NORTH TORONTO COUNCIL AGREES TO HOLD CONFERENCE REGARDING CAR TRACKS ON NORTH YONGE ST.

Before a Deal is Made With the Metropolitan Railway, Councillors and Controllers Will Go Into Details and Endeavor to Reach Agreement.

That the action of a majority of the North Toronto Town Council of Saturday afternoon last, in treating so cavalierly the communication from the board of control regarding the double-tracking of Yonge-street, was not justified in the light of later developments, is now fully recognized. Similarly that there is a marvelous change in sentiment, due to these developments, is freely admitted around town. The more the Metropolitan proposal is unearched the less favorable is considered. The circumstances leading up to the present negotiations are briefly these: A fortnight or so ago the town council, in compliance with a request from the Metropolitan railway, instructed Solicitor Gibson to confer with the solicitor for the company, with the view to framing up an arrangement which would be satisfactory for the double tracking of Yonge-street.

Young Clerk Arrested High Living the Cause

John F. McCargar, Jr., Stole \$700 in Four Dollar Bills While Employed as a Trusted Clerk at \$600 a Year—Purchased an Automobile With Part of the Money—Some Found in His Room.

After stealing \$700 in \$4 notes from the receiver-general's department, Toronto-street, during the past month, John F. McCargar, Jr., a trusted clerk, was arrested in his rooming house, 277 Sherbourne-street, last night by Detective Tipton. McCargar is only 19 years of age and had worked in the government financial house for two years. He comes of an affluent family in Belleville, Ont., his father, John R. Carr, Jr., being a wealthy resident of that city and an unsuccessful candidate for the house of commons.

When the first batch of four dollar notes, amounting to \$400, was missed, it was figured that the teller had made an error and paid out \$400 too much to some man. Banks in Toronto were communicated with and the error could not be ascertained. Every bank in the province was asked if the money had been deposited, and the response was in the negative. It was then up to the teller to pay the shortage, which he volunteered immediately to do, the rule in all banking establishments.

Notes Were Missed. When the first batch of four dollar notes, amounting to \$400, was missed, it was figured that the teller had made an error and paid out \$400 too much to some man. Banks in Toronto were communicated with and the error could not be ascertained.

Clerks Questioned. McCargar and another junior clerk were questioned. McCargar's answers were contradictory, and the answers of the other were frank and open. It appears that the other clerk's hands had been in his resignation two weeks before and naturally, in the case of a discrepancy, suspicion would rest upon him.

Two weeks ago McCargar told a fellow clerk that he was in the motor car business. He had a sideline and asked his wife to join him on the commission basis. He said he had purchased a motor car from J. K. Green, 159 1/2 Church-st., and was trying to sell it at a profit.

When taken in the Eaton store yesterday, he was acting wildly, and when removed by the police, he attracted crowds by screaming at the top of his shrill voice as he was taken over to the children's court. Commissioner Starr was unable to do anything with him and was compelled to give him back to the police to be taken to his home.

Instead, the following letter was sent, which speaks for itself: "Dear Sir,—Your letter of April 28, addressed to Mayor Brown re double tracking Yonge-street, was received by the council this afternoon. In reply, I am instructed to say that the absence of our members and the absence of our business engagements on such short notice prevents their meeting the board on Monday next. I am, however, instructed to say that the council are strongly in favor of the double tracking of Yonge-street, and would therefore be glad to comply with the request for prevention mentioned in the extract quoted."

Mayor Geary's Letter. Mayor Geary's letter is as follows: City Hall, May 1, 1912. A. J. Brown, Mayor, North Toronto, Ont. Dear Mr. Mayor: I am glad to find that you had been unable to meet with us to discuss your proposed agreement with the Metropolitan Railway Company, and very sorry that your letter that apparently you felt that with the views entertained by your council it would be impossible to meet with us at this conference.

Please do not think that we are attempting to dilate, or even to suggest too forcibly in this matter, that is not the case. We are only anxious, as we have shown ourselves in other railway matters, to reach a settlement as quickly as possible.

HORSE SHOW NOTES. Did you get a line on those stink hats at the Horse Show last night? They were good ones by the good ones by the horse and the novel sweep of the crown, and the best of them were made by Henry Heath of London, for whom I have 10 Yonge-st., Toronto, is sole Canadian agent. Henry Heath is His Majesty's personal hatter.

BOY WAS KILLED AT BROCK AVE. Struck by Train While Walking Along Tracks — Body of Lad Has Not Been Identified.

An unidentified boy, aged about 12 years, was instantly killed on the Brock-avenue level crossing at 9 o'clock last night. He was struck by an engine and a long string of freight cars ran over him. The remains were removed to the morgue, and up to an early hour this morning there had been no identification.

MR. GRAHAM'S FUNERAL. Titanic Victim Will Be Buried at Harbortown Tomorrow.

The body of George Graham, the Titanic Company buyer, who lost his life in the Titanic wreck, left Montreal on the G.T.R. train at 10.30 last night and will arrive at Toronto at 7 o'clock this morning. It will be shipped from here again to-morrow morning to Harbortown, Ont., where interment will take place to-morrow afternoon.

FELL 3 STOREYS AND MAY DIE David Nicholson Fractured His Skull and is Lying at St. Michael's Hospital.

Falling from a third storey window in the Princess Hotel, 252 East King-st., about midnight, David Nicholson, a Scotchman, aged 25 years, was probably fatally injured. He was taken to St. Michael's Hospital in an unconscious condition, and it is thought that his skull is fractured. His wrist was broken and face badly lacerated.

Government Buys Painting. ST. THOMAS, Ont., May 2.—(Special.)—To-day the Dominion Government purchased a magnificent oil painting for the National Art Gallery, Ottawa, from W. St. Thomas Smith, A.R.C.A., of St. Thomas, and also placed an order for a second marine scene.

TWO LINEMEN BADLY HURT. KINGSTON, May 2.—(Special.)—Falling from a telephone pole while at work about 1.30 p.m., two linemen, Chas. Hay, Kingston, and Peter Currier, Toronto, received terrible injuries. Currier will likely recover, but grave doubts are entertained for Hay.

AN OMINOUS SWELLING.

JACK CANUCK: I don't like it.

BOY A MENACE STILL AT LARGE

Lad Who Cannot Be Placed in an Institution Caused Permanent Injury to Baby Sister.

So filthy that even the police there whose hands he has been continually passing for years, failed to recognize him, Bob, the 11-year-old impulsive boy, who was committed to jail by Commissioner Starr of the children's court because he had no other place to put him, was arrested in the Eaton store yesterday afternoon. The case of Bob is becoming worse, and he is becoming a more dangerous menace day by day.

Five Dollars for Mrs. Lillian Murphy

Editor World: Please find enclosed \$5, which I wish you to hand to Mrs. Lillian Murphy, sentenced to two weeks' hard labor yesterday by Judge Winchester for picking up a purse in a railway station where she was scrubbing—her first offence. She seems to be the sole support of four fatherless children and pled for mercy for her children's sake.

Children are our best asset in Canada, and this sentence shows that even a judge cannot always discriminate in cases that appeal powerfully to the public sentiment. R. R. Gamey.

FINE HOTEL FOR THE C.N.R.

Railway Company Will Erect Large Structure on Similar Lines to New Vanderbilt.

Toronto is to have a new hotel in the centre of the city that will exceed in size the King Edward and the Prince George. Although an official announcement has not yet been made, it was learned yesterday that the Canadian Northern Railway Co. is contemplating the erection of what will be Toronto's largest hotel. It will be named the Canadian Northern Hotel.

TO AMALGAMATE MISSIONARY WORK

Presbyterian General Assembly Will Be Called Upon to Decide as to Church Federation at Edmonton — Cut of \$50,000 Made in This Year's Foreign Mission Estimates.

Rev. Dr. Somerville is issuing the call for the Presbyterian General Assembly. It will meet at Edmonton on Wednesday evening, June 5, under the moderatorship of Rev. R. P. McKay, D.D., Toronto.

The financial reports will show a substantial increase in the gifts for the assembly's funds, but it is doubtful if the actual million dollars aimed at will be quite reached.

Charlotte Walker an Athlete. Fond of athletics, Miss Charlotte Walker, who started in the first of the Lonesome Pine, carries with her a rowing machine, which she uses daily in her gymnastic exercises. Since ever she left college, Miss Walker has been fond of aquatic sports, and she has acquired skill as an "oarsman" punting on the Thames at London, Ont., where she lived for several summers.

MINERS' STRIKE STILL HANGS IN BALANCE

Rejection of Tentative Agreement by Full Committee of Hard Coal Workers Followed by Decision to Confer Again With Operators — Emergency Convention.

NEW YORK, May 2.—(Can Press.)—Calling of a miners' convention to approve or disapprove of the sub-committee's recommendation for settlement of the wage and other differences between the miners and operators in the anthracite coal fields was practically decided upon by the committee of miners' representatives and members of the boards of the three anthracite districts affected at a session here to-night.

Another joint conference with the operators will first be sought by the miners, in all probability, to see if further concessions can be obtained. It was said, after to-night's session, that the miners' committee adjourned until to-morrow, when a decision will be reached, it was announced, whether a further conference with the operators shall be sought or an immediate call be issued for a miners' convention.

On Four Days Notice. If a convention were called as it seems certain it will be, William Green, who represented President White of the United Mine Workers, in to-day's conference, said to-night that it would be held in either Scranton or Wilkes-Barre, and would be comprised of 400 delegates from the three districts. Such a convention could be convened within four days after notice of it was given, Mr. Green declared. Mr. Green expressed the opinion that if a convention were held at once, before another conference with the operators, it would uphold the action of the miners' full committee and vote disapproval of the sub-committee agreement.

CLOSE SEASON FOR WHITEFISH

Edwin Finley, head of Ontario's game and fishery department, is endeavoring to have the close season for whitefish in Lakes Huron and St. Clair restored. For the past two years Mr. Finley has condemned the abolition of the close season, and is now in communication with the federal department of fisheries at Ottawa to have the old order again enforced.

GYMNASTIC EXHIBITIONS

To show what may be accomplished by systematic gymnastic exercises, the girls of the Somers School of Physical Training will give an exhibition in the Foresters' Hall, 22 College-st., to-night. Great preparation has been made for this event and an excellent entertainment is assured. The admission is 25 cents, and for reserved seats 50 c. On Tuesday, May 7, the young ladies of the school will give a similar exhibition.

HEROES A GOD'S BLESSING

Jaff: Oude morin, Elias. Elias: Good morning, Senator. Jaff: When your father died, that name, did he have ye in mind as a coal merchant, Elias. Elias: I do not know, but I always print it in full. Jaff: It's worth a hunder' o' coal in a ton, Elias. Elias: Yes, I've heard you say that going to the mines was an honest way of getting on. Jaff: Nane o' yer bit jokes, Elias; but follows' th' example o' yer father ye should cawd th' two boys Moses and Aaron; an' if that bit body o' Cawthra has been cawd Cawthra he's been a th' better o' it. An' speak o' Cawthra, that do ye think o' meaght th' Imperial w' yin o' the banks o' Montreal? It's a gran' thing this megin beezness for th' banks and gran' for th' directors an' officers that are in it. It's gran' for th' public—th' bank's so meaght th' biggers. Elias: But what would Mr. Wilkie say? Jaff: I'd pit things intill his head that'd mak' him willin'. Ye ken I'm preachin' in th' Glob' comin' week, an' th' French an' th' English, avreen Montreal, an' Toronto, avreen Ontario and Quebec, and we could testify our acceptance o' this feelin' o' gude-will by sellin' out th' Imperial to yin o' th' French banks in Montreal. Elias: But what would the people say? Jaff: I'm speakin' o' th' people, but what thers' intill' for they who promote th' deal. Cawthra his cam' in could pick up avreen haw'n a lot o' shares an' options that'd be profitable. That's a fat they did w' th' Traders. Elias: But what would the shareholders say? Jaff: Th' Glob' 'd show them what a gran' thing it'd be to be part o' a big big bank an' a big avreen board in Toronto. Ye ken Montreal's th' centre o' Canada. Sir Wilfred comes from Montreal. So does Sir James Mackenzie. Th' Glob' for free trade in politics but combinations in banks. Yin man straddles on aw things to be successful, Elias. 'Bolish th' Bar and up w' Pari-Mutuels, Free Trade and Mer-gers. Rightnessness an' Gie the Pair Electric Company a Chance. Mer-gers are a God's Blessin' gies ye know how to tak' them! Elias: Here comes Cawthra. Jaff: Ye'll have the coal up till my house th' day, Elias? Elias: Yes, Senator. Cawthra: What are you kids framing up? Jaff: Did ye ken, Cawthra, that Maister Wilkie was born in Quebec and could play th' Woods, Cawthra? Cawthra: I can't say. Jaff: Here he comes w' th' young general manager on King Street. Elias: Good morning, gentlemen. Let's go inside.

Hon. Mr. Justice Lennox

Mr. Haughton Lennox, K.C., ex-M.P. for South Simcoe, was sworn in by Sir John Alexander Boyd, president of the high court of justice, yesterday morning, as a judge of the supreme court of judicature and a justice of the high court of justice of Ontario, and took a seat in the court of appeal.

HON. MR. JUSTICE LENNOX

South Simcoe in the Conservative interest in 1896 and was defeated by the late Dalton McCarthy. He was elected to the house for that riding at the general elections of 1900 and re-elected in 1904, 1908 and 1911.

As an opposition member, Mr. Lennox rose to prominence thru his great legal ability, his untiring industry and his genius for mastering the details of vast and complicated transactions. His labors in the investigation of the cost of construction of the National Trans-

continental Railway will long be remembered. He also rendered great service to the country by his mastery of details of the telephone enquiry and the Farmers' Bank.

Mr. Lennox's constant efforts on behalf of railway employes are so well known as hardly to require mention. The legislation he introduced a few years ago to prevent railway companies from contracting themselves out of liability to their employes was a very notable piece of legislation, and he was the only lawyer in the house who had the courage to declare that the federal house had jurisdiction to pass such an act, and this he afterwards vindicated by carrying the act to the supreme court and later to the privy council in England, where it was declared valid and entirely within the competence of the Parliament of Canada. It is therefore a list of cases where Mr. Lennox has fought effectively for the railway employes.

His great legal ability has long been recognized by the house and the country and universal commendation has followed his elevation to the bench.

In the present house Mr. Lennox was chairman of the select standing committee on railways, canals and telegraph lines, and presided always with marked fairness and ability. As a government member he supported the important measures brought down by the government, including the bill for the improvement of highways.

While supporting the last named measure, however, Mr. Lennox distinctly regretted that the principle of a population basis should be adopted, declaring that in his opinion provincial boundaries should be disregarded and that, as representing all Canada, the administration should, as in the case of railway subsidies and other public works, have regard only to the needs of the people and the general advantage of Canada.

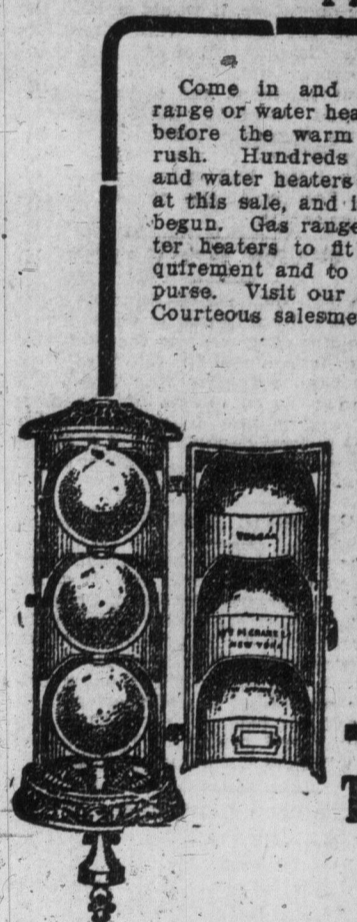

Of Mr. Borden's supporters, Mr. Lennox was one of the most pronounced against reciprocity, taking the ground that it was vicious in itself financially and nationally.

ISMAY SAILS FOR ENGLAND.

NEW YORK, May 2.—(Can. Press)—J. Bruce Ismay, president of the International Mercantile Marine, sailed for his home in England to-day on the White Star liner Adriatic. Mr. Ismay said that he was worn out.

He boarded the Adriatic a few minutes before she sailed at 12 o'clock, and went at once to his stateroom. To the press he said: "I have no ill-feeling against the American public and think the senate investigation was thorough. I am feeling very tired and wish to retire."

Man Mastered By His Business

When a man cannot forget his business when he lays his head on the pillow at night, it is time to consider the condition of his nervous system. Otherwise his business will wreck his future by undermining his health. For a time he may keep going on stimulants, but if health is to be restored and old-time vigor brought back the nerve cells must be revitalized by such treatment as Dr. Chase's Nerve Food.

Cayuga Indians To Press Claims

Payment of \$2,300 a Year to Tribe Ceased in 1812, They Point Out.

BRANTFORD, May 2.—(Special)—Under the treaty of peace in 1783 between the British and the United States Government, the interests of the Cayuga Indians were marked for special protection. Two-thirds of this tribe left New York State when hostilities began in 1812 and threw in their lot with the British. Up to that time the Cayuga Indians had been receiving \$2,300 a year from the United States authorities. The amount since they removed to Brantford has never been paid, and as the result of much agitation, the matter will now go on before the pecuniary claims convention in connection with the Hague Tribunal. Sir Charles Fitzpatrick will present the case.

THEATRE PARTY.

The officers and non-commissioned officers of "F" Company, 12th Regiment York Rangers, with the permission of Lieut.-Col. Allen, commanding 12th Regiment York Rangers, held a theatre party at Shea's Theatre on Tuesday night, April 30. After the show they adjourned to Williams' Cafe on Yonge-street and enjoyed a supper, after which speeches and reminiscences were

induced in until about 12.30 a.m., when, after singing the national anthem, they dispersed.

Upon looking into the orchestra stalls the line of nattily uniformed men made a pleasing sight for the eye, each one thoroughly enjoying the performance evidently by the generous applause meted out to the actors of the different turns. This is a good way of keeping the men together, and also a new departure, is one which will no doubt, bear good fruit. It brings out that "bon camaraderie" between officers and non-commissioned officers, which makes for the building up of a first-class company, and more than that, brings out all that is good in each, and gives new life to that most essential of all things in a company and regiment, "esprit de corps."

The men are sure of one thing—that Captain S. E. Curran and his fellow-officers have at any rate the good-will and esteem of the non-commissioned officers of his company.

FRIDAY MORNING, MAY 3, 1912.

AN IMPOTENT BODY. Our city council, in its helpless and apparently hopeless inactivity, has brought about a civic breakdown.

The question of transportation is urgent and pressing in the extreme. Corporation Council should be equipped with thorough and expert information.

The council meets once a fortnight; it transacts little business, but indulges in much debate, sometimes disguised by personalities.

AS TO MEXICO. Childlike is the confidence of The Toronto Star in the statement of Secretary of State Knox that the United States is not to invade Mexico.

YONGE STREET NORTH IN JEOPARDY. The more the secret deal between the Metropolitan Railway and the Town of North Toronto is looked into, the more odious it appears from the public standpoint.

WANT TUNNEL BONDS GUARANTEED. OTTAWA, May 2.—A delegation of a hundred from the vicinity of Montreal this afternoon asked the government to guarantee for 50 years 4 1/2 per cent bonds of the Montreal Tunnel Company.

miles north of the city limits to a freight road could have been avoided. It is not too late to head off a deal which for all time would act as a break on the development of the city to the north.

STEAD'S LAST MESSAGE. In an article in the current number of The American Review of Reviews, which comes now like a voice from the dead, W. T. Stead, who perished in the wreck of the Titanic, gives his judgment on the coal miners' strike in Great Britain.

THE UNITED STATES HOLD THE KEY. The western provinces say they wish the markets of the United States for their farm products.

POOR ECONOMY. Never did the board of control appear in a more ridiculous light than when their revision of the estimates was under consideration yesterday.

THAT REMAINS TO BE SEEN. Editor World: Your timely and well-pointed article in yesterday's World on the proposed bank merger has only one weakness. It is the words: "And the World does not think it will, referring to the sanction of the merger at Ottawa. You might better think it will than it will not be sanctioned.

ONE HEN LAID 282 EGGS IN A YEAR. World's Record in Egg Production Smashed by the Champion Pullets at the O.A.C.—Annual Report of Department of Agriculture Shows Prosperity of Province.

Everybody will have to take off their hats to the hens, at the Ontario Agricultural College. That these classy fowls have got the whole wide world beaten in the matter of egg production is revealed in the report of the minister of agriculture for the year ending Oct. 31, 1911.

"It is a well-known fact," says the report, "that 300 eggs in a year from one hen is a splendid record and seldom attained. Yet of 33 barred rock pullets of the bred-to-lay type, 13, or nearly 25 per cent, surpassed this high mark. The top record was 322, the showing of the first half dozen being 282, 286, 286, 282, 243, an average of 259.5 eggs in a year.

This record, it is understood, has not been surpassed anywhere on the continent, or for that matter, in the world. For the whole 33 pullets the average for the year was 174, a total of 5704 eggs.

"An experiment was carried on with a view to a comparison between 13 bred-to-lay pullets and 23 exhibition pullets. The bred-to-lay pullets laid 1022 eggs more than the exhibition variety and at the same time consumed appreciably less food. On the other hand, the exhibition type were larger, weighing six to eight pounds each in comparison to five to six for the bred-to-lay variety.

Cost of Feeding. With regard to cost of feeding, the average cost per dozen in the winter months to be 29.78 cents, in the summer 3 cents, an average of 12.48 for the 11 months. The average cost of feeding each hen in winter was 11.74 cents, in summer 10.03 cents, averaging an average of 10.90 for the 11 months.

"Under the direction of this branch the inspection of industrial establishments is carried on, and the following is a report of the work done during the fiscal year ended Oct. 31.

"There were 8223 inspections made during the past year in 458 cities, towns and villages. Of these, 287 were made exclusively in connection with enforcing the Stationary Engineers Act in places that did not come under the Factories Act, and the requirements of the Stationary Engineers Act were also pointed out by the inspectors to every steam user in the course of their regular inspections.

"In factories and shops inspected there were 220,772 employees. Four thousand one hundred and fifteen recommendations were made by the inspectors, dealing with the following subjects: Boiler inspection, child labor, cleanliness, elevators, fire escapes, mode of wearing the hair, guards for machinery, hours of labor, sanitation, sexis (for females), ventilation, miscellaneous. A large proportion of these recommendations have been complied with.

When the People Refuse to Pay

EVER since King John signed the Magna Charta the people have been discovering new rights and asserting them.

Long ago the people learned how to get what they wanted—by the simple expedient of "refusing to pay."

In the days when kings played "war" with one another the people could always put a sudden end to the fun by "refusing to pay."

To-day, when men play the great game of business, they have to depend on the people, even as did those kings of long ago. When the people stop payment, the game ends.

Of high importance is "the right to know" as applied to modern commerce. The people have found they want a "reason why" before they buy.

We awoke to this fact but a short while ago, when a few manufacturers began to tell us some of the things they thought we should know about their goods. They were the pioneer advertisers.

It's the same with well-nigh everything we buy—food, clothes, furniture, pianos, automobiles. We will have the facts about these things—or we will refuse to pay.

We, the public, have created a new world force. We call it "Advertising."

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or through the Secretary of the Canadian Press Association, Room 505 Lumden Bldg., Toronto. Enquiry involves no obligation on your part—so write, if interested.

A Good Deal?

Discussing briefly the situation last night Solicitor Gibson said: "No other course is open to me in the matter but to carry out the instructions of council and try to effect the best deal possible with the company. The concession of ten tickets I regarded as a great one on the part of the company." "The Metropolitan Railway is here," said the solicitor, "and the situation has been created for us. I am free to admit that if the council want to deal with the company it looks like a good deal for us, but as a citizen I am willing to be shown some better plan. Let us have it, whatever it is." He further stated that there were great difficulties yet in the way of an agreement which might not be overcome.

Low Rental.

A feature which has been kept in the background and which it is said will be instrumental in blocking the deal, is the low rental the company propose to give. The following figures show what the City of Toronto loses on having a rental price of \$800 per mile. The total cost to the city of repairs, and construction work during 1911 was \$184,000. City Treasurer Coody says he collects in rentals about \$90,000 per annum, making a net loss of \$94,000. Corporations are not usually the losers when they are transacting business with a municipality. It is said that the rental per mile contemplated in the agreement now in negotiation in North Toronto is \$600 a mile.

FAVORABLE CROP NEWS DEPRESSED WHEAT MARKET

Fit Sentiment Reflected More Favorable Outlook Inspired by Crop Report — Prices Sagged Under Heavy Liquidation.

CHICAGO, May 2.—Despite a private forecast that the government report would suggest a winter crop of 72,000,000 bushels less than a year ago, the wheat market today sagged because of a lack of buyers. Closing prices ranged from last night's level to 1/2 cent below.

Something of a selling flurry started at the outset in the wheat pit owing to an official statement by the Kansas crop report amounting to 20,000,000 bushels, notwithstanding recent advice that damage had been severe. In this connection notice was taken of signs that the Texas yield might be slightly increased to 1 1/2 cent, and provisions strung out from the same as 24 hours before to 1/2 cent decline.

There was a sharp rally in wheat when an authoritative estimate put the winter crop at 58,000,000 bushels, but the market gradually slipped back after it became clear that support depended wholly on professional traders, who had been committed to higher prices.

Corn Prices Weakened. Corn ruled a little firmer early on account of rain in Illinois, but weakened when country sales from Iowa increased. Besides eastern demand was poor and wheat was weak.

This beautiful new residential subdivision goes on the market to-morrow as one of the best Real Estate opportunities of the year

**WHAT BETTER COULD YOU BUY?
SUBDIVISION TO BE SOLD IN 20 FEET LOTS**

Danforth-Woodbine Park is not an outlying district—it is well within the city limits—more centrally located than any other subdivision being offered, with the possible exception of one.

Danforth-Woodbine Park is situated between two civic car lines—three minutes' walk from Gerrard Street line, which is now in course of construction—will front right on the Danforth Avenue car line when this line is completed. It is about three miles from the corner of King and Yonge Streets—no suburban residential section could be more conveniently located.

Danforth-Woodbine Park is a home district—and a most desirable one for natural beauty and situation; it will be reasonably restricted—all city conveniences will be available, such as sewers, granolithic sidewalks, paved streets, electric light and gas.

**PRICES REASONABLE--\$15.00 TO \$30.00 A FOOT
EASY TERMS--\$50.00 AT TIME OF PURCHASE AND \$5.00 A MONTH**

ENLARGING CITY REGISTRY OFFICE

By Construction of Sub Flat—
Increase in Real Estate
Business Causing
Overcrowding.

The best evidence of present real estate activity is to watch the procession of lawyers' clerks going in and out of the county registry office on East Richmond-st., and also at the city registry office on West Richmond-st. The city registry office, for which a new block was ordered to be secured by the council the other night, is overcrowded with business, and until the city can arrange for a new site, the two registrars, Peter Ryan and R. H. Bowes, are forced to have recourse to the erection of a sub-flat, about 25 feet square, for the accommodation of seven extra typists. The men are working night and day so as to get it finished in the shortest possible time.

Late Building Season Affects Permits' Total

More permits were taken out last month than in April, 1911, but the total value fell off from \$3,272,818 to \$2,842,995. The number of buildings for which permits were granted is 1018, and in the same month last year 912.

The total amount for the first four months of 1912 is \$6,500,000 compared to \$6,900,000 last year. The lateness of the season and the absence of any large permits during March and April this year accounts for the drop. Another reason is that the city architect's office is somewhat behind in its work, due to being shorthanded.

Out in the suburbs surrounding the city, it is estimated that there are nearly twice as many buildings going up as last year. All thru the outskirts there is a wonderful show of activity. Some of these suburbs are becoming as thickly settled as the old parts of Toronto, altho the settlement is scattered in patches. Toronto's vacant building land is diminishing rapidly, and it will take but a very few years to build it all up, unless more is taken in now.

Short Lull in Enquiry for Houses to Rent

"It's a queer thing," said a big house agent yesterday, "but I've only had a half dozen enquiries to-day for houses to rent. For the last six weeks we have had some days two score people in here looking for houses."

Some of the other agents said the same, but they noticed the falling off on Tuesday and Wednesday, and said that the enquiries were now coming in thicker than ever.

The explanation of the temporary lull is that most people who wanted to move on the regulation May Day moving period, hunted up their new house before this week. Resumption of the demand will start in at once, for there are plenty of people who must have homes.

"But," concluded the first agent, "I'm not particularly sorry, because we have only two houses on our rental list now, and we'll have a chance to gather up a few more and get our lists and records into shape."

Moving Men Busy Till Wee Hours of Morn

"This is great weather for moving. I certainly hope it won't rain for a week," remarked a moving van man yesterday. "There are thousands of people whose furniture must be moved, and while covered vans protect it in transit, there is danger of it being harmed while being taken into the new house. And I notice that the furniture this year is of higher average quality than in other years. People seem to have lots more money now if furniture is any guide."

It is difficult to secure a reasonably correct estimate of the number of families that are moving this week. Some experts place it at 3000, but in the absence of records, figures are but guesses. There were plenty of moving vans on the streets last night at 1 a.m., returning from late deliveries.

ENQUIRY STARTED BY LORD MERSEY

Public Show Unexpected Lack
of Interest—Series of
Twenty-Six Answers to
Be Prepared.

LONDON, May 2.—(Can. Press).—Lord Mersey, in his capacity as wreck commissioner, and five assessors who will advise him in his questioning on the technicalities of nautical affairs, held this morning the first session of the board of trade enquiry into the loss of the White Star steamer Titanic. The spacious armory of the Scottish Rifles was chosen with a view to seating an expected crush of auditors, but when the enquiry opened not more than one hundred spectators were present, and the majority of these were women. From the series of twenty-six questions which the attorney-general announced would be taken up, it became

evident that the enquiry would cover practically the same ground as the investigation of the American senate, but would be conducted more in accordance with the procedure of a court of law and deal definitely with stated cases. Eight questions, Sir Rufus Daniel Isaacs said, would relate to happenings before the casualty; six to warnings given the Titanic and the resulting precautions taken; ten to the casualty itself and consequent events, one to the equipment and construction of the vessel, and the last to the rules of the Merchant Shipping Act.

To Cover Old Ground. The only reference to the American investigation was Sir Rufus' announcement that owing to the detention of many witnesses for the senatorial enquiry in the United States, the testimony would not be presented in a logical order. The seamen who arrived from New York on the steamer Loyalist were called first as witnesses to the construction and equipment of the Titanic. Several lawyers, representing interested parties, requested permission to participate in the proceedings. Lord Mersey recognized Thomas Scanlan, member of parliament for the north division of Sligo, who appeared for the Seamen's and Firemen's Unions, and an attorney for the Merchants' Service Guild, and took under consideration the application for representation of the Seafarers' Union, the Ship Constructors' Association and the Merchant Officers' Union.

An adjournment was then taken.

OUTLINES PLAN TO REORGANIZE BLACK LAKE CO.

The committee appointed to outline a plan for a reorganization of the Black Lake Asbestos Co. is giving attention to a plan which will give additional working capital by having the bondholders pay 10 per cent on their holdings, the preferred stockholders 5 per cent on their holdings, and the common stockholders 2 per cent. The plan seems to have met with the approval of a good many stockholders, most of whom are also bondholders. In connection with plan, it is announced that a majority of the bondholders have signed the agreement, which therefore ensures the carrying out of the plan.

The mills of the company have been in operation since the beginning of April, and it is understood that so far this year business has shown a good deal of improvement as compared with 1911.

BANK RATE UNCHANGED.

LONDON, May 2.—The minimum discount rate of the Bank of England is unchanged at 3-1-2 per cent. The proportion of the bank reserve to liabilities is now 45.90 against 45.40 per cent. last week.

Favorable Developments in Porcupine--Mining Market Dull

PUBLIC INTEREST LIGHT STOCKS MARKING TIME

Porcupine Market in Quiet Mood, With Few Changes of Any Consequence—Underlying Trend Reflects Responsible Sentiment—Hollinger a Firm Spot.

World Office, Thursday Evening, May 2. The closing price range on the Porcupine stocks to-day was so little removed from that current last night that on that basis alone the market might be characterized as absolutely featureless. In regard to the transactions which were put thru, it is also to be said that these were practically without interest. Bids on some of the issues prominent in the trading were raised at certain periods, and this gave an appearance of firmness to the list, which sufficed to make the market of a more cheerful nature; nevertheless, there was little real change in the status of securities.

Trading was of a quiet nature, no great interest being taken in the recorded sales. A consistent demand for Hollinger was again noted in this exchange with the buying reputed to be for Montreal account. Pretty much all the speculative activity has been taken out of the stock during the last month, and what little action is left seems to be more of an investment quality. Bids at the close to-day were 10 points above last night. In the cheaper issues an upturn in Pearl Lake was the real feature of the session. Negotiations are at present under way for the financing of the company, and a report was current on the street that these were nearing a successful conclusion. The shares at the close stood 5 points up from last night at 17 1/2 bid. The general list did not accomplish anything particular and closed about unchanged. Dome Extension sold between 50 and 50 1/2. Crown Chartered closed at 2 1/2 bid; Preston East, Dome was slightly firmer at 7. Elsewhere, there was nothing of interest in the transactions, and the market closed with no speculative enthusiasm in evidence. Cobalts were dull and in the main unchanged from the previous day.

C. P. R. at New High Record---N. Y. Stock Market Firmer

MARKET SHOWS A FIRM ONE

Rio and Sao Paulo Hold Their Advance Well — Industrial Stocks Improve — Broad Speculation Under Way.

While the extreme activity which marked the Toronto Stock Exchange of Wednesday was not in evidence again yesterday, the market nevertheless evidenced a much broader speculative movement. This was apparent in the fact that trading was distributed much more evenly throughout the list and because of the evident firmness in values of the usual favorites which were ignored during the boom in Rio and Sao Paulo. Several substantial movements were under way yesterday, and these sufficed to atone for the falling off in activity and strength in the erstwhile leaders.

A New Record Pinned Up By C. P. R. Stock

London was buying C.P.R. yesterday and the sudden revival in the speculative enthusiasm in the security resulted in another record-breaking move, the shares advancing sharply to a point eclipsing their former high level. The movement was founded on anticipations of another sensational showing in earnings, which were expected to, at least, duplicate those of last week.

Brokers Will See New Paper Mill At Spanish River

The new paper mill at the plant of the Spanish River Pulp and Paper Mills, Ltd., at Espanola, Ont., is now completed, and it is announced, that the new mill will be put into operation during the next few days. The mill is furnished with four Fourdrinier paper machines of the latest type, each capable of making 150 tons of paper a day.

DULL TRADING IN WALL STREET

New York Market Generally Firm, But Decidedly Dull—Public Did Not Participate in Dealings.

NEW YORK, May 2.—The day in the stock market was dull and in most respects uninteresting. The undercurrent was generally firm and in places decidedly strong but speculative interest was light, with an utter absence of participation by the public. Active dealings were again restricted to a handful of speculative favorites, and naturally including Reading and U. S. Steel, with a revival of the recent extraordinary activity in American T. P., which once more distinguished itself by selling at a price higher than before.
