Royal Grand Ranges

HAVE BEEN THOROUGHLY
TESTED WITH THE TEST
OF TIME.

They are not a new creation—hundreds of these ranges have been in use for years, and all customers agree that they are perfect bakers with a small amount of fuel.
Moreover, it is surprising the small amount of repairs that these ranges require, proving that nothing but the best grades of pig iron are used in their construction.
Have you seen the Royal Grand? Prices no higher than many inferior stoves.

TWO BIG OCEAN LINERS
A SERIOUS COLLISION

The Kaiser Wilhelm and the
Orinoco Met With Fatal
Results—Both Steamers
Badly Damaged—A Number
of People Killed.

CHEBOURG, France, Nov. 21.—A
despatch received here reports that the
North German Lloyd steamer Kaiser
Wilhelm Der Grosse, which left South-
ampton and Cherbourg today for New
York, has been in collision with the
Royal Mail steamer Orinoco. Both
vessels were severely damaged. It is
declared that four members of the
crew of the Kaiser Wilhelm were
killed, while 15 were injured. Five
members of the crew of the Orinoco
are missing and are supposed to have
been drowned. The Orinoco left South-
ampton today for East Indian ports and
New York.

LONDON, Nov. 2.—At the office here
of the North German Lloyd, it was
stated today that the steamer Kaiser
Wilhelm Der Grosse was so damaged
in the collision last night off Cherbourg
with the steamer Orinoco, that she is
unable to continue the voyage to New
York.

When the collision occurred the Kaiser
Wilhelm Der Grosse was steaming
at the rate of seventeen knots an
hour, after having touched here on her
voyage out while the Orinoco was
coming into port. The commander of
the Orinoco claims that he signalled
that he would go to starboard of the
North German Lloyd vessel, but that
the latter held her course across the
Orinoco's bow, and only went to port
of the Orinoco when it was too late.
The engine of the Orinoco, it added,
was reversed so soon as it appeared
likely that an accident would occur,
but she crashed into the starboard bow
of the Kaiser Wilhelm Der Grosse
making a breach twelve feet wide. The

GRAND RAPIDS, Mich., Nov. 22.—
Four men who were caught by last
night's storm on the crib work of the
new breaker at the entrance to
Holland harbor, on Lake Michigan,
were washed away by the waves and
drowned. They were; Tom Bennett
of Muskegon, contractor for the crib
work; George Lachin, of Holland; Alvin
Nelson of Muskegon; Martin
Woodward, of Fenwick.

GRAND RAPIDS, Mich., Nov. 22.—
A tug was requested from Grand
Haven, but no boat dared go out in the
storm. When night closed the men
were still clinging desperately to the
crib work. At daylight today they
were rescued.

MARQUETTE, Mich., Nov. 22.—A
severe storm raged all yesterday and
today. The wind struck the crib work
with unabated vigor. Trains are hours late and
traction service is demoralized. A foot
of snow has fallen on the crib work.

GRAND RAPIDS, Mich., Nov. 22.—
An unknown barge and schooner have
wrecked six miles south of Grand
Haven.

GRAND RAPIDS, Mich., Nov. 22.—
Continuing A. Flosshoff said the
project to meet American crude oil free
of duty is still being considered, on
account of the custom which is
threatening the big industrial centres
and the Volta region.

In an endeavor to settle the longshore
men's winter port business several
lengthy conferences took place to-
day at the Hotel St. Charles. H. B. Schofield,
President of the Board of Trade, was
in consultation with Mayor Sears, and
three or four of the aldermen were also
in the offices considering the different
phases of the matter in dispute. As a
result a meeting of the aldermen and
others interested will be arranged at
once, and civic intervention for the
good of the port is likely to follow.
The men ask nothing more than rec-
ognition of their union, and so far
this demand has not been accepted by
the shipping federation.

W. I. Gear, of the Donaldson Line,
came to the city this morning from
Montreal and is at the Royal. Mr.
Gear and H. C. Schofield had a long
talk from noon until two o'clock over
the strike situation.
When seen by a Star representative
Mr. Gear stated that he had arrived in
the city only a few hours before and
that he had nothing to say.
He is here solely on account of the
strike and will look into the situation
this afternoon.
H. C. Schofield said that there was
no change in the situation today, so
far as the shipping men are concerned.
This morning the members of the
Longshoremen's Association were out
in force, and about their hall a con-
siderable crowd tarried. The winter-
port season will be on in full swing in
three or four weeks' work, as they
did last year. However, they con-
sider that their union should be rec-
ognized in the right manner and until
it is they will not work.
President Schofield, of the Board of
Trade, speaking to the Star, said he
feared very little could be done by
the city. The dispute is about the
same as last year, and is one in
which the parties most directly con-
cerned may have to be left to fight it
out.

MANY REFORMS ARE
COMING IN RUSSIA

Programme Outshines the One
Proposed in France.
And Will Furnish any Amount of Subjects
for the New Parliament if It
Ever Meets.

ST. PETERSBURG, Nov. 21.—The
correspondent of the Associated Press
had an interview today with M. Flosshoff,
the Minister of Commerce. The
minister said that under his super-
vision there were now being prepared the
following projects of law:
A law regulating the hours of labor;
a law authorizing compulsory insur-
ance of workmen against accident and
malady and fixing old age pensions; a
law instituting a rigorous medical in-
spection of factories, compelling man-
ufacturers to build hygienic workmen's
dwellings and to provide the workmen
with free medical treatment and a
law placing restrictions upon the em-
ployment of women and children.

These bills which in their entirety
constitute a sweeping advance in the
labor programme which rivals the in-
tentions of the new French ministry,
and which goes beyond the state and
socialist paternalism in force in Ger-
many, must be reviewed for presentation
to the new parliament at its opening
session, February 7, 1907. Running
parallel to this labor programme there is
a great Agrarian policy which is cal-
culated to ally the more acute phases
of the strategy which the govern-
ment is determined to pursue in its
dealings with the new parliament and
the putting into effect of the Agrarian
and labor programmes which the gov-
ernment's cure for Premier Stolypin's
"policy" was due to lack of grit to
grind. Hence an abundant supply
would be obtained for its successor and
in order to obtain this supply the min-
istries of commerce and agriculture
have been turned into busy workshops
of legislation.

Details regarding these new projects
furnished by the minister show that
the hours of labor shall be fixed at ten
a day in place of eleven and a half
hours which now makes a legal day's
work. The new law will be de-
signed to meet the exceptional condi-
tions existing in Russia, where hun-
dreds of thousands of people are re-
cruited from the villages return to
their homes for several months each
year, but during the rest of the time
live in extremely cramped and unsanitary
quarters.

The closing of Vladivostok as a free port, which is
now under consideration by the council
of ministers, will be fixed at ten
a day in place of eleven and a half
hours which now makes a legal day's
work. The new law will be de-
signed to meet the exceptional condi-
tions existing in Russia, where hun-
dreds of thousands of people are re-
cruited from the villages return to
their homes for several months each
year, but during the rest of the time
live in extremely cramped and unsanitary
quarters.

MONCTON LIQUOR
CASES FELL THROUGH
Witnesses and Defendants
Have All Disappeared.

MONCTON, Nov. 22.—Two Indians
who were being retained as witnesses in
cases against Moncton liquor dealers,
which were to have been opened here
tomorrow, escaped last night and have
not yet been located. The dealers who
were charged with violation of the act
in selling to Indians, have also disap-
peared. So it is possible that the cases
will not materialize. The two Indians
were in the custody of local constable
Daniel O'Neil and had not been placed
in jail. Last evening while they were
getting supper the constable went out
for a minute and when he returned the
two had gone.
It is thought they returned to Shediac
where an encampment is located and
it is feared they will take the boat
for P. B. Esquid. Constable O'Neil
left for Shediac this morning to re-
arrest them.
Commitments have been issued for
two local Scott Act offenders who
were sentenced to a month each in jail
by Magistrate Kay some weeks ago.
One sentence was without the option of
a fine while the other had the choice of
paying a hundred dollars.

A carload of Chinese, principally women
and children, passed through this
morning enroute for Jamaica. There
were fifty-two in the lot.

PROGRAMME FOR PARLIAMENT
IS AN IMPORTANT ONE

A Long List of Matters of
National Interest Contained
In the Speech From the
Throne—Members Will be
Kept Busy.

OTTAWA, Nov. 22.—The third session
of the tenth parliament of Canada was
formally opened this afternoon by Earl
Grey. At three o'clock a salute was
fired from Napanee Point, announcing
the arrival of the governor general on
Parliament Hill, accompanied by a
Dragon escort. He was received by a
guard from his own footguards. The
senate chamber presented a brilliant
social picture as he entered, the gal-
lery being filled with interested specta-
tors and the places on the floor being
occupied by senators and the wives and
daughters of senators and mem-
bers. The commons was summoned by
Earl Grey, and J. King Kelley for the
defence. Mrs. Campbell gave evidence that
early in the summer she purchased
from Bruger firm a lustrous dress for \$11,
to be paid for on the installment plan—
\$2 down and \$2 a fortnight. She had
made the second payment of two dol-
lars and one of the firm told her he
had heard that she was poor pay and
refused to give her the dress until
every cent of the twelve dollars had
been paid. She then asked that her
money be returned or that she be given
the dress to the value of what she
had paid in, but this was refused. She
presented receipts to the court for the
four dollars paid and showed that the
goods had been received on the install-
ment plan.
The case at this stage was adjourned
until tomorrow morning.

WHERE IS JAMES?

Peter and Paul McDade did on the

same date John McLean removed sand

Council.

NEW YORK, Nov. 22.—Jennie Yeaman,
the actress, daughter of Annie
Yeaman, the veteran player, is lying
at the Hotel Gerard critically ill. It
is said that she is suffering from con-
sumption.

The revenue has shown a large expan-
sion, and has not only provided for
ordinary expenditure but has also, to
a great extent provided for the outlay
on capital account. The estimates for
the coming year will be laid before
you at an early date.
Honorable Gentlemen of the Senate:
Honorable Gentlemen of the House of Com-
mons:
A united application having been re-
ceived by my ministers from the gov-
ernments of the several provinces asking
for an increase in the provincial
subsidies, a conference was recently
held when the reasons for granting ad-
ditional aid were fully set forth and
discussed. Resolutions based on the
conclusions reached by my govern-
ment will be submitted for your con-
sideration.
Bills will be laid before you amend-
ing the election acts, the post office
act, the Dominion Lands Act, a bill
for the most effective supervision and
inspection of Canadian canned food
products, meats and fish, a bill relat-
ing to the sale and manufacture of
patent medicines, and also a bill to
make better provision for dealing with
juvenile delinquents.
It is hoped that the report of the
commissioner appointed to inquire into
the workings of insurance companies
will shortly be completed, when it will
be laid on the table. The subjects I
have mentioned will, I hope, receive
your best consideration and the mea-
sures to be submitted for your ap-
proval will, I trust, tend to the well be-
ing and government of our fair Do-
minion.

CONVICT FRANCIS IN THE
WOODS NEAR ST. GEORGE
Was Seen This Forenoon by a Man Who Was
Out Shooting—Constable and Armed Posse
Now on the Trail

Minot St. Clair Francis, the desper-
ate convict who has made for him-
self such an infamous record, is reported to
have been seen in the woods within
a mile of St. George.
Marshall McAdam, accompanied by
an armed party of citizens, including
Magistrate Kay, started on a search early
this afternoon.
A message to the Star stated that
the forenoon a Swede employed in the
St. George pulp mill, was out shooting
in the woods lying between the St.
Andrews road and the river. He killed
a squirrel and sat down to examine
the animal. While doing so he
chanced to look up and saw not
hundred yards away, a negro answer-
ing in every respect the description of
the convict Francis.
The Swede became rather frightened,
knowing the character of the criminal,
and made no sound which could at-
tract the negro's attention.
The latter continued on his way
through the woods, but seemed, from
his appearance, to be very tired.
As there are no negroes living in the
vicinity of St. George, and as there is
nothing which could take a man into
that part of the country unless he was
out hunting, which the negro is not,
the people of St. George are firmly con-
vinced that Francis and this wanderer
are the same person.

Tuesday a very quiet wedding took place at the home of Robert Nelson, 322 Main street, when his youngest daughter, Miss Annie M. Nelson, was married to Charles Macfarland, a prosperous farmer of White Head, Kings county, and a nephew of Dr. M. Macfarland of Fairville. The ceremony was performed by Rev. R. P. Some of the stones were quite large and caused a great deal of annoyance to the members of the public. The boys travel along at quite a speed down King St. W. Arthur C. Fairweather has presented to A. Gordon Leavitt a bog-ox case having a handsome silver head and broad band, the latter bearing the recipient's name. The wood from which the case is made was found buried at a depth of twenty-eight feet in a cut two hundred and sixty feet wide at the top and one hundred and sixty at the bottom made in the construction of the Manchester ship canal.

The time the wood had remained under ground was, from the nature of the deposits surrounding it, estimated by geologists as eighteen thousand years. There can be no doubt but that the wood is exactly what it is claimed to be as it was received from a relation of Mr. Fairweather who held a very responsible position in connection with the construction of the canal.

It is needless to state that the gift was highly appreciated.

OLD HOME WEEK FOR ALL THE EASTERN STATES

BOSTON, Mass., Nov. 21.—At a meeting of the New England Passenger Association held here today, a proposition was submitted to have all the New England states unite in a special "Old Home" week, in order that the railroads of this section may be able to secure low annual "Old Home" excursion rates from the western lines.

The question was discussed at considerable length, and, little there was some difference of opinion manifested as to the expediency of having all the New England states unite on a special week, it was admitted by all who participated that some such plan is necessary if the co-operation of the western roads is to be secured. The question will come up for definite action at the next meeting of the association.

GOT THE \$10 AND DESERTED GIRL

Miss Florence Gallase of Prince Edward Island was deserted at the depot here yesterday by John Cunningham of Summerside, who had been entrusted to accompany her to Boston. They arrived in the city on Tuesday evening. They got off the train to procure some lunch and whether by accident or design, Cunningham succeeded in returning with Miss Gallase after the Boston train had gone. They then went over to the Grand Union hotel, where they each obtained a room. In the morning the girl came down to breakfast and found that Cunningham was gone. It was thought he had gone to Boston on the early train, so several telegrams were sent to the stations along the line, but word was received that the man could not be located on the train.

The girl, who is only sixteen years old, remained at the Grand Union hotel, when she was sent home. She said that her mother had put her in charge of Cunningham, who received ten dollars, with which he was to buy her ticket from Ft. du Clame to Boston. He did not do so, however, only buying her a ticket to St. John.

NO. 3 GRIB IS ALL RIGHT. According to the Report of Diver Doyle—Other West Side Matters Discussed.

At the special meeting of the board of works yesterday afternoon, the report of Diver Fred Doyle convinced the aldermen that No. 3 grib is all right. Mr. Doyle stated that he started to inspect the crib at the southwest end and found it to be all right. At the south end about 50 feet of timber was missing. On the northern side, Diver Doyle found four logs, each about 80 feet long. The rest on the northern side was all right.

Director Cushing said that the loss of 80 feet of timber would not weaken the structure. "Mr. Clark," the Director said, "is putting logs in underneath to make sure the crib will be strong enough."

Ald. McGoldrick said that the Beaver was dredging close to the Donaldson berth and he thought that Mr. Mayes should take his dredge away from this spot as the digging was apt to cause another slide.

It was decided that the chairman instruct Engineer Shewen to see that the dredge is moved.

Ald. Bullock thought that matters relative to next year's dredging should be discussed. The question was left to a special committee.

The street railway Queen Square matter was next brought up. Mr. Baxter moved that the West End members of the council be given authority to represent the city in the matter. The motion was carried.

Director Cushing who had retired early from the meeting returned and said that arrangements had been made to stop Mr. Mayes dredging so near the Donaldson wharf.

The lease for seven years of the lot near the old N. B. Southern railway station to Wm. Scully was approved.

TELEPHONES:— BUSINESS OFFICE, 25, EDITORIAL AND NEWS DEPT., 117

ST. JOHN STAR. ST. JOHN, N. B., NOV. 22, 1906.

THE MAILS AND ST. JOHN. Mayor Sears is of the opinion that the city newspapers have not given himself and the common council a fair play in the discussion which has been taking place about the winter mail service.

Mr. Sears points out that a short time ago, when he and President Schofield of the board of trade were in Ottawa as a delegation on West Side matters, although they were not at all instructed by the common council with reference to the mail service they did all they could in this matter.

They had a talk to General Manager McNeil and other officials of the C. P. R. and considered a number of suggestions made. They later, on reaching Ottawa, had a lengthy interview with R. M. Coulter, deputy postmaster general, and also with the minister of trade and commerce, at which conference the question of the landing mails was fully discussed.

Mayor Sears made all possible presentations to show that a service equal in point of time to that given by Halifax, could be provided. St. John, and put forth all the arguments they could think of in favor of this port, but in spite of their effort they foresaw that no change of any particular moment would be made.

They appreciate the fact that the service is now carried on under a fixed contract between the government and the Allan line and that the C. P. R. being merely in the position of a subcontractor, could not be considered by the government as an interested party.

Mayor Sears had not hoped that the service would be even partially transferred to St. John, but he feels that the matter was carefully thought over by the members of the cabinet, and that this city will receive the most favorable consideration possible.

WHAT IS FAIR TO ONE. Nothing could be more deplorable than that the winter port of 1906-07 has opened with a dispute between the longshoremen and certain of the steamship lines.

The question at issue is not one of pay, the scale of wages being only incidentally involved. The longshoremen ask recognition of their union, which recognition would, of course, carry with it an agreement that none but those who belong to the union would be employed.

The shipping federation absolutely refuse to comply with this demand, and a deadlock is thus reached at the very beginning. In this dispute there are no half-way measures. One side or the other must give away and the point at issue does not necessarily involve any financial or other loss.

It would seem in this case that the men have some good ground for the stand they are taking. As a united body they ask recognition by the shipping federation. This federation is nothing more nor less than a union of capital instead of labor, which has many times in the past year or two demanded and obtained recognition by bodies with which it had business dealings.

Being a union and having secured recognition as such, it now refuses to the laborers the very same right. If the federation opposes the principle involved in the present dispute let it break up into individual lines and let the longshoremen deal with each line separately.

This is just as reasonable a proposition as to say, "we are a union, recognize us. You are a union, but shut up about it—nobody wants to know you."

The federation can import outside labor for the steamers coming to St. John. The longshoremen cannot bring other steamers which would give them employment, but they can put the federation to a great deal of inconvenience and expense which would scarcely be justified in view of the slight importance of the point at issue.

There is still in some quarters an inclination to underestimate the rights and power of labor, but gradually capital is coming to a realization of the fact that this is a mistaken policy. The one cannot exist without the other, what is fair for one is fair for the other, and there does not now appear any good reason why a recognized shipping union should refuse the same recognition to a union of labor.

Let the parties interested get together and talk it over.

ENGINEER WAS TO BLAME FOR SIXTY THREE DEATHS. VALPARAISO, Ind., Nov. 22.—Frank Detmar, engineer of the Baltimore and Ohio passenger train which was wrecked recently at Woodville, causing 63 deaths, broke down before the Indiana Railroad Commission and took all blame on himself.

FANCIS SEEN NEAR BELFAST. Ignitive Negro Is Now Driving Through Country in a Stolen Team.

Trail Temporarily Lost at Crossroads Near Belmont Corner—The Latest Reports.

BELFAST, Me., Nov. 21.—Miss St. Francis, who escaped from state prison week ago Monday, was tracked to Belmont, Me., yesterday by Warden E. O. Norton and a posse of 20 men, according to information telegraphed to the Waldo County officials by Warden Norton.

Francis was driving in a wagon, taken from the stable of Alton Heath East Searmont during Tuesday night. He was seen by a group of people who were one mile west of Camden.

It was learned Wednesday that a negro, believed by the officers to be Francis, passed Saturday night at the home of Miss Julia Conway and Darus Ingraham, two elderly people who reside on the highway between Belmont and Searmont.

He entered the house during the evening by unfastening the back door and, after intimidating the occupants, obtaining promise that they would not give warning to the officers, made himself comfortable. He ate heartily and induced Miss Conway to put bandages on his feet which were badly bleeding from walking with rubber boots.

He admitted that he was Francis and that he had escaped from prison, but said he would not injure his involuntary hosts. His description both as to personal appearance and clothing answered that of the much-wanted criminal. He left at 2 a. m.

The temporarily unoccupied house at Lincoln Center, in which a burglar supposed to be Francis, obtained a supply of food and a bed Sunday night, is six miles beyond the Conway house in the general direction of this city, and only a mile from East Searmont where the horse and wagon were stolen.

After measuring the prints, it was decided the fugitive had taken the old Augusta stage road through North Searmont and West Searmont.

CHICAGO SWEEP BY SEVERE STORMS. Other Districts Suffer Damage—Many Buildings Blown Down.

CHICAGO, Nov. 21.—A severe rain, snow and wind storm did much damage in Chicago and its suburbs today. Many signs were blown down and several pedestrians sustained slight injuries.

The chimney of a building at 128 Clark street was sent crashing through a skylight covering the kitchen of a restaurant. The room was filled with waiters who fled in panic to the dining room. The patrons of the place, hearing the crash and seeing the waiters in flight, fled to the street, several persons being severely bruised in the crash.

The maximum velocity of the gale was fifty-eight miles an hour. On all sides of the city barns and sheds were unroofed and many of them were blown down.

TOLEDO, Ohio, Nov. 21.—Toledo was visited by a violent wind storm this evening that did much damage to telephone, telegraph and electric light wires.

For a time the wind blew at the rate of seventy miles an hour, and the average for the day was forty-eight miles.

BUCYRHAS, Ohio, Nov. 21.—A wind storm, which approached the fury of a tornado, struck this place and vicinity today and great damage was done in this and adjoining counties. The storm broke over the city and in a short time the streets were littered with fallen limbs and other things swept by the high winds. The damage to the A. C. Manufacturing Co. alone is \$25,000.

The other day, a gentleman visited acquainted with our country districts gave the Beacon from memory a list of farms in the county that had been made vacant by deaths or removals during the past twenty years. The number was really astonishing. Many of these farms are well situated and could be made to pay. In connection with the movement to boom our province for settlement, would it not be a good scheme for the provincial government to obtain a list of the vacant farms of the province, together with the acreage and price of each, and endeavor to secure settlers for them?—St. Andrews Beacon.

WINTER PORT OPENS WITH LONGSHORE STRIKE.

Shortly after the Donaldson liner Alcidon came up the harbor the men of the longshoremen were communicated to H. C. Schofield, the manager of the Robert Reford Co., who are the agents for the line, by Joseph O'Neill, business agent of the association. He said the men were willing to agreement in the belief that the men would abide by it.

President McAndrews said the association was certainly not open to the charge of having taken an unfair advantage of the shipping people. Copies of the agreement entered into with the Thomson firm last May were at once sent to the other lines for their signatures, but it was not until the 17th of September that the association received their answer, which was that while quite willing to pay the winter rates of last year, they could not consent to the recognition of the union clause. The matter had remained in abeyance since that time.

H. C. Schofield said he had been instructed that in addition to the Donaldson line represented by his firm, the C. P. R., the Allan line and the Elder-Deppinger line would all refuse to sign the agreement presented by the men.

The Allan line intended to ignore the Longshoremen's Association altogether this year, and their work will be done by the band of West Side men who last year formed the Ship Laborers' Society when the Allan broke with the association. They have begun moving over their gear to the Long wharf, and the same rate of wages will be paid as the members of the association receive. There is a boss at every hatch and he usually hires his own men.

A working boss is sent down by the company from Montreal, and he superintends the work on the vessel. The company uses its own gear.

MONTEAL COMMENT. The following dispatch was received from Montreal last night: MONTREAL, Nov. 21.—Discussing the labor situation at the port of St. John, W. D. Robb, manager of the shipping federation, stated that the Montreal firms doing business at St. John had decided that they would not recognize the unions in existence at that port.

There would be no discrimination between the men of either. If the St. John men did not care to work under these conditions the shipping firms would bring in men from outside to handle their cargoes. Under no conditions would the federation extend recognition to a labor union.

The men say that Wm. Thomson & Co. assured them they could induce the other steamship people to sign it too. They were unable, however, to do this, thereby the assoc-

DIVIDEND FOR GREAT NORTHERN.
NEW YORK, Nov. 22.—The Journal of Commerce says:—
"Details of the long looked for dividend to Great Northern Railway Company stockholders resulting from the leasing of its ore lands to the United States Steel Corporation were disclosed yesterday in a circular issued at the Great Northern offices. For every share of Great Northern stock holders will receive a share of stock of the Lake Superior Company Limited, an unincorporated company in whose name the ore lands have been held.
The net profit derived from the ore properties will be distributed at least once annually by the trustees. Some idea of the value of the dividend which will be received may be had from the fact that the United States Steel Corporation is to pay the beneficiary \$3 cents per ton for all ore mined in the first year beginning 1907 with increase of five cents per ton a year for an indefinite period. The ore lands are believed to contain not less than 500 million tons of iron.

Mr. Bullock was communicated with and said, besides his wife, there are two sons in the States, who will be notified. CHAS. M. HAYS IN POLICE COURT

Charged with Disobeying Railway Law

All Evidence in London Election Conspiracy Case Concluded—Special Plea Made for Reid

TORONTO, Ont., Nov. 21.—All evidence in the London election conspiracy case in police court was concluded this morning, after several witnesses had been called, and further adjournment was made till Monday for argument. DuVerne, who has been conducting the case for the crown, was not present, and consequently argument could not proceed, though the defense lawyers were prepared. A special plea was made in favor of defendant, Reid, against whom it was alleged there was no evidence of his being connected with the conspiracy. Magistrate Denton said in his opinion there was sufficient evidence to send the accused quartette O'Connell, Mullor, Wiley and Reid to trial.

Charles M. Hays, second vice-president and general manager of the Grand Trunk railway of Canada, appeared before Magistrate Denton in the police court this morning. The complainant against him was William Nesbitt Robertson of Toronto, who charges the general manager with having without lawful excuse disobeyed section three of chapter 37 of 18 Victoria by omitting to carry third class passengers for a fare of one penny for each mile travelled, and to provide that at least one train having in it third class carriages shall run every day throughout the length of the line, contrary to the provisions of section 138 of the criminal code.

Wallace Nesbitt, K. C., appeared on behalf of Hays, and elected to be tried by the magistrate, subject to the objection as to the jurisdiction of the court. He admitted the allegations

contained in the information. Nesbitt claimed that the matter was entirely within the jurisdiction of the railway board, that the general railway act made provisions for enforcing its requirements, and that the act of 1851 had been repealed.

The magistrate intimated that the case would probably have to go before the court of appeal and technical conviction might be registered. It was agreed that the stated case should be submitted by the lawyers and that Hays would not necessarily have to appear again.

The popularity of the Canadian Pacific Atlantic "Empresses" was emphasized by the phenomenally large passenger list of the Empress of Britain sailing from Quebec on Friday last. She carried out 723 passengers, the record number for autumn sailings from Canada. In fact this number was exceeded only on one occasion that being the sailing of the same steamer on June 22nd last with 775 passengers.

MYSTERIOUS ESCAPE OF FREDERICK KEITH OF CENTRAL STATION—No One Knows How It Happened

Seven arrests were made yesterday but only six prisoners were in court to answer their names this morning and on enquiry at police headquarters where the seventh man seemed to be a puzzle, all the chief and the day officials could say was that one drunk had mysteriously disappeared but how or when or where they did not know. The policemen who made the transfer had only reported the man missing.

It appears, however, that a man who gave his name as Edward Keith aged about 40 years, was arrested on Mill street yesterday afternoon for being drunk. Policeman McNamee, who made the arrest, placed his man in the water street lockup and relieved him of the burden of 45 cents and a jackknife. The policeman still retains the money and knife and the city is out \$157 or 10 days' work from Keith with the gang. Policeman McNamee was in court this morning to appear against Keith and was one of the surprised officers who learned that the prisoner had suddenly disappeared.

Chief Clark, when asked about the matter, said that the two or three persons in the water street lockup were transferred from that place to central station at 5.35 o'clock this morning and that one prisoner had in some manner made his escape. He did not know, but he would know this evening when the night patrol assembled in the guard room.

There are four officers who would come from the water street lockup this morning: Tra Perry, O. Ward, J. McCollom and Thos. Sullivan. It was suggested this morning that if the escaped prisoner Keith would call at the central police station he would receive his jack knife and 45 cents and incidentally be better taken care of than he was this morning.

WONDERFUL IMAGINATION OF A MAINE REPORTER

He Gets the St. John Policemen Badly Mixed in His Head and Tells a Thrilling Tale.

(Bangor Commercial). A Maine newspaper man attended the trial in Portland of Francis and his white companion, Phelps, in February last, before Judge Hale and saw Francis and his captor, St. John's police chief, at close range. The chief, six feet three, weight 255 pounds, speaking of how he captured Francis single handed and alone on the streets of St. John, N. B., a few mornings after the Red Beach postoffice break and shooting of the watchman, Robinson, in answer to a question why he was not taking chances to grapple Francis alone, said: "I was reading 'th' mornin' paper about the case when lookin' across at 'th' tallest buildin' and here are me laddybuds—the nagur 'nd 'th' pale face. Out of 'th' mornin' I went in 'th' mornin' comin' up—but I was innocently studyin' 'th' buildin' opposite. The nagur had his hands in his pockets 'nd I feared he had one hand on a gun. Afterwards I found that he had both mitts on guns 'nd he had another pistol in a pouch, for conveyance of delivery. "If I'd a turned 'nd faced them suddenly," continued the big chief, "I wouldn't be here tellin' ye this. I'd got word from Robinson 'th' state's attorney 'nd I went in 'th' mornin' to be on the watch for the birds 'nd I don't know exactly why but my good natural sense told me that they was the wans he wanted. "Judge Hale asked me how I did it, mind ye, boys, this afternoon, to capture the brace of birds at once. "The nagur was on the outside of the walk, as he cum almost of me 'nd I lookin' at the tall buildin' opposite, I swung on him with this mitt," extending a giant hand, "and walloped him under the jaw. He fell like a log and I atop of him. His hands flew from his pockets after the stars faded 'nd he used an attempt to dig into his stomach pocket, but when I fell on him 'th' white wint out of him with a mighty groan and I pinned his arms 'nd ankles. The light was all out of the nagur in a jiffy, 'nd his surprise was such that he could remember his own language, boys. "Phelps, the pale face, ran into the hands of a groceryman 'nd an officer. "In the nagur's pockets we found three revolvers loaded 'nd a box of cartridges—enough ammunition to shoot up St. John, boys. When Francis got his wind, he said to me: 'Chief, how much do you weigh?' "Do you think Francis is crazy?" suggested one of the newspaper men. "Crazy," replied the big, genial chief. "I've studied that man when he thought I wasn't lookin' at him 'nd the only thing Francis is crazy about this mornin' is to get out of jail. He's a great lover of liberty 'nd freedom, his man Francis," concluded St. John's police chief, "nd my humble opinion is that Abraham Lincoln disfranchised a whole lot of white when he gev constitutional freedom to sech bel'n's as this man Francis."
