

RUSSIANS AFTER NORWAY; STIRRING UP DISLOYALTY

Norwegian Government Hurriedly Dispatches Gunboats to Finnmarken to Head Off Insurrection

THE DANISH PRESS BLAMES THE CZAR'S AGENTS

Christiania, July 28.—Prompt and vigorous measures are being taken to relieve the situation in Finnmark, where the fisherfolk, incensed by the slaughter of the whales, are in open revolt, and threaten to invite Russia to occupy the country. The Government has dispatched a gunboat to quell the disturbance, and to offer fishermen loans to build seagoing smacks, and has also undertaken to improve the communications for the sale of fish. The Cabinet has also assured the discontented population that the bill prohibiting the killing of whales, which the Storting recently postponed, will be retableaued.

Latest advices indicate that the party played by the Russians in the demonstration is not a small one, and that the weight, The Russians who investigated the agitation were not officers or soldiers, but civilians. Nevertheless, the presence of Russian political agitators among the people is suspected, and the Government has expressed it is also reported that Socialists are aggravating the trouble, and inciting the people to violence against the wealthier classes. It is hoped that the presence of an adequate fleet of gunboats and other vessels will calm the storm.

Copenhagen, July 28.—Copies of the "Finnmark Manifesto," published in the Northern Norway, which was signed by the Danish Government, have caused considerable excitement here. They describe the condition of the fisherfolk as one bordering on destitution, and assert that loyalty to Norway is giving place to a feeling of attachment to Russia, whose attitude toward the fishing population is represented as one of indifference and neglect. This suggestion as exceedingly alarming, since they suspect that Russia is endeavoring to gain possession of it entertains a special regard for the inhabitants of the sea coast, in order to undermine the position of the population of an ice-free Atlantic port.

Finnmark's disloyal demonstration has aroused much interest in London, which calls on Norway to adopt severe measures for their repression in order to remove all cause for complaint. It points out that sheer barbarism prevails on the north coast of Russia, and that the people without communication or schools, and without freedom of press, speech and association, and are looked down upon as a race of inferior beings. It calls for the appointment of a special official to

siderably over \$5,000,000 for the construction of two additional steamers for the line, placing the whole fleet at the disposal of the admiralty for use as cruisers, and providing for an improved Atlantic mail service. The shareholders also confirmed the agreement with the government, which the chairman, Lord Inverclyde, said, did not constitute subsidizing the company, but only "paying for services rendered."

MILITARY PROFESSORS

Two Vacancies at Kingston May Go to Britishers

Ottawa, July 23.—The likelihood is that officers of the British regular army will be appointed to the two vacancies in the teaching staff of the Royal Military College of Kingston. The officers now filled are the professorship of artillery, administration and tactics, and the professorship of military surveying and superintending of military drill and tactics, formerly held by Major Van Straubenzee and Captain H. S. Logan, respectively. Both positions might have been filled by Canadians, and it is currently reported that one was recommended for the professorship of artillery, but, unfortunately, he failed to find favor in the selection committee. The qualified Canadian was not selected, and the offer every way. The British officers are

WALL STREET STEADIES DOWN

A Further Panic Not Considered Probable.

THE ATMOSPHERE IS CLEARED

By the Sensational Drop in Securities—Was Too Much Extension of Credit.

New York, July 28.—While still adverse to placing their opinion on record the conservative banking interests of this city practically agree that events of the past fortnight have done much to clear the atmosphere. A few express further apprehension as to the stock market situation, and there are intimations in other quarters of a money stringency when crop moving time comes. Jacob H. Schiff, of Kuhn and Jacob, said: "The time is hardly ripe for a full and free discussion of the financial situation, but, however, that matters are gradually readjusting themselves, and so confident am I that all serious danger is at an end that I have arranged to leave town." A. Barton Hepburn, former controller of the currency and now vice-president of the Chase National Bank, which has several thousand correspondents scattered all over the country, said of the situation: "We have gone too far and too fast. Credit has been too much extended. We have been doing much business on our capital. A hardening process which subjected securities to a level that would have been a cure for the value was bound to ensue and is now in progress throughout the country. The public and the press are generally becoming sceptical, credit is withdrawn and liquidation has become inevitable. Money is being raised, but it is not being put to use. It is being hoarded. The market has fallen 50 points without serious panic, and the business interests of the country will have equal opportunity to conform to any fall in prices or reduction in the volume of trade. Isaac Seligman, of J. & C. Seligman and Company, said the recent severe liquidation has imparted a feeling of safety and security not only among the careful banking interests, but with the prudent and sensible public. Conditions which brought about the liquidation did not result from any fear of tight money, but simply from the speculative. The feeling of hopelessness that prevailed until a few days ago has been dispelled, and investment orders for high-class securities have come from strong parties. Fully \$1,000,000 to \$2,000,000 of European capital has been sent here for investment within the past week. The ruling rates for long-time money indicate in my judgment that a money stringency in the fall is most improbable. It is hardly likely we will increase our indebtedness to Europe this year. I can say definitely by the way that the situation in Europe should be any squeeze during the next two months, the United States treasury department will offer prompt relief to legitimate financial interests."

RUSSIA'S STRIKES

Employees of Government Railroad Are Concerned.

London, July 28.—The Russian correspondent of the Times says that the strike at Baku seems to have been the most serious labor disturbance that has occurred in Russia, that it extended to Tiflis, to Nostof and Novo Tcherkaak, in the district of the Don Cossacks, and that the Far Eastern Railway employees were concerned.

According to the same authority, the disturbances have been renewed at Borisoglebsk, on the railway between Voronezh and the Lower Volga.

Working expenses, 1903, \$2,906,555; 1902, \$2,332,223 78—Increase, \$574,331 22. Net profit, 1903, \$1,246,055 36; 1902, \$846,337 24. Gross earnings, 1903, \$33,519,922; 1902, \$30,563,785; net profit, 1903, \$11,586,845 78; 1902, \$14,085,912 41. The net increase is \$4,492,929 38.

THE MAN SHE LOVED

The Embarrassing Situation of a Michigan Preacher.

St. Clair, Mich., July 28.—Rev. Ralph Duff, of the Congregational Church, had a very embarrassing few moments during the Sunday morning service. He had just finished his sermon when Miss Hattie Cook walked down the aisle to the altar, and halting in front of the pulpit, said: "I bring you all I have; accept me as though you were my Saviour." The minister was so taken aback that he did not know what to do. He said: "Wasn't it right for me to do what I did?" and when assured that it was not, she revealed in voice and manner that she was the young woman's friend. The minister said: "I am sorry that she is slightly unbalanced mentally, which may account for her peculiar actions."

A RAILROAD DEAL

The Evansville and Terre Haute Absorbed by Rock Island Company.

New York, July 28.—The Rock Island system, through the medium of the St. Louis and San Francisco Railway, yesterday acquired control of the Evansville and Terre Haute and its subsidiary lines, by taking over the holdings of the syndicate headed by Edward S. Hooley, senior partner of the firm, whose failure was announced Monday. Official announcement of the change in ownership was made yesterday. From unofficial sources it was learned that the price paid was around \$50. At the same time Mr. Hooley resigned as president and director of the Evansville and Terre Haute, and several subsidiary lines, and B. F. Youkin, president of the St. Louis and San Francisco, was elected to succeed him. W. L. Stow, of the Evansville and Terre Haute, retained connection with the property.

FIENDISH THIEVES

Blind Two Old Women to Bed Posts and Plunder House.

Waterbury, Conn., July 28.—A story of torture and robbery was received in this city yesterday morning. Goshen, Bound hand and foot to her bed Sunday morning, Mrs. Morse, an aged woman, related a most ghastly tale. Two masked men any information which might lead to the discovery of a fortune. The thieves, who were armed with pistols, entered the room without awakening her and secured her to the bed-posts with ropes. The one man, who was blind, threatened to shoot her unless she gave them the desired information. When this failed, he threatened to burn her by the soles of her feet, but the discovery of \$30, a gold watch and a ring on a dresser in the room turned them from their purpose. In another part of the house they found Mrs. Feltus, a French girl, and threatened her also with the revolver. Thoroughly alarmed, the woman gave information which led to the discovery of \$23. This the men evidently believed was all that could be secured, and leaving the woman in a helpless condition, they went away. The two women succeeded in tracing the thieves an hour after the departure of the burglars.

COAL AT WALLACEBURG?

Experts Are Making Some Important Tests.

Wallaceburg, Ont., July 28.—There is considerable excitement in this town over the fact that coal has been discovered in the immediate vicinity. For some time past one of the Ontario Government's diamond drillers, under the direction of Mr. Roach, has been testing the territory, and a number of samples have been put down. Just what has been discovered in former tests it is impossible to learn, as upon this subject both engineers and managers are dumb. Yesterday it leaked out that in the last test held just north of this town a Chatham township drill on Friday evening pierced three distinct veins of coal at a depth of about 270 feet. Numerous stories as to the thickness of the veins are afloat, but it is impossible to verify any of them, the managers, when approached, being quite willing to discuss anything but coal. The drill has been moved, and a test will be at once made in another section of the field.

THE FLAGGING ENERGIES REVIVED.—Constant application to business is a tax upon the energies, and if there is a feeling of depression, the energies are sure to intervene. These come from stomachic troubles. The want of exercise brings on irregularities, and the stomach ceases to assimilate food properly. Having been recommended by me, Vegetable Pills will be found a recuperative force of rare power, restoring the organs to their normal condition, and relieving the flagging energies.

A PRIEST KILLED

Father Lyons Dies of Accidental Death at Ottawa.

Ottawa, July 28.—Father G. Lyons, parish priest of St. Albert, Ont., who arrived in the city Monday to attend the annual retreat of the Oblate Fathers, fell down an elevator shaft at the university and died within two hours. He fell a distance of 25 feet. He was taken to the Catholic Hospital, where the last rites were administered by His Grace Archbishop Duncanson. The accident happened through the reverend father mistaking the door of the elevator for his room.

A PECULIAR DEATH

Mechanic Falls Upon Dynamo and Is Killed.

Kingston, July 28.—Robert Coleman, fireman on the steamer America, met death aboard that boat Monday in a peculiar manner. He was engaged in tightening a belt around the engine using a large wrench for the purpose. The wrench slipped, throwing Coleman backwards. His head struck a corner of the base of an electric dynamo with such force that the skull was fractured, and death followed almost instantly. The deceased was about 30 years old, and a steady, hard-working man. A widow survives.

WILL REORGANIZE

Plans to Place Big Eastern Concern on Its Feet.

New York, July 28.—A plan for the reorganization of the Atlantic Coast Lumber Company has been adopted by a committee appointed for the purpose. According to the plan, deposits of the company's securities must be made with the Industrial Trusts Company, of Providence, or with the Morton Trust Company, of this city.

It is proposed to form a new company to take over the assets and liabilities of the old company, and to issue new securities. It is also proposed to fund some of the existing liabilities into several issues of bonds, the total of which will be about \$4,500,000. The capital of the new company will be about \$1,000,000, which will be exchanged for the existing \$1,000,000 capital stock of the Atlantic Coast Lumber Company on the basis of \$100 of new stock for every \$100 of old stock, and in order to share in every share of the old stock deposited. The sale of property under the final decree of foreclosure has been fixed for Aug. 3, and in order to share in the reorganization plan deposits of securities or claims must be made prior to that date.

U. S. IS OPTIMISTIC

Thinks Manchurian Question Will Come Out All Right.

Washington, July 28.—While there has been a lull in the Manchuria negotiations during the past week, it is stated that to the point of satisfactory progress has been made, and there is every reason to believe that before Sept. 1 next a treaty will be ready for signature which will define the trade opportunities of the United States in Manchuria. An authorized statement of the situation is as follows: "The question of the opening of new localities to trade in Manchuria has been in substance satisfactorily arranged between the Chinese Government, and nothing remains to be settled but the question of the date upon which the said localities shall be opened. This naturally will be subsequent to the exchange of ratifications of the treaty, in which the opening is agreed upon."

THE CZAR A TOOL

Russian Statesmen's Method of Hoodwinking Him.

Paris, July 28.—The current number of the European contains an article from a Russian correspondent dealing with M. Plehve's attitude towards the Jews, in which, after animadverting to M. Plehve's tactics in hoodwinking the czar, the writer says: "The czar sees passing before him the rising flood of a great river, threatening to carry everything away. Powerless and without clearly comprehending, the czar listens to M. Plehve, who takes the initiative in everything, does everything and promises still more. The czar is a free hand, hoping that the floods will subside. M. Plehve induced the czar to permit his famous manifesto to be read in all the churches for the people's edification. The czar wrote on one report 'very correct.' When Pobedonostzev heard of this he hurried to the czar and represented the danger of the course involved, as the people would not understand his wishes as to the redemption of the land, etc. The czar then wrote on Pobedonostzev's report, which contradicted that of M. Plehve's, 'perfectly correct.'"

Dr. Chase's Ointment
The Italian population of New York, which must now be toward 250,000, is increasing by immigration at so rapid a rate that it is likely to be somewhere about a million in 1910, for its natural increase also large.

THE WELLS TO KNOW A GOOD THING.—To know a good thing, well, when they meet in the street. "Why, where have you been for a week back?" "Oh, just down to the store for a bottle of Dr. Thomas' Electric Oil," and Mrs. Watson and a ring on a finger. But she remembered, and when she contracted a weak back there was another customer for Electric Oil.

It is stated that out of 200,000 people in Africa only 2,000,000 have ever heard the gospel. This is the saddest condition there are 30,000,000 who are without religious instruction.

THE CHICK IN THE BACK.—"One touch of nature makes the whole world kin," sings the poet. But what about the touch of rheumatism and lumbago, which is so common now? There is no poetry in that touch, for it renders life miserable. Yet how delightful is the sense of relief when an application of Dr. Thomas' Electric Oil brings pain away. There is nothing equals it.

LABOR GRAFTERS ARE HARD HIT

Charles Murphy, New York
Union Leader, Convicted

OF A HUGE EMBEZZLEMENT

The Courts Promise to Stop the
Hold-Up of Employers by
Union Officials.

New York, July 29.—The sensational trial of Lawrence Murphy, formerly treasurer of the Journeymen Stonecutters' Union, for embezzlement, came to an end yesterday with a verdict of guilty of grand larceny in the first degree. A number of indictments for extortion will probably grow out of the revelations of corruption among the leading members of the union that caused his prosecution for stealing \$12,000 from the union.

John P. McIntyre made a plea to the jury in Murphy's behalf, urging that he be not made the scapegoat for a lot of blackmailing "grafters." This brought from Assistant District Attorney Nott the assurance that both District Attorney Jerome and District Attorney Clarke, of Brooklyn, are taking cognizance of the evidence of the dishonesty brought out in the trial, and no guilty

member of the union would be allowed to escape simply because he had assisted to convict Murphy.

Murphy's trial was shortened on the rulings of Judge Newburger that, no matter where the money came from or from whom or how it was obtained, if Murphy took it as treasurer of the union and failed to account for it when called upon, he was guilty of grand larceny in the first degree. This entirely shattered the defense of McIntyre that the stolen money must be the money taken from its true owners, and the Stonecutters' Union never was the true owner of this money.

It was a bad day for Murphy, winding up, as it did, in his conviction, on which he may be sentenced to Sing Sing for ten years, but it was also a mighty bad day for the other grafters, a number of whom sat in the courtroom and did considerable squirming. In the defense McIntyre called Col. Andrew D. Baird to the stand to tell of the \$10,000 check transaction, which had been made the principal feature of Murphy's trial.

When did you see Donald Call, president and walking delegate of the Stonecutters' Union?

"On March 12, the same day that the men went out."

"Will you please tell this jury just what happened?"

"Well, Call said he and his friends were coming from the Stonecutters' Union and they wanted \$50,000. We asked what they wanted the \$50,000 for, and they said it would have to be paid before our men could get back to work. We conferred; then they came back and demanded \$21,000. We raised our price to \$25,000. They conferred more, and came back and said they must have \$12,000. Then we came up to \$10,000 and they conferred again and said that would do."

It was brought out clearly by the evidence that the committee serving notice on the Brooklyn employers that its demands must be met or there would be no calling off the strike, which was ordered but a few hours before.

BALFOUR WILL ANNOUNCE POLICY

About End of September—Cabinet at Present Studying Fiscal Policy.

London, July 29.—It is stated that arrangements have been made to call a special meeting of the Cabinet about the end of September, by which time it is anticipated that the ministers' investigations of the fiscal problem will have been completed, and the Cabinet will be in a position to reach a definite decision on Colonial Secretary Chamberlain's proposals.

President Balfour will address the National Conservative Union on Oct. 1, and he is expected to announce the Government's policy on that occasion. Mr. Chamberlain's opponents claim, as a result of the reception given to his proposals by Parliament and the country, that he is already shifting his ground.

NOW IT'S MOROCCO

Reported That Jews Have Been Plundered and Abducted.

London, July 29.—Nothing is known here of the report to the effect that a massacre of Jews has occurred at Ofra, near Tangier, Morocco. The Morning Leader of this city, in a dispatch from Tangier, publishes a report that the Jewish quarter of Ofra was looted by Arabs on July 17, that a building was destroyed, that a girl was abducted, and that in a quarrel among her abductors six Arabs were killed. This is doubtless the basis of the report.

A BATTLE FOR BREAD

A Strange Scene in the Streets of Newark.

New York, July 29.—A "bread riot" has occurred in Newark, N. J., owing to the strike of Hoagland bakers, who demand a holiday on Saturday. The supply of unleavened bread having become exhausted, two Hebrews journeyed to Newark and returned with two wagon loads. They were quickly held up by a clamoring throng of hungry persons and a riot of the stock was made. Men and women fought their way to the wagons and a riot was provoked, when a number of men began throwing the bread into the crowd. Many persons were knocked down and trampled upon, and several women were carried fainting out of the crowd. After a vigorous fight the police dispersed the rioters.

FLOUR FOR JAPAN

Canada's Good Chance to Secure the Market.

Ottawa, July 29.—Information has reached the agricultural department from Japan that there is going to be a wheat crop of Japan of the value of about 30 per cent this year, and also a considerable shortage in Korea, from which Japan gets a quantity of her wheat supply.

In consequence of the political difficulty in Manchuria there will also be a shortage in the wheat trade between Japan and Manchuria. In this connection, the Hon. Sydney Fisher points out that now is the time for Canadian flour dealers to ship into the Japanese market, as there has been increased demand for Canadian flour, which has creamed attention in the Canadian exhibition of Osaka. It is thought that if Canada and her dealers step in the market can easily be captured.

THREE BROTHERS DROWNED

Were Gallantly Attempting to Rescue One Another.

Renfrew, Ont., July 29.—A sad drowning accident occurred on Saturday on the Bonnechere River, between Lakes and Clear Lakes, by which three members of a family named Wilson perished. The victims were brothers, while engaged in the gathering of the wood one swam towards a log, when his progress was arrested. Another brother went to his rescue, but, seeing him in some mysterious undertow. The third brother was hastening to the rescue, when the bank gave way and he was carried over a chute. A fourth brother, a boy of 12, started to wade to the rescue, but, fearing he could do nothing, he turned about and ran for his father, who had gone to a neighbor's for a boat to help gather the drift wood. The father was within a short distance of the two older sons when they went down for the last time. Neighbors recovered two of the bodies that night and the third the next morning. An undercurrent of an eddy is supposed to have caught the two elder sons.

STORMS IN THE EAST

Many Disasters on the Nova Scotia Coast.

Halifax, N. S., July 29.—As the result of the storm, which swept over the coast Monday night, several shipping disasters and much damage was reported. The schooner Laurel, coal laden, from Sydney, for Rustico, P.E.I., was driven on the rocks at Tracadie, and totally wrecked. The crew was saved. The three-masted schooner Arona, 522 tons, is ashore at Clements-point.

Bathurst, N. B., July 29.—A terrific storm, one of the worst ever seen in the Bay of Fundy, was that of Sunday night and all day Monday. It was a heavy north to northeast gale, with thunder and lightning and torrents of rain. Several lighters broke away from vessels loading outside the harbor, two with crews of men. The seas were so high that the men were not rescued until yesterday morning. A telegram from St. John's says No. 2 pilot boat of Dalhousie was swamped Monday afternoon, and there is no trace of her crew. It is feared they have been drowned. A number of fishing schooners in the port of Carleton Place were driven ashore and there is great anxiety for those who were out in the bay Sunday and Monday.

The fellow who likes to hear himself talk regards deafness as the very worst affliction.

OPPOSITION TO MR. CHAMBERLAIN

A Section of the Unionist Party Starts a "Free Food" Campaign.

London, July 29.—The "Free Food Unionists" have started a vigorous campaign against Mr. Chamberlain's scheme and are distributing leaflets broadcast.

Sir Michael Hicks-Beach, ex-chancellor of the exchequer, will ask Mr. Chamberlain on Thursday whether in the discussion of the preferential tariffs with the colonies in the conference of 1902 the representatives of Australia, New Zealand, Cape Colony and Natal expressed the opinion that the preferential treatment of British goods they were prepared to recommend must be given without any reciprocal concession of the same kind by the mother country; that while Sir Wilfrid Laurier admitted it would be most difficult for the mother country to impose new duties in order to make such concession, they were merely asking whether they could not be made on duties already existing in the British tariff if the preference in the Canadian tariff already given the mother country were made more complete?

A revenue official, writing to the Times today, shows that an ad valorem duty of 5 per cent on food from foreign ports, 7 per cent duty on foreign manufactures, for the purpose of retaliation, would provide sufficient revenue to enable the British to abolish the existing taxes on sugar, tea, coffee, cocoa, and dried fruits, and a surplus.

A correspondent of the Frankfurter Zeitung, who is Mr. Chamberlain's assertion that certain Glasgow firms owned Canadian orders for locomotives to Canada's preferential treatment of English imports, and declares that the Canadian railways were in urgent need of locomotives and placed orders exclusively with a view to rapid delivery. The Chemnitz Engineering Works, also received Canadian orders. The American Government has asked the board of agriculture to remove the embargo off live cattle imported from eastern ports. The board, however, is not satisfied that it is safe to raise the embargo, but it will institute a thorough investigation.

A GALT SUICIDE

Sick Woman Cuts Her Throat With a Razor.

Galt, Ont., July 29.—Mrs. Johnston, aged about 45 years, who came to Galt from Dundas a few months ago to reside with her daughter, Mrs. Dean, on Chapman street, committed suicide about 4 o'clock yesterday afternoon by cutting her throat with a razor. It ceased had been complaining of headaches and insomnia lately, and becoming worse a doctor was called to see her. The suicide doctors, during the absence of attendants, and while the patient was in bed.

THREE BOYS MISSING

Thought They Have Been Drowned Near Gravenhurst.

Beaumaris, Ont., July 29.—Another serious case of a canoe capsizing occurred between here and Gravenhurst Sunday evening. During the afternoon Joseph Hosack, a Princeton University student, whose home is in Carnegie, Pa., accompanied by Walter Mehard, of Mercer, Pa., a medical student of Johns Hopkins University, sailed to Gravenhurst in a canoe to meet Hosack's cousin, a young man who was to arrive there Sunday afternoon. When the boys had not returned by 10 o'clock, the canoe was found by the various cottagers was sent out, and up to this evening nothing has been heard of the canoe or its occupants. It is feared that the three have been drowned.
