Norman could give no very clear account of his wanderings. In fact, he does not like to talk about the trip To an Advertiser reporter he stated, however, that he was "looking for a Traction car, but couldn't find any." The quest apparently led him on and on into the country, until night came on, and seeing nothing better for it he slept in a field beside the road. The night was a chilly one and the boy wore no heavy clothes, and his parents are thankful that he took no harm. The next day he resumed his journey, but how he came to arrive at Belmont he could not explain. It seems incredible that he should have walked the whole distance of thirteen miles but he insists that he did not get a ride on any wagons. At any rate is not seriously contemplating another tour, his first taste of adventure being enough to satisfy him for some

#### "MY STOMACH IS FINE Since Taking Na-Bru-Co Dyspepsia Tablets"

Mrs. J. Merkhuger, Waterloo, Ont., enthusiastically recommends Na-Dru-Co Dyspepsia Tablets. Her experience with them, as she outlines it, explains why.

"I was greatly troubled with my stomach", she writes. "I had taken so much medicine that I might say to take any more would only be making it worse. My stomach just felt raw. I read of Na-Dru-Co Dyspepsia Tablets, and a lady friend told me they were very easy to take, so I thought I would give them a trial and really they worked wonders. Anyone having anything wrong with his stomach should give Na-Dru-Co Dyspepsia Tablets a trial, they will do the rest. My stomach is fine now and I can eat any food."

One of the many good features of Na Dru-Co Dyspepsia Tablets is that they are so pleasant and easy to take. The relief they give from heartburn, flatulence, biliousness and dyspepsia is prompt and permanent. Try one after each meal-they'll make you feel like a new person.

### FARMERS BUSY SAVING HARVEST WORTH MILLIONS

and Barley Is Being Cut.

#### Rain of Last Night Was Badly Needed in Many of the Districts.

The rain which fell in many parts o the district last night was just what the farmers have been wanting for several days. It was the only thing wanting to make perfect one of the greatest harvests the farmers of Southwestern Ontario have ever known. The shower was not heavy, yet enough fell to refresh the grain now ready to cut, help the pasture and save the potatoes, which in many districts were threatening to be seriously damaged by drought.

Farmers Busy. In a great many townships the greatest part of the wheat has been cut, and the oats and barley are ripening fast. The past few days have been busy ones for the farmer, and for the next two weeks he will be just as busy. However, reports from all over Middlesex, Elgin Lambton, Oxford, Huron and Bruce indi-cate that the harvest of 1913 will be one and will be enrolled as one of the many over Canada for fine crops

Splendid Weather. It is not often that such splendid weather as has favored the farmers for the past two weeks comes at such a ritical time for the crops. As a result f the continued fine hot days the wheat ipened and the barley and oats came along at a rate that caused many farmers to wonder how they were ever going to get their grain cut and stored away Bishop Greer, of New York, his own bishop, Rhinelander, and "present-day hypocrisy" in the Episcopal Church.

Betrayed Laborers.

Mr. Richmond charges that the shurch has for your hotreyed the in in time. However, hard and incessant work is doing wonders, and the barns all through the district will be bursting with thousands of bushels of the finest quality of grain as soon as the threshing church has for years betrayed the inerests of the laboring men. He bitter-

Farmers Prosperous. Bankers say that when the farmers are prosperous it is the best sign that general conditions are good. If this is so, all talk of a financial stringence should not carry very far in this district. In fact, many financial men say that the outlook has been brightening steadily with the splendid crop prospect and that there is not going to be an together with a choice set of Newport and that there is not going to be any and Bar Harbor social lights, who period of depression such as was feared in many quarters. Wholesale men say that orders are coming in plentifully for filling in the fall, and that their customers are meeting all obligations satisfac-torily. The outlook in general, business-

men state, is good.

FARMERS SATISFIED. [Special to The Advertiser.]
Lambeth, Aug. 2.—Farmers in this
district were never busier. Many have just finished their wheat cutting, and as a result of the splendid weather, which has ripened both oats and barley, will have to start cutting these crops week. The grain everywhere is of excellent quality and the yield abundant. Everywhere there is evidence of abund-

[Special to The Advertiser.] Delaware, Aug. 2 .- Caradoc is one the greatest potato-growing sections in the country, and prospects are good for fine yield. Rain is badly needed though just now if the potatoes are to yield as well as they should from earlier indications. Grain all through the district is in first-class shape. Much of the wheat is cut, and the yield is a high average. Oats and barley are coming along rapidly, and cutting will commence in a day or two. The root crops in general promise well, and a shower will put everything in perfect shape.

# This Store More Than Keeps Apace With City Growth

AN ERA OF IMPROVEMENT-We have faith in the growth of our city. We always had, otherwise we would not have built a store big enough for a city of one hundred thousand people. We built for the future, and the building estimates for the coming year goes to show that the population of London will in a very few years come to its own. We feel sure there is an awakening in this city for rapid development by the strong sentiment in favor of speedily constructing radial lines, plans for which, it is hoped, will soon take definite shape, giving electric car service throughout the western and northern sections of Ontario, and broader rapid transit facilities to this city. Additional electric lines leading into London will be a great factor in increasing the population, as well as business interests, and we trust that the good work may go forward with businesslike co-operation and the hearty indorsation of business interest and individuals, without quibbling over non-essential details.

As merchants, we are concerned in the future of this city. It is not within our province to discuss initial cost, but we believe that means to the end will be forthcoming, that these improvements will come, and that London is entering upon an era of constructive development not hitherto approached. London is the natural business centre of Western Ontario, and we look for marvellous transformation in the next five years.

## Black Dress Goods Are Pointed To Be Highly Popular the Coming Fall

And we have already a few choice new things to show, which were selected from the maker's samples for early delivery, amongst which will be seen a variety of plain and fancy "Resildas" from Priestley's, which are without exception the most serviceable of dressy black for all season's wear. card, inclosed in an addressed and stamped envelope.

Women of the best taste do not fancy the ready engraved cards of condolence and of reply to condolence, for the personally expressed word is always best on such occasions.

The woman in deep mourning does not make cails or entertain formally, but as invitations to social functions will be sent to her during the mourning period she will need many visiting cards to return with acknowledgment and regrets.

When it is her purpose again to enter society she leaves off her mourning and sends out cards for informal days at home or a more or less formal reception.

#### PARTY GOVERNMENT.

Having provided a remedy for mitigating to some extent the evils of an hereditary, irresponsible second chamber, there is now in England a growing inclination to look into some of the evils of party government. We are naturally disposed to esteem highly our British system, especially when compared with the methods of other demoall powerful. He may protest to his leaders in private, but in public party loyalty compels him to keep his

It may, of course, be said that a dependent, that he should always be free to vote against his own party leaders as his own conscience may decide. But he is not free. He is not elected to vote as he pleases. He is elected for the purpose of supporting one party or the other. If he has been elected in a constituency where the majority is Conservative, he is elected to support the Conservative party in the House. And if he should not, his constituents would clamor for his resignation. In fact, the only consistent course for a member of Parliament to follow if on any occasion he is compelled by his conscience to vote against his party on an important issue, is for him to resign, and go back to those who voted for him in that they may have an oppor tunity to express their opinion. It is true that before publicly breaking away from his party on any measure he has the right of protest in the caucus. But this is not of much value, bedorses the party leaders. And the average representative submits to the caucus and votes for something he pes not approve, rather than face the storm that invariably attacks the

It would mean a complete change. And even if we should be be better than the present one. there would be great difficulty in effecting the change. To accomplish it we should have to get rid of our present party prejudices and party associations. That, if accomplished at all would have to be by a slow process of transformation of character.

#### A NATIONAL COTTAGE-BUILDING POLICY.

A tremendous scheme for the benefit of the English, Scotch and Welsh rural laborers has been outlined by Mr. Runciman, president of the British Board of Agriculture. As he is a member of the Government it is taken for granted that he foreshadows the official Liberal policy.

It is estimated that from 100,000 to 120,000 cottages are wanted to provide properly for the present rural their Tommy, who was a bright little population of the United Kingdom (ex-

cepting Ireland). Many of the existing ones are insanitary and dilapidated, and must be torn down, but there is appalling scarcity of any kind of habitation in the villages where the laborers live. Something must be done at once ,and it must be done by the public authority. Mr. Runciman says that rapid and substantial progress can be nade only by the central government taking the initiative, and carrying out a comprehensive policy by its own agents and its own finance. His scheme would commit the Government to building not fewer than 90,000 cottages, of which 10,000 should be started at once. Why not? In Ireland 41,-852 cottages have been built under the Land Purchase Act, and 19,000 more are planned. Under the Runciman plan, the state is to employ, if necessary, compulsory powers to purchase land in considerable blocks at reasonable prices, and to erect cottages, four to the acre, or thereabouts, so that an adequate allotment would be attached to each cottage. Cottages so built, he declares, can be made to pay their way at a weekly rent of three shillings (about 75 cents). This is based on the report of a departmental committee just issued, in which it is estimated that cottages could be built in batches at about £150 (nearly \$750) each, with a further payment of £50 (nearly \$250) for the land. It is pointed out that each cratic forms of government. And yet cottager will be able to supplement his it has its disadvantages. #### THE HOME RULE BILL.

All hope of settling the home rule question by consulting the people of the United Kingdom upon that specific issue has been abandoned. It has been the stock complaint of the Unionists member of Parliament should be in- that the Government had no mandate for the home rule bill. The last election was fought chiefly upon the House of Lords' question, though the Prime Minister publicly pledged his party to measure of Irish self-government. But now the Unionists have definitely taken the position that the matter is in the hands of the minority in Ireland; that even if a majority of the British electors approved the present bill, the Unionists in Parliament would not be bound to accept it.

When the House of Lords threv out the bill for the second time the other day, Lord Lansdowne, the Unionist leader, declared that if the Government would dissolve Parliament before the bill became law, or refer it to a referendum, the bill could loss of a day if the electors wanted it.

#### THE BRITISH ARTILLERY.

Earl Roberts draws attention to the gravely unsatisfactory condition of the British artillery. Our gunners can only learn their work by practice shooting. It comes, therefore, as a painful surprise to learn that the practice allowance in peace of each British regular gun is only about half that of a French and-we may add-of a German gun. In other words, an essential of efficiency which makes no show on paper has been sacrificed so save money. Not only is a much greater allowance of ammunition required, but also, as Lord Roberts points out, a large number of ranges. The matter is of the supremest importance, for, as Napoleon showed, artillery is the arbiter of the

is Burlesque, Four Pitchers Being Used-Second One Is Good Exhibiton.

[Special to The Advertiser.] Hamilton, Ont., Aug. 2. - Ottawa took both games here today from Hamilton, making it four straights and all of the past home series. The score of the first game was 4 to 2 and the second 5 to 3. The first game developceived some awful thrashings in his time Plate winner, there will be found ed into somewhat of a burlesque near the end. Both teams used two pitchers during the game. Dougherty started the game for Hamilton, but Shaugh nessy's Senators gathered three hits and three runs in the first inning and two hits in the second, before anyone was retired. Manager Lee thought it was about time to yank him, so sent Schuyler in to replace him. Schuyler surprised the fans by only allowing three hits in eight innings, something which he very seldom does. Umpire Halligan banished Dolan in the fifth inning for kicking against a close decision at first. while trying after a high foul in the ninth inning, ran against the railing in front of the bleachers and had to be carried off the field. He was not seriously hurt.

The second game, which only went even innings, was somewhat like a ball game, although Ottawa had three errors and Hamilton four. Both teams played excellent ball, and every one of the errors made was the kind which can only be called hard-luck errors Kubat was on the firing line for Ottawa hit Donohue hard in the first innings, getting three hits and three runs off him, but after that he settled down and had good control. #### PRESIDENT LYNCH THROWS OUT PROTEST

[Special to The Advertiser.] New York, Aug. 3.—President Lynch, of Mey York, Aug. 3.—President Lynch, of National League, in a decision anaounced today, held that the result of the protested Brooklyn-Cincinnati game of July 11, which Cincinnati won, 5 to 3,

July 11, which Cincinnati won, 5 to 3, stands as played.

The Brooklyn club protested because of a decision by Umpire Quigley, who allowed Player Moran but one base on a wild pitch, on which play Moran had advanced from first to third base. The evidence submitted by Umpire Quigley and Captain Hobiltzel, according to President Lynch's decision, showed that on the first day of the Brooklyn-Cincinnati series Manager Dahlen had made a ground rule allowing but one base on a pitched ball that hit the grand stand.

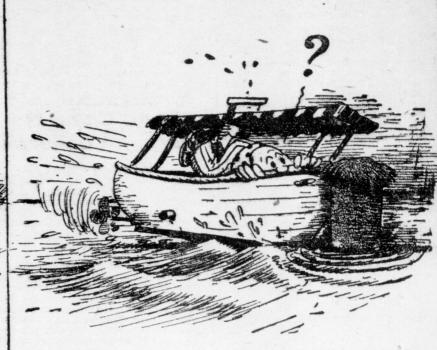

As both clubs agreed to this rule, President Lynch held that the protest of the Brooklyn club had no force.

and-run play in order, he could tip off the third baseman and then let the ball slip out of his hand, so that the player could be nipped either at second or between the bases. There is no written rule to cover this point, however, unless the rule governing the pitcher's delivery is applied. In that case a dropped ball could be called a 'ball' simply because 'i did not pass over the home plate between the knee and the shoulder."

"What do you think of the recent decision in the American League which sent Borton back to the plate to hit over again after a ground ball thrown by an outfielder had struck an umpire?" Klem wasked.

"The rule says that if a thrown ball hits an umpire base runners must be sent back to their original stations," was the reply, "but the rule makers never neant to have a batsman return to the plate to hit over again. These are some of the points that must be cleared up by the rules committee before next sea-They do not come up frequently, but the umpires should be in a position to make prompt rulings."

New York, Aug 3. - Henry Lane Wilson, United States ambassador to Mexico, was the victim of pickpockets, who secured his wallet, containing \$128 together with valuable papers and official memoranda, while the ambassador was escorting two women to a Long Island train in the Pennsylvania station, yesterday, it was learned to-

News of Mr. Wilson's loss became ublic when railroad detectives, who had received the ambassador's complaint, had consulted with detectives from police headquarters. All parties were reticent regarding the details, but it was said that the ambassador was not greatly concerned over the incident. There is no intimation that the theft was the work of anyone seeking secret papers in the ambassador's possession, but that it was simply an ordinary case of pocketpicking.

Boy Awakens to Find Freight Train Passing Above Him.

Toronto, Aug. 3. - To waken up from sleep and to hear and feel a train rushieng over him, was terrible experience of Gordon the terrible experience of Gordon Smith, a callboy at the Bathurst stret yards of the G. T. R. early yesterday morning. The intense heat of the night had driven the boy from his cabin and he sought rest by lying down on a seldom-used track and fell asleep.

Fortunately he lay on the ties with no part of his body on the rail. A number of freight cars were switched onto the track, and the boy, waking with a start, tried to jump out, but was struck by an axle and knocked back onto the ties.

His cries were heard by the train crew, and when the stop was made one of the cross-pieces underneath a car had wedged him to the track. To move eiether back or forward meant death to the lad, and the railwaymen saw that the only way to release him was to raise the car. Constable Me-Coy, in the meantime, started to dig under the boy's body with his bare hands, thereby relieving much of the pressure. Smith was finally from the terrible position and removed to Grace Hospital , where he lies in a precarious condition. His chest is badly crushed, and internal injuries

## MANY BODIES OF THE LORD CHRIST

Sermon Appropriate to Communion Service at Talbot Street Church.

REV. J. J. ROSS PREACHES

Says Elements of the Lord's Supper Were 1 of Intended To Be Mor. Than Symbolic.

The ordinance of the Lord's Supper was observed at Talbot Street Baptist Church Sunday morning, the pulpit being occupied by Rev. J. J. Ross, of Hamilton, a former pastor, who preached an appropriate sermon from the twenty-fourth verse of the eleventh chapter of first Corinthians; "This is my body, which is broken for you; this do in remembrance of Me."

Lord's Many Bodies The preacher, in his discourse, developed the thought that when reference was made to the body of Christ in Scripture the reference was not alin Scripture the reference was not always to the same body. There is a distinction made between four separate and distinct hodies of the Lord Jesus, and failure to comprehend this to many misapprehensions. Scripture teaches us that Christ has four bodies," he said, "and if we are not careful in our reading and in our thinking we are likely to confound them and thus misunderstand the

meaning of many pasages."
The Natural Body. "First of all there was the natural body of Christ," the speaker continued, time of His ministry here on earth. It He was one of the outcasts of sowas in all respects like unto our own He suffered pain in the body and in body, possessed by mankind today.

Then there was His glorified body-

The symbol of the The third body of Christ, the preacher referred to as the mystical body o body was most appropriate in that connection, because of the diversities of functions in the human body, all being united in one distinct body and all permeated by the same life. Simflarly there were many members of the church of Christ, but they were all part of the mystical body of Christ.

### THE TRAGEDY OF THE DO-NOTHING

Revealed in Christ's Parable of Lazarus and the Rich Man.

DANGERS OF THE RICH

Those Possessing Power and Wealth Prone To Lose Their Better

The tragedy of the do-nothing, as rerealed in Christ's parable of the rich man and Lazarus, was the theme of an able discourse by Rev. Joshua Stansfield, D.D., of Indianapolis, at the Dundas Street Centre Methodist Church on Sunday evening.

Dr. Stansfield will be remembered by many Londoners as one of the principal. many Londoners as one of the principal speakers at the recent Methodist Con-ference in this city, where he conducted daily devotional exercises.

The Parable's Meaning. The popular view of the meaning of this parable was that it was a forecast of what the final judgment would be like, he stated. While admitting that he be-

lieved that the final judgment would be as it was pictured in the story, Dr. Stansfield stated that he did not think that that was Christ's purpose in telling the parable, which was addressed to a number of rich people. The great gulf, in his opinion, was used by Christ to typify the separation of a man from his better self, his better life, a danger which besets all those who rise a little above their fellows in power or wealth. There is a danger of their holding aloof from their fellow-men, of doing nothing to help them. Thus they themselves scoop out the great gulf which separates them from the better life, and instead of rising in the world, as they suppose, they are going down.

"The greatest thing about the teaching of Christ," said Dr. Stansfield, "is that he always presents God and heaven and life itself from our point of view. He did not present to us a God high and mighty and wonderful, but he said "God is our Father, and heaven is our home, to which all we as children will come at the end of the day."

## CHRIST'S WINNING OF THE PUBLICAN

Zaccheus Was Reached Through LONDON DOCTORS His Realization of Life's Values.

MODERN HEAVEN

A Brotherhood in Which All Work To Give Everyone a Fair Chance.

"Jesus Christ's Conception of the Kingdom of Heaven, Translated into Modern Life," was the text that furnished Rev. James Wilkins his evening sermon at the Askin Street Methodist Church Sunday, where he is supplying for the pastor, Rev. W. H. Harvey, during the month of August. Contemplation of the kingdom of heaven as a whole would be too great, said the speaker, who applied the lesson of its contact with one man only-Zaccheus. Story of Baccheus.

The story of the chief of the publi-cans, who was won to Christ's followng, was outlined and the various feelings that assailed this publican were translated to their modern application. The kingdom of heaven, said Mr. Wilkins, reaches every man through some vice or some bend of character. It eached Zaccheus through his realization of values. He found his own life was not returning full value and therefore he was willing to try the new

life as taught by Jesus Christ. The Savior's teachings of the folly of laying up worldly possessions that would gain their possessor nothing should he lose either his soul or his life, appealed to the materialistic publl-gotten gains for the honest endeavor of a true Christian.

The Modern Heaven, The modern definition of heavenhat of a brotherhood wherein each works to give everyone a fair chance at all things-was construed to be the meaning of God's kingdom that came o the publican Zaccheus. The brotherly spirit that caused the home spirit rule society at large was one that appealed to the man who had always vorked for his home and family.

This brotherly spirit was one that ctuated society at the present time. The grocer, the butcher and the milkman, who are giving true value for their hire in providing things for the to eat, were truly laboring for the kingdom of God. They were cerrying out the principle of a fair chance The real estate dealer in all things. providing homes for a fair competency were also carrying out this same principle—giving all a fair chance. It was equally true of knowledge and of religion-those who were serving the kingdom of heaven were giving all a

America from England ten years ago Elliott was an officer in the Fifth Dragoon Guards, and saw active serice in the Boer war. Mrs. Elliott told the police when asking for a warrant that she had married Elliott eight years ago, but

had separated from him three years After the separation she said he went to Chicago, where he met her second cousin, Miss Ellen Sidley. She refused to divulge any of the facts of the case and was told to seek

a warrant for her husband's arrest from a magistrate. This she presumably did, but after learning that both had fled from the One Hundred and Forty-sixth street address she left the city and could not e located tonight.

When the clothes of both were searched a photo of the pair was found in an inner pocket of the man's coat, evidently taken while visiting a seashore resort. Miss Sidley wore a wedding ring, which is shown in the pic-

To The Sanoi Manufacturing Co., Ltd.,
975 Main Street, Winnipeg, Man

These few lines are to add to my testimony in regard to the benefits derived from your SANOL. Although still ailing from lumbago, through the lack of proper care of myself, I find SANOL a panacea not to equal it for instant relief from excesses of unic acid in the blood. The trouble with many of our people, we do not give the treatment long enough a trial to make a cure, and sometimes people to original starting point. I have recommended the SANOL to an old friend of mine who is about 70 years old, and who was troubled with his into the long transfer of the same of t old, and who was troubled with his inability to pass water without experiencing excruciating pains. After having taken two bottles of SANOL he got relief; he then ordered a half dozen bottles from your company, and I told him if he would continue he would get better altogether, which, to my delight, he does.

I have certainly no flattery to make, but it is my duty to report it to the skeptic public that do not believe in a scientific, cpoch-making panacea for kidney trouble. SANOL and help suffering humanity.

#### Acid Stomachs Are **Dangerous**

Common Sense Advice by a Distinguished Specialist.

"Acid" stomachs are dangerous because acid irritates and inflames the delicate lining of the stomach, thus hindering and preventing the proper action of the stomach, and leading to probably ninetenths of the cases of stomach trouble from which people suffer. Ordinary medicines and medicinal treatments are useless in such cases, for they leave the source of the trouble, the acid in the stomach, as dangerous as ever. The acid must be neutralized, and its formation prevented, and the best thing for this purpose is a teaspoonful of bisurated magnesia, a simple ant-acid, taken in a little warm or cold water after eating, which not only neutralizes the acid, but also prevents the fermentation from which acidity is developed. Foods which ordinarily cause greatest distress may be eaten with impunity if the meal is followed with a little bisurated magnesia, which can be obtained from any druggist, and should always be kept handy.

Park Avenue Pup Attacks Lady and May Be Discharged.

Complaint has been made to the police regarding a brindled bulldog which insist's upon making his home at a Park avenue boarding-house. He has annoyed residents of the avenue for a week or more, and has on several occasions attacked children playing on the street. Sunday morning he attacked and bit a young lady living next door. The dog is living under a reprieve of justice, because, on the advice of the police, who say the animal is a valuable one, it is feared an action for damages might be brought by his owner should the latter turn up and find the dog destroyed. The canine closely resembles Buster Brown's old playmate, Tige, but if Buster does not come along at once Tige will have to choose between a new home and the lcthal chamber.

#### How to Lose Your Tan, Freckles or Wrinkles

[From Woman's Tribune.] brings on a deep tan or vivid crimson, or, more perplexing still, a vigorous crop of freckles. A very necessary thing then is mercolized wax, which removes tan, redness or freckles quite easily. It literally peels off the affected skin—just a little at a time, so there's no hurt or injury. As a the skin comes off in almost invisible flaky particles, no trace of the treatment is shown. Get an ounce of mercolized wax at your druggist's, and use this nightly as you would cold cream, washing it off mornings. In a week or so you will have an entirely new skin, beautifully clear, transparent and of a most delicate whiteness.

Wrinkles as an to form at this season.

Wrinkles, so apt to form at this season may be easily and quickly removed by bathing the face in a solution of powdered saxolite, one ounce dissolved in witch hazel, half pint. This is not only a valuable astringent, but has a beneficial tonic effect also.

New York, Aug. 3.—In an automobile accident tonight at Long Beach, S. Ossood Pells, noted society man, and his chauffeur were instantly killed. Mr. and Mrs. Laimber were seriously interest.

a wager is to be laid as to how long have a new city hall the car will last. The smallness of When the auto and the hard service that will be demanded of it in the fire department are believed to be two features that can hardly be reconciled.

> Garbage Collection Expensive. Grbge collection is costing London approximately \$450 per week, exclusive of the operating charges at the incinerator and the salary paid to the superintendent. The contract system of collection-the city providing the carts only-has been one that has raised the original estimate of cost considerably. It is not thought, however, that the contract charges of \$3 per day for man and horse, and \$5 per day for man and team, is excessive. With little money in the treasury, that having been depleted by the extra cost of the incinerator, there was nothing left to purchase the horses and necessary equipment.

Holiday Today. It being civic holiday, municipal of-fices will remain closed today. The city fathers will have respite from their duties, as well as the employees, scheduled for tonight has been put over until Tuesda yevening.

Will Move Partitions. The temporary offices in the present city hall, erected some time ago when the Royal Bank took possession of the building, will disappear at the end of this month. The partitions that divided the old auditorium into offices are the last things to be removed from the building. They are to be rushed to the tem porary quarters in the Spencer Block and part at least will be used there in
