of steel for a great tunnel to be con structed this summer. The reason given for the preference of the California wood is that when water passes over it con tinuously there forms a surface of soapy and pasty nature which is proof against corrosion, whereas in the case of steel particles of sand and matter carried with ground, and for forty-eight hours they stayed there in a snowstorm all the time.

RUSH ORDERS.

Work on Warships.

New York, Feb. 11.-Haste in the work of repairing the ships in Brooklyn navy yard is the order of the day. Recommands have been received from Washington, directing that no delay be permitted and that all ships be yard, but they are pushing all work.

UNDER THE NERVE LASH.—The for-tree and torment of the victim of nervous-prostration and nervous debility no one can rightly estimate who has not been un-der the ruthless lash of these relentless der the ruthless lash of these relentless human foes. M. Williams, of Fordwich, Ont., was for four years a nervous wreck. Six bottles of South American Nervine worked a miracle, and his doctor confirmed it. Sold by Jackson & Co. and Hall & Co.—28.

STARTLED By some sudden sound she drops the

vase upon the floor. She is nervous and may be told that nervousness is a luxury which only a rich woman can afford to indulge in. Nervousness has cost many a sition. Some-times when wom-en run machin-ery the price ery the price of nervousness is mutilation,—a finger lost or per-haps the whole hand crushed. Nervousness in monly but a

symptom of such cases to "doctor" for the Cure the diseases which attack the ly organism and nervousness will be cured also.

Dr. Pierce's
Favorite Pre-

scription makes weak women strong, sick women well. It establishes regular-ity, dries weakening drains, heals inflammation and ulceration, and cures female weakness. It tranquilizes the nerves and induces refreshing sleep.

mduces refreshing sleep.

"In the fall of 1897, I was troubled with nervousness, headache, heart trouble and female weakness," writes Miss Blanch M. Bracey, of Sala, Oswego Co., N. Y. "Last summer I wrote you and you advised me to try your 'Favorite Prescription' and 'Golden Medical Discovery,' I did so and I began to improve rapidly. Continued taking the medicine, half a dozen each of 'Favorite Prescription' and 'Golden Medical Discovery' for the space of five months, and in less than a year had regained my former health."

THIS TABLET ERECTED BY

THE CANADIAN SOCIETY OF NEW YORK

FEBRUARY 1ST. 1903

London, Feb. 12.-A special dispatch from Rome says:

"Italy was fully consulted in the course of the Lamsdorf-Coluchowski conferences on Macedonia, and promised to put in commission as rapidly as possible. To obey these orders it has become necessary to employ about 200 additional machinists. No definite information as to the reason for hurrying the repairs to the reason for hurrying the repairs.

The proposed action. The scheme for reforms includes a demand for the assembling of an international congress to adjust the details. This will be supported by a demonstration of congress to adjust the details. This will be supported by a demonstration of European warships off Salonica, where they will remain while the congress is in session. Orders have been given to the Austrian Lloyd's Steamship Company at Trieste to be prepared at short notice to furnish sufficient transportations to convey a large army to Dalcelled, the reserves have been warned be ready to deal with the large bodies of men and supplies."

Deputations.

MINERS ON STRIKE

WORK SUSPENDED, AT THREE COLLIERIES

Number of the Men Are Said to Be Opposed to Move-Alleged Intimidation.

Fernie, Feb. 11.-The miners employed by the Crow's Nest Co, went out at 7 o'clock this morning, in all three col leries, viz., in Michel, Morrissey and the Coal Creek, of which Fernie is the entre. The grievances are believed to be as follows: First, the cutting of prices at Morrissey to forty cents per ton; secondly, the use of McGintys at Morrissey; third, the employment of Chinese at Michel; fourth, the scarcity of timbers in the mines; fifth, the non-recognition of the District Miners' Union. The use of McGintys had caused a great deal of protest. These are posts fixed at the top of inclines, down which

Later Particulars.

Fernie, Feb. 12.-All mining operations are tied up. The present crisis has been pending for some time. The district union, embracing repre entatives from the three local had been in consultation with J. Baker. the British Columbia representative of the Western Federation of Miners last week, but it is thought that he did not sanction the strike.

The miners are very secretive and re-fuse to tell their grievances on the ground that they intend to wait until General Manager Tonkin approaches them. They demand that the company recognizes the union, and this Mr. Tonkin refuses to do. The grievances are said to chiefly concern Morrissey, where the men are paid only forty cents a ton, while here they get 60 cents. The company cannot supply the local coal orders; and the in tense cold snap is already beginning to cause suffering.

Mr. Tonkin says the company will not give in, and that he is prepared to close

the mnes for eight months.

The slow element, which is strong, for a long time refused to favor a strike, and intimidation is said to have been the means of whipping them into line. At the present time it is said the majority of the miners have not voted for a RV CNN strike. The business men are in a peculiar position, they cannot learn the men's grievances, and yet if they do not agree with them they are censured. The men cannot stand a long strike without ustide aid, as many are not recovered from the effects of the last strike.

A mass meeting held by the miners yesterday was a failure, as it was im-possible for them to make speeches with out disclosing their grievances, and they amounted to little more than stories about the company's officials. The sympathy of the business men at this stage is largely with the coal company The unions are largely run by young men imbued with most radical ideas, and with no financial interest in the town, and these irresponsible leaders have forced the better class of miners to go

The effect of the strike on the metalrous districts of West and East otenay will be most disastrous.

Want Union Recognized. Fernie, Feb. 12.-The strike situation s not changed, and there is likely to be a long struggle. The miners and determined that their union shall be recognized, and the manager of the coal com pany is absolutely opposed to meeting them. A deputation consisting of three miners from Morrissey, Michel and Coal Creek tried to present their grievances before Manager Tonkin, but he refused. He will meet them individually, but not

It is a little difficult to get information from the miners here, and it is not known whether they are backed by the Western Federation Union or not. Manager Tonkin says the miners here are making better earnings than those in any other place in Canada. The Coal Company is not selling a pound of coal tric light will likely be shut off in two days, as there is little coal on hand at | went to wash at a neighbors and left the electric power plant.

Monticello, N. Y., Feb. 10.-The hear-Mrs. Kate Taylor is charged with hav-Taylor, at their farm house, near Centerville station, Sullivan county, on the shortly night of January 27th. The crime was throats. discovered through a remark of Mrs. Taylor's, that she had put her husband out of the way. A 14-year-old daughter, Ida May Dekay, by Mrs. Taylor's first husband, was the only witness of the District Attorney F. S. Anderson, con

ducted the inquiry. The daughter testified that her step-father came home drupk and that she retired, while he and her mother were quarrelling. A short time after she heard a shot, and running into the kitchen, saw Taylor lying on men an increase of ten per cent. in the floor, and saw her mother shoot him wages. A deputation representing the binder again. Mrs. Taylor then seized an axe The only object, apparently, of the recent announcement of the scheme of reforms by Count Lamsdorff, the Russian foreign minister, is to throw the soin back on us and blame for the war upon Turkey. There is no doubt that the Carar will endeavor to divide the soil of the consider of the consider Manufacturers.

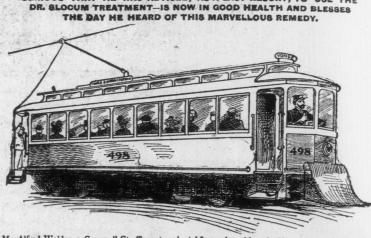

A deputation representing the binder again. Mrs. Taylor then seized an axe and cut off Taylor's head, and right arm, both of which she placed in the stove. The remainder of the body was cut in four pieces and put in a sack in the pantry, and during the two succeeding days parts of the body were burned until all the consider of the body were burned until all the consider of the body were burned until all the consider of the body were burned until all the consider of the body were burned until all the consider of the body were burned until all the considered of the body were burned until all the considered of the body were burned until all the considered of the body were burned until all the considered of the body were burned until all the considered of the body were burned until all the considered of the body were burned until all the considered of the body were burned until all the considered of the body were burned until all the considered of the body were burned until all the considered of the body were burned until all the considered of the body were burned until all the considered of the body were burned until all the considered of the body were burned until all the considered of the body were burned until all the considered of the body were burned until all the considered of the body were burned until all the considered of the body were burned of the Czar will endeavor to divide the ciation, the Canadian Manufacturers' was consumed. The pros and cons were weighed, and the prosest ipped the beam. The appointment was made in secret conclave, the two scribes receiving an unmistakable hint to retire at the close of the routine programme. The sixth assistant of the Victoria High school building was also appointed. There were nearly five dozen applicants, and the race was absorbingly exciting. One of the applications was a gem of gems in the epistolary fiterature of the age. In closing it the writer vowed the warmest kind of constancy, inscribing himself "yours" until a certain torrid locality was frozen over.

Communications were first taken up. Ald. Yates asked that a conference be arranged between committees of the local and council to discuss the equalization of insurance. In this connection Trustee Jay said that in the city trenscipal Paul and his assistants they per head for each new member of the would do, and gave the matter their insurance department.

He Takes to the Woods and Up Till
Present Evades Recapture.

The Interests of labor. A labor bureau was established. A standard wage was fixed to protect the labor men. An instance of this was afforded the other day in connection with the work on the Fraser river bridge, in which the terms of three and six, probably a dozen externed a waried character, could be seen leaping fedness, sprinting along the road at top speed or following side paths across the fields. Several residences were besieged for guns, and a number which had not the weapons supplied ammunition. Finally all formed themselves into a kind of the prosent government was that of the Postmaster-General in the interests of labor. A labor bureau was established. A standard wage was fixed to protect the labor men. An instance of this was afforded the other day in connection with the work on the Fraser river bridge, in which the terms of three and six, probably a dozen extent of the contract with the Dominion government were sufficient to enforce for a laboring man remuneration on the basis of an eight-hour day.

There was really no necessity for a division of that kind in this province. The Liberal candidate ought to be the candidate for the labor man as well as for the Prosent Evades Recapture.

He favored the Coast-Kootenay and the first rallways to be encouraged. He would support such the rented rooms and the victoria West school, and that the series of the encouraged in the requisite enterguards referred to were incorporated.

lands were.
P. C. MacGregor asked Mr. Sutton if Extending over 230 miles from Wellington to Hardy as he stated that the richest part of the Island was in the interior, would it not

D. W. Higgins eulogized the address he showed allowed of tributary lines be-It was sometimes urged that ver Island was not a good place oup. That, from a scientific up. That, from a scientific oup. That, from a scientific earlier days. He said Vancouver Island out to the said that was a question in economics for railway men to answer.

was a surprise to him. It was much richer than he had ever expected it would be found to be. He was sorry that prihad undoubtedly more mineral to ware inch than any other part of the coal and timber measures. This was not an agricultural country. It was was not an agricultural country. d. Minerals were scattered all phase of it would be a live question beis Island. It was true that the fore long. They would soon have to sugin the Northwest was now open. The Is were not always found in great gest some means for the building of the time. All the prospects were not dollar mines. Treat the prospection to what they promise, said at the time of his visit to this city in the Northwest was now open. The timber man must go in first and clear the land. Agriculturalists had gone in and destroyed by fire greater values in timber than they could ever hope to FECTED PARTS. FORTIFIES make off the land in their lives.

A speaker contending for government ownership held that they should follow Mr. Higgins read the following:

"Whether the railway (Crow's Nest the example of Ontarthe, which was building ing the Temiscamingue branch by commission. By government ownership they borrowed money to have an asset in return. Otherwise they borrowed that sum to give it away.

The meeting then closed. HOBSON'S WORK.

J. B. Hobson, the president of the Provincial Mining Association, is establishing a record for dispatch in the work of organizing the parts of the province which he is visiting. A message received from him states that Barkerville will be organized to-day, and that on Thursday he will be in Soda Creek, unless prevented by snow storms. He records the organization of branches at Ashcroft, Clinton, Lac is Hache, Hundred and Fifty, Horseffy, Bullion, Quesnel Forks, Keithley and Quesnel Lake.

Mr. Hobson will leave for Nelson immediately after effecting an organization at Soda Creek, and at once begin active work in the Kootenays. In many parts of the upper country the completion of the organizations are being delayed until the arsival of Mr. Hobson, who will, it is expected, be able to allay some of the misunderstandings which harve arisen in some places.

The present organization is but a pro-

AN OBJECT IN VIEW

When He Bolted His Door on the Firemen-He Was Fined \$10 on Tuesday

When Mee Ching endeavored to pre all those who were awarded either a first or a second are requested to wait on Mr. vent the fire department from entering his shack on Cormorant street last. In the list of prizes which were published from time to time during the show Sicker. He had opened a trail to these. Texada Island gave copper. Important deposits of both copper and iron were found at San Juan river, at the Serita river and on Sechart peninsula. Cinnabar also was found on Sechart Island, the only place he knew of on Vancouver Island. At Elk Lake copper was found. Up Dear and Bear creeks and at Sidney Inlet promising copper deposits were met with. In the north end of the Island there were also rich deposits of this minoreal with he had a definite object. Thursday night he had a definite object in the during the show a couple of slight errors and omissions were made. The first prize for brown is a even of disease. When the experience a couple of slight errors and omissions were made. The first prize for brown in view. It wasn't out of a spirit of couple of slight errors and omissions were made. WEEKLY WEATHER SYNOPSIS,

February 4th to 10th, 1903. During Wednesday and Thursday, the J. Cornwall. Arthur Peatt made a very 4th and 5th instant, an important high efficient chairman. eter area covered British Columbia and the North Pacific states; the weather was mostly fair and cold, with occasiona light falls of snow in Oregon and Washington. On Friday, the 6th, the pressure ed of an ocean storm area approaching Vancouver Island; by nightfall the storm signo. On Friday, the oth, the pressure sed of an ocean stora area approaching Vancouver Island; by nightfall the storm developed, a moderate gase from the southest prevailing at the entrance to the Straits of Fuca, causing rain in this district and showtfall on the Lower Mamland. During the three following days a succession of storms shifting from southeast to southwest rapidity passed over the province and the adjoining states, accumpanied with heavy rainfall. Storm signals were displayed here, at vancouver and Nanaimo. High winds and gates occurred along the waters of the Straits and on the outsfield Coast, the gales being especially heavy from Tatoosa lighthouse southward to the mouth of the Columbia river, from which latter point an hourly wind velocity of 72 miles was reported on Saturday. On Sunday a high barometer area made its appearance on the Californian coast and its movement checked the progress of the storm area and forced it northward and eastward through the province and into the Territories. By Tucsday the pressure had again increased over the Pacific states and British Columbia, and conditions once more became favorable for an interval of fairer and brighter weather. During the greater part of the week the weather was decidedly stormy and threatening, with heavy falls of rain, sleet and snow at various points. Temperatures have been lower than usual except on the 9th; when during the day warmer weather prevailed. In the Northwest the passage of the storm area caused Chinook conditions and accompanying higher temperatures; very little snow has fallen and the weather on the whole has been not unseasonable.

At Victoria, 18 hours and 24 minutes of bright sunshine were recorded; the highest temperature was 48.1 on the 9th; rain and

lowest, 30.7 on the 5th; rainfall, 1.11 inches. At New Westminster, lighest temperature, 46 on 9th; lowest, 20 on 5th; rain and melted snow, 1.43 inches.

At Kamloops, no precipitation: highest temperature, 44 on 9th; lowest, 4 on 3rd.

At Barkerville, snowfall, 30 inch; highest temperature, 34 on 9th; lowest, 2 below zero on 4th.

-Owing to the poor attendance at the meeting of No. 6 Company, Fifth Regiment, held on Monday, the election of officers was postponed until the 23rd of the month. Several reports were received, however, and a general discussion

-Wm. Woodman, of this city, has received the appointment of agent for the British Columbia Permanent Loan & Savings Company in Nanaimo, in place of E. J. Flatt, who has filled that position for the past twelve months. Mr. Flatt goes to Sydney, Cape Breton, to take charge of the work there.

The funeral of the late Walter J. MAlpine took place on Tuesday from the parlors of W. J. Hanna to St. Andrew's Presbyterian church. Rev. Mr. Ewing officiated at the church and also at the cemetery. The following acted as pallbearers: Messrs W. A. Jame-Albert Pettigrew, A. J. Murtrie

RAILWAY EXTENSION. To the Editor:-As a resident of AT-

BY SUITON'S ROUTE berni, I take great interest in Island railroad discussion. Alberni is so situated and has such varied natural resources that it would be folly to not put the main line of road through it. This is a Outsiders Soliciting Retail Orders Are fine valley. I don't think it can be equalled on Vancouver Island for grow ing vegetables and dairying, and it is of great extent, room for hundreds of settlers if opened up with railroad com munication. And I don't think it would be as difficult as generally imagined. In Thursday's Gazette appears an application which is made by C. H. Lugrin, of this city, for the incorporation of a company to build a standard guage rail. to build over. Then it could be brought of the range at its lowest elevation, which would not be more than 800 or 900 feet. It certainly is not as high as the wagon road to Nanaimo, and from that The company propose to build from point you can see the water on the east tardy Bay to Rupert Arm, Quatsino coast, and the water in the Alberni canal about equal distance apart. I should say it was no more than twelve miles from water to water at that point easier to come from that point by way Also from Hardy Bay or from of Alberni than to continue on to the JOHN BEST.

The incorporation of the Stanley Dollar Steamship Company, Limited, is noted. The company is capitalized at \$50,000 divided into 5,000 shares. It is organized to acquire the vessel Stanley Dollar now registered at the Port of St. Thomas, D. W. I.

The A. E. Howse Company, Limited, with a capital of \$75,000, divided into 3,000 shares, has been incorporated to conduct general merchant and forwardings agents business of A. E. Howse, at Nicola and Princeton.

Hon. W. W. B. McInnes returned from West Yale Westnesday evening, leaving again on the Charmer to continue his assistance in the campaign of Dr. Sanson. The provincial secretary is very much encouraged with the progress of the fight and expects to see the government candidate elected. It is urged against Chas. A. Semilin that little was got by him for the constituency while he represented it. Hon. Mr. McInnes will likely remain in West Yale until after the election campaign is completed on the 26th.

DIED.

THE HOME MERCHANTS

ARE TO BE PROTECTED

Subject to License Fee of \$50-Police Court Cases.

A representative of an Eastern tailor ing establishment has contributed to the civic exchequer the sum of \$50 for privilege of taking retail orders for firm. Since his arrival in the city has been actively engaged in soliciting patronage, and in the course of events came under the eagle eye of the tax c lector. That official immediately the necessary information and the a bassador of trade received a certain si tinted document. He was charged win an infraction of the Revenue By-law i carrying on trade without taking out license. The representative, however wasn't disposed to fight the case, and the charge was withdrawn on his baying the amount and costs \$2.

The house represented by Mr. Arthur for that is the traveller's name, has been doing business with the people i this city for some time past. There always a certain class of people in every community ever ready to give orders outsiders to the detriment of local estabiishments, and the Eastern tailorin house 'get its share. Some time ago the city council determined to protect local merchants to the utmost, and amended the by-law by the insertion of the following clause:

10. Every person who either on his own behalf or as agent for another or others, sells, solicits or takes orders for the sale, by retail, of goods, wares, or merchandise to be supplied or furnished by any person or firm doing business outside of the manicipality, \$50 for every six months.

It is under this clause that action was taken against the Eastern representative. The authorities intend to enforce this provision as thoroughly as possible, and in that way afford local establishments the fullest measure of protection and the encouragement which all recognize they deserve. Transient traders will also be proceeded against, and will be prompetly brought before the magistrate unless they pay the sum of \$500 for ever six months under the following clause:

Samuel M. Robins, of Nanaimo, is in the city, arriving by the noon train. He is a guest at the Driard.

W. C. Spicer, treasurer of the Yreka Copper Company, is a guest at the Dominion hotel.

23. Each transient trader or other person who occupies premises in the municipality for temporary periods, and who may effer goods or merchandise of any description for sale by auction, or in any other name, conducted by himself or by a licensed auctioneer, or otherwise, in addition to any other license before mentioned, \$500 for every six months or part thereof.

To-Day's Police Court.

The prisoners' dock at the police court Thursday was filled with occuponts. Most of the first batch disposed of were Indians, and they were up on the usual charge, drunkenness. Davis,a Saanich brave, filed out to the tune of \$5 and \$1 costs; John, an Esquimalt aborigine, was mulcted a similar sum, minus the costs. It was probably unnecess requisition a carriage to convey John to the skookum house. Johnnie James was fined \$5 and \$1.50 costs. He likely had a ride, as did Harry, a Saanich Indian, who had to pay \$1 costs in addition to the usual fine. A first offender was fined \$2.50 for drunkenness. The next time he appears for his offence he will

have to pay twice that amount. A sailor named Martin Nelson, who was charged with obtaining money under false pretences was dismissed with a stiff lecture. It appears he had borrowed a small sum and promised to pay it as soon as he was paid off. This week when his creditor asked him for the amount he said he had not received his money from the ship. The other investigated and found that he had been paid last Saturday, Fearful lest Nelson would skip the country he had him ar-

rested. Nelson will square the matter.
Three incorrigibles, Robert Hansen,
Ernest Dodd and James Bates, are up on a very serious charge of They are accused of breaking into Mr Haggerty's store, on the corner of North Park and Quadra streets, and stealing chewing gum, cigarettes and cigars part of which was recovered under some wagons in Stelly's yard on Johnson street. The boys were arrested Wednes day by Constables Northcott and Handley on Cook street, after a lively chase. Two of the lads are also charged with burglary at Mr. Sear's store.

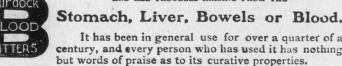

M'LEOD AGAIN WINS. license inspector, Constable H. Hunter, of Princeton.

OWEN—At the family residence, No. 59

the destruction of your home, the death of your sister, and your inevitable murwere it possible for such things to happen it would be my earnest wish to help plain. That is, that d'Alvaro has a very plain. The strong influence over my hydrother."

he looked ill and careworn, but he as sured me that he was quite well. That evening he took me to the opera, but I iced that he paid little or no attention to what went on upon the stage. As we left the theatre afterwards, a beggar, whom I had never before seen, brushed against him, and, without a word of explanation, thrust a note into his hand. Manuel placed it in his pocket and walked on in silence. It was only when we reached our own sitting-room at the hotel that I saw how white his face was. He went to the window, and, opening it stepped into the balcony outside. The letter he had just read had dropped fro n his hand to the floor. Resolved at any hazard to find out what was troubling him, I picked it up and looked at it. To my astonishment there was nothing on it but 'Twelve' in Roman numeral and a few lines and half circles, which were quite unintelligible to me. When he entered the room, I implored him to tell me what was the matter. 'Nothing, nothing,' he answered, testily. You must not attempt to pry into my affairs. I have things to think of

which I cannot discuss with you.' "I was so hurt at this rebuff, comin at a time when I was so racked with auxiety on his account, that I left the room without another word and went and for nearly half the night I heard him pacing up and down in it. My heart ached for him, but when he did so his face was not until late that evening that he eturned. When he did so his face was him to consult a doctor, but he would pot him to consult a doctor, but he would pot hear of such a thing.

"I want no doctor," he cried. My malady is of the mind and not of the sound and was like the most terrible dream to me, by day and night. I can only wonder now that my brain has retained its equilibrium."

"And d'Alvaro?"

"And d'Alvaro?"

"He made his appearance as my brother told me he would do. When the servant announced him, he entered the room as sauve, and as well-dressed, as you have always seen him. He informed him to consult a doctor, but he would pot hear of such a thing.

"I want no doctor," he cried. My malady is of the mind and not of the

"You do not mean that you are resigned his friends of happier days, and was
about those matters the better for both

ciety?" Jack inquired.

"That is a question I cannot answer," she said. "He may have been, or he may not. I have never heard it said that he was, nor has be ever said anything in my presence that would lead me to suppose so. One thing, however, is very were it possible for such things to hapwere doing wrong, it was intentional."

"I reckon I don't want to go in dere." Can you tell why?

CHAPTER IX.

'I know now," said Inez, "that it was, Italy?" he inquired.

indeed, a fortunate day for me when you

things have happened in Europe lately to my dying day." that you fear—" "If there is any He paused-unable to proceed further.

"Too well policed for some people, I expect, I returned, with meaning. Then, careless of his anger, I asked him outright if he were a member of any secret society.

"And then it was that I came into your maining with him. Yet to permit her to do so was to risk her life and to utterly destroy his own happiness.

"Have you any sort of idea to what her coffeen with the vestorial mate she would not leave the found that the vestorial mate she would not leave the found that the vestorial mate she would not leave the found that the vestorial mate she would not leave the found that the vestorial mate she would not leave the found that the vestorial mate she would not leave the found that the vestorial mate she would not leave the found that the vestorial mate she would not leave the found that the vestorial mate she would not leave the found that the vestorial mate she would not leave the found that the vestorial mate she would not leave the found that the vestorial mate she would not leave the found that the vestorial mate she would not leave the found that the vestorial mate she would not leave the found that the vestorial mate she would not leave the found that the vestorial mate she would not leave the found that the vestorial mate she would not leave the found that the vestorial mate she would not leave the found that the vestorial mate she would not leave the found that the vestorial mate she would not leave the found that the vestorial mate she would not leave the found that the vestorial mate she would not leave the found that the vestorial mate she would not leave the found that the vestorial mate she would not leave the found that the vestorial mate she would not leave the found that the vestorial mate she would not leave the found that the vestorial mate she would not leave the found that the vestorial mate she would not leave the found that the vestorial mate she would not leave the found that the vestorial mate she would not leave the found that the vestorial mate she would not leave the found that the ves

least notion."

fore him, looking down at him.

"Mr. Trowbridge," she said, "can you guess the thought that is in my mind?"

"Yes, I think I can," he answered, "Nay, I am sure. So many terrible things have happened in Europe lately to my dying day."

"Heart," she answered, looking up into his face with her dark, lustrous eyes. "Fate has been kind to me in sending such a friend. If you can only help me to find and save my brother, I shall bless you to my dying day."

"And yet before me always was the blow, and his whole being revolted at "I have found it, he answered.

"And yet before me always was the blow, and his whole being revolted at "I have found it, he answered.

Jack would have liked to say more, but he felt that this was not the time for Brockville, Ont.

the neighborhood, and convinced himself hat there was no one in sight. "Be sure when you come here to-m that you are not followed," he said.

"We never know what eyes may be spy-ing upon us. Now I will bid you good-He held out his hand and she took it, gave him one more grateful glance, and

sped away down the path.

When Jack had given her time to reach

the bottom of the hill, he in his turn left the temple and made his way back to the stream—this time by a different route. Once more he reached the bridge and squeezed himself through, between the masonry and the iron grille. It was almost dusk when he reached home. During the walk he had endeavored to discover a way by which he could help Inez to find her brother without imperilling her own safety. It was nearly three weeks since she had seen him, and Jack knew that it was possible for a vast amount of harm to be done in that time. That the youth was an ictive Revolutionist he had no doubt in his own mind. But there are many such in Europe, and to attempt to find one particular person, who would have the best of reasons for remaining hidden, would be almost as difficult as to discover the proverbial needle in the bundle of straw. He reproached himself now for not having asked Inez whether she possessed a photograph of him, and made a mental resolution to put this question o her when he should see her on the

(To be Continued.).

ALL ABOARD SAVED.

on the opposite side to that by be had approached the bridge, he has a mother where the cash let into the properties. Then my father was taken upon this earth, the most miserable at suddenly ill, and almost before we knew this moment is the brother who loves for travel my excuse, Making a desire for travel my excuse, with a feeble attempt at a smile. "What can I do? I am to all intents and purposes a prisoner. They have what they call gamekeepers here, had I never been born, for of all men upon this earth, the most miserable at smile. "What can I do? I am to all intents and purposes a prisoner. They have what they call gamekeepers here, had I never been born, for of all men upon this earth, the most miserable at smile. "What can I do? I am to all intents and purposes a prisoner. They have what they call gamekeepers here, had I never been born, for of all men upon this earth, the most miserable at smile. "What can I do? I am to all intents and purposes a prisoner. They have what they call gamekeepers here, had proved conclusively that that person was short. Then, suddenly, another thought occurred to him which, as the sailors say, brought with intents and outward by had blood, you may ease them by rubbing and look proved conclusively that that person was tall, while Garcia was short. Then, suddenly, another thought occurred to him which, as the sailors say, brought with the winter to torture and the proved conclusively that that person was tall, while Garcia was short. Then, suddenly, another thought occurred to him which, as the sailors say, brought with the winter to torture. Making a desire for travel my excuse, I persuaded Manuel to give up the old home. He did so, and we set off for Italy. It was the first time I had visible dit, and in that wonderland of Art I forgot, for the time being, my fears, It was not long, however, before they were renewed. We were in Rome at the time, and it was there that I first met Monsieur d'Alvaro. How my brother became acquainted with him I cannot say. He has always been very reticent on that point. It is certain, however, that they soon became very great friends, and, for that reason, I was left very much to myself. My love of painting at this period stood me in good stead, otherwise I do not know what I should have done. As it was, my time was, for the greater part, spent in the galleries, where, at least, I could find some distraction from my thoughts. You more distraction from my thoughts. You me moment's consideration will show they can desire to recivel?" said Jack, sympathetically, "What construction did you place upon' it was almost it was not long, however, before they still and the content of the time being, my fears, It was almost it may be not associated in the standard outward the nutside world, nor to hold communication with time. I cannot leave the park, and the world communication with time they stand, more over and over again, and, every the had a beard. He inquired from Miss, and the world world it alm not allowed to see anyone from the outside world, nor to hold communication with time. I cannot leave the park, and the was tall standing. Could that myse the was tall, and, moreover, he had a beard. He inquired from Miss, do Montalva whether the latter had been divided upon metal the cannot get upon. Worse than all is the knowing the upon. Worse than all i was, for the greater part, spent in the galleries, where, at least, I could find pass my lips. Why, then, fear to condide in me? #### THE PIN BRIDGE FINALLY APPROVED

THE COUNCIL ENDORSES A FORMER DECISION

Cow By Law Reaches Its Second Reading - Other By-Laws Left Over for Another Week.

Once more at last night's meeting the city council demonstrated that they were a business rather than a debating assembly. The report from the streets, sewers and bridges committee recommending a pin bridge was adopted withcut a word of discussion, all members of the board being unanimous on the decision. Again in respect to dealing with the Victoria Chemical Works nuisance. instead of heated and useless debates in the premises, the council at once fell in with a suggestion made by Ald. Cameron that the whole board should inspect the works and ascertain what best was to be done on both sides. The Cow By-law, the Wood Sawing By-law and the Carnegie Library Site By-law went over for another meeting, the first

munication read was from the Victoria Chemical Works, wrote as follows:

Seeing from the Colonist of February 8th that the question of the fumes from the Chemical works is coming up for discussion before your honorable body, we beg to submit the following:

sion before your honorable body, we beg
to submit the following:
At the outset we quite admit that latterly considerable fumes have been emitted,
to the more or less inconvenience of those
in the immediate vicinity of the works.
The cause, as has already been fully explained in the Colonist, is that the demand
for our goods has been considerably greatcar than the producing capacity of the
works when extended over a long period,
because this class of business invoives very
heavy wear and tear, which can only be
repaired by a shut down. We were therefore left with two alternatives: To continue manufacturing under great disadvantages, or cause a stoppage on the part
of our customers in the powder trade,
which, as the acid business now stands,
would have caused very serious consequences, it is not too much to say, through
the whole of the mining districts of British
Columbia, and would certainly have driven
the trade to American concerns in both
powder and acid. We think, as business
men, you will appreciate our position.

the trade to American concerns in both powder and acid. We think, as business men, you will appreciate our position.

Farly in October, before the present agitation was mooter, we had taken steps to control the escapes by ordering the necessary material from England for the erection of a further sulphuric acid chamber, which it is our intention to make of the most substantial construction. This, in connection with a spare glover tower, will enable us to keep the plant in a high state of efficiency by being able to lay the chambers off in turn for repair.

It has been said by many, this is only making preparation for increased annoyance—more plant, more smell, they claim—this we most emphatically deny. Some five years ago an annoyance was created under similar conditions; by the erection of our last chamber the nuisance complained of was emin-il plated until the demand had burrun our capacity.

It may be urged, why was not sufficient plant built in the past? The erection of this class of plant involves very heavy expenditure, and, as mining in British Columbia has been in a somewhat undecided condition, naturally any firm has to feel reasonably certain of the continuance of the business before launching out into large sums in plants.

Regarding some of the charges brought

mains in plants.

Regarding some of the charges brought brward by anonymous correspondents in the local papers, we would say: 1. Public Health.—It is a fact that is

3. Damage to Vegetation—Many gardens in the immediate vicinity of the works compare favorably with any in Victoria. We think it would be difficult to convince an unbiased person that actual damage is done. Of course, if through any cause whatever a garden does not come up to the expectation of the owner, nothing is easier than to attribute it to the fumes.

We would like also to bring a further aspect of the case before your honorable body. We have been in business over ten years. Originally we made no secret of our intentions; the matter was brought before the board of trade and referred to in the daily papers. By meny we were welcomed as establishing an industry in Viet ria at a period of great depression; no official protest was made, and we invested in good faith. Since that time more and more money has been sunk in the business, with the tacit approval of the city, as being the first landing. Some people are so affected by these frems that their health is greatly injured, and they have to leave their neighborhood altogether; while the loss in the value of property in this district is so large that it would probably exceed the whole value of the Chemical Works.

In winter this district is so large that it would probably exceed the whole value of the Chemical Works.

We are not asking for the removal of the works, as we are not in favor of turning any industry out of the city, but we contend that such works, situated at the entrance to the habor, and where they are contend that such works, situated at the entrance to the habor, and where they are contend that such works, situated at the entrance to the habor, and a tall chimney several hundred feet in height, and everything so arranged as to cause no annovance for the inhabitants of any part of

The letter was laid on the table pending the reading of the petition before H. E. Levy, president of the Poultry Pet Stock Association, asked for the

remission of \$20. Referred to the finance committee for report.

M. A., enclosed a resolution urging, on duest, and on motion of Ald. Cameron Cariboo. Among the companies which behalf of that body, a park or recreation the communication from the company are reported to be preparing to save this ground in that part of the city.

Ald. Grahame moved that a commit-tee be appointed to look into the matter sold in order to provide for the grounds.
On motion of Am. Yates, seconded by Ald Goodacre, the communication was laid, on the table pending the report

Adopted.

The finance committee reported on the different tenders received for printing, pointing out the increase in rates. The rive hundred families are destitute.

a sewer connection on Fort street until Printing & Publishing Co., 3, and Cola proper sewer was extended up as far onist, 1. According to this ballot the

a proper sewer was extended up as far as her residence. Referred to the city engineer for report.

A. J. Bridgeman called attention to the cows on the city suburbs of the Esquimalt road roaming about at night doing damage to private property. The writer advocated the establishment of writer advocated the establishment of citizens could take charge of stray cattle. Laid on the table until the by-law bearing on the subject was dealt with City Clerk Dowler reported as follows:

I have the honor to inform you that since the last meeting of the city council the following communications have been received and referred to the city engineer

The sewer at the corner of Avalon road and Carr street, about 30 feet south, to enable him to connect his premises with said sewer.

M. Gutmann, calling attention to the con-

enable him to connect his premises with said sewer.

M. Gutmann, calling attention to the condition of the south sade of Pandora street, between Vancouver and Cook streets.

W. Gldley et al, requesting that Leighton road be graded, etc.

Mrs. J. A. Van Tassel and 17 others, asking that Edmonton road be improved and that a sidewalk be laid down thereon.

Rev. W. W. Bolton and 10 others, calling attention to the condition of Beleher avenue, between Oak Bay avenue and Cadboro Bay road.

Possived and filed.

City Engineer Topp and sanitary inspector reported on the flooding of the cellar of D. R. Ker. The former's return the by-law went, but he wanted the

port read as follows:

I have the honor to report upon the complaint from Mr. D. R. Ker, re flooding of cellar on Government street, which is said to be brought about through obstruction being thrown into the ravine to the west of the Victoria hotel. I may say I visited the cellar in question on December 1st, 1802, the morning after the trouble occurred, and could not find any trace of water coming from the streets or sewer connections.

According to His Worship's ruling, however, the Cow By-Law had precedence.

The latter reached its second reading. Ald. Grahame, in speaking to the by-law, said that he had been actuated in bringing it forward by the many complaints of damage to fences, sidewalks and other coming from the streets or sewer connections.

seepage from an unknown source, and did not carry ripariaw rights. I am therefore of the opinion that Mr. Grant, or rather the Manson estate, has no claim on the city for a supply of water.

Regarding the alleged promise of Mr. Summerfield to lay an 8-inch pipe, this is the first time I have ever heard of it, and there is no record of it in the city hall,

As, however, this is a very important matter, it might be well were Mr. Taylor's opinion on it obtained.

Received and filed and referred to city parrister for an opinion. Chas. E. Redfern and 204 other peti-

ioners complained of the fumes from the Victoria Chemical Works as follows: We, the undersigned residents of the James Bay and Victoria West districts, beg again to call your serious attention to the annoyance and injury to health which we suffer on account of the terrible fumes from the works of the Victoria Chemical Co., Ltd.

money has been sunk in the business, with the tacit approval of the city, as being the means of circulating money which otherwise would have been spent outside the city and province. Now the cry is, "Close them up!" Surely some consideration should be given to those who have largely involved themselves under the above conditions.

\*\*Legreting\*\* the length of this letter, we beg to leave the matter for your consideration.

\*\*The city council is clearly the proper body to attend to such a matter, and we respectfully call upon the Mayor and council to ascertain what the legal position is in this case without delay, and then to see what improvements to the Chemical Works are necessary in the judgment of qualified experts to stop the nulsance entirely.

what part of the city could be Fort street to Linden avenue as per re-

of a committee dealing with the subject.

Mrs. Martha B. Ella wrote stating that she felt disinclined to go ahead with the subject.
