CENTRAL GARAGE "FORD"

Your Profits?

IT'S ASTOUNDING how some folks'll let a habit run away with their profits. Take right now, for instance, when produce is cheap and every nickel counts, you keep on hauling in the most expensive way. You've got into the habit of doing it with horses, when a Ford One-Ton Truck would do it at half the cost, or less.

Maybe you feel that you can't afford to pay spot cash for a Ford Truck. You don't have to when you do business with us. You'll be in town on Saturday. Come in and let us talk it over.

DISTRICT AND GENERAL

John B. McDonald, Black's Lane, Aldborough, died suddenly at his home on Friday.

Hydro power for the farm is a live question in Dunwich township, and many of the farmers are signing up for a service.

The late Lady Laurier bequeathed her home in Ottawa to Hon. W. L. Mackenzie King, to be used by him as his official residence.

Thousands of gallons of ice cream are shipped every month from Vancouver to China, being forwarded in specially constructed containers holding about 500 gallons.

The Island of Manhattan is thirteen and one-half miles long and has an average breadth of one and three-fifths miles. In this small portion of the earth live 2,284,103 people.

The London-Lambeth highway was officially opened last Wednesday by Hon. F. C. Biggs, minister of highways, who was tendered a banquet by the Middlesex county council.

Hydro power lines are being extended into the rural portions of North Dorchester and the indications are that a majority of the farmers in the township will install the power.

Burglars broke into the stores of J. T. Lemon & Son, A. Brocker and McKillop & Ferguson, West Lorne, taking from each a quantity of goods. Entrance in each case was made by prying open the front doors.

Increased immigration into Western Canada from the agricultural population of the Middle West and Northwest States is expected to be marked in the next year, or two, and perhaps for a longer period.

The following remarkable statement is credited to the president of the Boston Chamber of Commerce: "You may be astonished to hear me, a Jew, say this, that in my opinion we stand before two alternatives—either anarchy or Jesus Christ."

Seven young men of Highgate found a Halloween trick very expensive. They appeared in the police court in that place and were found guilty of creating mischief and allowed out on suspended sentence after paying the costs of the court, amounting to \$14 each.

A reward of \$4,000 is now being offered for information that will lead to the arrest of the Murrell brothers, who escaped from the Middlesex county jail on Sept. 2. The sum of \$2,000 is offered by the Middlesex authorities and \$2,000 by the provincial government. It is now thought that the Murrells are in Florida.

A distinguished teacher of English requires his pupils first to write a three-thousand-word essay and then to compress it into five hundred words of good literary style. To the pupils the astonishing thing is that it takes a longer time and more thought to write the abridgement than to write the original. The number of words or pages in a manuscript tells nothing of the time and effort that went into writing it.

The department of highways has ordered the removal of advertising signs erected on certain of the provincial highways. This will particularly affect a chain of clothing stores with headquarters in London, who have erected signs valued at \$145 at frequent intervals. The department will control all signs between the fence and those situated a quarter of a mile back from them. In order to maintain the natural appearance of trees, nailing of advertisements on them will be forbidden.

The death occurred at his home in Dutton of James Balkwill at the advanced age of 86 years and 5 months. Mr. Balkwill was born in Exeter, where he resided until he made his home in Dutton 35 years ago, where he was well known. His wife predeceased him nine years ago. Mr. Balkwill is the last member of his family. He is survived by a family of two daughters and four sons—Mrs. E. Brown and Mrs. S. R. Matceer, Dutton; James R. Balkwill, St. Thomas; W. Balkwill, Canton, Ohio; Thomas Balkwill, Detroit, and Joseph Balkwill, Rochester, N.Y.

It always strikes one as curious that other fellows cannot take a reasonable view when discussing politics. Don't blame anybody but yourself if your nights are made miserable by indignation. You failed to take Tanlac.—P. E. Lumley.

There may be other corn removers, but you will not be completely satisfied until you have used Holloway's Corn Remover.

GLENCOE COUNCIL

The regular meeting of the Glencoe council was held in the council chamber on Monday, Nov. 14th, with all the members present. The minutes of the last meeting were read and adopted.

On motion of Messrs. McCracken and Lumley the following accounts were ordered paid:—R. M. McPherson, overcharged income tax, \$14; Suttler & McAlpine, refund half business tax, \$6.31; G. Watson, hauling gilling for walks, \$6; C. Mahwinney, wrongly charged cement walk, \$1.84; J. M. Anderson, part payment on furnace, \$200; W. McRae, wood, \$13.75; work on street, \$16.45; A. McPherson, selecting jurors, \$2; J. B. Henry, salary for October, \$100; selecting jurors, \$2; overtime on Main St. pavement, \$21; Geo. Blacklock, kalsomining town hall, \$20.10; E. T. Hueston, 12 nights' sale of tax tickets, \$12; W. R. McEachern, taxes on dumping ground, \$22; Archie Graham, gravel and filling, \$147.85; Robert Gordon, \$8; Wm. Brown, \$8; John Sullivan, \$3.60; Wm. Mulhead, \$28; John Benson, \$8; Ernest Hicks, \$14—work on walks; James Poole, insurance premium on piano, \$3.50; McPherson & Clarke, coal, \$4.96; tile, \$2.32; lumber, \$34.85; Russell Eddie, teaming for walks and streets, \$144.60; Bruce McAlpine, cement for walk, \$118.95; Orvil Quick, use of tank and hauling water, \$2.50; Russell Quick, half day on walk, \$2; C. S. Parker, tile for Currie drain, \$76.73; A. E. Sutherland, printing notice cards, by-law, \$12.36.

On motion of Messrs. Parrott and Davidson no action was taken in regard to communication from the provincial secretary regarding extending municipal franchise to all persons of 21 years and over.

Charles George, Clerk.

MAY SUE FOR DAMAGES

In connection with the Delaware automobile accident as a result of which William Ralph Lawrence and Mark E. Steyer lost their lives and A. M. Houston and Professor C. Laugher were injured, it is announced that preliminary notice as required under the provincial highways and municipal act, has been served by legal firms in Sarnia against the township of Delaware, the County of Middlesex and the department of public highways.

The notice has been served with a view to protecting the right of their clients to make claim against one or all the bodies concerned, and portends action to recover damages on the ground that the road on which the accident occurred was in a state of repair at the time of the accident.

SUIT OVER CATTLE SALE

Elliot & Moss, acting for John C. Graham of Mosa, have issued a writ in the county court against John Goodfellow and David Larkin, both of Hastings county, to recover from the first named defendant \$300, which he claims is the value of certain cattle purchased by him from Mr. Larkin and which cattle the plaintiff claims were wrongfully obtained by Mr. Goodfellow and converted to his own use. In the alternative the plaintiff's claim is to recover from Mr. Larkin the \$300 which he alleges he paid to the latter for the cattle.

GRIFFITH'S "BROKEN BLOSSOMS" TO BE SEEN AT GLENCOE THEATRE

Film That Has Been Sensational Success Wherever Shown Will Be Brought to Glencoe Nov. 21

Of extraordinary interest, not only to lovers of the motion picture, but to all who are interested in the highest in art in its various manifestations, is the announcement that David Wark Griffith's superb screen creation, "Broken Blossoms" is to be shown in Glencoe on Monday night, Nov. 21st.

Never has a motion picture been accorded a reception comparable to the triumph that has followed every showing of this production. Newspapers have devoted columns after columns to its beauties and wonders. Everywhere its success has been instantaneous and it is safe to say that in bringing "Broken Blossoms" to our town the management of the theatre has to its credit the biggest accomplishment in artistic entertainment that we have yet enjoyed.

Mr. Griffith, it will be remembered, together with Mary Pickford, Charlie Chaplin and Douglas Fairbanks, early in 1919 organized United Artists Corporation—popularly known as "The Big Four"—for the making and marketing of their own productions. It is through this organization that "Broken Blossoms" is being placed in the theatres of the country.

The story of "Broken Blossoms" Mr. Griffith adapted from a tale by Thomas Burke called "The Child and the Child," which is part of that author's famous volume "Limehouse Nights." Around this story, and we speak from the opinions of dramatic critics the country over, yet pitiful, beautiful, yet tragic love story ever filmed. It has become habit, almost, to look upon a Griffith production as something more than a motion picture, yet even the most ardent admirers of the art of this master of the films did not dream of the wonders that he would reveal in "Broken Blossoms."

Renew your daily paper subscriptions at the Transcript office.

DEATH OF MRS. COULTHARD

The many friends of David A. Coulthard, Strathburn, will regret to hear of the death of his wife, Mary Ella Coulthard, who passed away on Sunday morning after a brief illness, in her 61st year. The funeral took place on Tuesday at 2 o'clock, service being conducted by Rev. D. G. Paton, minister of Glencoe Presbyterian church, of which Mrs. Coulthard had been a member for many years. Besides her husband, Mrs. Coulthard is survived by four children—Sadie, Blanche, Jean and William.

When dinner is called the whole family volunteers, but when the dishes have to be washed mother has to do some consoling.

MEANS "BUSINESS"

James Poole is in receipt of a letter addressed to Glencoe real estate agent. The writer lives in Toledo, Ohio, and says:—

To who it may concern: I know not where your town is located in what part of Canada—heard you people have cut over timber land to trade ore soil. I have house and lot I will give for land and take difference in money. Send me your list of land for trade at once. Yours for business.

You will be well advised to check that first cold-weather twinge of Rheumatism before it develops. Use the standard remedy, T.R.C.'s RAZ-MAH, the positive Asthma remedy, also sold by H. I. Johnston.

UNITED STATES PROPOSES A TEN-YEAR NAVAL HOLIDAY

Stupendous Ship-Scrapping Plan Set Forth at Opening Session of the Arms Limitation Conference at Washington by U.S. Secretary of State Hughes.

Washington, D.C., Nov. 13.—Washington has given the world its first dose of "open diplomacy." To-night—more than twenty-four hours after the event—diplomats, envoys, delegates and experts attending the Conference on the Limitation of Armaments are still wondering if it all really happened. And, truth to tell, they seem to like it.

Perhaps never before has there been such a sensation among diplomatic corps as that which was provided yesterday. The United States gave to the world and the Conference part of its remedy for war—gave definite details of proposals for naval disarmament among the three great powers—Britain, United States and Japan—is tremendous if the proposals are agreed upon, which is not yet known.

Briefly the United States plan involves the scrapping of many hundreds of millions of dollars' worth of fighting craft, and would leave at the end of three months 22 capital ships for Britain, 18 for the United States and 10 for Japan. The tonnage of these ships would be: Britain, 604,450; United States, 506,650; Japan, 299,700.

The proposals include no new naval construction for ten years; in other words, a ten-year naval holiday.

As an example of what this means, the United States has now in process of building fifteen big war craft. On them so far three hundred and thirty million dollars have been spent. Yet the United States is willing to scrap all these ships. It is proposed that Britain scrap 383,575 tons of fighting craft; the United States, including ships now being built, if completed, 845,740 tons, and Japan 448,928 tons—making the greatest war junk-heap the Old Earth has ever seen, a huge total of 1,878,943 tons.

The Conference was astounded—

NO NAVAL DEFENCE FOR THE "ANZACS"

Proposed Ten-Year Naval Holiday Would React on Australia and New Zealand.

London, Nov. 13.—The United States plans down the super warship. If the ten years' holiday is accepted the world's navies from 1925 to 1940 will be composed of ships of moderate dimensions.

One is the outstanding point in Secretary Hughes' proposals. Such a plan would leave Australia millions of sterling because she would not have to build new warships for the proposed super-Hoeds.

A second point which calls for consideration is the position of Australia and New Zealand. Under an agreement for limitations on a scale laid down in the Hughes proposals, these dominions would be deprived of all new naval defence for the next ten years.

The United States Pacific interests can readily be covered, thanks to the Panama Canal, but Australia and New Zealand have no such prospect. This is certain to be put forward by the Australian delegates.

Three feet of snow covers the mid-country of Newfoundland.

CANADIAN WHO CARRIED CEASE-FIRE ORDER DIES ON ARMISTICE DAY

New York, Nov. 14.—Albert Miller, Canadian war veteran, who was picked to carry the order to cease firing from the British headquarters to Mons, the day the armistice was signed, will either be buried in Canada with the comrades with whom he fought, or will be given a place among the Buffalo soldiers dead, according to a despatch to-day.

Miller, who wore the Military Medal, died in Buffalo on Armistice Day, just three years to the day from the day on which he made world history. His body lay unclaimed in the morgue until his identity was established.

perhaps almost stupefied—with the signing of the plan and the swift action with which it had been launched. This, indeed, is an attempt to turn swords into ploughshares.

The United States has placed its cards on the table, face up.

To Charles Evans Hughes, United States Secretary of State, a fine, upstanding figure of a man's man, fell a double honor. He was chosen Permanent Chairman of the conference, and it was he who, in his speech of acceptance of that office, stated the amazing plan. Every one thought he would merely thank the delegates for the honor conferred upon him, and possibly deal in a few diplomatic generalities. Yet, with clear, strong voice—he is one speaker in a million—he made history. No one there outside of the United States delegates and a few water-secretes knew the proposals to be made. It was one of Washington's best-kept secrets. In a few hundred words, keeping close watch on the copy of the speech in his hand, he warmed to his subject. After a brief synopsis of the work ahead, he added, with vigor:

"The world looks to this conference to relieve humanity of the crushing burden created by competition in armaments, and it is the view of the American Government that we should meet that expectation without any unnecessary delay. It is therefore proposed that the conference should proceed at once to consider the question of the limitation of armaments."

The emphasis in the last sentence was on the words "at once." That utterance in itself was daring enough for everybody. Members of the United States Congress, led by Senators in the galleries, began to applaud, and in a moment the whole assembly was up and cheering.

Lord Lee of Fareham
First Lord of the Admiralty, photographed as he was enroute to the Olympic, on his way to Washington.

New Premier of Japan Assumes Office

Tokyo, Nov. 13.—Baron Korekiyo Takahashi, Minister of Finance in the Hara Cabinet, to-day officially assumed the Premiership in succession to Takashi Hara, who was assassinated November 4.

ORDER DIES ON ARMISTICE DAY

Military and fraternal organizations have since offered to honor him. The Canadian Great War Veterans' Association was notified, and if desired, they will be given the body for burial on Canadian soil.

Seeing with the Canadian forces as despatch bearer, he was chosen at British Headquarters to carry the message that stopped firing to outlying British posts in the vicinity of Mons. After the war he came to Buffalo to work as a printer and was living in an obscure boarding house, when he died suddenly. He was preparing to celebrate Armistice Day with the Buffalo veterans.

TWO MEN DROWNED IN RAINY LAKE

Hunters Meet Death When Gun Recoil Upsets Canoe.

A despatch from Burk's Falls, Ont., says: Joseph Hewitt, and his nephew, Harvey Hewitt, of this place, were the victims of a double drowning accident in Rainy Lake, when the canoe in which they were hunting deer was upset. Apparently, after Harvey had shot a deer, the recoil of the rifle caused the occupants to overbalance and both men were thrown into the water.

There were no eye witnesses of the tragedy, and the first intimation of the accident was the finding of the empty canoe floating in the water.

Manitoba University Chooses Rhodes Scholar

Winnipeg, Nov. 13.—Graham Spry, aged 21, son of Lieutenant-Colonel D. W. B. Spry, O.B.E., A.A.G., Q.M.G., Military District No. 13, has been selected Manitoba Rhodes Scholar from the University of Manitoba for 1922. Mr. Spry was born in St. Thomas, Ont., and served overseas in the Canadian Field Artillery. For the past two years he has been a member of the Manitoba Free Press staff.

United States at Peace Again.

Washington, Nov. 13.—The draft of a proclamation declaring the United States at peace has been submitted to President Harding by the State Department for approval and signature, and the promulgation is expected early in the week. This was learned to-day after the State Department had announced that exchange of ratifications of the treaty of peace with Germany had been effected at Berlin.

Put Government of Ireland Act in Operation

A despatch from London says: The official gazette announces that Nov. 22 has been fixed as the appointed day to apply the financial provisions of the Government of Ireland Act in connection with the administration of justice and taxation. The other services of local administration will be put into operation in successive months until all of them are completed February 1. The foregoing is in performance of the Premier's promise to Parliament October 21.

Simple Foods Aid to Longevity

A despatch from Derbent, Caucasus, says: The elixir of long life consists of soured cow's milk, cheese made from sheep's milk and white bread according to Dr. Sadovnik, Professor of Physical Chemistry at the University of Kiev. He has located a village in the mountains near Tenir Khan Shura, the new capital of the Daghestan Republic, where eighteen men, out of a total population of 120, are more than 100 years old. Investigation showed that they ate the above named foods exclusively.

Gandhi Urges Removal of Lawrence Statue

A despatch from Lahore, British India, says: Mahatma K. Gandhi, the Indian Nationalist leader, urged a large gathering here to remove the statue of Lord Lawrence, which stands in the city. Gandhi exhorted his audience to undertake the task "even at the risk of imprisonment or death." Beneath the statue is the inscription: "Will you be governed by the pen or by the sword?"

Canada's Heroes Honored by Fitting Ceremonies

A despatch from London says: Miss Mary Plummer, of Toronto, on behalf of the Daughters of the Empire, placed a wreath on the cenotaph for the Armistice Day ceremonies. The graves of the Canadian soldiers in Shorncliffe were planted by boys from the Folkestone Elementary schools, with plants cultivated from seeds sent by Mr. M. C. Graham, of Ladner, B.C.

Mrs. Julia McCudden.
British War Mother who placed the wreath from the War Mothers of Great Britain on the grave of the Unknown American Soldier.

SMUTS PLEADS FOR SUPPORT OF LEAGUE

South African Premier Looks With Confidence Toward Washington.

London, Nov. 13.—A Renter cable from Pretoria, South Africa, says a strong plea for support of the League of Nations was voiced by Premier General Smuts in an address delivered in the Pretoria Town Hall. General Smuts, who, incidentally, noted with regret the apathy in South Africa regarding the League, believed it would get new assistance from the Washington Conference on the importance of which he laid stress, for the great work for which it stood.

In support of the argument that the League could never be a success while huge tracts of the world are excluded, he advanced the original view that Russia and Germany should be made to join the League if they failed to do so voluntarily.

He also considered the main function of the League should be to regulate the economic relations between nations—the weak spot of the present system.

Ask Ulster to Formulate a New Plan

London, Nov. 13.—Practically the whole Irish delegation left for Ireland to-day to hold consultations with their chiefs in Dublin to-morrow. There were no developments in the Irish situation over the week-end. It is learned that there is no danger of an immediate break-up of the conference.

This lovely little doll has real hair and eyes that open and shut. She wears a lovely dress and hat, shoes and stockings. She is just 12 inches tall and has jointed legs and arms. Just send us your name and address and we will send you Three Dollars worth of our lovely embossed Xmas Postcards to sell at ten cents a package. When they are sold, send us our money and we will send you the lovely Doll, with all charges prepaid. If you prefer it we will send you a School Set, or Flashlight, or Fountain Pen, or Pen Knife, or Mouth Organ, instead of the Doll.

Toronto Dept. 283

ULSTER DECLINES TO JOIN SINN FEIN IN ALL-IRELAND HOUSE

Settlement of the Irish Problem Received an Unexpected Set-Back in Decision of Sir James Craig's Cabinet.

A despatch from London says: With dramatic suddenness, when the Irish skies seemed clearer than at any time since Ulster entered the negotiations, Sir James Craig dropped a bombshell in Downing Street on Friday when he telephoned Lloyd George that under no circumstances would Northern Ireland enter an all-Ireland Parliament with the Sinn Fein.

The momentous decision was taken after a two-hour conference of the Ulster Cabinet at the Hotel Savoy, and it received the unanimous approval of the Craig Cabinet.

The unexpected move on the part of the Ulsterites surprised the British Premier, who immediately called a full Cabinet session to consider the proposition. Arthur Griffith, head of the Irish delegation, was informed by Lloyd George of the Craig decision. Griffith made no comment.

The Sinn Fein officials later added another difficulty to Lloyd George's position by announcing their refusal to negotiate in any manner with the Northerners.

A communique issued by the Northern Ireland Cabinet suggests that the Government should consider these counter-proposals before the proposed meeting of the British and Ulster Cabinets.

The text of the communique said: "The suggestion put forward by the Imperial Government were received late Thursday night and were considered. The Ulster Cabinet is drawing up a detailed reply which, it is hoped to forward shortly."

"As, however, certain fundamental principles are involved in the suggestions which, under existing circumstances, are impossible of attainment, Sir James Craig (the Premier), with the unanimous approval of his colleagues, has informed the Prime Minister that no useful purpose would be served by holding a formal consultation between His Majesty's Government and the Government of Northern Ireland until certain suggestions in the Government's proposals are withdrawn.

The formal reply of the Ulster Cabinet will indicate other and more practicable means of securing peace without infringing upon the rights of Ulster."

The Ulster Cabinet Ministers were summoned here recently by Sir James Craig to consider the Government's proposals, and they met Friday forenoon to discuss the plan for a settlement of the Irish question, which was contained in a statement from the British Ministry. This, as noted in the communique, was received Thursday night, and was understood to be in the form of certain definite suggestions for a scheme, in which Ulster was asked to join, for an all-Ireland Parliament.

What the Nations Might Save in Naval Upkeep

Washington, D.C., Nov. 13.—No accurate estimates could be obtained to-night on what taxation would be saved if the Hughes' proposals on armament reductions were carried out. For Britain navy men figured from \$160,000,000 to \$200,000,000 a year, and the United States Treasury Department officials put the figures for this country at \$200,000,000 a year. No estimate is available for Japan. These figures do not touch the expense of scrapping the ships, but merely estimate the annual saving through reduced navies.

Weekly Market Report

Toronto.
Manitoba wheat—No. 1 Northern, \$1.20; No. 2 Northern, \$1.17; No. 3 Northern, \$1.12; No. 4 wheat, not quoted.
Manitoba oats—No. 2 CW, 49½¢; No. 3 CW, 46½¢; extra No. 4 feed, 46½¢; No. 2 feed, 45½¢.
Manitoba barley—No. 3 CW, 66¢; No. 4 CW, 61½¢.
All above, track, bay ports.
Ontario wheat—F.O.B. shipping points, according to freights outside.
No. 2 Winter, \$1.01 to \$1.06; No. 3 Winter, 97¢ to \$1.02; No. 1 commercial, 90¢ to \$1.01; No. 2 Spring, 93 to 98¢; No. 3 Spring, nominal; No. 2 Goose wheat, nominal.
American corn—Prompt shipment.
No. 2 yellow, track, bay ports, 58¢.
Ontario oats—No. 2 white, 38 to 40¢, according to freights outside, nominal.
Barley—No. 3 extra test 47 lbs. or better, according to freights outside, 62 to 55¢.
Ontario flour—\$4.60 in bags, bulk, seaboard.
Manitoba flour—Track, Toronto: First pat, \$7.40; second pat, \$6.90.
Buckwheat—No. 2, 60 to 65¢.
Rye—No. 2, 70¢.
Milfeed—Carlots, delivered, Toronto: Bran \$2.11; shorts, per ton, \$2.31; feed flour, \$1.70 to \$1.80.
Cheese—New, large, 20 to 21¢; twins, 21 to 21½¢; triplets, 21½ to 22¢. Old, large, 25 to 26¢; twins, 25½ to 26½¢; triplets, 26 to 27¢; Stiltons, new, 24 to 25¢.
Butter—Fresh dairy, choice, 33 to 35¢; creamery, prints, fresh, No. 1, 42 to 43¢; No. 2, 39 to 40¢; cooking, 22 to 24¢.
Dressed poultry—Spring chickens, 30 to 35¢; roosters, 20 to 25¢; fowl, 25¢; ducklings, 30 to 35¢; turkeys, 50 to 60¢; geese, 27¢.
Live poultry—Spring chickens, 20 to 25¢; roosters, 20 to 25¢; fowl, 25 to 28¢; ducklings, 28 to 32¢; turkeys, 45 to 50¢; geese, 25 to 27¢.
Margarine—25 to 25¢.
Eggs—No. 1 storage, 45 to 46¢; select, storage, 51 to 52¢; new laid straight, 86 to 88¢; new laid, in cartons, 88 to 90¢.
Beans—Cann. hand-picked, bushel, \$4 to \$4.25; primes, \$3.50 to \$3.75.
Maple products—Syrup, per imperial gal., \$2.50; per 5 imp. gals., \$2.35.
Maple sugar, lb., 19 to 22¢.
Honey—60-70 lb. tins, 14½ to 15¢ per lb.; 5-2½ lb. tins, 16 to 17¢ per lb.; Ontario comb honey, per doz., \$3.75 to \$4.50.
Smoked meats—Hams, med., 27 to 29¢; heavy, 22 to 24¢; cooked, 42 to 44¢; rolls, 25 to 27¢; cottage rolls, 29 to 30¢; breakfast bacon, 27 to 33¢; special brand breakfast bacon, 38 to 40¢; back, boneless, 38 to 43¢.
Cured meats—Long clear bacon 13 to 20¢; clear bellies, 18½ to 20½¢.
Lard—Pure, tierces, 16½ to 17¢; tubs, 17 to 17½¢; pale, 17½ to 18¢; prints, 19½ to 20½¢. Shortening, tierces, 13 to 13½¢; tubs, 13½ to 14¢; prints, 14 to 14½¢; prints, 16 to 16½¢.
Choice heavy steers, \$6 to \$7; butcher steers, choice, \$5.75 to \$6.50; do, food, \$5 to \$5.75; do, med., \$4 to \$5; do, com., \$3 to \$4; butcher heifers, choice, \$5 to \$5.75; do, med., \$4 to \$5; do, com., \$3 to \$4; canners and cutters, \$1 to \$2.50; butcher bulls, good, \$3.50 to \$4.50; do, com., \$2.50 to \$3; feeders, good, 300 lbs., \$5 to \$5.50; do fair, \$4.50 to \$5; milkers and springers, choice, \$7 to \$100; calves, choice, \$11 to \$12; do, med., \$8 to \$11; do, com., \$3 to \$6; lambs, yearlings, \$4 to \$5; do, spring, \$8 to \$8.50; sheep choice, \$3.50 to \$4; do, heavy and bucks, \$1.50 to \$3; hogs, fat and watered, \$9 to \$10; off cars, \$9.25; do, L.O.B., \$8.50; do, to the farmer, \$8.25.
Oats, Can. West, No. 2 55½ to 56¢; do, No. 3, 54½ to 55¢. Flour, Man. Spring wheat, firsts, \$7.40. Bran, \$2.25. Shorts, \$2.25. Hay, No. 2, per ton, car lots, \$27 to \$28.
Cheese—Finest east, 15½ to 16½¢; Butter—Choice creamery, 40 to 41¢. Eggs—Selected, 50¢. Potatoes—Per bag, carlots, \$1.20.
Canner cows, \$1.25 to \$1.50; thin light corner heifers, \$2 to \$2.50; light bulls, \$2.25 to \$2.50; med. butcher steers, \$4.50 to \$4.75; calves, com., \$9; grassers, \$2.50 to \$3; sheep, \$2.25 to \$3.50; lambs, \$7.50; hogs, select, \$9.25; mixed lots, \$9.

A Canadian Product.

Through the long years that Canadians have been carving a nation out of the wilderness, they have also been building up a national literature. We have now to our credit a considerable volume of writing in history, poetry, fiction and biography. Particularly is this true in the realm of verse. Many of Canada's poets have won international fame.

And now there appears a new volume of poetry, written by members of the Toronto Women's Press Club. "Verse and Reverse" is the title of this attractive little booklet, which contains over forty poems abounding in human interest. The list of authors comprises thirty well-known names, among them many who are renowned from coast to coast as writers of fine verse.

Katherine Hale, Virna Sheard, Lilian Leveridge, "Seranus," Florence Randall-Lovessy, and Jean Blewett are among those who have contributed to this volume, now on sale, at fifty cents, in the principal bookstores throughout Canada. Of permanent value and lower in price than many Christmas cards, it makes a most desirable Christmas gift for friends either far or near. It represents Canada and things Canadian.

Here is one of the delightful little poems from this interesting collection:

If God had only made one tree
As beautiful as millions be,
All the world would come to see
That tall and trembling tree.
Birds would come on every wind,
Animals, and all mankind;
Every creature not stone-blind
That tree somehow would find.
In moods of doubt that come to me
When I sadly wish to be
Something better than you see,
I dream I am a tree.
I strike my roots into a hill,
A century with growth fulfill,
That man and beast may feel a thrill
At a big tree standing still.

The Farmers' Course.

Announcement is made that the Short Winter Course for men and women on the farms of Ontario has been arranged for the two weeks of February 6th to 18th at the University of Toronto. This unique course was conducted for the first time last February and was so eminently successful in every respect that it is already under way for the second time. Last year there were two or three grandmothers and as many grandfathers registered as students and there were also several boys and girls in their early teens; the total registration was 270. This year an increase of one hundred per cent. is hoped for. There will be two classes those who attended last year and those who are registered for the first time.

The "compulsory" subjects will be Economics and English Literature, while the optional subjects will be Canadian History, Public Health and Hygiene, Architecture, Household Science, Public Speaking, Commercial Geography, and, perhaps, others. The provincial university arranges this course at the request of, and in co-operation with, the U.F.O. Executive Board. The forenoons are devoted entirely to lectures on cultural subjects, the afternoons are spent in tours of inspection, visits to the Legislature if in session and other similar activities and the evenings are left free for individual interests except that two or three evening lectures on popular subjects may be arranged. Particulars are obtainable from the Extension Office, University of Toronto.

Prince of Wales Will Visit Japan Before Returning

A despatch from London says:—In the course of the speech from the throne in proroguing Parliament, the King referred to the visit of the Prince of Wales to India, adding: "I pray that his visit may still further strengthen the ties of affection which have for so long linked my house with the Princes and peoples of India. Upon the conclusion of his Indian tour, he will proceed to visit the great and friendly Empire of Japan."

New Device for Safe Aerial Trips

A despatch from London says:—A lifeboat for the air is a new contrivance being perfected here for safety of passengers flying over water. It is an evolution of the parachute. The device is so arranged that a pilot, when convinced that the chances of having the lives of his passengers are extremely remote, simply pulls a lever, which releases the passenger compartment from the falling flying machine. The whole operation requires only four seconds. Tests have already proved satisfactory.

Canadian Dead Honored in Mons Ceremony

A despatch from Brussels says:—British, French, Canadian and Belgian ceremonies were held over the graves of soldiers buried in the cemetery at Mons as the principal part of the Armistice Day observance in Belgium.

Interesting Happenings in Canada.

A memorial clock tower dedicated to the memory of the heroic services performed by the British navy and mercantile marine in the great war, has been erected on the waterfront at Montreal on a commanding site, visible from all sides. One of the naval guns recently presented to Montreal will each fire a signal at noon, the time being relayed from McGill observatory.

A company to develop the fax fibre industry in Manitoba has been incorporated with a provincial charter, according to a notice appearing in the local press. Arrangements are being made by the new enterprise to purchase the old match factory at Neepawa. This will be the first of a number of factories which the company expects to operate in Manitoba.

Preparations are being made to develop some nickel deposits about 225 miles east of Winnipeg on the Nickel Lake range. Mr. W. A. Preston, former member of the Legislative Assembly, is behind the project and states that an Ontario charter will be taken out with a capital of \$1,000,000.

Six million trees—3,500,000 poplars, 900,000 Russian poplars, and 1,600,000 caraganas—grown on the Canadian Forestry Field Nursery at Sutherland, Saskatchewan, will be distributed amongst farmers of the province next spring. These trees, grown under prairie conditions, are being distributed free of cost in increased numbers, and their plantation on farms in the treeless areas is slowly but surely transforming the land. At least a dozen different varieties are being grown on prairie farms, all of which are growing rapidly.

A decided improvement in mining activity is indicated in reports received from the Cobalt district, the number of men employed being now upwards of 1,000, as compared with 700 men in February. Silver production is now at the rate of 80,000 ounces monthly, as compared with 600,000 some months ago.

A Canadian plant will be located at Peterboro, Ont., by the Birmingham Motors, of Jamestown, N.Y., according to A. J. Gutman, representative of the concern. Arrangements are said to be complete for taking over the plant formerly occupied by Henry Hops & Sons.

Registrations at Queen's University, Kingston, as announced by the principal, now total 1,840, divided as follows: arts, 589 students, 189 of whom are in their first year; science, 322 in the faculty and 46 in the first year; in medicine, 51 in the first year and 255 in the faculty; 1,146 are taking the art course by correspondence or part time while 200 more are taking banking.

Three first places were secured by Canada in the colonial Cheddar cheese contest at the dairy show which is now being held in the Agricultural Hall at London, England. The first went to Mountaintop View Cheese Factory, Ontario; second to Ayr and Company, Montreal, and the third to the Dominion Cheese Factory, Ontario.

Sampling the Sea-Floor.

Scientists of the sea have visions of a time when we shall dispose of fish in the sea much as a farmer disposes of his flocks and herds on land.

We must first take a valuation of the sea, and that is the fascinating task which has been begun by the marine biologists of the Ministry of Agriculture and Fisheries in their laboratories at Lowestoft, England.

It has been established that the transplantation of plaice from the Danish and Dutch coasts, where the small fish are overcrowded, to the Dogger Bank, results in a great acceleration of growth. Three of the latest instances of fish caught and marked, taken to the Dogger Bank, liberated, and recaptured show respectively a 90 per cent. increase of size in 432 days, a 74 per cent. increase in 430 days, and a 56 per cent. increase in 439 days.

The valuation of the sea consists in determining the quantity of fish food on the sea bottom.

A grab with interlocking teeth is used to take samples of the bottom. An area of two square feet of the sea-bed, to a depth of from three to six inches, with all the animals it contains, is lifted at each operation. It is washed through sieves, and minute details of the numbers and kinds of the animal life it contains. In one area one hundred samples have already been taken and tabulated.

The fish food found consists chiefly of various worms, small shell-fish, and hermit crabs.

By taking many samples of the stomach contents of fish it is known what fish eat, and by valuing the seabed it is decided where to put them to get that food in greatest quantity.

\$30,000 Capital Every Morning.

Accident insurance companies average your values thus: On a business basis your arms are worth \$5,000; your legs \$5,000; your eyes \$5,000; a finger \$250. According to that computation your head must be worth at least \$15,000. Therefore when you got up this morning if you did not have a dollar in the bank you had a working capital of \$30,000. With that much of a start you may go far.

Plants, by means of their greenness, are able to collect and store the heat of the sun.

Any man who has a job has a chance.

GLAD HE TRIED THE TONIC TREATMENT

Through Its Use Strength and Vigor Was Restored.

To be tired after exertion is natural. Rest and food restore the body to normal after such fatigue. But to be tired all the time is a symptom of an anemic condition that will not be corrected until the blood is built up.

Such an anemic condition is so gradual in its approach and generally so lacking in acute pains that it is often difficult to persuade the sufferer to do anything for it. But it is not a condition that corrects itself. If the blood is not enriched the trouble will increase. The nerves will be undernourished and neuralgic pains will follow. Digestive disturbances often result from thin blood, sleep is disturbed and a general breakdown may occur.

Mr. Wilson Johnson, Ninevah, N.S., says: "A few years ago my system was in a badly run down condition. My nerves seemed always on edge, and I found myself so weak that I could hardly do any work. I suffered from headaches and from pains in the back and under the shoulders, and was often so sleepless at night that when morning came I felt as tired as when I went to bed. I was taking medicine all the time, but it was doing me no good. Then I read the testimonial of a man whose condition had been similar to mine, and who strongly recommended Dr. Williams' Pink Pills. I decided to give this medicine a fair trial, and when I had taken six boxes I felt much better. I continued taking the pills until I had taken six more boxes, and I can only say I am glad I did so, as I am now enjoying the best of health, and I advise all men who feel run down to give these pills a good trial."

Dr. Williams' Pink Pills can be obtained from any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Surnames and Their Origin

YORK
Racial Origin—English.
Source—A locality.

The origin of York as a family name is not hard to guess. It comes from the city in England of that name.

The city of York is almost as important historically as London, and it is as old, antedating the Roman invasion, and having been founded by the Celtic Britons long before the first Anglo-Saxon settlers made their appearance.

Linking the names of York and London brings up an interesting question. Why is the name of London virtually never met with as a family name, and that of York rather seldom, while family names derived from smaller cities, and even towns and villages are quite common?

At the period when men's neighbors began to link their given names with the names of the places from which they had come, to distinguish different individuals of the same given name, it would have constituted little differentiation to use such a name as London. London was such an important place, the seat of the government and so many men came from London. There might be several Johns from London in a very small community. With York it was much the same, though not to the same degree. York was still a big and important place, but it wasn't the seat of the Government. Hence we find a number of Yorks in the list of English family names, but not as many as of Lincolns.

Eventide.

The day is past and the toilers cease.
The land grows dim 'mid the shadows gray.
And hearts are glad, for the dark brings peace
At the close of day.

Each weary toiler, with limbering pace,
As he homeward turns, with the long day done,
Looks to the west, with the light on his face,
Of the setting sun.

Yet some see not (with their dimmed eyes—
The promise of rest in the fading light,
But the louds loom dark in the angry skies—
At the fall of night.

And some see only a golden sky,
Where the elms their welcoming arms stretch wide
To the calling rooks, as they homeward fly
At the eventide.

It speaks of peace that comes after strife,
Of the rest life sends to the hearts
He tried,
Of the calm that follows the stormiest life.

—Lieut.-Col. John McCrae.

Why Your Ears Burn.

Everybody has experienced the feeling of a burning ear, but few understand how it occurs.

Sudden frights, excitement, worry, and anxiety are the causes. The sensation is due to the liberation of thyroid and other gland substances, which have a tendency to paralyze the muscles in the walls of the skin. This temporary paralysis permits their elastic walls to expand, and a stream of blood rushes into the cheeks and ears.

When you realize that the heat of the blood as it circulates through the body is about one hundred degrees Fahrenheit, it is plain that a sudden concentration in one place causes a rise in temperature. The spot affected feels for the moment like a fiery furnace.

SAVED BABY'S LIFE

Mrs. Alfred Tranchemontagne, St. Michel des Saints, Que., writes:—"Baby's Own Tablets are an excellent medicine. They saved my baby's life and I can highly recommend them to all mothers." Mrs. Tranchemontagne's experience is that of thousands of other mothers who have tested the worth of Baby's Own Tablets. The Tablets are a sure and safe medicine for little ones and never fail to regulate the bowels and stomach, thus relieving all the minor ills from which children suffer. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Oldest Game in the World.

The oldest amusement in the world is dice-throwing. In some form or another dice have existed in every period of history. They are shown on early Egyptian monuments, and some dug up at Thebes recently are exactly similar to those in use today. They are mentioned in laws regulating games played in ancient Greece and Rome and most other countries in Europe.

The invention of dice is attributed to Palamedes, one of the heroes who sailed against Troy, about the year 1244 B.C., but the use of cubes with numbered sides for gambling purposes is probably much earlier.

Frequent passages in the works of ancient writers and numerous representations in marble and paintings show how popular dice-playing was among them.

Pineapple Products.

The pineapple growers of Hawaii, anxious to encourage new uses for their product, are now putting the fruit up in cans, crushed or grated, as well as sliced.

Grated or crushed pineapple is being used to find favor as an ingredient of sodas and sandwiches. Pineapple pie, made with the fruit thus prepared, is declared excellent.

Got His Answer.

A bumptious young American farmer went to England to learn his business, but where he went he pretended that it was far easier to teach the farmers than to learn anything from them. "I've got an idea," he said one day to a grizzled old Northumbrian agriculturalist, "for a new kind of fertilizer which will be ten thousand times as effective as any that has ever been tried. Condensed fertilizer—that's what it is. Enough for an acre of ground would go in one of my waistcoat pockets." "I don't doubt it, young gentleman," said the veteran of the soil. "What is more, you'll be able to put the crop into the other waistcoat pocket."

MONEY ORDERS.

A Dominion Express Money Order for five dollars costs three cents.

Not All Profit.

He was a struggling Scottish farmer, and he had the good fortune to win the hand of a widow who possessed in her own right the sum of five thousand pounds.

Shortly before the wedding a friend went to congratulate him. "It's a fine thing for you, this wedding, Sandy," he said. "Aye, it's no' bad," replied the farmer. "No bad? Why, it's worth five thousand pounds to ye, isn't it?" "No," sighed Sandy, "less than that. Ye see, 'twill cost me seventeen an' sixpence for a marriage licence!"

Minard's Liniment for Distemper.

Real Friendship.

What true friendship consists in depends on the temperament of the man who has a friend. It is related that at the funeral of Mr. Scroggs, who died extremely poor, the usually cold-blooded Squire Tightlist was much affected. "You thought a great deal of him, I suppose," some one asked him. "Thought a great deal of him? I should think I did. There was a true friend. He never asked me to lend him a cent, though I knew well enough he was starving to death."

Not Long But Wide.

The portly Irishman waddled into the shop. "What can I do for you, sir?" asked the salesman.

"I want a motor-car," said the Irishman. "A first-class automobile."

"Is it for yourself, sir?"

"Sure, ye're inquisitive, but if ye 'Long body, sir?"

"Listen to the man!" exclaimed Pat. "Long body? Begorra, no! She's built like a barrel, same as me! But phew! that got to do w' it?"

Must know, 'tis for me wife!"

Belgian Motor Car Industry.

Belgian cars are dominating the Belgian market. American-made cars being the hardest hit. Belgian cars have increased 45 per cent; French cars hold their own, with an increase of about 40 per cent. The fluctuation in the market seems due to the demand for the lighter cars of French and Belgian make.

French Chemical Industries.

French chemical industries show a remarkable development in those materials for which it, like other countries was dependent on Germany before the war. The same is true of British industries, especially in the coal-tar products and dyestuffs.

Color Blind, Apparently.
Little Edwin—"Mamma, I guess the man who made my geography was color blind."

Mamma—"Why do you think so, my dear?"
Little Edwin—"Cause he's got Greenland painted yellow."

Canned Stuff.
"Ma, do cows and bees go to heaven?"
"Mercy, child, what a question!"
"Cause if they don't, the milk and honey the teacher said was up there must be canned stuff."

Saving the Pieces.
Mrs. Patience—"You must be more careful with the china, Ann. That was a complete eighty-piece dinner set when you came here."

Ann, the Maid—"But I'm saving the pieces, ma'am, an' you have a thousand by this time!"

How It Worked.
"When we were married," said Brown, "my wife and I made an agreement that I should make the rulings in all the major things and she in all the minor ones."

"And how has it worked?" Black inquired.
Brown smiled wistfully. "So far," he replied, "no major matters have come up."

Must Be Proved.
"Well, Pat," said Bridget, "what kind of a bird have you—brought home in that cage?"

"Well, it's a raven," replied Pat.
"A raven? And what did you bring home a bird like that for?"

"Well, I read in a paper the other night that a raven has been known to live for 300 years. I don't believe it, so I am going to put it to the test."

Self-Effecting.
Lifting yourself by your boot straps seems easy compared with the feat of

Mother! Open
Child's Bowels With
California Fig Syrup

Your little one will love the "fruity" taste of "California Fig Syrup" even if constipated, bilious, irritable, feverish, or full of cold. A teaspoonful never fails to cleanse the liver and bowels. In a few hours you can see for yourself how thoroughly it works all the sour bile, and undigested food out of the bowels and you have a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

"Faddy" Appetites
When the digestive organs are out of order you need the help of Mother Seigel's Syrup. The herbal medicinal extracts of which the Syrup is made restore tone and strength to jaded stomachs, make food yield nourishment and save from the many ills which indigestion brings. Mother Seigel's Syrup is now sold in 50c. and \$1.00 bottles at drug stores.

the marsupials that the teacher questioned Johnny about. "What are marsupials?" she asked the little fellow. "Animals that have pouches in their stomachs" came the quick reply. "And for what purpose do they use the pouches?" continued the teacher, ignoring the slight inaccuracy of the reply. "I am sure you know that too."

"Yes'm," said Johnny promptly. "The pouches are for them to crawl into and conceal themselves when pursued."

Amusing the Neighbors.
Johnnie, age six, was missed by his mother one day for some time, and when he reappeared she asked: "Where have you been, my son?"

"Playing postman," replied Willie. "I gave a letter to all the houses in our street. Real letters, too."

"Where on earth did you get them?" questioned his mother in amazement. "They were those old ones in your wardrobe drawer, tied up with ribbon," was the innocent reply.

Puzzling the Twins.
James and John are twin brothers and look so much alike that it is a puzzle for their parents and friends to tell which is James and which is John. Is it strange then that the little fellows themselves were deceived? They were just learning to talk when the following funny incident occurred: One day mother had given John a bath and dressed him in fresh, clean clothes. She was carrying him across the room in her arms, when she happened to pass the big mirror. She stopped up to it to let John see himself looking so fresh and dainty. What do you suppose John said to his own sweet reflection? He waved his little hand and said, "Hello, James!"

"For several months after that it was the delight of the family to take one of the twins to the mirror and hear him greet his own reflection as his brother."

Look Like a Success!
Don't apologize for taking up room on the earth which might be filled to better advantage by some one else.

KEEP YOUR HEALTH! — USE —

MINARD'S "KING OF PAIN" LINIMENT

The Old Reliable. Try It!
Minard's Liniment Co., Ltd.
Yarmouth, N.S.

If Headachy, Bilious or Stomach is Bad, Take "Cascarets"

Get a 10-cent box now. Furred Tongue, Bad Colds, Indigestion, Sallow Skin and miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, everything that is sickening. A Cascaret to-night will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep. Millions of men and women take a Cascaret now and then to keep their stomach, liver and bowels regulated, and never know a miserable moment. Don't forget the children—their little insides need a good, gentle cleansing, too.

RHEUMATIC ACHES QUICKLY RELIEVED

THE racking, agonizing rheumatic ache is quickly relieved by an application of Sloan's Liniment.

For forty years, folks all over the world have found Sloan's to be the natural enemy of pains and aches. It penetrates without rubbing.

You can just tell by its healthy, stimulating odor that it is going to do you good.

Keep Sloan's handy for neuralgia, sciatica, lame back, stiff joints, sore muscles, strains and sprains.

At all druggists—35c, 70c, \$1.40. Made in Canada.

Sloan's Liniment

THIN, FLAT HAIR GROWS LONG, THICK AND ABUNDANT

"Danderine" costs only 35 cents a bottle. One application ends all dandruff, stops itching and falling hair, and, in a few moments, you have doubled the beauty of your hair. It will appear a mass, so soft, lustrous, and easy to do up. But what will please you most will be after a few weeks' use when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. "Danderine" is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. This delightful, stimulating tonic helps thin, lifeless, faded hair to grow long, thick, heavy and luxuriant.

LETTER FROM MRS. WAKELIN

Tells Remarkable Story of Sickness and Recovery.

Toronto, Ont.—"I suffered greatly from weakness, seemed to be tired all the time, and had no ambition to do anything or go any place. My nerves were in bad shape, I could not sleep at night, and then came a breakdown. I read of Lydia E. Pinkham's Vegetable Compound in the newspapers and several of my friends advised me to use it, and I surely put new life into me. Now I am quite able to do all my own work and I would strongly advise every suffering woman to give Lydia E. Pinkham's Vegetable Compound a trial."

Mrs. CHARLES WAKELIN, 272 Christie St., Toronto, Ont.

The makers of Lydia E. Pinkham's Vegetable Compound have thousands of such letters as that above—they tell the truth, else they could not have been obtained for love or money. This medicine is no stranger—it has stood the test for more than forty years.

If there are any complications you do not understand write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass.

ISSUE No. 47-21.

SHE COULD HARDLY CLIMB THE STAIRS

COULDN'T RAISE HANDS ABOVE HEAD.

Hamilton Woman Declares Tanlac Overcame Her Rheumatism and Other Troubles.

"If others hadn't allowed their statements published in the papers I wouldn't have known about Tanlac and would still be suffering, so now for the benefit of others I want to tell what the medicine has done for me," said Mrs. John Dale, 65 Catharine St. South, Hamilton, Ont.

"About three years ago I began to suffer from rheumatism, which kept getting worse until I was in almost constant pain. At times my arms became so swollen and painful I couldn't raise my hands above my head; and my fingers were so stiff I could scarcely hold the coffee pot to pour out the coffee."

"I could hardly go up a flight of stairs on account of the stiffness in my muscles. I became so nervous the noises made by my children playing about the house made me frantic."

"Seeing so many fine statements in the papers about Tanlac, I decided to get a bottle and see if it would do me any good. Well, my rheumatism got better with the first few doses and, now that I have finished the second bottle the last trace of it is gone. My nervousness is gone too, and I am so happy over being free from pain I can't fully express it."

Tanlac is sold by leading druggists everywhere.

Just Like That!
A pretty girl was dancing with a bachelor.

"There will be many sad hearts when I marry," he said.

"How many are you going to marry?" she asked.

THURSDAY, NOVEMBER 17, 1921

The newspapers of the province are again emphasizing the fact that many of the pupils of the public schools are remarkably poor writers. The *Avon Express* says: "Criticism of the manner in which writing is taught in public schools is adverse. It is a generally admitted fact that the writing of many of the pupils who graduate from the public school today is more like a scrawl than an exhibition of penmanship. Something has gone wrong in recent years in the teaching of writing, and it apparently is going from bad to worse. This is to be regretted, and the department should give special attention to a remedy." The indefensible habit of the abbreviation of words in writing is also very noticeable. This often leads to errors in interpretation. The practice of failing to spell out the word "and" is also to be deplored. No good writer will abbreviate this word.

THE COST OF LIVING

(From a Western Exchange)
In these days when the bogey of old H.C.L. is rattling steadily on the weekly or monthly pay cheque, it is at least refreshing to hear someone remark that the cost of living is nothing to worry about. A homesteader (bachelor, of course) remarked the other day in a downtown store that he was not worrying about this winter's living, as he had FIFTY DOLLARS and this would buy his winter's grub stake. This man is new on the land, having been laboring heretofore, and has no crop or garden to depend on. When asked how he figured on spreading a mere

fifty dollars over the winter, he enumerated a long list of items, including his supply of meat, potatoes, flour, sugar, tea, fruit, milk and incidentals in the grocery line, and even including his tobacco. He had the price of each item, made up the remarkable total of THIRTY-FIVE DOLLARS. That would leave him, he said, fifteen dollars to meet unlooked-for expenses and for luxuries. This man's list was started with a quarter of beef at \$5 and two bags of potatoes at \$1, both of which items are reasonable, and included everything else from rolled oats to spices at local retail prices. He will be under no expense for fuel, as he will be able to cut all the wood required close at hand, as can any settler in the district.

Instances could be cited in plenty in Northern Alberta where this "grub stake" would be considered extravagant, and we have seen houses where the item of five dollars for meat would be the first thing cut out, the head of the house depending on the supply of wild ducks, chickens and other game. For the man on the farm, with a good garden and enough feed for his stock and wheat for his own flour, the cost of living is small indeed.

WEST MIDDLESEX

(From the London Advertiser)

Duncan Ross was accorded a remarkable demonstration on the occasion of his nomination in West Middlesex on Tuesday. There had been rumors that he would have opposition for the nomination, but instead of opposition he had nothing but co-operation of the sincerest and heartiest variety. When one takes into consideration the lukewarm attitude of electors at many of the political meetings that have been held by all parties this year, the reception accorded Duncan Ross in his old riding was all the more noteworthy.

Duncan Ross is essentially a product of West Middlesex. Born at Strathroy, his father the late illustrious Hon. Geo. W. Ross, premier of Ontario, he has been identified with the district all his life. It is almost a half-century of representation between father and son in Ontario and Dominion Parliaments. The nomination meeting at Strathroy gave the present member of the riding an opportunity to justify the course he had taken through the stormy seasons since he was returned in the wartime election of

1917. The electors of West Middlesex had a right to hear from Duncan Ross why he pursued the course he had, and to weigh any reasons he had to bring before their consideration.

He dealt with the matter of conscription, showing that he had supported the measure up to the first 100,000 men. He had fought against the breaking of the Government pledge regarding the leaving of the sons of farmers on the land, where they were needed to take care of the greatly-increased acreage that had been planted on the earnest solicitation of the Government.

Measures that have been brought into the Ottawa House, looking toward the betterment of agriculture, have received at all times the careful attention and hearty support of Mr. Ross. It is hard to think of an incident where any other representative could have more worthily or more fairly represented the farming community of West Middlesex. Nor has he been negligent of the interests of his constituents as a whole.

Duncan Ross was sent to Ottawa on the business of West Middlesex as a whole, and he has a record for which he has no reason to apologize.

Keep Your Grit

Hang on! Cling on! No matter what they say.
Push on! Sing on! Things will come your way.
Sitting down and whining never helps a bit.
Best way to get there is by keeping up your grit.
Don't give up hoping when the ship goes down.
Grab a spar or something—just refuse to drown.
Don't think you're dying just because you're hit.
Smile in the face of danger, and hang on to your grit.
Folks die too easy—they sort of fade away.
Make a little error, and give up in dismay.
Kind of man that's needed is the man with ready wit.
To laugh at pain and trouble and keep his grit.

PERSONAL AND SOCIAL

—Miss Olive Watts spent the week end with relatives in Thamesville.
—Miss Kate Gillies spent the week end in Ilderton, the guest of Miss Loft.

—Miss Pole of London was a guest of Mrs. Mary McKee a few days last week.

—Miss Hilda Allan of Chatham is spending a couple of weeks at her home here.

—Mr. and Mrs. D. C. Graham and family spent the week-end with Mrs. M. Andrews, St. Thomas.

—Mrs. Thomas Tait and son John of St. Thomas are visiting Mr. and Mrs. John Tait, Symes street.

—Dr. E. M. Copeland, of London visited his brother, A. H. Copeland, who has been ill for some time.

—Mrs. F. J. Smith of Chatham spent the last three weeks at her home in Glencoe, on account of the illness of her father, T. C. Rycraft.

—Misses Ann McArthur, and Phemie Wrightman and Mr. Vanaman and Mr. Burns motored from Dutton and spent Sunday with Mr. and Mrs. Peter McArthur.

The Township Reeve

Iuster think my character was spotted less as the snow:
I uster think I was stainless as the hawthorn bush in blow:
But the stories they are telling, you hardly could believe,
They say that I'm a horsethief since they put me up for Reeve.

Before the nomination I was fit to lead in prayer.
But since that sad occasion I am frequent made aware:
That I served a term in prison, from court of last assize,
For swiping two big coppers from a helpless dead man's eyes.

They say that missing goods are oft upon my person found,
That neighbors look the hen-house when they see me hanging round;
That I never yet was sober an hour in my life,
And that I'm to familiar with a certain party's wife.

So I decline to run for Reeve, I sooner would be free,
A-chopping cordwood in the swamp is good enough for me;
The township will be loser, and the voters all will grieve,
On learning that I've shook the job and will not run for Reeve.

Next big kick will be about the high cost of giving.

Life will soon be just one Christmas bill after another.

The advertiser of today is the business-getter of tomorrow.

Even an electric button won't do much unless it is pushed.

Take Tanlac and eat three square meals a day.—P. E. Lumley.

It is hard for a man to keep an automobile and the Sabbath, says an exchange.

Yesterday is dead—forget it. Tomorrow has not come—don't worry. Today is here—use it.

The man who invented that expression about talk being cheap and silence golden must have attended a political meeting.

An English schoolboy, being asked what "etc." meant, replied: "It's a sign used in writing to make people think you know more than you do."

Fortune-teller—You wish to know about your future husband? Custom-er—No; I wish to know the past of my present husband for future use.

The demand for Tanlac has broken all world's records. Over Twenty Million bottles have been sold since it was placed on the market six years ago.—P. E. Lumley.

Do your absent sons, daughters or friends receive their home town paper, the one medium whereby they can live in their adopted home where their business interests are, and still keep in touch with the folks "back home." Miles of land and sea can separate them from the high-ways and byways of their home town; their eyes cannot see "Main Street" and the old church and school house, but memories of these things persistently cling to them. The home town paper will give them the live news about old friends "at home." It will give them both the pleasant, and the serious news concerning men and events; it will bring to them the true atmosphere of their native soil.

First to Use Radium.

Indians of Utah are said to have been the first people to use radium. Centuries ago they painted their almost naked bodies a canary yellow with carnotite. In their search for mineral colors Indian tribes carried on mining operations long before the days of Columbus. For sulphide of mercury, which gave them vermilion, they worked the quicksilver mines of California; for blue, red, and yellow pigments they mined oxides of copper and of iron; from the boiling springs of the Yellowstone region they got white and pink clays.

Mica.

The main importance of mica in modern industry lies in the fact that it is one of the best nonconductors of electricity and is, therefore, indispensable in electrical engineering. On this account the British Government took over part of the mica field in India during the war and worked it as a state industry in order to make sure of having a constant supply.

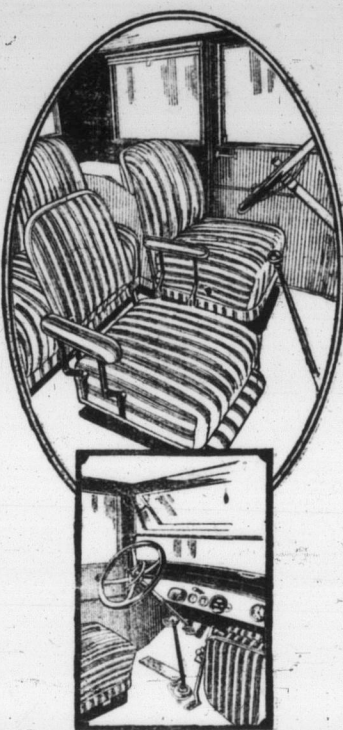

Wireless Stations.

Preparatory to building a huge wireless station for communication between Canada and England, the Marconi Wireless Company of Canada has bought twenty-three acres of land about nine miles from Toronto. It is understood that this is the first of a chain of wireless stations with which it is expected to dot Canada and encircle the British Empire.

"Built-in-Canada"

Studebaker

SPECIAL-SIX COUPE

LUXURY and Utility have been merged in this dependable year 'round car. From its upholstery of gray mohair velvet plush, down to the smallest detail of its equipment, the appointments of this car are in keeping with Studebaker's 69 year old reputation for fine coach building.

Seating arrangement accommodates three adult passengers in perfect comfort, with an auxiliary arm-chair for the fourth which, when not in use, folds compactly under the cowl and out of the way. An exhaust heater adds to the coziness of the interior in zero weather, while a cowl ventilator and adjustable plate glass windows can be regulated to provide liberal ventilation when the weather is moderate. The dependability of the 50-horsepower SPECIAL-SIX chassis is an added assurance of the full enjoyment of closed car comfort.

You are invited to inspect this car at our showrooms.

Born
CARRUTHERS. In Ekfrid, on Wednesday, Nov. 9, 1921, to Mr. and Mrs. Neil D. Carruthers, a daughter.

Card of Thanks
Mr. and Mrs. D. G. McEachern and family wish to thank their neighbors and friends and No. 9 W.I. for their kindness and sympathy and for flowers sent in their recent sad bereavement.

TOWN AND VICINITY

Mr. and Mrs. John Taft are now occupying their new house on Sykes street.

The collector wishes us to state that village taxes may be paid at either of the banks.

Seven hundred poppies were sold by the Glencoe G. W. V. A. for wearing on Armistice Day.

The registrars have completed the compilation of the voters' lists for the Dominion elections.

"Honor the dead by helping the living" was Lord Blyne's message to Canadians for Armistice Day.

Hugh McTaggart, who has been in Victoria Hospital undergoing surgical treatment for the past week, is gaining nicely.

Mrs. Gordon Wright of London will conduct missionary services in Glencoe Methodist church Sunday morning and evening. Special music will be given by a ladies choir.

Armistice Day was observed in Glencoe by the ringing of the town bell at 11 o'clock, when all activities ceased for two minutes in accordance with His Majesty's request.

Mrs. Trower is substituting for Mr. Coen as principal of the Glencoe public school for a few days, while the latter is having his tonsils treated in Victoria Hospital, London.

Thomas Diamond has moved into the residence connected with the old municipal power house, and Dan Graham has rented the house formerly occupied by Mr. Diamond.

Miss Wilson of Chatham was a guest of Mrs. J. M. Anderson over the week-end, and sang a very pleasing solo in the Presbyterian church at the morning service on Sunday.

A very enjoyable time was had at the Armistice Day dance given by the G. W. V. A. on Friday evening. Music was furnished by the Carl Kennedy orchestra of London.

Crutcher proposes to pay 1/2 share of the government roads out of interest or license fees. And the municipalities can keep on paying as usual. A reverse of the plan would work out better.

The town cop should get after these Wabash contractors and make them cease blocking the crossing. To be held up often for twenty minutes to half an hour in inclement weather is no joke.

The population of West Middlesex has decreased 8.51 per cent. during the past decade, according to the census statistics of 1911 and 1921. The decrease is due to the loss of people to the cities.

Don't miss the popular play "Light-house Nan," to be given by the Lamboth Cheerio and Glee Club in the Glencoe opera house Friday evening, Nov. 18, under the auspices of the Glencoe hockey club.

M. L. Farrell has purchased a brick cellar and other buildings on McRae street in rear of the Grand Trunk station, and is planning to open a general blacksmith and horseshoeing business in the premises.

Don H. Love has been engaged by the Farmers' Advocate to furnish the publication with a series of articles on scientific horsebreeding. The first article appears this week and is entitled "Care of Horses' Feet."

The ladies of St. John's church will hold an OLD ENGLISH DINNER and BAZAAR in the school room on Wednesday afternoon and evening, Nov. 23rd. The bazaar will open at 3 o'clock. Dinner will be served from 6 to 8. Dinner, 50c; children under 12 years of age, 35c.

The marriage took place on Oct. 19 of Rev. Kenneth McLean, minister of the Presbyterian church at Stuyvesant, to Miss Alice Dunning of Cumberland. Mr. McLean is well known in this vicinity, being a former Ekfrid boy. Best wishes are extended to the bride and groom.

The Manhattan Club of London are negotiating with the Glencoe Rink Company for the privilege of playing a number of their hockey matches here the coming winter. The London rink, it is understood, are inadequate to accommodate all the hockey clubs of that city.

A request is made by the directors of the Glencoe Rink Company that all those who have subscribed stock will be prompt in the payment of their apportionments as they fall due. If this is done it will greatly facilitate the work of construction and aid the management in their efforts to finance the enterprise.

W. P. Ellison, former principal of a Windsor public school, disappeared from his home on Tuesday night of last week, and is thought to have been drowned in the Detroit river, as his overcoat was found on one of the ferry boats. Mr. Ellison has been suffering from a nervous breakdown. He is a brother of Mrs. A. H. Copeland of Glencoe.

Glencoe now has a branch of the Canada Business College, with thoroughly competent teachers in charge. This should prove a great convenience to young men and women of the community who purpose taking a business course. It enables them to take a thorough course at home, thus saving the expense of railway fare and board in any of the larger centres.

The literary committee of the Presbyterian Guild prepared an excellent program for their meeting which was held on Monday night. Miss Margaret McDonald gave a paper on "Lieut. Col. John McRae" and Miss Evelyn McLachlan gave one on "Canadian Authors." Miss Alma Watts and Fred McRae read poems by famous Canadian authors. Miss Margaret Morrison gave a piano solo.

The marriage took place at Windsor on Thursday, Nov. 3rd, of Ross Stewart of Belmont and Miss June Russell of Glencoe. Miss Russell is well-known here, having been for several years telegraph operator for the G. N. W. and assistant in Mr. Johnston's drug and stationery store. She will have the very best wishes of a large circle of friends in Glencoe and vicinity. Mr. and Mrs. Stewart are spending their honeymoon with friends at Niagara Falls and Chicago. They will make their home in Aylmer or St. Thomas.

The first number of "The Blue Bell," a monthly magazine published by the Bell Telephone Company, has been received. The magazine is published in the interest of the employees of the company and its object is to urge them to do their best work and to let them know something of what their fellow workers in other places are doing and by a constant interchange of ideas to get the benefit of the best that is being accomplished in the public service throughout the entire field, thus making them more efficient, contented and happy in their work. The magazine is handsomely gotten up and profusely illustrated.

At the League meeting on Monday night there was an interesting discussion in the form of a debate between four young men. Mr. Boon and T. A. Craig upheld the affirmative side of the argument while Stanley McCutcheon and Chester Bechill argued the negative. The subject under discussion was "Resolved that a policeman takes more risk than a fireman." Argument raged hot and heavy for fully half an hour and at the end of the time everyone was doubtful as to the judges' decision, even the judges themselves. But the third judge, J. C. Trestrain, gave the decision in favor of the affirmative; hence the policemen run, greater risks than the firemen. Those who were absent missed a most entertaining evening.

SPECIAL NOTICES

Baseburner for sale.—P. E. Lumley.

I still have some fertilizer on hand.—J. D. McKellar, Glencoe.

Cattle wintered.—Edward Ayers, Route 3, Glencoe.

Two spring calves for sale.—T. C. Rycraft, phone 51 r 12.

Women's and men's sweaters at 25 per cent. off, at Mayhew's.

For sale—winner, used one year. Apply at Methodist parsonage.

Bruce McAlpine, dealer in flour, feed, coal, wood, salt, cement, etc.

For sale—1 quiet driver and colt and 1 work horse.—Peter McCracken.

Fresh fish, fillets and smoked scissos at Chas. George's this week.

Am still buying wheat at North Glencoe.—J. D. McKellar; phone 623 r 23.

Ladies' coats, this season's latest, at 49 per cent. off, at Mayhew's.

Practical nurse open for engagement. Phone, ring 27, line 17, McRae central.

Good assortment of hats now being sold at greatly reduced prices.—The Keith Cash Store.

Plenty of aprons for sale at the bazaar on Wednesday, 23rd, in St. John's schoolroom.

Bargain sale of men's and boys' sweaters, caps, mitts and gloves, at Lamont's this week.

Orders taken for December delivery of fresh herring in 100 lb. lots at 8c per lb.—C. George.

For sale—20 cords of dry hard wood, 16 inches long, and 1 new top buggy.—John B. McKel.

Don't forget the date of the old English dinner in St. John's schoolroom, Wednesday, Nov. 23rd.

Anyone wishing to secure hunter's or trapper's license may do so by applying to Isaac Watterworth, Glencoe.

Crepe de chine waists, georgette waists, duck suits, etc., at Mrs. W. A. Currie's millinery parlors.

Here is a bargain—a good set of solid brass mounted team breeching, 1 1/2 or 2 inch traces, for \$65.—D. Lamont.

Overcoats and suits at wonderful reductions. See Mayhew's ad.

Beautiful georgette waists, from \$4.50 up; lovely skirts from \$5 to any price you want to go.—Mrs. W. A. Currie.

Flour, bran and shorts for sale at our warehouse, opposite Frank Hayter's store.—Moss & Ekfrid Farmers' Cooperative.

Orders taken for croquet, buffet runners, centrepieces, yokes, fancy work bags and dresser scarfs. Apply to Hazel McCracken.

See what you save. Beautiful hats received in stock last week, just half price. At \$8 a hat for \$4, at Mrs. W. A. Currie's millinery parlors.

Don't buy storm doors and storm windows. Consult me about this metal weather-strip. Cheaper and better.—Vincent Watterworth.

We have a good range of winter underwear, hosiery, shaker flannels, etc., just received, and are selling at the lowest prices.—The Keith Cash Store.

Will be buying all kinds good and fat live poultry every Tuesday at Appleton. For prices see E. McIntyre or J. W. Macle.—Silverwoods, Ltd., London.

A meeting of all persons interested in the Glencoe hockey club will be held at the McKellar House Thursday, Nov. 17, at 8 p.m. Important business.

Try the Restaurant. Meals cooked any time you want to eat. Pies, cakes, bread and buns sold. Open late and early. Next to Smith's meat market.

St. John's A. Y. P. A. social advertised for Tuesday was unavoidably postponed to this (Thursday) night at 8 o'clock. All welcome. Adults, 15c; under twelve, 5c.

Poultry bought every day except Saturday. Highest prices paid. Phone 73 and have our truck call, or see George D. Hurley or L. Goff.—Lambton Creamery Co.

See what you save at Mrs. Currie's millinery parlors. For ten days we

The Vital Issue

"What we have to decide is this—Are we going to continue the protective system of this country or are we not? That is the question and that is the whole question. And the great, big, necessary thing is that every voter in this country from the Yukon to Halifax knows that this is the question he or she is deciding when he or she votes in this great contest."

—ARTHUR MEIGHEN

THE vital issue in the coming election—in fact, the only issue—is the Tariff, and to every clear thinking Canadian it should be readily apparent that a Protective Fiscal Policy is absolutely essential to stability, progress and development.

Every important country in the world upholds Protection as an essential economic principle. Even Great Britain—so long the stronghold of Free Trade—has now adopted laws that constitute Protection of the most effective kind. In fact, the present policy among most nations is towards raising their tariff walls, not lowering them. In the face of these facts it would be suicidal for Canada to do exactly the reverse and discard the fiscal system which has been responsible for its progress during the past forty-three years.

Free Trade would mean death to Canadian industry. It would also result in the immediate closing down of Canadian plants of foreign firms, with consequent additional unemployment. There are to-day 650 American factories alone in Canada. Similar proposed ventures would be abandoned. New capital would refuse to come

to a Country lacking adequate protection and present industrial enterprise would be promptly strangled by foreign competition.

The preservation of the home market by a Reasonable Protective Tariff is vital to both city dweller and agrarian alike—now as never before. More capital is urgently needed for the development of Canada's enormous resources, which will result in a lessening of unemployment and an increased population. More work and more workers will produce an enlarged home market for products of both city and farm, and the exodus of Canadian men and women—and the dollars they earn—will be precluded.

The United States has slammed her trade door in the face of Canadian farmers by adopting the Fordney Bill, and the farmer is consequently now even more dependent upon the home market than in the past.

Yet Crerar asks you to destroy that home market by voting for Free Trade.

King's policy—if he has one—will result in the destruction of the Tariff.

Meighen stands four square for Reasonable Protection—Protection for all the people—and asks for an overwhelming mandate to give both industry and agriculture that assurance which will spell prosperity for all. Individual prosperity depends upon National prosperity. Your personal interests and Canada's very existence hang upon your vote.

Meighen will lead us through

How to Prevent Colds in Poultry.

A large number of losses in poultry flocks are caused by simple colds which are neglected and soon bring on rump, bronchitis and various respiratory troubles. Many poultrymen have to spend time in trying to cure such infections when the work of prevention would be much more economical.

Here are some of the simple methods of keeping a flock free from colds. Eliminate the mites and lice. Those pests devastate poultry and make them less resistant to colds. Undoubtedly tuberculosis is more prevalent in flocks where the hens are steadily drained of their blood by mites and their skin is constantly irritated by lice.

Dusty litter is another cause of colds. If the poultry house has a floor covered with garden loam it means that much of the soil will turn to dust in the winter and it will be "kicked" into the air by the scratching of the birds. This dust settles all over the poultry house and the air is always unclean, making it unwholesome for both the hens and their caretakers.

Sand and not garden loam is necessary if any dirt is used on the poultry house floor. If sand can not be obtained easily, I believe it is better to have a cement or board floor in the poultry house and cover that with a deep straw litter, but use no soil. Fresh straw can occasionally be added as the old litter becomes packed down. All of the old litter should be removed when it becomes damp, tough and dirty and observation proves it is unfit for scratching material. The number of birds in the house will influence the condition of the litter. Overcrowding either in the corners of the house or on the roosts will cause the birds to become overheated. Then they are chilled on going out on the cold ground and this causes colds.

Young stock are sometimes slow in learning to roost and crowd each night in groups in the corners of the houses. It pays to provide ample roosting space and teach all the birds to roost. Early roosting may cause an occasional crooked breast, but that condition will not happen often in vigorous stock, and a few crooked breasts will cause less loss than an epidemic of colds and rump.

To watch for the beginning of colds, fasten the poultry in their houses at night. The next morning open the door a short distance, which will allow the flock to come out slowly. Watch their heads to see if there are any swollen eyes. Note the feathers

around the neck to see if they are smeared with the secretion which the bird has endeavored to remove from its sore eye. If any birds are slow about coming out, look them over thoroughly. This quick inspection will locate any colds that may be just beginning. Such cases can be isolated and treated at once.

At night walk along the roosts. Listen for hard breathing which may be due to colds or bronchitis. Colds of any kind can spread through a flock and any birds that show signs of illness must be removed. Poultry diseases can be spread rapidly through the medium of drinking water. It pays to color the water a deep red with permanganate of potassium if many colds seem to be starting in the flock. This disinfectant will help to stop the trouble. When it is used the hens must have no other source of water supply or they will not touch the red water. It does not pay to use the permanganate unless it is quite necessary, as the hens should drink plenty of clean water to keep them in a healthy laying condition.

Another way to prevent colds is to kill a bird that is seriously ill with rump and burn or bury the carcass deeply. Often breeders try to doctor a bad case with rump cures and after much hard work the bird has to be killed. Or the bird appears about well and is turned loose with the flock, only to spread the contagion to other birds. Some cases can be cured but they are a great risk on the premises. By giving the birds frequent health inspections it is usually possible to prevent colds and rump and this is better than trying to make cures.

Poultry houses are frequent causes of colds. Damp floors, leaky roofs, draughty houses or the lack of ventilation will cause sick birds. Removing these causes is a great help in keeping the flock healthy. The open-front house has been proven to be a dry house, while the closed house will show dampness all over the walls and windows. The damp house is a cold house. Birds can stand a lot of cold, but dampness is bad for them. The cold draughts which blow the feathers out and expose the warm body also cause a chilling that may result in colds. The hens are tropical birds and their dislike of cold winds is proven by the appearance of the range on a cold windy day. The hens will be out of sight seeking shelter almost anywhere that they can obtain protection from the wind.

Milk and Tuberculosis.

A certain farmer had his herd of cattle tested for tuberculosis. One cow reacted. Now the farmer thought he knew more about the value of tuberculin tests than the provincial inspector. He thereupon removed the ear tag from his infected cow and, with much seeming generosity, presented her to his hired man for wages.

There were seven children in the hired man's family, his wife, a pig and a cat. All save two of the children, the farmer and his wife, drank milk from the tuberculous cow. The five children, the pig and the cat, have all contracted the disease. This seemingly generous farmer has thereby been responsible for introducing into a poor family this disease. He may even be the indirect cause of a resulting death and be liable to the charge of manslaughter.

So much for that one particular case.

Bovine tuberculosis can be transmitted from cows to human beings. The milk from tuberculous cows frequently carries the germs of tuberculosis. Since children are the ones who drink the most milk, bovine tuberculosis is found more among them than among adults. Moller, for example, said that among 2,043 adults with tuberculosis, only two per cent. were of the bovine type, mostly of the abdominal and glands. Only half of one per cent. of all bovine tuberculosis is of the lungs. However, eighteen per cent. of a group of children who died of tuberculosis were found to have been infected with the bovine bacillus. Probably eight per cent. of all the tuberculosis deaths are due to bovine diseases.

Under five years of age bovine bacilli are supposed to be responsible for sixty-one per cent. of tuberculosis of glands, fifty-eight per cent. of abdominal tuberculosis, sixty-six per cent. of generalized tuberculosis and tuberculous meningitis, twenty-seven per cent. of tuberculosis of bones and joints. One authority says that ninety per cent. of the glandular form in Edinburgh is of bovine origin. Moreover, in the case of both cows and humans the disease does not always manifest itself where the germs get in. Otherwise, all bovine tuberculosis would be likely to be in the digestive tract. Children who drink the milk of tuberculous cows may have no trouble there but may show the disease in remote parts of the body, as in the knee, the hip, the spine and the lungs.

Although children do not always die from bovine tuberculosis, if they recover, they are likely to be either disfigured or crippled.

The cow is an animal we ordinarily consider friendly and harmless. Yet

a cow sick with tuberculosis may be more dangerous in a community than a roaring lion. It has been estimated that of cows slaughtered in London twenty-five per cent. are tuberculous. In order to avoid the very serious danger to man of tuberculosis in cattle the careful inspection of all dairies is necessary. There should be inspection also of all those who work about cows and in dairies, both in order that germs may not get into the milk after it leaves the cow and that the healthy cows may not become infected. Most cities have such regulations for the examination of the milk supply and utmost care should be taken in the enforcing of these.

Milk that comes to big cities often travels a great distance. It is sometimes twenty-four hours old when delivered at the door. Milk that is old, or has been allowed to be warm in transit is likely to have several times as many germs as that which is fresh and has been kept cold. Good milk inspectors take no chances for there is no better food on which to feed germs than milk.

As a matter of safeguarding health, even with the best inspection, milk for babies should be pasteurized. This is done by heating the milk to one hundred and forty-five degrees Fahrenheit and allowing it to remain at that temperature for twenty minutes. Rarely is the meat of tuberculosis, have rigid laws condemning these animals for food. Other animal products, however, such as butter and cheese, may contain germs. It is milk especially which must be most carefully inspected for that is the food of our babies and children, the future men and women of our country.

Tile Drainage vs. Surface Drainage.

It is doubtful if the benefits accruing from tile drainage as compared with surface drainage are as widely recognized as they might be. At one of the Illustration Stations conducted under the Dominion Experimental Farm system, the tile methods are being thoroughly tried out. Two four-year rotations are being carried on, one on land which is fairly well drained, the other on land adjoining the first, both soils being similar. Banner oats have been sown in each instance, the results being a yield of 55 bushels per acre on the tile-drained land at a cost of 36¢ cents per bushel, and on the surface-drained land 21 bushels per acre at a cost of 74¢ cents per bushel. If sold at one dollar per bushel this would mean that the profit from the tile-drained land was \$34.79 per acre against only \$5.30 from the un-drained land.

Rabbits for Meat and Fur.

It is advisable not to market rabbits that are over five months old—two or three months old would be better. At the earlier age the rabbit is in its prime, but after it reaches five months the meat toughens.

It seems to be a common belief that the rabbit is fit to eat only during the winter months. The truth is, the domesticated animal is good for meat the hottest day of July as well as the coldest day in December. In fact, it is good food the year around. While the pelt commands a better price during the winter, the summer pelt brings profitable returns.

Instruments needed for dressing are a sharp, small-bladed knife for the actual skinning; a gambrel that may be purchased from any rabbit supply house, accurate scales, one heavy skinning knife to cut the tail bone, sever the head and cut off the front feet, a heavy wire stretcher, and a dull knife to scrape off fat after the skins are dried.

To kill the rabbit hit a hard blow with a short round stick, placing the blow in front of the ears, and by doing this the carcass will not be bruised. Bleed, and then hang up on the gambrel and skin immediately.

To skin start the knife as far up on the hind legs as possible, and cut the skin down the middle of each leg to the base of the tail. Cut the tail bone and then pull the skin, not using the knife, as far as possible to the head. Cut the skin at the neck and the job of removing is completed.

To dress, begin at the base of the tail and slit down the belly, being careful not to cut into any of the organs. Cut off the head and front feet. Remove the organs, leaving the kidneys intact; save the liver. Soak the carcass in water for an hour and trim it up a little so that it will look neat. Next hang it up by the hind legs in a cool dry place until morning.

When shipping, wrap each carcass in parchment paper and include the liver, also carefully wrapped up and put in the carcass.

Having marketed the rabbit, attention should be paid to the skins. Having previously placed the skins on the wire stretcher, hang in a cool dry place for about a week or so until thoroughly dried. Then the fat must be removed with a dull knife. These skins must never be dried by artificial heat nor by the direct rays of the sun, and compounds such as alum and salt must not be used on the skins. Store the skins where they can not be reached by mice, and sprinkle them with insect powder, or use moth balls. Furs stored during the summer should be wrapped separately in newspaper to prevent sweating and injuring each other.

It would not be profitable to raise rabbits simply for their pelts; the price paid for them is not, at the present time, sufficient to make it worth while. But as a by-product these pelts are worth considering. Farrington, in his book on practical rabbit keeping, says if the skins are to be salable, they must be obtained when they are in the best condition. During a molt they are worthless, unless a market can be found for them at a glue factory. The skins are at their best in the winter, say, between October and March, and rabbits which

extend much farther than mere amusement. Your community will unconsciously adopt new standards of health.

Offer red ribbons for those who are to be put up as honor pupils of the children who are entirely normal, and print their names in the local paper. Every little fellow who "doesn't like milk" will conquer his aversion, in order to put his name on a level with that of Roddy Smith who took a prize. "Tubby" Jones will walk a mile or two each day when he finds there is hope of losing his nickname.

Prizes for the Normal.

Next time you have the attraction, give special honors to those who have made the normal by their efforts, and have a trained dietitian present to give advice to those who want to ask questions. Vary it again by tests of strength and skill by the competing children. If you have no supervised playground work in town, let that be urged another time. Show pictures, moving or stationary, of children at play, pictures and diagrams of home-made apparatus, a demonstration of simple games. In time, play will be taught in every school. Many children do not know how to play intelligently. You would not want your schools to be the last to fall into line. Children who play fair and hard will work fair and hard later on.

It is vain to begin welfare movements as a duty of the unthinking sort. Any movement worthy of success can succeed from small beginnings through its own worth with only thoughtful planning by its promoters and pushing by those who see its good points.

Put a reliable set of scales in the hall of the public school, have a weight-and-measure contest at the next town celebration, and your public welfare centre, recreation hall, playground, athletic field and swimming-pool will come by the time there is enough money in the treasury. Best of all, the town will be full of live, healthy citizens, big and little, to make the most of living.

are kept in out-of-door hutches are apt to develop a better quality of fur than those which are housed in warm-er quarters. Sherlock, in his work on the care and management of rabbits, says the fact that the domesticated rabbit has a thick, tough pelt when properly matured and cured, has caused many furriers to turn to it as a source of supply in replenishing the loss occasioned by the smaller catches of wild fur each season.

Turning Straw Into Manure.

A notable discovery of special interest to gardeners and farmers has just passed out of the laboratory into the practical stage. A bacillus with such a powerful digestion that it can "break down" cellulose—the toughest part of vegetable growth—was discovered and multiplied at the Rothamsted Experimental Laboratories some time ago. It has so flourished that its digestive powers have passed all expectation, and it is now capable of taking the place of cattle and horses.

The special work to which it is being harnessed is the breaking down of straw. With the help of some other kindly bacteria and bacilli it will convert straw into the best "farmyard manure." This achievement has been watched for some months in the laboratory with unvarying success. Straw has been converted into the best manure without the aid of any animal big enough to be visible.

The method is now proving equally successful on a large scale. Tons of straw so treated are quickly and cheaply converted into a fertilizer that has all the mechanical as well as the chemical virtue of the ordinary farm-yard manure.

The straw is twice watered, then treated with a mild sprinkling of nitrogenous solution, and the benevolent bacteria go to work at once, multiplying into incalculable millions within a few days. Farmers who have seen the product are convinced of its value, which, indeed, has been proved by a number of plot tests.

The Live Stock Trade.

A demonstration of the amount of business done at the principal stock yards in the country is furnished by figures from the Live Stock Branch at Ottawa. These returns, which cover the receipts at each place for the period from January 1 to October 20 in 1921 and in 1920, are here given:

Montreal, 1921, cattle 55,882, calves 88,467, hogs 125,814, sheep 136,076; 1920, cattle 72,283, calves 112,994, hogs 111,302, sheep 187,123. Toronto, 1921, cattle 250,192, calves 59,531, hogs 229,941, sheep 195,584; 1920, cattle 236,374, calves 70,695, hogs 246,317, sheep 183,297. Winnipeg, 1921, cattle 100,612, calves 14,653, hogs 89,307, sheep 81,468; 1920, cattle 178,663, calves 16,413, hogs 119,224, sheep 36,582. Edmonton, 1921, cattle 27,249, calves 3,648, hogs 23,611, sheep 6,234; 1920, cattle 23,472, calves 4,092, hogs 22,693, sheep 6,523. Calgary, 1921, cattle 52,299, calves 9,123, hogs 31,667, sheep 42,500; 1920, cattle 67,119, calves 10,419, hogs 24,671, sheep 31,129.

*Includes both the Point St. Charles and East End Yards.

What Do Your Children Weigh?

By Nellie Burrows

Perhaps even more important than the statistics of pre-school age, are those of rapidly growing school children. As in all things worth doing, there is a "shorter way" to reach the goal, in this case, to interest each child in its own progress. Happily, the interest is there, ready to come at the first call.

A typical example of this was found in a school where the Public Health Nurse was examining the pupils. The scales she used in the weighing were left in the hall, and children of third and fourth grade age, and even older pupils, flocked about the scales continually weighing themselves and each other, measuring by the "forepost and ruler" method, and comparing their height and weight with standard tables. Several teachers began to take interest in these "before-school" clinics, and gave advice as to foods and exercise to those who wanted to correct their weight. Interest in hygiene rose automatically. The children were eager to be "really examined," and suggestions from the nurse were taken seriously and followed cheerfully.

Health Exhibits at Fairs.

People are always interested in information that concerns themselves; that is why fortune-telling flourishes. Adults, too, would welcome a chance to adjust their weights to the normal. Often a little information will work wonders, but it is well to begin on the public as young as possible, for children are the greatest information gatherers and spreaders.

There are no better opportunities for presenting health movements than at the county fairs, local field days, home-coming celebrations, civic exhibitions or, in small places, at church and fraternal occasions.

"A What? Would You Weigh?" exhibit, consisting of scales, measuring standard, and a big chart of corresponding heights and weights for men, women and children, is all that is necessary. It will create amusement for old and young, but its results will

The Welfare of the Home

Nature Study and the Child in the Home

BY ELLEN EDDY SHAW

All mothers who wish to establish in their children a love for Mother Nature should take active steps to arouse their interest in the wonders of it. In many ways, activities in the home leave even more lasting impressions than similar activities in school. We cannot separate homes and gardens and Nature and children. What then can we do this winter with our little folks?

When cold weather comes in town or country, we might take little excursions out into the parks and fields, or into our own gardens, and help Nature's children, the birds. The woodpecker, the nuthatch and the chickadee seldom change their homes in winter, so no matter in what part of the country we live, we are sure to find some feathery friends who will appreciate our neighborliness.

Let us have some fun with the birds and encourage them to come around our homes; for birds are not only beautiful, but they actually do work for us by eating insects which destroy our plants and trees.

I knew of one little boy who was very fond of birds and who loved to have them about him. One sunny winter morning when he was playing in his garden he noticed a woodpecker tapping the south side of a maple tree.

He approached the tree very quietly and stood near enough to it so that

he could see many tiny holes or wells which the bird had driven into the bark. He was surprised to see that the bird hopped from one hole to another in its effort to catch the sweet sap as it oozed slowly out of the different holes!

The little boy was so impressed with the woodpecker's need for food that he decided to help feed any feathery friend that might come to his garden. He saved bread crumbs and dried them in the oven, then he mixed them with some grain which his father bought for him. Every morning he sprinkled some of this dry mixture on the ground where the birds could easily find it. One day he went to market with his mother and bought a piece of suet, and, with his father's help, fixed a piece of fine chicken wire over it and tied it to a limb of the maple tree. The chicken wire prevented the larger birds from carrying the suet away but the smaller birds could easily peck through the wire and get some fat which helped to keep them warm and which was hard for them to find in winter time.

The little boy enjoyed feeding the birds very much and he found that they depended upon him when the ground was frozen and they could not find food for themselves. He was particularly delighted to find that some of them became so tame that they would gather around him when he sprinkled their food upon the ground.

The Boys' and Girls' Club Movement.

Nothing is more marked in the agricultural life of Canada than the attention that is being given to the agricultural education of the young. By young is meant boys and girls ranging in age from around fifteen years and under, say to twelve years. Much of this instruction is not altogether school work but is of a practical nature. Of great prominence in this direction is the encouragement given to boys' and girls' clubs and school fairs for the rearing and exhibiting of calves, pigs, sheep, and poultry.

It is not so many years since the first of these organizations came into being, and there are now hundreds of them scattered throughout the country. While they have fairly taken hold of the popular imagination, as evidenced by the general support that is forthcoming from many quarters, including banking institutions, fairs, exhibitions, and other interests, they have been greatly fostered and encouraged financially and in other ways by the different government departments. While the provinces have in this way made their influence felt, the Dominion has not been behind. Each year, grants of some magnitude are made to the provinces for instructional purposes, chiefly under the Agricultural Instruction Act passed by the Dominion Parliament in 1913, and providing for the distribution of ten million dollars within a period of ten years. The movement owes its rapid and successful development largely to the fact that the grant is available for undertakings of this kind. It is hardly necessary to point out how much good is derived by those who take part in these live stock, judging, canning and preserving, and similar club competitions and contests. Principally, of course, it consists in the training of young people in projects of a practical kind, and in the acquiring of knowledge through actual experience, thus laying the foundation of self-reliance and efficiency in after life.

Preserving the Paint Brush.

We have seen brushes many times in the basement, the granary, or some other outbuilding standing in an old paint pail containing a small quantity of linseed oil. A tough skin has formed around the brushes over the top of the oil. When you desire to use one of these brushes, you pull it out and find the bottom of the bristles bent to one side and held together by paint which has settled to the bottom of the vessel.

This can easily be avoided. Simply suspend the brush in the pail and do not allow it to rest upon the bottom. This may be done by boring a hole through the handle of the brush and inserting a wire which has been cut long enough to extend across the top of the pail. Several brushes may be placed on the same piece of wire; then pour sufficient linseed oil in the can to cover the bristles.

Storing the Seed Corn.

Overconfidence may shorten next year's corn crop. Many farmers are placing full confidence in the long season and the comparatively mild fall to get the seed corn for next year in perfect condition. They are taking a chance. It is not safe to depend on outside curing. Less risk will be taken if the corn is placed by the kitchen stove, in some room with artificial heat, or in a warm ventilated attic. This will remove the moisture before freezing weather. Corn so handled is certain to show a high germinating test next spring. Freezing has very little effect on the germ of the kernels after the ear is once well dried. Remember that it only takes two hundred ears to plant a ten-acre field and that a single dead ear is sure to mean a considerable loss.

BUCKING VERSUS BUZZING WOOD

When a fellow looks back he realizes that times do change. Take it just a few years ago, the only way we thought we could saw wood was with the old buck-saw, or by manipulating our end of the cross-cut. But now, we put the best hired man on the place—the gas engine—on the job and cut cords in the time it used to take to saw pieces.

There is no doubt but what the old way of doing things contained certain personal associations which are missing now. Take, for instance, there must have been a feeling of regard in wearing clothes made by mother from cloth she spun on the loom. There is that personal relationship to the garment which does not exist when we go down to Sam Blumenthal's and buy a suit for \$29.50.

So, in the saving of wood, there is the spirit of contest with the fellow at the other end of the cross-cut and the satisfaction of seeing your strength and his laying to waste a giant of the forest. Then, too, there is a lot of pleasure in the after-effects of a tussle with the saw when you sit before a big stack of buckweed cakes and make it disappear. And last, but not least, what beats the enjoyment of a well-earned sleep?

The personal element of the old ways can not be disregarded, but it would seem folly to think of mother making our clothes now. Times have changed and so have our duties and pleasures. In the transition from the personal age to that of metal, we have changed our thoughts, too, or rather broadened them. Individual and family thought should exist, but more for the purpose of helping the individual and the family to serve the neighborhood and nation better. Really, our neighborhoods have broadened considerably in the last generation, so that they now include multitudes instead of a few individuals. The might of metal has been greatly responsible for this change, for metal put to work has done a great share of our work for us and has given us the time to consider bigger and broader things.

So let's put up the old buck-saw and give the cross-cut a rest while the engine "put-put-put" away, giving the buzz-saw the pep to quickly turn logs into cords. By this, it is not meant that the old "armstrong" saw-just makers should be relegated to the junk heap but, on the contrary, they should be given good work for they will come handy for small jobs when the getting ready for the buzz-saw and engine equipment is inconvenient and would not save time.

The saving of time is a modern tendency which is essential to human progress. It therefore seems that there is a social reason for modern conveniences and that we help general progress as well as our own when we use efficient labor-saving devices of every opportunity.

Shivery Signs.

Are you a "shivery mortal"? If so, do you know why you shiver? You may say that you shiver from cold, but that is not quite correct. You shiver because (1) you are below par in health, or (2) because you are not generating sufficient bodily heat, or (3) because you are protecting yourself wrongly or insufficiently—act against the cold, but against the loss of bodily heat.

Shivers, those of the long, creepy sort especially, are usually a sign of below-par health. We know that anyone not in good health shows it facially, but is it not so easily gripped that the whole skin is affected also? The tiny nerves, the perspiration glands, the veins are each and all influenced. The texture of the skin is changed, and the result, when cold weather comes, is "shivers." A tonic, doctor-prescribed, would stop them.

The second point—sufficient bodily heat not being generated—can be remedied easily. Your food is the body's fuel. You require fuel that will produce heat. Sugar will, so will fat, so will porridge. Treble your sugar ration, compel yourself to eat fat bacon, pork, oily kippers, and so on, and your body warmth will jump amazingly. Shivers will depart. Exercise, of course, will spread the heat all over the body.

The third point—wrong or insufficient protection—can be adjusted by remembering that the main function of clothing is to prevent the undue escape of body heat. The prevention of the ingress of cold is quite secondary. So wear wool, because it holds the heat in itself, and wear it loosely. Thus you get a barrier of warm air between you and the outside air. Assuming that you wear outer clothing sufficient to repel scorching winds, you cannot possibly shiver.

So—keep well; eat fat; wear inner clothing which will hold the body-generated heat, and outer clothing which will repel wind, and you could not shiver if you tried.

Traces of Insanity.

Counsel for the prosecution had been building the witness for an hour, when he asked, finally:

"Is it true that there are traces of insanity in your family?"

"Very likely," answered the witness.

"My grandfather who was studying for the ministry gave it up to become a barrister."

Women cannot stand physical strain as well as men, according to a London specialist, who says the blame on weaker nerve centres.

Not By Accident

The Mayhew & Co. Store has won its place as Glencoe's Real Value Givers. Leadership comes to a store only after it has gained the confidence of its customers. It does not come by accident, nor is it accomplished overnight. Men and women have confidence in our merchandise as gained from years of experience in shopping here. This store offers:

- Men's and Young Men's Suits and Overcoats in fifty new styles at \$15.00 and \$25.00.
- Ladies' Coats, newest cloth and styles, at \$19.00 and \$29.50.
- All colors in the new Jumper Flannel at \$2.39 per yd.
- Men's, Ladies' and Children's Underwear, reliable lines of Turnbull's and Penman's.
- Men's Heavy Fleece Lined and Wool Underwear 98c and \$1.50 per garment.
- Men's "Best Make" Work Shirts and Overalls 98c and \$1.79.
- Men's, Ladies' and Children's Hosiery at lower prices than elsewhere.
- Shoes for all members of the family at \$\$\$ cheaper than elsewhere.
- Best Dragon Flannelette Blankets at \$1.98.
- Best All Wool Blankets, lg. size, at \$6.95.
- A special line of Boys' and Youths' Overcoats, good style, at \$9.00.
- A special line of Men's Heavy All Wool Sweater Coats, made to sell for \$6.50, at \$3.75.
- Ladies' Aprons, Cover-all, Dolly Prim, and Sanitary Aprons, at 95c.
- A Remnant Table full of tempting values.
- Rugs, Linoleums, Oil Cloths and Window Shades at greatly reduced prices.

Every article in store is real value. Try us and be convinced.

The Transcript.

THURSDAY, NOVEMBER 17, 1921

WARDSVILLE

About thirty members were present at the A.Y.P.A. meeting held on Friday evening in the basement of the church. The president, Harry Skit, took the chair, and the following program was given: Recitation, Rhea McRae; instrumental, Loraine Henderson; reading, Ava Weer; paper read by Rev. Mr. Murphy. A lunch was then served by the ladies and a social time enjoyed.

Dr. Bert Wilson of London spent a day in the village.

Mrs. (Rev.) Murphy is spending a couple of weeks with her sons and daughter in Toronto.

Mrs. Callon of Toronto is visiting at Mrs. Henry Archer's.

Mr. and Mrs. John S. Waterworth of Duluth are visiting Mr. Waterworth's sister, Mrs. Joe Simpson. They are on their way to spend the winter in Florida.

Mrs. Hughes of Detroit is visiting Mrs. Jim Mulligan.

The W.H.S. Literary Society held a meeting on Friday afternoon. The president, Gordon McIntyre, presided. After the routine business a program was given which consisted of a vocal solo by Mary Leverton, a reading by Ava Weer, a recitation by Rhea McRae, an instrumental by Winnifred Parnall, a speech by Roderick Ferguson, and a debate: "Resolved that the immigration of the Japanese and Chinese should be prohibited." The affirmative side was upheld by Malcolm Elliott and Walter Whitfield, and the negative by Frances Murphy and Ava Weer.

NEWBURY CASH STORE

The Bulletin was read by Roderick Ferguson.

Miss Violet Murphy spent the week-end at her home here.

J. A. McRae spent Monday in Chatham.

The Halloween social which was to have been held Oct. 31st will be held Friday evening, Nov. 18. Don't forget. A good program and lunch.

Every careful and observant mother knows when her child suffers from worms. She also knows that if some remedy be not speedily applied much harm will result to the infant. An excellent preparation for this purpose is Miller's Worm Powders. They drive worms from the system and set up stimulating and soothing effects, so that the child's progress thereafter is painless and satisfactory.

WOODGREEN

Dr. Wm. Weekes, who was home from Vancouver on a short vacation, has left for Northern Ontario, where he has taken a practice.

What might have been a serious accident occurred on Thursday evening when a car which Isaac Watterworth was driving backed down over the steep embankment in front of R. Eddie's and overturned. The top and windshield were completely demolished but all in the car escaped with a few bruises except Mrs. A. Clannahan, who had her back severely wrenched but is now on the road to recovery.

A large number from here attended the chicken supper at No. 1 Friday evening. After the bounteous supper a splendid program followed, consisting of songs, speeches, etc. The proceeds will go to help buy a new piano.

Mrs. R. Stewart, Glencoe, spent a few days with Mrs. A. Clannahan.

Ralph Perrin, who has spent some time in Blenheim, returned home on Sunday.

Mr. and Mrs. Fred Scoyne of Blenheim are spending their fall with Mr. and Mrs. David Perrin.

Myers Elliott of Florence spent the week-end with Mr. and Mrs. Thomas Simpson.

Mr. Walker of Blenheim is visiting Mr. and Mrs. Nelson Henderson.

Preparations have begun for the annual Christmas concert.

The Graham bridge, although not quite finished, is open for traffic once more, thus saving a great deal of inconvenience.

Miss Kate Lumley, who has been visiting in Chatham and Windsor for the past two weeks, has returned to her home here.

Sweet and palatable, Mother Graves' Worm Exterminator is acceptable to children, and it does its work surely and promptly.

NEWBURY

Wm. Connelly's fine new bungalow is completed, adding much to the appearance of the north end of the village. R. H. Moore and A. R. Winship have each built additions to their houses this fall.

Miss Frances Vanduer, nurse in training at Toronto, is spending a few weeks with her mother here while recovering from an operation for appendicitis.

Ernie Davis of Detroit has been visiting at the home of his uncle, George Martin. Fred Andrews, who recently returned from the West, is also visiting there.

Miss Martha Gordon left last week for London, where she will remain for the winter.

David Gage was in Forest last week attending the funeral of his brother, the late Major Gage.

Miss Flossie Stocking and brother Russell arrived home from the West on Saturday.

Mrs. John Cousins and baby Betty of Harrow are visiting her father, R. J. Hagith.

Rev. Ben H. Spence of Toronto addressed a meeting in the town hall Sunday evening in the interests of the Dominion Alliance. Howard Russell of Toronto sang. There was a good attendance.

It Bids Pain Begone.—When neuralgia racks the nerves or lumbago cripples the back is the time to test the virtues of Dr. Thomas' Electric Oil. Well rubbed in it will still the pain and produce a sensation of ease and rest. A trial of it will establish faith in it.

NORTH EKFRID

Walter Webster of Schreiber has returned home after spending a few days with his parents, Mr. and Mrs. Wm. Webster.

Mrs. Wm. Foster is visiting her brother in Melville for a few weeks.

Miss Pearl Pettit spent a few days with Mrs. Levi Howe, Appin.

The Women's Missionary Society met at the home of Mrs. Wm. Pierce on Thursday, Nov. 10, with a good attendance.

Mr. and Mrs. Russell Roemmel have returned home after spending their honeymoon in Windsor and Sarnia.

A funeral from this vicinity attended the funeral of Mrs. Harris of Adelaide.

J. D. Drummond, U.F.O. candidate, will speak in the schoolhouse at North Ekfrid on Nov. 18 at 8 p.m.

Roy Pettit spent a day in London this week.

Miss H. Jeffery of Detroit spent a few days with her brother, George Jeffery.

Miss Lizzie Down spent a few days in Appin recently.

Stewart Campbell is spending a few days with friends at North Ekfrid.

SHEPHERD

Mr. and Mrs. Bert Playfoot spent Sunday at the home of her parents.

Master Gordon Jeffery is getting along nicely after the serious accident he met with a week ago Friday.

Ernie Rush spent Sunday at his home.

Mr. and Mrs. Douglas Dobbyn and daughter Phyllis spent Sunday at L. H. Badgley's.

The public library are having a box social Friday evening in the town hall, Shepherd.

Rev. Dr. Hunsdale, Wardsville, will conduct the service in the Methodist church next Sunday morning.

Mr. and Mrs. Joseph attended the funeral of her nephew in Chatham Sunday.

SHIELDS SIDING

The Winningsdale U.F.O. Club will hold a social evening on Friday, the 18th. A good program is being arranged. Everybody welcome.

Mr. and Mrs. J. D. McBride spent Thanksgiving in Walkerville.

Miss Bessie McAlpine spent the week-end in Strathroy.

We are glad to hear that Gertrude Purcell is improving, though slowly, after a serious illness.

A little still he chose, and much repented. When cope swooped down and found the stuff fermented.

MELBOURNE

Gilbert McLean has been confined to his bed for over a week, suffering from an ulcer on the eye under the upper lid. Although still suffering severe pain he is now improving, although very weak.

Miss Emily Trace of London spent a few days here the guest of Miss Mother.

The W. M. S. of the Presbyterian church held an afternoon tea at the home of Mrs. John McDougall. Mrs. Arthur Staples addressed the gathering on mission work.

The Epworth League held a very profitable meeting last week, it being missionary night. Miss Hogg, teacher in the continuation school, gave a splendid talk on deaconess' work. Mrs. Theaker and Miss Snell gave a piano duet.

Mrs. James Collier is spending a few weeks in Toronto the guest of her daughter, Mrs. Ed. Dyer.

The people in this district received a great surprise when they awakened one morning to find the ground covered with six inches of snow and in many places deep snow banks. Many farmers have not finished their fall plowing and some have roots still in the ground. Cattle were caught out on the pasture, many without shelter, which gave the farmers and men dealing in stock a busy time for a few days.

The pupils of the Melbourne continuation school held their first literary of the year on Friday, Nov. 11th, an invitation being extended to the local school, which was accepted. The program was furnished by Form III, and the meeting was opened by the president, Arthur Elder, after which the vice president, Sadie Switzer, took the chair. An excellent musical program was given, also a debate: "Resolved that birds can prophesy the weather." The affirmative was upheld by Arthur Elder, the point was well argued by his opponent, Gaunt Long, the former winning by a few points. Another interesting number was the reading of the Bulletin by the editor, Margaret Campbell.

The Many-purpose Oil.—Both in the house and stable there are scores of uses for Dr. Thomas' Electric Oil. Use it for cuts, bruises, burns, scalds, the pains of rheumatism and sciatica, sore throat and chest. Horses are liable very largely to similar ailments and mishaps as afflict mankind and are equally amenable to the healing influence of this fine old remedy which has made thousands of firm friends during the past fifty years.

APPIN

The regular meeting of the Women's Institute will be held at the home of Mrs. James Lotan on Thursday, Nov. 24, at the usual hour. After the delegates' report is read a quiver of answer on the convent in will be called. All visitors welcome.

The regular monthly meeting of the "Progressive" organized class of the Methodist Sunday school was held last week at the home of their teacher, Mrs. James Lotan, when an election of officers for the coming six months took place. The officers elected were: President, J. D. McDonald; vice president, Helen Macfie; secretary, Charles Black; treasurer, George Gates; pianist, Gertrude Lotan. Splendid reports of the last six months' work were given by the secretary and treasurer. The class decided to get up a play in the near future.

A large congregation listened with much interest to a very instructive and uplifting address by Rev. W. Sparling, returned missionary from China, in the Methodist church on Sunday evening. Mr. Sparling dwelt on the wonderful work being done by the churches and their workers among the Chinese people.

Miss Gertrude McGill has returned after a week's visit in Detroit.

We are glad to hear Miss Anna Farrell is improving in health.

Miss M. Pole of London is visiting relatives in this vicinity.

We are glad to welcome to our village our new doctor in the person of Dr. McTavish of Toronto, who has opened up an office here.

The sugar beet harvest is almost over here now and the farmers were very fortunate in having good weather and good roads while drawing.

ALVINSTON

Wm. Ross of the 7th concession of Brooke has sold his 100-acre farm to Wm. Bourne of Brooke for \$4500.

Mr. Ross is taking up his residence in Sarnia.

John Clothier of the 9th concession of Brooke has sold his 100-acre farm to Orval Johnson for \$4500.

Mr. Clothier is also moving to Sarnia.

John McKellar, drover, has shipped a carload of cattle, averaging almost 1500 pounds, to Liverpool, England. Harry McKellar, a war veteran, went with them.

James McTaggart has begun buying cattle for the Harris Abattoir.

Dr. E. C. Axford has been appointed coroner for Lambton county.

A. Pain has purchased the residence of Charles Marwood, the latter having moved to the residence recently vacated by Mr. Smith on Elgin street.

George Shaw, for 23 years an employee on the section here, has been pensioned by the G. T. R.

There isn't much difference between sight and vision, but it makes a mighty difference whether you call a woman one or the other.

Everybody knows that in Canada there are more

Templeton's Rheumatic Capsules

Sold than all other Rheumatic Remedies combined for Rheumatism, Neuritis, Neuralgia, Sciatica, Lumbago, etc.

Many doctors prescribe them. Most druggists sell them. Write for free trial to Templeton, Toronto.

Sold by H. I. Johnston

TORTURED BY KIDNEY TROUBLE

Quickly Relieved By Short Treatment With "FRUIT-A-TIVES"

MADAM LALONDE

170 CHAMPLAIN ST., MONTREAL, P.Q.

"I am writing to tell you that I owe my life to 'Fruit-a-tives'. This fruit medicine relieved me when I had given up all hope of recovering my health."

"I suffered terribly from Kidney Trouble, Dyspepsia and Weakness. I had these troubles for years and all the medicine I took did not do me any good."

"I read about 'Fruit-a-tives' and I tried them. After I had taken a few boxes, I was entirely relieved of the Kidney Trouble, and Dyspepsia, and had gained in strength."

"I hope those who suffer with Kidney Trouble, Dyspepsia and Weakness will take 'Fruit-a-tives' to recover their health."

JEANNETTE LALONDE.

50c a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

EKFRID STATION

The U.F.O. meeting that was to have been held in Appin Friday night will be held Saturday night, Nov. 19.

The E. U. S. S. of No. 4, Ekfrid, will hold their annual Christmas entertainment in the school house on Friday evening, Dec. 23rd.

Services will be held next Sunday evening at 7.30.

DAVISVILLE

Mr. and Mrs. Charles Dufrey of Detroit are spending a couple of days with Mr. and Mrs. Thomas Dufrey.

Mr. and Mrs. Fred King left on Friday evening last for their home.

Born in Detroit, to Mr. and Mrs. Clayton Armstrong, a son.

Mrs. Dan Hillman spent Thanksgiving with friends in London.

Eddie Leitch from Dutton called on Davisville friends last week.

Hughie Armstrong is fixing over his house.

Drives Asthma Before It. The smoke or vapor from Dr. J. D. Kellogg's Asthma Remedy gives asthma no chance to linger. Our experience with the relief-giving remedy shows how actual and positive is the success it gives. It is the result of long study and experiment and was not submitted to the public until its makers knew it would do its work well.

SCHOOL REPORTS

S. S. No. 3, Ekfrid

Report for October. Names in order of merit. Those marked with an asterisk were absent for one or more examinations:

Sr. IV.—Weldon Lockwood, Gilbert Stevenson, Willie Campbell, Evan Cornelle.

Jr. IV.—Eva Johnson.

Sr. III.—Betty Wayman.

Jr. III.—Jean Johnson, Chester Lockwood, Billie Brown, John Johnson, Willie Tanner.

Class II.—Dorothy Campbell, Bert Cornelle, Melvin Huston.

Class I.—Harold Cornelle, Clare Huston.

Primer.—James Tanner.

Mattie McRae, Teacher.

MEETINGS

J. D. DRUMMOND

U. F. O. CANDIDATE

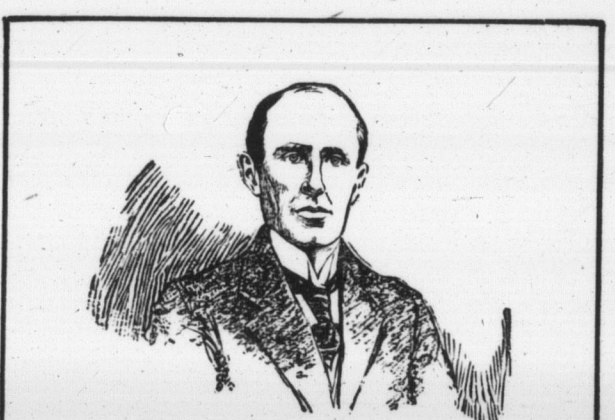

Will address the following Meetings at 8 p. m.

Komoka	Thursday, November 17th
Middlemiss	Friday, " 18th
Appin	Saturday, " 19th
North Ekfrid	Monday, " 21st
Walkers	Tuesday, " 22nd
Wardsville	Wednesday, " 23rd
Glencoe	Thursday, " 24th
Newbury	Friday, " 25th
Strathroy	Monday, " 28th

A. E. HOOKAWAY, Farmer-Labor Candidate for West Elgin, will speak at Strathroy and Wardsville

A partial list of other speakers who will assist in the campaign:—J. G. Lethbridge, M. P. P.; J. C. Brown, M. P. P.; D. A. Graham, Geo. A. Mark, R. E. Warmoll, J. E. Campbell, Thos. Turnbull, A. E. Gilroy. Others are being secured.

GOD SAVE THE KING!

The Man of the Hour

In this hour of Canada's most acute national crisis, the country's greatest need is leadership—not class leadership, not sectional leadership, but NATIONAL leadership. A pilot must be chosen possessing the necessary courage, foresight, breadth of vision and determination to lead the nation safely out of the existing economic uncertainty.

And one man stands out head and shoulders above all others as pre-eminently fitted for the task.

Born on a farm near St. Mary's, Ontario, Arthur Meighen is a true son of the people, a toiler who has fought his way to eminence by sheer ability and force of intellect. Entered Parliament in 1908; appointed Solicitor-General in 1914; Minister of the Interior in 1917; and Prime Minister in 1920.

At the Imperial Conference he was acclaimed by the Press of Great Britain as a great statesman, as a strong, virile, vigorous personality—alert in mind, keen and far-seeing in judgment, and with a fearless determination to stand for the right.

Professor A. D. Skelton, of Queen's University, and biographer of Sir Wilfrid Laurier, wrote of the present Prime Minister:—"He has already given proof of high administrative capacity. His personal integrity is beyond question."

Of himself, Arthur Meighen said to his constituents the other day:—"You know where I stood on this issue in 1908, in 1911, and as in 1911 I stand to-day."
