An Explanation.

In last week's issue of the Advocate there appeared under the head of Editorials Notes an article which dealt with the candidates in the election for Aldermen in a very severe manner, making statements in reference to one of our most successful business men and expressing views which were altogether foreign to the Advocate and we thus deemed an explanation necessary.

When the first ticket was nominated at the public meetings and before the election ticket made its appearance the Advocate was in favor of having no election; of giving the nominated ticket their positions by acclamation and editorially stated it was the duty of all to stand by such nominees, but when the other ticket came in the field and we were asked what we were going to do, which party we were going to support, we said neither, that we would remain neutral, but would allow both sides to use our columns to discuss the points at issue.

Last Monday several communications were handed in and some were accepted and one rejected. The accepted one appeared under the head of Correspondence. On Monday afternoon one of the candidates asked us to reserve space for an article which we promised to do and asking him to hand in his copy early next morning. Unfortunately the next morning the editor was indisposed and did not see the gentleman or the article but it was handed to the foreman, the gentleman stating that it was an editorial and as such the foreman gave it to the compositor and as such it appeared, although the editor knew nothing of it.

Tuesday evening after the paper was out a friend called our attention to the article and we immediately set out to find out how the error was made and learned the above facts. We also learned that the gentleman who handed in the manuscript was not the writer of it neither did he know who wrote it. We called on the second party but he refused to tell us at the time who wrote it but promised to let us know later. We then hunted up the manuscript and easily recognized the writing of one of Newcastle's legal gentlemen, one who is forever getting people into trouble. At first we could hardly believe that men who had the welfare of the town at heart would employ such a man to do their dirty work. A man who is all the time in the same position. Had we known who was to be the writer to occupy the space we reserved we would have immediately said, no, we have no room for articles from such a source.

We apologize to the gentleman who wrote the article and to the gentleman who handed in the manuscript. We also learned that the gentleman who handed in the manuscript was not the writer of it neither did he know who wrote it. Editorial Notes.
It is, we think, a good thing for Newcastle that so much publicity has been taken by the ratemakers in the selection of its Town Council, and we hope that it will be ever thus. Honors that have to be fought for, are esteemed more highly than those that are easily won, and the ratemakers will extend more carefully to their duties than if they had won without a struggle. All the good men in the field could not be elected, as there were twice as many candidates as places to be filled, but some of the defeated ones will be anxiously called upon to sit in the Council.

World.

Our Ottawa Letter.

OTTAWA, August 28.

Last week's letter dealt with the large and rapid increase of public expenditure since the change of government in 1896. The statement referred only to Ontario on current account. In addition large payments have been made on capital account. This charge has increased as rapidly as the current expenditure. The following table gives the expenditures on capital account during the term of the parliament elected in 1891:

1892 \$2,163,700
1893 3,079,407
1894 3,864,119
1895 3,031,321
1896 3,751,854

The amount charged to capital account since 1896 has been increased to \$3,700,000 by adding in an old account between the dominion and the provinces, which was settled in that year. Even then the average capital expenditure was only \$3,500,000 for the five years.

Now See This Figure.

Let us compare these capital expenditures with those of the parliament elected in 1896, and of the government which came into power in the legislative session of 1897. We find the following payments:

1896-1897 \$5,460,000
1897-1898 5,571,631
1898-1899 8,819,168

The figures for the last year will be somewhat increased at the close of the year ending in June are not yet closed. The amount will probably be slightly above nine millions.

How the Debt Grows.

These large payments on capital account explain how it is that while the province is constantly borrowing money. The net debt of the dominion when the change of government took place was \$238,497,433. At the end of June, 1899, it had increased to \$254,283,337, an increase of nearly six millions, notwithstanding the surplus.

The increase of debt in the current year will, according to the estimates, be as large as that of the previous three years taken together.

Figures are dry, but while we are dealing with them it is worth while to go a little farther and give a few more particulars.

The customs taxation in 1898, the last year of the liberal conservative government was \$20,219,000. Last year it had risen to \$25,138,000.

The total taxation for customs and excise was in 1898, \$27,760,000. Last year it was \$34,595,000.

The taxation per head in 1896 was \$5.42. Last year it was \$6.50.

The expenditure per head increased in three years from \$8.10 to \$9.80.

ANOTHER GOOD MAX PROVIDED FOR.
The appointment of Dr. Rinfret, M. P. for Lethbridge, in the province of Quebec, to the position of inspector of customs makes a fourth vacancy in the house of commons. The appointment of Dr. Rinfret, M. P. for Lethbridge, in the province of Quebec, to the position of inspector of customs makes a fourth vacancy in the house of commons.

At the time of writing several more vacancies are expected every day, but the list of appointments from this giving and taking of offices makes it difficult to find out just how much longer than can be found in any previous three years of Canadian history. It includes the following:

Joseph Lavigne, M. P. for Drummond and Arthabaska, Quebec, law partner of the present, appointed judge; salary, \$5,000 and allowances.
M. C. Cameron, M. P. for West Huron, Ontario, appointed lieutenant governor of the Northwest; salary \$7,000.
J. F. Lester, M. P. for West Laminion, Ontario, appointed judge; salary, \$5,000 and allowances.

Dr. Rinfret, M. P. for Lethbridge, appointed inspector; salary \$2,000.
P. A. Choquette, M. P. for Montmagny, Quebec, appointed judge; salary, \$4,000 and allowances.

John Yeo, M. P. for East Prince, P. E. I. appointed to the senate; indemnity, \$1,000.
Hon. F. Langelier, M. P. for Quebec Centre, appointed judge; salary \$5,000 and allowances.

The following is the official count:

Edward Sinclair 322
J. A. Rundle 295
Charles E. Fish 291
John Morrissey 285
J. R. Lawlor 281
John Ferguson 252
J. D. Creighton 249
Donald Morrison 239
E. L. Street 234
R. H. Phinney 224
Richard H. Grenley 224
James Sloaner 212

F. Richard, M. P. for St. John and Herville, Quebec, appointed to the senate; indemnity, \$1,000.

F. G. Forbes, M. P. for Quebec and St. Lawrence, appointed judge; salary, \$5,000 and living expenses.
G. G. King, M. P. for Sanbury and Queens, N. B., appointed to the senate; indemnity, \$1,000.

J. B. Flett, M. P. for Rimouski, appointed to the senate; indemnity, \$1,000.

It is generally understood that a number of Quebec members and several from other provinces have the promise of appointment in their pocket. The old feature of the case is that Mr. Mulock no longer appears to be worried over the dependence of parliament, but is hitherto losing his part take away with the dependence there is left in the house of commons.

It is announced in the despatches to the government press that Sir Wilfrid Laurier is anxious that Mr. Ernest Paquet should be elected for the seat of St. John of Lotbiniere. This piece of news recalls the fact that in 1891 the railway committee of the senate. This transacted on involving the payment by the province of \$100,000 to settle a claim of Mr. C. N. Armstrong, the late premier of the province, and was refused to recognize. But though the province paid this sum, Mr. Armstrong got only \$75,000. The \$25,000 went to Mr. Paquet, who acted as bargainer between the contractor and the province. The following extracts from the report of the senate committee are interesting in connection with the latest announcement about the premier's anxiety to have Mr. Paquet in parliament.

Among the ballots deposited were three which the Sheriff declared could not be counted. One had the eight names of the Sinclair ticket, "Aldermen for the Town of Newcastle" printed on the margin. Another had one name scratched out and a cross at one side. Another had check marks opposite each name not marked out. All were "Sinclair" tickets.

Early in the evening the Orange band assembled at their room and marched to the residence of Hon. Allan Ritchie and played a number of selections. They then returned and marched around town to the Waverley and then played at intervals until late in the evening. The crowd assembled began to get for the successful candidates, and amid cheers Alderman Edward Sinclair was led to a table on the balcony which he mounted and proceeded to address the assembled people.

He thanked the electors for the splendid support which they had given him, and said that he hoped they would do the same next April if they decided to elect him. He said that he was proud to be elected, and that he would do his best to serve the town.

Death of Senator Temple.
 Senator Thomas Temple, of Fredericton, died at Moncton, N. S., Friday evening, from heart disease, from which he had been suffering for some time. Mr. Temple was the son of Mr. Charles Temple, of Moncton, who was born in England, and was born Nov. 4, 1818, and was therefore nearly 81 years of age. When a mere lad he came to New Brunswick with his father and settled in York county. In early manhood he went into the woods with his axe and later became an employer of labor. For some years he was a partner with the late Mr. John Pickett in the lumber business. Both prospered, and both represented York county in parliament. As a lumberman, Mr. Temple did much for Fredericton. It was to his energy that the early construction of the Fredericton railway was accomplished. Later in life he was the chief spirit in establishing railway connection between Fredericton and the North Shore and the river counties, and built at the capital the magnificent railway bridge. For nineteen years he was sheriff of York county and was a very capable officer. On Jan. 29th, 1894, as the Conservative standard bearer, he was elected M. P. for York, and held the constituency until 1896, when he was appointed to the Senate. Mr. Temple married in 1840 Susanna, daughter of Solomon Howe, of Maine, who died in 1894, and in 1897 he married Alice Mary daughter of the Rev. J. Churchill of Windsor, N. S. His daughters, Mrs. Groves and Mrs. F. S. Hilyard, wife of Postmaster Hilyard, of Fredericton, were with him when he died. Another daughter is the wife of Captain Forester of the Cavalry school, Toronto. Mr. Temple was a self-made man, and was a very active citizen, who took a deep interest in the welfare of Fredericton. Only a few days ago a beautiful drinking fountain donated by him to the city was unveiled. He had a wide acquaintance all over this province and through the Dominion, and the news of his death will everywhere be heard with regret.

Excursion to Moncton Sports.
 The L. C. R. is offering very low rates from points on the north shore to Moncton for the sports to take place on Monday and Tuesday next. The rate from Newcastle and Chatham is \$2.00 for the round trip, tickets issued on 1st and 2nd, good to return on 5th. Parties going to Moncton on accommodation will be in plenty of time for the sports on either day. From Campbellton the rate is \$4.00. A large number of north shore people are likely to take advantage of this low rate to visit the railway town and witness two of the greatest sporting events to be seen in the Maritime Provinces. The maritime sports meet on Monday. His Honor Lieutenant Governor McLean is expected to be in attendance to present the medals and prizes.
Boston News.
 Maurice Aiken, of Newcastle, but lately of the Merchants Bank of Halifax is spending his vacation with friends in Boston. He is the guest of Mrs. Neale. Mr. H. G. Neale of Fredericton is also visiting Mrs. Neale.
 Frank Dalton is working in Morgan's drug store in Montreal, one of Boston's suburbs.
 Lark Buckley of New York, one of Newcastle's popular boys, is spending his vacation with friends here.
 Also, Bell is talking of taking a vacation and visit his old home. He intends to visit New York and go home via Montreal, and spend a few days at the "Lake of the Thousand Islands."
 Jim Corbett is still working in Park Square.
 Sunday, Aug. 29th was the hottest day in Boston this season. It was a scorcher. W. Adams is working in the office of the Boston & Stover Road, and those many farmers, but will attend school after Sept. 2nd.

New Building.
 The new building being erected on Pleasant Street for Miss Quigley, is almost completed. The structure is a three storey one and is a credit not only to the street, but to the whole town.
 The first storey contains two large stores. One is occupied by Mr. E. Lee Street, druggist and Mr. William F. Copp will shortly occupy the other as a clothing establishment. The second and third storeys have been rented by Dr. Sprout, to be used as a residence and office.
 Mr. Street's store is well up to date in its fixtures and is heated by a furnace and lighted by gas. His large plate glass window and handsome show cases afford him the opportunity to display his fine line of toilet articles etc. Mr. Street formerly occupied the McAllister building on Pleasant street.
Congratulations.
 The Advocate extends congratulations to Mr. and Mrs. E. A. McCurdy, on the arrival of a daughter.
Commenced for Trial.
 BATHURST, Aug. 24.—A young man named Henry Fournier was up before Justice O'Brien on Tuesday for his preliminary examination under a charge of obtaining money under false pretences. The prosecution contended that Fournier represented himself as one Henry Glazier, who was working for Adams, Burns & Co., and drew \$7.80 wages due Glazier. When later in the day Glazier called for his pay it was refused him on the ground that he had been paid. The fraud was then discovered. Fournier has been committed to stand trial at the next sitting of the Supreme Court, and is now in jail.

WEAK AND NERVOUS.
 THE CONDITION OF A YOUNG LADY OF WELLAND.
 Subject to Frequent Headaches, was Pale and Emaciated and Grew so Ill She Could Barely Walk.
 From the Tribune, Welland, Ont.
 Miss Hattie Archer, of Welland, an estimable young lady, whose system was entirely exhausted by a large number of citizens of the town, has the following to say regarding the virtues of Dr. Williams' Pink Pills for Pale People:—In the fall of 1897 I was taken very ill. I was nervous, weak and debilitated. At this time the least exertion caused great fatigue. My appetite was poor and I was attacked with frequent sick headaches. I gradually grew worse until I was so weak I could barely walk through the house, and was entirely incapacitated. Various medicines were resorted to but gave no relief. Later I was treated by two of the best physicians of the town. One said my blood was poor and watery. I followed his advice for some time but did not improve. Then the second doctor was called and he said he could help me, but after thoroughly testing his medicines without benefit, I gave it up and despaired of ever getting well. My grandfather had been reading at that time much about Dr. Williams' Pink Pills and persuaded me to try them. That was about January, 1899. The first results were really marvellous, being far beyond my friends' expectations. After taking five boxes I could stand more fatigue than I could for two years. I have gained weight splendidly; can take my food with a delightful relish, and again feel cheerful, healthy and strong. I would further say that the change is wholly due to Dr. Williams' Pink Pills. I hope that my testimony will prove beneficial to other girls similarly afflicted.
 The experience of years has proved that there is absolutely due to a vitiated condition of the blood or shattered nerve, that Dr. Williams' Pink Pills will not promptly cure, and those who are suffering from such troubles would avoid much misery and save money by promptly resorting to this treatment. Get the genuine Pink Pills every time and do not be persuaded to take an imitation or some other remedy from a dealer, who for the sake of extra profit to himself, may be just as good.
 Dr. Williams' Pink Pills cure when other medicines fail.

 for the carrying on of trade. When the writer visited the place a few days ago he was greatly surprised to find the company had still further enlarged their works by the construction of a large planing mill. This mill, of course, is fitted with a number of planes for boards, clapboards, etc. The company has also built a dry house, as well as a storehouse, where the clapboards are kept in prime condition for shipment to the Bangor, Boston and New York markets. Notwithstanding their extensive trade in the above enterprises, the company has a close eye on another industry, which, no doubt, will pay well. Of course, it is well understood that a large proportion of the lumber sent from New Brunswick to the old country is converted into boxes or packing cases, hence the management of the above company cannot see any good reason why their company cannot supply boxes for the home market as well as complete with the box-makers on the other side of the Atlantic. The raw material has to be worked up anyhow in certain dimensions of deals, scantling, etc., and with a little more labor box-makers can also be produced. With this end in view, the company intends this fall to build an up-to-date box mill and factory, where boxes of all dimensions will be manufactured for the Canadian as well as the English market. So far as the writer could judge, the company has now on hand some fifteen million feet of sawn lumber, which they are reserving for manufacturing purposes. The most of this is pine.
 One can hardly comprehend the extent of the business of the company without visiting the premises. The yard room for the piling of lumber is said to be the largest in the Maritime Provinces, and this does not seem to be a boast when one looks upon the 3,700 feet of elevated platform for distributing lumber to the different piles. This platform is what may be termed an "L" railroad, for the rails are laid on either side, so that the lumber can be loaded on cars from hand wagons in very quick time. The wagons are used for distributing the various kinds of lumber, and the road is so wide that two cars can be run side by side, while there is plenty of room in the centre. The piling business is down to regular science. Cedar sills, about eight

 Notice, have just been laid for the piling of from eight to ten million feet more lumber. They are massive structures, and are so arranged that the different kinds of material can be easily handled. The manager of the company, Mr. H. B. Foster, is a regular go-ahead business man, and he seems determined to have all equipments in such a position that the lumber can be handled, manufactured and shipped with speed as well as at a small cost.—Globe.

Mixed Paint

that contains the right ingredients, the right amount of each, mixed right, is better paint than any man can stir up with a stick out of the raw materials. When a man buys some white lead and some oil and mixes some paint and "guesses it will do," he is as much behind the times as a woman who should grind her own grain into flour. **THE SHERWIN-WILLIAMS PAINTS** contain white lead—just enough—become white lead zinc—and too much—become good paint requires zinc. They are the best paints made to-day, because the best materials, best machinery and most skillful workmen are employed in making them.

A MAD SCENE

AT THE END OF WHICH A LUNATIC
IS ENGAGED TO PLAY A PART
IN A DRAMA.

It was past midnight, and Edward
Hurcombe, the famous actor
manager, sat brooding over the fire.
The study lamp was turned low,
for he found a dull light invariably
assisted his meditations, and he
was particularly anxious to arrive
at some definite decision upon a
perplexing question that faced him
that evening. The sudden illness
of both an indispensable member
of his company and the understudy
had left him in a serious dilemma,
for who could replace the absent
player? It was a part that re-

quired special and peculiar abili-
ties, and he had already mentally
picked off the names of a dozen or
so men as being quite unadapted
for the vacant role, when he heard
the sound of some one rushing up
the stairs, for his family had long
since retired to rest.

'Quick! Hide me. They're
coming!' A man had swung open
the door, closed it after him, and
burst into the room panting and
out of breath, his hair disheveled,
and a bright gleam in his eyes.

'What's the matter?' queried
Hurcombe, hurriedly. 'How did
you get here?'
The visitor hesitated, and
looked at him queerly.

'The door was open, they were
after me, and I ran in. They say
I'm mad, but I'm not. Not at all.
—yet!—And he burst into a
scream of laughter which would
have been all over the house had
Hurcombe had it made so pur-
posely as he now remembered to
his consternation.

'Any fool could tell that,' replied
the actor, coolly, with the air of
one receiving an expected visitor.
But there's no occasion to hide.
You're as safe here as anywhere.'

Again the man looked at him
queerly, detecting nothing wrong
with the actor's double entendre
in his words.

'Sir, I believe you. But you
don't know what I've been through.
Mad! They would wish me mad!
They've yearned for it, but I'm
not mad! Tell me, I'm not mad!
He had drawn closer to Hur-
combe, who took advantage of the
change of position to edge nearer
the electric bell, which, if he could
but reach, would arouse the house-
hold.

'My dear sir, I've already told
you're laboring under a delu-
sion in supposing anything's wrong
with your mental balance. Sit
down a moment and I'll get you
some refreshment. You're tired
doubtless.' And he went to open
the door, but it was locked.

Hurcombe glanced back at the
man. His only reply was a con-
fident smile which overspread his
countenance.

'I see you've taken the trouble
to fasten the door,' said the man-
ner. 'That's as well—our conversa-
tion will be more private.' And
inwardly trembling, he lit a cigar
and sat down.

'You've something to tell me,
or you wouldn't have come here.
He knew all madmen had stories
to relate, and that it humored them
to listen. It was also a method of
gaining time.

'Yes! Do you know what it is to
love—to hate?'
The actor smiled. He did—on
the subject. He started and shivered
at the collision of the words. The
collision seemed to him, and he
groped around the covered carriage
like a blind man feeling in the dark
and then lighted upon the closed
door. We were in the very center
of the lonely heath, miles from any
habitation. Could it mean high-
way robbery?

'Tremblingly touched the handle
of the carriage door. 'Who's
that?' cried a man's voice above the
noise of the wheels. 'A—A—A—
Murder! Murder!' he shrieked.
There was no answer.
'Murder! Murder!' he shrieked a-
gain, but still there was no re-
sponse, and the eyes of his darling
remained fixedly into vacancy.

With a passion that nearly ro-
se inside him, he cried out to the
man, seeming half dazed, had the
while been gazing at her tenderly,
clapping her cold, lifeless hand.
'You've killed her! You've
killed her!'

'He turned into fury at that.
'I've not!' he cried. 'I swear I
not! The lightning struck her an
hour ago!'

'It's a lie!' he screamed, and his
voice seemed to pierce beyond the
din of the elements. And, gripping
him by the throat, he dragged him
from the carriage and strangled
him till he was dead.

And that is all. I've recently
covered Muriel up and fled, but
since then the villain's relatives
have been on my track. They say
I killed him—that I'm mad.

The last train had left a couple of

40 miles, but I should not be long
after them.'

Edward Hurcombe, absorbed in
the man's narrative, listened in-
tently, almost forgetfully, of the
whole thing was the invention of a
madman. How graphically he
described the scene! Why couldn't
lunatics be actors? he thought.

'That ride I shall never forget,'
continued the other. 'On I flew,
urging my horse forward. A devil
seemed behind me, and I cried,
'On, on to the betrayer! On!' I

DEMERS' GROCERY STORE.

Newcastle, June 13th, 1899.

'As my friend was preparing
to take his picture one of the
helpers caught sight of the bottle
and communicated his discovery
by dumb show to his companion.
The snail's back was turned at
the moment, and the first man
reached stealthily for the prize,
while my friend, unnoticed in the
corner, quickly aimed his camera.
It was a comical scene, and in his
mind he had already named the
photo 'The Stolen Drink.'

'The helper uncorked the flask
and took a swift gulp, and his
comrade snatched it and did like-
wise. Then for a brief, breathless
instant they looked at each other,
and as they did so their foolish
grin gave way to such a stare of
questioning horror as I never saw
before upon a human face.

'I know because it was then that
the camera clicked, and the pic-
ture is as clear
