## MRS. A. GALLOP ARRESTED ON A MURDER CHARGE

Moncton, N. B., Oct. 9.—Charged with the murder of her husband at Alymerville, Que., in August last Mrs. Abraham Gallop, about 40 years of age, was arrested here this afternoon by Sergeant Harris of the local police force at the instance of Provincial Detectives Alfred Poussin and C. H. Michaud of Quebec, the warrant being issued by the Attorney-General's Department of Quebec.

The Quebec officers left with their prisoner on the Maritime Express tonight for Robertville, Que., where the trial will take place.

### DIED LAST AUGUST

Abraham Gallop died at Alymerville, Que., on Aug. 6 last and the remains, accompanied by the widow were taken to Springhill, York Co., N. B. for burial.

Later at the instance of the Attorney-General of Quebec the body of Gallop was exhumed and an autopsy it is alleged revealed strychnine in the stomach.

The information against Mrs. Gallop was laid by W. A. Gallop of Dalhousie, N. B., who accompanied detectives to Moncton.

Abraham Gallop, the deceased was formerly foreman of the Canadian National Railway roundhouse at Napadogan and later employed at the Musquash hydro plant. At the time of his death he was in the employ of the Quebec Development Company.

His widow who is to face a charge of murdering her husband by poisoning, before her marriage was Miss Emily Sprague of Charlotte, Me.

## King Of Rum Runners Caught

Thursday night Customs Officer G. P. Stewart, W. P. Dawes, O. B. McQuarrie, E. LeBlanc and Prohibition Inspector J. B. Springer made a surprise raid on premises of James Nowlan at Buctouche, resulting in a seizure of about two thousand dollars worth of alcohol.

The liquor had been ready for shipment by auto. When the officers were searching two American cars drove up but left hurriedly when it appeared that officers were on the premises. A diligent search was made but no further trace of liquor was found on the premises. Nowlan has had the name of being one of the most successful rum runners in this province; his location near the sea shore and the main highway makes his business easy, so all he has to do is land the goods in secret there and the buyers have only to come for it. —World

## STORM CAUSES MUCH DAMAGE

The winter weather which has been sweeping over the western part of Canada and the United States struck the northern part of New Brunswick Saturday night with great violence with the result that all wire service has been seriously interrupted and record snowfalls for the time of year have occurred at various points on the northern part of the C. N. R. Atlantic Region. At Red Pine between Newcastle and Bathurst snow fell to the depth of sixteen inches and the snowfall area extended as far east as Harcourt. At Newcastle 3 inches of snow fell but lighter falls were reported north of Bathurst until the Matapedia Valley was reached. The record fall registered however, according to railway officials is at Padone, near Rimouski, where two and a half feet of snow fell.

The storm played havoc with the telegraph communication between Gloucester Junction and Campbellton, putting all the wires out of commission. At New Mill's thirty telegraph poles were broken down, while twenty more were down further north near Campbellton. The wires were also blown from the poles at various other places in that section. All day Saturday rain fell at Newcastle driven by a heavy gale of wind. Towards evening snow fell and the electric lighting system was so impaired that the town was in darkness for several hours. Along the waterfront much damage was caused to lumber, railway ties etc., while the warehouses of Baird and Peters, T. W. Crocker & Co., Southart Mercantile Co. Ltd. and others suffered severely by having large quantities of flour, salt, cement, sugar lime etc. completely destroyed. The amount of damage done in this vicinity will run into thousands of dollars. The basements of the stores and houses along Castle street were filled with water and many residents lost their winter's supply of potatoes and vegetables which they had already stored. Many of the older residents state that the water was higher on Saturday than on any previous occasion that they can remember, due to the fact, that the wind kept the afternoon tide from receding so that when the next tide came in, the water was forced farther up on the shores of the river.

The train operation on the northern division of the C. N. R. was well maintained considering the havoc caused by the storm. When the wires went out Saturday night the dispatching that is done from Moncton until Sunday afternoon when a temporary dispatching office was established at Newcastle.

## C. E. FISH RECEIVING FINE RECEPTION

Two meetings were held Thursday night in the interests of the Conservative candidate, Chas. E. Fish. These were at Bay du Vin and Little Branch. The speakers were C. P. Hickey, E. W. Watling, John P. Barry and the candidate. The meetings were largely attended and Mr. Fish was given a rousing welcome at each polling division. The tariff, railway and other issues of the campaign were discussed clearly and forcefully by the speakers.

On Wednesday night meetings were held at Bay St. Anne and Hardwick when the speakers were F. T. Lavole, D. S. Creaghan, C. P. Hickey and Mr. Fish.

The outlook for the Conservative candidate is bright in this polling division, notwithstanding the fact that here the King Government made its strongest attempts to bribe the electors by offering them a break water. Mr. Fish continues his campaign and his cause is gathering supporters throughout the county, day by day. Friday evening he spoke at St. Margaret's.

The speaking campaign is now on in full force and each and every night up to the day of election, meetings will be held in the several parishes.

On Saturday evening a bumper Conservative meeting was held at Trout Brook which was addressed by Mr. Fish and several other speakers. Mr. Fish's reception is most enthusiastic throughout the entire county and according to reports, it is conceded that he will lead his Liberal opponent by a large majority.

## TEACHERS' INSTITUTE HELD IN CHATHAM

The Northumberland County Teachers Institute opened in the auditorium of St. Michael's Academy Thursday morning with a record attendance of teachers from all parts of the county. The visiting teachers were welcomed by W. J. Tait, of the Chatham High School Staff and president of the Association.

Addresses were given by Dr. Carter, Superintendent of Education, and Inspector P. G. McFarlane, Miss Victoria Wright, of Chatham, read a paper on the teaching of geography to grades five and six. This concluded the morning session.

The afternoon session was opened with a singing lesson by Rev. Sister Dunn of the Academy staff. Miss Lawson, Junior Red Cross Supervisor, gave a most interesting talk on the work of the Junior Red Cross Society.

Fire prevention and its relation to schools was the subject of an excellent address by J. Grove Smith, Dominion Fire Commissioner.

The evening session was open to the public and it was largely attended. Inspector McFarlane was in the chair.

Major J. K. Loggie delivered an address of welcome and W. F. Cassidy of the Board of School Trustees, also spoke. J. Grove Smith was again heard to much advantage.

The address of Dr. G. J. Trueman, President of Mount Allison University was listened to with keen enjoyment. Dr. Carter and Rev. Fr. Hawkes, rector of St. Thomas College were also included among the speakers. The convention continued Friday morning and afternoon. The visiting teachers were the guests of the St. Michael Alumnae Society at tea Friday afternoon.

## Big Slash in Prices This Week

Don't send your Money out of Town---We have filled Several orders in the past week. You can do better here, thus keeping your money at home. All out of town orders will be given our careful attention.

## Canadian Dollar Still At A Premium

NEW YORK, Oct. 5.—The stock market was unsettled upon the resumption of trading today by reports

that another tightening of money rates would result from the large deficit in reserve shown in last week's clearing house statement. Baldwin, General Motors and General Asphalt yielded slightly on profit taking out several other industrials maintained their recent strength. Ward Baking (B) mounted two points on the announcement that plans had been completed for a \$400,000,000 baking merger and Chrysler rallied 1 1/2 points. Sterling exchange steady; Great Britain, 4.83 11-16; France, 4.63; Italy, 4.02 1/2; Germany, 25.30; Canadian dollar 1-32 of one per cent. premium.

## Town Topics

Vid-bits on the Tip of Everybody's Tongue

Vol. 2 No 41 NEWCASTLE, N. B. OCT. 13 1925 FREE

### Dr. Brady

Says: "If there is any special chemical substance or food which deserves special consideration as a nutritious food, it is candy."

"Good candy is very wholesome, very nourishing, and very digestive."

"Growing children who engage in active play need a larger proportion of sugar in one form or another."

"Sugar or candy con'tains no building material but it furnishes immediately, available energy for hard working muscles including particularly the heart muscles."

### RADIO EXPERIMENT ARRANGED FROM MONCTON STATION

test has been arranged for the night of Thursday, Oct. 15, when CNRA at Moncton, will broadcast a programme at different wave lengths for the purpose of determining which can be received with best effect in England. The broadcast by the Canadian National Railways radio department is being prepared in conjunction with the British Broadcasting Company, the latter to pick up the Canadian programme at one of the stations which have recently been placed in commission for the purpose of receiving broadcasts from abroad and rebroadcasting to receiving sets in the British Isles.

The special programme will begin at CNRA at 7.30 o'clock Atlantic standard time and will continue for an hour, transmission being effected at 291 metres at 8.30 o'clock. A change will be made and for half an hour the vocal and instrumental numbers will be broadcast at 313 metres, the test broadcast terminating at 9 o'clock Atlantic time and equivalent times in Greenwich time will be 11.30 p. m. to 1 a. m. Friday Oct. 16.

Special permission was granted for this experimental test by the Halifax division of the Department of Marine and Fisheries, the radio branch forming a section of that department the special British broadcast from CNRA for which Thursday broadcast will decide the wave length will take place on Friday, Nov. 6, between the hours of 7.30 p. m. to 9.30, Atlantic time, being 11.30 p. m. to 1.30 a. m. Greenwich time. On this occasion W. D. Ross, vice-president of the Canadian National Railways, who has charge of the radio department, will deliver a brief address.

**1/2 lb Package**  
A handy size package for occasions when half a pound is just right.

### FALLIBILITY OF FINGER PRINTS

A bombshell has been thrown into the ranks of criminal investigators by the declaration of John Nicholas Boffel, author of a book on fingerprints, that they are not only fallible but are dangerous to justice as evidence. It is some twenty-three years since Francis Galton, the noted British anthropometrist, came forward with his theory of certain identification of human beings by fingerprints. The system was first adopted in British India in 1897, and in Great Britain as the sole infallible means of identification of criminals in 1900. It has since been adopted in a more or less limited degree by many other nations, in conjunction with the Bertillon system of measurements. The system has never been seriously challenged by any prominent anthropometrist since its first inception until today. But Mr. Boffel's charges are not to be dismissed unceremoniously.

He deliberately asserts that fingerprints can be forged. His collaborator, a Chicago engraver and photographer, has discovered that he can counterfeit such prints perfectly. If one man can do so, others can. Moreover, Mr. Boffel makes the astounding announcement that "a leading fingerprint school advertises a correspondence course for \$70 which will qualify in a few months' spare time, any illiterate, who as an expert, can go into court as a professional witness and swear away human lives." Mr. Boffel further declares there is every reason to believe that a man executed in New Jersey in 1921 for murder, and one of the two men executed in the United States solely upon fingerprint evidence were both guiltless.

The technical proof of his contention is, of course, the most important point about Mr. Boffel's claims. It must be obvious however that it will have to be given the most thorough and painstaking examination by the authorities. Fingerprint evidence is held to be proof in Canada. But if there is any doubt on the point, that doubt must be removed beyond any possibility of challenge before the public will feel comfortable about the acceptance of such evidence in future in any court of law in this land.

### THE HIGH COST OF LIVING

Marjorie Bradford, B. Sc., Social Service Council of Canada.

Although Canadian towns and cities are showing an increasing interest in town planning, activities in this important field are not yet commensurate with the economic and social importance of the subject or the vigorous extension of the movement in other countries. In 1925 the Federal Government established an advisory town planning office under the Commission of Conservation. Owing largely to the educational work carried on by that office, town planning legislation has been passed in seven of the provinces. But the majority of these have not put their acts into operation or appointed a qualified executive, and consequently there are few cities in Canada that have adopted comprehensive plans for the future development of their areas.

Meanwhile much money is being wasted in piecemeal and obsolete development of a temporary character: jumble building, destructive of stability in property values, is going on everywhere; home-makers, especially among low paid wage earners, are refusing to build because there is no security against a constantly changing environment that muddles up home dwellings, commerce and manufacture. With such conditions obtaining the city loses money through a lowering of the assessment value of the property. The home owner faces a serious loss in the decrease of the value of his home and loan companies become more and more hesitating to lend money on real estate because of the general insecurity of property values. Largely on account of such conditions, Montreal can claim only twelve per cent of its citizens as home owners and doubling up of families is the order of the day in that city.

Over nine per cent of Canadian dwellings, that is almost one in every ten, are either of one or two rooms. Most of these cramped dwellings are to be found in the slums of our cities.

The cost of jumble building on the moral side is the destruction of the life and happiness of the people and the creation of social disorder, disease and discontent. When slums are allowed to develop they create the gravest and most expensive problem of the city. In an unzoned city the houses of the well-to-do are usually protected from jumble buildings by private restrictions, but even here these restrictions become less operative and effective with the changes in property ownership. The dwellings of the poor are often robbed of their light and air and pleasant surroundings and degenerate into slums which become the disease spots of the city. Hospitals and prisons have to be built and maintained at the public cost to deal with the ill effects of bad city buildings. Garden cities in Europe have demonstrated that workmen's children who live in houses twelve to the acre instead of in slums with forty houses to the acre actually are two to three inches taller and ten to twelve pounds heavier than their brothers and sisters of the slums.

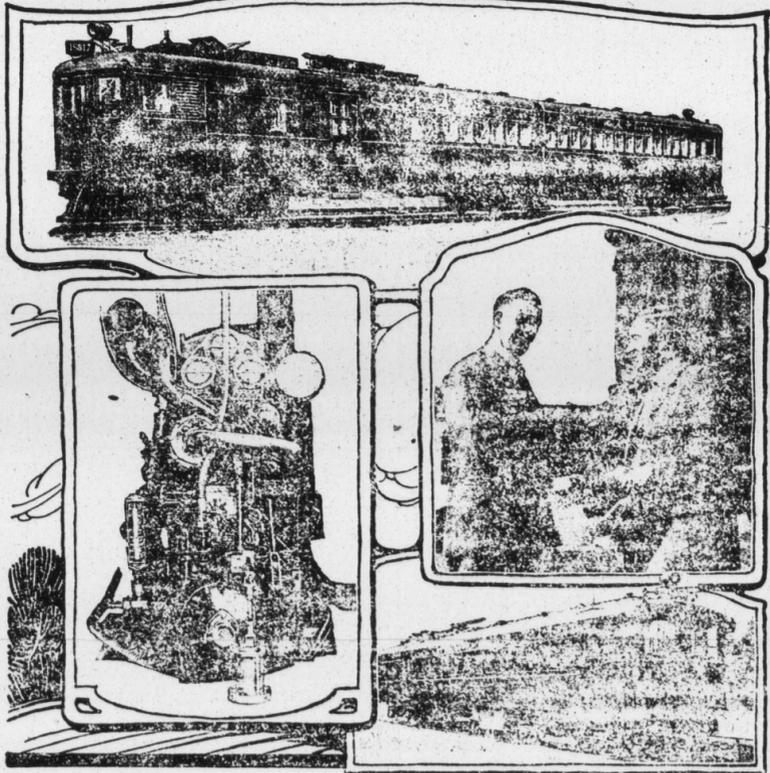

### VOCATIONAL SCHOOLS

Suggesting that W. K. Tibert, Fredericton, may be appointed to succeed Fletcher Peacock as Director of Vocational Education in New Brunswick, the Gleaner says: In official circles there is a growing feeling that considerable doubt surrounds the future of vocational work in New Brunswick, and the present opinion is that there is likely to be a curtailment of operations, although present inquiries may be definitely determining the efficacy of the system and its operations.

**Always have Mustard on the table**  
It's not just custom that makes people take mustard with their meals. Mustard aids digestion and helps to assimilate the meats. It is a good habit to acquire. Mix it freshly for every meal.

**but it must be Colman's**

### Canadian National Oil Electric Cars.

The Canadian National Railways have put into service an entirely new type of motive power which may go far towards solving two of the most serious problems steam roads are facing, namely, high fuel cost and the competition of motor busses and heavy on the public highways. The oil electric car is the name given to this new method of locomotion and its creation is due to the mechanical officers of the National Railways who conceived the idea and carried it through. Relatively speaking, the principle behind the power which drives the car, is simple. In one end of the car is located a light fuel oil engine operating on the Diesel principle and this engine drives an electric generator which provides the energy to move the car. The engine is started by a small electric motor operated from storage batteries and these batteries are, in turn, recharged by the generator when it begins to function, so that the cycle of performance is a close approach to perpetual motion.

Two sizes of cars have been built, the large or articulated type and a small type. The top photograph shows the large type, consisting of two bodies resting on three four-wheel trucks, the ends of the two bodies being attached to the centre truck in such a way, by a safety locking pin, that the rear car is able to swivel sufficiently to take the curves. This car has a total length of 102 feet and can accommodate 126 passengers. In the lower left hand corner is a photograph of one end of the fuel oil engines, used on these cars. On the right Mayor J. H. Balharrie of Ottawa is seen shaking hands with Mr. C. E. Brooks, Chief of Motive Power of the Canadian National Railways, on the completion of the first trial run of the large car from Montreal to Ottawa. Below is a photograph of the small car which has a passenger carrying capacity of 56. Both cars have roomy baggage ends as well.

An idea of the possibilities of these cars is to be had from the performance of the small car during a test trip from Toronto to Montreal. The mileage between those points is 334 miles. The fuel consumption of the small car on the trip cost \$3.50 and lubricating oil 48 cents, or a total fuel cost of \$3.98. To have operated a steam train of similar passenger carrying capacity, even with the most economical type of locomotive, would have entailed a fuel cost of at least \$66.00. The ability of these cars to produce speed when required, was demonstrated during the test run of the large car from Montreal to Ottawa. The trip was made in two hours and fifteen minutes actual running time or at an average rate of 52 miles per hour.

Both cars shown in the photograph are now in service. The large car is in local service on Canadian National lines out of the Tunnel Terminal between Montreal and Ottawa. The small car is in local service between Hamilton and Guelph, Ontario.

**Children Cry for Fletcher's CASTORIA**

**NEW COLLECTOR OF CUSTOMS.**

Allan McInerney of Richibucto has received notice of his appointment as collector of customs at this port. He is the son of Edward McInerney. He was in the Canadian Forces overseas and was badly wounded. Recently he has been on the staff of the Royal Bank of Canada. He succeeds John C. McMin, who has been superannuated.

"Shortys" many Newcastle friends will be pleased to hear of his appointment.

## CONGRATULATION ON RECENT ELEVATION TO HIGH OFFICE

Chief Justice Byrne making his first circuit here as judge of the Supreme Court, was presented an address by members of the Miramichi Bar which was read by A. A. Davidson, K. C. To Hon. James P. Byrne, judge of Supreme Court, may it please Your Honor. On this your Honor's first circuit for the county of Northumberland, the members of the Bar practising in the county beg leave to offer their congratulations on your appointment to the Supreme Court Bench of New Brunswick. May we be permitted to say that the appointment made from our own section of the province has been particularly gratifying to your former brethren of the Bar here and that our knowledge and experience of your Honor in practise and at the Bar gives us full assurance of the eminent fitness which has brought to you this high honor and acknowledgement of merit.

"We know, too, and recognize the high regard for public duty and that assiduous care and inspiring labor which marked your Honor's career as a barrister and particularly the discharge of your duties as Attorney General of New Brunswick. We all

readily know that these qualities as well as your Honor's professional attainments have been brought to the discharge of your judicial duties and we again beg to offer hearty congratulations and best wishes for your Honor's continued career and personal well being.

On behalf of the Miramichi Bar, A. A. Davidson, K. C.

His Honor replied thanking members of the Bar and expressing his appreciation for their good wishes.

The grand jury found true bills in both cases which were on the docket—namely the King vs. William Gros and Joseph McCarthy charged with assaulting Joseph Dickson, a police officer, then and there engaged in doing his duty. They all reside in Chatham.

The King vs. L. J. Jumont, of Rosserville, charged with wounding a cow, the property of David Dolron and George Dolron.

Chief Justice Byrne congratulated the grand jury on their response to the summons, all being present. He said he was glad to note that only two criminal cases were on the docket which spoke well of the law and order in the county.

The grand jury was composed of John A. Morrison, foreman; Neil M. Kinnon, H. Williston, George M. Knicht, Joseph Beazley, John Foley, William Daley, Dal Hovey, John Mathews, Oran D. D. D., William Regan and Wallace Johnson.

## Made Fast Time Over The Alps

Lieut. Rupcic, a Yugoslav army pilot, has cut twenty-six minutes off the airplane record from Paris to Belgrade, going over the distance in eight hours. He flew straight over the Alps, instead of going around. Two hours after leaving Bourget field, near Paris, he sighted the awe-inspiring pile. He was up 13,000 feet and sped over the peaks less than 150 feet below. During half an hour a wonderful vista unfolded; itself—glaciers scintillating in the sun; snow blowing about rock masses. Soon he was over the "top of the world" and, slowing his motor, glided towards the Adriatic—on one side Venice, gloriously picturesque on the other side the crescent shore line of Trieste. It was not long before Zagreb appeared, and then the army flying field at Novi Sad. Rupcic flew on to Belgrade where he circled the king's palace, dropped a bouquet of flowers, returned to Novi Sad and landed.

## Are Searching For The Right Man

The Provincial Government last week gave a hearing to a delegation representing the New Brunswick Temperance Alliance composed of Donald Fraser, Plaster Rock; W. G. Clark, James M. Lemont and Rev. Thomas Marshall, Fredericton, requesting the appointment of a new chief inspector and the improvement of present conditions in regard to enforcement of the Prohibitory Act. Premier Baxter said the Government was in search of a suitable man for chief inspector.

The Government received a delegation representing the Salvation Army's immigration department. Consideration was promised.

The Board of Education was in a lengthy session. Premier Baxter brought up the matter of uniformity in text books among the three Maritime Provinces and steps in that direction will be taken.

**WATLING & MALLEY, LIMITED**

## MILL BURNED AT DOAKTOWN

Doaktown, after receiving a severe blow by fire last week in the business portion lost a valuable industry by a second fire Tuesday night. The plant of the Doaktown Lumber Co., which is controlled by the E. Burt Lumber Co. of Fredericton, was destroyed by fire which broke out in the night. The mill was burned and part of the manufactured stock. The loss is estimated at \$15,000 with insurance covering part of the loss. The mill contained rotary and lath machines as well as other machinery. The loss of the industry will be felt severely by the community.

## Children's Colds

## National Fish Day Throughout Canada Oct. 28 This Year

Canada's national fish day, inaugurated in 1916, will be celebrated this year on October 28. The expectations are, that it will be even a greater success this year than in any previous year.

## French Canada Celebrates Its History

June 24th of every year is the great day of the French-Canadian. In every city and every hamlet of Quebec Province and in the cities and centres of the New England States and in those parts of Ontario and the West where he has migrated St. Jean Baptiste Day is never overlooked. It is well that it should be so and it introduces into Canada an

Old-World seventeenth century atmosphere that Canadians as a whole could ill afford to lose, either artistically or historically. Our pictures show some interesting features taken from floats exhibited on this occasion. There is the heroic 17th century farmer defending gun in hand his crops which his father and women folk are reaping. The

children on their way to school watch the housewife baking her bread in the old-fashioned oven which is still in extensive use in Quebec Province. The making of maple sugar, an industry developed from the researches of Dr. Sarrazin in 1685, is yet another popular float which always figures in the celebrations.

## Bedrooms 60 to 70!

My house is 30 by 60, two stories. I had a No. 40 Maplewood Furnace installed two years ago and it gives a splendid heat. Even in the coldest weather the temperature is from 60 to 70."

A big house, and far from a compact one; just the type that tests put a furnace. The Fawcett proved itself. Summer heat in the furthest rooms. If you want to enjoy this luxury, banish cold bedrooms, drafty living rooms, send for details about Fawcett Furnaces.

Furnaces-Stoves-Heaters  
SACKVILLE, N. B.

Local Dealer: The Lounsbury Co., Ltd.

## Cheaper than Stoves

"Last fall I installed a Fawcett Pipeless Furnace No. 36, in my house and it is giving the very best of satisfaction. As will be seen by the enclosed snapshot, it is a large house and it was considered impossible to heat it with a pipeless furnace, but with much less fuel than the stoves required, every room is heated evenly and comfortably." Fred J. Nutter, Evandale, N. B.

Note from the illustration above that Mr. Nutter's home is not merely large, but exposed as well. But since installing a Fawcett, every room is warm—at a cost below that of stoves. Recent refinements in the Fawcett (widening the casing for one thing) increases still further its capacity to banish winter in your home.

## House Cosy Cellar Cool

"The heat capacity is far beyond what I expected and I consider it a very light user of fuel. I would say there is no heat in the cellar whatever as I had potatoes and turnips piled round the back part of the furnace all winter without being damaged in any way. I would not hesitate to recommend the Fawcett Pipeless Wood Furnace."—Albert Payne, Bathurst.

"It has given me all the heat I want and perfect satisfaction—it has not raised the temperature of my cellar one degree at all, or harmed any vegetables in any way."—F. W. Buttiner, Bathurst, N. B.

The Fawcett delivers heat where you want it; instead of wasting it on the way

## "Summer Weather"

"During last winter when it was registering twenty and twenty-two below zero, we were enjoying summer weather in our house, where in previous winters we have been suffering from the cold. It has indeed been a great source of comfort ever since installed."—Mrs. Verna Copp, Moncton, N. B.

Fawcett Furnaces, Heaters, ranges are made in the largest foundry in the Maritime Provinces—and the best equipped. That's why they have just been awarded first place at the Vancouver Exhibition and their sale is growing by leaps and bounds.

## Win This Range

It's free—for the best letter, received before Oct. 31, telling any interesting episode arising out of the possession or lack of a Fawcett Furnace, Range or Heater. Story should not contain more than 200 words. The material count on the language so all have an equal chance. The range is a perfect miniature; steel, nickel enamel; and will actually cook though height over all is only 17 1/2 inches.

**FREE!**  
Small castiron fry pan. Send 10c for postage and wrapping, stating system of heating now in your home.

RED CROSS SOCIETY  
REQUIRES FUNDS

St. John, N. B.  
Oct. 3, 1925

To the Members of the Newcastle Branch

Dear Friends:

As you know on Sept. 10 we held a Convention at which the Annual Budget of the Society was discussed. At that Convention it was plainly put before the Branches that our Province was responsible for the care of the soldiers in Hospitals and for the relief work and the upkeep of the Depot. This means a matter of \$6,200.00 in order to maintain our work in the Province. Now it is not a large sum of money for the whole Province and if each Community does its share it will not be hard. The soldiers in Hospital come from yours and every other County in the Province. They need a good deal of care that does not come within the province of the Government. Some of them are without pay and allowance and depend entirely on the Red Cross for their little comforts and needs. To the very sick are given special luxuries, weekly drives are provided, smokes, Christmas Cheer, Easter and Thanksgiving wreaths, summer outings, and wreaths are placed on the caskets of the boys when they breathe their last breath all done in the name of the Provincial Red Cross. Surely as a Red Cross Branch this should be our most sacred care and trust. Now we know your Branch has been most generous in the past and this year we ask you to have a membership and financial campaign and try if possible to make as your voluntary objective a sum of \$50.00 to help along this splendid work. It need not necessarily be all raised on the 15. (the day fixed for the Convention) but can be sent in later throughout the year. We are sending you the membership pads this week. All giving a donation of \$1.00 or over are listed on the cards as members but any donation can be received. The cards are then returned to the Depot and the mailing list for the Canadian Red Cross Magazine made from them. We are sending you some posters to use on that day, which I hope will be a help.

Sincerely yours,  
Ethel Hazen Jarvis,  
Secretary N. B. Division Red Cross.

PREMIER ANNOUNCES  
HYDRO COMMISSION

Hon. J. B. M. Baxter, Premier of New Brunswick in an address before the New Brunswick retail merchants association convention last Wednesday announced a reduction in stumpage on soft wood to \$2.50 per thousand feet, to operate for a year, "to relieve" as he said, "conditions which are paralyzing the lumber industry, particularly on the North Shore."

Those who will form the new New Brunswick hydro electric commission he named as follows: Hon. E. A. Bly, K. C., of Moncton, Chairman; J. D. Palmer, Fredericton; E. A. Schofield, Saint John; A. D. Ganong, St. Stephen; and F. J. Robidoux, Shediac.

He said that New Brunswick would retain its own lumber scale rather than adopt that of Quebec; that the saw-mill industry would in time become extinct to be supplanted by the pulp and paper industry; that the development of the water powers at Grand Falls would be carried out regardless of politics with no direct or indirect taxation to the people, nor the loss of one dollar.

Fighting For  
Baby's Health

Is the Constant Care of Every Young Mother.

The young mother has a constant care in looking after the welfare of her little ones. Childhood ailments come on so suddenly—sometimes without a minute's warning—the mother may have a sick baby on her hands before help can be obtained. That is unless she has a remedy in the house which she can safely give the baby for any of the many minor ailments of childhood. Such a remedy is found in Baby's Own Tablets. Thousands of mothers throughout the country always keep a box of the Tablets on hand and they proclaim them to be without an equal for sweetening baby's stomach; regulating his bowels, and thus driving out constipation and indigestion, colds and simple fevers, and making the dreaded teething period easy. Baby's Own Tablets are an absolutely safe remedy. They are guaranteed to be free from opiates or any other narcotic drug which are so harmful to the future welfare of the baby. Mothers, if you value the life of your little ones give him Baby's Own Tablets when he is ill, or, better still, give him an occasional dose of the Tablets to ward off illness. The Tablets are sold by medicine dealers or will be sent to any address, post paid, at 25 cents a box by addressing The Dr. Williams' Medicine Co., Brockton, Mass., U.S.A.

A Turning Point  
In Canadian History

It will be recalled that in the 1921 election Quebec French Conservative leaders were booed and refused a hearing in many of the constituencies in the province. Mr. Meighen, as a matter of courtesy, being of another province and another race, was given a better reception, but was ignored in silence.  
The situation is very different today.

The French Conservative leaders are acclaimed everywhere, while the names of Premier King's Quebec liegions are received with signs of disfavor.

Hon. E. L. Patenaude, who has left the provincial for the federal field with the approval of his leader and colleagues, because of the crisis in the affairs of the country, accepted the nomination proffered him by the County of Jacques Cartier at a meeting held in St. Laurent, suburban district of Montreal. The audience filled the great hall of Baudet College to overflowing and thousands stood in the rain outside to hear the speakers relayed from the hall.

The meeting is thus described in the Montreal Gazette, one of the most reliable newspapers in Canada:

Three vast meetings, held concurrently, greeted the speaker who nominated at a convention held just prior to the speeches, formally accepted the Conservative candidature in the Jacques Cartier division. The great hall of Baudet College was jammed; the standing crowd overflowed to the platform, and down the entrance and exit steps. Outside braving the drenching downpour, stood thousands who refused to be daunted, shouted lustily for "Patenaude," and forced the organizers to arrange that each speaker, after finishing his speech in the hall, should come out and satisfy the enthusiasts. And finally, a far-flung, inviolable audience spread all over the country, heard the speeches through the medium of La Presse radio station.

Surrounding the main speaker were prominent Conservatives from all parts of Jacques Cartier division scores from Montreal, headed by Mayor Duquette, delegations from Quebec, Hull, Beauce, Dorchester, Joliette, Two Mountains and Rimouski, and former coterraners of the Quebec Opposition headed by Arthur Sauve, M. L. A., the Conservative leader in the province.

Scarcely had Mayor Groulx of St. Laurent, who with Arthur Deslauriers, mayor of the parish, presided announced that Mr. Patenaude would arrive, than amid thunders of cheers and resounding song, the hero of the afternoon appeared. Turbulent enthusiasm ensued. Most of the crowd just roared; then "O Canada," sung with a fervor reserved for the most solemn occasions, broke out, and the entire assemblage stood while the anthem was sung. More cheers followed. Fully five minutes elapsed before Mr. Patenaude was allowed

to sit down. Outside, automobiles sirens booted and screamed, then Mayor Groulx told the meeting that Patenaude had just been nominated, as the standard bearer, for Jacques Cartier. Bedlam was loose again.  
"It held while Mayor Ladouceur of Joliette and Antoine Rivard, of Quebec, laid at the feet of Mr. Patenaude tributes of loyalty from the Conservatives of their districts. The great moment arrived. Mr. Patenaude started speaking. His reference to another memorable meeting in the historic confines of St. Laurent sent the mass into a delirium of ecstasy. They surged towards him as he told them that duty called him all over the province, and that the greater part of his struggle would be on their shoulders in Jacques Cartier. "Count on us," shouted one. "That's right," came from several parts of the hall.

"Quietly, then, appreciating that they were hearing an oration that would echo throughout what Mr. Patenaude at one stage termed "that ribbon of humanity stretching from the Atlantic to the Pacific" the electors stood and drank in eagerly declarations on all the pregnant questions of the political hour. "That's clear," was the shout from time to time, as Mr. Patenaude made his position definite.

"Now and again, Mr. Patenaude employed the irony which ends in him its ablest exponent. The crowd roared and cheered. It was a rare sight to see the orator, calm, suave, never trespassing over the bounds of unalloyed politeness, launching at his adversaries barbed shafts which found their mark every time. Below him, clamoring always for "more, more," reminding Mr. Patenaude, "it isn't tomorrow yet—go on," the crowd enjoyed itself in steamy atmosphere and clouds of blue tobacco smoke. They booed and hissed the Hon. Georges H. Boivin, the new Minister of Customs, as the speaker replied to the Liberal attack made on him at St. Henri last Friday. They howled as they were furnished with the picture of Mr. King delivering the heads of 65 Quebec Liberals to the Progressives as the price of support and power. And, as the speech came to an end, they pleaded still for more. "I told their candidate that the banking autos were sounding the death note for the Liberals," and regretfully, let him go outside the coliseum, where they followed him and stood with those who had been unable to storm the hall.

"Amid the rain, they listened once more to the man who was presented to them as one who can save the country in the crisis which is to be the turning point in Canadian history."  
Eyes on Quebec. Eyes on the Maritimes. Eyes on all Canada. The King administration is going down to overwhelming defeat.

sections, particularly in the north and the total cut is expected to be at least as great as usual. Lath-sawing will be carried on extensively in various sections of the province during the winter. The market for lath is slightly better than it has been.

LUMBER ON MILL  
YARDS ONE THIRD  
OF LAST YEAR'S

It is estimated that throughout New Brunswick the quantity carried on the mill yards at this time is only about one third of what it was a year ago. This is said to be the result of a gradual improvement in conditions and a moving out of manufactured stock. From the North Shore there have been large shipments by steamship to British ports and from the south of the province the American market has been taking lumber in steady quantity.

The recent storm is expected to make conditions bad in the lumber woods as the wet snow turning to mud in a short time. Woods operators are well under way in many

CREAGHAN'S

October Drive for  
Bigger Business

Special Prices prevail on all articles in our store. All goods have been specially marked to attract hundreds of new customers to this popular shopping centre.

### Two More Bank Mergers Expected

Over a period of several months the listed shares on the Toronto Stock Exchange of the Canadian chartered banks have shown continuous strength on the basis of the price at the close yesterday there have been gains over the price as in January last of from 9 to 23 points. Despite this fact, however, all of the banks with the single exception of the Toronto, could still show material gains before they would be selling on a level to make the same return as they did just prior to the war. In those days the bank stocks were the favorite medium of investment for those of conservative business inclinations and the trend after a period of some vicissitudes, would again appear to be in a similar direction. There have been some bank failures and other banks which fell on evil days have passed under the protecting wing of stronger institutions, but both these circumstances have now ceased to be little more than a memory for those who are seeking avenues for the safe investment of their funds. The eight banks listed on the local exchange have all had long careers of constant expansion and development. The dividends being paid, range from 12 to 16 p. c. That is the reason why a great deal of the buying of Canadian bank stocks that has been under way in recent months has been on the part of American interests, which

are taking the stocks off the market and putting them away in strong boxes, purely for the yield which is the cured.

It is understood that within the past few weeks two additional mergers had reached the culmination point and that only the settlement of minor details have temporarily held them up. The tendency will be for the smaller banks to gravitate together or to be absorbed by the larger banks. In this way the overhead expenses, which in many instances had become unduly onerous, will be reduced to a level that will admit of banking being done on a profitable basis. When the mergers in prospect have been accomplished shareholders will stand to reap increasing benefits, both from the reduction in expenses and from the increased profits.

### IN MEMORIAM

In sad and loving memory of Private B. Arbeau, who was killed in action Oct. 10th, 1918, age 23.

"Sleep on dear Charlie, thy labor o'er,  
Thy willing hands could do no more  
Midnight stars shine o'er thy grave  
One we loved, but could not save  
Father, Mother, Brothers and Sisters,  
Upper Blackville, N. B.  
41—9 Pd.

## PERSONALS

Mr. W. E. Sherard of Moncton was in town on Thursday.

Mr. M. Scaffer of Blackville was in town on Thursday on business.

Miss Janet Irving returned to Haverhill, Mass. on Wednesday.

Mrs. Robt. Irving of Chatham is the guest of Mr. and Mrs. P. N. Brown.

J. B. Floyd, C.N.R. detective of Halifax was in town last week re-seeing acquaintances.

Mr. Allan Johnson of Chipman, was in town last week, having been called here owing to the death of his sister Miss Mary Johnson.

Miss Annie Morell and Miss Marjorie Lindon are spending this week in Halifax, guests of Mr. and Mrs. Herbert Morell.

Mr. and Mrs. J. H. Barnett are receiving congratulations on the arrival of a son at the Miramichi Hospital, Oct. 6th.

Mrs. James Stout, who spent the summer, the guest of Mrs. Harold Russell, has returned to her home in Campbellton.

Dr. W. S. Carter, Chief Superintendent of Education attended the Northumberland County Teachers Institute held in Chatham last week.

Mr. and Mrs. John H. Ashford leave tomorrow for Burn's Lake, B. C. where they will spend the winter months with their son, Rev. W. R. Ashford.

Miss Lillian Rundle, nurse-in-charge at the Royal Victoria Hospital, Montreal, is spending her vacation with her parents, Mr. and Mrs. James Rundle.

Mr. Wm. Corbett Jr., who was recently operated on for appendicitis in Miramichi Hospital returned to home on Wednesday and is making satisfactory recovery.

Rev. F. E. Bishop has been extended a call to the United Baptist Church, at Digby, Nova Scotia; and has accepted same. Mr. Bishop and family will leave Newcastle about November 1st.

### MIRAMICHI HOSPITAL AID FURNISHES W. E.'S WARD

The Miramichi Hospital was the scene of an interesting event on Wednesday afternoon when the women's ward, which has been furnished by the Miramichi Hospital Aid and its auxiliaries was formally opened. The guests who were the members of the Miramichi Hospital Aid and its auxiliaries and the members of the Miramichi Hospital Board were received by the Newcastle executive, Mrs. C. Hubbard, president, Mrs. L. H. MacLean, vice-president, Mrs. W. J. Bate, treasurer, and Mrs. W. F. Copp, secretary. The opening which took place at 3 o'clock was short but impressive, opening with an invocation by Rev. W. J. Bate, followed by an address by Dr. R. Nicholson and the dedicatory prayer by Rev. L. H. MacLean.

After the opening of the ward the guests repaired to the Nurses' Home where afternoon tea was served and a social chat enjoyed. Altogether it was a memorial afternoon and another testimony of the splendid work which is being accomplished by the Miramichi Hospital Aid.

The ward presents a splendid appearance as it has been completely furnished with beds, mattresses, springs, including several Gatz springs at a cost of about \$500. The screens were supplied by Mrs. W. A. Hickson and all the remaining necessities by another member of the Aid, Mrs. Hickson also donated the glass door plate, which is inscribed, "Furnished by the Miramichi Hospital Aid and its auxiliaries, 1923". The Aid has made a collection of jams and pickles for the hospital from among its members.

## WEDDINGS

### GERRISH—HUMPHREYS

The marriage of Miss Ella May Gerrish, second daughter of Mr. and Mrs. John Gerrish of Quarryville to Edward James Humphreys of Wabassy, England took place at the United parsonage, Blackville on Monday, August 10th.

The bride was becomingly dressed in a navy ensemble suit and black hat. The attendants were the bride's sister, Greta, and Lindsay Jardine. Their many friends extended best wishes for their future happiness.

### GERRISH—TUSHIE

Miss Greta Gerrish, eldest daughter of Mr. and Mrs. John Gerrish of Quarryville, was united in marriage to Mr. George E. Tushie of Renou on August 7th at the United parsonage, Blackville. The ceremony was conducted by Rev. Wm. Gartshore. The bride was becomingly dressed in a navy blue ensemble suit with hat to match. She was attended by her sister, Ella, and the groomsmen was Mr. Herman Tushie.

In the evening a reception was tendered Mr. and Mrs. Tushie at the home of the bride's parents, which was attended by a number of friends and relatives. Many beautiful gifts were received. The many friends extend best wishes for future happiness.

### O'BRIEN—BUCKLEY

A quiet but very pretty wedding took place at 6.30 Tuesday morning Oct. 6, at St. Mary's Roman Catholic church, when Rev. Father Dixon solemnized the marriage of Miss Katherine, youngest daughter of Mr. and Mrs. William Buckley, C. I. Road, N. B., and Mr. Patrick O'Brien of Renou, N. B. The bride looked charming in a navy suit of pointed twill, black velvet hat and squirrel choker. Miss Bessie Murray was bridesmaid, attired in a navy suit and black hat. Harry Buckley, brother of the bride, was best man. After the ceremony the happy couple motored to the home of the bride's parents, where a sumptuous wedding breakfast was served to the relatives of both bride and groom. They left on the south bound local on a short honeymoon trip.

### Concerning The World's Series

NEW YORK, Oct. 5—Facts and figures in relation to the 1923 World's series follow.

Contending teams—Washington Americans and world's champions and Pittsburg, National champions.

Schedule: Oct. 7, 8, Forbes field Pittsburg, Oct. 9, 10 and 11 Griffith Stadium, Washington, Oct. 12, 13 Forbes Field, Pittsburg.

In case postponement for that day will be played in the same city the following day.

Capacity of fields: Forbes Field, 40,000; Griffiths Stadium 38,000.

Prices—Ranging from \$1.10 for bleachers to \$6.60 for box seats.

Team managers—Stanley Harris, Washington; William McKechnie, Pittsburg. Division of receipts—Fifty per cent. of gross to advisory council; sixty per cent. of first four games to players (seventy per cent. of this to contending players) on 60-40 basis, remainder to be divided among players of first division teams in each league. Remainder of gross to clubs which turn over fifty per cent. of their share to leagues for distribution among the other clubs.

Umpires—Ritzler and McCormick Meriarity and Owens, American.

Time of games—Two o'clock Eastern Standard time, both cities.

## RECORD HUNTING SEASON EXPECTED

Judging from the amount of big game trophies which are being shipped from Newcastle to American cities by American sportsmen who are in the Miramichi woods this season is proving to be one of the best in years. Very few who have gone in to the sporting camps have returned empty handed. One of a party who went in with Guide Pringle arrived in Newcastle Thursday, the proud possessor of a large moose head measuring 62 inches from point to point.

Another party who were being guided by John Hare secured a large moose, two deer and two bears. This party had a moving picture outfit with them and succeeded in making pictures of the moose answering to the call and being shot. The party was so pleased with their trip that they are returning to Mr. Hare's camp later in the season.

F. V. Dalton, vendor of game licences in Newcastle, reports an increase in the number of listing sportsmen over other years. Among the many American sportsmen are W. J. Jones, Henry A. Cassar, Arthur L. Newton, W. Smith, B. P. Booth, Peter Aitchison, W. M. Stone, H. M. Popham, L. G. Hunter, F. B. Hoffman, F. B. Porter, of New York; Thorndyke Howe, of Hunt, of Rock Island; J. C. Bell, of Boston; Charles R. Jenkins, R. J. Newark; Cloyd Harkins and R. H. Muir, of Pennsylvania; Stanley V. Sparks, Phillip Metzger of Brooklyn; R. C. Pierce Dalton, Mass.; Dr. C. R. Parker Chicago; Frank Doudera, J. J. Sartori of Boston. These gentlemen are being guided by John Hare, Arthur Pringle; Edward Waye, Grant Forsythe, J. Estey, Harvey Urquhart and Norman Campbell. Many more sportsmen are expected to arrive during the month and the local guides are of the opinion that this will be a record season.

### Nervous Depression

#### Why People are Low Spirited and Depressed

Nearly all women and most men suffer at times from fits of depression and low spirits. Everything seems burdensome; then come periods of nervous irritability, headaches and weariness. People who suffer this way lack vitality because the blood is poor and nerves are starved in consequence.

The only way the nerves can be refreshed is through the blood. By enriching the blood with Dr. Williams' Pink Pills the starved nerves are supplied with just the elements they need. This is proved by the experience of Mrs. J. E. Dadson, 12th Ave. East Vancouver, B. C., who says:—

About three years ago I became very weak and nervous. I had pains in my side and back, and also suffered from frequent pains in the back of my head and neck. I was hardly able to do anything about the house. I would wake with a start in the night and my heart would flutter so that it almost choked me. I tried much doctor's medicine but it did me no permanent good. One day I read about Dr. Williams' Pink Pills and decided to give them a trial. These pills produced such a beneficial change in a short time that I kept taking them until I had used a dozen boxes. By this time there was such an improvement in my condition that friends would ask me what I was taking, and of course I was only too pleased to tell them it was Dr. Williams' Pink Pills. I am now feeling like a new person and am doing my own housework. We would not now be without Dr. Williams' Pink Pills in the house.

You can get the pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## MRS. B. H. HART SICK FOR YEARS

Wants Women to Know How She Was Made Well by Lydia E. Pinkham's Vegetable Compound

Cornwall, Ontario.—"I am now giving your medicine a fair trial and it surely is doing me good and I am going to keep on taking it. I used to feel so tired in the morning that I didn't want to get up, but that feeling is leaving me now. I also sleep better and feel more like working. For seven or eight years I have had headaches, tired feelings, pains in my back and across my body. I read letters in the newspapers saying what good Lydia E. Pinkham's Vegetable Compound had done others. My husband says I quit too soon, but I am not going to stop taking the Vegetable Compound and Lydia E. Pinkham's Blood Medicine until I am better and haven't an ache or a pain. Isn't that the right way? I have great faith in your medicines. They must be good when those who take them speak so highly of them. I am recommending them to my friends and I will gladly answer letters from women asking about them."—Mrs. BURT H. HART, Box 1081, Cornwall, Ontario.  
Mrs. Hart wants to help other women and is willing to answer letters from sick women asking about the Vegetable Compound.

**DO COWS GET HOMESICK?**

Do cows get homesick? We have one that did. At any rate she made a great change in a few days she was away, but after being home a few weeks she was back to normal. Recently we had a sale on and one of the best heifers went but a few miles from home but this was too far to suit her. She had a nice clean, roomy place to stay and plenty to eat. In fact, many a cow would be glad for a chance to claim this for her home. She had always been used to silage and they did not have it. She had always been with a large herd and she was alone. She had always been free except at milking time and at night when the weather was cold of bad, but here she was stabled. We delivered her in the truck and the fourth day we were surprised to see this gentleman who bought her driving in. Of course we wondered what had happened. Then he told us how she refused to eat or drink and had even kicked him out the door when he attempted to milk her. He said he thought she was homesick and the sooner we could get her back home the better for her, so we went after her and found her ready to fight anyone getting her home she seemed contented until milking time came. She tried kicking but we were prepared for it and conquered her. After a few weeks she was back to her usual flesh and gave her normal amount of milk. She was fresh last September and is now giving from 9 to 12 pounds at a milking so we did not make a mistake in taking her back.

The Advocate \$2.00 Yr.

## Insulin Is Now Plentiful

Insulin is not a cure for diabetes, emphatically declared Dr. F. G. Banting, of Toronto, immediately upon his return to Canada from a two month's stay in Europe.

He added that it was only a treatment for the disease, and while quacks could prophecy cures, he would not even say that insulin was doing wonderful work for the relief of sufferers from the disease, but that it was being used in practically all countries of the world, with the exception of some parts of Africa.

Dr. Banting, when interviewed could not take any particular credit for the invention, but stated that it had simply been a case of good fortune that it should have been discovered in Canada.

There is more insulin produced than the demand requires continues Dr. Banting, the Toronto physician, stating that the treatment was now available to all classes of society through a 300 per cent reduction in the cost of production, but he contended that Canada produces more insulin than she can dispose of at the present time.

Extract from a letter of a Canadian soldier in France.  
To Mrs. R. D. BAMBRICK:  
The Rectory, Yarmouth, N.S.  
Dear Mother:—  
I am keeping well, have good food and well protected from the weather, but have some difficulty keeping uninvited guests from visiting me.  
\*Have you any patriotic druggists that would give something for a gift overseas—if so do you know something that is good for everything? I do—Old MINARD'S Liniment.

## The Policies Compared

The people are comparing, during the last three weeks, Premier King's lack of plan and policy and the empty gestures by which he seeks to disguise it with the straight-forward, clean-cut and definite policy and pronouncements of Mr. Meighen. On none is the comparison making a deeper impression than on straight-thinking Liberals themselves. Mr. Meighen tells the people frankly what he and his party believe to be the solution of the country's problems. He states openly and definitely what he will do if returned to power. Compromise has no place in his proposals. His tariff policy is clearly defined. It is a policy of adequate protection for the development of all the industries and all the natural resources of Canada—a Canada-First policy designed to build up the self-reliance of this country and to meet the world-wide movement in the direction of increased tariffs. With some sixty-five other countries having raised their tariffs since the war among them the United States tariff protection is more vital to Canada now than ever. Mr. Meighen urges his policy, not in behalf of particular sections of the country or of special interests, but in behalf of the entire country, of all interests. He offers it as the only means of providing employment and wages for the workers and of stopping the emigration of hundreds of thousands of the best of Canada's citizens to the United States and of inducing many of those who have gone in the last four years to return. He offers it as the one means of providing a sure market for the farmers and other producers of Canada and of supplying business for the railways. His Canada-First policy is not one alone of protection against the competition of foreign goods in the Canadian market but as well protection against the diversion of our raw materials for the benefit of other countries. Where sections of Canada derive less benefit than others from this policy because of their geographical situation he proposes that they be compensated. The heavy transportation charges now borne by the Maritimes and the west are to be shared by the country as a whole. Equally unequivocal is his assertion that his first action in office will be the stopping with a firm hand of new capital investments on railway account.

The contrast between Mr. Meighen's plain speaking and the indelicateness of Mr. King is having its effect in daily increasing the tide of public sentiment against the government, in strengthening the determination of all parties that the present administration must go. Never in the history of the Dominion has popular feeling been so manifest on the eve of an election.

### Here and There

It is understood a Scottish syndicate has purchased sixteen acres of land adjoining the best residential section of Vancouver, B.C., and will erect one hundred residences there.

Although only three years old the Oliver district of British Columbia has already become noted for its production of very fine cantaloupes. This year the production is expected to be about 25 to 26 carloads.

The 1,250,000-bushel Government Terminal grain elevator being built at Prince Rupert, B.C., will be completed by November 1st, when a test shipment of ten carloads of grain will be made through it.

Notification has been received by the Hon. John S. Martin, Minister of Agriculture for Ontario, that his showing of white Wyandottes at the New York State Fair at Syracuse, had captured the trophy for the best display for the twentieth consecutive year.

By a recent Order-in-Council of the Lieutenant-Governor, premiums for clearing land, which had previously been set at \$6 an acre, were increased to \$8. The Order also provides that the premium will be paid for a maximum of twenty acres of land and, as a result of it, a settler may obtain a grant of \$160 from the Government as a reward for his work.

Considerable progress has been made during the past few years by R. M. Palmer, at Cowichan Bay, B.C., in the cultivation and propagation of new species of gladioli. In his garden, Mr. Palmer has at present growing about 150 different varieties, bulbs having been secured from all parts of the world, even Central Africa contributing its quota to this wonderful collection.

Having completed their tour of Canada as the guests of E. W. Beatty, chairman and president of the Canadian Pacific Railway, the ten British journalists left Canada early in October for England, to relate there the story of their experiences and to give their readers the impressions they have gained of the Dominion.

During the month of August 1,132 vessels, comprising 131 trans-Atlantic, 35 coasting and 966 inland steamers, entered the port of Montreal, these having a total net registered tonnage of 1,936,945, while in the same period 1,141 vessels went out, these representing 1,932,145 net registered tons. Since the opening of navigation 757 ocean-going vessels, representing 3,468,965 net tons, have entered the port, as compared with only 649, representing 2,280,072 net tons last year; these figures being up to the midnight of September 5th.

F. F. Norcross, a well-known Chicago lawyer, had an amazing experience recently while staying at the Banff Springs Hotel and playing on the golf course there. His approach to the ninth hole was disrupted by a huge bull elk which tossed its antlers and stood pawing the ground with evident hostility as the lawyer prepared to play his ball. Mr. Norcross was about to observe the better part of valor when the bull's attention was distracted by the appearance of a cow elk which made an effective substitute for the golfer and both animals disappeared into the neighboring bush.

Travelling in a five-passenger 1926 improved model Ford touring car from Halifax to Vancouver, J. L. S. Scrymgeour and E. Flickinger are performing a feat unique in the annals of motor travel in this country. From Frans, near Sault Ste. Marie, they travelled on the tracks of the Algoma Railroad to Fort William, having been granted the use of the lines by the Canadian Pacific Railway. The whole run of about 4,500 miles took nearly eight weeks, and a series of still and moving pictures were taken en route to commemorate the adventure.

## SAYS GERMANY WANTS PEACE

Locarno, Switz., Oct. 12.—Not only does Germany desire peace, but she desires it. The German chancellor Dr. Luther, so informed M. Briand, the French Foreign Minister today in a private consultation of the two statesmen, which stands out conspicuously as the biggest single event since the opening of the security conference. The two leaders stole quietly away from Locarno and, meeting at a secluded spot on the shore of Lake Maggiore, had a frank talk on European problems as a whole and especially how best to consolidate the peace of Europe.

This meeting of conciliation marked by an expression of the determination of both statesmen to do everything humanly possible to banish the Franco-German war spectre has injected a new ray of optimism into the political atmosphere, despite the fact that it did not result in the fashioning of a formula whereby France can guarantee in a special way the territorial integrity of Poland and Czechoslovakia, her allies.

That problem will require a consultation of the Cabinets at Paris and Berlin, for France and Germany will find it difficult to yield from their original position without the support of their home governments.

The conference itself, which met for only an hour today achieved no substantial progress. The spokesmen of the various delegations admitted this, but they qualified it with the declaration that French suggestions were forthcoming concerning the necessity of a clean-cut understanding that compulsory arbitration must be the guiding principle of the Rhine pact. This is what the other delegates have been contending for and the jurists were asked to frame new articles dealing with this subject. Presumably these articles will be discussed at theenary session tomorrow which is scheduled for 2.30 p. m.

Compulsory arbitration is a feature of the Geneva peace protocol. These fundamental principles, which are anxious to keep to the letter inflexibly, and which many other nations at the recent league assembly also approved as the only sure safe guard of world peace.

Locarno, therefore, like Geneva, appears on the road where he who refuses to arbitrate and commits warlike acts will be hailed as an aggressor and punished. Czechoslovakia, through her foreign minister, Edouard Benes, arrived on the scene today. Dr. Benes immediately conferred with Austen Chamberlain, British Secretary for Foreign Affairs and M. Briand, who put him in touch with the development.

## Partridge Are Scarce In The Province

Partridge are scarce in New Brunswick this year, according to reports which have been received from different sections of the province. In York county alone there is said to be a marked dearth of these valuable game birds.

As the result of the pronounced scarcity of birds, as already indicated by the reports which have been received by Chief Game Warden L. A. Gagnon, it is expected that special steps will be taken to investigate the causes leading up to the shortage which is attributed in some sections to the depredations of the parasites which were discovered on numbers of the birds killed last year. These parasites were also found on dead partridge in the woods, whose death

# ZAM-BUK

FOR  
Cuts, Bruises,  
Burns, Scalds  
or Anything Wrong  
With The Skin

Be prepared with Zam-Buk for any emergency.

had apparently resulted from the destructive parasites. Arrangements are being made to co-operate this season with the special commission appointed last year by the representatives of the American and Canadian game associations to investigate the situation which was found to exist then. It is expected that following the opening of the partridge season special efforts will be made to secure specimens for examination in this connection.

## British Journalists Give Impressions of Canada

Having completed a ten-thousand-mile tour of Canada coast to coast and return at the invitation of E. W. Beatty, chairman and president of the Canadian Pacific Railway, ten British journalists representing papers from London, Western England, Wales, Glasgow and Belfast, now broadcast to Canadians their views of the Dominion. These journalists were asked to come to this

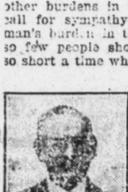

country to study at first hand the economic, commercial, industrial and agricultural conditions of the Dominion and to use enable them to meet and combat from their own knowledge the misunderstanding and misrepresentation of Canada and Canadian conditions that have been prevalent in the Old Country of late months. Their trip was an unqualified success from every point of view. The impressions follow:—

R. A. COLWILL,  
Western Morning News, Plymouth.

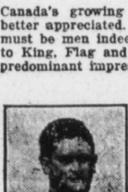

W. D. WESTON,  
Daily Chronicle, London.

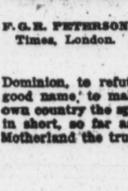

J. S. F. CHAPTER,  
Westminster Gazette, London.

CAPT. E. ALTHAM,  
C.B., R.N.,  
Morning Post, London.

G. E. PETERSON,  
Times, London.

JOHN SAYERS,  
Belfast Telegraph.

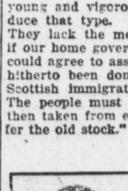

H. S. READ,  
South Wales News, Cardiff.

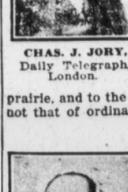

HUGH MARTIN,  
Daily News, London.

JOHN A. BUIST,  
Glasgow Herald.

CHAS. J. JORY,  
Daily Telegraph, London.

JOHN SAYERS,  
Belfast Telegraph.

"Canada has given me a true appreciation of what is meant by great open spaces. The possibilities of this vast country are enormous, and you have as yet barely scratched the surface of its wealth. It is a land which offers great opportunities to men of the right type, but this great Dominion is obviously a young man's country, and one where every man must work. You ask no questions as to his antecedents. You merely ask him to carve out his own career. You take a man for what he himself is worth, not for what his father was. In such a land a man who is a man can work and be happy."

"Canada's supreme confidence in her future greatness was made a deep impression upon me. Only men possessed of great vision and almost overpowering energy could have laid so soundly and so comprehensive a foundation which we have everywhere seen for the coming of a great civilization. The noble plans of world-famous buildings, the splendid universities, the network of railways, harbor facilities, vast water powers, electricity schemes, irrigation works, and cities planned out on princely lines, have been conceived for a great and glorious future. Canada is shouldering financial and other burdens in this task of Empire building which call for sympathy and admiration. It is the white man's burden in the world. One stands amazed that so few people should have accomplished so much in so short a time which encompassed Canada's history."

"Since I was here in 1911 there has been great improvement in the roads of Canada. Though the country is said to have passed through hard times recently the enormous number of automobiles now in use appears to indicate a return of rapidly returning prosperity. Very many more trees are conserved on the prairie landscape, the planting of which and the more general use of point for the decoration of dwellings suggests an increasing desire to have homes rather than mere houses. This spirit, it seems to me, will do more for the consolidating of Canada as a nation than any great increase if those whose chief desire is get rich quick and quit."

"(1) Canada has laid for foundations on generous lines worthy of a great future. (2) Her waiting spaces and Britain's need for room within the Empire for an overflowing population create a new bond of union. (3) The future prosperity of Canada rests not only upon agricultural development but on increased employment of British labor in both countries for manufacturing her raw materials. (4) Misunderstanding of Old Country conditions is being caused by meagre, misleading, and even malevolent news too often supplied from England to the Canadian Press. (5) The importance of a navy for Canada's growing exports and imports is becoming better appreciated. (6) Canada is a land where men must be men indeed, no wasters, agitators, or traitors to King, Flag and Empire, need apply. That is my predominant impression."

"At the end of a long journey, in the course of which we have crossed nearly ten thousand miles, we are returning to our homes deeply impressed with the immense resources of Canada. We have seen life and conditions of labor in the Maritime, in the industrial centres of the East, on the prairies and at the Pacific Coast. We have set ourselves to learn something of the twin problems of men and markets which face the Canadian people, and the experience which we have thus gained will be of inestimable advantage to us in the future. It will enable us to set the proper value on items of news from the Dominion, to refute baseless charges against its own good name, to make known to the young men of our own country the splendid opportunities that await them, in short, so far as lies within our power, to tell the Motherland the truth about Canada."

"Canada is not a country but a continent boundless in rich resources and richer still in the indefatigable energy of a people whose most conspicuous social characteristics is their devotion to education and research, in wise foresight of the future. For its development the great requirement is population, which can best be supplied by co-operative action of home and Dominion authorities in training would-be immigrants for agricultural work. Training is an essential requisition to rescue men and women from unwilling idleness in the Old Country and put them within reach of the abundant opportunities of the New land is to transform them from conditions of penury into shavers of exorbitant wealth, and in so doing to strengthen the Empire. We are greatly indebted to the Canadian Pacific Railway for their invitation to make the tour."

"Canada's need is the Old Country's opportunity. Equally Britain's is the new country's opportunity. From the Atlantic to the Pacific seaboard I have heard the cry, 'Send us men; send us capital; and have found conclusive proof that once again the new world has the power to redress the balance of the old; have we and have you the will to make that power effective? It seems to me to be largely a matter of understanding and sympathy. Patriotism is not enough, but translated into terms of mutual help I know is capable of leading us both into a new promised land. Let us pull together."

"Every province of Canada claims that it is the land of opportunity. I believe that each is entitled to make that claim and that the opportunity is for more people who are willing to work primarily on the land and are determined to succeed. The vast open spaces must be populated. As a Scotchman who has met many old countrymen on this wonderful tour via the Canadian Pacific Railway across the Dominion I should like to see a large influx of immigrants belonging to the race which played such a noble part in the pioneer work in the land of promise for the young and vigorous. The Old Country can still produce that type. What prevents them from coming? They lack the means, not the desire. I believe that if our home government and the Dominion Government could agree to assist them to a greater extent than has hitherto been done, the main obstacle to the flow of Scottish immigration into Canada would be removed. The people must be found, if not from the Old Land then taken from elsewhere, but I think you would prefer the old stock."

"I became more and more impressed with the boundless possibilities of this great Dominion every day of my tour. From Halifax to Vancouver that impression grew from wonder to amazement. Surely for a man who will work and for the woman who will help him there is no land so rich in resource, so full of opportunities. All honor, then, to the brave men who made this possible, to the pioneers who blazed a nation's way through brush and canyon, who adventured over river and lake and prairie, and to the Canadian statesmen whose vision was not that of ordinary men."

"Canada fills me with wonder and admiration. That a comparatively small population should have accomplished so much in so short a time is marvellous, and from what I have seen I am convinced that the tapping of the Dominion's resources, particularly of Alberta and British Columbia, has only begun. If the two urgent needs of men and capital—British if possible—can be supplied, there seems to be no limit to the future of the country. I am impressed by the loyalty, the beauty, and the pluck of Canada, and I take off my hat to the courage of the early explorers and settlers. They laid foundations upon which it should be an honor to be today. Floreat Canada."

## Local and General News

**Harvest Festival and Chicken Supper in St. Mary's Academy, Wednesday and Thursday, Oct 21st and 22nd. Keep these dates in mind.**

**MARRIED**  
At St. Andrew's Rectory, Wednesday evening Oct. 7th, by Rev. W. J. Bate, Ethen Oran Dempsey of Bridgetown, Newcastle to Margaret Ellen Duffy, of White Rapids.

**DEANERY MEETING**  
The Chatham Deanery meeting will be held Tuesday and Wednesday of this week in Bathurst. The Church of England clergy on the Miramichi will be in attendance.

**G.W.V.A BENEFIT NIGHTS**  
Wednesday and Thursday evenings were benefit nights at the Opera House for the local branch of the G. W. V. A. A good picture was shown on the screen and both entertainments were well patronized.

**A COMING EVENT**  
On Thursday, Oct. 15, the marriage will take place of William Arnold McLaggan, branch manager of the Bank of Nova Scotia, Paradise Row, St. John and Miss Alice Russell, daughter of Mr. and Mrs. John R. Johnstone, Loggieville, Northumberland County.

**THE LUCKY NUMBER**  
The lucky number in the G. W. V. A. Grafano's lottery at the Opera House last Wednesday and Thursday was 771, held by Wallace Maltby, son of Mr. and Mrs. Thos. M. Maltby. The G. W. V. A. wishes to thank the public for their kind patronage.

**RE-ELECTED PRESIDENT**  
C. C. Hayward, of Moncton, was re-elected president of the New Brunswick Board of the Retail Merchants' Association of Canada at the final session of the annual convention in the Admiral Beatty Hotel Thursday afternoon. Other officers were chosen for the coming year. Resolutions were adopted and an advisory board was named by the executive.

### NEW LAMP BURNS 94% AIR Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94% air and 6% common kerosene (coal oil). The inventor, J. M. Johnson, 246 Craig St. W., Montreal, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him to-day for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

### Ladies' Hair Cutting

I have opened a Ladies Hair Cutting and Curling Parlor on Pleasant Street, Newcastle, where I shall be pleased to cater to the wants of the ladies and young girls in this time. Haircutting in all styles 25 cents. Hair Curling 25 cents. 41-9-Pd. B. E. BREAUX.

### Horses for Sale

Big Clearance Sale, must be rid of them within one month. About 40 head. Prices from \$40 up. Terms to suit buyers. Also wagons, sleighs, sleds etc. Edward Dalbo, Parks Wharf.

**MARITIME BOARD OF TRADE**  
The annual meeting of the Maritime Board of Trade which was to have taken place Friday has been postponed until November 4 to 6. The Board will meet in Charlottetown.

**RUMMAGE SALE**  
The Rummage Sale in St. John's (Methodist) basement, which was postponed from Saturday, Oct. 10th, will be held Wednesday, Oct. 14th, at 2 p. m.

**TEACHERS' INSTITUTE**  
The Northumberland County Teachers' Institute was held Thursday and Friday in St. Michael's Academy, Chatham, Harkins Academy was consequently closed for the two days.

**I. O. D. E. TAG DAY**  
In order to secure sufficient funds to provide milk, etc. for undernourished children attending school in Newcastle, the Lord Beaverbrook Chapter, I. O. D. E. will hold a tag day on Thursday, October 29th. It is necessary to secure about \$140.00 to carry out the work satisfactorily and as October 29th, is election day, it was thought this day would be a good one, so that every one might assist in making the tag day a success.

**CONSERVATIVE HEADQUARTERS**  
Conservative rooms have been opened in the building, next door to the Post Office. Organization work will be done from this office and literature will be available for those who wish to avail themselves of it. Residents from any section of the county are invited to make the Conservative rooms their headquarters while in town and any information desired will be gladly given by the executive in charge.

**IT IS IN THE AIR**  
Charlottetown Guardian: From one side of Canada to the other the opinion prevails that after the 29th of October the King government shall have ceased to function, or rather, shall have ceased being in the way of a functioning parliament.

It is quite true that the odds were against the King government since his first day it faced parliament. It had no majority in the House except the mercenary majority it could purchase from time to time in exchange for a concession. This does not excuse Premier King. If he could not direct the government in the interests of the country, if he could not hold office without sacrificing the policy of his predecessors and the former Liberals he should have quit and appealed to the country. The King government never functioned; the Progressives dictated the policy of the government, and when Premier Mackenzie King and his free admission of Federal products, they are not adhering to their own policy or the policy of the Liberals but of the Progressives.

### SUPREME COURT ADJOURNS

William Groat and Joseph McCarthy, charged with assaulting Joseph Dickson, a police officer, then and there engaged in doing his duty, were found not guilty by the petit jury and were discharged in the circuit court here last week.

L. Juimont, charged with wilfully damaging a cow, the property of Daniel and George Dourion, pleaded guilty to the charge and was given a suspended sentence of one year under a bond of \$1,000.

The one civil case, that of A. Alcorn, lumber merchant, of Blackville vs. C. N. R., was settled out of court. Court was adjourned until Tuesday morning, November 3, at 11 o'clock.

### HARKINS ACADEMY SCHOOL STANDING

For the Month of September from Grade I to Grade VIII

**S. J. Campbell's and Miss Creamer's Dept.**  
Report for the month of September, Grade—VIII (Those making an average of 80 or over. Names in order of merit)—Harry Harris 1, Ambury Jarvis 2, Addie Belyea 3, Timothy Murphy 4, Elsie Chapman 5.  
Grade VII—Arthur Stohart 1, Davida Troy 2, Marion Vye 3, Hudson Taylor 3, Audrey Fegan 4.

**Miss Sinclair's Dept.**  
Grade VI—George Belyea 1, Lillian Aharan 2, Dorothea Ferguson, Joe Litch 3.

**Miss Black's Dept.**  
Grade I—Jean Lucles, Earle McCormick, Leo Harriman, John Burchill, Inez McCray, Gordon Blackmore.

### Do Your Children Grow Fast Enough?

Are They Sturdy, Healthy, and Strong, or Pale, Weak and Run Down?

Growing children need a great deal of food, and sometimes they will not eat the kind of food that they need for strength—then they become thin, pale and run down.

This condition of under-nourishment can be corrected by taking Father John's Medicine which does contain just the food elements such children need, and that is why so many children gain weight regularly while they are taking this old fashioned family medicine.

Father John's Medicine is an expertly blended preparation of cod liver oil with other ingredients in such a way that its food elements can be easily taken up by those who are weakened and run down. Your friends and neighbors know its value. Thousands of mothers depend upon it to keep their children well and strong.

Mrs. Samuel Mullin and little daughter Kathleen have returned from London, England, after spending the summer months with Mrs. Mullin's parents, Mr. and Mrs. Smith.
