CHARLES DARWIN.

The death of Charles Robert Darwin, which occurred in England at his home, Down House, near Orpington, on Thursday, April 20, closes a career which in absolute devotion to the truths of science has had...

influence upon man's conception of the material universe has probably never been equaled in the history of humanity. For even if the great doctrines with regard to the origin of species and the descent of man be ultimately rejected...

which is now beyond the belief of most thinking men, they will still have been the dominant forces in moulding the thought of centuries, and must long be employed as the foundation of all investigations into the development of animal and vegetable life.

Charles Robert Darwin was born in Shrewsbury, England, February 12, 1809, his father being Dr. Robert Waring Darwin, F.R.S., a physician of that town, and his grandfather Dr. Erasmus Darwin, F.R.S., the celebrated poet, naturalist, and scientific physician of Lichfield, whose "Zoonomia," "Temple of Nature," and other allied works were once widely admired.

The mother of Charles Darwin was a daughter of Josiah Wedgwood, the founder of modern pottery manufacture in England. The great scientist was educated at Shrewsbury grammar school, and afterwards at the university of Edinburgh.

He resided for four years at Christ's college, Oxford, whence he took his B.A. in 1831. His hereditary aptitude for the study of natural science having strongly manifested itself, he embraced the opportunity of joining the expedition which sailed in the ship Beagle, December 27, 1831, for a scientific circumnavigation of the globe.

The voyage lasted five years. On his return to England Mr. Darwin published a "journal," recording his researches into the geology and natural history of the countries visited, which met with a hearty welcome, both as an interesting narrative and as a scientific treatise. A few years later he edited the "Zoology of the Voyage of the Beagle," and wrote a number of papers on geology and paleontology. All this time he had been studying the subject of organic life, and in the first of October, 1859, appeared the work upon which his fame will rest—"The Origin of Species by Means of Natural Selection."

Mr. Huxley has lately recorded the "very pretty turmoil" which arose over this then with which it has long since produced a general doctrine of evolution, one side of which it gives expression, and the other side of which it gives expression, and the other side of which it gives expression.

the main proposition of Mr. Darwin's theory is that all forms of vegetable and animal life are the result of a series of gradual changes in natural descent from parents to offspring through a long and unbroken chain of species, and that the species which are best adapted to the conditions of life are continually changing, variations are continually increasing, and the species which are best adapted to the conditions of life are continually changing.

The objections of theologians to this theory are that it is in direct contradiction to the fact that the world was created in six days, and that the world was created in six days, and that the world was created in six days.

OUR SOLID ALDERMEN.

DECIDE TO SUBMIT TWO MORE BY-LAWS TO THE RATEPAYERS.

Opening up of streets—Claims—Issue of Debitures—Brook Street—Fortnightly Meetings—Plankers' Pay.

The board of aldermen held itself a considerable length of time on Monday last night. John McClelland of 184 Berkeley street, presented a claim for loss of land by the extension of Eastern avenue at the rate of \$1000 per acre and for four...

THREE BEARING FRUIT at \$30 per tree. We think we see him get it. Levi Ashbridge puts in a claim for \$250 on the same account.

E. S. Appelle wrote on behalf of Mr. Winans, Mr. Clark and Prof. Hirschfelder against the extension of Blocker street through their properties on the ground that the opening is not required, and would only be used as a lane.

Clarkson Jones complains of the uneven and loose macadam which the block pavement on Yonge street is being laid.

N. G. Wood calls attention to the dangerous state in which the crossings on Wellington street between St. Lawrence and Parliament have been left since the block paving was put down. In crossing one of the in a wheel chair, Mr. Wood narrowly escaped a serious accident and the chair was broken. Mr. Wood will send in a bill for the chair.

Ald. Clarke handed in a petition from the residents of Simcoe street against a street railway on that street.

Ald. Maughan presented a petition from several citizens in the west end for the removal of a boom enclosing rafting timber at the foot of Brook street, which obstructs the water roadway.

Petitions were also presented for a sewer on Tate street, a block pavement on a lane between Yonge and Jordan streets from Melinda to Wellington, and for boulevard and block pavement on each side of the street railway on a Spadina avenue.

Ald. Boswell asked the chairman of the waterworks committee whether the water would be resumed on the pipe extension into the lake. Ald. Boustead replied that the men and the dredge were ready but the rough weather kept them back.

To the clause in the works committee's report that a block pavement with wood curbing and boulevard between Queen and Front, Brook street between Queen and Front, Ald. Low proposed an amendment that the matter be referred to the board of aldermen.

John Clarke of 66 Lombard street was made a prisoner last night at the instance of Charles Shirley, who charges Clarke with having committed an aggravated assault upon him.

Mrs. Maughan of this city has entered a petition against the corporation of Ontario for \$2000 as compensation for injuries sustained by accident on a bridge in Brampton last February.

The occupants of the house at the southwest corner of Hayter and Emma streets are a nuisance and disgrace to the neighborhood. If they don't get out within three days, the police will clean them out.

Dean Swift and His Times is the subject of a lecture by Rev. G. M. Milligan, pastor of Old St. Andrew's church, says that an Oliver Cromwell in Ireland would soon put things to rights.

THE TORONTO HARBOUR.

In answer to a recent letter from the city clerk, as to the character, extent and probable cost of the work contemplated for the improvement of Toronto harbor, the public works department informed the council that owing to the physical changes which have taken place there within the last few weeks it will be necessary before a decision in the matter can be arrived at to have an examination made to determine the nature and extent of those changes.

The Minstrels at the Grand. Baird's minstrels were greeted with a good audience at the Grand opera house last night. The program was of a high order of variety and plenty to laugh at. The well with the audience.

The Zouave cadets corps in their lightning evolutions was a feature new to a Toronto audience and was well received. The Midget Four were very fine, and in fact the whole list was good. The engagement lasts to-night and to-morrow night, with a matinee to-morrow.

County Court. In Johnston v. Doyle, continued from Monday, the jury yesterday awarded plaintiff \$84 as commission for his services as agent for the sale of defendant's property.

Darlington v. Humphrey is an action to recover \$170 for felt and gravel roofing on buildings erected by defendant. The defence is that the work was not properly done. The case will be continued to-day.

Frémont's list for to-day: Bywater v. Taylor, Ross v. Charlton, Jarvis v. Boyd, Ross v. Finley, Lawson v. Wilkinson.

QUEEN'S OWN ENTERTAINMENT.

A Large and Fashionable Audience at the Royal Last Night—A Successful Entertainment.

OUR WIFE; OR THE ROSE OF AMERICA. Queen's Own Entertainment. Royal Last Night. A Successful Entertainment. A Large and Fashionable Audience at the Royal Last Night—A Successful Entertainment.

The Royal opera house held one of the largest, most fashionable and select assemblies ever gathered in a Toronto place of amusement last night, which fully demonstrates that the "Queen's Own" is a popular corps and has many friends in the city.

The occasion was a dramatic entertainment given by the non-commissioned officers and men of the regiment. The performance was of a varied character and met with much favor in all its parts from a happy and completely well-laden audience.

The performance opened with John Mad. Moore's comic drama in two acts, "Our Wife or the Rose of America," which was well received. The performance was of a varied character and met with much favor in all its parts from a happy and completely well-laden audience.

She named the man and the officer arrested him. At No. 2 a station he gave his name as Edward Gunning, laborer, living on Elwood street. The woman's story is that she had been walking with him when she was assaulted. She said she had no other means of identification.

A Street Railway Case. The case of Davidson v. the Toronto street railway, which was tried at the last assize and in which Mr. Davidson got a verdict for \$2500 as compensation for injuries received by her last summer in alighting from a street car, and in which her husband took a verdict of \$1500, was brought before the common pleas division yesterday by J. E. McDougall, counsel for the street railway. The verdict should not be reduced, or why there should not be a new trial, but that should be left to the jury. It is thought that the verdict is somewhat excessive.
