

SITUATION OF THE LETTISH TROOPS IN RIGA REGARDED AS MOST DESPERATE NOW

German and Russian Troops Are Expected to Force Passage of the Duna River—Riga and Port Have Been Greatly Damaged and Many Civilians Have Been Killed—Russo-German Intrigue is of Very Long Standing—An Eastern Adventure Having Been Made Since Early in the Year.

Copenhagen, Oct. 13.—The situation of the Lettish troops in Riga is desperate, according to despatches from Helsingfors. The German and Russian troops are expected to force the passage of the Duna River, which separates the main body of Colonel Avaloff-Bernomdt's troops from the main port of Riga at any moment.

The old town of Riga and the port have been greatly damaged, it is stated. Many civilians have been killed or wounded.

London, Oct. 13.—A despatch to the Manchester Guardian from Berlin reports that the Russo-German intrigue is of very long standing, an eastern adventure having been in the minds of military reactionaries in Berlin since the beginning of the year. It will be remembered, the despatch states, that the far-reaching possibility of such a measure almost hampers independent action on the part of German armies in the east at the critical moment of the ratification of the Peace Treaty in the National Assembly at Weimar.

For months, the correspondent says, intense recruiting of the army in the Baltic has been going on in Germany, not only for the so-called iron division and other German detachments, but also, for nominally Russian forces. Russian officers, often Russian only in uniform, are a familiar sight in Berlin and elsewhere throughout the country. Recruits, largely from South Germany, are continually passing through by railway. Many of these wear Russian uniforms, but most of them are in the German field gray, with Russian shoulder straps and cockades.

In addition, there has been an organization of militia from residents of the Baltic provinces. Youths have been induced to enlist, partly by the promise of military advantages and partly by offers of citizenship in the proposed new state and land upon which they may form agricultural colonies, but the main argument has been the fear of the distress and a misery awaiting them in Germany if they were demobilized.

Their reluctance to return home is intelligible, the more so because the intense propaganda by their superiors is directed as much against Republican Germany as against Soviet Russia.

The Independent Socialist newspaper Freiheit persistently declared that if this army retreats into East Prussia a monarchist and militarist coup is seriously to be feared.

Relief Held Up. London, Oct. 16.—The steamer Lake Fray, belonging to the United States Shipping Board and carrying relief supplies to Riga, has been ordered not to proceed further until the situation at Riga clears. The steamer has put into Hangö, Finland.

Berlin's Wall. Berlin, Oct. 11.—An official statement is published denying formally the allegation in the Lettish appeal to the Entente that German troops in the Baltic provinces have done everything possible to support Bolshevism, and have attacked the Letts from the rear. The German rejoinder declares this statement to be contrary to the truth, and is an abhorrent measure of agitation against Germany.

Germany has not broken the peace, it declared, but, on the contrary, has done everything to enforce the terms of peace in the case of misled troops in a portion of the Baltic provinces.

It is a matter of record, it is declared, that the Baltic troops (German) have not been the attackers, but that their return to Germany has been delayed and hindered by hostile acts of the Letts and Estonians.

The statement avers that it is the Letts who are assisting Bolshevism in every possible way, including means to prevent Russian troops reaching the front against the Bolsheviks.

Dublin Castle issues an official return of outrages attributed to the Sinn Feiners from May, 1916, to September, 1919, showing 1,293 outrages including sixteen murders, the victims in fourteen cases being soldiers, police or officers.

London, Oct. 13.—The Belfast correspondent of the Morning Post writes that a column of Sinn Feiners sent by the Dublin Castle Unionist League, adding that these Unionists are quite prepared to persecute their organization, meanwhile, the correspondent says, the government is still pandering the sedition mongers.

TWO OFFICERS EXCITED OVER THE RUM RATION

Both Rush into Print Following Publication of Statements One is Alleged to Have Made Over Liquors in the Army.

London, Oct. 13.—Two gallant officers of the U. S. F. who have made into print following the publication in a local paper of the reported statements of one of them at a meeting held under the auspices of the Cobalt, Newfoundland, committee, have created a diversion in the election campaign here.

At the meeting indicated, Colonel B. F. Armstrong, who commanded the 19th battalion until it was broken up in England, was reported to have stated that, as he saw it, the army rum ration was not a benefit, that its bad effects asserted themselves just at the time the men needed strength, that it was a perfect nuisance and that he had no hesitation in saying it was a bad thing for the army.

The Col. took exception to the published report and claimed he had been misquoted. A letter to the editor of the paper stating that what he did say was that he personally found the use of liquor in the army a nuisance, and that when a stimulant was found necessary he considered it would have been more beneficial if given at the period of greatest exhaustion.

Meanwhile, Major H. E. Quayle, who served with the Artillery of the First Division, had also written to the paper, but in no complimentary tone.

Major Quayle, who wrote that "he was for the rum, even if it hurt," wanted to know how many times the Col. had seen rum issued in the trenches and how often he had seen the troops go over and reach that state of exhaustion caused by the bad effects of rum. He refers to Marshals Jeffre and Beck, Generals Haig and Curle, the late Lord Kitchener, Ralph Connor and Cassin Scott, and he considers that the issue of rum should be given to the troops as a stimulant to the ultimate victory of our armies.

Denikine Is Making Progress

A Wireless Communication Claims Further Victories Against the Bolshevik in the Direction of Orel.

London, Oct. 13.—A wireless communication from General Denikine to day claims further victories against the Bolshevik in the direction of Orel and also in the region of Kiev. General Denikine announces the capture of Ostroshensky Vashon (a town which cannot be located on available maps) with 1,600 prisoners. The Bolsheviks made an attack upon his army with large forces in the vicinity of Orel, but were unsuccessful. General Denikine captured 8,500 prisoners and occupied Kiev. (Possibly Kremy, about 25 miles southwest of Orel).

General Denikine's forces also occupied the important capital Chernoff, about 75 miles north of Kiev. The advance continues.

Recent reports received in Copenhagen place General Denikine's troops within 30 miles of Orel, on the road to Moscow, and scarcely more than 200 miles from Moscow itself. The Bolsheviks were then reported to be discouraged and surrendering in large numbers, but evidently gathering their forces for a counter-attack in the hope of saving that important railroad and commercial centre.

The capture of Chernoff is quite another field of operations indicated that General Denikine is making head against both Bolshevik and Ukrainian forces.

London, Oct. 13.—Thousands of longshoremen massed tonight in Coopers Union to vote on the question of calling off the strike, which has virtually died up New York harbor, with a view to evidence that they intended to stay out that their international officers abandoned their intention of putting the matter to a vote.

SWIFT EMPLOYEES VOTE TO STRIKE

Jersey City, N. J., Oct. 13.—About 1,100 employees of Swift and Company, packers, voted tonight to strike tomorrow for a 25 per cent wage increase. Approximately 300 are women.

BLOCKADE OF THE BALTIC ESTABLISHED BY GERMANY POWERS ON SATURDAY

London Demands That All German Ships be Recalled to Their Home Ports and That All Others be Forbidden to Leave—Ships Encountered in the Baltic Are Subject to Seizure by the Allies—News of the Order Has Caused a Sensation in Danzig.

Stettin, Germany, Saturday, Oct. 11.—Demands that German ships in the Baltic be recalled to their home ports and that all others be forbidden to leave were received by the German government in a telegram from London this morning, according to the Abendpost of this city. The telegram is quoted as follows:

"Owing to the attack on Riga, free passage permits are provisionally withdrawn for all German ships in the Baltic. All ships in the Baltic must be recalled and no other ships must be permitted to put out to sea so long as this prohibition remains in force. Ships encountered in the Baltic are subject to seizure by the allies."

The newspaper says the telegram has been transmitted to the "authorities concerned" at German Baltic ports. In another article the Abendpost asserts the order powers have re-established a "small blockade" of Germany.

No Ships Permitted to Leave. Berlin, Oct. 12.—No ships are being permitted to leave Kiel, according to the Voestische Zeitung, which adds that Stettin shipowners have sent wireless despatches to vessels at sea to return immediately to Stettin or to the nearest port.

News of the blockade of the Baltic sea has created a sensation in Danzig where large cargoes of coal and hemp were expected in the next few days.

Situation at Riga. Stockholm, Oct. 13.—Authorities of the Lettish government left Riga before the German-Russian forces took the place, being now at Rodenport station and Estonian troops are engaged in the fighting east of the Duna river, according to an official statement issued by Estonian headquarters yesterday. Riga, less than 200 miles east of the attacking forces, is being held by Lettish troops. It is believed that the German troops are preparing to advance toward Riga.

ENDEAVORING TO GET TOGETHER ON INCOME TAX

British Commission in Conference With Representatives of Overseas Dominions.

London, Oct. 13.—Two meetings have already been held between the Royal Commission on Income Tax and representatives of the Overseas Dominions with a view to discovering proposals acceptable to the Home and Dominions' governments, under which payment of double income tax may be avoided. The main difficulty is finding a formula which will cover all examples of such double payment. It is stated that the imperial treasury would contribute twenty-two million pounds sterling yearly if existing payments were cancelled.

CANADIAN FLYING HONORS GAZETTED

London, Oct. 13.—Canadian flying honors gazetted as officers of the British Empire include Majors Osborne MacPherson and John Mitchell and Lieut. William Percy Smith.

COBALT WILL ENTERTAIN PRINCE ON THURSDAY

Cobalt, Ont., Oct. 2.—Arrangements for the reception and entertainment of the Prince of Wales, when he revisits Cobalt for two hours on Thursday of this week, have been completed. The program calls for an hour reception at the station, immediately after the arrival of the party, where Mayor McKinnon will read an address of welcome, after which visits will be paid to the Consols, Mining Corporation and the Brien mine, with an automobile drive through the township. Special dinners of the camp will be presented to the Prince, who is to leave for Hamilton at eleven o'clock.

POLITICS LIVE QUESTION NOW IN CARL-VICT.

This Constituency Warning up to the Importance of the Federal Bye-Election Scheduled for Oct. 27th.

THREE-CORNERED FIGHT EXPECTED

Unionists to Meet in Convention on Thursday to Decide Upon Candidate for Their Standard Bearer.

Special to The Standard. Woodstock, Oct. 13.—Carlton-Victoria is about to come into its own. For years the electors in this constituency have the reputation of being the greatest political lighters on the map, and from present indications it is a cinch that that reputation is to be borne out in the forthcoming bye-election. It has been said, the electors of these two counties did nothing but eat, sleep and think in things political. If you wanted to start some scrap that goes to a velvet meeting or bet on a horse-race, it was a part of their living. Party feeling was intense and was always quick to show itself.

The electors of these two magnificent, prosperous and productive counties are thinking. Don't lose sight of that. When the Nation reaches a crisis allegiance to one political faith or the other was given but scant consideration. The voters rallied to the support of Unionism to win the war and help deliver the knock out punch to the solar plexus of the weakling Kaiser. That rally came during the trying days of the war, when the great question was whether the Dominion of Canada should support the boys overseas, advocated by the Union Party, or leave them to their own fate, as preached by the Laurier Liberals.

The record of Carlton-Victoria in the contest is too fresh in the public mind to need any review at this time. Little attention has been given to things political. The only thing the people have been interested in, up to within the past week, was the great exhibition plan and its superb race course. That has been officially opened, its reputation established and, with a Federal bye-election approaching, this Constituency returns to its first love-politics.

A new and untried contestant tosses a hat into the ring in the United Farmers. They are pushing forth a candidate in the person of Thomas Caldwell, who is at the head of that organization. He is a rugged Liberal of the old school, who had much rather talk Liberalism than discuss the best methods of making two blades of grass grow where one formerly blossomed. He was always looked upon as a rank partisan. When his candidacy was first announced the old school of Liberals chuckled and fell all over him. In fact, it was quietly talked that Liberals would unite in support of the Farmer's candidate.

The Unionists have not lost sight of the fact that they sprang into being to win the war, and those in this constituency realize that their task is only half completed. The war, he sure, is won but the mighty task of reconstruction, and re-establishment on a peace basis still calls for self-sacrifice and they believe that only can the party, which did its part in bringing success to allied arms, be expected to do that work.

All hailed with delight the announcement of Mr. Rankin's candidacy. He was the man of the hour. Unfortunately this highly respected physician had decided that he cannot withdraw from his practice at this time, as it would entail a big loss to himself, and he has a great obligation to do by going to Ottawa. Believing that this constituency should uphold its proud record of the past two years, the Unionists have called a convention to meet in Woodstock, Thursday evening, October 16th, to discuss the advisability of placing a candidate in the field for the Federal bye-election. In this connection several prominent names are mentioned as possible candidates, and among them is that of B. Frank Smith, who has been the hero of many a hard fought political campaign.

The Liberals are beginning to fear that should Mr. Caldwell prove a winner they might not find the going any too easy along the patronage trail, and they too will hold a convention at Amherst, Thursday afternoon to select a candidate. George W. Upham of this city desires to be the Standard bearer of the old time Liberals and will undoubtedly be their candidate.

A merry three cornered fight is apparently scheduled for October 27th, with the present outlook most favorable for the success of the Union Party.

LORD JELICOE

Suva, Fiji Islands, Oct. 13.—Admiral Lord Jellicoe, on his arrival here, was met by a fleet of sailing canoes and welcomed by the native chiefs. In a speech he suggested that Suva would probably be the Pacific naval base.

SUPREME COUNCIL NAMES COMM. ON POLISH AFFAIRS

To Investigate the Execution of Articles in the Peace Treaty Concerning Evacuation of Territories Assigned Poland.

Paris, Oct. 13.—The Supreme Council today appointed a commission on Polish affairs to investigate the execution of articles in the German Peace Treaty concerning the evacuation of territories assigned to Poland and the constitution of the free city of Danzig and the special organization under which Poland is to control and administer the port of Danzig and navigation on the Vistula.

The council instructed Marshal Foch to inform Germany that the sale of non-essential material to Sweden was considered null and contrary to the treaty by the Allies. The council further determined to facilitate the departure of delegates from Luxembourg to the international labor conference at Washington.

BIG FIGHT TO BE WAGED AGAINST G. T. ACQUISITION

Powerful Montreal Interests Are Preparing to Summon All the Forces at Their Disposal to Oppose the Legislation.

Special to The Standard. Ottawa, Ont., Oct. 13.—A big parliamentary fight is being looked for over the acquisition of the Grand Trunk. Powerful Montreal interests, with the Canadian Pacific Railway and the Bank of Montreal among their most formidable members, are preparing to summon all the forces at their disposal to oppose the legislation and it is expected that they will not be without strong parliamentary support. Unquestionably, the agreement will be approved by the Commons, but its fate in the Senate is regarded as so secure. The Upper House members among its membership a considerable number in both parties who are strongly opposed to the railway in principle, and it is extremely doubtful whether the government can count upon unbroken support from its supporters.

LET CANADIAN PACIFIC OPERATE GRAND TRUNK

Quebec, Que., Oct. 3.—The Quebec Chronicle, in discussing the government purchase of the Grand Trunk Railway, will suggest, editorially, tomorrow morning that the government, while retaining ownership of the National Railways, should let them be operated by the Canadian Pacific Railway.

The Chronicle considers that an efficient monopoly is to be preferred to a wasteful one, and that, if the Canadian Pacific management cannot turn this doubtful venture into a financial success, no one else can.

George A. Long Asks State Aid To Procure Witnesses

New Brunswick Man, Alleged to Have Committed Murder, Making Strong Fight for His Freedom.

Montpelier, Vt., Oct. 13.—Application to the court for funds to bring two witnesses here was made today by counsel for George A. Long, on trial for the murder of Mrs. Lucia C. Broadwell, at Barre last May. The witnesses are White Cloud, an Indian of Old Town, Maine, and D. T. Duprey, who was said to be somewhere in Massachusetts.

Counsel indicated that it was proposed to show by their testimony that while they were occupying a room in a hotel in Barre, on the night of the murder, they heard a woman scream as if in pain. This is in accordance with the effort being made by the defense to show that Mrs. Broadwell's body was found by a route which did not lead, as the state contends, from the lodging house of Mrs. Isabel Parker, who also is under indictment for murder. The hotel is in a different direction from the garden.

Dr. B. H. Stone, of the State Laboratory at Burlington, and his assistant, Dr. F. F. Whitney, testified, today, that Mrs. Broadwell's death was due to strangulation. They said that a woman's waist was tied about her neck and a handkerchief over that, and that a small bone in the neck was broken. She had eaten something, they testified, between one and six hours before death and there were no traces of alcohol in her organs.

Campbellton's first fair was officially opened on Wednesday morning of this week by His Worship Mayor Murray and His Honor Judge McLatchy. The skating rink was most artistically and attractively lighted, resembling a veritable fairy land. The fair was held in aid of the Soldiers' Memorial Hospital and to the Ladies' Hospital Aid, who have full charge of the undertaking, great credit is due. Hundreds of Campbelltonians and people from the surrounding country attended the fair each day and a substantial amount has been realized for hospital purposes. In the very attractive lunch room dinner and supper were served each day. There were various booths, also exhibits of farm produce which were said by experts to equal anything shown at provincial fairs. The exhibit from Jacques River and thought to be the largest and most varied, and that of the Grammar School garden deserved special mention. The fair was such a successful undertaking that it has been decided to make it an annual event in the future.

OBITUARY

Mrs. Anna Hammond.

Mrs. Anna, wife of John H. Hammond, and daughter of Lawrence and Catherine O'Keefe, died on October 8 after a long illness at her home, 65 Tracy street, Peabody, Mass. She leaves, besides her husband, one son, George, and three daughters, Alice, Maud and Bertha Hammond. She is also survived by three sisters, Mrs. William Coleman, of Danvers; Mrs. Frank Collins and Mrs. Thomas Duffy of Peabody, and two brothers, William O'Keefe, of St. John N. B. and John of Peabody.

Robert Power.

The death took place on Monday of Robert Power, son of the late Robert and Catherine Power, of Black River. The deceased who was about 73 years of age was a much respected citizen and leaves besides a wide circle of friends to mourn, two sisters, Mrs. John J. Mullin, with whom he was residing when he died, and Mrs. Martin McGuire, both of this city. George T. Power, of New York is a nephew.

The deceased lived the greater part of his life in Black River, and was at one time connected with a well known milling and lumber firm under the name of R. and J. Power, at Misspec. He took ill about two months ago and was in the St. John Infirmary for a while, he rallied and came out of the institution about a week ago. He took a turn for the worst on Monday morning and death followed.

The funeral will be tomorrow morning at 8:45 o'clock from the residence of his sister, 132 Waterloo street, to the Cathedral for requiem high mass, and the burial will be at Black River.

Miss Flora Boyko Tells How Cuticura Healed Her Pimples

"My face was very itchy at first and after that it was covered with pimples that disfigured it badly. The pimples were hard and red and they were so small, and they were scattered all over my face and were so itchy that I could not sleep."

"These bothered me nearly a year before I used Cuticura Soap and Ointment and when I had used five boxes of Cuticura Soap and five boxes of Cuticura Ointment I was healed."

Having obtained a clear healthy skin by the use of Cuticura, keep it clear by using the Soap for all toilet purposes, assisted by touches of Ointment as needed. Do not fail to include the especially scented Cuticura Talcum in your toilet preparations. Splendid after bathing.

For free sample each of Cuticura Soap, Ointment, and Talcum, write to: "Cuticura," Dept. 5, Boston, U. S. A. "Mail everywhere."

SOCIAL EXPEDIENCY AND SOCIAL WELFARE TESTS DEMANDED FOR PRESENT LIVING CONDITIONS

Can No Longer Expect to Defend the Fundamentals of Our Present Social Order by Obtaining Standing Pat on Constitutional Law—National Bank of Commerce of New York Reviews the Social and Economic Structure.

Something more than constitutional law and the mandates of the courts will be necessary to meet the social and economic conditions of the world as facing the National Bank of Commerce in New York as a result of its publication, Commerce Monthly, for October under the heading "Is Private Property Secure?" Social expediency and social welfare, it says are the tests demanded for present conditions of living and are the logical solution of the problems presented by the growing assaults on private property, free enterprise and competition, which the bank declares, are the three great fundamentals on which the present order of society rests. The article says:

"We can no longer expect to defend the fundamentals of our present social order by obtaining standing pat on constitutional law. It is no satisfactory answer to the social radical to say that our institutions are grounded in court decisions. Men are no longer willing to settle social and economic issues on such grounds. The test now being urged is that of social expediency and social welfare."

After reviewing the assaults, made upon private property, free enterprise and competition by the various cults of social radicals the article proceeds: "A social policy in the future, aimed at the abolition of poverty, will seek both to restrict the numbers of the population, and to prevent the further breeding of those elements of the population which are by birth condemned to inferiority. It will also lay heavy emphasis on efficiency in production."

"What shall we say for private property, free enterprise, and competition against one or all of which the shafts of the social radicals are aimed? We must hold that these fundamental tests of the present social order are vitally important, and thoroughly defensible. Modifications in them we must make, but in the interests of social welfare we must defend them."

"It is no valid defense of them, however, to say that they are lawful; that they are established in court decisions, that they are established by long custom. The time is past when men are willing to draw their concepts of justice from lawyers or from ancient custom. Institutions must stand on their own merits, and they must be tested by the fundamental test of social welfare. Do they, or do they not promote the well being of society?"

"They do. Private property, for example, corresponds first to a fundamental human instinct, the instinct of acquisition, the instinct of possession. A man is constituted, he desires to own and to hold things. It is by appeal to these elementary things in human nature that we draw out men's energies. The desire for private property is one of the most powerful agencies in spurring men to effort that can be found. Men will work harder for their personal ends than they will for general public ends. Men will take better care of their own property than they will of what belongs to the group as a whole. A system in which each man is made responsible for his own welfare and the welfare of his family leads to far greater effort on the part of men than any other system known. Industries run by governments are in general far more wastefully conducted than are industries run by private individuals whose profits depend on the outcome of the operations. Exceptions can be found among some municipal enterprises in which the activity under observation is relatively simple and observation is relatively simple and can be found among the enterprises conducted by great governments. Whatever else we may seek to do in improving the social order, we must do anything which will lessen the inefficiency of production. The fundamental fact in the whole social problem is the fact that we do not now produce enough."

"This does not mean, however, that all phases of private property and all of the rights connected with private property should be regarded as sacred and not subject to criticism. Private property should be subject always to public regulation and subordinated to the public interest. In a great city, a man should not be allowed to put up a high building in such a manner as to cut off light and air from his neighbors. We do not allow them to maintain public nuisances upon their private property. In arid and semi-arid regions, the rights to streams flowing through a piece of land are subject to the larger common need. If private property is to be defended, it must be defended on its merits."

"Free enterprise, again, together with competition, is vital to economic progress. The man with ideas and initiative must be given free scope to carry out his plans. By and large, free private enterprise is so enormously superior to government ownership of industry, or industry under government regulations, that the man who has seen both systems in operation intimately, can have little doubt about the matter. "Free enterprise and competition are highly undesirable under some conditions. There is general agreement that unregulated competition between two parallel lines of railroads may bankrupt one or both. Competing telephone systems in a given city are pernicious. There is no room for competing street railway systems upon the city streets. In cases of this sort we reluctantly surrender competition, and we introduce government regulation. Unregulated monopoly, we agree, is intolerable. In cases where monopoly is inevitable, we accept the fact. We make the best of it by subjecting it to governmental control. But when we do this, the demand of the socialists for going further becomes silent and strong, because they feel that the full realization of their program is within sight. A powerful political movement arises for government ownership of railroads, or telegraphs, and the like, and it is not certain that this movement can be resisted. Even in the case of regulated monopoly, however, private enterprise is preferable to government ownership. Private ownership is more efficient than government ownership and operation, but business men will do well to realize that there is no certainty that private ownership can be retained in such cases. If industry generally is allowed to become highly concentrated and combined under the regulation of such a body as the Federal Trade Commission, it may not be long before the movement for government ownership and control will become powerful. "For the general field of industry, private enterprise and competition must, in the long run, share the same fortune."

Stiff Neck, Lumbago

Shoes and Pains of Rheumatism Sometimes Almost Unbearable.

There are weather conditions that make rheumatism worse. They are not the same in the case of all persons. Some victims of this disease suffer more in dry warm weather than in moist cold weather, but all suffer more or less all the time. The cause of rheumatism is an excess of uric acid in the blood, affecting the muscles and joints. Hence the blood must have attention for permanent results in the treatment of this disease. Hood's Sarsaparilla has given entire satisfaction in thousands of cases. Do not fail to give it a trial. If a laxative is needed, take Hood's Pills—they don't gripe.

OBITUARY

Mrs. Margaret M. Irwin. Her friends will hear with sincere regret of the death of Margaret M. beloved wife of William J. Irwin, Millidgeville, which occurred last Sunday at her home.

The deceased, who was a daughter of Captain and Mrs. Robert W. Irwin, is survived by her parents, husband, one son and three daughters, who mourn a daughter, wife and mother who comprised the ideal virtues of each relation. An earnest church worker, and a friend who could always be relied upon, she will be greatly missed by her wide circle of friends in the community. The funeral will leave her late residence today. The service will start at 1:30 Standard time and the coaches will leave Scott's Corner at 1 o'clock. Interment will be made at Fernhill Cemetery.

Arthur C. Burnett. The death of Arthur Burnett occurred at Bloomfield, Kings County, on October 12th, leaving his wife, two sons and two daughters to mourn. The sons are Henry D. of Sudbury, Ontario and Walter at home; the daughters, Mrs. George Halliday of Hamilton, Mass., and Miss Edna at home.

Question Left Until Next Year

Women's Auxiliary Decided to Leave Matter of Taking up Social Service Till 1920 Convention at Hamilton, Ont.

The question as to whether the Women's Auxiliary of the Anglican Church should take up social service, including it in its work has been under discussion for some months. At the Annual Convention of the Dominion Board held recently at Hamilton, Ont., this point was thoroughly discussed and at the conclusion of the discussion a resolution was brought in that the question be left over until next year, but in the meantime the subject should be studied and the decision left to the Auxiliary at their own pleasure. The Auxiliary devotes itself to Foreign and Home Missions. A budget amounting to \$129,786.14 was adopted at the closing session and it was reported that \$7,000 of the "Thank Offering Fund" would be available for the outfitting and sending over of three missionaries. Two missionaries from Japan, home on furlough, Miss Florence Hamilton and Miss Florence Spencer gave accounts of their work. Mrs. George F. Smith and Mrs. W. D. Forster of St. John attended these meetings.

and the results following its use are often simply astonishing.

Weak, tired people regain strength and vigor; thinness and angularity give way to plumpness and curves; sleep returns to the sleepless; confidence and cheerfulness replace debility and gloom; dull eyes become bright, and pale, sunken cheeks regain the pink glow of health. Nitro-Phosphate, the use of which is inexpensive, also wonderfully promotes the assimilation of food, so much so that many people report marked gains of weight in a few weeks.

CAUTION—Although Nitro-Phosphate is unsurpassed for relieving nervousness, sleeplessness and general weakness, it should not, owing to its remarkable flesh-growing properties, be used by anyone who does not desire to put on flesh.

LARGELY ATTENDED SERVICE HELD IN ST. ANDREW'S CHURCH MONDAY

United Thanksgiving Service for the Presbyterians of the City Held in the Morning—Excellent Sermon Preached by Rev. H. L. Eisnor of St. Matthews.

A united Thanksgiving service for the Presbyterians of the city was held in St. Andrew's church Monday morning, when an impressive sermon was delivered by Rev. H. L. Eisnor, pastor of St. Matthew's church. Taking his text from the 116 Psalm, 18th verse, the preacher went on to say that the Psalmist from 113 to 118 were frequently sung at Hebrew festivals, and especially at the Passover. They came from the soul of the poet who wished to give expression to a sense of great deliverance.

A new age lies before us, said the preacher. The greatest opportunity of all history is knocking at our doors. How we should take advantage of it depended upon our believing in God as the source of all things. To all who love liberty the day is a great one. Having emerged from the shadow of an oppressive militarism which has devastated the fairest fields of Europe, made a mockery of civilization and a laughing stock of culture, all hearts will be thankful.

Who can recall a more astonishing time for the nations than the present. On every side of human life the achievements are the work of our hands. We are under a heavy tribute of thanks to science. Travel by land and sea is swifter than ever before. Daily toil is less grueling and less monotonous, through the application of modern machinery.

There is more public spirit. More men of character and ability are entering public life. This means the gradual extinction of the old time grater. Now we have reason to be thankful for the silent force of independent political thinking. There is going on a quiet emancipation of the Canadian electorate from blind partisanship.

We all believe in the organization of political forces. We believe in political machinery and leadership. But we also believe in the spirit of independence which enables a man to break with his party and follow the best interests of all to be conserved. This independent spirit is an asset of priceless value. It helps to preserve a sane and righteous equilibrium, and makes for safety and rational progress in the long run. That we ascribe this independence to a belief in God is a great fact.

Varied as is our population, outwardly divided and separated by very distinct cleavages, there is a deep underlying unity which makes it possible to build up a stable nation on an abiding foundation. This unity comes through a common belief in God. Let us be grateful for such a noble heritage. This great Dominion, mighty in the vastness of its limitless resources—the Almighty directed her infant footsteps, and led her to the discovery of the rich treasures with which He had endowed her hills, valleys, mountains, rivers, and plains. We are not for a moment to imagine that God takes no interest in the inhabitants of a country which He has given this country to us. His Providence has ordered the progress of events that Protestantism with its Bible and love of liberty were given this country, and may it not be characterized as a land of milk and honey? Surely for Canada we should be devotedly thankful to God.

But we should not lay special emphasis upon the bigness and wealth. It is not the bigness; it is its greatness. Bigness is an attribute of matter; greatness is an attribute of mind. The history of Canada is great; it reads like a romance. There are pages that sound like an epic poem. Who can read its story without exclaiming in the language of the Hebrew poet: "He has not dealt so with any people."

Thank God for our principles of government. No autocrat struts before our eyes making us feel we are his vassals, declaring as the late Emperor of Germany did: "I receive my power from God and what I will is law." The will of the King is the supreme law.

Our great principle is self-government. That admits people to participation in the councils of the nation, and gives them the right to be responsible for the conduct of affairs. We have reason to be grateful for our

**GOING TENDERNESS
A TOOTH-MENACE**

It is estimated that four out of five people over thirty suffer from gum-tenderness, or Pyorrhea (Riggs' Disease). But many people even under thirty have Pyorrhea. Women, particularly after the baby comes, are especially subject to Pyorrhea. At such times they should be especially careful about their teeth.

Pyorrhea commences with tender gums, or with gum-bleeding, at tooth-brush time. Gradually the gums become inflamed. They inflame and then shrink. The teeth become exposed to decay; the base and they opening in the gums become the breeding places of disease germs which infect the joints—or tonsils—arouse other ailments.

Beware of that first gum-tenderness! Try Forhan's for the gums. It positively prevents Pyorrhea. It need in time and used consistently. No ordinary tooth paste will do this.

And Forhan's cleans teeth as efficiently as well. Brush your teeth with it. It keeps the teeth white and clean.

If gum-bleeding has already set in, start using Forhan's and consult a dentist immediately for special treatment. 25 and 50c tubes. All drugists.

DOCTOR PRAISES ZAM-BUK

"For sixteen years," writes Dr. A. P. Shibley of Washington, D.C. "I have used Zam-Buk in my practice, and am convinced that there is nothing to compare with it for skin troubles, from roughness and irritation to chronic skin diseases. Zam-Buk, without a doubt, has wonderful curative properties, and when I have occasion to recommend a balm to my patients, I always recommend Zam-Buk. I have found the results from its use to be perfectly satisfactory."

Members of the medical profession are noted for their caution in recommending a remedy—only doing so when they have absolute confidence in it. The fact that Zam-Buk is so highly recommended by doctors the world over, and that in Dr. Shibley's experience it has stood the test of sixteen years' constant use, puts it, undoubtedly, in a class by itself.

In the home, in the office, shop and factory, Zam-Buk should be kept always handy. It is indispensable for all sores, eczema, boils, ulcers, blood-poisoning and piles, as well as for cuts, bruises, bites and scalds. All dealers 50c. box.

**OGILVIE COMPANY'S PROFITS
SHOW DECREASE.**

The report presented at the 18th annual meeting of the Ogilvie Flour Mill Company held in Montreal Oct. 9th, showed a considerable shrinkage in earnings as compared with the previous year. Profits for the year ended August 31st, 1919, were \$1,632,000 or \$212,000 less than in 1918. The earnings for the year just ended represent but 16.4 per cent on the capital of the company or 10 cents are included in the percentage earned would be but 13.3 per cent.

Mr. Black the Vice-President, and Managing Director stated that there had also been a shrinkage in the percentage of profits on the turnovers. This year they were slightly over 2 per cent, as compared with slightly over 3 per cent last year.

The large volume of business handled, however, had offset the small percentage of profits.

In speaking of the outlook, Mr. Black predicted a return to the boom competition for export business which characterized the pre-war days and pointed out that the development of a big export business would be of untold benefit to the dairy and live stock interests of the country.

The old board was re-elected with Mr. R. H. Dobell, the company's West-Canada Manager taking the place of the late Mr. George E. Drummond.

PROVINCIAL OPPOSITION CONVENTION IS TO BE HELD IN ST. JOHN, NOVEMBER 6TH

Those Qualified To Attend Will Be Two Elected Delegates from Each Parish, Two from Each Ward of Cities and Towns, Together With Parish Chairmen and Ward Chairmen—Convention to Discuss Organization and Policy.

A convention, in the interests of the Provincial Opposition Party in New Brunswick, will be held in the hall of the Seaman's Institute, Prince William street, St. John, N. B., on Thursday, November sixth, commencing at ten o'clock in the forenoon. Three sessions will be held, forenoon, afternoon and evening, the two latter at two thirty o'clock and eight o'clock p.m. respectively.

Representation at this convention will consist of two elected delegates from each parish, together with the parish chairman—qualified ex-officio—and from the towns and cities two elected delegates from each ward, together with the ward chairman, along with such other persons as may be qualified to be present.

This gathering has been arranged by the Convention Committee of the Opposition party and is called for the purpose of discussing matters of organization and policy. County and parish organizations are requested to make note of the date and conditions of this convention, and to take such steps as may be necessary in preparing for the election of delegates and substitutes.

HEAD-ON COLLISION.

Yesterday afternoon, between 3 and 4 o'clock, a Ford car driven by Joseph Paul, while coming out of Acadia street, was dashed into by a car of the same make driven by a man named Lord who was coming up Main street at a good clip. The machines struck almost head-on and both were considerably damaged. None of the occupants were injured. Mr. Lord, while trying to get underway after the accident, bumped into another auto which was standing at the curb.

BEGIN HOT WATER DRINKING IF YOU DONT FEEL RIGHT

Says glass of hot water with phosphate before breakfast washes out poisons.

If you wake up with a bad taste, bad breath and amnesia is caused. If your head is aching, if what you eat sours and forms acid in stomach, or you are bilious, constipated, nervous, ailing and can't get feeling just right, begin inside bathing. Drink before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it. This will flush the poisons and toxins from stomach, liver, kidneys and bowels and cleanse, sweeten and purify the entire alimentary tract. Do your inside bathing immediately upon arising in the morning to wash out of the system all the previous day's poisonous waste, gases and sour bills before eating more food.

To feel like young folks feel; like you felt before your blood and muscles became loaded with body impurities, get from your pharmacist a quantity of limestone phosphate, which is inexpensive and almost tasteless.

Men and women who are usually constipated, bilious, headachy or have any stomach disorder should begin this inside bathing before breakfast.

More and better shaves

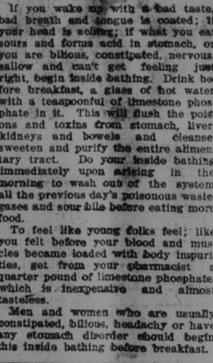

Did you ever see a barber start to shave a customer without stopping his razor first? Never! Don't think that fact significant?

Shaving, you see, is intended to remove the hair from the face, not to irritate the skin. The safety razor does this, and to give you the best shave, it should be used with a good shaving cream.

Shaving—shaving—shaving—see all done without irritating the skin. The razor.

WOMEN WORKERS' SEWING CIRCLE

Under the auspices of the Women Worker's Sewing Circle, a most enjoyable Thanksgiving supper was served last evening in the Tabernacle, Haymarket church.

The tables were beautifully decorated and fairly groaned under the weight of the culinary masterpieces, which graced them. The process, which was very satisfactory, are to go towards the new building fund. Much credit is due the following ladies, members of the committee for the success of the affair: Mesdames B. Patterson, A. Patterson, Jewett, Stachour, P. Kelly, Gray, Saunders, Patriquet, Gaudin and Grace.

A Womans' Warning

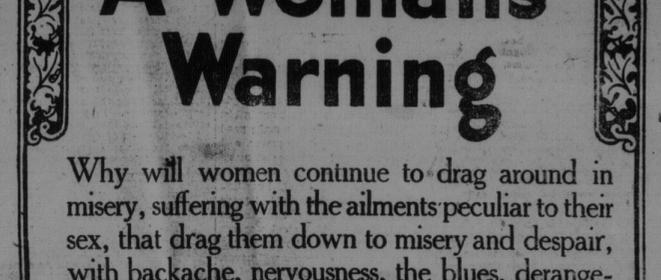

Why will women continue to drag around in misery, suffering with the ailments peculiar to their sex, that drag them down to misery and despair, with backache, nervousness, the blues, derangements and irregularities, when there is a proved remedy for just such conditions?

For more than forty years Lydia E. Pinkham's Vegetable Compound has been overcoming these ailments until it is now recognized everywhere as the standard remedy for woman's ills.

For Twenty Years the Friend of This Woman

Akron, Ohio.—"I am fifty-one years old and going through the Change of Life, and Lydia E. Pinkham's Vegetable Compound is doing me lots of good. I felt run-down and weak but since taking the Vegetable Compound I am much stronger and better. I can eat and sleep, am gaining flesh and can do more work than I have for some time. Twenty years ago your Vegetable Compound helped me during childbirth. I wish you would print this in your paper so that other women may read it. There is nothing better for the relief of suffering womanhood than Lydia E. Pinkham's Vegetable Compound. It does away with sickness and nervousness which is very often responsible for the lack of perfect harmony in the home."

PUBLIC HOLIDAYS.

From Saturday afternoon until Tuesday morning is a long time to be without news, and inquiry is frequently heard, as to why, when a public holiday falls on Monday, the newspapers do not arrange among themselves for publication of at least one edition.

No Panacea For Strikers. The British railway strike illustrates as has been shown in the recent history of the United States, that government ownership or control is not the sure remedy for industrial disputes.

The Kitchen Door. Milk at 15 cents the quart argues the necessity of getting the best lot, and we think the tendency is in that direction.

LABOR DISPUTES.

Do strikes pay? Has any labor union ever stopped to figure out the relative gains and losses experienced by members through the use of this weapon in enforcing requests or demands for increased wages?

Must Pay Taxes.

It is going to be almost as hard to get out of the United States hereafter. The inland revenue authorities have issued a new regulation that Americans going abroad must pay their income taxes before they will be permitted to leave the country.

Exhausted Her To Climb One Flight

Mrs. McClellan Was So Run-Down She Could Hardly Walk Around the House—Restored by Tanlac.

"I have taken many different kinds of medicine during the past nineteen years trying to find something that would relieve me of my suffering, but Tanlac is the only thing I have yet found that has done me any good at all," said Mrs. Mary McClellan who lives at 23 Baur street, Halifax, when talking to a Tanlac representative the other day.

"My entire nervous system has been in bad condition for a long time," continued Mrs. McClellan, "and I just seemed impossible for me to find anything that would give me any relief. My appetite was poor, and I just had to force what little I ate, and my stomach was in such bad condition that I would suffer terribly every time I ate anything. I never knew what it was to sleep well, and many times I would go through the whole night without even closing my eyes for sleep. Why, the least noise would upset my nerves something awful, and I would tremble like a leaf. I fell off a lot in weight, and finally got so weak and run-down, I was hardly able to walk around in the house, I couldn't do my household work at all, and I would completely exhaust me to climb a flight of steps."

"When I commenced taking Tanlac, I had reached the point where I had actually given up hope of ever getting rid of these troubles. Well, Tanlac was just the medicine I needed, for I commenced to improve soon after I began taking it, and I have been getting better ever since. I have taken three bottles so far, and it is simply wonderful the way I have picked up in every way. Why, all that nervousness has left me altogether, and I sleep like a child every night. I have gained a lot in weight and strength and am still gaining. Tanlac is a wonderful medicine, and as long as I live I will praise it for the good it has done me."

Tanlac is sold in St. John by Ross Drug Company and F. W. Munro, who give the personal direction of a special Tanlac representative.—(Adv.)

It takes a joint of beef to make a bottle of Bovril

Bovril contains the goodness of the beef.

THE vital elements that give beef its special place and value as a food are concentrated and stored in Bovril.

Just as the equivalent light of 32 candles is concentrated in one electric lamp, so the vital elements of beef—of many pounds of beef—are concentrated in a single bottle of Bovril.

But Bovril is not merely a precious food in itself; it possesses the peculiar power of enabling you to extract more nourishment from other foods. This gives Bovril its wonderful body-building power, proved by independent experiment to be from 10 to 20 times the amount taken. Bovril, therefore, in the true sense of the word, is a Great Food Saver.

Always keep Bovril in the house.

Transcontinental Train Every Day in the Week

Toronto-Winnipeg-Vancouver-Victoria. In effect October 5th.

A daily Transcontinental service between Toronto—Winnipeg—Vancouver—Victoria, is the principal feature announced in the Canadian National Railway Fall and Winter time table. This train will leave Toronto 9:15 p.m. daily and will be equipped with up-to-date sleeping, dining, first-class day coach, tourist and colonist cars. Between Toronto and Winnipeg there will also be a compartment-observation parlor car.

A parlor car will be attached for the convenience of passengers, while travelling through the Rockies, so they may enjoy, in the utmost comfort, the magnificent scenery for which the Canadian National route is famous.

Further particulars can be obtained from Passenger Officers of Canada's National system of Railways.

OBITUARY

John Ingles Willis. The death of John Ingles Willis occurred in Milford Saturday morning after a lingering illness at the age of sixty-seven years. He was a son of the late J. R. Willis of Halifax. He leaves three daughters, Mrs. E. B. Johnson of this city, Mrs. Angus McDonald of Bridgetown, N. B., and Mrs. Thomas Russell of Milford; two sons, Arthur of New York and John of this city; one sister, Mrs. Florence O'Brien of Halifax, and nine grandchildren. A large circle of friends extended sympathy to the bereaved ones. The funeral took place yesterday afternoon at 3:30 from the residence of his daughter, Milford.

James A. Seeds. The death of James A. Seeds took place Saturday morning rather suddenly and removed one of the best known business men in the city. On Friday he was about as usual and spent the evening with friends. Early Saturday morning he was taken ill and died an hour later from apoplexy.

The deceased was a native of St. John and started his business career with the dry goods house of John Hastings and shortly after transferred to the Vassie office, continuing with that house for more than fifty years. At the time of his death he was president of the company. He enjoyed the highest esteem of all who knew him and was a life long member of Trinity Church. He is survived by two sisters, Miss Carolyn Seeds of St. John and Mrs. Charles L. Caverhill, Upper Caverhill, York County.

After a short service at his home, 90 Mecklenburg street, yesterday afternoon, the remains were conveyed to Trinity, where the service was conducted by Canon Armstrong and interment was in the Church of England Burying Grounds.

MAKING THOSE OLD CLOTHES DO WORK

The old saying "a stitch in time saves nine," is just as true with us as with our grandmothers. Any kind of a garment, whether for outside or inside wear, for big or little people, will wear much longer if the thin places and small holes are darned or strengthened as soon as discovered.

Here are some suggestions for making over garments:

A ladies' coat and skirt suit can be made into a very serviceable one-piece dress. A separate skirt combined with a remnant makes a pretty one-piece dress.

Long coats can be made over for one's self, or a top coat for young girl or boy.

A short coat can be remodelled for a dress for a girl, using remnant for combination.

Waists can be tinted and recut for a gumpe for girl, or a camisole, or a baby's cap, or a covering for a woman's summer hat.

Visited His Old Parish on Sunday

Captain Rev. Thomas Harrison Preached to a Large Congregation at St. George—Subject "The City Beautiful."

Capt. Harrison visited his old congregation at St. George and had a packed church on Sunday. His theme, "The City Beautiful," was taken from 21st Chapter of Revelations, "And the doors of the city shall not be shut by day; and there will be no night there." There is no access to the city, then, said the Captain in his own quaint way. If the doors are not shut by day, and there is no night there, the city has its genesis in God, the more clear God was revealed to man. Along with it grew the conception of the City Beautiful. That was purely a religious and noble conception of God by Abraham, a gray father standing in the dim dawn of the world. Elshaddie, the "God who is," or "the God who is to be," he met in a vision, and he lived in an age when the world was young; mighty empires were in the distant future. He heard the divine voice calling him to go forth and build a city—a simpler and purer faith. Many difficulties beset his path; he met in the way opposition to daunt the strongest, but he had caught the vision glorious and he went forth seeking a city which his foundations, whose builder and maker was God.

The man Moses was sustained by the same vision. More splendidly still God revealed Himself to him, "I will be with thee." With this conception and vision of the city, he became a splendid patriot. He forsake Egypt and found his vocation. Patriotism has made many a man sublime, lifted him out of a cold selfhood into a magnanimity that rejoiced to live or die for the freedom of men.

This vision upheld Moses for forty years with a stiff-necked people, and in the end he saw the city. The aged John, in an age unlike these, by with the Christ conception of God (Father), was sustained in his loneliness by the conception and vision of the city. "The New Jerusalem coming down from God out of Heaven among men."

I said the Captain, knew a city. I have stood in its streets long years ago, watching its busy scenes. Outside of the city was a hill, venerable and respected. I have climbed to its summit. How small men looked below, but above the clouds one caught the vision. Away over the water stood the grey hills of Scotland; turning round and looking over sweet County Down were the Mourne Mountains, pushing their tops to the sky; close near the city was the splendid lough; the vision was rapturous.

Along the lane of history there have been mounds to which men could ascend and catch here and there a view of the City Beautiful. I called upon our young men here in 1914 to arise and defend the city. Thank God, they did. Some have paid the supreme sacrifice. We thank God for their sacrifice, and we will not let that sacrifice be in vain. In the eleventh hour of the eleventh day of the eleventh

ALLIANCE BETWEEN INSTITUTES OF ENGLAND AND CANADA

Negotiations are now in progress to establish an alliance between the Women's Institutes of Great Britain and the Federated Women's Institutes of Canada.

Mrs. Alfred Watt, Chief Organizer of Women's Institutes in England, and Mrs. Cogan, District Organizer of Women's Institutes in Canada, are in Canada now and will meet with the Board of Directors of the Federated Women's Institutes of Canada early in November to complete arrangements for this alliance.

At the Annual Provincial Convention of the Federated Women's Institutes of Canada, held in St. John during the last week of October to hear Mrs. Cogan explain the conduct of Women's Institutes in England, she spoke on the establishment of this representative organization.

Note the following article taken from the Journal of the Board of Agriculture, London, England:—In 1913, Mrs. Alfred Watt, M.P., Secretary of the Women's Institute Advisory Committee to the British Columbia Department of Agriculture, came to England. She spoke on the establishment of Women's Institutes in villages where help towards an increased food supply. In 1914, Mrs. Watt, who had for many years been connected with the Women's Institutes of British Columbia, discussed the matter with Mr. Nugent Hill, then General Secretary of the Agricultural Organization Society, and after further investigation and reports by the A. O. S., at its annual meeting on 23rd June, 1915, passed the following resolution: "That the work of the Women's Institutes in Canada, which is so important a part in the rural life of Canada, could be adapted to make equally suitable to English rural conditions, and that it is desirable to organize it in this country in the Agricultural Organization Society and that it be recognized in the War Food Bonds of the Dominion."

The resolution was approved by the Governors, who appointed a small committee to carry out the work. The first district visited by Mrs. Watt was the North York district, where the first institute was formed at Llanfair, well in September, 1915, and East Devon where the first English institute was formed at Wiltshire in the latter part of the same year.

By December, 1918, 60 institutions were in existence. By the end of the year, the number had increased steadily. By October 1st, there were 137 institutes in England and Wales, and the importance of the work they were doing with respect to increasing and preserving the food supply had become so evident to the Board of Agriculture, with the approval of the Government, that a list in their formation by creating a special Women's Institute Section in the Women's Branch of the Agricultural Department to undertake propaganda in close co-operation with the Women's County War Agricultural Committees, was formed at the end of all existing institutes were summed up.

ALLIANCE BETWEEN WOMEN'S INSTITUTES OF GREAT BRITAIN AND CANADA TO BE FORMED

Negotiations Are Now Pending Looking Toward Such An Alliance Which Would be of Immense Value to Both Countries.

Negotiations are now on to establish an alliance between the Women's Institutes of Great Britain and the Federated Women's Institutes of Canada. Mrs. Alfred Watt, Chief Organizer of Women's Institutes in England and Wales, and Mrs. Cogman, District Organizer of Women's Institutes in England, are in Canada now and will meet with the Board of Directors of the Federated Women's Institutes of Canada early in November to complete arrangements for this alliance. Mrs. Watt, who has been many years over, women of New Brunswick, an opportunity will be given you at the Annual Provincial Convention of the New Brunswick Women's Institutes held in St. John during the last week of October to hear Mrs. Cogman explain the conduct of Women's Institute work in the Motherland, and catch with her a glimpse of future developments for this representative organization.

Note, the following article taken from the Journal of the Board of Agriculture, London, England:— In 1915, Mrs. Alfred Watt, M. A., Secretary of the Women's Institutes Advisory Committee to the British Columbia Department of Agriculture, came to England. She spoke on Canadian Women's Institutes at different gatherings, and shortly after war broke out issued a leaflet showing how the establishment of Women's Institutes in villages would help towards an increased food supply. In 1915, Mrs. Watt, who had for many years been connected with the Women's Institutes of British Columbia, discussed the matter with Mr. Nugent Harris, then General Secretary of the Agricultural Organization Society, and after further investigation and reports to the A. O. S., at its annual meeting on 23rd June, 1915, passed the following resolution: "That this meeting is of the opinion that the Women's Institutes movement, which is filling so important a part in the rural life of Canada, could be adapted and made equally suitable to English rural conditions, and that the body to organize it in this country is the Agricultural Organization Society and that it be a recommendation from this meeting to the Government of the Society that they should be responsible for the work."

This resolution was approved by the Governors, who appointed a small sub-committee to carry out the work. The first districts visited by Mrs. Watt were North Wales, where the first institute was formed at Llanfairpwll in September, 1915 and East Dorset where the first English institute was formed at Wareham in November of the same year.

By December, 1916, 50 institutes were in existence, and the number increased steadily. By October, 1917, there were 137 institutes in England and Wales, and the importance of the work they were doing with respect to increasing and preserving the food supply had become so evident that the Board of Agriculture, with the approval of the A. O. S., offered to assist in their formation by creating a special Women's Institute Section under the Women's Branch of the Food Administration Department to undertake propaganda in close co-operation with the Women's County War Agricultural Committees. Representatives of all existing institutes were summoned to a general meeting in London and they, (a) decided to accept the offer of the Board, and to transfer them all work in connection with the formation of new institutes; and (b) elected an Executive Committee to continue and develop the work hitherto carried on by the A. O. S. of assisting and strengthening existing institutes.

The Executive Committee consisted of Lady Denman, Assistant Director of the Women's Branch of Food Production Department of the Board of Agriculture; Mrs. Watt as Chief Organizer of various institutes; four members nominated by the A. O. S.; two members nominated by the Executive Committee; and Mrs. Harris as Head of the W. I. Section attending ex officio.

So rapid was the growth of the institute, and so vigorous was the desire to co-operate and to break new ground, that it soon became advisable to strengthen the organization by forming federations to link together the institutes in each county and to assist in the establishment of co-operative industries. At the present time (October, 1918) there was 700 institutes in England and Wales, and 18 County Federations—including the North Wales Union.

Nor has the movement been confined to England and Wales. In the spring of 1916 Mrs. Blair of Hopfing, Maine, Gladsmuir, and Mrs. Gooch of Torcasle, Banavie (who had seen something of the working of institutes in England) independently approached the Scottish Board of Agriculture to ask whether they would give favorable consideration to the formation of Women's Institutes. Moreover, in April 1917 (at the suggestion of Mrs. Blair) the Scottish Council of Agriculture passed a resolution the women's institutes on the basis of those in England should be established.

A delegation to the Secretary for Scotland was favorably received and Mrs. Watt was invited to address public meetings organized in the North of Scotland by Mrs. Gooch and in the South by Mrs. Blair. An Advisory Committee to the Board of Agriculture for Scotland was set up, and they appointed Miss A. Campbell as Organizer for the period of two years. By August, 1918, 35 institutes had been formed, with a membership of 1,391.

In Ireland, the work done by the United Irishwomen on similar lines is bearing excellent fruit. The aim of this association, which was started in 1916, is to raise the standard of health and living, and to press into the service of their country all classes and all sects among women whose homes and interests lie outside the township areas. Such women have often felt that their talents are somewhat wasted and their opportunities of assisting in public work have been too few to be worth considering. The United Irishwomen offers all women an opportunity to assist in the regeneration of their country at a time when the assistance of every man and woman is required as it has never been wanted before. "The aim of the Women's Institutes movement is precisely the same, and the two are in close touch with each other."

When it is considered that the Women's Institutes have come into existence at a time when everybody was already more than fully occupied with other affairs, when difficulties of transit placed almost insuperable obstacles in the way of holding meetings, and difficulties of food made a somewhat dismal solemnity of social functions, when money was so easily and rightly raised for war charities that it was almost impossible to raise it for anything else, and most of the women who would naturally have been the leaders or organizers of such a movement were absent from home, nursing in hospitals or driving motor ambulances in France, the rapidity of its growth and the fact of its becoming so widespread speak much both for its vitality and for its suitability. In wartime we cannot do with superfluous calls upon our energy; time becomes a thing to use, not to pass, and that a large and ever-increasing number of shrewd country women choose to use it in this way shows that they find the institutes of practical value. Nor have they a value for women only; one cannot benefit without its reacting on the other, and the whole of rural life must necessarily be affected by such a movement. In the words of Sir Daniel Hall, Permanent Secretary to the Board of Agriculture and Fisheries, in a circular dated May, 1918 addressed to the Local Education Authorities in England and Wales:— "Of the many new enterprises in rural development which the war has stimulated, there are few, in Mr. Prothero's opinion, which are so full of promise for the future as the active association of women with agriculture and the prominent share which they have taken in the food production campaign. Women's institutes, where established, should provide a means of preserving the new spirit, as well as of extending it in fresh directions; but it is a potential stimulus to the education of the men and boys engaged in agriculture, as well as the women and girls, that Mr. Prothero thinks they particularly deserve the support and sympathy of Education Authorities."

The new spirit to which he refers is one which bids fair to set agriculture in its proper place as the true aristocrat of industry: "We may take what we please of Little and Egg Rampant, and Spread Eagles in Fields d'Or or d'Argent; but if heraldry were guided by Reason, a Plough in a Field Arabs would be the most Noble and Ancient Armes." and these arms the promoters of the movement look to see borne in triumph by the land army of the future.

TO DARKEN HAIR APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss and Attractiveness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and lustrant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time, by morning all gray hairs have disappeared, and after another application or two, your hair becomes beautifully dark, glossy, soft and lustrant.

GAGETOWN JURY RETURNS VERDICT OF NOT GUILTY

After Deliberating Over Two Hours Decide Mike Petrovich Didn't Commit Murder.

Gagetown, Oct. 11.—"Not guilty" was the verdict brought in by the jury this evening, after being out two hours, in the case of Mike Petrovich, charged with the murder of Frank Kaschitz at Minto in June last. That two hours had been anxious ones for the prisoner and he could hardly believe his good fortune, as the gate of the docket was opened and he stepped forth, in the eyes of the law, an innocent man. As the jury filed past him on their way to decide his fate, he stood up, after the servile manner of his land when "up against it," and eyed them anxiously as they passed. He looked after them till a sponge or soft brush with it and draw this through your hair, taking one small strand at a time, by morning all gray hairs have disappeared, and after another application or two, your hair becomes beautifully dark, glossy, soft and lustrant.

Declared innocent by the jury because they felt that the evidence given was not sufficient to convict him, Michael Petrovich, the Austrian, who used firearms during war time, contrary to law, who roamed the woods shooting moose out of season; who was none too highly regarded by his own kind at Minto, and who declared that a "Man can do anything in Canada and get off," goes back to Minto as "innocent man," because two hunting companions, an Austrian and a German, who admitted to it legally killing game, swore that the

How Fat Actress Was Made Slim

Many stage people now depend entirely upon Marmola Prescription Tablets for reducing and controlling fat.

One clever actress tells that she reduced two to four pounds a week by using this new form of the famous Marmola Prescription and now, by taking Marmola Tablets several times a year, keeps her weight just right. All druggists sell Marmola Prescription Tablets at \$1. for a large case. Or you can get them by sending price direct to the Marmola Co., 364 Woodward Ave., Detroit, Mich. If you have no tried them do so. They are harmless and effective.

accused, although away from them for two hours and three quarters, returned to their company half an hour before the murder was committed. How long the accused was really away from them is known only to these two men; where he was during that time is known only to the prisoner himself. Meanwhile, Queens County stands the expense of the most expensive murder trial held here in years, that justice may not be lacking to the aliens within her borders, who lived in peace and prosperity, while the best manhood of the county was fighting their kindred overseas. Next week, a civil docket of five cases will begin, the two leading cases being Charles W. Orchard versus Thomas Hamm and Blair Hamm;

MRS. SANFORD'S MESSAGE TO WORKING WOMEN

Laurel, Miss. — "Eight years ago I was suffering with pains and weakness caused by a female trouble. I had headaches, chills and fevers, and was unable to do my work part of the time. Lydia E. Pinkham's Vegetable Compound was recommended to me and I took twelve bottles of it, and do dress-making besides my housework. You are at liberty to publish my letter if it will help some poor suffering woman." — Mrs. J. C. SANFORD, 1237 Second Ave., Laurel, Miss.

Thousands of women drag along from day to day in just such a miserable condition as was Mrs. Sanford, or suffering from displacements, irregularities, inflammation, ulceration, backache, headache, nervousness, or "the blues."

Such women should profit by Mrs. Sanford's experience and try this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, and find relief from their sufferings as she did.

For special suggestions in regard to your ailment write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of their long experience is at your service.

Five Minutes To Eleven has not yet come for those who stayed at home

The gallant Canadian army kept right on fighting until five minutes before the Armistice was signed.

The last lap of the war for those men was indeed a smashing, glorious finish!

While the fighting ended at five minutes to eleven on the morning of the eleventh of November last year, the war has not yet ended for those of us who stayed at home.

Our "Five Minutes to Eleven" has not yet come. There is a great deal more for us to do, before our war job is finished.

There are still heavy demobilization expenses to clean up. In a few short months we have brought home the troops that were transported overseas during four years of war—four years' transportation expenses crowded into a few months.

Many millions are still required to complete payment of demobilization and for other purely military expenditures.

The Victory Loan 1919 which is necessary to meet these war obligations is the great objective in the last lap for those who stayed at home.

The Canadian Corps, during the war, never lost a gun—never once retreated and never failed to take an objective.

Keeping that glorious record in our minds, and carrying that "no surrender" fighting spirit into the new Victory Loan campaign, there can be only one result—Success, overwhelming and triumphant.

When the figures for the Victory Loan 1919 are tallied up, the result will show the world that those of us who stayed at home have taken another glorious objective on the road to our "Five Minutes to Eleven."

Victory Loan 1919

Issued by Canada's Victory Loan Committee in co-operation with the Minister of Finance of the Dominion of Canada.

ANNIVERSARY MASS. The members of the family of Private Joseph Breen attended an anniversary Mass Saturday morning in St. John the Baptist Church, celebrated by the Rev. A. W. Masham, D. D., for the repose of the soul of Private Breen, who was killed in action on October 28, 1918.

Large Attendance at Portland Methodist Sunday School

Methodist Sunday School Sunday — Diplomas Presented to Graduates of Teachers' Training Class.

Sunday afternoon the Portland Methodist Sunday School held its annual rally day service, when diplomas were presented to the graduates of the teachers' training class by Mayor Hayes, addresses were delivered by the Rev. H. A. Goodwin, of the Centenary Methodist, and the Rev. Neil McLaughlin, pastor of the church. These graduates in the teachers' training class were: Misses Muriel Panjoly, Margaret Morrow, Laura Panjoly, Rose Rowley, Mollie Langley, Lillian Maxwell, Dena Corbett, Kathleen Ellizard, Anna Alley, Edith Brown, Lillian Bromfield, Olive Scott, Mrs. Fred Smiler, and Stanley Larkin.

Members of the advanced primary class were put through a short Bible exercise by their teacher, Miss Carrie McIntyre, after which Bibles were presented to each member by the Rev. H. A. Goodwin.

HARVEST FESTIVAL

The Harvest Festival was celebrated on Sunday at St. John's (Stone) Church, the pastor, Rev. G. A. Richards, preaching at both services. The church was finely decorated with fruits and wheat, and there was a large congregation present both mornings and evenings. Special Harvest music was given by the choir under the direction of Dr. Arnold Fox.

Water Main Break In Brussels Street

Trouble Locating Break in Fifteen Inch Main Which Occurred Early Saturday Morning—Pipe Was Forty-Three Years Old.

A break in a fifteen inch water main in Brussels street near the corner of Hanover street was repaired yesterday afternoon, and the water pressure was soon normal again. Men of the Water and Sewerage Department were busy from 2.30 Saturday morning till yesterday trying to locate the leak, but when they found it they were not long stopping it. The break was in a small section of pipe which is 43 years old. This section was taken out and a new pipe put in its place.

Commissioner Jones stated last night that the pipe had evidently been leaking for some time, but the break which caused a notable reduction of the water pressure occurred in the small hours of Saturday morning. As soon as the pressure was noticed falling off the men of the Water Department were turned out and began a systematic search to locate the leak. They finally discovered it when they opened the manhole of a sewer leading to the March Creek. Water was pouring through the sewer like a mill race, and it was not difficult then to figure out the location of the leak.

Commissioner Jones was on the job most of Saturday and Sunday nights and Mr. Kirby, District Engineer, of the C. P. R., who has considerable knowledge of hydraulics, placed his services at the disposal of the department. While the men were searching for the leak some of the higher levels were without water, and there was considerable uneasiness among the citizens. After the leak was located and repair work started the water had to be shut off half a dozen houses on Brussels street, but a hydrant was opened for their benefit.

Asked last evening if the accident would cause a general overhaul of the water service, Commissioner Jones said there was no reason for such a procedure. Apart from the section where the break occurred the lead mains were in good condition, and he did not expect any more trouble of the same kind.

Basketball Boom At The Y. M. C. A.

Opening Game Tomorrow Evening Between Old Senior Team and the New Squad—Preliminary Game at 7.30.

The opening basketball game of the season that is scheduled to be played on the "Y" floor tomorrow evening at 7.30 (daylight time) between the "Old Senior" team and the "New" squad is creating a lot of interest among the supporters of the game, and a lively contest is looked for, and a good attendance of friends interested in basketball is expected.

Frank Thorne, who is heading up the "Old" Seniors announces he has a strong team ready and sure to give a good account of themselves. The only thing they may lack is condition. The team will be chosen from the "Old" following players:—R. Willett, W. Latham, W. Treat, L. Burton, W. Duncan, L. Ryan, M. Latham and Frank Thorne.

House League

The house leagues that are being formed in the Intermediate and Senior classes are filling up, and it is expected that the basketball committee to have both lists ready to be divided into teams by Wednesday, 22nd.

Business Men's Volleyball

The new Volleyball League that was started last week in the Business Men's Class of the Y. M. C. A. is proving very interesting. The games are played each class night, and the individual score recorded. The Saturday afternoon league is expected to get under way during the next couple of weeks, and some great games are assured for those interested in this line of sport.

UNITED SERVICE HELD YESTERDAY

Rev. Henry Penna Preached at Thanksgiving Service of Methodists Held in Queen Square Church.

There was a large attendance at the United Thanksgiving Service of Methodists held in the Queen Square Church on Monday morning. Rev. Henry Penna was the preacher, and his sermon was much appreciated by the large congregation. He took his text from the first book of Kings, iv. 2, and his leading thought was that the blessing which we have to be thankful must be developed from a careful use of what we possess. He illustrated his thought by the parable of the loaves and the fishes.

MAGAZINES STOPPED

Local Unions in New York City Demand 32 1/2 Hour Week.

A quarrel between certain local unions and their International Unions has closed every magazine printing establishment in New York City. Some of the local unions have retained their membership in their International Union, while the pressmen, toolmakers and paper handlers local unions have seceded and struck. These local unions demand that a 32 1/2 to 44-hour week and an increase of \$14 per week with double and triple pay for overtime take effect immediately. The International Unions contend that the men should return to work and the entire matter be left to arbitration.

The publishers of the magazines, meanwhile must suspend publication until the unions fight out their differences. This means that Collier's Weekly, McClure's Pictorial Review, Cosmopolitan, Hearst's Magazine, Harper's Bazaar, Good Housekeeping, Harper's Magazine, Metropolitan, Scribner's Magazine, Century, Munsey's, Popular, Delmonico, Everybody's, McCall's, Popular Science Monthly, Vogue, Vanity Fair, Motion Picture Magazine and 153 others as well as many of the largest trade papers in the country will not appear on time, as usual.

Some publishers are making plans to remove their plants from New York City to other places and many Western cities are bidding vigorously to induce those publishers to consider their particular localities. Three very large publications have already completed plans for removal and their printing machinery and paper supply is now being shipped to Chicago.

SCOTCH TWEEDS

From the Land of the Heather

WHEN we say that these are genuine Scotch Tweeds—imported by Fit-Reform directly from Scotland—haven't we said all that can be said about the sturdiest and—to many men—the most likable Suits and Overcoats that can be made?

And these new Tweeds have gained added charm from being shaped into Suits and Overcoats by the master hands of the Fit-Reform tailors.

If you have a preference for Tweeds, either in suits or Overcoats, let us show you the novelties we've imported in genuine Scotch Tweeds.

Borden's ST. CHARLES EVAPORATED MILK

Pure Milk!

—protected in every way

Every one who sees the Borden Dairy Barns understands instantly why Borden's St. Charles Milk is pure. Every window is screened—the floors are concreted—the ceilings kept clean and tight—walls and stanchions whitewashed every six months—the entire stable thoroughly ventilated—no animals but cows kept in the stable.

Borden's St. Charles Milk—obtained under these ideal conditions—is delivered to you kitchen with its purity unchanged. It is the same pure, sweet milk with part of the moisture removed—nothing is added. Milk in its most convenient and economical form. Keep a supply on your shelf for all your milk requirements. At your grocer's.

Traverse Ocean Open.
Yarmouth in five years gone by was noted for the quick passages many of its fine vessels made, which have, in several instances, never been equaled or surpassed. We might note those of the M. and E. Lane, and Mary I. Baker, which made four round trips across the Atlantic in one year, with cargoes laying such way. Another was that of the brigantine Condor, 173 net tons, owned by Benjamin Rogers and Nathan Woodard and launched in 1837. While in command of Captain Hilton, this vessel in 1844 made five voyages to the West Indies and back in thirteen and one-half months, having loaded once in St. John, twice in St. Andrews, and once in Liverpool, N. B., stopping at Yarmouth each voyage for orders.—Telegram.

To the Electors of the Federal Constituency of Carleton-Victoria: Having been nominated by a Convention of the UNITED FARMERS OF NEW BRUNSWICK, which was held in Woodstock on September 22d, to contest the coming by-election in the above constituency to fill the vacancy caused by the resignation of the Dominion Minister of Public Works, and as the Election is to be held on October 27th and the time being so short, it will be impossible for me to personally call on all the Electors in the two Counties, I, therefore, take this opportunity to state to you what the aims of the UNITED FARMERS are. They are, in brief, as follows: THE UNITED FARMERS are strictly independent of both the old Political Parties, and their representatives will be perfectly free to support any measure that is for the best interests of the Farmers of Canada, and just as free to oppose any measure that they feel is not in the interests of the Farmers. And Canada, being an Agricultural Country, we believe that any legislation that is beneficial to Agriculture is indirectly beneficial to every citizen of Canada. THE UNITED FARMERS also stand for PURITY in elections, as they believe that the lack of this is the starting point of all the Political Graft and Corruption which is so much in evidence in Canada today. We would therefore appeal to every loyal citizen of Canada to support the FARMER'S PARTY, and to the Electors of Carleton-Victoria, to support me as the UNITED FARMERS' Candidate in the coming By-Election. Yours sincerely,
T. W. CALDWELL.

AROUND THE CITY
VITAL STATISTICS.
Twelve deaths, eighteen marriages and sixteen births were reported for last week.

LOCH LOMOND FAIR.
The annual fair at Loch Lomond will be held tomorrow and promises to be better than ever. This is one date that a great many people in the city look forward to.

THE HOLIDAY HARVEST.
Nine drunks, gathered to the police field from various parts of the city, will answer the charge this morning of celebrating the Thanksgiving with the wrong kind of spirits.

RETURNED MAN APPOINTED.
Francis Edwin Ketchum, a returned soldier, formerly on the staff of Baird & Peters, has been appointed a clerk at the Post Office. He entered on his new duties yesterday.

COMPELLED TO DECLINE.
W. P. O'Connor has notified the secretary of the Canadian Club that he is regretfully compelled to decline the invitation to address the members, as he delivered no addresses while on his tour of the provinces.

JUVENILES ARRESTED.
Two lads, aged 14 and 15 years respectively, were arrested Saturday night by Sgt. Fred O'Neill, charged with stealing from the office of the Colwell Fuel Company between the days of October 8th and 9th.

SUCCESSFUL SALE.
Several young girls held a sale at the residence of John J. Patterson, King Street East yesterday in aid of the Protestant Orphan Asylum. Miss Margaret Patterson was convener, and quite a good sum was realized.

CONTRACT AWARDED.
At a meeting of the committee on building, Saturday morning, J. A. Lively presiding, those in charge of the renovating of the Martello Hotel for the Protestant Orphans' Home awarded the contract for the work to Isaac Mercer, Carmarthen street.

LADIES' ASSOCIATION MEETING.
A meeting of the Ladies' Association of the Church of England Institute was held on Friday afternoon in the Institute. It was decided to elect two delegates to attend the meeting to be held in the Regency of the Hotel for Overseas Women and to hold a sale and tea in November.

HOSPITAL TENDERS.

FAIR VALE LOT SOLD.
The lot owned at Fair Vale by the Fair Vale Outing Association was on Saturday sold by public auction to L. A. Conlon for \$400. The money is to be divided equally between the Protestant and Catholic Orphans' homes. E. L. Potts, who conducted the sale, gave his services.

VISITING CLERGYMAN.
St. Luke's Church held its Harvest Festival on Sunday. The preacher at both services was Rev. J. H. Barnes, rector of Christ Church, Campbellton, N. B., and large congregations were present. Special Thanksgiving music was rendered by the choir, and the church was decorated with fruits and signs of harvest.

LUMBER ARRIVALS.
Alfred Debell & Co. report that the arrivals of N. B. and N. S. spruce deals in Liverpool and Manchester during September amounted to 14,000 standards, and that the stocks held on the first of October were 22,000 standards. Consumption during the month was disappointing, due largely to transportation difficulties.

BLANKETS FOR SUPPERS.
The appeal made through the Municipal Chapter, I. O. O. F., for warm bedding for the Oranoto fire sufferers was presented to the Red Cross headquarters, Toronto, through Lady Elliot, who received authority to send three hundred blankets. These will be at once placed at the disposal of the I. O. O. F.

The committee in charge was Miss Pauline Baird, convener; Misses Valie Senfall, Isabel Millidge, A. Sherwood, B. Frink, C. Dodge, W. Upham, E. McNeil, and Miss Berlin.

Tablet Unveiled At Mission Church

Harvest Festival Held on Sunday and Memorial Placed on Wall for Men of Congregation Who Gave Lives in War.

Sunday was observed at the Mission Church St. John the Baptist as Harvest Thanksgiving, when the church was beautifully decorated with wheat, fruit and flowers. At 7 p. m. a Harvest Evensong was held, when the sermon was by Rev. Percy Coulthart, late Army Chaplain, who took for his text fourth chapter of the Gospel of St. John, 37th verse. Previous to this the solemn ceremony of unveiling the tablet to the memory of the members of the congregation killed in the war was proceeded with. The clergy, choir, crucifer and thurifer marched to the centre of the south wall, when Rev. J. V. Young, wearing white cope, formally drew aside the Union Jack and unveiled the memorial, naming those who had given their lives in the service of their country, and blessed and dedicated the tablet, praying for those who had thus been taken. After the memorial had been unveiled by the thurifer, the procession returned to the altar, where the choir sang the hymn "The Sains of God," and the remainder of the service was concluded.

The memorial is of solid polished brass, oblong in shape, but on the top in the centre a gothic panel in which is a raised Latin cross with Gothic ends, and on either side the words "Jesu, Mercy." Underneath is the inscription: "To the Glory of God and in Honored Memory of Band Master G. H. Williams (W. O.), Sergeant Alex. W. Whitehead, Corporal D. William Hamsey, Private Foster Brown, Private Robert G. Gabriel, Private Frank L. Gaudet, John H. Leppard, Private Howard Logan, Private Douglas T. Mowery, Private Frederick Wolfe, Canadian Expeditionary Force, Members of This Church, who laid down their lives in The Great War, 1914-1919. Grant them, O Lord, Eternal Rest, and may Light Perpetual Shine upon them!"

The lettering is in black and red, while the four corners of the tablet are brass circles of red, in which in raised work are in the first the raised monogram I. H. S., in the second the Chi-ro, or P. X., the third has a Union Jack, and the fourth a maple leaf, with crown and Canada thistle, the border of the brass being a laurel wreath. The whole is mounted on a solid dark oak shield and is placed on the south wall of the church. The memorial is one of the most handsome in the city, the work of G. Herbert Green.

The sermon was preached by Rev. Percy Coulthart, who took for his text the 4th chapter of St. John's Gospel, part of the 37th verse, "One soul, and another reapeth." The preacher pointed out that harvest time is full of great spiritual lessons showing to God's people His greatness, wisdom and power, the beauty of His works and the unchangeableness of His promises. It reminded us of the great moral harvest which followed the human sowing whether of individuals or nations, and brought to the mind a realization of the final harvest at the end of the world.

The chief lesson to be emphasized from the text was that God makes use of a constant succession of workers. People point out the defects of the age, but the Christian sees God's purpose in everything. Pieces may crumble off the wall, but the structure remains unchanged. The work seen on through the worker may not see the fruition of his work.

This led Mr. Coulthart to speak of the quiet unselfishness of workers. He said that all thoughts dwell on the seed of liberty, purity and freedom sown by the men who had fought these principles might be embodied in national life. It is a great incentive to all those who shall come after to hand on this message to the next generation, and all should thank God for opportunities of sowing. It might seem little each one can do, but seeds are always small, and each one must be content to do his best. It is for each one to trust and let God bless the efforts. Let us not be weary in well doing.

The service was read by Rev. R. H. Bennett, who assisted Rev. J. L. Young. The special music included many harvest hymns.

BOY SCOUTS HIKE TO DALTON'S MOUNTAIN

Two Troops from Rothesay Had Strenuous Time Yesterday — Stalking Contest and Long Distance Signaling Indulged in.

Two troops of Boy Scouts from Rothesay went on a hike to Dalton's Mountain yesterday and had a strenuous time. They left Rothesay at 9 in the morning, and returned home about 7 in the evening. They carried a cooking outfit with them, and made their meals by the wayside. During the hike there was a stalking contest between the troops, and the Beaver troop won from their rivals. Another feature of the day's work was an exercise in long distance signaling in which the boys showed considerable proficiency. The boys were accompanied by Scoutmaster Wetmore, Assistant Scoutmaster Smith, and Herbert Morton, vice-president of the Local Association.

78th Anniversary Was Celebrated

Large Congregation at Carleton Methodist Church Sunday—History Told by the Pastor, Rev. J. Heaney.

Sunday was the 78th anniversary of the dedication of the Carleton Methodist Church, and its centenary Thanksgiving Sunday and Forward Movement Day, a large congregation was present to hear the address by the pastor, Rev. J. Heaney, who took for his moral subject, "Significance and Helpfulness of the Sanctuary," and in the evening preached on "Theology of the Lord's Prayer." The choir, under the leadership of J. L. Robertson, furnished special music for both services.

At the services the minister gave the following history of the church: In 1841 Carleton and Long Beach first appeared in the minutes of a circuit of the church, which was held at Carleton. At the close of 1841 the Carleton Methodist church was completed and dedicated. For thirty years before that time the church was held at Carleton. Distinguished Party Arrive Here Today

Foremost Magazine Writers and Sporting Authorities Are En Route to Nova Scotia on Hunting Trip.

Today at noon there will arrive in the city on the Montreal train a party composed of some of the foremost magazine writers and sporting authorities in the United States, among the members being: Irvin S. Cobb and Harry Leon Wilson, of the "Morning World"; Frank Stevens, N. Y. National League Baseball Club; Major Benjamin Bulger, New York Saturday Evening World; Damon Runyon, syndicate writer and Sporting Editor N. Y. Morning World; Harry Leon Wilson, of the "Morning World"; Frank Stevens, N. Y. National League Baseball Club; Major Benjamin Bulger, New York Saturday Evening World; Damon Runyon, syndicate writer and Sporting Editor N. Y. Morning World.

This afternoon the party will be given a motor trip through the city and environs, under the direction of A. O. Seymour, general tourist agent of the C. P. R., and other officials of that corporation.

These gentlemen form one of the most distinguished parties that has visited the lower provinces for many years. Irvin S. Cobb is known everywhere in the English language as spoken; starting as a newspaper reporter in Paducah, Ky., he has amassed a fortune as a feature writer, magazine contributor and lecturer. Harry Leon Wilson is known wherever the Saturday Evening Post is sold, his writings being for many years a star contribution to that journal. Major Benjamin Bulger secured his rank with the American expeditionary force and outside his military career is a writer of the first rank. Damon Runyon is one of the leading sport writers of the land to the south, rapidly filling the void left vacant by the death of Charles Louis. The other members are equally famous in their line. Although no information has been vouchsafed in this respect, it is hoped that an effort will be made to have these distinguished visitors address a meeting of the Canadian Club or some other representative body.

Tomorrow, morning the party will leave at 1 o'clock on the S. S. Empress for Digby, and from there will go into the woods around Kedgema rookery, where they will spend about two weeks seeking the famous New Brunswick big game.

No Session of the Court of Commerce

W. F. O'Connor Who Was Scheduled to Open Court Here Today Has Been Called to Ottawa—No Future Date is Named.

W. F. O'Connor will not be in St. John today to hold a session of the Court of Commerce as planned. Yesterday, Mayor Hayes received a telegram from Mr. O'Connor stating that he had been called to Ottawa to attend a session of the whole board, and that he was at present unable to name a date when he would be free to come to St. John. A notice was published in the Saturday papers, informing all and sundry that the Court of Commerce would be here today to receive complaints about the cost of living, and an interesting session was anticipated.

Round Trip Daily To P. E. Island

A. P. Barnhill Receives Telegram Stating That Double Summer Service Has Been Eliminated Effective Oct. 5

The following telegram has been received by A. P. Barnhill from L. F. Brown, General Superintendent at Moncton: "Answering your wire. At a meeting of the management held in Toronto a few weeks ago it was decided to eliminate double summer service to the island, effective October 5, that is one round trip daily instead of two. The present time table permits citizens of St. John leaving that city at 7.10 a. m. making through connection to the island, arriving at Charlottetown at 6.30 p. m. and leave Charlottetown daily (except Sunday) at 6.35 a. m., connecting with Ocean Limited at Seckville, arriving at St. John at 1.30 p. m. Previous to October 5, train leaving St. John at 12.30 p. m. ran through to Cape Tormentine, making through connection to the island arriving Charlottetown at 11.30 p. m. but this service has been discontinued between Moncton and P. E. Island, also the evening connection from the island with the Maritime Express was discontinued October 5. The service now in effect is similar to that maintained all last winter, and was considered ample to take care of the requirements. Of course you will understand that the operating of the boat between Tormentine and Borden at night and during stormy weather is considered hazardous." Mr. Barnhill stated last evening that he leaves today for Toronto, and if the service is not thought ample he would be glad to take the matter up on his arrival in Toronto.

Orangemen Held Church Parade

Largely Attended Service in St. Luke's Church Sunday Afternoon—Sermon Preached by Rev. R. P. McKim.

A largely attended service was held Sunday afternoon in St. Luke's Church, when the members of the Orange Order held their church parade. The lessons were read by the Rev. W. C. Robinson and the sermon preached by the Rev. R. P. McKim, rector of the church. The text was taken from St. Mark 10:14 and the sermon opened with a greeting to the members of the Orange Order and a welcome to St. Luke's church. Mr. McKim spoke of the value of the child and congratulated the members of the Orange Order because of their recognition of the needs of children. He told of the many difficulties which the child has to battle against—neglect and lack of proper housing—and the case of the child who feels it is unwelcome.

There is some provision made for orphans but the scope is restricted because of conditions placed upon the institutions, several only taking boarder orphans and being obliged to receive many children needing shelter. He was glad that a home was established on Wright street which would have its doors always open to all children who required care and assistance. Parents in difficulties might have their little ones taken care of and get them home again when things got brighter.

The preacher illustrated the love of the Saviour for the little ones and said that caring for these children was the Master's work. He hoped the Church would support the new home in every way. The special music was given by the choir and J. Willard Smith sang a solo.
