

UNINVITED GUEST SHOT AT WEDDING.

Conductor Burned to Death and Train Man Crushed and Burned.

Buffalo Man Trapped by Automobile and Killed by Street Car.

Buffalo, Nov. 6.—Anthony Nawrocki, 26 years old, of 141 Detroit street, was shot and probably fatally injured last evening by a man who is still at large.

A statement was made to Inspector Taylor, of the detective department, by Nawrocki at the Emergency Hospital last night. Nawrocki said that he, with three other young men, the names of whom were not disclosed, went to a wedding in a house in Lombard and Lovejoy streets. They had not been invited, and were told at the house that they were not wanted.

splitting it into kindling wood and overturning seven or eight cars. Peters was sitting in the caboose with Stevens. Stevens jumped off the rear platform, but was caught under the caboose as it overturned. He would have been burned to death as was Peters, but for the fact that he fell near the outer edge of the debris and was quickly pulled out by trainmen. Peters was caught in the centre of the wrecked caboose and was burned by the coals which poured out of the stove. Efforts to reach Peters were baffled by the flames, which forced him to the trainmen. Stevens was sent to his home in Detroit and the body of Peters was brought to this city.

Ground to Death.

Buffalo, Nov. 6.—John A. Stein, well known business man, was ground to death under the wheels of an Elmwood street car at Virginia and North Pearl streets yesterday afternoon at 2:45 o'clock, after having been trapped by an automobile. His head was crushed and his right arm cut off and broken in several places.

The crew of the car, Roy A. Davis, 31 years old, motorman, and Michael J. Oliver, conductor, were arrested by Patrolmen Cunningham and Burns last night on the charge of manslaughter. It is alleged that they were careless in the operation of the car in the narrow street.

Mr. Stein had left his wife and his two children, James, aged seven, and Harold, aged four, only a few minutes before the tragedy occurred. He went with Andrew Kraus, of 56 North Pearl street, to the voting booth and registered his ballot.

Desk Sergeant William Wageman, of the Niagara street police station, who was on the car at the time of the accident, began an investigation at once. The automobile is owned by Dr. Henry E. Stadinger, of 1 North Pearl street, who was driving it. The street car was in charge of Michael Halloran, conductor, and R. A. Davis, motorman.

Davis says Mr. Stein started to rush across the street ahead of the car. The automobile was going in the same direction, toward Main street, and cut him off from all chance of escape. The crowded car was stopped within a few feet.

The motorman and conductor and Desk Sergeant Wageman dragged the body to the side of the street. Mrs. Stein was prostrated when the news of her husband's tragic end was broken to her.

MORMONS BEATEN IN UTAH; MARK FAGAN ALSO BEATEN.

Labor Gets Black Eye in San Francisco—Prohibition in the South.

Trenton, N. J., Nov. 6.—Indications early to-day are that it may take the official count to decide the result, so close is the vote for Governor between J. Franklin Fort, Republican, and Frank S. Katzenbach, Democrat. The figures obtainable apparently favor the latter, but his margin is only a few hundred votes.

The Legislature, according to the returns, will be Republican.

Another feature of the elections in New Jersey is the defeat of Mayor Mark M. Fagan, of Jersey City, for re-election. His passing is of national interest, because he became known through the country for his antagonism to machine politicians. Fagan has three times been Mayor of Jersey City. His successful antagonist is Otto Withepp, a Democrat.

In Utah.

Salt Lake, Utah, Nov. 6.—Through the election of John D. Bradford as Mayor the general city ticket and a majority of the City Council, the American party will retain complete control of this city for two years. The victory was won on the issue of Mormon Church domination, the Americans claiming that the other parties were under ecclesiastical control.

Labor Man Beaten.

San Francisco, Nov. 6.—Early to-day partial returns indicated the election of almost the entire good government city and county ticket. On a basis of 10 per cent. count of the votes in 249 of the 273 precincts Mayor Taylor's plurality over the Union Labor candidate, Patrick H. McCarthy, should approximate 9,000; District Attorney Langdon's plurality over McGowan, the Union Labor nominee, 18,000, with Ryan, Republican, running a poor third in the mayoralty race.

Republican Wins.

Sacramento, Cal., Nov. 6.—The Lincoln-Roosevelt Republican League elected its candidate for mayor, Clinton L. White.

In Maryland.

Baltimore, Nov. 6.—Incomplete returns received early this morning show that the Democrats have elected Judge Austin L. Crothers Governor and the entire State ticket by an estimated plurality of about 7,000. The legislature appears to be safely Democratic.

Johnson's Plurality.

Cleveland, Ohio, Nov. 6.—Complete returns give Mayor Tom L. Johnson's plurality for mayor at 9,429. The entire

Democratic ticket for city and county were elected, except police clerk. The city council stands 23 Democrats to 7 Republicans.

Both Sides Win.

Louisville, Ky., Nov. 6.—Returns from 119 out of 119 counties indicate that the majority of Augustus E. Willson, Republican, for governor, over S. W. Hager is 14,000. The Democrats probably will have a small majority on joint ballot in the legislature.

Nebraska Republican.

Lincoln, Neb., Nov. 6.—To-day's early returns indicate that the Republicans have carried the State by a majority of about 20,000.

Prohibitionists Talk.

Chicago, Nov. 6.—Alonzo E. Wilson, Chairman of the State Prohibition Committee, last night said: "The ultimate success of the prohibition movement throughout the south and in this State, wherever the people have been given the opportunity to manifest their views, is an indication that people are fully awakened to the dangers of the liquor trade. There are ten prohibition counties in Illinois, and it is likely that other counties have joined the prohibition group. Fifty thousand square miles of the State, with a population of three millions, are now prohibition territory."

Additional Returns.

New York, Nov. 6.—Governor Guild, of Massachusetts, has increased his plurality to about 105,000, as against a plurality of 30,000 in 1906. The entire State ticket and both branches of the Legislature are Republican.

Maryland, which was in doubt last night, has elected the Democratic candidate for Governor, Judge Austen L. Crothers, and the entire Democratic State ticket, by about 7,000 plurality. The Legislature is apparently Democratic.

The result in New Jersey has become so close that it may require the official returns to decide between Katzenbach, the Democratic candidate for Governor, and Judge Franklin Fort, the Republican nominee.

Rhode Island has re-elected Gov. Jas. H. Higgins, Democratic candidate for Governor. The General Assembly is Republican in both branches.

Kentucky has elected the entire Republican State ticket.

The New York results, city and State, remain as determined last night. Providence, R. I., Nov. 6.—Mayor P. McCarthy, Democrat, was re-elected in Providence by a plurality of 2,967 over Geo. H. Huddy, jun., his Republican opponent. In Pawtucket, Robert A. Kennedy, Republican, was elected Mayor.

TRUST CO'S SOUND.

Committee of Trust Men to Look After the America and Lincoln.

New York, Nov. 6.—Following an extended conference in the library of J. P. Morgan, in which prominent New York bankers, including the heads of the various trust companies of the city and the officers of the Trust Company of America and of the Lincoln Trust Co., participated, an important statement was issued this morning, showing a final settlement of the difficulties that had disturbed local banking conditions. The statement follows:

"The committee of the Trust Companies of New York city has had the assets of the Trust Company of America and the Lincoln Trust Co. examined by experts, who report that in their judgment, on the present basis of values, the assets of each company are sufficient to pay its depositors in full."

"It has been arranged that a majority of the stock of each company shall be placed under the control of a committee composed of Mr. King, President of the Union Trust Co., Mr. Sheldon, President of the United States Trust Company, Mr. Marston, President of the Farmers' Loan & Trust Co., Mr. Waterbury, President of the Manhattan Trust Co., Mr. Castles, President of the Guarantee Trust Co., and Mr. Wallace, President of the Central Trust Co., who will act in an advisory capacity, and the necessary financial arrangement has been made to enable both companies to proceed with their business."

Trusts All Right.

New York, Nov. 6.—The situation in regard to the trust companies which have been under pressure was materially relieved this morning. The Trust Co. of America opened at 10 a. m. with an augmented force of paying tellers and the Lincoln Trust Co. also opened for business as usual.

The Bank of Montreal to-day announced an additional engagement of \$500,000 gold for import, bringing the total of the present movement to \$36,150,000.

ACTOR HITCHCOCK

Appeared Before the Criminal Court at New York.

New York, Nov. 6.—Raymond Hitchcock, the actor, who disappeared several days ago, after he had been indicted on charges preferred by several young girls, appeared at the Criminal Court building to-day and went to the office of the District Attorney.

Hitchcock is under bond to appear in court this afternoon.

THEY ATE LOBSTER.

Two Actresses at Bennett's Nearly Lost Their Lives.

Misses Adelina Roaltino and Clara Stevens, dancing and singing artists at Bennett's Theatre, came near losing their lives yesterday, the result of ptomaine poisoning. One of them was in a very precarious condition for a few hours, and hopes for her recovery were slim, when Dr. Balfe was called to their hotel to attend them. They are much better to-day, and are now out of danger, but a trained nurse is in charge.

The doctor was unable to trace the source of the poisoning, but it is presumed to be the result of canned lobster. The dainty soubrettes after the performance on Monday night went to a restaurant for their regular midnight meal, and they took lobster salad. It is presumed the salad was made of canned lobster, which was diseased.

BOTTLED STUFF.

Went Up 10 Cents a Dozen All Around Yesterday.

Bottled ale and lager is dearer in Hamilton to-day than heretofore. Recently the brewers advanced the prices to the retail trade and the retailers yesterday put up the prices to customers. Quart bottles of ale, formerly \$1.29 a dozen, are now 20 cents higher, or \$1.40, and pint bottles, formerly 80 cents a dozen, has been advanced to 90c. Lager that has been selling at 80 cents a dozen has been advanced to 90, and export lager, which brought 90c, is now \$1 a dozen.

Apples For Great Britain.

We are now prepared to receive orders for any of the following variety of apples: Northern Spy, Baldwin, Golden Russet, Rhode Island Greening, King of Tompkins, each apple carefully wrapped and packed in fancy boxes, containing one bushel, government inspected. The charge paid to any address in Great Britain, one box to any address, \$3.00; two boxes or more to separate addresses \$2.75; two boxes or more to one address \$2.55. Kindly place your orders as early as possible. See samples in our window. Bain & Adams, 89, 91 King street east.

Big Savings in Silk Buying.

Finch Bros. are now holding their annual November silk sale. Many lines of new and fashionable silks are being sold off by this well-known firm for good silks at a saving of one-third in the price. Choose now, even for your Christmas wants. It is a good time.

TYPHOID IN HULL.

Ottawa, Nov. 6.—Hull is suffering from a serious outbreak of typhoid. The outbreak is traceable to the intake of the water supply, which does not reach the stream in the Ottawa River. The matter is serious, and Dr. Bryce has investigated the cause and reported thus.

Miss L. A. Hubbard, sister of Controller Hubbard, of Toronto, is dead. Funnell's evaporator at Trenton, was burned on Tuesday.

ANOTHER \$100 FOR THE CITY.

Making \$250 Maggie Smith Has Contributed Recently.

Sullivan and Holley Trouble in Court Once More.

Chinese Fined \$5 For Doing Business Without Licence.

The expected happened this morning at the police court when Eddie Smith failed to put in an appearance to answer a charge of vagrancy. His lawyer was also absent and the \$100 cash bail which Eddie put up for his liberty was expropriated. This makes \$250 the police have taken from Maggie Smith's bank account in the last few weeks. Maggie paid \$50 when she was caught with booze on the premises, and then she was fined \$100 for keeping a disorderly house. This last hundred, which she put up to get her hubby out of jail makes \$250. Maggie writes checks for \$100 as if she owned the bank on which she draws them.

James White did not appear when called upon to answer a charge of assault preferred by Charles Smith. The complainant explained that he did not want to prosecute and the case was dismissed and \$3 costs taken from the complainant.

The famous Sullivan-Holley trouble has opened again for the winter season in the north end. The Sullivans and Holleys are next-door neighbors, and the fence between them has holes chevered in it by now. The charge this morning was preferred against Tim Sullivan by Hannah Holley, and was disorderly conduct. Tim did not appear, and the case was laid over till the morning.

Hop Kee, 106 Barton east, wanted to work up a business before he got a license for his laundry, and failing to do this he decided he would sell out and not buy a license. He was fined \$5 for this little game.

Bernard Connolly, 83 Merrick street, was charged with obstructing the street with his wagon and pleading guilty was fined \$2.

James Lindsay, 72 York street, has fallen into the good graces of the Magistrate. He was charged by E. Leonard with being drunk and disorderly. The Magistrate did not think his conduct was such as to come under the charge and allowed him to go.

J. H. Simpson, 95 Wellington north, said that his daughter was over 14 when Willie Hunter had her up for truancy. The case was enlarged till this point can be fixed.

Sam Hill, no address, was fined \$2 for being drunk.

Saloon Keeper Shot

Buffalo, N. Y., Nov. 6.—Alex. Young, a saloon-keeper of Ebenezer, was shot early to-day and probably fatally injured while standing in a window of his dance hall conversing with two friends. This is the third attempt within fourteen months to kill him.

On March 7 two men knocked at his door and when Young opened it a rifle was shoved through the crack and fired. Young hovered between life and death for several weeks, but recovered. On Sept. 3 of last year Young was shot by a man who climbed over the rear of his wagon.

Neither the police nor Young's family have any explanation for the repeated assaults.

LIBERAL CLUB.

Splendid Programme For the Opening To-morrow Night.

For the Liberal Club opening to-morrow night the executive has arranged one of the best programmes it has ever had. Mr. W. H. Wardrop, K. C., ever had an interesting and entertaining speaker, will give a half hour talk upon the issues of the day, and the musical programme will be exceptionally good.

Mr. Alex. Mackie, the popular local humorist and character artist, will give his latest skits, and the rest of the programme will be provided by Messrs. W. O. Pettie, tenor; Roy McIntosh, bass; and Wm. H. Holland, Messrs. Pettie and McIntosh are two of the best-known local singers, and Mr. Holland, though a Hamilton man, has won fame all over the world, having been soloist with the celebrated Canadian Jubilee Singers for years.

There will be no admission fee, and all are invited, whether members of the club or not.

AT HOME AND RECITAL.

Hamilton's local musical institution has been much enlivened these last few weeks by extensive preparations for an at home and recital which is intended shall be unusually meritorious, if well laid and carefully matured plans count for anything. During the afternoon Mesdames Barker, Bruce, Crerar, Daw, Greening, Henderson, Leggat, Lucas, Southam, Spratt, Taylor, Turnbull and Watkins will act as hostesses for the institution, and will also be patronesses at the evening recital. The kindly encouragement and assistance rendered the Conservatory by these ladies at this epoch in the school's existence has been invaluable.

Dr. J. M. Barry Says:

"What I call the Arcadia in 'My Lady Nicotine' is the celebrated Craven smoking mixture, which is a delightful blend of fine tobacco." It costs 75 cents a tin at peace's cigar store, 107 King street east.

SAFETY DEPOSIT BOXES.

To rent at \$2 a year and upwards, for the storing of deeds, bonds, stocks, wills, silver and other valuables, at the TRADERS BANK OF CANADA.

The Man In Overalls

Bourassa took the count and now he doesn't count.

Liberal Club opening on Thursday night. Fine programme. Go up.

Perhaps the bakers think the label is a luxury.

The City Engineer says it would cost \$50,000 to build the Myles road at the mountain. It might be worth it.

Wentworth Liberals will pick their candidate for the Dominion House on Saturday. They have their pick of a number of good men.

Why fill in the Coal Oil Inlet, if it can be cleaned out and made into a nice little aquatic pleasure resort?

The Hamilton Liberals were well pleased with Hon. A. G. MacKay. They looked him over and pronounced him the coming Premier.

What sort of a function will the Terminal Station opening be? A clatter hammer affair, or a go as you please?

And Bourassa thought he was the whole menagerie.

If Whitney is anxious to do justice to Hamilton there is nothing to hinder him.

Should the barbers go on strike for a few weeks, or would he begin to look like the wild man from Borneo.

Comrade Barret looks too much like a monopolist when he makes out his Socialist Majority candidate. But it's good business to be a candidate all the same.

But why don't the smokers consume their own smoke?

The plan is this: Whitney will propose to build a street car line from school in Hamilton, and my friend, Mr. J. J. Scott, will make another effort to beat Mr. Studholme. But there may be some one else to reckon with.

Only nine days remain to accept or reject the flat park. A flat-erring officer, too.

I hope my township friends will not forget the Thursday evening meetings. Borden and boodle.

Those mountain robberies are getting to be a trifle monotonous.

Boys, don't miss the night school if you want to improve yourself and your prospects.

Possibly the Normal College building could accommodate the Technical College if Mr. Whitney sees fit to do justice to Hamilton and sends us it.

Have the aldermen any idea when they will be able to get those street railway extensions?

The Toronto World should raise its offer to J. M. Make it Canadian Commissioner to London or Governor-General and he may take it into his serious consideration.

Bourassa was a little too cocky, anyway.

Perhaps Whitney only intends to give us back our \$75,000.

Now that Sir John Macdonald is off the street and out of danger, everybody admits that he shows to much better advantage in the park. What does my profane friend say?

Are you buying them on the sly?

CALL TO MINISTER.

Ottawa, Nov. 6.—The Ottawa Press-Bureau has received a call from Bristol to Rev. G. A. Hackley, of Toronto.

TO BUILD CAR SHOPS IN THE EAST END.

Dominion Power and Transmission Company to Erect Immense Buildings.

Plans Well Under Way and Work Will be Begun in the Early Spring.

Another important step in the mammoth scheme of the Dominion Power & Transmission Company will be the beginning of work in the spring on an immense new freight shed, car shops, and sheds for the cars used by the various electrical companies using the new Terminal Station. The scheme includes a car manufacturing industry, which will probably turn out the cars used on the different lines as they are required. It was generally believed that the freight sheds would be erected where the old H. G. & B. station now stands. The site, however, will be on Sanford avenue, near the Eagle Spinning Mills, and north of the present car sheds. The plans are about completed, and it is understood that every preparation will be made during the winter months to have the work begun and rushed with the advent of spring.

The Board of Works on Friday afternoon will look over the ground in the west end which the Simpson Brick Company declares is cut off by reason of Chatham street not being continued through to its grounds. There is no outlet to Garth street from Main to Herkimer street, continued, but the T. H. & B. is opposed to a level crossing, on account of the speed at which its trains to Brantford pass this point. The brick company, however, wants a level crossing. It says it is spending \$25,000 a year here in wages, and demands the Council's aid in getting the street opened.

The St. Catharines dealer who owned a large quantity of furs found in a store on King street where a mild case of smallpox was found is still anxious that the city should burn the furs and compensate him for them. He called Dr. Roberts up on the long-distance phone to-day. The Medical Health Officer told him the Board of Health had washed its hands of the affair, and he had better try the Mayor and Council.

BARBERS WENT ON STRIKE IN SOME OF THE SHOPS.

Secretary Halford Hopes the Trouble Will Soon be Satisfactorily Settled.

A meeting of boss barbers was held last evening in regard to the new rule of the union requiring the doors of all union shops to be locked at 11 o'clock on Saturday evenings, and that no customers are to be admitted after that hour. Eleven of the bosses, most of whom do business on King street east, and Barton street, decided not to accede to the request, and declared further that they will run open shops till such time as the union will rescind the rule forbidding bosses from working on holiday mornings. In view of this action,

about a dozen barbers went on strike this morning. The places of some of them were filled by noon. It is likely that a few more men will walk out this evening. As there were 18 or 19 non-union shops prior to last night's action, more than half of the tonorial parlors are now "open." There are 52 barbering establishments in the city.

Harry Halford, the Secretary of the union, said he had removed six union cards up to noon, and that only eight journeymen had reported to him that they had gone on strike. He says he thinks the trouble will be settled satisfactorily in a few days.

cholor poisoning and an analysis of the stomach is being made.

It was learned that Baker left the bulk of his estate, which is said to be valued at about \$1,000,000, to Natalie Hurd, the 4-year-old daughter of Mr. and Mrs. Frank Hurd, of Bogota, N. J., at whose home Mr. Baker died. The sum of \$5,000 was bequeathed to Mrs. George W. Young, of New York, to whom Mr. Baker had paid considerable attention; \$2,000 was given to Mrs. Frank H. Hurd, and to his brother, Edward F. Baker, of Boston, Mr. Baker gave \$10,000. Small bequests amounting in all to \$2,000, were made to various acquaintances here.

District Attorney Koester said to-day that he understood the wording of the will indicated that Mr. Baker was laboring under undue excitement and possibly was under undue influence at the time when he made the will. He added: "I am prepared to act as soon as information which would warrant arrests for murder or for any other crime is laid before me. The detectives who have been employed by Walter F. Baker's relatives are making reports to me which I am following up as closely as possible. I will tell you this much—there are suspects of both sexes and they are now being watched."

DIES OF INJURIES.

Ottawa, Nov. 6.—John Wilson, G. T. R. section foreman at Arnprior, who was struck by a train on Monday while lifting a hand car from the tracks to avoid the incoming train, died at a city hospital at midnight. His body was badly crushed and several ribs were broken.

ever in it. I never suggested such a thing or even thought of it," said City Solicitor Waddell this morning, referring to the story in a local paper and repeated in the Toronto morning papers that the Ontario Railway Board would be asked at the beginning of the year to take over the Hamilton Street Railway. Ald. Mack Laren, whose name was also mixed up in it, gave an equally emphatic denial. Mr. Waddell said as far as he was concerned he would never think of advising the city to make any such appeal to the board.

The following building permits were issued to-day: E. Goodale, two frame houses on Aikman avenue, between Sanford and Arthur avenues; \$1,000.

James Bryers, brick warehouse on Barton street, between Leeming and Wentworth, for Canadian Corundrum Wheel Company; \$1,000.

Seymour & McKay, brick cottage on Ashley street, between Wilson and Nightingale streets; \$1,800.

Charles Brayley, frame house on Gibson avenue, between Cannon and Barton streets; \$1,100.

Although the time for receiving bids for about \$125,000 worth of debentures held over from the beginning of the year expires to-morrow, not one tender has been received yet. City Clerk Kent expects, however, that there will be some by the morning.

The T. H. & B. Railway Company says the Railway Board gave it the right to run passenger cars over the new east end switch at the time it approved of the plans and route. It does not think the city should endeavor now to have this right revoked. There seems to be a misunderstanding somewhere about the clause compelling the company to use hard coal for traffic on this switch. Some of the Board of Works aldermen say they did not understand that the company could not build the switch if it did not comply with this demand.

The committee that is to meet the Government in reference to the proposed technical school for Hamilton will meet on Friday instead of to-morrow.

Love and Crime

"Do you know that when I saw you first, just now, I took you for a city man, a speculator in land, or a real estate agent?" she says, laughing. "I thought you were coming to buy up the dear, old Furnace House, and out of the beautiful old garden and orchards into building lots, and I hated you in advance!"

quick longing to banish it. "There is the empty basin, see?" "Yes, indeed. And the nymph with her water pitcher tumbled among the weeds and leaves!" Roderic says, musingly. "Lying. 'Like the idol of some bygone race, its names and rites forgotten.' 'Why, that's from the 'The Haunted House.' Do you know Hood's poem? Lady Christabel asks, flushing rosy red, with ingenuous delight and surprise. 'How odd. It is the poem I am always thinking of when I come here.' 'Yes, sir,' the old dame—a small, dry chip of a woman—says, with mingling approval of Roderic's remark. 'I suppose that was a good one. 'Some of them say they have seen the images, I der say, now, of the rights of her were known? 'Yes, I dare say; poor thing!" Roderic replies, with great gravity. The handsome stalwart young gentleman, who is Lady Christabel's companion, falls degrees in the old dame's estimation. "And dreadfully proud of being an Australian farmer you are I suspect, turning around at once, with an arch smile, as if to say 'Advance Australia' is written on your heart."

Her hand is near his arm as they stand leaning against the old, ruined gate, and involuntarily the little gloved fingers on the old mossy rail start close to his, and touch his, and the touch of that little, brown-gloved hand is like the touch of an angel's wing. It goes through Roderic's thick tweed sleeves, it tingles through the pulses of his arm, and thrills his heartstrings. He looks at the little hand, as it timidly draws itself away, with an insatiable desire to snatch it in his big, sinewy fingers in a close, long grasp, and kiss it. "I have lived long enough, and learned enough, Lady Christabel," he says, slowly, "to not feel sure of saying I disbelieve in anything simply because I don't understand it. As for apparitions, I have seen them myself, but whether they were the products of some strange outward cause or not, I cannot say. "Oh I should so like to hear you tell about them—sometimes!" Lady Christabel says, with eyes sparkling with earnestness, and color deepening. Roderic is silent for several moments, and the stillness all around is ruffled once more by the wind rustling louder in a stormy wail, and fluttering through the tree tops and over the high walls, and then away down the valley. "If the 'sometimes' ever comes!" he says, suddenly, in a brief, abrupt manner, and in a low tone. "I am going back to Australia in a fortnight. Whether I ever return here again will depend on you, Lady Christabel!" "On me?" she falters, a vivid, crimson blush spreading warmly over her fair, young face up to her very temples, her pure, innocent eyes dilating with surprise, in agitation, and in something else—it might be gladness—looking in their guileless depths. "Yes, on you—and on your father, Lord Cardonville, also, of course," Roderic says, slowly, gazing at her with a light dawning in his own eyes, a tremor coming in his own voice, grown thick and unsteady with the rapid beating of his heart. Orville and Jesse VanSickle and wives, and Mrs. Ontario VanSickle, of this place, spent Thanksgiving at Mr. Ernest VanSickle's.

Jerseyville Communion services were held in the Methodist Church on Sunday morning last. Owing to the dull day the attendance was small. The Ladies' Aid of the Methodist Church held its annual meeting on Tuesday afternoon. The officers elected for the year are as follows: President, Mrs. Robert Markle; Secretary, Mrs. Wm. C. VanSickle; Treasurer, Mrs. J. Awde. Miss Flossie Bishop was at Scotland on Thursday, attending the wedding of her cousin, Miss Ada Smith. Mrs. W. S. Sexton and Miss Rose Boyd, of Hamilton, were calling on friends in this village on Monday. Mrs. D. Rintoul and her son, Mr. R. Rintoul, of San Francisco, Cal., were the guests on Friday of Mr. and Mrs. J. G. Cochrane. A little son has arrived at the home of Mr. and Mrs. S. A. Dodman. Mr. Cyrus Drake has taken up his residence in the house recently vacated by Mrs. Jane Boyd. In the absence of the organist in the Methodist Church on Sunday last, Mrs. N. B. Misener, of Toronto, kindly officiated, and filled the position in a most pleasing manner. Among those spending the holiday in the village were the following: Rev. Geo. Miller, of Woodstock; Mr. and Mrs. R. Stone, Squire and Mrs. Lang, of Brantford; Mrs. Corson, Mrs. Hastings, Mr. and Mrs. N. B. Misener and Master Erland Misener, of Toronto; Mr. J. and Miss Loy VanSickle, of Troy; Mrs. McAlister and Master Harold McAlister, of Galt; Mr. McMillen, Mrs. Crosthwaite, and Miss Nellie Crosthwaite, of Hamilton. Those away from the village were: Mr. and Mrs. Robert Markle, at Toronto; Mrs. J. L. Swartz, at Waterloo.

KELVIN What farmers through here are busy with their root crop. Hallowe'en passed off quietly. Some of the villagers' property was carried off to another part of the village, but there was not much damage done. Rev. C. and Mrs. Cookman spent one day this week with friends in Brantford. Mr. and Mrs. W. Almas were the guests of their daughter, Mrs. Mason, of Brantford, a few days ago. Mr. Albright, teacher, spent his holidays with his parents in Beausville. Mr. and Mrs. W. Ludlow, of Mount Vernon, were visiting relatives here recently. Mr. J. E. Smith has been putting down some new cement walks on his premises which adds very much to its appearance. Rev. C. Cookman attended a meeting at Brantford a few days ago. The Ladies' Aid will meet on Thursday at the parsonage. Mr. A. Potts is visiting his parents here. Mr. and Mrs. J. E. Smith entertained a number of young friends to a party a few evenings ago. Mrs. C. of Detroit, Mich., is spending a week in this place with her niece, Miss E. Almas is visiting relatives in Brantford at present.

BAPTIST SETTLEMENT Much sympathy is extended to Mr. and Mrs. Elmer S. VanSickle, of Hamilton, in the loss of their only daughter, Lena Fern, who died of diphtheria in the City Hospital, Hamilton, on Wednesday, Oct. 30. Messrs. J. Book and W. VanSickle have gone to Muskoka for the hunting season. Mr. and Mrs. Albert Embury were Sunday guests at C. H. Baguley's. Mr. N. B. Misener, of Toronto, spent a few days last week at H. R. Misener's. Mr. Marland VanSickle, of Hamilton, was in this place on Wednesday last. Miss Edith Misener is spending the winter with her sister, Mrs. J. Young, at Brantford. Miss Lena Sager spent Thursday at Hamilton. Miss Sinclair, of Chatsworth, spent the holidays with her cousin, Mrs. J. N. McKinnon. Mr. and Mrs. W. House, of Hamilton, are spending a few weeks with Mrs. Wesley VanSickle. Mrs. Florence VanSickle, of Hamilton, and Miss E. Pettit, spent Sunday with the Misses Lela and Louie VanSickle. Miss Carrie Baguley is visiting her brother at Toronto. Miss Lily Young, of Brantford, spent

Grand Trunk Reduces Working Force at Point St. Charles. Montreal, Nov. 5.—The Grand Trunk has laid off about two hundred and fifty men at its shops in Point St. Charles. Men have been let out in practically every one of the departments. The company takes a similar course nearly every fall, but this year the service of the men has been unusually well dispensed with. It is understood that the company will reduce the number of employees to its usual figure just as soon as practicable.

Robbery THE MOTIVE. Money Carried by Russo and His Wife is Missing. Passaic, Nov. 6.—Prosecutor Koester and his officers have obtained a little light on the mystery surrounding the murder of Raphael Russo and his wife in their home in Harrison avenue, Garfield, Bergen county, late Saturday night, and which was discovered Sunday morning. It is now almost certain that the motive for the murder was robbery. It is known that Russo had a large sized roll of bills on Saturday when he paid a life insurance agent, and the Prosecutor was informed to-day that the dead woman was never without money. No money was found on her. Whether her clothing had been disarranged by being searched there is no way of telling, because while the woman dragged herself from the kitchen, her husband was shot, through the grocery store that the couple kept and out to the street. Carlo Russo, a brother of the dead man, and who lives at 327 East 108th street, Manhattan, accompanied by a cousin of his, a cousin of the woman, and two friends, came out toutherford and fully identified the bodies. When he gave to the authorities all the information they had.

WILL ADMIT HIM. Toronto Printer Can Now Make a Trip to Denver. Toronto, Nov. 6.—Mr. McClintock, a member of Toronto Typographical Union, who was refused admission to the United States at Port Huron while on a strike, may now make another trip from Toronto. Commissioner Sargent, the head of the Immigration Department at Washington, last night telegraphed President Simpson of the Typographical Union, stating that the admission of Mr. McClintock to the United States had been ordered by the Secretary of State. This disposes of a matter that has interested printers in all parts of Canada and the United States owing to the international character of the Typographical Union. Printers in Canada contribute towards the fund for the home of the sick and aged printer, at Colorado Springs, and this is the first time a Canadian printer had been denied admission to the United States.

REAL WHALE STORY. Monster Towed Whaling Steamer 45 Miles. Victoria, B. C., Nov. 5.—The little 110-ton steamer St. Lawrence has just completed her season's work on the west coast of Vancouver island, having sailed the end of March against 245 whales and earned over \$500,000 a sum never before approached in the annals of whaling. During September the vessel took 49 mammals within sixteen days. Of these more than one-third were sulphur porpoises, a species three times as large as the humpback, for which the Vancouver Island coast is renowned. On one occasion a monster sulphur porpoise towed the 110-ton steamer a distance of twenty-five miles, taking 300 half-speed astern, and with the engines half-way out, to tire the monster out. At times the vessel tore through the water at a speed of twenty miles an hour, and in all it took seven hours and a couple of bombs to end the struggles of the whale. Again, an eighty-foot-long mammal on being struck dived beneath the vessel, the bomb exploded, and the craft rose out of the water with tremendous shock occasioned by the explosion and lashing of the wounded giant. Incidents like this were of common occurrence, yet in spite of many hair-raising episodes the whaler escaped throughout the season unscathed. Within a few days she proceeds to the east coast of the island, where she will hunt during the winter. Mr. and Mrs. Albert Embury were Sunday guests at C. H. Baguley's. Mr. N. B. Misener, of Toronto, spent a few days last week at H. R. Misener's. Mr. Marland VanSickle, of Hamilton, was in this place on Wednesday last. Miss Edith Misener is spending the winter with her sister, Mrs. J. Young, at Brantford. Miss Lena Sager spent Thursday at Hamilton. Miss Sinclair, of Chatsworth, spent the holidays with her cousin, Mrs. J. N. McKinnon. Mr. and Mrs. W. House, of Hamilton, are spending a few weeks with Mrs. Wesley VanSickle. Mrs. Florence VanSickle, of Hamilton, and Miss E. Pettit, spent Sunday with the Misses Lela and Louie VanSickle. Miss Carrie Baguley is visiting her brother at Toronto. OPENED A GYM.

Hamilton Y. M. C. A. Athletes at Burlington Last Night.

Since the erection of a public library building in Burlington, donated to the village by the late Mr. Waldie, and the establishment of a library, a committee, representing the societies and churches of the place has been working to establish a recreation room and gymnasium, and his efforts have been crowned with success. Last night the new recreation room, situated in the basement of the library building, was finally opened. It is well, although not extravagantly, equipped, and gives promise of being successful. Five young men from the Hamilton Y. M. C. A. were present and gave an enjoyable programme of gymnastic events, which was greatly appreciated by a large gathering.

WOMAN MURDERED

Throat Cut in Brutal Manner in Kitchen.

Philadelphia, Nov. 6.—While attending to her household work, yesterday morning, in a little lean-to shanty, in West Philadelphia's "Little Italy," an aged woman was murdered and robbed of \$700. Her throat was cut with a stiletto from the left ear to a point under the chin. The place where the body was found was hardly one in which it would be supposed murder would be done for the purpose of robbery, but the aged woman was the wife of Amatto Mongolizzo, who is very much younger than his wife, being only 48 years old, while she is 70. He is a trackman on the Baltimore & Ohio Railroad, and for eleven years has been saving all of his wages except the mile he allowed himself and his wife to live on, planning in the near future to return to his native Avilion, in Italy, to settle down as something of a lord among his countrymen.

His wife, Marina Carmella, had secreted about her person \$700. Of this \$600 was in her pocket, pinned to her clothing, and \$100 was in her pocket. All this was missing when the body was found.

No one saw the murder committed, no suspicious person was seen about the premises, the police suspect no particular person and no one is under arrest. It is believed, however, that the murderer may be picked out some day among the steerage passengers sailing for Italy, as men like that generally make an early break for their native country.

The scene of the murder adjoins 5223 Woodland avenue. The house is owned by Antonio M. Martin, otherwise known as "Mike" Martin. He keeps an Italian boarding house and formerly kept a grocery and provision store on the first floor of the building, which is a three-story brick structure, flush with the street. Six families, beside Martin's, live in the house, and there are several lodgers, while in a small two-story frame house adjoining, several more families live.

JACKSON UP.

Appeared in Woodstock Court on Hold-Up Charge.

Woodstock, Ont., Nov. 6.—(Special.)—Arthur Jackson appeared in the Police Court this morning, charged with having been implicated in the hold-up and robbery of the C. P. R. operator, Harry Walcott, here a few weeks ago. He elected to be tried by a jury, and was remanded again for a week for his preliminary hearing. Jackson lived in Hamilton, and was arrested there.

MARKETS AND FINANCE

Toronto Live Stock.

Receipts of live stock at the City Market, as reported by the railways, were 83 carloads, composed of 1,514 cattle, 965 hogs, 1,790 sheep and lambs, and 100 calves.

The quality of cattle was about the same as has been coming to the City Market for some time, few good, and many of the common to inferior unfinished classes.

Trade was fair, with prices for some kinds a trifle firmer.

Exporters—None on sale and none wanted.

Butchers—1 load of heifers, 1,050 lbs., at \$4.50; medium steers and heifers, 900 to 1,150 lbs. each, at \$3.30 to \$3.85; common light cattle and cows, \$2 to \$3.25; canners, 75 to \$1 per cwt., or \$5 to \$10 each; canner bulls, \$1.50 to \$2 per cwt.

Feeders and Stockers—Best feeders, 1,000 to 1,100 lbs., at \$2.25 to \$3.00; best stockers, 800 to 900 lbs., at \$2.65; best stockers, 600 to 800 lbs., at \$2.25 to \$2.60; medium stockers, 600 to 800 lbs., at \$2 to \$2.25; common stockers, 500 to 700 lbs., at \$1.50 to \$1.75.

Milkers and Springers—Good milkers and forward springers were in demand at \$20 to \$30 each, the bulk of the best selling around \$20. Medium cows sold at \$20 to \$25, and common light cows, \$16 to \$25.

Veal Calves—The quality of veal calves was poor, many of the thin, scraggy, inferior class being on sale. Prices ranged from \$2 to \$6 per cwt.

Sheep and Lambs—The sheep and lambs market still continues to be easy, with many of poor quality being offered. Export ewes sold at \$4 to \$4.50 per cwt., lambs, \$4 to \$4.50 per cwt.

Hogs—Receipts amounted to about 1,000. Mr. Harris quotes select at \$6 and lights unfinished at \$5 to \$5.25 per cwt.

British Cattle Markets.

London.—London cables are firmer at 12 1/2 to 13 per lb., dressed weight. Refrigerator beef is quoted at 10c per lb.

Winnipeg Wheat Market.

Following are the closing quotations on Winnipeg grain futures to-day:

Wheat—Nov. 98 3/4 bid, Dec. 99 7/8 bid, May \$1.08 1/8 bid. Dec. 99 7/8 bid, May 58c bid.

Oats—Nov. 56 1/2 bid, Dec. 56 1/2 bid, May 58c bid.

The Cheese Markets.

Stirling—To-day there were 543 boxes offered; all sold at 12c.

Campbellford—To-day 1,100 offered; 900 sold at 12 1/2-16c.

Toronto Farmers' Market.

Offerings of grain were small to-day. No wheat received, but not much more than 81 would have been paid. Barley unchanged, with sales of 700 bushels at 88c. Oats steady, 400 bushels selling at 69 to 61c.

Hay is firmer, with sales of 15 loads at \$23 to \$24.50 a ton. Straw nominal at \$16 to \$17 a ton.

Dressed hogs are unchanged at \$8.75 and light and \$8.25 for heavy.

BISCUITS ALSO.

Advance in Price Will Be Made Immediately.

There is going to be an increase in the price of biscuits, to take place almost immediately. The manufacturers have announced that they intend advancing the price in packages 3 cents, and on all other lines the increase will be one-half cent a pound. A prominent grocer of this city, in discussing the situation, this morning, said it was about time that an advance should be made. Up till now the grocers have been paying 13 and 13 1/2 and in some cases 14 cent a pound for certain lines which they have had to sell for 15 cents a pound, which leaves no reasonable profit. Grocers in this city have never been able to get 10 per cent. profit out of any lines of biscuits, and while they have been big sellers, they do not bring much money.

"Of course, there are certain lines of biscuits," said the grocer, "that will not be raised, no matter if the manufacturers do raise the price. That will apply principally to biscuits in bulk. But on the more expensive lines, such as the arrowroot and other fancy biscuits, there is at least 2 cents a pound over the old price. In Toronto the manufacturers believe the advance will be only temporary; here it is believed if once the prices go up there will be little chance for them coming down again."

MAKE NO DEPOSIT.

Canadian Insurance Men Point Out Their Disadvantage.

The insurance men who are urging Mayor Stewart to use his influence in securing legislation which will permit of a tax being imposed upon foreign companies getting insurance here, and who are not obliged to make the deposit required by the Government from the Canadian companies, say that the stories that were published yesterday were rather misleading. The following statement from the Mayor, in explanation, was handed out for publication to-day:

"The Mayor thinks the article in your issue of yesterday under the heading, 'Insurance Men Now Seek Protection,' might prove misleading to the lay mind. The United States insurance companies, whom the local insurance men would like to have taxed, are those American companies known as the 'Mutuals.' These companies, while doing business in Canada, are not licensed to do so, and do not pay the deposit required by the Canadian Government (\$50,000). They are thus enabled to give a lower rate on sprinkler risks than those companies, British, Canadian or American, who are paying the tax demanded by the Government.

"The manufacturing concerns, who patronize these American mutuals, would raise a considerable outcry if American concerns, manufacturing similar lines of goods, were allowed to dump their products into Canada duty free, yet these manufacturers import their insurance from the other side without paying duty. The insurance men take the stand that if insurance is imported it should be made subject to a duty or a local tax, in order to even things up with those companies who do observe the laws and not to shut out honest competition."

SPOKE AT FALLS.

J. J. Kelso and Adam Brown at Annual Meeting.

J. J. Kelso, Superintendent of Neglected and Dependent Children, Toronto, and Adam Brown delivered addresses at the annual meeting of the Niagara Falls Humane Society and Children's Aid Society last night. The meeting was held in the new school room of St. Andrew's Church and was largely attended. Mayor Slatery occupied the chair. A most satisfactory and encouraging report was read by Mr. Charles Black, president. Mr. Grier, K. C., delivered a stirring address. The Very Rev. Dean Houston and the local organizers were in attendance. Quite a number became members at the close of the proceedings.

OBITUARY.

Death of Mrs. John Green After Brief Illness.

Mrs. Eliza E. Green, widow of the late Mr. John Green, died at an early hour this morning at her home, 542 Main street east. She had been ill for about a week, with pneumonia. Deceased was formerly a resident of East Flamboro, but had lived in this city a number of years. She was of a gentle, lovable disposition, and will be much missed by a large circle of friends. She was in her 73rd year. Mrs. Green is survived by three sons, Messrs. John T. Frank and Roy Green, of this city, and one daughter, Mrs. Walter T. Evans.

The funeral will take place at 1.30 on Friday, interment being at Millgrove.

COBALT NOTES

Additional particulars about the Nipissing Mill of the Cobalt Concentrators are to the effect that the foundations, which are built on solid rock, required 1,000 feet of concrete and 196,000 feet of timber will be used in the buildings.

Many shareholders of the Trtheway Mining Company were present at the annual meeting in Toronto yesterday afternoon. The directors' report and the balance sheet, which have been already published, were taken up, and after a short discussion they were adopted. The stockholders left the resignation of the payment of the dividends to the discretion of the directors. The present position and prospects of the mine warrant the expectation that they will be paid again in the near future.

Another vein was discovered yesterday at the Silver Leaf, a silver-calcite vein, surface with two and a half inches, located about five feet from the main vein, which was discovered about six weeks ago. The new vein is probably a stringer of main vein. The shaft on the main vein is now down 45 feet, and a car is taken out of the shaft, half of which is high grade. The Silver Leaf property is now well handled, and is making good.

Cobalt's output for October, 1124 tons, sets a monthly record. Ten mines shipped during the month. LaRose and McKinley are the leaders. The camps' output for this year is valued at over \$7,000,000.

ELGAR CHOIR

Will Sing in Toronto in February Next.

It was decided by the executive of the Elgar Choir that Toronto would be visited by that efficient singing body on the 28th of February, 1908. There was some doubt as to whether it would be advisable to go to Toronto and sing after the Mendelssohn Choir had given its concert, but the choir will go. It will consist of somewhere in the neighborhood of 110 voices, and will sing in Massey Hall. Mme. Sembrich, the world-renowned soprano, will assist. Mr. Bruce Carey, the director, expects great results from the work this year.

PURSE SNATCHED.

Another Case Yesterday at the Head of Queen Street.

The purse snatcher who has so successfully operated at the Queen street steps for the past few weeks, made a successful haul yesterday afternoon about 4.25, which netted him \$12 in cash and a bunch of receipts. Mrs. Burgoyne, 49 Homewood avenue, Toronto, was the victim, and the purse was snatched near the head of the steps. She immediately reported the matter to the police, who are looking into it.

This makes at least a dozen cases on the mountain side this fall.

The police have a side of bacon at No. 2 station for which they would like an owner. It was left there by a man at whose house it was delivered by mistake.

ELECTION RIOT.

One Man Killed, Three Others Fatally Hurt.

Lexington, Ky., Nov. 6.—In a desperate election fight here yesterday one man was killed and three others, one a Republican candidate and a policeman, were fatally shot.

The dead man, Clyde Campbell, brought on the fight when he came to the assistance of his father, Mr. W. R. Campbell, candidate for councilman on the Republican ticket, who was arguing with a Democratic policeman, Michael Murphy. The two Campbells and Murphy began to shoot. When the smoke cleared away all were down. It was one of the most desperate election fights that has occurred for years in Kentucky. Campbell has been prominent in politics for some time, having made a desperate fight against the Democrats. This election he was a candidate for councilman and had a good show to win. On reaching one of the polling places this afternoon he discovered that Murphy had held up a line containing a large number of Republican voters. Campbell protested, being backed in his contention by his son. Murphy threatened to arrest the candidate. While the two were arguing Policeman Smith came to the aid of Murphy. It is hard to tell who drew first. Young Campbell and Murphy seemed to have shot together.

CONVENTION OF DOMINION BRANCH OF King's Daughters and Sons.

Montreal, Que., Nov. 6.—The feature of to-day's proceedings in connection with the sixth Triennial Convention of the Dominion Branch of the King's Daughters and Sons was the holding this afternoon of a birthday tea to mark the twenty-first birthday of the organization. Opening devotions of the morning and afternoon gatherings were conducted respectively by Miss A. M. Brown and Mrs. J. E. Austen, both of Toronto. Reports from Provincial Secretaries heard to-day were those of Manitoba, Miss M. C. Thomas; Ontario, Mrs. M. S. Savage; Quebec, Miss Gomerly; Maritime Provinces, Miss Barker.

ENLARGING THE SHOW-WINDOW.

Publicity is not a necessary adjunct to the promotion of all kinds of business. For instance, it is not particularly helpful to the enterprise of the burglar, the pickpocket or the green-goods man. But it may be safely set down as a general proposition that any establishment which makes profitable use of a show window can make far more profitable use of the advertising columns of the daily newspaper. The newspaper display attracts the favorable notice of tens of thousands for every hundred whose eyes are caught by the window display. The merchant who contents himself with reaching out for the trade of the casual passer-by when he might bring the whole community to his doors with the assistance of the daily paper is suicidally short-sighted. Why not spread out the pick of the stock in cold type, where everybody can see it? Advertise in the Times.

THE HAMILTON TIMES

WEDNESDAY, NOV. 6, 1907.

THEY WANT TO KNOW.

Last night the Board of Works took another look into the Hydro estimate for the proposed city electric light distribution plant, with the result that, on Mayor Stewart's suggestion, the members decided to wait till they had some definite information before ordering the preparation of a by-law. The delightful state of fog in which the entire question is buried from the aldermanic intelligence was beautifully illustrated when it was stated that a mistake of \$10,000 had been made in stating the annual cost of operation at \$35,517, the corrected figures being \$25,517—the exact figures stated in the Times and upon which our criticisms were founded. That estimate allows only \$1,800 for wages; \$500 for oil and waste; \$1,500 for renewals and \$3,470 for power. Even the aldermen regarded the allowance for power as too low. The wages item will probably be several times the estimate. No allowance is made for superintendence and management, accidents, damages and various other contingencies, which any business man would provide for in undertaking such a work, if he hoped to carry it out within his estimate. But the estimators in this case are happily free from responsibility. Ald. McLaren wished to know where the city's share of the transmission line came in, and was put off with the "information" that it was included in the \$175,000 estimate of the cost of the city distribution plant! That was news indeed. There has been a wonderful fall in prices, if in addition to a complete underground distribution system for 500 lamps we get a clear receipt for our share of the transmission line, transformer stations, etc., for \$175,000. In the original estimate the lowest cost of the transmission line (our share) was put at \$358,379, and we were told that it was not practicable to begin with a line for lower service. On the whole, after last night's performance, we do not wonder that the aldermen concluded to wait and learn something about the scheme before taking the hook.

THE U. S. ELECTIONS.

Henry M. Whitney, the Democratic candidate for Governor of Massachusetts, who was an advocate of reciprocity with Canada, was defeated yesterday, by a plurality of perhaps 75,000. Perhaps it would be injudicious to conclude that the figures are a correct index of public feeling in the State as to trade relations with the Dominion, other issues of course being prominent, but it is evident that that part of New England is not so desirous of reciprocity as to make it the paramount issue in State politics. Well, Canadians will not worry. They long ago ceased to look to improved trade relations with the United States as a means to prosperity. And we are doing fairly well without the trade neighborliness of our friends to the South. This is Canada's century, and the time is approaching when the Yankees will be ready to come to us and ask for terms. They must ere long have some of our products at whatever cost Dingleyism imposes. Already they are clamoring for our pulpwood, and are ready to take it on any terms; but they may not get it at all, but may be constrained to buy the finished material from the Crown lands, at any rate. They will soon be a people who must import many things which Canada produces, and Canada will have control of the deals.

In New York the Democrats win, thus apparently gaining 6 in the State assembly. In Delaware local opponents won a great victory, all the State but Wilmington going dry. In Cleveland Tom Johnson is elected, and in Toledo "Golden Rule" Jones is succeeded by Brand Whitlock. Figures from the other States are not complete at time of writing.

MUNICIPAL BONDS.

The Toronto Star asks: "How is it that Ontario municipal debentures are not more sought after as a medium for the investment of funds belonging to those of our own people who depend upon the interest on accumulated savings for their income?" At first sight it might seem strange that people would be ready to take 3 per cent. in the banks, or 4 per cent. in debentures of loan companies, in preference to municipal bonds at 5 per cent. But a study of the situation is enlightening. The lower rate paid by the banks is for a demand loan; that by the loan companies for a loan for a definite short period. The man getting 3 per cent. in the bank can get his money whenever he asks it. The one getting 4 per cent. for a debenture gets it in one, two or three years, as may have suited his convenience to arrange for. The man who buys municipal debentures, however, finds that they run from 15 to 20, and even 40, years; and if he wants his principal earlier, he must offer them in the open market, and accept what price they will command, less cost of brokerage. Until municipal bonds are made redeemable on demand at the banks it is highly improbable that they will sell readily to the small investor who may have occasion at short notice to need the cash they represent. And it is not clear that it is practicable to make them so redeemable.

The cautious man who invests only in dividend-paying stocks has no cause to worry about stock market slumps. If this dividends come regularly, he may rest easy. Of course, if he bought at an exorbitant price and should be compelled to sell, he may suffer a loss; but warning stocks at a price justified by the revenue produced are a very good thing to own.

IT WAS NO FIASCO.

Some newspapers are inclined to cast ridicule on the Peace Conference just concluded at The Hague, and refer to it as "a fiasco." Nothing could be further from the fact. The Peace Conference did not put an end to war—the nature of mankind is not to be changed in a day—but it did do much to lessen the horrors and outrages of war and to make easier settlements of international difficulties that might lead to war. As a contemporary puts it, "the peace habit has been strengthened and the war habit has been weakened." The creation of a tribunal calculated to remove provocation to war is a very great gain. Some of the far-reaching proposals made at the conference were not agreed to but the realization of better things was undoubtedly brought nearer. The regulation of the rights and duties of neutrals at sea, the adoption of rules for a prize court, the agreement as to the collection of national debts, and several other important results were achieved, and these signify much. There will be other peace conferences, and the work done at the recent gathering will be continued. As the nations come to see that the consequences of these agreements are beneficial, there will be progress. It may be slow, but education is not the matter of a day or a year, and there is no ground for discouragement. The Peace Conference was not a fiasco; it did not fail. On the contrary it took some important steps in the direction of the ultimate achievement of the object toward which its efforts are directed. Let us not expect impossibilities.

EDITORIAL NOTES.

Bourassa is resting his word mill. The Board of Works overdraft is likely to exceed \$13,000. And nearly two months of the work is yet to provide for.

The generous offer of Mr. Flatt of the West End Park plot is to receive the attention of the aldermen. And none too soon, either.

The little town of Almonte, with about 3,000 population, has 40 cases of typhoid. It is time the water, milk and meat supplies were inspected.

Mr. Bourassa has the warm admiration of the Mail and Empire and its encouragement to continue his campaign of disturbance. He is serving the Tory ends.

There is a rumor that Dr. Beattie Nesbitt has resigned the registrarship of West Toronto to run for Mayor, but Premier Whitney denies any knowledge of it.

In the ten months ending with October the succession tax "robbery" and "outrage" has yielded Whitney over \$800,000. For October alone \$44,433 was taken from 33 estates.

The surplus of copper in store is estimated at 111,000 tons net. In October the stocks were reduced 14,000 tons, so that there is still a margin on which demand may call.

Mackay is sound in contending that the Government's duty is the same toward all. If it furnish power, bake bread, and rock the babies for one district, it should do the same for all.

The treatment of Cobalt ores by a Toronto firm is causing so much annoyance by the discharge of arsenic fumes that petitions are being circulated against the industry, and the Health Department is inspecting.

We very much doubt if the suppression of meetings intended to promote agitation in India will meet the needs of the hour. To draw the fires, or furnish an outlet for the energy generated, would seem to be a wiser course than to sit on the safety valve.

The publishing of ghost stories has become a serious matter. The grave judges of the Supreme Court have held that the Winnipeg Free Press must pay \$1,000 damages to the owner of a certain house which it said was haunted. Just as if a real ghost wasn't worth a mint of money to the property.

The Legislature took away from municipalities the right to fix the weight of the standard loaf of bread. Now there is a very general feeling that it should be restored. The matter is one that would probably not be seriously objected to by the bakers. It is merely a matter of ounces and price.

The difficulty of getting cars to meet the demands of shippers at thousands of points in the rush period is one that offers a problem to the railways and railway commissioners that will be hard to solve. It is a good deal like the problem of meeting the demands on the street railways at certain points during the rush hours.

The warden of the Central Prison says that not one in fifty of the young convicts sent to that institution have a trade. That raises the presumption that the possession of a trade tends to prevent crime. It is not only the fact that the possession of a trade qualifies a person to earn a living by some special exertion of endeavor, but the life discipline acquired in learning it helps to build up character.

The annual report of the Department of Justice shows that it would be cheaper to build schools than penitentiaries. It is stated that of the prisoners not in advantage of a good common school education, seventeen per cent. being ab-

solutely illiterate. This presupposes that these prisoners were neglected by their parents when young, and allowed to grow up criminals by society.

In many parts of the United States the doctrine of abstinence from flesh foods is being taught. This is not always done as scientific dietetics, but mostly as a means of economy and of getting back at the Meat Trust. But it is worth considering whether we do not habitually eat more meat than is good for us, cheapness out of the question. Certainly many of us could reduce our meat ration with benefit to our physical system as well as to our pocketbook.

President Roosevelt has, it appears, come to realize that his big stick speeches had not a little to do with increasing the financial difficulties of the United States within the last few weeks by contributing to the feelings of doubt and apprehension that go to produce panic and precipitate crises. Some level-headed friends have reached his ear, and he will cease to play the role of bull in the china shop. And if he has made such a resolution, the United States business and financial interests have reason to be thankful.

It is doubtful if the attitude towards the Provincial University which Mr. Mackay has chosen to adopt will command general support, although he no doubt expresses a certain feeling in the Legislature and in the country.—Toronto News.

What is there about the men chosen to be University Senators that the people of Ontario should be asked not to follow and criticize their course? Why should anybody of men be entrusted with spending close on \$500,000 a year without any check, and without allowing the people to know the why of their doings and which of them supports any given course? Is the star chamber to be revived under Whitney rule, and will the News defend it?

The St. John's Times does not seem to be entirely convinced of the complete altruism of Mr. Hugh Graham's contributions to Borden's—well, purity fund of 1904. At least its references to that kind of giving smack of irony, sarcasm and such. Hear it: The wealthy men who support campaign funds do not want a return in currency. In the United States an ambassadorship will do. In France a bit of red ribbon in the lapel of the coat will suffice for desire. In England the party supporter is raised to the peerage—so it is claimed. In Canada we have no titles to give, although we may soon have ambassadorships within our gifts; and it is, therefore, all the more delightful to consider that our wealthy men give of their means to accomplish the triumph of their principles, mind you!—at the polls, without a thought of reward. It is fine.

According to last night's Spectator Commissioner Van Allen has been saying nasty things about the Times, because, as he alleged, it said that he failed to keep an appointment in Toronto with John Patterson and Col. Ingersoll. The Times merely repeated the statement of Mr. Patterson that the two Beach Commissioners failed to keep the appointment in question. So that no injustice might be done Mr. Van Allen a reporter called up that gentleman by telephone and got his side of the story—a denial—which was published along with Mr. Patterson's statement. There would be less burlaque about the Beach Commissioners if Mr. Van Allen were not so apt to fly off the handle and cause people to talk. He had no cause of complaint against the Times, which took every precaution to see that he was not wronged.

Canadian Courier: Hamilton will soon be the haughtiest thing in one week it bought up a battlefield and had a balloon descent just twelve miles away. And yet the Toronto press insinuates that events do not occur in Wentworth.

FIFTEEN YEARS OF ECZEMA

Affected Hands, Arms and Legs—Endured Terrible Itching and was Unable to Sleep—Would Tear the Bandages to Scratch the Skin—In less than One Week

CURED BY THE CUTICURA REMEDIES

"I had eczema nearly fifteen years. The affected parts were my hands, arms and legs. They were the worst in the winter time and were always itchy, and I could not keep from scratching them. I had to keep both hands bandaged all the time, and at night I would have to scratch through the bandages as the itching was so severe, and at times I would have to tear everything off my hands to scratch the skin. I could not rest or sleep. I had several physicians treat me but they could not give me a permanent cure, nor even could they stop the itching. After using the Cuticura Soap, one box Cuticura Ointment, and two bottles Cuticura Resolvent for about six days the itching had ceased, and now the sores have disappeared, and I never felt better in my life than I do now. Edward Worrell, Band 30th, S. Infantry, Fort Crook, Nebraska.

The most torturing and disfiguring humors, eczemas, rashes, itchings, irritations, and inflammations of the skin, scalp, and blood, with loss of hair of infants, children, and adults, are instantly relieved and speedily cured by the Cuticura Remedies, when all else fails.

Complete External and Internal Treatment for Every Humor of Infants, Children, and Adults consists of Cuticura Soap to Cleanse the Skin, Cuticura Ointment to Heal the Sores, and Cuticura Resolvent or in the form of Chocolate Coated Pills, in vaso-vaso to Purify the Blood. Sold throughout the world. Better Drug & Chem. Co., 250 Broadway, Boston. Fuller Drug & Chem. Co., 250 Broadway, Boston. Book on all skin humors.

CONFIRMED ASSESSMENT.

Important Precedent Established by Court of Revision.

No. 5 Ward Reductions Amount to Only \$27,000.

In Same Ward Last Year Reduction Was \$75,000.

The Court of Revision, at its session yesterday, by confirming the assessment on the McKelvie property between James and Hughson on King street, which had been increased to about \$200 a foot, established a precedent, which, it is believed will have an important bearing as far as the King street property is concerned, on Martin Malone's appeal to have the assessment on the Martin estate increased. This case will come up on Friday afternoon at the session set aside for the hearing of legal arguments.

It is thought likely that the court will increase the assessment on the Martin stores after confirming the assessment on the others as made by the department.

The court yesterday knocked off about \$27,000 in Ward 5, as compared with \$104,000 for the same ward last year.

The appeals allowed yesterday were as follows:

A. C. Turnbull, above 17 King street east, assessed at \$4,300; \$3,000 off; also business assessment, \$2,500; \$2,255 off.

Thomas W. Watkins, Hughson street, between King and King William, \$10,000; \$2,280 off; also 35 King street east, assessed at \$119,500; \$2,000 off.

W. R. Webb, 32 Market street, assessed at \$2,900; \$1,000 off; also 65 Market street assessed at \$3,600; \$800 off.

William Williamson, 122 MacNab street, business assessment, \$360; \$310 off.

Sarah L. McKelvie, 29 King street east, \$5,400; \$400 off.

Herbert Jones Company, 126 King street west, assessed at \$7,600; \$800 off.

Cecilia O'Brien, 8 Stuart street, assessed at \$500; \$100 off.

William Ogilvie, 499 Hughson street, business assessment, \$100; \$100 off.

Major F. B. Ross, above 27 King street east, business assessment, \$2,750; \$750 off; real estate assessed \$5,500; \$1,500 off.

George McDonald, 58 Market street, assessed at \$60; \$40 off.

James Turner Company, 46 Merrick street, business assessment, \$1,680; \$1,680 off.

John Hunter, 46 and 48 Colborne street, assessed at \$1,200 each; \$100 off each.

William Kavanagh, 49 York street, \$9,100; \$280 off.

Frederick Lumsden, 47 Cannon street west, \$300; \$300 off.

J. Moffat, 106 Bay street north, income \$100; \$100 off.

Hamilton Motor Works, 533 Bay street north, assessed at \$3,800; \$800 off.

MacKenzie & Mann, 555 MacNab street north, \$600; \$100 off; also wharf, \$5,800; \$500 off; also business assessment, \$1,250; \$1,250 off.

Magi Alafiro, 90 Park street north, income \$140; \$140 off.

P. S. Bateman, 37 York street, business assessment, \$620; \$620 off.

Dr. Ralfe, business assessment, \$1,550; \$75 off; also 102 York street north, assessed at \$9,200; \$300 off.

Orten Dymont, 141 James street north, business assessment, \$400; \$400 off.

Mary and Margaret Edwards, and Dr. V. Emory, 104 and 106 and 108 King street west, assessed at \$2,700 each; \$250 off 104 and 106, and \$300 off 108.

Herbert T. Gilbert, 9 Market square, \$1,370; \$1,370 off.

James C. Gibson, M. D., 170 James street north, business assessment, \$650; \$150 off.

LAYMEN'S MISSION.

Secretary of the World Movement Here To-morrow.

A good deal of interest is attached to the visit to this city, to-morrow, of Dr. Campbell White, secretary of the Laymen's Missionary Movement of the World. Mr. White is going through Canada just now on behalf of this movement, and is to meet all who are interested in First Methodist Church. The proceedings will open with a prayer service at 5 o'clock, led by Rev. J. K. Unsworth, of First Congregational Church. At 6 o'clock the ladies of the church will serve tea and at 7 o'clock Mr. White will give an address on the movement. This will be followed by a discussion in which all who so desire may take part.

MUNICIPAL PROBLEMS.

Dr. S. Morley Wickett, who will be the speaker at the Canadian Club luncheon on Friday evening, is the author of a forthcoming book, "Municipal Government in Canada." This book deals with the history of municipal government in this country, and reviews present conditions in several of the Canadian cities. When briefly interviewed in Toronto yesterday, Dr. Wickett expressed the opinion that the cities and larger towns of the Dominion are undoubtedly moving toward the elective council plan, with a board of commissioners, who shall be permanent; and also that aldermen would be elected for longer terms. Those who intend to hear Dr. Wickett should secure tickets as early as possible from the Secretary, so that arrangements can be made.

AT THE PRESBYTERY.

Proposition to Unite Barton Church With Chalmers'.

At yesterday afternoon's meeting of the Hamilton Presbytery, Sir Thomas Taylor and Capt. Hardy were appointed a committee to try to bring about an amalgamation of Barton Presbyterian Church with Chalmers' Church. At present Barton Church is united with St. James (Locke street) Church. The proposition is to have the one minister for the two mountain churches.

It was announced that Binbrook and Safford Churches are now self-sustaining.

The matter of appointing commissioners to the General Assembly was left over till the January meeting.

Rev. T. L. Turnbull, of Oneida, was granted four months' leave of absence, on account of ill health.

LOCAL CASES.

Judgment Reserved in Albermarle vs. Bank of Hamilton.

The following Hamilton cases came up at Toronto yesterday:

Re Albermarle—F. Arnoldi, K. C., for Countess of Albermarle, moved on petition to settle question as to whether Bank of Hamilton is entitled to a new lease; J. L. Layton, for Bank of Hamilton. Reserved.

Re Falls and Canadian Order Home Circles—Sinclair, moved for order allowing payment into court and payment out at majority. Harcourt for infants. Order granted.

Re Collins and Canadian Order of Foresters—Lynn Lee (Hamilton), for the society, moved for order for payment of moneys into court and payment out at majority. Harcourt for infants. Order granted.

Re Stokes and Canadian Order Chosen Friends—Lynn Lee (Hamilton), for society, moved for order for payment of money into court on behalf of infants, and for payment out at majority. F. W. Harcourt for infants. Order granted.

Six papers on different periods of the life of Sir John A. Macdonald were arranged and read by members of the Fireside Club of Centenary Church in the new quarters last evening. A large attendance was the feature, and much knowledge was received from the writings of this noted statesman. President Charles Footo was in the chair and all the other officers were present. It was practically decided that the society should have a motto button and designs were submitted for approval. The selection will most likely be made at next meeting. The critic's remarks by Norman Mead were timely and to the point. An adjournment was made to the banquet tables, and during the participation of the luncheon a programme of addresses by the president and by the pastor, Rev. R. Whiting, and Mr. J. Orr Callaghan, and several musical selections by other members were given. The next meeting, Nov. 19th, will be given up to stump speeches, all taking part.

New York, Nov. 6.—His efforts to save his lunch from the vandalism of joking fellow workmen cost Alexander Dalrymple his life. He was a lineman employed by the New York Central Railroad, and was working on the wires just north of the Morris Heights station, near Highbridge. When he arrived for work Dalrymple carried his lunch box, to the top of a pole and left it there, as the workmen had been in the habit of substituting stones and other things for the food they find in each other's lunches.

AROUSING THE LION.

If we want to educate that sturdy, stolid, unresponsive thing, the British public, a scheme has to be mildly diluted with pleasure, as marked by brilliant pictures, like the bitter pill we hide in our children's jam. We have compulsory schooling, of course, but as a nation we are not and do not want to be.

Board of Works Calls on Brantford Railway to Do It.

Looks as Though Committee Would Have \$13,000 Overdraft.

Joint Sub-Committees Will Take Up That Flatt Offer.

The Board of Works last night passed a resolution ordering the Brantford and Hamilton Railway Company to put in passable shape for the winter the space between and for two feet outside the rails on Main street, between Hughson and Catharine streets.

The only comment made on the caustic letter received from Gibson, Osborne, O'Reilly & Levy, charging the city with holding the company up by making it pave Main street between James and Hughson streets, and rebuking it for breaking faith, was a suggestion that the company should have been made do all the work to the station.

Faces Big Overdraft.

The Board faces an overdraft of over \$13,000. This was shown in the following financial statement, presented by Secretary Brennan:

Table with financial data: Expended to November 5, \$80,330; Less for closing Strachan street and Cathcart street, 1,600; Appropriation, \$78,760; Overdraft, \$78,133.

That Park Offer.

The City Engineer reported that it would cost \$5,800 to macadamize Garth street and lay a cement walk, the conditions imposed by W. D. Flatt, in connection with his offer to donate a site for a park.

Other Matters.

City Engineer Barrow reported that the construction of a road leading from the foot of the Jolley Cut to the head of Victoria avenue would be a great improvement and convenience.

George T. Bell, on behalf of the Simpson Brick Company, of Toronto, asked the Board to order the opening up and continuation of Chatham street, from Garth street to the lands of the Aberdeen Brick Works.

The Hamilton Cotton Company, on the ground that it was anxious to make extensions to its works, urged the city solicitor, R. Bruce, that the city convey its interest in certain lanes in the neighborhood of premises on Mary street to the company.

Ann Arbor, Mich., Nov. 5.—After a 1,600-mile chase, during which he was at all times just a few miles behind his wife and the man with whom she has eloped, Charles Wikman Hermit, a justice of the peace in Raymond, Alberta, Northwest Canada, had the fleeing pair arrested here.

CANADIAN J. P. CHASES COUPLE 1,500 MILES.

He Caught the Elopers in Michigan—Romance Which Had Its Genesis in Alberta Comes to an End in Ann Arbor.

Ann Arbor, Mich., Nov. 5.—After a 1,600-mile chase, during which he was at all times just a few miles behind his wife and the man with whom she has eloped, Charles Wikman Hermit, a justice of the peace in Raymond, Alberta, Northwest Canada, had the fleeing pair arrested here.

Although Hermit arrived here several hours behind the couple, he was enabled to make the capture because his wife carried too long over a visit to relatives in Ferrisburg.

Hermit claims that while he was in Oregon, on a business trip, Cooper became infatuated with Mrs. Hermit, and enticed her to elope with him.

Hermit, notified by his friends of her desertion, started out on the trail of the pair. He followed them through some cities in the Middle West, but Cooper and his companion always managed to keep a few miles ahead.

The couple were arraigned in police court, and both gave bail for their appearance in court next week.

VERY FIRST SIGNS

Of Serious Kidney Trouble are in the Back, Says Authority.

Take care of backache. A great many cases of kidney complaint are reported about here, also bladder trouble and rheumatism.

An authority once stated that pain in the back, loins or region of the kidneys is the danger signal nature hangs out to notify the sufferer that there is something wrong with the kidneys, which should receive immediate attention.

The following prescription, while simple, harmless and inexpensive, is known and recognized as a sovereign remedy for kidney complaint. The ingredients can be obtained at any good prescription pharmacy and anyone can mix them. Compound Katigon, one ounce; Fluid Extract Dandelion, one half ounce; Compound Syrup Sarsaparilla, three ounces. Shake well in a bottle and take in teaspoonful doses after each meal and at bedtime.

This preparation is said to restore the natural function of the kidneys, so they will sit and strain the poisonous waste matter, uric acid, etc., from the blood, purifying it and relieving rheumatism. Backache will be relieved, the urine will be neutralized and cleared and no longer a cause of irritation, thereby overcoming such symptoms as weak bladder, painful frequent and other urinary difficulties.

This is worth trying and may prove just what many people here need.

NATIONAL RAILWAY.

NEW ONTARIO SECTION WILL BE LEFT TO THE LAST.

Will Use the Temiskaming Railway to Take Supplies Into the Country—Progress in Quebec and Other Sections of the Line Satisfactory.

Ottawa, Nov. 5.—About fifty miles of rails have now been laid on the National Transcontinental on the Quebec section, and grading is well advanced for a long distance on the various divisions now under construction. It is thought that by next fall about four hundred miles of road will be graded, and the track will be laid on a large portion of it.

Tenders for the greater portion of the remaining thousand miles between Winnipeg and Montreal will be called for next spring. The contractors for the sections now under construction are reported to be making satisfactory progress, and Hon. Mr. Parent is hopeful of completing the whole line by the end of 1911, as originally intended.

The portion of the line in New Ontario adjacent to the route of the Temiskaming & Northern Ontario Railway will probably be the last to be constructed, as tenders will not be called for until the Provincial line is extended to the proposed junction point, thereby lessening the cost of transporting supplies, etc., for the Transcontinental line.

The commissioners leave to-morrow for Moncton, where they will confer with the Minister of Railways as to the New Brunswick terminals of the road.

W.C.T.U. CONVENTION

WHITE RIBBONERS MEETING AT CORNWALL THIS WEEK.

Influence Will Be Felt in Four Score of Local Opinion Campaigns—President's Address—Reports Presented—Overflowing Public Meeting.

Cornwall, Nov. 5.—Even if the members of the Women's Christian Temperance Union have no votes, it is quite apparent from the tone of the Provincial convention being held here that they intend making their influence felt in the four score campaigns now in progress in Ontario. To-day the great feature was the report of the Corresponding Secretary, Mrs. Flora York Miller, of London, who stated that legislation in reform measures was claiming the attention of the women. The W. C. T. U. had taken quite a part in the elections of last January, but if the members could not be the voting power they intended being the praying power.

The church was filled to overflowing at the public meeting in the evening. The feature of the evening was an eloquent address by Miss Kearney, who spoke at considerable length, to the delight of the large audience.

BOY LOST AND FOUND.

Solomon McDonald's Mother Continued Her Journey Without Him.

Montreal, Nov. 5.—Eight-year-old Solomon McDonald, hailing from Minneapolis, strayed from his mother at the Bonaventure depot last night. The two were going home and after vainly searching for her boy the mother left his ticket with the station agent and went on without him, saying she felt sure he would be found by the police, and could then be sent on. As she prophesied so it happened. Solomon, some hours after his had left, was found by the police, and to-day was placed aboard a train for his home.

WILL WAIT FOR FACTS.

Board of Works Concludes Not to Plunge Yet.

One \$10,000 Error in the Estimate Given Out.

Think Distribution Cost Includes Shares of Transmission Line.

"I think if I were in the Board's place I would not commit myself to anything until we are perfectly sure where we stand. I do not think we should tie ourselves down and leave ourselves open to be criticised by the press until we have all the information."

This was the warning sounded last night by Mayor Stewart, one of the most ardent champions of the Hydro-Electric Power scheme, just as the Board of Works was about to make the plunge and recommend the Council to submit a by-law to the people to vote \$174,000 for a municipal lighting plant.

Mayor Stewart is hopeful that the long-promised announcement from the Government will be made this week. Last night he received a telegram calling him to a conference at Toronto on Thursday, when it is expected the representatives of the other municipalities will be present and the provisional contract will be completed.

Chief Engineer Sothman was present last evening when the question was taken up again. By using iron poles, with a footing of sufficient width, so that the connecting boxes could be installed in connection with them, he said a reduction of \$12,000 on the original estimate could be made. A further saving of 25 per cent, he declared, could be effected by placing the ducts and cables around only three sides of the block to begin with. This would give the connections for a lamp on each corner of the block. The estimate given, he explained, was based on copper at 24 cents a pound. If an option were taken on copper now by the city at 15¢ per pound, a saving of \$20,000 could be made. By making use of the lanes and avoiding as much as possible the tearing up of expensive asphalt pavement a further saving could be effected.

Ald. McLaren wanted to know where the city's share of the transmission line was coming from, and was informed it had been included in the \$174,000.

"But I understand the Government is not going to take any more responsibility than to put up the money in the first place," said Ald. McLaren.

"We may be able to make a definite bargain," suggested the Mayor.

The engineer also informed the Mayor that the city, if it entered into a contract, would not be expected to pay a cent extra outside of the \$175,000, except for the power.

Ald. Lewis said that from what he had heard the Government was going to build the trunk lines, Hamilton would have to pay for the Transcontinental line, and in this way the scheme would be financed.

When the committee proposed instructing the City Solicitor to draw up the by-law the Mayor cautioned delay until the outcome of Thursday's conference was known.

It was explained that the estimated annual cost of operation, instead of being over \$35,000, as in the original estimate, would be only \$25,000, the mistake being made in copying the figures.

Ald. McLaren thought the \$3,470 allowed for power was rather low for the 217 horse-power required to operate the lamps.

THOUSAND A DAY.

RATE OF IMMIGRATION TO CANADA SINCE LAST APRIL.

Returns for Nine Months Show a Splendid Increase in the Work of Settling the Country—Arrivals From United States Not So Numerous Now.

Ottawa, Nov. 5.—For the first nine months of the present year ending September 30th the total immigration to Canada has been 236,008, an increase of 54,736 as compared with the corresponding nine months of 1906. The increase above is nearly double the total immigration for 1900, and for the nine months the immigration is nearly nine times the total immigration of that year.

For the first six months of the present fiscal year, beginning with April, the total immigration has been 103,690, of which the number coming from the United States was 35,092, and the number via ocean ports was 128,598. The total increase as compared with the corresponding months of last year is 45,930, or 31 per cent. The percentage of increase via ocean ports is 44. Immigration from the United States shows a decrease of 2,801, or 8 per cent. For September the immigration from the United States was nearly 4,000. The number of arrivals via ocean ports for the month was 15,204.

Since the last of April last immigrants have been arriving in Canada at a rate averaging a little over a thousand per day.

Proper Treatment for Sprains.

Doctors say that nothing relieves a sprained joint so promptly as a good rubbing with Nerviline. "I sprained my wrist," writes Leonard E. Milford, of Rockland. "It became very painful and swollen. I rubbed on Nerviline twice a day and put on a bandage. The pain soon went away and rubbing with Nerviline cured. Nerviline is undoubtedly the best pain reliever I ever used." For nearly fifty years Polson's Nerviline has been the leading liniment of Canada. Large bottles 25c everywhere.

BY THE GRACE OF GOD.

Not by Grace of Powers Does Persia Exist.

New York, Nov. 5.—The Herald has received the following cable despatch from Teheran: The Minister of Foreign Affairs has informed the Russian Minister and the British Charge d'Affaires a letter, dated November 2, that the convention between Russia and England can only concern the signatories. The Government of the Shah of Persia, the letter declares, is by the grace of God independent. The Shah, says the Minister, enjoys all the rights of sovereignty, and no convention between two or more nations can in any way interfere with Persia's independence.

Persia, it is declared, endeavors always to increase friendly relations with all nations, observing freedom of commerce. In regard to the loan Persia will adhere to all clauses contained in the agreement.

The tension between the clericals and the reformists is daily increasing.

FACED DEATH.

G. THIBERT HUNG IN MOUTH OF PENSTOCK AT NIAGARA.

Small Rope That Sustained Him Was Fouled, and Rushing Waters Threatened to Carry Him Down at Any Minute—Rescued, But Badly Hurt.

Niagara Falls, Nov. 5.—For a long half-hour to-day Godfrey Thibert hung by a thin rope in the mouth of one of the great penstocks of the Electrical Development Company's power house while thousands of tons of water tore at his swaying body to carry him to destruction, and despairing mates worked like maniacs to save him.

The men went on and on, but when the rope broke Thibert was left hanging in the air. He was rescued, but badly hurt.

It was impossible to shut down the head gate and stop the rush of water, for Thibert was hanging right under the gate, and it would have cut him in two. The men on the line stood at their posts, straining every nerve to hit their imperilled mate, yet fearing each minute that the life line would part from the strain or be worn through where it was fast to the ironwork, and Thibert be snatched down one hundred and fifty feet into the turbine wheel.

The pump tenders worked like machines, sending an uninterrupted supply of life-sustaining air down through the hose to Thibert.

Every possible scheme was brought into play to release the fouled rope, but it was half an hour before a practicable way was found. When the rope was at last free and the men pulled it in they did not know whether it was a living man or a corpse they were dragging from the depths of the cold, rushing water. Great was their joy when the helmet was removed and Thibert found to be alive, and greater still when the doctors pronounced no bones broken, and the injured man's chances of recovery good unless the lungs or heart have suffered too great a strain.

Thibert's body was nearly cut in two where the rope was round him, and the drag of rushing water on the helmet squeezed and bruised his neck, arms and shoulders. He had given up all hope of rescue, believing he would die from the pressure upon him or the rope would break and send him down to be torn to shreds on the turbine wheel. He was taken home to Chippawa and to-night is doing as well as can be expected.

U. S. ELECTIONS.

NO RECIPROCITY FOR STATE OF MASSACHUSETTS.

New York Goes Tammany—Mississippi, New Jersey and Rhode Island Go Democratic—Anti-Mormon Leading in Salt Lake City—Union Labor in San Francisco—Johnson Re-elected in Cleveland.

Boston, Nov. 5.—Henry M. Whitney, the Democratic candidate for Governor of Massachusetts, who has fought out his campaign on a platform demanding freer trade relations with Canada, was beaten in the election here to-day by Governor Guild, who won by a plurality of about 75,000. Guild had strenuously opposed the reciprocity policy, pointing out that the trend of affairs in Canada went to show that the people there were not by any means anxious for altered trade relations with this country. There were seven candidates in the field for the Governorship, but Mr. Whitney was the only one who at any time menaced Governor Guild's return.

More than doubled the plurality of 24,023 which he obtained in 1904.

Tammany Carries New York.

New York, Nov. 5.—Returns sufficiently complete to make certain of the ultimate result show that in to-day's election in New York the Republican and Independence League fusion was overwhelmingly beaten by the straight Democratic ticket. In the city interest centered chiefly in the county fight, in which the Republican and Independence League forces went down before Tammany. Jas. W. Gerard was elected to the Supreme Court by a wide margin over M. Lenn Bruce, and Thomas F. Foley defeated Maximilian F. Himsen, the fusion candidate for Sheriff, by a margin of about 25,000. Edward T. Bartlett and Willard Bartlett were elected to the Court of Appeals on a joint Republican and Democratic ticket. The election was unusually quiet and the vote light. There was a considerable number of arrests for illegal voting, but in most instances the defendants were discharged.

According to returns received up to midnight, the new State Assembly will consist of 96 Republicans and 54 Democrats, a gain of six Democrats as compared with last year.

Six Governors Elected.

Six States elected Governors. Following are the results in the States other than Massachusetts: New Jersey—Reports are incomplete, but indicate that Frank S. Katzenbach, Democrat, will have a plurality of 10,000. In 1905 Stokes, the Republican candidate, had a plurality of 31,000. Rhode Island—James H. Higgins, Democrat, is making gains, but the race is very close. In 1906 Governor Higgins had a plurality of 1,318.

Mississippi—E. F. Noel, Democrat, was elected without opposition. From Kentucky and Maryland no definite returns have been received. In Pennsylvania, Sheats, who heads the Republican ticket for State treasurer, is elected by a large majority, estimated at 175,000. In 1906 the plurality of Stuart, Republican candidate for Governor, was 48,235.

Cities Elect Mayors.

Following are the results of the Mayoralty election in the principal cities that were voting: Toledo—Brand Whitlock, Independent, the successor of "Golden Rule Jones," elected by a majority of 9,500. Cleveland—At Republican headquarters late at night the re-election of Mayor Tom L. Johnson, Democrat, was conceded.

San Francisco—Patrick H. McCarthy, the Union Labor candidate, is showing unexpected strength. Salt Lake City—John S. Brantford, the American or anti-Mormon candidate, is leading.

Syracuse—Alan C. Forbes, Republican, re-elected Mayor by 2,500 plurality. Rochester—Hiram Edgerton, Republican, elected Mayor by 1,100 plurality. Watertown—Hugh, Republican, re-elected Mayor by 1,084 majority.

Oswego—John K. Smith, Republican, re-elected Mayor by plurality of 300. Buffalo—Colonel Francis C. Ward, Republican, re-elected Commissioner of Public Works by plurality of 6,453. Simon A. Nash, Democrat, elected Police Justice by majority of 4,225. The remainder of the Republican city ticket were elected.

Montreal Man's Sad Fate on Way to Cobalt.

North Bay, Ont., Nov. 5.—Arthur Russell, of 133 Coursol street, Montreal, was found dead in the bush near Moose Lake, on the T. & N. O. Railway, in a naked condition. Instructions from Constable McMurphy, who found the body, were on his way to Cobalt.

He was seen in the vicinity of Moose Lake several times, and his actions indicated insanity.

The body was brought to North Bay, and buried under instructions from Constable McMurphy, in the Catholic Cemetery. Deceased's mother lives at Margate, England.

Mr. C. L. Owen has been declared elected member of Parliament for East Northumberland. The official returns give him 242 majority.

Mrs. Carter, wife of a Pieter merchant, was found unconscious in her room on 102 Winchester street, Toronto, on Tuesday, with gas pouring out of a tube.

MUSIC AND DRAMA

The musical phenomenon, is giving a remarkable performance. For a boy of his years his rendition of some of the most difficult compositions is astonishing.

One of the cleverest acts seen here this season is that of the Sisters Don, English impersonators. They are peers in their class. Gilbert and Saxon, the brew comedians, are genuine laugh producers, who sang a number of clever songs and crack rare jokes. A miscellaneous lot, the skit presented by the Fitzgibbon-McCoy trio, is an amusing act which contains a lot of reticent comedy. Barrs and Herman, wonderful contortionists, and Keating and Stevens in their clever dancing act, complete the bill.

Owing to one of the team Roalino and Stevens, taking suddenly ill, yesterday their singing and dancing act was postponed at either performance yesterday.

Miss Margaret H. McCoy, the clever local ventriloquist and singer of mad wicker, who happened to be in the city, was secured to take their place. He went on at the matinee on 30 minutes notice and pleased and mystified the audience. His work at the evening performance was more finished than at the matinee, and he received a generous "hand."

Recital at Knox.

A very successful organ recital was held last evening in Knox Church under the auspices of the Young Ladies Mission band of that church. There was a very good attendance, and an excellent programme was presented by Mr. Bailey, the organist. He was assisted by Miss Margaret H. McCoy, the charming soprano of this city. Miss McCoy was in particularly good voice, and her rendition of her three numbers was a delight to those present. Possessing faultless diction, combined with beautiful quality and wide range, Miss McCoy has no trouble in singing sweetly into the hearts of her hearers. The ease with which she handles the most difficult of her numbers shows she has had exceptional training.

Mr. Allen at the organ played a splendid attraction. His technique is excellent, and he plays with an understanding of the instrument which he is using. His striding of the various numbers was good. The programme was as follows: Organ—"Sonata in C minor" Op. 10, No. 3, R. L. Baldwin. Fugue (Allegro Assai). Organ—"The Answer, W. Wolstenholme Song—"Out of the Deep" Genet Miss McCoy. Organ—(a) Variations on the hymn, "For Those in Peril on the Sea," H. J. Allen (b) "Cantata," H. W. Harris Song—"A Dream of Zion," Hadley Miss McCoy. Organ—(a) Overture to "Zampa" Herold 1791-1833 (b) "Scottish Melody" E. Nevin 1862-1901 Song—"Hear When I Call" Bruno Hulm Miss McCoy. Organ—Overture "Die Stimme Von Portici" Auber 1782-1871

At the Savoy.

The Savoy's good bill this week, featuring some of the advanced vaudeville's best attractions, continues to attract big business. The performance of the Yosecars, a trio of European acrobats, is about the finest in that line seen here yet. The work is done neatly, much of it is remarkable and nearly all original. The act is full of action and a good dash of comedy helps it much. Al Shea's burlesque on Quo Vadis is the laughing

ment of the platform at the hall, it being decorated with palms and ferns, and presented a very attractive appearance. During the evening she was assisted by Mr. Arthur Ostler on the violin, he playing Svendsen's "Romance" in masterly style. He was enthusiastically recalled, and gave that dainty piece, Thyor's "Sonnet." Miss E. Herald also rendered two piano numbers, "Intermezzo" by Leschetzky, and "Meditation" by Tschakowsky. Miss Anna Laidlaw played the accompaniments for Mr. Ostler in her usual artistic manner.

Among the best numbers given by Mrs. Dunn were "The Raven," by Edgar Allan Poe, with a weird musical setting. By Max Heineich, played by Miss Herald, and "The Fugitives," by Shelley, with a musical accompaniment written by Schumann, also played by Miss Herald. Mrs. Dunn scored an instantaneous success, the large audience being more than delighted. The other readings were well kept up with the high standard of the entertainment. The numbers were as follows:

"Lady of the Shalotte," Tennyson.
(a) "The Grand March," (b) "The Marriage" Moin O'Neil.
(c) "The Fugitives," Shelley.
(a) "My Last Duchess," (b) "Youth and Art," Robert Browning.
"The Stove Pipe Hole," Henry Drummond.
"The Raven," Edgar Allan Poe.
(a) "Angelina Johnson," (b) "Encouragement," Paul Dunbar.
The entertainment was under the patronage of Mesdames Walter Brug, P. D. Crerar, J. M. Gibson, S. O. Greening, R. J. Moodie and Dr. Lyle. The next reading will be given on the 20th of January, and it will be devoted to David Copperfield, that immortal work of Charles Dickens.

At Bennett's Theatre.

Volta, the human storage battery, is attracting local theatregoers in no mistakable manner by his wonderful performance at Bennett's this week. Not in a long time has a performer aroused so much curiosity as Volta has and ever since his opening performance the popular playhouse has been crowded with people anxious to witness his mystifying act. He toys with the electric currents as if they were an innocent pastime. Louise Raffins and her wonderfully trained monkeys are creating the greatest interest. The intelligence displayed by these animals seems almost human, and the manner in which they perform is truly remarkable. Willie Eckstein,

hit of the bill. There is much bright dialogue, amusing situations and a capital finish, depicting the gladiators in a Roman arena. Murray Clayton and Lillian Drew, in their skit, "A Night in Rome," are one of the best-liked numbers on the big bill, and well deserve the applause with which the offering meets. Alice and Henry Taylor have a novel act that adds considerably to the entertainment. Some of the juggling feats of the man are wonderful, and Miss Taylor's work with a rifle and pistol is about as good as anything in that line done by a woman here yet. Warren and Rockaway have a musical offering into which much fun is interspersed. Joe Flynn, a monologue man, with a rapid fire delivery, funny songs, and new jokes, is another favorite. Bailey and Peters, colored entertainers, and Axelle, a rubber man, with three dogs, are a pleasing number. The kintograph, showing the French police dogs, is unusually interesting.

END OF STRIKE.

Telegraphers Said to Be Giving Up Fight Against Companies.

New York, Nov. 6.—Local members of the Commercial Telegraphers' Union probably will vote to-day to abandon their strike against the Western Union and Postal Telegraph Companies. Official action on the suspension of the strike will be taken this afternoon at a meeting at the offices of the companies yesterday more than a hundred strikers applied for their old places.

All except those most actively interested as leaders of the strike were re-employed. An even greater break in the ranks of the strikers is expected to-day. It is said that practically every one of the local strike leaders is in favor of giving up the struggle.

MOUNTAIN SAN.

U. S. APPLE CROP.

Big Shortage in Western New York Michigan and Southwest.

New York, Nov. 6.—The apple crop of the United States for 1907, as estimated by "The American Agriculturist" in its report to appear on Nov. 19th, is a scant 24,600,000 barrels, materially short of last year, or a failure even more marked when compared with 1906 and 1903.

What is of greatest importance is the shortage in such commercial orchard sections as western New York, nearly all of Michigan and the entire southwest. They are what may be set down seldom as an absolute failure in Kansas, Missouri and Nebraska.

New York State has a good many apples, but they will be needed, and for the matter the total is only about one-fourth to one-third of a full yield. Pennsylvania has fairly abundant totals. New England has rather more apples than last year, due solely to the fact that Maine surprised its best friends by finally bringing to maturity a good crop.

TWO MEN KILLED.

TRAIN DERIVED DOWN MOUNTAIN IN BRITISH COLUMBIA.

Accident to Logging Train—Engineer and Bookkeeper the Victims—The Brakes Refused to Work.

Vancouver, B.C., Nov. 4.—Two men were killed near Chemainus at noon to-day, when the logging train operated by the Chemainus Lumber Company, ran away down a steep mountain grade. The locomotive engineer, L. White, of Vancouver, dashed his head against a tall stump when in the act of jumping from the runaway train. He was instantly killed.

Walter Ashby, Englishman, a bookkeeper, jumped, but lost his balance when he struck the ground, and his body was thrown on the rails, several cars of the heavily laden train passing over him. He was dead when picked up. The remaining members of the train crew were unhurt, though all jumped. The locomotive and cars continued on down the grade, and were reduced to a mass of splinters and junk at the foot of the mountain. According to the reports of the accident, the brakes refused to work and the train ran completely beyond the control of Engineer White, who jumped to his death after about a warning to the rest of the train crew to look out for themselves.

Life Tree.

Brazilian cocconut palms live from 600 to 700 years, and the Arabs assert that the date palm frequently reaches the age of 200 to 300 years. Wallan's oak near Paisley, Scotland, is known to be more than 700 years old, and there are eight olive trees on the Mount of Olives, near Jerusalem, which are known to have been flourishing in 1000. The yews at Fountains Abbey, Yorkshire, were old trees when in 1132 the abbey was built, and a redwood in Mariposa Grove, California, is a manifold centenarian. Baobab trees of Africa have been computed to be more than 5,000 years old, and the deciduous cypress at Chapatitope is considered to be of a still greater age. Humboldt said that the Dracaena Draco at Orotava, on Tenerife, was one of the oldest inhabitants of the earth.—Dundee Advertiser.

EASY MONEY FOR MRS. CHADWICK.

BORROWED NEARLY \$600,000 FROM PITTSBURG MEN.

Fake Securities \$5,000,000—Opening of Famous Affidavit Lets in Light on Dealings of the Dead Adventurers.

Pittsburg, Nov. 5.—The Supreme Court of Pennsylvania has allowed the public a peep at the famous Chadwick deposition introduced in litigation surrounding the settlement of the estate of the late W. C. Jutte.

The document shows that Mrs. Chadwick got from Hoffstadt and Chalwick who are respectively President and Vice-President of the Pressed Steel Car Company, almost \$500,000 in loans, for which she put up \$5,000,000 in bogus securities.

Among other things contained in Mrs. Chadwick's deposition is a copy of this memorandum:

To J. W. Friend—As a consideration of the loan of \$75,200 made by you to me on March 25, 1904, and the loan of \$37,000 this 29th day of March, 1904, made by you to me, I hereby covenant, promise and agree irrevocably to place in your possession no later than April 12, 1904, all of the securities now in the possession of Ira Reynolds, agreeing \$5,000,000, held in trust for me, dated March 5, 1904, and that you shall have full power and authority to dispose of the said securities for the purpose and in the manner following:

To pay off in full the following parties evidenced by the following notes to your order:

- Note of \$358,000, dated April 10, 1903. Note of \$300,000, dated February 8, 1904. Note of \$10,000, dated March 18, 1904. Note of \$23,000, dated March 18, 1904. Note of \$73,200, dated March 25, 1904. Note of \$37,000, dated March 29, 1904. Total, \$798,200.

To hold the balance of said securities until I shall execute a trust under which I will tie up during my life \$4,000,000 of said securities, and on the execution of papers creating such a trust, you, the said J. W. Friend, will turn over to the trustee named in such trust papers the amount of securities provided for such trust, and the balance of the securities you will deliver to me personally.

As inducement to said loan \$37,000 I further covenant and agree that the said securities shall remain as they now are in the custody of the said Ira Reynolds, and shall not be disturbed until April 12, 1904, unless sooner turned over to J. W. Friend, and said securities are in Cleveland in the active possession of said Reynolds, and are of a par value of \$5,000,000.

This paper shall be considered the execution of a power coupled with an interest and irrevocable.

Witness my hand and seal, March 29, 1904.

CASSIE CHADWICK.

Memo. From Victim.

Another paper was produced and marked exhibit B. It was as follows:

Pittsburg, June 4, 1904. Mrs. Chadwick: Herewith memo. of your entire indebtedness to me, being promissory notes, payable on demand with interest from the date of paper:

- April 10, 1903, \$358,000. February 20, 1904, \$300,000. March 18, 1904, \$10,000. March 18, 1904, \$23,000. March 25, 1904, \$73,200. March 29, 1904, \$37,000. Total, \$798,200.

Very truly yours, J. W. FRIEND.

Mrs. Chadwick said she had been asked several times to take the Jutte bonds and dispose of them, Friend telling her "the poor old man (Jutte) was crazy and not able to take care of his affairs."

The remainder of Mrs. Chadwick's affidavit refers to alleged efforts on the part of Friend and Hoffstadt to representatives to induce her while in the Ohio penitentiary to refuse to give testimony in the Jutte case.

Henry Rousseau Meets With a Terrible Death in Montreal.

Montreal, Nov. 5.—Henry Rousseau, St. Margaret street, this city, was instantly killed to-day at the works of the Thomson Davidson Manufacturing Company, where he was employed. In some unaccountable way he got caught in the engine flywheel, and was whirled around and every bone in his body broken. He leaves a wife and three children.

SLEPT ON THE TRACK.

J. G. Copping Received Fatal Injuries in Plugging a Train.

Kenosha, Nov. 5.—J. G. Copping, who was hit by a locomotive on the C. P. R. last Friday, died to-day. Copping had gone to flag No. 1 to protect the rear end of his train, and presumably fell asleep after placing torpedoes on the rails, which No. 1's engineer saw woke him up, but he did not have time to avoid the blow.

FRIENDS OF DETECTIVE.

Grand Jury Winnipeg Wanted to Change Indictment.

Winnipeg, Nov. 5.—The grand jury at the Assizes to-day asked permission of the court to change the indictment against Detective Smith, charged with manslaughter for shooting Oscar Gans. They inserted a clause pleading justification. Judge Perdue remarked sternly that it was not their duty to change an indictment; it was to bring in a true bill. Up to a late hour they have not done so.

BRING THEIR SAVINGS OVER TO WINDSOR BANKS.

Small Army of Depositors From Across Line Place Savings in Windsor Branches—Impressed With Stability of Canadian Institutions.

Windsor, Nov. 5.—A curious result of the panicky conditions on the financial markets of the United States is seen here. During the past week a small army of depositors from Detroit have brought their money over and placed it in the Canadian banks. Many of them are Canadians, who have full knowledge of the stability of Canadian monetary institutions, but many, too, are Americans, born and bred, who have a faith that things "across the line" are not to be reckoned and tossed about by the machinations of trusts and unscrupulous financiers.

Most of the depositors are working people, who bring in their hard-earned savings that mean the accumulation of months and years.

"I lost all my savings in a bank failure five years ago," said one horny-fisted workman in one of the Windsor banks to-day, "and since then I have kept my savings over here. And many of my friends do the same."

The managers of the various banks state that they have never seen such a rush of American depositors as during the last two weeks. They say that they have almost as many Detroit depositors as Windsor people on their savings lists, and that the list is increasing largely.

John D. Roddick, Lyndhurst, Tells His Experience.

After Two Years' Suffering With Lame Back and Weak Kidneys, Was Cured by Dr. Hamilton.

Lyndhurst, Ont., Sept. 21.—The following statement made by Mr. Roddick, lumber merchant, tells of the remarkable knowledge possessed by Dr. Hamilton:

"Two years ago I had grippe which settled in my back and kidneys. I was sickly and very miserable, suffered great pain and inconvenience. Different remedies were tried without benefit and then I decided to try Dr. Hamilton's Mandrake and Butterbur Pills. I derived immense good from their use in short time. When two boxes were used I was immeasurably better. To-day I am well. Neighbors suffering from kidney and back trouble have also been cured by Dr. Hamilton's Pills, which I am convinced is the best medicine for regulating and cleansing the system. They are very mild, but do the work just the same."

SEIZED COWS FROM BAILIFF.

Gananoque Drover Allowed to Go After an Apology.

Brookville, Ont., Nov. 5.—Thomas Dempster, a wealthy Gananoque drover, who forcibly took possession of two cows in a herd which Deputy Sheriff Trail was seizing under a writ of execution in the Township of Lansdowne, appeared to-day before P. M. Deacon, pleaded guilty and apologized for his act. He was let go on suspended sentences after paying the costs incurred. Dempster claimed that he owned the cattle, having previously purchased them from the man whose goods and chattels were under seizure.

FOUR YOUNG MEN DROWNED.

Boat Found on Shore, With Body of One of the Victims.

Dalhousie, N. B., Nov. 5.—A gloom was cast over the town this morning by the news of a terrible drowning accident last night, four young men losing their lives. Andrew Carr and Jack Neilson, of Dalhousie, and Willie Wafer and James Dickie, of Florence Point, Que., started for Florence Point last night in an eight-foot boat. The wind was blowing a gale from the northwest, causing a heavy sea. The boat was found on the shore, with Neilson's lifeless body in it, this morning, being the first intelligence of the tragedy. Neilson was to have left for the West to-morrow.

UNHAPPY WIVES.

Three More Canadian Marriages Annulled in Detroit.

Detroit, Nov. 5.—Three more Canadian wives told their troubles in the divorce court to-day and all three were returned by Judge Mandell to the stage of single blessedness.

One day in December, 1904, George C. Dew returned to his home in Forest, Canada, and found that his wife Minnie had decamped, taking with her everything but the household furniture. George came to Detroit, and, as Minnie evinced no desire to return to him, started divorce proceedings. He told his story to Judge Mandell and will get a decree in 30 days.

Pauline Wirth told Judge Brooke that on March 21, 1907, when she was at 17 years of age, Wirth Reiger persuaded her to go to Windsor with him and be married. She insists that she didn't know what it was all about until it was all over.

The judge will annul the marriage, as the girl's testimony was corroborated. Non-support was charged by Estlin Milnes, who said that John Milnes left her four years ago and has contributed nothing to her support since that time. They were married in Leamington, Ont., in March, 1904.

TWO INJURED IN RUNAWAY.

Complications Follow Blowing of Whistle at Stratford Shop.

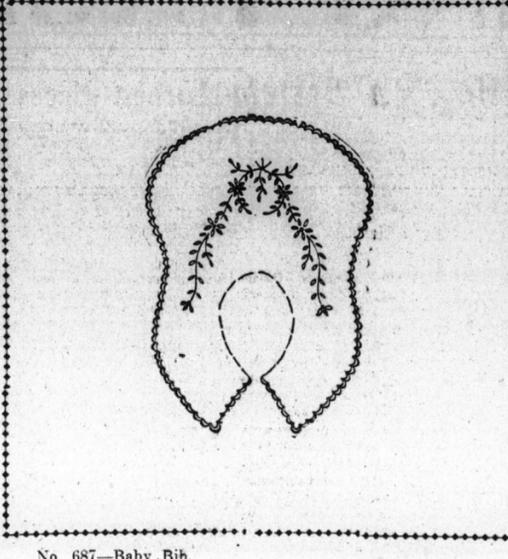

Stratford, Nov. 5.—Alexander Horne, a farmer living a few miles from the city, was badly injured in a runaway accident. His horse was standing near the G. T. R. shops when the whistle started its off. Horne was thrown on the road and severely cut about the face and head. The runaway horse collided with another one being driven by Mrs. Thos. Cardlege, who was also pitched from her buggy and rendered insensible. Both rigs were smashed.

HAD SUFFERED UNTOLD AGONY.

DURING THE SINGING OF AN OFFERTORY SOLO.

Bishop DuMoulin on Abuses in Church Choir Music at Choral Service in Toronto Last Night.

In St. James' Cathedral, last evening, between 700 and 800 choristers from 24 of the Anglican churches of Toronto joined in a choral service. Bishop DuMoulin, of this city, was the preacher, and his subject was "Church Music."

Lacking his text from I. Corinthians, xiv. 26: "Let all things be done unto edifying," the bishop in the course of his sermon said it was useless to expect the rendition of the choral service in the ordinary parish and mission churches that they had in their cathedrals. He had endured with the greatest pain anthems in country parish churches, and had had to suffer the intrusion which service of the plains in the course of chants, in which the whole congregation with united voices might join, and having made that request he had been relieved of many pains and sorrows.

The offertory portion had degenerated until members of the congregation looked upon it as a kind of intrusion which enabled them to relax their devotion and to whisper to one another, and relieved them of their solemnity for a few moments. The choir would rise, and some man or woman, turning to in a theatrical attitude, would sing a wondrous and interminable solo, during which he had suffered untold agony, while the congregation sat in a drowsy, listless way, with the sidesmen and wardens waiting patiently at the door and the clergyman at the altar until it should please the individual to bring his solo to an end. That was a great and wide abuse of the church's design. What they wanted throughout the length and breadth of the Dominion was the great voice of the congregation in union singing the grand old hymns and simple chants of the church as they had joined in singing them that night.

DITCHES TRAIN.

Lackawanna Passenger Train Saved as Erie Coal Cars Pile Up.

Paterson, Nov. 6.—The presence of mind of a trainman at the intersection of the Lackawanna Railroad tracks with those of the Greenwood Lake division of the Erie at Mountain View yesterday averted the wreck of a passenger train. To avoid such a disaster the towerman was compelled to ditch a coal train.

They found the young man lying on his back with the revolver still gripped in his hand. When the ambulance of the Long Island College Hospital arrived, Dr. Brennan found the bullet had glanced off Gaudette's skull and that the wound was slight.

When the ambulance surgeon was examining the wound Gaudette regained his senses and started to tear up two letters which he pulled from a pocket. Before Policeman Elwood, of the Adams street station, could stop him, the young man had torn the letters into many pieces.

Later the police patched the pieces of the letters together and were able to read them. One, addressed "To Margaret," informed the woman to whom it was addressed that the writer did not dare to face her again. He said he still loved her and asked her to forgive him.

In the other letter, which was addressed "To Dan," the author again spoke of his love for Margaret. He asked Dan to notify Andrew Bruce, of West Street, Middletown, N. Y., of what had happened.

Dr. Brennan decided that the bullet wound was not serious enough to warrant him in taking Gaudette to the hospital, so the young man was taken to the Adams street station, where he was locked up on a charge of attempting suicide. Beyond saying he had been in Brooklyn only a few weeks, he refused to make any statement.

Religious Census of Stratford.

Stratford, Nov. 5.—A religious census of the entire city of Stratford was taken to-day by volunteer bands of workers. Every house in the city was visited during the afternoon and particulars gained. The figures are not yet available.

Following the issue of a circular by the Grand Trunk management, refusing to haul cats containing stored acetylene gas, it is officially reported that the C. P. R. will discontinue the use of acetylene for lighting purposes.

causing damage estimated at \$15,000. The Greenwood Lake train was behind schedule. As the coal train of ten cars approached the crossing on the Lackawanna tracks the passenger train on the Greenwood Lake road came in sight. The towerman saw that a collision was inevitable, but he made up his mind quickly. He closed the block signal against the coal train, which was a first one. The locomotive driver, realizing that something was wrong, applied the emergency brakes with such force that his train of coal cars buckled and toppled from the tracks, while the engine held the rails until it reached the derailing switch. The engine then tore the ties toward the crossing.

The passenger train swept past in the nick of time, as the locomotive on the coal train did not stop until the co-catcher extended a few feet over the Greenwood Lake tracks. The Lackawanna road was badly torn up and traffic on both roads was delayed for several hours.

CROWD SAW HIM.

FIRE A SHOT FROM WINDOW TO ATTRACT CROWD.

Then He Shoots Himself—Men and Women Panic-Stricken at the Spectacle, But Bullet Falls, and Man is a Prisoner.

New York, Nov. 6.—Before attempting to end his life by shooting, Joseph Gaudette, 22 years old, a mechanic, threw up the shade of a window in his room in a boarding house, at No. 131 Court street, Brooklyn, last night, and drew the attention of hundreds of persons in the street by firing a shot.

CUSTOMS MAN'S FIND.

New Yorker Discovered Trunk Full of Stage Jewels on Pier.

New York, Nov. 5.—When the customs officer discovered an odd-looking trunk on the French line pier yesterday, just after the arrival of the steamer, he thought to turn up the contents he thought for a moment he had stumbled upon a treasure chest. Instead of pearls, diamonds and other valuables he found a trunk full of "stage jewelry."

What was contained in the trunk was a large number of the decorations which some stars had others of Mr. Oscar Hammerstein's company bedeck themselves with in grand opera performances. Miss Gladstone, wife of the operative director of the Manhattan, has been in the custody of the jewels, and somehow they were left behind when she came to America recently.

If real the jewels would have represented several million dollars. As it was the contents of the trunk were valued at \$2,000.

MUNICH HAS A SENSATION.

Brewers Try to Advance the Price of Beer.

London, Nov. 5.—In Munich, the great beer-drinking Bavarian capital, something like a sensation has been caused by the recent announcement that the Brewers' Association had decided to raise the price of their world-famous product by 50 cents per barrel of twenty-two gallons. The population, a largely uneducated, but very energetic, kind of passive resistance, by cutting down their expenditure on beer, boycotting the allied houses and patronizing conspicuously the Hofbrauhaus, the only establishment that had stood aloof from the Brewers' syndicate.

The trade unions of Munich, which comprise a membership of 47,000, have declared open war on the brewers by blocking themselves to tough no beer for a week at least. This will make a difference for that period of less than a million marks. The general opinion is that the brewers will be unable to enforce the higher price in the face of this determined attitude of the beer drinking community.

DANGEROUS MAN AT LARGE.

He Tried to Wreck a Windsor Electric Car.

Windsor, Ont., Nov. 5.—One of the big electric cars on the Windsor, Essex & Lake Shore Railway, well filled with passengers, was approaching the cemetery switch on the Grave Road last night at a high rate of speed, and when but a short distance from the crossing the motorman discovered the switch had been thrown against him. The car was stopped quickly and an investigation made, which disclosed the fact that the big brass iron switch stand had been smashed with a stone or hammer.

The locality is a lonely one, and there are but few houses. The police, however, were working on a clue, and expect to make an arrest within a few hours. Had the car been thrown from the rails, the loss of life would have been almost inevitable.

HEBREW CANNOT VOTE.

Montreal Civic Elections Occur on Their Sabbath This Year.

Montreal, Nov. 5.—Montreal's civic elections take place on Saturday, February 1. As this is the Jewish Sabbath it will prevent Hebrews from voting or taking part in the election. The Hebrew vote is a very heavy one in this city, and in St. Lawrence and St. Louis wards there are enough Jewish voters to elect a candidate. The Jews are talking of petitioning the City Council to change the date, but it is not believed that the Council will do this. If a change were made it would have to be made it would have to be made by the Legislature, which is not likely to alter the city's charter.

TOO LATE WITH HANDCAR.

Section Foreman at Arnprior Struck While Clearing Track.

Arnprior, Nov. 5.—John Wilson, G. T. R. section foreman at Arnprior, met with a serious accident while clearing the track yesterday. He was in the act of assisting to lift a handcar from the track out of the way of an approaching passenger train. He was struck by the engine and thrown some distance. His body was badly crushed, and his arms and several ribs were broken.

TUG BOAT BURNED.

Two Brothers Asleep on the Vessel Burned to Death.

Quebec, Nov. 5.—A tugboat at Murray Bay was completely destroyed by fire Saturday night, and two brothers, named Berwick, who were asleep on board, were burned to death. The boys were twelve and fifteen years of age. When the fire was discovered it was too late to rescue the boys from the burning boat, and they perished in the flames.

TOO FREE WITH GUN.

Ephraim Cooper Sentenced to One Year in Central.

Belleville, Nov. 5.—Ephraim Cooper, of Belleville, was charged before Judge Deroche to-day with attempting to shoot his brother-in-law. There was bad blood between the parties, and Cooper, in the course of a quarrel, drew a loaded revolver and snatched at Walker. The weapon did not go off and was taken from Cooper. Judge Deroche sent the prisoner to the Central Prison for a year.

Hon. Mr. Blake Recuperating.

Toronto, Nov. 6.—The condition of Hon. Edward Blake has considerably improved of late, and he is expected to be able to go out for a drive. His many friends hope that before long he will have completely recovered from his recent illness.

Laying Off Shop Employees.

Stratford, Nov. 5.—A large number of Grand Trunk employees have been laid off at the local shops. It is not likely that there will be any cut in the hours. The correct number of men laid off could not be learned, but it is said to be between one and two hundred.

The C. P. R. are commencing to economize. A circular has been issued to all heads of departments to the effect that during the coming year expenses must be cut down.

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba or the North-West Provinces, numbered 8 and 26, not reserved, may be homesteaded by any person the sole head of the family or male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Application for homestead entry must be made in person by the applicant at the office of the local Agent or Sub-Agent. Entry by proxy, however, is permitted on special conditions by the father, mother, son, daughter, brother, or sister of an intending homesteader.

An application for entry or inspection made personally at any Sub-Agent's office may be wired to the local Agent or Sub-Agent, at the expense of the applicant, and if the land applied for is vacant, on receipt of a telegram such application is to have priority and the land will be held until the necessary papers to complete the transaction are received by mail.

In case of "personation" the entry will be summarily cancelled, and the applicant will forfeit all priority of claim.

An application for inspection must be made in person. The applicant must be eligible for homestead entry, and only one application for inspection will be received from an individual until such application has been disposed of.

A homesteader whose entry is in good standing and not liable to cancellation, is subject to approval of Department, relinquish it in favor of father, mother, son, daughter, brother or sister, or eligible to no one else on filing declaration of abandonment.

Where an entry is summarily cancelled, or voluntarily abandoned, subsequent to inspection, the homesteader is entitled to prior right of entry.

CUBS TO MEET COLLEGE TEAM.

Prospects Are For a Good Match Here on Saturday.

Canadian Contingent Made a Small Killing at New York Track Yesterday—Ballot Won Handicap on Election Day—Big Purse Offered for Burns and Johnston.

Reports from Berlin say there is great interest being taken in that sporty town in the football game to be played here next Saturday between the Jerome College team and the Tigers III, and that a big crowd will accompany the college team to this city. The Berlin team, like the Cubs, have yet to be scored against this year, while they have left no doubt of their ability to play football by the tremendous scores they have made against their opponents. The same thing can be said of the Cubs, and when these two teams meet on Saturday there will be something doing, sure. The Cubs are practising faithfully, and as it is a semi-final game they will take no chances. They will have a practice to-night and will be assisted by some of the seniors. That these two teams are the best in the series is generally accepted, and the winner of the championship will be picked from Saturday's game. It will be the last chance of seeing the Cubs in action this season, and as there will be only one more game on the home grounds there will likely be an immense crowd of football lovers present.

trumpet sounded telling Seaton how to win that five furlong sprint. Seaton listened patiently and when the horseman finished he scratched his head and said: "Boss, if Ah rode out all dem ohdahs Ah'd have to take dis coil two miles." So he straightaway forgot them all, and, breaking in front, won all the way.

A BIG PURSE.

Tommy Burns and Johnson Offered \$25,000 for a Battle.

San Francisco, Cal., Nov. 6.—A purse of \$25,000 has been offered by Jim Coffroth, the well-known fight promoter, for a thirty-five round battle between Tommy Burns and Johnson, to be decided in the arena of the Colma Athletic Club on New Year's afternoon, for the heavyweight championship of the world.

Coffroth made an offer to Johnson immediately after he had knocked out Jim Flynn last Saturday afternoon. Johnson accepted the offer in a hurry—more than one-third were sulphur bottoms in England, notifying him of the offer.

Johnson and Burns fight they ought to attract one of the biggest crowds that has ever witnessed a fistie battle in California.

GIVING NOTICE.

New Interprovincial Footballers Are Under the Ban.

Toronto, Nov. 6.—Secretary N. H. Crow, of the C. A. A. U., yesterday sent out a letter to all clubs in affiliation with the governing union. The closing paragraph of the letter points out that no entry from a club having in its membership disqualified members can compete in any sports or meets held under the union's sanction.

"Dear Sir,—I enclose herewith a list of men who have disqualified themselves from further competition in amateur sport by competing in the Inter-provincial Rugby Union. Kindly note that these men are ineligible for any amateur competition or for membership in any amateur club.

"Furthermore, entries for sports under C. A. A. U. jurisdiction cannot be accepted from clubs or associations retaining in their membership any of these disqualified men.

The list of names referred to in the letter includes every player who has competed in a senior Inter-provincial match this year.

ROLLER SKATING RACE.

Hawkes and Rigg, the contestants in to-morrow night's race at the Alexandra, are both in the best of condition, having practiced every day since making the match, doing some remarkably fast time in their trials, so that a good contest is assured for the many who will attend the rink to-morrow evening.

SALLY PRESTON WON.

Canadian Contingent Made Small Killing at N. Y.

Aqueduct, N. Y., Nov. 6.—Amid the rousing cheers of 15,000 people, Ballot, the 5 to 2 favorite, won the Election Day Handicap, one mile and a furlong, at Aqueduct yesterday, and equaled the track record of 1:52 for the distance. A high-class field went to the post with Ballot, an added starter, always the favorite. McCarter set a terrific pace with Ballot in third place. In the stretch Ballot moved out and won in a drive by half a length.

Live Wire won the Babylon Handicap, while Thistlelode scored an easy victory in the Bushwick Steeplechase. Sally Preston, from the Canadian circuit, galloped away with the fifth race. Her price was 3 and 4 to 1. A number of Canucks were here for the race and a small-sized killing was made, as Sally was played in the pool rooms throughout the country.

THE ARROWED FOR THE COAST. Lexington, Nov. 6.—The Arrowed, the English horse owned by Dr. McCracken, of Manitoba, was turned over to J. E. Cushing yesterday, and will be taken to Los Angeles. Joe Harris took The Arrowed when he came out of the stud at Sunny Slope Farm this fall, and it was his intention to race him at Oakland but when he got to Latonia The Arrowed savaged a buggy horse and Hawkins was afraid to make the journey across the country with him. The Arrowed was sent back here from Latonia about a week ago. He has been entered in all of the long distance stakes for both meetings in California.

Kin, Patterson has arrived here from New York with six yearlings belonging to Roddy Marshall, the Pittsburgh lawyer. He will go to Los Angeles about Nov. 20th.

A BLACK BOY AND "PA" BRADLEY.

Of Hezekiah Seaton, the black boy who rode for the late "Virginia" Bradley, the story is told that he was engaged to ride in a five furlong race at Fort Erie one day for an owner who was a loquacious instructor. The owner spent five minutes just before the post

Mr. and Mrs. Meyer spent Thanksgiving day with their daughter, Mrs. Springer, at the parsonage.

Some of our boys made a lot of extra work for a few of the village people by hiding gates and other articles on Halloween.

Here's a System For You For Next Season.

The Success of Handicapping According to Cincinnati Player.

Cincinnati, Nov. 6.—Around Cincinnati one can find more handicappers, and good ones, it may be said, than in any other racing centre in the country. The writer met one of these "dope-smiths" recently, a business man, and a man who has played the races for the last two or three years, and gleaned some interesting ideas from him.

"I went into the racing game as a diversion," said he, "and I carried it into theories that had benefited me in business enterprises. After considerable study I came to the conclusion that the only way to beat racing was to beat the percentage, to beat the odds. That is what the bookmaker does. So I decided to devise a system whereby I could play the bookmaker against his own game. After considerable study I came to this conclusion—that in a fifteen-horse race, which is about the largest field that ever goes to the post on western tracks, not more than five can be figured as contenders. Therefore, it appeared to me plain to me that I would have to play odds at less than 5 to 1 in order to break even. I have followed that plan religiously. That is to say, I play no odds but 5 to 1 or up, and when my figures point to a winner, the bigger the odds the better I like. I believe that I can take a bank roll of \$500 or \$1,000 and follow this system of playing the odds against the ring, use any good newspaper or other handicap, and beat the races, and the proof of the pudding is that I have been beating them for the past two years.

"I use my own handicap because I believe it to be better than the average, although it is formed on lines largely that I figured out for myself. In studying the records I made up my mind that, in a general way, the best handicapper in handicapping, for the reason that the time made on no two tracks is alike. A horse, say, that can run a mile in 1:40 at Latonia might not be able to perform in better than 1:41 on some other track. Therefore I decided to throw out of consideration. From the records I also got the notion that the condition of the track cuts little or no figure, for the reason that, as a rule, you will find that a horse that can run well on a heavy track can also run on a fast track. The elimination of these two factors led me to the conclusion that the winning percentage is the sum and substance of the whole matter of handicapping. Therefore I evolved a system of handicapping the horses on winning averages over a number of previous races. I also handicapped the jockeys in similar manner.

THE SYSTEM.

"Applying the system to any particular race, the percentage of winners gave

me the best three horses in their class. On the best horse I placed the best jockey on winning mounts, on the second horse the second best jockey, and on the third horse the third best jockey. At the track, if I found that the best jockey was on the second best horse, and the first and second horses figured closely together, this would compel me to play the second horse if the price happened to be 5 to 1 or better. I began operating on a \$500 bank roll, and my system has always been to bet on each horse that I play 5 per cent. of the bank roll, whatever it may be. By computation I found that on this system I would need to lose seventy consecutive bets to deplete the bank roll. I also found in practice, naturally that the oftener you lose the less you lose, while the oftener you win the more you win, and if you happen to get two or three long shots close together your bank roll goes soaring upward like a rocket. I made \$12,000 playing the system last season, and to date results have been satisfactory so far this year.

"The key-note of the system is, of course, playing the odds with a sufficient bank roll behind you. In a way I have been a follower of the races for the last twenty-five years, and this idea came to me through observation of the operations of the few big successful plungers. I think 'Pittsburg Phil' and David Gideon will figure in his opinion as the most successful plungers of the American turf, inasmuch as for long periods of years they both won right along consistently, and both were smart enough to keep right along fighting the ring and augmenting instead of lessening their winnings.

PHIL AND GIDEON.

"The secret of the success of these two men was simply the matter of the price. If either Gideon or Phil liked a horse, which they thought ought to be 4 or 5 to 1, they would not take 8 to 5 against him. They went back at the bookmakers at their own game and they beat them, and that in my opinion is all there is to racetrack or any other kind of speculation. If you can beat the odds you can beat the man behind the gun, and if you don't you can't. You certainly cannot beat the bookmakers unless you have unlimited capital and phenomenal luck by playing odds-on favorites only.

"I don't mean by this that the favorites are pulled. The bookmakers aim to open what they consider the best horse in the race as favorite, but accidents of ten defeat the favorites, and besides that, the bookmakers often make mistakes just as other people do. Oftentimes they make a horse favorite that ought to be 10 to 1, and frequently they open a horse at 10 to 1 that should be an even-money shot. I merely play the luck of the game and the odds, and I have found the scheme to be a satisfactory one.

"The gentleman's theories, as exemplified in practice, may interest handicappers, but after all is said and done the element of luck enters largely into racing, and that is what gives to the sport the increasing zest and interest that it has to-day.

TWEESIDE.

The quarterly meeting was largely attended on Sunday morning in spite of the unfavorable roads.

Mrs. Charles Gibbs and daughter, Nina, of Hamilton, spent a short time with relatives here recently.

Mr. and Mrs. Harry Dewey and daughter, Julia, spent Saturday evening with Mr. and Mrs. Elmer Hildreth.

Mr. and Mrs. William Webber and daughter Gladys, of Main street west, Hamilton, spent Thanksgiving with her parents, Mr. and Mrs. David Fleming.

Miss Allis Switzer, of Lisgar, visited her sister, Mrs. W. J. Patterson, for a short time recently.

Mr. Joseph Bradt has rented the farm owned by Mrs. W. J. Patterson, and intends moving upon it in the spring. Mrs. Patterson and son Victor will move to the city soon.

Mr. and Mrs. Edward Bradt spent Thanksgiving with Mr. and Mrs. Maitland Martin, in Brantford.

Hallowell passed off very quietly in this neighborhood.

Mr. and Mrs. William Dewey, of Hamilton, visited at Mr. Harry Dewey's on Thanksgiving Day.

VINELAND.

Miss Elsie Crossman, of this place, is confined to bed with typhoid fever. Miss McKenzie is in attendance.

Miss Lodema High, of Toronto, is spending a few days with her parents, Mr. and Mrs. Jacob High, of this place.

Mr. Samuel Fitch is suffering from the effects of a paralytic stroke.

Quite a number from here attended the funeral of the late Mrs. Price, of Jordan Station, on Monday afternoon last. She lived to see her 94th year.

The Lake Shore Literary Society is having a meeting on Wednesday evening of this week to organize for a Literary Society.

Some Snap Shots at Sport and Sportsmen

The victory of Sally Preston at Aqueduct track yesterday meant a lot to a large number of Hamilton sports, who sent bundles of the long green to the track and to the Buffalo pool rooms to back the mare. One hotel man went to New York on Monday night with a roll of \$2,000 and another went across the line yesterday morning with \$1,000 more. Miss Sally closed at 3 to 1, although she was quoted as high as 5.

Ever since the fall race meeting in Toronto there has been a walking craze in that city, and the peds use the car tracks—largely the belt line.

A New York man, in town on a visit, and a close friend of Frank Farrell, says that there is no chance of the Montreal Eastern League franchise going to Hamilton. If the franchise is transferred Farrell is determined that it will go to some American city.—Toronto News.

Few will doubt that the clubs in the Inter-Provincial League are sincere in their desire to play amateur Rugby, and there seems no reason why clean Rugby should not prevail among the Big Four as in any other organization. The worst that can be said is that the players are completely isolated and will likely stay under the ban at the pleasure of the C. A. A. U. The Argonauts find difficulty in securing senior recruits, and some of the players who sinned at the outset are indulging in athletic idleness, Micawber-like, waiting for something suitable to turn up.—Toronto Exchange.

The motor car will be a water-wagon, so far as the motorman is concerned, if State Senator Carl S. Burr, of New York, has his way. The Senator, whose name recalls the trotters of a generation ago, when Carl S. Burr was a famous driver, proposes to prohibit auto drivers from drinking intoxicating liquors when on duty, as is now done with trainmen.

Disappointed exhibitors at the Pittsburg Horse Show last week stormed at the officials afterwards, and declared that they would never exhibit there again. There would not be so much of this in the horse show business if the future entries of such were refused. They always come back, and seem to be welcomed.

Jubilee, the winner of the Walden Stakes at Baltimore yesterday, is a half-brother of Mr. Seagram's Ypsilanti, and was so named on account of the latter twice winning the great Jubilee stakes at Kempton Park.

Mr. and Mrs. Fox, of Michigan, are spending a few weeks with their daughter, Mrs. Wm. Fess, of this village.

COMING TO TOWN

Established 1806. Over 30 Years of Success in Toronto, Ont. 192 West King St. J. Y. EGAN, Specialist, P.O. 539, Toronto.

THE MOST RELIABLE and Successful Authority—Greatest success in the treatment of Hemorrhoids (Piles) Varicocele (Painful Knots) and all other ailments of the rectum and anus. A specialty of one department must certainly be more experienced and capable than those having many tracts in the field. Don't push your case, believing it to be simple—Remember neglect often proves fatal. Have your case attended to now, and thus avoid danger. Stop wasting time and money elsewhere but come to one whose life-long study has taught him what to do. Do not depend on the doctor from seeking further advice, or become of repeated failures causing your case incurable. Because others failed in your case you have become discouraged. This is the very time you should consult me as my reputation has been made in curing hopeless (so-called) cases. LADIES suffering from Sore or any form of Rupture should not hesitate in having their case attended to at once. Everything strictly private and professional. MOTHERS—Look to your children—Now is the time to have them cured, while young. Don't allow them to grow up handicapped in the use of life with rupture. MY CHARGES are within reach of all, the poor man as well as the rich. Terms can be satisfactorily arranged, so reason why you should not see any other specialist.

VARICOCELE, FALSE RUPTURE

THE UNIVERSAL tendency of these conditions is to grow worse and more complicated, leading to impotence, nervous debility, wasting, stricture, lumbago, sexual exhaustion, etc. Do you intend to allow this insidious affliction to sap away your vitality? It is doing so now and if not checked will result in the above conditions. No matter how serious your case may be, time, skillful, or the use of you may have experienced in trying to be cured by medicine—free trials, or Electric Bites—my Bionics system will cure you; the worry, vetus return to their normal condition and hence the sexual organ receive proper nourishment, the parts become vitalized and manly powers return. No temporary benefit, but a PERMANENT one. NO OPERATION necessary. No detention from work. If you have had the usual expensive operations have no doubt spent large sums of money and still larger quantities of time searching for the remedy.

SPECIALIST WILL VISIT:

HAMILTON—Waldorf Hotel, Saturday, NOVEMBER 9, (All day and evening, one day only). Ask at hotel office for number of Specialist's consulting room. Reliability my guarantee.

Our Exchanges

(Ben. a Winner.)
(St. Thomas Journal.)
Hamilton is still talking about its Thanksgiving sham fight. What would it be had it been a real fight!

London for the Americans.
(From Truth.)
The new London is a London of Americans: the British cannot afford to enjoy its expensive attractions.

Spare the Timber.
(Ottawa Journal.)
The United States lumberman first entrenched himself behind a tariff designed to keep foreign lumber out. So far as it succeeded in keeping foreign lumber out, the United States tariff was a boon to Canada. It delivered the Canadian lumberman from temptation to cut timber for the American market, and to that extent protected the Canadian forests. Meantime the United States lumberman, secure from competition, had no other interest than to cut his timber down, and has been cutting it down.

Our Banking System.
(Canadian Courier.)
The Canadian banking system, if more a monopoly than any other, is a system that gives greatest solidarity and solidity. It stands so firm in public opinion that there was not the slightest suggestion of a Canadian bank would follow the lead of the New York institutions and close its doors even temporarily.

MacKay is Well Advised.
(Toronto News.)
Mr. MacKay will occupy strong ground if he leads a direct attack upon the whole of the civil service reform one of the chief planks of his platform. So in law reform and in the excessive number of officials which are quartered upon every county there is good opportunity for remedial legislation.

And Don't Forget It.
(Montreal Witness.)
The United States owes her immense wealth to the fact that she enjoys the fruits of half a continent, the most productive contiguous area to be found anywhere, and absolute free trade between some ninety millions of the most thriving people on earth, securing her products a market that is enjoyed by and obtainable by no other people under the sun.

Fowler's Vile Course.
(Montreal Star, Tor.)
Our readers will remember that we have condemned it roundly from the first. His course was found a method and corrupt in inference. He threw out a general aspersion of a serious character; but he did not venture to give names or particulars. He threw out this aspersion, not apparently in the public interest nor from a sense of duty, but in a moment of exasperation because he had been criticised and because he did not cease he would retaliate upon the private characters of the critics and their leaders. The inference was that if the Liberals left him alone, he would conceal the damning "data" he had collected against their private morals. If this was not a corrupt proposition, made with callous publicity across the floor of Parliament, then it would be hard to define the meaning of corruption.

Biscuit manufacturers in Toronto have increased prices.

Witty Lord Longford.
One of the wittiest of our peers is Lord Longford, and he has also earned the reputation of being one of the worst dressed, in spite of the fact that for twenty years he has been in the Second Life Guards.

The story goes that a friend once met him in Ireland garbed in a pair of continuations which were not on speaking terms with his boots, and chaffed him mercilessly about the "lucid interval" that occurred between them. But "Tommy," as Lord Longford is known to his intimates, in no wise disconnected, blandly explained that it was really a matter of high politics.

"You see, my dear fellow, the breeches were made by a tailor who is a rampant Orangeman, while the boots are the achievement of a Fenian cobler, so how can you expect 'em to meet?"—London Tit-Bits.
