St. Petersburg, Nov. 14.-The Viedimosti prints the text of a petition, which, it learns, the elders of the religious sect known as the Doukhobors have addressed to the Sultan of command of Gen. It is impossible for them to become the subjects of Great Britain, and therefore, continues the petition, "We turn to your majesty and beg you to show grace to us and our families as pilgrims of God. We beg you to give up hospitality and shelter in your wide dominions in some tiny corner, where we can live by the labor of our hands and follow the law of God, and where we will not be compelled to obey laws made by man any monarch except the Lord."
The petitioners conclude by praying that God will move the Spitan's heart to have compassion on them.

Privy Council Judgments on Divorced Man Started a New Canadian Appeals

Packed by

Re Common School Fund—Imperial Winning Friendship of Former Wife toward incident in the domain of mercantile affairs. The prosperity enjoyed Bank vs. Bank of Hamilton.

London, Nov. 14.-The judicial committee of the Privy Council gave judgment yesterday allowing the appeal of Ontario and reversing the decision of the supreme court in the claim of the Province of Quebec against Ontario, growing out of the common school fund. The common school fund arises out of the lands set apart before confederation. Nearly all the lands were sold before confederation. A portion later she was married to William Camof the purchase money is still uncoleron, at present a member of the West lected, and Ontario, as the money comes into the treasury, pays the money over to the Dominion Government. On this fund the Dominion Government pays the Provinces of Ontario and Quebec interest in proportion, in accordance with the Bus. The effect of the Privy Council's decision is to confirm the award of the arbitrators in favor of Ontario in the action of Quebec to make the Province of Ontario account for the out-standing balances due by settlers to the common school fund uncollected on Dec. 31, 1892. They amount to \$500,-000. The arbitrators held that Ontario was not under any liability to account for these outstanding balances of 1892. The supreme court reversed their decision, but now the Privy Council reverses the supreme court and agrees with the arbitrators.

The judicial committee of the Privy Council has dismissed the appeal of the Imperial Bank in the suit of the Bank of Hamilton. In this case the Imperial Bank for the fourth time fails in its efforts to reverse the decision in the suit over the famous Carl Bauer forgery, the raising of a \$5 check to \$500. Bauer, who was a hotel clerk in Toronto, had made a small deposit in the Bank of Hamilton. A few days later he made out a check for \$5, pur-posely leaving off the ciphers. This he asked the bank clerk to mark "good." Then he filled in the check for \$500 and deposited in with the Imperial Bank. The following day he withdrew \$495. After the Bank of Hamilton had paid the Imperial Bank they discovered the forgery and sued for the amount improperly paid out, as they claimed, by the Imperial Bank. Three Canadian courts held the Imperial Bank and not the Bank of Ham-Ilton was at fault. Now the law lords of the Privy Council say the same.

President Clouston's Review of Canada's Condition.

RAPID INCREASE BANK ASSETS

Many Unmistakable Proofs of the Country's Prosperity-Question of Bank Circulation.

Toronto, Nov. 14 .- The most important event of the Canadian Bankers' Association's convention was the delivery of President E. S. Clouston's extreme interest.

The president said the year that has elapsed has witnessed a further remarkable expansion in all branches of Canadian trade and commerce, in which the business of banking has had its due share. It has been a year of no unin bountiful measure since 1897 continues unabated, and no clouds are yet perceptible on the horizon, save per-haps an undue and speculative desire for financial expansion to anticipate ley, whose remains were buried from the undertaking rooms of the Maul the profits that still lie in the future. On the contrary, the signs from which encouragement and hope spring are pals in a singularly sad drama of life. abundant.

> PROOF OF PROSPERITY. A bountiful harvest has been safely gathered, particularly in our Northwest, and is rapidly being carried to market. The last returns show that the amount of grain moved to date this year exceeds by nearly 40 per cent the total for a similar period in 1901. Labor is fully employed; manufacturing industries are working well up to their capital; immigration is increasing at a rate which prompts the hope that we are at last succeeding in solving the problem of populating the Northwest; new markets for our products are being exploited, and old markets enlarged; means of transportation are being supplied and improved. Indeed, were one disposed to dwell on the possibilities of the future in the way of material development and prosperity, the field would afford a vast scope. Railway earnings, clearing house returns, figures of foreign commerce, the failure list, bank statements, in a word, all the tests by which the material conditions of a country are judged, indicate that Canada is experiencing an exceptionally high degree of prosperity. Let me, however, briefly refer to some of the evidences of the progress already made.

tion as fixed by the bank act, namely, the amount of paid-up capital, and the question has been raised whether some modification of the present act should not be asked for. At the time it was passed it was held that when a bank had exhausted its power of issue it might be taken as showing that the business had grown to an extent rendering it desirable that the bank should furnish additional security to the public for both its deposits and circulation in the nature of increased capital. This, so far, has not been conformed to, but the time has come when the remedy indicated might rea sonably be applied to meet this apprehended shortage of currency.

I am convinced that no radical change in the fundamental principle of our currency system should be undertaken. More than that I believe any legislation looking to the provision of easy facilities for inflating the currency will weaken the stability of the banks and tend to impair the system which has been established. It has been suggested that banks be permitted to issue circulation to the extent of their paid-up capital and their reserve fund, or a portion of it. What guarantee is there that a reserve fund is a concrete asset?

A weak management may exagger that surplus earnings, the rest ac- ate it, and we know assets have shrunk the appraisement of new management. Note circulation is a measure of the There is also the loss of the double framed for the circumstances of the moment, but is supposed to be founded on fixed and sound principles of finance, applicable to periods of stress and strain, as well as prosperity. REMEDY FOR STRINGENCY.

To base circulation on a rest account would be a departure, and would weaken a currency system which we consider one of the safest and most elastic systems in the world. Viewing the fact that the banking cap-ital during the last 25 years has practically remained stationary, the remedy seems simple. If we do not choose to adopt it, then it should always be possible in emergencies to obtain from the Government by deposit of gold or Dominion notes, but this does away with the elasticity of the system, and if indulged in to any great extent will inevitably lead to periods aggravated financial stringency such as are not uncommon with our neighbors across the line. The opening of branches in hitherto unoccupie districts in the Northwest (by facilitating the deposit of currency) will relieve the tension to some degree but if Canada advances, as we hope and expect she will. I am afraid it is only question of time when we may be brought face to face with the same ondition of affairs again.

### FELT LIKE A BIRD

A Victim of Constipation and Biliousness, Wm. Ashton in Describing His Condition After His Cure Made Use of the Above Expression.

RECOMMENDS CELERY KING TO HIS FRIENDS

Yet another thankful man records his cure of constipation and biliousness by the use of Celery King. Spring is above all the time to get rid of all foreign nasty matters that are in one's body. When the weather gets warmer, this filth will act a thousand times more venerously to the detriment of your body. Have the system well cleansed so that all food taken will be treated by pure digestive juices and the different organs of the body will be sweet and clean so that all functions will tend to the building up of a sound healthy constitution. Then will pure, ruddy blood course through your veins and send health to every tingling portion of the body. "You can put me down as one of

your most thankful patients. Until re-cently I had suffered with sick headaches and biliousness and could find no relief until a friend of mine insisted on my taking Celery King, and made me buy a package of it at Gowan's drug store. It has afforded so much relief that I have kept on using it. I am 25 years of age, and by occupation, a driver, not being able to stand outdoor work without suffering from severe headaches, but now ! feel able to stand any amount of work and feel like a bird, to use a common expression. I also was troubled with constipation and so was my wife, since we started taking Celery King, we have been greatly relieved. I have placed such infinite faith in Celery King that I have recommended it to all my friends, telling them what it has done for me. My family now use Celery King altogether and my mother says it is the best thing she has found yet as a domestic remedy. I hope that many more may be benefited by us-

### SHOE BALANCE

HE shoe of choice upper leather, with fine appearance, and poor insole or outsole, is only as good as its worst part.

The life of a shoe depends as much upon the invisible portion—the hidden material and labor-as upon that which is visible and showy.

Yet all shoes are made primarly to sell, and the manufacturers' temptation to add to selling effect, by subtraction from wear is great, and rarely resisted.

A direct responsibility from Maker to Wearer is the only check upon this extravagant tendency.

That responsibility is easily crept out of, unless the Maker (not the Dealer) sets the price, and stamps it on the sole, with his

A PECULATING PORTER. New York, Nov. 14.-Patrick Bolan, for seven years a trusted porter at the Holland House, has been arrested in a Bowery pawnshop where he was endeavoring to pledge for \$35 a necklace of pearls valued at \$2,500. The prisoner was taken to police headquarters, where he is said to have given information which will lead to the recovery of jewels valued at \$12,000 stolen some time ago from the apartments of Mrs. W. To Physician and Patient Alike.

Dr.Redmond, a specialist in the study and treatment of piles and rectal diseases, recently stated that the Pyramid Pile Cure, the new discovery for the cure of piles, was the most remarkable remedy he had ever seen or tried in one respect; and that was the instant relief experienced in all cases, no matter how severe, from the moment the remedy was applied; this was the more surprising to him because he had carefully analyzed the preparation, and no trace of opium, cocaine or similar poison could be detected. Physicians look with great favor up

on the Pyramid Pile Cure, because it is rapidly taking the place of surgical operations, and because it is so simple, so easily applied, and contains no min eral or other poisons so commonly used in pile cures.

Dr. Esterbrook reports that the Pyramid Pile Cure not only cures the various forms of piles, but never fails to give immediate relief on the first application, no matter how severe the pain or discomfort may be

#### What the Squaw Said.

Major Pratt, the United States army officer who is in charge of the Carlisle Indian School, admits that many of his graduates who return to tribal life fall into Indian ways again. Therefore he is doing all he can to prevent the educated Indians from going back to the reservations. He tells of an incident he saw at a

Western Indian agency. A squaw entered a trader's store, wrapped in a blanket, pointed at a straw hat, and asked. "How muchee?" "Fifty cents," said the merchant.

"How muchee?" she asked again, pointing at another article. The price was quoted and was followed by another query of "How muchee?" Then she suddenly gazed blandly at the merchant and asked mildly: "Do you not regard such prices as extortionate for articles of such palpably and unmistakably inferior quality? Do you not really believe that a reduction in your charges would materially enhance your pecuniary pro-fits, as well as be ethically proper? I beg you to consider my suggestion." PANY (Limited.)

London, Friday Nov. 14.

The Approaching Sessions. The Dominion Parliament and Provincial Legislature will be occupied with important measures at the ensessions. At Ottawa railway legislation will overshadow other business. Mr. Blatr's bill for the appointment of a railway commission will be thoroughly overhauled, but will not be changed in its main lines. It is by no means a party issue, as the principle is supported by many members of the Opposition. The necessity for railway expansion in the West calls for attention, and no doubt something will be done toward hastening or facilitating railroad construction. The prolect of a Government road across the continent may be a long way from realization, but the extension of the Intercolonial to the Georgian Bay, by the purchase of the Canada Atlantic, would be the best preparatory step. A large number of applications for railway charters may be expected, but the Government will do well to exact

equivalents for all subsidies granted.

It is not known whether Mr. Mulock will press his bill for the compulsory arbitration of labor disputes on railroad systems. The measure is favored by Mr. Ralph Smith, M. P., president of the Dominion Trades and Labor Congress, by Mr. Puttee, M. P. for Winnipeg, and other labor leaders; but some labor organizations have declared themselves against it, and it may be taken for granted that the railroad companies do not favor it. The bill deprives railroad employes of the right to strike, and railroad companies of the right to lock out their men, but it is assumed that the public have a larger right to be protected against the consequences of labor troubles on a railroad system. Life and property may be endangered by the employment of inexperienced men to replace strikers, and the public convenience may be set at naught. The bill provides that the two parties to the dispute shall submit their differto an impartial tribunal.

The tariff question is subordinate to the rallway question. The impression is that there will be a very moderate revision. In the present flourishing condition of industry, it would be imprudent, if not dangerous, to lay a heavy hand on the tariff. A great deal of noise has been made in the country, but there are comparatively few manufacturers who are actively demanding an increase in the duties.

The proceedings of the Imperial conference will be a fruitful theme for discussion. The Government's position on imperial preferential trade and imperial defense is impregnable. The Opposition cannot without stultifying itself, oppose the course of the Government in promoting a common policy of British preference among the colonies, as a lever in procuring differential treatment for colonial products in the British market. In regard to imperial defense, Mr. Borden cannot attack the Government's attitude without repudiating his Quebec lieutenant, Mr. Monk, who has been denouncing Sir Wilfrid Laurier as a tool of Mr. Chamberlain, prepared to let Canada be dragged at the heels of European militarism. The Government may be ready to submit something definite in the matter of the fast Atlantic steamship service.

The Ontario Legislature will be the scene of a lively party warfare. If the Opposition is strong enough and ing the flowers of rhetoric, he has defactious enough to embarrass the Government, public business will suffer. The most important subject is temper, and these have rendered him the assessment law. The report of the excellent service. He has not preassessment commission will be dealt with. The assessment act is badly in need of amendment in many particulars, and as it is not a party question, the Legislature should take up the work in earnest.

The door was banged in their face, perhaps in the expectation that they would come on extending their railroad system, building terminals at Rondeau, and expense of Port Stanley. They have apparently left the L. and P. S. R. out of their schemes of development. Speaking of the extension of the lease, the Free Press today says:

"It would have insured a settled period of usefulness for the local road in connection with a system that is not only strong in the State of Michigan, but seems destined for strong continental connections east and west. The terms of the lease would have been in no danger as operated by the Flint and Pere Marquette. The city's best interests were well guarded, no matter into whose hands the road might fall. If they were not attended to, the lease could be canceled, and the road revert to the city council. But there would be more advantage in the continental connections than in the Walker line confined to Western Ontario. talk of any trunk line having power to close the port is found to be baseless, for the reason that the port is in Government hands."

Here is what the Free Press said on May 23, when it had to back up Mayor Beck's position on this question for

own whim, nor hindered by the opposition of those who were unfavorable to the extension on any terms position our road would be in if handed over along with the L. E. and D. R. main line to an American trunk railway company. Would our lake port in such case be used for shipping to the same extent as if the local railway remained as it was the lease of the Walkers? Would the new company carry out in good faith the lease acquired by purchase, or desire an acquittance upon a basis of compensation? London had no means of knowing, but was compelled to pause and reflect, in order that no mistake might be

A few months ago connection with a trunk line might have been a dangerous thing and have closed London's lake port. The Free Press said so then because Mr. Beck said so, and as Mr. Beck was then a candidate for the Legislature, the Free Press sneezed whenever he took snuff The inference is that Mr. Beck now realizes he made a blunder and his newspaper organ reflects the state of his mind. Is he paving the way for a reopening of negotiations with the

#### Mr. Sutherland Analyzed. [Woodstock Express.]

Whatever the facts may be, the apcointment is a fine compliment to Mr. Sutherland, and marks another step in his steady, upward progress to the top of the ladder. The secret of his success may be elusive, but would be worth ascertaining. Without any great natural ability as an orator, he has been relieved from the temptation of playing an ornamental role. What ne lacked on one side he was compelled to make up on the other, and so instead of devoting his time to cultivatvoted his efforts to more practical and more important work. He was blessed with a level head and a tractable sumed to be a brilliant man, and so has come to be looked upon as one of the substitution therefor of a tax on may do by making the most of his

Education Bill Being Rushed Through Commons-Twenty Divisions at One Sitting.

London, Nov. 14 .- As a result apparently of agitation by Vice-Admiral Lord Charles Beresford and others regarding the lack of "up-to-datedness" in the British navy, the Admiralty has announced that the battleships Agamemnon, Ajax and Edgar; the turret ships Hecate, Cyclops, Hydra and Gorgon; the torpedo ram Polyphe- Guyon and the Town of Bonnieres. mus, the frigate Nettle, the cruisers The flying machine returned each time to its point of departure at the Heroine and Hyacinth and some smaller rate of 25 miles an hour. There were vessels are all for sale. They will be dropped from the navy list immediately.

THE COBDEN CLUB. In view of Sir Michael Hicks-Beach's retirement, and Balfour's seeming support thirds of the strikers already have of Mr. Chamberlain's ideas on the imperial fiscal policy, the Cobden Club is renewing its activities. A special meeting has been organized for Nov. 28, when the parliamentary leaders of the Liberal large and representative gathering of free marched through the streets. traders will protest against recent endeavors to subvert the free trade policy of Britain.

PUSHING EDUCATION BILL. The Government's "guillotine scheme" with regard to the education bill was put clauses of the bill, with their attendant terial character. amendments were all closured and voted without discussion. Members of the opposition challenged every vote, with the result that twenty divisions were taken between 1 and 3 o'clock this morning. when the house adjourned.

#### COBDEN CLUB SHOWS ACTIVITY FRENCH MINERS' STRIKE ENDED

Shooting Affair in the Lobby of the The Women's Baptist Missionary All Were Little Children Living Chambers-Row in Austrian Reichsrath.

Nantes, France, Nov. 14.—The airship built for the brothers Pierre and Paul Lebaudy made a very successful trial yesterday in this neighborhood. Several free ascents and descents were effected, accompanied by evolutions in all directions over the fields and woods bordering the Seine between La Roche four persons in the car.

MINERS' STRIKE ENDED. Paris, Nov. 14. - The general coal miners' strike has practically come to an end, although many of the men are still holding out. About tworeturned to work at the mines. The miners' congress now being held at Lens has voted in favor of the resumption of work. Ten thousands strikers, many of them armed with clubs and carrying ban-

party, Lord Spencer and Sir Henry ners and red flags, made a demon-Campbell-Bannerman, will attend, and a stration at St. Etienne yesterday. They seemed more bent on merry-making than creating disorder, and no unto-ward incident occurred necessitating the intervention of the troops, a strong force of whom was held in readiness to cope with any disturbance. A few isolated dynamite outrages are reported from various points in in operation in the House of Commons the strike region, but the damage last (Thursday) night at 11 o'clock. SHOOTING IN THE LOBBY. Intense excitement was caused in the Chamber of Deputies yesterday by the firing of a pistol in the lobby. The

members crowded to the scene of the shooting and found that an officer of a colonial regiment had emptied his revolver in the air while shouting "Vive la Patrie." He is believed to be crazy. The police are endeavoring to find out how it was an armed man suc-

ceeded in getting near the chamber, as there has been a rigorous exclusion minister that it is unwise to maintain of arms from the house since the time of the anarchist plots of 1893. It is not believed that the man who fired the shots is an anarchist. The bullets all went into the ceiling. Nobody was

CAME TO BLOWS.

Vienna, Nov. 14.-The sitting yesterday of the lower house of the Austrian Reichstath was suspended on account of the German and Czech members coming to blows. The cause of the trouble was a debate on the advisability of the use of the two languages in the names of stations on the Bo-Herr Schnal started the disorder

by shouting "You Germans are a lot of pigs." Thereupon a number of Colonial Secretary Chamberlain, in the German deputies cast themselves upon Herr Schnal, shouting "Smash him!" "Kick him!" which they proceeded to do. Eventually Herr Schnal was thrown down the gangway to the bottom of the amphitheater. The fighting continued for a quarter of an hour after the suspension of the sitting. Throughout the disorder the combatants were encouraged by hearty plaudits from the strangers' gallery. WILLIAM WORRIED THEM.

> Referring to the "senseless speculations" of French journalists in regard to the visit of Emperor William and King of Portugal to Sandringham, a Paris correspondent says there is a competition of imaginative invention in the French press. The papers have determined that such a journey as that of the Kaiser must have a political obtect, the only question being whether the Emperor will delude King Edward or King Edward delude the Emperor. It is suggested, moreover, that the two monarchs together have probably laid a trap for the King of who will not escape until he has abandoned in favor of covetous Great Britain, Delagoa Bay, Lorenzo Marques, and perhaps also Angola, Guinea and Mozambique. The fact is, the correspondent says, French newspapers are not expected to give sound judgment. Most continental readers ask for spicy articles, not solid information, and the wild talk about Emperor William is due to the desire to satisfy the demand for sensational news.

#### Arizona Property of Londoners Show Paying Ore.

The Arizona Republican or Phoenix, Arizona, prints a report that the Black Rock mines, in which Mr. Frank Mc-Lean, of East London, is principally interested, has developed an ore body that is certain to attract the attention of the mining world. The vein from surface indications is supposed to be some hundreds of feet wide, though low grade. At the 100-foot level a cross | Thirty-Two Persons Missing—Painful out has been run both ways from the

shaft for a distance of 59 feet. Both

cross cuts are in ore and no

found, so the vein is known to be more than 100 feet wide. On the 200-level a cross cut has been run 78 feet in one direction and no walls found. Assuming that on that level it runs 50 feet the other way, as does above, the vein on that level is at least 138 feet wide. This ore is, of course, low grade, but of good workable value, and the quantity of it seems to be something marvelous. Mr. McLean will probably leave for Arizona this month on business of the

The following letter from Detective Murray, who worked up the Sifton case, appears today in the Mail and Empire:

To the Editor of the Mail and Empire: Sir-My attention has been called to what purports to be an interview with E. F. B. Johnston, K.C., published in a local paper of a few days ago. In this interview Mr. Johnston undersome residence, "Sunlight Hall," Aylmer street, Peterboro, on Monday night. Amongst the guests from a distance were Miss Ada Somerville, of takes to criticise comments I have made with reference to the murder of Joseph Sifton, and the outcome of the trial of his son on a charge of committing the crime. I may tell Mr. Johnston that if there was anything disreputable (to quote his words) in connection with the Sifton case, it was not the crown officers who were guilty of such conduct. For over a quarter of a century I have been con-nected with the prosecution of criminals of various kinds in this Proince, and he knows as well as everybody else, that I have never adopted any underhand methods in the conduct of any case. Neither have I exhibited the same desire to "air my opinions in newspapers" that has been shown by others connected with some cases. It is a well-known fact in the Depart ment of Justice that Mr. Johnston has no personal love for me, but that does not justify the uncalled-for and cow-ardly personal attack which he made upon me in open court, shielded by his gown, in the course of the Sifton trial. Thompson, who laid the charge against After the cross-examination of Herbert, an admitted accomplice in the murder, Johnston said: "Has anybody seen you since recess?" "No," answered Herbert. "Has Detective Murray seen you?" Herbert again answered no. "Well," said Johnston, WRECK OF THE ELINGAMITE 'I would sooner believe you than Murray." I resented this by calling John ston a coward, and the court officials were agreed that his remark was "the most disreputable thing they had ever heard." I leave my record to the pubup a raft belonging to the British lic, and I am not at all alarmed over steamer Elingamite, which was wrecked on one of the Three Kings Mr. Johnston's recommendation that I should be dismissed from the service. ## PRES'T MITCHELL ON MINERS' PAY

Summary of His Statement Made to the Commission.

DANGEROUS NATURE OF WORK

Miners' Asthma an Almost Universal Ailment-No Allowance for Extra Hazard.

Scranton, Pa., Nov. 14.-Following is an abstract of President Mitchell's statement to the anthracite strike commission, which met here today:

Mr. Mitchell prefaced his statement with the hope that the commission would "succeed in establishing a relationship between the operators and the miners that will insure peace and stability in the industry for an indefinite period.' After reciting the demands for in-

creased pay for the miners, a shorter work day for the laborers, the weighing of the coal, and an industrial agreement, the refusal of all of which led to the strike, Mr. Mitchell spoke as follows on the question of higher

"Of the 147,000 men and boys employed in and around the mines, strippings, washeries and breakers in the anthracite coal fields, 64,072 or 43 per cent are employed on contract piece work. The remaining 85,000 or 57 per cent are employed by the hour, day work or month. Of the 64,072 contract men 37,804 are miners and 36,268 miner's laborers

"The work of a miner and a miner's laborer is extremely hazardous, in fact, it is more dangerous than employment in any other important industry in the world. The number of persons killed and injured is greatef than in any other industry. Each day the anthracite coal mines are in operation, 2.610 persons lose their lives and three times as many are mained, and yet these men receive less wages annually than received by men performing precisely similar work in other fields under more favorable and less hazardous conditions.

retain his health and strength in this occupation is limed. If he escapes death or injury by falls of rocks or coal, he cannot escape attacks of miners' asthma. There is scarcely a mine worker who has not contracted this malady. The miners are compelled to work in powder smoke, in foul air. many of them in water, and their work is difficult and exhausting. Reputable insurance companies will not issue policies to this class of workmen. The risks are so great that the premiums would be prohibitive to men whose earnings are so low. The entire 20 per cent which they demand as an increase in their wages would not suffice to carry an insurance of \$1,000. "It seems but fair and just that wages paid these classes of workmen should be as high, if not higher, than wages paid to skilled artisans in other

industries. "It is certainly not unjust to ask that these miners should receive as

high wages as are paid to miners in the bituminous coal fields, in the silver and gold mines or in their own ore and copper mines, all of which work is less hazardous, freer from liability to disease, requiring less experience and less skill, and is better paid than labor in the anthracite coal fields.' REDUCTION OF HOURS.

In spporting the demand for the reduction of the hours of day laborers, Mr. Mitchell showed that it amounted practically to a demand for 20 per cent increase of compensation for 83,000 men or 57 per cent of all mine employes. He said further that the eigrt hour day is the standard working day in the mining industry. Eight hours constitute a day's work in the coal mines of Great Britain, in all the silver and gold and copper mines and in the bituminous coal mines in the different states of this country.

VERY "LONG" TONS. Defending the third demand that coal shall be weighed and paid for by weight, and that 2,240 pounds shall constitute a ton, Mr. Mitchell declared that the present method of measuring the coal produced by miners in Lackawanna, Wyoming and Lehigh region has been the source of more discontent than any other of the many injustices imposed upon the miners, and there can be no contentment among these workers until an honest system has been adopted. Paying for coal by the car of by a ton weighing from 2.740 to 3,150 pounds is a flagrant injustice, he declared.

Mr. Mitchell continued: "The anthracite companies, not satisfied with an extra legal ton of from 2,740 to 3,150 pounds, have a system of docking, through which they appropriate an additional part of the miners' earnings. A miner is docked all the way "The number of years a man can from 500 to 1,000 pounds upon a car,

A reporter of The Globe called upon Hon. George W. Ross yesterday to ascertain his intentions with regard to the vote on the liquor act which is to that he had voted for the Scott Act and for the two plebiscites that were taken, the one by the Dominion Government and the other by the Ontario Government, and, having the utmost confidence in the application of this principle in regard to legislation respecting the liquor traffic, he proposes voting on Dec. 4 in favor of the act. He also expressed the hope that no prohibitionist would allow any political considerations to prevent him expressing his views at the polls, as he proposed doing himself. The report that Mr. Ross intended issuing circulars to his friends or to anybody with regard to the referendum he declared was entirely unfounded. He thought his vews on the question of prohibition were sufficiently known without such action on his part.

Mr. Russell's subject last night was "The Fruits of the Spirit." He is a powerful and pleasing speaker, and his expositions of the Scriptures are models of conciseness and clearness. While engaged for some time in the ministry of the Presbyterian Church, Mr. Russell seems equally at home among the churches of the Methodist persuasion. But after a few days she began to get better; the intense pain was relieved, although her burns were very sore, rendering her hands almost useless. A barber had to be called in to shingle the scorched locks, and she looked like "a little girl again," her mother said, after the clipping process was completed.

The caller proved to be Kenneth, and Mrs. Sherman invited him directly up into the preity parlor on the second floor, which Mrs. Everet had given up to Bess.
She was about to go in with him, when a servant approached to ask for directions regarding something she wanted done; so, opening the door for Kenenth, she sent him in alone to Queen Bess.
He entered the room with a smile on his lips and a light in his eyes that sooke volumes; but he, too, was pale, and there were hollows under his eyes, for he had not yet recovered from the terrible exhaustion which had followed the fearful ordeal to which he had subjected himself on the night of the fire.

"Poor little hands," Kenneth replied,

"What is it?" Queen Bess asked, regarding it curiously.

"Take it," he said.

She took it in her left hand and the stone fell apart—divided through the center—revealing an exquisite petrifaction of a delicate and peculiar fern.

"Oh, how pretty!—how very curious!"

Bess exclaimed, greatly interested.

FOOTBALL.

THE NEW SCHEDULE GOES. Toronto, Nov. 13 .- The western section of the intermediate series, O. R. F. U., stands as drawn up by the executive on Wednesday night. Peterboro is not drawn in the new schedule. It is rumored that the Torontos will default to the Argonauts on Saturday, and this will mean that the Argonauts play in London on Nov. 22. A meeting of the executive is called for Monday night.

Referring to this the Toronto Star westerday says:

"The London protest against Toronto having been sustained, that game only should have been ordered to be replayed. Instead the executive has ordered a new series. The arrangement did not find favor with the clubs concerned, so by 'phone today it was practically agreed that two games should be played off on Satur-day, as follows: Toronto at London, Argonauts II. at Peterboro, the winners to play off for the championship at some point to be decided by the ex-

ecutive the following Saturday,' This proposition was communicated by 'phone to London, and the reply sent back that the London Club had decided to hold to the original arrangements made at Wednesday night's meeting and would not play on Saturday. Gordon Crawford further stated that it would be quite impossible to play the game, here on Saturday as the grounds were not available on that

#### SKATING. IN ENGLAND.

London.

Nov. 13 .- During the last

few years skating of the highest class has been making vast strides in popularity; and if there are not people who skate now than there were, say, five years ago, there are certainly more people who skate well. This is mainly due to the introduction of rinks in which artificial ice is to be found, always in perfect condition and quite independent of the weather. Three of these rinks have been at work in London of late; but one of them-Niagara, where the world's championships were contested in the spring-exists for skating Windsor track for running meeting ed in the spring-exists for skating next year, there are plenty of others no longer. And of these the best—the

day. At the club there is a splendid sheet of ice, over 10,000 square feet in extent. There are instructors of great skill, pleasant galleries spectators, and every temptation for skaters and non-skaters alike to make use of the place as an agreeable lounge. Music is supplied by the Blue Hungarians; certain times are set apart for the delightful exercise -equally delightful to watch or to perform-of waltzing on skates, and for ice hockey.

AQUATIC.

PENN TO BE REPRESENTED AT HENLEY.

Philadelphia, Pa., Nov. 13.-Another attempt will be made by the University of Pennsylvania to send a crew to Henley next year for the purpose of trying to carry off the grand challenge cup. The student body of the university is anxious to send a crew over. It is not known whether the faculty will sanction the proposal or not. This would be the first time in the history of the classic English row-ing Derby that two American crews have tried for the main race in same year, as Cornell also expects to send over a crew for the same race.

WILLIAM MONTIE DEAD. William Montie, of Ecorse, Mich., is dead. He was one of the four brothers French Canadians, who composed the Ecorse crew, a famous rowing organization of about twenty years They rowed the "sewing machine" stroke, cut off at both ends and running up to 50 a minute for long spells. The Monties were very successful against both Eastern and Western United States crews, and were only defeated when they met Canadian fours.

KELLY GETS THE DECISION. Meriden, Conn., Nov. 13.—"Jimmy" Kelly, of New York, got the decision "Eddie" Boylston, of Brooklyn, over in a 10-round bout before the Silver City A. C. this evening. In the preliminary Jerry Maher, of Hartford, put Spike Raworth, of the club, out in the fourth round.

#### BASEBALL.

NORMALS WON. The seniors' basket ball team of the Collegiate Institute met the Normal School team on Wednesday evening. The Normals scored twice before the Collegiates did anything, though they broke even when half time was called. In the second half the Normals made another goal, and the Collegiates scored a point on a foul. At the clese the score stood Normals 6, Collegiates 5. Mr. Horton acted as referee. The lineup was as follows:

Collegiate-Misses Beal (captain), Carson, Robson, Thompson, Fraser, Nash and Tait. Normals-Misses Freek (captain). Murray, Ruthven, Lee, McGarvah

"Are Dramatic Critics Any Use?"

That is the question which the O. P. and gold medal donated by the Can- Club, a theatrical organization of Lonadian Kennel Club, went to pointed don, debated at its session last night, dog Duke II., by Duke, out of Neil, owned by Pickering & Oldershaw, morning gives a summary of some of the answers to the riddle that were Fiirt II., by Pearls Boy, out of Queen, owned by Thomas Reeder, of Detroit; given by members of the profession. If the average theatergoer were asked his opinion he would say that he doesn't care a rap for the individual opinion of a "critic," whose praise has often sent him to see a poor play and whose adverse notice might make him miss a good one.

The know-all critic and his longwinded effusions are relics of old-time journalism that are wholly out of place nowadays. The theatergoer does not want anything more than a fair and square report, by a reporter, of what the play was about, who acted it and what the audience-not what the critics—thought of the performance. And when the latter disagree, as they generally do, who is to decide?

After all, the gallery god is the best critic going. Find out what he thinks

and you'll generally know whether or not the play is worth seeing. If the question before the O. P. Club had been "Should the dramatic critic be declared, like the dodo, extinct?" it would have been much more to the point.-New York Herald.

DIAPER-GRIFFIN.

An interesting event took place at Courtland on Wednesday, at the residence of Mrs. Sarah E. Griffin when her youngest daughter, Eliza, was united in marriage to Mr. W. A. W. Diaper, sergt.-major of the Twenty-sixth Regiment. The marriage was performed by Rev. H. A. Hastings in the presence of 25 guests. Mrs. Hast-ings, of Courtland, played the wedding march, while the young couple took their place under a beautiful bell of evergreens and chrysanthemums, Miss Ada Griffin attended her sister and Mr. Thomas Landy, of Wolseley Barracks, was best man. The bride was attired in blue lady's cloth and carried white carnations. After the ceremony a dainty wedding luncheon was served and Mr. and Mrs. Diaper left to take up their residence at Toronto. The groom's gift to the bridesmaid was a handsome ring set with pearls, and to the groomsman a pearl stickpin.

A PIONEER OF NISSOURI. The following reference to the late Robert Garner, a Nissouri pioneer, is from the St. Marys Journal:

Mr. Robert Garner, who died at his home in Thorndale, in his 80th year. was previous to his death, the oldest living man born in the Township of Nissouri. He was a son of the late William Garner, and was born in the year 1823, at his father's home, lot 23, in the second concession, on the north branch of the River Thames. Mr. Garner was of a cheerful disposition, and well knew the trials and hardships of pioneer life in Nissouri, and in later years was fond of relating many inidents of bygone days. Most of his ife was spent on the farm. For a number of years he has lived retired at his comfortable residence in Thorndale. For many years he acted as a county constable and later was ap-pointed a justice of the peace, both of Phones 548 and 373. 182 King St. Spointed a justice of the peace, both of which positions he filled with credit. In politics he was a Liberal, in religion a Methodist. A CONTRACT OF THE PROPERTY OF THE PARTY OF T

LANDS FOR THE VETERANS

Arrangements Made by the Toronto Veterans' Association.

William Gibson, the financial secretary of the '68 Veterans' Association of Toronfo, has sent a circular to Mr. George Taylor, president of the London District Veterans' Association. The circular states that the veterans of 1865, 1870 and the South African war, while not eligible for membership in the association, will be given the benefit of the arrangements made to locate the land grants. The association will act for them on the same terms as the members, and for that purpose they will be considered as associate members. Another circular has just been issued by the association to all veterans, informing them of the steps about to be taken. These provide for the employment of properly-qualified men to go into the districts of Temiskaming, Nipissing, Algoma, Rainy River and Thunder Bay, where the lands are situated, and select the best lands available. To enable this to be done, the association has fixed the subscription to the association for 1903 at \$5, \$2 of which should accompany applications from veterans rebe given the benefit of the arrangements tion for 1903 at \$5, \$2 of which should accompany applications from veterans receiving certificates and desiring to join the association. Applications are to be sent to William Gibson, 121 Baldwin street, Toronto, who will register the application. As the season is now so far advanced, it is not thought much can be done this fall beyond receiving and classifying applications, but everything will be in readiness for the explorers to go into the free grant territory in the spring.

# Roney's Boys Appear at the

Auditorium.

The Roney's Boys Concert Company of Chicago, the second number of the Auditorium concert course, proved to be one of the most entertaining attractions which has ever appeared at the Auditorium, and this is high praise, considering the many excellent offerings which the Y. M. C. A. entertainment committee have presented in the past. Roney's Boys are a quin' tette of clever lads who have trained to a high degree of proficiency in vocal and instrumental music by Mr. Henry B. Roney, who travels with them and takes part in the entertainment. The programme consists of vocal solos and concerted numbers, and skillfully rendered selections on a varied range of instruments. Every number is an artistic treat, and the large audience present waxed enthuslastic on every appearance of the boys. A novel feature is the costuming, which is in accord with the character of the selections being rendered, and in-cludes Highland, college, military, naval and other costumes. The company will give another concert tonight at the Auditorium, presenting a complete change of programme. The citizens of London should not miss this opportunity of seeing one of the most pleasing entertainments which has ever visited London.

### Carroll Company's Success.

The Carroll Comedy Company continues to please the patrons of the London Opera House with its offerings of popular plays at popular prices. Last night's bill was "Our Flats," a laughable comedy, which found favor with the audience. Tonight the stirring drama, "A Klondyke Claim," will be presented. Tomorrow afternoon a matinee will be given with a special attraction for children in the shape of a cash prize of \$2 50 for the child making the most words out of the letters in the manager's name "Carroll," using two "r's" and two "l's." Tonight there will be presented for the first time in Canada the original version of "Tracy the Outlaw," a play which is meeting with such success in the United States that half a dozen companies are being

organized to exploit it. "SPAN OF LIFE" TONIGHT. Eight years of success in the principal theaters of the United States, supplemented by an equal amount of favor in Great Britain, Australia, Germany and France, is the record attained by "The Span of Life." Exciting climaxes, thrilling situations, fine stage settings and competent acting are the features that have made this play popular. It will be presented at the Grand tonight by a strong company and with an entirely new equipment of scenery and effects. A feature of the production will be the Denazettas, who form themselves into a bridge 30 feet above the stage, and allow three people to pass across their interlocked bodies.

"FAUST" FOR SATURDAY. Alan Tabor's "Faust" company, which is booked at the Grand for matinee and evening performances tomorrow, is headed by one of the most remarkable Mephistos of the times, Alan Tabor, and a Marguerite in the person of Helen Hawthorne, whose rendition of the character has established her as an actress of power and

A Frenchman's Social Error.

A Frenchman on his return to Paris after a week's stay with an English commercial friend in London, sat down to inscribe a letter to thank his host for his kind hospitality. Possessing but a scant knowledge of the English language, it entailed some effort on his part to frame a suitable letter. He managed, however, to convey what he wished to say with considerable satisfaction to himself. It only needed the usual finishing sentence, and the Frenchman was wont to wind up his social letters with the French phrase, "May the Lord preserve you and your family to all eternity."

Failing for the moment to recall the English definition of the French word meaning 'preserve' he sought the aid of a dictionary. He there discovered that the word meant "pickle," so with

#### AN EASY WAY To Keep Well.

It is easy to keep well if we would only observe each day a few simple low in short order. rules of health. The all important thing is to keep

not necessary to diet or to follow a set rule or bill of fare. Such pampering simply makes a capricious appetite and a feeling that certain favorite articles of food must be avoided. Prof. Weichold gives pretty good advice on this subject; he says: "I am 68 years old and have never had a serious illness, and at the same time my life has been largely an indoor one, have a happy married life. but I early discovered that the way to keep healthy was to keep a healthy of gold, signifying endless devotion, I always eat what my appetite craves.

but daily for the past eight years I have made it a practice to take one or

two of Stuart's Dyspepsia Tablets af-

ter each meal and I attribute my ro-

bust health for a man of my age to the regular daily use of Stuart's Tablets. "My physician first advised me to use them because he said they were perfectly harmless and were not a secret medicine, but contained only the natural digestives, peptones and diastase, and after using them a few weeks I have never ceased to thank him for his advice.
"I honestly believe the habit of tak-

ing Stuart's Dyspepsia Tablets after meals is the real health habit, because their use brings health to the sick and ailing and preserves health to the well and strong." Men and women past 50 years of age need a safe digestive after meals to insure a perfect digestion and to ward off disease, and the safest, best known

and most widely used is Stuart's Dys-

pepsia Tablets. They are found in every well regulated household from Maine to California and in Great Britain and Australia are rapidly pushing their way into popular favor.

Four Men Killed and Forty

Boiler in Steel Works Explodes-Nine Puddle Furnaces Wrecked.

Lebanon, Pa., Nov. 13 .- The explosion of a large boiler in scrappuddle furnace No. 3, at the west works of the American Iron and Steel Manufacturing Company's plant late this afternoon caused the death of four workmen and about forty others were more or less seriously injured.

The calamity is the worst that ever occurred in Lebanon. The boiler exploded without warning and in an instant the entire place was black with death-dealing debris. The wreck and ruin of the nine immediate puddle fur-

naces was complete.

The offices of the works were at once converted into a hospital and nurses from the Good Samaritan Hospital were brought to the place. Into the temporary hospital the maimed and scalded workmen were carried and given attention. Some have their eyes burned out, others their hands blown off. Many of the injured it is believed cannot live through the night.
Women and childen thronged the entrance to the works crying and begging to be allowed inside. It is feared the list of the dead will be materially increased when the ruins of the nine wrecked puddle furnaces are explored. The exploded boiler was hurled high into the air and passed over the of-fices, burying itself in the south bank of Quittapahilla Creek, several hun-dred yards away. The plant has been closed and workmen are removing the

Among those likely to die are the following: James Nine, puddler and helper, badly hurt internally and leg broken. Aaron Potteriger, puddler, serious internal injuries. Francis Murray, seriously burned about body; Francis Simon Pottiger, injured very severely The boiler, which was of 200 horse-power, broke squarely in half, one part sailing through the machinery and woodwork of the mill. The roof collapsed and the flames from the puddle furnace under the wreck-ed boiler set fire to the debris. The fire force of the company, however, extinguished the flames in a few

#### THE LUCKY BRIDE.

At a recent wedding the bride wore a pair of blue silk stockings which were loaned to her by Mrs. Charles Freeman, better known as Miss Wilkins, thus complying with the condi-tions of the old superstition compelling a bride, if she wished for luck to

These particular stockings possessed a history dealing entirely with the old adage, to which brides invariably give heed, notwithstanding the severity of their frowns at childish superstitions upon other and less momentous occasions. Those hose were originally pre-sented by Miss Abby Turner to Miss Mary E Wales, with the understanding that she should wear them when married. But as the wedding of Miss Wilkins, who is a friend of Miss Wales, occurred before the owner of the stockings had a chance to wear them herself she turned them over to the bride to use upon the happy occasion. Then Miss Wilkins passed them on to this bride, who will in course of time present them to some other bride, doubly

"Something old" is frequently the wedding veil itself, which, if of good lace, to handed down as an heirloom to be worn by all the brides of a family. 'Something new" is hard to get away from, as the garments of a bride are usually of self-evident freshness. "Something borrowed" is easily complied with-a pin, ring, or hairpin answering every purpose. "Something blue is often a pair of silk garters, or

Have you ever considered, Marshall," he went on, "unmindful of Wilder's astonishment, "what a faithful, industrious and cheerful friend is a hen? ## FACTS FOR

The great moral that can be pointed to the advertiser is that of keeping at it. The tortoise and hare story is applicable under many circumstances, but especially to the man who advertises. Keep the thing going. Even if it is impossible to do big things keep the little ones to the foreground and see that the little efforts count for as much as possible. There are many points which need careful revisioneven small points-but it is worth the attention of the man to make them as strong as they can be made and to push them as hard as they may be pushed. To persist in an unwise policy is foolish, but to be active in pushing in the right direction shows the best of business judgment.

J. J. YOKOM TALKS Welland Merchant Tells How Dodd's Kidney Pills Brought Back

Splendid Health. Welland, Ont., Nov. 10.-(Special.)-Mr. J. J. Yokom, the well-known grocer and provision merchant of this place, has come out with a statement that is of peculiar interest to all those suffering from Kidney Disease in any

"I had been suffering from Kidney Complaint for a year or more," Mr. Yokom states. "I had a very depressed feeling in my head, little or no appetite, a constant feeling of languor and I lost a lot of weight. I spent money on medicines and doctors to no benefit. and I was greatly discouraged. "One lucky day, I heard of Dodd's Kidney Pills and started to use them. They did me good almost from the first and five boxes completely cured me. I am now in splendid health.'

Canada has 100,000 Indians, the United States 270,000. WHERE WEAKNESS IS, DISEASE WILL SETTLE.—If one suffers from any organic weakness, inherited or contracted, there disease will settle when it attacks the body. Therefore drive out the pains that beset you, do not let a cold or cough harass you, and keep the respiratory organs in a good, healthy condition. This you can do by using Dr. Thomas' Eclectric Oil. Prevention is the wisest course.

#### WIRELESS TELEGRAPHY.

The wonderful experiments in wireless telegraphy as demonstrated for the first time by exchanging signals from a railway station to a train running at a rate of 60 miles an hour, made on the Grand Trunk special train Oct. 13, 1902, carrying the members of the American Association of General Passenger and Ticket Agents to their 47th annual convention held at Portland, Maine, Oct. 14 and 15, 1902, has prompted the passenger department of the Grand Trunk Railway system to issue a publication giving a description of the experiments, together with a concise, popular treatise on the principles of wireless telegraphy, dealing with the subject also from an historical point of view and including a chapter on the recent developments of this branch of physical science. This article is from the pen of Howard T. Barnes, D.Sc., F.R.S.C., of the Macdonald Physical Laboratory of McGill Uni-New Books at the Library. versity, Montreal, and is most option tune in view of the great interest occasioned by the recent arrival at Glace Bay, Cape Breton, of Signor Marconi, telegraphy across the Atlantic Ocean. Epictetus. Two volumes.
Spinosa—Tractatus Theologico-Politicus, ject, a description of the luxurious Grand Trunk special train on whi the experiments were made, and a short resume of the trip from Chicago to Portland, Maine, is given in an interesting manner. Copies of this valuable publication have been mailed to the principal officials of the great railway systems of the world, and anyone desiring a copy can secure one by sending a two-cent stamp to G.
