inted chairman of the Workmen's mensation Commission at a salary of \$10,000 per year and will at once take up his work. This was the anouncement Sir James Whitney made after yesterday afternoon's cabinet council. The premier said the other two members would be named "in due time" and asserted that ability was alone considered in choosing Mr. Price from the many applicants.

The chairman will confer with F. W. Hinsdale, the Washington expert engaged by the government, to put the act in force at once.

"We selected Mr. Price from a list probably containing more names of premier. "We chose him after considering all and we believe we have got over workmen's compensation board. the best man. The people of Ontario are anxious to see the Compensation Act in force. We believe it is the best in the world and will be a success.

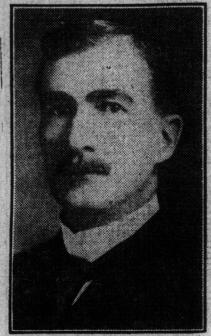

"No question but the capacity and fitness of the individual was considered by us in making this appoint-

No Serious Antagonism to King Indicated by Growlings of Liberal Papers.

LONDON, July 21.-There was an outburst of growling and warnings not. According to this expert E. stand English conditions, it might have looked as the the monarchy were threatened. But this happens inevit-ably under similar circumstances. In England the balance of power is so adjusted that all factors are remorselessly jealous of anything that looks like an attempt of one branch of the government to trespass upon the preregatives of another branch.
The British buildog is extremely jealous of his rights in his own kennel, and the growlings of the Liberal papers, which get their inspiration from the members of parliament, do not mean important antagonism to the king, but merely a warning: "Keer your paw on my bone."

Government Will Provide Food and Medicine for Return Trip of Komagata Maru, But Other Demands Were Ignored-Vancouverites Disappointed in Expectation of Seeing Naval Battle on Pacific.

Canadian Press Despatch VANCOUVER, B. C., July 21 .- Just before 7 o'clock this evening the Hindus, thru their shore committee, agreed to accept the terms of the government and will tonight allow peaceable possession of the Komagata Maru. There will be no fighting.

The Hindus made many new demands, but were finally forced to accept the proposals of the officials, which were to provide them with medicines and six thousand dollars' worth of food for their return trip. They absolutely refused to give money for their return fares to allow anything to the local Hindu committee by way of recompense.

BATTLING LEVINSKY BEAT PORKY FLYNN

NEW YORK, July 21.—Battling Levin sky of New York outfought Porky Flynn of Boston in a ten-round bout here tonight. It was a hard fought battle Levinsky had the better of seven rounds Levinsky weighed 175 pounds and Flynt

cil because of its foolishness in extending the civic boundaries. He, however, had favored annexation proposals, both before and after he had known anything of the financial result.

If you put a wall round the City of Toronto, he said, you would no doubt increase values within the area, "but I think you would restrict the City of Toronto in one of the surest ways." He knew of no city which did not throw out its borders, making it possible for the citizens to get homes in the outskirts with city conveniences, rather than to have congestion within a smaller area. The greatest problem of today, he asserted, was that of the tendency to congestion in the centres of cities. "I say to you," he continued, "that you can't rear children in two and three-flat houses and in tenement houses and you can't make men and women in the congested areas of great citie."

More than all else, he entertained the wish that Toronto should be in years to come a city of individual homes. (Applause. The backbone and the foundadation of all cities were those individual homes.

The second great problem was the comauthorities to put in such, in cases of hardship, on the local improvement sys In reply to a question of President Gray, Controller McCarthy said that, as long as the water in their wells remained pure, the matter of filling them in rested with themselves, but it was only a question of time when, in a thickly-populated district the wells became contaminated

tion of time when, in a thickly-populated district, the wells became contaminated, and would have to be closed.

Registered Protest.

J. Ball, the president of the Lambton Park Association, protested against the having to pay for cleaning out casspits when paying city taxes. "The man who is in the city and has to have a cesspool is not in a happy position." said the controller, and he explained in reply to another question of Mr. Ball that the matter of the building bylaw was now under consideration. It was not the intention to make it so stringent that the development of the small houses of the suburbs homes.

The second great problem was the complete solution and unification of the street car eystem of the City of Toronto. Workingmen did not hive in the centre of the city by choice, but "because of the inconvenience and time getting to the outskirs." There would, therefore, be no greater boon than the solution of the car service, and he looked forward to the time when the city would acquire every particle of the street car interests, and unify them into one complete system. If they came in they would pay considerably more in taxes, but the whole question resolved itself into the question of what they would get for the money it would cost. It was for them to consider whether they would be better off in the city under greater taxation, or in the township under lesser taxation.

So far as he was concerned he did not care whether they came in or not. If the city had a water main within reach it would be glad to serve them.

City Said "No,"

The township had asked the legislature to force the city to give water service, but the city had said, "No; that's not proper," and had asked that the question be delayed a year. During the year the city had determined to give each of the districts affected the opportunity of annexation. "If they don't come in," he said, "then they can't go back to the legislature and force us to give them water."

The city could not, he proceeded, ge ment of the small houses of the suburbs should be retarded,

KENT COUNTY IS **INVADED BY PESTS**

Army Worm Depredations Appear to Be General-Chatham Invaded.

Special to The Toronto World.

CHATHAM, July 21.—The dreaded army worm has made its appearance in the County of Kent in several sections and from reports received tonight it appears that the pest is quite general thruout the county. The worm was first reported from Botany. John Mowbray, a farmer of that district discovered the presence of the army worm on his farm last Sunday night. He and his neighbors worked Sunday night and all Monday plowing furrows around their farms and otherwise fighting off the pests and preventing them from spreading. This afternoon W. T. Hunter, district agricultural representative for Kent, reported the

Farmers in Etoblcoke Township were considerably alarmed on Monday when Mr. Livingstone of Clairville reported that the army worm had attacked his crops. Reeve Silverthorne immediately called a special meeting of the council, and John Dalton was appointed to watch developments and to see that public aid was rendered in any case that warranted such action

Mr. Livingstone's farm adjoins that of C. Gardhouse in Peel Township, where the new pest has been very busy this past few days attacking oats corn and mangels. In fact duite a number of farmers in Malton and Grahamsville are busy fighting the pest besides Mr. Gardhouse, notably Chas. Hooper and William Lewis.

The worm has not yet made its appearance in Brampton, with the ex-ception of some on exhibit in Stark & Son's drug store, which came from Mr. Gardhouse's farm. These are about an inch and a quarter long and have a smooth gray skin with yellow spots. Mr. Gardhouse has cut about thirty acres of his crop to prevent further damage.

EVERY WORK HAS ITS OWN BEAUTIES

Etobicoke Township Latest to Like the Flowers, One May See in One's Own Duties Many Charms.

Beauty in work is largely in the way one looks at it. Like the trees and the flowers one may see in them wondrous beauties while to the next passerby they may be common and insignificant. It is not the one who works to whom things are monotonous; it is the one who does not who is an object for sympathy. Monotony in work, does some one say? Tyrone May Go to Ulster, The general impression prevails that the conference will settle this matter, since nobody believes that the question of the exclusion of one county will be allowed by eight politicians possessing the ability of the conferees to turn the

scales for civil war.
At the same time it is not thought that parliament will accept any com-promise going beyond the offers al-ready made and refused, and if the house of commons did do so, Ireland would not fall into line.

King Welcomes Conferees.
King George, in receiving the conferees at Buckingham Palace, made the following brief speech:
"It is with feelings of satisfaction and hopefulness that I receive you here today, and I thank you for the manner in which you have responded to my summons. It is also a matter for congraculation that the speaker of the house of commons has consented to preside over your meeting. My intervention at this moment may be regarded as a new departure." "My apprehension in contemplation of such a dire calamity is intensified my feeling of attachment to Ireland and of sympathy with her people who have always welcomed me with warm-hearted affection.

Noble Took First Place in Thousand Yard Sweepstakes.

Canadian Associated Press Cable. BISLEY CAMP, July 21.—The Canadian total in the Kolopore Cup competition was 253, Australia's 255, England's 249, India's 247, Guernsey 240. This match finished under exciting

conditions. Canada, among the three leading competitors, finished firing first, and when the mother country closed down a minute later Canada was four points ahead. The Australians, however, who shot slowly and had several shots to go, managed to evertake the Canadians by two points. Reservist Cress scored the highest It's what Goops do. An unexpected incident was the landing of a balloon containing three passengers, including two women, within a few yards of where the Kolapore match was decided. The trail rope of the balloon actually went cross the Canadian targets, Hawkins and Armstrong, who were down, merely waited until the ob-struction had passed. The presence of women in the balloon aroused the suggestion of suffragettes at work,

-that's what those water spaces (sections) would mean to you if you put a Safford heating system in your home.

You would call them big, covered water "pans." They're shallow enough to let the water heat quickly, and flow by the shortest way out of the "pans" into the radiators.

If you had four of these big "pans" to heat, one above the other, you would have them made and arranged (if you had studied the problem scientifically) just the way they are in the Safford.

The arrows in the picture show you how the heat travels in the Safford hot water boiler. You see how the heat encounters the first pan straight from the centre of the fire where it is hottest. The heat goes straight against the second pan, straight against the third and the fourth. All of it is absorbed quickly, surely, and sent coursing surely, and sent coursing through the radiators.

In the Safford System the heat units given off by the coal are absorbed by the water and take the shortest route to the radiators, and, conse

quently, less heat-energy is required than if the water had to travel a much longer nad to travel a much longer route, as it does in ordinary boilers. The less heat-energy required, the less fuel con-sumed. Economy in fuel consumption is the keynote of the whole Safford System.

It remains a puzzle unsolved, and an enemy unconjuered. We are in doubt as to its cause, and there is s yet no drug or anti-toxin that will cure it. Yet the death rate from scarlet fever is steadily declining, and with pills and powder than his predecessor, and a grea deal more lavish with water, air and antiseptics.

Though the exact cause of scarlet fever is still far from certain, there is no doubt whatever that it will be determined with absolute accuracy within a few years. A large number of competent observers have come to the conclusion that the causative agent must be a minute parasite closely related sick-room the supply of oxygen is never

must be a minute parasite closely related to that which produces malaria.

An attack of scarlet fever may begin a day or so after the patient has been exposed to contagion, and then again there may be an incubation period of a week or even more. Several years ago, in the course of my practice, I visited a family in which there were four bad cases. Next day I left the city and remained away for a full week. On the day of my return I fell ill with the disease, and a very severe attack was immediately in prospens. In this case the incubation period seems to have been no less than eight days.

Scarlet fever usually begins with chills, rising fever, headache, loss of appetite and pains in the limbs, and sometimes, particularly in very young then, with convulsions. A sore throat and painful tonsils next afflict the patient, and at the end of a day or so the characteristic red rash appears. This commonly begins around the neck, and over the chest, and at the start consists of thry scarlet blotches the size of inheads. The blotches soon run toxether and the whole surface of the body becomes a brilliant red. The membranes of the so-called "raspberry" appearance, there is no crisis in scarlet fever. A crisis, in medicine, means a sudden, there is no crisis in scarlet fever, the ever does not cease studenty, but slowly. This is called a tremination by lysis, which is the very reverse of crisis. CHAIRMAN PRICE.

In the appointment of Mr. Samuel book than the last. Price to the chairmanship of the Workmen's Compensation Commission the government has taken the first step towards the effective application of the great measure passed by the last legislature. It was on this as one of the issues that the government appealed to the province in the recent election. If the result is to be taken as in any way brought about, by the popular view of the Compensation Act, Mr. Price may regard himself as an exceedingly fortunate man, with the authority given him to administer a measure which has thus evidently commended itself to the good sense of the electors. A great responsibility rests upon the new commission, and Mr. Price has a splendid opportunity as the pioneer in Canada of the executive working of this reform to place it upon e basis such as that the late Hon. Mr. Mabee established for the Dominion

Railway Board. Mr. Price is to have the benefit of consultation with the United States expert in familiarizing himself with the details of the act, and Mr. Hinsdale will find him experienced in all kinds of commission and labor affairs. Few men in Ontario have had a wider experience with the disputes and difficulties that arise in the industrial world. If Mr. Price succeeds in making the Compensation Act work smoothly and satisfactorily, and can remedy any flaws that may be detected in its operation, he will make a name for himself in what is not the least important department of Cana-

WORKMEN'S COMPENSATION IN

While Ontario is preparing to give effect to the new system of workmen's compensation, New York State on Monday started to distribute the benefits under the act that went into force on the first of the current month. Sessions of the commission will be held daily thruout the year, which in itself presents a striking and instructive contrast to the dilatory methods of the courts under the old llability law. It is estimated that the reformed procedure which enables compensation cases to be disposed of by the commission instead of before juries, will reduce the court trials by about onethird. This means a saving to the counties of New York State of onethird of the cost of jurors' fees, besides other reductions in public expenses.

Of the several thousand accidents York Act became operative about twothirds did not incapacitate the worker for two weeks or more, and therefore do not fall within the scope of the new mpensation law. Of the cases first be adjudicated upon thirty-one are death claims. If proper proof is of fered, widows will receive 30 per cent bands, not to exceed \$30 until their death or remarriage. Every child will be paid 10 per cent. of the father's balance among her contending forces wages until the age of 18, but not more than \$10 a month unless the father did not leave a widow, in which event each will receive \$15 a month. The New York act also provides specific allowances for injuries according to long in grass, or rolling it with a heavy their nature and whether they involve total, partial or temporary disable-

go away and lounge under trees, on method of ending their career. the grass, by rivers or lakes; who have overcome the wild yearning that possesses some to paddle canoes or swim or fish or explore, may turn to one of those early impulses, which may almost have developed into a resolution, to read the great English classics. There are a hundred of them at least, and they can be bought by the century or by the five foot shelf or by the set, or they can be begged, borrowed or stolen from a friend. He masters of English are concerned. Of grown to something like a million tons

thru. Scarcely anybody has, altho there are more people who have read all of Shakspere than there are who have read the Bible from cover to cover. About two people in every church have done this, on an average. Have you read Chaucer? No. And you probably won't. If you read Spenser and get thru the "Faery Queen" you will be far ahead of your time. Milton? Hardly. "Paradise Lost" is appalling to look at, and very few people know that the way to get interested in it is to begin anywhere from the fourth to the eighth book and work forwards and backwards. Milton is not half so heavy as he gets a reputation for, and he is quite as good to fall asleep over in the shade of an orchard tree as any other classical author. Then there are the big histories that everybody is supposed to read and every schoolboy to have at his tongue's end. Gibbon's "Decline" and Motley's "Dutch Republic" and Grote's "Greece" and Hume's and Hallam's and Macaulay's and several other people's "England" and Bancroft's 'United States" and Kingsford's "Canada." Any one of these is a holiday achievement. It is likely that Parkman would prove more attractive than any of them. Then there are such fine old prizes as Burton's "Anatomy" and Pepys' "Diary" and Boswell's "Johnson," and there is no better holiday

Perhaps something lighter in the classical vein is needed. There is any quantity of fiction of the highest order which not one man in a hundred has looked at. Have you read Scott complete? It won't do to say that his later works are inferior. That is only a critical pose. Some critics find the late ones as interesting, and perhaps more so, if not equally good literature. as the early ones. And there is Thackeray. It is like a well in a desert to come on "Philip," after having given up the idea for years that any ferred to judge, who alone has jurismore Thackeray was left after "The Virginians." And there are Fielding and Smollett, who made Dickens what he was, and thus indirectly created what is now called "journalese." There are such out-of-the-way treasures as "Don Quixote" and "Gil Blas," which have a great reputation among those who do not read them. Any man who has not read Dickens thru has still a sin of omission on his literary conscience, and if he cannot read "Pick-"Hard Times" or "Great Expectations" act order may go appointing him. has more variety than some readers Walter Leaf and Prof. Butcher collaborated in translating into exquisite prose Homer's "Iliad' 'and "Odyssey." If these do not satisfy, the reader should turn again to fishing.

Yet when they flutter down in winter storms they bring with them asked the very shadow of death. So locusts and caterpillars when they come not in single spies, but in battalions, still, as they did in Egypt in the days of Moses, eat up all the herbs in the land and devour the fruit of the ground. Even now, thirty-five centuries later, the husbandman is still contending against these tiny enemies age the value of the old adage, that prevention is better and also easier

Army worms, so-called, are a very present menace today in several districts of Ontario, and are also reported to have made their appearance in countless millions in the Bronx section of New York, Long Island and other parts of New York, and New Jersey. They are really the larvae of a nocturnal moth bred in swamps or in fields which have been in grass for many The reason for their periodic appearance in unusual numbers is more or less obscure, but may be ascribed in part to the temporary re duction of the birds, insects and parasites thru which nature maintains the Farmers in localities frequented by this particular variety of moth can guard themselves against the advent of their larvae by eliminating swampy ground and by not keeping land too roller while the larvae are still in their breeding place. A NEW CROP FOR CANADA. Canadian farmers in general and Ontario farmers in particular might do worse than investigate the possibilities of the soya bean, which has been cultivated for centuries in China and Japan and is used for a great variety of purposes. In England it is chiefly used as cattle cakes for winter feeding, and that country's imports now amount to \$5,000,000 per annum. United States Authorities Asked to Search for Young Woman.

KINGSTON, Ont., July 21.—It is reported that Miss Blanche Yorke, the missing Tamworth girl, and Dr. C. K. Robinson, the village doctor, left Kingston for Cape Vincent, N.Y., last week. Relatives of the missing girl were in Kingston today and it is stated that they were informed that Miss Yorke left Kingston for Cape Vincent on Thursday of last week, and that Dr. Robinson followed the next day. Dr. Robinson is well known here and the young woman has been identified by OF TAKING GRAFT Robinson is well known here and the young woman has been identified by the photographs published of her. A "World" reporter secured information from a reliable source that there was no mistake about the two having crossed over to the border. A good description has been received of Miss Yorke and it is stated that it corresponds in every detail with that of the young woman, who took passage on the steamer America for Cape Vincent. Witness in Valley Railway Canadian Press Despatch.
ST. JOHN, N. B., July 21.—John Scott of Scott & Kelly, a sub-contractor on the Valley Railway, testifying be-

fore the royal commission, accused Hon. H. F. MacLeod, M.P., ex-provin-cial secretary, of asking and receiving

on the steamer America for Cape Vincent.

Dr. Robinson has a wife and a little child. Mrs. Robinson has been visiting at her home in Glenburnie, ten miles from Kingston. The house was called, by long distance 'phone today, but there was no response. Mrs. Robinson had nothing to say about the whereabouts of her husband, and he is still reported to be missing from his office in Tamworth.

Two of the brothers of the missing girl were in the city today to see if the local police could throw any light on the case, but they knew nothing. The brothers stated there were no clues to work on whatever. The American authorities have been asked to look for Miss Yorke. All the immigration agents on the different boats are keeping a close watch for her. Every passenger is being put thru a cross-examination by all the inspectors. Much interest is added to the case locally as Dr. Robinson is well known her, having graduated from Queen's two years ago. He was also house surgeon at the General Hospital here for some time, and was very popular. The commission allowed the witness to produce his first contract with the Hibbards. MacLeod said they could get part of the work on the upper end and at better prices. He thought he could get it at 26 cents, and if he could there ought to be a consideration "I asked what the consideration would be and he mentioned \$100 a mile."

Witness said that on June 3 they saw MacLeod and told him they decided to take the work (about thirteen miles). "He told us that no contracts could be given without his consent. We miles). "He told us that no contracts could be given without his consent. We held out for 27 cents. He promised to try to get 27 cents instead of 26, but if he could get it he thought we should split it. I said that would be satisfactory to me. The extra cent would make \$3000 and half of that, would be for him." On MacLeod's suggestion it was agreed that witness leave it with Major Massie, manager of the Bank of Montreal. Major Massie, manager of the Bank of Montreal.

"On the day after his election I told him I would be paying soon, and he said it was a good time, as the election bills would be coming in. On June 27 I sent the \$1500 by express to Major Massie to be paid to MacLeod." The receipt was produced. Witness told of meeting MacLeod later. MacLeod said be had got the money.

"We hear too much about the high cost of living, and too little about the cost of high living or the high cost of foolishness," said Mrs. Wallace. "It isn't so much for bread but for cake that men get into debt. One of the greatest troubles today is that the average woman doesn't know how to distinguish between the qualities of foods. The same woman who may make an excellent selection from a dozen pieces of silk can't pick out a steak that's fit to eat. I can only explain it by saying that most women seem to be more interested in what goes on the outside than what goes on the inside."

Mrs. Wallace said she would not blame the tariff, or the trusts, or other economic conditions for the high cost of living. She attributed it to the desire for luxury, and said that the "easiest way" always was the "most expensive way." CLEVELAND. Ohio, July 21.—Records fell right and left at the second day of the Grand Circuit harness races at North Randall track this afternoon. In the first heat of the 2.05 pace, Dr. Burns, Jr. forced William, champion three-year-old pacer of 1913, to a mark of 2.02, which is a record for a four-year-olds pacer. William did the second heat in 2.02%. The two heats are the fastest ever paced by a four-year-old or by a stallion.

In the third and final heat of the Ohio Stakes, the day's classic, Star Winter established a new mark of 2.05 for the event, and also trotted the fastest mile of the year on any track.

Lee Axworthy captured the Fasig three-year-old trot, 2.12 class, in two straight heats. The final heat was done in 2.05 and the first in 2.08%, the fastest heat and two heats the event was ever run in. Aside from the setting of new marks, the chief excitement of the day cam with the first face, for 2.15 trotters. The other events were all captured in straight heats. But in the first race, after Sterling Hall had won the first heat, Duchess finishing fourth. Duchess took the next three with little trouble. Summary:

Under the management of Jack Marshall, the veteran hockey and lacrosse player, referee and manager, the Irish have been welded into manager, the Irish have been welded into a great team, and look to be just as strong as they were last season, when they won the Big Four championship. The famous Scott brothers are back on the home, and, with Roberts and George, make about the tricklest attack in lacrosse. Back on the defence there are Brennan, White, Aspell, Baker and the only Johnny Howard. They can be counted on to give the Torontos a hard fight and a clean game, for, since the formation of the D.L.A. the games between the Torontos and the Irish have been noted for fast, clean play. The tickets for the game are now on sale in the Bell Piano Warerooms. been increased greatly.

EAST TORONTO V. WOODGREEN.

In a very pleasant game East Toronto defeated Woodgreen on Saturday in an eastern division C. & M. League match. East Toronto batted first and did only fairly well in getting 55 runs against good bowling by A. Green and Wilkinson. Knight and Hamilton had the highest scores with 14 and 10 respectively. Woodgreen started well, and with the exception of Mover no great resistance was green started well, and with the excep-tion of Mayor no great resistance, was made after Parker and Premdas had been dismissed, the innings closing for 37 runs. For Woodgreen Wilkinson took 4 wickets for 15 runs, and A. Green 4 for 23. For East Toronto Tuchman had the good analysis of 4 for 11, and Forster teok the remaining 6 wickets for 21 runs. Score:

Huntsman Payne was at fine Woodbine yesterday morning, with Mr. Beardmore's string, including Tropeolum, Quality and High Pressure. He sent Tropeolum one turn of the field in faultless style and galloped a mile on the flat in about a two minute clip with George Elliott up. Quality and High Pressure were sent a turn of the field, then Quality worked a half in .58 with M. Elliott up.

Bob Hodgson worked Burleigh a half a mile in .56. Jos. Doan schooled Clover Hill a turn of the field. She performed like a real steeplechase horse. He gave Jasper a long useful gallop preparatory to a workout tomorrow.

J. Graver sent J. Moss' hunter Liaomedon two miles at a two-minute clip. Hydro and High Peak were given long slow work and will probably be worked thru the field tomorrow. The Squire also got a long gallop, and will be schooled tomorrow.

Doesn't Think Well of Australian Tennis Team—Claim Canadians Weak.

CHICAGO, July 21.—Chicago tennis followers have failed so far to be greatly impressed by the work of the Australian stars, who meet the Canadians in the Davis Cup preliminaries at the Onwentsia Club this week. Eastern bettors were heavy, rating the Canadians favorites at 1 to 3. It is thought there is little chance of Australia taking the cup from Ameri-

However, it is not considered that Canada has much better than an outside chance of defeating Australia in the pre-

chance of defeating Australia in the preliminaries. Even the Canadians themselves seem to entertain little hope of
beating their rivals, but they have continued to practice steadily with the idea
of making as good a showing as possible,
and being prepared for the best should
opportunity come.

At the same time, the critics here who
have watched other Davis Cup play, consider the Australians are better than
either the British team or the Germans,
with the latter of whom the winners of
the Onwentsia meet are to compete at
Pittsburg. So it is figured that the antipodeans will be the opponents of the
Americans in the challenge round.

Wilding, best known of the visitors from
the other side of the world, is a wonderfully steady man, rarely making errors,
and possessing a large variety of strength,

"Quick and nervous, Brooks is nearly the opposite of Wilding, with whom it is likely he will be cast in the doubles. His every move bespeaks intenseness of effort, and he may tire himself out.
"Brooks is a southpaw, and, paired

The lack of mutual obligation in the socalled ten-day clause of the contract under which Chase was playing with the Chicago team, whereby the club could terminate the contract on ten days' notice while the player was bound under several provisions of the "National agreement," formed the basis of the decision of the Sherman Anti-Trust Law was denied by Justice Bissell in the ground that he cannot agree that "the business of basebell for profit is interstate trade or work of the Sherman Act." The court held, however, that it was monopoly of the baseball business in contravention of the common law.*

Chase was served with injunction papers June 25, while he was playing with the Buffalo team at Federal Park. He has been on the bench since.

Notice of an appeal from Justice Bissell's decision was filed late this aftermoon. The appeal will not prevent Chase playing with the Buffalo Federal League team, and it was said tonight that he would be on first base tomorrow.

NEW YORK, July 21.—The Baseball Players' Fraternity won a victory here today and a threatened strike of National and American League players, members of the fraternity, was averted when the case of Player Clarence O. Kraft was settled to the satisfaction of the players' organization, and in accordance with its demands. The incident is considered closed by both the big leagues' magnates and the players.

Chas. H. Ebbets, president of the Brooklyn Baseball Club of the National League, was the magnate who stepped into the breach and brought about peace. Ebbets announced the settlement of the case at the meeting of the American League representatives who were in secret session discussing the prospective strike.

RICH STRIKE OF **GOLD REPORTED**

More Mineral Located in Northern Ontario According to Prospector.

MONTREAL, July 21.—John A. Smith, a mining man of this city, has returned from northern Ontario, He brings tidings of a new mineral strike which bids fair tolopen up an important mining disrtict. This is in the Sesekinika Lake district, on the T. and N. O. Railway, some 40 miles east of Porcupine. The real importance of the discovery, he says, lies in the fact that for the first time in Ontario tellurides carrying gold and silver values have been discovered.

Samples Look Good.

Mr. Smith brought back samples taken from the veins. They were not specially selected. About \$40 per ton in gold and 20 ounces per ton of silver are shown in the samples. They would have a value of about \$50 per ton. This is considered a rich ore for a milling proposition.

The veins average about 16 inches

proposition.

The veins average about 16 inches in width. They are free and easily traced along the surface, according to Mr. Smith. Considerable development work is contemplated when shafts and cross-cutting will reveal what the various veins amount to.

able in a few issues.

Brazilian started at 721/2. After selling at 73 it went up to 34. It closed there. Barcelona opened at 1812, but 18% was soon recorded, and the close was at that price.

Twin City was steady at 102. It gained % at the finish. Mackay sold at 81 and 1½ less. The preferred stock was firm at 70. Steamships preferred brought 67% and 67½. Canada Bread sold at 30, advancing to 80½ later. Shredded Wheat was dealt in at 92 first. It went up to 92½, and closed at 93.

Toronto Railway was practically neglected. Two small lots sold at 124 to 124¼. General Electric was steady at 96. In the mining issues Hollinger sold at 13.60, Nipissing brought 5.54 to 5.62, and Coniagas changed hands at 7.00.

LA ROSE MUST SHOW

MONTREAL, July 21.—S. J. Lehuray, secretary-treasurer of the La Rose Consolidated Mining Company, yesterday sent out to shareholders the usual 2½ per cent. dividend cheques (No 24), also a statement showing a surplus of \$1,547,429 on July 1, 1914. Of this amount the cash was \$435,000, the baiance, \$112,180, representing ore in transit and at smelters and ore sacked at the mines ready for shipment. The secretary-treasurer confirmed the report that unless there was a much better showing made by the mine by the fall, operations would cease and the surplus be divided. Mr. Lehuray also said that should it be decided to divide the surplus, it would likely be done at one stroke.

POLITICAL SITUATIONS CAUSED NERVOUSNESS

Both the home and the Austro-Servian political situations caused further nervousness, and selling on the stock exchange Consols fell three-sixteenths. change. Consols fell three-state-line, and home rails followed suit, being supplemented later by more continental selling. Russian and Balkan issues were the

weak spots.
Oil and Kaffir shares were offered freely. The market closed depressed.
The American department moved irregularly until the last fifteen minutes, when New York buying orders caused prices to harden.

SHAREHOLDERS MAY

BERLIN. July 21.—Selling continued on the Austria-Servian situation on the bourse, and the whole list was lower. Russian securities lost 5 points, and Naphtha 10. Exchange on London, 20 marks 50 pfennigs for cheques; money, 2. per cent.; private rate of discount, 21/2 per cent.

PARIS, July 21.—The bourse opened nervous, but closed quiet. Three per cent. renies, 31 francs 15 centimes for the account; exchange on London, 25 francs 17 centimes for cheques; private rate of discount.

WIND UP NORTH DOME.

As Osgoode Hall yesterday Justice R.
M. Meredith issued an order for the winding up of the North Dome Company.
The order was made on application of the Timiskaming Mining Company. It is a creditor to the extent of about \$85,000.

SECURITY NOT REDUCED.

OTTAWA. July 21.—The security of the Dominion Government for the \$45,000,000 guarantee is not reduced by the trust mortgage of the C.N.R. in favor of the Province of Manitoba. The mortgage has been filed.

IN MONTREAL STOCKS

Transactions Were Limited Prices Irregular—Tone Somewhat Firmer.

MONTREAL, July 21.—Trading of local stocks reached a low ebb when the day's transactions totaled only a few shares over 1200. The movement of prices was irregular, but the firmer market in New York was reflected in a better feeling among the leading issues here

a better teeling among the leading issues here.

C.P.R. was the strong feature of the day. After opening with a decline of % to 184% it recovered during the morning session to 184%. The first sale in the afternoon was recorded at 186%, the high price of the day, and the closing sale was only % lower at 1864.

fram Power was another issue to score a substantial gain. It opened \(\frac{1}{2} \) higher at 45\(\frac{1}{2} \) and climbed steadily to 46 7-8, where it closed with a net gain of 1 3-8. Montreal Power and Laurentide were inactive, but each closed with a gain of \(\frac{1}{2} \) at 23\(\frac{1}{2} \) and 180\(\frac{1}{2} \) bid

Some Weak Spots.

The list, however, was not devoid of weak spots. Notable in this respect were Brazilian, Canada S.S. preferred and Nova Scotia. Brazilian was only lightly traded in and showed but one price for the day, it being 73 7-8 or 5-8 down.

Steamships preferred opened un-changed at 67 1-8 and gave way only 1-8. The closing, however, was weak at 65 5-8 bid, 67 asked. Scotia follow-

ment was featured by a jump of 3% in a broken lot of Dominion Iron. A sale of \$1000 went at 88% as compar-

BE CALLED UPON

"I simply don't know yet," said Hon.
Thomas Crawford yesterday, when asked if the 260 shareholders in the Equity Fire Insurance Company would be called upon to pay up their stock or if they would lose a portion of what they had put in. "We have to find out what is best to be done," he said. "All I will say is that we are reinsuring to protect the policyholders."

holders."

The business is being reinsured in the Ben Franklip Fire Insurance Company of Pittsburg, Pa. All liabilities under policies standing have been assumed by that company. The Equity is one of the oldest non-tariff companies in Canada. According to a recent statement, it had a subscribed capital of \$441,700, of which \$193,-697 has been paid up.

697 has been paid up.

The assets are shown to cover liabilities and leave a credit to shareholders of ties and leave a credit to snarehouses of \$197.202, and as a protection to policy holders, \$478,004. GENERAL ADVANCE

New York Market Takes New Hold-Movement Embraced Leaders.

NEW HAVEN SOFTENED

Crop News Was Better-Short Interest Made Hasty Retreat.

NEW YORK, July 21.—For the first time in upwards of a week a fairly general advance in stocks was witnessed today. The movement, which was made largely at the expense of a formidable bear faction, embraced all the potential leaders, as well as many minor stocks and other issues which recently were under heavy pressure.

Prices at the outset were down, some very substantial declines following the close of the London market, where Americans were invariably lower. Baltimore and Ohio, Erie and. Wheeling and Lake Erie, as well as Colorado Southern second preferred and Rock Island collaterals were among the securities that fell to new levels. The loss of the Baltimore and Ohio was two points. New Hayen softened when Washington despatches declaring it to be the intention of the administration to proceed with its dissolution suit were received.

Swung Around Again.

Before midday the market swung around on rumors of an early announcement of the eastern freight rate decision, and a hurried retreat of the unwieldy short interest followed. Gains of one to two points were recorded in

decision, and a hurried retreat of the unwieldy short interest followed. Gains of one to two points were recorded in less than an hour's time, with extensive trading in U. S. Steel, which was attended by circumstantial reports that the second quarterly statement of earnings, to be issued next week, would vastly exceed the first quarter's exhibit.

Made Smart Advance.

Lethbridge Street Railway earnings from June 25 to July 2 were \$835.65, as compared with \$711 93 from June 18 to 25.

Regina Street Railway earnings for the week ending July 4 were \$4,347.95, as compared with \$3,702.85 for the preceding week.

Crop news also contributed its share towards the day's betterment, all the advices bearing upon this situation, except in a few isolated instances, being of the most hopeful character. Canadian Pacific's rally doubtless was accelerated by the higher wheat average reported from virtually all important agricultural centres in the Dominion.

WILL ADVANCE MONEY ON NEW BRAZILIAN LOAN LONDON, July 21.—Communications are still passing between European bankers and the Brazilian Government regarding the loan. At the present time the government is considering a new offer from a syndicate which is on the basis of a five per cent issue. There is no prospect of any immediate flotation even if the arrangements are concluded immediately, as seems probable.

As soon as the present discussion comes to a head the syndicate will advance

Premature ripening in South Daksta formed part of the burden of complaint from the northwest, but most attention was given to the menacing conditions this side of the Canadian line. Bullish sentiment was emphasized by statements that

Brickson Perkins & Co. (J. G. Beaty).

14 West King street, Toronto, report the following fluctuations on the Chicago Board of Trade:

Decided activity as well as strength developed in the wheat market, but not all of these gains were held. Country acceptances of bids from here enlarged after the bulge in prices. Besides there was gossip that threshing yields in Missouri, Illinois, Indiana and Kentucky had exceeded the estimates, and that the winter crop as a whole would run above the July 1 forecast.

Drought reports resulted in the value of corn advancing. Demand from the east revived, and the south was said to be competing with Chicago for Illinois offerings. The action of the United States government in ordering a cargo of Argentine corn placed under bond as unfit for human consumption counted also against the bears.

Pages and pages of our stock ledger must be reduced to a mere tithe of their present importance during the next few days. When the half year is closed we want to be able to record our stock in much smaller figures than ever before; no odd lots or broken lines to embarrass the departments in handling fall goods. The shelf and wareroom space are just as important, for new fall goods are on the way ready to fill every foot of loft and store space we can get. SOME OF THE MOST SURPRISING BARGAINS YOU EVER SAW ARE THE RESULT of these stock clearings, from among which we selected these for description. Come at 8.30 for Unadvertised and Short Bargain Lots.
