B., that out of the wayspot in New Brunswick, on the shores of the great ocean, I saw sights that are calculated to make the soul sick indeed. Here are literally immured a score or more of wretches touched with a foulness, which, for no fault of their own, excludes them forever from the world. It is true they are treated with more consideration than the lepers of Scriptural times who dwelt in the open sepulchres about Jerusalem, subsisting on the fragments that accidental charity dropped on the grounds in the wilderness. There is not heard from them that terrible cry as of a lost soul in the Dantean hell "Unclean! Unclean!" No, the lot of these unfortunates is made

THE VICTORIA ELECTION.

The result of the election in Victoria is disappointing, and we venture to think, is to be regretted in the interest of the county itself, which has for the present lost the services of a very capable and highly resign in this direction that the future settlemembers in the legislature having the business capabilities which Mr. Baird unor six years he held a seat in the house, his personal influence and the esteem in which he was regarded on all sides, have Mr. Baird's defeat on many grounds, we do not regard the event as having any political significance, either as indicating the feeling of the people of Victoria county toward the government, or as have done nothing else than to assist this materially effecting the relative strength of the government and opposition party. The contest was very largely a personal one between Messrs. Baird and Porter, and with the exception of the feeling industriously worked up against the local government on account of the dominion fishery regulations, which prohibit spearing and netting, and the four rod reservation, there was no evidence of even the slightest antagonism to the government. Mr. Baird was elected in January last by a very small majority of nineteen votes, and the present result follows upon a transfer of fourteen votes from Baird to Porter; certainly not a stampede in any sense from either Baird or the government in a total of 1700 votes in the county.

great change of public sentiment hostile to the government since January last. Nothing could be more absurd. It may be there is such a change as the office and patronage seekers declare, but we have not vet had any evidence of it and a difference of fourteen votes in 1700 is not sufficient to alarm anybody. The truth is our opposition friends are booming this victory for a vast deal more than it is worth. To judge of the actual value of the so called make up the local politics of the province. revulsion in public sentiment, make a little calculation, and it will be found that it would just take twenty-eight years to enjoys a scandal as a crow does carrion, change the government majority in York county, in the last election, to a minority. Mr. Gregory went to Victoria also. It is other door in the city was closed to him, Mr. Blair's was open. The malignant bitpast favors are to be forgotten in the frenzy of his present hate. Of all the opposition speakers who invaded the county, Messrs. Gregory and Atkinson were the only persons who had the hardinhood to bring up and repeat the Leary dock charges. Thus we have the outside and the inside parents of the accusation rehashing the exploded story where they thought the people could not have heard the facts. As for Mr. Gregory who folly assumes every man against whom he has a feeling to be depraved, we are not suspressed. His life work now is to hound his benefactor; but Dr. Atkinson, we would suppose, had some little character to lose. Dr. Atkinson we would suppose, had some little character to lose. themselves deserve to be taken at their word, we are well assured no such consideration will influence the action of the government; and that having decided to ask the legislature to promote this railway upon its merits and with the conviction that the interest of the whole province justify the undertaking, there will be no retracing of its steps. Any person who has traversed the Tobique country must have been impressed with the magnifit cent possibilities there awaiting development. To say the soil is easily cultivable and fertile is to indulge in meagre praise of the great valley. There is probably nothing so rich or beautiful in any part of our fair dominion, as the broad meadows slopes and intervales of this magnificent valley and the uplands on either side are as level and fertile as the intervales. It is ment of the province must be directed, and so long as there are thousands of acres of surpassingly fertile soil within its they should pass beyond our borders in search of suitable lands upon which to settle and make their homes. The election is now over, and a by no means too scrupulous body of opponents of the government, whose only inspiration is a thirst for office, has succeeded for the present in deluding the people in Victoria county; but the government is not thereby exonerated from carrying out the enlightened policy upon which it has embarked. We wish to see the efforts the government have heretofore unsuccessfully made to come to some understanding with the N. FISH STORY.—This comes from Chatham Howe. and the World is responsible for it: There was a hailstorm in Wellfield some days ago, with thunder and lightning and when it had ceased several small fishes, some of them three inches long, were picked up on the ground, and several were found in springs. A spring by the roadside, at John Dignam's, in which there were no fish before, is alive with them now. They are growing in size, and are evidently quite at home in the spring. Mr. Dignam says they resemble mackerel in shape and color.

The Spring Hill Road.

A correspondent complains that the Spring Hill road is in a very unsatisfactory condition, and says that so important a highway as this ought to be kept in better repairs There is something in the complaint; but it may be added that we will never have as good roads as we ought to have, until a rule is adopted requiring repairs to be made earlier in the season. Good highways are of the first importance. Poor roads mean loss of time in travelling and much discomfort. People do not appreciate this as much as they ought to.

From eighty-five reports I gather the following information relative to the oat crop: There has been a marked improvement in the condition of the crop during August, with a prospect of still further improvement but the condition over the whole province is not up to the average. Assuming 100 to represent prime condition, the reports give the following percentages of condition for the several counties during the week ending August 23: Albert, 67.2

Carleton, 82.2 Charlotte, 71 St. John, 77, 5 Gloucester, 72 Sunbury, 74 Kent. 53 Victoria, 90 Kings, 93, 3 Westmorland, 75 Madawaska, 80 York. 86 Northumberland, 62, 5

A calculation based upon these percentages and the respective oat product of the several counties makes the percentage of ondition for the province, as a whole, 76. 2. The report on the acreage in crop published in July showed a substantial reduction in the breadth sown to oats. In this connection it may be interesting

o stock raisers and others, to know that the condition of the corn and oat crops in the United States is exceptionally low. This would appear to indicate a large reduction in the corn available for export from that country, and to make it probable that feed of all kinds will command a good price this winter. The oat crop is also light in Ontario.

THE MOTHER'S PRAYER. A mother's holy arms caressed A babe that laughed upon her breast. Then thus to Heaven she cried in prayer:

"Now even as his face is fair, "O Lord! keep Thou the soul within As free from any spot of sin." From Heaven the Lord an answer made,

"Behold! I grant as thou has't prayed." Within the door the darkness crept, And babe and mother sweetly slept. The belfry rang the midnight bell; The watchman answered, "All is well."

Awaking at the cradle side, The mother knew her habe had died

With grief to set a woman wild, She caught and clasped the marble child -Until her heart against his own Was broken, beating on a stone!

"Oh God!" she cried, in her despair, Why hast Thou mocked a mother's prayer? Then answered He, "As I have willed.

Thy prayer, O woman! is fulfilled. "If on earth his soul remain, His soul shall gather many a stain;

"At thy behest I reach my hand min, fiercely, turning his forbidding face To lift him to the heavenly land!" exhibiting every feature teeming with the The mother heard and bowed her head. And laid her cheek against the dead come aft and run the boat round, come And cried, "O God! - I dare not pray and be damned, and pretty steerage you'll Thou answerest in so strange a way!' In shadow of a taper's light,

But when the morning brought the sun, She prayed, "Thy will, O God, be done!" -THEODORE TILTON.

CAW'S ASHAWAY FOUNTAIN PE

A Double-Feed Fountain Pen that Never Fails.

Caw's " Dashaway" Pen.

In this age of strife and lurry, when each individual is trying to outstrip his neighbor in the race for wealth, it is important that all who wish to win should be possessed of the most modern appliances to accomplish their purpose. These remarks apply particularly to those engaged in the profession, and in mercantile pursuits whose attention has been attracted to the merits of Caw's DASHAWAY FOUNTAIN PEN.

Any good writing or copying ink may be used, and one fill g will write from forty to fifty pages of foolscap. It can be carried in the pocket ready for use in any emergency, and even if not used for months, as soon as touched to paper the ink begins to flow by capillary attraction and the action of the pen in writing.

Records, accounts, and letters written with this pen have a uniform color of ink on every page and line, because the ink is fresh and is laid on more evenly than with a dip pen.

It is the simplest, cleanest, readiest and most easily managed of all the fountain pens.

When the cap is removed it is ready to write, and when the writing is done the cap can be replaced and the pen is ready for the pocket.

The hard rubber is incorrodible, and with a gold pen there is nothing that can be affected by the ink, and unless unnecessarily injured it will LAST A LIFETIME.

A Letter from Benjamin Harrison,

President of the United Stales. Yours of the 15th inst. received, also the second "Dashaway" Fountain Pen, which just suits me. The first one I gave to Mrs. Harrison for her use. Thanking you for your attention, I am, Very truly yours,
BENJ. HARRISON.

Opinions of the Press. Evening Post .- " Caw's ' Dashaway ' surpasses all

the money that will allord so much profit and satisfaction."

The Tribune.—"The 'Dashaway' can be depended on at all times. It is especially valuable to mercantile men, stenographers and newspaper men, who are of necessity always more or less in a hurry."

The Times.—"The Dashaway' is not a stylograph, but a regular 14-carat gold pen attached to a fountain holder. It can be unused, carried in the pocket for months, and when needed is always ready."

The Mail and Express.—"It can be fitted to any hand, and does for the writer just what the continually the eaded needle does for the sewing machine, and what the untiring locomotive does for the traveller." the traveller."

The World.—"It is an amazingly simple contrivance, and so far as our experience goes, never gets out of order." ____AT___
