noon on Saturday, February  
4th. Freight received up to 10 a.m. on  
day of sailing.

HARVEY & Co.,  
Agents.

## LADIES!

What about the replacement  
of lost hair?

When the hair has fallen out  
the follicle is not necessarily  
destroyed, and prompt, unremit-  
ting attention, such as described  
below, will tone the hair, mak-  
ing machinery—and stimulate the  
vessels and tissues to action.

Hair health depends upon a  
clean, sound scalp, the pores  
of which are open, the glands  
active and the blood circulation  
in correct condition. It stands  
in reason that if the scalp  
(which contains the hair-pro-  
ducing machinery) is in perfect  
order, the hair will be good.

### ELLEN TIDMAN

## CALLAHAN, GLASS & CO'Y,

jan6,1f,eod DUCKWORTH STREET.

## SPECTACLE and EYEGLASS

fitting is not perfect unless the frames or mountings are properly ad-  
justed, and that requires the expert hand. The beneficial effect of a  
correct glass may be upset by an ill fitting frame. It has been my  
special work for over twenty years to correct troubles emanating from  
eyestrain, and placing the proper lenses in the most suitable and be-  
coming frame or mountings. All my work is guaranteed.

R. H. TRAPNELL, Eysight Specialist.

## Screened North Sydney Coal!

We have opened 2 Sheds Prime North Sydney  
Coal to-day. Can be seen at Tessier & Co's Premises.  
Sent Home at Our Usual Low Price.

Why was every Coal Dealer allowed to build wooden sheds, covered  
with iron, and WE were refused? Was it because we lowered the price  
of COAL?

Orders taken at Beck's Cove Office, four Wharf Office, and  
at Tessier's Wharf.

CHAPTER X.  
THE NEW PARTNER.

(continued)

"WHAT was not then the question in any shape, Bessie's mother died of consumption, and I think Bessie ought to spend the winters South. A home in Texas is a great deal better than one in Florida. And there was the old home! It ought to have been mine, and I had an opportunity to make it Bessie's. This business will eventually be yours. How then could you have spent half the year in Texas? But we will not discuss the business side of the question at present. Bessie has doubtless written you a letter. She wants you to take dinner with us, and I think you had better leave me alone to-day. I will meet you at my house about seven to-night."

"Let me go through the mail for you, uncle."

"No. I want to be alone. When some young man has just taken your daughter from you, John, you will remember this hour and understand 'why' I wish to be alone, with more business to do than I can well manage. Say nothing of your relationship to Bessie. It will come out naturally during the evening."

"But you are not angry, dear uncle? Oh, no! No! It is all right."

Then John, a little reluctantly, rose and went away. He was so slow in caving that Mr. Madison looked up a little impatiently. The young man could not understand his uncle's mood. Yet it was a very natural one. The

BY THIS SIGN

you know that you are getting the one preparation that has stood the test for over thirty-five years and still remains the standard tonic-food-medicine, used and recommended by the medical profession the world over.

Scott's Emulsion

is the embodiment of elements that make for good health and strength. There are many emulsions but only one SCOTT'S—ask for it, and be sure that you get the package that carries the mark of quality—The Fisherman.

TRADE-MARK  
ALL DRUGGISTS

"He may tolerate me for your sake. You will stand by me, Bessie?" Bessie was assuring her lover of her loyalty, when she heard her father's footsteps. She listened for those of his companion, but ere she could be sure they were wanting, Mr. Madison entered the room. Bessie had stepped from John's side to a table holding a bowl of lilies and pansies, and she appeared to be arranging them. In a moment's glance she saw that her father was alone, and his kind smile quite reassured her. She advanced a few steps to meet him as he approached. John stood up, and she was just going to introduce him, when Mr. Madison said, with an air of perfect familiarity:

"Well, John, I wish I had let you help me with the mail. It was a pretty heavy one."

Bessie's glance went rapidly from one to the other. She understood the position at once. The whole incident flashed upon her quick intelligence. But with an air of the most proper conventionality, she said:

"Father, I have the pleasure to introduce to you your old manager and your new partner, Mr. John Newton—Madison!"

Her charming air of triumph brought back to her most humble apologies and explanations. Mr. Madison's were not long, nor yet very serious. His attempted little surprise was a natural one under the circumstances. He had simply pleased himself with the idea of showing Bessie that her brand-new lover was a very old and familiar acquaintance of his. And Bessie felt her ability to add to "Madison" to Mr. John Newton's name to be a full quit-claim.

(To be continued.)

A Good Digestion

means a man or woman good for something—good work or pleasant times. Whoever has distress after eating, sick headaches, nausea, bad taste, unpleasant breath, cannot find food in anything, or be of much use in the world.

But these symptoms are only signs that the stomach needs a little care and attention and the acid that

can give. Safe, reliable, thoroughly tried, this family remedy has wonderful relieving power. "They tone the stomach, liver and bowels—all organs of digestion. With these organs in good order, the whole system is better and stronger. Try a few doses and see for yourself what a splendid bodily condition Beecham's Pills

Can Create

AGONY ON OPERATING

Did Not Remove Stone

"During August last, I went to Montreal suffering terribly with Stone in the Back, and was assisted by another doctor. They bean and too hard to crush and they could not..."

"What glorious news to those who are a Stone In The Back! Here is a new and certain means of getting rid of the stone without a surgeon. GIN PILLS dissolve stones because GIN PILLS are the greatest stone dissolver known."

"If your trouble is like Mr. Lessard's, PILLS. Money refunded if they fail to Sample box free if you write us, mentioning National Drug and Chemical Co., Dept. 14. If the bowels are constipated, use Pills. 25c. a box."

A Schooner's Peregrinations.

The schooner, *Invincible*, which sailed Cape Race at 1.15 p.m. yesterday, is on her way to this port, has made a voyage of great length and one crowded with exciting adventures. She was here on the 15th of September last, to go to Bay of Islands to load fish for Jas. Baird, Ltd., and on the way was blown to sea in stormy weather on four different occasions, after which she reached Bonne Bay with her sails and gear badly damaged. She underwent repairs there and once again made a try to reach her destination. Again stormy weather led her to be blown to sea, and she was blown to sea again on the 24th of September, when she was wrecked on the rocks of the Strait of Canoe, with most of her sails gone and general havoc wrought upon the decks. New sails and other repairs were once more made, and she once more was ready to start on her homeward voyage. She has since made several ports on her homeward voyage, and was on her way to this port when it was dangerous to run her, and she was blown to sea again. The vessel which left here with the schooner has been to Brazil and back, and has again on their way south by the vessel (the vessel has been all this time in the sport of the elements. She was considered that she has been a "good" doer."

Ramea, Jan. 11th, 1911.

Sails Not Torn.

The *Margaret* arrived in St. John's on Thursday, 10th ult., from the west, making the passage in 14 days. She has harbored there on her last voyage, and to have a new lot of sails made for some repairs. Her last voyage was a side of that there was an attempt to do some work on her sails, but it was not correct that her sails were torn to pieces.

Marine Notes

The s.s. *Woburn* arrived here on Tuesday, 10th ult., with a cargo of fish, beyond some snow showers had a fair weather. She left here on Wednesday, and on returning to St. John's will lay up for an overhaul. She will engage in the St. Lawrence trade next summer and will run here with a coal tin for 14 months as usual.

The *Dorothy Louise* cleared today for Bahia King 2:30 hours stopped by James Baird Ltd. under charter.

The s.s. *Hafni* is now the berth with coal from Trow to Crosby & Co. After discharging she will be laden with fish for the Mediterranean by A. H. Murray.

Personal.

Sir Robert Bond arrived in town from Whitehouse to-day.

Mr. W. G. Pippy is considerably improved in health to-day.

CENTRAL DISTRICT COURT.—Joseph Churchill of Portual Cove, summoned Park, Kelly, of the same place, to-day for the recovery of seven loads of wood cut by the plaintiff and deposited on land which defendant claimed to be his; and for which reason he took possession of the wood. After hearing the evidence of the principals in the action and some others, judgment was given in favor of plaintiff. Mr. Herder for plff., Mr. Higgins for deft.

G. P. O., January 30th, 1911.

H. J. B. WOODS, Postmaster General.

**Ten Years in the Frozen North.**

**H. T. FORD PRESENTED WITH GOLD WATCH AND CHAIN AS A TESTIMONIAL OF AN HEROIC RESCUE.**

This morning we had a visit from Mr. H. T. Ford, who left here ten years ago for the Frozen North, and was one of the company who returned from Fort Churchill with the Bartlett and MacCoun party. Mr. Ford accompanied Missionary Stewart ten years ago to Port Burwell, at the entrance of Ungava Bay, and acted as his interpreter with the Eskimauks, with whose language he was acquainted, as he was born and brought up on the Labrador. He stayed at Port Burwell two years and then accompanied the Low Survey party in the Neptune to Hudson Bay. He was employed in the survey another year, and then he joined the North West Mounted Police, and has been a member of this force for the last seven years. He then determined to return to Newfoundland to visit his father and relatives. He accompanied the MacCoun survey party and the Bartlett party from the wrecked Jeanie from Fort Churchill, which has been his headquarters for the past seven years, to Gimli, a railway terminus on Lake Winnipeg, connecting it with the Capital of Manitoba, and a collecting centre for the white fish caught in that lake and distributed to the western people. As he was used to the Frozen North all his life, and for many months of the year had been used to a steady dry cold of 40 to 60 degrees below zero, he did not mind the trip from Fort Churchill to Gimli. He came through himself with a single dog team. The others travelled from post to post, changing guides and teams at each post. They took the river Churchill, crossed over to Split Lake, made Norway House, the most northerly post of the Hudson Bay Co. on the Lake, skirted the eastern shore of the Lake, crossed on the ice where the Lake narrows and made Gimli, where he left the party and took train to Winnipeg, and via Ottawa and Port aux Basques reached St. John's last night. He says that the prevailing winds at Fort Churchill are north-westerly and therefore cold and dry. Sometimes they have northeasterly, which brings on wet and foggy weather. Little fishing is done in Hudson Bay and what is caught is mostly salmon, trout and white fish. There is, however, no cod. American whalers

fish for the sperm whale. There is no trade in fish. Furring and supplying is done by the Hudson Bay Co., the collecting being done by the s.s. Pelican. This company enjoy a practical monopoly in these parts, the Revillon Bros. being on the other side of Hudson Bay.

Mr. Ford is now enjoying a vacation and took advantage of it to return to Newfoundland to see his father. He hoped to have been here early enough to get down to St. Anthony in the Prospero, but he could not get here in time. He purposes, however, to take train to Howley next Tuesday week and make his way with the mail man to St. Anthony. Born at Nachovack, where his father was an employee of the Hudson Bay Company, brought up as a boy on the Labrador, with an interval of two years in St. John's, having passed the past ten years in Hudson Straits and Hudson Bay with the comatick and canoe, a tramp to St. Anthony in February will be but a passing incident. At St. Anthony he hopes to see his father, who is in charge of the Grenfell co-operative stores, and then to return to Fort Churchill by sea next summer.

He has a brother in the city and other relatives. A cousin of his told us of a deed of heroism which Mr. Ford modestly refrained from making reference to. In August, 1908, he was canoeing with Corporal Rees of the North West Police and another man on the waters of Hudson Bay. The canoe upset, one man was drowned, but Corporal Rees was saved by Ford. His superiors in testimony of his pluck presented him with a gold watch and chain, inscribed with his name and the part he had played in this deed of humanity.

**Bay Filling With Ice.**

The s.s. Fogota left Barrow Harbor, near Salvage, B.B., on the way home at 10.30 this morning. Capt. Barbour, who put in there yesterday to take fish freight for Salvage business men, had evidently to cut and run this morning to avoid being caught in the Bay. He wired from Barrow Harbor via Salvage to Hon. J. C. Crosbie this morning: "Slob ice making fast and packing in the Bay. Have taken on board all the dry fish and 40 qts. wet. Cannot delay leaving any longer for fear of being caught."

**Bonne Bay Did Well.**

Weather very cold up here. All the American vessels gone but one. Fear she will have to remain all the winter, as drift ice came in last night. To-day not any sign of water to be seen. Herring is plentiful here yet. All our people did very well. About \$50,000 was left in Bonne Bay by the Americans.

Norris' Pt., B.B., Jan. 27th, 1911.

**Fire at Ropewalk.**

At 12.20 last night an alarm of fire was phoned to the Western and Central firemen from the residence of Mr. Alderdice, saying that a fire was raging at the Ropewalk. The West End and Central men turned out in quick time. The Central men brought their hose wagon and the West End men the chemical. On arriving on the spot it was seen that the fire was raging not in the Ropewalk proper but in a two storey brick and concrete building detached and to the south west of the main building, known as the Tar House. It was here the Company kept all their big stock of tar, ropes, twines, nets and a variety of things used in the rope-making business. It was realized that nothing could be done to save the building from being gutted. The firemen started in to keep the fire confined to the four walls inside, and after working hard till 4 in the morning they succeeded in doing this. Once the fire got hold of the contents of the barrels volumes of smoke and flame burst out that rendered the work of the firemen extremely dangerous. When the fire was quenched and the firemen got a chance to look in amongst the ruins they found that the building had been completely gutted and all the contents destroyed, amount to several hundreds of dollars worth. In returning from the fire at 4.30 a.m. the West End firemen in charge of the steam engine met with a serious mishap. At the head of Power Street the big engine sheered. Fireman Connor who was on the engine in his seat had barely had time to jump for his life when the engine turned turtle. Engineer Con. Kavanagh and Fireman Reardon also had a narrow escape having just got

**Here and There.**

There will be no practice for Gower Street Choir to-night.—Feb. 3, 11.

**BOWRING SHIPS.**

The Portia passed Cape Race at 8.30 a.m., and is due here at 4 p.m.

**STAFFORD'S Liniment** can be used both internally and externally—14c. a bottle.

**HOCKEY MATCH**— Crescents vs. Victorias, Prince's Blak, at 7.30 to-night.—Feb. 3, 11.

**STAFFORD'S Liniment** will cure Coughs, Colds, Bronchitis, when applied to the Chest, only 14 c. a bottle.

**CAR LOADS OF ICE.**—The trains are bringing in car loads of ice every day this week from Irvine Pond for the Bennett Brewing Co.

**GUESTS AT BALSAM PLACE.**—P. Arlington, New York; J. P. Gordon, Western Wan. Eng.; Mr. and Mrs. E. Crockett, Toronto.

McKinley Music. Just received 500 copies McKinley Music, also new catalogues for 1911. **CHESLEY WOODS.** Sole Agent for Newfoundland.—Feb. 3, 11.

**THE RAILWAY CLEAR.**—The express which arrived here yesterday evening made good time along the road, which is now clear. She made the run from Port aux Basques to St. John's in 27 hours, and the train hands say there is considerable snow west of Bay of Islands and a plow had to be sent to that place. East of that the road is clear as it would be in summer. The weather on the run across was very cold.

**BANK OF NOVA SCOTIA.**

INCORPORATED, 1832.

**Information for Depositors.**

The following certificate is attached to the 79th Annual Statement, published January 16th, 1911:

We have examined the books and accounts of the Bank of Nova Scotia at its Head Office, Halifax, at the General Manager's Office, Toronto, and at seven of the principal branches, and we have been duly furnished with certified returns from the remaining branches and with all information and explanations required by us. The Bank's investments and the other securities and cash on hand at the branches visited have been verified by us and they are in accordance with the books; and we certify that we have examined the foregoing general statement and that in our opinion it is properly drawn up so as to exhibit a true and correct view of the Bank's affairs as at 31st December, 1910.

PRICE, WATERHOUSE & CO., Chartered Accountants.

The Books and Annual Statements of the Bank have been submitted to independent audit annually, beginning 1906.

**Train Notes.**

By the Bruce express which left here at 6 p.m. yesterday there went Colonial Rees, Mr. McMartin, R. H. Reid, E. J. Hoskins, A. Cobb, Miss Murray, Miss Power and 20 second class.

The west bound express left Grand Falls at 8.50 a.m.

The incoming express left Port aux Basques at 1.45 a.m. to-day.

The local via Broad Cove arrived here at 12.15 p.m. bringing Sir Robert Bond, R. Shea, Geo. Miller, T. P. Connors, J. Fynn and Mrs. J. F. Downey.

**Coastal Boats.**

**REID FIELD, CO.**

The Argyle arrived at St. Jacques at 6.15 a.m. to-day.

The Gloucester arrived at Placentia this morning.

The Home left Epworth at 10.35 p.m. yesterday going west.

The Bruce arrived at Port aux Basques at 12.30 p.m. to-day, having been delayed by ice.

**Personal Notes.**

We regret to record the serious illness of Mr. Patrick Kennedy, tailor, of Water Street. Mr. Kennedy has been in failing health for months past and his recovery is now considered doubtful.

**UNKNOWN STEAMER.**—An unknown steamer passed Cape Race yesterday morning going east. She kept well off to sea and has not been seen since.

**Here and There.**

**APPOINTED AUDITORS.**—Messrs. J. Matheson and S. Bell were appointed auditors at the meeting of the Foully Association held last night.

**GLENCEO ARRIVED.**—The S. S. Glenceo arrived at Placentia this morning bringing in salmon A. Cowan and T. Poole and 5 in second class.

**UNION MAN'S COMPLAINT.**—A member of the Longshoremen's Union who had been laid up with an attack of illness, and had been in the hospital three months, complains that he is unable to get any satisfaction as to the monetary help that he is entitled to under the rules of the society.

**DIED 90 YEARS OLD.**—Mrs. Dorey, mother of Mrs. Canning, died at her daughter's residence, Theatre Hill, this morning. Deceased was born in St. John's over 90 years ago and retained all her faculties up to the time of her death. Mr. Fred Canning, of Barr's office, and Mr. Ernest Canning are her grandsons. The funeral will take place at 2.30 p.m. Sunday.

**Death of Mr. J. Munro.**

The news of the sudden death of Mr. John Munro, which sad event occurred at the residence of his father-in-law, Mr. Robert Wright, yesterday forenoon, came as a sad surprise to his many friends in St. John's. Mr. Munro had suffered for a time from paroxysms of coughing but had apparently recovered from them. Yesterday morning he however was again suddenly seized, when Mr. Wright hastened to procure the services of a physician. Shortly after he left his residence the end came and on arrival at the doctor's residence Mr. Wright was apprised by telephone of what had occurred. The deceased was a native of Inverness, Scotland, had been 8 years a resident of this city, and for the latter part of this period had been in the employ of Messrs. Ayre & Sons, leaving them to establish the firm of Nicholson & Munro. His genial disposition and affable manner won for him many friends in the city, and few there were who did not esteem and respect Jack Munro, as he was familiarly addressed. He was an enthusiastic member of the Nnd. Highlanders, and his comrades in that organization are sorrow-stricken at the removal of one who had endeared himself to all. The deceased leaves a widow and 3 children with a number of relatives in Scotland, and to them the Telegram extends its deepest sympathy. The funeral takes place to-morrow afternoon from "Hillside," the residence of Mr. Wright, on Freshwater Road. The Highlanders will attend in a body, following for the first time since the inception of the brigade a comrade to his last resting place.

**Marine Notes.**

The Woburn is due here to-night from Sydney with a coal cargo.

The Mianie, Capt. Wakeham, sailed from Bahla Wednesday to take a molasses cargo to this port.

The Evelyn, Capt. Burke, sails for Pernambuco, Monday, and Mrs. Burke goes on the round trip in the vessel.

**SAILS TO-DAY.**—The s.s. Pontopidan will sail to-day for Hubbard's Cove, N.S., to take a load of lumber to Buenos Ayres.

**The Open Door for Canadian Fish**

Gloucester, Mass., January 28th.—While the free admission of cured, or dried fish in any form is opposed by leading Gloucester fishing interests, there are prominent packing and shipping concerns here which favour letting in green fish free. Dried fish is meant fish caught and salted aboard the vessel prior to being landed for further curing operations. Advocates of the free green fish idea asserts that business in Gloucester would be stimulated instead of injured thereby and they point to the conditions existing from 1872 to 1884, when the reciprocity treaty was in force. J. J. O'Brien an officer of a fish packing company said to-night, in speaking of the former Reciprocity Agreement: "It was hard to secure a wharf to conduct the business then. The town was great in population and valuation and blossomed into a city. Gloucester never saw better days than under the Washington Treaty when the free raw material, green fish, came in free. But I am opposed to all kinds of dried fish being admitted free."

**Kidney Suffering**

Backaches and tired feelings tell of weak kidney action—Prompt relief by using DR. W. CHASE'S KIDNEY AND LIVER PILLS. There is no treatment for kidney disease which will afford you relief so quickly as Dr. W. Chase's Kidney and Liver Pills, and none which will so certainly cure the most complicated forms of this disease. There is a reason for this. Dr. W. Chase's Kidney and Liver Pills awaken the action of the liver and bowels as well as the kidneys and thereby effect a thorough cleansing and regulating of the excretory system. Mr. S. J. Argie, Kars, Carleton, Co. Ont., writes: "I have suffered a great deal with kidney troubles and pains in the small of the back and have tried a good many remedies without obtaining very much benefit. I wish to say, however, that I can heartily recommend Dr. Chase's Kidney-Liver Pills as a splendid medicine as they have proven of very great value to me." Dr. Chase's Kidney and Liver Pills, one pill a dose, 25 cents a box, at all dealers, or Edman & Bates & Co., Toronto. Refuse substitutes.

**Regulus-Golden-Arrow Fund.**

Editor Evening Telegram.  
Dear Sir,—To-day I have received a draft for five pounds sterling £5.00 from Mr. A. G. Sutton of England, a director of the "Daily Mail," per Mr. P. T. McGrath, Editor of the Chronicle. Also forty one cents from Patk. Harvey, sale of Agricultural Exhibits. These amounts will be added to the total already published by you. Yours faithfully,  
JOHN R. BENNETT.  
St. John's Feb. 3rd, 1911.  
P. S. I regret omitting the name of Mr. R. Deveraux, M.H.A., in the last paragraph of my letter yesterday.  
J. R. B.

**"Absolutely Alright."**

That is what an authority says of **Magic Headache Powders.** They cure—no ill after effects, which is all right. The price 10 cts. is all right. W. T. COURTENAY, corner Duckworth and Prescott Streets.—Jan. 17.

**Mechanics Meet the Premier.**

A deputation of the Trades and Labor Council, consisting of Messrs. Colbert, Barnes, Ruby, Colman and A. H. O'Keefe, called on the Premier yesterday afternoon and discussed with him the possibility of effecting a change in the tariff which would favorably affect certain trades and principally the Tinsmiths. The proposals made by the deputation were discussed and the outcome was that the Premier promised to put the matter before the Government at once so that it might be dealt with at the coming session of the Legislature.

The local arrived at 9.10 last night bringing Mr. Jerrett, Capt. Sheppard, Chesley Woods, Miss Walsh, A. Simpson and 40 others.

**DIED.**

Yesterday at 10.30 a.m. John Y. Munro, aged 31, a native of Inverness, Scotland. Funeral to-morrow, Saturday, from the residence of his father-in-law, Mr. Robert Wright, Hillside, Freshwater Road, at 2 o'clock.

On the 2nd inst. after a brief illness, William R. Firth, aged 69 years. Funeral on Sunday at 2.30 p.m. from his late residence, 43 Hayward Avenue. Friends will please accept this the only intimation.

## Cable News.

Special Evening Telegram. MANILA, Feb. 2. Prolonged earthquake shocks rous- ed the residents of this city to-night, causing alarm here and throughout the Philippine Islands.

Special to Evening Telegram. PAU, France, Feb. 2. Eight passengers, with a combined weight of 1,112 lbs., flew to-day in a four-seated Blériot monoplane over the Pau Aerodrome, making a new record for heavier-than-air machines.

Special to Evening Telegram. WASHINGTON, Feb. 3. The Australian Premier has sent a message of condolence to the family of Admiral Sperry, who died yesterday, in which he referred to the valuable work done by Sperry in the promotion of closer relations between the United States and Australia.

Special to Evening Telegram. PUERTO CORTEZ, Feb. 2. The evacuation of this city by the troops of the Government of Honduras has taken place and the town is now in the hands of British and American marines, who are awaiting the arrival of the forces of General Bonilla, the leader of the revolutionists.

Special to Evening Telegram. MEXICO CITY, Feb. 2. News of a battle between the Government troops and the insurgents has just reached here. It is stated that 75 of the revolutionaries have been killed, among them being Orisco, father of the leader of the rebels, and Pacheco, the leader in the North. A large number of horses and rifles have been captured by the Federal troops.

Special to Evening Telegram. WASHINGTON, Feb. 2. The Legislative programme in Congress was discussed today by President Taft, with a number of Congressional leaders, amongst them Senator Root, who declared that whilst he was strongly in favor of the Canadian reciprocity agreement it was doubtful if it would pass this session owing to the large amount of legislation which the Senate must dispose of before adjournment. He expressed the hope that the agreement might be confirmed before March 4th.

Special to Evening Telegram. WASHINGTON, Feb. 2. The first hearing by the Ways and Means Commission of the House upon the reciprocity agreement took place today. The time was occupied by protests by Gloucester fishermen, who strongly opposed the free fish compact. Men identified with the fishing trade testified that the industry could not survive the effect of free admission from Canada. The Gloucester trade had, they affirmed, been little more than holding its own for years, and the removal of the tariff barrier would wipe out the profits that remained.

Special to Evening Telegram. PARIS, Feb. 2. The French newspapers have been insisting that the triple alliance between Russia, France and Great Britain is almost a dead letter. In the Senate yesterday, M. Pichon, Minister of Foreign Affairs, declared the entente was never so complete or productive of results as to-day. It was charged that Russia left her ally in the dark as regards the historic interview between Nicholas and Emperor William at Potsdam in November last. Of this interview, Pichon says Russia not only informed France before hand of the subjects to be discussed, but kept her posted of all that transpired at the meetings.

**Dangerous Plight.**  
Shortly after three o'clock this morning as Mr. Peter Purcell, one of the Sanitary Staff, was performing his work along Duggan Street he heard some person moaning, and after considerable search could not locate the individual about that thoroughfare. He then went down to New Gower Street and found a young man named Morye down to his neck in a coal chute which leads to the cellar of his residence. He being unable to gain admission evidently attempted to get down through the coal chute into the cellar and thus get up through to his room. In doing so his overcoat as he struggled was caught around his neck, and but that Purcell came by he would assuredly have been strangled. Purcell called his companion, a man named Chafe, and both lifted the man to the sidewalk. He then reassured his friends who admitted the man who had to carry Morye into a room he being too much exhausted to walk. It was sometime before he revived and when he did so he thanked Purcell for his timely assistance.

**TAKEN FROM HOSPITAL.**—Yesterday the ambulance took Miss Brennan from the General Hospital to Bell Street, where she resides. She recently underwent an operation in the institution and is now improving, though but gradually.

**THE QUEEN MOTHER AND THE CORONATION.**  
Special Evening Telegram. LONDON, This Morning. It is stated that the Queen Mother, Alexandra, will not attend the Coronation.

**ARAB BARBARITIES.**  
Special Evening Telegram. WASHINGTON, This Morning. A despatch from Constantinople says that two Arab tribes, friendly to the Turks, have been massacred by the Yemen rebels. All adults were killed and the legs of the children were cut-off.

**BIG EARTHSLIDE.**  
Special Evening Telegram. WASHINGTON, This Morning. Another earth-slide, a mile long, has started and is moving towards the Culbra Cut of the Panama Canal. It has already covered completely a 35 foot bank of the canal opposite to the tow paths, with 250,000 cubic yards of material.

**TENDERS FOR CANADIAN WAR-SHIPS.**  
Special Evening Telegram. OTTAWA, This Morning. The Dominion Government has called for tenders for the construction of ten new vessels for the Canadian Navy. This is the contemplated initial building programme of four Bristols and six Destroyers of the latest improved type. It is stipulated that the vessels must be built in Canada.

**UNIONIST VIEWS.**  
Special Evening Telegram. LONDON, This Morning. The Unionist Press have abandoned the discussion of the Veto Bill and the Reform of the House of Lords, and have taken up the discussion of Reciprocity as the most live issue. They declare Tariff Reform and Imperial Preference more urgent than ever. Mr. Atkin, M. P., Canadian Financier expresses the view that the United States has been wasteful of her natural resources and is now compelled to look to Canada's untapped resources to prevent impending disaster. The Standard says Canada is mistress of the situation yet, agreement or no agreement, the Canadian Ministers have allowed themselves to be hypnotized by the brilliancy of the American offer and have fallen into the trap, President Taft so carefully laid. The Daily Telegraph says: There is still time for the Mother Country to get to being Canada into a wide scheme of Imperial Preference. The choice is between keeping and losing Canada, between saving the Empire and allowing it to drift to dissolution. The possibilities of Imperial Preference in connection with an understanding with the United States is no wider than ever. The whole question may be placed by future Unionist negotiations with Washington and Ottawa upon a bigger and more practical basis in order to effect the double purpose of Imperial Union and Anglo-American friendship. The present Reciprocity project will be no obstacle but a strong help.

**Dr. de Van's Female Pills**  
A reliable French regulator; never fails. These pills are exceedingly powerful in regulating the generative portion of the female system. Refuse cheap imitations. Dr. de Van's are sold in a box, or three for \$10. Mailed to any address. The Scobell Drug Co., St. Catharines, Ont.

# SUNLIGHT SOAP

## At the Theatre.

Last night the W. S. Harkins Co. repeated the comedy, "The Run- aways," and again drew a large audience, who were delighted with the performance and specially a very pleasant evening. The performers, if possible, were seen to better advantage than in the initial production. To- night Sir Gilbert Parker's great play, "Pierre of the Plains," a drama of the great Canadian Northwest, will be produced and should be greeted with a full house, as it is a piece of absorbing interest.

## Battalion Drill.

A B and C Companies of the C.L.B. had a Battalion Drill and Inspection at the Armoury last night. The proceedings were opened by the band playing some fine selections. Lieut.- Col. Rendell then proceeded to conduct the drill and inspection. Capt. Bernard put a squad from 'C' Co. through club swinging exercises, and then Sorp. Bartlett ordered B Co. to give an exhibition in free gymnastics. This drill was particularly well executed. Capt. Goodridge put A Co. through their section marching exercises, followed by evolutions of physical drill and manual exercises of the battalion under Major Warren. Change Guards and Orders followed, then came the National Anthem, which brought the programme to a close at 9.30 p.m.

## Blood-Poisoning After a Cut.

**Zam-Buk Saved His Finger.**  
Mr. Albert Brennan, butcher, of 141 Lindsay Ave., Toronto, had good cause to be thankful for Zam-Buk! While at work he cut the middle finger of the left hand rather badly, but did not think that any serious consequences would follow. Some disease germs—of which the air is full—entered the wound, however, and next day the finger was swollen and painful. He bathed it in hot water and applied some ordinary ointment, but the pain got worse, and the swelling continued. Not only so, but the area of the inflammation extended, until from the finger to the elbow it was inflamed and sore, and he knew that blood-poisoning had set in. He had to give up his ordinary work, and suffered acute pain. Finally he decided to enter St. Michael's Hospital, but just before doing so, having mentioned the intention to a friend, the latter advised him to try Zam-Buk. Mr. Brennan acted on this advice, and soon proved Zam-Buk's great value. He says: "It cured the pain almost as soon as applied, and within a day of first commencing the Zam-Buk treatment, it was back to work! Of course, I don't mean that in that time the wound was healed, but the pain had gone and the danger from blood-poisoning was averted. After that, healing was only a matter of a short time under the beneficial operation of Zam-Buk. I have no hesitation in saying that Zam-Buk saved my finger, and I am very glad to let you state these simple facts publicly, in the interests of other workers, liable to similar accidents."

Zam-Buk is equally effective for piles, ulcers, abscesses, eruptions, ring-worm, children's rashes, scaly sores, chapped hands, frost bite, and cold sores. Every housewife should keep a supply handy, and no mother should be without it in the home. Sold by all druggists and stores. Get St. John's, Nfld., upon receipt of price, refuse substitutes.

**CONSIGNMENT OF BEEF.**—A load of dead meat, over 200,000 lbs., arrived here from Port aux Basques by the freight train yesterday.

## The O...

## Tim Shannahan on the Weather Forecast.

### DELANEY WANTS A NEW MAN PUT ON THE LOOK-OUT.

"'Tis about time," says Delaney, "to sack that man in Toronto who does out the forecast of the weather. He's a regular howler on squalls of wind, and we haven't had a soft day since he took charge. Do you know there's such a thing as jinkers—men who always and ever bring bad luck. We had a fellow who used to go to the ice with us, and for the five springs he was with us we didn't clear our crop. After a while it struck us to fire him, and that spring we called on the captain and suggested that for the good of the voyage he'd better leave this jinker on shore. The captain wouldn't listen to us at first, saying 'twasn't fair to treat a man in this fashion without sufficient reason. But we felt sure he was a jinker, and knew 'twas useless to go to the ice with him on board. So we agreed to give him a share for stopping at home. We sailed without him, and we were in first that spring log loaded. Ever since I believe there's such a thing as jinkers, and I'm sure you'll have no good weather 'till they sack that weather prophet in Toronto."

"You're right," says Mrs. Tucker. "I don't see the use of a man getting paid for making you meet trouble half way. 'Tis had enough to meet it when it comes, but to go to bed half frozen and to know that you're going to be frozen harder to-morrow makes life twice as hard. I think 'tis time for the Premier to take a hand in and try and get a man that will see brighter things ahead. Why, 'twould be good news to have no news, if all the news we're going to get is a prophecy of gales from the southeast with blinding storms, accompanied with intense frost."

The "Cute Man" suggests a change and would urge on the authorities to place a new man on the "look-out," for we believe the man who now holds the job either hung a cat or held a vessel in the days of his youth.

TIM SHANNAHAN.

## Report on Prepa...

### AMERICAN EXPERT PREPARES REPORT ON INVESTIGATION OF GLoucester FISHERMEN'S GRIEVANCES.

The United States Department of Agriculture, through its Bureau of Chemistry, has issued a report on "the preparation and other salt fish for market," based on bacteriological study of the "reddening." The report is the result of the investigations and therefore were made by a visiting inspector in the industry.

The report is a most valuable document and cannot be of any value also, when viewed from the angle, and will be read with interest wherever fish are landed and prepared for market, either salt or fresh, on the coasts.

The story of how Dr. Williams pursued his investigations and his experiments is only interesting in itself. Back in the early part of 1909, some of our commercial shippers—found themselves in a controversy with a pure food inspector of Indiana regarding fish shipped in a state on which preservative was used. The correspondence was lengthy and in the end, the inspector, with faithful, determined official, came to see that there was some merit in

## A Large Herring Shipment.

A message from Curling to the Marine and Fisheries Department today says that it is very frosty there and that fishing in the Humber is fairly good. Twelve cars of frozen herring have been shipped to Port aux Basques by American captains to date for re-shipment in their vessels to Gloucester. The fishermen are receiving \$2.40 per barrel for the fish and teamsters hauling the herring to the railway station make \$7 to \$8 daily.

## LOOKING FOR BERTHS.

—To-day a number of men from Portugal Cove and Bailline, walked into the city in quest of berths for the seal fishery. They suffered severely on the road, as being very frosty and most of them find it difficult to get what they wanted.

## Electric Restorer for Men

**Phosphonal** restores every nerve in the body, says that it is very frosty there and that fishing in the Humber is fairly good. Twelve cars of frozen herring have been shipped to Port aux Basques by American captains to date for re-shipment in their vessels to Gloucester. The fishermen are receiving \$2.40 per barrel for the fish and teamsters hauling the herring to the railway station make \$7 to \$8 daily.

## Knicker—They say that in 3,000 years Niagara will stop flowing.

Mrs. Knicker—"That makes me hope the plumber will get our leak fixed yet—Harper's Bazaar.

## Monday and Tuesday. The Story of Esther.

Parisian Film de Luxe. A Notable Biblical Production.

## Typhus Still Spreading

Case Develops on Springdale Street. Yesterday a case of typhus was discovered on Springdale Street, Mr. Sam Withshire being now stricken with it. This patient is very ill of the disease and must have been ill of it for several days. Dr. Brehm saw him this morning but the man was then too ill to talk much and it is therefore not known how he contracted the disease. It is possible that he had intercourse with some of those previously afflicted but Dr. Brehm will try and learn how he contracted it as soon as the man can talk intelligently. He has a wife and 4 children residing in the same house with him and he cannot be removed to hospital until he improves which may not be for 5 or 6 days or so longer. The house is quarantined and placarded and will be disinfected and fumigated after the patient is taken to hospital. Since the start of the outbreak there has been about sixteen cases of the disease under treatment with 4 deaths. Unless great precautions are taken it now looks as if the disease will spread.

## Accident at Bell Island.

James Rice, a young man of Red Head Cove who had been working on Bell Island since New Year, met with a serious accident there yesterday which may result in the loss of the sight of his left eye. He was engaged breaking ore with a maul when a piece of the rock flew up and struck him in the left eye. The company at once sent him over to the city in care of their man, M. Dwyer, with instructions to take him to hospital. He arrived in town last evening.

## PELL ON STREET.

At noon today, a man who had imbibed too freely, fell repeatedly at the foot of King's Road and might have been run over by passing vehicles had not officers Devine and Crocker taken him in charge. They secured a slide after a while and drove him to the lockup.

McKinley Music for Piano, Organ and Violin, Mandolin and Guitar, only 10 cents a copy. Ask for 1911 catalogue. CHESLEY WOODS, Sole Agent for Newfoundland.—Feb. 2.

## Backache Suffering

A wonderful medicine is this man's description of DR. CHASE'S KIDNEY-LIVER PILLS.  
Mr. Fred Gummer, Lillies, Ont., writes: "I can honestly say that Dr. Chase's Kidney-Liver Pills are a wonderful medicine. For six weeks last fall I could scarcely walk around for pains in the back and legs, and was almost completely unfit for work. Though I tried several medicines I got no better. I saw Dr. Chase's Kidney-Liver Pills advertised and bought five boxes. After I had used three boxes, I had them all taken felt as well as I ever did. I would advise anyone suffering from kidney disease to use Dr. Chase's Kidney-Liver Pills."

## Dr. Chase's Kidney-Liver Pills

"We have also used Dr. Chase's Syrup of Limes and Turpentine for bad colds and sore throat and would not be without these medicines for anything."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, at all dealers or Edmondson, Bates & Co., Toronto. Write for a free copy of Dr. Chase's Recipe Book.

## Fast Skater Coming.

Rumour has it that a young man named Smyth, a fast skater, will come here shortly from Sydney to try conclusions with some of our city skaters. He is said to have a good record and will try and arrange for several matches with our boys.

## Hockey Match To-Night

The Crescents and Victorias will play the League match to-night at the Prince's Rink. The Victoria players are—Cunningham, Vincombe, Paddon, Bulley, Tobin, Brien and Parsons. The Crescents are:—Burnham, G. Herder, Fenwick, H. Herder, Story, Stick and Woods. A lively game is expected.

## Harbor Again Frozen.

The intense frost of last night again coated the waters of the harbor with ice, but it is only a thin sheet and not bearable. Last week's several inches of ice formed on the harbour, but the tugs and steamers cut it up and it was driven out the Narrows by the gales of N. W. wind which prevailed.

**FROZEN HERRING TRADE.**—Four vessels are now at Port aux Basques seeking herring cargoes. Others are expected to arrive there. Some eight car loads of frozen herring were taken over the railway from Curling to Port aux Basques this week.

## The Only Food You Can Eat Three Times A Day For A Lifetime

Bread is the only food you can eat, day after day and year after year, and relish and digest. You can't eat one kind of meat or one kind of cake or one kind of any other staple or delicacy for any length of time.

Every food contains certain compounds which the digestive system adapts to its needs. The fact that the system will digest and assimilate bread, shows that bread is nature's food, the one perfectly balanced food.

Bread and milk is the diet of babyhood—toasted bread is the first solid allowed the sick and convalescent—and bread, in its manifold varieties, is the "staff of life", that best and cheapest food for young and old. So, eat plenty of good homemade bread made of

### "Beaver" Flour

and the problem of economic living is solved. "Beaver" Flour is the famous blended flour that is equally good for Bread, Cake and Pastry. It contains the rich nutriment of the finest Manitoba Spring Wheat combined with the flavor and delicacy of Ontario Fall Wheat. It is a bread flour and a pastry flour—as good for one as for the other, and best for both—and makes the bread that you can eat and enjoy and live on, three times a day for the rest of your life. YOUR GROCER has it or will get it for you. Ask for "Beaver". DEALERS—Write for prices on Feed, Coarse Grains and Cereals.

THE T. H. TAYLOR CO., LIMITED, - 100 - CHATHAM, Ont.

R. G. ASH & CO., St. John's, Sole Agents in Nfld., will be pleased to quote prices.

## Report on the Preparation of Fish

AMERICAN EXPERT PRESENTS REPORT ON INVESTIGATION IN GLOUCESTER—M A N Y SUGGESTIONS.

The United States department of Agriculture, through its bureau of chemistry, has issued a 63 page report on "the preparation of cod and other salt fish for market, including a bacteriological study of the causes of rotting." The report was written and the investigations and researches therefore were made by A. W. Biting, inspector in the bureau of chemistry.

The report is a most interesting document and cannot fail to be most valuable also, when viewed from any angle, and will be read with greatest interest wherever fish are caught, landed and prepared for market, either salt or fresh or both, and whether on the Atlantic or Pacific coasts.

The story of how Dr. Biting came to Gloucester—for it was here that he pursued his investigations and made his experiments—is quite interesting in itself. Back in the early part of 1909, some of our concerns—fish shippers—found themselves in controversy with a pure food inspector of Indiana regarding fish shipped to that state on which preservative was used. The correspondence was lengthy, and in the end, the inspector, evidently a faithful, determined official, came to see that there was some merit in the

arguments advanced by the shippers here with whom he was corresponding, and made some suggestions, as the result of which there was a general meeting of the fish dealers of this city, at which meeting it was voted to request Dr. W. H. Wiley, the chief of the United States bureau of chemistry to detail one of his scientific men to come here and study the industry and determine if possible the cause of fish turning red in the warm weather months, offering that if such a man be sent all possible assistance.

Dr. Wiley readily agreed to the plan and detailed Dr. Biting, which was very pleasing to the fish people here, for they had heard much of that gentleman's ability and thoroughness.

Dr. Biting came here in July, 1909, and immediately went to work, all the concerns assisting him in every way possible in his labors. He stayed five or six weeks and went away and then came back for more investigation work. In that winter he put in at his laboratory in Lafayette, Ind., working out the scientific side on much of the data he had collected, and was back again early in 1910, staying about a week. In late fall or early summer he came again and remained over a month, at that time completing his investigations.

The Result of His Investigations. Before leaving last summer, at the close of his work here, Dr. Biting addressed a meeting of all the foremen

of the various wharfs and lofts, in fact all the men having charge of any of the parts of the various plants.

To these men he talked plainly—told them what he had done, what he had discovered and what they could do to better conditions, making many helpful suggestions as to the care of premises and fish, all of which if followed would go far toward aiding in the prevention of fish turning red.

He also addressed the fish dealers and told them, too, the results of his investigations and made to them the recommendations which are now contained in his report.

On his very last visit here he spoke of the necessity of cleaning the wharves of refuse, etc., and this was so generally complied with and so readily that on his return he expressed himself as very much pleased with the change.

It cannot be said here that all of the recommendations made by Dr. Biting have been followed, but it can be said that many of them have in a great measure by the majority of the Gloucester fish dealers. And it is also no exaggeration to say that by far the larger portion of the fish shipped out of Gloucester to-day are prepared subject to many of these recommendations.

Some of the recommendations not now in actual practice will undoubtedly be later, for the fish dealers realize that Dr. Biting in making them, was actuated only by the highest professional motives and was earnestly striving to solve the problem set before him.

Recommendations Presented in Report

The recommendations which he made in his report, many of which, as above stated, are already being followed, are:

"The handling is by means of pews, resulting in puncturing the fish from four to seven times. The fish are thrown upon the deck, then on a staging, if the tide be low, and finally on the dock. These men walk among the fish, frequently stepping on them, whether their shoes be clean or not. This does not seem to the inspector in accordance with proper care. He says that a flexible conveyor from the hold to the scales is needed, that it would be easy of construction and would be a labor-saving device.

"In washing fish there is found to be room for much improvement, while in kenching it is recommended that air spaces be left between the kench and the walks made between the racks; that the kench rack be raised

higher from the floor, and that the platform be disinfected after every period of service.

"The work of skinning, cutting and packing is found to be clean, but it is urged that the tables be plain, without shelves or cross partitions beneath, so that no pieces of fish or fat can accumulate, and that they be cleaned once a day at least.

"Examination of water from Gloucester harbor, used for washing fish and making pickle at some factories showed that in no place was the water in the inner harbor pure. The long narrow harbor prevents the tide changing the water each day. Surface water from the streets and other drainings put much impurity into the harbor. It is recommended that water be brought from outside the breakwater to insure purity.

The Ladies of St. John's May Now Grow Beautiful Hair.

McMurdo & Co., backed up by the manufacturers of SALVIA, the Great Hair Grower, guarantees it to grow hair.

SALVIA destroys Dandruff in ten days. The roots of the hair is so nourished and fed that a new crop of hair springs up, to the amazement and delight of the user. The hair is made soft and fluffy. Like all American preparations SALVIA is daintily perfumed. It is hard to find an actress who does not use SALVIA continually. A large bottle for 50c.

Cheap Oklahoma Houses.

(From the Cement Age)

A builder of Oklahoma writes the bureau of manufactures that he finds it profitable to build four room cement houses and sell them complete with cisterns, front and rear porches of cement and outbuilding, including the ground, at \$1,000, on the installment plan. He is doing the thirty-five miles from a railroad station. Notwithstanding heavy freight charges of 25 cents a hundredweight, drayage on all cement, lumber, hardware, and all other building material except sand. The cottages in question have cement floor, steel ceilings, partition walls of hollow blocks, as well as outside walls. Although the roofs are shingled the contractor says that the whole structure is practically fire-proof and constitutes a very substantial building.

### Bell Island Notes.

The s.s. Heathcote arrived last week to the Dominion Co., bringing a large amount of freight and coal. She will likely remain here over a month doing dredging at the pier. Mr. J. C. Colbourne, late Superintendent of the Wabana Pier, but now of Sydney, arrived to superintend the work.

The recent cold spurt and storm was felt bitterly here. Many people were frostbitten. Despite the weather work continued, though one or two days, it being so frosty, the surface mines closed down.

Mr. S. Godden paid a week end visit to the city last week.

Mr. D. Trappell has accepted a position in the Dominion offices.

Mr. W. Siteman, who is well known at Bell Island, takes a position in the employ of Stewart Co.

Messrs. J. C. Colbourne and J. J. McDougall, of the Dominion Steel Corporation, Sydney, are at present at Wabana.

The Archer Variety Co. are at present fulfilling a lengthy engagement at Wabana Hall. Despite the weather conditions they have had some large audiences.

The Dominion west surface pit and Nova Scotia dam supply good skating to the young folks and their lassies.

Some of our local sports paid a visit to the Metropolis Monday to attend the wrestling match. On their arrival at the Cove Tuesday, homeward bound, what was their surprise to find no ferry awaiting them, the conditions being such the ferry could not cross. It is said that one of them, sooner than remain at the Cove all night, returned again to town.

Owing to a heavy undertow on Tuesday the steamer Euphrates did not cross the Tickle for the mail that afternoon.

Messrs. L. Lawton and A. Hann returned from St. John's on Tuesday.

During the recent storm the spire of the C. E. Church here blew down, carrying with it the heavy bell. Fortunately it blew down at a time no one was around, else a tragedy might have occurred.

What may be recorded as a most enjoyable affair was a sociable held last week in St. Joseph's Hall, which was tendered by the young ladies of Bell Island to their gentlemen friends. Messrs. G. Main and J. Greene acted as floor managers and a most enjoyable time was spent.

The entertainment held by the Assyrian community at the Mines last week for a charitable purpose was well attended and a very good sum realized. The ladies in control, especially Mrs. Jos. Basha and Mrs. M. Carbage, are to be congratulated.

CORRESPONDENT.  
Bell Island, Feb. 1, 1911.

### Four Room House One Dollar Per Year

(From the Christian Herald.)

The Rev. J. F. Dickie, pastor of the American Church in Berlin, when in Augsburg, Germany, a few weeks ago, found a little city in the heart of the city, that was shut in all by itself with two gates and is called the "Puggerei." It is so called because the 106 houses within it were all built with money left by Fugger, the wealthy sixteen century banker.

When he died he directed that these houses should be built and then given to poor aged families for 4 marks and 12 pennings rent a year, that is exactly one American dollar. They have four rooms and kitchen, with a little front garden and a little garden behind.

### Do It Now

Tomorrow A.M. too late. Take a CASCARET at bed time; get up in the morning feeling fine and dandy. No need for sickness from over-eating and drinking. They surely work while you sleep and help nature help you. Millions take them and keep well.

CASCARETS 10c a box for a week's treatment, all druggists. Biggest seller in the world. Millions boxes a month.

The Lawyer.—Madam, I find that your husband's will leaves you nothing but what the law compelled him to leave you. The Widow (angry and forgetful)—Just wait till I see him!

### A Lady Says:

"Those Magic are wonderful powders for relieving headache. I don't think I ever took anything which relieved me so quickly and without any ill after effects." They can be had only at W. T. COURTENAY, corner of Duckworth and Prescott Streets—Jan 7, 11

### Poultry Association Meeting Last Evening.

The Poultry Association held its annual meeting last night in the Board of Trade Rooms. The election of officers resulted as follows:—

President—Mr. Justice Emerson.  
1st V. P.—Hon. W. C. Job.  
2nd V. P.—Hon. Geo. Knowling.  
Secretary—W. Barker.  
Treasurer—S. O. Steele.  
Directors:—A. McKean, John McNeil, Percy Johnson, H. Parsons and W. Reid.

There are now 45 members in the Association and 250 shares have been subscribed. After the election a general discussion took place as to the working of the organization. The Association will secure rooms which will be furnished with literature dealing with the raising of poultry, and bulletins will be shown from experimental farms in Canada and the States. Regular monthly meetings will be held in future, and the members are taking much interest in the affairs of the Association.

### Congregational.

The first of a series of sociables for the winter took place in the Lecture Room of the Congregational Church last night. There was a large attendance and the affair was a decided success. Rev. J. Thackeray occupied the chair. An excellent programme was rendered, and the whole-hearted applause accorded the ladies who assisted is the best proof of this. The items were:—Piano solo, Miss Dawe; vocal solo, Miss R. Pippy; song, Mr. Steele; pianoforte solo, Miss Pippy; song, Miss E. Barnes; recitation, Miss Barnes; song, Miss Robinson; vocal solo, Mr. H. J. Earle, M. H. A. During the evening some home-made candy was served, out of the sale of which the ladies made a nice profit; other refreshments were also served during the night. The ladies were well pleased with the result.

### Ladies' College Aid.

The Ladies' College Aid held a meeting, which was well attended, in the College Hall yesterday afternoon. In future the meetings will be held on Tuesday afternoons. A programme for the winter season was prepared and the ladies will work earnestly to carry it out. The meeting closed at 5.30 p.m.

### Mr. Burchell and a Grenfell Address.

Editor Evening Telegram:  
Dear Sir,—I was surprised to learn a short time ago that Dr. Grenfell was reported to have reflected on the generosity of St. John's when, in November last, he delivered several addresses in Sydney. The very opposite is true.

The Doctor gave three addresses, all of which I heard throughout. It was the opening day of a Laymen's Missionary Campaign. In his usual frank manner Dr. Grenfell said plain things to the men of Sydney. For their encouragement he told of the splendid response just made by the men of St. John's to an appeal for means to carry to completion his full design for a Seamen's Home.

I was absent from home when news of the unfortunate rumor came, hence this tardy correction.  
Yours faithfully,  
H. C. BURCHELL,  
Sydney, N.S., Jan. 28, 1911.

The Publisher of the best Farmer's paper in the Maritime Provinces in writing to us states:

"I would say that I do not know of a medicine that has stood the test of time like MINARD'S LINIMENT. It has been an unerring remedy in our household ever since I can remember, and has outlived dozens of would-be competitors and imitators."

### In Serious Condition.

Thomas Samuelson who was so badly injured Wednesday night sliding on Paik's Hill, where he ran into a telephone pole, is seriously ill to-day and he will not be able to get around for several weeks. There is a large wound in his forehead in which five stitches had to be put. His left arm and shoulder are also badly injured.

### Hit by a Street Car.

A west bound street car ran into a horse and slide driven by P. Tobin yesterday afternoon, at the foot of Prince's Street; the man and the horse were thrown down. Constables Tobin and Martin who were on the beat nearby came to the rescue and got Tobin on his feet. The slide was broken in three places.

### annahan the Weather Forecast.

WANTS A NEW MAN PUT  
THE LOOK-OUT.

"I think," says Delaney, "to see in Toronto who does best of the weather. He's a power on squalls of wind, but had a soft day since. Do you know there's a man as jinkers—men who never bring bad luck. We used to go to the five springs and for the five springs we didn't clear our heads while it struck us to all that spring we called in and suggested that for the voyage he'd better listen to us at first, without sufficient reason. Sure he was a jinker, and he'd go to the five springs. So we agreed to go for stopping at home about him, and we were spring loaded. Ever there's such a thing as a sure we'll have no till they sack that in Toronto."

"I think," says Mrs. Tucker, "the use of a man getting you meet trouble half enough to meet it when to go to bed half frozen that you're going to be to-morrow makes life I think 'tis time for to take a hand in and try that will see brighter. Why would be good no news, if all the news is a prophecy of the southeast with blind-companied with in-

### Water Coming.

It that a young man fast skater, will come from Sydney to try some of our city fliers. Give a good record and arrange for several boys.

### Match To-Night

and Victorias will match to-night at the Victoria playing-grounds, Vinnicombe, Tobin, Brien and Herder, Fenwick, H. Stick and Woods. A expected.

### Again Frozen.

Most of last night again of the harbor with a thin sheet and not week several inches of the harbour, but the cut it up and it was narrow by the gales which prevailed.

TRADING TRADE.—Four at Port aux Basques cargoes. Others are there. Some eight frozen herring were away from Curling this week.
